FEATURES OF THE  
WINNIPEG TRIAL  
Crown Allegation Relative to Letters Re Seditious Conspiracy

Alleged Statements About Red Control of Trades and Labor Council; Mounted Police Officer Quotes Ivens on Bolshevism

Winnipeg, Dec. 2.—That letters which had been exchanged by R. B. Russell and C. E. Stevenson of Vancouver, dominant secretary of the Socialist party, showed that seditious conspiracy had been arranged for was the contention of J. B. Coyne, K. C., junior counsel of the crown, at the night session of the Russell trial.

Russell's letters stated that something must be done to try to raise a little dust, that the movement in Winnipeg was developing rapidly and that they were fast knocking here out of the labor party. That the labor party had been "killed for sure," that when they get control of the trades and labor council "we would use it to our advantage" and that "we are getting a number of Reds elected to the local, so let us hope that we can start something."

In one of his letters, Mr. Stevenson declared that parliamentary representation was a failure that the issues were too vital "for our movement" to stand aside idly and that the radicals must make the best use of all the means they could.

The efforts of Mr. Coyne to get the letters submitted as evidence drew what he described as a statement of policy from J. E. Burd, junior counsel for the defense. Mr. Burd said that his instructions were to throw the matters of alleged seditious conspiracy wide open, and to secure the widest investigation as the defense had nothing to fear from anything that might be contained in any of the documents that had been seized.

Serg. A. E. Reams, R. N. W. M. P., testified to attending several labor meetings in Winnipeg and quoted Ivens, one of the strike leaders indicted, as defining Bolshevism as follows:

The sacredness of human life.  
The right of every worker to work.  
The production of wealth for the people.

"We will take all," was another remark attributed to Ivens, who had further said, "I will take all you have to do is walk into any industry, telling the owner you are going to take it over and do it."

The Red flag, the Socialist bulletin, published in Vancouver, was prominently brought forward, A. Z. Andrews, K.C., counsel for the crown, asserting that articles in it advocated that the time was ripe for revolution and urged the carrying on of propaganda.

Just before the close of the night session, Mr. Andrews contended that the crown had come into possession of the letters. These showed, he said, that simultaneously throughout the country under the auspices of the Socialist party, a series of meetings were held and that these paved the way for the Calgary convention, at which the Reds got control.

**FIGHT FOR CONTROL OF ITALIAN PARLIAMENT**  
Socialists and Catholics definitely aligned — First real test of strength today

Rome, Dec. 2.—The struggle for domination of the Italian chamber of deputies has developed into a fight in which the Socialists and Catholics have been definitely aligned. The Socialists yesterday won five elections, while 100 members of the Catholic party were voted in. The first real test of strength will come today when the chamber will elect a president and other officers.

Alderman A. A. Heaps of Winnipeg, one of the eight men on trial here charged with seditious conspiracy.

Belzer Made to Kiss Union Jack and is Ducked in Lake—Kicked Around and Then Let Go—W. D. Euler Taken to G.W.V.A. Rooms. Severely Beaten and Knocked Senseless

Kitchener, Ont., Dec. 1.—A mob rule prevailed here tonight following a hysterical council meeting at which the name question was forever put on the shelf. Alderman Bitzer, to whom was attributed the starting of the agitation, was made to kiss the Union Jack, and subsequently was torn from the hands of P.C. men and thrown into the water. He was taken to the Victoria Hotel and there given the treatment of a convicted criminal. The row started in the council chamber following the turning down of a clause to submit a plebiscite on the name in question. Alderman Bitzer and committee refused to comply with the demand, and were forthwith severely beaten and knocked senseless.

**HEAR REPORTS ON FORWARD MOVEMENT**  
Proceedings of This Morning's Meeting of Campaign in Centenary Church

The united national campaign convention of the inter-church forward movement resumed its session this morning in Centenary church. Rev. H. A. Goodwin conducted a service of intercession during which many took part. Rev. Robert Daird, D. D., of Toronto, executive secretary for the Presbyterian forward movement throughout Canada, gave an address on the united national campaign and its objects, plans and progress.

**LABOR PARTY TO BE HELD IN SASKATCHEWAN**  
Edmonton, Alta., Dec. 2.—That the Labor party will be held in the field in most of the cities and towns of Alberta and Saskatchewan where civic elections will be held is evidenced by reports reaching here.

**CONDENSED NEWS**  
A despatch from Sault Ste. Marie, Ontario, says that four more suspected bodies, believed to be those of sailors who went down with the steamer Myron, were picked up yesterday off Salt Point, in White Fish Bay.

**PRISON FOR LIFE**  
Windsor, Vermont, Dec. 2.—Governor Clement visited the state prison last night and signed the papers committing to life imprisonment the death sentence of Bert E. Kealey for murder. The execution had been set for this week. Kealey was convicted for the murder of James A. Allen, an aged resident of Windsor, who was beaten to death with an iron club on Dec. 4, 1918. Kealey was picked up yesterday off Salt Point, in White Fish Bay.

**WELSH MINERS AND THE INCOME TAX**  
Cardiff, Wales, Dec. 2.—At a coal miners' conference here yesterday it was decided not to take any action on a ballot by the miners favoring a strike in order to resist the payment of an income tax on incomes below £250 sterling annually, pending a national conference which will be asked to ballot for the whole country on the question.

**As Hiram Sees It**  
"I seem somehow in the paper last night," said Mr. Hiram Horne, "about birdies comin' to St. John. I was with the eggs on 'em, and I was with the eggs on 'em, and I was with the eggs on 'em."

New Body to be 1800 Strong With Headquarters in Ottawa — A Post Established in Beak Spot on Coronation Gulf — Requests From Lower Provinces

Ottawa, Dec. 2.—The Royal Canadian Mounted police, the old Royal Northwest Mounted Police, will be renamed a few days hence, when an order in council for the re-organization of this famous force is signed, it is gradually increasing in numbers. Last May Canada's frontier police force had fallen to 500 men as the result of drafts made upon it for Siberia, France and other theatres of war, as well as depletion by individual enlistment on the part of time-expiring men. One detachment of 800 men went to France, and another body went to Siberia.

**Colonel Guthrie Would Have the Status in Honor of Men of Ranks**  
Boston, Dec. 2.—The Hon. William H. Allen, speaking before a committee on the status of the members of the Royal Canadian Mounted Police, declared that the members of the force should be given the status of men of ranks in the Canadian army.

Windsor, Vermont, Dec. 2.—Governor Clement visited the state prison last night and signed the papers committing to life imprisonment the death sentence of Bert E. Kealey for murder.

