FIVE DESPERADOES ESCAPED FROM KINGSTON PENITENTIARY

Strip Two Officials of Their Clothing, Lock Them in Cells and Overpower Three of the Guards—All Recaptured After a Hot Chase.

Kingston, April 29.—The most sensational escape from the penitentiary at Portsmouth, chronicled in many years took place about 10:30 o'clock this morning, when five desperate criminals succeeded in leaving the prison walls after wounding two men here several of the officials, two of whom, after being stripped of their clothing, were locked in one of the cells the desperadoes had vacated. Fortunately the prisoners did not obtain possession of any firearms, and their subsequent capture was as a result effected without bloodshed.

The men who escaped were the four incorrigibles trans-ported recently from the Story Mountain Penitentiary in Manitoba, Charles and Bert Meeum (also known as Frank Jones and Hugh Kelly), highwaymen, Geo. Brown, who kept a niece of Premier Roblin a prisoner in the woods for two days, and Arthur Bonner. The fifth member of the gang was McNeil, of Detroit, who was sentenced from Woodstock for theft.

Story of the Escape.
The five prisoners were confined to the isolation ward. McNeil, who was allowed out in front of his cell to sweep the floor, overpowered Keeper Madden and Guard Ross Davis, severely injuring the latter. Dr. Daniel Phelan, the penitentiary surgeon, was also attacked, and, when Keeper Madden was stripped of his clothing and both were locked in the cell. McNeil then set the other four free. After removing their prison garb and donning the guards' clothes the five men, armed with pistols, knives, and a gatling gun, seeing the guards in uniform as he supposed, opened the gate and was promptly knocked on the head with a club and pushed into the cell. Then it was an easy matter for the men to escape.

Knocked Down Instructor.
They ran to the warden's grounds, where they knocked on the head Assistant Farm Instructor McCarthy, who tried his best to intercept them. Making in the direction of the prison quarry, Brown was overpowered by a scout sent out with a rifle. He then surrendered and was turned over to the quarry guard and brought into the prison. One of the Meeums (Kelly) was caught by Watchman Clark, in Portsmouth, with the assistance of another officer, and returned to the penitentiary. Two of the others, McNeil and Bonner, were caught at Carleton Place.

ARRANGING A PACE.
New York, April 29.—With United States Labor Commissioner Charles P. Neill and Judge Martin A. Knapp, of the federal commerce court, conferring again today with representatives of fifty eastern railroads, there was expectation that within a week some definite plan will be formulated to bring about a settlement of the question of increased wages for the engineers. The engineers have presented their side in full to the federal mediators. Until Judge Knapp and Commissioner Neill have submitted their plans for a settlement neither railroad employees or officials will discuss the matter.

Ill Health and Success

Is ill-health in the way of your success? Do you lack the energy and vitality, the red blood which is necessary for good health and success in life? What have you done to overcome this condition? For it can be overcome by a little patent treatment.

There are combined in Dr. Chase's Nerve Food the elements which go to form new, rich blood. By using this food cure regularly you increase the quality and quantity of blood in the body. The wasted nerves feed on this rich blood and become revitalized. Mind and body regain snap, vim, energy and all that accompanies health and strength.

Nervous headache and indigestion, nervous prostration and exhaustion give way when this great restorative treatment is used to put new health and vigor in the blood.

HUNTER SLAIN NEAR LINDSAY

Body Was Found In the Bush With Two Gaping Bullet Wounds.

MISSING SEVERAL DAYS

L. D. Porter Believed to Have Been Murdered When Making Round of His Traps.

Lindsay, April 29.—Discovery of the body of Louis Porter, lying concealed in dense bushes beside the road, six miles from Minden, about 22 miles from here, on Sunday morning, has brought to light clear evidence of a cold-blooded murder.

Porter had been shot through the arm and body, causing gaping wounds. A pool of blood on the road indicated where the shooting had occurred. The body had been dragged a distance of about 150 yards, into the woods in an evident effort to hide the murderer or murderers at the scene.

The fact that a gun carried by Porter cannot be found makes it appear that he may have been shot with his own weapon after a struggle.

Search Party Organized.
Porter, who was a farmer, 35 years of age, left his father's home with a 44-calibre rifle and two cartridges on Thursday evening about 7 o'clock to look at some traps. When he did not return that night his father decided he had gone to his own home. Saturday morning there being no word from him his father drove to his home and found his wife very uneasy about him. A search party was organized among the neighbors and on Sunday afternoon the body was found. A number of blood stains on the road indicated where he shooting had taken place.

Porter was last seen by a man named Ellis, who states that he saw him passing his door, and later on heard a gun report. Though Porter was carrying a gun it cannot now be found.

Two Toronto detectives have been sent to the scene of the shooting. An inquest was opened this morning and adjourned until Friday.

Porter leaves a widow and five children.

INGERSOLL CHIEF GOES TO NEW LISKEARD

Police Officer Goodman Will Leave at Once for the Northern Town.

[Special to The Advertiser.]
Ingersoll, April 30.—Chief of Police Goodman has been notified that his application has been accepted by the municipal authorities of New Liskeard. He has been requested to report for duty with as little delay as possible, and it is probable arrangements will be made whereby he will be able to leave Ingersoll shortly. The position is a good one, the salary being \$1,000 a year, and two uniforms. Chief Goodman recently handed in his resignation to the police committee of the council and it was accepted.

Messrs. Clinton Beck, Morton Bowes and Chief Kyle left for New Liskeard, where they will spend the summer. A large concourse of relatives and friends followed the remains of the deceased to their resting place in the Ingersoll rural cemetery yesterday afternoon. The funeral, which was held from the family residence, was largely attended by the people of the town and friends from a distance. The deceased, who was 75 years of age, had resided here all his life, and was naturally widely known. That he had formed strong and lasting friendships was attested by the numerous floral tributes. The following acted as pall-bearers: Drs. Walker, MacKay, Rogers, Neff, Coleridge and Canfield.

A change in the ownership of a Thames street business went into effect today. Mr. L. P. Desmond has purchased the confectionery and ice cream business conducted for over a year by George Henderson.

Miss Ethel McCann, of Dorchester, for some time the efficient organist and choir leader of St. Paul's Church, was very pleasantly surprised by the large number of her friends, who gathered at the home of Mrs. Wm. Azur. During the course of the evening Miss McCann was tendered a Limoges shower. She received numerous complimentary articles, all of which will serve to remind her of her many Ingersoll friends.

MR. MABEE ILL

Toronto, April 30.—Mr. J. P. Mabee, chairman of the Durham County board, was taken ill yesterday afternoon during the sitting of the commission, which commenced its regular session at the city hall. His physician, Dr. Elliott, of Bloor street east, was summoned, and diagnosed the case as appendicitis. Mr. Mabee was advised to go to the hospital at once, and is now in St. Michael's, where his illness will confine him for a number of days. Dr. Elliott could not say last night just how serious the condition of his patient was, but he will not be able to re-board his duties on the railway board for some time, and whether an operation will be necessary or not will not be known until further developments.

It appears that Mr. Mabee felt ill shortly after the afternoon session of the commission opened, but it was not until the latter part of the sitting that he decided to send for his physician, and a few of those in attendance at the meeting of the board knew of the chairman's illness.

