DISTRICT AND GENERAL

Wisconsin potato crop is estimated at 27,000,000 bushels, one-third below that of 1922.

R. B. Newland, a farmer near Pin-gal, threshed 230 bushels of yellow-eyed beans from ten acres.

In its fight against moonshining the U. S. Government seized more than 5,000 stills during the last fiscal year.

Hundreds of cars of grapes are arriving daily at New York from California to be made into homebrew wine.

The death occurred at the residence of her daughter, Mrs. Winters, Napier, a few days ago, of Mrs. Wm. Pierce, in her 78th year.

John Morrison, who conducted a boot and shoe repair shop in High-gate, died a few days ago from injuries received when he lost control of his car, causing it to run into a ditch near Highgate.

Brooke and Alvinston Fair Board had a whole page announcement in the local paper. Good advertising ensures such a large attendance at the fair that the admission fee was lowered to 25c and 15c.

A three-day street carnival was held at West Lorne last week to mark the opening of the new pavement on Main street. There was street dancing every evening and large crowds were in attendance.

Fire caused by a horse knocking over a lantern destroyed the farm buildings of Wm. Moorehouse, How-ard township, Sunday evening. The barn contained the season's crop, in-cluding fifteen loads of extra fine beans.

Railroad men loading coal into the tender of a locomotive at Brownville, Pa., were startled when the body of a man shot through the chute loading from a bin. Edwin Ford, a machinist, had been trapped in the bin and suffocated.

V. Riseborough, who, while fore-man of a gravel pit in Harwich town-ship, was seriously injured by being buried in gravel as a result of a cave-in of the pit side, has been awarded \$2,500 damages against the township and the county of Kent.

A former Strathroy girl, Miss Mar-garet Showler, chaperoned and as-sisted by her mother, is establishing a Normal students' residence in Lon-don, in which she purposes housing this winter at least twenty girl stu-dents of London Normal School.

Wm. A. Shaw, editor of the Tilbury Times, who mysteriously disappeared with his home town on August 7th, was located last week at St. Louis, Mo., and was brought to his home. He appears to have wandered away while suffering from loss of memory.

Oscar Bixel, of Brantford, head of the Bixel Brewing and Malting Com-pany, was accidentally killed while out hunting game when the shotgun which he was carrying was dis-charged as he was getting over a fence. Deceased was well known in Strathroy, where he resided for some years.

Duncan A. Thompson, one of North Dunwich's most progressive and pop-ular farmers, passed away on Mon-day of last week, in his 70th year. Mr. Thompson was a staunch Liberal and had been prominently identified with that party in the Dunwich dis-trict. He was also an active member of the Presbyterian church.

Coroner Woods, of Mt. Brydges, is holding an inquest over the body of Nellie Nicholas, a young Indian woman of the Muncey Reserve, who died in convulsions on Friday afternoon following a party at which homemade whisky is said to have been served. It is believed that the woman died as a result of alcoholic poisoning.

The death occurred suddenly at Woodstock last week of Harold O'l-lard Wright, veteran of the Great War and also of the South African war. Deceased was born at Wards-ville and was a son of the late Rev. J. T. Wright, who was at one time in-cumbent of the Wardsville Anglican church. He is survived by his widow, one son and two daughters.

IN CASE OF AN ACCIDENT

Section 18 of the Motor Vehicles' Act reads: "If an accident occurs to any person on foot or horseback, or in a vehicle, or to any horse or ve-hicle in charge of any person owing to the presence of a motor vehicle on a highway, the person in charge of such motor vehicle shall return to the scene of the accident and render all possible assistance and give in writing to any one sustaining loss or injury, his name and address, and also the name and address of the owner of such motor vehicle and the number of the permit."

Instead of writing the Bible down to the people, why not educate the people up to the Bible.—Rochester Herald.

BEST FAIR FOR MANY YEARS

Splendid Exhibits in All Classes, and Good Attendance

Not for many years has the Glen-coe fair scored such success as it did this year. The forty-eighth annual exhibition of the Mosa and Ekfrid Ag-ricultural Society, held on Wednesday and Thursday of last week, in point of extent and excellence of exhibits and attendance of people was most encouraging to the officers and board of directors. Ideal weather favored the exhibition.

The race track was in splendid con-dition and the speeding events were keenly contested, furnishing a good afternoon's entertainment for those who enjoy a good horse race.

There was a good show of horses, particularly in the heavy classes. Cattle and other live stock and poultry were in good condition and large-ly exhibited.

The display in the hall was particu-larly attractive, with a splendid show of roots and vegetables, grains, fruits, etc. The floral exhibits were good; dairy products, apary and do-mestic science classes were up to a good standard; the domestic man-ufactures, ladies' fancy work and the fine and decorative arts classes show-ed skill in preparation, with a notice-able improvement in arrangement.

In fact, to quote the words of a regular attendant from year to year, it was the best all-round exhibition ever held by the society.

The school fair, held in connection under the direction of the Ontario Department of Agriculture, was a feature of much favorable comment. In this the young folks made good comparison with their elders and showed themselves keen and alert in both skill and judgment. It would take columns to give a complete de-scription of the many good exhibits. Suffice it to say that the school chil-dren won for themselves the highest commendation. We are in hopes that the department will furnish us with a copy of the list of prize win-ners for publication.

Splendid music was furnished Thursday afternoon by the 26th Bat-talion Band of Strathroy, and patrons of the grand stand were treated to an exhibition of step dancing by pu-pils of Mrs. Galbraith and Mrs. Gil-more, of London.

Gate proceeds and membership fees amounted to about \$1,000. The usual evening concert attracted a full house and pleased its patrons.

The speeding events finished as follows:
 215 class—Galbraith Bros., Strath-roy, 1st; J. Dinning, Kerwood, 2nd; Joe Fraser, Blenheim, 3rd; C. Sifton, Walkers, 4th; Wm. Downie, Rodney, 5th. Time, 2:17.

250 class—Dr. Barrister, Glencoe, 1st; Joe Sneckinburger, West Lorne, 2nd; Philip Kearns, Wardsville, 3rd; McRae, Dutton, 4th. Time, 2:24 1/2.
 Three-year-old class—Peter Camp-bell, Lawrence Station, 1st; Roy Smith, Glencoe, 2nd; Hughes, Glen-coe, 3rd; Wm. Tomlinson, Glencoe, 4th. Time, 2:34 1/2.

THE PRIZE LIST

Heavy Horses—Draft
 Mare and foal—J. A. King & Son. Colt or filly one year old—J. A. King & Son, D. P. Campbell. Span—W. J. Welch.

Agricultural
 Mare and foal—J. A. King & Son. Foal of 1923—J. A. King & Son. Gelding or filly three years old—D. C. McTavish.

Colt or filly one year old—D. P. Campbell.
 Span—Thos. Kerr, W. P. Reid & Son, B. C. Heover.

General Purpose
 Mare and foal—Angus Graham, David Hardy, John McVicar.
 Foal of 1923—Russell Walker, John McVicar, Angus Graham.

Gelding or filly three years old—D. N. Munroe, J. W. Patton.
 Span—Archie Crawford, David Hardy, Alex. McLean.

Best general purpose team—Archie Crawford, David Hardy, Alex. McLean.
 Best brood mare (Clydesdale)—J. A. King & Son.

Best draft team—W. J. Welch.
 Best agricultural team—Thos. Kerr.
 Best year-old agricultural colt—D. P. Campbell.

Best draft animal on grounds—W. J. Welch.
Light Horses—Carriage
 Mare and foal—D. N. Munroe, Dun-can McIntyre & Son.
 Foal of 1923—D. N. Munroe, D. Mc-Intyre & Son, Dan McMillan.

Gelding or filly three years old—M. A. McAlpine.
 Colt or filly one year old—Johnston Bros.

Single gelding or mare in harness—Jas. McMillan, Arch. McNeil, T. J. Thornton.
 Span—M. A. McAlpine, Wm. McRae.

(Continued on page four)

APPIN CHURCH ANNIVERSARY

Very successful anniversary ser-vices were held in the Methodist church, Appin, on Sunday last when congregations gathered that filled the church to overflowing.

At the morning service Rev. Amos J. Thomas, of First Methodist church, Windsor, gave a wonderful sermon from a text taken from Hebrews 12: 1 and 2. He spoke very forcibly to the people of the realities of endea-vour and the reward of well doing and encouragement for all to do this. Mr. Thomas is a powerful and earnest speaker and carries his audience with him.

In the afternoon the pastor, Rev. M. C. Parr, preached a very fine ser-mon, taking for his subject "The Un-finished House," emphasizing to the people the necessity of communion with God to build a life and charac-ter.

In the evening, which seemed the crowning service of the day, the auditorium, gallery and aisles were packed long before time for service to begin, with the largest congrega-tion ever gathered at this church, to hear the message from Rev. Mr. Thomas again. He took as his sub-ject "What the bells on the horses said," from Zec. 14: 20 and 21. From second he pictured the ideal church, community and individual. Thoughts were brought out by him in this ser-mon that will never be forgotten by those who were privileged to hear him.

Special music was beautifully ren-dered by the Galt Maple Leaf Quar-tette at all the services and was cer-tainly a real treat. Too much cannot be said of the wonderful manner in which they expressed the gospel of song. The intermingling of their voices in perfect harmony and sim-plicity was indeed impressive and grand. Miss Helen Macfie was ac-companist for the day. The offer-ing amounted to over \$224.

FIELD DAY AT MELBOURNE

Melbourne, Oct. 1.—Melbourne high school won the pennant for scoring the greatest number of points at the combined field and track sports held for Mount Brydges, Lambeth, Dela-ware and Melbourne continuation schools, held at the local school grounds today. Melbourne had 62 points, Mount Brydges 55 1/2, Lambeth 42 1/2 and Delaware 35.

Kenneth Campbell, Melbourne, won the senior individual championship, scoring 24 points. The junior indi-vidual championship was awarded to W. Bond, Mount Brydges, with 18 points, while L. Griffith, Lambeth, was second in line with 13 points.

Gertrude Hooper, Delaware, won the girls' individual championship. The Delaware girls won the majority of the events, scoring 20 points, while Lambeth and Melbourne were tie for second with 15 points.
 One hundred athletes from the four schools participated in the meet, and in spite of the chilly weather a large crowd of spectators were present at the track. The final event was not completed until dark and the moor-ists turned their lights on the track so the jumpers might finish the events.

Following the sports the athletes were entertained to a luncheon served in the basement of the school. A musical entertainment was given and the winning team was presented with the pennant and the individual cham-pions received miniature trophies and silver medals.

DEATH OF MRS. MARY ASH

There passed away on Saturday, September 22, at her late residence in Ekfrid, Mary Ash, widow of the late Emanuel Ash, in her 75th year.

Deceased was a daughter of the late Robert and Mary Boyd, of Met-calfe. In 1872 she married Emanuel Ash, who at that time was teaching school in S. S. No. 6, Ekfrid, later in Adelaide and Brooke townships. In 1877 he took up farming on the farm on which they both died.

Deceased was in her usual health upon retiring on Friday evening, but during the night was stricken with a paralytic stroke, passing away about seven o'clock Saturday evening with-out having regained consciousness. She leaves to mourn her loss four sons and two daughters—John and Robert, of Viking, Alberta; William, of Lewiston, Maine; Arthur, at home; Mrs. R. J. Maddox, of Edmonton, and Mrs. C. C. Henry, of Metcalfe. There are also two sisters, Mrs. John Heth-erington and Mrs. Sam. Dinsmore, and one brother, J. B. Boyd, all of Metcalfe.

The funeral service was conducted by Rev. M. C. Parr at the family resi-dence on Wednesday, September 26, and was largely attended. The pall-bearers were Charles Olde, H. A. Ed-die, Peter McIntire, D. E. McAlpine, George Galbraith and Wm. Down, who were also pallbearers at the fu-neral of Mr. Ash four years ago.

GLENCOE WINS SWEEPSTAKES

Annual Field Day of District High Schools a Big Event

The first annual field and track meet of this W. O. S. S. district was held at Alvinston on Friday. Competitors were registered from Alvinston, Glencoe, Rodney, Wardsville and West Lorne schools. Early Fri-day morning found the pupils from the various schools busily hurrying around in preparation for the great day. Thunder showers in the early forenoon threatened to mar the festi-vities, but before long Old Sol shone out smilingly and did his part to make the day the real success it was.

The events started at 11 a. m., and spectators remarked that from then until 8 p. m., the close, not a dull mo-ment was experienced.

The records and form shown by those taking part demonstrated what real training can do for the boy or girl who is willing to undergo the ordeal, for such it is when you con-sider that there are times when every ounce of energy possessed is in use.

The senior boys' events were particu-larly interesting because it re-mained a question of doubt right un-till the last event as to who would win.

K. McEachern, of Alvinston, was the individual champion. He showed up well in the high jump, pole vault and the half-mile. In the dashes W. Trestant, of Glencoe, won, but was hard pressed by M. Elliott, of Wardsville. Edwards, of West Lorne, was successful in winning the twelve-pound shot put from M. Web-ster, who fell down through a little lack of training. G. Sims, of West Lorne, and D. Gaynor, of Rodney, made good showings in the high jump and pole vault. K. Webster, of Glen-coe, made a record of 39 ft. 2 1/2 ins. in the running hop, step and jump, thereby winning first place.

The junior boys' events were not so closely contested, as Leitch and Benner, of Alvinston, clearly had the edge on all corners. However, J. Al-an, of Glencoe, won the half-mile, setting a pace that made the others sit up and take notice. H. McKellar, L. Lucas, R. McDonald, G. McDonald, W. Moss and J. Coad are the other juniors who show great promise in the future.

The senior girls' events from the G. H. S. point of view were almost perfection itself, nor did they much surpass those of the junior. Our girls lived well up to their past reputation. One smiles to himself when he sees Florence rolling under the fence in the obstacle race, Alma winning her place in the skipping race or Olive putting the shot much further than her nearest competitor. Catharine Lawrence contributed to the aggregate, as did also M. and L. Campbell and L. Gould, the latter winning the baseball throwing by a good margin.

In the junior girls' events A. Swit-zer, D. McAlpine and L. McCallum stand out as winners, while the Hen-derson twins, in the three-legged race as well as other events, did great credit to themselves.

D. Saylor, of Wardsville, the junior girl champion, showed good form and promise, and we will watch for her next year as a hard proposition to meet.

The smoke of battle having cleared away, the points were counted and showed that the following schools and students had earned the trophies and prizes as indicated:

Senior boys—Alvinston; shield.
 Junior boys—Alvinston; cup.
 Senior girls—Glencoe; cup.
 Junior girls—Glencoe; cup.
 Sweepstakes—Glencoe; cup.
 Senior boy champion—K. McEach-ern, Alvinston; medal.
 Junior boy champion—H. Leitch, Alvinston; medal.
 Senior girl champion—F. McEach-ern, Glencoe; medal.
 Junior girl champion—B. Saylor, Wardsville; medal.

J. Weaver very capably filled the position of judge for Glencoe.

The next meet will be held at Glen-coe next fall and all are looking for-ward to it.

A detailed list of the sports and winners will be published next week.

WILL PLAY AT LONDON

Howard Gordon's high school or-chestra will provide a treat for radio fans on Friday evening, when a fine program by this clever group of young musicians will be broadcasted from the Free Press station at Lon-don prior to a recital to be given by them at the Allen theatre.

