MARTIAL LAW IS DECLARED IN BULGARIA

Cathedral Wrecked During Funeral of Gen. Georgieff ANARCHY FEARED Authorities Believe Action Was Result of Plot to Overthrow Government

Canadian Press Cable. SOFIA, April 17.—Latest figures show that 140 persons, including 29 women and 10 children, were killed in the explosion of an infernal machine in the cathedral of Sveti Kral during the funeral of General Georgieff yesterday. Six generals and 90 other officers were among those killed. Investigation showed that all that remained was hardly sufficient to cure a quart of whiskey. This committee, which years ago used to provide most of the fireworks of the session, has been carrying on its work this session with unusual quietude. In fact, the public accounts committee by the committee almost every morning during the session but the heated discussions that marked these meetings years ago were strangely absent.

ACTS OF BRAVERY

The dead include the chief of police, a number of prominent citizens, among them it is believed a former cabinet minister, and General Davidoff and Nersoff. Several acts of bravery followed the explosion, men among the gathering seeking to assure the safety of the women and children, by carrying them from the cathedral.

PREMIER INJURED

The Premier, Dr. Alexander Tannock, was among those injured, but was able to preside over an emergency sitting of the cabinet this morning. How and by whom the infernal machine was placed on the cathedral roof, is unknown, but the version most widely circulated is that it was placed by the act of agents aiming to remove the Bulgarian government and create a state of anarchy.

200 INJURED

General Georgieff whose funeral was being held when the explosion occurred, was assassinated in the street here Tuesday night. The assassination closely followed an attempt upon the life of King Boris, as he was motoring near Sofia. In addition to the fatalities about 200 persons were wounded. Upon learning of the disaster the king immediately went to the scene.

Mr. Montgomery claimed there was nothing secret about any of the agreements entered into by the various steamship companies holding membership in the North Atlantic United Kingdom Conference. Mr. Symington questioned this. He said that developments at the 1922 meeting of the conference, and the fact of the member companies was accused of breach of faith, indicated that there were secret rules and regulations for the operation of the conference.

CREW CHEERED AS R-33 LANDS AT AIRDROME

Had Been Traveling From Dutch Coast Since Morning MEN ARE PRAISED Junior Wireless Operator Hailed As Hero For His Devotion to Duty

Canadian Press Cable. PULHAM, April 17.—To the cheers of British army officers, soldiers, workers, and crowds of spectators, the army dirigible R-33 returned home safely shortly after 2 o'clock this afternoon after her 28-hour battle with the elements over the east coast of England and a storm-swept North Sea. The runaway craft tore away from her moorings at the Fulham air station yesterday morning, during one of the fiercest gales in recent years. A favorable wind allowed the crew of the R-33 to start their ship homeward from a point near the Dutch coast after daylight, and she made a slow, steady flight across the North Sea.

CREW PRAISED. LONDON, April 17.—British air ministry officials are loud in their praise of the stability of the R-33, which withstood the severe buffeting it had been subjected to, and it is their opinion that the crew will have gained much valuable experience during their forced journey. As the truant ship approached home, Vice Air Marshal Sir W. Geoffrey Salmood wired to the crew: "Your efforts splendid. They redound to the credit of all."

RADIO MAN HERO

Throughout the wanderings of the vessel, Lieutenant Booth, the ranking officer among the 20 men on board, kept close touch with his home officials through the radio. The aviation authorities were particularly pleased at the pluck and endurance of the only radio operator aboard, Spencer Keeley, a junior operator, who was taking his turn of duty when the ship was torn from its fastenings. Keeley has stuck to his post ever since the accident. He sent more than 50 messages yesterday afternoon alone, despite difficulties which included the jamming of the ship by ships trying to communicate with the fugitive aircraft.

90-MILE GALE

The gale that drove the R-33 across the North Sea was one of the severest experienced by the British Isles in recent years, and caused widespread damage. Its fullest force was felt in Northern Ireland, and Northwestern England, where the wind reached velocities in some places of 80 and 90 miles an hour, accompanied by snow, hail, thunder and lightning. Numbers of small craft were sunk along the coasts, the steamship services to France, Holland and Ireland were completely disorganized, and the air services suspended.

OFFICIAL ACT TO BRING EARL HAIG NEEDED

Father Lockary, Head of G. W. V. A., Makes Several Suggestions

PRESIDENT ILL BUT IS IN TOUCH

Says Soldiers Would Appreciate Honor Due to Chief

Rev. F. M. Lockary, president of the Great War Veterans Association of New Brunswick, makes several suggestions concerning the proposed visit of Field-Marshal Earl Haig to this province in August when the eminent soldier will fish New Brunswick salmon. Father Lockary reiterates what he told The Times-Star on his arrival from his Rome pilgrimage a few days ago, that a many-sided effort might be made through official channels to have Saint John or some other prominent part of the province included in the Field-Marshal's itinerary.

Public Invitation Father Lockary when in England visited the headquarters of the British Empire League and there extended a formal invitation to the Earl and his party to visit the G. W. V. A. of New Brunswick, after his tour of other Canadian centres and at the time of his fishing jaunt on the Metanawic. It was intimated to the soldier-priest by the headquarters secretary that no doubt Earl Haig would avail himself of this opportunity if the invitation were publicly forthcoming. It is this public invitation Father Lockary is desirous of seeing forthcoming.