QUEUES MUST GO.
Shanghai, April 29.—Republicans in the districts around Shanghai are attacking all residents who still wear queues, forcibly cutting off the objectionable appendages. The coolies and others in the international settlement, who still retain their queues, are afraid to venture beyond the limits. The result has been some collisions between the municipal police and the so-called reformers.

CONTRACTED HEAVY COLD
Was In Bed Two Months.
DOCTORS DID NOT SEEM TO DO HER ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all probability, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Miss N. McCumber, St. Martin's N.B., writes:—"In January last I contracted a heavy cold which kept me in bed nearly two months, and the doctors didn't seem to be able to do me any good. I tried several proprietary medicines, but all in vain. One day a friend advised me to try Dr. Wood's Norway Pine Syrup, and when I had taken three bottles I was completely cured, and feel as well today as I ever did, and I am sure my lungs are once more sound, thanks to that wonderful remedy."

Most Complete Dictionary Ever Printed Is Ready

It Is Really an Encyclopaedia, Too, and Is To Be Obtained Easily.

HAS ALL THE NEW WORDS.

Splendidly Illustrated, With Easy and Correct Pronunciation.

The most complete dictionary ever printed, containing a greater variety of carefully compiled and intelligently presented information than ever has been included in any like publication, is just off the press. It is called Webster's New Illustrated Dictionary, and is based upon Noah Webster's Dictionary, revised and brought up to date, in accordance with the most eminent English and American authorities on spelling, pronunciation and definition. The work is designed to meet the popular demand for a convenient, complete and reliable dictionary.

This dictionary can be obtained by subscribers to The Advertiser, on presentation of six coupons printed in another part of the paper. By an arrangement with the publishers the book is offered free of charge, the only expense to the subscribers being the cost of packing, shipping, and other small necessary expenses.

The book may be called an encyclopaedia as well as a dictionary. It will make an exceedingly valuable addition to any library, especially in the homes of those who are children attending school. The pupil who has a knotty problem to unravel can find the solution here. The information and knowledge that is needed in every-day life are presented in a book of convenient size, which can be kept at the elbow for ready reference. For example, there are 32 pages with illustrations in color as the flags of all varieties in their natural colors, costumes worn in the last 400 years down to the hobbleskirt. Indeed, nothing appears to have been omitted.

The work contains all the words of the English language that are not peculiarly appropriate to a dictionary of technical terms. The spelling, pronunciation, and meaning of each word are given, and the words are arranged in alphabetical order.

Each word is plainly indicated by phonetic spelling, and the definitions are presented in a most comprehensive, concise, accurate and reliable manner. As a kind of preface to the dictionary proper is a treatise on abbreviations of the parts of speech and the grammatical composition and derivation of words in the English language. As a means of promoting the correctness of speech, both spoken and written, an analysis of the "Principles of Grammar" is given. The rules adopted by the Simplified Spelling Board are given under the head of words spelled in two ways, of which the board of the Simplified Spelling Board is a simpler spelling, and the other a more complicated one, which is the more common.

Every new word recently coined and adopted by custom has been included. For example, the word "Oscilize," taken from Professor Osler, who would chloroform people at the age of 45, when, according to his theory, they have outlived their usefulness. Also there are aviator and biplane and brainstorm and stovaine and taxicab and equilibrator, all of which have recently come into use by stress of necessity.

The illustrations are the most complete, elaborate and expensive that have ever appeared in a dictionary. They include colored and monochrome plates and colored charts. Six hundred and fifty subjects are illustrated by the color plates, nearly fifty by the monochrome, and the rest by the colored charts. The dictionary is printed on strong Bible paper from clear plates. An important feature is the large type. The dictionary contains a most valuable aid to a thorough mastery of the language.

If you would enrich your vocabulary, this is the book to get. It includes the words and colloquial expressions, foreign words and phrases, Christian names of men and women, the metric system of weights and measures, time differences all over the world, the electoral vote, the 1900 census, languages of flowers, language of signs, the origin and meaning of the names of places, commercial and legal terms, familiar allusions, famous characters, decisive battles of the world's history, and in fact, nothing seems to have been overlooked. The work is in reality an encyclopaedia.

The dictionary is in three styles of binding, and all are included in the offer made through The Advertiser. No. 1 is a beautiful book bound in full limp leather, flexible and stamped in gold on back and sides. It is printed on strong Bible paper with red edges and with rounded corners. It makes a handsome appearance and is durable. This book would ornament any study or library or desk. It is compact and small enough not to be cumbersome. Besides the subjects described above, this edition contains over 600 illustrations by monochrome, and sixteen pages of charts in two colors. The latest census is also included.

No. 2 is the same book as No. 1 except in style of binding. It is in half leather, with olive edges and square corners.

No. 3 is bound in plain, serviceable cloth, and is stamped in gold on back and sides. It is printed on strong Bible paper, but does not contain the beautiful colored plates and charts which illustrate the other two volumes. The illustrations are in monochrome, and the work is complete as to contents.

Everybody needs and should have this magnificent dictionary.

A SURMISE.
[Judge.]
"That," said the musician, "is a Stradivarius. It is worth thousands."

"H'm!" replied Mr. Cumroo, rather warily. "I suppose music is something like the drug business. Things cost more when you call them by their Latin names."

HOW HE WAS HURT.
[Judge.]
Sunday School Teacher—And when the prodigal son came home, what happened, Tommy?

Tommy—His father ran to meet him and hurt himself.
Sunday School Teacher—Why, where did you get that?
Tommy—It is said his father ran and fell on his neck. I bet it would hurt you to fall on your neck.

More New Things More Economies More Urgent News

There has been a break in the market for Women's Dress Skirts—We have had our pick—We have taken the cream—And so tomorrow

The Secret of These Remarkable Shirtwaists Lies in Our Close Touch With the Best Producing Markets

That this store has for many years held the leadership in waist selling is due principally to the fact that the service is one to be relied on—to be relied on for correct styles, better quality in materials and trimmings than are to be found elsewhere at the same price. And not a single garment is allowed to go on sale that does not satisfy our buyers. Even in big purchases we will not accept a single garment that in any way falls short of the store's standard of value-giving or nicety in make or finish.

Special Lawn Waists 98¢

Neat White Lawn Waist, high neck, ¾ sleeves, fastens at back and prettily trimmed with embroidery and insertion; has side pleating of fine lawn and Val. lace; sizes 34 to 42. Price . . . 89¢

[Entered at London Postoffice for transmission through the mails as second-class matter.]

LONDON, TUESDAY, APRIL 30.

UNFAIR TO WESTERN ONTARIO.

The Ottawa Government, through sheer partisan spite, has determined to cripple the mail service of Western Ontario.

After May 1 no mail will be carried on the Grand Trunk train known as the Flying Post, which reaches this city at 5:55 a.m., in time to make connections with the morning mail trains out of London to all parts of this district. This train has carried to Western Ontario, in time for morning delivery, all mail from the East which reached Toronto up to 2:55 a.m., as well as letters posted in Toronto at night. It gave the people of Western Ontario their Eastern mail hours before the old arrangement. They are to be robbed of these facilities because the postoffice department has had a dispute with the Toronto Globe. The western mail now leaving Toronto at 2:55 a.m. on the Flying Post, will leave at 11:20 p.m. during May, and at 11:40 p.m. after June 1. This is a return to the old, unsatisfactory service. It is putting back the hands of the clock literally and metaphorically.

