TO MAKE UNIONS STOP FIGHTING AMONG THEMSELVES

Gompers Asked to Do What He Can if Employers Will Declare in Favor of Open Shops.

CHICAGO, Oct. 23.—President Samuel Gompers, of the American Federation of Labor, was asked yesterday by leading Chicago manufacturers to compel the local unions to cease fighting among themselves. If this fighting was not stopped, he was told, the "open shop" would be established in large wood working factories of the city.

peaceably or else a great lockout which may involve as many as 4,000 or 5,000 skilled factory workmen will follow. After receiving the complaints of employers Mr. Gompers admitted that they were right and declared the inter-union strife must stop at once.

SNOW BLOCKADE ON COLORADO RAILROADS

DENVER, Colo., Oct. 23.—The Chronicle this morning reported that a storm which has continued for three days without interruption is raging with increasing fury, accompanied by a heavy fall of snow. The Union Pacific Railway is trying to keep its line open with snow plows and passenger trains are arriving several hours late. Freight traffic has been abandoned. Telegraph wires are down east of North Platte, Neb., and west to Rawlins, Wyo.

MR. MAYES WANTS \$1.25 PER YARD AT SAND POINT

Made His Offer to a Committee of the Board of Works This Morning—His Statement of Prices Here and Elsewhere.

At the request of the members of the board of works, G. S. Mayes appeared at city hall this morning to meet the special committee on west side improvements, and make an offer for the dredging of the berths at Sand Point. When the meeting was supposed to take place those present were Aldermen Bullock, Rowan, Director Cushing and Mr. Mayes, but after about two hours had been spent in consultation, Mayor Sears, Ald. McGoldrick and the recorder dropped in, and were there for the finish.

Mr. Mayes agreed to do all the dredging required, at 1 1/2 per cubic yard, and agrees to commence the work whenever he will be permitted to do so by Engineer Sheehan. At Director Cushing's estimate of the amount of mud to be removed it will take about 10 days to clear up the berth. The committee will report back to the board of works probably this evening, and Mr. Mayes will tomorrow be notified whether his offer will be accepted.

Speaking to the Star today with reference to the figures on the cost of dredging given in a morning paper, Mr. Mayes stated that his price on the first contract was for 15 cents a yard with a time limit of 12 months. He made a deposit of \$20,000. The second contract he bid 30 cents per yard. Three tenders were handed in for this and the next highest about 40 cents per yard. The deposit required was \$10,000. There was a time limit of three months and work was started the first of September.

Mr. Mayes says that there is more money in dredging in Boston at 37 cents than there is in John's Bay at 20 cents per yard, owing to the great rise and fall of tide, much time is lost in moving about the berth, and it is seldom able to work to its full capacity.

A higher price will be required for the Sand Point work than for the government contracts, because in the latter there is both high and low water work, and the dredge bucket can be brought up full every time, while at Sand Point what is required to be done is dredging in six inches to four feet of mud. Beside this, all the work must be done at low water, and as a consequence the dredge will have to be shifted about considerably. Mr. Mayes would say that he is not anxious to take this work as he does not think it profitable, but is desirous of obliging the city.

NEW FRENCH CABINET IS ALMOST COMPLETED

PARIS, Oct. 23.—The new French cabinet has been completed as follows: Premier and Minister of the Interior, M. Clemenceau; Minister of Justice, M. Guyot Desjardins; Minister of Foreign Affairs, M. Pichon; Minister of Education, M. Briand; Minister of Finance, M. Caillaux; Minister of War, M. Berteaux; Minister of Commerce, M. Doumergue; Minister of Agriculture, M. Ruau; Minister of Labor, M. Viviani. The portfolio of Minister of the Colonies was offered this afternoon to M. Millies-Lacroix.

FALLING LEAVES THREW CAR FROM THE TRACK

SCHENECTADY, N. Y., Oct. 23.—A trolley car of the Schenectady Railway Co., bound for this city from Troy, failed to take the curve at Union and Melehan streets this morning and dashed into a huge pole, turning on its side and injuring a score or more people. The accident was due to the slippery condition of the tracks, which the motorman applied the brakes as he approached Melehan street but the car slid.

J. Edgar Edgett, of M. R. A. Ltd., wholesale buying staff, arrived home Monday from the British and Continental markets, via a trip to New York, Springfield and Boston.

I.C.R. FREIGHT WRECK NEAR BARTIBOGUE

Delayed the Maritime Express Several Hours.

Moncton Baptists Want Rev. Mr. Whitehouse to Stay for \$300 More Per Year.

MONCTON, N. B., Oct. 23.—The Maritime Express was delayed three or four hours this morning by a bad wreck at Beaver Brook, near Bartibogue. Four cars on the night express from Campbellton jumped the track and were badly broken up. The cause of the accident is unknown. No person was injured. Conductor Ferguson, of Campbellton, was in charge of the train and the track for some distance was badly torn up. Auxiliary crews from Campbellton and Newcastle were sent to the scene and at ten o'clock this morning the line was reported clear.

The First Baptist church congregation held a lengthy business meeting last night to consider the resignation of Pastor Whitehouse's resignation, and certain differences. After a discussion on church affairs generally it was decided to increase the pastor's salary from fifteen to eighteen hundred and grant two months' vacation.

Rev. Mr. Whitehouse left yesterday for Washington to preach next Sunday. Whether he will be retained or not will not be known before his return. Over two thousand dollars was cleared by St. Bernard's church household bazaar, which closed last night after running for two weeks.

SUNDAY SCHOOL CONFERENCE OPENS IN CHARLOTTETOWN

Rev. J. B. Ganong Deplores the Indifference Shown—The Cigarette Habit a Growing Evil.

(Special to the Star.) CHARLOTTETOWN, P. E. I., Oct. 23.—The annual convention of the N. B. and P. E. I. Sunday School Association opened here. Rev. H. E. Thomas, president of the N. B. Association, conveyed greetings from New Brunswick. Rev. J. B. Ganong, field secretary, in reviewing the year's work reported one of the most helpful series of the convention yet conducted in this or any other country. It was held in previous years, but the number of pastors and Sunday school officers was greater, while there have been gains in all departments, and 5,079 were united with churches from N. S. via the province. Considerable property damage was caused by stones, and hardly a handful remained inside to see the play.

In paying a flattering tribute to Mr. Foster's ability as a public man Mr. McWhinney expressed the hope that Foster would clear himself and that the party would not lose the services of one in whose ability it took such pardonable pride. "I did not come here tonight," said Mr. Foster in reply, "in defense of my personal honesty. I have done nothing for which I should be called upon to defend my personal honesty in this or any other country. I have lived in my country before my fellow-men for fifty-nine years working honestly and lawfully. I have worked before them in the white light of a public platform and have to go anywhere and defend my personal honesty, then life is not worth living, and fifty-nine years of life have been for naught. At the investigation my examination was conducted while I was under oath. I gave my testimony and gave my statement. If the man who doubts me does not believe that, neither will he believe me if I go on a public platform and take my oath on the Scriptures. If any man attacks me in parliament I will be there. Mr. McWhinney, and if I have the pleasure of coming back to my constituents of North Toronto, and they ask me to stand again, I will meet my constituents when the time comes and we will then thresh it out whatever the issue, though I won't run and jump into any defense of myself which I do not consider called for."

BORDEN DOUBTFUL ON SEVERAL THINGS

The Only Policy He Could Find to Criticize Was in Regard to the I.C.R. and in This He Talked Ancient History.

SAULT STE. MARIE, Ont., Oct. 23.—Mr. R. L. Borden, Conservative leader, addressed 2,000 people here last night.

He approached the question of public ownership carefully, did not declare openly for it, but stated that he believed government operation of railways to be worth the trial. He disapproved of the methods adopted in connection with the operation of the Intercolonial Railway. He advised its extension to the Georgian Bay, so that it could get a share of the trade from the west, and at the same time be relieved from the annual deficits.

J. Edgar Edgett, of M. R. A. Ltd., wholesale buying staff, arrived home Monday from the British and Continental markets, via a trip to New York, Springfield and Boston.