This orchestra won the provincial shield at the recent Ontario musical festival competition at Toronto, and received great praise from the emi-nent judges, Granville Bantcock and Plunkett Green, who in awarding them the standing of 96 per cent. de-scribed them as live wires.

The orchestra consists of twelve young musicians from various high schools in Western Ontario, two of whom are from Glencoe, Hazel McAlpine and Eleanor Sutherland.

When You Try "SALADA" TEA

you will realize the difference between "Salada" and "just tea."

The Gift Of The Gods

BY PEARL POLEY. (Copyright.)

CHAPTER XIX.

Autumn's breath was fast fanning away the torrid heat of summer, but so far it had not mellowed the gorgeous beauty of flowers and shrubs. Nature was running wild in a riot of colors. Hearts might break, tragedy stalk abroad gaunt and ruthless, but the seasons rolled by rhythmically and unafraid.

The Culvers had given up the idea of spending the winter in Peking. The first of October was the day set for their return to America, their final farewell to China, the land where they had met their greatest joy and their greatest sorrows.

Irma Culver wondered how God could let one-half the world smile so unfeelingly while the other half moaned and writhed in agony. As she sat with folded hands in her sun-drenched and fragrant garden, trying for her husband's sake to coax back strength to her rebellious body, she tried to piece her life together into some kind of a reasonable pattern, but it seemed as if the more she tried the more like an impossible puzzle it became.

Her religion told her God's ways were not man's ways, but surely, she reasoned, God did not take delight in dealing death darts to people's hopes. Perhaps Emerson's policy was wisest: expecting nothing, and being thankful for moderate good.

And then slowly but surely a revelation took place in Irma Culver's soul. Her simple, single faith in Providence enlarged. She saw the world as a great scaffold, where each could let his share in keeping up the whole. No single part was needlessly strengthened or cared for. The Architect kept His eye on the whole.

That was the self answer to Irma's fretful questions. "I agree with you," laughed Helen Claymore, rather mirthlessly. "It's something for our minds we need. I don't know about that," retorted Grace, tossing her racket and balls into the locker. "A woodcut, should be my vocation to-day. I'm in a mood to demolish everything in sight. Ye gods! To think that that girl's wedding is only two days away and David and she blissfully unconscious!"

"Don't be an idiot," snapped Helen. "Come up the house and I'll order a couple of ponies ready."

"Wouldn't dare. I'd either break the poor beast's neck or my own."

"My dear Grace, you must let Fate give you a few bluffs. You may as well grin and bear it, for he will anyway."

"But oh, Helen, isn't it fire and brimstone! No, don't be alarmed. That's the limit I allow myself, but it's not even the vapor of my stearn today. I'm in a peevish mood, my friend. You had better keep an eye and clutch on me, for I'm liable to commit any satanic evil—even the kidnapping of the mandarin's niece."

"By the way, what kind of a wedding is she going to have? One of those heathenish affairs, where they parade their household linens and wares all over the city?"

"Helen nodded. "It will take ten days to complete the ceremony. Visiting guests by the hundred, furniture parade, etc. I think the big procession will be eliminated on account of the mandarin's death."

"Caesar and Cleopatra! It sounds like the Indian tales of our great-grandmothers' time."

"It's just about as barbaric. Hey ho, here come Li. Sent him to the city this morning. He's evidently bristling with news of some sort, the way he's sprinting up the path."

"Well, Li, this city isn't burned down; no uprising of the white race or anything like that?" bantered Helen.

"No, madam—much greater, much greater!" panted the boy.

"St. Peter help us!" Helen put up her hands in mock despair. "Come now, Li, keep your imagination steady, boy. Out with the news. They say women sometimes die of curiosity, you know, and it would be reckless of you to kill two white women in their youth."

"Killed—that it. Much killed—Miss Weng Toy."

"Good heavens!" Grace sprang to her feet.

"Speak up, boy." Helen's voice was sharp with fright.

"Miss Weng Toy not be married ever now."

"Don't dribble; tell us everything at once."

"I tell—yes, I tell—give me time." "Who is dead? For mercy's sake tell us who is dead." Grace's voice was hysterical.

Li drew himself to his full height

and in an important voice announced, "The great Mr. Chu Sing he dead."

"Thank heaven!" Grace sank weakly back into her chair, while the shocked Li stood staring at her open-mouthed.

"Do go on and be quick."

His mistress' peremptory command brought the boy to his senses.

"Mr. Chu Sing killed—killed by Miss Weng Toy, and great sacred ruby of Colver stolen."

Helen stared at the narrator, speechless.

Well satisfied with the effect of his words, the boy turned to spread the joy-giving tidings among the servants.

"Here, come back," called his mistress.

Li reluctantly halted.

"Have two ponies saddled at once."

"Yes, madam," and forgetting his bow, Li fled toward the servants' quarters.

There was grim silence between the two girls as they set off for the Culvers.

When half way there Grace voiced a thought that was evidently being weighing on her mind.

"If what your boy says is correct about Tu Hee, we must do everything in our power to free her."

"I can't believe she did it, a refined, delicate girl like Tu Hee—no, it's too ugly, too utterly melodramatic to be in the girl's category. Li has evidently jumbled facts. The people are artists with their imaginations."

Grace wasn't convinced, however. "Still, you can't be too sure," she rejoined. "We don't know all that's been between them. She may have grown desperate, poor child."

"Well, we won't be in doubt long. The Culvers will certainly know everything that is to be known, as it's their property that's been stolen."

As they neared the Culvers' temple, knots of chattering, excited peasants dotted the paths. The two foreign women were the targets of many curious stares, as well as many extremely personal comments.

"What makes them so white?" was the audible query of one.

The answer came readily in a "know all" tone: "Foreign devils wash every day."

But neither Grace nor Helen found any diversion in remarks that another time would have amused them. They both felt they were in the shadow of grim tragedy.

"There's Mr. Reynolds," remarked Grace. "He looked as though he had just arrived from the city."

As they rode up, Reynolds turned from giving his horse into the hands of a servant. His grave face brightened perceptibly as he caught sight of the visitors.

(To be continued.)

Teeth of Malay Bride Fled Before Marriage.

The Malays pay for marriage before they celebrate it. To see a wedding cake or wear a wedding robe as yet unpaid for would be an irreparable disgrace, according to the Malayan code.

All the wedding expenses are paid for by the bridegroom and the sum which covers them is sent by him to the father-in-law-elect on the day previous to that on which the young man claims and receives his wife.

On the day before her marriage the girl's teeth are filed. Feasting and music intersperse elaborate ceremonies, and if the maiden moans her moans are drowned in a flood of music.

Three days before the ceremony she has her hair cut short upon her brow to a thin, straight fringe and the nails of both hands and feet are deeply stained with henna.

A Malay bride, except for her conventional marriage ornaments and her may flower chains, wears the ordinary dress of a lady of rank.

Awake 97 Hours.

The craze for ridiculous records evidently is not dead in Europe. After dancing, drumming, pipe blowing and whistling records come the insomnia record, established at Trieste, France. A prize of 1,000 lire was offered to the person who could remain awake the longest.

Although the favorite was a young girl of twenty, the prize was carried off by two men who succeeded in keeping their eyes open for more than ninety-seven hours, the girl having fallen fast asleep after seventy-nine hours.

The winning couple, one a hairdresser and the other a bartender, probably are accustomed to late hours. Meanwhile there is a man in a Florence hospital who is likely to beat all sleeping records. He is a business man who was found asleep on a park bench June 25 and is still asleep. The doctors, though they applied all the treatments known to them, have failed to arouse him.

Tea and eggs are in the same class. You insist on fresh eggs, and since tea deteriorates even more rapidly if exposed to the air, you should insist on one sealed like "SALADA" in air-tight aluminum to keep it fresh. Do not accept bulk teas of questionable age.

Eruptions by Time-Table.

Do periods of volcanic activity tend to fit in with definite time-cycles? The records show that at any particular place earthquakes have a maximum once every four years, and it is now contended that the same may hold good of eruptions.

There seems to be a certain amount of evidence supporting this theory. For instance, 1923, 1911, and 1879, which were years of Etina eruptions, would fit a four-year cycle. The eruption of 1833, when sixty-nine persons lost their lives as the result of an "explosion" of lava, also falls within the cycle.

Rapid Growth.

A new-born infant sometimes doubles its birth weight in seven days.

Woman's Interests

TWELVE WAYS OF EARNING MONEY.

Here are twelve ways by which women have earned money. All are practical and have been tried out successfully.

No. 1. One woman baked homemade bread and sold it among her immediate neighbors. She was through every morning at 8 o'clock and her small sons delivered the product and collected the pay. She could easily have done a larger business had she thought it wise to undertake it.

No. 2. A woman, wishing to pay for her electric washing machine and not caring to let others use it, did the washing, starching and drying of the laundry of three acquaintances for a fair price.

No. 3. A woman with a real knack for making fine lace and originating crochet and embroidery designs did this work for magazine reproduction. In some cases she made samples only and in others the entire article was completed and sketched or photographed.

No. 4. A woman with a great fondness for beautifully laundered draperies decided, when left alone, to specialize in "doing up" lace and muslin curtains. Later she added blankets and fine embroidered pieces. Sometimes these were new and had never been used, and frequently her work included the luncheon pieces of an elaborate social affair which the hostess gives her to put into proper condition for later use.

No. 5. A woman who found it necessary to add to her income did so by planning entertainments for home hostesses. She is willing to manage everything from games to place card favors, the setting of the table to selection of the menu, and even, if the refreshments are light, to superintend the serving. This leaves the hostess free and relieves her of much anxiety and care.

No. 6. A woman with a knack for canning and preserving goes out doing this by the hour. Even in the winter season she is quite busy with marmalades and other good things which she is able to concoct. Many a busy housewife and many another, with all she can handle and perhaps with poor health, are glad to have her services.

No. 7. A woman who understands several makes of cars earns a tidy sum teaching women to drive these makers of machines. She gets her customers through the garages selling the cars.

No. 8. A woman who, for various reasons cannot leave home and who is occupied during the day, has opened a beauty parlor in her own home. She restricts her services from 7 to 10 o'clock evenings a week and caters almost exclusively to business women and girls who are engaged during the day. The days when she works evenings she plans to have a light routine of work, so as to be as rested as possible for her evening activities.

No. 9. A woman of wide reading with a fondness for writing makes a very good income by preparing speeches and address on given topics and club papers. Sometimes she only furnishes the facts, or again she writes up the material, suiting the style as far as she can to the individual who will use it.

No. 10. A woman with a fondness for making fancy things and who sews nearly every day adds several hundred dollars a year to her income by making fancy boudoir caps, bags, etc., evenings. These she sells mainly to the customers she serves during the day. If she has a lay at home she makes up these articles and always finds sale for them.

No. 11. Another woman of about the same age as the one above mentioned, has earned enough money during the last year by tating to buy all her clothes, including a winter coat, for which she paid \$60, and the expense of a long anticipated trip five hours away on the train. Part of the money is earned by sewing the tating to the handkerchief or garment for her evening activities.

No. 12. A young girl who is anticipating going to college fills a regular position as a stenographer daytimes. However, she has her evenings and Saturday afternoons and, desiring to make them count, has several patrons to whose house she goes evenings. She takes her dictation and, having a second hand machine of her own, she transcribes the work as her spare time permits, and delivers it finished to her patrons, for a fair figure.

By doing this she has developed facility enough in taking different kinds of work that she is now equipped to go to college and to help pay her way by acting as part time secretary to either a business man, a literary individual, or in the college office itself. All of this means that she will be able to gain a higher education without doing many of the laborious kinds of work some students are obliged to resort to in order to get through. More than that, she will be able to take her own notes in shorthand and to transcribe them swiftly and accurately. In some colleges special credits are given for typewritten notes and theses.

FOR YELLOWED CLOTHES.

Linens that have become yellow, from the use of too much soap or from other causes, after being thoroughly washed should be soaked overnight in cold water to which cream of tartar has been added. A teaspoonful of cream of tartar to a quart of water makes a sufficiently strong solution.

BABY'S MOVABLE PEN.

With an hour of your time you can make baby a movable pen, which will enable you to take him out into the garden or elsewhere while you are working and you will have the satisfaction of knowing that he is safe and happy.

And Grandfather Smiled.

Grandfather smiled when his daughter told him that a committee from her club, the Bluebell Women's Club, would appear before the school board at its next meeting and present a petition asking that boys be taught to make useful articles for the home in their manual training courses.

Lonely Isle.

St. Kilda, Britain's most remote island, with a population of 80 souls, is cut off about eight months in the year by the stormy seas on its rocky shores.

Where Willie Gathered Dirt.

Teacher—"Why, Willie! Such dirty hands! Who brought you up?"

Willie—"De coal man, in his wagon, ma'am."

Minard's Liniment for Dandruff.

Grandfather smiled again. "When I was a boy," he said, "we didn't have to take school courses in chores; our mothers looked after that side of our education. We did all the small jobs round the house. I know I saved my father a good many carpenter's bills."

Well Punished.

The singular punishment for bigamy in Hungary is to compel the man to live with both of his wives in one house.

Fishing by Wireless.

Vessels attached to the Canadian Department of Marine and Fisheries are to be fitted with wireless apparatus for the purpose of reporting the movements of schools of fish. Telephone broadcasting apparatus will also be employed for the same purpose. By this means fishermen operating receiving sets will avoid fruitless or unprofitable trips.

A SMART BLOUSE SUIT FOR THE SKILLY BOY.

4467. Linen, drill, pongee and chambray as well as serge, chevrot and twill may be used for this model. The Pattern is cut in 4 Sizes: 3, 4, 5 and 6 years. A 4-year size requires 3 1/2 yards of 27-inch material.

Pattern mailed to any address on receipt of 16c silver or stamps, by the Wilson Publishing Co., 73 West Adelaide St., Toronto. Allow two weeks for receipt of pattern.

WRIGLEYS

Piano is Foundation of Musical Expression.

Parents who decide not to have their child take up the study of music at all, sometimes out of misguided consideration for the child and a desire not to overwork it, often unwittingly do the child a great injustice. Quite apart from the question of cultural development and the aesthetic value of music, no other art seems to give quite that degree of soul satisfaction.

Signs in the Sky.

Signs of fair or foul weather are noted very carefully by country people. Some of them are more inclined to believe in the old sayings about the weather than in any readings from barometers or the predictions of weather prophets. Here are a few old sayings:

Evening red and next morning grey are certain signs of a beautiful day. If the cock goes crowing to bed, it'll certainly rise with a water head.

When black snails cross your path, black clouds much moisture hath.

When rooks fly sporting high in air, it shows that windy storms are near.

When the peacock loudly bawls, soon will we have both rain and squalls.

If the moon shows like a silver shield, be not afraid to reap your field. But if she rises haired round, soon we'll tread on deluged ground.

A rainbow in the morning gives the shepherd warning; that is, if the wind be easterly, because it shows that the rain cloud is approaching the observer.

A rainbow at night is the shepherd's delight; that is, if the wind be westerly, as it shows that the rain clouds are passing away.

If at sun-rising or setting the clouds appear of a lurid red color, extending nearly up to the zenith, it is a sure sign of storms and gales of wind.

When you see gossamer flying, be sure the air is drying.

If the fog lies close to the surface of the ground until it is gradually dissipated by the sun, the day will be bright and fine.

The World Short on Love.

