Southwesterly winds, fair and warm, with local thunderstorms.

BALLOON VALVE STUCK CAR DRAGS OVERLAKE UNTIL STEAMER SAVES

Exciting Finish to Lieut. Bennett's Latest Cruise in Columbus Aero Race—Nearly Drowned in Lake Erie's Waters.

BUFFALO, Aug. 31.—The balloon, Queen Louise, which started with two other balloons from Columbus, Ohio, Saturday afternoon with Lieut. J. J. Bennett of the British Army Balloon Corps as pilot, and accompanied by Tom L. Sample, was picked up in Lake Erie yesterday afternoon off Pigeon Island. Owing to a defective valve the pilot was unable to keep the balloon aloft.

After throwing out all of their ballast, they sighted the steamer Mohegan, and, signalling that they were in danger, the captain of the ship accompanied them for nearly ten miles, when seeing that it was impossible to keep the balloon in the air any longer they cut the gas bag and permitted the gas to escape.

The two passengers with the balloon were taken aboard the Mohegan and brought to this port, arriving here this afternoon none the worse for their misadventure.

Lieut. Bennett, in speaking of the trip, said that all went well until they struck the lake. When he attempted to make a landing I discovered that the gas valve was stuck and would not open.

"At 11 a. m. Sunday we were over Lake Erie, and not more than 200 feet above the surface. Our gas had become chilled, but we managed to keep aloft. When the sun began to rise it expanded our gas and caused us to ascend. We got up to an altitude, so far as I could estimate, of about 20,000 feet.

"We lay down in the basket and fell asleep. I awoke with a start, feeling a rush of cold air, when I saw that the balloon was dropping. We dropped possibly 10,000 feet within four minutes, going down at terrific speed.

"When we reached warmer air currents the balloon balanced again and we sighted the steamer Mohegan. We signalled the vessel and Capt. James Cunningham agreed to stand by. On signal from the balloon, the captain lowered boats and rescued us from the rigging of the balloon to which we were clinging. I having pulled the ripping cord and permitted the gas to escape and the balloon to drop into the water."

Lieut. Bennett will go to Springfield, Mass., and to Sample to his home in Columbus, Ohio.

SIR LOUIS ARRIVES.

Welcomed by President George and escorted to King Edward.

Sir Louis Jette, K.C.M.G., LL.D., Lieut.-Gov. of Quebec, who opens the big exhibition to-day, accompanied by Lady Jette, arrived in the city on C.P.R. express No. 3, from Montreal, at 7:15 last night.

The train was due at the Union Station at 6:55, but was 20 minutes late. W. K. George, president of the fair, was at the station to meet the party, and escorted them to the King Edward Hotel.

CAN WORK FOR C.P.R.

Bring Unemployed Harvesters Back Free With One Stipulation.

REGINA, Sask., Aug. 31.—(Special.)—Unemployed harvesters were all shipped out of here this evening, word having been received from Wm. Whyte that the C. P. R. would provide free transportation and free meals en route and work east of Winnipeg to these men. After they work 30 days at \$1.75 they will be allowed to return east at ordinary harvester rate.

THE OLD ORDER CHANGETH.

Promotions in Civil Service Now Are Being Made on Merit.

OTTAWA, Aug. 31.—(Special.)—Hon. R. F. Sutherland, speaker of the house of commons, has appointed A. H. O'Brien to be law clerk of the house of commons, to succeed the late F. F. McCord. Mr. O'Brien has been assistant law clerk and has held the position in the law branch.

J. K. Moran, secretary of the law branch, becomes assistant law clerk, and A. J. Troop becomes secretary.

There were a number of applicants for the post of law clerk, but the speaker considered that Mr. O'Brien's service was entitled to promotion.

PREMIER'S CHAUFFEUR FINED

Was Going Too Fast and His Boss Couldn't Save Him.

OTTAWA, Aug. 31.—On Saturday morning Henry Birks was fined \$22 in police court for speeding an automobile along Rideau-street, the day before at more than ten miles an hour. No defence was offered and the case was disposed of in about one minute.

It transpires that Birks is Sir Wilfrid Laurier's chauffeur and that it was the premier's auto which was held up. Lady Laurier was in the machine at the time.

TORONTO ABREAST OF NEW YORK.

Opening of Dunlop Hat Season at Dineen's Simultaneous With That at the Metropole.

Toronto is abreast of New York in the opening of the season for Dunlop hats, which are admittedly the premier headwear for men on the continent. Dineen's, at Yonge and Temperance-streets, are the sole Canadian agents for these famous hats. The official opening day was Saturday, and Dineen's placed before the Toronto dressy men exactly the same quality and styles of hats that were being shown for the first time in the metropolis. This is hat enterprise. The standard prices prevail. Five dollars for felts and ten dollars for silks.

NESBITT IS TO CONCILIATE FOR C.P.R.

Has Been Named by the Company—C. N. R. Employees Also Want a Board and Name Harvey Hall.

The C.P.R. has nominated its representative in the conciliation board called for under the Lemieux Act by the Brotherhood of Locomotive Engineers and Firemen. The company's representative will be Hon. Wallace Nesbitt, K.C., who has accepted the appointment. As previously announced by The World, the brotherhood will be represented by J. G. O'Donoghue.

Messrs. O'Donoghue and Nesbitt have five days in which to agree upon the third member of the board. As the two arbitrators have in the past secured Prof. Adam Shortt as their chairman when acting together, it is quite probable that they will invite that conciliator to preside over the arbitration of the Brotherhood of Locomotive Engineers and Firemen's grievances.

The question is being asked in some quarters: Who are the engineers in the E. of L. E. and F. F. The engineers, it is explained, are engineers who have risen from firemen and keep their membership in the brotherhood because they have paid their insurance assessments into it while firemen. They are just as much engineers as the members of the Brotherhood of Locomotive Engineers, and perform the same services in driving the engines.

Northern engineers applied to the labor department of Ottawa for a board of arbitration to enquire into their grievances, but so far they have received no answer, nor has the board been organized.

The men seeking arbitration on their grievances are those working on all Canadian Northern branches operated by the Dominion Government, as well as the Suburby, and the men have named J. Harvey Hall of Toronto as their representative on the board.

The men want a new schedule with a higher rate of wages and better conditions generally.

Disappointed Blackmailer at Bottom of Recent St. Thomas Explosion.

ST. THOMAS, Aug. 31.—(Special.)—Thru the clever work of Provincial Detective Reburn, the mystery of the bomb outrage has been cleared, and the police are now on the trail of the guilty party, who has escaped across the border. He will be extradited when taken into custody.

On Aug. 8 an attempt was made to blow up the private residence of W. McClellan by exploding a pail filled with powder attached to the knob of the door. McClellan had received threatening letters demanding money. Detective Reburn got these letters and worked very quietly. He discovered that twenty-three years ago the barn of Orlando Fordyce had been burned with a loss of \$500.

He also had received threatening letters demanding money. Here the detective found his first clue which led to the culprit's identity.

In a woman's case, and the motive was partly jealousy, the man wanted, is well known in St. Thomas, and news of his capture across the line may be expected at any time.

WASHOUTS TIE UP C.P.R.

No Trains Into Winnipeg From East Since Sunday Morning.

WINNIPEG, Sept. 1.—(Special.)—Not since No. 1 pulled in Sunday morning has a C.P.R. train pulled in from the east, nor will any come in until to-morrow morning. Sunday it commenced to rain heavily, and between Ingolf and Wabigoon, it amounted to a miniature cloudburst, washing out the track in several places. Officials held all trains at first as a precautionary measure, which later proved to be a necessary one.

The C.P.R. eastern wires also went down in that point were Monday morning and a communication was partially restored during the day they again went out of business. No mails have reached Winnipeg from the east for two days.

As a result of the track being washed out at Deception, Ont., six boarding cars at that point were Monday morning and the train was thrown into the ditch last night. There are two big washouts at Scott, east of Kenora, and several smaller washouts along the track between there and Rennie. Every available man is out working on the roadbed.

Cadets Will Visit Canada.

LONDON, Aug. 31.—The cruiser Cornwall sailed for St. Johns and Halifax on Sept. 8 with naval cadets.

AEROPLANE WINS CROSS WATER

LEMANS, Aug. 31.—Wilber Wright told the Associated Press to-day that there was no truth in the reports that he intended flying in Germany or that he would try to fly across the English Channel. He said: "It is more impossible to make a flight of thirty kilometers over sea than over land, but in the present state of imperfection and insecurity of aeroplanes a sea flight would be a dangerous experiment."

MAKING AN ISSUE FOR COMING ELECTION

Government Ownership of Railways to be Urged by the Striking C. P. R. Mechanics.

WINNIPEG, Man., Aug. 31.—(Special.)—G. M. Bosworth's interview to-day at Montreal in reference to the handling of the crop shows that he is apparently not familiar with the changed conditions of the motive power and cars and is merely giving the time honored interview usual at this time of the year, said J. H. McVety to-day.

"No one will deny that the company have large numbers of engines and cars, but it is an entirely different matter when it is said that they are in condition to be delivered promptly for loading or to be handled quick when loaded.

"The starvation policy of the company during the past winter, coupled with the strike of the men to maintain conditions conceded years ago must tend to a blockade such as has never before been seen in the west, for during past years, under ordinary conditions, continuous complaints were received about the scarcity of cars and lack of power to handle the crop."

"The increased acreage under cultivation and the fact that absolutely no preparation has been made during the past 30 days, Mr. Bosworth persists in casting a reflection on the intelligence of the public by stating that 'we are in a better position than ever to handle the crop.'"

"Apparently nothing remains for the farmers and railway employes but to urge strongly for government ownership of railroads, and it is the intention of our membership to make this an issue in the coming campaign."

DIES ON OPERATING TABLE.

Miss A. Thompson of Brampton Succumbs From Shock.

While undergoing an operation at the General Hospital yesterday noon Miss A. Thompson of Brampton collapsed and died.

The woman had been suffering with colic for years and was sent to the hospital five days ago by Dr. A. Primrose, in whose charge she had been for some time.

