ENEMY, IN DESPERATE ATTACK ON FLEURY, AGAIN IS BEATEN

Paris, Aug. 21.—The Germans delivered a violent attack on Fleury last night using flaming liquid, but without result, says the War Office statement today.

ALONG THE WHOLE LINE

Paris, Aug. 21.—No further details of the operations on the Saloniki front are given in the report today from the French army of the east, which shows that fighting is still in progress along the whole line. The announcement says: "Operations are proceeding along the entire front."

RUSSIANS GAIN

Petrograd, Aug. 21.—The Russians have made further advances at some points along the Stokhod line, where they broke through the Austro-Hungarian defenses, last week. The war office announces this today. The capture of more than 15,300 men in this region in two days is reported.

ITALIANS AT SALONIKI

Ris, Aug. 21.—Italian troops began to disembark at Saloniki yesterday, says the Havas despatch from that point. On leaving their ships, the despatch says, the Italians passed through Saloniki to the allies and cheered by the populace.

Active participation by Italian troops in the Saloniki campaign would mark the existence of a state of war between Germany and Italy. Germany is directing the operations against the Allies on this front and, as the official German reports show, has forces there. Some Austrian troops also probably are employed and possibly Turks, but the major portion of the army is made up of Bulgarians. Recent reports have indicated the withdrawal of Austrian troops from the Balkans for use on the Russian and Italian fronts.

As the Entente Allies are believed to have a force of some 700,000 British, French and Serbian troops on the Saloniki front, the sending of reinforcements at this time, just after the opening of hostilities on a large scale, would indicate that the Allies have embarked on a campaign of extensive preparations.

Italy, which has a considerable surplus of troops, has been urged to take a more active part in the Balkan operations, but was believed to have refrained partly on account of the fact that it was not at war with Germany. There have been several recent indications, however, that a declaration of hostilities was forthcoming.

A commercial treaty between these nations was abrogated, a German count ruled that Germany is actually, though not formally, at war with Italy, and last week it was reported that the despatch of Trieste would be taken over by Germany. Italian participation in the Balkan operations hitherto has been limited to occupation of the Albanian port of Avlona which was effected before Italy declared war on Austria.

Aviation Killed

Paris, Aug. 21.—Second Lieut. Brindone Jean Molinias, a French aviator, was killed in an accidental fall from his aeroplane in the Verdun region.

Heavy Austrian Losses

Rome, Aug. 21.—According to an official estimate today, the Austrian losses on the Isonzo during the great Italian advance between Aug. 6 and 15, exceeded 65,000 men and the number of prisoners captured by General Cadorna's troops within the same period totaled 23,000.

Umberto Bocconi, the most brilliant painter and sculptor of the futurist school, was killed through a fall from his horse during operations in the war zone.

GERMANY SAYS CROPS ARE GOOD

Berlin, Aug. 20.—Information now at hand, gives assurance that this year's crop will be much in excess of those of the last previous years, according to a statement from the office of Adolf von Batocki, president of the food registration board. It is said Germany is assured of supplies of all food necessities for another year.

BORNEN'S SECRETARY GETS A POST AS COMPTROLLER OF THE MOUNTED POLICE

Ottawa, Aug. 21.—It is said on good authority that A. E. Blount, present secretary to the prime minister, will be appointed comptroller of the Royal Northwest Mounted Police in the place of Comptroller Fortescue, who will soon retire. Mr. Blount has been secretary to the prime minister since 1911 and as such has been in touch with the N. W. M. P. force for several years.

BRUTAL DEPORTATION BY THE TURKS

Athens, Aug. 21.—The Turkish authorities in the Black Sea region are acting towards the Greeks in the same fashion as the Germans have done with the civil population of the occupied portions of northeastern France. The Turks, according to instructions from Constantinople, where all power is still in the hands of the Germans, are rounding up civilians in a considerable number of villages and sending them off in batches to concentration camps in the interior.

This means practically a sentence of death, for in large numbers they are forced to go afoot, absolutely without food. En route these pitiful caravans are attacked by Turks, who rob them of their children. The deportations are on a scale of a million a day.

German Report Says Roumania Stays Out

At Least No Idea of Entering War Against Central Powers Now or in Immediate Future

New York, Aug. 21.—The World publishes the following despatch from a staff correspondent, Kath Von Wiegand, in Berlin, under yesterday's date: "Roumania will not enter the war against the Central Powers now, or in the immediate future. Notwithstanding the more or less alarming reports that Roumania is about ready to march against Austria-Hungary which, in fact, are becoming an old story, this is the very confidential information I have from a source in Bucharest which ought to be in a position to know. This source, which can by no means be considered as pro-German, goes so far as seriously to doubt whether Roumania will enter the war on either side, certainly not so long as she has to take big chances and the duration of the war remains uncertain. "None can yet measure the length of the war, and Roumania knows the price of failure too well to risk a gamble with fate with throwing the dice without knowing beforehand which side will turn up. This is the way my source of information puts it. "Roumania has discharged all German, Austrian and Jew employed in its munitions work. I am reliably informed that it has only 800 persons now making ammunition, as that with the present supply, it would be national surplus to enter a war which might last more than a few weeks."

GREEK KING CONSTANTLY UNDER GUARD

Athens, via London, Aug. 21.—The Royalist party in Greece is taking extraordinary precautions preparatory to the coming election. King Constantine is constantly guarded and visits the capital only on rare occasions. On these journeys, a cordon of soldiers, constituting a brigade, guards every approach to the road between the king's summer villa at Tatoi, and Athens.

Being Operated at Loss is Statement Made at Meeting Today

A meeting of the commissioners of the Lancaster ferry was held in city hall at noon today. G. Heber Vroom presided, and also present were Commissioners Russell O'Brien and Gidding. It was pointed out that the ferry has been running from Indian town to Pleasant Point for ten years, and during that period business has declined, and it is now being operated at a loss. Commissioner O'Brien said the unexpended balance of the fund was \$1,000. It was decided to ask the government to help in the matter. The ferry is operated by the Lancaster Ferry Co., which is a private company. The ferry is used by many people, and it is a very important mode of transportation in the area.