Among other things Father Lockary thinks the Earl might have a day or two of fishing on the Sevier or Miramichi. There are numerous well-to-do fishing clubs on these waters that might be glad to extend the personal invitation. As to extending the freedom of the City of Saint John to the Empire's military leader, in the Great War, Father Lockary, as head of the G. W. V. A., is certain the returned soldiers would deeply appreciate such an honor being conferred upon their illustrious leader. As to Earl Haig visiting the Lieutenant Governor of the province in a formal manner at St. Stephen, the G. W. V. A. president is afraid time would be wasted by that.

Father Lockary III As the Woodstock clergyman has been ill since his return from Rome he is doing most of his arranging for Earl Haig's visit by correspondence. He is very anxious that New Brunswick shall do the British soldier due honor, even though his trip this far be for fishing only. To introduce some welcoming function into the Earl's itinerary he felt was purely up to the G. W. V. A. and official circles of the province.

MAYOR IS PLEASED Speaks of Legislation Re Saint John Property in Provincial House. Mayor Potts this morning expressed his gratification that the bills sent up by the city legalizing exemption of improvements on property for a term of five years and the exemption of new homes for a period of two years had been passed in committee and that they would likely go through the House without opposition.

The first, he said, would mean that owners of houses painting them and repairing them would not have the valuation increased by the assessors for a time and the second would enable the man of moderate means to build a home without being assessed on it until it had been completed and occupied.

His Worship expressed the hope that many would proceed to "put up an up" and make work for the painters and carpenters.

Mr. Finney, who is with the Dobbits Company, of Renfrew, said that the Japanese were having a hard time financially at present owing to the earthquake. A great deal of the money they had allotted to harbor improvement had been withdrawn from use in connection with reconstruction of the cities damaged in the "quakes." As a consequence, the work was not progressing as fast as it had been hoped. They were a wonderful people, he declared, and he felt they were fittingly capable, after having one dredging plant installed for them, of fitting up many others they might purchase themselves.

Mr. Finney, who was at the Royal Hotel last night, will sail today on the Canadian Pacific steamer Montrose.

AGAIN ENJOYED

Cantata "The Disciple" is Sung by Combined Choirs in Carleton Church.

The combined choirs of the Fairville Methodist and Charlotte street Baptist churches last night gave a repeat performance of the cantata, "The Disciple" in the Charlotte street church and a large audience greatly appreciated the excellent music. The soloists were Mrs. A. E. Logie, soprano; Mrs.

C. F. Freeman, alto, and Marshall Stout, baritone. Little Miss Sadie Leonard had a solo part also. Stanley Stout was at the organ during the greater part of the performance and Miss Audrey McColgan played the accompaniments for some of the numbers. The Fairville junior quartette and the Fairville ladies' quartette gave very fine renderings. Miss Vivian McColgan sang a solo that was much enjoyed and Miss Margaret Rice gave a violin solo and also played the violin obligato most sympathetically.

When Were You To The Dentist? If six months or more have passed since a Dentist inspected your teeth, how are you able to say they are first rate? Everybody knows no man can tell the exact condition of his own teeth. Still less can he judge the state of his sight. The specialist finds hidden dangers in each case—more so in sight. For the Eyes don't always ache as emphatically or as directly at the root of trouble. A man cannot find out well for himself. You should see the Dentist twice a year to be passed as fit, but it is far easier to make sure of your Eyes. Perhaps just one visit will do until middle age. If anything is to be done, it never hurts. Sharpes Glasses better your appearance. And but one dollar obtains possession, a weekly dollar pays the full cash price.

A FIGHTING SPEECH
The speech made by Premier Veniot in closing the budget debate yesterday was marked by all the striking power at his command.

He dealt with them in slashing fashion, marshalling an impressive array of facts and figures to justify the Government's administration of the public services, and he boldly and confidently challenged the Opposition to make themselves responsible for any definite charge of wrongdoing.

In the first place my husband induced me to try it and I have continued taking it off and on for years. I have become a well woman from use and am now taking it through the Change of Life just to be on the safe side. I first took it for backache and a weak condition of the whole system and I think it saved my life and my baby. She is now a mother and takes it herself and I think I can count as high as a hundred women I have recommended the Vegetable Compound to, as I am a practical nurse. Even Teachers Smoke in Public, Says Ontario Association Head

TORONTO, April 17.—Flappers and women of the "idle rich" are not the only classes of female who smoke, women teachers are at it, and in public, too. So declared Miss Susan Lawrence of London, Ont., acting president of the elementary school of the Ontario Educational Association at its annual convention here.

"Nowadays, to be smart, some women, bobbed or shingled, consider it necessary to smoke cigarettes," she said.

The Al fresco toilet performed by the modern girl had also found its place in the curriculum of the women school teachers.

"Fixing one's face in public used to be considered 'bad form'" continued Miss Lawrence, "but certain women teachers, following the example of their sisters, nowadays, manure their nails and fix their faces in public places."

ICEMAN'S WAGON IS UNKNOWN IN LONDON

People of England Not Familiar With Cooled Drinks and Ice Cream.

WASHINGTON, April 17.—The Englishman knows little or nothing about the ice-man and his wagon, according to a survey of markets for ice-making equipment, published by the Department of Commerce.

"Even in a city the size of London," the survey said, "the ice-man and his wagon, so familiar in the United States, are unknown. Fishmongers are about the only retailers of ice in the big city and they will only make deliveries in the afternoon. In most cases the purchaser must carry the ice home himself."

