It is with no little gratification that your Committee have to report that the work of building a new Church, in which as a Congregation, we have been engaged for the past two years, has now approached an end. Through many trials and discouragements the work has been steadily prosecuted. Difficulties undreamt of in its inception had to be met and overcome. These arose chiefly from trouble with the original Contractor for the masonwork, and involved us in delays—difficulties with the Trades-Union—and a largely increased expenditure. These were all finally overcome, and the Congregation is now in possession of a building at once an ornament to the City, and in every respect adapted to the object for which it was built. Before the close of the present month your Committee expect that all necessary arrangements will have been completed, and the Building in use for public worship.

For full details of this portion of our work, your Committee would refer you to the Report of the Building Committee produced herewith.

During the last Session of the Provincial Legislature, an Act of Incorporation of the Temporal Committee was obtained, and the provisions of that Act are now in operation. In accordance with these the Congregation will be asked to decide the question—in which of the two churches it will in future elect to worship? This question will be before you to-night, and your Committee trusts that a final and satisfactory decision may be arrived at; and that whatever action may be taken, will be by the Congregation as a whole, and that in the future as in the past, we will continue to worship together in unbroken unity, and Christian fellowship.

Your Committee submit herewith a statement by the Finance Committee shewing the outlay connected with the new Church for the past year, the present state of the Building Fund, and the liabilities of the Congregation arising therefrom. These, it will be seen are large, and will require the most strenuous and persevering exertions for many years to wipe off. Although the burden may be heavy for the first few years, your Committee feels confident that the growth of the Congregation in

the Central Church will be such, that ultimately no difficulty will be experienced in discharging them.

Since our last annual meeting we have to deplore the loss of our then Pastor, Mr. McLaren. With the circumstances attending his removal all are familiar. It is unnecessary therefore to allude to them now. We may be permitted however to say, that his removal was not only a loss to ourselves, but to the whole City as well. Occurring at that particular time, when engaged in a work which was taxing our resources to the utmost, it was felt with especial severity, and the lapse of time has only deepened our regrets. At the same time we cannot but rejoice, that in our loss the Church has gained, and that he now occupies a position, for which by his abilities he was peculiarly fitted, and where his influence and labours will be widely felt.

We sincerely trust that ere long a worthy successor of our former Pastors may soon be found—one who will prove able and energetic in building up a prosperous congregation, and diligent and faithful in the cause of our great Lord and Master.

In conclusion, your Committee would earnestly pray that to their successors in office the Divine guidance may be granted, and that their hands may be strengthened for the faithful discharge of their labors in building up the temporal prosperity of our beloved Church.

All which is respectfully submitted.

ROBERT BLACKBURN,  
*Chairman.*

JOHN HENDERSON, *Secretary.*

## BUILDING COMMITTEE REPORT.

---

At the close of another year the Building Committee desires to present a Report of the progress made in the special work of which it had the oversight.

Thirty-four meetings have been held during the year.

At our second meeting held on January 20th, the Chairman was instructed to advertise for tenders for the completion of the stone work left unfinished from last year. In reply to our advertisement we received five tenders, from which we selected that of Mr. Thos. Young, who undertook the work for the sum of \$8000.00

We reported last year that Messrs. Stewart and Gilmour, contractors for carpenter and joiner work, had made a demand for a re-arrangement of their contract on the double ground of delay in giving the work into their hands, and the increased value of material and cost of labour. The Committee decided to increase their tender by the sum of \$2551.00, on the understanding that this sum should cover the changes to be made in the pews, the setting of all the iron work, and all extras up to date. (February 12th.)

Mr. Beattie agreed to complete the plastering for the amount of his old tender—\$2080.00

On the 12th May, Messrs. Blythe and Kerr intimated to the Committee by letter, that they could not go on with their contract for galvanized iron work for less than \$652.00; the original sum being \$496.00. We advertized for new tenders, and Messrs. H. Meadows & Co. contracted to execute the work for \$500.00.

Mr. A. W. Lang also threw up his contract for painting; and after advertizing, we gave the work to Mr. Wm. Howe, who tendered for the sum of \$1100.00.