She was placed upon the operating table shortly before noon and an anesthetic administered by Dr. Samuel Johnson and an assistant. The operation was then begun by Dr. P. Ryerson and S. Westman under the supervision of Dr. Primrose. While this was in progress the woman expired from shock.

Chief Coroner Johnson was notified and went to the hospital. After a thorough investigation he was of opinion that the fatality was clearly unavoidable and that no inquest need be held.

Miss Thompson had been in the city for some time. She was employed as a machine operator by a downtown firm, living in Berkeley-street with a friend, Miss C. Armstrong, who was with her when the operation was performed.

NO MALICIOUS INTENT.

Coroner's Jury Acquits Walter Mulock of Serious Charge.

Coroner Singer's jury, enquiring into the shooting of Max Magnus, last evening, returned the following verdict: "That Max Magnus came to his death from the effects of bullet wounds fired from a revolver in the hands of Walter Mulock, and that the said Walter Mulock had no malicious intent to injure the said Max Magnus."

Mulock on the witness stand said: "I bought the revolver on York-st. to kill rats with and took it home. On the day of the shooting I pulled it out of my pocket to show to Max. Then the gun went off. I don't know how I knelt down beside him and said: 'You know it was an accident, Max.'"

He replied: "I know it, Walter. Then the ambulance came."

Both boys had been in the habit of fooling with each other a lot, but were good friends.

COULTER GOES TO AUSTRALIA.

OTTAWA, Aug. 31.—R. M. Coulter, deputy P.M.G., has been appointed a Canadian envoy to go to Australia in the interests of the all-red project.

HON. RAOUL DANDURAND, Speaker of the Senate.

WINTER RATES FOR GRAIN TRAFFIC

Marine Men Announce That Double Tolls Are to be Exactd, as the Con- ditions Stand For It.

MONTRÉAL, Aug. 31.—(Special.)—It is announced that the winter grain rates for shipment from Fort William to Montreal are about to be enforced. The rates have been abnormally low this summer, on account of the keen competition between transportation companies for the limited supply of wheat remaining unshipped in the west.

First, there was a drop to five cents per bushel to Montreal, and this was followed during May and the early part of June by decreases first to four cents, then to 3 1/2, and finally to 3 1/4 cents.

Then came the break in the Cornwall Canal, which led up to this port a large part of the fleet that was capable of bringing shipments down the Welland and St. Lawrence canal system. This had the effect of bringing the rate up to four cents, but when the canal was repaired and competition was again in full swing, the rate fell to 3 1/2 cents, and later to 3 1/4 cents. This continued until the west, both Canadian and American, was swept clean of old grain as a polished hardwood floor.

Now, however, all is changed. The organization that control the rates for American and Canadian vessels have so far recovered from the blow which sent them temporarily out of business, that they have again issued their mandate to shippers, and as there is every prospect that there will be more than sufficient grain to go round, as the return of prosperity to the west is held to be conditional upon somewhere about half of this year's crop being got out before the close of lake navigation, their authority with such effect that shippers and grain dealers cannot find a vessel owner who will undertake to deliver wheat in this port at less than seven cents.

It is announced, however, that the seven cent rate was paid a year ago, and there is nothing surprising if it should be charged from now till the close of navigation.

WON'T STRIKE IN SYMPATY

C. P. R. Says That They Have Promises of Neutrality.

MONTRÉAL, Aug. 31.—"There is no truth whatever in the reports that meetings of conductors, engineers and other organizations on the Canadian Pacific have been held here or in Toronto to take any action regarding the settlement of the strike."

This is an official C.P.R. statement sent free to all papers over the C.P.R. telegraph company wires to-night. It continues:

"It is understood that the railway company has schedules with all the other unions, and these have advised the company that their position will be neutral in the present difficulties."

Remains Brought From England.

MONTRÉAL, Aug. 31.—(Special.)—The remains of the late John Proctor, the Hamilton merchant who died suddenly while on a business trip to England, reached here this evening on the Allan liner Ionian. The coffin was placed aboard the Grand Trunk night train for Toronto, whence it will be sent to Hamilton for burial.

URGES SOCIALISM AS LABOR'S REMEDY

Keir Hardie Addresses a Large Gathering in Labor Temple—Wage-Earners Should Join Trades Unions.

Keir Hardie, M.P., who thinks a trip to Canada with his family just a nice sort of way to enjoy a holiday, refreshed himself after the heat of yesterday by addressing a crowded meeting at the Labor Temple. Every seat was taken a quarter of an hour before the time for opening the meeting, a sprinkling of ladies on the floor and in the balcony attesting their interest in the speaker and his mission. The use of the freedom with which a score of the auditors in the gallery shed their coats featured the gathering. It was no social function. Society might gaze askance as at any gathering of the like. The earnest-faced speaker, whose face was lit up by the glow of the freedom with which a score of the auditors in the gallery shed their coats featured the gathering. It was no social function. Society might gaze askance as at any gathering of the like. FLOW OF MOLTEN METAL INJURES SEVERAL MEN

Bottom Drops Out of Huge Ladle - One May Die - Milkman Want Better Inspection.

HAMILTON, Aug. 31.-(Special.)-There was a serious accident at the east end plant of the Hamilton Steel & Iron Co. this afternoon...

Board of Health. The board of health at its meeting to-night had a rather unusual item before them which practically amounted to a request from the Milk Dealers' Association to increase their fee from \$1 to \$1.50 a year...

Two Fires. Fire broke out in a coal shed at the grand trunk bolt works about 7 p.m. and the place was destroyed.

May Have Been Hamilton Man. It is believed that a young man whose body was found floating in the Monongahela River, near McKeesport, Pa., may have been a Hamilton man...

Red Pearson, whom Detective Blakeley brought back from Winnipeg, was remanded at the police court to-day until to-morrow on the charge of theft.

Second Turbines. The Turbine Steamship Company is negotiating with John W. Sorell of the new Toronto shipyards for the construction of a new boat as a sister ship to the Turbine.

The New Arlington. Now open for visitors. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. George Midwinter, Phone 3452.

Hotel Hamilton. Corner Barton and Clarence-streets, Hamilton, modern and strictly first-class. Rates \$1.50 to \$2 per day. Phone 1465.

Reduced Rates for Labor Day. Via Grand Trunk Railway System. Return tickets will be issued at single rate between all stations in Canada, also to Detroit and Port Huron, Mich.

Burial Statistics. The returns from the city cemeteries for the month of August show that 352 persons were interred, or sixty more than for the same month in 1907.

PIMPLES AND DISFIGURING BLOTCHES. They place many young girls at a great disadvantage in life. The only cure is a blood purifier like Ferreroze.

OF INTEREST TO WOMEN

Toronto World's Beauty Patterns

A Practical Little Undergarment

No. 5904 and No. 5907. Well shaped underpart is now regarded as a very important part of the up-to-date wardrobe, and women who refined taste spend much time and thought upon these garments. The two pretty models here shown were designed with regard to comfort as well as to appearance. The corset cover is the daintiest little garment possible to wear under the lingerie house. The square-cut neck may be made as illustrated, or it could be made of a strip of embroidery. The French circular drawers are very popular just now, as they take the place of an extra undershirt, thus avoiding all extra fulness around the waist. The choicest materials are the linen, batiste, cambré and muslin, and some very dainty effects are obtained by the use of ribbon-run beading, lace and embroidery. For 36-inch bust measure 1 3/4 yard of 36-inch material will be required for the corset cover, and 1-1/4 yard for the drawers.

Ladies' Square Neck Corset Cover. No. 5904. Sizes for 32, 34, 36, 38, 40 and 42 inches bust measure.

Ladies' French Drawers. No. 5907. Sizes for 20, 22, 24, 26, 28, 30, 32 and 34 inches waist measure.

Patterns of this illustration will be sent to any address on the receipt of ten cents for the pattern, and a 2-cent stamp for the pattern.

Be Sure and State Size Required.

"such theatrical offerings as clothe perilous subjects in a boasted artistic atmosphere, but which are really an excuse for the most vulgar exhibition that this country has ever been called on to tolerate."

Suprem Test of Cooking.

"Yes, soup is the test of all good cooking, whether in an hotel or in a home." When a chef can turn out a perfect soup, it is certain he has mastered the other branches of cooking, for that is the foundation of his profession.

"Many divers are caused directly by bad cooking, I believe. The wife of a man in moderate circumstances should understand how to direct the cook, even if she is not obliged to cook herself. Imagine a man going home to a plate of soup that is principally water and a weak dom-tasse, to say nothing of burned meat and half-cooked vegetables. I can think of nothing worse. In countries where women are skilled mechanics, and are few divorces. I have told my sons to remember this when they are old enough to get married."

Mr. Techirsky's elder son is 19 years old, weighs 205 pounds and measures six feet five and one-half inches in height.

In Society.

Lieut. Gov. Clark and family have returned to the city after a six weeks' coast of Maine, and the duties of Chief Justice Moss, as administrator, came to an end yesterday.

Mr. A. Ceel Gibson returned from England last week by the Arabic, staying a few days on his way home at Bideford Pool, on the coast of Maine, where Mrs. Gibson has spent the summer.

The Rev. J. C. Puleston Roberts, rector of St. Jude's Church, has returned from a vacation which he spent at his residence, Bobshaven, on the Lake of Bays, Muskoka. He was accompanied by Mrs. Roberts and the family, and had a pleasant and refreshing time. During his absence the parish was served by a clergyman, whose performance of the various duties were most agreeable to the congregation.

Mrs. A. Gillies and her daughters Flora and Annie May of Dovercourt-road, have returned from Muskoka, after spending a very pleasant two months' vacation.

Mr. and Mrs. G. D. Atkinson have returned to the city after a six weeks' holiday spent in the Lake of Bays district.

The Misses Mae and Mabel Ashby of Howland-avenue returned to town after spending an enjoyable month's vacation at Rosbank.

Plano to Rent.

Heintzman Piano Co. Limited, 115-117 West King-street, Toronto, make a feature of renting pianos at a small sum per month, and which is paid in this way, will, when desired, be allowed on the purchase of a piano. If interested see them.