Miss Hattie O'Leary returned home Friday, after a trip to New York, Springfield and Boston.

SOMEONE TRIED TO INFLUENCE JURORS.

Attorney General Makes a Grave Statement in the Clarke Case.

Mr. Baxter Denies all Knowledge—Hard Work in Selecting Those to Try the Case.

The William E. Clarke case came up again this morning in the circuit court before Judge Landry. The attorney-general proposed that the prisoner be tried on the both counts separately. This was opposed by Mr. Baxter for the prisoner, who wished to have the counts tried both together. The judge decided that each count should be tried separately.

A great deal of trouble was found in choosing a jury, many of those called being challenged preemptively. Quite a lively tilt took place between the lawyers over the challenging of one of the jurors. He was challenged by Mr. Baxter on the ground that he had expressed some previous opinion on the case. Mr. Pugsley said it had come to his knowledge that some one had been speaking to the men who had been summoned on behalf of the prisoner. He hoped that the lawyer for the defense had nothing to do with such business.

Mr. Baxter replying said that this came pretty near to an accusation on his professional honor, but he would let go by simply denying all connection with it.

By the time of adjourning ten jurors had been chosen, namely, A. T. Charlton, Arthur G. Blake, Oscar Silver, Joseph Bell, J. A. McHugh, Robt. J. Cox, Frederick French, Henry Brennan.

Judge Landry in adjourning commented on the large number of absentees from those who had been summoned and said that he would have to impose fines on those who did not attend.

Among the jurymen who were called on and objected to by Mr. Baxter were James Lewis and W. C. Magee. In Mr. Lewis' case Mr. Baxter objected on the grounds that he had heard Mr. Lewis had remarked that he could not give the prisoner a fair trial and that he might be prejudiced, as he had daughters of his own. Mr. Lewis was sworn and examined. Mr. Baxter said he could not give Clark a fair trial and that he had given an opinion after reading the evidence in the newspapers.

To Mr. Pugsley Mr. Lewis said that he would act on a jury impartially and objected according to the evidence. The jury tried expressing an opinion that Mr. Lewis would be a good jurymen, but he was set aside on Mr. Baxter making a preemptory challenge.

MUST USE OLD PIPES FOR REPAIR WORK

Because There is No New Stock on Hand—Underwriters are Objecting.

It has come to light that the civic authorities are using second hand pipes to repair the breaks in No. 2 high service main. The board of fire underwriters, thinking that this should not be done, has called a meeting for tomorrow evening. A committee has been appointed to look carefully into the matter. The underwriters claim that a large fire risk is caused by using old pipes. The supply of 24 inch pipes is limited, and it was necessary to use old pipes to repair the breaks. Should the water and sewerage board be called upon to use new pipe, a loan will have to be effected from New Glasgow or Halifax, where there are supplies on hand.

BRITISH STEAMER IS SOME DAYS OVERDUE

The Arabistan Carries a Crew of Seventy Men, and Has \$300,000 in Gold on Board.

NEW YORK, Oct. 23.—The British steamer Arabistan is now several days overdue at San Juan, Porto Rico. Norton & Co., the agents here, say the ship is all right and will appear. The Arabistan, besides a miscellaneous cargo, carried \$300,000 in gold and seventy men. On her way from Buenos Ayres for New York she stopped at St. Louis for coal. She sailed for San Juan on October 12, and should have crossed the Caribbean Sea in five to seven days.

After the Arabistan sailed from St. Louis a hurricane tore across the Caribbean Sea and there is some fear that the ship was caught by it.

GOING TO ENGLAND FOR OARSMEN

Jameson Exposition Trying to Bring Over the Varsity Crews.

NEW YORK, Oct. 23.—Henry Philip Burchell leaves for England today on the special commissioner Jameson Exposition to invite the winners of the English rowing regatta at the Exposition to compete with the winners of the Yale-Harvard race, together with the winners of the inter-collegiate eight-oared event at Poughkeepsie. The English collegians will be offered the option of a dual contest with the winner of the New London contest or participation in a three-oared race to include the winner of the Varsity race at Poughkeepsie.

Should Oxford and Cambridge decline, Mr. Burchell will endeavor to arrange for a combination crew from the Oxford and Cambridge, and another from the Leander and London rowing clubs to meet American oarsmen. The decision to hold an international rowing regatta at the Exposition was reached at a conference here between O. H. Sexton, Jameson, and the members of the executive committee of the National Association of amateur oarsmen. Executive it is said has been that one or more clubs from Europe will send crews.

HOCKEY.

MONCTON AFTER STARR TROPHY. From reports reaching the city Moncton intends putting a strong team in the Provincial Hockey League the coming winter. It is said that the New Glasgow team have been trying for some time to get Cushing to play with them this season. Cushing took a trip down to New Glasgow, but instead of remaining there brought away Gregory, their star centre, who will probably be with Moncton. The team as now spoken of will be: Goal, Wortman; point, Frank Brown; cover, John Brown; centre, Gregory; rover, Crockett; wings, Stoyles and Cushing. Stoyles hails from Quebec, and was one of the star players there last winter. He is said to be a fast polo player as well.

Brigadier Turner last week submitted plans for the new Salvation Army barracks in this city to headquarters in Toronto. It was decided that as the season is so far advanced operations will cost about \$10,000. Adjutant Cave, projected building will be of brick and will cost about \$10,000. Adjutant Cave, who has occupied the position of cashier here, has been transferred to Toronto, where he will become assistant to Brigadier Horn, who is the Dominion cashier.

4064—The favorite style for little maids this year is without doubt the gimp dress and an unusually pretty one is sketched here. The front panel having a seam through its centre is very quaint in effect while the long-waisted arrangement adds a Frenchy air. The graduated full over the shoulder gives becoming lines as it suggests breadth of shoulder and slenderness of waist. The gimp may be of any dainty material or tucking while the sleeves may be in full or short length. The skirt is quite full and graceful and may be inset with lace or hemstitched. Any reasonable material may serve for the dress which requires 2 1/2 yards of 2 1/2-inch goods while the gimp calls for 1 1/2 yards 28 inches wide, in the medium size. 4064—Sizes, 3 to 9 years.

The "Jolts" and "Jars" of Life. are what use people up. Most people live pretty well up to the limit of their powers, and so long as everything goes smoothly that is apparently all right; but a "jolt" or a "jar" in the shape of business worries, domestic anxieties, or an attack of La Grippe, Pneumonia, Typhoid, or other wasting disease, suddenly reveals the fact that there is a sad lack of reserve force to meet these contingencies and the result is serious, often fatal. A wise man will see to it that his system is fully fortified against sudden attack. To attain this result nothing is so sure and effective as

MRS. JEFFERSON DAVIS, WHO DIED A DAY OR TWO AGO IN NEW YORK

The widow of the president of the Confederate States passed away in her New York apartments after a week's serious illness. Following the close of the war, Mrs. Davis and her husband returned to their Mississippi home, Beauvoir, where they lived until the death of Mr. Davis.

GAMING CLUB RAIDED, WOMAN A PRISONER

Police of Netherlands' Town to be Prosecuted for Illegal Act.

AMSTERDAM, Oct. 22.—A raid has been made on the Club International de Bienfaisance, an institution that was opened last spring nominally for the amusement of strangers in Holland, Captain Johnson, and his wife, have been arrested. The club began operations last January by circulating broadsides inviting to become members at a subscription of \$418. Its objects purported to be to yield an agreeable sojourn to strangers, and to offer aid to every stranger in the country in need of such.

Inclosed with the circular there was a leaflet which said: "Roulette: Minimum, 4 cents; maximum, \$1,200." The club is held in a fine house in a leading street in Amsterdam. Legal proceedings were speedily begun against it on the ground that roulette was played. This case went in favor of the club, but the authorities were not satisfied, and now the place has been raided by the police.

Nearly twenty foreigners were found playing roulette. The prisoners, including Captain and Mrs. Johnson, were taken to the police station, where they were kept from 7 o'clock in the evening until 4 o'clock the following morning without anything to eat.

