ALLIES PLAN TO ADVANCE FOR ITALY

London Hopeful That Cadorna Will Stem the Tide—Enemy Uses New Torment Gas

London, Oct. 29.—Steps already have been taken for rendering the fullest possible assistance to the Italians. London, Oct. 29.—The following article is printed conspicuously by the Times today. "There is reason to believe that the critical situation on the Italian front has received and is receiving the prompt and sympathetic consideration of the French and British governments. It is understood that the Italian commander-in-chief already knows that he may rely on the most prompt and fullest support it may be in the power of the allies to give."

Commissioner So Decides To Build Trestle From Union Street To Warehouses. The reconstruction of the railway trestle leading from Union street, west end, to Nos. 5, 6 and 7 warehouses, has been undertaken by the city department of harbors on the day's work plan, with Thomas Thompson acting as foreman. Commissioner Russell said today that he had found it impossible to secure tenders for the work and had decided that the only way to get the work done in time for the opening of the winter season was to go ahead and have it done by the city's workmen.

London Hopeful. London, Oct. 29.—That Great Britain and France must go promptly to Italy's help is the view expressed by several morning newspapers. While all recognize the gravity of Italy's peril, strong confidence is expressed in General Cadorna and the Italian army, with the conviction that they ultimately will emerge victorious. Italian perseverance and successes of the past are recalled with warm admiration and the weakness of some links in the defensive chain is condoned.

French Action. Paris, Oct. 29.—Before a meeting of the cabinet last evening to determine upon co-operation of the allies on the Italian front, Premier Painleve conferred with General Petain, the commander-in-chief of the French army, and with the chief of the staff of the French army, General Foch, and the chief of the staff of the French navy, Admiral Borel de Hauteclocque. The war committee met again this morning.

THREE NEW BRUNSWICKERS IN LATEST CASUALTY LIST. Ottawa, Oct. 29.—Casualties: INFANTRY. Presumed to Have Died: Corporal B. Inch, Burt's Corner, N. B. Missing, Believed Drowned: Sergt. W. Wilson, Springhill, N. S. Wounded: F. W. Smith, Hampton, N. B.; C. J. Hutchins, St. John, N. B.

MAY CONSCRIPT WORKMEN IN STATES TO HELP BUILD THE GREATLY NEEDED VESSELS. Washington, Oct. 29.—The imminent necessity of speeding up ship construction was emphasized at a conference of Atlantic coast shipbuilders and officials of the Emergency Fleet Corporation, the navy department, the department of labor and American Federation of Labor here today. Unless the present labor shortage is relieved without delay officials say it will be necessary to consider drastic methods of conscription of workmen.

THOMAS EDWARD GODWIN. The death of Thomas Edward Godwin occurred at his home, 119 Queen street, this morning after an illness of a year and a half. Mr. Godwin, who was sixty-two years of age, was employed for some years with the St. John Iron Works. He is survived by his mother, his wife, three daughters, Mrs. E. Devenney, and Mrs. A. Garnett, of this city, and Miss Marguerite at home, and four sons, William, Francis and Thomas, of St. John, and Sergt. Daniel Godwin, overseas with the C.A.S.C.

THE SURE CURE. MRS. MANTLE GETS WORD FROM HER WOUNDED SON. Says French Determination To Recover Provinces Delays War End. Berlin, Oct. 29, via London.—That only the determined efforts of France to recover Alsace-Lorraine stands in the way of an immediate termination of the war is the opinion of the Socialist newspaper Vorwaerts. Germany, under present circumstances, the paper says, cannot surrender. No one in Germany is even thinking of making France a present of the two provinces and it would seem the French do not want them in the form of a gift.

GERMANS GIVE UP GROUND WHERE THEY MADE LANDING ON RUSSIAN SOIL

Petrograd Says All Attempts to Follow up After Landing Failed — Attack on French Successful at One Point But Gain Not Held

Petrograd, Oct. 29.—The Germans have evacuated the Werdet peninsula, on the Gulf of Riga, where they made a landing recently. The war office so announces. The announcement says Werdet Manor has been burned and that provisions there have been stolen. No fighting has taken place in the Gulf of Finland, but travelers are active there. The withdrawal of the Germans from Werdet peninsula leaves them without a foothold on the Estonian coast, attempts by them to follow up on the original landing by putting troops ashore at points both north and south of the peninsula having failed, according to the Russian reports.

HEALTH SURVEY OF THE PROVINCE. Expert Here To Begin a Work of Great Importance. A survey of health and sanitary conditions throughout the province is to be undertaken immediately as a preliminary step towards the establishment of a health department as a branch of the provincial government. John W. F. Roberts, a man of wide experience in this work, has been retained for the purpose and now is in the city ready to make a start. He will devote three or four weeks to the work of the survey and then will prepare a report dealing with the conditions as they now exist and as they should be and outlining the methods by which the change in conditions could be effected.

MOTHER IN DREAM SAW SON WOUNDED. That Very Day It Happened In Fact Word Comes To F. A. Dykeman About Son. F. A. Dykeman received official word by mail this morning that his son Pte. E. E. Dykeman had received a severe gunshot wound in the left thigh and was admitted on October 28th to the 2nd Canadian General Hospital at Le Treport. This morning Mrs. Dykeman received a letter from her son, saying that he had been removed to an English hospital, and this indicates that his condition is not so serious as might be inferred from the official notice. Private Dykeman was driving a large lorry, taking a gun crew up to their station when an enemy shell burst, wounding him and several others and killing one man. Pte. Dykeman was with an English unit and had only recently returned from the front after a period in hospital.

COUNTY INJUNCTION MATTER IN COURT. In the matter of the injunction obtained by Warden McLellan to restrain the finance committee of municipal council from spending \$30,000 by way of purchasing Christmas comforts for the soldiers, hearing was taken up in chambers this morning before His Honor Judge Griesmer. M. G. Freed, K.C., who is appearing in behalf of Warden McLellan, asked to have the injunction continued down to trial of the cause. H. A. Powell, K.C., was present as solicitor for the finance committee opposing the application. J. King Kelley, K.C., the county secretary, was also present in Mary's coat of arms on the Balkan front, promising that Greek forces would attack General Sarraill's army in the rear. In another message Queen Sophie advised to the allies as "infamous pigs."

LEADS \$25,000,000 MORE TO BRITAIN. Washington, Oct. 29.—Another advance of \$25,000,000 was made today by the United States government to Great Britain, bringing the total loan to that country thus far up to \$1,400,000,000. D. R. GEORGE F. SINCLAIR OF HALIFAX DEAD IN FLORIDA. Halifax, Oct. 29.—A telegram from Florida announces the death of Dr. George F. Sinclair, late inspector of penal and humane institutions for Nova Scotia. For years he was superintendent of the Hospital for Insane at Mount Hope, Halifax. His wife survives.

TREACHERY OF KING CONSTANTINE IS UNCOVERED. Athens, Oct. 29.—Among the messages exchanged between the royal palaces at Athens and Berlin which have fallen into the hands of the Greek government, was one in which King Constantine urged Emperor William to attack the allies on the Balkan front, promising that Greek forces would attack General Sarraill's army in the rear. In another message Queen Sophie advised to the allies as "infamous pigs."

WEATHER REPORT. Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Toronto, Oct. 29.—A disturbance which has come from the far western states is now centered in Indiana and will probably move northwards. The weather is very cold in the western provinces and mild from Lake Erie eastward to the maritime provinces. Storm signals are displayed on Lakes Huron and Erie and cautionary signals on Lakes Superior and Ontario.

CANADIANS DRIVE ENEMY OUT OF STRONG DEFENCES IN HAND-TO-HAND WORK. Canadian Headquarters in France, Oct. 27.—(By W. A. Williams, Special Correspondent of the Canadian Press)—For the last twenty-four hours persistent fighting has been going on on the Canadian front. To the left of our advance the splendid success of yesterday in the capture of Bellevue spur has been followed by the final defeat of the enemy forces at Laamkeek. Very heavy resistance was encountered at both of these points, the enemy machine gun and artillery fire being particularly severe, but the Germans were finally driven out after hand-to-hand fighting in which our infantry stormed their positions and captured their formidable "pill box" stronghold defences.

Fifty Men of The First Contingent Home. THE MEN OF YPRES. Gallant Lads Who Helped Keep Back German Hordes From Calais—Many Were Victims of First Use of Deadly Gas.

Halifax, N. S., Oct. 29.—It was at the second battle of Ypres that the Germans first used their deadly gas, and in this engagement the Canadians, although outnumbered ten to one, held the Hun at bay and saved the road to Calais. On this and succeeding days, the Canadians suffered severe losses both in killed and the number of men taken by the Germans. Of those prisoners many of whom were rendered helpless by the deadly gas fumes upwards of fifty are now in Halifax awaiting their turn to be transported to various parts of the dominion. The men who have spent more than a year in German prison camps before they were repatriated, are all members of the first Canadian contingent, whose fame will go down in the annals of Canada as putting up one of the best fights against overwhelming odds in this great war.