Poor tea is poor economy—use "Salada" and you will appreciate the excellent qualities of high-grade tea.

BARGAINS IN PIANOS AND ORGANS AT NORDHEIMER'S DURING CANADIAN NATIONAL EXHIBITION TORONTO

VICTIM OF RARE DISEASE STOLEN FROM THE GRAVE

Medicos Suspected of Having Disinterred Body in Cemetery for Purposes of Dissection.

CHEATHAM, Aug. 31.—(Special.)—A sensational case of grave robbing at Maple Leaf Cemetery has leaked out, the particulars of which show to what lengths the medical fraternity will go in order to secure a "rare specimen."

Recently a young girl in Chatham Township died of Addison's disease, a malady which for years has baffled all medical skill. The girl's body, previous to death, became covered with dark stripes, and her case attracted the attention of physicians and surgeons all thru this district and farther east.

Fearing that her body might be stolen, the parents engaged two men to watch the grave at night. The men faithfully kept up their lonely vigil for several nights, but last night they neglected to get out to the cemetery till midnight, when they were startled to see a rubber-tired carriage bearing two men drive away from the vicinity of the grave. The horses' feet were padded so as to make as little noise as possible.

As the grave was newly-made, it was impossible for the men to make sure whether the earth had been disturbed or not, but the relatives of the girl feel sure that the body was stolen, and they intend to re-open the grave and make an investigation.

Labor Day Excursions.
On account of Labor Day, the Grand Trunk Railway System will issue return tickets at single fare between all stations in Canada, also to Detroit and Port Huron, Mich., Buffalo, Black Rock, Niagara Falls and Suspension Bridge, N.Y., good going Sept. 4, 5, 6 and 7, and returning on or before Sept. 8, 1906. Secure tickets from any Grand Trunk agent.

Men at Work at North Bay.
NORTH BAY, Aug. 31.—(Special.)—About twenty-five men arrived yesterday and went to work in the C.P.R. shops. Some are skilled mechanics, and the company officials feel that things are going their way.

James Hughes, a resident of the town, employed about C.P.R. passenger cars, did not join the strikers, was attacked this morning and badly beaten while going to work.

CIRCLED THE LOOP.

Miss Loubet Made Great Leap at Scarborough Beach.

The thriller at Scarborough Beach this week is a much more satisfying performance than was the Beach's last season.

Miss Loubet, the performer, is a very handsome young woman and her act is certainly as thrilling as any one wants it to be. Lying at full length on a small rubber-tired wagon, built along the lines of a truck, she is drawn to the top of a steep incline, 50 feet from the ground, and set at an angle of five degrees. When the ropes which hold the truck in position are suddenly released, the car shoots down the incline, gaining speed with every revolution of the wheels, and when entering the loop at the bottom of the incline is going at the rate of 50 miles an hour.

Miss Loubet has to steer the car herself around the interior of the circle in which she travels. When she has made a complete revolution, a portion of the loop falls and she shoots thru the aperture across a gap of 20 feet and on to a platform.

The performer, the originator of this class of act, and she introduced it first in Paris, where it proved a sensational success. When the ropes which hold the truck in position are suddenly released, the car shoots down the incline, gaining speed with every revolution of the wheels, and when entering the loop at the bottom of the incline is going at the rate of 50 miles an hour.

Miss Loubet has to steer the car herself around the interior of the circle in which she travels. When she has made a complete revolution, a portion of the loop falls and she shoots thru the aperture across a gap of 20 feet and on to a platform.

MAGGI

CALEDONIA WATER

The daily use of "MAGGI"—the best of table waters—frees you from many of the ailments of life. Commence its use to-day!

Caledonia Springs Co. Ltd.
Caledonia Springs, Ont. Can.

THE BIG BAND FROM THE WEST SERENADES EATON CO.

Thousands Who Thronged Great Departmental Store Surprised by Excellent Program.

Thousands who thronged the T. Eaton Company emporium yesterday between 12 o'clock noon and 1.45 p.m., listened to one of the greatest bands in Canada, under circumstances which appeal to the loftiest instincts in human nature, in an age where commercial considerations seem to be the sole impelling impulse.

The Winnipeg City Band, one of the costliest attractions at the Canadian National Exhibition, yesterday actually asked the privilege of serenading the T. Eaton Company, because of "the many acts of kindness for which the organist, S. L. Barrowclough, says his organization is indebted."

Unquestionably, Mr. Eaton, R. Y. Eaton and other members of the firm have displayed a kindly and even generous spirit in the great western band, but that Sir Barrowclough's expression of appreciation should take such a thoughtful, unique and kindly presentation, which has been in words can express. It was altogether a beautiful appreciation of a long established and consistently maintained policy in celtic and cents.

The band left Winnipeg on Friday, and a Sunday played before 10,000 people in the Auditorium at St. Paul, Minn. Their music there provoked an ovation, their people rising to their feet and waving their hands in the air. The program in the T. Eaton Co. luncheon room was miscellaneous, including selections of the opera of "San Toy," the "Hunt and Chase" (by Balfe), in which Percy Hollinghead, tenor, sang the solo part with excellent effect.

The west is proud of its great band and its popularity in Winnipeg can easily be understood. It classes with the bands of the Queen's Own and the 4th Highlanders, and is exceptionally strong on concert features.

The leader, Mr. Barrowclough, is a native of England, who has been in Canada 24 years. He has been connected with bands for 18 years. He studied in England and at one time led a British regiment, and has been on leaving Toronto, will give concerts at Buffalo, Niagara Falls and Chicago.

DEATH THE PENALTY.

How the Day of the Sun Was Made Into the Sabbath.

The success of the Seventh Day Adventist camp meeting, Dufferin Grove, so far exceeded expectations that President Leland Sunday announced that it would be continued for another week. Much curiosity had been aroused regarding Prof. Longacre's topic for last night, "The Eastern Question," and many listeners stood around the pavilion in addition to all the seats inside being taken. While eastern in its special historical relation to Jerusalem, the theme proved to be a forceful lecture on the change of the Sabbath from the seventh to the first day of the week by the Emperor Constantine in 321, two years before he publicly espoused Christianity. Prof. Longacre stated that the original parchment decree is in the museum of Yale University. Translated, the decree gives this order: "Let all occupations rest on the venerable Day of the Sun, etc., but exempt agriculturists from the decree."

The adoption by the next council of the bishops of the then undivided eastern and western Christendom of the Day of the Sun, in place of the seventh day, did not, according to Prof. Longacre, render the first day of the week sacred, nor did it absolve Christians from observing Saturday as the Sabbath.

Prof. Longacre pointed out that the church decree in the fifth century went further than was now attempted by those who endeavor to enforce observance of the Day of the Sun as sacred as the imperial and catholic decrees were enforced on all except farmers by the death penalty.

TWO MEN KILLED.

Fatalities on Railway Along the North Shore.

NORTH BAY, Aug. 31.—(Special.)—A man supposed, from papers found on him, to be Norman McGee of Fernie, B.C., was cut to pieces by a C.P.R. train at Ridout, west of Cartier, on Sunday.

At Woman River another man was caught on the bridge and killed by a C.P.R. train. Letters and papers found on him indicate that his name is James McLean of Fort William, formerly of Dundee, Scotland.

Received by Royalty.
GALT, Aug. 31.—(Special.)—Rev. Rural Dean Ridley, delegate to the Pan-Atlantic Convention, London, England, returned home to-day after three months' absence during which he toured Great Britain. Dean Ridley had the honor of summons to Marlboro House and was presented to members of the royal family.

To-night the rector of Trinity Church was formally welcomed by the congregation.

NEW QUEEN'S PROFESSOR.

KINGSTON, Aug. 31.—Archibald Young Campbell, B.A., has been appointed assistant classical professor in Queen's.

Labor Day Outings
to Rochester and 1000 Island ports are being offered by the Richelieu & Ontario Navigation Co. at very low rates. Tickets good leaving the holiday and good for return leaving destination to and including Tuesday, Sept. 3, are on sale at ticket office, 4 East King-street.

During the exhibition very low rates are in effect daily to 1000 Islands and Prescott, including meals and berth, and anyone who has not seen the islands should not fail to take advantage of these special rates via the magnificent steamers Toronto and Kingston.

Exhibition Visitors.
If you have not weeks to spend in the "Highlands of Ontario," don't go home without at least visiting the near-by resorts, such as the Point, Barrie, Orillia, Penetang, Fenelon Falls, Grimsby Park and Whitby, which are only a few hours' ride, and all located on the Grand Trunk. C. E. Horning, at northwest corner of King and Yonge-streets, will tell you all about them.

Cancelled Night Trains.
WINNIPEG, Aug. 31.—(Special.)—Owing to heavy rains Sunday, the C.P.R., as a precautionary measure, cancelled all trains from the east. They did not care to have trains venture over certain places in the dark.

Tons of Herrings Drives Ashore.
ST. JOHN, N.E., Aug. 31.—The shore of Courtenay Bay is covered with thousands of dead herring and silver hake. These fish were brought up by the tide on Saturday evening, and in some places they are nearly one foot deep.

BIG DROP IN PIANOS

R. S. Williams & Sons Co., Limited, Start the Ball Rolling With Tremendous Clearance Sale

PRICES ALMOST CUT IN TWO

Throng of Visitors Came to See the Wonderful Bargains, and Many Beautiful Pianos Were Sold. Railroad Fare Allowed on All Sales Made Within 150 Miles From Toronto.

Yesterday was a busy day with the Williams house, and their tremendous price-cutting sale was a success from the word go.

Coming as it does at this time of the year when many dealers expect to reap a harvest from the Exhibition visitors, it has naturally caused them some uneasiness, but the goods have gone to sell, and price is the factor, so come and see the genuine bargains.

Just think of a fine big piano almost new, that sells the world over for \$325, going at only \$187. We don't mean by this an old, out-of-date instrument, but one that is a beauty and could grace any home.

We will guarantee the square piano we are selling at \$25 and \$35 to be equal to any offered by other houses at double the money. Is this a saving, or not? In addition to the square piano, we have in used pianos, we will offer our entire stock of new pianos at prices that defy competition. \$100 to \$150 saved on any new instrument.