All the persons arrested have complained to their respective consulates, and the club intends to prosecute the authorities for committing an unlawful act.

Captain Johnson states that the club is the finest he has ever seen abroad. Nobody was pressed to play roulette, as there are many other amusements.

NEW CONSTITUTION FOR THE KNIGHTS OF PYTHIAS

NEW ORLEANS, Oct. 22.—The amended constitution of the Supreme Lodge of Knights of Pythias was adopted today. Most important among the new provisions is one giving the endorsement rank a vote in the election of its major general. Heretofore this officer has been named and elected by members of the Supreme Lodge. Hereafter he will be nominated by the general assembly of the endorsement rank. This nomination will then be laid before the supreme chancellor, and if he approves it, the Supreme Lodge will vote thereon.

The amended constitution retains the present age limit for entry. Other amendments were adopted as reported on by the committee of the whole of the Supreme Lodge.

DESPONDENT HALIFAX, SEA CAPTAIN SUICIDES

Nelson Payzant, for Many Years in Employment of Pickford & Black, Hangs Himself.

HALIFAX, N. S., Oct. 22.—Captain Nelson Payzant, who for years was one of the Pickford & Black's steamers, sailing out of Halifax, committed suicide this morning. Deceased belonged to Lockport, but thirteen or fourteen years ago he came to Halifax. He sailed from this port for several months, and was a most capable officer in addition to being highly respected by all with whom he came in contact. Some seven years ago he was attacked by fever and rheumatism while away from home and could not return to Halifax for several months. Finally on his return his constitution was so weakened that he had to retire from the sea. Since that time he has been practically an invalid, and had been unable to work for over six years.

Being out of employment and out of money, he finally became despondent. This morning his wife went down to a city firm with some work and on her return she opened the door to enter in she received a terrible shock, for there behind the door was the body of her husband, suspended by the neck by a canvas belt, the other end of which was fastened to a nail above the door. She called for help but before it arrived she cut down the body in the hope that her husband was not yet dead. When the canvas was cut the body fell in a heap on the floor. The sight almost overcame Mrs. Payzant as she became fully conscious of the fact that her husband was dead.

WOODSMAN IS CHARGED WITH MANSLAUGHTER

NOBWAY, Me., Oct. 22.—The trial of a woodsman for manslaughter in connection with the death of Eugene Grant, a fellow logger, who was shot in a camp near Hartford on April 3d last, began today in the Oxford county court, Judge Wiswell presiding.

Heretofore Sheriff Wilbington told the jury of the arrest of Farrington while Sheriff McIntyre described the camp and the finding of a pool of blood near the door of one of the buildings. He admitted that when Grant's body was found there was a revolver grasped in the right hand.

WANTS NEGROES TO WORK ON THE PANAMA CANAL

WASHINGTON, Oct. 22.—Col. N. P. Thompson, of Chattanooga, Tenn., called at the White House tonight and suggested to the president that the idle negroes in the south be utilized for labor on the Panama Canal. "The better class of negroes in the south," he explained, would aid the white people in securing this class of labor for that work. It is the idle negro that makes the trouble in the south and reflects on the better class of negroes. Their presence interferes with the introduction of foreign immigrants.

LAURIER AND THE PREMIERS. BY SITTING ON A CHAIR

Passed as Countess and Borrowed Money on Strength of Bogus Legacy.

PARIS, Oct. 22.—A widow named Bouille has been sentenced to two years' imprisonment for committing swindles to the extent of \$40,000. She passed herself off as the Comtesse d'Aubrey, and on the strength of the statement that she would inherit \$1,000,000 from her husband's people borrowed large sums.

The suspicions of a M. Chevallier, one of her victims, was aroused by a friend, who pointed out that the "Countess" sat on the edge of a chair. "No lady in high society," said the friend, "ever sits on the edge of a chair. She always sits in the middle."  
Mme. Bouille had an accomplice called Modin, who made his escape before the warrant was out for his arrest. It was reported some time ago that Modin had died an Angeville (Calvados), but M. Chevallier affirmed during the case that he saw him in a cab at Paris the day before the trial. He attempted to follow him, but was unable to do so owing to a block in the traffic.  
A fresh inquest is to be held on the body of the man found at Calvados.

GORDON BENNET GUILTY OF ABUSING THE MAILS

NEW YORK, Oct. 22.—Appearing through counsel today the New York Herald Corporation, James Gordon Bennett and Stanley W. Gilliam pleaded to indictments found against them in the criminal branch of the United States circuit court. The indictments contain eight counts, each charging the defendants with having deposited in the post office certain specified copies of the New York Herald, containing alleged improper "personals," the same constituting unlawful matter according to the U. S. statutes. The defendants pleaded not guilty, with the privilege of withdrawal within three weeks and the substitution of demurrers of other motions by counsel. No bill was returned. As a result of these indictments the other cases of the government against individual editors of the Herald were dismissed.

MODERN CIVILIZATION.

Through time the United States will become a Christian country; it is now a so-called civilized land, but incidents happen every day which are fully as brutal as are found in the lives of barbarous nations. Lynchings and similar horrors are of frequent occurrence but these may as a rule be ascribed to the deep rooted racial hatred existing in the Southern States. There has however, been enacted during the past few months a tragedy of deeper pathos, involving more cold blooded cruelty and heartlessness than all the lynchings within a year. A miserable and unfortunate sufferer has been hounded from one state to another, his necessarily brief life has been filled with almost unbearable agony, and last of all instead of receiving that help and sympathy which should have been accorded even to a dog he has been poisoned and burned, put out of the way because his presence was supposed to be a menace to the safety of a panic stricken community.

A young man developed leprosy, and was banished from his home. Everywhere he went the facts of his condition had preceded him and he was turned away from civilization to seek refuge in the forests or on the mountains. He was hunted by dogs, forced to flee for his life from the vengeance of the people, his only crime being that he was afflicted with what is commonly supposed to be a contagious disease. In desperation the poor creature sought quiet in a freight car. He was discovered, the car was shunted to an abandoned ballast pit, and left there for weeks with the man in it. Finally he took to the woods and after weary wandering stopped at an old shack where he has since dragged out his existence.

But the people instead of taking steps to relieve the sufferer, exhibited almost inhuman cruelty, and yesterday in order to unburden their minds, put poison in some food that was sent to him. Then they set fire to the shack, and burned the body. This happened in Virginia, in the United States.

THE BRITISH PARLIAMENT.

The session of the British Parliament which begins today will be a notable one. Matters of the highest importance are to come up for consideration, and all the experience and tact of the leader will be required to keep his party in order. Campbell-Bannerman assumed power burdened with more pre-election promises than he could ever hope to fulfill. Some of them were wise and some were foolish, but the latter have for the most part been forgotten even by those who forced them from the candidates. In the face of grave danger of antagonizing members of all parties in the house, including even some of his strongest supporters, the premier adopted and faithfully pursued a policy which has led to the introduction and perfecting of much important legislation; old time theories have been abandoned, radical reforms in almost all departments introduced, and the end of the first session saw the government more closely united than when it first assumed power. There are a number of matters to come up over which a wide diversity of opinion exists, the education bill, and several items on the labor programme including workmen's compensation act, being among the number. But the Campbell-Bannerman government has not yet shown any desire to avoid the issue, and no doubt the legislative difficulties will all be met in due time. Just now there is a revival of the home rule agitation, and a new generation of men are taking the place of those who disappeared some years ago. They are putting forward their views with fresh vigor, and it remains to be seen whether Campbell-Bannerman will face the Irish question or stave it off as most of his predecessors have done. One thing might be said, that Ireland was never better qualified to be given home rule than she is at present.

The Sun says, speaking of Sand Point dredging: "Why was this not done? Why was the matter allowed to drift along until it was too late to do anything, before measures were taken to find where the city stood? Either some aldermen had some interest in allowing things to drift as they have or else the whole council stood convicted of gross stupidity and culpable negligence."

It must be stupidity and negligence, for surely none of the St. John aldermen stand to gain anything by the course that has been followed.