The Flying Post is to be continued as a newspaper enterprise, but it will carry no mail. While Western Ontario people will get Toronto newspapers early in the morning, they will have to wait hours for Eastern letters, which could be delivered at the same time as the newspapers. If the Government were so disposed, but the Government has quarrelled with one newspaper, and all Western Ontario must suffer. From paltry motives it withdrew its support from the Flying Post, in the expectation that the Flying Post would disappear. But the Flying Post is to go on just the same, except that over a million people are to lose most of its advantages. Against this injustice there ought to be a protest from every part of this western peninsula.

HOME RULE FOR SCOTLAND.

Alongside the Irish and Welsh agitations is now cropping up a Scottish Nationalist movement. A resolution was not long ago passed by a majority of 98 in the House of Commons, to this effect:

"That in the opinion of this House any measure providing for the delegation of parliamentary powers to Ireland would be followed in this Parliament by the granting of similar powers of self-government to Scotland, as part of a general scheme of devolution."

Dr. Chapple, Liberal member for Stirlingshire, indicated, in moving the resolution, some of the disabilities that Scotland labors under in having no local legislature of her own; a state church to which only a minority of the people belong; the education system hampered by bureaucratic control from London, until a year ago iniquitous land laws causing depopulation of the rural country, and still a liquor traffic backed by the peerage and the bourgeoisie, whose strength centres in England. It is true that a large amount of devolution has already taken place, but it needs to be attended by legislative power and administrative control.

Of course, the same Unionists who were crying out two years ago for 'Home Rule All Round' are now opposing all 'round. Mr. Bonar Law deprecates national sentiment on such a subject. But even apart from national or local needs the British Government and British Parliament cannot go on forever breaking its back with congested affairs, big and little. The time has come to all reasonable thinking, for a division of labor. And it is not right that important matters should be divided up among committees or bureaux merely, the Houses of Parliament becoming in the main a voting machine. Finance, for instance, finds little enough space of time for adequate discussion. But it would be ridiculous to propose for a federal system in the British Isles divisions other than those indicated by nationality. It is like putting one's head ostrich-like into the sand, to refuse to recognize the existence of an Ireland, a Scotland, a Wales, each with national characteristics, and peculiar temper and ambitions of its own. Scotland has now its own Local Government Board, its own church, its own bench, its own judicial system, banking and paper currency system, a separate education, etc. It has always been and is a nation, though administered from London. Before long, as sure as the sun rises and sets, though hardly in the present Parliament, there will be a restored local government at Edinburgh, with great advantage to Scotland, and great relief to the burdened Titan at Westminster.

MR. BORDEN AS AN IDEALIST.

The other night the Premier of Canada and the President of the United States addressed a great gathering of newspaper workers at New York through the telephone. The Premier speaking from Hot Springs, Va., the President from Boston. By means of a new invention the sound of their voices was magnified so as to be distinctly heard by the assembly. Speaking of the material development of the past quarter of a century, Mr. Borden said:

"The vast increase of wealth has been attended with an enormous and alarming inequality in its distribution. It cannot be denied that this inequality in its distribution is attended with a certain danger or even menace to the existence of democratic institutions in their present form. Equality of result can never be expected or attained under an individualistic system of national organization, inasmuch as men differ widely in their energies and capacities. But no democracy is built upon an enduring foundation if it fails to endow its citizens with equality of opportunity so far as that may be humanly possible.

"The modern democracy is learning this lesson slowly and painfully. I do not doubt that in the end it will be learned thoroughly. Otherwise I would have little faith in the permanence of existing systems of government in the English-speaking world; but no nation, however advanced in its industrialism, or powerful in its accumulated wealth, can long survive the shock of time except through the strength derived from the character of its people. That strength must assuredly be based upon faith and action. How often does the voice of idealism make itself heard above the roar of the market place on this great western continent? Can faith endure in this stifling atmosphere?"

These admirable sentiments, admirably expressed. It may be wondered whether Mr. Borden felt any incongruity between his words and his actions. He is at the head of a Government elected by special interests and the forces of privilege. Every monopoly in Canada tightens its grip on the people when Mr. Borden's party won the last election. Mr. Borden's Government is upheld by men who aim to restrict equality of opportunity in order to line their own pockets. There is no equality of opportunity for the workingman who is taxed by food combines, for the farmer who is denied a great market for his products.

As an idealist Mr. Borden is praiseworthy—at the end of a telephone wire. But he is connected with other wires which are pulled by powerful influences in the market place of which he speaks.

A Federal Government helps the "Stay in Ontario" campaign by curtailing Western Ontario's mailing facilities.

In renewing every license, the East Middlesex license commissioners have given an impetus to the local option campaign in London Township.

As Mr. Taft thinks of Theodore he laments with the poet:

An open foe may prove a curse,
But a pretended friend is worse.

Judge Mabey has been stricken with appendicitis. There is no public servant in the country who can be separated from his duties less than the head of the railway commission.

The President of the United States has taken the stump like an ordinary politician. So long as the head of the Republic is the head of a party, this is defensible and inevitable. The French system is the better one, which puts the president, like the British sovereign, above party, leaving to the prime minister the leadership of the party in power.

Only one Liberal member voted against the Irish home rule bill, a coal owner who sought on the Government during the coal strike. This is the first time the Liberal party has been solidly behind a home rule measure. Even in 1893, though there was no split, some of Gladstone's foremost followers, like Lord Rosebery, were lukewarm.

The Toronto News says that the Manchester Guardian, the greatest Liberal daily in Great Britain, opposes the home rule bill, which is therefore dead. The opposition of the Guardian would be a blow indeed to the Asquith Government and the Irish cause. Happily for both, the Guardian is enthusiastically in favor of the chief provisions of the bill. It merely suggests that the Irish Senate be elective instead of appointive.

CAUSE FOR HAPPINESS.
[Cardston Globe.]

Mr. Carnegie says the farmer is the only happy man. But this is putting it a trifle strong. The citizen who finds that the suit he put away last fall will do for this spring is not to be overlooked.

APRIL 14, 1912.
[Chicago Tribune.]

We speed our life in questionings—
This Wherefore and that Why?
And nothing matters save the things
That teach us how to die.

NOT IMPRESSED BY SIR JAMES' FAD.
[Peterborough Review, Can.]

Two or three more meet. An invitation to have drink follows, and they line up before the bar. Each gets what he orders, but the law steps in to say that one must not pay for the others. Therefore, with mutual consent, each pays for his own drink, or drinks, instead of each "standing treat," and thus equally dividing the expense. The solitary drinker is not molested. The prohibition of treating will not prevent two or three friends, or half a dozen from passing an evening in the bar together, or sitting down for a jamboree. All that is imposed is that each man must bear his own expenses. In the majority of cases the expense end will work very much the same as if there were no anti-treating law.