\$10 down and \$5 per month will place a beauty in your home.

\$300, \$325, \$350 and \$400 pianos, that are well worth the money, going at only \$140, \$157, \$172 and \$225. Can you afford to miss it?

Don't put it off. Don't say "this and that," and "I think so," but get busy and come and see with your own eyes and be convinced that what we say is true.

Five big organs (5-octave) and special case designs, going at \$15, \$25, \$35, \$40 and \$65. Do you want an organ? Remember that an application for clearance sale, and the goods have got to go at some price, so come and make your selection.

Don't be confused in the price. This is the old house of R. S. Williams & Sons Co., Limited (Established 1850), and the place is 143 Yonge-street.

WEEPS AT LOSS OF VIOLIN.

"It is My Love, My All," Moans a Musician, Seeking Old Instrument.

DENVER, Col., Aug. 31.—"Oh, lady, find my violin for me—and it, and all I have shall be yours. Oh! I would give my life for it. I could tell it on the darkest night. I have traced it, my only treasure in life; it is my love—my all! Help me—oh, help me find it!"

The wanderer spoke these words with great emotion, and tears in his eyes. His name is E. C. Whitcomb, sixty years old. His violin was stolen by a Burlington train in July, after he had been left in Lincoln, Neb. He was delayed for two days in his chase after his treasure. He traced it to Colorado Springs, and thence to Denver.

NEW INSURANCE MANAGER.

A. S. Brown of United Bank Joins London and Lancashire.

GALT, Aug. 31.—(Special.)—A. Stevens Brown, manager of the United Empire Bank, announces to-day his resignation to resume service with the London and Lancashire Life at \$2000 a year.

His office will be assistant general manager and superintendent of agencies for Canada.

JAPAN CUTS \$100,000,000 FROM YEARLY BUDGET.

TOKYO, Aug. 31.—The government's financial policy, adopted by the cabinet yesterday, involves the curtailment of expenditures by \$100,000,000, of which 30 per cent. will be taken from the navy budget and the remainder from that of the navy. Japan admits her financial stringency, but insists on the utmost economy and depends on foreign countries to accept the situation, including postponement of the expedition, as an act of wise economy on the part of the nation.

To Build a Railway.

BELLELEVILLE, Aug. 31.—Notice has been given that an application will be made to the legislature at its next session for permission to build an electric railway from this city to Point St. Charles, a distance of about five miles. The two cement companies at the point now pay out about half a million a year in heavy haulage and the purpose of the railway is to try to bring the trade of the workmen to this city.

Intended for Japan.

LEIGHORN, Aug. 31.—It is reported that the armored cruiser of 10,000 tons, a sister ship of the Italian cruisers Pisa and Amalfi, being built by the Orlando Dockyard here, is intended for the Japanese government.

Do You Hear Well?

We agree to make you hear ordinary conversation, providing you can still hear thunder.

We wish you to see a new electrically sensitized hearing device called the Electrophone, that instantly causes even the deafest people to hear clearly.

The very best result we can promise you is a return for using the Electrophone the complete lasting restoration of your hearing.

Next to that in importance is the certainty that when you apply this marvelous little instrument you will be able to hear clearly and distinctly, either in public or in private.

This scientific electrical sound conducting instrument fits snugly over the ear, as shown in cut. Its purpose is to magnify sound waves and throw them directly on the ear drum in a manner accustomed to nature. The result is your deaf ear is sensitized just as well as ears are, and after a while most people find their hearing has become as good as nature. Meanwhile, however, with the Electrophone attached you can hear even the faintest sound without strain, effort or embarrassment, and your pleasure is vastly increased by the assurance that no harm is being done, as is the case with artificial ear drums, trumpets, etc., that poison and ruin the ears of all who use them. Come and test the Electrophone. We agree to make you hear. You will receive the most courteous attention and not be urged to buy a chase. We would advise, however, that when you pay a deposit on it and try it at home. Those who have had a trial of our free illustrated booklet and list of satisfied users of the Electrophone.

SENT ON TRIAL ANYWHERE IN CANADA.

Remember, the Electrophone will open up a new world to you. Perhaps you are only looking for temporary relief, but you will find that it will do much more. The Electrophone gradually restores the natural hearing.

Send us a fifty cent cent. of our patrons, because we sell all instruments subject to one month's trial. Free trial to all who call. Free booklet to all who write. Write to

DEPT. T., CANADIAN OFFICE.

The Brand Electro Ozona Limited, 334 Spadina Ave., Toronto

Free demonstration daily during Exhibition. Call and see us in the Manufacturers' Annex. Open every evening during Exhibition. 246

Baseball Joe Kelley's Team Winners Lacrosse Owen Sound In Semi-Finals

Opening Heats At Exhibition

NOTE AND COMMENT

Toronto was glad yesterday to have an opportunity to see the Boston Nationals play, and especially to have a look again at Joe Kelley in uniform. Out to win always, was his motto, and no matter how far behind his team, many a winning rally he started, and yesterday he showed that the lustre of his batting eye was not yet nearly dimmed.

Critics are unanimous in their opinion that Joe has done better than any other manager could have done with his team this season, and while his team has no chance of winning, yet Joe is setting lines for next year, and some promising young Toronto pitcher may be with his Doves next season.

In speaking of the National League race, Mr. Kelley said it was between Chicago and New York, but that on form Chicago had the best team, but were handicapped by injuries to players.

It is only eleven short years since Dan McGann formerly captained the first base at Hanlan's Point and helped Artie Irwin's Toronto to win the Steiner Cup. Yet on his first time up yesterday afternoon he was greeted by a hand. How soon those fans forget.

The Canadian Amateur Athletic Union will pay its attention to one Leslie Boyd, K.C., at a special meeting of the board of governors to-night. Other business concerning rail activities will also be transacted.

Ottawa showed considerable foresight in applying to the C.A.A.U. for a sanction for the Labor Day games between the capital and the Ottawa law auspices Bobby Kerr would be impossible. As it is, the world's champion will be a competitor, and there are also entries for the ten-mile race from Toronto, Montreal, Pembroke, Brockville, Renfrew and Hamilton.

The games are being conducted by the Allied Trades and Labor sports, who thus show that they prefer the outdoor men to the indoor men of the Ottawa Amateur Athletic Association and the track and field men of Montreal.

With the close of Fort Erie on Saturday, the racing across the river from Buffalo is over for the season, and also Windsor will not resume again till next summer. One week at Woodbine, Sept. 19 to 26, and Hamilton's meeting that follows close on racing in Canada for this year. This year the heretofore has been more restricted than ever before, and opponents cannot lay the charge that the race was run for scape-goats from New York State.

Is Hamilton's meeting only a week? you ask. Good judgment would hold to seven days, but there is no telling.

The result of the change to the opening race from the syndicate at Fort Erie must have convinced the most rabid supporters of the short odds concern that open bookmaking is the best for everyone except the layers. It is said that the western owners of the Niagara Race Club, who operated the track, cleared about \$75,000 on the Fort Erie meeting.

While the race horse is being eliminated from neglected states like New York, Illinois and Pennsylvania, the country of Mexico is joining England, Canada, etc., to form a national derby as the year's feature. The federal government has guaranteed \$250,000, in the form of \$25,000 annually for ten years, to begin in 1910, the date for celebrating the centennial festival, and has entered into a formal contract with the Montreal Jockey Club, for the nomination for the first derby must be made by Dec. 1, 1908.

Somehow or other, that N.L.U. schedule seems to be arranged for the season by a win over the Toronto, Cornwall is practically out of the running low, as they have no more chance than the proverbial snowball of beating the Shamrocks, as they are playing now, and after that the Nationals at Montreal. Well, nuff said for Cornwall. Nationals can't finish on top of the heap, but they will beat Cornwall all right, all right.

On Sept. 7 at the island the Tecumseh will likely finish the season by a win over the Toronto, Cornwall is practically out of the running low, as they have no more chance than the proverbial snowball of beating the Shamrocks, as they are playing now, and after that the Nationals at Montreal. Well, nuff said for Cornwall. Nationals can't finish on top of the heap, but they will beat Cornwall all right, all right.

On Saturday, Sept. 5, the redoubtable Capitals of Ottawa lock horns with the Montreal Canadiens, and those who were in Montreal Saturday found a belief that the M.A.A.A. bunch will put Billy Moran's Senators out of the N.L.U. race for good as far as this season is concerned. Down on the St. Lawrence they do not take seriously the beating Jimmy Murphy's Rosedale hands out to Montreal, for the reason that Hamilton, and McCorker and Angus were held for the express purpose of beating up the Ottawa aggression to a frazzle.

This may be, but somehow its hard to figure out which of hard finishers like the Caps falling down in Montreal when they have so very very much hanging on that game. If they lose they are down and out, but if they win they may be play off home and home games with Tecumseh for N.L.U. honors. My, oh my, what a game 'twill be!

A Protest Entered. Yesterday Jimmy Moran was fined for driving in front of Johnny. A protest has been entered against Johnny on the ground that he was not eligible, having raced last week at the Dufferin track.

Joe Kelley's Doves Trim Leafs Orioles Advance a Few Points

Baltimore Beats Montreal While Buffalo Shuts Out Providence—Skeeters Wallop Bronchos—Newark Here To-Day.

King Kel and his band of Doves, known throughout the baseball world as the Boston Nationals, visited this Canuck land yesterday and wrested an exhibition game from Schary's Pets by a score of 7 to 3. Of course, and naturally so, that estimable personage, Joe Kelley, who cavorted in the Leafs' outfield last season, and incidentally brought home the bacon for the local club, was the big gun, and rightly so. Needless to say that Joe received an enthusiastic welcome from the assembled populace of some 3000 fans and spectators present.

The visitors arrived in the morning and were driven around the city, but on sojourning to the island they found that their bat bags were somewhere between here and Chicago, while the home team for them to do but to proceed and put some base hits into the Toronto bats, which they did to the tune of 7 to 3. The batting must have been contagious, judging by the way Whitney swatted the ball.