London, Aug. 21.—The Daily Express quotes from the Berlin correspondent an account of a food riot before a flour merchant's place, which the police were compelled to quell. About 600 women were waiting outside when Frau Anna Rench and three others in the rear of the crowd started a flying wedge to force their way in ahead of their turn. In the ensuing commotion, fists, nails, teeth and even shoes and clubs were freely used. Much of the flour was scattered in the street. Frau Rench was arrested and fined \$15, while the store was closed for twenty-four hours by order of the police.

SASKATCHEWAN CHARGES IN MOST PART FAIL

Several Members, However, Are Condemned by Royal Commission

Regina, Sask., Aug. 21.—The Brown-wood Commission has reported on the investigation of the charges made by J. W. Bradshaw, as follows: "That between Dec. 11 and 20, 1915, the following Liberals, members of the Saskatchewan Assembly, were bribed to oppose the government bill to abolish the franchise law: J. T. Toke, S. C. Simpson, A. F. Toke, A. Lochead, J. A. Sheppard, C. W. Cawthorne, G. E. Enns, J. Pierce. The commissioners find that large sums were withdrawn from the bank of the Licensed Victuallers' Association to influence members of the legislature, but state there is absolutely no evidence to implicate Toke, Lochead and Sheppard. They decline on the unopposed evidence of the main witness, Frank Bruner, one of the most active agents in the distribution of the funds, to make a finding in the case of Simpson. They find that Cawthorne received a large sum as a bribe in connection with liquor legislation, and that Pierce also received a large sum, and acted as an instrument to defeat legislation. In the case of Enns, the commissioners differ. Commissioner J. J. Brown holding that there is no evidence enough to convict him of receiving \$300 from Bruner and Commissioner Elwood holding that he did receive the sum. In the charge that J. A. Sheppard received \$700 on behalf of an applicant for a license at Limerick, the commissioners are unanimous in finding that Sheppard handed \$200 of this amount to the secretary of the local Liberal Association and deposited \$500 in his own name. The commissioners absolve Lochead and Hon. W. F. A. Durgeon of wrongdoing in securing the withdrawal of a charge against a Gull Lake license-holder and the former of stifling a complaint against another Gull Lake hotel man. Cawthorne is found guilty of receiving \$100 from a bigger hotel man to stifle prosecution. In a charge against Hon. A. P. McNab that he was a party, to having charges against William Robertson, an Alaska hotel keeper, dropped in consideration of political support, the commissioners differ. Commissioner Brown finding the charge not proved, owing to the unreliability of the witness, and Commissioner Elwood holding that the charges against Robertson were withdrawn as the result of a conversation between McNab and Robertson in which the latter promised to support the government if he retained the license.

PLAN GENERAL ATTACK

They and Germans Say Territory Will be Restored at End of War—Serious Revolt in Albania Puts Austrian Garrison in Critical Position

London, Aug. 21.—(Toronto Mail and Empire cable.)—That it is the intention of Bulgaria to launch a general attack against the Entente armies on Greek soil is the information conveyed to Premier Zaimis of Greece by the Bulgarian minister at Athens, M. Passaroff, according to a Central News despatch from the Greek capital. Another despatch received by way of Copenhagen quotes the official Bulgarian newspaper as saying that Bulgaria expects the same treatment at the hands of Greece as that accorded the Entente. "Our troops must fight on Greek soil," adds the newspaper, "taking the offensive now, in order to forestall Serbia." Bulgarian troops have occupied considerable sections of Greek territory for months without serious opposition from Athens, and the opinion is expressed that Greece has a secret agreement with Germany whereby the invasion will be tolerated in return for the Greek occupation of southern Albania, the annexation of which was announced at Athens some months ago. In order to allay fear among the Greek population, however, Premier Passaroff of Bulgaria is reported in a Central News despatch from Sofia to have advised the Sublime Porte, the Bulgarian parliament, that the Bulgarian advance is being made in order to ensure better positions and a stronger line. He expressed the government's hope that it would not cause fresh complications.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

WILLIAM FAVERSHAM AT IMPERIAL TONIGHT

William Faversham makes his bow to the people of St. John on Imperial Theatre curtain today. He is introduced in the leading role of Frederic Arnold Kummer's powerful story, "One Million Dollars." Aside from the story value of this picture and its entertain-

ing merit, much interest will centre in the debut of the noted metropolitan actor of whom much has been heard in a theatrical way, but whom St. John has not had the pleasure of seeing act.

The Pathe British Gazette will include many other splendid subjects—pictures of the vacillating King of Greece, the Kitchener memorial at St. Paul's Cathedral, President Poincare inspecting giant guns, reception to wounded soldiers in Sydney, N. S. W., and about one dozen other engrossing subjects dealing with ourselves and allies. The bill will be concluded with an interesting comedy.

You know the Gem's specialties leave you all, and this is a good one.

When three of the Sabean children, whose mother is under arrest, were taken to the Children's Home in Elliott Row, the Matron, Mrs. Milligan, saw at once that they needed medical attention. Dr. F. J. Hogan examined them and it was found that one was suffering from an infectious sore on her head, curvature of the spine and whooping cough, while another also had whooping cough. Fortunately they had been isolated. Rev. W. R. Robinson and Police Matron Ross sought to have them placed in the epidemic hospital, but the general hospital, Dr. Walker hoped, however, to be able to make room for the two little ones tomorrow.

The Trades and Labor Council reported that arrangements have been made for a large committee to be supplemented to assist at the fair, also that arrangements have been made with the Temple of Honor Band, and in all probability the St. John Brass Band to furnish music during the day. The hope was expressed that the services of the City Cornet Band could be secured. They are under contract to play at Seaside Park that day, and an endeavor will be made to secure them for a short time at least. The matter of amusements was referred to the Rotary club, and a feeling was expressed that they would assist.