McLEAN NAMED VICE CHAIRMAN, TREASURY BOARD. Acting Minister of Finance Of Sir Thomas White Away. HON. HOB. ROGERS IN QUEBEC. Says There is Fast Growing Division of Races But "All Fanatics Not in Quebec"—Meetings in Several Places.

Ottawa, Oct. 29.—Hon. A. K. MacLean has been appointed vice-chairman of the treasury board and will be acting minister of finance whenever Sir Thomas White is absent from the capital. In West Algona. Sault Ste. Marie, Ont., Oct. 29.—At a representative convention of the West Algona Liberal Association on Saturday night, it was decided that it was not advisable to nominate a straight party candidate. The present situation in the riding is that C. N. Smith, former member for Sault Ste. Marie, in the legislature, is running as an independent. James Lockwood, of the paper makers' union, and T. E. Simpson, Conservative, are in the field, the latter taking the place of A. C. Boyce, M. P., who resigned to accept a place on the dominion railway board.

THREE MILLIONS FOR MEDICAL SUPPLIES FOR ITALIAN ARMY. San Diego, Cal., Oct. 29.—An appropriation of \$3,000,000 for drugs, medicines and medical supplies needed in Italy, will be authorized today by telegram by Henry P. Davison, chairman of the American National Red Cross. An additional appropriation of \$500,000 also will be authorized to establish an American ambulance on the Italian front. BARGE FOUNDERS AND CAPTAIN IS DROWNED. Kingston, Oct. 29.—Captain B. McVicar lost his life when the coal barge Aloha, of Middleport, Ont., foundered in a gale on Lake Ontario on Sunday morning.

Jail Break at Ottawa. Ottawa, Oct. 29.—Two prisoners who were in the county jail made a clear getaway a little after two o'clock on Sunday afternoon. They are Lawrence Cassidy, aged forty-four, and Edward Carson, about twenty-five years, serving a six months' term for auto thefts. Success of Liberty Loan. Washington, Oct. 29.—Treasury officials, on the basis of returns at hand today, were unable to say whether subscriptions to the second Liberty Loan had passed the \$5,000,000 mark, although they were agreed that the chances are that the figures approximate this amount. Prince Christian Dead. London, Oct. 28.—Prince Christian of Schleswig-Holstein died at his London residence this evening after a long illness. NEWS OF SOLDIER. Frederick D. LeBlanc, next of kin of 68,305, Pte. Armour LeBlanc of the engineers, is requested to communicate with the office of the Western Union Telegraph Co.

Support Union. Woodstock, Ont., Oct. 28.—E. W. Nesbitt, ex-M.P. for North Oxford, at a meeting of the executive of the Liberal Association of the riding on Saturday said that he had decided, if re-elected, to support the union government in all measures looking to the good of Canada. A resolution was submitted to the meeting and adopted, endorsing Mr. Nesbitt's stand, the sixth column. (Continued on page 2, sixth column.)

In picture and vaudeville the Gems new bill is a rich one. The Bolands will keep you entertained. See Page 11 and come tonight.

IMPERIAL'S NEW SHOW BIG HIT

Get your seats early for the Imperial tonight. The big bill of pictures and vaudeville starts at 7 and 8.45. There are over 1,000 seats at 15c and about 600 at a quarter. Saturday the crowds were delighted with the new winter policy. The three Keith acts were all highly acceptable and received great applause. They were bright, clean and clever. Nothing to offend. Tonight the picture section of the bill will include the Pathe British Gazette and a remarkably fine Vitaphone drama entitled "Transgression," featuring Corinne Griffith, Earle Williams, Mother Maurice and others. Don't miss the laughing cowboy sketch, the artistic song revue and the thrilling Roman Gladiators.

REPORTED SUICIDE RATHER THAN ENLIST

New Liskeard, Ont., Oct. 29.—Declaring that he would kill himself rather than enlist, a fifty year old French Canadian whose name is unknown, but whose wife and family live in L'Orignal, Ont., cut his throat in the woods near New Liskeard. This story was brought here by an eighteen-year-old French-Canadian who was with the soldier at the time. The police are investigating.

New Wages Scale On Montreal Papers

Montreal, Oct. 29.—An increase of three dollars a week has been given to the linotype, monotype and all other employes in the composing rooms of two English evening newspaper offices of Montreal. Those engaged in the morning English newspaper composing rooms have received an advance of \$4.50 a week. The former increase is to remain in force for two years and then be increased by fifty cents a week for every year till the end of a five year agreement. The night operators and workers will retain their present increase for two years and then jump another dollar a week for the ensuing three years. The minimum wage for the evening paper men now is \$26 and for morning paper employees \$28.50. All piece work has been abolished. Men enlisting will get their positions back on their return.

HEALTH SURVEY OF THE PROVINCE

(Continued from page 1.) In his study of public health work, Mr. Hall has been impressed by the successful way in which the provinces of Ontario and Saskatchewan are carrying on this work and he sees no reason why New Brunswick should not be equally successful in dealing with health problems. While the work of a provincial board is of the utmost importance the close co-operation of the local boards is essential to success in this work and his report will deal with both branches of activity. In his report he will state the result of his investigation of conditions in the province and will outline a plan for the work of the proposed health department to perfect and extend the work now carried on. He will also submit an estimate of the number of officials required for the work and the approximate cost to the province for an adequate organization of its equipment and expenditures.

LOOKS FOR NEW RETREAT OF THE ENEMY ON THE WESTERN FRONT

American War Secretary Reviews Week's Operations

Sees Something Big Ahead—Hopes of Outcome of Italian Defence Against Austro-German Drive—The Americans on the Firing Line

Washington, Oct. 29.—That important developments are impending in the great war is indicated by Secretary of War Baker in his official review of last week's operations on all fronts, which he concludes with the brief statement that certain units of the American forces in France have taken their places on the battle front to complete their training.

German drive is being pressed forward by imposing forces. But once before Italy stemmed the tide of an Austrian rush, under less favorable conditions for the defenders, he points out, and hurled the enemy back with only a taste of victory during the first days of his terrific onslaught. Winter is now coming to the aid of the Italians.

London, Oct. 29.—The entrance of units of the American army into active service on the western front, although overshadowed as a news item by the Austro-German invasion of Italy, receives prominent notice in the newspapers as a much more than picturesque event.

SEVEN NATIONS ARE REPRESENTED IN GEN. SARRAIL'S ARMY

New York, Oct. 29.—In a lengthy mail story the Associated Press correspondent under date of October 4, quotes General Serrail, commander-in-chief of the army of the Orient, as expressing great satisfaction with the condition of his command, and reiterating that there will be no retreat from Saloniki.

DEVELOPMENTS IN SENSATION IN FRENCH CAPITAL

Paris, Oct. 29.—The police on Saturday night searched the offices of L'Action Francaise and of the various headquarters of leagues connected with that newspaper. The search resulted in the discovery, according to Sunday morning's issue of L'Action Francaise, of five revolvers, one dagger and a few pistols which decorated the walls as trophies.

IN THE CHURCHES

"There is no question that the present situation in Russia is the direct result of food shortage and the revolution was absolutely due to the same cause." This was the opinion expressed by Rev. THE ITALIAN DEFEAT

The first feeling upon reading of the smashing victory of the Austro-Germans over the Italians is naturally one of deep depression. It proves that the enemy possesses a strength and a striking power greater than had generally been believed was possible at this stage of the war.

And yet the case is very far from being hopeless. It was announced that the Germans had determined to make a determined effort to put Italy out of the war, and great armies and heavy artillery were massed for the attack.

THE FOOD CONTROLLER

Is Controller Hanna aware that when he paints conditions black in relation to present and future food supplies, he is encouraging the price booster and the profiteer?

THE PUBLIC HEALTH

As the first step toward the formulation of a progressive public health policy the provincial government has decided to have made a sanitary survey of the province.

THE CROPS OF 1917

The Bulletin of Agricultural and Commercial Statistics, published by the International Institute of Agriculture of Rome, sums up the various official estimates of yield of crops so far furnished by the governments of the important producing countries.

The total was no more than 498,705. The crop of 1917 therefore represents 103.8 per cent of that of 1916, but, if compared with the average of the five years 1911 to 1915, we find the yield of the present year to be only 88.6 per cent of this average.

The crop of rye was not only larger than that of last year, but much larger than the average for 1911-15. The total, however, is not large. The Bulletin says:—

"With respect to rye, the total yield of Spain, Ireland, Switzerland, Canada, and the United States is 22,848 thousands of quintals, or 110.7 and 128.8 per cent of the yield of 1916 and of the average, respectively.

The report deals with one other item, that of barley, and here the crop though larger than last year's is not quite up to the previous five year average.

In connection with any consideration or discussion of grain crops and the relative yield, it is necessary to bear in mind that the reserves upon which world normal conditions the world counts have been exhausted, and it is now a question whether one year's crop will last till the next harvest.

