MUST ALLEVIATE PEACE CONDITIONS

German Chancellor Issues Statement Urging Allies to Moderate Demands.

IN OWN INTERESTS

London, Jan. 15.—The German chancellor, Gustav Bauer, has made a statement to the press regarding Germany's intentions in carrying out the terms of the peace treaty.

"We are resolved to carry out the Versailles treaty, however difficult, for we have no desire to pursue a policy of revenge. But we also expect that the entente will be prepared to permit mitigations when it has been proved that fulfilment of the treaty in its present form is impossible."

"I trust that the entente will soon realize that it lies in its own interests to alleviate the peace conditions. In practice, the terms of the treaty are to be carried out in the same spirit as the armistice, it will not mean the commencement of a state of political warfare."

"I hope the entente will soon appreciate that in this way it is impossible to create stable conditions, not only on general political principles, but also for reasons of real policy."

HYDRO Power Shortage

The capacity of the generating plants at Niagara Falls, available to the Commission for supplying the power and lighting demands in the Niagara district, has reached its limit, which has necessitated the Commission limiting the amounts of power that can be supplied to the Municipalities in the Niagara district.

The power shortage during the winter months is greatly increased by the overlapping of lighting and power loads, by the extensive use of electric heaters, and also at times on account of the blocking by ice of the water supply to the generating plants.

The Commission are asking the co-operation of every Hydro user, whether domestic or industrial, to assist them in conserving power and light in every possible way in order that an uninterrupted service may be maintained, until a further supply of power is obtained for this system.

Today the Men's Clothing Section Enters the January Sale

Hence such an offering for which extra space has been reserved, and extra salespeople employed in order that shopping may be quicker and more comfortable. In the offering are ulsters and ulsterettes. The ulsters are the warm, double-breasted, comfortable sort and of dependable brown or grey tweeds, chevots and friezes, and blue nap or chinchilla cloths. Some are all wool, others are wool and cotton, and some are cotton and wool. Linings are of twilled Italian cloth.

The Ulsterettes are designed for young men, some having the narrow all-round belt, others the waist line, and slash or regular pockets. These, too, are well made and should prove the best of winter coats. Materials consist of tweeds, some all wool, others wool and cotton. In shades of grey and dark brown.

As an Extra Attraction, Some 40 or So, Sheepskin (Chamois) Interlined Wool and Cotton Tweed Ulsters Will Also Be Included

They have the wide convertible collars, regular pockets and wind strap on sleeves. A few brown wool and cotton melton Chesterfields, in single or double-breasted style, with self collars, are also included. The coats for men are in sizes from 35 to 44. Those for young men are in sizes from 34 to 39. Note the half price markings again, \$7.50, \$9.00, \$10.00, \$10.50, \$11.25, \$11.85, \$12.50, \$14.00, \$17.50 and \$18.00.

BOYS' GREATLY REDUCED

AT \$18.00

Many of the Best Coats Are in the Offering

A number of them are all-wool coats, some are of wool with just a slight percentage of cotton, and the remainder are made of thick warm wool and cotton mixed materials.

\$18.00

It is, in fact, an assemblage of odd coats selected from our higher priced and most popular lines ---the price of every coat bears the marking of a reduction of several dollars.

There are soft, fluffy finished blanket-like fabrics as well as firmly woven tweed coatings, in plain, medium, and dark grey, browns, and greys in faint, rich striped effects, cosy looking dark checks and novelty mixtures, and a few in medium and dark shades of green. There are single and double-breasted models with two or three buttons. Most of them are of the fashionable, smart waist line design that boys like so well---a few are substantial looking belters and quite a number, too, are both---a combination waistline and belt, to be worn either way as desired. The collars are either snug convertible style, or show wide peak, shaped lapels, and in pockets you'll find patch, set-in, as well as the slash effect.

\$18.00

The linings are of black mercerized cotton or twilled union wool and cotton. and a few have silk yoke, sleeve lining, and silk taped seams. Sizes 30 to 36, to fit boys of 12 to 18 years. Today, each, \$18.00.

