LIBERAL CANDIDATE WILI BE NAMED AT CONVENTION

Adjourned Meeting in Hyman Hall This Evening Will Likely See Nomination of Dr. W. J. Stevenson-Enthusiastic Support Promised by Moral Reformers.

In Hyman Hall tonight, the adjourned convention of the Liberal party will be held. In all probability, Dr. W. J. Stevenson will be nominated to contest the seat, and while other names may be proposed, it is expected that the honor will be tendered to Dr. Stevenson unanimously.

Dr. Stevenson has agreed to accept the nomination on the condition that the convention is unanimous, and there is every prospect that Liberalism will put up the strongest battle in its

history in this city. Dr. Stevenson stands firmly on the "Abolish the Bar" platform of Mr. Rowell, and his record will make him an ideal candi-

RAIN SAVES BERRIES

Heavy Showers Needed for Strawberry Crop.

The heavy rain this morning will hold up the strawberry picking today, but it saved the crop from being a poor growth and from almost total failure in some parts of the country, according to growers on the market this morning.

Berries will probably be scarce on the market tomorrow, as few will be picked today on account of the rain. The price is likely to be high. Some of the best berries yet offered or the market were sold in wholesale

quantities this morning. One grower had a load of 500 boxes, which he sold to grocers for 12 cents a box. As a result of the dry weather, berries for the next few days will be small and less juicy than the later growth. According to the growers the big days for berry buying will be about the mid-

3YNOD OF HURON **CLOSES SESSION**

Narm Debate Over Proposal to Change Date of Synod Gathering.

Synod of Huron sessions closed last night at 6 o'clock, one of the most successful meetings, both in work accomplished and in attendance, in

nany years.
The roll call showed the same numher of clargy as there were lay dele-gates, 128 of each, or a total of 256 ielegates. In the afternoon, Bishop Williams appointed as canons: Rev. S. W. Howard and Rev. C. R. Gunne. Modern methods in keeping parish records, and an amendment to change the annual synod meeting from June to January, received much tiscussion. Results of the elections to the executive committee, the provincial and general synods, taken in the morning, were read.

"When are farmers busiest? was question that was argued at length, and left an open question in the end. in proposing an amendment to the synod canon, making January the time of the annual synod, instead of June. Rev. R. S. W. Howard said: Possibly a January synod would be a little less convenient for some of the rural clergy, who are farmers." Rural delegates immediately started a warm discussion as to the busiest time on a farm. One said that he lost at least \$50 by coming to the synod in June. Rev. Mr. Dobson said: "Farmers are all very busy now, while there is nothing doing in January." Rev. Mr. Snell declared that practically all farmer delegates were disenfranchised by holding a June "We should have three or four hundred delegates at the meethe said. A layman then declared that, as a farmer, he should know that at present there was little work on a farm. He said that all farms had a short breathing space haying, and that the synod should, by all means, be continued in

Rev. R. S. W. Howard pointed out that his main reason in proposing a change in the time of the synod give the bishop a better chance by working in more agree-able weather, to travel through the diocese, attending to confirmation classes

and other business. Bishop Williams said: "When the winter becomes too hard for me, I will change the synod time of meeting. As it is, however," he continued, "I have now to do all my travelling in the four or five

THE ABOLITIONIST.

WHEN Abraham Lincoln decided that slavery must go, he took no half measures. He realized that the one certain cure was amputation. To use a surgical term, a major operation was necessary in order to abolish slavery. It is sure ly a pleasant picture this, making an attractive goal for the champion of temperance and those who are striving for a clean, happy community.

A UNISON OF CHURCHES.

THE absolute and active unanimity o the churches in favor of Mr. Rowell's policy is an unprecedented feature of this election campaign. Not only general assemblies and provincial or sectional conventions, but individual church meetings are declaring for the abolition of the bar. Presbyterians, Methodists, Anglicans, Baptists, Congregationalists, etc., all stand together on this issue in solid phalanx Three years ago Anglican synods were declaring themselves as openly as others. and it is to be believed that their convictions have been only deepened by the course of time.