Protect Your Eyes

Those to whom nature has given extra good vision are apt to be rather proud of it and nearly always abuse it.

The commonest complaints we hear of are regrets for impaired sight, which was once above the average.

Good vision is priceless. Health, happiness and prosperity depend upon it, yet our eyes are being persistently injured and little attention is given to preserve their usefulness.

The symptoms of eye-strain should be heeded.

A Good Thing to Know About Eyes

Good sight is largely a mechanical process. The shape of the eye and the way the muscles operate largely determine whether vision is good or not.

Often good sight is secured only through constant straining of the muscles of the eye. Such strain, unless corrected, invariably leads to serious trouble.

Eyes change with age, so the wise person has a thorough examination of the eye made every year or two. Let us watch your eyes and you will see better for a much longer time.

SOUTH BAY FAIR WILL BE CONTINUED TONIGHT

Owing to the large number of useful and costly prizes not disposed of, it was considered advisable to hold the fair open on Monday evening from 7 to 10 o'clock which will give those unable to attend on Saturday an opportunity to obtain one or more of the beautiful prizes, or to get a dollar's worth of groceries for ten cents and enjoy the many other features of the splendid picnic.

One cabbage which weighed about 28 pounds was purchased by His Worship the Mayor and returned to be re-sold and will be auctioned off tonight.

Those owning automobiles will have an opportunity of obtaining a barrel of White Rose gasoline for perhaps a few cents. There are over \$700 worth of prizes to be disposed of. Dame Fortune will be there on Saturday to read the hand to give a glimpse into the future.

If it is cold and foggy in the city this will be a nice way to spend a pleasant evening and escape the fog. THEY WILL GET AFTER YOU

Challenge to the Confectioner to Put Brains and Energy into the Soft Drink Trade—Liquor Men See the Signs of the Times and Fall in Line.

Just watch a good bartender prepare a drink and make a comparison with the work of most of the white coated dispensers that are supposed to ornament and enhance the service of a first class soda counter in our large cities. In the first place there is usually a lack of interest in his work on the part of the soda attendant which shows itself in the careless and often stupid handling of the ingredients at his disposal.

The bartender makes liquor mixing an art and liquor drinking a mystic 'rite, while the average soda dispenser goes at his work in the cheap and nasty spirit that seems to want the process over as soon as possible and the drinker off about his business.

If soda dispensers are to profit by the banishment of strong drink in this and other provinces they will need to sit up and take notice. If the hotel people, as is evidently their intention, get after the confectioner 'a run for his money' the time to waken up is now, not when the confectioner has discovered that the hotel bar around the corner is getting the men while women and children afford his apparatus a scant patronage.

**its place in the sun**

To hold "its place in the sun," is the avowed purpose of a great nation's conflict. To hold "its place in the sun," is the object of every business in the great fight for industrial and commercial supremacy.

To be able to hold "its place in the sun," is the supreme test of an asphalt roof. It is the sun, not rain or snow, that plays havoc with a roof. If it can resist the drying out process of the sun beating down upon it, day after day, the rain or snow will not affect it except to wash it clean and keep it sanitary.

**Certain-teed Roofing**

takes "its place in the sun" and holds it longer than other similar roofing, because it is made of the very best quality roofing felt, thoroughly saturated with the correct blend of soft asphalt, and coated with a blend of harder asphalt. This outer coating keeps the inner saturation soft, and prevents the drying out process so destructive to the ordinary roof.

The blend of asphalt used by "The General" is the result of long experience. It produces a roofing more pliable than those which have less saturation, and which are, therefore, harder and drier.

At each of the General's big mills, expert chemists are constantly employed to refine, test and blend the asphalt used; also to experiment for possible improvements. Their constant endeavor is to make the best roofing still better.

The quality of CERTAIN-TEED is such that it is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply). Experience proves that it lasts longer. Behind this guarantee is the responsibility of the world's largest manufacturer of roofings and building papers.

Have you tried Ingersoll Pimento Cheese? It's like cream cheese, with a delicious flavoring.

The following appeared in a Pittsfield church calendar recently: "The church is not a refrigerator for preserving perishable piety. It is a dynamo for charging human wills. The object of the church is not to tell how to dodge difficulties, but to furnish strength and courage to meet and master them. The business of the church is not to furnish hammocks for the lazy. It is rather to offer well-fitting yokes for drawing life's loads. The man who does not attend any church virtually votes to do away with all churches." 8

**THE GENERAL PROPOSAL**

(James W. Foley in Saturday Evening Post.)

If I tracked some mud on the carpet  
Could you smile and, with never a word,  
Could you see it was brushed up, nor harm it?

Until of my error I heard  
A dozen times ere I could hush it?  
If I dropped cigar ash on the floor,  
Could you see it with silence and brush it?

As when I came courting before?  
If I chanced to be late for my dinner,  
Could you keep it all warm, with a word?

And serve it with cheer and no lamer  
And hidden reproving the while?  
If I stopped on your train, could you sweetly  
Accept my regrets, as you do  
From Tom, Dick or Jack, and completely  
Make me a life debtor to you?

If I chanced to be silent, just wishing  
To think and smoke my cigar,  
Could you let me, and not keep on fishing  
To know why moods are as they are?  
If to overlook something uncleaner  
I did you and you should agree,  
Could you do it, and never, no never,  
Recall it to heap shame on me?

Could you walk by my side, be the weather  
Of rain or of shine, and help bear  
The burdens we might have together  
If I should do quite all my share?  
Could you treat me as if I were equal  
In all that I want and I do,  
And not spoil the tale in the sequel  
Of Marriage to Courtship? Could you?

Say, honest and true—could you take me  
As just a fair, square sort of man  
The Lord made, and not try to make me  
To fit some whim, notion or plan?  
If my sins were just small ones and human,  
Could you smile and forgive them the way  
You did when we courted?—Rare women,  
I'm yours for all time—name the day!