EVERYBODY'S DOING IT ELECTRICALLY

Or nearly everybody. There are a few—a very few—Canadian citizens who have not yet grasped the truth.

WHAT TRUTH?

That doing it electrically is the best way, by far—cleaner, quicker, more sanitary, safer, cheaper—turns drudgery into pleasure—places leisure and luxury at the disposal of all classes of the community.

CLEANER?

Yes. No coal dust, no ashes, no soot, no dirty floors, no dingy walls, no blackened hands and face. Flowers bloom in an electrical atmosphere as in the sunshine. Truly, it is twin brother to Godliness.

QUICKER?

Yes. A snap of the switch and it is done. It works while you—Rest.

MORE SANITARY?

Yes. No dust-laden atmosphere, no poisonous fumes; the air keeps pure as mountain breezes.

SAFER?

Yes. No matches in the electric home, no open flames, no fires from lamp explosions. The children are safe.

CHEAPER?

Without question. Listen! You spend two cents every day for your favorite paper, but here is what the same year—just two cents—spent electrically, will do for you. Supply ample light to read by four hours every night, for ten nights.

Operate a vacuum cleaner (does away with housecleaning) three hours a week for a quarter of a year.

Make toast for your family every morning for two weeks. Do the family wash for two months.

Iron a good big washing.

Make the finest coffee you ever tasted every morning for three weeks.

Do a hundred and one other things better than human hands can do them.

Save your time, worry, work—add hours to your every day—years to your life.

In fact, Electricity does everything and anything you want done in the office, factory or home—no grout, no demand for shorter hours, no hold-up for higher wages. The day's work is hard enough at best. We can brighten it and lighten it for you—ELECTRICALLY. Our watchword is SERVICE.

Economy

The use of electricity for as much of the housework as possible is now recognized as essential by all women who aim to apply thrift to the management of their households. There is no direction in which electricity "works" to better advantage than in the washing and wringing of clothes, and the ideal way to apply electricity to this phase of home-economy is by installing a

1900 CATARACT Electric Washer

An exclusive feature of this washer is its "figure 8" motion which swirls the hot, soapy water through the clothes four times as often as in the ordinary washing machine.

The "1900" Cataract washes everything—heavy blankets or fine lingerie—without wear or tear. Saves time, clothes, money—saves the money you pay for household help.

Try it before you buy it—ask for particulars of our trial offer.

THE Electric Heater is one of the main causes of the present power shortage on the Niagara System.

Ice troubles at times reduce the available supply at the generating stations. If the consumers would switch off heaters and lights when not absolutely necessary, it would go a long way to enable the municipalities to give continuous power service to essential industries.

The Queenston-Chippewa Development will, it is hoped, be generating power in 1921, but until that time consumers supplied from the Niagara System must co-operate or the best results cannot be obtained from the power supply available.

Many appliances, such as the Electric Washer, which is the best appreciated labor-saving device that can be introduced into the home, can be used without affecting the power situation.

HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

Will Sauce for the Ontario Geese Be Sauce for the Manitoba Gander?

The United Farmers of Ontario destroyed the only provincial Conservative government existing in Canada on October 20 last. Flushed with their success, a week later they carried a federal by-election in Stormont-Glenary, and a month later scored another federal victory in the riding of North Ontario.

The western farmers, no less ambitious, having carried a federal by-election in Assiniboia, are planning to carry the next provincial general elections in Manitoba, Saskatchewan and Alberta. To this The Winnipeg Free Press most emphatically objects.

It was all right to chew up Hearst and the Conservative party in Ontario, but do not touch the Norris government or the Liberal party in Manitoba.

What the farmers will do in the western provinces remains to be seen. Mr. Crerar is frankly opposed to their entering provincial politics, but the temptation is strong for them to do so, and they would enter the contest in Manitoba with something like marked cards and loaded dice.

The New Egyptian Bondage. The news from Egypt makes you wonder who it is that are really in bondage—the British bureaucracy, which has made such a mess of things since before the war, the Milner mission, which cannot seem to make a beginning in conciliatory conciliation, or the Egyptians themselves, who appear not to have known the miseries of Turkish tyrannies from which the British occupation delivered them so long ago.