SHAUGHNESSY ON HOME RULE.
[Sir Thomas Shaughnessy, President Canadian Pacific Railway.]

"Not being a public life man, expressions must be accepted as those of an individual British citizen earnestly concerned in everything calculated to promote the progress and prosperity of every section of the Empire. To one who has never lived in that kind of atmosphere the animosities and prejudices that have with varying degrees of intensity divided the Irish people for many generations

are past understanding, and surely the time has come when, in the interest of the whole nation, they should be eradicated. The proposed bill will, I am sure, go far towards accomplishing this. As you know, it is framed upon lines that I always thought reasonable and practical, and I confidently believe that when the measure has had a reasonable trial, England, Scotland, and Wales will demand a like control of their own local affairs, leaving to the Imperial Parliament the really big legislation incidental to His Majesty's dominions throughout the world.

THE VILLAGE PREACHER.
[Olive Goldsmith.]

At church, with meek and unaffected grace,
His looks adorned the venerable place;
Truth from his lips prevailed with double sway,
And fools who came to scoff, remained to pray.

The service past, around the pious man,
With ready zeal, all eager to do him wrong,
A Ben child followed with endeavoring smile,
And plucked his gown to share the good man's smile;
His ready smile a parent's warmth expressed,
Their welfare pleased him, and their cares distressed.

To them his heart, his love, his griefs were given,
But all his serious thought had rest in heaven.
As some tall cliff that lifts its awful form,
Swells from the vale, and midway leaves the storm,
Though round its breast the heaviest clouds roll,
Eternal sunshine sits on its lone head.

A TRAP FOR HER.
[Judge.]

"I see your wife has been in a bandage. What is the matter?"
"I set a mouse trap and put it in my pocket last night."

THE INSURGENTS.
[Toronto Star.]

Mr. Bennett, of Calgary, says that the Canadian West is largely peopled by American farmers, who have been taught to hate Wall street and the East, and who think that the Canadian West may be similarly dominated by "big interests" in the East. Mr. Bennett and the journals which support him think that the remedy lies in sternly suppressing all talk about the big interests. Our opinion is that the remedy lies in sternly restraining the big interests, and not allowing them to dominate either East or West. If the big interests are not abusing their powers, more talk will do no harm. If the big interests are abusing their powers, the sound policy is to attack the abuse, not to say "hush" to everybody who complains of it. For our part, we welcome the sturdy American farmers, who are thoroughly imbued with the idea of asserting their rights against Wall street, and every institution that copies Wall Street methods.

REBUKING RUDYARD.
[From an Open Letter to Rudyard Kipling.]

After all this high speech about the Lord and the hour of national darkness, it shocks me to find that following your verses: "Copyrighted in the United States of America by Rudyard Kipling. You are not in vent. You are the most successful man of letters of your time, and yet you are not above making profit out of the perils of which you write. You are the lordly speech of the prophets, and you conclude by warning everybody not to imitate your words at their peril. In England, where you have dedicated your genius to his country without gain, and has given without stint, without any niggardly withholding of his gift when his nation was in dark and evil days, one of our writers who deeply moved about Ireland has tried to sell the gift of the spirit. . . . You, brother, hurt me when you declare your principles and declare a dividend to yourself out of your patriotism openly and at the same time.

"AN AGE OF UNREST."
[Arthur Henderson, Labor M.P.]

"We are living in a period of comprehensive and perplexing transition. Inquiry, change, and unrest appear to be the order of the day. King Democracy, moved by a deepening and ever-growing discontent, seeks to come to his own."

Organized Christianity had now to confess that, in spite of its excellent machinery, it failed to arrest the masses; vital religion with the masses was undoubtedly at a great distance, and faith was being very largely superseded by form in the religious life. The Sabbath was gradually, but surely, being robbed of its sacredness and sanctity, and is becoming a day of work and pleasure.

Where are these events leading them? Of this, however, he might agree, he upheld the opinion that the secret of our national prosperity had ever been formed in our abiding fear of God as a nation. In his judgment it was the spirit of this nation's greatness, the foundation of this nation's greatness.

MR. A. E. NUTTER
LEAVES CITY'S EMPLOY
[Cardston Globe.]

City Architect Has Been in City Hall for Four Years.

Wednesday the city will be without the services of a city architect and building inspector. Today Mr. A. E. Nutter, who has held the dual position for four years, leaves the city. His position has been abolished, and another person will be appointed building inspector. It is expected that the board of works will recommend a man at its next meeting, Thursday night. From present indications, Mr. John Shopland will be named. Mr. W. A. Piper, who is at the present time draughtsman in Mr. Nutter's office, is also mentioned in connection with the place.

MARCONI SAILS.
New York, April 30.—Guglielmo Marconi, who has completed his testimony before the Senate committee investigating the Titanic disaster, sailed today for Bremen on the Kaiser Wilhelm II. Mr. Marconi said he would also go to London, and expected to be called as a witness in the investigation of the disaster begun by the British authorities.

There has been apparently little or no diminution in ocean traffic on account of the Titanic's fate. Aboard the Kaiser Wilhelm II. there was no vacant cabin, and all the officers' rooms had been let out. The vessel carried 1,495 passengers, the heaviest list she has ever had at this season of the year.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

THE LAND OF LETTERS

[By Special Arrangement With the Winnipeg Telegram.]

According to the stories told by survivors of the Titanic disaster, that great English journalist, the late William T. Stead, often talked with his fellow-passengers on a subject which lay very near to his heart. "Can we receive messages from the spirit world?" It has already been pointed out that in 1892 in the Christmas number of the Review of Reviews, Mr. Stead wrote a vivid story of the sinking of a White Star liner as a result of a collision with an iceberg in the mid-Atlantic. That story, however, contains no reference to the occult. It does not indicate that the writer depended upon any other source for his material than the active imagination with which he was gifted; nor does it contain any hint that he himself expected to meet such a fate. Still it is a matter for wonder that the veteran journalist should have depicted such a disaster with the two significant details of an immense ocean liner of the White Star Line and the huge iceberg.

The other day I turned to a recent book by Mr. Stead. It bears this arresting title, "How I Know That the Dead Return." In the first chapter he begins his argument in this style: "In order to form a definite idea of the problem which we are about to attack, let us imagine the grave as if it were the Atlantic ocean, as it appeared to our forefathers before the days of Christopher Columbus. In order to make the parallel complete, it is necessary to suppose that the Atlantic could only be traversed by vessels from east to west, and that ocean currents or strong easterly gales rendered it impossible for any voyager from Europe to America to return to the Old World. We shall thus be able to form a simple but perfectly clear conception of the difficulties which I am now about to discuss." After many failures, he says, communication would be set up between the two continents; the people in the unknown western world would be able to send messages back to Europe by means of wireless telegraphy. And now we come upon a paragraph which makes curious reading in the light of recent events:

"At last, after innumerable disappointments, it is possible that the recipient of the last exploring expedition might succeed in getting through a message, clear, direct to the point, such as this: 'From Captain Smith, of the Resolute, Lloyds, of London. Alive and well. Discovered new world filled with descendants of Christopher Columbus and his men.'"