The Star will on Saturday next, commence the publication of a new serial by Anna Katharine Green entitled "The Circular Study." This story is one of the best, and should be read by all. In so far as possible two columns will appear five days of the week and three columns on Saturdays. The story will run for six or seven weeks.

BERLIN, Oct. 22.—Curious stories of the Kaiser's weakness for studying the problems of his capital and his people, after the fashion of Haroun al Raschid, the Baghdad Caliph, are going the round of court circles now.

It is stated that in order to obtain impartial views of the Berliners concerning many innovations that he contemplates, the Kaiser has occasionally made use of private carriages at night to drive to some frequented spot, where he has alighted and mixed with the crowd. In spite of his characteristic and marked features, he has invariably escaped detection.

A few weeks ago he stood alone at the corner of Potsdamer Platz for over an hour to study means and methods whereby the enormous and congested traffic there could be best dealt with. With the exception of a single occasion, when Prince Henry accompanied him, the Emperor sallies forth on these night tours of inspection alone, not even his gentleman-in-waiting being in attendance.

A meeting of the committee of the proposed Westfield sporting club was held last evening, but no business of much importance was transacted. W. C. Rothwell when seen this morning, said that another meeting would be held shortly when the name of the club and its constitution will be considered.

The annual meeting of the Associated Charities will be held this evening. All who can possibly arrange to attend should do so. There is no organization in the city which is carrying on a better work, and no body which has adopted a better system. The Associated Charities extend relief to all who are in need, but more than this it teaches the poorer classes to help themselves.

Eight or nine months ago certain members of the common council sought legal advice, to know if the city could not begin an action for damages against an engineer who told the unpleasant truth about conditions at Sand Point. Since that time these same aldermen have come to admit the facts, and now look at the bungling efforts being made at this late date to overcome the difficulty.

It seems a pity that the aldermen could not have learned their own minds about purchasing a dredge before the several inspectors were sent away. These trips cost five or six hundred dollars. This is not a large sum when you say it fast, but many such sums add to the already high rate of taxation.

"INCONSISTENCY." A boy will stand and hold a kite from early morn, till late at night, And never tire at all; But, oh! it gives him bitter pain To stand and hold his mother's skin. The while she winds the ball.

A girl will gladly sit and play With half a dozen dolls all day, And think it jolly fun; But, oh! it makes her sick and sour To 'tend the baby half an hour, Although it's only one.

A man will gladly sit and smoke, Or listen to some base-ball joke Of victory or defeat; But, oh! the agony of life, To run an errand for his wife— Just two blocks up the street.

A woman will—but never mind, My wife is standing close behind, Of victory or defeat; Some other time perhaps, I may Take up the theme of "Woman's" way.

When I am feeling bolder, (By Fanny L. Ledford.)

THE GREAT DIFFERENCE. A certain Major-General took a great interest in the subject of compulsory education and would frequently pay a visit to the village of Long Key in his country seat. One day he had been giving the lady a brief sketch of the life of our famous General. "Boys," he concluded, "you all know the great George Washington was a General; perhaps you also know I am a General. Now, can anyone tell me the difference between George Washington and myself?"

"I know," answered a youngster at the back of the room. "Well, what is the difference? Speak up, my liege," said the General. "George Washington couldn't tell a lie, sir," shouted the boy in exultant tones.

WOMEN'S FEET. "A woman's feet grow indefinitely," replied a well known shoe dealer. "Then in another decade you probably need 'E's,'" groaned his customer, "for when I was 20 my feet would go into 'E's' and now I wear 'E's'."

"Many women wear 'E's' and 'S's,'" replied the dealer. "Because they grow stout?" gasped the woman. "No, not necessarily, but women's feet seem gradually to become longer as well as broader for three or four years after the same size of shoe from youth to old age. Do you think that it is quite large enough for you?" continued the dealer.

"No," she admitted bravely, "they pinch dreadfully. Please give me a broader pair."

SHE KNEW. Mrs. Dixon did not wish to offend her new cook. "John," she said to the man-servant one morning, "can you find out, without asking the cook, whether the canned salmon was all eaten last night? You see, I don't wish to ask her because she may have eaten it, and then she would be uncomfortable."

"If you please, ma'am," replied the man, "the new cook has eaten the canned salmon, and if you was to say anything to her you couldn't make her feel any more uncomfortable than she is."

KAISER ANOTHER HAROUN AL RASCHID Wanders About Among Berlin Crowds to Study Problems of the Capital.

It is stated that in order to obtain impartial views of the Berliners concerning many innovations that he contemplates, the Kaiser has occasionally made use of private carriages at night to drive to some frequented spot, where he has alighted and mixed with the crowd. In spite of his characteristic and marked features, he has invariably escaped detection.

A few weeks ago he stood alone at the corner of Potsdamer Platz for over an hour to study means and methods whereby the enormous and congested traffic there could be best dealt with. With the exception of a single occasion, when Prince Henry accompanied him, the Emperor sallies forth on these night tours of inspection alone, not even his gentleman-in-waiting being in attendance.

A meeting of the committee of the proposed Westfield sporting club was held last evening, but no business of much importance was transacted. W. C. Rothwell when seen this morning, said that another meeting would be held shortly when the name of the club and its constitution will be considered.

ADMINISTERING JUSTICE IN THE UNITED STATES

Court Held in One Case on a Moving Train—In Another the Prisoner Was Disguised to Elude the Mobs.

MONTGOMERY, Ala., Oct. 22.—Disguised as a coachman for a prominent citizen, Herman Thomson, a negro, who, on Friday, attempted to assault Calie Belle Cain, a white child, escaped lynching by armed men who have been scouring Alabama for him, and is now serving a twenty year sentence at Pratt, Miss. Penitentiary.

This afternoon the negro in the guise of a coachman was slipped into the Montgomery city court hall and pleaded guilty to the crime. He then drove a private carriage to the station where he was put on a special train for Pratt, Miss. Since the crime was committed Thomson has been in hiding, carefully guarded by deputy sheriffs. In order to take him to the court house in safety and thence to the train, a prominent citizen consented to have him installed temporarily as his coachman.

The negro was glad to accept the job and made no attempt to escape. MAPLETON, IOWA, Oct. 22.—Court was held on a Northwestern train at Mapleton today, and Claude Fischer, accused of assaulting Miss Minnie Baker, a school teacher, was bound over to the grand jury in \$2,000 bonds which taken to jail at Quasav. The authorities fear an attempt might be made to lynch Fischer, who was barely saved from a mob last night.

SAW SEVENTY NINE PERSONS, DROWNED Survivors From Foundering Houseboat Tell of Their Experience.

MOBILE, Ala., Oct. 22.—The Malory Line steamer, which arrived in port today has as passengers Joseph Nelson, Charles Olsen, Charles Anderson and Otto Brink, who were picked up on a raft made out of six logs and were in the water waist deep at the time. Nelson said he and the other other men were on a houseboat at Long Key when the hurricane struck them and blew the boat out to sea. It soon went pieces and out of the 125 people on board 79 were drowned before his eyes. The other 42 have since been taken to pieces of the company and Florida swamps from Miami to Key West.

DOWN ON THE FARM A fair sized audience was present at the Opera House last evening when the Opera House presented "Down on the Farm." This play is not new to St. John theatregoers, as it was played here for three nights, recently. Last night's performance could not be termed high class, as several members of the company did not appear to be suited to their roles, and the prompter was needed on a number of occasions.

Dan Bagnall as "Si" gave the best performance, among the men, and he kept the audience in a continual roar. His "Pickings from Puck" were very funny. Algernon Eden, as William Bradley, gave a creditable account of himself and played the polished villain in a capable manner. Miss Helen Aubrey, as Mabel Fulton, as usual was the star of the evening.

The stage settings were good, and in the third act a winter scene was shown, which was very realistic.

"Down on the Farm" will be repeated tonight and at the two performances tomorrow.