Elbert Hubbard said "The world has always been run on a short allowance of love." What a pity this is, when it is the one thing that we can all give in unlimited quantity, and the one thing that the world stands most in need of at all times. We are all inclined to overrate the power of money to help. What millions of people want most of all is the human touch; the sympathy, the loving kindness, the cheering, helpful word, the understanding smile, the warm handclasp that express brotherhood, that give courage and spur one to keep pressing on to his goal. The man or woman, no matter how poor, who has a kindly feeling for everyone, and does not fail to express it when needed, is a universal helper. Everyone loves him or her.

A Young Octogenarian.

Yet in my youth I was a little old man. But his are light, bright genes instead. And what a generous treasury For younger, envious eyes to see!

He wears his years like medals hung Upon a hero always young Or like the gay plumes of a knight, Whaving undaunted through the fight.

He shows what boon long life may be, Simple and sweet, with gayety, Busy with perennial zest, Loving and loyal, brave and blent.

For nature, whom he loves so well, Weaves of that love a magic spell. The strength of sea and sky and hill Enwraps him in its virtue still.

DUSSELDORF DEMONSTRATION TERMINATES IN A MASSACRE

Score of Persons Killed and Hundreds Wounded—French Authorities Hold German Green Military Police Responsible for Outbreak.

Dusseldorf, Sept. 30.—The great separatist demonstration here today terminated in a veritable massacre. A score of persons are known to have been killed and the wounded are believed to be numbered in the hundreds. Dusseldorf is still seething with excitement and more trouble is feared. The French occupation authorities hold the German Green Military Police—the security police—responsible for the outbreak, declaring that they started the shooting, in which the Communist groups later joined. The hospitals and police barracks are filled with wounded, and French military doctors are rendering all possible assistance.

The French authorities late this evening sent out patrols to round up all the Security police they could find in the streets and placed under arrest all those still held in reserve at headquarters. The city awoke early teeming with excitement; thousands were abroad in spite of an appeal addressed to the population to remain indoors. But street cars, automobiles and other vehicles were absent from the street and the hotels and stores had all lowered their iron and steel gratings. About 11 o'clock the first of the 25 trains bearing the manifestants to Dusseldorf arrived, and was received by a company of Rhineland public militia which had just sworn allegiance to the green, white and red flag. Soon after noon all the manifestants from points in the "Rhineland republic" had reached the city and a procession formed and marched behind innumerable green, white and red republican emblems to Hinterburg Strasse—a thoroughfare 200 feet wide by 1,000 feet long, adorned with statues of William I, Bismarck and Von Moltke.

The procession filed past in impressive marching order to the number of 15,000 republicans, but with curiosity seekers added, the assembly probably totalled 40,000 when the open air meeting place was reached. Standing directly under the statue of William I, the Separatist leader, Joseph Matthes began speaking: "The Separatists," he declared, "are animated by hatred toward none, but only desire peace, security and tranquility."

Suddenly, without warning, several shots were fired from behind a lowered steel curtain protecting the plate glass entrance to a store. In the panic that ensued a small group made a concerted rush for the speaker. The Security police fired a fusillade and the shooting became general.

The police were especially active in smashing their way through the crowds and in taking prisoners, many of whom were transferred to headquarters. French military forces were rushed to the scene and ordered the Green police to cease using their revolvers, but according to the French, the police refused and continued to fire. The cavalry seized many of the police and surrounded their barracks, quelling the disturbance in a few minutes.

REFUGEES LANDING IN VANCOUVER FROM JAPAN
Women who had been victims of the terrible Japanese earthquake arrived in Vancouver with scant supplies of clothing, and had to wear ship's blankets in place of coats and to travel hatless.

Canada from Coast to Coast

Sydney, N.S.—Another blast furnace is to be blown in at the British Empire Steel Corporation's plant here, within the next few weeks. At present three furnaces are operating, but not since the war has the Corporation operated four. It is apparent that business with the steel company is at the present very good, and a fairly large number of orders are on hand.

Fredericton, N.B.—Practically unlimited prospects of employment in the lumber woods of New Brunswick during the coming season were predicted by A. T. Murchie, chief scaler of the Dept. of Mines and Lands of New Brunswick, following his return from an inspection of conditions in the northern areas of the province.

Quebec, Que.—A conservative estimate of the amount of money spent in this city by tourists, made by the Quebec Automobile Club, reaches \$2,368,750. From the beginning of May until the first of September, 15,000 motor tourists had called for information at the offices of the Club. Taking an average of four people to each car, this meant that at least 60,000 people had come to the city by automobiles.

Ottawa, Ont.—Immigration during August was by far the heaviest in many years. Business interests generally look on with very great satisfaction, for in addition to increasing the productive forces in the country, it has probably meant the adding of 17,000 or 18,000 to the number of consumers. A good feature of this new

side of immigration is that it is not congregating in the cities but going direct to the land.

Portage La Prairie, Man.—A 250-barrel oatmeal mill is being erected here to replace a much smaller one which was destroyed by fire some time ago. Portage La Prairie oatmeal is a market overseas and in the United States and it is expected that with increased capacity and better facilities generally this export trade will be increased.

Regina, Sask.—Contracts received to date bring the present estimated acreage for which signed contracts are actually in the wheat pool office to 2,750,000.

Edmonton, Alta.—The Alberta Carbon Coal Co., with authorized capital of \$500,000, is added to the list of coal mining enterprises in Northern Alberta. J. R. Patterson and F. J. Mitchell of Edmonton and D. L. Seymour of New York are the incorporators.

Victoria, B.C.—There was a decided improvement in the industrial life of British Columbia during 1922, according to the annual report of the Deputy Minister of Industries. This applies to every branch of industry, and there was a marked renewal of interest shown in the immense raw wealth of the province. There are 432 different articles manufactured in the province, with 2,718 establishments operating.

Penticton, B.C.—The general condition of the apple crop in the Okanagan district, outside of the hail and scab injury, is above par and all varieties are sizing and coloring well except in isolated districts where poor thinning and cultural methods will result in a high percentage of low grade fruit. Fortunately these districts are few in number, and small in total output.

by rain and snow that fell intermittently throughout the day and the irresistible torrent that was surging through the normally dry creek bed, stood by, unable to do anything. Out of the eighty persons believed to have been on the train, about 40 have been accounted for.

Children Were Injured.
A despatch from Sudbury says:—What might have been a serious accident occurred at Naughton, when two small children of Alfred Noxam received painful injuries as the result of playing with dynamite caps. The father, who works on the road, often kept caps in his home, and the older children arranged a box with the caps to which they set a fuse. The younger children were then dared to take the box out and set it off. In the explosion which followed a boy aged 7 lost the tips of three fingers on the right hand and a 6-year-old girl received injuries in the forehead.

Unknown Number of Victims Still in the Submerged Cars.
A despatch from Casper, Wyo., says:—An unknown number of victims of the wreck of the Burlington's Casper-Denver passenger train No. 30, wrecked Friday night near Lockett, Wyo., still were in the submerged cars of the wrecked train. A conservative estimate of the dead is believed to be forty, some persons maintaining that many others lost their lives, while railroad authorities say fewer were lost.

The train, composed of a locomotive, baggage car, mail and express cars, two day coaches and two Pullmans plunged through a bridge across Coal Creek shortly after leaving here (at 8:30 o'clock). The train was made up in Casper and was due to arrive in Denver at 10:05 o'clock in the morning. All the train except the rear Pullman dropped into the creek, which was over its banks because of recent rains. Rescue workers, rendered helpless

EVERY WORM HAS ITS TURNING
The price of foods in England is alleged to be higher than circumstances warrant and public opinion is beginning to make itself felt.

ESCAPED CONVICTS ROB BANK AFTER CLUBBING THE MANAGER

Four Armed Desperadoes Who Recently Broke Away From Kingston Penitentiary Stage Hold-up in Oakwood-St. Clair Branch of Bank of Nova Scotia, Securing About \$2,000—Make Getaway in Waiting Car.

A despatch from Toronto says:—Four men, believed to be Gordon Simpson, Thomas Bryans, Alfred Slade and Arthur Brown, convicts, who made a sensational escape from the Kingston Penitentiary three weeks ago, staged a hold-up about one o'clock on Thursday in the Oakwood-St. Clair branch of the Bank of Nova Scotia, and made good their escape with between \$1,600 and \$2,000.

The manager of the bank, Percy O. Oke, was temporarily knocked out by a blow on the head and the three other members of the staff were herded into the manager's office while the robbers took possession of the teller's cage.

Three of the robbers entered the bank and it is supposed that the fourth man, Brown, remained in charge of the Overland car in which the quartette made their escape. Inspector of Detectives George Guthrie stated that the bank staff had furnished the police department with descriptions of the men which tally with those of the escaped convicts from Kingston, three of whom are well-known to the local police. Within a few minutes after the police learned of the robbery, all available detectives and plainclothesmen were scouring the city in search of the fleeing robbers. Special officers were despatched to watch the railway stations and all avenues affording an

exit from the city.

Staged During Luncheon Hour.
The hold-up was staged during luncheon hour at the bank, when the vaults were locked, which accounts for the small amount secured by the robbers.

The three men were armed. So were members of the staff in the bank, but the letter were caught unawares by the robbers who had them covered with their guns before they had a chance to make a move towards the places where rested the revolvers, loaded and ready for use. Manager Oke was clubbed over the head with a blunt instrument of some kind which the police have reason to believe was the butt-end of a revolver. Mr. Oke recovered consciousness before the trio left the bank, but was carefully guarded by one of the men.

The entire staff was paraded into the manager's office and ordered to "keep their mouths closed" or they would be shot down. Powerless to act and without chance of getting outside assistance, as the telephone wires had been disconnected, the manager and his staff were obliged to watch the robbers hurriedly empty the cash drawers. Following the entry of the robbers to the bank one customer appeared on the scene to make a deposit, and he, likewise, was compelled to stand by and do as he was instructed.

Weekly Market Report

TORONTO.
Man. wheat—No. 1 Northern, \$1.11. No. 2 local white, 55 to 55 1/2 c. Flour, Man. spring wheat pat., 1sts, \$6.70; 2nds, \$6.20; strong bakers', \$6; winter pat., choice, \$5.75 to \$5.85. Lord Morley, the famous British statesman and man of letters, is dead, after a public life that extended over half a century. He was eighty-five years of age.

Liner Breaks Record on Eastward Run
A despatch from Southampton says:—The White Star Liner Majestic arrived at Cherbourg from New York at 9.11 p.m., Thursday night, having crossed the Atlantic in the record time of five days, five hours and 21 minutes, at an average speed of 24 knots per hour.

This is the fastest time ever done by a liner on the eastward run.

New Yorker is Held Guilty of Slaying Valleyfield Man
A despatch from Valleyfield, Que., says:—A coroner's jury found Walter Muir, of New York City, guilty of the slaying of Henri Laviolette, 50, of this town, who was fatally shot during an altercation over hunting dogs. Edward Carroll, of New York City, and Joseph Plante, of Valleyfield, were also arrested and charged with being accomplices to the murder.

Neither the Cedric Nor the Scythia Was Badly Damaged, However, and There Were No Casualties.
Queenstown, Sept. 30.—The White Star Line steamer Cedric, bound from New York to Liverpool, and the Cunard Line steamer Scythia, which sailed Sunday from Liverpool for Boston, collided during a dense fog early this morning off the southern coast of Ireland.

Neither vessel was badly damaged, according to reports, and it is believed there were no casualties. The Scythia is putting back to Liverpool for an examination, and the Cedric arrived Monday morning. The Cedric had called at Cork between 6 and 7 o'clock

and landed passengers. She proceeded, and was off Tuskar when she came into collision with the Scythia.

The Cunard Line issued the following statement regarding the collision: "During a dense fog Sunday morning the Scythia, outward bound, and the Cedric, inward bound, came into collision off South Ireland, causing slight damage to the Scythia."

"As a measure of precaution, the Scythia is returning to Liverpool with her passengers to enable a full examination to be made of the damage, which is all above the water line."

Natural Resources Bulletin

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:—

The American Institute of Mining Engineers has just completed a tour of the mining district of Northern Ontario. The editor of the Engineering and Mining Journal-Press, of New York, accompanied the visiting engineers. After seeing the gold, silver and nickel mining of that wonderful section of Ontario, he opens his leading editorial with the following paragraph:

"Anyone who may feel for the moment that mining is languishing ought to take a trip through northern Ontario. You can't feel pessimistic up there. Prosperity is everywhere; everybody that wants one has a good job. Enough good showings of gold and silver are being found here and there to keep prospectors on edge; they are busy. Shafts are being sunk and drifts are being run on dozens of likely looking properties; and good orebodies are being opened with sufficient frequency to make the 'game' worth while. Some of the reported strikes are exaggerated, of course, but on the other hand, the public does not hear much about some really important developments; the insiders frequently keep the information to themselves for obvious reasons."

ONLY FOUR DECREES IN RUHR REVOKED

France Wants Tangible Evidence That Germany Has Surrendered.

A despatch from Paris says:—France is still looking for tangible evidence that Germany has ceased passive resistance. It is pointed out only four of some one hundred ordinances have been so far revoked.

It is understood Premier Poincare will insist on formal withdrawal of every one of these decrees. In view of the chaotic situation of the rest of Germany he will refuse to listen to any German proposals until Germany proves her readiness to co-operate in working the Ruhr industries.

A well-informed diplomat was asked if France would consider the German reparations proposals of June 7. "Possibly," he said, "but they must be officially renewed."

M. Poincare is willing to discuss method of reparations collection with Britain and Belgium, but as a matter of form it is insisted the Reparations Commission is the proper body for discussion of details.

It is recognized here that a moratorium will have to be granted Germany, probably a fairly long one.

U.S. WHEAT GROWERS APPEAL TO COOLIDGE

Want Grain Corporation Revised and Freight Rates Reduced.

A despatch from Washington, D.C., says:—The United States wheat growing interests of the Central Northwest, suffering from low prices for the grain, laid their case directly before President Coolidge and other administration officials, with a request that Congress be called in special session to enact legislation to revive the United States grain corporation.

The President, together with Secretaries Wallace and Hoover and Managing Director Meyer of the War Finance Corporation, received the proposal as presented by a delegation of a dozen bankers and farmers from Minneapolis Federal Reserve District, but made no promises. Members of the delegation said, however, that Mr. Coolidge showed deep interest in their proposal with regard to the grain corporation and also in their request for reduction in freight rates on wheat and flour.

\$20,000 Gems Looted by Daylight Robbers
A despatch from Detroit says:—A daylight gem robbery, the second within 24 hours, occurred here, when two armed men entered the shop of the Detroit Gold Refiners, 402 Capitol Theatre Building, and having herded seven men who were in the store into a closet, escaped with loot valued at between \$18,000 and \$20,000. The two robbers were aided by a third, who acted as lookout at the door of the shop.

Last British Post Office in Constantinople Closed
A despatch from Constantinople says:—The British Post-office, the last of such establishments maintained by the Allies, closed last week and the Turks took over all forms.

Preparations for the formal evacuation by the Allies have been completed and the famous Turkish iron division is soon to enter the city. The exodus of Greeks, Armenians and Russians continues.

SIX FEET OF WATER IN OMAHA STREETS

Cloudburst Strikes Nebraska City—Traffic Demoralized.

Omaha, Neb., Sept. 30.—Nebraska and Iowa today appeared to be slowly recovering from the tornado, cloudbursts and floods, which brought death to 20 persons, injured scores and caused unknown property damage last Friday and Saturday.

A man was drowned at Lincoln last night when he drove his team of horses into a ditch. Two others were killed at Seneca late Friday when their home was razed by a tornado.