The suspension of the assembly at the outbreak of war was a grievous error, and so was our refusal to employ the Egyptian army. While we were pressing the late czar to convoke the duma, we were committing in Egypt the very fault for which we condemn-

ed him. Our attitude towards the Egyptians was rooted in mistrust, and produced the reaction of which we now see the consequences. We placed a new ruler on the throne of Egypt, and declared a protectorate, without giving the smallest clue to our ultimate purpose. We left millions of suspicious Egyptians to speculate in vain for five years about our future policy. We changed the docile cultivators into exasperated opponents of our rule by recruiting a million men for the Labor Corps by methods which, in the later stages, deserve the severest condemnation. No one knows even now the extent of the mortality among these corps, and the deaths were never notified to their families. We exacted heavy contributions from the Nile villages to the Red Cross fund, ignoring the fact that the symbol under which the demands were made was foreign to the religion of the peasantry. It is no answer to say that the corruption and the malversation of funds were the work of Egyptian subordinates. The ultimate responsibility rested upon British officials. The effect of these and other administrative errors upon an extremely illiterate population requires no emphasis. The illiteracy of Egypt is a grave reflection upon our rule; even today only eight per cent. of the males and one per cent. of the females are literate. Those Egyptians who sought education abroad found entry into their own public services increasingly barred to them. There were 286 Englishmen in the service of the Egyptian government in 1918, and in 1906, the number today is 1471, in a population of 13,000,000. The number of Europeans employed in the public services of India is 4898, in a population of over 310,000,000. Can we wonder that the Egyptian intelligentsia are disgruntled?

This rapid summary of a few of the more recent faults of our administration of Egypt by no means exhausts the catalog, but it is necessary to add that your own Englishmen are still going out by every mail to enter posts in the public services. We are changing the simple and limited paternal control initiated by Lord Cromer into a costly bureaucracy out of touch with the people.

Lord Milner's mission is again reported to be practically boycotted by the Egyptian leaders, who demand complete self-determination, and an independence that will be in alliance with, but not protected by, the British Empire.

The Border Cities. The World concludes today a series of articles on the remarkable situation on the Detroit River, where our border cities are expanding industrially as no community of their size has grown in Canada. The primary interest for all Ontario in this development is in the part which the Hydro is playing, thru the sale of the inter-urban railway by Detroit interests, taking charge of an enterprise which will become very important to the provincial radial policy.

Fifteen Millions for Roads. Whatever may be thought of the various party issues raised by non-supporters of the Drury government, if the practical policy is followed of giving the people what they chiefly want, hostile criticism will avail but little. A government succeeds or fails by what it does, or does not do, and the vulnerable point in all governments, as it is also the strength.

BETTER SAFE THAN SORRY. The folly of carrying large sums on your person has been shown by the numerous holdups now of occurrence. Why run any risk when an account, subject to cheque and bearing interest at Three per cent. per annum, compounded half-yearly, can be opened with this Corporation (founded twelve years before Confederation)—where you are assured of absolute safety?

THAT NEW FARMERS' FISCAL DOPE

JACK CANUCK: That's all right, doc, but what license have you to call it New National Policy?

BONNE ENTENTE WILL DEEPEN CANADIANISM

(Continued From Page 1). admires them; he could live there again—without grief. But, the hearty is an American, and the family income is drawn from across the river, she is a Canadian, proud of it, and ready to become prouder and more proud.

Know Two Countries Better. Obviously, the attitude of newcomers from the United States to the Canadian state will be affected first by what, on arrival, they assume the Canadian state to be, and secondly by their own experience of life within its borders. Two considerations combine to produce a better situation in this respect than could have developed since a generation ago. United States people understand their own country better than they did. They also appreciate Canada better than they did.

Understanding is Always Good. Would such a situation threaten Canadian political identity? It might, only if the Canadian individuality were so many that it could not stand the shocks that come to every species of manhood.

Worrying About Amusements. Strength is to the strong, and there is influence in suggestion. One fearful saint mourned to me over the increasing power of the movies, and that they represent. He said that one thing that makes the border cities attractive to labor is their proximity to the big shows of Detroit. But that is an element in life that applies as between Toronto and Oakville, and is not effective in international politics.

