3. A partial eclipse of Sun August 20, visible in Asia and Russia.
4. A total eclipse of Moon Sept. 3, 4, visible in America, first contact 9h. 50m. p.m., on 3rd; 0h. 7m. a.m., on 4th.
5. A partial eclipse of Sun Sept. 18, visible in Australia and New Zealand.

RECIPES.

To tell Good Nutmegs.—Prick them with a pin. If they are good, the oil will instantly spread around the puncture.

Fritters.—One cup of new milk, three eggs, a pinch of salt, flour to make stiff batter.

Pop-Overs.—One egg, one cup sweet milk, one cup of flour, a pinch of salt; bake same as gems.

Boiled Custard.—Heat one quart milk to near boiling, add two tablespoonfuls corn starch previously dissolved in a little cold milk, add two well beaten eggs, four tablespoonfuls of white sugar; let it boil up once, stirring all the time; flavor to suit.

Apple Tapioca.—Core and pare six apples, put in a dish, fill the hollow of each apple with powdered sugar and stick three cloves in each apple. Put six tablespoonfuls of Pearl tapioca round the apples, squeeze a little lemon juice on each apple, then pour two cups of cold water in the dish, cook slowly for 1½ hours and serve it luke warm (not hot) with cream. Will be found very good.

Little Pigs in Blankets.—Season large oysters and cut very thin slices of bacon about two by three inches, wrap the oyster in bacon, and fasten with small wooden tooth picks, cook a nice brown; serve with picks in them.

Mince Pie.—2 lbs. suet, 2 lbs. raw beef, 2 lbs. raisins, 2 lbs. currants, 4 lbs. apples, 1 lb. citron, 3 lbs. sugar, 4 oranges, 1 quart wine, 1 quart brandy, spices to taste.

Furniture Polish.—Equal parts of sweet oil and vinegar, or raw linseed oil and vinegar, makes a good furniture polish.

A tablespoonful of coal oil put into a quart of cold water makes a nice preparation for washing windows. Wipe dry, first with a damp cloth, then rub dry with a dry cloth, and the glass will polish like a piece of china.

Nothing is better to keep slugs from roses than road dust. First sprinkle the bushes well with water, then sift the dust over them. They will bloom nicely.

Apple Snow.—Dissolve half box gelatine in a cup of cold water. Pass three heaping cups of stewed apples through a sieve, sweeten, and flavor with lemon juice and cinnamon, and mix with the jelly. Whip a pint of cream and stir lightly into the fruit. Put in a glass dish and set in refrigerator until ready to serve.

A good remedy for feet blistered from long walking: rub the feet, on going to bed, with spirits mixed with tallow dropped from a lighted candle into the palm of the hand.

Cleaning Carpets.—To one pail of warm water add one pint of ox-gall; dip a soaped flannel into the mixture, and well rub the surface of the carpet, piece by piece, rinsing it as you proceed with clean, cold water, taking care not to make the carpet too wet, and finishing off by rubbing with a dry, coarse cloth. The carpet, of course, must be well beaten before it is operated upon. This process is simply and surprisingly effective in renovating the colors. The only drawback is the effluvium given off by the gall; but this is soon remedied by exposure to the air, or by opening the windows if the carpet be laid down.

To Cure Hams.—As soon as the hams are cut, tie them up by the hock for three days; then make

a pickle thus: One ounce of salt-petre, half an ounce of salt; prunella, one pound of common salt, one pound of coarse sugar, one ounce of juniper-berries, and one gallon of strong beer; boil all together, and when cold, pour it over the hams. Turn them every day for a fortnight. This quantity of pickle will be sufficient for two hams.

White Mountain Jelly Cake.—1 cup butter, 2 cups sugar, $3\frac{1}{2}$ cups flour, 1 cup milk, 2 eggs, 2 teaspoons cream of tartar, 1 teaspoon soda; stir all together without separating eggs; put soda in milk, and stir the cream of tartar in flour; bake the same as jelly cake; and use frosting between made of whites of 3 eggs and fine white sugar.

RECIPES.

Remedy for Rhumaism and Toothache.—Six parts of sal volatile and three of laudanum, mixed. Apply to the tooth with lint.

For Soft Corns.—Dip a piece of linen cloth in turpentine and wrap it around the toe on which the corn is situated, night and morning. The relief will be immediate, and after a few days the corn will disappear.

Cure for Chilblains.—Slice raw potatoes, with the skins on, and sprinkle over them a little salt, and as soon as the liquid therefrom settles in the bottom of the dish, wash with it the chilblains; one application is all that is necessary.

For Chapped Hands, Face and Lips.—Ten drops carbolic acid to one ounce glycerine; apply freely at night. Pure mutton tallow is also excellent.

Wrinkled Silk.—To make silk which has been wrinkled and "tumbled" appear exactly like new, sponge it on the surface with a weak solution of gum-arabic or white glue, and iron it on the wrong side.

Turpentine.—A tablespoonful of turpentine, boiled with white clothes, will greatly aid the whitening process.

French Dressing.—Put three tablespoonfuls of salad oil and one tablespoonful of vinegar, half teaspoonful of salt, and a quarter-teaspoonful of pepper into the glass, insert the beater, and beat rapidly an instant, and you will have a thoroughly mixed and perfect dressing.

Window Plants.—The necessity of a gradual change must be emphasized in removing plants from the open air to the dwelling rooms. It is best to place the plants in room where there is no fire, and one that can be opened during the day. After a while the plants may be taken to the close living-room, in which there is a fire.

Cranberry Jelly.—Make a very strong isinglass jelly. When cold, mix it with a double quantity of cranberry juice. Sweeten and boil it up; then strain it into a shape. The sugar must be good loaf, or the jelly will not be clear.

French Pudding.—Take one quart of milk, nine large tablespoonfuls of flour, and eight eggs. Beat the eggs very light, adding gradually to them the flour and the milk. Butter thoroughly a pan or some teacups, pour in the mixture, and bake in a tolerably quick oven.