For years Mr. Stead has claimed that communication has been established between living beings and the dwellers in the world beyond. In that clear, transparent style of which he was master, he cites in this book many illustrations to show that he was able to write messages from friends at a distance, and even from spirits. Alluding to the death of his son he says: "Twelve months have now passed, in almost every week of which I have been cheered and comforted by messages from my boy, who is nearer and dearer to me than ever before." In 1909 when he wrote this remarkable little book, he claimed that for more than fifteen years he had received messages from the spirit of a dead friend called Julia. He was his own medium in receiving these messages. One of the most interesting of these communications was Julia's prophecy that one of his employees, E. M., would die within a year. The message read, "Be very patient with E. M.; she is coming over to our side before the end of the year." Sure enough the woman died. We must give Mr. Stead the credit of being a very sincere man; undoubtedly he had telepathic powers, but whether he was really given actual messages from beyond I am not prepared to say. His own fancy may have been assisted by coincidences. His little book is strange; 'tis passing strange!

A Few Lines of Most Anything

OUR PRECISE ARTIST.

"A Lap Supper."

Whether it deserves is or not, a street railway is always the most popular of targets for the guns of General Dissatisfaction.

A young Greek who graduated as a guber merchant and then began to shine shoes, got mixed in his English a day or two ago, and when he approached a man waiting to have his shoes shined asked him: "Peanuts?"

Being willing to increase his circulation among the ivy-clad population, this fastest growing daily is in favor of free admission to ball games for all small boys.

Joseph Payne has joined the staff of the Kodak movie market—Rodney Mercury. In other words, he has become one of the village cut-ups.

It must be difficult for Titanic survivors to survive all these Titanic poems.

It is a well-known fact that the ladies of Baldoon know how to make good financial provision for their future just as soon as they were made—Baldoon correspondence of the Wallaceburg News. But these disappointing panaceas are not a circumstance to the cancan that chased a dog and other things that used to come out of Baldoon.

Karl Osborn has got over his attack of the mumps, and the new English dog that has come to Mr. Osborn's has taken it—Simcoe Reformer. That English boy will think Canada is a swell country, all right.

People in Pullman cars and first cabins usually escape. But should any man have to pay for safety?

Ah! This is Rubbing it In. The Flying Post will NOT be discontinued.

Only 11 of the 1,501 vessels that entered New York last year were sailing craft.

An advertising poster reads: "This famous quartette will furnish solos, duos and trios."

A Good "Older-on."
[Thamesville Herald.]

Wm. Buxton has a new horse. It tried to run away on London street Tuesday afternoon, but William's command proved too skillful for the equine. William says he is a good "older-on."

Here Goes the Raspberry Crop!
[Albertville Echo.]

Fruit men find that the strawberry plants wintered well, but the frost did a great deal of damage to raspberry bushes, splitting the bark near the ground and killing them off. That means that the raspberry crop will be short the coming season.

Consoling a Walpole Widow.
[Wallaceburg News.]

While her husband is an exile from his native island, a Walpole widow is receiving the consolation and comfort from a good man—by the good name of Sausage, who is as good as the widow's life of preaching. There is a man of the Bible who lost his great strength when a lady caused his locks to be cut off, and he was fond of the women.

Somebody Blundered.
[Aliga Craig Banner.]

Several of our esteemed fellow citizens were awakened from their slumber by the loud peals of the town bell early last Friday morning. Thinking it was 7 o'clock several of them grabbed a soda biscuit and rushed madly to work only to find that the sound of the bell was still stirring the official bell ringer having made a mistake of one hour in his calculation as to the time. Please don't do this any more.

TORONTO WORKMAN FALLS TEN FLOORS TO DEATH

Losing His Balance While Riding on Hoist to Top of a Skyscraper.

[Canadian Press.]

Toronto, April 29.—The first fatal accident in connection with the construction of the new C. P. R. skyscraper at the corner of King and Yonge streets, occurred this morning when John Cockle, an Englishman, employed as a carpenter, fell off the hoist at the tenth story and landed in the sub-basement 150 feet below. He was instantly killed. Cockle was riding on the hoist, carrying material for the workmen on the sixteenth story, when he lost his balance.

[Canadian Press.]

New York, April 29.—The White Star Line made public today a wireless telegram received by the Halifax agent of the line from the Western Union cable ship Minla, now searching for bodies of those who died in the Titanic disaster. The message is dated last midnight and reads as follows:

"If bodies afloat, believe late north gales swept them into Gulf Stream. Have searched to longitude 48:20, between latitudes 41:20, and 41:50, and have recovered one body. Total, fourteen. Two unknown buried at sea, and believed on board mostly of crew. Last two, C. Howell, steward; L. A. Cartwright, underclothing marked H. C. 145. Apparently steward."

Unsightly Skin Diseases

Disfiguring skin diseases always seem to appear on the face and hands, so that they cause a feeling of shame as well as pain and suffering.

Internal treatments have never proven very satisfactory in the treatment of eczema and similar skin troubles, but when Dr. Chase's Ointment is applied you can see for yourself and feel for yourself the benefits which are being obtained.

It soothes the inflamed, irritated skin so that itching ceases, and by its extraordinary healing power causes a new, smooth skin to form where the sores have been.

In every home there are many uses for Dr. Chase's Ointment, as for pimples and blackheads, barber's itch, chafing, erysipelas, chilblains and wherever there is itching skin or a sore, veruolcer that refuses to heal. This ointment is pure, clean and pleasant to use and may be applied to the most delicate skin.

Franklin.

SWEPT BY BIG GALE INTO THE GULF STREAM

Bodies of Titanic Wreck Probably Carried Many Miles to the Eastward.

[Canadian Press.]

New York, April 29.—The White Star Line made public today a wireless telegram received by the Halifax agent of the line from the Western Union cable ship Minla, now searching for bodies of those who died in the Titanic disaster. The message is dated last midnight and reads as follows:

"If bodies afloat, believe late north gales swept them into Gulf Stream. Have searched to longitude 48:20, between latitudes 41:20, and 41:50, and have recovered one body. Total, fourteen. Two unknown buried at sea, and believed on board mostly of crew. Last two, C. Howell, steward; L. A. Cartwright, underclothing marked H. C. 145. Apparently steward."

SEEDING PARTLY DONE.
[Special to The Advertiser.]

Mapleton, April 29.—Seeding here is partly done. Fall wheat is fairly good, with the exception of a few bare spots, where the ice killed it. Clover is hardly up to the average. There is a general scarcity of help, and many farmers would be pleased to secure a good man.

CHAPMAN'S

WASH GOODS New Arrivals in American Wash Goods

This is our latest shipment of American Wash Goods. It includes the most wanted kinds of summer fabrics, as well as some of the scarcest weaves, such as Bedford, Voiles and Ratines.

248 DUNDAS STREET, LONDON.

HALF MILLION LOST IN NEW YORK BLAZE

Offices of Appleton, Publishers, and Many Others Swept By the Flames.

[Canadian Press.]

New York, April 29.—Fire today broke out in the top floors of the 12-story Building Exchange building on West Thirty-second street, and before it was extinguished four floors were burned out, causing a loss estimated at \$500,000. The offices of D. Appleton, publishers, were swept by flames, and a dozen or more printing and mercantile establishments were burned out.