SERIOUS ACCIDENTS; ONE OF THEM FATAL

Roland Campbell, a signal maintenance man, was almost instantly killed close to Pamomeck station, on the C.P.R. on Saturday morning. Mr. Campbell was pinned underneath his motor trolley as it jumped the rails.

LADY MARY MONTAGU'S MEALS.

(From the London Chronicle.) The one meal a day idea would hardly have found favor with Lady Mary Montagu. Here she is, for instance, in Italy abdicating the parish doctor by "eating such a trifle."

THE VISIT OF THE ROYAL GOVERNOR TO VALCARTIER

(Correspondence of Times.)  
Valcartier, Camp, Aug. 16.  
His Royal Highness spent the day inspecting the troops in camp. Reville sounded at 6 a.m. and at 7 the troops moved by the various roads to the plateau, where they came into position in line at 8.25. The troops were formed into five brigades and the engineer training depot and the line stretched across the plateau for more than a mile.

Sharp at 9 o'clock as His Royal Highness galloped up to the saluting base around which were parked hundreds of motors and vehicles filled with spectators the royal standard was unfurled from the masthead and the command "royal salute" was given. The fourteen massed bands struck up "God Save the King" and 15,000 men presented arms. His Royal Highness then moved to the right of the line and passed slowly down the front rank, speaking to a man here and there, and then returned up the rear rank, after which he galloped over to the saluting base and the division prepared to march past.

The troops marched past in column of companies and as each company marched by the saluting base it was heartily applauded by the spectators. The march past occupied more than forty five minutes. After all the troops had reformed on their original alignment, the whole division advanced across the plateau in review order and when about 100 yards from the saluting base, the command to halt was given and then the royal salute and the division paid what will be its last compliment to His Royal Highness who will soon be returning to the mother country.

Whistler was once taken by a friend to the home of a newly rich millionaire who had been gathering a collection of dubious paintings, supposedly from old masters. After Whistler had viewed the collection his friend said:  
"Now, Whistler, Mr. Blank wants to make provision in his will to bequeath these paintings, and he would like a suggestion from you as to what institution he shall give them."  
Promptly came the answer: "To the East End Institution for the Blind."

REPORTS AT ANNUAL MEETING OF FURNESS WHITTY & COMPANY

At the twenty-fifth annual meeting of Furness, Whitty & Company at Liverpool on July 29, the Rt. Hon. Lord Furness said, in part, with reference to the business in Canada and the United States:  
"The shareholders will remember that at the last annual meeting I made reference to the establishment of our own office at the port of Philadelphia, so that we have now our own chain of offices at all the ports in the United States of America to which we run regular lines of steamships, viz: New York, Boston, Newport News, Baltimore, Philadelphia and Norfolk. In Canada we also have our own offices at Montreal, Halifax, N.S., and St. John's, Newfoundland. I may take this opportunity of saying that our English auditors have just completed their periodical visit of inspection to each American and Canadian office, and I am pleased to be able to state that the report which they have made to us testifies to the efficiency of the organization, and is in every respect most complete and satisfactory."  
"During the year your company has established a service between Philadelphia and Glasgow, which is proving a valuable berth, and we have established our own office at the latter port. Being the sole proprietors of the share capital in G. V. Turnbull and Co., Limited, of Leth, to which port the Furness Line have regular services from New York, Baltimore and Philadelphia, it has been decided from October 1 next to conduct the office at Leth in the name of Furness, Whitty and Co., Limited, for which purpose the business of G. V. Turnbull and Co., Limited, will be wound up and the assets taken over by your company. By adopting this course and opening our own office at Glasgow we will also have our own chain of offices at most of the British ports to which we run regular services of steamers, viz: London, Liverpool, Newcastle, Cardiff, Leth and Glasgow. Our organization both at the British and American ports includes our own stevedoring plant and our own regular super-

tendent, all of which makes for increased efficiency in the working of the important trades in which your company is engaged.  
F. W. Lewis, deputy chairman, stated that a great deal of unreasonable criticism had been directed against the steamship companies for the high rates of freight prevailing, a condition of things which was entirely due to the operation of the law of supply and demand. "Which is better," he asked, "to have your merchant shipping which has been created by private enterprise, enabled by the invincibility of the navy to sail upon every sea, and to carry goods in endless procession from shore to shore, or, as in the case of our enemy, to have government-assisted steamers locked up in harbors all over the world, conferring not the slightest benefit upon the nation to which they belong. The difficulty under which we are laboring is shortage of tonnage and any regulation or limitation of tonnage and any regulation or limitation of freight would not increase the shipping of the world by a single ton, and would probably in many cases only have the effect of reducing the freight for the benefit of the foreign merchant, without benefitting the consumer here in the slightest degree. This being so, the result of any such artificial regulation of freights would be fourfold. It would mean (1) that the government would lose the 60 per cent. excess profits duty and income-tax on the amount by which the freights were so reduced, (2) that the British ship-owners would lose the balance, (3) that the consumer in this country would obtain no benefit, and (4) the merchant would reap the full advantage. Apart altogether from these reasons, such a policy would have very serious effects. This country is dependent upon neutral shipping, at the present time, for about one-third of its total imports. Any limitation of freights would drive this tonnage away to more attractive markets in other parts of the world. Further than this, reduced freights would enable foreign merchants to ship over here a large quantity of essential articles which at present are only kept out of the country by the high rates of freight prevailing. These high rates have the additional advantage of automatically closing up industries which, in normal times, require a considerable amount of tonnage. Any condition of things that, at the present time, lessens the demand for tonnage is of national advantage. Ships required for the use of the naval and military authorities are taken at specially fixed rates, and government-owned commodities are also

"CATHOLIC WEEK" IN NEW YORK OPENED TODAY

New York, Aug. 21.—The Apostolic Delegate to the United States, the Papal Nuncio to Brazil, scores of bishops and other dignitaries, several hundred priests and thousands of laymen participated here yesterday in the celebration of a solemn pontifical high mass in St. Patrick's Cathedral as the formal opening of the fifteenth annual convention of the American Federation of Catholic Societies, and the sixty-first annual convention of the National Federation of German Catholics. It was estimated that more than 8,000 persons crowded into the cathedral and twice as many more in the streets surrounding the great edifice to view a procession which preceded the mass.