Gasoline for Whiskey. Canadianism cannot be destroyed by anything except its own folly, here or in any other Canadian region. Detroiters have very much more respect for their Canadian neighbors today than they had when Windsor and Walkerville were poking along, looking and feeling like indigent relatives, except so far as the great distillery gave an air of stimulating prosperity to its especial segment of the Border Bow.

NEW FRIENDS AND OLD. CHAPTER 88.

If Louise had thought that she was to be alone much, she soon found she was mistaken. She knew by reading the signs at the entrance door, that the little apartment house was filled with artists of one type or another—she would have to act like an artist, played pianos told her that musical artists were among the lot. She felt rather proud and also rather presumptuous when she placed her own small sign, "Louise Morton, Nursery Decorating," among the other cards.

DRAYTON REASSURES KINGSTON VETERANS. Kingston, Ont., Jan. 15.—Sir Henry Drayton, minister of finance, and member for Kingston, returned to Ottawa this afternoon after a brief visit to his constituency. He came here to speak last evening at Queen's medical dinner. While here he met deputations from the Army and Navy Veterans, Great War Veterans and postal clerks besides many private citizens. He told the military delegations that everything possible would be done for disabled soldiers and for the families of men who had fallen.

SIR ROBERT FALCONER SPEAKS IN KITCHENER. Kitchener, Jan. 15.—(Special).—Sir Robert Falconer, president of the University of Toronto, addressed an unusually large meeting of the Canadian Club here tonight, his subject being "Democracy and Education." Sir Robert declared that democracy is of a high or low order, as people of a democracy are intelligent or lacking in intelligence. He emphasized that the encouragement of education along right lines will produce a people who can think for themselves, and as long as a democracy is composed of a people who can do their own thinking, democracy is safe.

PILOT HUGH DUFFY IS THE RIGHT MAN

Arrives to Arrange for Leafs' Spring Training—Believes in Action.

Hugh Duffy, new pilot of the Leafs, arrived at baseball headquarters yesterday to look over the situation, and get a line on the affairs of the local club.

Duffy is a quiet, unassuming fellow with an earnestness that is sure to appeal to all who meet him. Hugh has no false ideas of winning pennants in the winter. He realizes that all the ball must be played on the diamond and will do his best to trot out a strong team for the next season.

Duffy has not selected a training camp for the Leafs as yet. Walter Haggood, business manager of the Boston Braves, is now in the south and he will keep his weather eyes open for a spot for Duffy. Doers to get in their spring training camp and personally pick up anything that is the real thing in a young player for the local club. A catcher, an infielder, and about three pitchers, one of whom will go south about March 24, and Georgia will likely be the state in which the camp will be located.

WANT KNotty LEE. Brantford, Jan. 15.—(Special)—Knotty Lee, manager of the Beech Box, was here today. He reported that he received the offer of the management of the Saginaw team, and also another offer as business manager for the McCaffery. He also announced that the peppery Red Sox outfielder, Marly Killilea, had been sold to Hartford.

BASKETBALL

A double-header was held last night in the Hart House gym, when Junior School and University Prep. Class, Knox and Forestry, hooked up in Sifton cup fixture. The first game between School and Prep. Class was rather loose, but the second fixture was of a better brand of basketball.

Junior School: Defence, Johnson and Ryan; centre, Bell; forwards, McAlister, Jennings; subs, Albertson and Bennett.

University Prep. Class: Defence, Bowles and Simpson; centre, Bone; forwards, Robertson and Smart; subs, Gillespie and Ryan.

Referee: McClelland.

School started off with a rush and for the first few minutes were all over the place. The game was rather loose, but the second fixture was of a better brand of basketball.

Everything is all set for the senior O. B. A. game Saturday night at Central Y. when the Central boys hook up with their old rivals from Hamilton Y. and the fans are assured of a real old-time game by attending this fixture. The Hamilton boys have been playing together since they were old enough to handle a ball, and they have got team work down to a fine point. In the preliminary game Central Y. juniors will test the merits of the boys from St. Christopher's Church, who are starting at 8 o'clock sharp, and the senior game immediately following.