DAMAGE SUIT TAKEN AGAINST WHITE STAR

Wife of One Perished in the Titanic Starts Action.

[Canadian Press.]

Washington, April 29.—Under a proceeding in admiralty court here today J. Bence Ismay, managing director of the International Mercantile Marine, was summoned to appear this afternoon before a commissioner to give testimony to be used in a suit of Mrs. Louise Robbins, of New York, against the White Star Line. Mrs. Robbins' husband, George Robbins, was lost in the Titanic disaster. Subpoenas also were issued by the admiralty court for the surviving officers of the Titanic.

JUDGE MABEE GOES UNDER OPERATION

Chairman of Railway Commission Will Be Around in Few Weeks.

[Canadian Press.]

Toronto, April 30.—Judge J. P. Mabey, chairman of the Dominion railway commission, went under an operation for appendicitis this morning at St. Michael's Hospital, and is resting well now. He stood the operation very well, and will be around again in a few weeks.

FOUND GUILTY.

[Special to The Advertiser.]

Simcoe, April 29.—George Snodgrass and Roy Winters, convicted by Judge Robb of shopbreaking, were sentenced to four and five years respectively in Kingston Penitentiary today.

SEIZED GILL NETS.

[Special to The Advertiser.]

Kingsville, April 29.—The revenue cutter Vigilant has picked up three lots of United States gill nets in Canadian waters this week and brought them here.

LOST VITALITY

Caused by Kidney, Stomach and Bowel Disorders

St. John, N. B., Sept. 18, 1911.—My brother was a great sufferer from kidney, stomach and bowel troubles and was given up by two doctors. He was advised to try your Fig Pills, which he did, and after taking five boxes was completely restored to health and is better today than he has been for years. You can't recommend Fig Pills too highly.

J. W. MANYERS.

At all dealers, 25 and 50 cents, or the Fig Pill Company, St. Thomas, Ont. Sold in London by Taylor Drug Company, 299 Talbot street.

Cynthia Grey and EVERY WOMAN'S Page

Cooking Secrets of a Famous Chef

By Emile Bailly, of the St. Regis Hotel

CORRESPONDENCE

Edited by Cynthia Grey.

A Farmhouse Parlor.
Dear Miss Grey: Will you kindly tell me through your columns before next week, if possible, what color and style wall paper would be most suitable for a parlor in a farmhouse, with an east, also south and west window in a farmhouse. Also what style curtains. At present there are white ones in use. Is it possible to color white lace curtains, buff or cream at home? The woodwork and floor around rug is stained and varnished a light oak. The ground work of rug is in shades of brown, and has clusters of red roses and green leaves. What furniture would be nice and what would I need to make it cozy looking? It is a large room and has a nine-foot ceiling. Would you suggest a drop ceiling effect? I have in mind a plain, green oatmeal paper with floral border and white mottle ceiling.

IGNORAMUS.

A.—The paper you mention, as well as an orange, is quite suited to your room. Personally, I have a liking for amber tints in wall covering, but either green or amber would harmonize with your rug and woodwork. Green has the advantage of looking cooler in summer.

Perhaps, on the whole, white curtains give the most satisfaction. Curtains may easily be given the corn tint by rinsing them in coffee water, after washing them in the usual manner. Do not use bluing.

As to furniture, needs differ with the circumstances and size of a family. It is hard to give suggestions. A comfortable couch, a settee, two or three chairs that are really "easy" ones, and a couple of small tables are desirable furnishings. If your parlor is for practical use, you could add a small bookcase and writing table, and, of course, a piano and music cabinet are always an adornment to a parlor.

Polly's Perplexities.

My Dear Miss Grey: 1. Should a girl of thirteen receive frequent remembrances from school boys of her own age, if their mothers do not know it? 2. How should I wear my hair? Is it all right to wear it over my head in braids with a bow on the back? 3. Is there any way that I can make my fingers shorter and knuckles smaller? 4. What do you think of my writing? Do you think I could pass an entrance examination? Thanking you in advance. TROUBLESOME POLLY.

A.—1. It is best to confide in mother. Polly. You'll never regret it in later years. 2. The style you mention is very nice for a girl of your age. 3. I do not know of any. Keep your hands and nails as immaculate as possible. 4. A neat, dainty, well-kept hand is a credit to any girl, even though they are not as shapely as she would wish. Your writing is quite neat and something to be proud of. Don't mind the teasing in the least. 2. Very neat and legible for a girl of your age.

Cheeks Like Roses.

My Dear Miss Grey: I have written to you before, and I received a satisfactory answer, so thought I would bother you again. I am a girl of thirteen, and am yet going to school. My cheeks are nearly always red, and because of this I am always being teased. What would you think of a girl friend of yours who would do this? 2. What do you think of my writing? Hoping to see this in print. I remain, "TORMENTED."

A.—1. Rosy cheeks are, usually, a sign of health, and you should be proud to have them. Don't mind the teasing in the least. 2. Very neat and legible for a girl of your age.

Altering a Nose.

Dear Miss Grey: I am a person whose nose is rather broad and changes its shape by massage. If so, how may it be done? 2. What colors would be suitable for spring for a girl with a good complexion, fair hair and blue eyes? Yours, M. M.

A.—1. I do not think massage would make any noticeable improvement. Best be content with nature's handiwork. 2. Delicate shades of green and blue, with a touch of two or three black.

THE DAILY MENU

BREAKFAST.
Graham Muffins. Honey.
Omelet. Coffee.

SUPPER OR LUNCHEON.
Pigs in Blankets.
Escalloped Potatoes.
Fresh Fruit. Chocolate.

DINNER.

Oxtail Soup. Crackers.
Roast Ribs of Beef. Yorkshire Pudding.
Creamed Cauliflower.
Combination Vegetable Salad.
French Dressing.
Caramel Custard. Cookies.
Coffee.

Pigs in Blankets.

One pound sausage meat, four teaspoonsful baking powder, one-half teaspoonful salt, two cups flour, three-fourths cup butter.

Form the sausage meat into rolls one and one-half inches in diameter and four inches in length. With the remaining ingredients make a biscuit dough. Roll half-inch thick, cut in four by five inch strips. Fold each strip about a fold of sausage meat. Pinch the ends together, place in baking tin like rolls. Bake fifteen minutes in a moderate oven.

Caramel Custard.

One-half cup sugar, one-half cup boiling water, two eggs, two cups scalded milk, one-half teaspoonful salt, one teaspoonful vanilla.

Melt sugar in omelet pan and stir constantly over heat until syrup becomes amber color; add water slowly. Butter four custard cups and pour one-quarter of caramel into each. Beat eggs lightly, add sugar and salt and scalded milk gradually. Strain into custard cups containing the caramel. Custard is set. Serve in pretty glasses.

Yorkshire Pudding.

One-fourth pint flour, one-half pint milk, one egg, one-half teaspoonful salt, one-half cup milk and flour sifted with baking powder. Beat until smooth, pour into baker, which has been well greased with beef drippings. Bake in a hot oven twenty-five minutes, basting frequently with beef drippings. Cut in squares and serve with roast beef.

JUST BE GLAD.