Chappelle, a Tri-Stater, started on the slab for the visitors, but proved no enigma. Lindaman, formerly of Jersey City, finished the last four innings and only allowed two hits. Applegate, for Toronto, twirled a good game, errors figuring in to the Leafs.

The Leafs scored two errors off the reel, Schary getting a base with one down, advancing a runner, while Jones went to third, from where he scored when Smith threw to centre field trying to catch Whitney at second. Whitney was third. Cockman forced Whitney at the plate. Toronto's only other run came in the fourth when Chappelle threw an infield hit going to second when Chappelle threw to right field. Keenan singled, but Brown caught Thelma at the plate, and Applegate ducked on Brown. Three-base hit over short, counting Keenan.

The Doves annexed three in the second, when Ritchie and Hannigan were walked in succession, Sweeney bringing them in with a homer into the bleachers. Two more were carried into the sixth, when Hannigan forced Ritchie, but McGann scored. The score: A. B. R. H. O. A. E.

Boston: A. B. R. H. O. A. E. Wiedy, l.f. 5 0 2 2 0 0 0 Schary, 2b. 4 1 1 2 0 0 0 Whitney, 3b. 4 0 0 3 15 1 0 Cockman, 3b. 3 0 0 0 3 0 0 Keenan, r.f. 4 0 1 0 0 0 0 Brown, c. 4 0 0 6 0 0 0 Applegate, p. 4 0 0 1 4 0 0 Vandy, c. 4 0 0 0 0 0 0 Totals 38 3 10 27 14 3

MONTEAL Aug. 31.—(Special).—In an errorless game that was marked by the sharpest kind of fielding, Baltimore won today, 6 to 1. The Orioles hit better than the Beavers and played snapper inside ball all thru, making no less than six sacrifice hits that were extremely valuable. The fielding of the visitors was extremely fast, Hall and Knight especially acclimating. The Beavers made the first tally in an opening inning on a triple by Jones and a single by Evans, but after that they were never threatening. Schmidt, who pitched grand ball, having them cold. The Orioles got the run back in the third on Byers' double. Schmidt's sacrifice and Strang's infield out, and another was added in the next innings on a pass to Hall, a stolen base and sacrifice by O'Hara and Cassidy. In the seventh O'Hara singled went to second on an infield out and scored on Pfeffer's single. Hits by Chadbourne and Pfeffer and Knight, a pass to Hall, and sacrifices by O'Hara and Cassidy, gave the Baltimore team two more in the ninth. Score: Baltimore—A. B. R. H. O. A. E. Strang, 2b. 4 0 0 2 2 0 0 Chadbourne, 3b. 3 0 1 1 0 0 0 Hall, 3b. 1 2 0 3 1 0 0 O'Hara, l.f. 2 1 1 1 0 0 0 Cassidy, i.b. 2 1 1 1 0 0 0 Pfeffer, r.f. 4 0 3 1 0 0 0 Knight, s.s. 4 0 1 2 7 0 0 Byers, c. 4 0 0 1 1 1 0 0 Schmidt, p. 2 0 0 0 2 0 0 Totals 26 1 4 27 15 1

In the seventh O'Hara singled went to second on an infield out and scored on Pfeffer's single. Hits by Chadbourne and Pfeffer and Knight, a pass to Hall, and sacrifices by O'Hara and Cassidy, gave the Baltimore team two more in the ninth. Score: Baltimore—A. B. R. H. O. A. E. Strang, 2b. 4 0 0 2 2 0 0 Chadbourne, 3b. 3 0 1 1 0 0 0 Hall, 3b. 1 2 0 3 1 0 0 O'Hara, l.f. 2 1 1 1 0 0 0 Cassidy, i.b. 2 1 1 1 0 0 0 Pfeffer, r.f. 4 0 3 1 0 0 0 Knight, s.s. 4 0 1 2 7 0 0 Byers, c. 4 0 0 1 1 1 0 0 Schmidt, p. 2 0 0 0 2 0 0 Totals 26 1 4 27 15 1

MONTEAL Aug. 31.—(Special).—In an errorless game that was marked by the sharpest kind of fielding, Baltimore won today, 6 to 1. The Orioles hit better than the Beavers and played snapper inside ball all thru, making no less than six sacrifice hits that were extremely valuable. The fielding of the visitors was extremely fast, Hall and Knight especially acclimating. The Beavers made the first tally in an opening inning on a triple by Jones and a single by Evans, but after that they were never threatening. Schmidt, who pitched grand ball, having them cold. The Orioles got the run back in the third on Byers' double. Schmidt's sacrifice and Strang's infield out, and another was added in the next innings on a pass to Hall, a stolen base and sacrifice by O'Hara and Cassidy. In the seventh O'Hara singled went to second on an infield out and scored on Pfeffer's single. Hits by Chadbourne and Pfeffer and Knight, a pass to Hall, and sacrifices by O'Hara and Cassidy, gave the Baltimore team two more in the ninth. Score: Baltimore—A. B. R. H. O. A. E. Strang, 2b. 4 0 0 2 2 0 0 Chadbourne, 3b. 3 0 1 1 0 0 0 Hall, 3b. 1 2 0 3 1 0 0 O'Hara, l.f. 2 1 1 1 0 0 0 Cassidy, i.b. 2 1 1 1 0 0 0 Pfeffer, r.f. 4 0 3 1 0 0 0 Knight, s.s. 4 0 1 2 7 0 0 Byers, c. 4 0 0 1 1 1 0 0 Schmidt, p. 2 0 0 0 2 0 0 Totals 26 1 4 27 15 1

Jimmy Murray Beat Providence. BUFFALO, Aug. 31.—Providence stood no show of winning to-day against the pitching of Vowinkle and the hitting of Murray. The former held the Greys safe at all stages, while there was nothing in Glaze's assortment which the latter could not unravel, slugging out a triple and a pair of two-sackers. Murray made victory easy for the Bisons. Score: A. B. R. H. O. A. E. JOE KELLEY - Who is the Daddy of Them All to Toronto Fans.

All Out for 20 Runs. Rosedale and Grace Church played a friendly match on the latter's grounds on Saturday last, which resulted in a win for Rosedale. The features of the game were the bowling of Baines and Reid taking 6 wickets for 8 runs, and W. F. C. Seller's very fine display with the willow, making 25, not out.

The Polo Program. The field for that very popular equestrian game of polo, at the Woodbine Park, is in excellent condition. The polo club that will play here on the following days: Sept. 5, 10, 12, 14, are: Black River, Buffalo and Lieut.-Col. Michen's mounted.

The introduction of thoroughbred during the past year has been decidedly noticeable, and makes the game much more interesting to look upon. The Toronto Polo Club have improved last week by two friendly practice games with the first Buffalo team, held on the road, in which they made a very creditable showing, and without mishap in the coming tournament, they should again regain the Eastern Canada championship.

Cricket Match Off. The cricket match between T. A. C. and Toronto for this afternoon has been postponed owing to the death of Dr. Woods' mother.

O.R.F.U. MEET THIS WEEK. The O. R. F. U. executive will meet this week and appoint a new secretary, as Secretary Jos. B. Hay has resigned, owing to pressure of business in Peterboro.

Thomas in Grand Form. The Victoria Club held their week-end handicap at their grounds at 330 East Gerard-street, where some excellent tennis was witnessed. In an excellent match between W. Carlyle and D. Thomson, both men were at their best form, making a desperate struggle for first money. When the score stood Carlyle 30, Thomson 18, S. Pearson, bowled Dunmore, 1 brought his total to 21. Carlyle 20. This was probably the best game played on this ground this season, and if Thomson only plays his game in the tournament on Sept. 7, 8 and 9, he will be a hard nut to crack. D. Thomson 1, W. Carlyle 2, J. Folsom 3.

CUBS ARE CREEPING UP.

Trim St. Louis and Are Now Only a Few Points Behind Giants.

Table with columns: Clubs, Won, Lost, Pct. National League Record. New York 69 45 .606, Chicago 68 46 .597, Philadelphia 67 47 .588, Cincinnati 66 48 .579, Boston 65 49 .570, Brooklyn 64 50 .561, St. Louis 63 51 .552, Monday scores: Pittsburgh 5, Cincinnati 0; Games to-day: Brooklyn at Philadelphia, New York at Boston, Philadelphia at Cincinnati, St. Louis at Chicago.

National League Scores. At Chicago—Detroit won, Laymond pitched great ball to-day, but Overall was the stealer in pinnacles and struck out 11 men. A pass, a sacrifice and a hit by Evers gave Chicago one run in the start. In the sixth Sheckard singled, stole second and scored, but was out by Evers and Steinbult. Score: R.H.E. Chicago 100001000-0 4 1 St. Louis 000000000-0 4 1 Batteries—O'Day and Kling; Raymond and Moran. Umpire—Riger and Gardner.

National League Scores. At Cincinnati—Cincinnati made two hits off Willis to-day, Hulsevit getting both. Only one of the locals reached second base. Pittsburgh bunched six hits in the third inning, getting four runs. Score: R.H.E. Cincinnati 000000000-0 2 0 Pittsburgh 004001000-5 10 0 Batteries—Spaugh, Thomson, Kempkes, Neving, Kelly and A. Patterson. Umpire—O'Day.

American League Record. Detroit 68 48 .588, St. Louis 67 50 .573, Chicago 66 50 .568, Cleveland 65 51 .563, Philadelphia 64 52 .554, Boston 63 53 .545, Washington 62 54 .536, New York 61 55 .527, Monday scores: Cleveland 7, Detroit 0-7; Washington 3, St. Louis 4; Chicago 0, Philadelphia 1-2; New York 0-1. Games to-day: Chicago at St. Louis, Cleveland at Detroit, Philadelphia at New York, Boston at Washington.

American League Scores. At Detroit—Detroit played very erratic ball to-day, errors driving Cleveland three runs in the fourth, while passes by Summers paved the way to three of the others. Check Detroit's hits scattered and well supported. Goodie's home run drive one of the longest hits ever made on the field, was the feature of the contest. Score: R.H.E. Detroit 001101000-2 10 6 Cleveland 000001002-7 9 0 Batteries—Dunnell, Johnson and Warner and Clarke. Umpire—Sheridan and Egan.