The churches can do no other. Mr. Rowell is virtually heading a vast home mission. An enthusiast himself in the cause, he cannot fail to inspire a like enthusiasm of pilgrim and crusader in his following. An Anglo-Saxon's proper castle in his home, and the bar-room is the castle of his enemy. There is no truce between the bar-room and the Christian

Mr. Hanna champions and fortifies th ill-famed, evil-smelling bar. He would go on maintaining this perversion of a homelike hospice for the traveller into a hall of degradation and murder. He laughs at Mr. There is no man living who can prophecy Rowell's attack, thinking himself safe in the funds and organization lent by a temperance people may sweep the Liberal knot of men fighting desperately for their policy to victory, or they may refuse to trade. But backed by the intelligence and decency of Ontario, Mr. Rowell will win. To abolish the bar is to cleanse this land and make it an example. Why send missionaries to Asia while things remain as they are at home? An educated Jap observed recently to a missionary:

> "You should clean up your own dirty linen at home before you come across the seas to wash ours." And he emphasized the drink evil.

We have to teach by example as well as by precent.

FAULTY ARGUMENT.

(Stratford Beacon)
Much is being made by temperance men, who desire to keep in line with the Whitney Government, of the re-tention of shop licenses under the "Abolish the Bar" policy. An analysis shows that there are only 62 municipalities in the whole province of On-tario in which there would be shop licenses, and these could be abolished under a local option vote by a bare majority. The logic of such criticism coming from a party which says that abolition of the bar is going too far is as faulty as it is hypocritical.

Let us have suggestions on this point.
Take a look at the building and see if it could be dévoted to any useful purpose. The people of Ontario pay for it; the people of Ontario ought to receive some real benefit from it.

GOVERNMENT HOUSE.

(Toronto-Star.)

Somehow this province has drifted into a policy of providing a million-dollar residence for a Lieutenant-Governor. The building is practically completed. But must we furnish it and maintain it—all the time knowing that it is useless, and that the expenditure is unjustifiable?

We do not agree that because we have wasted a lot of money we should waste a lot more. If Mr. Rowell becomes Prime Minister of Ontario it

The duties of the Lieutenant-Governor are sometimes discharged by the Chief Justice of Ontario, and there is no reason why they should not be always so discharged. At all events, there is no reason why the Province of Ontario should do more than pay the Lieutenant-Governor handsomely for doing very little, and provide him with an office. There is not the least justification for making the province pay for the upkeep of a small circle of fashionable people in Toronto. Let these people spend their own money on social functions. Let the money of the province be spent for provincial purposes.

city and outside points listened, Thursday morning, to the defeat of the motion to give them a voice in business matters of the church. The one great satisfaction arising out of the de-bate and the vote which followed, was that so many of the clergy and lay delegates recorded themselves as being in favor. In fact, the large increase in favor of women's admission on vestries was strikingly noticeable, and it was not without reason, per-haps, that as the session adjourned at 12:30, an optimistic "Oh, well, wait till next year" was heard on many

Judging by the keen interest evidenced in the discussion it can hardly be said now that the women of the church do not care one way or another. Wednes-day morning, when it was thought possible that the debate might open at any time, the gallery seats were filled with an interested group of church women. Lunch time came and still other business occupied the attention of the synod. Many of the women lunched down town and returned early and hopeful to the afternoon session. Slowly the hours passed, and although it was not until 5:45 that the first word of the debate was launched, the ladies remained patiently in their seats, many additional visitors arriving during the afternoon. With the close of the discussion, and eager anticipation for the result of the vote, which has now become history. And one Then, again yesterday morning, bright could not but wonder whether, if the adand early, the gallery seats were filled long before the discussion was resumed. It is not the writer's purpose to attempt to report the debate. That belongs to other pens. Two things, however, would bear particular mention. The first

BY A CHURCHWOMAN.

After many hours of patient waiting in the gallery seats of Bishop Craig pointed out that there was a dif-Cronyn Hall, a large representation of Church of England women from this not that they have a voice in synod, but merely in the business matters of their individual congregations to which each belonged, worked in, and paid to.

In Abysmal Depths. The second matter that impressed the feminine visitor very strongly during the debate was the manner in which the two speakers for the amendment appeared to wander into abysmal depths of "canons" and "church doctrine" of the early cen-turies. The writer says "appeared" advisedly. Probably the majority of the gentlemen on the floor of the synod could ollow the line of argument. The few questioned after the adjournment confessed themselves quite as much at sea as the writer.