Oh! Heart of mine, we shouldn't worry so!
What we've missed of calm, we couldn't have, you know;
What we've met of stormy pain,
And of sorrow's driving rain,
We can better meet again,
If they blow.

We have cried in that dark hour, we have known
When the tears fell with the showers, all alone,
Were not sunshine and shadow bleat
As the gracious Master meant?
Let us temper our content
With His own.

For we know not every morrow
can be sad;
So, forgetting all the sorrows
we have had,
Let us fold away our fears
An put by our foolish tears,
And through all the coming
years,

Just be glad,
—James Whitcomb Riley.

THINGS TO REMEMBER

To bleach faded muslin, allow a tablespoonful of chloride of lime to every quart of water required. Stir the article about in this water until all color has disappeared, and then rinse very thoroughly in clear water.

To keep the bugs and insects which infest your trees from killing the blossoms or leaves, wrap a piece of cotton around the centre of the body, and cover the cotton with a piece of fly paper. This is invaluable. Try it. Use sticky side out.

When the icing becomes too hard to spread easily, soften it by adding a little water drop by drop. Beat it constantly while adding the water. If the icing is too thin, it may be thickened by adding powdered sugar.

To mend a hole in a sweater, use yarn as for darning, start at the top and chain stitch down the length of the hole with a darning needle, catching each loop securely. You will have a neat piece of work and no one will notice where the hole has been.

No. 9232 — Solid Comfort Amidst Home or Household Duties.

The attractive and becoming house dress here shown covers a long-felt want, since it embodies convenience and comfort, and is easily adjusted. The waist and skirt are joined to the belt and close at the side. The sleeve may be finished in elbow length or in full length and closed at the inner seam with buttons and buttonholes. The usual cotton goods, such as gingham, percale, India linen and chambray may be used for this model. The fullness of the waist is gathered into the belt, the yoke on the back may be omitted, the skirt has nine gores, and may be finished with inverted plait or gathered fullness at the centre back. The pattern is cut in seven sizes: 32, 34, 36, 38, 40, 42 and 44 inches, bust measure. It requires 9½ yards of 24-inch material for the 36-inch size. A pattern of this illustration mailed to any address on receipt of ten cents in silver or stamps.

PATTERN DEPARTMENT OF THE ADVERTISER.

By EMILE BAILLY.

IN my last article I announced that I should tell my readers how to make mayonnaise. I must begin at once or I shall not have enough space for half I want to say.

Mayonnaise.

One pint of olive oil.
Four yolks of eggs, raw.
Salt, pepper.
Vinegar or lemon juice.

Put the yolks into a deep dish or terrine, beat them up with a good spoonful of cold water.

Add the oil, pouring in a very small quantity only at one time and continue to beat constantly.

Put in two soup spoonfuls of vinegar, a pinch of white pepper and two of salt. The seasoning and the vinegar should be added after all the oil has been put in drop by drop and blended. Taste to be sure about the seasoning. If the sauce is too thick a little more vinegar or lemon juice which can be used instead, will thin it to the right degree.

The secret of a good mayonnaise is to have perfectly fresh eggs, pure olive oil and work the sauce in a moderate temperature.

Sauce Tartar.

Mayonnaise made with the yolks of boiled eggs (six yolks to one pint of oil). Proceed as with the other mayonnaise. Add English mustard, chervil leaves and estragon leaves shredded very fine.

Stuffed Squabs en Casserole.

Clean thoroughly one or two squabs, fill them with stuffing, for which the receipt is given below. Salt and pepper them.

Place in a pan a good sized piece of butter, heat this and then put in the squabs and brown them, basting them frequently. Don't put them in the oven, but cover the pan and cook

BOILED FISH WITH CARDINAL SAUCE.

(Full instructions for preparing this dish will be found in the article below.)

on the stove for about fifteen minutes. Take out the squabs, place them in a fancy dish or a casserole with a good cover.

Take the gravy which remained in the pan, add a spoonful of Madeira and about one-quarter of a pint of jellied stock, butter about the size of a nut and blend thoroughly and pour over the squabs. Seal the dish with pastry as shown in the illustration.

Then put the casserole in a pan of boiling water and cook for ten minutes in the oven to finish the squabs and brown the pastry.

The stuffing is made with breast of chicken, raw, chopped very fine, and passed through a sieve, and some pieces of liver cut in small squares. Put this on ice for an hour or two. Add the white of one egg, a little cream, salt, pepper, cayenne; stir with

a wooden spoon. The cream should be poured in very slowly and it is difficult to tell exactly how much one needs. It depends entirely on the quality of the cream and on the way in which it is worked into the dressing. About one-half pint ordinarily. In order to be sure about it, drop a little of the stuffing into boiling water. It should not disintegrate.

Boiled Fish With Cardinal Sauce.

Take one onion, one carrot, a piece of thyme, two laurel leaves, two branches of parsley, several grains of pepper and salt. Cut the onion and carrot in round slices. Wet with cold water, according to quantity and cook for three-quarters of an hour. Strain through muslin and let the juice cool.

After having cleaned and washed the fish, put it in a fish kettle of the right size. Pour the juice over it, adding a bottle of white wine. The fish must be completely covered with the fluid. Let this come to a boil, then set on the back of the stove to finish. The time required depends entirely on the size and kind of fish to be cooked. When done place the fish on a napkin on a platter or, better still, on a dish with a grill, where it can drain. Trim with boiled potatoes, lemon and bunches of parsley.

Cardinal Sauce.

Take two teaspoonfuls of Bechamel sauce, one teaspoonful of the juice in which the fish was cooked and the same quantity of juice of truffles. Mix thoroughly and add one and a half soup spoonfuls of cream and finish with 25 or 30 grains of old lobster butter. Season with salt, pepper and cayenne.

The Bechamel (recipe already given) should be very thick and must be heated before adding the other ingredients. When all are well blended strain through muslin before putting in the lobster butter. Beat up thoroughly to get a foamy consistency. Put in sauce boat and garnish with a couple of thin slices of truffles.

STUFFED SQUAB EN CASSEROLE.
(M. Bailly's recipe for this is given in his accompanying article.)

to resign that post. But with her withdrawal from office, Mrs. Thornley's active interest has not ceased. She attends to all the correspondence and much of the other business of the union, and employs a stenographer to assist her with the work.

When asked by "The Nomad" the other day how she came to engage in temperance work, Mrs. Thornley stated that after since girlhood she had seen the great evils caused by intemperance. As a minister's daughter she was constantly brought into touch with mothers and wives who suffered disgrace and privations because of the curse.

The White Ribbon Tidings.
Regarding the White Ribbon Tidings, the official organ of the W. C. T. U., Mrs. Thornley said that five years ago the magazine had a deficit of almost \$1,200, incurred in the four previous years of publication. It was realized that immediate steps must be taken to place the magazine upon a more satisfactory financial basis. A new plan of advertising was adopted, whereby but one make of any commodity was advertised in the White Ribbon Tidings, and the members of the W. C. T. U. pledged themselves to favor those firms who used space in the columns of the magazine.