THE ARROGANCE OF SOME MEN.

A royal commission to investigate the power franchisees in connection with Niagara Falls seems to be the next thing in order. Who got them, how they were got, who has them now? There is not all harmony in the camp—freezing-out has been going on, and there are stories to be told. Mr. Whitney can find out in this way how he was unjustly kept in opposition for eight years after he had really secured the votes of the majority of the people of Ontario. If the ring were put in defence, as they ought to be, they would not be so busy attacking the public power scheme.

We give away franchises, and once they get them the recipients turn into public enemies and try to prevent the state or people from exercising rights similar to those that the state or people have conferred on them. They fight in an underhand way the very power that made them.

And the people raise lawyers into a privileged class in order that these same lawyers may attack public rights and sue to prevent the state and the people from exercising their sovereign powers.

And the state in its legal department is enjoined into abandoning the criminal prosecution of trusts and combines, only to have men in these same combines later on institute actions to restrain the state from exercising its sovereign rights.

Where are we going to land? You'd be surprised at the number of men in Toronto who have grown arrogant on state concessions to think the people are servile, not sovereign.

If Sir James Whitney takes the courageous course he will discipline all these public enemies, these arrogant franchisees and law-breakers in quick order.

But he's got to have the right kind of timber in his cabinet.

SILVER AND ITS FUTURE.

In an article contributed to the September number of The Popular Science Monthly, Mr. Theo. F. Van Wageningen, E.M., of Denver, Col., takes an optimistic view of the future of silver as a precious metal. The subject is interesting, and its discussion timely, now that Canada has in Cobalt what promises to be one of the most important centres of silver production that are yet known, and one that is likely rather to increase than diminish in extent and value. The Dominion does not yet bulk largely as regards its silver output, since of the 6400 tons Mr. Van Wageningen gives as the world's crop of silver for 1907, Canada appears for 400 tons only. This does not compare favorably with Mexico's 2300 tons, the United States 1900 tons, or even Europe's 760 tons. But there is every probability that the Dominion are properly expected to occupy a position much further up the list than that now accorded.

Mr. Van Wageningen's article is full of matter, and is really a condensed history of silver and the place it has held and holds in the world's economy. Previous to 1870 it was reckoned as a precious metal, and by tacit agreement possessed a definite value in terms of gold of \$1.23 per fine ounce. But when the single gold standard became general among the western nations, silver, of course, became a commodity, and the demand has greatly increased the production has nearly quadrupled, resulting in a steady fall in price to 65c, the average for last year. But thru the centuries until its demonization, silver, in Mr. Van Wageningen's words, has been intimately associated with the advance of civilization, and the movements of trade and commerce especially between east and west fluctuated with its scarcity or abundance. Spain as the first great silver-mining country of the world had an unrivaled opportunity and prospered prodigiously until her vitality and the independent spirit of her people was sapped thru the exploitation of her American colonies, followed by their revolt and the end of her domination in the west.

Modern scientific methods of treatment have, of course, added materially to the yield of silver. Notwithstanding the enormous output the mines of Mexico and the United States show no signs of exhaustion, and new deposits are continually being found. But in Mr. Van Wageningen's opinion "the demand for the metal is growing, and may be expected to increase markedly in the near future." From 2500 to 3000 tons of silver are required every year to maintain trade with the three largest consumers, who are also the three great backward races—the Hindus, the Malays and the Chinese. When these 800,000,000 are thoroughly aroused there will come, he thinks, at least as large a call for the metal as that which now exists, "for silver is the only money the orient recognizes, or can use." Practically none of the silver exported to the east of Europe has ever come back, and "this curious process is in progress to-day with nearly five-fold the vigor of the past." And another possible outlet for silver arises from this, that it is the best conductor of

electricity of all known substances. Neither, too, can any metal at present available take its place for small coinage, or for ordinary table wear and decorative purposes. Mr. Van Wageningen concludes that as Asia produces less than 3 per cent. of the total world's crop "there is still a large field for silver in the orient, and its exploitation and development is undoubtedly the next great task of the Caucasian. And in this view the silver miner may take some comfort." Canada, too, may take additional comfort from the fact that no country is better placed for sharing in that exploitation and development.

THE NEW BRITISH PATENT LAW.

Considerable discussion is taking place over the new English Patent Act, which went into effect on Thursday last, one year after the date of its passing. As previously explained, the act is intended to compel patents taken out in the United Kingdom to be worked within the country if they are to escape revocation, and the first effect of the provision has been the erection of many large plants for the manufacture of patented substances and articles hitherto imported only. Other foreign firms, chiefly German and United States, have entered into agreements with British manufacturers for the same purpose, and the measure, who the deficit or not, on other grounds, is undoubtedly of protective effect, as regards British industries. This is the aspect of the act that has surprised the Germans, who had the decided impression that under the auspices of a free trade government they would remain in possession of the unrestricted British market they had all along enjoyed.

The British patent law, as it previously existed, was certainly imperfect in that it afforded foreign inventors full protection against piracy by British firms, even to the articles and substances patented were entirely manufactured abroad. In such cases as that of aniline dyes the effect was simply to give "German patentees a monopoly of the British market, the home manufacturers being, of course, unable to obtain licenses to use the protected processes. As the law now stands, the free traders are continually holding up Germany as a melancholy example of the evils of protection, they by the new act deny to British consumers the advantages of the cheaper production, which the supposed lower rates of wages in Germany allow. This will become evident when, as is likely, the prices of the substances affected are raised to meet the increased cost of manufacture. The new act is likely to be followed by the enforcement of a corresponding condition in the case of British inventions protected by foreign patents, but it will not hit the United Kingdom as hard as the alteration of the British law has hit Germany.

KEIR HARDIE ON GERMAN WAR SCARE.

Keir Hardie deals with the anti-German scare in The Labor Leader. After taboos the idea that Germany is making preparations for an invasion, Mr. Hardie asks, assuming that the danger of such an invasion is real, what is the duty of Socialists and Laborers? "Is the German Socialist movement a fraud, and the Socialist party, with its three-and-a-half million voters, a sham?" he asks. "Is our own Labor party, with its million-and-a-half trade union adherents and its magnificent Socialist backing, a thing of no meaning? As surely not. When there was trouble threatened between France and Germany over the Morocco affair, what did Jaures and Bebel do? These representatives of Socialists followed unhesitatingly, not only in the interests of peace, but to convince the governing class in both countries that not only would they oppose war, but that if war broke out there would be industrial developments which would paralyze the whole military system.

GREETINGS TO TOLSTOY.

This is the cablegram to Count Leo Tolstoy from the Single Taxers of America congratulating him on attaining his 80th birthday: "Greetings from American admirers to humanity's foremost friend, the strongest worker for universal brotherhood, whose denunciation of governmental bigotry and tyranny is hastening political and mental freedom, whose advocacy of Henry George's principles is hastening economic freedom and whose dream of peace and justice is advancing towards acceptance."

If you are interested in having your surroundings made more attractive, see your views in this column. It may assist the city officials in their efforts to beautify Toronto.

"COURT OF REVISION AND TAX ADJUDICATION."

Editor World: Will you kindly make the following correction in my letter of yesterday, viz: "It is forty-two (42) mills in the dollar of my total income, not 24 mills as you have it, and twenty-five (25) mills in the dollar of total income and equity in property combined."

Toronto, Aug. 31, 1908.
Robert Cuthbert.

LIGHT OUT.

Editor World: I wish to make a suggestion that all citizens who have verandahs lit up by electric or other light have them lighted for the next two weeks during the exhibition. The street on which I reside has about twenty-five all fitted with light. It would illuminate the streets and make the city look gay and bright.
M. O. E. Armstrong.

Pianos to Rent.

Heintzman & Co., Limited, 115-117 West King Street, Toronto, make a feature of renting pianos at a small sum per month, and what is paid in this way will, when desired, be allowed on the purchase of a piano. If interested, see them.

LESLIE GETS A REFUND BOND COVERS TOO MUCH

Entitled to Return of \$7.20 According to the Report of the City Auditors.

The report of Special Auditors Barber and Vignon on the exhibition accounts makes a number of minor recommendations in addition to the chief recommendation that the finances be brought under the control of the city treasurer.

The report says that the audit covered the years 1904-5-6-7 and up to July 31, 1908, and that after crediting \$25,725 deposited by Mrs. Leslie, and \$1181 for tickets returned, the condition of the books at present shows an indebtedness to the late treasurer of \$7.20, made up as follows: "Debit balance per cash book, \$24.470.80. "Credit balance, per bank as adjusted, \$24,278; petty cash, \$200—\$24,470.80. "To late treasurer's credit, \$7.20."

Attention is called to the fact that during the years mentioned prizes amounting to \$1292 have been paid to sundry exhibitors. To John Chambers for Exhibition Park exhibit, \$718; to J. M. Watkins for Allan Gardens exhibit, \$471, and to D. Robertson for Reservoir Park exhibit, \$103. The auditor in calling attention to these items, says: "We are not aware whether these matters are considered or not, but we bring the subjects to your notice for such action as you may deem necessary."

It is stated "that the balance brought forward from 1903 is carried on irregularly part of it not being credited until April 7, 1904, and entered as deposit by treasurer, and that there is a discrepancy between the three sets of figures in regard to ticket receipts for 1907, which, it is said, can be explained, but with regard to which we have not been satisfied, the we do not think in any case the auditor will be chargeable to the late treasurer."