**Decides England Can Not Hold Kaiserwetter**  
The government legal department held that England had no right to detain Kaiserwetter during the life of the armistice, while the Admiralty officials believed that they had the right to arrest such offenders any time and hold them for trial after peace was declared.

**Master of U. Boat That Sank Hospital Ship Was Prisoner in Tower**  
London, Dec. 2.—The story of the arrest, imprisonment and final release of Captain Kaiserwetter, commander of a German submarine which sank the British hospital ship Glencastell, discloses a wide difference of opinion between British government departments over what rights the Allied powers have to punish the perpetrators of wanton warfare.

**TO GET 150 CARS OF COAL FROM THE STATES DAILY**  
Not Nearly Enough For The Requirements  
Situation in Canada Shows no Signs of Improvement — Scant Attention Seems to Have Been Paid to Warnings

Ottawa, Dec. 2.—The coal situation shows no sign of improvement in Canada and unless some settlement is effected of the troubles in the United States within a very short time, conditions here will become serious. While arrangements have been made whereby 150 cars of coal will be shipped from the United States to Canada daily, that arrangement is only now going into effect, and it is very small compared with the normal requirements of Canada. In November we usually import from one to two and a half million tons of coal and in December about one million, so that 150 cars a day, even if we continue to get that quantity of which we are by no means certain, will not go far. The authorities here comment on the fact that very little attention has been paid to the warnings they have issued, or to the requests they have made for data from manufacturers and others as to their requirements.

Mooney, who for the last two years has been assistant provost marshal for Military District No. Six, has obtained his discharge and left on Saturday afternoon for St. John. He will take a trip to California before again becoming an active member of the firm of B. Mooney & Sons, contractors of St. John.

**BRITISH STEWARDS ON IMPERATOR STRIKE**  
New York, Dec. 2.—One hundred and thirty British stewards, employed on the British steamer Imperator, which is on the coast of Great Britain by the United States shipping board, went on strike yesterday when Cunard Line officials refused to continue to pay them \$3 a day sustenance while on shore. The men are members of a British workers' union.

**DAMAGE \$15,000**  
Quebec, Dec. 2.—One of the municipal buildings on the Quebec side of the ferry system between Quebec and Lewis was badly gutted by fire shortly before 10 o'clock this morning. The flames were caused by the heating furnace, and a number of persons who had their offices in the upper floors got out in the nick of time. The destroyed part of the building was occupied by offices of the ferry company, by the sea pilot's office and various business offices. The lower story of the building is occupied by waiting rooms for the ferry, offices of the Grand Trunk, I. C. R. and Q. C. R. and baggage rooms. Loss will run up to \$15,000, partially covered by insurance.

**CIRCUIT COURT.**  
Considerable difficulty was experienced this morning before Judge Barry in selecting a jury for the new trial of Joseph Amburg. G. E. Logan, for the defendant, challenged twelve and then several others for cause. The evidence of Dr. Pratt, Jessie Amburg, Geo. Simpson, of the pension board, and others was taken. The case will be resumed this afternoon.

New York, Dec. 2.—Henry Clay Frick, millionaire steel manufacturer, died here this morning.

**IT WAS NOT SUCH A 'TREMENDOUS' MEETING AND SOLDIERS FEW**  
Halifax, Dec. 2.—A feature of the North British Society's dinner last night was in part of Professor H. A. Kent's speech in responding to the toast in honor of our returned soldiers. He had been in Cape Breton over Sunday and he attended a meeting in Glace Bay, where there were speeches in favor of raising a fund to help the men held for trial in Winnipeg in connection with the disorders in the Winnipeg strike. Frick said he had read the report of the meeting in the morning papers, and he was bound to say that it was greatly exaggerated. The alleged "tremendous" meeting in the Savoy Theatre consisted of actually fifty-six men. Of these, he was sure not more than four had been in the war. The people at this meeting were not so far out of place, they were not so far out of place, they were not so far out of place, they were not so far out of place.

**Stanley to Watch Out For Steamers in Distress**  
Halifax, Dec. 2.—The Dominion government steamer Stanley, en route from Cape Breton to Halifax, has been ordered by the marine and fisheries department here to keep a sharp lookout for an unannounced steamer reporting engine trouble in latitude 44.52 north, longitude 61.89 west.

STRIKINGLY ATTRACTIVE COATS

are being offered this week at prices that will make every woman talk. Here's the kind of news that makes exceptionally good reading these days—

Stylishly Cut, Beautifully Trimmed, Newest Shades. We Are Showing Remarkable Values in Silvertone, Velour and Zybeline Coats—Special for This Week

Owing to there being a surplus of the better grade Coats on our racks, these must all be sold before Christmas in order to effect a rapid clearance. Prices in many cases have been most drastically cut.

Bought many months ago before the price of wool began to aviate, the regular prices were exceptionally close; consequently at the Sale Prices being quoted today each Coat represents a bargain that we believe the women of St. John will wish to appreciate.

Better Values in the Realm of Good Coats is Impossible

We are fully convinced that without further urging you will come and see for yourself how attractively made and how remarkably low priced these coats really are.

Silvertone, Velours, Broadcloth, Chevions, Zybelines and Other Weaves in all the most wanted colors. Some have deep fur and plush trimmed collars and cuffs, novelty belt and pocket effects. The smartest styles of the season.

BOTH HAVE WORK TO DO.
The board of trade is an established institution which fills an important place in the commercial life of St. John. The new Commercial Club will not conflict but co-operate with the board. The young men of the latter organization will find a field of effort not only in conjunction with the board of trade but in other directions. Had the board lived up to the prospectus issued when it was reorganized with ample funds some years ago there never would have been a Commercial Club, but the enthusiasm wanted and the larger aims set forth in the prospectus were not achieved.

CHURCH AND PEOPLE.
The religious forward movement in the evangelical churches is now attracting the attention of church members and through them will influence others to some extent. Christian Work, of New York, in a recent issue, made pointed reference to the need of what it regarded as a weakness of the modern church in its relation to the world. We quote:
"But what the churches—churches, not merely ministers—first need is to repent, to clear their minds, to adjust their facts, before they can work the will of God. One can never forget the attitude of so many of our countrymen in tent and train and behind the stricken field to Church Christianity. 'The Church of God is all right, but the Church's God—no the one they serve—is no good to us. That justly or unjustly, was the sum of so much of their complaint. And searching the thoughtful it led to much searching of heart. Is the church the pioneer of the Kingdom of God, or only the rear-guard of an old social order? Do they who now appeal to her want her to be anything more than a rear-guard of yearning and prayer? Will they light interests and privileges? Will they pursue God freely to her support as she seeks, first, the Kingdom of God and His righteousness? Are they ready for the good will which, spread abroad in the hearts of men is her ministry? Or do they want her as a last resort in the present struggle of competitive covetousness? Are they ready for a fearless moral leadership in the pursuit of the Kingdom of God, or think they that there is safety in the shibboleths of yesterday?"