In this connection it is gratifying to note that so far as New Brunswick is concerned the provincial committee for increased production, backed by the department of agriculture, has decided to purchase considerable quantities of seed grain for distribution, and is also endeavoring to make certain a sufficient supply of fertilizer for next spring.

The Canadians have won another notable success by the capture of Bellevue Spur, "a dominating and vital position west of Passchendaele, to which the Germans had clung tenaciously."

That Russian guns were turned on Russian soldiers who fraternized with the enemy is evidence that the Russian government is not thinking of separate peace.

The rumor that Sweden may espouse the cause of Germany is probably not well-founded. The pro-German party in that country has not been increasing of late, if we may trust the news from that quarter.

The interview with a business man in today's Times on Food Controller Hanna and potato prices points out how untenable is Mr. Hanna's position.

And now the Spanish cabinet has resigned. Spain is playing an ignoble part in the war. Her little neighbor Portugal shines by comparison.

And She Soon Got Back Her Strength

New Castle, Ind.—"The measles left me run down, no appetite, could not rest at night, and I took a severe cold which settled on my lungs, so I was unable to keep about my household work. My doctor advised me to take Vinol, and six bottles restored my health so I do all my housework, including washing. Vinol is the best medicine I ever used."—Mrs. Record, 437 So. 17th St., New Castle, Ind.

Why He Is Thin "What makes you so thin, Bligson?" "My wife's ill." "And you're worrying about her, eh?" "Not exactly. It's the form not the severity of her illness that affects me."

DISQUIETING STATEMENTS

Declaration by Officers of Petrograd Garrison—Kerensky on Matter of Removal of Capital

Petrograd, Oct. 29.—The officers of the Petrograd garrison met today to discuss the position of the Russian army and adopted a resolution declaring that any authority on the part of its chiefs is virtually non-existent.

Petrograd, Oct. 29.—Premier Kerensky, speaking on Saturday in the preliminary parliament, said that the government never debated the possibility of surrendering Petrograd to the enemy as a result of its deliberations.

The Canadians have won another notable success by the capture of Bellevue Spur, "a dominating and vital position west of Passchendaele, to which the Germans had clung tenaciously."

That Russian guns were turned on Russian soldiers who fraternized with the enemy is evidence that the Russian government is not thinking of separate peace.

ONE MILKMAN IN ONE STREET. Concentrated Delivery Likely To Be Suggested. Save Cent or Two a Quart, and Producers Would at Same Time Get More, Consumers Pay Less. Ottawa, Oct. 27.—At a meeting of the special milk committee at the food controller's office, when the investigation into the increased cost of production and distribution of the commodity was continued, it appeared to be the consensus of opinion among those examined by F. B. Tustin, chairman of the committee, that if central or concentrated system of delivery was adopted the distribution of milk there would be a saving of a cent a quart. This would enable the distributor to pay the farmer one-half cent more per quart, and at the same time give consumers milk at one-half cent per quart cheaper.

Don't put on the roof until you investigate. It is poor economy to save money by substituting something inferior but wouldn't you like to save on cost if you could get something better? You can get a better roof for less money if you put on.

Certain-teed Roofing. Before its merits were recognized, roll roofing was regarded as a more or less temporary roof—but now CERTAIN-TEED has demonstrated that it is not only a most durable roof, but also the most efficient roof. It is economical to buy, inexpensive to lay and costs practically nothing to maintain. It is light weight, clean, sanitary, fire-retardant and weather-tight.

Certain-teed Roofing. There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

Certain-teed Slate-Surfaced Asphalt Shingles are applanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire-retardant, and do not have to be painted or stained.

 the general composition of the ministry
 as it was constituted under Premier
 Boselli.
 King Victor Emmanuel conferred this
 morning with Baron Sonnino, foreign
 minister and Professor Orlando concern-
 ing a solution of the ministerial
 crisis.

**CANADA
 VICTORY BONDS**

CANADA is asked to invest money in the pur-
 chase of Victory Bonds. For the successful
 prosecution of the War, and to fulfil our obli-
 gations to our Country and to our Allies, it is
 the duty of every Canadian to contribute to the finan-
 cial strength of our Government.

In order to encourage the sale of these Bonds, and to pro-
 mote their use as a medium of exchange, we will until
 further notice accept Victory Bonds of all denomina-
 tions in payment for purchases made in any of our
 stores. In other words,

A VICTORY BOND
 is accepted by Birks in cash transactions
 at face value for merchandise to the
 amount of the Bond.

Our plan thus assists in the discharge of a national
 responsibility, and at the same time makes it possible for
 patrons to still retain the use of money thus invested.

RECENT DEATHS
S. L. T. Frost.
 The death of S. L. T. Frost, of Ot-
 tawa, which occurred on Sunday, the
 28th instant, after a brief illness, is
 startling news and a great shock to his
 many friends all over the country. He
 was the third son of the late Samuel E.
 and Maria Frost, of Lower Norton,
 Kings county. He was greatly interested
 in anything that pertained to the uplift-
 ing of the young men in the com-
 munity in which he lived. He took a
 great interest in the Y.M.C.A. and other
 organizations which had for their ob-
 jective the betterment of the youth, and
 many young men who survive him owe
 their success in life to the magnetic in-
 fluence of the departed. Mr. Frost en-
 tered the customs department of the
 civil service in 1886 and advanced step
 by step until at the time of his death
 he was the chief accountant of the cus-
 toms department at Ottawa. Mr. Frost
 is survived by his wife, one son, Lorne,
 and one daughter, Marjorie, all of Ot-
 tawa.

Capt. W. D. McIntyre.
 Death came suddenly to Captain Wil-
 liam Duncan McIntyre at his home, 110
 Adelaide street, Saturday evening. Al-
 though he was seventy-two years of age

and had not been well for several
 months, he was about the house on Sat-
 urday as usual, and only a moment be-
 fore the end he was laughing as he
 talked with Mrs. McIntyre who sat near
 the couch on which he was reclining.
 Before she realized what had happened
 he had passed away. His death came as
 a stunning blow to his family and a
 wide circle of friends.
 Captain McIntyre was one of the best
 known men in the city. For thirty-five
 years he followed the sea and was in
 command of vessels whose names were
 very familiar in Atlantic coast ports.
 These included the Elizabeth D. Hart,
 the Sealine, the Ada G. Shortland, and
 others. The latter, a schooner, was
 owned by him. When he sold her he
 retired from the sea and was for ten
 years a clerk at the St. John police
 court. He held this position until three
 and a half years ago, when he retired to
 spend the evening of a long and active
 life quietly with his family in the North
 End.
 He was born in Kars, Kings county,
 his parents being John and Sarah Mc-
 Intyre. His father was a native of
 Glasgow. Besides his wife, formerly
 Miss Julia Jones of this city, he leaves
 to mourn, a daughter, Miss Ada Mc-
 Intyre, at home, and a son, Fred, Mc-
 Intyre, of West Somerville (Mass.). Mrs.
 John McIntyre of West Somerville, is
 his stepmother. Captain A. A. McIntyre,
 of Cranston avenue, is a brother and
 Burpee McIntyre, of West Somerville, a
 half-brother. In religion Captain Mc-
 Intyre was a Baptist. The funeral is to
 be tomorrow afternoon at 2.30 o'clock
 from his late residence in Adelaide
 street.
 The sympathy of a wide circle of
 friends will be tendered the family in
 its bereavement.

Capt. Fred L. Robinson.
 The many friends of Capt. Fred L.
 Robinson will learn with regret of his
 death which occurred at the General
 Public Hospital, Saturday, October 27,
 after a few days' illness with pneu-
 monia. Capt. Robinson was formerly a
 resident of St. John, and a few years
 ago he removed to Gagetown, where his
 family now resides. He was well and
 favorably known. Of a genial and
 kindly disposition, he not only won for
 himself friends in shipping circles, but
 with all whom he came in contact. He
 was ready to sail for New York from
 Two Rivers (N. S.), in his vessel, Emily
 F. Northam, when seized with what
 proved to be his last illness. His wife,
 one son and seven daughters are left to
 mourn a loving husband and father, be-
 sides his mother, four brothers and two
 sisters—Henry, of Brydon street;
 Charles, of 318 Duke street, West End;
 Robert, 107 Victoria street; Odler, of
 Chelmsford (Mass.); Mrs. C. D. Was-
 son, 122 Victoria street, and Mrs. E.
 MacLean, 73 Victoria street. The fu-
 neral services were conducted at the
 home of his brother Robert, Sunday
 evening by Rev. Nell McLaughlin, fol-
 lowed by a short service by the L. O.
 O. F. of which he was a member. In-
 terment at Gagetown on Tuesday.

Mrs. M. Wellington Cox.
 Word was received here of the death
 of Mrs. M. W. Cox, which occurred yester-
 day at her home, White's Cove,
 Kings county. Besides her husband she
 leaves to mourn one son, F. W. Cox,
 now residing in the United States, and
 daughter Mrs. T. E. Robinson of this
 city. The deceased was a daughter of
 the late S. V. White and for some years
 was a resident of this city.
 W. R. Payne, who for thirty-nine years
 has been in the employ of the C. E. R.,
 died at Moncton yesterday afternoon
 after a short period of illness at the age

of sixty-seven years, leaving his widow,
 three sons and one daughter.