At Council Bluffs five persons were killed outright. Four of them were struck by a falling tree as they ran from their home, and another was struck by flying debris. The fifth victim died in a hospital.

Twelve were killed at Louisville, Neb., when the house in which they were congregated to mourn the death of Mrs. Mary McCarver, was washed from its foundation into Mill Creek, trapping all the victims. The bodies were recovered.

Another deluge of rain and hail struck Council Bluffs last night and lasted about an hour.

OPEN SAFETY PIN TAKEN FROM THROAT
Operation Performed in New York Saved Baby's Life.

A despatch from Philadelphia says:—A race of more than 800 miles and an operation by Dr. Chevalier Jackson, a professor of laryngology at Jefferson Medical College, in removing an open safety pin from the throat of a five-months-old baby saved the infant's life.

Little William W. Johnson, Jr., lay pale and wan on a bed in the hospital when Dr. Jackson entered the room. Five minutes later he was gasping, his happy mother, while Dr. Jackson was receiving the fervent congratulations of the father, who is principal of Stonewall Jackson Manual Training School, Concord, N.C.

Dr. Jackson used the bronchoscope, his own invention. No anesthetic was required and the operation was pronounced a complete success.

Three U.S. Vessels Leave Fort William With Grain
A despatch from Fort William, Ont., says:—Seven vessels took out 739,000 bushels of wheat, 84,000 oats, 45,000 barley and 50,000 of flax last week. Included among these were three United States boats, the Luzon, Cletus Schneider and the Lewiston, which all cleared for Buffalo with wheat. Seven boats are loading now, of which three are United States vessels, and ten more boats are reported on their way up the lakes light for grain. It is reported by grain men that there is plenty of tonnage coming to fill orders, and that even yet there is some trouble in picking up a cargo without moving from one house to another several times, owing to the variety of grades and the small quantity as yet in store.

When difficulties are in front of you, as a rule, there are inefficiencies behind.

To Investigate Water-Power Problem
Hon. Charles Stewart, Minister of the Interior, has been named the member of the Dominion cabinet responsible for the Dominion's interests in international waters. He accompanied a committee to Niagara to investigate the damage done to the lake levels by the Chicago water diversion.

Getting Back To Normal Stock

Ample Assortment to give excellent choice at
J. N. Currie & Co.'s Store

Our Clothing Department
offers Suits and Overcoats of the right type and values constructed in a right way to retain smart shapely appearance and at reasonable prices. Wonderful values at \$15.50 to \$37.50.

The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising.—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townspeople. It is a first-class advertising medium. Rates on application.

Job Printing.—The Jobbing Department has superior equipment for turning out promptly looks, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.

A. E. Sutherland, Publisher.

THE TOWN MANAGER PLAN

The Ontario Municipal Association has adopted a resolution asking for legislation enabling municipalities to adopt the town manager system of government as an alternative to the old council system heretofore generally in vogue.

The proposal would seem an eminently fair one, says the Sentinel-Review. The town manager system is long since past the experimental stage. It has been introduced in upwards of 300 towns and cities in the United States and Canada; and while it seems most popular among the smaller communities, it includes in its list a number of fair-sized cities, including Wichita and Grand Rapids. The system will go into effect in Cleveland next January, the first elections under the plan being held in November this year. Cleveland is so far, the largest community to adopt the city manager plan.

In Ontario the plan is already in force in Chatham and Niagara Falls, these places having in recent years, secured special acts from the Ontario Legislature. Granted that the system has proven itself desirable, there seems no logical reason why every municipality that wishes to adopt it should be compelled to go to the Legislature for a special act authorizing the change. It should be possible to frame a general enabling act sufficiently elastic to cover all reasonable contingencies. With such an act it would then be possible for any municipality, on a favorable vote of the ratepayers to adopt the new system. If, on the contrary, the ratepayers didn't want the system, it could not be forced upon them.

Rubber rugs are now being made. They look like rag rugs and are being used widely because they do not collect dirt and can be washed without moving from the floor, can be mopped often without danger of losing the bright colors and because they will not slide, even on slippery tile floors. The corners never curl up and dust does not sift through to the floor. They are being made in many colors.

Absence makes the picture post-cards accumulate.

Externally or internally, it is good. When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissue, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will relieve affections of the bronchial tubes and respiratory organs. Try it and be convinced.

BEST FAIR FOR MANY YEARS

RANDLE—GILLETT

An Alberta paper says:—A very pretty wedding took place in the spacious parlors of the Young Women's Christian Association, Calgary, Alberta, on Monday evening, September 3rd, when Mary Frances (Mae), eldest daughter of William Gillett, of Newbury, Ontario, became the bride of Emanuel Randle, second son of the late George and Mrs. Randle, of Calgary. The bride looked charming in a gown of ivory silk net, conventional

well and orange blossoms, and carried a beautiful shower bouquet of Madame Butterfly roses and lily of the valley. A dainty luncheon was served by the staff, the color scheme being mauve and pink. Mrs. Fred Horne, of St. Louis, sister of the groom, poured tea. Miss Ruth Rogers, of Calgary, cut the iced cake. The guests numbered about thirty-five. On September 4th Mrs. Randle, the groom's mother, served a dainty luncheon for the family at her home on 14th avenue, after which Mr. and Mrs. Randle motored to their ranch near High River.

Mrs. Randle has been engaged in the floral business in Calgary for the past four years and was a resident of the Young Women's Christian Association.

POLICE COURT

Convictions obtained against violators of the Motor Vehicles Act in Police Magistrate Morrison's court last week were:—
Alphonse Beuninger, Wallaceburg, travelling without lights, \$5 and costs; Louis B. Harris, London, excessive speed, \$20 and costs; F. F. Barber Machinery Co., passing intersection, \$5; Russell Wray, the same, \$5; Joseph A. Famulora, London, 50 miles per hour, \$25; Frank Famulora, London, same charge, \$25; Roland Smith, Bear Line, speeding, \$5; A. J. Barge, Windsor, speeding, \$10; Wm. A. Haslam, Windsor, excessive speed, \$5; W. H. Kearns, Toronto, speeding, \$10; H. T. Cross, Walkerville, \$5; T. Simmons, Walkerville, \$5.
There was an element of humor in the Famulora case. A summons had been issued against one Joseph A. Famulora, living in Windsor, charged with driving at 50 miles per hour, but the police authorities there had been unable to locate him and the summons was returned unserved.
On fair day the traffic officer observed a car travelling at terrific speed, started in pursuit of him, trailed him for some distance, took the time he was making and then placed him under arrest. He was brought to town and the car was impounded pending the disposition of the case. On being asked his name he gave it as Frank Famulora, of London. Then the following conversation took place:
"Do you know Joseph A. Famulora?"
"Why, yes, he is my cousin."
"Is that so. And where is Joe now?"
"He lives with me in the same house," giving the address.
Frank having expressed a desire to plead guilty, he was asked what he intended doing with regard to paying the penalty.
"I'll have to send to London and get one of the fellows to bring down the money," said he.
"Well," said the court, "you had better tell Joe himself to bring down the money. We have been looking for Joe and we would very much like to meet Joe."
Frank accordingly called up Joe and told him the court here had a summons for him and he had better come himself and bring some money with him. In the course of an hour or so Joe appeared on the scene, promptly pleaded guilty as charged, peeled \$57 off a good big roll, shook hands heartily with the magistrate, handed him three real cigars and the incident was closed.
One of the good results of saving is that it knocks the "it" out of slaving.

BIBLE THOUGHT FOR TODAY

WHO SHALL ENTER?—Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my father which is in heaven.—Matthew 7: 21.

Born

WEBSTER.—On Sunday, September 23 1923, to Mr. and Mrs. Earl Webster, Ekfrid, a daughter—Lila Mae.
YOUNG.—At Wilkesport, on Friday, September 21, 1923, to Mr. and Mrs. Wm. Young (nee Winnifred McVicar), a daughter—Norma Jean.

Card of Thanks

The family of the late Geo. Scates wish to thank their many friends for kindness and sympathy in the loss of a dear father.

Card of Thanks

The family of the late Mrs. E. Ash wish to express their thanks to the many kind friends and neighbors for kindness and sympathy extended to them during their recent bereavement; also to the Bethel Ladies' Aid for the floral offerings.

Card of Thanks

The family of the late William Randles, of Wardsville, wish to express their appreciation of the kindness and sympathy shown during their recent sad bereavement by the many friends.

TOWN AND VICINITY

Next, the tax collector.

Schools of Glencoe and vicinity had a half-holiday on Thursday to attend the Glencoe fair.

Wednesday and Thursday of last week were unseasonably warm, the thermometer registering 88 degrees in the shade.

Hugh Eddie, of Ekfrid, had a valuable three-year-old registered heifer killed by lightning during a recent thunder storm.

J. W. Mitchell has exchanged his residence on O'Mara street for Russell Newport's 23 acres and residence on McKellar's street.

Arch McIntyre, of Brooke, shot a bald-headed eagle that had been taking from tip to tip.

The newly sown fall wheat made rapid growth during the hot weather last week. Some farmers state that the Hessian fly also got a good start.

Samuel Ramey, of North Ekfrid, has rented his farm and is retiring from farming. He disposed of his stock and implements by auction on Tuesday.

Peter McArthur addressed the members of the Current Events Club, London, on "Methods of Modern Banking" at a banquet held in that city on Saturday evening.

Miss Annabelle McTae left on Monday for Victoria Hospital, London, where she will train as a nurse. On Saturday afternoon about thirty friends met at her home and showered her with many lovely handkerchiefs.

An exceptionally interesting meeting of the Ross Young Women's Auxiliary was held at the home of Mrs. Clannah on Tuesday evening. A feature of the evening was the presentation of a generous gift of money from Mrs. Clannah in memory of her husband, the late Robert Clannah.

Harvest services held in St. John's church last Sunday were well attended both morning and evening. Splendid addresses by Rev. C. H. P. Owen, of Brantford, former rector of this church, were listened to with great interest. Special music was rendered by the choir. The church was tastefully decorated with grain, fruits and flowers. A good offering was realized.

A largely attended meeting of the local tennis club was held in the town hall on Monday evening. H. I. Johnston, president, occupied the chair, and the following officers were elected for the ensuing year:—Honorary president, Jas. Wilson; president, Ed. Mayhew; secretary-treasurer, Betty Grant; conveners of committees—G. Dickson; games, H. I. Johnston; social, Mrs. Ed. Mayhew.

The home of Mr. and Mrs. D. L. Mitchell, 19477 Bryden avenue, Detroit, was the scene of a pretty social function on Thursday evening, September 27th, when Mrs. Mitchell acted as hostess at a dinner given to a number of friends in honor of Mr. Mitchell's birthday. The house was a profusion of gladiolas and dahlias. Misses Helen Thomas and Marjorie Watson served. The evening was spent in music.

KILMARTIN

Miss Beatrice McAlpine left last week to attend London Normal.

Miss C. Howe spent the week-end visiting friends in Alvinston.

Mrs. Howe, Thompson Howe and Miss Edna Howe, of Southwood, visited at Mrs. Alex. D. McAlpine's and attended Glencoe fair.

Russell McAlpine, of Sarnia, visited his mother, Mrs. R. E. McAlpine, on Sunday.

PERSONAL AND SOCIAL

—Miss Georgina McIntyre, of London, was a Glencoe visitor during the fair.

—Mrs. Gordon, of Port Huron, is spending a few days with friends in Glencoe.

—Mr. and Mrs. C. O. Smith are on a visit to her daughter, Mrs. Robert Greenwood, of Dilke, Sask.

—Miss Jessie Munroe has returned from a visit with her sister, Mrs. John Preece, of Melbourne.

—Mr. and Mrs. R. F. Howard, of Sarnia, are visiting Mr. and Mrs. J. Hayter and other Glencoe friends.

—Mr. and Mrs. Geo. Paddock and baby Charles, of Florence, spent fair day with Mrs. David Waterworth.

—Mr. and Mrs. W. J. Batchelor, of Walkerville, were guests of Mr. and Mrs. Fred Gough over the week-end.

—Mr. and Mrs. Dan McArthur, of Toronto, are on a visit to Mr. McArthur's parents, Mr. and Mrs. Peter McArthur.

—Mr. and Mrs. J. A. Johnston and family, of Midway, are on a visit to her parents, Mr. and Mrs. Wm. Innes, this week.

—Dr. J. A. Campbell, of Detroit, visited his cousins, Mr. and Mrs. Lee Clements, and other relatives here during the week.

—Rev. and Mrs. McKillop, of Hyde Park, and Mrs. (Rev.) Swales, of Toronto, were guests at the manse for a few days this week.

—Mr. and Mrs. J. Holman and daughter Merle, of Ayr, visited for a few days last week at the home of Mr. and Mrs. Hugh McTaggart.

—Mr. and Mrs. W. H. Gardiner accompanied by Miss Marion Copeland, motored from Windsor and spent the week-end with Mr. A. H. Copeland.

—Evan McCall, of Ottawa, was here last week on a visit to his parents, Mr. and Mrs. J. D. McCall. He also visited relatives in Windsor and Detroit.

—Miss Phemie Harris returned home last week, accompanied by her little niece, after spending the summer with her sister, Mrs. Colquhoun, of Kenora.

—Mr. and Mrs. Chas. J. Smith, of Detroit, Mich., are spending a few days with friends here before leaving for London where they will visit for a short time.

—Percy Little, of Lynden, Mich., and Miss Jennie Reycraft and Mrs. Gordon Reycraft, of Glencoe, motored to Toronto and Niagara Falls for the week-end.

—Fair day visitors with Mr. and Mrs. Gordon Waterworth were Mr. and Mrs. Inglis Ripley and son Hugh, of Wallacestown; Mr. and Mrs. Harry Ripley, of West Lorne, and Mr. and Mrs. Wm. Farr and daughter Mary, of Dutton.

SPECIAL NOTICES

Peaches arriving daily this week at W. A. Currie's.

Regular \$3.50 men's work shoes for \$2.45 at Mayhew's.

Wanted—sewing to do at home—Mrs. J. Young, Glencoe.

Try Jelly's for meats. Free delivery. Phone orders early.

Exide batteries for sale.—J. H. Welch, Appin; phone 48-20.

Gasoline engine for sale; 4 h. p. Apply to Mrs. A. H. Copeland.

Wanted to buy—130 five-in. or six-in. drain tile.—Transcript office.

D. & A. corsets, new models, at 95c, \$1.18 and \$1.45 at Mayhew's.

For sale—box stove; also 280 red pressed brick.—Mrs. J. H. Reycraft.

Remarkable values in ladies' new coats at \$18, \$25 and \$35 at Mayhew's.

Call at Scott's Shoe Store before buying elsewhere, and see the prices for cash.

For sale—some second-hand buggies and second-hand wagons.—Wm. Allan, Glencoe.

The ladies of St. John's church will hold their annual supper and bazaar Friday, October 26th.

For sale—set platform scales, capacity one ton; also good press for making cider.—Mrs. A. H. Copeland, Glencoe.

Sweater found on fair grounds. Owner may have same by proving property and paying for this ad.—Webster Bros.

15 h.p. portable I. S. & C. gasoline engine, in good running order, for sale or exchange on tractor.—R. E. Laughton, Glencoe.

Notice to auto owners.—Storage and service for all makes of batteries. Work guaranteed.—J. H. Welch, Appin; phone 48-20.

Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.