BIG SUCCESS OF TIPPERY MARY DAY; OTHER EVENTS SATURDAY

The largest crowd that have yet attended the outings of the Rotary Club thronged the Bishop's grounds at Torribon on Saturday and about \$3,700 was added to the patriotic fund. The affair was in every way a success and the large crowd that was there were more than repaid for their attendance. The grounds, which were offered to the committee by Bishop LeBlanc, are amply suited for a monster picnic such as Saturday's. A feature of the day was the tug-of-war between the local police force and the motemen and conductors of the street railway. The result was a tie, the railwaymen winning the first and the policemen the second, and the third being a draw. Mayor Hayes acted as referee and announced that the final pull would take place on Labor Day. The booths had been all decorated and they presented a very attractive appearance. They were many and varied, and the picknickers had difficulty in choosing which to visit first. Tipperary Mary was the hit of the day, and proved to be Miss Isabelle Tuttle, who was charmingly attired in a becoming costume of the Emerald Isle. Tipperary Mary was assisted by several other little stately queens dressed also in green. Great credit is due these young women for the amount of money they raised. The irresistible manner in which they raised their contributions proved too much for the picknickers and he or she gladly opened their pockets.

"Pleasure makes pleasure," can be very well applied to the picnic that was held on Saturday at South Bay on the grounds of E. F. Baker. Those that attended fully enjoyed the offerings of the various booths. The grocery booth held the greatest attention. Then there was the country fair, presided over by H. Rankine and Clifford Hill. The grove was lighted with electric lights and the Japanese lanterns strung among the trees added much to the scenic effects.

The blueberry picnic held at Welsford on Saturday was a great success. The proceeds were devoted to providing a fund for the picknickers and he or she gladly opened their pockets.

Owing to the large number of beautiful and costly prizes that have not yet been disposed of, it has been decided adjourn to hold the South Bay Fair again this evening from 7 until ten o'clock.

Her Simple Method.

A bachelor had courted a girl for a long time without coming to the point. One evening in Leap Year, the young lady being musical, he took her to a concert. The orchestra played No. 6, a selection that seemed to the bachelor very beautiful. He bent over his companion and whispered, "How lovely that is! What is it, do you know?"

She smiled demurely, and replied in a low, thrilling voice, "It is the 'Maiden's Prayer'."

"The 'Maiden's Prayer'?" he repeated in astonishment. "Why—"

But she handed him her programme, pointing to No. 6 with her finger. He read and started, for the real name of the selection was "Mendelssohn's Wedding March." He bought the ring the next day.

The Proof in Sales

THE proof of the newspaper advertising pudding is not so much in the eating as in the delightful after effects.

To illustrate: A large Philadelphia manufacturer had used other media, and it was only after much persuasion he was induced to try newspapers.

After one year's experiment his sales manager wrote the BUREAU OF ADVERTISING:

"Results have been so encouraging as to sell our company a national campaign of advertising through the newspapers."

When all is said and done it is results that count. And newspaper advertising gives results.

The BUREAU OF ADVERTISING, American Newspaper Publishers Association, 836 World Bldg, New York City, will be glad to present facts to manufacturers and distributors on the use of newspaper advertising.

### BRITISH LOSE TWO LIGHT CRUISERS; THE ENEMY A SUBMARINE

**German Fleet Out Again — Declines Battle — Victories for the Allies on Land**

The German high seas fleet has again appeared in the North Sea, and in a clash between German submarines and British scout ships two British light cruisers have been sent to the bottom. London reports that one of the submarines was also destroyed and that another was rammed and possibly sunk.

This is the first appearance in the North Sea of strong German naval forces since the battle of Jutland on May 31. The first news that the Germans had left the shelter of their mine fields and fortified bases was brought to Holland by trawlers who reported sighting a German squadron of fifteen warships, including large cruisers. This fleet was accompanied by two Zeppelins, and was steering northwest in the region of White Bank.

The two British vessels lost were the Nottingham, 5,400 tons, and the Falmouth, 5,350. The crews of both ships were saved, with the exception of thirty-nine men.

The Germans also claim to have sunk a British destroyer and damaged a battleship, but this is denied

by London. According to the British admiralty the Germans avoided an engagement with the main British forces and returned to port when their scouts reported the approach of strong British squadrons.

On the western front the French continue to press forward in the neighborhood of Guillemont, and Paris reports the capture of a strongly fortified wood between that town and Maucroix. In the Verdun sector the Germans are fiercely counter-attacking in an effort to regain Fleury, the loss of which they concede. The British report the repulse of German counter-attacks and the capture of a portion of trenches north of Bazentin-le-Petit.

In the east the Russians are apparently continuing their efforts on their new drive toward Kovno. Berlin admits that General Brusselov's troops have crossed the Stokhod at one point and Petrograd says that the Russians have pushed on beyond the river and captured a series of heights on the way to Kovno.

Fierce fighting continues on the crest of the Carpathians where the Russians are battling within sight of the Hungarian plains. No indication has been given, however, of the strength of the forces engaged in this region, and it is uncertain as yet whether General Brusselov is making a serious effort to invade Hungary.

The offensive on the Salonika front is growing in intensity on the 150-mile battle line from Lake Prespa to Lake Doiran. Both sides claim minor successes, but apparently no action of first importance has occurred as yet. An interesting feature of this situation is the advance of Bulgarian

### A MILLION DOLLAR STRING TO REQUEST TO CALAIS WOMAN

New York, Aug. 19.—Four wills of Miles Spurdin Vickery have been filed in the Surrogate's office. He died on August 8 at 322 West 18th street. The last was executed on November 8.

This instrument bequeaths a Russian cross, with enamel front and gold filigree back, which the testator said "may be St. John's Cross," to Calvary Episcopal church.