Miss Amelde Lawlor, aged twenty-
 nine years, passed away at her home in
 Point LaNim, Restigouche, on Tuesday,
 October 28, leaving her mother, two
 brothers and three sisters.

Yesterday morning about 9 o'clock
 the eight-inch stopcock on the small feed
 that runs from the large main in Main
 street, through Morgan's alley to Moore
 street, split, causing the water to come
 through the pavement and flow down
 the street.

BRITISH AIRMEN AGAIN BOMBARD GERMAN POSITIONS

Much Damage to Military Establishments in Belgium is Caused

London, Oct. 28.—"Bombs were dropped on Friday night by the naval air service on the Lichterweld railway junction," says British official statement. "Direct hits, causing a heavy explosion were followed by numerous smaller ones. The Thourout railway junction also was attacked, bombs falling close to a moving train, which stopped immediately, a large explosion being observed. The Cortermark railway junction also was attacked.

"On Saturday afternoon bombing raids were carried out on the Sarapellook airbase, the Engel airbase and the Ostend-Thourout railway line of Egel.

"A great number of patrols were carried out. Two enemy aircraft were driven down out of control, one of them falling into the sea. All of our machines returned safely.

London, Oct. 28.—A communication issued this evening says: "Last night more than four tons of bombs were dropped on several enemy airbases, and three important railway stations. One bomb fell on a train, setting it on fire."

Longboat Not Dead

Wants to Get After Scalp of Indian Who Has Been Impersonating Him

Toronto, Oct. 29.—Tom Longboat, famous Indian Marathon runner, who has been twice unofficially reported killed in action in France, is still alive. Captain Tom Flanagan, who went over seas with the same battalion and has returned to Canada, had a letter from him on Saturday. Longboat threatens to take action against an Indian in the United States who has been representing himself as Longboat. Tom describes one of his experiences in the front line trenches and says it makes him sure to have this fellow going round the country having a good time on his reputation while he is undergoing such hardships.

U. S. IS TO LEND VESSELS TO ITALY

Washington, Oct. 29.—The government, through the United States Shipping Board, is to turn over within the next few weeks 100,000 tons of shipping to Italy, to relieve its economic situation, which, through lack of ships, is reported serious. This will involve supplying about twenty-five steel ships.

To carry out the arrangement the government will requisition, among others, some of the Great Lakes steamers. It is in position now to turn over half a dozen big ships, and the others will be supplied, it is expected, within a month.

Italy has borrowed ships from Great Britain, using some of them to transport wheat from India. Britain's own activities, owing to the U-boat activities, have become such that she has been obliged to recall some of the vessels loaned to her ally. This deficiency the United States will make up and, in addition, furnish more tonnage.

GENERAL JONES TO RETURN TO CANADA?

London, Oct. 29.—It is reported that General Carleton Jones will return to Canada as director general of the medical.

BELGIANS HAD STRIKING PART IN THE VICTORY

Allies' Highly Important Success on West Front One of the Warriors of the War

British Front in France and Belgium, Oct. 28.—(By the Associated Press.)

The story of the highly important victory won by the French and British armies over the marshy lands of Flanders yesterday is the record of a spectacular military operation, which before its completion would have been branded as impossible by the average expert. It is a story of men who battled their way forward over morasses and through water into which they sank literally to their necks at times, and with rifle and cold steel, conquered the enemy in a large and vital strip of territory which includes within its borders such places as Kippe, Merckem, Aehoppe, Verbrantzen and Kostrumelen. The striking feature of the performance lies in the part played by the Belgians in yesterday's drive. When their troops reached the narrowest place to be crossed at the neighborhood of Luyghem in the afternoon and began their assault on this place, the Belgians, who were watching from their lines across the floods, joined them, piling into ferries, poling their way to the eastern shore and hurling themselves on the Germans concealed in concrete defences in the region north of Luyghem with such good effect that they quickly mopped up this entire northern strip of the so-called Luyghem peninsula.

The territory conquered yesterday is a strip of land about 7,000 yards long and varying in width from 1,500 yards at the narrowest place to 8,000 at the widest. If a line be drawn from a point just north of Langewaade westward almost to Sevekoten, this would constitute the base of the strip.

Spain Now is Facing Crisis

Cabinet Has Resigned—King in Conference With Political Leaders

Madrid, Oct. 29.—The Spanish cabinet has resigned.

King Alfonso held conferences with various political leaders during Sunday, but the solution of the crisis promises to consume several days. It is not expected that the new cabinet will be announced before Tuesday.

Former Premier Mauri, leader of the Conservative party, yesterday sent the king a written memorandum in which he declared that the existing disorganization was due to long standing causes. He also says that whatever government is formed must "first restore discipline in the army."

Count Romanones, a former premier, in a long note to the press, calls for an immediate re-opening of parliament and the formation of a coalition government, in which all parties shall be represented.

In reply to inquiries concerning his attitude, Premier Dato said: "I can say nothing. I do not see any way out of the crisis yet."

Bernstorff Now "Excellency" Amsterdam, Oct. 29.—Count Von Bernstorff has been made a "Wirklicher Geheimerath" by the German emperor, with the title of "excellency." The count is now ambassador at Constantinople.

GERMANS REALIZE WAR IS A FAILURE
Washington, Oct. 29.—No immediate prospect of peace, despite Germany's weakening of morale in the civilian population and the army, is seen by P. A. Stovall, United States minister to Switzerland, who called on President Wilson on his first return from his post in four years.

GERMANS REALIZE WAR IS A FAILURE
"The German people," said Mr. Stovall, "are slowly realizing that the war is a total failure. As this spirit grows it will cause some sort of a revolution, but I do not think anyone can forecast what form this will take. Food and other economic conditions in Germany are very bad and growing worse."

GERMANS REALIZE WAR IS A FAILURE
Switzerland, the minister declared, was generally neutral and will not abandon that position. The Swiss staff of superintendents has been successful he said, in preventing exportation to Germany and Austria of materials imported from allied countries. Mr. Stovall will confer with Vance McCormack, of the war trade board; Secretary of State Lansing, and Food Administrator Hoover, in an effort to facilitate export of food and other supplies to Switzerland.

TO ALL HIGHWAY USERS

Why should the Maritime Provinces and British Columbia be the only places in America that Pass to the Left?

Are you in favor of changing the Road Law at the next Session of the Legislature to read "Pass to the Right," and thus put our province in line with the rest of the continent? Nova Scotia will change if we do.

Please write me as to whether you favor the change or not.

HARDWARE PRICES

("Hardware and Metal," Oct. 27).
Again the trend of the market in hardware commodities has been upward. Price changes have been quite numerous and advances on such articles as hob and Hungarian nails, lamp wick, stove wick, cutting pliers, flat nose pliers, ratchet wrenches, pipe cutters, cutlery, malleable screw clamps, brass rules, putty knives, radiator cement, soldering furnaces, gas ovens, revolving belt punches and glasses for ovens. There has been a weaker tendency in black sheets during the week, in the Toronto market in particular, where lower quotations were made by a number of dealers.

The linseed oil market gives evidence of firmness during the week due to advances in faxseed. The market for future linseed oil seems fraught with a number of possibilities which may work out toward a movement either upward or downward. Turpentine was higher during the week, following a firm condition in the primary market. Declines were recorded in lead pipe and lead waste pipe as a result of the lower quotations in the primary market. On pig lead. There has been a decidedly weaker tone to the pig lead market and the sagging tendency seems not to have been arrested as yet. Other ingot metals held in a steady position. Old materials are in quiet market due to lack of demand from mills. Shipments of winter lines are now going forward and business in the wholesale hardware trade is reported good to brisk.

LIBERTY LOAN PASSES \$5,000,000 MARK

Washington, Oct. 28.—The second Liberty loan apparently has passed the \$5,000,000,000 mark. A last day drive of titanic proportions throughout the nation rounded up more than \$1,000,000,000 and was bound to have carried the total several hundred million dollars beyond the maximum sum treasury officials had foreseen.

EXEMPTIONS IN TORONTO OVER 18,000; AND THE REPORTS FOR SERVICE BUT 1,843

In spite of the fact, says the Toronto Mail and Empire, that the registration officials are looking daily for a rush of reports from class 1 men, Friday's results showed a falling off from previous days. The total listed up to Friday night showed 18,293 reports for service and 15,886 claims for exemption, practically half of each list being city men.

Though less than a quarter of the men in the district have reported, there are already sufficient names in from all centres to enable the officials to start listing the exemption hearings for the various tribunals. The holding back of names will not block the tribunal hearing, but will rather guarantee that the men who get their claims in first will get their hearing over first.

Eggs as the result of report of heavy production in the United States. Butter is in a waiting condition, due to the information that margarine is likely to be allowed into the Canadian market. Lack of ocean space is holding up shipments and is giving cause for weaker feeling.