Wanted—a young man to learn the blacksmithing and horseshoeing, one used to horses and farm machinery. Apply to Don H. Love, "The Village Blacksmith," Glencoe.

Men's overcoats at \$14.98, \$19.75 and \$25 at Mayhew's.

Hurray! Let's go to Melbourne dance to initiate the new floor, Thursday evening, October 11, after Melbourne fair. Lion Tamers' orchestra will be in attendance with their usual good music. Everyone come and have a good time.

Save money by renewing your subscriptions to daily papers at The Transcript office.

Here and There

Russia has more illiterates, and at the same time, more bookshops than any other country in Europe.

The largest consignment of silk from the Orient for many months, consisting of 5,500 bales, valued at \$9,000,000, formed part of the cargo of the "Empress of Russia" recently.

A shipment of silk from China, consisting of ten carloads, valued at two million dollars, went forward from Vancouver to New York under special guard over the Canadian Pacific lines recently.

The first of a series of six new seaplanes being constructed for the Canadian Government has just been delivered. The new planes are to be based in forest pools for the prevention of destruction by fire.

Following the disastrous earthquake in Japan, the Canadian Pacific liners "Empress of Canada" and "Empress of Australia" were thrown open to the accommodation of thousands of refugees, while the officers and men of the vessels did splendid work in organizing and assisting rescue parties.

The rapid increase in the export butter trade of Saskatchewan during the past year or two, has been the outstanding feature of the Provincial dairy industry. Recently the Saskatchewan Co-operative Creameries made a shipment of 25,000 lbs. of butter to China.

For almost two decades the major portion of the world's supply of cobalt has been derived from the silver-cobalt-nickel arsenides of the Cobalt district, according to figures compiled by the Dominion Bureau of Statistics. The cobalt production of Canada in 1922 was 569,960 pounds, which at \$3.25 a pound, would be worth \$1,852,370.

Canada's trade within the Empire is increasing. For the twelve months ended July, Canada exported to other parts of the Empire goods amounting to \$453,437,829. This is in comparison with \$354,992,074, the figure for the corresponding twelve months previous. Imports from British Empire countries during the two twelve months' periods were: Ended July, 1923, \$195,511,190; ended July, 1922, \$154,185,581.

A wheat crop of 382,514,000 bushels is forecasted in a report issued by the Dominion Bureau of Statistics. The report is based upon the condition of crops at the end of July, and indicates that the Prairie Provinces will produce 357,296,000 bushels of wheat if weather conditions continue favorable. Manitoba, it is expected, will produce a total wheat yield of 44,468,000 bushels; Saskatchewan 211,051,000; and Alberta 101,776,000 bushels. Alberta is the only province to show an increased yield as compared with 1922.

A party of five journalists, representing the leading newspapers of Switzerland, who recently arrived at Quebec, are the guests in Canada of E. W. Beatty, President of the Canadian Pacific Railway. They will tour the Dominion in the interests of Swiss colonization. Stops will be made at different points where Swiss people are farming, and opportunity will be given to members of the party to converse with them and gain a total knowledge as to the desirability of Canada as a place for Swiss colonists.

In a letter on "Canada and Land Settlement," published by the Evening Post, Sir Geo. McLaren Brown, European manager of the Canadian Pacific Railway, says that the agricultural salvation of Western Canada lies in mixed farming, which calls for smaller and more numerous agricultural holdings than wheat growing does, and results in closer settlement and better communication. The larger and more densely settled the rural population, the more social amenities there are and greater advantages generally, he says.

TRANSCRIPT ADVERTISING RATES

"Special Notices" column—two cents per word first insertion; one cent per word each subsequent insertion; minimum charge, 25 cents.

Condensed advertisements on first page—two cents per word first insertion; one cent per word each subsequent insertion; minimum charge, 35 cents.

Cards of Thanks and In Memoriam notices and verses—50 cents up to 25 words; all over 25 words, one cent per word.

Auction Sale notices—first insertion, one cent per word when bills are ordered; two cents per word when bills are printed elsewhere; minimum charge, 50 cents; subsequent insertions at one-half above rates.

Display advertising, per inch—1 inch, 50c; 2 to 10 inches, 40c; 12 to 25 inches, 35c; 35 to 50 inches, 30c; 60 to 100 inches, 25c. Special contracts made for advertisers using over 100 inches in stated number of issues.

All notices of meetings and entertainments are advertising and will be charged for, but a reduction from regular rates will be made where the objective is not of a pecuniary nature.

CASTORIA

For Infants and Children In Use For Over 30 Years

EAGER TO COME TO CANADA

This photograph was taken at the European head office of the Canadian Pacific Railway in London, England, and shows a number of men who were induced by the special harvesters rate to make further enquiries with regard to the scheme and conditions to be expected here after the harvest. Nearly five thousand men, the finest to come within the Canadian immigrant class in years, were recruited by the Canadian Pacific, and lack of steamship accommodation necessitated the closing of the doors against almost as many more.

AUCTION SALES

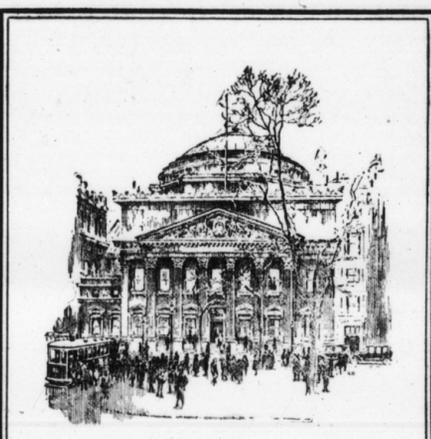

On lot 1, con. 9, Mossa, on Saturday, Oct. 6th, at 1 o'clock: Heavy team grey mares, 5 and 6 years old; general purpose Percheron mare, 5 years old; driving mare, 6 years old; Percheron heavy mare colt, 2 years; Grey heavy mare, 12 years; 3 milking cows; cow due in October; 2 two-year-old steers; 2 yearling heifers; 2 yearling steers; 2 spring calves; 4 pigs, about 100 lbs.; about 35 hens and 30 chickens; goose; 7 guineas; Ford car, in good condition; set double harness; set single harness; top buggy; oil barrel, 45 gals.; Victrola with records; wood heater; base-burner; cook stove; orchard of apples; other articles too numerous to mention. IMPROVEMENT IN AGRICULTURAL EXPORTS.

Canada's promotion as an important exporting nation has been rapid, and it is astounding that this young nation should, in her immature years, be leading the world in the per capita value of export trade. The product of Canadian manufactures has now found favor in forty-four foreign lands and the reputation of Canada's manufactured goods is still in the ascendant. The products of Canadian farm-lands have a yet more extensive list of customers.

It has been recognized among trade experts that this great demand for Canadian goods has, to some extent, developed in spite of certain handicaps Canada has placed in her own way, and may be taken as a tribute to the high efficiency of the Canadian product in itself whilst criticizing the method of marketing. Canadian exporters have not devoted sufficient attention to the peculiar needs of foreign markets or taken steps to meet, on an equal footing, the competition of other countries in these markets. Canada's trade commissioners abroad have unceasingly pointed out opportunities which were being passed over and travellers in foreign countries brought to notice demands for Canadian products which were not met.

Of late much greater attention has been paid to the overseas markets, especially since the coming into effect of the United States tariff, which barred certain Canadian products from the American market to which they had become accustomed, and there has developed a realization that certain trade defects must be remedied and Canadian goods overseas made to appeal in a more attractive manner to customers in order that Canada shall be in a position to adequately meet the competition of other countries and maintain that prestige she has achieved. The principal market in question is, of course, the United Kingdom, and the principal exports to that country of an agricultural nature. According to Dr. J. H. Grisdale, the Deputy Minister of Agriculture, recently made an investigation of trade conditions in Great Britain, and certain improvements and innovations will accrue in consequence.

NEED OF IMPROVED APPEARANCE.

He found that Canada was not making the same improvement in the appearance and quality of her agricultural exports as some other exporting countries such as Denmark, Holland, Australia, South Africa and Argentina. The consequence is that whilst the superiority of Canadian produce is frequently acknowledged by experts, competitive produce often looks better and therefore sells better than the Canadian. He sees a danger of Canada's losing her domination of the English market in butter and cheese, whilst he points out opportunities for an improvement in the already gratifying bacon situation. He has, therefore, suggested to the Minister certain steps calculated to result in Canada's maintenance of her high position in the British market, which suggestions

have been approved and will doubtless go into effect.

These steps are: (1) The appointment of a first class business man with a wide knowledge of agricultural products to act as Canada's representative in Great Britain in connection with her bacon, butter, cheese, beef and egg exports; to study conditions, and make recommendations to the Dominion Government and producers as to how improvements are to be brought about, and to help trade through judicious propaganda in the British Isles. (2) More active participation in the large agricultural shows in Great Britain. (3) Active participation in the British Empire Exhibition in 1924. (4) More thorough grading of dairy products. (5) Propaganda in Canada to impress the producer with the necessity of doing his part to attain the ends in view. (6) Some experiments in the way of comparative shipments of live steers, shipped alive, and as chilled beef, to the London market.

EXPORT FIGURES FOR FISCAL YEAR.

It is confidently hoped that these recommendations, carried out, will result in yet greater improvement of the British market for Canadian agricultural exports. Canada's market for this class of merchandise now lies almost wholly across the Atlantic. Just how important it is may be realized from the figures of the 1922 fiscal year, which were only partially affected by the Emergency Tariff. Out of a total value of exports of Canadian products in that year of \$740,204,680, exports of vegetable products amounted to \$317,814,106, and of animals and their products, \$185,798,720. Taking only those commodities particularly in question in this article, butter exports amounted to \$4,490,591 pounds worth \$25,440,322, of which 125,942,940 pounds worth \$24,097,726 went to the United Kingdom; bacon exports amounted to 992,080 cwt. worth \$23,012,480, of which 986,929 cwt. worth \$22,873,449 went to the United Kingdom.

Dr. Grisdale's findings are not to be received as serious stricture, but an attempt to have Canadian produce presented for competition in a form its unsurpassed qualities warrant. His criticism of bacon, cheese, and butter is based on the score of lack of uniformity in appearance and quality, and lack of trade names and attractive packing. These are faults natural in a young country's development of export trade and which merely want to be forcibly pointed out to ensure remedying. He found Canadian beef to be the superior in the British market and Canadian eggs enjoying a reputation second to none. Dr. Grisdale anticipated a keen demand for Canadian store cattle with the removal of the embargo, and is satisfied with the three days' quarantine regulation to be observed in Canada, which, he states, is more than taken up by the time occupied in transit from inland shipping points to the ocean ports.

THE CHILDREN'S HOUR

A FIERY TRIAL.

It is the demon of fire that causes the settler so many anxious hours in a new country. May I tell you a story of a forest fire in the northern part of British Columbia?

As you have perhaps learned, there is a great portion of Northern B.C. covered with birch and spruce. This is very true of our home section, some thirty miles east of Prince George on the Grand Trunk Pacific. These trees help to make the country a pleasant one to live in. They also add greatly to the toll of the one who would carve a home from among them. Alas, too, as you will read, timber can be a source of danger.

We chose as home a beautiful site on the G.T.P. called Ateza Lake. During the early months at that place Daddy was away from home most of the time. The Railway required his help. This left Mother to look after us and the homestead a good portion of the time.

This was one of the days of mid-summer. It was a real summer day too. Father was away at work. We were all at home doing justice to lunch. Little Mary had an eye open for more than the things to be eaten. All at once she reported that the air was full of smoke. Luckily it was that she, little mite of four, smelled fire, for the question of escape was already a serious one.

There was no time to be lost. Mother took the youngest one of us and hastened around the end of the lake. She could only care for one. He was a little liddle—just three years old. To look after Mary took a little ingenuity and a good deal of haste. Mother solved the problem by enlisting the help of our wafar spaniel. She pointed across the lake, and at

the same time urged the spaniel to "sit" some imaginary enemy. The dog seemed to understand the responsibility put on him. He went at once on a charge across the lake. He did it carefully so that Mary was able to grasp his collar. In this way she was towed and carried to the other side.

Finally we were all safe across the lake from the roaring furnace of flames. On the other side we could see our little home and possessions licked up by the fire. Home was already a mass of ruins. Cat and chickens suffered.

Our salvation had been a matter of narrow escape indeed. Mother lost many of her clothes while actually escaping with Mary.

The question of securing shelter and getting a new start were next to be settled. Pioneers have such problems to face often.

This bit of evil was the result of carelessness, as is so often the case. We children got our lesson once for all in care of fire.—W. Dougan, Newlands, B.C.

It was a hard job to tackle single-handed, and, consequently in fear of discovery, it seemed an endless one. But he followed Swift's instructions to the letter, and finally the pig was hung up against a post back of the barn, behind the house, safe from the prying eyes of any chance traveler along the country road. Immediately afterward he hitched up and drove down to the "Four Corners," there to leave word concerning the killing for the following Monday.

"Madam, you've some black on your nose!"
—Daily Express, London.

"The Whole Hog"

Sometimes Half a Hog is Better Than the Whole

BY JAMES BENEDICT.

"What's ailing you, Jared?" she asked.
"Nothing; I was just thinking."
Myra nervously wiped her thin hands on her blue gingham apron. It was powerful strange for Jared to be thinking.
"It ain't the calf, Jared?"
"Nope, 'tain't the calf," emphatically, as he watched his wife cut two large slices of ham. "That's it," he exploded. "Pork! That's what's troubling me."
Myra stared.
He explained.

"That pork I borrowed down to Cy Smith's place this afternoon. I be borrows' not only from him but from every butcherin', right along. Now, if I kill our hog they'll all be on hand to get their share. There won't be enough left to last us a week."
Throughout the meal, which was eaten in silence, he struggled with his problem. Then, as the dishes were being washed and dried, a happy thought struck him. Why not ask the advice of Aleck Swift?

Swift owned the farm immediately adjoining his own. Swift was shrewd, none doubted that, and a great, practical joker. From the time he went to school his pranks were the talk of the town. He dearly loved his joke for the joke's sake, and if he could play the joke and better himself by so doing, all the better; and any scheme that he engineered was pretty sure to succeed. Jared decided to consult him right away. He found Swift sitting cross-legged on the back porch of his bare, brown cottage; a lean, odd-looking fellow, clad in rusty-brown, dilapidated trousers tucked into knee leather boots much the worse for wear, shirt sleeves rolled up, an old red flannel undershirt showing down to his wrists, and a brown derby perched rakishly on one side of his head.

"How are ye, Jared?" drawled Swift, and he smiled in a friendly way as he edged over to make room on the top step. "Have a seat," he added.
Jared cautiously entrusted his weight to the broken step, his restless glance moodily examining the little orchard and potato patch in the rear and the low barn and outbuildings on the left.
"Anything I can do for ye, Jared?"
"I dunno, I dunno," and Jared's melancholy glance shifted away. His gnarled fingers busied themselves with an old corn-cob pipe.
"You ain't sick and going to have the doctor?"
"Nope; wouldn't have one anyway, not if I was sick."
"Myra ain't ailing?"
"Nope; Myra's all right; fact is, she's something else—something important—to worry about."
"That's so? What's the difficulty?"
"Aleck," said Jared solemnly, "I want your advice, I want your help."
"All right, what's the matter?"
"There's a hog in my pen, as you know, ready to kill." His words now came with a rush. "Everybody knows it. Well, I be'n around to all the butcherin's, I sin't missed one. Now, suppose I kill my hog in the regular way. Hi Green, the Sinkers, Mel Rider, and the rest will be on hand to get their share of pork. None won't forget to be on hand—'e broke off to pull fiercely at his pipe. "Aleck," he whined, "by the time each gets his share, what is left for me?"
"Nothing—much," admitted Swift with a grin.
"There won't be enough to last me a week—not a week. How'll I get around this mess? Ain't there nothing I can do—nothing?"
"Perhaps, wait until I think."