If my cousin, Mary Holt Eaton, of Calais, Me., she will pay, will pay, therefore, the sum of one million dollars, she is to have the same, said money to be used to endow the fountain at Olive Tree Inn and new and old churches in the South.

The will had contained the figure \$800 as the amount for which his cousin might have the cross, despite its having been bequeathed to the church, but was changed by the testator to \$1,000,000. Mr. Vickery left \$4,000 to erect and maintain a church in the mountains of some Southern state, preferably North Carolina.

**Carleton County Bye-Election**

John R. Tompkins, high sheriff for Carleton county, received His Majesty's writ, dated August 17, for the election of two members for Carleton county to fill the vacancies caused by the resignation of B. Frank Smith and Donald Munro. Nominations will be on Sept. 14 and the election on Sept. 21.

### DUTCH TRIBUTE TO FRANCE.

Three well known Dutchmen are amongst the neutrals who sent messages to the Journal de Lyon in reply to a question regarding the position and behavior of France. Mr. Golya, ex-minister of war, said the devotion of the French army and the behavior of the French nation everywhere evoked the greatest admiration. France was showing a moral strength which recalled the finest days of its history.

General Staal, another ex-minister of war, declared: "It is certain that war was declared on France, and that she was forced to accept it. It is certain that the French nation is bearing itself in a remarkable and admirable manner, that it has been able to transform itself into a nation in arms, and that the devotion, courage and patriotism which inspires all French people, men and women, evinces a striking greatness, above all praise."

Mr. Vliegen, a Socialist member of Amsterdam, paid a tribute to the spirit of self-sacrifice and the unity of France, which have preserved the world from the disaster of the hegemony of Germany.

Alton B. Parker, sponsor of the failure of Ford's peace mission, said in New York: "Ford wanted to do too much. He was omnipotent generally, like the selfish omnivorous farmer, you know. A farmer at a Florida hotel said to his waiter: 'What these here two spoons for?' 'Le big un am' fo' soup, boss,' said the waiter, 'an' de little un am' fo' puddin'.' 'Well, take the little un away,' said the farmer, 'an' bring me another big one to replace her. I got just as big a mouth for puddin' as for soup, young fellow an' don't you forget it!'

### THREE ST. JOHN MEN KILLED IN ACTION

Howard Chamberlain, Wm. T. Clark and George H. Tood Give up Lives

Mr. and Mrs. Cornelius F. Chamberlain, of 14 Clarence street, have given their only son in the defence of empire, for yesterday morning they received an official telegram stating that their son, Private Harold Chamberlain, had been killed in action.

Private Chamberlain enlisted here with the 26th Battalion and was sent to France in a draft to reinforce other Canadian units already on the firing line. Young Chamberlain landed on French soil in August, 1915, and almost on the first anniversary of his arrival there fell while fighting gallantly on the field of honor.

He was 21 years of age, a very promising young man, the true type of gallant Canadian lad who have been shedding their blood like water, for months past, in the great fight for liberty and British principles. He is survived by his parents and two sisters, Violet Marie and Katherine.

Before enlisting he was employed at Simms' brush factory, and his father is an employe of O'Neil Bros. at the city market. Great sympathy is expressed on all sides for the parents and sisters in their great bereavement and a very large circle of friends in St. John mourn the loss of a true friend and hero.

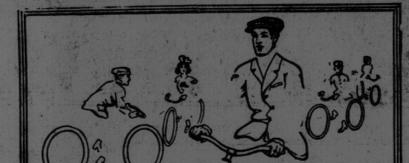

Sorrow came to another St. John home on Sunday, when news was received by Mr. and Mrs. James M. Clark, of Victoria street, West End, that their son, William T. Clark, of the 4th Canadian Mounted Rifles had been killed in action.

Private Clark joined the overseas unit at Nelson (B. C.), and has been in France several months and through much of the severe fighting there. Some weeks ago the parents here received word from the officer commanding the unit that William was missing and later two official telegrams bearing the same intelligence were received.

The parents, however, hoped that their son might have been taken prisoner by the Germans, but this official telegram came stating that Private William P. Clark had been killed in action on June 10.

The gallant soldier had been residing in the west for the twelve years previous to his enlistment and in civilian life was a railway construction man. He was about thirty years of age and unmarried, and is survived by four brothers, Parker A., Thomas Leslie, James Leslie and Wellington E., and three sisters, Mrs. C. G. Turner, Mrs. J. D. Maxwell and Miss Sheldrick.

Private Clark was well known in St. John and his many friends will learn with the deepest regret of his death.

THAT their bicycles might in every respect be of unusually good appearance, particular cyclists have equipped them with Goodyear "White Diamonds."

### GERMAN OFFICERS BROKE THEIR WORD

**Many Escaped from Interned Warships in U.S. and Several Not Again Heard Of**

Washington, Aug. 21.—Nine of the fourteen German officers and sailors who escaped from interned warships in American jurisdiction remain unaccounted for. Two have been caught or returned to those vessels, two managed to reach Germany, and one is a prisoner detained at Edinburgh Castle in Scotland, according to information disclosed in the third supplement, issued of diplomatic papers as part of the American white book on the European war.

Two parole violators who managed to find their way back to Germany are Dr. Keuger-Kroneck, the staff surgeon of the German cruiser Prinz-Eitel-Friedrich, and Otto Brauer, the second officer in command of the Prinz Eitel. Dr. Keuger-Kroneck is disclosed by the correspondence just made public to have been the man who supplied the money for the purchase of the small yacht Eclipse by six officers of the Kron Prinz Wilhelm, a German auxiliary cruiser interned at Norfolk. These six officers, including the doctor, were on the yacht on October 10, 1915, and though nearly a year has elapsed no word of their whereabouts has reached the Washington government.

