VIOLENCE CONTINUES IN BIG STEEL STRIKE

STRIKE BREAKER WHO WAS BEATEN BY STRIKERS ASSISTED BY GUARDS AT MCKAY MFG. CO. PLANT IN INDIANA HARBOR, IND.

Officials at all the plants in the Central Western district attempting to operate report that the strikers are returning in small groups and that the scope of their activity is gradually being enlarged. At a mass meeting of strikers at Gary, speakers counselled against any outbreak of violence. They warned the strikers that violence would cause the corporations to call them Bolsheviks and even worse names and that disturbances would injure their own cause.

DEBT OF MEXICO OVER \$527,000,000

American Member of Cabrera's Financial Commission Informs Senators.

The national external debt of Mexico, which was \$25,000,000 pesos, when Porfirio Diaz left Mexico to die in exile, has increased under Huerta, Madero and Carranza to more than \$527,000,000 pesos. If the indebtedness were to be repaid in full, it would require the issue of \$527,000,000 pesos in new bonds, taking the national debt to more than \$1,054,000,000 pesos, or roughly \$827,000,000.

The huge financial burden under which Mexico now labors, was the phase of the Mexican situation, that the sub-committee of the Senate committee on foreign relations began investigating Wednesday. The first witness called was Thomas S. Lill, an American accountant, who is now a member of the Mexican government's administrative and financial reorganization commission, of which Luis Cabrera, the Carranza minister of finance, is the chairman, and of which three other members of the Carranza cabinet are members.

Mr. Lill is an enthusiastic supporter of the Carranza regime and pictures the Mexican president as a man anxious to relieve the sufferings of his country and equally anxious to rid his government of all dishonest and unnecessary officials. He said that as a result of his investigations in Mexico he was convinced that Mexico might be able some time in the future to stand a national debt of approximately \$50,000,000 pesos and that it would be possible for the country to pay this off at the rate of 30,000,000 annually. He submitted figures showing the present national debt exceeds \$1,000,000,000 pesos, which sum does not include guaranteed railway bonds to the amount of 53,000,000 pesos, or other railway indebtedness totalling approximately 135,000,000 pesos.

Assistant to Henry Bruere. Mr. Lill said that all of his employment in Mexico had been by the Carranza government, his position being that of chief accountant of the commission of which Finance Minister Cabrera is the head. He added that he had gone to Mexico as chief accountant to Henry Bruere, former chairman of New York city, who had been invited by Cabrera and Alberto Pani, the last named also a member of Carranza's cabinet, to go to Mexico and make a study of the Mexican government, particularly of its financial administration. He went to Mexico in 1917. Before going to Mexico city, he added, Mr. Bruere submitted to the Cabrera-Pani proposition to President Wilson, who had thoroughly approved the Bruere mission.

"It had been frequently reported," said Mr. Lill, "that the government

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

A PHYSICIAN'S ADVICE.

Frederick S. Kolla, M. D., Editor of New York Physicians' "Who's Who," says that weak nervous people who want increased weight, strength and nervousness, should take a grain tablet of Bitro-Phosphate just before or during each meal.

This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals.

If you do not feel well; if you tire easily; do not sleep well, or are too thin; go to any good druggist and get enough Bitro-Phosphate for a two weeks' supply—it costs only fifty cents a week.

But less; chew your food thoroughly, and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality, your money will be returned, and the Bitro-Phosphate will cost you nothing.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-tives" Point the Way to Quick Relief.

Verona, Ont. "I suffered for a number of years with Rheumatism and severe Pain in my Side and Back, caused by strains and heavy lifting. When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine."

W. M. LAMPSON. "Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c.—or sent postpaid by Fruit-a-tives Limited, Ottawa.

tion that Mexico can only afford a debt of 550,000,000 pesos when under a debt of \$25,000,000 Diaz left in the treasury 25,000,000 pesos and left the country on a par with us. "That," replied Mr. Lill, "was an accumulation of some eight years. Then, as every where else, prices have risen in Mexico and Mexico needs about double to what was needed in 1910. Then there is the educational programme which the Carranza government has started, and everything considered, I do not see how the government can get on under less than 100,000,000 or 150,000,000 pesos for current operations." "Has the Mexican congress passed any law to carry into effect the provisions of the constitution of 1917?" "I do not think so."

LARGE COLLECTION OF FURS EXHIBITED AT NEW YORK SALE

Over \$7,000,000 Worth of Raw Furs from All Parts of the World Put on Display Yesterday.

Special to The Standard.

New York, N. Y., Oct. 1.—More than \$7,000,000 worth of raw furs from all parts of the world were put on display here today prior to being sold at the annual fall auction which begins in the Masonic Temple on Monday next. They make up the largest collection ever offered at an auction sale in this city. Many of the Russian skins displayed today are of such fine quality that, in days of the old regime, they would have been reserved for the sole use of the Czar and other members of the Imperial family. In spite of the upset political situation in Russia and Siberia, the collection of skins in which these skins are included is the largest ever offered here.