By reducing his own salary three thousand dollars per year Premier Drury of Ontario has indicated that he is willing to help to keep expenses down. He will not do badly with \$9,000, although many men serving corporations get a good deal more. If Premier Drury gives Ontario good government he will earn a great deal more than his salary. He begins by setting a good example.

Financial Post—"The Saskatchewan Trades and Labor Council will have a representative to sit on the executive of the Board of Trade. This is an important development in the improvement of practical relations between business men and workers; nothing but good can come from a better understanding of each other's problems.

It has always been a reproach to this province that it kept no proper register of vital statistics. The new health department proposes to remove that reproach, and it should have the very hearty co-operation of the officials in every part of the province.

Some small coal mines in Kansas are now being operated under military control. The issue is fairly joined, and it remains to be seen what effect this will have upon the striking miners.

Rippling Rhymes
By Wait Mason
(Copyright by George Matthew Adams)
IT IS COMING.
Let us think of Kris H. Kringle, who will soon be scheduled here. Low, our thoughts have been of battling of captives in their beds, and of blood and dry bones rattling where some fellows crawled and died. We've been wont to walk and mingle with the things opposed to death; let us walk with J. Kris Kringle, who is boosting peace on earth. We have been immersed in trouble, we have slotted around in care; we have long been pulling double, and our team mate was despair. Every kind of tribulation that the grim works our produce, has been dumped upon this nation, every ill has been upon. But the Christmas is coming, when our sorrows find release, and K. Kringle's harp is humming with the melodies of peace. I am glad to greet the season with a protest or a frown. In the snowy cope and dingle, in the spangly and the glee, I will root for J. K. Kringle, boost his nobles and boost again.

CANADA—EAST AND WEST
Dominion Happenings of Other Days
UPPER CANADA.
On December 2, 1897, so numerous had become the warnings of an outbreak in Toronto on the seventh of the month, that the executive council of the province was called. This was in spite of the views of many governmental heads who still thought that no likelihood of danger. But on November 29 there had appeared in the paper of the disaffected party a proposal to constitute a committee to study the situation in the north of the city and declared that Mackenzie had told them there would be an uprising on the 7th.

At the council meeting the heads of Upper Canada discussed the situation and the prospect of the radical revolt. One declared that not fifty persons in the whole province were ready or anxious to take up arms against the constituted authorities. In fact only one or two in the meeting were fearful of the trouble. Colonel Fitzgibbon told information he had received of men drilling by night, a blacksmith busy day and night making clubs and pikes. Some laughed at his fears, but the colonel insisted he was right and they were wrong.

Lighter vein.
A preacher had ordered a loaf of bread from one of his parishioners. About noon the parishioner's little son came to the house crying lustily. On being asked what the matter was, he said that the loaf of bread had tipped over in the street. The preacher, a kindly man, who had been called in to see the crying child, asked him to go to the street and pick up the loaf. But the boy wouldn't like it, he said. He had argued it all right with his father and urged him to take the loaf, but the father had said he was not glad that he had stayed.

The Italian situation.
(New York Evening Post)
The threat of revolution which the Italian government has been confronted is a threat from two directions. When we read the plans for the large manufacturing towns in the north of Italy and along the Adriatic coast it is well to recall that the conspiracies in the manufacturing cities are Socialist and anti-imperialist, whereas the plots on the Adriatic are pro-d'Annunzio. It is highly probable that the notable success of the Socialists in the recent elections would have encouraged hot-headed revolutionary schemes in any case, but it is obvious that Labor and Socialist counter-activity are stimulated by the militant action against d'Annunzio, one reason may be its fear of alienating the support of the army which it might need in case of a serious threat of revolution in the cities; and yet it is this very hesitation on the part of the government that is feeding revolutionary agitation. In such a position a weak statesman throws up his hands; a strong man finds the means of playing off his enemies against each other.

Progressive farmers.
The first common effort of Nebraska farmers to make use of electricity on their farms has just begun in Howard County. Both the housewife and farmer will seek to apply electrical treatment to their drudgery problems. Thrashing machines, windmills and cornshellers are to be so operated and washing machines and churns. The farmers built the transmission line themselves at a cost of \$7,000, and will pay six cents per kilowatt for the power. They are chiefly Danes, heavy land owners and wealthy.

CANADA'S BIG FUTURE
Peace finds Canada eager to win successes in the fields of commerce and industry equal to those gained in war.
In Finance she is fast becoming a creditor instead of a debtor nation.
Through the development of her old industries and the setting up of new ones, she is becoming more self-contained industrially and more of an exporting power commercially.
In the immediate future Canada is destined to play an ever-growing part financially and commercially in the great world outside.
It is imperative that go-ahead leaders of progress in Canada should have at their use the best possible information on matters financial, commercial and industrial, as well as on the foreign general situation.

The Manchester Guardian
Weekly Edition
is especially edited to give readers overseas a concise and trustworthy account of conditions abroad.
The city of its publication, Manchester, being at the head of the Manchester Ship Canal, is in direct ocean communication with St. John, and is destined to be one of the principal distributing centres for Canada's expanding export trade to Europe.
Published in the centre of one of the most intensely manufacturing regions in the whole world, The Guardian for nearly 100 years has been identified with problems of expanding industry and commerce.
Its importance as a factor in the commercial and industrial life of Britain has outgrown its function as a newspaper—it has come to be regarded as a national institution, as indispensable to the British business house as the ledger.
Outside Great Britain such is its world-wide reputation for reliability and integrity, that it is the most often-quoted English newspaper.

RECENT DEATHS

The many friends of Mr. and Mrs. Michael Hayes will sympathize with them in the loss of their daughter, Hilda E., whose death occurred yesterday at her parents' home, 85 Rodney street.

The death of an old resident took place at an early hour Monday morning when Mrs. Charles Brown, widow of Charles Brown, passed away at the home of her daughter, Mrs. Saunders, 6 Union Alley.

Word was received in Moncton on Friday of the death at Campbellton of Mrs. Stewart, mother of D. A. Stewart, ex-M. P. for Restigouche.