The Central boys are expected to turn out in force for the game, and the Hamilton team are requested to turn out for practice Saturday afternoon at 2.30.

SINGLE RINKS OFF TO A GOOD START

Surprises of Opening Night Include the Defeat of Last Winter's Winners.

The single rinks were off to a good start on the ice last night when the preliminary round was played. There were close and one-sided games and the usual surprises. Queen City lost their usual surpluss.

POSSIBILITY OF WAR ALARMS BRITAIN

(Continued From Page 1).

Attitude of Moslems. All these possibilities will be discussed by the important conference assembling at Paris. It is perhaps significant in connection with the possible Bolshevik activities in the middle east and the attitude of the Moslem populations generally toward England, that whereas a fortnight ago it was stated that Premier Lloyd George had been victorious in carrying the British view in favour of excluding the Turks from Constantinople and removing the capital of the new Turkey to Asia Minor, against the wishes of Premier Clemenceau and the French statesmen who wished to retain the Turks in Constantinople, it is stated now that the French view is prevailing in the Paris conference.

A Serious Situation. Within the next three months, says a long semi-official statement dealing with the near eastern affairs, Great Britain may be faced with a serious Bolshevik situation in the near east, which would mean military commitments, according to expert opinion based on official advices from the theatres of war.

The Bolshevik occupation of Trans-Caspia may be regarded as virtually complete, which makes the position in the Caucasus most difficult from an anti-red viewpoint. There is little hope of stopping the Bolsheviks from overrunning the Caucasus, and if they succeed they will be able to join Mustafa Kemal Pasha (head of the Turkish Nationalists) and other Turks for Mesopotamian aggression.

Likewise red occupation of Trans-Caspia gives the Bolsheviks a base for operations against Persia and extending to India with the co-operation of Afghanistan, Georgia and Azerbaijan. The anti-Bolshevik forces are not strong enough to resist the invasion which threatens from the north, where General Denikine's right wing is being pressed back and from across the Caspian, where the Bolsheviks are well-established. There is a large Bolshevik element in Baku, and a red landing there would probably result in the recapture of these Bolsheviks immediately.

Daghestan is even more helpless than Georgia and Azerbaijan. Numerous Turks are also penetrating into the Caucasus from the south, with the object of fomenting trouble. The difficulties in Mesopotamia appear by no means to be finished. Ramadan Shaiksh one of the leaders, continues his efforts to stir up the tribes in the British area and has threatened an attack in case of non-compliance with his demands for evacuation of certain districts. The British general, Maclure, commanding in Mesopotamia, has issued an ultimatum ordering the cessation of this agitation and has attacked and dispersed Ramadan's forces which had crossed into British territory. The reds are pouring troops into Trans-Caspia, by greatly improved railways. They have sent detachments toward Khiva, probably with the object of rounding up the scattered forces of the Siberian army. A party of Bolshevik forces is reported to have arrived at Herat, Afghanistan and two carts containing airplane parts and wireless installation and to have gone on by way of Kandahar and Kabul escorted by Afghan cavalry.

The Reds have opened 50 propaganda schools at Tashkent, where oriental languages will be taught and troops which had been sent into India and China and all the Moslem countries. The Tashkent soviet recently determined to concentrate all its efforts first on India.

Have Laid Down Arms. From Siberia comes the report that the remnants of the Siberian army numbering 6,000 have laid down their arms. General Semenov, who was defeated in an attack on Irkutsk is defeated in an attack on Irkutsk east of Baku trying to consolidate his position supported by Japanese. Vladivostok appears to be quiet, although a general strike is in progress. It was preceded by a violent manifesto in which the allies were bitterly assailed.

In south Russia the Reds are driving on towards Odessa, and the invasion of Crimea is imminent. Possession of Crimea, with Sebastopol, would give the Reds free access to the Black Sea.

BOXING AT G.W.V.A. CLUB HOUSE. An at-home was held at the club house of the G.W.V.A. (central branch) last night when a good program of songs, recitations and addresses by comrades of the branch and sister branches were given. Mayor Church, in an appropriate speech, congratulated them on possessing such a commodious club house, and pointed out that while he was chairman of the police commissioners they would have all the permits they asked for for boxing or other pastimes.