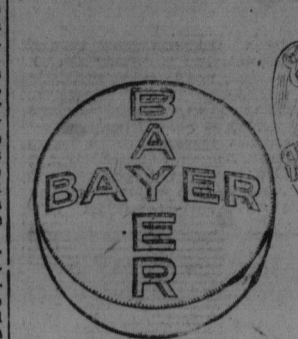

Also notable, according to experts, are the skins of the muskrat, which is not only large, but contains many Russian skins. The grade of marten to be sold is also high, and the same is true of the chinchilla pelts. Despite the marked shortage of muskrats, the present collection is larger than that offered here at the New York Fur Auction Sales Corporation's fall sale in 1918. It is said to contain a number of particularly fine "strings." The quality of the so-called single furs runs high generally, and among the less important offerings will be a collection of nearly 15,000

THE WEATHER

Toronto, Oct. 2.—The weather has been fair and cool today from the Great Lakes eastward and showery in Manitoba and some sections of Saskatchewan.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" stamped on the tablets positively identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nineteen years. Always buy an unbroken package of "Bayer Tablets of Aspirin" which also tell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer."

Too Ill to Work Scores of Women

In homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism? Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring Women to health and strength.

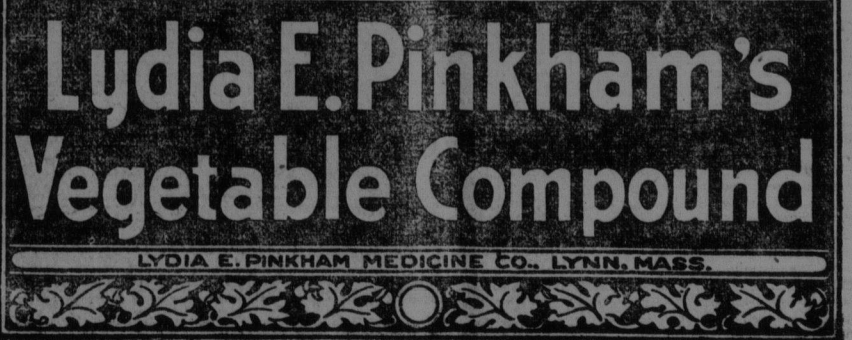

Here is a Notable Example St. John, N. B.—"I have used Lydia E. Pinkham's Vegetable Compound for bladder and kidney troubles and backache and find it the best medicine I ever took. I used many other remedies with very little result. I had two miscarriages and would have been in my grave ere this if it had not been for your medicine. I always keep a bottle of Vegetable Compound in the house, and I feel fine to do my work for five in the family. I have recommended your Compound to many people, and you may use this testimonial if you like. It may help some other woman."

MRS. ALBERT S. GILL, 17 St. Andrew St., St. John, N. B.

And Another Regina, Sask.—"I was going through the Change of Life and suffered two years with headaches, nervousness, sleepless nights and general weakness. Some days I felt tired and unfit to do my work. I gave Lydia E. Pinkham's Vegetable Compound a trial and found good results. I also find it a very helpful spring tonic and useful for constipation from which I suffer much. I have recommended Vegetable Compound to several friends and am willing you should publish this."

### CANADA PAYING \$24,000,000 TO 90,000 PERSONS

Pensions Act Will Raise Outlay \$4,000,000—Substantial Increases—September Cheques Are Being Made Out at New Rates.

Ottawa, Sept. 26.—Canada is at present paying war pensions to nearly 90,000 individuals at an annual cost of over \$24,000,000, and under the Pensions Act, which became effective on September 1, the majority of these will receive bonuses and increases which, in the aggregate, will create an additional annual expenditure of roughly \$4,000,000, says an official statement issued by the Board of Pensions Commissioners.

A twenty per cent. bonus payable for one year, is to be added to the pension of the disabled ex-private. To the totally disabled man this represents an increase of \$120, making his annual pension \$720 instead of the former \$600. The former sergeant, or company sergeant-major, totally disabled, will also have his pension raised to an annual sum of \$780 from the former amount of \$657.50, roughly a thirteen per cent. bonus. The amounts given are those to which totally disabled men are entitled, men with lesser disabilities of course receive smaller amounts; according to the degree of their disability. These bonuses are only payable to the ranks mentioned or corresponding ranks, commissioned officers and warrant officers being excluded from receiving them. The additional pension for married pensioners of \$40 per annum (for a totally disabled man), is to be permanently increased to \$180, and made payable to all ranks. The additional pension allowed for children is also made equal for all ranks.

The war widow whose husband was killed as a private is to have added to her present pension of \$480 per annum the sum of \$96, bringing her total annual pension up to \$576, the widow of a sergeant having her pension similarly raised to \$676 from its former total of \$580. These increases are bonuses of percentages corresponding to those payable to the disability pensioners, previously described.

In addition to their personal bonus, widows who have been left with children will have the additional pension allowed for their first child increased by \$30, making the total \$180 per annum instead of \$144. The pension for the oldest orphan child of a deceased soldier has also been increased from \$288 to \$360 per annum.

"The adjustments made necessary through these increases have already been made," an official of the Board of Pensions Commissioners stated, "and the September pension cheques payable at the new rates will be issued promptly at the end of the month."

"This, says the statement, should add greatly to the feeling of satisfaction already caused by the granting of the various increases. That it has been possible to get through such a volume of work in the short space of time permitted redounds to the credit of the Pension Board."

The only adjustments which the board has been unable to entirely dispose of, it is stated, are those in connection with certain special cases, and cases of parents who were dependent on deceased soldier sons for support. The pensions of parents are in future to be independent of any personal earnings they may make, but as each case requires special attention, the work could not be disposed of as promptly as in other cases. The work is to be dealt with as quickly as possible, however, and those concerned may be assured of an early adjustment of their pensions.

Pension cheques issued at the new rates for the month of September will continue to be so issued during September, 1919, to September, 1920. Correspondence on the part of pensioners regarding the new rates will therefore be unnecessary.