Swift frowned and scratched his head. He sat his corn-cob pipe, made smoke rings—a number of fine ones—thoughtfully watched them spread and disintegrate in the quiet evening air. A smile replaced his frown, he chuckled, and glanced sidewise at Jared—laughed outright.

"That's right, Jared, that's a good beginning. Remember what I told you, and stick to your story."
Jared shifted from one foot to the other. He gave his neighbor a hasty glance, but Swift's face was a mask.
"But somebody has stole my hog," he challenged.
"Fine!" complimented Swift. "Keep it up, Jared; don't weaken, stick to it."
"But can't you understand?—somebody has stole it," he roared.
"Splendid! Tell it with as straight a face as that and they will all believe you."
"Can't you understand? Can't you? It's gone—the whole hog, I tell you—gone!"
"Yes, I understand, and I promise you that, as far as I'm concerned, no one will tell the wiser."

I will tell you a sure and a cheap way to exterminate rats, gophers, moles, mice or any animal nuisance that uses a runway. Get concentrated lye, sprinkle in the runway. The rodents get hot feet, sit up and lick their feet, then good-bye, Mr. Nuisance. I have tried this on rats, mountain beaver, and mice, if you people are troubled with any animal vermin, this will rid them clean.—S. D.

"Aleck," said he a little breathlessly, "after the hog is killed and all, and safely packed away, drop over and see me. You will get your little hunk of pork. You can have any part of it you like."
"That," said Swift carelessly, "we can settle later. But do as I tell you; don't forget to stick to your story, no matter what people say."
"All right, Aleck," said Jared, standing up and stretching himself. "I'll kill the hog to-morrow night, but I'll ask the neighbors for next Monday." And he hurried straight home, deciding on the way not to reveal the secret to Myra. The fewer in the know the better.
Along toward seven o'clock the following night Jared started butchering his hog. Myra, taking supper at her sister Kate's house, was out of the way.
It was a hard job to tackle single-handed, and, consequently in fear of discovery, it seemed an endless one. But he followed Swift's instructions to the letter, and finally the pig was hung up against a post back of the barn, behind the house, safe from the prying eyes of any chance traveler along the country road. Immediately afterward he hitched up and drove down to the "Four Corners," there to leave word concerning the killing for the following Monday.
That night Jared fell asleep, wondering just how much, or rather how little, of the pig it would be necessary

to give Swift to keep him silent. He began to regret his hasty promise. A bribe was, of course, necessary, since by Swift, and Swift alone, could the secret of the missing hog be divulged.

And the neighbors must never learn the truth. He regretted having promised Swift two whole hams, one would have been sufficient; or—was it two hams? On second thought he decided it was one ham. He could spare one ham, that was certain. And one ham was payment enough for a little advice, a simple suggestion which, if Jared had not been so upset and hurried, but had taken the time to sit down quietly and put his own mind to, he could have thought out for himself.

He woke earlier than usual the next morning. As he rubbed the sleep out of his eyes the affair of the hog at once popped into his mind. He jumped out of bed, pulled on his clothes, and hurried down to the barnyard. There, for a moment, he stood stock-still and stared—at two empty hooks, which but the night before had been decorated with the carcass of a beautiful hog. He began to look around the yard. As his glance travelled, his irritation and perplexity grew. Brushing his hand across his eyes, he looked again, but no hog. Swiftly he crossed the barnyard; he explored the barn, cow shed, and chicken coop, even peered into the empty pig pen. No hog.

Ready to swear that his eyes had deceived him, he returned to the empty hooks. Was he, perhaps, the victim of hallucination? He had heard of such things. Stepping forward, he felt the hooks over carefully, inch by inch. He muttered something, something that seemed to fit the situation, threw up his hands, and walked out of the yard. No hog. The thing smacked of sorcery or witchcraft. Back to the house he hurried to question Myra, but he changed his mind before he got there. His wife, he knew, could not have carried off the hog.

Turning squarely in his tracks, Jared dashed away through the barnyard like a madman. He vaulted a picket-and-barbed-wire fence and, running around the rear of the house, rattled up the broken steps to pound out such a lusty summons upon a flimsy door that it seemed in danger of breaking beneath his heavy fist.
"Swift," he called, "Aleck, come out! It's important! Come out! Come out!"

After an interval, very trying to Jared, Swift appeared—in red undershirt, shapeless trousers, the color of the soil, and a pair of homemade carpet slippers. Shutting the door behind him, Swift took a step forward, an inquiring look on his face.

Jared struggled to speak, but the words would not come.
Swift continued to stare, and Jared, with a mighty effort, found his tongue.
"Aleck," he said, "somebody's stole my hog."
Swift laughed.
"That's right, Jared, that's a good beginning. Remember what I told you, and stick to your story."
Jared shifted from one foot to the other. He gave his neighbor a hasty glance, but Swift's face was a mask.
"But somebody has stole my hog," he challenged.
"Fine!" complimented Swift. "Keep it up, Jared; don't weaken, stick to it."
"But can't you understand?—somebody has stole it," he roared.
"Splendid! Tell it with as straight a face as that and they will all believe you."
"Can't you understand? Can't you? It's gone—the whole hog, I tell you—gone!"
"Yes, I understand, and I promise you that, as far as I'm concerned, no one will tell the wiser."

I will tell you a sure and a cheap way to exterminate rats, gophers, moles, mice or any animal nuisance that uses a runway. Get concentrated lye, sprinkle in the runway. The rodents get hot feet, sit up and lick their feet, then good-bye, Mr. Nuisance. I have tried this on rats, mountain beaver, and mice, if you people are troubled with any animal vermin, this will rid them clean.—S. D.

"Aleck," said he a little breathlessly, "after the hog is killed and all, and safely packed away, drop over and see me. You will get your little hunk of pork. You can have any part of it you like."
"That," said Swift carelessly, "we can settle later. But do as I tell you; don't forget to stick to your story, no matter what people say."
"All right, Aleck," said Jared, standing up and stretching himself. "I'll kill the hog to-morrow night, but I'll ask the neighbors for next Monday." And he hurried straight home, deciding on the way not to reveal the secret to Myra. The fewer in the know the better.
Along toward seven o'clock the following night Jared started butchering his hog. Myra, taking supper at her sister Kate's house, was out of the way.

Home Education

"The Child's First School is the Family"—Froebel.

Teaching By Example — By Bertha Hayward Higgins.

A few days ago when I was in the hairdresser's shop a young woman came in with a very attractive little girl whom everyone admired.

The mother, with apparently no thought for the big eyes fixed upon her or the shell-like cars taking in all she said, related the following incident: "We moved from where we were living when my little girl began to go to school and it was too far for her to go alone to the school she had attended. But they wouldn't give me a transfer so I told my husband I was going to send her to the other school anyway and tell them she had never been to school before. And of course I warned her to tell the teacher that she had never been to school."
"That night after I had gone out she went to my sister and said, 'Tante, I always said the truth before.'"
"Oh! foolish mother," I thought, "how blind you are." The story stayed with me after I left the shop and it rankled.

The Effect of a Secret.

Even with all her knowledge of Youngsters, Mrs. Dave Preeny had had hard enough time with her children, but she doesn't see how she could have managed at all if it hadn't been for secrets. When the baby sets up a howl to go somewhere with the older children Mrs. Preeny knows that the little fellow will be unhappy for hours if she doesn't do something to relieve his feelings, and so she tells him a secret. Usually it is a hint as to her plans for his entertainment, but regardless of what her promise is, it is enough that she and the child know something that nobody else on the place could guess in a hundred guesses.

Mrs. Preeny was a young woman when she learned the value of secrets. Her son George was five years old at the time, and one day when he began crying because he couldn't go somewhere with his brother, Mrs. Preeny told him in the brother's presence that if he would be good she would bake a cake. George said he didn't want any cake and he cried harder than ever. "But don't tell them a word about it," she said, and immediately young George dried his eyes.

In the first instance Mrs. Preeny had offered the child nothing but cake, which of course was not enough; but in the second instance she had offered him both cake and a secret.

Feeding and Handling For Egg Laying.

The plan of handling and feeding the birds at the Agassiz, B.C. Dominion Experimental Farm, where during the year ending October 30, 1922, four Barred Plymouth Rocks averaged 282.1 per bird. Straw is used for litter and the scratch grains are fed in the litter. The grain mixture consists of equal parts cracked corn, whole wheat and whole oats, and is fed twice a day, care being taken not to have too much grain in the litter at any time. The dry mash is composed of bran 100 parts, shorts 100, crushed oats 100, corn meal 100, beef scrap 50 and charcoal 25. Being fed from a wall self-feeding hopper, the mash is kept before the birds at all times. Grit and oyster shell are similarly supplied from a small hopper of two compartments, one containing oyster shell, the other containing grit. Green feed is provided in the form of kale, chard, cut clover, or mangels. Skim milk is fed daily, while water is before the birds practically all the time. Inside and near the front door of each pen a box of earth (dust bath) is placed.

HOGS

I procured a steel oil barrel with a large opening in the head and a small three-quarter-inch hole in the side of the barrel near the bottom. Then I screwed a three-quarter-inch street elbow in small hole and a three-quarter-inch pipe three inches long in elbow.

I set barrel on trough with about a foot of trough extending through the fence into hog lot. Put a cork in pipe and fill barrel, screw in bung air-tight, take out cork and hogs will have water when they want it, as the water will come as high as pipe and no more until it is lowered in trough.—R. L. Overmire.

Buy machines suited for the work to be done; too big is as bad as too small. Mary, who had the little lambs, probably used shears.

Increasing Dairy Herd Production.

The Dominion Dairy News Letter of September 10 in its cow-testing notes gives two instances of remarkable production increase by cows under the cow testing system. One is at the Agricultural School at Oka, Que. Here, in 1920, 44 cows averaged 6,733 lbs. of milk and 257.7 lbs. butter fat. In 1922, 46 cows averaged 8,901 lbs. milk and 346 lbs. butter fat. In 1920 eleven cows produced 330 lbs. fat; in 1922, thirty cows produced over 300 lbs. In 1922 the average for the ten best cows was 10,811 lbs. milk and 409 lbs. fat. The herd consists of Ayrshires and French-Canadian cattle. A second instance reported at Blenheim in Kent County, Ontario, where in 1920, ten of C. E. Rowe's cow producers, 7,468 lbs. milk and 246.5 lbs. fat; in 1922, eleven cows produced 10,235 lbs. milk and 346.4 lbs. fat. In the case of Mr. Rowe's herd the increase in production amounted to nearly 1,100 lbs. butter fat for the year, which at 35c per pound would amount to \$385. As the News Letter says "Increased production per cow is a possibility in every herd if the owner will take stock of each individual cow's production and then eliminate the poor producers."

There is no purpose served in knowing more of go-d cow'act than we practice.

THE FRENCH-CANADIAN COW

The splendid and peculiarly distinctive properties of the French-Canadian horse have made that animal of Eastern Canadian origin fairly well known on other parts of the American continent and its fine qualities may be said to be extensively appreciated. It is not so generally known that French Canada has been likewise responsible for the origination of a breed of cattle of valuable distinctive characteristics.

The French-Canadian cow has a common origin with the Jersey and Guernsey breeds, whilst the Normandy and Brittany cattle introduced into Canada at the beginning of the seventeenth century also played a part in its evolution. The breed is therefore one of the oldest found in North America. The influence of surrounding conditions, particularly the climate of the Province of Quebec, and the treatment that the breed has received during those two centuries and a half, have caused changes in color and conformation, but aptitudes or qualities have been maintained. For this reason the French-Canadian breed of cattle have been termed the "Jersey of the North."

In appearance the color of the breed varies from solid black to fawn, but a brown skin is preferred, and in this case there is a yellow or fawn stripe along the back and a grey or yellow ring around the muzzle. These characteristics do not indicate infusion of Jersey blood but merely show identity of origin. Though the breed is old in the Province of Quebec it is only since about 1880 that the work of improvement was begun and only in 1886 that a herd book was established by the Quebec Legislature. A new impetus was given to the improvement of the breed in 1895 when the French-Canadian Breeders' Association was established.

POSSIBLES MANY GOOD QUALITIES.

Perhaps the outstanding characteristic of this animal is the economy of maintenance. The French-Canadian cow is easily kept. She thrives and gives a good profit in places where other breeds would pine away or could not find adequate food. The little care the animal has been accustomed to receiving, especially during the winter months, has developed endurance and a system to undergo various hardships. A good "rustler," she is well adapted to farms where production is limited. Her qualities may be generally summed up in rusticity, frugality, good dairying, milk rich in fat and long milking period.

As a dairy cow, the French-Canadian animal comes in between the Jersey and the Guernsey in the production of rich milk. Her milk averages a yield of 4.5 per cent. of fat, but she is not quite equal to the other breeds as regards the quantity produced. To qualify for the Record of Performance, however, a cow must at two years old produce in 365 days, 4,400 lbs. of milk and 198 lbs. of fat; at three years old, 5,200 lbs. of milk and 234 lbs. of fat; at four years old, 6,000 lbs. of milk and 270 lbs. of fat, and at five years old, 6,800 lbs. of milk and 306 lbs. of fat.

At the Pan-American contest of dairy cows held at Buffalo in 1901, the French-Canadian cow came into competition not only with all other dairy breeds but with the best animals from dairy herds on both sides of the line, and proved her right to a place of honor among the cattle of North America. In the cost of feeding to produce one hundred pounds of milk, the French-Canadian cow ranked third, being surpassed by narrow margins by the Holstein and Ayrshire breeds.

In the cost of feed to produce one pound of butter, however, the Quebec cow was lowest of all dairy breeds, proving her value as an economical producer. This record is an old one, and in the consistent efforts which have been made in the improvement of the animal there is no doubt a yet better showing would be made to-day.

With The Boy Scouts
A Story of Scouting.
(Continued from last week)
Summer came, and Camp began to be the talk. Mothers shuddered at visions of upset canoes, whittled-off fingers, and the Scoutmaster interviewed each one and outlined a plan for a cheap camp on the lake, with supervised swimming and a first aid expert.

"But who will cook their meals?" asked each anxious provider of "mother's cooking."
"They cook their own," promptly responded the Scoutmaster.
"Nonsense," rose the chorus.
But the troop served a Mothers' and Sons' Banquet—and the mothers capitulated. Then came more surprises. The Scoutmaster read a list of "good turns" and they realized that the mysterious supply of Widow Jones' larder was explained; that their sons had directed strangers; and so, in a change in the youngsters' attitude towards "chores" and errands. Bank books were flourished, the fruits of manifold toil at ten cents an hour. The boys received an apparently drowned member, signalled to an imaginary distant camp for aid and carried the embarrassed "patient" off on a cot stretcher. A serious young orator made the address of the evening, telling in boyish phrases of "What the Scout Movement Means."