Mrs. Adeline Gale passed away yesterday at the home of her daughter, Mrs. F. R. Patterson, St. James street. She leaves one daughter, four sons, including William V., and Ralph H. of this city, two brothers and three sisters.

Mrs. John A. Wright died in Boston Sunday after a long illness. She was the daughter of the late Rev. Canon William W. Walker of Hampton. She leaves besides her husband, five sons, one daughter, one sister and two brothers, including Dr. Thomas Walker of this city.

The death of Mrs. J. S. Rayworth took place at her home in Moncton yesterday afternoon. Besides her husband she leaves two daughters.

In buying toilet articles, etc., stamped French Ivory, the public should be careful, as many of the cheapest grades of Ivory are stamped Solid French Ivory, the name represents nothing. The best brand of Ivory is stamped ORIENTAL IVORY, the difference in quality being easily distinguishable.

Dr. Robert P. Elmer of Wayne, Penn., American archery champion, says that recently Dr. Saxton, Pope of the University of California killed a 100-pound mountain lion seven feet long with an arrow, and on the same day killed a black bear with another arrow.

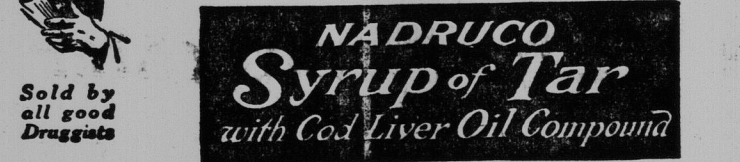

RECENT WEDDINGS

Miss Minnie T. McGuire of Peterborough, Queens County, was united in marriage in Boston November 12 to Starke M. Slaughter, son of former Senator Slaughter of South Carolina.

At the residence of the officiating clergyman, Rev. G. D. Hudson this morning, Miss Estelle Gladys, daughter of Mr. and Mrs. Beresford Babington, Young's Cove road, was united in marriage to Ronald D. Chase, son of Mr. and Mrs. George Chase of Sackville.

At the home of O. G. Harrop, Elm street, Moncton, last evening, Miss Blossom McCormack was united in marriage to Abram N. McCuspey by Rev. E. H. Cochrane.

BUSINESS FOR SALE

FOR SALE—WELL ESTABLISHED Music Store in a live town. Splendid opportunity and a great bargain. Write Box 795, St. John, N. B. 10531-12-3. Rush for Fortunes In New Gas Field Property Values Soar in The Snake Hollow District Near McKeesport, Pa. Pittsburgh, Dec. 2.—The discovery of several gas veins that are emitting millions of feet of natural gas in the Snake Hollow territory, which adjoins the City of McKeesport, fifteen miles from here has brought sudden wealth to many persons who were living from hand to mouth a year ago. Hundreds of wise young men who were content to invest a few dollars in the numerous companies being formed have deposited thousands of dollars in the banks of McKeesport. Churches and school boards have joined in the rush to make fortunes through the drilling of wells. The School Board of Versailles Township has leased its school yard for drilling purposes, and if gas is struck there a new school-house will be built elsewhere. A church in the Eleventh Ward of McKeesport, adjoining the township line, has also leased its back yard to a new company, and will be built in another part of the ward if gas is found on the lot. Leases are commanding fancy prices. One hillside lot, previously worth about \$100, has sold for \$3,000, while one corner bought for \$125,000 a property here before used as a pleasure park. Independent drillers are looked up for several years to come to drill in the back yards of property owners.

## ST. JOHN WOMAN GAINS 16 POUNDS

### Had Hacking Cough and Could Sleep Very Little Until Tanlac Restored Her

"It's a fact, I have gained sixteen pounds since I began taking Tanlac and I feel better and stronger than I have in years," was the statement made by Mrs. M. Wiseman of 38 James St., St. John's, Newfoundland, in a conversation with the Tanlac representative a few days ago.

"Ever since I was a child I have been in bad health," she continued, "but my condition has never been what you might call serious until the past year when I began taking Tanlac rapidly. What I ate gave me trouble and I would have a tightness across my chest that was something awful and I had a hacking cough that worried me a great deal. I had severe pains through my back and often terrible headaches would come on me and it seemed I could get nothing that would relieve them. Last fall I had a severe attack of the flu and when it got up I was in a worse condition than ever and nothing I took gave me any strength or nourishment. I was so extremely nervous that I was never able to get more than one or two hours sleep any night, and I lost weight and strength rapidly and became so weak and run-down that I could scarcely get about.

"My son who had been wounded in France and had come back home in a wretched, nervous condition had taken Tanlac and it had restored him to such fine health that I decided to try it myself and now, I can say that it has done the same thing for me. I am eating, sleeping and feeling like a new woman. Tanlac has overcome my troubles and put me in such a well and happy condition after all these years. I haven't had a headache since I started taking Tanlac and the pains through my back have entirely disappeared. The cough is ever so much better and I am not in the least bit nervous or fretful and I can sleep sound all night long. I am eating, drinking and I am so hungry all the time I can hardly get enough, and I am getting stronger all the time. I have gained sixteen pounds. I just simply feel fine all the time. I am eating, drinking at the remarkable good Tanlac has done me."

Tanlac is sold in St. John by Ross Drug Company and F. W. Munro under the personal direction of a special Tanlac representative.—(Adv't.)

## Who is Responsible for Smashing the Treaty?

Jubilation reigned in some quarters when the U. S. Senate's emphatic rejection of the Treaty of Versailles came as a sensational climax of one of the most bitterly fought political battles in our history. It may have been a victory, and the destroyers of the Treaty and the League of Nations may exult in their triumph," but, retorts the Springfield Republican (Ind.), "they will go into history having constructed nothing and selfishly leaving the world to its darkness and woe." Opposing this view, the New York Sun declares that "there never was anything more wrong, more ridiculous, more preposterous, than to maintain that the war was going on and must go on until the United States Senate and the American People consented to swallow Mr. Wilson's pernicious League of Nations." In fixing the responsibility, the pro-League Rochester Times-Union (Ind.) says that "the United States Senate, (under the bankrupt leadership of Senator Henry Cabot Lodge, has killed the Peace Treaty," but Republican papers like the Philadelphia North American and New York Tribune lay the responsibility for the failure of the Treaty at the President's own door, in effect charging him with "infanticide."

Under the heading "The Rejection of The Treaty" THE LITERARY DIGEST, this week—November 29th, prints as its leading article a summary of public opinion in the United States as expressed in newspapers of all shades of opinion. The article covers every phase of the controversy over the Treaty and makes very clear how the country regards the Senate's action.

