

School Kiddies Have Gala Day The Canadian Athletes More Than Hold Their Own Annual Games at Exhibition

Big Crowd of Children and Parents View Annual Sports - Many Records Broken - The Results.

Never in the history of the public school games of this city has greater success rewarded the efforts of the officials than that which attended the events in Exhibition Park on Saturday. It was the one day of the year for the school children, the occasion which they have been looking forward to ever since the spring weather arrived. The extensive program was in the hands of capable men, and the weather could not have been more auspicious.

Before 8 o'clock in the morning an incessant stream of pupils ranging in all sizes started to pour thru the gates of the park. Some had lunch boxes, and in fact, every conceivable bag or paper held something to eat. Although giving quite a margin at noon, it must not be supposed that they had any waikover. Every event was keenly contested, but the conduct of the boys was very sportsmanlike. The principals and assistants sitting in the office, received the cards of the victorious ones and checked their names for the prizes, which will be given out in Lansdowne-street school on Monday.

There were several record breakers who took part in the program, and even the girls outstepped some of last year's winners. Raymond Weathers, year's winner, was the sensation of the morning, making four wins. E. W. Brady of Givins smashed the record in the running broad jump, doing 18 ft. 2 1/2 in. George Brierly quashed another statistic when he made 18 ft. 1 1/2 in. in the open broad jump. Many of the schools that were behind at noon relied on the afternoon races, and some of them succeeded in cutting down big leads. In the middle a number of the winners who allped home without turning in their cards and the scorers were unable to get their records.

### Don Rowing Club Men in Fine Form

The Don Rowing Club is now in fair shape and all the members are rounding into form. O'Connor and Clifford will row senior doubles and they look like one of the best that have left the boat-house. Bob O'Neill is working well in the single. They will also have several Junior doubles. The fours and eights have not been asked to do much as yet, but by the end of the week they will be hard at it. Their new shells are working to perfection and under the careful supervision of Coach Ed. Shea, both oarsmen and boats will be in tip-top fettle when they hold their club regatta.

At Chicago (Am.)—Chicago played an uphill game Saturday, overtook Philadelphia's early lead and won by 6 to 2. The game was exciting from start to finish. Bender was a little wild at times, while Benz and Morridge pitched good ball.  
At St. Louis—Manager Griffith presented a new line-up and Washington won from St. Louis by 8 to 3 by pitching hits with errors.  
At Detroit—Detroit bunched six hits in the fifth and defeated New York 9 to 3. Calvein and Hoff were driven from the mound in this inning. Crawford's batting featured.  
At Cleveland—Boston made its first appearance of the season and was beaten by 9 to 2. Cleveland hit three Boston

At Philadelphia (Nat.)—Pittsburg played a fine uphill game Saturday and won by a score of 7 to 0 by mixing their hits with the battery and holding misplays of the home team. Byrne made two doubles and a single and led both teams at the bat.  
At New York—New York easily defeated St. Louis in the second game of the series by a score of 13 to 4. Steele was knocked out of the box in the second inning, and Harmon was hit harder than his predecessor. Mathewson was also hit hard, but was strong in the pinches and received wonderful support.  
At Brooklyn—Cincinnati began its eastern invasion by winning from Brooklyn, 7 to 3. Most of the damage was done in the third inning, when four hits, four passes, three steals and a wild pitch, mostly by Ragon, sent six Redlegs across the plate. Barger finished the game and pitched well.  
At Boston—Chicago backed Dickson and Tyler from the box and won from Boston by 7 to 1. The locals took kindly to Reulbach and he too was early relegated to the bench. Zimmerman's hitting featured.

### THE MONEY YOU SPEND

Here is the experience of a young married woman who for the past two years has kept an accurate account of the money she has spent irrespective of household expenditures. The result is most surprising to her as well as informing, and may be interesting to others.

We all realize in a vague sort of way that it is not our larger expenditures so much as the aggregate smaller ones that take the most money. This generally means little unless we have figures to bring it home to us. For the sake of economy we may go without a new suit or hat, or some desired thing which costs a considerable sum at the moment, and in a comparatively short time spend the entire amount on trifles that are not necessary and that we could more easily have gone without than the coat or hat.