"Those pensioners who have accepted courses of training with the Department of Soldiers' Civil Re-establishment need feel no anxiety, as any pension to which they may be entitled on their release from that institution will be adjusted and paid to them at the new rates," stated the board. This also applies to any other case where a pension has, for any reason, been suspended, and future awards will be made on the new rates.

There is, however, a point to be brought to the attention of married pensioners who held in the army the rank of captain or a higher rank. These pensioners become entitled, under the Pension Act to the same additional pension which is paid other married pensioners, and to obtain payment of this they should communicate with the district pension office in their neighborhood. They will be required to produce their marriage certificates as well as birth certificates for any children they may have. All certificates are returned immediately they have been examined by the pension officials.

### Liver and Bowels Right—Always Feel Fine

There's one right way to speedily tone up the liver and keep the bowels regular.

**Carter's Little Liver Pills** never fail. Millions will testify that there is nothing so good for biliousness, indigestion, headache or constipation, simply skin. Purely vegetable. Small Pill—Small Dose—Small Price.

**DR. CARTER'S IRON PILLS**, Nature's great nerve and blood tonic for Anemia, Rheumatism, Nervousness, Sleeplessness and Female Weakness.

Keeps you cool and clear-headed.

### WOMEN PHYSICIANS WOULD BASE WORLDWIDE CAMPAIGN ON AMERICA'S "BETTER BABIES" DRIVE

Foreign Delegates Grow Enthusiastic After Hearing Medical Experts—Parental Training Urged—Germs, Colds and Dentistry Up for Discussion Today.

New York, Sept. 25.—It is important for a parent to know the good points of a baby as of a hog or a sheep, and a movement to enlarge the father's and mother's knowledge along this line is already started in the West, and is sweeping this way, according to women physicians attending the international conference yesterday at No. 600 Lexington avenue. The movement owes its start primarily to Dr. Lenora Mesanos, medical director of the Baby Health Council of Iowa State Department of Agriculture, who presided at the

morning session. Dr. Augustus Rucker, formerly of Texas and now director of the division of health of the National Board of the Y. M. C. A., told of the baby educational movement. "There was a time when no attention was paid to babies," she began. "The farmers of Iowa entered their babies and their hogs in the State fairs and usually the hogs took prizes and the babies were pronounced ruffs. The farmers didn't mind losing on their baby entries until people began to ridicule them. Then they went to physicians

and asked what was the matter with their offspring.

The Iowa physicians thus appealed to saw a chance to educate the farmers and their wives and they took advantage of this opportunity. The farmers were put on their motto and they said next year they would bring back a prize for their babies, and they did. Now there are more people in the State of Iowa washing how babies are examined and measured up at these State fairs than there are watching how sheep measure up. The Iowa physicians have succeeded in putting the baby where the hog and the sheep formerly stood in the farmer's estimation.

"Not only are the farmers made to feel proud of their prize winning offspring but the mothers are learning how to feed and bring up their babies. The physicians have compiled a baby's cook book for the benefit of the farmer's wives. When one mother told her physician that she had been feeding her nine months old baby on fried eggs and her child of two and a half years on fried eggs and potatoes, it was considered high time to prepare a set of menus for these mothers.

The United States government has adopted this system of baby education which Dr. Mesanos introduced at Des Moines. Texas is doing the same thing and other States are preparing to follow."

The idea met the hearty approval of the visiting women physicians from France, South America and other countries the representatives taking part in the discussion which followed. Dr. Albo Moreau, of the Argentine and Dr. Alice A. Ugon, of Uruguay, through the official interpreter, Countess Maria Losch, said that they wished all countries would adopt Dr. Mesanos' baby programme and they suggested that each foreign delegate at the conference constitute herself a propagandist in this welfare work.

Lack of Fresh Air.

"Each country has compulsory education," stated Dr. Moreau, "and the governments spend a great deal of money on military services, in some countries this being compulsory, so why not have the same programme for mothers, making it compulsory for them to study how to care for children?"

Dr. Henry L. K. Shaw, of Albany

an authority on child hygiene; Dr. Frederic Peterson, for twenty-five years a member of the faculty of Columbia University; William Kippatrick College, and W. A. McCall, of New York, were the other speakers.

Professor McCall's subject was on air schools, which he strongly advocated. When he had finished his address Dr. Giella Loffino, of the Polyclinic Hospital, at Rome, asked Professor McCall why he preached fresh air when everywhere she went in this city she found so little of it. So impressed was she by the lack of fresh air that she has written about it to her friends in Italy.

Germs, colds, dentistry and vaccines will be discussed today by experts on these subjects.

How Was It Done?

London Free Press.—The Ontario government, says the Toronto Globe, "actually take credit to themselves for being bludgeoned into passing legislation in the public interests." The idea of a government with a following of 80 in a House of 111 members being "bludgeoned" into action is not without humor.

### DID YOU EVER USE SLOAN'S?

Keep it handy to promote prompt relief from rheumatic pains and aches.

When you know what Sloan's Liniment will do, as thousands of men and women the world over know, you, too, will keep it handy. You will use it for those "twinges of rheumatism," for relieving that lame back, muscle stiffness and soreness, aches, all sorts of external pains, and exposure aftermaths.

Only takes a little, applied without rubbing. Soon penetrates, scattering the congestion, bringing grateful relief to the throbbing, jumping parts.

Three sizes—35c, 70c, \$1.40. Any drugist has it. If not, we'd like to know his name.

Made in Canada.