The troop went camping. But when they got home, it was their turn to be surprised. The "Mothers' Auxiliary of Troop 1 had been formed, and when the boys saw that fitted out Headquarters, they—
But that's another story.
All this happened a good while ago, and most mothers know more about the Scout movement than they once did. But not all, even yet, realize the serious aspect under its fun and outdoor good times. Women who live in some of the larger Canadian cities have seen the outcome of Scouting plainly. They have enlisted the khaki clad youngsters in distributing "swat the fly" or "clean up" literature. They have been met at trains coming for big conventions, and courteously escorted to hotels. At community celebrations the Scouts have been ready, no crowd too big to yield to their good natured persuasions, no task too great for their ready help.

Gradually these sons have grown more hardy and self-reliant, yet more helpful and considerate. They can mend a broken table leg, suggest a way of keeping water cool in hot weather, or turn in a first alarm, direct the men accurately and swiftly, while other Scouts close windows, carry out furniture, and uncoil the hose. "A Scout is resourceful," they say teasingly to each other, but they are proud to have their resourcefulness tested and proved. They even are not ashamed to be seen helping an old man across the street, for the old-time "gang" will recognize it as the day's "good turn."
Then perhaps one day a crowded rowboat overturns, or a child is pushed off a pier. The "little boy," as he is still called at home, dives instantly, his brown arms slashing through the water. He breaks the "death hold" coolly, and awakes slowly back to where his comrades are ready to pull and rescue and rescuer from the water and to pump the air back into the half-drowned lungs. The wet, shivering Scout looks up in astonishment as the crowd cheers, or frantic parents thank him. "Wasn't anything," he mutters. "Any Scout could do it. Is she comin' round alright, fellers?" The Scout is a hero. But more than the knowledge of the proper thing to do, his mother values the spirit of sacrifice that prompts action too quick for thought.

(To be continued.)

Get It Done.

There's a task that awaits you, a task which is yours;
To neglect it were surely pure madness.
Dereliction of duty most surely ensues
A harvest of sorrow and sadness.
Then heed not the voice that will bid you delay
And tell you to wait till to-morrow.
The task that you ought to be doing to-day—
Get it done, if no trouble you'd borrow.
To-day is no time to be lazy and slack,
To be idly idling and shirking;
The hours you are wasting will never come back,
These hours when you ought to be working.
So tackle that task with a cheery good will—
To-morrow its duties are bringing—
For well-finished work to the heart brings a thrill.
Get it done: soon for joy you'll be singing.
—Alice Wise.

Steady Job.

Every day for two years \$5,000 worth service medals have been engraved with the recipient's name by an English firm of medal-makers.
The best way to remove freckles is to apply at night a mixture of equal parts of strained lemon juice, glycerine, and olive oil.

CANCER

GREAT SUCCESS OF CANTASSIUM TREATMENT

A well-known London Surgeon and recognized authority on Cancer, has created worldwide interest in the discovery that Cancer is due to a deficiency of potassium "salts" in the body, which causes the cells to break down and become malignant.

In order that everyone may learn

The Real Cause of Cancer

a remarkable book has been specially written.
This book will be sent free to patients or anyone who is interested in the most successful method of fighting "THE CANCER SCOURGE."

The following is a list of the chapters:—

1. The Limitations of Surgery.
2. Some Doctors Oppose Chemotherapy.
3. Why the Body Cells Break Down.
4. Injurious Cooking Methods.
5. Common Errors in Diet.
6. Our Claim to Potassium.
7. The Chief Minerals of the Body.
8. The Thyroid Gland.
9. How to Obtain Potassium.
10. Potassium Causes Lame Execution.
11. Great Value of Potassium.
12. Parts of the Body Affected by Cancer.
13. Parts of the Body Affected by Cancer.
14. How a Doctor Can Help.
15. How to Avoid Cancer.
16. Death Rate From Cancer.
17. Arterial Sclerosis and Old Age.
18. Rheumatism, Gout and Kidney Complaints.

With this book are a number of interesting case-reports, proving the great value of "Cantassium Treatment" in various cases. The treatment is simple and inexpensive, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Ave., Toronto, Ontario, Canada.

Socialist Aborigines.

After almost two years in the Caribbean Sea among the primitive tribes of Panama the naturalist and explorer Mr. F. A. Mitchell-Hedges has returned to England. He visited, says the London Times, every village and island of the San Blas coast and penetrated the little-known Chucunaque country. He describes the San Blas Indians as an extraordinary people and as pure in breed.

They live, he says, a socialistic kind of life. One man grows bananas, another grows plantains, and a third grows coconuts. They exchange their produce. If a house is to be built, all the men, including the chief, share in the work. They suffer badly, however, with smallpox, and their eyes are affected by a tick that gets under the lids.

I believe no white person before myself ever entered the Chucunaque country. The people are about four feet three inches in height, and the women wear nose rings. They are all simple and honest; they do not use money, and they have no steel weapons. They have very big heads, very broad shoulders and are mostly bow-legged. The women seem to be of the superior sex. The chief food is a kind of corn, plantains and bananas, which are cooked unripe. They eat no flesh.

I did not see a four-legged creature in the country. They like fish, however, and they have a dish of pineapples, pears and other things, which are all boiled together in a common pot. The Indians made idols of wood, and each tribe has its own special god. The people believe that when they die they enter a canoe and that their spirit guides them until the river divides into many streams. The spirit then points to the stream they are to follow, and they are led to a comfortable hut in a happy land.

For burial the dead body is placed in a hammock and carried to a grave house, a thatched structure two hundred feet long by one hundred and fifty feet wide. When the hammock has been placed in a hole a vine is put down into the hole so that the spirit can come out at night. The dead man's stool and the utensils from which he ate are placed near by; they believe that the spirit comes forth to sit on the stool and talk with other spirits.

Essentials of Church Music.

Music in the churches varies from cheap, trashy anthems to the music of the great masters, both with and without accompaniment. Music has come to mean so much in the daily life of the individual, particularly in recent years, that there has developed a much larger general musical appreciation than is often recognized. A poorly attended church generally means poor music. Those in charge of such matters often do not consider the standard of public taste which must of necessity be high to appeal to the musical public. It is on this account that the church which has worthy music well presented at its services, is generally well supported and attended, for there is a spiritual beauty and exaltation in such music which cannot be measured and which exceeds greatly that of the spoken word.

The first essential to good church music is a chorus choir, and if the church has sufficient funds that is not difficult to maintain. This is a primary consideration of much more importance than a solo quartette which is too limited to be useful in producing fine choral effects. If the church cannot at first pay its singers, a volunteer chorus choir must be organized. Under the prevailing conditions and customs in this country a boy choir is most difficult to maintain, and in many places where it is maintained the same energy and financial backing would produce infinitely greater and more important results if applied to a mixed choir.

Minard's Liniment for Canker.

Minard's Liniment for Canker.

The Anchor.

Here on the wharf I lie, idle and rusting,
Secured with the scars of strife,
Wars that will mean life,
Many a sailor's wife,
Gave, all unknowing, her heart to my trusting.

Of times the restless sea breezes sweep o'er me,
In a familiar tongue
Singing the days I swung
From a stanch vessel slung.
Blue sky above and wide waters before me.

Many a mighty ship peacefully riding
Held I nor counted cost;
Fog-wrapped or tempest-tossed,
Never my grip I lost,
Never broke faith with my charges confiding.

Here on the wharf I lie, home from the ocean,
Never to plunge again,
Bearing my sturdy chain—
Down through the yeasty main—
Symbol unaltered of faith and devotion.
—Harold Willard Gleason in Youth's Companion.

"Sermon" in Leaves.

The Corporation of London's gardener who attends to the little green spaces around St. Paul's Cathedral has chosen the City's arms and motto for his landscape lesson, or "Sermon in Foliage," this summer.

It can be seen on the grassy slope near the south door. The general groundwork is in dark green "thrill" grass, the cross and sword in the shield are in rich brown, and the "quarters" in delicate leafy plants in silver tones.

The motto, "Domine Dirige Nos" (O Lord Guide Us), and the text from the fresco in the Guildhall of St. Paul presenting his sword to the City fathers, "Except the Lord keep the City, the watchman waketh but in vain," are in golden pyrethrum.

Preserve Your Health Yourself.

"Disease is always due to breaking the laws of health."
"To be constantly commenting upon the high death-rate from cancer, without taking into account the fact that it is primarily a blood disease, is the height of folly. And when it has been demonstrated over and over again that it is only by raising the blood to a healthy standard, and retaining it there, that cancer can be, and has now, in innumerable instances, been cured, what possible ground can there be for denying such a truth?"—Medical Times, Lon.

The late Dr. Forbes Ross, of London, Eng., in 1912, pressed in the most conclusive manner that cancer is caused by potassium deficiency. When certain combined assimilable salts of potassium have been administered to far advanced and apparently hopelessly incurable cancer patients, every one received marked benefit. And while it may be conceded that the small quantity of medicinal assistance given is imperative, the fact remains that fully seventy per cent. of the credit due to every completely reformed cancer case belongs to the correct diet taken.

It is of supreme importance to adapt the diet so that it may supply those organic salts which are essential to cereals and fruit, when in their natural condition, combined with the living principle of these products of the vegetable kingdom, which are of vital importance.

Cancer is an unconsciously self-inflicted blood disease which, without warning, on the most trifling provocation is liable to attack any adult reader who consistently adheres to the generally accepted diet of the civilized world. The best proof of the truth of this appalling statement arises from the fact that if individuals from uncivilized, cancer-free races partake of European or American fare, they speedily become cancer-stricken.

There is no reason why cancer should not be eliminated from this country if the public will exercise common sense in the matter of its diet and positively refuse to continue to destroy, in cooking, the organic salts in all vegetables, which are essential to the continued preservation of our health. We must admit that we pay much greater attention to the diet of our animals than we do to our own. As a consequence, one hundred and ten thousand persons died from cancer on this continent alone during 1922, and this awful mortality will be increased in 1923 unless we reform our mode of living. We must face these unpleasant facts.

Believing that every man and woman should personally help to relieve humanity from its needless sufferings, the writer has printed and copyrighted a dietary upon which the eminent cancer authority, Dr. Robert Bell, of London, England, has complimented him. Fathers and mothers, adopting such diet, will very speedily find that they and their children are enjoying such health as never before experienced; that, consequently, doctors' bills don't have to be paid, and no medicine is wanted, and, last but not least, a considerable money saving is effected by the greatly reduced cost of living. To help some who may not know how to cut loose from civilization's present disease-producing, premature death-dealing habits, the writer will gladly send one thousand copies of his dietary to the first one thousand readers who apply for same to Charles Walter, 51 Brunswick Ave., Toronto, Ontario.

HAVE YOU ANY OF THESE SYMPTOMS?

If You Have You Are in Need of a Tonic Medicine.

Are you pale and weak, easily tired and out of breath on slight exertion? Are you nervous? Is your sleep disturbed? Do you wake up in the morning feeling as tired when you want to bed? Is your appetite poor, your digestion weak, and do you have pains after eating?

If you have any of these symptoms you need a tonic, and in the realm of medicine there is no better tonic than Dr. Williams' Pink Pills, which enrich the blood, restore shattered nerves and bring the glow of health to pale cheeks. The value of Dr. Williams' Pink Pills is shown by the case of Mr. Horace Cuphill, Woodward's Cove, N.B., who says:—"The first indication that my general health was not good was a shortness of breath after the least exertion. Then my appetite began to fail, and after eating it seemed as if there was a lump in my stomach. I grew so weak that I could not walk a hundred yards without resting. Then I was taken with a numbness all over my body and was in a sad plight. I was under a doctor's care, but as was not getting any better, I decided to try Dr. Williams' Pink Pills. The first few boxes did not seem to help me but my wife urged me to continue their use and I got four boxes more. Before these were gone I could eat a fair meal, the numbness was leaving me and I was feeling much better in every way. I took the pills for a while longer, and felt that I was again a well man. I still take the pills occasionally but have had no return of the old trouble."

You can get these pills from any medicine dealer or by mail at 60 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Animals as Prophets.

The senses of animals differ enormously from those of human beings. For instance, a cuckoo, five months old, which has never been five miles from the place where it was hatched, can find its way, unaided, from this country to Africa, says an English writer.

As all fishermen know, trout go off their feed before rain. They cannot see the sky, yet they know hours in advance when a change in the weather is coming.

Animals can tell in advance when a bad earthquake or volcanic eruption is about to occur. In Sicily dogs showed great uneasiness two days before the eruption of Etna. Cats carried their kittens away from houses, and hares seemed stupefied by fright.

Similar knowledge was exhibited by animals before the great Valparaiso earthquake of 1915, but in this case horses and cattle as well as dogs were desperately uneasy for twenty-four hours before the big shock. Dogs howled all night, and cattle lowed.

Before the Messina earthquake of January, 1915, birds were noticed to be flying in flocks, evidently greatly disturbed, but it is an old fact that there is some electric tension which affects them. At any rate, there is no doubt that they do know many hours beforehand when an earth convulsion is about to take place.

Largest Building.

For exhibiting furniture Chicago is erecting the world's largest building, a sixteen-story structure that will contain 1,500,000 square feet of floor space.

MONEY ORDERS.

EASY TRICKS

No. 47
A Card Mystery

The performer asks a spectator to select a card from the pack, to look at it and without showing it to anyone, replace it in the pack anywhere he likes. The performer then asks the spectator to shuffle the pack. Apparently the card is lost in the pack. The performer, however, puts the cards behind his back and repeats a magic phrase. Then he brings the cards into view and asks the spectator to name the card he selected. The performer turns over the top card. It is the card selected.

This trick can be done without sleight of hand by using cards which have pictures, instead of conventional designs, on the back. Before presenting the trick, arrange the cards so that the pictures all face the same way. When the spectator is looking at his card, turn the pack around. When he replaces his card, therefore, it will be the only one that is upside down. After the spectator has shuffled the cards, shuffle them yourself, keeping your eyes open for the inverted picture. It will not be difficult to complete the shuffle so that this card will be on the top or bottom. Picking the cards behind your back is merely to make the trick seem more complicated.

(Clip this out and paste it, with other of the series, in a scrapbook.)

THE FALL WEATHER

HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Illuminated Sign.

An advertising sign to be placed on a door and illuminated automatically when the door knob is turned is the invention of a Chicago man.

"English as she is Japped," is the term given by Anglo-Saxons in the Orient to the weird effect sometimes produced by Japanese in their efforts to employ English in their shop signs. This Oriental capacity for using our mother tongue with strange twists of unconscious humor is perhaps no better exemplified than in the wording of a delicious sign on a Japanese baker's shop: "A Kashtnurn. Biggest Loafers in Tokio."

QUESTIONS and Bible Answers
If Parents will encourage children to look up and read the Bible Answers, it will prove a precious heritage to them in their years.

What breaks the connection between God and man?—Isaiah 59: 1, 2.

NEWBURY

Wes. Johns, of Coatsworth, spent a few days at E. Connelly's.

R. McComb, wife and baby Glenna, of London, spent the week-end at Wm. Glennie's.

Victor Wallace left on Saturday for Hamilton, where he will remain if he secures a suitable position. His many friends wish him all success.

Perry Dobbyn and family, of Leamington, spent Sunday at his father's.

Mr. and Mrs. Bachelor, of Walkerville, spent the week-end at A. Holman's.

Miss Ann J. Connelly returned to Detroit on Saturday after spending a month at her home in all success.

R. J. Bailey and family, of Galt, are visiting at Thos. Fletcher's.

Mrs. McTavish, of Toronto, is visiting her niece, Mrs. A. G. Munroe.

Mrs. Geo. Harcourt and daughter Audrey left on Friday for Ottawa on an extended visit.