A GREAT MISTAKE. Two pretty girls of about sixteen years each were confiding to each other their views upon life in general, and upon affairs of the heart in particular. The blonde had evidently been recently receiving some maternal advice, for she remarked with a slight pout: "I think people are just too unreasonable."

"Of course," they are," the other readily agreed. "What are you talking about?" "Why, kissing."

"Who is unreasonable about kissing?" "Why—er—everybody. They only begin to think it's wrong for a girl to let herself be kissed when she begins to get old enough for it to be interesting."

LEADING FIGURES IN THE CONTEST FOR THE \$60,000,000 WIGHTMAN ESTATE

Mrs. Wister has apparently got back her courage since "the scrap of paper" threw her counsel into confusion Monday week, and has announced her intention of resuming her contest for a portion of her late father-in-law's millions. Mrs. Walker on the other hand, is determined to resist to the last any attempt to force her to share the money with other heirs. If the case does not come up at the present term of court, it will probably be tried at the next.

THEY FAVOR CLOSING THE WESTERN CHANNEL A public meeting was held in the Board of Trade rooms last night to discuss the proposed harbor improvements. A large number of citizens were present with W. F. Hatheway in the chair. Mr. Hatheway opened the meeting by enumerating the proposed improvements, which were the closing of the western channel, the straightening and widening of the eastern channel and the building of a breakwater from Partridge Island to the Island Rock.

Mr. March also spoke in favor of the closing of the channel. Dr. Pink, Engineer Armstrong, J. A. Likely and Dr. Daniel, M. P., also spoke briefly.

Capt. Potter thought the west channel should be closed and the breakwater extended to the island. He also thought that alterations should be made at the Beacon. F. T. Gordon agreed with Captain Potter that the west channel should be closed. Engineer Holt proposed that a breakwater be built from Partridge Island to Sheldon's Point and make that enclosure the harbor. Pilot Rogers was opposed to the closing of the west channel but thought that Engineer Holt's scheme was practicable.

SHAW AND THE BANKERS. NEW YORK, Oct. 22—Secretary Shaw authorizes the announcement that from and after Tuesday, Oct. 23, deposits to facilitate gold importations will be discontinued. He said in connection with the announcement that importations had exceeded his expectations, and he believed for the present America had quite its share and he had no disposition to disturb conditions in Europe by a continuation of that method of relief. Secretary Shaw also announced that he would stimulate national bank circulation to the extent of eighteen million dollars by accepting approved securities other than government bonds for deposits already made, the bonds released to be used immediately as a basis of circulation without withdrawal from the treasury. He does not object to the assignment of the bonds to other banks than those now holding them, but to insure their use, they must remain in the treasury, and in addition, the bank taking out the circulation must agree to retire the sale between the fifteenth day of March and the tenth day of August, 1907. The banks will be required when taking out their circulation, to make application for its retirement and the order or per cent. of retirement from month to month will be determined by the treasury department. In this way eighteen millions of additional circulation can be immediately issued and gradually retired during the spring and summer months. In this way Secretary Shaw expects to demonstrate, in limited form, the benefits of an elastic currency.

LONDON MARKETS. LONDON, Oct. 22—Trading on the Stock Exchange this morning opened dull, but immediately after the tenor of Secretary Shaw's plan to relieve the American money market became known prices improved. The bankers express favorable opinions of Mr. Shaw's arrangements for the acceptance of \$18,000,000 in securities other than government bonds in order to

ST. MARY'S STRUGGLING TO SELECT A RECTOR

Exciting Meeting Last Evening Was a Failure Though Ten Ballots Were Taken. (Special to the Star.) FREDERICTON, Oct. 22—The parishioners of St. Mary's parish church had an interesting and exciting meeting last evening. The meeting had been called to select a rector, and after ten ballots had been taken and it became evident that no candidate would receive the necessary two-thirds vote required, an adjournment was made for one week. The candidates nominated were Rev. Horace E. Dibblee, Oromocto; Rev. M. M. Shewan, Greenock; Rev. Mr. Wilkinson, Bay du Vin; Rev. W. O. Raymond, Jr., McAdam; Rev. Jas. Millidge, Oak Bay. The first two were by far the strongest candidates. Mr. Dibblee easily led in the early part of the contest, and on one ballot only received a single vote for election. After this Mr. Shewan began to gain, and for a time ran even. The last ballot was taken at 10 o'clock. There are a number of parishioners eligible to vote who were not present last evening, and their presence at the next meeting may make considerable difference.

FOURTEEN REVOLUTIONISTS CONDEMNED TO DEATH

And as a Result of Their Sentence a General Strike May be Proclaimed Tomorrow. WARSAW, Oct. 22—Fourteen members of the Socialist fighting organization, who were arrested October 20, have been condemned to death by drum-head court martial. ACTION AGAINST THE HARTFORD LIFE CO.

Certificate Holders Want Distribution of Safety Fund. It Amounts to a Million Dollars and They Claim That It Should Now be Handed Out. HARTFORD, Conn., Oct. 22—Legal formalities necessary to attach in the sum of \$1,000,000 the property of the Hartford Life Insurance Company, having an office here, and the Security Trust Company, both incorporated under the laws of this state, were carried out by the sheriff this afternoon in the suit brought against these two companies by certain men representing about 20,000 certificate holders of the company in various parts of the country, to compel the distribution of a so-called "safety fund" of the company, which amounts to more than a million dollars. A receiver is also asked for. The defendants are ordered to make an accounting and to pay over to the receiver all sums received from certificate holders in connection with the "safety fund." The suit had been expected, but action was not begun until the certificate holders, unable, it is alleged, to get a distribution, pooled their interests and secured counsel to bring matters to a head. The Hartford Life Insurance Company, which ceased active business in 1899, was organized on the stockholding plan in 1857, but since the former date has continued to collect premiums on outstanding certificates as if it were continuing business, it being alleged that in 1899 the outstanding risks amounted to ninety million dollars. Prior to 1899 the company invented a plan of assessment life insurance which was designated as "the safety fund plan" by which \$3 was collected on each \$1,000 of insurance and put into a fund, the surplus of which, when the fund reached a million dollars, was to be distributed among the certificate holders. This "safety fund" was to be deposited with the Security Trust Company. The plaintiffs, in the suit just brought, claim that the stockholders, having authorized the collection of the assessment for the "safety fund" since 1899, although the company had ceased to write any more insurance, have thus far failed to make a distribution of the safety fund and that the intent is to keep that fund for their own advantage, through a final winding out of the certificates due to lapses following increased and exorbitant assessments. The company was chartered originally in 1857 and its charter was later changed to meet various forms of insurance. The defendants, it is alleged, save the majority of stock. The writ describes at length the operations of the company and the character of the certificates issued and gives excerpts of circulars issued from time to time to promote business, one quotation being the following: "The safety fund is limited to one million dollars, because that, so long as that amount of insurance remains upon the books, the premiums, based upon the standard mortality tables, are ample to meet every claim. Should the insurance (now \$22,000,000) fall below one million, it is provided that the safety fund must be used at once for the payment of the face value of every policy outstanding making the strongest form of policy ever devised." The writ then says that after the defendant company ceased to do business in 1899 it made the claim and continues to do so, that the safety fund does not belong to the policyholders, and it continues to assert its right and intention to continue to make demand for mortuary dues and assessments without limit, or number, or amount, and also claims the right to levy and demand such dues and assessments and the charges for expenses after the amount of outstanding insurance is reduced below one million dollars and on the non-payment thereof the defendant continues to declare the rights of the certificate holders in the fund forfeited and to appropriate the fund to its own benefit. Furthermore, it is alleged that the defendants, as officers of the company, have had full knowledge of the facts, and have accepted benefits of fraudulent transactions, converting the money collected to the payment of dividends to stockholders, and for the erection of buildings and for other purposes of benefit to the stockholders. It is also alleged that the officers of the company wrongfully concealed the true condition of affairs to the company.

### JILTED GIRL JUMPS INTO DANUBE'S WAVES

Takes Poison First, in Her Despair, and Then Seeks Death by Drowning.