The Burley brothers gave a three-round exhibition bout, and the festive encounter of Jack Wetherly (one of Toronto's old-time boxers) and Tom Shaw was very interesting and lively. The committee are arranging for a bowling tournament to which they invite the various branches and the members of the militia units.

3 DAYS' SALE

SUITS AND OVERCOATS

Regular Values \$20 \$25 \$30 \$35 OUT THEY GO! \$18.75 EACH

Special sales are few and far apart in this business. They occur only on rare occasions. We are approaching the end of our fiscal year, with stock-taking in sight. We find that we have on hand exactly 497 of the season's popular models in SUITS and OVERCOATS (which have been selling at prices ranging from \$20.00 to \$35.00. These are all broken lines. That is, in patterns and styles, but a complete range of sizes from 33 to 46 chest. Among the collection are ONE HUNDRED BLUE SERGE SUITS, which we are including at sale price. These garments are tailored according to our usual standard, and were good value at the former prices. In order to make a quick clearance, we have decided that "OUT THEY GO" AT \$18.75 for each suit or overcoat. Needless to say, at this price we expect the store to be crowded with buyers. At present market conditions this offering is like buying new, crisp dollar bills at 69 cents each. We ask you to come to-morrow while the selection is widest. This three days' sale is going to be lively every minute of each day. It will be like getting two suits or overcoats for the price of one. "Surely a golden opportunity."

Business Men—Professional Men—Mechanics—And Every Man—This Is a Time for You "To Stock Up." Buy Now for Spring, for Present Wear—for Next Year—You Will Not Have Such Another Opportunity to Secure Real Hand-Tailored Garments at Such Bona Fide Reductions.

Sale Ends Saturday Night

For the convenience of those who cannot attend during the day we are keeping the Store Open until 9 o'Clock at night.

ALLEGED HOLD-UP MEN CAUGHT BY POLICE. David Shaw, Beverley street, and Wallace Davis of Mt. Dennis were arrested last night by Detective Sergis, Conlin and Wickett on a charge of robbery. They are alleged to have held up Gus Carlson, 204 Sircoo street, on St. Patrick St. on Wednesday night and to have received him of \$16 in cash and a gold watch. It is understood that Carlson had eaten with the two men and after leaving the restaurant they robbed him of the money and watch.

W. Roney for the judicial office.

MANLAUGHTER CASE OPENS... The case by the crown against Edgar Rice against the grand jury returned a true bill for manlaughter, was opened yesterday afternoon in the civil court before Mr. Justice Middleton and a jury. Rice is charged with causing the death of or injury to Fred Hickey, when their negligence he struck with his automobile the motorcycle in which Hickey was being driven at the corner of Wright avenue and Indian road. It is alleged that Rice was driving his car over the motorcycle and that the motorcycle was not in proper condition and that he knew it. G. Brao is appearing for the accused.

CALL MONEY EASES; STOCKS HAVE RALLY

Some Secondary Oils and Specialties Weak, However, in New York.

New York, Jan. 15.—An undercurrent of strength prevailed today's stock market, although the undefined attitude of the federal reserve bank and attendant monetary uncertainties intensified the confusion already prevalent in speculative circles.

Rallies of 2 to 3 points from the acute depression of the previous session was due, according to popular belief, to an oversold condition, rather than to any more positive or potent influence.

The call money market was materially easier, the opening rate of 9 per cent. holding until the last hour when it fell to its usual course, loans were offered as low as 6 per cent.

SEE-SAW SWINGS IN CORN MARKET

Traders Differ as to Effect of Wheat-Handling Order.

Chicago, Jan. 15.—Uncertainty as to the effect of orders that 70 per cent. of grain cars be devoted to the handling of wheat led to a see-saw market today in corn.

Chicago, Jan. 15.—Light offerings of all cash grains featured today's market. Reports of a big export demand for oats at seaboard in the United States, and a big domestic demand for cash oats, caused prices on local oats futures to remain fairly steady on the market today.