RUB RHEUMATIC PAIN RIGHT OUT

Don't suffer! Relief comes the moment you rub with "Jacobs Liniment"

What's rheumatism? Pain only! Stop drugging! Not one case in fifty requires internal treatment. Rub the misery right away! Apply soothing, penetrating "St. Jacobs Liniment" directly upon the "tender spot" and relief comes instantly.

Switch Off! Put aside the Salts, Oil, Calamel, or Pills and take "Cascarets."

Are you keeping your bowels, stomach and stomach clean, pure and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters?

Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sick, or cause any inconvenience, and cost so little too.

Chinese Woman, In Paris Gown, To Aid Countrymen

Miss Soumy Tcheng Would Wipe Out "Chinatowns" And Establish Education Facilities

New York, Dec. 2.—Among the passengers on board the Lafayette was Miss Soumy Tcheng, twenty-seven years old and one of the most remarkable Chinese women who ever set foot in the United States.

China must emulate the example of the United States," said Miss Tcheng. "The trouble with the Chinese in America is that they are all of the poorer, uneducated classes. The Chinese here should be educated. That is what they have done in France, where the laborers from China spend half of each day in school."

Teeth Are Ruined

By a Film—Millions of Them

All Statements Approved by High Dental Authorities

Free A 10-Day Tube of Pepsodent, to show you how to end film. See below.

On Your Teeth Now There is now on your teeth a slimy film. You can feel it with your tongue.

The tooth brush alone doesn't end it. The ordinary tooth paste does not dissolve it. So month after month it stays there and may do a ceaseless damage.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Most tooth troubles are now traced directly to that film.

Dental scientists have for years known a way to end film. They have known that brushing could not save teeth if it left that film upon them.

Now that film combatant has been found. Convincing tests, under able authorities, have proved it beyond question. The method is now embodied in a dentifrice called Pepsodent. And we supply it free for testing to anyone who asks.

The Way to End It Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has discovered a harmless activating method. Now activated pepsin can be applied, night and morning, to combat that film.

Leading dentists everywhere are now advising Pepsodent. Countless people have already adopted it. And trial tubes are offered everywhere to show others what it does.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth written as the fixed film disappears.

Let your own mirror show you what Pepsodent means to your teeth. Then decide for yourself about it. Cut out the coupon now.

PEPSODENT CANADA REG. IN The New-Day Dentifrice After convincing tests, it is now advised for daily use by leading dentists everywhere.

LIMITED INCOME OF YOUNGER STEINWAY

Piano Maker Left Estate Which is Inventoried at \$75,000.00.

Leominster, Dec. 2.—Charles F. M. Steinway, of Mountain Lakes, N. J., son of Charles H. Steinway, president of Steinway & Sons, piano manufacturer, who has a branch on Lancaster street here, received a trust fund of one-third of the residue of the estate of his father, which inventories upward of \$8,000,000, and shares a third left to his mother at her death and upon whose death the father directs that the income be paid to him be limited to \$100 a week.

The elder Steinway died on Oct. 30. His widow lives in Pasadena, Calif. Young Steinway was prominent here in city, and an expert tennis player of the Monook Country Club.

Cardinal Condemns Fashions. Paris, Dec. 2.—Cardinal Arette, Archbishop of Paris, has issued a pastoral letter protesting against the immodest toils of women and indecent dances, saying that Christian women and girls ought to abstain from such dressing and such amusements. The cardinal affirms that these dances are exotic by origin and by name. Presumably he refers to "certain" Amusements which have become the fashion in Paris in recent months.

WAR DECLARED ON BEAVER. Edmonton, Alta., Dec. 2.—The busy beaver has been getting quite too active in some parts of Alberta, and to pay him up for the mischief he has been causing to farm property and live stock he is to be legally hunted and trapped in all the country south of the 53rd parallel. Notice is being sent out by the game guardian's office to that effect.

KIDD'S TREASURE OR IS HE KIDDING?

(Occasional in Halifax Recorder.) Dear Occasional:—Reading your paper of the 17th, I noted a piece in "Occasional's" letter about Captain Kidd's treasure. I can beat that right here at home. I am enclosing you a couple of charts, the exact copy of which I found buried, and besides, I found some hieroglyphics cut on stone. After I studied how to work the charts, I began prospecting. I got down to the wood cement. Also found old shovels, held together by the cement. This season I have located by the charts where it is buried. This is no Oak Island affair. There are a lot of marked stones all about the place. It was always supposed the pirates had been some digging, but they never struck the right place, and gave it up. But I caught on their plan and searched and found the charts. You will notice on both the curve of the river and on the 33 ft. on side of big chart. The shooting arrow is the one to follow. It is a triangular one, which is the exact size. These were all buried. The tree is still standing—a very old Balm of Gilead. It is cut on the triangle, showing the hill. The square points to the tree.

## BRUEL TREATMENT OF GIRL PRISONERS

Guard Tells of "Cold Water Cure" Which, He Said, Left Inmates Almost Dead — Other Punishment.

Bedford, N. Y., Dec. 2.—Sensational allegations that the "cold water cure" was inflicted upon the girl inmates while handcuffed, in a hundred cases, since Miss Helen A. Cobb has been superintendent, and that in some instances they appeared near death at the end of it, were made in testimony given at the investigation of conditions at the State Reformatory for Women by Thomas Quinn, who has been a guard at the institution for the past four years.

## CHATHAM EDITOR WRITES OF JIMMY WILDE

(Chatham World.)  
New York, Nov. 24.—Jimmy Wilde, England's sensational flyweight boxer, who is scheduled to make his first American appearance in a bout against Jack Sharkey of this city, at Milwaukee, Dec. 6, was one of the visitors to H. M. S. Renown, headquarters of Prince Edward of Wales, yesterday. Wilde, accompanied by his wife and Captain Edward Thrupe, seaman's leader of Great Britain, boarded the Renown at 2 o'clock and subsequently had a chat of about fifteen minutes with the heir to the British throne. Prince Edward is a Wilde enthusiast, and, it is understood, is keenly interested in the British boxer's ring career. Before leaving Mrs. Wilde secured the prince's signature on an autograph book.

The Canadian newspaper men who visited England and France in July and August, 1918, were invited to a private boxing exhibition match between Wilde and the ex-champion in the Savoy Hotel, and admired the performance. Mr. Wilde is a highly respectable family man, and has many aristocratic friends and admirers in England. He is in the United States to engage in boxing matches.