Another amusing incident of the debate was the reference to a verse of Scripture setting forth woman as the subject of man. As one speaker wisely pointed out, in answer, while women of the east in the early days were considered practically in the same class as a man's sheep, that was scarcely the status of women of the twentieth century. There was a marked dif-ference in the method of regarding women in the Old Testament, and the New. Our Lord's attitude towards and reverence for women having been largely the cause.

Eager for Result.

With the close of the discussion, the

is the strong argument advanced by Rev. Canon Craig, urging the synod members to remember the distinction between government and business. Mr. Jenkins, the chief speaker for the opposition, had previously intimated, or rather asserted, that the admission of women to vestries that the admission of women to vestries

LONDON SIGNS CATCHER OSB OF GALT WOBBLY LEAGUE TEAM

[BY BERT PERRY.]

Catcher Osburn, of the Galt Wobbly League team, has been signed up by the London club and he reports to the Tecumsehs in Toronto Saturday night. Osburn has been making a fine showing in the W.O.B.L., and his work has been watched for some time. He was with the Carter-Crume team of Niagara Falls last season and is well-known to Eddie Linneborn, Louis Bier-bauer and other members of the London team, who have highly recom-mended him. His work with Galt has been the feature of the Wobbly League this past few weeks and he is largely responsible for the Galt team being up at the top of the league.

Osburn Will Work. Osburn will be used on Sunday when the London team goes to Niagara Falls to play an exhibition game with the Carter-Crume team of that city. The Carter-Crume team has been meeting Canadian league teams in exhibition games each Sunday for the past three or four weeks, Toronto playing at the Falls last Sunday. The London club has been sought all season but this coming Sunday was the only date convenient to the Lon-

Reisling Protests Yesterday's Game. Manager Reisling has protested vesterday's game with the Toronto Beavers on a play that occurred in the seventh. In this inning Linneborn threw low to Bierbauer, the ball going to the stand and George Ort went from first to third on the play, despite the fact that there is a league rule which allows only one base on an overthrow at first base. Neither Umpire McPhartlin or Freeman would send Ort back, however, despite Manage Reisling's protests, and the London leader announced that he would take it up with President Fitzgerald. The decision made a difference of one run, so that it did not materially affect the result of the

Lee has also signed up an infielder named Hunt, who comes from Everett School, Mass., where the Boston Red Sox secured Janyrin.

The Cockneys and "Our" Beavers opened a three game series at the Island yesterday, and the locals won by 5 to 2. day at Brantior's expense and they did it handsomely by batting out a ninth inning victory. Foxs home ran counted two in the sixth and singles by Welsh, King and Gorman did the trick. Asher for Brantford was hit hard and lost his fourth straight game.

The Brantford infield was changed today, Nelson and Forgue replacing Wagner and Honeck who were released.

Three pitchers will be all that the Sox will carry and it is probable that Chase and Gero will included in the trio. Forgue has already jumped into Honeck's place and his work has been so far satisfactory. Dolan has not hit as a high-priced man should and he has got to improve. Deneau has a new pitcher in the air, but as yet he keeps him dark and gives no name, but it is thought he is a southpaw. The team is now taking on its regular shape and will soon be replete.

Shears, Late of Jersey City Inter-national, Joins "Doc" Yates' Squad, and Loses Initial

Contest.

HAMILTON, June 18.—Another defeat was chalked up for the Hamilton Athletics today when Clements, of St. Thomas, had the better of a pitchers' battle, and the score ended 2 to 2, with the visitors on the long end. Shears, a new twirler sent on by Jersey City, opposed Clements. The International Leaguer arrived in Hamilton this morning, and was in a uniform at once. He allowed St. Thomas ten hits, while Clements was touched up for but five, but it was a pitchers' battle, nevertheless, Shears keeping the bingles well scattered except in the sixth, when the Saints collected four safetles and made their three runs. Kopp and McNellis, the first two men up in that inning, touched the ball for hits, and Hadley sacrificed. Kustus went out and Kading was passed. Craven singled and two runners crossed the plate, Kading taking third on the play. The latter scored on Gillespie's single.

The locals had scored in the third and fourth in the former session, the new pitcher having a three-bagger. Gilhooley was hit by the pitcher and a moment later Baldwin singled, scoring Shears. In the next session Haeffner went out, and White singled. He stole second and scored on McGrourty's single. Hamilton threatened in the sixth, but Clements tightened up and disappointed them.