BUDAPEST, Oct. 22.—A romantic story has been brought to light by the attempted suicide in Budapest of Mlle. Galgoczy, niece of Field Marshal Galgoczy, of the Hungarian army.

Mlle. Galgoczy is 20 years old. For some time she has been living alone at Budapest, studying for the opera. She became engaged to the son of

## ROUGE ET NOIR.

(Continued.)

Upon this theme General Pilar's eloquence was lost. He drew a picture of the beneficent Olvarra with a loving hand. He reminded the people of the peace, the security and the happiness they had enjoyed during that period. He recalled in vivid detail and with significant contrast the last winter's sojourn of President Olvarra in Corralo, when his appearance at their fiestas was the signal for thundering winds of love and approbation.

"The dollars to dine at the Saint Charles," remarked Mr. Vincent, "that rouge wins."

"I never bet against my own interests," Captain Cronin, lighting his cigar. "Long-winded old boy, for his age. What's he talking about?"

"My Spanish," replied Vincent. "Runs about ten words to the minute; he is something around two hundred. Whatever he's saying, he's getting them warmed up."

"Friends and brothers," General Pilar was saying, "could I reach out my hand this day across the lamentable silence to the grave of Olvarra, the good, to the ruler who was one of you, whose tears fell when you sorrowed, and whose smile followed your joy—I would bring him back to you, but—Olvarra is dead—dead at the hands of a craven assassin!"

The speaker turned and gazed boldly into the carriage of the president. His arm remained extended aloft as if to sustain his peroration. The president was listening, aghast, at this romantic address of welcome. He was sunk back upon his seat, trembling with rage and dumb surprise. His dark hands tightly gripping the carriage cushions.

"Who says that Olvarra is dead?" suddenly cried the speaker, his voice old as he was, sounding like a battle trumpet. "His body lies in the grave, but to the people he loved he has bequeathed his spirit—his eyes, more the learning, his courage, his kindness—yes, more—his youth, his image—people of Ancharia, have you forgotten Ramon, the son of Olvarra?"

Cronin and Vincent, watching closely, saw Dicky Maloney snicker. He sat his hat, tear of his shock of red hair leap up the steps and stand at the side of General Pilar. The Minister of War laid his arm across the young man's shoulders. All who had known President Olvarra sank back again, his dark features dimly smiling.

"Who says that Olvarra is dead?" suddenly cried the speaker, his voice old as he was, sounding like a battle trumpet. "His body lies in the grave, but to the people he loved he has bequeathed his spirit—his eyes, more the learning, his courage, his kindness—yes, more—his youth, his image—people of Ancharia, have you forgotten Ramon, the son of Olvarra?"

# CITY PRACTICALLY ABANDONS IDEA OF BUYING DREDGE

Work at Sand Point Berths Will be Given to Magyes if He Can Do It in Time—Director Cushing Says There is Only 4,600 Yards to do at No. 2 and No. 3—Purchase of Union Street Land at \$4,250 Recommended—Dredge Experts' Report.

Capt. Wright yesterday afternoon at a meeting of the board of works made his report on his inspection of dredges in Boston and vicinity. The report was unfavorable to the Bothfield, but a number of other dredges were considered suitable to the harbor needs.

A delegation of the Board of Trade were present and spoke favorably to purchase of a dredge excepting, however, if Mr. Magyes could be induced to work by night and on Sundays, in which instance they would favor giving the contract to the Beaver. It was decided to purchase the lands from the lessees to make the extension to Union street. The price is understood to be \$4,250.

The early part of the season was private while the purchase of the Union street property was being considered. This discussion was split upon what position the city should take in the matter.

A resolution was introduced that the city should accept the terms of the lessees, Slesch & Quinan and the owners of the Gordon Mill Works, namely, to pay a certain sum for the necessary land and to renew the lease for seven years for the rest of the property.

Supt. Downie and Engineer Brown were present at the early part of the meeting. Recorder Skinner was also called in and gave his opinion. The full board were present with the exception of Ald. Vanart, Mayor Sears, Ald. Lockhart and Lantaulum, although not members of the board, were also present.

To Ald. McGoldrick, Capt. Wright said that he found the Bothfield in very good condition. The machinery was out of order and there were many things loose about it. Water was found in the ash-pan, showing the boiler was not sound. Several tubes were blocked up. Captain Wright asked that the inside of the boiler could be inspected, but the representatives of the owners said that this would mean a loss of two days' work, this notwithstanding the fact that Captain Wright wished Inspector Dalton to be allowed to make his inspection on Sunday.

To Ald. Rowan—Capt. Wright said that she was working while he was there and in one and a half hours managed to bring up one and a half yards. The owners were not anxious to sell, saying that the option had run out. The dredge is very old and her hull has not been renewed. She was sunk at one time and her house floated off. This part is new. The whole machine is an old one and very well kept.

On suggestion of Mayor Sears, Capt. Wright gave a more detailed account of his visit. After the inspection of the Bothfield the Weymouth and No. 6, belonging to the Eastern Dredging Co., were examined. They visited No. 6, owned by Daley & Hanney, a small dredge owned by the Bay State Dredging Co. of Toledo and Boston, a couple of clam shell dredges. On Tuesday they went to Lynn, where they saw a dredge of the Packard Co. The owner came from Providence and she was put to work and took up a few loads. She is a quick working machine and everything is in good condition. She dredges at 4 feet of water and has all modern appliances, although not lit by electric light. She has two sets of spuds. Her bucket is five yards and in forty-five feet of water was bringing up buckets at the rate of a bucket every three-quarters of a minute. The bottom was not particularly easy.

To Ald. Bullock he said he did not know how well it compared with the Beaver. The Toledo and Boston are also obtainable. The Boston would also work in forty-five feet. She is an older machine and would cost about \$125,000 for dredge and scow.

To Ald. Bullock he said that there are a number of government scows which might be obtainable for work here. The city could purchase two scows from the Packards for \$25,000. It would take three days to get her prepared to move from Lynn, and longer than that to set her up here. He did not know how long the voyage around would take.

To Mayor Sears, he thought in an ordinary material she could dredge 2,500 yards a day.

Ald. Baxter said that the capacity of the Beaver is 3,000 yards, but she can not reach the maximum in this harbor.

Ald. Willet thought that we should have a written report and that we should adjourn to hear this report.

Ald. McGoldrick said that it was too bad to have so many bosses in this business. The best course for him seemed to be to resign from his position. He informed Captain Wright that he wished to hear about the Bothfield as soon as possible. But this was not done. It is getting near the first of November and we are just as far forward as we were three months ago.

Ald. Bullock thought no time had been lost on account of the delegation previously submitting no report on the Bothfield. He, however, thought Inspector Dalton should be present and submit some report.

Capt. Wright said that Mr. Dalton

## I.C.R. WILL HAVE SEVERAL MOORS

Three Will Be Running by Next Spring.

Superintendent G. R. Joughins Sends Favorable Report to Ottawa—How They are Managed

OTTAWA, Ont., Oct. 22.—There will be three big moors running on the Intercolonial next spring, and the number will be increased to ten as fast as they can be built. This is the decision that has been reached as the result of investigations in Europe just completed by G. R. Joughins, superintendent of motive power on the government railroads. He has reported at Ottawa, after a tour of investigation which took him through France, Austria, Hungary, Germany and England. He found the motor car problem had been best dealt with by the Great Western railway of England. That road handles an immense passenger business for short distances with a system which will likely be adopted on the Intercolonial. The motor is run by steam and is in the center of a train of two or four cars. It has 216 horse-power and runs at forty miles an hour. The driver, like an electric car motorman, is at the front of the leading car, and there controls the train by levers. He can reverse the machinery and operate it from the other end for the return trip. This saves switching.