## SHIPPING BASK AT HALIFAX

(Halifax Chronicle.)  
The Halifax winter port season 1919-20 has opened with a rush and the past week has been one of the busiest in recent years. Since last Saturday morning twenty-five steamers, with a total gross tonnage of over 130,000 tons, have entered this port, in addition to the regular coastal trade. In the same period twelve have sailed, the majority bound to transatlantic ports.

**BEWARE OF DECEPTION**

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

accompanied by her lawyer, Humphrey Lynch. Mr. Lynch told Mr. Kennedy that he represented Ruth Carter and citizens of Westchester. Asked to name the citizen, he said he was unprepared to do so.

"Some employees of this institution, who have been discharged, have filed a protest with the State Board of Charities. Do you represent them?" asked Mr. Kennedy. Mr. Lynch replied that he did not.

Quinn said that when he first came to the institution a very puny girl was set down on a blanket, with her hands handcuffed behind her back, lifted up and handcuffed to the cell door. Then if not quiet within a "reasonable time," she was put on a cot, with one hand

shackled to either side of the cot, and a pair of handcuffs holding her feet fast to the foot of the bed. The girl generally screamed throughout this treatment. Quinn said. He said he had never heard of washing a girl's mouth out with soap and water during the administration of Dr. Katharine B. Davis as superintendent.

**Describes Alleged "Cure."**

On one occasion, Quinn continued, last June or July, after the present superintendent, Miss Cobb, came, one girl, Elizabeth Nichols, "rebelled."

"She seemed insane," Quinn said. "Three or four of us went into her cell. One threw water on her. It was cold water. It had no effect, so they dipped her head in the pail several times. Each dip lasted for thirty seconds to a full minute."

This girl did not scream, Quinn said, but she swore. The dipping having no effect, the attendants took a towel, Quinn said, wrapped it around her head, and then put soap and water in her mouth.

"Ordinary washing soap was used," said the witness. "All the girl said to me was, 'My insides are burning.'"

The cold water method, with the girl standing on her tip-toes, was the "uniform practice," he said. It had been applied from twenty-five to thirty times in the last year, he said. At the end of the treatment the victim is "all in."

When the handcuffs were removed the girls could not speak. They were left in their cell, but with no bed, so that they had to sleep on the floor.

Quinn said that in his opinion excitable girls, known as the psychopathic cases, should be turned over to a trained nurse.

In reply to a question by Mr. Lynch, Ruth Carter's attorney, whether the cold water treatment was applied when the girls were hung up, Quinn said: "Yes, in most cases."

"One dip was as good as five," he continued, "if you kept her head down long enough."

The girls' eyes were swollen after the treatment, according to the witness; they gasped for breath, and in some cases were unconscious. He said that on a number of occasions when he lifted a girl up to take off the handcuffs he was afraid she was dead.

In reply to further questions of Mr. Lynch, Quinn said that on Aug. 1 last a girl was handcuffed, with her feet off the floor.

"Where was she hanging?" asked Lynch.

"She was hanging to the cell door," was the reply.

"What did she do with her feet?"

"She managed to get the heels of her shoes between the bars, but when this was discovered by an attendant, the attendant kicked the girl's heel out."

"What was this girl's name?" asked Lynch.

"I cannot remember," said the witness.

Bouts in London.  
London, Dec. 2.—(Canadian Associated Press)—Joe Attwood, former of the Canadian forces, was knocked out last night in the tenth round by Fred Newberry. Another former Canadian, Harold Rolph, bested Bob Whiteford of Glasgow. Rolph was declared the winner in the tenth round of a punishing contest.

BILLIARDS.  
Pocket Tournament.  
Philadelphia, Dec. 1.—Benny Allen of Kansas City defeated Louis D. Kreuter of New York, 125 to 64, in the first night match of the national American pocket billiard championship tournament, which opened here today. Twenty-six innings were played. Allen collected a high run of twenty-three and Kreuter one of eleven.

In the afternoon matches, James Maturo, Denver, and John M. Layton, Columbia, Mo., were the victors. Maturo defeated Morris Frink, Philadelphia, 125 to 71, and Layton beat Edward I. Ralph, Hightstown, N. J., 125 to 108.

E. Raife Greenleaf, Wilmington, Del., won the other match tonight from Joseph Coonan, New York, 125 to 75 in twenty-six innings. The tournament will continue until December 18. A total of forty-five matches will be played.

BASKETBALL.  
Y. M. C. A. vs. Y. M. C. I.  
It is expected that there will be a very interesting game of basketball at the Y. M. C. A. this evening when the teams of the senior league of the Y. M. C. A. and Y. M. C. I. will meet at 8 o'clock. The Y. M. C. I. have considerably strengthened their team so it is thought by many basketball enthusiasts that the game will be a pretty good one.

This game will be preceded by a game between the intermediate teams of those two institutions at 8 o'clock.

WRESTLING.  
"Strangler" Wins.  
Chicago, Dec. 1.—Ed "Strangler" Lewis defeated John Olin in two straight falls tonight, the first in fifty minutes and the second in less than one minute.

Zbyszko in Training.

Forty-eight boys participated in a potato race which was held in the Y. M. C. A. yesterday afternoon. John Stratton won in five and one-fifth seconds.

New Gymnasium Opened.  
The Y. W. C. A. gymnasium in the old St. John's church was used for the first time yesterday when a game of basketball was played. Miss K. McKee Matheson is acting as instructor for the classes until a physical director is appointed.

AQUATIC.  
Three Year Contract.  
Philadelphia, Dec. 2.—Joseph Wright, a Canadian canoeist, yesterday signed a three year contract to coach the University of Pennsylvania crews. Previous to Wright had been working on a one year contract. He has been with the Pennsylvania University since 1916.

THE CYCLE.  
The Six-Day Race.  
New York, Dec. 2.—At 1 o'clock this morning, the end of the twenty-fifth hour, the fifteen bicycle teams had gone 611 miles and 7 laps. The record for this hour is 538 miles and 3 laps, made by Lawrence and Magin in 1914.

BASEBALL.  
Re-signs Larry Sutton.  
The Brooklyn Baseball Club has re-signed Larry Sutton as scout for the season of 1920. Sutton scouted for the team for several years up to 1916. The engagement of Sutton, together with Nap Rucker looking after the southern section, President Ewing of the Oakland Club as representative on the Pacific coast, and President Moll of the Winnipeg club as representative in the north west, completes the scouting staff of the Brooklyn club.

Noted Jockey Dies.  
London, Nov. 29.—William Egan, a noted jockey, is dead as the result of injuries received when his mount, La Rifiere, fell with him in the Prix Cote de la Selle at Auteuil. Egan was a member of a well-known training and riding family. Since 1909 he had ridden on the continent, and won many important events in Holland, Belgium and France.