Summer Grey Worsteds, at \$18, \$20, \$25 and \$30

"The Tailor showed me that identical Suit for exactly the same money."

For Side-by-side Comparison, Dig Beneath the Surface.

I can show you four separate and distinct cloth qualities-of exactly the same shade and pattern in English Worsted.

Cloth qualities which prove that you cannot judge cloth quality nor workmanship unless you have before you the garments for side-by-side comparison.

K 8200 at \$18. K 9201 at \$20. K11200 at \$25. K13200 at \$30.

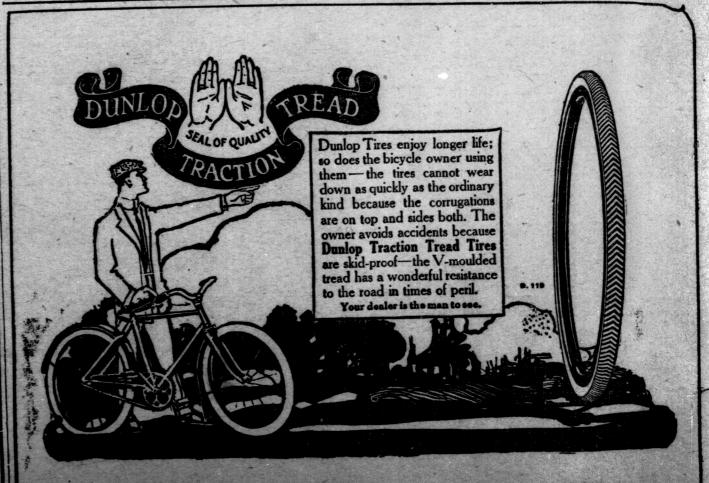

Each one of these Suits could be correctly described as a beautiful grey West of England Worsted; yet there is a variation of \$12 in the value.

And few people could tell the difference at a distance; few could tell unless they compared the cloths while they were together-"side by each"-as our Teutonic friend observed.

It's in the fine question of real values that the Semi-ready price label in the pocket gives you assurance.

It gives the skin and complexion a marvelously youthful appearance, as it actually feeds and nourishes the skin and thereby puts new life into it. Makes face powder invisible and adherent. Will not grow hair, nor irritate the most tender skin. Use Creme Tokalon today and watch yourself grow younger.

For sale by all druggists and department stores; large jar, 50c. Contains a liberal sample of poudre fascination, the marvelous invisible air-floated face powder.

Winnipeg, June 18.—Rains have been almost general in the three prairie provinces of Canada, and with fears of drought dissipated, prices on the Winnipeg market made a sharp break, opening 3/c to 5/c lower. Mr. Haight then examined the witness very carefully about the type of steering apparatus in use on the Empress. Mr. Donovan explained how a mixture of glycerine and water in a cylinder on the bridge was moved by the action of the wheel, how this liquid was continued wheelhouse and controlled by valves which allowed steam to operate the gear The pipes were 500 feet long. Papers on Writing and Geo- Government Fears Hindus Will Fight If Jap Troops Attempt to Board Ship.

> [Special to The Advertiser.] Ottawa, June 19.-Word has been received that the two Japanese cruisers, which are steaming for Vancouver, will not arrive until tomorrow. The anxiety of the Canadian Government as to what will happen when they reach port continues. So far there has been no reply to the representations made by Canada to the British Government, that the Japanese authorities be requested to direct the commander of their two cruisers to keep their marines off the Komagata Moru, where 360 British Hindus are in control of the ship. Most of the Hindus acquired familiarity in the use of arms in the British Indian army, and it said that they can be depended upon to put up a lively fight. The Canadian officials are hoping that

a British cruiser may come up at Vancouver during the next few days. British cruisers have the habit of running up unexpectedly where they are badly Rainbow Needed Now.

Yes! Some Use Might Be Found For That Million Dollar Palace

[From Toronto Saturday Night.]

It has been suggested that Ontario's new Government House, in view of its situation, be made over into a home for retired railway locomotive ffremen and engineers. It is thought that with railways close at hand on two sides, and with the belching chimneys of the Don Valley Brick Com-pany on a third, these men would feel perfectly at home at Government House. It has been further suggested that this palatial million dollar pile be made over into an asylum for the feeble-minded, in momory of the genius who picked upon the site, but on mature consideration, it is said that the lunatics would object to the location.

