meeting with greater resistance than was expected, and, although it is probable that the Serbians eventually must fall back on stronger strategic positions in the north, the fact that the Allies are bringing heavy forces against the Bulgarians, and so placing them that the Bulgarians will be compelled to divide their armies, gives hope here that the Germans may be balked in their latest attempt to reach the sea and bring assistance to the Turks.

All along the line the Serbians and their Montenegrin neighbors, who are also being attacked, are offering very stubborn resistance to both Austro-Germans and Bulgarians and while they have given up a number of towns and positions they have not yet reached the line on which they expect to make their stand.

THE CALL FOR MEN.

Lord Kitchener has made it clear to effort to keep recruiting up to the standard required, has not met with the success he hoped for. The situation is a serious one, and it is plain to all that those who are able to fight must be

The futility of the Zeppelin raids on London is again clearly shown by the official report on the damage done during the attack last week. Sir Herbert Ames, chairman of the Patriotic Fund Association and the ofstrenuous campaign to raise \$7,500,000, which is the estimated amount required for the second yeear of the war.

For the first year of the association's efforts ended September 1, the total subscriptions to the fund aggregateed \$5,350,000. By next Christmas it is expected that between 25,000 and 30,000

That would mean about \$2 per capita contributions from the people of Alberta, if they were to support all the families in need in that province as a direct consequence of the war.

That is one answer to the argument which has been advanced, that each province should look after its own neprovince should look after its own necessities. The funds raised by the whole dominion, Sir Herbert Ames, and the association believe, should be distributed without regard to provincial contributions, since the provinces which have sent pro-rate the largest number of men, should not be asked also to shoulder the extra hunder of raising funds for the the extra burden of raising funds for the

The per capita needs indicate approximately the relative provincial contributions to the total enlistment.

An effort is being made by the assoclation to organize a campaign for contributions in every municipality in the dominion. The renewed efforts of the past
month have been meeting with a splendid response. During September, county
councils, especially in Ontario, subscribed an aggregate of some \$200,000.

The association is arranging for a wide publicity campaign including monthly bulletins, pamphlets and systematic appeals for recognition in practically every periodical published in Canada. A special effort will be made to reach the farmers of the dominion, who perhaps can afford, best of any class, to contribute to Canada's war needs.

Lieut, C. E. Fairweather Subaltern in Command, Successfully Clearing Position-Sergt. Wyer and Pte. F. L. Daley Win Mention for Gallant Conduct-J. Kerr Loggie Wounded

Ottawa, Oct. 17—The following official communication was issued ght by the minister of militia, as received by him from Canadian dquarters in France:

On October 6, Major A. V. Roy, 22nd Battalion, Montreal, was standing in a trench issuing orders to Company Sergeant-Major Marion and others. The enemy trench mortar shells were falling in the vicinity. Brigadier-General Watson, Quebec, had just passed along the trench when a mortar shell fell into the trench, a few feet from Major Roy and his men.

The shell did not burst on impact and rushing towards it, Major Roy bent down with the object of seizing it and throiwng it over the parapet in order to save the lives of those near him. Before he could grasp it, the projectile exploded, inflicting wounds from which Major Roy shortly afterwards died. His gallant self-sacrifice has been specially reported by his brigade and divisional commanders.

FOUR MINES EXPLODED IN LINES.

During the period from October 6 to 14 there has been no material change on the front of the Canadians. On the afternoon of October 8, the enemy exploded four mines at points on the front of one of our divisions, simultaneously opening a heavy bombardment on the area affected. The enemy advanced into the craters, but was driven out of them by our bombers.

At one point two German officers led a party through a crater. One was blown to bits by our bombers and the other rolled back into the crater. This party then withdrew. At another point a party of the enemy reached our parapet and attempted to effect a permanent lodgement, but was driven off with fixed bayonets. Our companies manned their parapets and maintained a controlled fire wherever the enemy showed himself. The slight damage caused by the enemy to our parapets was speedily repaired.

The 22nd Battalion, under Colonel Gaudet, of Montreal, and the 28th, under Colonel Embury, Regina, displayed great coolness in dealing with this surprise attack, which consequently failed completely. Our patrols had been very active, frequently cutting the enemy's wires and bringing in samples.

On the afternoon of October 8, Lieutenant J. G. Anderson, accompanied by Private A. H. Wythe, both of the 5th Battalion, encountered five of the enemy in a German sap. One of the enemy was killed and three were wounded. On the morning of October 9, reinforced with three bombers, they re-visited the sap driving off a German working party and bringing in two rifles and other articles of yalue for identification purposes.

On the morning of October 10 we exploded a mine in front of our first brigade. The enemy was heard working in his mine gallery a few feet away, just prior to the explosion. It is believed his losses were considerable. On the afternoon of October 13 a demonstration were considerable, our front. The first of our artillery was effect.

Lientenants C. Fairweather, 26th Battalion, and McPhee, Canadian Engineers, left our trench to examine a crater close to the German parapet, where the enemy was thought to be carrying on some work.

An enemy bombardment was in progress, and heavy rifle and machine gun fire was opened on the party. Major Brown was wounded in the advance, but continued to direct operations. The crater was entered by a few men under Lieutenants Fairweather and McPhee and rendered untenable to the enemy. The grater was then evacuated able to the enemy. The crater was then eve

New York, Oct. 16—A'cable to the New York Times from Lon-don, dated Saturday, says:— "The Birmingham Post has re-

Nova Scotians Through Fire and Death

Nova Scotians Through Fire and Death.

An Ottawa despatch says:

"The 25th Nova Scotia Battalion of the Second Canadian Division has had its baptism of fire and has shown its mettle. In the fierce fighting of last week four German mines were exploded on the line held by the Nova Scotians. Thirty men were killed or wounded and for the moment the troops, for the first time under fire, fell back to escape the hail of death. They then railied and with fixed bayonets went at the pncoming Germans. They drove them back and with a rush re-captured every foot of the ground yielded in the first confusion of the mine explosions. They won back their trenches and held them, inflicting severe losses on the enemy and taking quick vengeance for the loss of their comrades.

Mrs. Margaret McElhiney, 200 Paradise Row, has three sons now with the Canadian forces and indeed all in the 26th Battalion. The eldest son, John A., went through the South African war for which he carries five medals, including Paardeburg. The other sons, James R. and Joseph S., are both married. Then three of Mrs. McElhiney's brothers have sons at the front, while a brother of Mrs. James R. McElhiney is in the 55th draft that joined the 26th. It is not therefor surprising to learn that a great-great grandfather of these boys fougth in the Battle of Waterloo and his wife followed the army with him. Mrs. McElhiney adds that if she had not two daughters at home, she would "be at the foot" with hear foot. the front" with her boys. She receives letters from her boys regularly.

"One is in Spain," he says, "where she is tempting the conservative cabinet with an offer of Gibraltar and Morocco, and the other is in Sweden, where the bait is Finland. Germany's condition is that the two countries shall enter in the European war at a moment convenient to herself, and that Spain shall give her that part of Morocc which she had marked out as German at the time of the Agadir affair.