WHOLESALE FRUIT AND VEGETABLES

Sweet Potatoes are slightly firmer in price, selling at \$3 to \$3.25 per hamper.

Tomatoes.—The bulk of the hot-house tomatoes shipped in lately have been very poor quality. No. 2's selling at 20c to 25c per lb., while the few really choice No. 1's brought 40c to 42c per lb.

A GROUND FLOOR OPPORTUNITY IN A CANADIAN SILVER MINE OF MERIT

JACK MUNROE MINING COMPANY, LTD.

No Personal Liability. Incorporated Under Laws of Ontario. Prospectus Filed With Provincial Secretary. A Stock Interest in This Company Offers Exceptional Money Making Possibilities.

CAPITALIZATION IS 2,000,000 SHARES. Par Value \$1.00. STOCK IN TREASURY 1,000,000 SHARES \$120,000 Being Raised for Development

INITIAL OFFERING 100,000 SHARES AT 20c PER SHARE. The Property of this Company consists of 40 acres, in the heart of the famous Elk Lake District, midway between Gowganda and Cobalt, one of the most promising Silver Districts in Northern Ontario. The property is owned outright by the Company without encumbrance.

Staked by Famous "Princess Pat" Veteran. The Property was discovered and staked by the well-known Miner and "Princess Pat" veteran, Jack Munroe, in 1908. Responding to the call of his country, he was compelled to postpone development work, and on his return the Company was formed.

Ten Silver Bearing Veins Have Been Opened Up. The main vein, which has been stripped for 200 feet on the surface, has remarkable native silver showings. It averages from 3 to 12 inches in width, consisting of Smallite, Nocoite, Cobalt-bloom, and Native Silver. A shaft has been sunk on this vein to a depth of 50 feet, disclosing a considerable quantity of Native Silver, while the wall rock is heavily impregnated with the White Metal. Nine other veins occur, every one of which has excellent showings of Native Silver. All ten veins are within a distance of less than 400 feet of the present shaft, and can be easily developed from underground.

Aggressive Development Work to Start Immediately. An extensive campaign of genuine mine development has been planned and will be vigorously prosecuted without delay. The main shaft will be sunk to 600 feet, and lateral work done at the 200, 300, 400 and 600-foot levels. In this way it is expected to open up substantial ore bodies, which will justify the commencement of shipments.

Modern Mining Plant to Be Installed at Once. In order to facilitate development work and ensure rapid progress, it is the intention of the Company to erect buildings and install an up-to-date mining plant. Until electric power can be secured, this plant will be operated by steam. Abundant fuel for this purpose is on the property, sufficient for a period of years.

Accessibility to Railroads An Important Factor. The "Jack Munroe" Mine is advantageously situated within a short distance of the T. and N. O. Railway, and about 2 1/2 miles from Elk Lake. This is a feature that should not be overlooked in deciding the merit of this property, as this reduces to a minimum costs of both shipments of supplies and ore.

This is your opportunity, a chance in a thousand, to associate yourself with honest mining men, in the development of one of Northern Ontario's richest silver properties. In Buying "Jack Munroe" Stock You Place Your Money in One of Ontario's Most Promising Properties. The initial offering of "Jack Munroe" shares is limited. In order to ensure that your order can be filled at this price, send it immediately.

PRICE 20c PER SHARE. WRITE, WIRE OR PHONE YOUR ORDER TODAY. APPLY TO MARTIN & BURKHOLDER 402 McKinnon Building. Toronto, Ont. Phone Adelaide 2322.

BAR SILVER DOWN; STOCKS ARE FIRM

Dome Extension is Exception, Doubt as to Option Causing Some Liquidation.

Bar silver's sudden dip of 4 1/2 an ounce to \$1.30 1/2 in New York yesterday, was hardly an incident to inspire fresh bullish enthusiasm in C.M.B. stocks yester- day, but its market took the matter philosophically and the firm undertone was marked trading since the begin- ning of the year was again in evi- dence.

Beaver, Kirkland Lake, Peterson Lake, and Atlas were leaders yesterday, and it was noted in regard to other issues as well that there was a good buying power on recessions.