In any event, Sir John Gibson is to be congratulated over the fact that his term of office is expiring, and that he will not be obliged to live in

After making an emphatic denial he remarked. "I think I have disposed of that aspect of it."

"But he wants to know what I think of this proposition. I will tell you what I think about it. . I think it will never be necessary to answer the question, because the people of this Province on the 29th of June are going to wipe the bars out (Loud Applause), and I think, secondly, that I have been against the open bars all my life and I will be against them until the last one disappears the province of Ontario." (Hear, Hear) Rowell is backing up the policy of the Churches and helping them to fight the

Policy As To Shops. The Liberal Leader followed this with a statement concerning shops, that cleared up all misunderstandings on this point. He would make local, option county-wide and operative on a majority vote. The shops would be wiped out just as fast as public opinion reached that stage. The Liberal policy was far in advance of the Government on this matter, and yet this cautious criticism was offered to detract attention.

Having made these proposals along with giving the municipal vote to marwomen owning property, which in cluded the right to vote on local-option by-laws, it did not lie in the mouth of asked him to go.
A Tone Dissenter.

When G. G. S. Lindsey was referring to the support, which the clergymen was proven in the case referred to were giving, Mr. Rowell one enthusiastic dissenter in the front row shouted, "Shame." This aroused the audience. Mr. Lindsey retorted by saying that the gentlemen probably preferred having behind him the whiskey interests, rather than the churches. Again this party sought to interrupt, and was held down; submitted to the inevitable.

HATE ROWELL POLICY

Which Is Good Indication That It Is Best, Says Arthur Hawkes.

[Special to The Advertiser.]

WOODSTOCK, June 18 .- That Mr Rowell has not only a large, but an earnest and enthusiastic following in Woodstock was demonstrated tonight at the public meeting held in the Liberal leader's interest in the city hall by the spontaneous applause which followed every mention of his name by the various speakers.

Arthur Hawkes, of Toronto, in a characteristically humorous and forceful address, declared that Mr. Rowell's policy of abolition of the bar came more near than anything else to his ideal of a temperance measure.

"I would not cast any reflection on those who believe that local option is the best thing," he said. "But when we find that the liquor traffic is most anxious that Mr. Rowell should not become Prime Minister of Ontario, it is a pretty fair indication that Mr. Rowell is sponsor for the most advanced temperance policy that has been put forward up to the present time.

Mr. Rowell as a Leader. "A close observation of Mr. Rowell during three sessions of the Legislature has proved to me that he had led the Liberal party like a gentleman, a statesman and a true Liberal. Nor Will There Ever Be Anything Between Him and Carranza to Interfere With the Work.

[Canadian Press.] Torreon, Mexico, June 19.-Gen. Villa

has issued the following statement re garding his relations with Gen. Carranza: TO SAVE SYLVIA'S LIFE "I have received many telegrams from different newspapers in the United States asking what is the matter between Gen.

I now will even go further and say that there never will be any differences between Gen. Carranza and my-self that will interfere with the work by the Constitutionalists.

El Paso, Texas, June 19.—Gen. Villa will leave Torreon today for the front above Zacatecas. Thus will begin the peculiar arrangement between him and Gen. No announcement has been made concerning the status of Gen. Natera, appointed by Gen. Carranza as head of the central zone, which Villa

by his insistence has taken over. The general plan of the campaign now is along the lines drawn up before Carranza put Natera in command of the new zone. Villa, who has taken Juarez, Ojinaga, Chihuahua City, Gomez Palacio, Torreon and San Pedro in Northern Mexico, all within the last few months, will now have a clear road to the national capital, so far as Carranza is concerned, according to the arrangement which was made after Villa had tendered his resig-

PREMIER GIVES AUDIENCE

Asquith Agrees to Receive Suffragettes Rather Than See Leader Starve.

[Canadlan Press.]
LONDON. June 18.—Premier Asquith has capitulated to the suffragettes. He has consented to receive a deputation of East End working women in Downing street Saturday morning.