Barrel pork is in good demand and prices were higher in some quarters. Honey is getting scarce and prices are firm. Advances have been recorded in canned pineapple, cranberries, sealing wax, cream cheese, blended jams, brooms, salt, canned coffee, lampwick.

Sugar is still in active demand with retailers and wholesalers endeavoring to stem the buying movement by letting sugar out carefully. Flour prices have not been fixed but it is anticipated that an announcement may be made about November 1. Wholesale report business from good to brisk.

SHORTS HAVE INNINGS AT OPENING OF THE NEW YORK EXCHANGE

New York, Oct. 29.—Stocks recorded a sharp setback at the outset of today's trading. Foreign developments over the week end, particularly the Italian reverses, evidently encouraged traders to new operations for the short.

Shipping yielded two to three points and war shares, the general list of equipments and leading rails one to two and a half points. Marine preferreds were quick, however, showing a one and a half point gain. The new Liberty fours, listed today, changed hands in small amounts at 100 to 100.20. The 5 1/2s were steady at 99.44.

HUN SYMPATHIZERS ARE DEMANDING BEEF

Washington, Oct. 29.—Attempts of a pro-German element in San Francisco to frustrate the government's food conservation policy are reported to the food administration by its advisory committee of California hotel men.

"A committee of restaurant men has been organized in San Francisco, who are insisting on having beef served by the hotel committee, 'that a large pro-German element in San Francisco, who patronize their places of business, are insisting on having beef served by them on our beefless Tuesdays, threatening that if they do not serve beef to them they will cease to have meals in their restaurants.'"

Get Rich Quick Woman Is Given a Prison Term

New York, Oct. 29.—Mrs. Ida Levine of 95 East 116th street, who is said to have promised 50 per cent profit to women investors in her get-rich-quick schemes, was sentenced to six months and not more than three years by Judge Crain in General Sessions.

It was alleged by the prosecution that Mrs. Levine had obtained \$50,000 from Jewish women of small means. Mrs. Levine worked on the credulity of the women by telling them that she had the confidence of the wives of wealthy men who in order to get money to invest in Wall Street, sold their jewelry to her.

Combined Teuton Armies Overwhelm The Italians; Claim 100,000 Prisoners

The Austro-German armies under the command of Emperor Charles, who has as his chief assistant the brilliant field marshal, Von Mackensen, are shaking the entire Italian line from the Julian Alps region to the Adriatic Sea. Having pressed back the Italians at several points, upon Italian soil, the combined enemy forces have now pushed forward on the Italian left wing and captured Cividale, lying to the northeast of Udine and are nearing the plains beyond. In addition the Austrian town of Gorizia, a point of great strategic value on the Isonzo river, has been retaken from the Italians.

According to the latest Berlin official communication 100,000 Italians have been made prisoners and in excess of 700 guns have fallen into Austro-German hands. The second and third Italian armies are declared to be in retreat.

Rome admits the falling back of the second army, asserting that cowardice, similar to that shown by the Russians in Galicia, was exhibited in the face of the foe, the Italians surrendering or retreating without giving battle permitting the breaking of the left wing and thereby offering easy access to the town of Cividale.

Prior to falling back, however, the Italians destroyed all their depots and stores and Cividale was on fire when the Austro-Germans entered it.

Possibly the Italians in this region who are declared by Rome to be retreating to prepare positions on the plains will turn about and meet the enemy in open country fighting.

If they do not and the enemy is able to keep up, westward the fast pace that has been maintained since the commencement of the operation, the greater part of the Italian forces along the northeastern line will be threatened with capture. The situation is so grave that a special meeting of the French cabinet has been held for the purpose of deciding upon the question of allied co-operation on the Italian front.

London, Oct. 28—It is estimated in an Exchange Telegraph despatch from Rome that the Italians are opposed on the front of the Austro-German attack by forces four times their number.

Paris, Oct. 28—The forces engaged in the attack on the Italian army, consist of three hundred and fifty Austrian battalions, reinforced by ten German divisions, according to the Petit Parisien's correspondent at the Italian front.

Both Emperor Charles and General Von Ludendorff, the German first quartermaster general, are present, supervising the operations.

Amsterdam, Oct. 28—The occupation of Gorizia this morning by the Austro-German forces is announced in an official statement received here from Vienna. The Italians are said to have retired across the Isonzo.

For a Kicker's Breakfast!

Most men are critical about coffee. They travel around among the best hotels and taste coffee prepared by expert chefs.

Now Red Rose Coffee was produced especially to meet the critic's keen, educated taste. It is a blend of the richest coffees, and is crushed—not ground.

Some men, whom we know to be real kickers, have been kind enough to say that the flavor is equal to that of any coffee they have ever tasted.

If you are a kicker, have your wife make you a cup and then tell us what you think of Red Rose Coffee.

Red Rose Coffee

British Airmen Effective.

London, Oct. 28—The text of tonight's official statement follows:

"During the course of the day, operations by French and Belgian forces north of Merckem were successfully carried out. The village of Luyghem was captured this morning by French troops and the whole Merckem Peninsula is now in the hands of the Allies. A further number of prisoners has been captured.

"On the battle front the activity of both artilleries continued. The hostile artillery also has been more active than usual south of Lens.

"Aviation—Yesterday large numbers of our own and the enemy's airplanes were up from early morning till dark. A great deal of artillery work was done by our machines. Several thousands of rounds were fired from heights ranging from one hundred to one thousand feet at hostile targets on the ground. During the day twenty-nine heavy bombs were dropped on the Roulers section and six on the Aisne airbase and 121 lighter bombs on other targets opposite the battle-front.

"As soon as it became dark our night flying squadrons continued bombing and dropped over four tons of bombs on seven airbases and on three important railway stations. Several hits were observed near hangars and on railway tracks while one bomb fell on a train, setting it on fire.

"The enemy's fighting machines were very active and aggressive, making repeated attacks on our bombing machines, which, none the less, never failed to reach their objective.

"In air fighting eleven hostile machines were brought down and seven others driven down out of control. Nine of our machines are missing."

French Gain Saturday.

Paris, Oct. 28—The official statement issued last night reads:

"In Belgium our attack, begun at 5.15 in the morning (Saturday) developed during the course of the day with full success on both sides of the road between Ypres and Dixmude. Our troops captured all the German positions on a front of four kilometres (two and a half miles) and a mean depth of two kilometres, despite an stubborn resistance on the part of the enemy, who suffered very heavy losses.

"On the right we reached the western outskirts of Houtholst Forest and captured the villages of Verbrandemis, Aschoop, Merckem and Kippe, as well as a great number of strong fortified farms. We took about a hundred prisoners.

"On the Aisne front there was feeble activity on the part of the enemy's artillery. We made new progress before the Chevigny spur, and further east occupied the Froidmont Farm.

German Statement.

Berlin, Oct. 28—Attacks of allied troops on the Ypres front near Houtholst Wood yesterday brought them no important advantages, the war office reports. French attacks on the Aisne front are said to have been repulsed.

"The announcement follows: 'Western theatre—Army group of Prince Rupprecht: In Flanders the firing of the artillery along the Yser lowlands was more intense than previously, especially near Dixmude. Between Blanckert Lake and the Minin-Ypres road, the artillery fire increased at times to great violence. In the morning the enemy gain attacked at the point of his shallow penetration southwest of Houtholst Wood without gaining greater advantages than on previous days.

"Army group of the German Crown Prince: At the Oise-Aisne canal there was an increase in the activity of the artillery near Brancourt and Anisy-Le-Chatou. In the afternoon strong French forces pressed forward, deeply encircled, against our lines on the Chemin-Des-Dames east of Filain and northwest of Braye. Everywhere they were repulsed sanguinously. Near Soudry, Tahure and Mesnil, in Champagne, our thrusting troops carried through enterprises successfully. On the eastern bank of the Meuse the French maintained a strong fire on the trenches recently won by us in Chaume Wood.

"Eastern theatre: There were no large military operations."

Berlin on Saturday's Fighting.

Berlin, via London, Oct. 28—The text of the German official communication, issued Saturday night, follows:

"Western front: Army group of Crown Prince Rupprecht—On the battlefield in middle Flanders the French and British again brought up strong forces throughout yesterday to seek a decision in the battle. Success was ours. The enemy divisions suffered a sanguinary loss without result in our defence zone.

"Increased artillery fire was directed on the fighting district before the enemy advanced to attack. Behind the advancing rolling fire his storming troops were launched forward.

"North of Bixchoote the French reached as far as Bulthoek, from there they were thrown back into crater land by our counter thrust.

"Between the Klercken-Poelcapelle road and the Roulers-Ypres railway the British pressed forward in repeated assaults. After fluctuating fighting, which was especially bitter west of Passchendaele, the enemy had to content himself with a few crater lines on the front of his disposition of departure.