The survey revealed that ice-cooled beverages and ice-boxes are "practically unknown" in England. Despite the fact that impetus was given to the making and cold storage business during the war, the survey said, "seems to have taken a fancy to ice cream, for the survey says ice cream parlors and fishmongers are the largest consumers of ice in Belfast."

The department believes American manufacturers of ice-making and refrigerating equipment could develop a good market in the British Isles.

The use of illuminating gas for street lighting in the United States originated in Baltimore in 1821. The first electric arc light on a street appeared in New York in 1851.

PROPOSES BOUNTY ON FUNDY SEA DOGS

F. B. Dunn Declares They Are Causing Great Loss to the Fishermen.

That one of the best ways to protect the fishing industry of the Bay of Fundy, would be for the government to give a bounty for the killing of dog fish, is the opinion expressed yesterday by F. B. Dunn, who has been interested in this industry for some years. "The sea dogs," he said, "must eat and fish are their prey. They will trail along the fishing nets and will cut inside the nets and drive out the herring that have been impounded."

Mr. Dunn said it was not too much to figure that the sea dogs were responsible for the destruction of fully 50,000 or 60,000 salmon every year besides innumerable sardine herring. Government seeking to encourage the salmon industry and then see so many of them going to feed the sea dogs. He pointed out what is a well known fact to all who visit the Bay Shore that large numbers of these sea dogs

Vote \$170,000 For Caterpillar War

NEW YORK, April 17.—The Board of Aldermen has authorized an appropriation of \$170,000 in special revenue bonds to fight a possible recurrence of the caterpillar scourge which infested the trees in Brooklyn last year. Alderman Wirth, who supported the appropriation, said that the pest was so bad in some sections of Brooklyn that the people had to carry umbrellas in the streets to keep the caterpillars off them.

The board voted also an appropriation of \$25,000 to cover the expense of the activities of the Mayor's Committee of Women during 1925.

SENATOR SCORNS JUNKET JOURNEY

Naval Affairs Chairman Will Tour U. S. Bases at His Own Expense.

WASHINGTON, April 17.—Senator Frederick Hale, Republican, of Maine, chairman of the Naval Affairs Committee, refuses to allow himself to be enrolled with the list of Senators and Representatives who will go junketing this season at the expense of Uncle Sam.

Senator Hale will set out soon on a trip of inspection of the naval bases, which will carry him along the Pacific Coast and also to Eastern ports. But he will not call on the government for a cent of the expense, intending to pay his own way, although he expects to bring back information which will be of much value to Congress in dealing with the next naval appropriation bill.

Many members of both houses have planned junkets this spring and summer, with the treasury bearing the burden. The Portland Dramatic Club which will present a four-act play next week held a highly successful rehearsal last night in the Y. M. A. hall.

USE THE HANKERCHIEF
If I had children like those Smith children, or a husband like Jones, I certainly would begin teaching them what to do with their hands, Mrs. Mann of Anytown declared.

"These children forever have their fingers in their mouths, and their father is not much better. He picks his nose, because he is too lazy to use a handkerchief."

"If there is a cold in the community, or measles, or any other disease, those children are almost sure to get it."

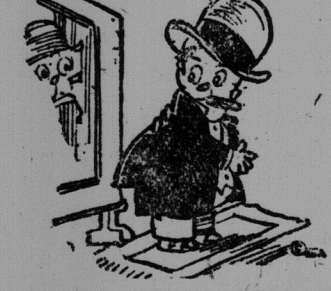

"They deliberately put germs in their mouths."

"And if they have colds, or other infections of the nasal and oral passages, they are most certain to transmit the infection to others."

"Why so emphatic? Explain yourself," Mr. Mann interjected, looking up from his paper. "Often I forget to use a handkerchief myself."

LITTLE JOE

LOOK YOURSELF OVER WELL BEFORE YOU BOAST THAT YOU'RE A SELF-MADE MAN.

"Well, if you do it is your own fault," replied his wife.

"There are always plenty of clean handkerchiefs here and I put them right out where you can get them."

"And say, while you're talking about handkerchiefs, I want you to quit using them to shine your shoes."

"All right, all right, but what were you saying about Jones and his children?"

Adventures of the Twins

By OLIVE ROBERTS BARTON.
OFF TO DADDY GANDER TOWN.

Now a funny thing happened when Snitcher Snatch put a grain of magic on everybody's nose.

Nancy sneezed and Nick sneezed and Mister Whizz sneezed and Mayor Snore-snooze sneezed and Forty Whizz sneezed and the policeman sneezed and everybody in Snitcher Town sneezed, until all the houses rocked on their foundations.

And the aeroplane was lifted up into the air as though a cyclone had struck it—and carried far, far away.

"Aha!" cried Snitcher Snatch. "Now these people can't come after me. I'll get the aeroplane myself, and fly to the next place."

So he tucked the magic snuff box into his pocket and ran after the aeroplane and when he found it he jumped in and flew away to the next place, which happened to be Daddy Gander Town.

By this time Mister Whizz and the Twins were wide awake.

"This is a silly place," cried Mister Whizz. "We will all turn into Snitchers if we stay here. Come along, children."

So the Twins and the fat man left Snitcher Town and went to find their aeroplane.

But to and behold, it was gone!

"Now where do you suppose it is?" cried Mister Whizz. "I left it right here by this telegraph pole."

"I know," called an old crow. "A terrible gust of wind came from Snitcher Town and blew it away. It sounded like a hundred sneezes."

"That's exactly what it was!" exclaimed Mister Whizz. "Children, we have sneezed our aeroplane away. Now it—and carried far, far away."