# DOMINION TIRES

## For every car; for every road; for every purpose.

**I**f you want absolutely the best tires that can be made—the most perfect in construction—the most satisfactory on the road—the most economical in mileage and gasoline — get **DOMINION "ROYAL CORD"** or **DOMINION "NOBBY TREAD"**.

They are the princely members of the tire nobility.

**H**OWEVER, you may feel that a less expensive tire will be satisfactory for your purpose. Very good.

**T**HE Dominion Rubber System offers you three other distinctive treads from which to choose—"DOMINION", "CHAIN" and "GROOVED".

**I**f you find Plain Treads suit your purpose, you can get Dominion quality, Dominion service and Dominion mileage in **DOMINION "PLAIN TREAD" TIRES.**

**WHICHEVER** Dominion Tire you choose, you get dependable quality and workmanship which will ensure you absolute satisfaction no matter where you go.

**YOU** can also have any or all of these **DOMINION TIRES** fitted with **DOMINION INNER TUBES**, that insure perfectly balanced tires.

*DOMINION TIRES and ACCESSORIES are distributed through DOMINION RUBBER SYSTEM BRANCHES and sold by the Best Dealers throughout Canada.*

### FRENCH SCIENTIST PROVES KAISER WAS CRAZY WITH HEAT

Epoch of Disturbance Came Every Forty Years and That Period Germans Had Cracked Twice.

The sun caused the great war by driving the Kaiser crazy with the heat.

Furthermore, unless puny man and his League of Nations can fix it up with Old Sol, there may be more war. The danger is greatest every eleven years, in the maximum intensity of solar heat.

Prof. Abbe Moreux, director of the Bourges Observatory and one of the noted French astronomers, gave out this information in all seriousness the other day.

Twice Have Germans Cracked Under the strain in the last fifty years.

Moreux points out, lacking the moral stamina to "keep their shirts on" to time of phenomenal stress. Their kultur is blameworthy for the war, but the Kaiser was the boss of that kultur, perhaps he remains culpable.

But the ultimate force that caused all the recent ruckus on Mother Earth is the same that brings up crocuses in springtime and melts tar pavements and the ice in the loobax in mid-summer.

Thousands of years of scientific observation, Moreux asseverated, demonstrate that wars are due to man going berserk during maximum heat spells. Kaiser's diplomats and humanly in general are affected.

The sun's effects, which are most complex, have their origin in the varying heat which reaches a maximum every eleven years," said the professor.

Dir oceans lose volume, rains doubtless years, not only does the earth react to the sun's increasing heat, but magnetic needles go crazy and compasses lose their north.

Some of the "Plain Signs." "By a phenomenon of electric induction, the polar lights have whiteness and brilliance, cyclones disturb the oceans and interior gases burst through the earth's surface by way of volcanoes.

Our oceans lose volume, rains doubtless and regular climatic conditions seem to be set at naught temporarily. I would be insane to believe, in the face of those facts, that human beings escape the influence of solar convulsions.

"The electric flux from the sun has an effect on the human nervous system, and I have often established that many persons, children especially, are most irritable in such phases of solar excitement."

Nervousness, gout, rheumatism, headaches and neuralgia are thus inflicted, and outbreaks of temper may be attributed to the same causes.

"In a lecture with which I closed the International Scientific Congress in Brussels just before the war, I asked my auditors, who were among the highest scientific men, if it was not legitimate to see in this force the cause of that nervous tension which often dominates our diplomats and which perhaps is what drives on people against another in sanguinary and savage wars."

Friends in Milder Periods. Moreux says he has observed from historical data that commercial expansion, interchanges of ideas, international expositions and similar friendly developments have gone forward in the sun's milder periods. In the crises of heat he has noted annexations and numerous military expeditions. The grand epochs of disturbance, he says, come every thirty-five or forty years.

The war of 1870 followed shortly after a maximum of solar activity," he continued, "which began in 1867. The great war also coincided with a disturbance which reached its maximum in 1871."

"Thus twice within a half century the Germans have burned up Europe when they were most exasperated by the sun's rays. All of which, I think, prove that the nation which is nearest to animality is least capable of healthy reaction to the phenomenon."

Thus is scientifically established the degree of moral abasement to which German kultur lowered its followers.

**Epochs of Disturbance Come Every Forty Years and in That Period Germans Have Cracked Twice.**

The sun caused the great war by driving the Kaiser crazy with the heat. Furthermore, unless puny man and his League of Nations can fix it up with Old Sol, there may be more war. The danger is greatest every eleven years, in the maximum intensity of solar heat.

Prof. Abbe Moreux, director of the Bourges Observatory and one of the noted French astronomers, gave out that information in all seriousness the other day.

Twice the Germans have cracked under the strain in the last fifty years. Moreux points out, lacking the moral stamina to "keep their shirts on" in time of phenomenal stress. Their Kultur is blamed for that weakness and as the Kaiser was the boss of that Kultur, perhaps he remains culpable.

But the ultimate force that causes all the recent ruckus on Mother Earth is the same that brings up eruptions in springtime and melts tar pavements and the ice in the icebox in mid-summer.

Thousands of years of scientific observation, Moreux asseverated, demonstrate that wars are due to man's going berserk during maximum heat spells. Kaiser's diplomats and humanity in general are affected.

The sun's effects, which are most complex, have their origin in the varying heat which reaches a maximum every eleven years," said the professor. Consequently, at intervals of eleven years, not only does the earth react to the sun's increasing heat, but magnetic needles go crazy and compasses lose their "north."