There are many people who would not even dream of subscribing to six or eight different standard periodicals for the year because of the expense, and yet before each month is out they have at one time or another bought every one of them at the full retail price.

It was reflections of this kind which prompted this particular woman to find out just what poor economy she might be guilty of in the spending of money, so she began by recording in a note-book all her expenditures. This soon led to a very tedious proceeding and since she found herself entering such varied items as carfare, church money, candy, wedding presents, evening gowns, matinee tickets and umbrellas, all in one jumble, the result was simply the total amount of money spent.

#### Grouping the Various Expenses.

Determined that her accounts should mean something more to her than a mere reminder of extravagance she purchased an ordinary large size school composition book and ruling five columns on each page wrote these headings at the top: Clothes; Personal; Sundries; Car-fare and Cab-hire; Charity.

### The Nursery

We seldom reap the rewards of child-training until after the trained one has ceased to be a child. Usually during the years when the children are small the only thanks a mother gets is the joy of service and more work; but the value of the time and labor spent during these first years is realized only when the person reared as a result of their work in the fully developed character of the grown-up boy and girl. Young ones are not to be must go out alone to fight their way thru life, but they have been prepared by the early formation of good habits from the correct training of their instincts. They have begun right, and the law of continuity will keep them right.

#### Conservation Leaders to Speak.

PETERBORO, June 1.—(Special.)—Hon. Clifford Sifton and Rev. Dean Fernow, Toronto, will address a public meeting in Peterboro on Friday evening, June 14, under the auspices of the Central Ontario Conservation Association.

#### Queen Wilhelmina at Paris.

PARIS, June 1.—(Can. Press.)—Queen Wilhelmina of the Netherlands, and the prince consort arrived here this afternoon for a three-days' official visit. They were greeted by a great crowd at the railroad station and were cheered as they drove thru lines of troops to the foreign office, where they will stay.

HE SAID—"Few of us realize how much salt we eat. The fact that we put salt on all meats and vegetables, in soups, pastries, soups and sauces—butter and cheese—absolutely pure, is an instance of using an absolutely pure substance."

SHE SAID—"Well, we are using WINDSOR TABLE SALT, and no one could say there was any better salt in the whole world than my old standby."

### WINDSOR TABLE SALT

appeared everything not included in the regular household expenses—cost of shoes, tips, express charges, trunks, etc.; and in the fourth and fifth columns respectively, each day's car-fare and cab-hire, and the money given to beggars, to the church and general charities.

A space was left at the bottom of each page for totals and these were carried forward to the top of the columns on the next page, so that she could at any time tell at a glance just how much money she had spent to date. At the close of the year the totals not only greatly astonished her, but provided her with information which helped her to spend her money to better advantage in the future.

She was a woman of generous impulses as regards charity, and she was not extravagantly inclined to use cabs when a street car would answer the purpose, and yet to her amazement and chagrin she discovered that she had given to the poor about one-sixth of what it had cost her for car-fare and cab-hire! The total amount spent for clothes was most reasonable considering the appearance she was called upon to make, but here again she was surprised since the aggregate items showed plainly where she could have purchased to better advantage.

The Tell-tale "Personal" Account. But it was the personal column that interested her most. She had always thought that outside of her clothes she was provided with very little pocket-money, a neighbor had once confided to her that her husband made her an allowance of so much per year—just pocket-money for candy, matinee tickets and manures. The figures seemed to our friend most generous and she had felt a bit abused to think she had so much less in fact, had it been offered to her then she would have accepted half the amount and been content. But her first year's accurate personal account showed that she had spent for her own indulgence nearly half again as much as the yearly sum she had so greatly envied her neighbor.

The total of the sundries column revealed the fact that a considerable hole had been made in her husband's bank account by her own indulgence which she had imagined could make no impression on it at all. The next year she kept her accounts as before, but with a great deal more care and thought, the gratifying result being that she paid out considerably less than she had a great deal more to show for it. ### YOUNG MEN WERE ORDAINED AT CATHEDRAL

Rev. Patterson Smyth Preached to Capacity Audience at St. Alban's, and Gave Sound Advice to New Deacons and Priests, as Well as to the Congregations.