### QUEBEC PHYSICIAN DEAD OF WOUNDS

**Capt. Walsh Was to Have Been Married in Paris This Week; Son's Fate in Doubt**

Capt. John P. Walsh, a prominent practitioner of Quebec, who was severely wounded at the beginning of this month, passed away on last Thursday in No. 2 General Hospital, Chelsea, London. Capt. Walsh's brother-in-law, James Murphy, of the Overseas Transportation Department, Montreal, received a private cable from London office of Price & Price, lumbermen, early in evening, stating that Capt. Walsh had feared amputation of his leg, but that the doctors hoped to save the limb. The cable added that Captain Walsh was progressing satisfactorily and would probably be out of danger soon. A few hours later another cable was received stating that Capt. Walsh had had a relapse, with a bad hemorrhage of the thigh, and that his condition caused anxiety. On Thursday came a private cable announcing his death, coincident with an official notification from Ottawa that he was seriously ill, while last night's list from Ottawa recorded him as wounded, although this had already been announced on Aug. 6.

Capt. Walsh was born in Quebec thirty-four years ago, and had been practicing in that city since ending his studies at Loyola College and McGill University, graduating from the latter in 1908. He was on the staff of the Jeffrey Hale Hospital at Quebec. In February, 1915, he went over seas with a medical unit and spent five months with the No. 2 Canadian General Hospital at Le Troport, France. Subsequently he was transferred to a battalion under Lieutenant-Col. Swift, of Quebec, and he had eight months in the trenches, one of his last outposts being within fifty yards of the German trenches. In May 9 Capt. Walsh was mentioned in despatches for gallantly rescuing several wounded soldiers in a severe battle in which some crates were retaken from the Hunns. His sister, Mrs. Murphy, has heard unofficially that he was awarded the Military Cross by the king. Capt. Walsh was also personally congratulated by General Currie for part he played in this action. The dead soldier was to have been married in Paris next week to Miss Jeanne Brugere, of Paris, whom he met while performing his duties.

### ART WORKS DESTROYED BY SHELLS AT REIMS

**Hospital Demolished Was Famous in France**

Paris, Aug. 19.—The civil hospital of Reims, formerly the Abbey of the Church of St. Remi, the destruction of which by German artillery fire is officially announced, was one of the finest edifices in the city. It was almost entirely reconstructed in the eighteenth century.

The linen room in the structure contained an important series of seventeenth century tapestries, which, with others much older, were recently sent to the Museum of Beaux Arts in Paris.

Under the arcaes of the cloister forming part of the structure was a rich lapidary museum, containing all the remaining specimens of the archaeological collections of the city, which were almost entirely destroyed in the burning of the bishop's palace. In another part of the hospital was a part of a primitive cloister, a perfectly preserved and magnificent specimen of twelfth century art.

A large vault of the cathedral was recently crashed in by a big shell, which brought down a mass of fragments.

Phillies Trim Cincinnati In Fourteen Inning Game

Brooklyn Wins Three

Coombs Pitches a One Hit Game; Braves Lose to St. Louis; Giants Drop Two Games; White Sox Defeat Yankees

The Braves dropped several points below Philadelphia by losing to St. Louis on Saturday. They secured fifteen hits but could get only four runs.

Cincinnati is playing good ball. It took the Phillies fourteen innings to win them.

Brooklyn and Pittsburgh had two hard fought games with honors even. Marquard won the second and showed good form. He is pitching well this year.

From Man Coombs not only shut out the Cubs on Sunday, but incidentally allowed them only one hit. That is some feat for a man who has come through so much sickness.

The Giants are not making much headway. They are playing good ball, but they are not winning many games.

In the American League, Chicago trimmed the Yankees and remain at the heels of the Red Sox.

Boston shoved Cleveland farther down the ladder by defeating them by a close margin.

Connie Mack's aggregation are showing up better every day. Detroit could do nothing with Johnson until the tenth inning.

**JOHN F. MORRISON WRITES HOME OF AFFAIRS IN WEST**

A letter has been received from John F. Morrison, a former St. John man, but now of Winnipeg, by E. S. Carter. Mr. Morrison writes very interestingly about the crops and other things in the great west. In part he says:

The wheat crop has been greatly affected by black rust. The crop will only be about half what it should be. Business in general is good, labor quite scarce and considerable building going on. Real estate and rents will never be what

they were previous to the war. For an eight or ten room house you would pay \$100 a month. With the exception of rent and coal one can live here cheaply. The climate is good and healthful, thirty-five below zero is not so cold as ten or twelve with you. Once the cold weather sets in it remains that way until a ring or rain or slush, very few rainy or stormy days. It is a good sport town; something doing all the time and always somewhere to go.

I am planning on going down soon and hope to see you all.

Mr. Morrison makes enquiry about many old friends here and hopes to have the pleasure of seeing them on his visit home.

A party of young folks enjoyed an outing at Idlewild Camp, Golden Grove, on Saturday afternoon. Miss Margaret Kennedy was the guest of honor, and a most enjoyable afternoon and evening was spent. **RUNAWAY.**  
The Red Head road was the scene of a wild runaway yesterday when a horse owned by F. A. Boyle, of Red Head, ran away. The horse was standing tied on the East St. John road, when he broke away and ran for a stretch of five miles, not stopping until he came to his own barn. Many people were on the road at the time, including teams, and it was only by good fortune that no one was hurt and that there were no collisions. The wagon was undamaged, nor was the horse at all injured.

**FOR THE SOLDIERS.**  
At a pretty little garden party and sale held at their home, 89 Spring street, Misses Marjory McConnell and Dorothy Hamm netted the neat sum of \$40.39 on last Friday afternoon. The girls were assisted by Dorothy Wark and Ida McKay. The grounds were tastefully decorated. The articles sold were mostly the handwork of the young girls. The proceeds are to be given to the "Soldiers' Comfort Fund." The holder of No. 26 ticket on a fancy cushion top will receive same by communicating with phone 1302-51.

**BUILDING NOTE.**  
A large freehold lot facing Queen Square, with rear on St. James street, known as the Pender property, and which was sold last February by W. A. Lawton to two parties, has been resold again, and as a result Mr. Lawton will construct a modern and up-to-date apartment house on the vacant lot, which is situated in the rear of the property. Construction will be commenced immediately by Mr. Lawton, and the lumber that will be supplied will be furnished from his own yard.