These recommendations follow: "That the treasurer be an appointee of the city council under the supervision of the city treasurer. That the board at its first meeting each year should pass appropriations for the expenditures of the various departments. That the treasurer keep an appropriate ledger in which all expenditures shall be charged against the various appropriations. That a committee of the executive committee should be formed to act as a financial committee, and that the chairman of this committee be a member of the board of control. That all payments shall be properly and correctly vouched in form satisfactory to the city auditors. That all cheques shall be certified by the chairman of the financial committee. That a general ledger shall be kept by the treasurer. That the treasurer shall at stated meetings of the executive committee a statement of the financial affairs of the association, the balance in the bank book being verified by the production of a certificate from the bank manager. That the treasurer's cash book shall be written up and all cash deposited in the bank daily to the credit of the Exhibition Association. That an official receipt consecutively numbered, with countersfoil, should be issued for all moneys received. That the manager shall keep a register of all concessions or contracts sold or made by him, separate from the treasurer's register, and as check on same. That the whole financial conduct of the association be placed under the supervision of the city auditors. That the auditors express confidence that with these changes made all occasion for anxiety regarding the finances will be removed. Should these recommendations not be adopted some other method must be used "to ensure closer scrutiny and more direct control of the expenditures of the exhibition and the representative officials that is now the case."

Far Commissioner Wilson says that he does not approve the taking part in any competition for cash prizes. The reason that park superintendents are exhibiting collections of plants is because the exhibition management expressed on the board of control that the prize lists had been made up, and that the withdrawal of the city's entries would spoil some important competitions.

THE QUEBEC BRIDGE.

In connection with the rebuilding of the Quebec bridge, an effort will, it is said, be made to have the structure completed and in shape for use by the time that the transcontinental railway is ready for operation in 1911. It seems to be taken for granted that the bridge will be built where the old one stood, and it will be for the three engineers whom the government has appointed to prepare plans and to say also whether the present plans shall be used again, and also whether any portion of the steel made by the Phoenix Bridge Co. for the old bridge shall enter into the construction of the new one.

Negro Fought Policemen.

CHATAM, Aug. 31.—(Special.)—Nelson Parker, a negro with a long police court record, was brought before Mayor Scullard this morning, charged with resisting arrest and assaulting Officer Groves. He pleaded guilty and will be sentenced by Judge Bell on Wednesday. Parker blackened one of Groves' eyes and tried to gouge out the other.

EATON'S DAILY STORE NEWS

The Store Closes Daily at 5 p.m.

To-day's Special Lunch, 25c

SOUP
Vegetable, with rice.

MEAT
Roast loin pork, stuffed, apple sauce.

VEGETABLES
Creamed mashed potatoes, corn on cob or buttered cabbage

DESSERT
Deep apple pie, whipped cream. Bread and Butter.

Tea, Coffee, Milk

Breakfast served 8 to 11 a.m.
Dinner—11 to 2.30.
Afternoon Lunch—2.30 to 5 p.m.
Sixth Floor.

Exhibition Visitors

From 8 a.m. till 5 p.m. this Store is yours to use.

Meet your friends. Write your letters. Check your parcels.

Ask for information—Make yourselves at home.

We will have daily price inducements in all kinds of the goods we think you're likely to need—but buy if you like. No Coaxing here.

Go anywhere in the Store you like, ask as many questions as you like—you'll be treated courteously.

If you'd care to go through our factories, say the word at the Superintendent's office, second floor—we'll furnish guides. Make yourselves at home—Enjoy yourselves.

THANKS

To the Winnipeg Citizens' Band

which serenaded this store yesterday for an hour at noon.

When a large and excellent musical organization from the greatest city in the West desires to honor the parent store and show its appreciation of Eaton business methods, as exemplified by the Eaton store in Winnipeg, there's something about it that appeals to the heart.

Business is business, but incidents like yesterday's serenaded puts even a big store in the humor for sentiment.

THANKS BOYS—WE APPRECIATE IT.

Sewing Machine?

Select a Sewing Machine that will satisfy you in every particular. Our *Eaton's* Style 24, Sewing Machine is the best. The most popular style in the five-drawer drop head *Eaton's* with automatic lift. Ten years' guarantee with each machine. The price... \$24.50

At the Exhibition

The making of *Eaton's* Boots will again be demonstrated in the Process Building at the Exhibition this year. Both men's and women's *Eaton's* will be made and we wish to invite our friends to carefully investigate the Goodyear Welt Process employed in making them.

The wonderful machines of this system have arrived at the grounds and are now in full operation under the direction of the United Shoe Machinery Company, Montreal, through whose kindness we are permitted to make this remarkable demonstration. Remarkable for every part of the material and the method of putting it together is open for your most critical inspection. You will be surprised at the quality of the materials used and the care taken in their manufacture, but every thing is identically the same that is regularly employed in making *Eaton's* boots the year round. It tells the whole story of *Eaton's* popularity and success. No demonstration could be arranged that would be more convincing or interesting. We most cordially invite everybody to inspect it.

EATON'S FOR TROUSERS

See the New Dollar Line And the Two Dollar Line

Our trade in trousers is tremendous, and with good reason. Immense quantities bought for cash and sold for cash enables us to sell closely-bought goods at a close margin, and to-day the verdict is "Eaton's for Trousers." "Nothing succeeds like success," and the more we sell the better value we can give. See the value we offer for a dollar, good Tweed Trousers, and for two dollars, imported English Worsteds, new fall patterns, workmanship faultless, the product of our own factory.

Let us emphasize: new goods, new patterns, choice variety, good trimmings, side and hip pockets, and everything as it should be. But the best way to appreciate these values is to see the goods.

SEEING IS BELIEVING. COME AND SEE.

At \$1.—Light, medium, and dark domestic and English tweeds, fall patterns of stripes. Good striped patterns, side and hip pockets. Sizes 32 to 42. Every day at Eaton's, per pair \$5.00

At \$2.—Dark imported English worsteds, solid cloths in new fall patterns of stripes. Good trimmings, side and hip pockets. Sizes 32 to 42. Every day at Eaton's, per pair... \$2.00

and painting from the early efforts of a public school pupil to portray the

Sir Charles Moss was sauntering about the manufacturers' building and President W. K. George was not far away yesterday afternoon.

In the process building. In the process building the manufacture of the Eatonia 33 shoes is shown from start to finish.

The program is equal to the capacity of several ordinary circus audiences and no doubt the crowd will be there.

But if this be not worth enough there is the corduroy road. Here there are the Hindu show, the trained wild animals, the animal curios, Bon Tom vaudeville, Katzenjammer, Cactus, Mamie show, Crystal Maze, Griffin's moving pictures, Miss Sibley, Dr. Stewart's infant incubator, donkeys in the ring, little world, John's glass blowers, human laundry; dog, pony and monkey circus; temple of illusions; Seven English Roses; 528 lb. woman; Lilliputian Village, ostrich farm, seals and sea lions.

play, and Ontario can well afford to give space to sister provinces. Alberta, Saskatchewan and Nova Scotia have taken advantage of the opportunity this year, and offer attractive exhibits.

Alberta's model wheat field, with the rancher behind, while not so impressive as the Dominion exhibit at Dublin last year, is a pretty effort. A beaver, prairie dogs, a wolf, a snowy owl and partridges on the wing are picturesque adjuncts.

Saskatchewan might be thought to abound in wolves, wild cats and wheat from her exhibit, but there are water fowl, porcupines and prairie dogs of varied variety also. The exhibit was not quite complete, but the model grain elevator was going yesterday and attracted attention.

Nova Scotia has heaps of ore and coal, and the obelisk representing the gold produced by the province up till Sept. 30, 1905, suggests what might be to covetous eyes. As much gold as it would do worth \$16,293,764. Pieces of it would do worth \$16,293,764.

The Canadian railway building is naturally one of the big features of the fair, and hours may profitably be spent here for the most part.

Matters studying grains and soils and climates and homestead conditions. The vastness of Canadian land is held of one distance and limitless resources, and the future of the nation is nowhere so insistently apparent as in these things.

But the whole Canadian National Exhibition is alive and pressing with the same thought and feeling, and the life and wealth and energy of Canada. Those who miss a year of Toronto's exhibition should not miss this one.

It is doubly astonished to perceive the extent of its development, and he is lacking in civic pride who fails to pay the tribute of a visit to this emblem of our national prosperity.

AN APPETIZING DISPLAY

500 Varieties of Fancy Delicacies Showed by Christie, Brown Co.

A tower of biscuits! Designed on classical lines and architecturally correct in detail, Christie, Brown Co.'s building exhibit in the manufacturers' building presents a most attractive appearance.

It is easy to locate and is one of the attractions of the exhibition that should not be missed. From the main entrance the visitor follows the building, walk into the centre aisle and turn a few paces to the left and there it is.

The tower is large enough to contain the most tastefully decorated with all manner of dainty favors enclosed in "Christie" biscuit boxes.

Very far removed from the art of the artist's sense for effect. In another style, less bold, but full of the peculiar atmosphere which made the reputation of the Glasgow school of artists, is the large canvas "A Fair

Archiebald Temple, whose weakness for the decorative is not in evidence here. Many of the difficulties inseparable from compositions of this class, Mr. Carleton Woodville's "Jameson's Raid," is a vigorous and successful picture.

One of the features of the Midway at the exhibition grounds is the glass blower's performance. He is bound to be a mecca for thousands of sightseers who are looking for sights.

O. H. Johns, already well known to Torontoans, is giving a most attractive performance, but his troupe all display much skill. There is no faking about the show. Everything is done open and above board, in full view of the spectators.

That they cannot speak is a piteous misfortune, for the trained animals, the dog and pony show seem to possess a certain amount of intelligence that would do credit to many of the human race.

The future of the circus is bright. Nobody who is curious about his (and especially her) future should leave the fair grounds without first visiting Mrs. E. Baxter's phenology palaeontology studio.

The veterans have pitched their tent on the lake front south of the manufacturers' building, just east of last year's location.

The most immediate advantage in insurance for young men is promised in the new life insurance policy, which insures the continuance of the income during the most protected period of illness, or incapacity from work.

Automobiles for Hire Telephone Main 5851 THE RUSE AUTOMOBILE CO. 80 and 82 William St. 246

Art at the Exhibition

For this year's National Exhibition there has again been assembled a notable selection of loan pictures secured from various British art institutions, civic galleries and private sources.

In addition there are a number of works by modern French painters which unfortunately cannot by any extension of the word be called representative.

Indeed as a whole these latter are distinctly disappointing, but they enable a glimpse to be obtained of the artistic quality associated with the Gallic schools, and this is the more to be regretted on account of the lighting, the perfection of which is not to be denied.