FLAPPER FANNY

THE more you look back on an old flame, the brighter it glazes.

we'll have to do some sprinting and catch up with it."

"Someone else was trying to catch up with it, too," said the crow. "A queer fellow with a long nose and a pair of crooked legs. I heard him say that if he found it, he was going to fly to Daddy Gander Town."

"You are a wide-awake fellow, I am sure," said Mister Whizz. "And we are ever and ever so much obliged. Do you know where Daddy Gander Town is?"

"I've heard people say that it is ten miles as the crow flies," said the crow. "But I don't know what that means."

"Where do you fly?" asked Mister Whizz.

"I fly from one corn-field to another," said the crow. "The next corn-field is north-by-north-east on a clear day."

"Could you take us there?" asked Mister Whizz.

"Where? To the corn-field?" asked the crow.

"No to Daddy Gander Land," said Mister Whizz. "We'll pay you."

"All right," said the crow. "But you'll have to pay me in corn. I charge two corn-grains apiece."

"I haven't a corn-grain about me," said Mister Whizz.

"Then you'll have to walk," cried the crow as he flew away.

"Magic is just as good," said Mister Whizz cheerfully. "We'll get there some way, children."

MEN AND HORSES

How closely related is man to the more intelligent of the animals is seen in many of the ailments to which both are prone and the remedies to which they answer.

Doctors and veterinarians are often surprised to learn of the similarity of their methods of handling the ailments of man and beast.

Sprains, burns, scalds, scratches and many other minor injuries, many everyday ailments, too in men and animals take the same course, and both answer immediately to the same treatment—Absorbine Jr.

Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause, its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children everywhere as a positive germicide—a germ killer—and a prompt and certain healer of all hurts. It is useful not only for all the purposes served by ordinary disinfectants and embrocations, but as a "first-aid" case—for anything else where a germicide is needed. Don't wait until you need it. Get it in the house today. Stick at your drugstore.

ACIDS IN STOMACH CAUSE INDIGESTION

Great Gas, Sourness and Pain How to Treat.

Medical authorities state that nearly nine-tenths of the cases of burning, gas, bloating, nausea, etc. are due to acids in the stomach. The acids are produced in the stomach and not as some believe in the large intestine. The delicate digestive and motor organs, causing the disagreeable and most distressing symptoms, are not needed in such cases and may do real harm. Try having and all digestive acids and instead get from any druggist a few courses of Bismarck Magnesia and take a teaspoonful in a quarter glass of water after each meal. This sweetens the stomach, prevents the formation of excess acids and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is taken by thousands of people who enjoy their meals with no more fear of indigestion.

RUSSIA HOLDS ALL RECORDS FOR RED TAPE

Soviet Government Uses Great Quantities of Paper for Reports

PROLONG ROUTINE IN TRIVIAL AFFAIRS

Expenses of Bringing Cases to Trial Extremely Large.

By WILLIAM HENRY CHAMBERLIN

UNITED PRESS STAFF CORRESPONDENT. MOSCOW, April 17.—Russia has always been a country of red tape and bureaucracy and this condition has not been changed by the extension of state management to most of the industry and a good deal of the trade of the Soviet Union.

While no exact statistics are available, it would probably be safe to guess that Russia holds the world's record for paper used up in reports and questionnaires and time spent in congresses and meetings, large and small.

An enterprising reporter for the Pravda has dug up three stories which deserve to take prizes as illustrations of this humor, if sometimes exasperating, side of Russian life. The first is the case of a woman who sent it back to White Russia. Finally it was agreed that the case was too trivial to demand the attention of the highest courts, so it went to Smolensk, the largest town in the neighborhood of the branch line. A game of battle-draw-and-shuttlecock ensued between Smolensk and a smaller district centre. When the case finally came up for trial in the latter place, the documents which had accumulated weighed over two hundred pounds. How the case was finally decided is not recorded, and is really not very essential, in view of the fact that the expenses involved in bringing the case to trial outweighed not only the cost of the alleged mismanagement, but the cost of building the branch line itself.

Wool Accounts.

The Penza Wool Trust distinguished itself by drawing up what may be the longest accounts in history. The accounts were made out on enormous sheets of paper five yards long and two feet wide. One of the Russian railroads decided to build a branch line in a western part of the Soviet Union, which is known as White Russia. A vigilant official, or, it might be discovered, evidence of mismanagement in the construction of the branch line. So there arose a case or, as the Russians call it, a "yelo."

Passed in Courts.

The dyelo grew with the rapidity and momentum of a snowball. The highest tribunal in White Russia passed it on to the Supreme Court in Moscow. The Supreme Court decided that the case didn't belong there and sent it back to the district court. The offices of the Supreme Economic Council contained no tables large enough to hold these voluminous reckonings. So, in order to scrutinize the operations of the Wool Trust, it was necessary to spread the accounts on the floor, and newcomers in the Supreme Economic Council are sometimes startled upon finding accounts sprawled out in full length on the floor, checking up on the trust's balance sheets.

The Tula Trade Union organization also put itself in line for a red tape prize by sending out to its members a questionnaire with 228 headings and about fifteen or twenty questions under each heading. This made a grand

"With this added economy of lasting longer, I've learned that Sunlight is by far the most economical soap I can buy. The

reason is that every particle of Sunlight is pure, cleansing soap—a little of it does a lot of work. Sunlight, you know, is guaranteed to contain no injurious chemicals or harsh filling materials to make the bar large and hard. These filling materials, of course, are just so much waste as far as cleaning goes.