"In addition to the main attack several British divisions were launched against our front from Decleere to south of Chevellet. At the outset they broke into Poesselhook Park and into Gheluvet. But by our powerful counter-

This Tube Defends Tires

The insidious—the dangerous—enemy of tires is under-inflation. The great cause of under-inflation is tubes that allow air to seep out through imperceptible flaws.

Here lies the superior merit of Goodyear Tubes. They hold air, and hold it unfailingly. They keep the pressure up, support the casing in all its work and fortify it against shocks.

They help tires go farther and last longer, and they save many times their cost.

Their virtue lies in the Goodyear method of construction. They are tubes of good thickness, built up from many layers of paper-thin rubber. From these layers every flaw has been eliminated, as it cannot be, from a single thick sheet of raw rubber.

For extra goodness we vulcanize the valve patch in, not stick it on.

It is easy to say "Goodyear" when you buy tubes. It is economical, too.

We especially recommend the Goodyear Heavy Tourist type for severe and sustained service. It is exceptionally stout and vigorous, a little higher-priced—and better.

Goodyear Heavy Tourist Tubes, along with Goodyear Tires and Tire-Saver Accessories are easy to get from Goodyear Service Station Dealers everywhere.

attack the enemy was soon thrown back beyond the old line. Local engagements lasted into the night, the intense firing diminishing only temporarily.

"Troops from all parts of the empire took a glorious part in bringing about the issue, which on the day's fighting was favorable for us.

"Army group of the German Crown Prince: On a few sectors on the Oise-Aisne canal, the artillery duel assumed greater intensity towards evening. The enemy infantry in vain endeavored to gain a foothold on the main points on the northern bank of the canal.

Russia's Stand
New York, Oct. 29—A London cable to the New York Tribune says that Russia has made no separate peace offers to Germany since the fall of Riga, and will not make any. The Kaiser's attempt

to force Russia to peace terms has failed.

Russia will also follow the lead of America at the coming Allies' conference in Paris, and by spring she will be able to meet the most powerful attack of the Teutons, booming, once more, a tremendous factor in the war.

FREE NIGHT SCHOOLS

The school board is making arrangements to reopen the free evening classes in the assembly hall of the Centennial school, Brussels street. There will be classes in advanced and elementary mechanical drawing, and also a class in arithmetic and writing. These classes

are intended for boys over fourteen who have left school, and for young men who wish to improve their education so that they may be better equipped for life work. Many returned soldiers took advantage of these classes last year, with good results. Several returned men, and others as well, have qualified for good positions by attending the free night school; and it is hoped that many more will avail themselves of this splendid opportunity this year. The classes last year proved very successful. Several of the former pupils have reported at the trustees' office that the instruction they received had been instrumental in securing for them increases, ranging from \$100 to \$200, in their yearly salaries.

W. S. Vial, head draughtsman in Fleming's foundry, is the mechanical drawing teacher, and Rex R. Cormier, principal of King Edward school, has charge of the arithmetic and writing class.

Does Not Think It Will Reduce Price of Butter

Statement By Food Controller As To Oleomargarine

Situation Reviewed

Conditions Under Which Use of the Butter Substitute is Permitted—Hon. Mr. Hanna Speaks of Whole Matter

The following statement has been issued by the Food Controller's office—An order-in-council has been passed upon the recommendation of the food controller allowing, on and after November 1, the manufacture and sale in Canada of oleomargarine and its importation free of duty. Suspension of the prohibition of its manufacture, import or sale is a war measure only, and will apply while the present abnormal conditions continue. The conclusion of such period is to be determined by the governor general in council. Strict provisions are incorporated in the ordinance to protect the public and the farmers against fraudulent sale of oleomargarine butter.

"The recommendation of the food controller was made because the high cost of production and the demand for export were putting the price of butter so high that many people were unable to purchase it. To reduce the price arbitrarily would have been unfair to the producer. The only alternative was to enable those who could not afford to buy butter to secure the necessary animal fats in some wholesome substitute form. The food controller states that the dairy interests will not suffer by reason of the sale of oleomargarine in Canada.

"Oleomargarine is defined in the ordinance as including oleomargarine, margarine, butterine, or any other substitute for butter which is manufactured wholly or in part from any fat other than from milk and cream, which contains no foreign coloring matter and which does not contain more than sixteen per cent of water.

"Persons wishing to manufacture or to import oleomargarine must first obtain a license from the food controller, and such license may be cancelled in case of violation of any of the regulations. Oleomargarine manufactured in Canada must be produced under the supervision of the minister of agriculture and no oleomargarine may be imported into the dominion unless it has been manufactured under government supervision in the country of production. No customs duty is to be charged on the importation of oleomargarine complying with the regulations.

"The food controller is given the power to regulate the price and quality of all oleomargarine sold in Canada. Every package containing oleomargarine must be clearly marked as such. Hotels, restaurants and public eating places where oleomargarine is served must display a card with the words 'oleomargarine served here,' in capital block letters not less than one and one-half inches long.

"No label, mark or brand shall be used until it has been approved by the food controller. The necessity of allowing the sale of oleomargarine in Canada under present conditions was explained by Hon. W. J. Hanna, food controller, in an interview today. Mr. Hanna said that it was well known that people must have animal fats in sufficient quantity. Butter had advanced in price and was still advancing until many people were unable to buy it. Moreover, butter seemed likely to go still higher in price because the present price of condensed milk, on a butter fat basis, with the price being paid for whole milk.

"There were only two courses possible," said the food controller. "We could have fixed an arbitrary price but the result would have been to reduce the production of butter, by diverting milk into other channels. It must be remembered that the price paid to the producer in Canada for milk is determined in very large measure by what the condensing plants are willing to pay for it. The high price offered by the condensing plants, in turn, is due to the price being paid for condensed milk by the Allies' buyers. The cost of producing milk has advanced greatly since the beginning of the war, and the farmer must receive a price which not only will cover his costs but also give him a reasonable profit.

"The other course was to allow the use of a substitute, and this is the course which we adopted. I may say that I do not expect that our action in allowing the sale of oleomargarine in this country will result in any reduction in the price of butter. The overseas demand is practically unlimited, when compared with Canada's production. Moreover, the price of butter in the United States today is at least as high as the price in Canada. The average retail price of butter in the United States for

September was fifty cents a pound. The regulated wholesale price in England was 83.76 cents a pound. At the beginning of the war, Canada was importing at the rate of more than seven million pounds of butter a year, chiefly from New Zealand and the United States. These imports have dwindled to a very small trade, principally at local points from the United States.

"Meanwhile our exports of butter have increased enormously. In the fiscal year ended March 31, 1914, our exports of Canadian butter totalled 1,228,738 pounds. For the fiscal year ended March 31, 1917, they had been increased to 7,690,485 pounds. Since then the increase has continued. While our exports have been increasing, prices of butter to the consumer have advanced from about thirty-five cents a pound to about fifty cents. We are only supplying a very small part of the Allies' requirements. In 1914 Great Britain alone imported 446,280,848 pounds of butter and in 1916, despite shipping difficulties and necessarily reduced consumption, no less than 248,646,480 pounds. For years after the war Europe will require all the butter which Canada can produce for export and the prices are certain to be high. These facts show that the dairy interests of Canada have nothing to fear from the order allowing the sale of oleomargarine. The producer is in no danger of losing his market.

"The regulations, which will govern the manufacture, importation and sale of oleomargarine in Canada, have been carefully prepared and will afford ample protection against fraudulent practices."

REV. M. P. HOWLAND, GOING AWAY, RECEIVES PURSE FROM FRIENDS

On the eve of his departure for Kingsclear, York county, to which he has been promoted to be parish priest, Rev. Miles P. Howland was pleasantly remembered last evening at a gathering of friends in the Knights of Columbus' council room on Sunday evening. Dr. W. P. Broderick presided and presented a substantial purse to Father Howland, accompanied by the following address:

"On the eve of your departure to your first pastoral charge, we have invited you to be present with us tonight for several reasons. First of all, we are desirous of the opportunity of expressing to you our feelings of mingled pleasure and regret—pleasure at your advancement to a pastorate—regret, that preferment means your removal from amongst us;

"Secondly, we are glad of the opportunity of giving a tangible expression to those sentiments of respect, love and reverence with which our hearts are filled towards you, as a priest of God, and lastly, to wish you Godspeed and to express the hope that you may be speeded (ad multos annos) to minister to the spiritual wants of your people and that your advancement of today is but a prelude to further advancement in the future.

"In you, we recognize a lineal descendant of those great men, the Apostles, to whom was given the mandate from the Master, 'Go forth and teach all nations, etc.,' and we realize that it is in answer to that same mandate that you are leaving us to take up the work of your sacred calling in another quarter of the Master's vineyard;

"Since your advent among us some four years ago, you have endeared yourself to the hearts of all by those sterling traits of manner, mind and heart, which we rarely see so nicely blended in one individual.