The Canadian railway building is naturally one of the big features of the fair, and hours may profitably be spent here for the most part.

Matters studying grains and soils and climates and homestead conditions. The vastness of Canadian land is held of one distance and limitless resources, and the future of the nation is nowhere so insistently apparent as in these things.

But the whole Canadian National Exhibition is alive and pressing with the same thought and feeling, and the life and wealth and energy of Canada. Those who miss a year of Toronto's exhibition should not miss this one.

87 CARS AT UNION RYDS QUALITY GENERALLY GOOD

Prices Inclined to Be a Little Easier-Sheep, Lambs and Calves Steady-Hogs \$6.50 Cwt.

Receipts of live stock at the Union Stock Yards were 37 loads, composed of 132 cattle, 50 hogs, 377 sheep and lambs, and 18 calves.

The quality of fat cattle was generally good. The quality of fat sheep was also good.

Nearly all the wholesale butchers and abattoirs were represented on the market, many of them being heavily stocked.

Trade was inclined to be a little slow, owing to the heavy delivery of cattle.

Exporters. Only one steamer reported the latter price, and they cost \$8 per cwt. in the country some time ago.

Butchers. A few prime picked lots of butchers' cattle, mostly of the heavy weight, were sold at \$4.80 to \$5.12 1/2 per cwt.

Representative Sales. A. W. Maybes sold: 15 exporters, 1150 lbs. each, at \$4.80; 15 exporters, 1200 lbs. each, at \$4.80; 15 exporters, 1200 lbs. each, at \$4.80.

Chicago Live Stock. CHICAGO, Aug. 31.-Receipts, 25,000; market strong; steers, \$4.75 to \$7.20; cows, \$4.50 to \$6.25; heifers, \$3 to \$5.75; bulls, \$4.75 to \$7.50; calves, \$2 to \$7.50; hogs and feeders, \$2.50 to \$4.50.

Hogs-Receipts, 17,000; market 1/2 to 3/4c higher; choice light hogs, \$6.75 to \$7.10; packing, \$6.75 to \$7.10; bulk of hogs, \$6.75 to \$7.10.

Sheep and Lambs-Receipts, 25,000; market 1/2 to 3/4c higher; choice light sheep, \$6.75 to \$7.10; packing, \$6.75 to \$7.10; bulk of sheep, \$6.75 to \$7.10.

Calves-Receipts, 1,000; market 1/2 to 3/4c higher; choice light calves, \$6.75 to \$7.10; packing, \$6.75 to \$7.10; bulk of calves, \$6.75 to \$7.10.

Montréal Live Stock. MONTRÉAL, Aug. 31.-Receipts, 1,000; market 1/2 to 3/4c higher; choice light hogs, \$6.75 to \$7.10; packing, \$6.75 to \$7.10; bulk of hogs, \$6.75 to \$7.10.

Standard Stock and Mining Exchange. Cobalt Stocks. Amramated, \$1.00; Buffalo, \$1.00; City of Cobalt, \$1.00; Central, \$1.00; Cobalt Lake, \$1.00; Comanza, \$1.00; Crown Reserve, \$1.00; Foster, \$1.00; Green-Mechan, \$1.00; Kerr Lake, \$1.00; Little Nipissing, \$1.00; McKin-Dar-Savage, \$1.00; Nova Scotia, \$1.00; Ontario, \$1.00; Peterborough, \$1.00; Silver Lake, \$1.00; Silver Queen, \$1.00; Temiskaming, \$1.00; University, \$1.00; Yukon, \$1.00.

STRONG, BUT REGULAR NEW YORK CLOSES EASIER

Wall Street Fails to Support the Early Quotations—Pools Subside at Toronto.

World Office, Monday Evening, Aug. 31.
With a relaxation in pool operations there was the usual falling off of transactions at the Toronto market to-day. A strong and active week until last Friday was expected to develop big outside buying this morning, but this did not materialize and promoters have now to adopt a new procedure to account for the fact that the whole of the Toronto market was weak to-day, but the pools were compelled to give a good support to prices and quotations therefore saw but a small reaction. Investors and speculators are both scared of present prices, and very few outside buying orders for either account were received by brokers. The market is viewed as one entirely in the hands of the financial operators and therefore largely fictitious. Investment purchasers continue to fight shy of the exchange, as is apparent by the small demand for this class of securities which supply this end of the market.

Wall Street Pointers.
Taft appeals to farmers to support Republican ticket.
London market confident, while Paris bourse is uneasy over possible complications in Morocco.
Pig-iron market stronger.
Reported American Sugar dividend may be increased from 7 to 8 per cent.
Twenty-five roads for third week in August report gross earnings of 25 per cent.
Three banks reported less than 25 per cent. in statement.
Government crop report will be made next week.
Vice-President Bray of the Republic Iron and Steel Co. says he does not believe the report that the company is to be merged with the U. S. Steel Corporation.

Western traffic managers report tonnage satisfactory compared with 1936, which was then largest record. They report new life in dry goods trade and decidedly better tone in iron, steel and lumber.

Joseph says: Morgan returns on Thursday. Then there will be something doing in his specialties, particularly in S. R. and Steels. Forthcoming developments in Consolidated Gas explain why this stock is worth 250. Pacific shares are going higher. Take advantage of little dips to buy. Specialists: Steels are very good. Colorado Fuel is going up. Bull Consolidated Gas.

NEW YORK: A man in this city who keeps in close touch with Canadian Pacific says that he does not credit the rumor in circulation in Montreal, recently that the company would soon make a new issue of common stock. The financial statement of the offerings that was made early this year of Canadian Pacific is not payable until Oct. 15 next. Had one think that an additional amount will be offered until the most recent issue shall have been cleared up. The com-

pany has in its treasury about \$4,000,000 of common stock, authorized some time ago by the shareholders, but which has not been offered to the public.—Town Topics.

The market is still in the hands of the strong bull party and it still seems advisable to buy the leading active stocks on a good bracket—shop at least for good turns. Some stocks will likely advance to much higher figures, but for the present we think it will prove a part of wisdom not to look for too much in the way of profits. The best results from day to day will be found in trading in Reading, Southern Pacific and Union Pacific. We have reason to believe that strong efforts will be made to advance Pennsylvania considerably above its previous high levels of the year for the effect this would have upon the general investment public. Atchison, St. Paul and Anaconda have also the backing of very strong interests, which are talking of a good boom, more than most stocks. Insiders in Smelters, Colorado Fuel and International Pump are confident that these issues will do a great deal better. The decrease in the number of idle freight cars will help sentiment as regards the rails, and this item should show improvement right along now on account of the crop growing demand as a matter of fact, however, the falling off in the transportation of the higher class freight is what is hurting the railroad worse. We are looking for rather irregular market to-day and lower prices, which should offer opportunity for favorable purchases.—Town Topics.

ALBANY, Aug. 31.—A number of bills passed by the legislature this year and approved by Governor Hughes, amending the penal code, which is the most important of which is the so-called anti-bribery law, go into effect to-morrow. The act aimed at racketeering and prohibits the purchase or sale of securities when the contract is based merely on the public market quotations, and there is no actual bona fide receipt or delivery of such securities. It provides that brokers must furnish upon written demand to any customer an order for the actual purchase or sale of securities, containing the name of the persons or firms from which the stock was purchased, and to whom sold.
A bucket-shop is defined as a "room, apartment, booth, office or store therein, or any place where any contract prohibited by this act is made or offered to be made."
Violation of the law is made a felony, punishable by a fine of \$5000 or imprisonment for not more than five years, or both. The supreme court is given power to dissolve a domestic corporation convicted of a second offence.

On Wall Street.
Charles Head & Co. to R. R. Bondard?
The stock market to-day developed considerable irregularity, with a shrinkage in the volume of dealings compared with recent averages. The buoyant sentiment engendered by the display of strength on Saturday was reflected in a good buying demand at the opening, with commission houses taking liberal amounts of the leading issues. Stocks were freely supplied on the bulge, and the market was selling side at the end of the first half hour, causing a reaction of 1-2 to 1-1-2 points. There was little disposition evident, however, to sell on the reaction, while the commission offerings. After the first hour interest centered largely in special movements, Consolidated being strong feature, and there was a good enquiry for American Tel. & Tel. Southern Pacific was the strongest feature of the railroad list, the buying apparently coming from inside sources, and according to current gossip, being designed to sell on the reaction, and to offer new common stock at par. Discussion of the probable results of tomorrow's state election in Vermont, which is feared will show a liberalized Republican majority, and probably have an unfavorable effect upon the popular sentiment, caused some realization by timid holders, but there was nothing to indicate that the larger interests have suffered any diminution of confidence in the ultimate outcome. The bond market, tho somewhat less active, continued to reflect a good underlying demand, with confidence in the continuance of easy monetary conditions for an indefinite period. After mid-day the market was largely in the hands of traders, with occasional spurts of activity in specialties. The closing was irregular, with an uncertain tone. Marshall, Spader & Co. wired J. G. Besty, 14 West King-street, as follows:

The market was subjected to a severe test of its technical strength last week, and from present indications, even in the absence of pronounced general support, prices are apt to be carried higher, particularly in those specialties now being made market leaders. A comparison between dividend returns and money rates for the next six months, if not longer, is in nearly all cases favorable to the security as opposed to the loan, and so long as this continues pressure on the market is likely to be very moderate.
Ennis & Stoppani wired to J. L. Mitchell:
Following a steady opening with a liberal amount of buying orders from commission houses, the market developed a buoyant tone in the afternoon, the market is still in full control of the prominent bulls, and while the returns from Vermont tomorrow will be viewed sharply, it should have no effect on the market unless the Democrats should show extraordinarily surprising strength. The general business situation does not yet show sustained improvement, although orders of considerable importance are being received, and, in consequence, production is being increased.
J. R. Helitz & Co. wired R. B. Holden:
On sharp bulges it may be the better part of prudence for those who are long of stocks to take their profits, and the idea of recovering their holdings to some advantage. During the last half hour the market became reactionary, and from present indications the reaction may run some further to-morrow, but such event by leading stocks for quick turns.