EDUCATE MEXICANS BY MEANS OF RADIO

Plans Made to Broadcast Information From Great Central Station.

By A. W. FOLGER

(United Press Staff Correspondent)

MEXICO CITY, April 17.—Mexico's most recent invention will be brought into play very soon as a factor in the education of North America's most ancient race. Mexico's immense broadcasting station, CZE, installed here by the department of education, is to be utilized in the most comprehensive manner feasible for reaching the rural districts, populated principally by the Indian, with an educational programme. In the most remote sections where schools are rare or non-existent, radio will serve as "maestro" to thousands of Indian boys and girls, who might otherwise receive only the scantiest instruction, despite the government's broad programme for taking education to them.

Increase Schools.

Under the supervision of Dr. Jose Manuel Puig Casauranc, secretary of education, the radio schedule will be directed so as to augment the work of the rapidly increasing number of rural schools. The distribution of receiving sets and magnifiers for these community centres will be made as speedily as the finances of the department permit.

VENIO STRENUOUSLY DEFENDS REGIME

Nova Scotia M. P. Delivers Broadside Against Federal Opposition

PREMIER SAYS HE IS FIGHTING MONEYED GROUP

Will Carry Grand Falls Project to Triumph, He Declares

MANY CLASHES BETWEEN LEADERS

Brings Budget Debate to End—Dickson Talks on Prohibition and Hydro.

By D. LEO DOLAN Special Correspondent of The Times-Star FREDERICTON, April 16.—Delivered with characteristic animation and force, Premier Venio in the budget debate today made an elaborate and exhaustive defence of the Government, assailed in the strongest possible language the tactics of the Opposition in practically all of their criticism and, in a manner that bordered on the sensational, charged that monied interests of this country were using all their strength and power in an effort to frustrate the proposed Government ownership and operation of the Grand Falls hydro development.

NUMEROUS CLASHES He clashed on numerous occasions with various members of the Opposition and these verbal tilts enlivened the proceedings of the House, both in the afternoon and evening. Tonight the Premier spoke to crowded galleries, the seating accommodation of the chamber being taxed to capacity. On one or two occasions the interchanges during the discussion brought some applause from the hundreds of spectators who jammed their way into the galleries.

IN THE AFTERNOON Premier Venio reiterated his charge that the Opposition workers had raised the religious cry in the hope of defeating Attorney General Rand, during the Gloucester by-election campaign. He made a vicious attack on H. Doucet, a prominent Opposition supporter, and also paid his respects to A. J. Doucet, M.P. for Kent.

SUBMITS EVIDENCE The Premier submitted documentary evidence to support his allegation against the Opposition, whom he charged had endeavored to rouse the demon of prejudice and bring about a breach between the two great races in New Brunswick. In this connection he made an eloquent and forceful plea for unity of our people, a plea that brought applause from both sides of the House. The Premier was more specific in his charge that the "monied interests" were fighting government ownership in this province. He declared in emphatic terms that an agent of these interests had visited him in Bathurst during the Gloucester by-election and endeavored to obtain the right to develop Grand Falls under private ownership.

IN MAINE AND QUEBEC The Premier refused point blank to consider such a proposal and this agent of the big interests then informed him of the fight which would be waged against the Government's

'Lone Wolf' To Jail For Life

project in the Maine and Quebec Legislature. That fight, said the Premier, had been carried on and had been supported by the Conservative opposition in Quebec. He charged further that the vicious attack made on the Government's bill, when being considered in Quebec House, was inspired by opponents of the Government in this province and he declared further that these interests had apparently succeeded in making some progress in their efforts to have Maine oppose the project, even though they had failed to do so in Quebec.

OTHER OFFERS The Premier said that inducements had been held out for the Government to grant the right of development at Grand Falls to private companies and referred to a meeting of capitalists held in New York in 1923 for the purpose of considering pooling their resources and proceeding with that development. The Premier, although invited to this meeting, refused to go because he felt the interests of the province would be better served by Government development. British capitalists had also expressed a desire to go to Grand Falls, said Hon. Mr. Venio.

It was while discussing the proposed Grand Falls development and the fight which he alleges is being waged in that connection by such bitterness by the big interests that Premier Venio made his sensational disclosures. He charged that an envoy in the person of a man once connected with Masquah Falls, came to Fredericton carrying credentials of certain monied interests and requested an interview with the Premier. During the course of that interview the agent of the interests gave the Premier a list of names of persons who had been in contact with the Masquah development and proceeded with the Grand Falls project.

TURNED DOWN. "I had a living witness seated in the next room during this conference," said the Premier, "because I was suspicious that some film game was being attempted. The proposal of this agent was turned down, of course."

During his discussion of the visit of another agent of certain big interests to Bathurst during the Gloucester election campaign, Premier Venio and Mr. Richards had another tilt. The leader of the Opposition resented the intimation of the Premier that this agent remained in Gloucester to help the Opposition campaign after the Premier had refused to grant the request that Grand Falls be turned over to private enterprise for development. The Premier said the agent was not there in the interests of the Government candidate and had even threatened that refusal on the part of the Premier to accede to the request made on behalf of the monied interests would bring about a fight in the Quebec and Maine Legislatures.