"In your ministrations at the holy altar we have admired the earnestness, zeal and devotion which you have always shown and we have been edified thereby. We have listened admiringly and profitably, I hope, to your splendid sermons and instructions, which were at once gems of doctrine and oratory, and I am sure there is no one amongst us who has not listened with profound devotion when at the holy sacrifice, your splendid voice chanted the solemn tones of the Vere Dignum et Justum Est.

"Need I mention the great love and interest that you have always shown toward the little ones and the consequent love and affection that is yours in return. Not only the little ones of the flock, but the adults have learned to love that gentleness and urbanity of manner which is peculiarly your own, and which has been manifest to all as father and friend. We know that you were ever ready to take your place as a leading Catholic citizen, sparing neither your time nor ability to further a good cause.

Those present then took occasion to bid Father Howland farewell, with expressions of hope for all for his success in the future and Dr. Broderick added the hope that opportunity would arrive for Father Howland to come to the city on a future occasion and be heard on the Knights' lecture platform.

Father Howland was the preacher last evening in St. John the Baptist church at the closing of the October devotions. The closing exercises were conducted by the pastor, Rev. F. J. McMurray, assisted by Father Howland. There was a procession of the Sunday school boys around the church in honor of the Blessed Virgin.

Father Howland will leave here tomorrow evening for Kingsclear.

HINDENBURG'S MOVE SCARES PETROGRAD

Probability is That He is Playing a Trick on Russians—Is Economizing Men

London, Oct. 29.—It is possible that Hindenburg is playing a sly trick in withdrawing from the advanced Riga positions. He is endeavoring to economize every soldier possible by making

the line safe with the smallest possible number of men, while others are withdrawn for operations on the West front or against the Italians.

The German losses during the last few weeks of the British and French offensive have probably been greater than Hindenburg expected, therefore he is becoming more cautious. Even the most optimistic hardly believes that the Germans are withdrawing through any fear of a possible Russian strengthening or recuperation. The Russians evidently have fears for the safety of Petrograd's naval port, Kronstadt, for they are announcing the civil evacuation of that place. This is undoubtedly a precautionary measure, but it is connected with Hindenburg's halt in the Gulf of Riga, which might be taken as ominous.

Although daily reports show that the Russian conditions have not been bettered and are even getting worse, so far as the treachery of civilians is concerned, there is a disinclination on the part of Britain to withdraw any of her aid. Lord Robert Cecil, in the House of Commons, announced England's firm determination to abide by the Russians and assist them in every way. Some elements of the British press, especially the Northcliffe papers, continue pounding the Admiralty for the laxity of its naval policy, and apparently it is their intention to arouse a sentiment in favor of naval aid for Russia in the near future, especially if the Hun threatens to occupy Petrograd. Emphasis is placed upon the recent North Sea sinkings.

"I can't see why that man is boss over me. I do most of the work around here."

"I guess that is so."

"It is. I know more about the business than he does. Whenever he wants to know anything about what's going on he comes to me to find out."

"That's usually the way."

"I'm the fellow that ought to be the boss."

"A lot of men think that way, and yet there's one big difference. He knows something that you don't know."

"What is it?"

"He knows enough to hire good men like you to do the work. If you knew that you'd be the boss, and he'd be in your place."—Detroit Free Press.

Careful Buying Brings Men to Goodyear Tires

Goodyear fares best when the public is buying most carefully. Goodyear sales increased in normal times through goodness—long mileage, comfort, freedom from trouble. But the increased demand for Goodyear Tires in the war years has been phenomenal.

Men who had bought tires thoughtlessly were driven to analyze and scrutinize tire records. They sought greater mileage, lower cost-per-mile, greater safety. And they are buying Goodyear Tires on their records.

and last longer, and so cost less in the end. It will be extraordinarily free from trouble.

It isn't by chance that Goodyear Tires possess this greater goodness. Famous engineers have labored unceasingly to make these tires what they are. Thus they evolved the Goodyear No-Hook Tire—protected against rim-cutting by our No-Rim-Cut feature, against insecurity by our Braided Piano-Wire Base, against wrinkled fabrics and blow-outs by our On-Air cure, against human mistakes by our Tire-Making machine.

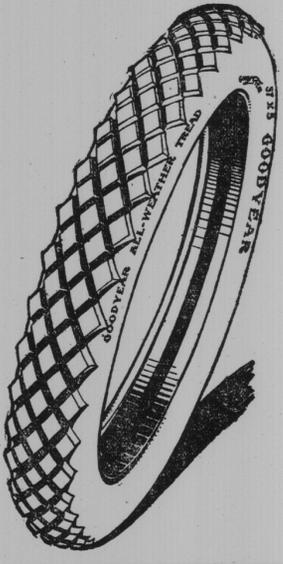

And it will prove these virtues to the greatest degree if you avail yourself of the services of the Goodyear Service Station.

Every Goodyear Tire that leaves our factory has built into it unusual mileage, security and comfort. It will go farther

Here is the final link in the chain of Goodyear value—a service that tells you how to get, and helps you to get, out of Goodyear Tires all that we have built into them.

You will enjoy Goodyear Tires—the growing margin of Goodyear leadership assures it.

BASEBALL

Eastern League Meeting.

New Haven, Conn., Oct. 27.—At the annual meeting of the Eastern League Baseball Association held here recently officers were elected, the pennant for the past season formally awarded to New Haven, and an amendment following the election of officers for more than a year adopted. The question of putting teams in the field next year was settled affirmatively and a schedule named.

Daniel O'Neil, of Hartford, was elected president and secretary for a three-year term. Thomas O'Brien, of Hartford, was elected treasurer. Directors chosen follow: Morton F. Plant, New

York; James T. Collins, New Haven; C. T. Lane, Bridgeport; James T. Clark, Hartford; William E. Carey, Springfield; Edward S. Smith, Worcester; M. J. Garrity, Portland, and R. W. Emmons, Lawrence.

Wants Try With Leonard.

New York, Oct. 26.—While Benny Leonard is hop-scotching around the country defeating small town products, local fans are wondering when he will be pitted against one of his New York rivals. There are several clamoring for a match. There are at least three qualified to dispute Leonard's claim to the world's lightweight championship. They are Frankie Callahan, Johnny Dundee and "Irish Patsy" Cline. It is more of a probability than a possibility that the title-holder would defeat them but petting for a match. It is a question

until he faces them and does so, there is no necessity for him going out of his class and engaging in handiicap matches, as he did when he fought Jack Britton, Callahan, Dundee and Cline. All are trading close upon Leonard's heels. A match with any one of these would be highly pleasing to Metropolitan fight-gazers.

The trio battled Leonard before he was champion, and did very well, indeed, against him. With the exception of Dundee, maybe, they have improved since then. It is admitted that Leonard is a far better boxer now than he was then, but even allowing for that it is not unreasonable to suppose that Johnny, Frankie or Patsy could make things decidedly interesting for Benny.

Then there are Willie Jackson and Charlie White, the "knockouts" com-

fort of the Western League in 1911, he played second base, and was in that position

whether these two are as good as Cline, Callahan and Dundee, and as well qualified to make things interesting for the champion, but if they're not, they are not far behind them. That makes five lightweights, and legitimate lightweights too, for Benny to pick on before again essaying the David and Goliath act.

Mike O'Dowd Wins.

New York, Oct. 28.—Mike O'Dowd, of St. Paul, defeated Jerry Cole, of Erie (Pa.), tonight in the third round of a ten-round match in Brooklyn last night, the latter's seconds throwing up the sponge. O'Dowd, who weighed 131 pounds to 125 for his opponent, tore into Cole from the start, scoring a knock-down in the first round and two in the second. In the third one of O'Dowd's heavy blows sent Cole through the ropes.

Offers \$20,000 to Leonard.

New York, Oct. 28.—Dick Curley today offered \$20,000 to Benny Leonard, lightweight champion, to box Charley White, Chicago lightweight. Billy Gibson, Leonard's manager, is willing. But there is a hitch over the going of the bout, as Curley wants to stage it near Chicago. He says Gibson wants to stage it himself. Curley will insist on a twelve round fight. If a show bout is arranged the purse will dwindle.

BILLIARDS

De Oro Retains Title.

New York, Oct. 29.—Alfredo De Oro is today world's professional three-cushion billiard champion following his victory over John Daly, former titleholder and challenger, in the final block of their 160-point match Thursday evening by a score of 50 to 46. This made the total score for the three nights' play: De Oro 150, Daly 129.

Huggins To Manage Yankees

Former St. Louis Leader Signs With New York Club; Will Succeed Donegan

New York, Oct. 27.—Miller J. Huggins, who for the past five years has managed the St. Louis Cardinals, yesterday was signed as manager of the Yankees to succeed Bill Donovan, who has piloted the New York club for the past three seasons. Huggins' appointment did not come as a surprise, as his name has been associated with the position since he had several conferences last summer with Jacob Ruppert, president of the American League. Huggins' contract is for two years.

The new Yankee leader is considered one of the smartest managers in the game, and was able to lift the Cardinals from their lowly position to a place in the sunny first division. Huggins knows the game thoroughly, and was rated one of the brainiest second basemen of baseball when he played with Cincinnati in St. Louis. He said yesterday, after signing his contract, that his playing days were over, as his throwing arm has not been right for the last few seasons.