All records were broken at St. Alban's Cathedral Sunday morning, when 26 young men were ordained to the Anglican ministry, 14 as deacons and 12 as priests. The ceremony was performed by His Lordship the Bishop of Toronto, and assisting him were the Rev. Patterson Smyth of St. George's, Montreal; Canon Macnab, Archdeacon of the Diocese, and the Rev. E. H. Taylor. The church was filled to overflowing for the service, which lasted nearly three hours.

The sermon was preached by the Rev. Patterson Smyth, who made an eloquent appeal to the novices to realize the solemnity and the responsibility required of them. They must have a solemn supernatural dealing with God for the present service would commission of the church. It was a charge from which there was no escape, but one which offered the greatest possibilities for humanitarian and Christian work.

The manner of Man. "I have often pointed out to young students," he said, "that there is no profession in the world where the personal element—the man's own self-matters as it does with us. It is not the manner of doing the clerical duties that matters, but the manner of the man that is behind the duties. It is not the method of the sermon or the class-teaching, but the personality that is behind the sermon and the class-teaching. O my young brothers, at any cost keep close to your Lord and watch over your spirits, be true, real, genuine men, humbly trying to please your Lord and caring not for anything else besides."

The Lately Responsible. The preacher, however, thought that the lately were largely responsible for the work and the efficiency of their pastors. "Try to treat your clergy as Christ, His Lord is treating them," he said. "Try to make the best and think the best, and hope the best of them. That is the way to get the best out of them. Try to give them your friendship. You are very lonely without that. Your clergy often feel in Canada."

Those Ordained. Those ordained as priests were: The Rev. John H. Colclough, Rev. Walter Ellis, Rev. Richard A. Forde, Rev. Henry G. Kingston, Rev. R. S. Mason, Rev. Edward Morley, Rev. W. A. Penner, Rev. A. H. Powell, Rev. C. E. Pratt, Rev. V. C. Speicher and Rev. A. S. Strathairn.

The following were ordained as deacons: G. R. Bracken, J. L. Cotton, L. A. Dickson, W. A. Eary, F. R. Ford, S. Ferguson, Frank Hermit, C. E. Luce, G. S. McGiffin, Edward Morris, N. H. Noble, Charles Patterson Smyth, E. B. Taylor and W. S. Blithie.

Brakeman's Injuries Fatal. CORNWALL, June 2.—(Special.)—Ernest Donlon of Montreal, a brakeman on a Grand Trunk freight train, died in the Hotel Dieu Hospital here yesterday as the result of an accident which occurred at Lancaster station. Shunting was being done and Donlon had one of his feet caught in the point of the switch. The train backed up on him before he could free himself and both legs were almost severed close to the hip. ## Announcement

As the public may judge, we have suffered much by inaccuracies in reports in the press and by misrepresentations through many sources since the unfortunate accident at our factory, but now that five of Toronto's leading Architects-Engineers-Builders have pronounced as follows, we are able to announce that our business will continue uninterrupted, and that we will be well able to take care of the demands for our goods. Neilson's Ice Cream is sold through 700 druggists and confectioners in the city, and at 500 points in Ontario. Neilson's chocolates can be obtained at 2,000 dealers throughout the Dominion.

"We, the undersigned, have thoroughly examined the Neilson building from basement to parapet, and have found no evidence whatever of structural weakness. We would strongly recommend the immediate proper reconstruction of the south wall and the completion of the remainder of the building. Acting upon our instructions, the Neilson Company have applied loads to the third, fourth and fifth floors, also the roof adjoining the north wall, from 25 per cent to 40 per cent in excess of the loads permitted by the City Architect for this building, and upon careful and thorough examination no change or evidence of weakness was found anywhere.

"We believe this to be an absolutely fair test, and to show conclusively that the building is properly constructed and capable of being occupied for the business for which it was built. We do not hesitate in making this statement, as our examination has been most thorough, and we consider the building absolutely safe and in fit condition to be occupied continuously from this time forth.