A change was also made in the contract for glazing. Mr. McCausland's original tender was \$1000.00. The patterns for stained glass, which were exhibited to us, were

not deemed suitable by the Committee, and the sum of \$450.00 was added, for which the contractor promised to enrich all the side windows, and to give a more elaborate finish to the large window in the front of the Building.

Underneath is given a statement of the amounts paid for the Building up to date, together with the several sums still due the Contractors.

## SABBATH SCHOOL REPORT.

---

At the close of another year's work in connection with the Sabbath School, we present the following statement of the progress made in this essential part of the Christian work of the Congregation.

Although we have during the past year lost the valuable services of our late Pastor, by his removal to another sphere of labour, the School has maintained its efficiency as regards both numbers and earnest work; the average attendance being the same as that of last year, viz., 120.

The School, though doing good work in the cause of Christ, yet lacks some important elements of success. A larger staff of teachers—a better assorted and more varied library—maps and other apparatus to assist in teaching—and above all the more earnest and active sympathy of the Congregation are all needed before the School can be thoroughly equipped for its great work.

Underneath appears a list of the names of those who obtained prizes in the different departments:

(1.) For repeating, without mistake, the whole Shorter Catechism with proofs, giving books, chapter and verse—Janet Anderson, Myra Dyde, Elizabeth Sharpe.

(2.) For repeating, without mistake, the whole Shorter Catechism without proofs—Florence Dyde, Isabella Sharpe, Barbara Whillans, Eliza J. Mutchmor, Janet Sharpe, Emily Barrell, Charlotte Gammon, Agnes Perry, Walter Dyde, Wm. Potts.

(3.) For repeating, without mistake, half the Shorter Catechism without proofs—Sarah J. Gamman, Hobart Dyde, Thos. Shearer, Alex. Harris, Wm. Garvock.

(4.) For a successful examination upon the Bible lessons of the year—Myra Dyde, Catherine Matthews, Elizabeth Sharpe, Janet Buchanan, Johanna Buchanan,

We trust that with the facilities at our command in the new Church, the year on which we have now entered may be one of more earnest effort, and of wider and more enduring results than in any previous year in the past history of the Sabbath School.

SUPPLEMENT  
TO  
**THE TWENTY-NINTH ANNUAL REPORT**  
OF THE  
**TEMPORAL COMMITTEE**  
*KNOX CHURCH, OTTAWA.*

---

At a Congregational Meeting held on the evening of Thursday, the 26th ult., it was considered advisable to lay before the Congregation a full statement of its present financial circumstances. In order to carry out this, the Temporal Committee was instructed to prepare such a statement, and have it printed and circulated with as little delay as possible. To do so as completely as possible, your Committee approach the subject by considering:

*1st. The Total Cost of Building Knox Church, Elgin Street.*

Into the early history of the movement, which so recently culminated in the completion and opening of our present Church, it is not required to enter here. All are sufficiently aware of the many trials and disappointments, which from the beginning to the end, beset us at every stage of the work. The failure of the original Contractor for the mason work, was the source from which all the subsequent troubles sprang. Next came the oppressive action of the Trades Union—interposing delays and obstacles in the way of re-letting the work. Then followed, (in consequence of these delays and the increased price of labour and material of every description) demands on the part of the Contractors on the other parts of the work for better terms. The result of all has been, to increase the cost of the building over the original tenders, by upwards of 50 per cent.

The cost of the whole work as contracted for originally, amounted to the sum of \$28,501.00, exclusive however, of the

expenses connected with heating and lighting. The actual cost on completion is \$42,042.56; add to this the price of the lot \$4000, and we find that the total amounts to the large sum of \$46,042.56.