Miss Sylvia Pankhurst's attempt to carry out her threat of a hunger strike at the entrance to the House of Comto impede or in any way hamper the mons until the Premier yielded to the demand, that he listen to a delegation of women, was largely responsible for the Prime Minister's decision. The efforts of James Kier Hardie, the Independent Sosialist member of Parliament, and George Lansbury, an ex-member, helped the militant suffragette leaders

to bring him to his knees. The victory is a distinct one, because Sylvia Pankhurst was arrested about a week ago for attempting to lead a pro-cession of East End women to Westminster to demand the audience which

Mr. Asquith has now promised. The chief Liberal whip afterwards took pains to issue to the newspapers a statement that Mr. Asquith gave his consent to an audience several hours before Sylvia Pankhurst paid her visit to the palace yard. The statement added that she had not been forcibly fed during her last incarceration, because she was too weak. The Premier apparently acted to save her from death by starva-

Condition Demands Promptness Triple Held Yesterday

The Situation in the Bruces

[BY A. D. CLARKE.]

SOUTHAMPTON, June 18.—The Whitney government has at last given Bruce county some consideration in the matter of legislation. Here is where we meet Jerry Mander. Jerry has been received none too cordially by the fair-minded Germans and Scots, but they may find a way to make him be good.

It is a question now whether he will be of any real service to his pirate chiefs. Those who devised him thought to gain much. They many gain a little. They

may be disappointed entirely.

By carving up the three Bruce's and dis-uniting families, the Hanna-Reaume surgeons aimed to secure two cut of three seats that formerly went Liberal. They could not have them all, so they hired the Liberals, and handed them to Charlie Bewman. By shifting boundaries, that have existed ever since Bruce had three electoral districts, they found a place, which they felt must elect a Conservative, and electoral districts, they found a place, which they felt must elect a Conservative, and called it North Bruce. By further alterations they fixed up a little oasis, grouping several places having liquor licenses. This they named South Bruce. They eliminated Centre Bruce, and created West Bruce, in which Mr. Bowman has nothing to fear at the hands of his opponent, Chas. Green, of Southampton.

In doing these things, they took a seat away from J. G. Anderson, and forced

him to seek pastures new. (From latest reports he is finding the browsing good.)

The district of the second	RESULT O	F LASI EL	ECTION,

	North Bruce, Bowman	391
	Centre Bruce, McDonald	104
	South Bruce, Anderson

	North Bruce, Conservative	234
	South Bruce, Conservative	
	West Bruce, Liberal 1	041

Wm. McDonald, former member for Centre Bruce, is tackling the 234 handicap North Bruce, and his election over H. A. Vanduzen, who opposed Mr. Bowman in the last election, is already conceded even by some Conservatives who have been

This is effect No. 1 of the gerrymander. Sharp practice by a top-heavy Governnient, which used its great majority to do as it liked when it liked; which brought on an election when it was not needed, and loaded the dice at that in order to add to its brute force, does not seem to have been received sympathetically. The little licensed haven they have created in South Bruse may give Mr. Janna and his friends some trouble, too. It is comprised of six wet municipalities:

Greenock township, Brant township, Walkerton town, Carrick township, and Culross township,—all wet—and Teeswater village—dry. The Liberal township of Kinloss and the Liberal village of Lucknow were taken

off South Bruce, and the wet township of Greenock was added, A THOROUGHLY WET RIDING.

The idea of a thoroughly wet riding must have appealed to the Provincial secrearies as having some possibilities in a campaign, where the matter of licenses is such a pronounced issue.

Very serious thought was given to the selection of a government candidate for this especial riding. Three prominent Conservatives were after the convention namely, Otto Klein, of Walkerton; Dr. Fowler, of Teeswater, and Robert McCallum, of Brant township. These men were so keen that a split in the party was feared, and Wellington Cargill, the man who went down before Reuben Truax in the Dominion by-election, was coaxed to allow his name to go before the convention. Mr. Cargill was not anxious for local honors, but it was apparent that he was the only man to whom the other three aspirants would give way, and he

LIBERAL CANDIDATE POPULAR.

Mr. Johnson, who opposes Mr. Cargill, is the former proprietor of the Mildmay Gazette. He was born in the township of Carrick. He is running as an Independent Liberal, and is exceedingly popular throughout the riding. He has a good chance for election. He has only a majority of seven to overcome, plus the liquor in

The defense of the Conservatives for the gerrymander is that they have equalized the population. It did not require all the shuffling that was done to do this. By taking the township of Arran and the village of Tara from the North and placing them in the Centre, the same result, from a standpoint of population, could have been attained.