Novelty of idea, splendid comedy and an unusually clever and sustained vein of satire on the romantic melodrama are the chief characteristics of the comedy of fantasy, "The Road to Yesterday," which Miss Percy Haswell announces as the attraction at the Alexandra Theatre. Its first and last acts take place in a modern London studio, the second and third acts represent the people there, disclosed as they live, or might have lived three hundred years ago in the Elizabethan England. It happens in the dream of Elsie Tyrrell, a young American girl, who is full of the ideal of historic novels and romantic melodrama, that this wandering on the road to yesterday takes place. Miss Haswell plays the part of this dreamer with unusual humor, charm and intelligence. The usual popular matinee will be given on Wednesday. The ceremony took place after the gospel of solemn mass at 10.30. The Latin brief of Pope Pius X was read by Rev. Dr. Walters, after which the document was read in English by his lordship.

Following this, the new dignitary made his profession of fealty, and donned the robes of his office.

Bishop Dowling delivered the confirmatory address, which was replied to in feeling manner by Mgr. Mahoney. His lordship also visited St. Patrick's Church in the morning, and at the end of high mass read the papal document announcing the promotion of Rev. Father Coty to the office of a dean of the diocese of Hamilton.

Dean Coty will have charge of the Counties of Wentworth and Halton.

ESCAPED FROM BURNING HOTEL

CORNWALL, June 2.—(Special)—The St. Lawrence Hotel at Farran's Point, conducted on temperance lines by J. J. Thomson, was totally destroyed by fire in the early hours this morning, together with a dance hall connected with the hotel, and a frame stable occupied by Mr. Thomson's trotting horse "Jim Mink," 218 1-4. The horse broke loose and escaped.

The fire started in the stable and spread to the hotel, a two-story brick building. Mr. and Mrs. Thomson and Mr. Thomson's stepson, Duncan, who, together with a double-tenement brick residence close by, owned by Mrs. Lucy Pratt, and occupied by herself and her daughter and son-in-law, Mr. and Mrs. Charles Brownell and four children, was also destroyed with contents, but families also making a hasty exit in their night clothes.

Temperance Day in Welland. ST. CATHARINES, June 2.—(Special)—Temperance sermons were delivered in a number of Methodist Churches to-day, under the auspices of the Dominion Alliance, who chose it as the date for holding the annual field day for district. Rev. Ben Spence of Toronto spoke in St. Paul's Methodist Church in the morning and in Welland-avenue Church in the evening. Other speakers occupied pulpits in the city, Merriton and at the local Y. M. C. A. meeting.

HOW WE STAND

Everything looks fine for the real estate buyer. At no time during the year has the situation been more hopeful, the big men more optimistic, the offerings better.

We're five thousand houses short in Toronto now. Fifty thousand more people will make their homes here this year. The railways have professed their faith in Toronto, and will spend twenty millions for added facilities—and this is only a start. There'll be an announcement shortly which will mean that Toronto is to be one of the great radial cities of the continent.

The World knows of three "skyscrapers" that will go up when private negotiations are closed. A big industrial town is planned for the outskirts. Factory sites can't be found fast enough now for the firms that want them. Agricultural conditions in Ontario and out west are bright with promise. Record crops are shaping up. The railways and banks are working overtime doing their part.

Outsiders are pouring their money into Toronto land. They are on the outside and can see clearly what many of us are blind to. They are investing their money for a million population. They won't have to wait long. Toronto has doubled itself in the last five years.

And never were real estate investors given such good property as at the present time. The speculators have retired from the market and the land men have had to put on properties of high quality, properties improved and ready for house building.

The whole market is now on a substantial footing. City house and central property is adjusting itself to a sound basis of value. The late busy fall period.

It looks like a buyers' market.

PORT McNICOLL. PORT McNICOLL will grow by leaps and bounds this year. Those who invest now at present prices cannot fail to make handsome and quick profits. I have clients that bought Port McNicoll two months ago, that have resold their lots at 150 per cent. profit. If you doubt this statement, I can furnish you with their names and addresses. Choice building lots from \$15 up, easy payments, while you are making your payments, while you are making your payments, while you are making your payments.

Write me at once for handsome catalogue, maps and price list. I have been selling several times, and know what I am offering investors. Every lot is guaranteed level, and high. Write to-day for catalogue. G. Norman Shields, Port McNicoll Realty Specialist, 75 Beattie street, College Hill. ed