*2nd. Our Present Liabilities.*

These are large and will require the most strenuous and sustained exertions on the part of every member of the Congregation to wipe off. It is unnecessary to specify every particular item, and we shall content ourselves by summarising them as follows, viz.:

First Mortgage to Building Society, .....	\$ 15,000 00
Second " to Jas. Warnock, .....	5,000 00
Loans from Bank, .....	3,850 00
Bills payable, .....	1,291 00
J. MacLaren & Co. account, .....	844 34
Balance due Contractors and Architects, .....	4,256 99
Total amount of liabilities.....	<u>\$30,242 33</u>

*3rd. The Revenue Required.*

For the current year this is estimated by your Committee as follows, viz.:

Interest and Instalment on first Mortgage.....	\$1,440 00
" on second Mortgage.....	450 00
" on Notes and floating liabilities.....	1,000 00
Minister's Salary .....	2,000 00
Precentor and Doorkeeper's Salaries.....	400 00
Lighting and Heating.....	400 00
Incidental expenses.....	310 00
Total.....	<u>\$ 6,000 00</u>

This amount, it will be seen, does not provide for the reduction of our liabilities—with the exception of the loan from the Building Society. It is only sufficient to meet our ordinary running expenses, instalment to Building Society and the interest upon liabilities. How to liquidate these must be another consideration, to which your Committee will hereafter call your attention.

*4th. The Manner of Raising the above Revenue.*

The only way in which this can be done, is by direct subscription on the part of members and adherents, carried out by our usual system of weekly contributions. The number of

our subscribing members being about 100, the average subscription per head required will be \$60. This is a high average, but your Committee feel confident, that under the influence of the spirit now prevailing in the Congregation, it will be found within its ability. They are encouraged in this conviction, by the following estimate of the way in which the requisite amount may be raised, and how the subscriptions may be distributed in order to gain the desired result. It is of course, only given as an approximation to a basis, by which any member can see at a glance, how an average of \$60 can be obtained. Suppose that in the Congregation there are found.

Add the ordinary Sabbath collections for year, say.									750 00
								<hr/>	
Making a total per annum of.....								\$	<u>6,210 00</u>

In above we have estimated a large number at 50c. and 20c. per week, but we are confident that many of these will go up to a higher, rather than descend to a lower figure. In this case the increase to our revenue will be proportionally greater, and instead of merely paying interest, we would be able to liquidate a portion of the principal. It must, of course, be distinctly understood, that the above subscriptions are for the whole of the current year. All subscribers therefore who may be only now intimating the amount of their subscriptions, will be expected to pay the same commencing with 1st of January last.

*5th. With regard to paying off principal*

Your Committee recommend that a strenuous effort be made to collect the outstanding balance of subscriptions to Building Fund. That amounts to \$4407.46, and when collected will be applied directly to liquidating so much debt. For the information of members a copy of the subscription list of the Building Fund is herewith appended. Another asset is the

arrears to the ordinary Church Fund for 1873. These amount to \$348.49 as will be seen from the statement of subscriptions to Church Fund also appended. Another source to which we look for assistance is the Ladies' Association. It has undertaken the payment of the cost of heating and lighting the Church, amounting to about \$1400 ;—and we may here state in passing, that the Association has already provided for a large portion of this.

Should these amounts indicated be realized, as they ought to be, your Committee confidently anticipate that in the course of another year, or less, the present liabilities will be reduced to a sum in the neighbourhood of \$25,000.

Power has already been given to your Committee to borrow a further sum of \$10,000, and as soon as possible it will endeavour to negotiate a loan to this amount from the Building Society. Having obtained it, they will discharge the second mortgage and the existing floating debt. The whole debt of the Congregation will then be capitalized, and the annual cost for the payment of interest and capital be reduced to a minimum, probably not exceeding \$2,500.

Such, in a brief form, is the present financial position. Although the burden is heavy your Committee have every reason to feel confident, that the Congregation will be found able and willing to meet it. The present year will be the one of greatest difficulty and trial ; after that with a Congregation steadily increasing numerically, and united in the bonds of Christian fellowship and mutual confidence—with a consolidated and reduced debt—and a faithful and zealous Pastor—our difficulties will gradually decrease, and under the blessing of God we can look forward with confidence to a happy and prosperous future—all the more happy, that in attaining it, we have experienced in a greater than ordinary degree, so many trials and disappointments.

Signed on behalf of the Temporal Committee.