IMPORTANT ANNOUNCEMENT. "I told this agent that, had he made that proposal to me in my own home, I would have ordered him out," remarked the Premier. "He had asked me to go to his room in the hotel and

U. S. DECISION CLEARS WAY FOR GRAND FALLS

N. B. Government Members
Pleased Over Action of
Washington Dept.

CHANCE OF OPPOSITION
BELIEVED REMOVED

Joint Waterways Commis-
sion Now Likely to Ratify
Proposition.

FREDERICTON, April 16.—Announcement by the department of the interior, at Washington, officially recognizing the authority of the International Joint Waterways Commission to deal with the New Brunswick Government's application relative to the Grand Falls development was received here tonight with jubilation by Premier Veniot and members of the government.

This action on the part of Washington eliminates any possibility of any serious opposition to the New Brunswick government's application when the matter again comes before the joint international joint waterways commission on May 15.

OPPOSITION IN MAINE.
While the United States government had not officially voiced any opposition to the N. B. government's proposed development at Grand Falls, there was

some slight opposition to the scheme by Governor Brewster of Maine, who was expected to seek further support for that position from Washington.

Now that the department of the interior has made an official declaration on the matter, the way is clear for the international waterways commission to grant the application when the hearing is held on May 15.

"The announcement from Washington naturally pleases me immensely," was Premier Veniot's comment tonight.

The decision of secretary work of the department of the interior is to the effect that the federal power commission has no jurisdiction in the matter of the proposed Grand Falls development.

SAINT JOHN DOCTOR KEEPS TABS ON CITY

Dr. James Christie, Aged 94.
Living in U. S. Reads Paper Daily.

Mr. and Mrs. J. S. Flagler returned yesterday from spending the winter in Florida. They made the return trip by water and stopped over in Boston for a few days. While there they visited Dr. James Christie at Brookline and had a very delightful chat with the former Saint John physician.

Mr. Flagler said that Dr. Christie, although now 94 years of age, is keenly interested in everything concerning the city and reads The Telegraph-Journal each day, eagerly scanning every page to see what is going on in his "home town."

Mr. Flagler was very glad to be back in Saint John and said that the tang of the sea air here was splendidly invigorating. There were many New Brunswickers in Florida this winter, Mr. Flagler said, and he had met personally Mr. and Mrs. David Waterbury, Mr. and Mrs. Walter Leonard, Mr. and Mrs. G. F. Barker and G. S. Mays.

The tourist season, the people of Florida believe, has this year eclipsed all previous records and they estimate that there were 1,000,000 tourists making longer or shorter stays in the various resorts.

MISS MACKAY TAKES OVER WORK OF V. O. N.

New Supervisor Here Was
Nurse For Four Years in
Great War.

Miss Helen Mackay is taking over her duties as supervisor of the Victorian Order of Nurses here, and she speaks appreciatively of the excellent administration organized by Miss Mary Stevenson, who has been acting supervisor for a short while. Miss Stevenson leaves Monday for Ontario to take up once more her regular duties as field superintendent of the V. O. N. for that province.

Miss Mackay is a native of New Glasgow and received her nursing training at the Boston City Hospital. She was in hospital work until the war when she enrolled for overseas service and spent four years as an army nurse in France, England and Belgium. She was for some time stationed with the No. 1 Canadian General Hospital in France, of which Col. Murray MacLaren was in command.

After one year of vacation at her home in New Glasgow, she accepted one of the V. O. N. scholarships and took the special course in public health nursing at the University of British Columbia. Since she has been with the V. O. N. she has been stationed first at Yarmouth, N. S., and later at Barrie, Ont.

Speaking of the V. O. N. work in St. John, as she had seen it, she said she was impressed by its great scope.

FACTS ABOUT TEA SERIES—No. 3 Mountain-Grown Teas Best

The tea plant grows best in the pure cool atmosphere of a mountain tea garden. The higher the garden, the finer and more delicious the flavour of the tea. This is partly due to the clear sunshine on a high mountain side, partly to the more invigorating air, partly to the more frequent rainfall and perfect drainage. The largest and roughest leaf grown at an elevation of 7000 feet is much superior in flavour to the tiniest tip grown only 2000 feet above sea-level. All teas used in the "SALADA" blends are grown from 4000 feet to 7,500 feet elevation. The trademark "SALADA" is a guarantee of quality.

STIFFER DRY LAW IN NOVA SCOTIA ASKED

Four to Twelve Months Jail Terms Sought for Second Offenders

INCREASED FINES FOR DRINKING IN PUBLIC

Proposed Measure Would Make Stricter Regulations Covering Prescriptions.

HALIFAX, April 16—Redoubled penalties and simplified measures of prescriptions will face the violators of

the Nova Scotia temperance act if the bill introduced in the Legislative Assembly this afternoon by Hon. Mr. O'Hearn, the Attorney-General, succeeds in passing the House. Sentences of from four to twelve months without the option of fine will be rendered so simple that under the provisions of the bill, if a man charged with violation of the law is recognized by the magistrate as one who has already been sentenced by him for a second offence without further recourse.

PRESCRIPTION CURB.

Regarding the issuance of prescriptions, any chemist, druggist, or vendor will be liable to a fine of \$500 or \$1,000 if he supplies liquor on prescriptions from doctors whose prescription quota has been passed for that particular period, provided such vendor has been notified in writing by the inspector-in-chief. The same penalties are provided for violators of the law against selling or keeping for sale, for first offences, while the second offence in each case calls for imprisonment without option of a fine of from four to twelve months. The previous first offence fine was \$200 to \$500.