## TAX COMMISSION AT FREDERICTON

Question of Taxing Lands Now Exempted Was Discussed—Agreement May Be Reached

FREDERICTON, N. B., Oct. 22.—The tax commission held a session this evening at the office of Chairman Allen. The question discussed was the subject of taxing lands now exempt. A committee composed of Rev. J. De Wolfe Cowie, Warden Thomas, I. R. Goding and H. G. Feney, appeared on behalf of the corporation of Christ Church, and Havelock Coy on behalf of the University of New Brunswick. The two parties chiefly interested in the matter were the church and the university. The church and university maintained that as their properties had been exempt in the past and the rentals fixed on that basis, that it would be unjust to tax the owners of the lands. With this view the committee seemed to agree, though not expressing themselves officially. They present leases no additional should be placed, but as regards renewals as the lessees had a right to fix the rent, the question might be different. Judging from the meeting expression it is altogether probable that an arrangement will be reached satisfactory to all parties. The lands owned by the church comprise six blocks at the upper end of a chimney sweep. Now his new house is absolutely lined with books so carefully arranged that he can put his finger on any "facts" which his opponents may require.

## SAN FRANCISCO IN GRIP OF THUGS

None Can Travel at Night in Safety—Police Powerless

More Than Twenty Thousand Revolvers Have Been Sold to Frightened Citizens for Protection

SAN FRANCISCO, Cal., Oct. 22.—All of the solid business men of San Francisco are seriously considering taking the work of guarding citizens from the attacks of highwaymen into their own hands, for they have come now to a full realization of the serious state of affairs brought about by the bold activity of thugs and robbers—a state of affairs that the police are wholly unable to cope with. Not since the mining camp days of '49 have inhabitants of the Golden Gate been in such a state of terror and fear. Nearly everybody, men and women, persons who never pulled the trigger of a toy pistol, goes about armed. The San Francisco Chronicle is authority for the statement that within the last few weeks twenty thousand revolvers have been sold by dealers in arms. Besides the tremendous sale of firearms—sale that means sufficient deadly weapons to fit out an army nearly as big as the first volunteer corps in Spanish days—the falling off in business and the reluctance for social indulgence at the risk of life and property illustrate the state of lawlessness that predominates in San Francisco. Until residents can get forth in their carriages and automobiles at night without the fear of a masked road agent interfering with their journey, they prefer to stay at home and content themselves with family entertainments, taking the precaution of having a revolver in case of intrusion from the second story thief. As a result of the siege of terror the theatres are doing little business compared with the patronage before the earthquake. Timid people refuse to take the chance of going to the theatres at night. Some even look upon a theatre treat as a risk. Of the managers of the Davis Theatre, is loud in his denunciation of the condition of affairs. "It is a terrible condition of affairs," Mr. Davis said today. "People are afraid to leave their homes to go to the theatre. Ever since these things have been at work there has been a steady falling off in the receipts of the theatres. People are so frightened when they read of the deeds of the thugs in our public highways, in the banks in broad daylight and in the homes of citizens that they are not willing to risk their lives for pleasure."

## CLEMENCEAU BEGINS ORGANIZATION OF CABINET

Paris, Oct. 22.—M. Clemenceau has begun the organization of a cabinet. He offered the foreign portfolio to Minister of France in the Serrien administration, who declined. M. Caillaux, who was finance minister in the Waldeck-Rousseau cabinet, has accepted the portfolio of finance. It is certain that M. Briand, minister of public worship;

M. Barthou, minister of public works; M. Auzan, minister of agriculture; M. Thompson, minister of marine, and M. Doumerg, minister of commerce, will remain, and that General Piquart will get the war portfolio. A new ministry of labor may be created with M. Viviani, the well known socialist deputy, at its head.

## CABINET MINISTER MOVES OWN GOODS

John Burns Carries His Books When He Shifts Into His Large, New House

LONDON, Oct. 22.—John Burns, the labor cabinet minister, is now comfortably settled in his new and larger home in Lavender Gardens. A great deal of fuss was made about his personal removal of his household goods from the humble home in Lavender Hill, which he has occupied for so many years, but as a matter of fact, it was only his precious books that he moved personally. Mr. Burns' books are his greatest treasure. Since his very early days he has collected books which related to the history of England, books of travel and volumes of vital statistics. To this day he can be seen diving into the three-penny boxes of second-hand bookellers. His collection of "blue books," all carefully bound, is unrivalled. Mr. Burns did not even occupy the whole house at Lavender Hill. For some years the top floor was tenanted by the widow of a chimney sweep. Now his new house is absolutely lined with books so carefully arranged that he can put his finger on any "facts" which his opponents may require.

## DEATH TAX FILLS THE TREASURY

Thirteenth Estate Valued at Millions Comes into Hands of English Chancellor

LONDON, Oct. 22.—Mr. Asquith is the luckiest chancellor of the exchequer that England has ever known in the matter of death duties that have come to his coffers since he took office. The death of Mrs. Lewis-Hill brings him the thirteenth estate, valued at millions, during the present year into his hands for death duties, while last year his predecessor Austen Chamberlain, had only one man of millions who contributed to his bag. The highest previous record that can be recalled to another millions contributing in this way to the assistance of the chancellor of the exchequer was eight, whose estates realized about £18,000,000 (\$45,000,000). The thirteen estates which have come to the aid of Mr. Asquith realize about £24,500,000 (\$121,500,000).

## FIGHT WITH GRAND TRUNK STILL ON

TORONTO, Ont., Oct. 22.—That the fight between the Grand Trunk Railway Company and the International Union of Machinists continues was shown this morning, when the local machinists got twelve men out of the shops at the foot of Spadina avenue. These men went up to the Labor Temple and joined the local union. This afternoon they secured situations in the Canadian Pacific shops at Toronto Junction.

## ELIZABETH NAGLE, THE CHICAGO GIRL, WHO WANTS TO SELL HERSELF

Thought to be Witness in London Bribery Case Would Not Accept Letter of Apology From Crown Prosecutor—Received Rewards for Their Votes

OTTAWA, Oct. 22.—The crown prosecutor was evidently disappointed and annoyed by the developments in the London bribery case this morning. A witness named John Omara, who had been arrested in London Saturday on a bench warrant, and kept in custody since, as a material witness, turned out to be the wrong man. He made a vigorous protest against the ill treatment which he, as an innocent man, had been subjected to, and the counsel for the crown, after being convinced that they had the wrong man, offered him a letter of apology. The offer was not, however, accepted, and something further may be heard of the matter.

Several witnesses who swore to having received money in connection with the election, testified that they were Liberals and intended voting for Hyman in any event. In some cases they stated before they were promised money that they were going to vote Liberal, and in other cases nothing was said about which way they would vote. The evidence was such as to elicit the remark from the magistrate that the money was not apparently given them as a bribe, but as a sort of reward for their votes.

## FAITHFUL OFFICER DIED AT HIS POST

Commission Promoting Sergt. Haynes Never Reached Him—Death Occurred Last Winter

OTTAWA, Ont., Oct. 22.—A servant of Canada died at a frontier post of duty last winter. The news has just reached Ottawa. One of the half dozen mounted police who were left at Pultarion, on Hudson's Bay, last winter to look after Canada's interests, was Sergt. Haynes. He was 48 years of age and had been in the police twenty-four years. He had been faithful and intelligent in his service and had advanced several steps in the scale of promotion. The head of the force had his work in mind for Major Moodie, who went in with the relief expedition in the spring. He had been promoted to sergeant when the commission arrived it was found Sergt. Haynes had died a month before. News was brought by Constable Duff, who had an attack of rheumatism and came back on the Neptune.

## ATTEMPT TO RUN JAPANESE INTO CANADA

VICTORIA, B. C., Oct. 22.—The Japanese schooner, Sultan Maru is held here for attempting to run a number of Japanese into Canada. Twenty-two Japanese out of fifty-three on board were landed 20 miles from here Friday. Nine have been apprehended. The schooner is liable to confiscation and fine of \$100 for each man not listed. The captain said heavy weather had blown them from Copper Islands, where they had been fishing. The schooner was short of water.

## BANWELL MAY BE RELEASED FROM PENITENTIARY

OTTAWA, Ont., Oct. 22.—A petition asking for the release, on parole, of E. St. George Banwell, now serving a sentence of four years in Kingston penitentiary for the theft of over \$40,000 from the Crown Bank, has been signed by Banwell and Mrs. Banwell, and will be presented to prominent people, some of whom employed Banwell, for their signatures. It will be forwarded to Earl Grey.