Some of the "Plain Signs." "By a phenomenon of electric induction, the polar lights have double brilliance, cyclones disturb the oceans and interior gases burst through the earth's surface by way of volcanoes. Our oceans lose volume, rains double and regular climate conditions seem to be set at naught temporarily. It would be insane to believe, in the face of those facts, that human beings escape the influence of solar convulsions.

"The electric flux from the sun has an effect on the human nervous system, and I have often established that many persons, children especially, are in a irritable in such phases of solar excitement.

"Nervousness, gout, rheumatism, headaches and neuralgia are thus inflicted, and outbreaks of temper may be attributed to the same cause.

"In a lecture with which I closed the International Scientific Congress in Brussels just before the war, I asked my auditors, who were among the highest scientific men, if it was not legitimate to see in this force the cause of that nervous tension which often dominates our diplomats and which perhaps is what drives one people against another in sanguinary and savage wars."

Friends in Milder Periods. Moreux says he has observed from historical data that commercial expansion, interchange of ideas, international exhibitions and similar friendly developments have gone forward in the sun's milder periods. In the crises of heat he has noted annexations and numerous military expeditions. The grand epochs of disturbance, he says, come every thirty-five or forty years.

"The war of 1870 followed shortly after a maximum of solar activity," he continued, "which began in 1867. The great war also coincided with a disturbance which reached its maximum in 1917.

"Thus twice within a half century the Germans have burned up Europe when they were most exasperated by the sun's rays. All of which goes to prove that the nation which is nearest to animality is least capable of a healthy reaction to the phenomenon. Thus is scientifically established the degree of moral abasement to which German Kultur lowered its followers."

**ANOTHER REORGANIZATION OF CANADIAN STAFF OVERSEAS**

After October There Will Be Only Three Hundred Officers and Men in All Services.

(Copyright Montreal Gazette.) London, Sept. 28.—Another reorganization of the staff has been carried out by the overseas military forces of Canada, and as a result, after October 1st there will be only 300 officers and men in all services. Sir Edward Kemp authorized this decrease before leaving for Canada. The Canadian Medical Services will have a strength of 20 officers and 28 men.

All the remaining Canadian patients are being turned over to the Imperial hospitals, and the Canadian hospitals closed. The quarter-master-general's staff of this branch will have a strength of 130, and other staffs will be pruned even more drastically.

**CAPTAIN GANONG WARMLY WELCOMED**

Captain A. T. Ganong, who with his wife and infant daughter recently returned from overseas, was tendered a very warm reception at the home of his mother, Mrs. Hanford Snider, Snider Mountain, on Thursday evening, September 25, when upwards of 70 friends gathered to welcome him home after an absence of over four years. A delightful evening was spent by all in games and music, and at

Canada has the best record for speed of demobilization of all the dominions or Allied nations, said Sir Edward Kemp before his departure. Canada has but a dozen men in France, the rest being in Britain.

Before leaving Sir Edward Kemp gave a dinner to the headquarters staff.

Before going aboard the Mauritania today, Sir Edward Kemp said that Colonel Harrington, the Deputy Overseas Minister, would carry on here until the middle of October, but it was the intention to transfer the administrative staffs completely to Canada, and let them wind up their work there.

the close the hero was presented with a leather club bag, the presentation being made by Rev. Mr. Young.

**TRUTH**

An open letter by W. K. Kellogg.

I am firmly convinced that truth only convinces in the end.

No matter how a man or an institution may try to detract the public's mind from the main issue by a wilderness of words, his product stands or falls upon the truth or untruth of his statement.

The public always is finally convinced by truth and truth alone.

So, disregarding the claims and counter-claims of the imitators, simply make this one statement that

**Kellogg's TOASTED CORN FLAKES**

Sold only in FLAVOR-HOLDING WAXTITE MOISTURE-PROOF PACKAGES

is the most delicious, nutritious and crispest corn flake on the market, and the full, carefully-packed Waxtite package preserves the goodness.

Kellogg's Toasted Corn Flakes are wholly different from the limp, tough, leathery, carelessly-packed flakes so often substituted.

To make this so is my life's business. To find out that it is so, is your business. You are the Court of last appeal. Try—compare any other corn flakes on the market, then buy of your Grocer one package of Kellogg's Toasted Corn Flakes, in the Waxtite wrapper—you and your family will eat every bit of it.

If this is not the best Corn Flake you ever ate, your grocer will refund your money. It costs you nothing to find out the truth and it is very much worth your while.

Sincerely yours,  
**W. K. Kellogg** President.

**CATELLI'S IRONDELLE MACARONI**

Is Teaching a Lot of Women How to Prepare Appetizing and Inviting Dishes at Small Cost.

Catelli's Macaroni costs much less than meat and is more nourishing. It has greater food value than the best sirloin steak, and satisfies the appetite just as completely. Be economical. Try it.

It is made of the best Canadian hard wheat—absolutely pure. No coloring matter (Yellow) used.

Aside from its purity and great food value, Catelli's Macaroni makes so many delicious dishes that everyone enjoys.

Nourishing Soups—Appetizing Substantials such as Macaroni with Eggs, with Fish, with Vegetables, with Cheese, with Ham—Tempting Entrees, Croquettes, Souffles and Puddings,—in fact, there is no limit to the toothsome dishes that may be prepared with Catelli's Macaroni as the basis.

Catelli's Macaroni, Ready-Cuts, Spaghetti, etc. are packed in sealed packages to insure their goodness reaching you intact, and to prevent breakage and waste.