**LOST IN THE WOODS**

**City Party Has Quite an Experience at Golden Grove**

To become lost in the woods during the daylight and finally to be overtaken by darkness and left alone in the dreared stillness of the night, and then to have exhaustion add alarm to uneasiness was the experience of some young folks yesterday in the vicinity of the Golden Grove.

Yesterday morning a party of young people left the city with the intention of enjoying the day in the country. They decided to go out to McCrackin's Lake, about four miles above Golden Grove, where they arrived at their destination a little after noon and the afternoon was greatly enjoyed in the nearby lake and in the beautiful grove and woods. An early supper was partaken of and then they started to take a short cut through the woods and thus return to the main party within a short time, they started out.

Not being acquainted with the country they became bewildered in the thick of the forest and were completely lost. The gentlemen attempted to keep the rest of the party in ignorance, thinking they could find their way out by light with the result that they became father buried in the thick woods. Twilight fell and the party became worried as night came on and they were still helpless. Exhausted from the tramping in the woods, one of the ladies fainted and it was some time before she was revived. Then the tramp through the unknown woods was continued.

On and on they went, unknowingly penetrating farther until one of the gentlemen, partly from exhaustion and worry, fell to the ground in a faint. Luckily a brook was handy and water was carried in one of the men's hats. Again they started, this time to follow the brook, when the young man fainted a second time. Night was well on its way and the thoughts of remaining in the woods all night, added much to the already uncomfortable presentment. However, the sight of a flickering light through the tall trees finally relieved anxiety. It was from a farm house. Here they were informed where they were and how they could get back to the others of the party, who were in the meantime greatly disturbed over their friends' absence and who had busied themselves in searching the woods. It was about midnight when the lost ones returned, completely tired out, although much relieved that they had not to spend the night in the woods.

The return to the city was made early this morning. The party had been in the woods about six hours and all this time they were utterly at a loss as to where they were. They had tramped about fifteen to twenty miles.

**ENGINEER'S REPORT ON THE WATER SUPPLY**

**Mr. Armstrong Heard Before Departure For War**

**SUCCESSOR FROM BOSTON**

**F. McInnis, Former Frederickton Man—Tributes to Engineer Armstrong—Traffic and Other Matters Discussed**

A special meeting of the Common Council was called at 11 o'clock this morning at the request of Commissioner Wigmore, and that a special report prepared by his engineer, R. Fraser Armstrong, regarding the proposed improvements to the Lancaster water supply might be submitted prior to his departure at noon today for Petawawa.

Engineer Armstrong is an officer in a Canadian unit for overseas. His report was in part, as follows:

"I have investigated the west side system with a view of improving the supply of water, especially to the higher points on Lancaster Heights.

"At the present time two supply pipes of 24 inches and 12 inches, cement, are only capable of supplying the town of Cardigan by gravity with about 4,000,000 gallons per day, so it will not be long before these two mains will be inadequate to supply the demand unless they are assisted by pumps. Their united capacity at present, up to Union Point road, is about 5,000,000 per day, and to the reservoir, 4,800,000.

"To properly care for all present requirements and provide for future growth, the west side should be divided into two systems, the high level and smaller populated area being supplied by pumps located at Spruce Lake, and the low level, industrial houses, pulp mill, steamers, etc., supplied by the gravity system.

"If the present cement pipe was in good condition, the 24-inch supply pipe could now be used as the gravity supply, and high levels supplied by water pumped through the 12-inch cement pipe, but the cement pipe, which has been in use for about sixty years, will not stand any additional pressure, and is not large enough to be used as the gravity line.

A pumping plant at Spruce Lake seems to be the ultimate solution of water supply problem in the west side, but the present financial conditions would prohibit such an extensive scheme being now attempted, so we must adopt some scheme which can immediately be carried on at a reasonable outlay, and be a unit to the future supply.

If a new tank had been placed from Spruce Lake to Barnhill's corner, the additional carrying capacity would assist pressures throughout the West Side districts, so that pumping need not be contemplated for some years. An estimated cost of a new line of pipe including head works, renewal of cement pipe between Barnhill's corner and Ludlow street, is \$195,000. This will soon be an urgent necessity, but if it cannot be considered this year, I would recommend that a portion of this pipe be placed this year to form a separate distribution for a high service. A temporary pump could be installed at Lancaster reservoir, capable of pumping sufficient water direct from this reservoir to meet the high level requirements."

Commissioner Wigmore paid a glowing tribute to his retiring engineer who has done khaki. He told of his keen regret at his loss.

Mayor Hayes and the other commissioners also expressed their regret at his departure, and united in wishing him every success.

Commissioner Wigmore said that it would be necessary to secure another engineer to replace Mr. Armstrong, and he had corresponded with Frank McInnis of Boston, who is one of the most competent hydraulic engineers in the state. He said he had received a favorable reply and expected him to arrive in the city tomorrow.

He has been in the employ of the city of Boston for some years and should be a valuable addition to his staff. He is a native of Frederickton and a graduate of the University of New Brunswick.

Commissioner McLellan said he had a fine record of work and had also won marked recognition in Boston.

In answer to Mayor Hayes regarding the possibility of securing an engineer in Canada, Commissioner Wigmore said he had wired Montreal and Toronto regarding a suitable man and had received no information.

Commissioner McLellan, speaking of some damage recently sustained to the motor truck, said that he had held an investigation and had learned that the engine had not been properly oiled. He said it was hard to get competent men to operate these machines. He was, however, of the opinion that there were some men in this city who could be taught to operate it if properly instructed. He asked for authority to employ in the fire department.

Both requests met with favor.

Mayor Hayes said that there should be something in the traffic laws forcing automobile owners and drivers to stop when people were getting on and off street cars.

Commissioner McLellan said that regarding the section in the traffic laws stating that a horse may remain standing for five minutes without a footstrap or head weight, there was a misprint in the law requires them to be strapped no matter how long they are kept standing.