Huggins is the ninth in the long list of Yankee managers. First there was Clark Griffith, and in succession came Norman Alberfeld, George Stallings, He Chase, Harry Wolverton, Frank Chance, Roger Peckinpaugh and Bill Donovan. Alberfeld and Peckinpaugh were only pennant winners. Donovan's plans are injured players and has encountered hard luck at many times. Huggins will bring to New York with him his scout, Tom Conroy, who has uncovered several stars in the past few seasons, including Roger Hornsby, Forestman, and Gooden, the last two being young pitchers of great promise.

Huggins will also retain Bob Gilkes and Joe Kelley as scouts, and President Ruppert stated, when announcing Huggins' appointment, that the Yankees would make every effort next season to give New York an American League pennant winner. Huggins' appointment, that the Yankees would make every effort next season to give New York an American League pennant winner.

Huggins for years was the smallest player in the major leagues. He was a great base runner. In 1911 he stole thirty-seven bases and in 1912 thirty-five bases. In 1912 he finished the season with a batting average of .304. Huggins was born in Cincinnati in 1880, and began his baseball career in 1898 with a semi-professional club in Wapakoneta, Ohio. In 1899, he played with the Massillon, Ohio, club of the Interstate League and in the following year played on the Fleischmanns Catskill semi-professional club. Up to this stage of his career Huggins was a shortstop, but when he signed with the St. Paul club of the Western League in 1901, he played second base, and was in that position

thereafter during his baseball career. Huggins was signed by Cincinnati in 1904, and played second base for the Reds until 1909, when he went to St. Louis in a trade for Beebe and Storck. Huggins played there during 1910, 1911 and 1912, when he succeeded Roger Bresnahan as manager of the Cardinals. Huggins has shown himself to be an aggressive, capable manager in St. Louis, and President Tener of the National League said yesterday that he regretted his departure from the league and wished him all the success in his new position. Huggins' wide knowledge of the managerial end of the game and his skill in developing young players should be a big factor in steering the Yankees to success next season. Huggins is a successful disciplinarian and has the faculty of getting the best work out of his players. He has a strong personality, and there is no reason to believe that he will not be an excellent choice as the leader of the Yankees.

NEW G.O.C. TO BE HERE THURSDAY

Brigadier-General Macdonnell Taking Over Command

Formation of Separate District—General McLean Home From Montreal After Inspection of the Killies

That Brigadier-General Macdonnell, D.S.O., C.B., who was recently appointed general officer commanding this district to fill the vacancy caused by the retirement of Brigadier-General McLean from the active militia, will arrive in St. John on Thursday of this week to take over his new duties, was the information that was received in the city this morning. On the arrival of General Macdonnell the machinery in connection with the forming of New Brunswick into a separate district will be got under way. It means the appointing of several more officers to this staff and thorough organizing of the province.

General McLean arrived home this morning from Montreal, where he on Saturday inspected the 55th Killie battalion. The unit, he says, is one of the finest that has yet been recruited in Canada and will cross to England with a strength of more than 1,200. On Sunday the unit was seen on parade in Montreal.

On Saturday night General McLean tendered a banquet in the Mount Royal Club to the officers of the battalion and all those who subscribed to the Killie fund.

It was learned that Captain Godfrey of the unit will to the battalion leaving for England revert to the rank of lieutenant, so that the general custom of doing business in this country, allow a fair remuneration for the wholesaler and the retailer, so as not to disturb the present method of doing business, and fix the price the consumer should pay for potatoes?

LOOKED LIKE A DAY BEFORE PROHIBITION

Five Are in Court on Drunkenness Charge — Other Matters Gone Into

There were five cases of drunkenness before Magistrate Ritchie in the police court this morning, and several old-timers made the court look almost like before prohibition times. Three were fined \$8 or two months in jail. Three of the prisoners were liable to an additional fine of \$200 or six months in jail for having liquor in their possession in the street.

One of the prisoners said that he was from the United States, and had just come here to join the Canadian army. "This is my first experience in a dry town, Your Honor," said he, "and that was the trouble."

Another prisoner was found asleep in the coach-house near the Union depot last night, and was charged with vagrancy. He made no explanation to the magistrate that he was from Pennsylvania and had got into trouble in Montreal, losing his money. He then came on to St. John, where he was told that he could get work. He had no money, and so was forced to sleep where he could. His Honor allowed him to go on condition that he reported to him for a little while to make sure that his story was correct.

A man was charged with not supporting his wife and four small children at his home in Brussels street. The wife said that the eldest two children were sometimes prevented from going to school on account of their lack of clothes. "Sometimes there was no food in the house," she said. "He provides food as a rule, but when he doesn't, we have to go without."

Rev. George Scott, secretary of the Children's Aid Society, made two visits to the house and found the larvae devoid of food and the children and wife hungry. The husband was put on the stand and said that he worked every week as a longshoreman, sometimes earning as much as he did at other times. "It is pretty hard," he said "to pay for food, with everything costing as it does. I am doing the best I can, but sometimes the grocery bill is \$22. I get between \$10 and \$26 a week, and it is all one can do to make both ends meet."

The magistrate thought that the family must live on very good food, but Mrs. Dobson quoted a few prices of foods absolutely indispensable to life, and His Honor admitted that it cost more to live than would at first seem possible. In order to avoid having the family on the hands of the public, His Honor allowed the man to go free and admonished him to take better care that there was always enough food in the house for the next day.

The four boys who were convicted of stealing five tires from J. J. Davis, in Clarendon street, were let go on suspended sentence, and under the agreement that they report every week for a month or so to His Honor to see that they are keeping straight. The four were reminded that they would be required as witnesses in the case in the county court against Eldon J. Wilson in charge of receiving stolen goods. The case will come up on November 6.

One of the prisoners this morning, charged with drunkenness, said that another had given him the liquor. The latter man pleaded not guilty and defended himself on the ground that he was but one of a party of three, including the prisoner who made the charge. The third man had brought the liquor and had treated the others. The one making the charge admitted getting several drinks in the Returned Veterans' rooms in Union street. His Honor asked that the place be closed up. The matter in question was deferred until the third party could be brought to court.

MR. HANNA AND POTATO PRICES

St. John Business Man Believes Controller Should Fix The Figures

A business man who believes that Food Controller Hanna should fix the price of potatoes without delay gave the following interview to The Times this morning:

Mr. Hanna, in his address to the Women's Canadian Club at Kingston, Ont., is quoted as saying: "If it is necessary I am prepared to fix prices, but I am not prepared to fix freak prices."

In fixing prices we have to be careful that we do not dry up the source of supply. The average crop of potatoes in this country is 100 bushels to the acre, the seed alone cost the Ontario farmer \$42 an acre without counting labor on the land or anything else. You can't fix prices at the figures of ordinary good crop years; you can't set the price in spite of the cold facts.

"What Mr. Hanna states is very true, but is he justified in thinking that the people will not have to pay more than he should, due to speculative buying and hoarding of supplies?"

Mr. Hanna mentions the cost to the Ontario farmer for seed potatoes. Does he not know what would be a fair price for the Ontario farmer to receive for what that seed produces? Can he not, following the general custom of doing business in this country, allow a fair remuneration for the wholesaler and the retailer, so as not to disturb the present method of doing business, and fix the price the consumer should pay for potatoes?

"If he can do this the speculative buying and hoarding which would seem to be one of the chief factors in forcing up prices should disappear and the consumer would know he is only being asked to pay a price which is fairly warranted by the conditions."

(Chatham World.)

A food controller who doesn't control anything, but sends out a stream of grandiloquent advice and exhortation to consumers in favor of thrift, is of little use. Why doesn't Mr. Hanna do more and talk less? The steadiness in the flour market since a price for wheat was fixed shows what can be done. And a regulation that has stopped speculation and hoarding in flour ought to be effective in respect to potatoes and many other things. There is a maximum price for potatoes in England, and a farmer was paid \$27,000 a few days ago for selling at a higher price. It has been clearly demonstrated that not speculation, was responsible for the boosting of the price this fall. Speculators are going around, buying up potatoes to be sold at a big price when an artificial scarcity has been created. The price has been boosted already from \$2 to \$4, and will certainly go up to \$8 if the food controller doesn't wake up to the need of controlling something. There is no scarcity of potatoes in Canada, and certainly in the United States, and a maximum price ought to be fixed at once.

FURTHER PROHIBITION OF EXPORTS BY BRITAIN

W. E. Anderson, imperial trade correspondent, has received a copy of the following cable from H. M. Board of Trade, London, England:

"Exportation of following things prohibited United Kingdom, October 18: Coir fibre, fish hooks, goatkins and sheepskins, animal hair, lead, farming machinery, hosiery, needles, seal oil, wool and manufacturers thereof."

Note—Prohibited exports of manufacturers of wool here referred to apply only to reindeer wool and yarns, rags and shoddy of wool.