Always insist on having CATELLI'S, in the sealed packages, and be sure to write us for a free copy of our new Cook Book of economical recipes.

**THE C. H. CATELLI CO. LIMITED, MONTREAL.**

**YOU CAN PLAN A LOT OF GOOD THINGS TO EAT WITH CATELLI'S MACARONI.**

Try these tested Recipes:

**VERMICELLI SOUP**  
Put a quart of clear broth into a steapan on the fire; when boiling, add 2 oz. of CATELLI'S VERMICELLI, boil gently 10 minutes and serve.

**MACARONI CROQUETTES**  
Break 1/2 package of CATELLI'S MACARONI into half-inch pieces and prepare by boiling. Melt 2 tablespoons butter in a saucepan, stir in three tablespoons flour, add 1/4 teaspoonful salt, 1/4 teaspoonful paprika, breadcrumbs, one cup milk, cream, or tomato puree and stir until the sauce boils, add macaroni and three tablespoonful cheese, grate 1/2 teaspoonful chopped parsley, then mix and turn out on a buttered plate to cool. When cold take up in tablespoonfuls and form into cylinder shapes. Dip in one beaten egg, roll in grated cheese and then in breadcrumbs, and fry one minute in smoking hot fat. Serve with or without tomato sauce.

**VERMICELLI PUDDING**  
Put 1/2 package CATELLI'S VERMICELLI into a pint of boiling milk, add a pinch of salt, boil 10 minutes; cool off and add 1 or 2 eggs well beaten, a little lemon peel and sugar. Put into a pudding basin slightly buttered, cover the top with a piece of buttered paper and steam for 1/2 an hour.

## First Game of School Rugby

St. John High School Meets Rothesay on October 10—Game Set Ahead from Wednesday.

The local High School team is expected to play its first Rugby game of the season against Rothesay Collegiate School at Rothesay on the afternoon of Friday, Oct. 10. When the schedule for the Inter-scholastic League was drawn up this game was set for Oct. 8, but the alternate date was made. The school authorities here were not in favor of the Wednesday game, so it was decided to have it on the following Friday.

The High School squad is hard at work every afternoon on the Shamrock Grounds. The material available for the team this year is lighter than usual, and there are few members of former teams present. The boys are showing great enthusiasm and will do their best to place a good team in the field.

### ARM CREW'S MEDALS.

W. R. Scriven, of the N. W. A. Rowing Club, went to Shediac last week to witness the regatta, and while there was handed by J. Fred Belyea, of St. John, the second place medals won by the N. W. A. Rowing Club crew in the Peace Day regatta at St. John in August. The medals are handsome gold ones with the figure of a carman on each.

### MCDONALD WON.

Halifax, N. S., Oct. 1.—The boxing bout in this city tonight was won by Roddy McDonald, of Glace Bay, who defeated Gunner Arnold, Canadian overseas heavyweight champion. The bout was to go fifteen rounds, but McDonald knocked his opponent out in the ninth round.

### GRAND CIRCUIT.

Lexington, Ky., Oct. 1.—The feature of the programme here today was the Cumberland for pacers of 208 class, which was won by Dileo C. Burnett. James W. McKinney won the free-for-all, the fastest heat being in 2:24.14.

## Lived On Biscuits For Three Months

Couldn't Even Drink a Cup of Tea—Gains Thirty Pounds After Tanlac Ends Trouble.

The public of today is accustomed to strange and unusual occurrences, and the newspapers are filled with sensation after sensation from day to day; but in spite of this the story of Mrs. Wellington Campbell, regarding her remarkable recovery by the use of Tanlac, would hardly be believed were it not for the high character of Mr. and Mrs. Campbell and the further fact that each and every circumstance can be established beyond a reasonable doubt.

Mr. Campbell is a retired farmer and rancher. They came from Kingston, Ontario, to Calgary just after the great war started and located at 901 19th Avenue, West, where they now reside. Mr. and Mrs. Campbell have five sons, two of whom made the "sacrifice." Another, who was badly wounded, is now working in the office of the Canadian Pacific Railroad in Calgary.

"I am a well, happy woman now," said Mrs. Campbell, after completing her remarkable statement, "and my husband remarked just the other day that I would not be with him now if it had not been for Tanlac."

Following is a recital of the facts just as Mrs. Campbell related them: "For the benefit of others I want to tell how my health has been so wonderfully restored by Tanlac. My age—for I am now almost seventy—makes it seem all the more wonderful and I hope my statement will be the cause of others finding health and happiness. I had suffered for thirty years or more from stomach and nerve disorders and about a year ago my health became so bad that I gave up all hope of ever getting well. My stomach was in such a bad condition that I could not eat a bite of food for weeks at a time and my nerves were shattered completely. It is impossible to describe the suffering I went through and only those afflicted the same way can have much idea. I tried every known treatment at great expense, but the results were always discouraging. For three months I lived entirely on specially prepared biscuits and could not even drink a cup of tea.

At this time I was very weak and delicate and my husband never expected to see me pull through, and a friend visiting us at the time went away believing she would never see me alive again. My husband finally brought me a bottle of Tanlac, having read of the splendid results others had gotten from it, and the next time he bought five bottles, for I found it was correcting my troubles and soothing my stomach. In a short time it had created an appetite for me and I began to improve rapidly. Well, the results I have obtained from nine bottles is nothing less than astonishing. There has been thirty pounds added to my weight and my health is better than at any time since my troubles began. A walk down town, which is eighteen blocks, is just good exercise for me and when my friend returned to visit me again a few days ago she could hardly believe her own eyes. I feel that I would be ungrateful not to tell others about Tanlac for I consider it the greatest of all medicines."