## WIDOW LOSES BIG SUM IF SHE REMARRIES

NEW YORK, Oct. 22.—The will of Daniel O'Day, a partner of J. D. Rockefeller, who died suddenly in France several weeks ago, was filed for probate today. Mr. O'Day's entire estate is left to his widow and twelve children. The value of the estate is not named. Under the terms of the will Mrs. O'Day will receive an income of \$325,000 during her life, unless she should remarry. In that event she is to forfeit her right to the income from the trust fund and is to be given a yearly income of \$5,000. The remainder of the property is divided among the twelve children.

## GREAT ACTIVITY AROUND COLLIERY

SYDNEY, N. S. W., Oct. 22.—There is great activity around the collieries. The Dominion Coal Co. have three gangs of 150 men each continuously at work cleaning up the debris from the recent fire, and 50 cars and an engine and 25 flat cars are handling the rubbish. Good progress has been made on the work and over half of the bank has been cleaned up. All the scrap iron from the wrecked machinery has been sent to the Dominion Iron and Steel Co. and is being hauled into Sydney. As the iron work was burned under tons of burning coal and dust it was no light task to get the scrap out of the heap. The piles of refuse are still smouldering and bucket brigades are at work to enable the gangs to work in comfort. Work on the construction of the temporary bank head has been commenced.

**LEGAL NEWS.**

The police found the doors of three business establishments open last night.

H. Co., 6nd Fusiliers, Capt. Sippell, meet at the Armoury tonight for return of clothing, rifles, etc., and dine at White's later in the evening.

T. H. Hall, E. G. Nelson & Co., A. M. Gray and M. G. Ritchey, D. McArthur will close every evening except Saturdays at 6.30 o'clock until December 1st.

In the police court this morning Thomas Murray said the cause of his being intoxicated yesterday was that he was taking medicine for a cold. He was fined \$1. Samuel Cook was fined \$8 or two months jail, and Thos. Docherty \$8 or one month.

Chifford McLatchey, C. E. is here from Montreal where he has been employed during the summer on the construction of the new \$100,000 race track for running horses at Montreal. The contractors on the work were the Canadian White Company, Herman McLatchey, B. A., who was known as former newspaperman in this city and St. John, is also employed—Gleane.

Advices have been received from Ontario and Quebec stove manufacturers that they have advanced the prices on all stoves and ranges 5 per cent. This increased price, it is stated, does not at all represent increased cost there has been in raw material, labor, etc., therefore further advances may be looked for. The stove makers in the Maritime Provinces have not as yet advanced their prices, but will likely also be compelled to do so.

The annual entertainment to the new girls given by the old girls of Netherwood, took place on Saturday evening last. Never before have the old girls given a more successful and pleasant welcome to the new-comers of the school. After a very clever little "rhodod play" the guests were entertained with dancing and a dainty supper was served in one of the class rooms, which was charmingly decorated with autumn leaves, class flags and colors. The evening closed with singing and hearty cheers for the new girls and also for the new teachers who were added to the staff this year.

The Globe ran into a bit of hard luck yesterday afternoon. Shortly before going to press the manhole top blew out of the boiler and the whole building was filled with dancing steam. There were no serious results, but the paper was delayed about three hours. No time was lost by the managers in having a crew of men from the St. John Iron Works replace the ousted item of machinery. The new boiler, the big Hoe press was rolling off the edition at a great rate. Mails were missed, but the city demand for good news was considering the seriousness of the breakdown.

**A MUSICAL TREAT.**

**A Private Recital in Miss Lurgin's Studio Last Evening.**

Given by Mrs. Spencer and Mrs. Scovill—

A Fine Classical Programme Splendidly Rendered.

Rarely is it given St. John people to enjoy such a musical treat as that provided last evening by Mrs. Fred. Spencer and Mrs. Kent Scovill at Miss Lurgin's studio, Duke street. The recital was a private one, and invitations were extended to some sixty or seventy friends. Such music is seldom heard, and it is a matter of regret that this is so.

The ladies selected for their programme from the works of three composers, Gregor, Liszt, and Chaminate, representative compositions calculated not only to enhance the pleasure of the audience but to convey a fair idea of the characteristics of each writer, and the result was a collection of gems, varied in style, and unique in arrangement. The programme was as follows:

Gregor—

Caraval.

The Princess.

Margaret's Cradle Song.

The Violist.

I Love Thee.

Sonata.

Liszt—

Rhapsody No. 13.

The Lovelace.

Consolation.

Tou Art so Like a Flower.

Dance of Gnomes.

Liebestraum.

Chaminate—

Once More.

Over the Fresh Green Fields.

Lullaby.

Pierette.

Mrs. Spencer was never heard to better advantage, and perhaps the most striking feature was her faultless interpretation of the varied compositions of Gregor's cradle song. She was at her best in the lullaby, and indeed it appeared that for compositions of this nature, for Liszt's "The Violist," and Gregor's cradle song. Mention should also be made of the tender sweetness of Gregor's cradle song. She was at her best in the lullaby, and indeed it appeared that for compositions of this nature, for Liszt's "The Violist," and Gregor's cradle song.

Mrs. Scovill has a technique that is all her own, a faculty of lending to every expression an interpretation which clearly brings out the idea of the composer, brilliant execution, and a thorough understanding of the instrument. Of her solos, Liszt's Liebestraum was the finest. It is a number which may easily be ruined, but if played properly is a gem. It was perfectly rendered last evening. The Rhapsody with its delightful harmonies was familiar to all, but has, perhaps, never been so thoroughly enjoyed. The weird modulations of Gregor's Sonata, the rhythmic brilliance of Chaminate's Pierette, and the rippling melodies of Liszt's Dance of the Gnomes, drew from the listeners many expressions of pleasure.

As encores Mrs. Spencer repeated the Lullaby, and Mrs. Scovill played an impromptu by Chopin. The evening was a delightful one, and while it is a matter of regret that Mrs. Spencer will not be heard in St. John again for some time, yet there is a hope that Mrs. Scovill may be pleased to afford music lovers other such opportunities for enjoyment.

**RECORD NUMBER OF PERSONS CONFIRMED**

When His Lordship Bishop Casey returns to his palace at St. John at the end of this week, he will have confirmed during this year a record number of candidates. It is expected that when he returns all in they will show that fully two thousand candidates have been confirmed by His Lordship during the year, while the usual number ranges from 1,700 to 1,800 persons.

On Saturday evening His Lordship finished a 135 mile drive about the upper ends of the county and left for St. John by C. P. R. at 9 p. m.

The following figures show the number of candidates confirmed at the several churches which His Lordship visited last week on his trip through York county:

Fredericton	.....	71
St. Mary's	.....	16
Stanley	.....	27
Kingsclear	.....	42
Allendale	.....	23
Cork	.....	46

**DENY STORY OF SALE OF CALVIN AUSTIN**

It has been rumored about town for some little time that the Eastern Line Steamship Co. have been negotiating for the sale of the Calvin Austin, now that one of the new steamers has been completed. This is denied at the offices here and the statement is made that the Austin has been found in every way satisfactory for this route, that this steamer and the Governor Cobb will perform the St. John-Boston service until Christmas and that the Austin will, after that, be placed as usual on the Boston-Portland run. The Governor Cobb is expected to arrive here in about two weeks.

**Rainproof Overcoats**

For Men

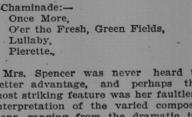

It doesn't seem quite right to call these superbly shaped garments "raincoats" — the name used so indiscriminately in connection with flimsy, ill-fitting coats, that it doesn't at all describe the smart dressy overcoats which we are selling in such quantities this fall.

We shall be glad to show you these Raincoats, whether you wish to buy or have just bought one elsewhere. We should like to have you know the difference between the usual clothing and 20th Century Brand — that means the next time you have clothing to buy, you will give us the opportunity to show you what we have to offer.