Increased penalties are provided for people convicted of drinking in public places. Under provisions of the act as amended by this new bill, a man convicted of drinking liquor in a restaurant or on the street or any public place shall be liable to the extent of \$100 on conviction. The previous minimum for this offence was \$50. Incorporated companies guilty of violations of this act will be subjected to fines of \$300 minimum and \$1,000 maximum.

Charlotte County Man Killed By Horse's Kick

ST. STEPHEN, April 16.—An accident at Scotch Ridge, ten miles from here, last evening, resulted in the death of Robert Edward Hamilton, of that place. He was kicked by his horse.

Mr. Hamilton, after supper, had gone to the barn, presumably to clean the horse and was found not long afterwards lying dead on the floor behind the horse with just one mark on his forehead where the caulk of the horse's shoe had hit. It made quite a deep hole and it is felt that he died instantly.

BACK FROM HONG KONG.

W. Deans, of Hong Kong, was in the city last night on his way to his home in Scotland for a visit. He represents a British concern in the Far East. Mr. Deans spent last night at the Royal Hotel and will sail today on the Canadian Pacific steamer Montrose.

GOOD PROGRAMME BY EAST END BOYS

Entertain Well at Bright Event Marking Close of Winter Season.

"A Trip to Happytown," with choruses and several solos, was presented by the East End Boys' Club last evening in their hall to a good audience, and marked their formal closing for this season. Members of the Playground Association and the parents and friends of the boys were present. Athletic and acrobatic stunts were applauded spontaneously and frequently, as with skilled rapidity the boys went from dumbbells to Indian clubs, and into the more intricate acts of tumbling, ring work, spring board jumping and pyramid making.

A. M. Bedding, founder of the original boys' club in the city, and Hon. R. J. Ritchie, spoke with delight of the work put on by the boys. Assisted Affairs. Miss Emma I. Heffer, general superintendent of the club and playground

NEW BANQUET HALL

Victoria Hotel Opens Large Room in Adjoining Building—Seats 200.

The new banquet hall in the Victoria Hotel is one of the finest of its kind in the city. It will easily seat 200 people at table, and is two stories in height to give plenty of air space for smokers.

The hall, which was completed yesterday, is in the building recently taken over by the hotel and occupies all the space over the three shops below. It is finished in light colors with smooth white ceiling. The kitchen is built along one side to keep food hot or cold while a banquet or dinner is being served and is separated from the main hall by a partition with the usual swing doors.

It is planned to add a number of tasteful decorations in the near future. The hall was used for the first time last night when the Commercial Bowling League held its annual banquet with 180 in attendance. Lemon juice usually will take an ink stain out of white linen.

Purse Presented To New Sackville Parist Priest

SACKVILLE, April 16.—A purse and many useful household articles were presented Rev. B. Fraser, recently appointed parish priest of Sackville, by members of his congregation at the rectory on Saturday. Mrs. Hector Sutherland and Miss Emma Siroete made the presentations, to which Father Fraser replied, expressing his thanks for their generosity and appreciation of their good will.

GERTRUDE EDERLE WILL ATTEMPT TO SWIM ENGLISH CHANNEL

GAVE EXHIBITION ON LILY LAKE FEW YEARS AGO

Mermaid Will Join Helen Wainwright In Big Test

Sport followers in this city will be interested in an announcement that Miss Gertrude Ederle of the Women's Swimming Association, New York, will make an attempt this summer to swim across the English Channel. This young woman, who is conceded to be one of the greatest swimmers in the world, came to Saint John a few years ago and gave a demonstration of her ability in a programme of aquatic sports held on Lily Lake. She will attempt the feat with her fellow champion, Miss Helen Wainwright, who is already booked for the trial.

Along The Sport Trail

ACCORDING to a survey made recently in New York more girls read the sports page than the society column. This may or may not be true in Saint John but one thing is certain, that a large percentage of them keep close tabs on the bowling and basketball columns. This is no doubt due to the active participation of women in various athletic events. Proof that Saint John girls are no exceptions can be had when any important event is scheduled. As many women call up the sports editor and ask for returns as men, and judging from their expressions they are not averse to placing a box of fudge against a pound of chocolates on the result. If a boxing promoter in this city wants to make a few extra dollars he would only have to set aside a section well screened from the curious eyes of the male species and there is little doubt that few seats would go begging. If this ever transpires then woe to the judges.

Says Yankees Must Get on Their Toes if They Wish to Win Pennant

Along The Sport Trail

THE MEMBERS of the Commercial Bowling League sure had a good time at their closing banquet. When it comes to providing entertainment and good eats the C. B. L. boys are in a class by themselves.

A FAN RECENTLY suggested that in view of the fact that the Major League teams are very often referred to by "nick" names that a list be published so as to prevent any mistake in reading about their achievements. The following should settle any doubt and also act as a guide to those interested:

- AMERICAN LEAGUE. New York—Yankees. Boston—Red Sox. Philadelphia—Athletics. Chicago—White Sox. Cleveland—Indians. Washington—Senators. St. Louis—Browns. Detroit—Tigers.
- NATIONAL LEAGUE. New York—Giants. Boston—Braves. Philadelphia—Phillies. Chicago—Cubs. Cincinnati—Reds. Pittsburgh—Pirates. St. Louis—Cardinals. Brooklyn—Robins. (Dodgers).

NOW THAT THE Maritime Bowling Tournament is ended all eyes will be turned towards Eastport where the big candle pin classic will be staged next week.