Tanlac is sold in St. John by Eges Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative.—Advt.

## FISH CATCH SHOWS LARGE INCREASE

Ottawa, Ont., Sept. 26.—An increase of \$225,882 in the total value of seafish at the point of landing during the month of August, as compared with the same month last year, is shown by the monthly statement issued from the Naval Department. Fish to the value of \$4,485,722 were taken on both coasts last month. On the Atlantic coast the aggregate catch of cod, haddock, hais and pollock amounted to 273,078 cwt., which is almost 20,000 cwt. greater than the August catch of 1918. Owing to platted markets and low prices, the

## IS COURTESY PASSING AWAY?

Is this old-fashioned virtue disappearing altogether from our daily lives? In the hurry and toll of strenuous careers do we, many of us, realize that we are frequently committing what would be called breaches of etiquette and what are really rude acts?

Is there a reason for this, or are the reasons given merely excuses? I have been wondering lately if it is true, that we, as a people, are justified in dropping the gentle ways and the thoughtful manners of our forefathers and what we gain by the more modern customs.

For example, it used to be the polite thing to hold a door open, at least for a lady to pass through. Those who were truly kindhearted and thoughtful held it so that the next comer did not receive the slam of the spring door, but what do we find today? Hold the door open yourself, and frequently you find you are left to still hold it after the next person has gone through without so much as a "thank you."

Someone told me lately that having been brought up by careful parents she was in the habit of holding the door open for the next person to pass through, and one day finding that she had held it open for a man, who calmly allowed her to do so she involuntarily said, "Thank you." She explained this by saying that she supposed her subconscious mind knew that gratitude was due from somewhere, so she supplied it herself much to the amusement of the man in the shop who witnessed the whole affair.

Then, too, what about men's manners towards those whom they meet in the world of work? One sees readily that with women's entrance into the sphere of business a lady for a man to rise whenever a "lady" comes into the room has gone by, but aren't there many little niceties of manner which do not take a fraction of a second, and which add so much to the pleasantness of all concerned? It does not waste many minutes for gentlemen to remove their hats when ladies come into an elevator and the "Please and Thank You" which proceed or follow a request made, but much easier to do what is wanted.

A peculiar little aftermath of the war is that men who as soldiers did not remove their hats to ladies are now keeping on their hats even when they are wearing the headgear of civilians. The touch of the hat has replaced the old-fashioned gallant lift of the hat, and it is even noticeable when standing talking in doors that the hat remains on the head instead of being instantly removed.