Rev. Dr. McTavish of Toronto, preached in Knox church on Sunday R. Hudson, of London, assisted with the music.

Dr. John Galbraith, of Montrose, and Dr. Duncan Galbraith, of Lansing, Mich., visited their brother, P. T. Galbraith, last week.

Miss Anna Pennell, of Harper Hospital, Detroit, spent a few days last week at her home here.

Miss Annie E. Connelly, of Detroit, spent the week-end at her home here.

Howard Gray, Mr. and Mrs. A. D. Gray, Mrs. Alex. Gray and Miss Bella Gray motored from Windsor, spending the week-end with Mrs. Mary Gray.

The worms that infest children from their birth are of two kinds—those that find lodgment in the stomach and those that are found in the intestines. The latter are the most destructive, as they cling to the walls of the intestines and if not interfered with work havoc there. Miller's Worm Powders dislodge both kinds and while expelling them from the system serve to repair the damage they have caused.

WARDSVILLE

Miss Lydia Stinson, of Chicago, visited W. Stinson last week.

Dorothy McDowell is spending some time in Leamington with friends.

Mr. and Mrs. J. Sloan and Victor spent Friday in Ilderton.

Mr. and Mrs. L. Harvey and children, of St. Thomas, spent the week-end in the village.

Miss Violet Murphy left Monday to enter London Collegiate.

C. Sheppard, of Detroit, spent the week-end at his home here.

Mr. and Mrs. Voce and son, of Detroit, spent a few days with Mr. and Mrs. J. Voce.

Harvest Home services were held in St. James' Anglican church on Sunday at 11 a. m. and 7.30 p. m. The church was beautifully decorated with fall flowers and vegetables. Rev.

Fruit Jars

Zinc Rings, Rubber Rings, Parowax and everything needed in Canning, for sale at

The Cash Stores
Newbury & Wardsville
W. H. PARNALL

Mr. Murphy gave two splendid sermons on "Thanksgiving."

The first field day of the W. O. S. S. A. was held on Friday at Alvinston. Five schools were well represented—Rodney, West Lorne, Glencoe, Alvinston and Wardsville. In spite of hard opposition, Wardsville did not appear at the bottom of the list. Miss Bessie Saylor won the most individual points. Barbara Taylor, Rhea McRae and Marion Reid also earned a few points. Malcolm Elliott did very well, winning several seconds and thirds. He gave Trestain, of Glencoe, a tight run in the 220-yard dash. Allan McLean and George Thompson also have a few points to their credit.

A Harvest Home supper was served in the basement of St. James' Anglican church on Monday evening by the Women's Guild. A goodly number were present to partake of the bounteous supper. The net proceeds amounted to over \$25.

On Friday evening the people of the village gathered at the town hall for a miscellaneous shower for Mr. and Mrs. C. Davis, who were recently married. The bride and groom received many lovely presents. The evening closed amidst the best wishes of the people for the bride and groom.

The Methodist church was filled both morning and evening on Sunday when Dr. McTavish and Mr. Hudson opened the special union services which have been arranged by the Presbyterians and Methodists of Wardsville. Everyone who can do so should attend these services, which will close on the evening of Oct. 11th. Dr. McTavish occupied the pulpit of a Toronto church for many years, and his clear, sane and forceful presentation of gospel truths should result in much good to the church and community.

MOSA

Mrs. Gray, of Detroit, is visiting her sister, Mrs. Margaret McIntyre, at M. C. McLean's.

Mr. and Mrs. Crawford and little son, of Inwood; Mrs. McIntyre, of Mosa, and Mrs. Gray, of Detroit, visited at A. N. McLean's on Sunday last.

Mr. and Mrs. A. Douglas and sons, Miss Flossie Douglas and Mrs. M. C. McLean visited at Mrs. Paton's on Sunday.

M. A. McIntyre and Nell Lease visited friends in Dawn over the week-end.

If a man is unable to make good on his own account he usually points with pride to his ancestors.

MELBOURNE

One of the most severe electrical storms that this village has ever experienced passed over on Friday morning. The rain came down in torrents for about an hour, relieving the dry spell. Many wells in the village and community had been dry for some time, some having to draw water.

A large crowd attended the sale of household effects of Miss Agnes Campbell on Saturday afternoon. Every article was sold and brought a good price. Only the piano was reserved. The house has been purchased by Henry Harvey, of Detroit. Miss Campbell has accepted a position as teller in the Union Bank and will make her home with Mrs. Anna Cavan.

Mr. Howlett has purchased a store from Mr. Bonds, of Mt. Brydges, and expects to move there in a few days. Dan McNeil, of Middlemiss, has purchased a house and lot here and will move in the near future. Mr. McNeil has bought the draying outfit formerly owned by the late Mr. Cavan.

Ernest Stevenson spent a few days at his home here and will return to Victoria College, Toronto, to enter upon his third year of study.

Hector McDougald has arrived from the West with a carload of cattle. A carload of lambs was shipped from here on Friday by A. S. McDougald.

Mr. and Mrs. Nell Campbell spent a few days with friends here recently.

Mrs. Wm. Richards, of California, is the guest of Miss Tillie Richards.

Mr. and Mrs. Griffiths, of Detroit, spent a few days with relatives here recently.

Mrs. Robinson entertained a few friends to an afternoon tea recently.

Mr. and Mrs. Norman Brown have moved to Dutton, where they have purchased a butcher business.

Mr. and Mrs. John Sherrill and family, of Sarnia, and Mr. and Mrs. John Preece, of Bradshaw, motored over and spent the week-end with their uncle, John Preece.

Ruthven C. McIntyre, of Windsor, spent Sunday at his home here.

Miss Stella Long, of London, spent Sunday at her home here.

Rev. Mr. Graham, of Mount Brydges, preached in the Presbyterian church here on Sunday. Rev. G. W. Oliver conducted anniversary services at Komoka.

Makes Breathing Easy. The constriction of the air passages and the struggle for breath, too familiar evidence of asthma, is relieved, cannot doubt Dr. J. D. Kellogg's Asthma Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no untried, experimental preparation, but one with many years of strong service behind it. Buy it from your nearest dealer.

DAVISVILLE

Edward Shoemaker, of Detroit, is visiting at Wm. Durfee's.

Mrs. R. B. Smith is visiting her daughter, Mrs. Wm. Hillman.

Mr. and Mrs. Wm. McRae and family, of Glencoe, spent Sunday with her father.

Miss Jean King is visiting with her aunt, Mrs. Jim Munroe.

CASHMERE

Mr. and Mrs. David Smith, of Bothwell, spent a few days last week with their grandson, Calvin Stier.

Mrs. B. F. Jeffery, of Newbury, spent Thursday with her daughter, Mrs. Calvin Stier.

Wm. Moore, was a London visitor on Saturday.

Mrs. Robert Webster and Florence left last week to reside in Dutton.

Mrs. Calvin Stier and two children spent the week-end with her parents, Mr. and Mrs. B. F. Jeffery, Newbury.

Mr. and Mrs. Wm. Saylor spent Sunday with her father, David Smith, who is very ill.

We were sorry to learn of William Randall's tragic death and sympathize with the bereaved ones.

Mrs. Gowers is visiting her cousin, John Smith, at Cairo.

STRATHBURN

D. R. McRae, who has been spending some time in Alberta, returned home on Saturday.

The highways department has finished putting in cement culverts on the Longwoods Provincial Highway for this season.

Walter Thomson, who has been laid up for some time from the effects of a recent motor accident near Wardsville, is improving nicely.

The department of highways has given notice that all advertising signs displayed on the Provincial Highway must be removed. Nat Currie has taken all of his down, but he says if they won't let him erect his signs again when the tourist season opens next year he has something else to take their place which may have better results.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So keep it at hand, as the call for it may come most unexpectedly.

APPIN

The annual thank-offering meeting of the W. M. S. will be held in the Presbyterian church next Sunday afternoon at 3 o'clock. Rev. D. G. Paton, of Glencoe, will address the meeting.

Miss Margaret Coulthard, of Mt. Brydges, spent the week-end at Jas. Allan's.

Misses Marion Macfie and Thelma Watterworth have gone to St. Marys as delegates, from the Appin League to the provincial convention now in session there.

We are sorry to know that Mrs. Peter Ferguson is seriously ill at her home here.

Rally Day will be observed in the Methodist Sunday school on Sunday next.

Miss Margaret Macfie, accompanied by her friend, Miss Joliffe, of Alma College, spent the week-end at her home here.

Mrs. J. S. Macraut has returned home after a delightful visit in the West.

The anniversary services of the Presbyterians will be held on Sunday, October 21, morning and evening. On the following Monday evening, the 22nd, there will be a tea meeting.

Miss Zella McMaster, of London, spent Wednesday of last week with her parents here.

A large number from here attended Glencoe fair last week.

Miss Lorene McIntyre is holidaying at her home here.

A few young men of this vicinity gave a dance in the hall on Friday evening.

Mr. and Mrs. Dunc. Patterson and daughter Margaret, of Toronto, are visiting here.

Appin school fair was held Wednesday afternoon.

Charles Black and Evan McMaster were home from Detroit over the week-end.

Miss Minnie McDonald was home from Stratford for the week-end.

Mr. and Mrs. John Jones visited their friends in Windsor during the past week.

Miss Jeanetta Lotan spent a few days last week at her home here after completing her course of training in Victoria Hospital, London.

Several from here attended Alvinston field day last Friday.

MODEL CENTRE

An enjoyable evening was spent at the home of Doug. Clarke on Friday last by the "Heart-breakers." Mrs. Will Graham read the Journal which had been well prepared by three of the members, after which Chester Thornicroft gave a comic reading. A stump debate also added much to the enjoyment of the meeting. Games were played, and lunch was served by the hostess. The next meeting of the club will be held at the home of Mrs. Will Eddie on Friday evening, October 12th.

A number from this vicinity attended the Methodist anniversary at Appin on Sunday.

Mrs. A. D. Brown, of Melbourne, spent the week with her daughter, Mrs. Chester Thornicroft.

We are glad to hear that Olive Moore is able to be around again.

Mr. and Mrs. Robert Eddie, of Windsor, spent the week-end with his brother, Will Eddie.

Mrs. Will Graham spent a few days with her mother, Mrs. Hurley.

Hugh McTaggart had a cow killed by lightning Friday morning.

WOODGREEN

Mrs. Peel and Mr. and Mrs. Walker and baby, of Detroit, spent the week-end at Mrs. Andrew Clannahan's.

Miss Lydia Squire, of Detroit, is visiting at her home here.

A number from here attended the Glencoe fair last week.

Mrs. Pearson and son Bert, of London, are visiting at Harry Harvey's.

Russell Clannahan and Jim Beattie, of Detroit, are visiting at their homes here.

Rally Day services were held in the Sunday school on Sunday. A large number were present.

A number from here attended anniversary services and evangelistic services in Wardsville on Sunday.

Paul Brown has returned to Toronto to resume his studies at McMaster University after spending a couple of weeks with his uncle A. D. Brown.

Mrs. C. R. Howell has returned from an extended visit with her daughter.

Mrs. A. D. Brown is visiting at Walkers.

SOUTH EKFRID

Miss Winnifred Poole, of Walkerville, spent the week-end at her home here.

Duncan R. McRae has returned from a two months' visit in the West.

Mrs. James Lethbridge has returned home after visiting in Detroit.

Miss M. B. Duncanson has returned from a visit to friends in Windsor and Detroit.

Ross McAlpine has returned from Winnipeg, where he purchased a carload of cattle.

A pleasant time was spent at the home of T. J. McDonnell last Friday evening when a number of friends and neighbors gathered and presented Miss Teresa with a miscellaneous shower, prior to her approaching marriage. Miss McDonnell replied in a few well-spoken words, after which the evening was spent in dancing. The party broke up in the wee sma's

When a man loses anything else he advertises for it; but when he loses his head he stops advertising.—Henry Ford.

Don't Lose Your Head.

hours, everyone wishing the bride-elect much happiness in her new home.

On Saturday afternoon a pleasant time was spent at the home of Mr. and Mrs. D. R. McRae when a number of the lady friends gathered and presented Miss Anna with a handkerchief shower before leaving for Victoria Hospital, London, to take up the profession of nursing. A dainty lunch was served by the ladies and all wished Miss McRae every success.

A meeting of the U.F.W.O. will be held at the home of Mrs. James McRae on Friday, October 5, at three o'clock.

SHIELDS

The September meeting of the Needle Club was held at the home of Mrs. D. C. McTavish, with 15 members and several visitors present.

Plans were started for the annual Halloween supper to be held in No. 12 on October 26. The next meeting will be held at the home of Mrs. Nell McVicar on Thursday (today). Roll call answered by the letter "V."

CRINAN

Miss Mary Thompson is spending a few days in London with Miss McAlpine.

John Frank of Los Angeles, is visiting relatives here.

Miss Marion McEachern and Miss Nellie Campbell have returned after attending the West Elgin Teachers' Convention at Niagara and Buffalo.

Miss Marion Auckland and Miss Jean Campbell are attending London Normal.

Miss Nellie Campbell spent Sunday in London and Byron.

KILMARTIN

Misses Margaret and Alma Walker, of Brooke, visited their sister, Mrs. Dugald Secord, last week.

John McFarlane, of Detroit, spent last week with friends here. He was accompanied home on Saturday by his cousin, Hector McCallum.

Martin D. Munroe, of Margaret, Manitoba, is visiting his grandmother, Mrs. M. C. Munroe, and other relatives.

Mrs. Secord returned this week from a trip to California and the Canadian West.

Mr. and Mrs. Hector McFarlane and baby daughter Jean and Dan and Alex. McFarlane, of Detroit, visited friends here this week.

The sacrament of the Lord's Supper will be observed in Burns' church next Sunday morning. Preparatory service will be held on Friday morning at 11 o'clock.

DELL—LUCAS

A very pretty wedding was solemnized at the home of Mr. and Mrs. C. H. Lucas, Middlemiss, at 6 o'clock on Wednesday evening, September 26th, when their youngest daughter, Gerda Marie, became the bride of Maynard A. Dell, son of Mr. and Mrs. Edgar Dell, of Iona. Rev. R. B. Cummings performed the ceremony in the presence of about thirty guests. The bride, who was given away by her father, was charmingly gowned in white crepe de chine, with long accordion pleated panels, silver beads and dainty veil, with orange blossoms, and carried Ophelia roses and sweet peas. Miss Ardelia Lucas, of Toronto, sister of the bride, was bridesmaid and looked lovely in pink crepe de chine gown and black panne velvet hat. Sydney Dell, brother of the groom, was best man. Miss Florence Westcott, of Glencoe, played the wedding march. The groom's gift to the bride was a beautiful rope of pearls, to the bridesmaid an elaborate Egyptian design necklace, to the pianist pearl ear-rings and to the best man gold cuff-links. After the ceremony the wedding dinner was served in the dining-room, which was prettily decorated with pink and white asters. The table was very attractive with pink streamers from the ceiling to the four corners of the table. Later, Mr. and Mrs. Dell motored to St. Thomas and left from there for Detroit and Chicago. The bride travelled in a black crepe de chine dress, with grey velour wrap and grey suede shoes and stockings, and grey hat and veil to match. The young couple will make their home in Chicago. The bride received numerous beautiful gifts. Guests were present from Strathroy, Detroit, Dutton, Glencoe, Chicago, Toronto, Melbourne, Chatham and Iona. Among those present was H. B. Whyte, of Toronto, and Harold C. Lucas, of Detroit.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.