A GENTLEMAN who attended the boxing bouts in the Armory on Monday evening asks who it was who rendered a decision in favor of Porter McIntyre over George Hornbacher of Glace Bay. He said he considered it very unfair. The writer was present at the bouts and was informed that it was a unanimous decision of the judges. As regards being unfair the fan in question must either have been prejudiced or was not familiar with rules governing professional boxing. Hornbacher demonstrated that he is game to the core, but was not in condition. In the first round he was cautious, but in the second he let out and won by a wide margin. From that on, however, he was out-pointed although he gamely fought back and won the admiration of all present. No judge in all fairness could have rendered a decision in his favor. The judge has not as yet been born who can satisfy everybody.

ASK OFFICIALS TO SMOOTH WAY IN BOND CASE

IMMIGRATION MEN ASKED TO ASSIST

Further News of Action Resulting in Arrest in Rome, Georgia

The aid of both United States and Canadian immigration authorities is being sought by the local police in having Ronald Humphrey of Alexandria street, aged about 23, now held at Rome, Georgia, brought back to Saint John on suspicion of theft of bonds valued at \$4,000 and some cash from Frank E. Jones in 1920 here. The procedure in Humphrey's case has been simplified considerably through his waiving of his right under the extradition law, according to word received here from the Rome authorities last night. Failure to secure the required co-operation of the immigration officials, it is understood, would necessitate the sending of Detective Patrick Biddiscombe to the southern city to bring the young man back here in his nativity.

NOTIFIED BANKS

When the break was made here five years ago and the bonds abstracted from Mr. Jones' safe, the police did not make the news public as they felt they could recover the securities by working quietly on the case. All the banks here were notified of the numbers on the bonds and were asked to keep a lookout for the debentures and notify the police in case they came into their hands. It was only recently that one of the bonds was traced and recovered by the police but not after it had passed through several hands. Just who purchased the bond first after it had been taken from Mr. Jones' safe, the police decline to say.

In fact, the local detectives are very reticent about any details of the arrest and prefer to wait until the matter comes into court. They have never lost sight of the case during the years but with the identification of the man located Humphrey in Rome, Georgia, they decline to say, it is understood, however, that inquiries hereabouts disclosed this information.

THE KANE BOND.

As the young man held at Rome is only about 23 or 24 years of age, and as his break took place five years ago, he was still in his teens. Any attempt to sell the bonds would naturally excite enquiries into where it first came from and this is a factor the police say they are not overlooking. The particular bond that was identified and brought to the attention of the police in good faith by George E. Kane from the Royal Securities Corporation and it is said, through several intermediaries before it reached the Royal Securities. The matter of tracing the bond has been engaging the attention of the department. In the meantime, they are not overlooking the lead of the impostor's Victory Loan bonds and the \$1,000 City of Halifax debenture, taken during the break.

It was stated today that the question of how soon the matter will come to trial here depends largely on the attitude taken by the immigration authorities. It will probably be the latter part of next week at the earliest before Humphrey can be brought here to face the charge.

TO CHANGE HANDS.

Among the business changes in the vicinity of King Square this coming week will be the relinquishment of the Lansdowne House by E. Leitch King, who has conducted the boarding establishment for more than 10 years, and the return to the same house of Mrs. Bustin who with her late husband managed the Lansdowne previously. Mrs. Bustin has recently been in the city from New York to complete rental arrangements and arrange for furnishings. She said that it was with feelings of satisfaction and confidence that she had arranged to take up residence in the home city again.

SERVICE ARRANGED

Pythian Sisters to Attend at 4 O'clock Sunday Afternoon in Main Street Church.

Arrangements for the first church service of the Pythian Sisters of Saint John to be held on next Sunday afternoon, have been completed. The service will be in the Main street Baptist church at 4 o'clock, under the auspices of Loyalist Temple, No. 18 and the members of Moulton Temple, No. 14 and city Knights have been invited to attend.

The services will be conducted by Rev. Dr. David Hutchinson, pastor of the church, and an address will be delivered by Rev. G. B. MacDonald, pastor of the Victoria street Baptist church. The offering will be equally divided between the maintenance fund of the Protestant Orphans Home and the Y. W. C. A.

Appeal Comes Here From Germany

A late Transatlantic mail brought considerable matter addressed to parties at "St. John, N. B., U. S. A." The circulars were from an institution in Charlottenburg, Germany, and were quaintly worded in broken English carrying an appeal for funds for war orphans of that country. The communication conveyed a vivid impression that orphanage conditions in Germany are in a bad state due to the large increase of dependents brought on by the late strife, and that orphanages were forced to seek aid outside their own country. Obviously the circulars were intended for United States distribution but Canadian mailing lists had evidently become confused with the American. A large halftone engraving depicted over 1,000 of the children assembled in the orphanage. It was indicative of the manner in which Germans carry on Transatlantic appeals that the address of the parties approached in St. John were mostly those of people who had had correspondence with that country prior to the war in matters of trade.

Presentations Are Made at Glen Falls

About seventy friends gathered at the home of Mr. and Mrs. Spearman at Glen Falls last night and tendered them a surprise party. They plan to leave in the near future for Florida to reside. During the evening games were enjoyed and refreshments were served. G. H. Simpson on behalf of those present presented a purse of money to Mr. and Mrs. Spearman. Mr. Simpson recently remarked on the friendship and esteem in which both Mr. and Mrs. Spearman were held in the community would sustain in their departure. Both Mr. and Mrs. Spearman are well known here. Last week about 25 of the young friends of Miss Gladys Spearman tendered her a surprise party and gave as a keepsake a ring set with pearls.