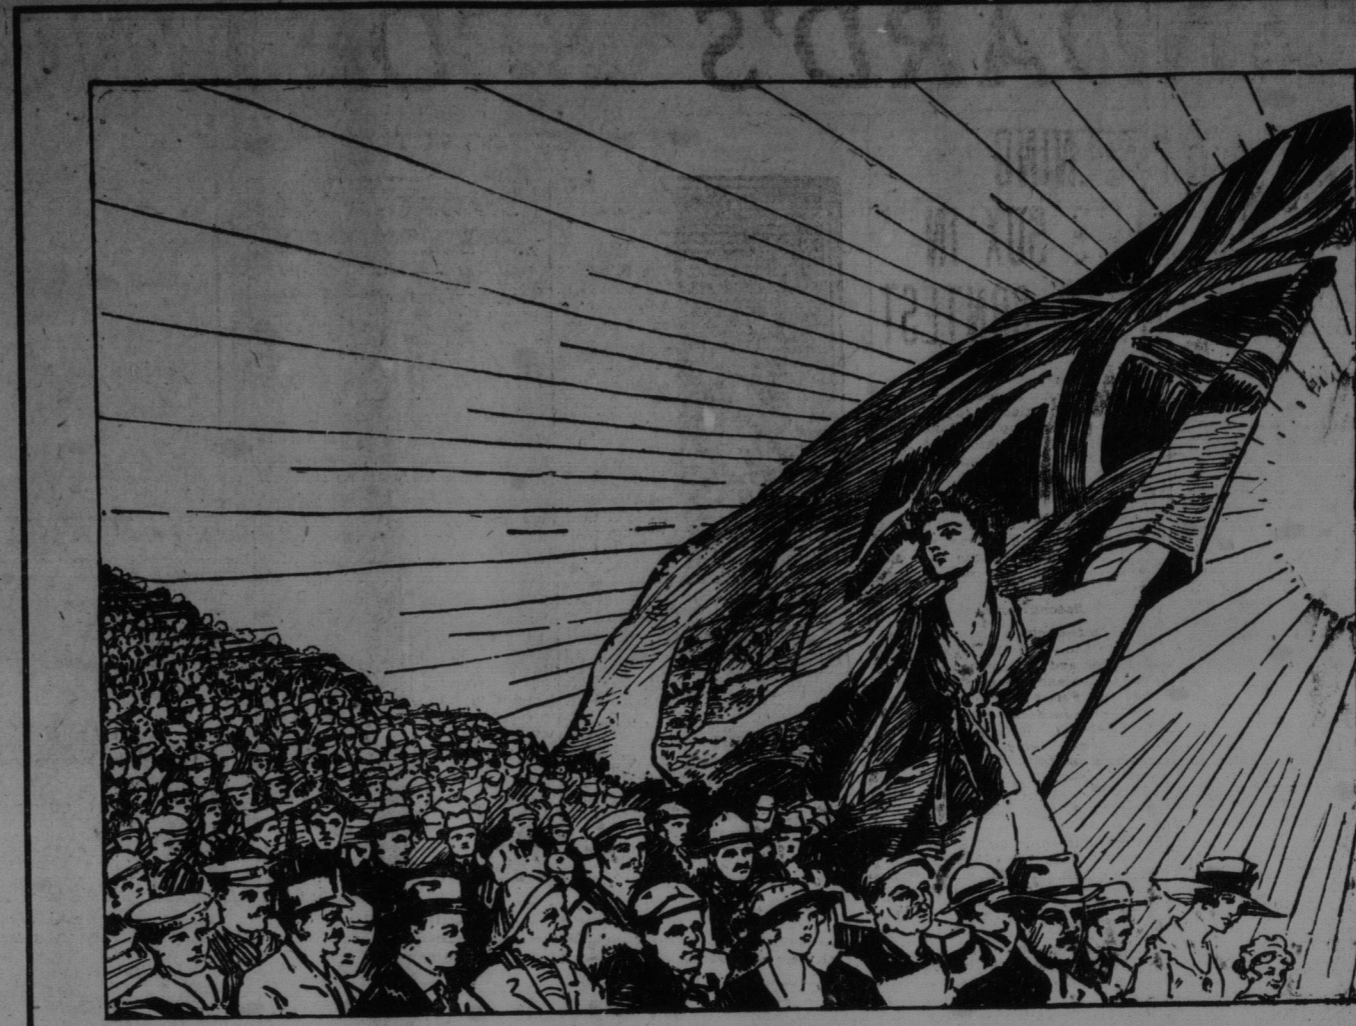

Nor in the lack of these attentions to social usages entirely confined to men. Girls, who have been better taught constantly forget the "goodness and reverence due to old age and hurry in front of gray haired ladies getting on street cars, or push in front of them at shop counters."

Is there any remedy for this? We used to make fun of the "Somebody's Mother" poem, but the central fact of it remains as true today as when it was first written. Courtesy to elders is always a true sign of a refined and true-hearted nature whether it is the workman who gives his seat in the car with a "Sit there Mother," or the little child who offers to carry for an elderly person a heavy suit case.

Let us try to recapture something of the spirit which prompted this consideration for others, even if we lose one of the moments we deem so precious. It may be that the gain to our own self-respect is of far greater value and that the time spent in being polite is not lost but rather will prove to be the minutes which really counted.

What do you think about it?  
MARGUERITE.

herring fishery was not prosecuted to the same extent as in other years, and consequently the catch for August was about 60 per cent. less. The sardine fishery resulted in a catch of 121,470 barrels as against 67,815 barrels, but the price in August this year was \$1.00 per barrel while last year it was \$0.80. A substantial increase is shown in the total lobster pack this season, as compared with last.

# Forward, CANADA!

THROUGH sacrifice, Canada has gained the respect and admiration of all people.

The years of War that deprived Canada of so many of her bravest sons, have given her greater self-reliance and wider vision. The world has come to expect great things of Canada.

Our army has set us the highest example — to persevere and to succeed.

Canada has the fundamentals of success — strong, virile men, resolute and devoted women, and unbounded resources. In the readjustment of Canada's affairs, as in the affairs of the world, money plays a leading part.

The transition from War to Peace is long, tedious, costly; it takes money, time and effort to beat swords into plowshares. Men cannot drop their arms and return immediately to their former occupations.

War has left Canada a heritage of obligations. War has left Canada—and the world—face to face with problems that are new and gigantic.

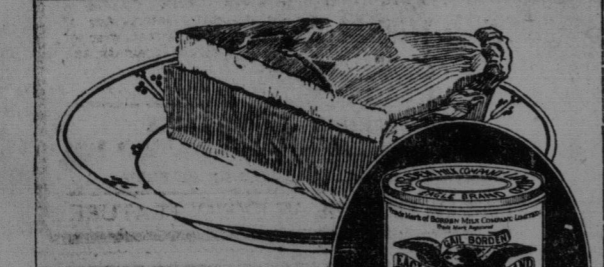

Money is required to discharge these obligations and to solve these problems.

Canada therefore is about to ask her citizens once more to lend their money to enable her to fulfil her obligations to her soldiers and to maintain the country in prosperity

Canada can, if Canada will, march straight on to her glorious destiny.

### SERIOUS RIOTS FOLLOW ATTEMPT TO LYNCH NEGRO

Omaha, Neb., Sept. 28.—This city tonight experienced the most serious

riots in its history, resulting from the attempt of a mob to lynch a negro, William Brown, charged with an assault a few days ago on a white girl, Agnes Lobeck. Early tonight one man had been killed and two others wounded.

The rioting began in the vicinity of the Douglas county court house. By eight o'clock in the evening the situ-

ation had got quite beyond the local police force and a request was made to the war department to send troops from Fort Creek and Fort Omaha to the city.

At a late hour tonight it was discovered that an attempt had been made to lynch Mayor Ed P. Smith, when he appeared to appeal to the mob. Although reports are conflicting it is

known that a rope was thrown around his neck. A policeman cut it off before the mob could accomplish its purpose. The Mayor was carried out unconscious by a squad of police officers and friends and he was hurried to the office of a surgeon near by. He was removed to a hospital. At midnight he was still unconscious.

### PILES

Do not suffer another day with itching, bleeding or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure you see a box at dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 25 cents in post-paid.