Yankees' Manager Planning Trades.  
Miller Huggins Says He Hopes to Strengthen The Club by Deals.

New York, Nov. 30.—Manager Miller Huggins of the Yankees came to town yesterday and made it plain that he is not going to let the grass grow under his feet in assembling his baseball club for next season. Huggins plans to spend a few days here getting next year's contracts in shape to send out to the players after the first of the year. He will then set out to visit several minor league club owners in the middle west, and get several new players to take on the training trip to Jacksonville.

The Yankee manager had planned to meet several minor league officials in Chicago at the American League meeting on Dec. 10, but now that the board of directors has called the meeting for this city, Huggins will investigate the baseball market before the meeting here.

Huggins said yesterday that he didn't have much stock in the stories that Duffy Lewis and Frank Baker had retired. These players announce their retirement each season. Baker's case, however, is doubtful, but it is believed that Lewis will again be seen in the Yankee lineup. With both Baker and Lewis the call of baseball has always been stronger than their desire to retire from the game.

Even at the close of last season Baker did not retire to his Maryland farm, but went on a barnstorming trip with Charley Herzog's team, and Herzog says that in many games Baker's share was at times as low as \$8. When a \$10,000 a year baseball player will play for \$8 a game, it can be seen that the

I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors, but nothing seemed to help me until I tried 'Fruit-a-tives'.

lure of the game is exceptionally strong. Huggins' most difficult problem since coming to New York has been the outfield. Until he obtained Duffy Lewis the Yankees did not have a very dependable hitter in the outfield, and it is Huggins' ambition to land a couple of good outfielders before another season rolls around.

Manager Huggins is very optimistic about the outlook of the Yankees for next season, and the only sad story that he had to disclose yesterday was that his franchise may be transferred to the National League said yesterday that this story was absurd, and that there wasn't a possibility of any change in the circuit.

This same official pointed out that to transfer a major league franchise would require a majority vote of the sixteen clubs in the two leagues, and that such a vote would be impossible. The St. Louis club had a good which is going through a period of reconstruction. The Cardinals will play much of the next season under the management of St. Louis stockholders are very well satisfied with the club's achievements last season.

Stomach And  
Liver Troubles

Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, rests the general health.

Carelessness and neglect, and oftentimes willful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver inactive and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They live on the liver, get the bowels back to their proper condition and ease the stomach.

Mrs. G. L. Cackett, Enchant, Alta., writes: "I have used Milburn's Laxa-Liver Pills and have found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results."

They are also good for headache." Milburn's Laxa-Liver Pills are 25c a vial at all dealers or mailed direct on receipt of price to The T. Milburn Co., Limited, Toronto, Ont.

Shoots Woman; Now Gives His Blood To Save Her

Washington, Dec. 2.—Mrs. Florence Robinson, a comely young matron, lying near death in a hospital, and Gordon, little more than a youth, who because he said he loved her shot the woman through the body and who for the same announced reason twelve hours later kept her alive by giving his blood for transfusion to her veins, today were the principals in one of the most remarkable criminal incidents in Washington police history.

After a jealous quarrel recently, Gordon went to the home of the young woman, who some time ago had separated from her husband, and shot her a fatal good-bye, as he expected to leave that day for his old home in Wharfedale, Va. As she stood in his whirling, Gordon fired a revolver shot through her body.

After his arrest Gordon was told that Mrs. Robinson would die unless someone speedily volunteered to submit to

WEAR OUT THE SYSTEM

The dry, hacking cough, cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont., writes: "I caught a heavy cold, got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone."

It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."

late cables estimate the crop at 40,000,000 bushels, against 179,000,000 bushels last year. A few years ago a crop of around 80,000,000 bushels was a good average for that country.

Its requirements for bread and feed are estimated at 40,000,000 to 50,000,000 bushels. Fortunately, Australia has 100,000,000 bushels of old wheat on hand, which will help to make up the deficit.

Removal of the import and export embargo on wheat and flour into the United States by Julius H. Barnes, United States director, is not expected to result in large exports, although Mr. Barnes in a statement issued a few days ago says that it should result in a lowering of the price of some varieties of wheat eight cents a bushel.

He evidently means spring wheats, as they are nearly \$1 a bushel above the Northern wheat sold here this week at \$2.20 and \$2.22 for a few cars, as very little of it is obtainable. It is not believed by Winnipeg dealers that more than 20,000,000 to 30,000,000 bushels of Canadian wheat can be imported into the United States, but expectations are that a fair quantity of Canadian flour will be brought in.

CANADA MAY REAP SOME ADVANTAGE  
(Ottawa Correspondence.)  
Canadians are puzzled at the failure to ratify the peace treaty at Washington and hope that some compromise may yet be worked out. They feel, however, that the present disinclination of the United States to undertake further commitments in international affairs and the settlement of Europe may be turned to their own advantage. Canada will accept her obligations as a member of the League of Nations and will do her best to facilitate by credit extension the work of economic reconstruction in Europe.

It is already felt that her venture into the wide international field in politics is opening up a bigger and broader market for the output of many Canadian products. Not only is Europe reaching out eagerly for Canadian food-stuffs, but large export orders have lately been closed by the Dominion Textile Company, the Canadian International Harvester Company, the sugar refineries and the steel mills. So impressed are the directors of the Dominion Steel Corporation with the possibilities of export trade that they have secured the alliance of a very influential group of English steel and shipping men, including Sir William Beardmore.

Overcoat  
\$39.50

Its a \$50 value I am offering for this week only at \$39.50. Just as I gave a Serge Suit Benefit for one week do I now give an Overcoat Benefit right in the middle of the season.

My sympathy responds to every protest against the high cost of living essentials—That is why I decide to give right in season one week of an essential at cost of making.

I want to state right here and now that our regular prices on real wool quality are the lowest of any; that by efficiency and economy we have kept down the cost of high-class tailoring; and that this week's special is actually and solely a desire to give every man his chance.

As a companion Bargain I will sell the famous Canada Ulster, worth \$65, in the same Irish frieze for \$44.50—this week only.

**LOCAL NEWS**

**MENTIONED IN DESPATCHES.**  
It was announced at local military headquarters this morning that word has been received from military headquarters, Ottawa, to the effect that those who were mentioned in despatches during the war will receive an official certificate to that effect.

**FRENCH LINE.**  
Captain Martin and W. C. Duncan, of Montreal, are in the city today in the interests of a French steamship line which is to inaugurate a new service between this port and St. Nazaire, France. The first sailing of this line will be the steamship Cape Corso, which is due in port on Dec. 19.

**Y. M. C. I. LEAGUE.**  
The first game in the second series of the Y. M. C. I. Senior Bowling League will be played tonight, when the Swans will roll the Eagles. Interest in this league is at fever heat. The Swans were runners up in the first series, are out strong after the second, but the Eagles are equally keen on it.

**NOVELTY SHOWER.**  
At the home of Mrs. R. C. Ferris, 184 Waterloo street, last evening, an enjoyable surprise was tendered Miss Ina Jones, well known in honor of her approaching wedding, she was given a novelty shower. She was the recipient of many nice and useful gifts. Games, music and refreshments added to the pleasure of the affair, and best wishes were extended Miss Colwell for the future.

**JOY IN CITY HALL AGAIN.**  
After huddling over oil heaters for more than a week, trying to wade through the masses of work associated with the government of a city, with the atmosphere at times almost Arctic, the employees at City Hall this morning resumed their normal opinion of life, their blood flowed again through their veins, and there was a break in the tense feeling which has pervaded the place recently. The result of the change was which refused duty recently have now been replaced by new ones, and the heating system is once more in operation.

**WILSON-HICKEY.**  
A pretty wedding took place on Nov. 18 at the home of the groom's sister, Mrs. T. Coleman, when Harold A. Wilson of this city was united in marriage to Miss Stella M. Hickey of Truro. The bride was attended in a tailored suit of blue serge with hat to match. She was attended by the groom's sister, Mrs. Coleman. Mr. and Mrs. Wilson were the recipients of many beautiful presents from friends and relatives. They will go in the near future to Boston, where the groom holds a responsible position.

**CASE-BABINGTON.**  
In Victoria street Baptist parsonage this morning, the pastor, Rev. Mr. Hudson, united in marriage Miss Estella Gladys Babington of Young's Cove road, and Ronald Douglas Case, of Sackville. The ceremony was performed at 8 o'clock. The bride, who was unattended, was dressed in blue silk with black fur and black picture hat. Immediately after the ceremony the bride and groom left on a wedding trip through the maritime provinces, and on their return, will make their residence in St. John. They were the recipients of nice wedding gifts. The bride's traveling gown was white with hat to match and black furs. She is a daughter of Mr. and Mrs. Beresford Babington, of Young's Cove road, while the groom is a son of Mr. and Mrs. George Case, of Sackville.

**SILLIPHANT-DALEY.**  
On Monday evening, Dec. 1, at 8:30 o'clock, a very pretty wedding of interest was solemnized by Rev. F. E. Boothroyd, when Miss Marguerite Daley, daughter of Mr. and Mrs. D. W. Daley, became the bride of William A. Silliphant, C. P. R. telegraph operator, son of William Silliphant. The bride looked charming in a taupe suit with Alice blue hat. The bride's attendants were Miss Blanche G. Jones and Miss Alice Daley. The groomsmen were D. M. Roberts. The groom's present to the bride was a beautiful fur coat. From her father she received a seal stole with squirrel trimmings, from the groom's father a substantial check. The bride received many beautiful presents, including cut glass and silverware. Much happiness was wished the young people in their future life.

**Ellis Gold Medal Won This Year By Betty Cruikshank**

Sister Was Winner in 1914—Greta Lingley Wins Another—Marion Smith Also Prizewinner

Announcement was made at the St. John High School today by Principal W. S. Myers that the Ellis gold medal for the best essay on the subject "What We Owe the Navy" has been won by Miss Betty Cruikshank, who wrote under the nom de plume of "Coup d'Essai." A noteworthy feature in the award is the fact that this medal was won in the 1914 competition by Miss Cruikshank's sister, Marion. These young ladies are the daughters of Robert Cruikshank of Hazen street, and both have enviable reputations in their school.

The Parker silver medal given to the pupil making the highest marks in the mathematical subjects in the provincial matriculation examinations, held last July, has been won by Miss A. Greta Lingley, who, as announced some time ago, was also the winner of the Corporation gold medal for the highest aggregate in all subjects.

In Grade XII, the competition for the prize of books, given annually by the Potentially Club for the highest standing in English, was won by Miss Marion Smith, daughter of the late Frank Smith. As in previous years the prize was keenly contested, the award being made on the results of three periodic examinations.

**PUDDING AND FRUIT CAKE WILL BE EXPENSIVE**

Christmas Cooking Will Tax The 'Pay, Envelope This Season—The Necessaries All Pretty High

"The Christmas pudding and fruit-cake are going to cost more than ever this year," was the cheerful message handed out this morning by a retail grocer who said that he had never known prices on general staples to be so high. Many housewives are now beginning to think it nearly time to get the Christmas fruitcake ready, but there are a great many homes where it and the festive plum-pudding will be missing from the menu, at least in their elaborate form of other years. And unless the good man of the house takes suddenly ill and gets the necessary prescription those who will have the Christmas pudding will have to have it without the finishing touch of bygone days, the brandy sauce.

Fruits and peels are exceptionally high, eggs have reached the century mark and a dozen or so may find a place this year beneath the Christmas tree in the parlor as part of the treasured gifts. Mixed nuts are in a flattering position in the price list, more costly than they have been in the history of local grocers, retailing from forty-five to fifty cents a pound. Sugar is still climbing in spite of the action of the board of commerce to regulate the price, and molasses is keeping up in sympathy. Raisins will run from twenty-three to twenty-five cents a pound; currants at thirty-five cents a pound; almonds at thirty cents; orange and lemon peel from sixty-five to seventy cents. Lard will cost from thirty-five to forty cents, butter sixty to seventy, and perhaps more between now and Christmas—in fact almost all the ingredients for the cooking for the feast will tax the pay envelope more than before.

And to those who have maids to usher in the pudding to the dining room the cost of service is higher, even the waiters she carries in cost more, aside from the fact that their contents have so advanced. But in many homes, while there is little rejoicing at the thought of the cost of placing on the table the good things which seemed so reasonable and plentiful in "ye good old days," perhaps an extra effort will be made this year to have all that is going because some loved one has returned, and after three or four years absence in the war his place at the family table is once again filled.

**THE HARBOR SITUATION.**

There were no new developments this morning in the situation between the Freight Handlers' Union and the C. P. R. and from present indications there is no settlement in sight. At a meeting of the C. P. R. and the union last evening a committee was appointed to act in conjunction with the executive of the freight handlers. At a meeting of the employees of the C. P. R. elevator, called by a C. P. R. official last evening to form a union, seven-eighths of the vote were not in favor of a union.