Disposition of the dollar membership fee was also re-arranged at that time. Under the new scheme, 40 cents was devoted to the magazine, and the remaining 60 cents is apportioned to aid the work in the local, provincial and dominion field. A percentage of each fee is also set apart to further the work all over the world, so that each local member not only has a share in helping at home, in Ontario, and in the Dominion, but also in whatever is being undertaken abroad.

Under this system the Tidings has so progressed that now it has a circulation in Ontario of 9,000, has wiped out the original debt, and at the beginning of the present financial year, had a surplus of \$900. The success of the magazine is due solely to the efforts of women like Mrs. Thornley, who have united executive ability with a perseverance and enthusiastic force that is bound to win out.

Not a Faddist.
Speaking on the suffrage movement, Mrs. Thornley is not at all in favor of the violent tactics pursued by Mrs. Pankhurst and her band. However, she believes the day to be coming when equal franchise will prevail. "Have you any particular hobby?" asked "The Nomad." Mrs. Thornley laughed. "None that I know of. My work does not leave much time for hobbies," she said. And as "The Nomad" looked around at the evidences of clerical work, which, however well systemized, requires daily attention and much time and thought, she thought she understood just why the kindly, motherly woman before her had no time for fads.

MRS. MAY THORNEY.

SOME 1912 FADS

What promises to be a very charming fad is the revival of the bracelet that has attached to it a tiny ring through which the handkerchief is slipped. Bracelets that broaden into an oval section large enough to contain a tiny vanity case in which are concealed a diminutive puff and a tuft of powder, are among the interesting novelties in an exclusive shop.

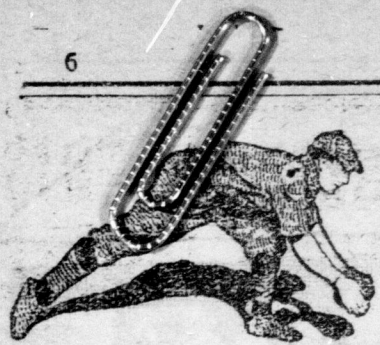

Thin black velvet neck bands with their slides of rhinestones will no doubt be much worn with the fichu effects in gowns this summer, as they seem especially suited to this quaint style. Belt buckles are another feature that the present modes of dress will popularize to a great extent. These are of generous size, of both the buckle and pin variety.

Barrettes for the hair are considerably smaller, and in anticipation of the high hair dressing which is returning to favor, the very small round and oval gold barrettes are being shown again. Rhinestone hair ornaments and barrettes are much seen, as well as a wide variety of pins ornamented with carved silver or gold. Do you remember the choicest ring purses that our mothers used to carry years ago—long, narrow affairs, with a slit in the centre, lengthwise, which was kept closed by means of a couple of small rings that could be slipped back and forth? Bags of this style, much enlarged and elaborated, are among the many new designs that have been added to the already large assortment of these convenient receptacles. In silks or brocades, trimmed with fringe or tassels, these ring bags would not be difficult to make at home. One might copy a very stunning one which was made from green and blue taffeta. Both sides had a wide design carried out at the end in steel bands. One end was left straight and edged with cut steel fringe, while the other, mitered in three-cornered shape, was drawn into a cut steel tie.

A Choice Linen Suit

This suit is especially new and desirable. The effective straight lines are emphasized by the wide flit lace bands that trim the coat. The collar is made of a section of the lace sewed into square corners at the back and finished by a bow of coarse velvet at the front. Lace covered pendants and buttons trim the coat and skirt.

LONDON PLAYERS HOLD LIGHT WORK-OUT AT TECUMSEH PARK

Manager Bowerman and About Twenty Players Indulged In a Brief Practice at the Park Today—Some of the Players In Fine Shape.

[BY JINX.]
EIGHTEEN anxious ball players stole quietly out of bed during the early hours of this morning, and going to the window they peeked out. Glorious! The sun was shining, and the air was actually beginning to get warm. It was a joyous eighteen that quickly dressed and made a rush for breakfast. About 9 o'clock, uniforms were unpacked, and led by Manager Bowerman, a raid was made on Tecumseh Park. Thus began the first real practice for London's new team. The air still contains a chill or two, and in consequence, Manager Bowerman issued instructions to his players to take things easy for a while until the arms begin to flutter up and the muscles lose a little of the stiffness. Many of the players wanted to rush right in and show all they had, but as this is unwise at this time of the season, they were restrained. The practice consisted of batting and fielding, with a little infield work and a few laps around the park. Many of the players are in good condition already. Fursdson was a member of the Toronto team during its spring training trip at Macon, Ga., and he has the start on the rest of the pitchers who are trying out. Zabel has not held a ball in his hand since last fall, and he will require a couple of weeks to get into shape. Merritt and Silcox had the advantage of a couple of workouts, and Hynes has also been doing a little work, but they all need a lot of practice yet, and will have to work pretty hard during the next two weeks.

NICHOLS AND SILCOX ARRIVE.
Charley Nichols arrived in town last evening looking fit and fine. He and Silcox came in on the same train. Silcox is much heavier than last season, and his arm is in fine condition. He has been taking good care of himself all winter, and expects that this will be the best season since he broke into the game. Nichols is also confident of landing a position with the team, and he has not much fear that anybody will beat him out for the second base job. He has been playing ball in Toledo, and will have the advantage on some of the recruits who are trying for the job.

John Farquhar, the Belmont youth, has created one of the most favorable impressions of any of the recruits that have reported so far. Farquhar is a strapping big fellow, and looks as though he had all the frills that go to make a good pitcher. His work will be watched with interest, and the chances are he will make good.

The great majority of players who have reported so far are youngsters, and to one who did not know who they were, would give the impression that they were a lot of college boys out on a vacation. Ben Paxon, one of yesterday's arrivals, looks as though he had just graduated from the high school. His home is in Lunenburg, Mich., and he played with the Jackson Independents last season. This year, the Jackson, South Michigan League, team were after him, but London got him first. He is trying out for a place in the outfield, and according to all reports he is a good one.

THE LATEST ARRIVALS.
Other arrivals yesterday were: J. N. Miller, pitcher, from Thamesville, Ont.; William Potter, infielder, from Buffalo; E. Beauchamp, infielder, from Detroit; S. White, outfielder, from Buffalo; Thomas Conyngham, infielder, from Erie, Pa.; and John H. Smith, pitcher, from London. There was great joy in the camp this morning when the outlook was that it would be a good day.

The players will indulge in another light workout this afternoon, and will continue every day if the weather holds good.

The local management received a letter from Abbie Johnson this morning. Abbie will bring his "Canadian Stars" to London on Saturday, and the fans will have the opportunity of seeing the home hopes work out. Abbie has some good men on his line-up, including a few from London. His probable line-up will be: Catchers—Minnes, with Brantford last season, and Shea, also with Brantford; Pitchers—Smith, formerly of the Guelph Maple Leafs; Holt, of Strathroy, and Hynes; Infielders—Avery, of the Western Canada League last season; and Dunn, Gregory, and Johnson, of London, all with Guelph last season. Outfielders—Bradley, of Berlin; Jeffries, formerly of Guelph, and Meredith, of St. Thomas.

As there are several London boys on the team, there should be a good attendance at the games. A return game has been arranged at Strathroy for Thursday, May 9.

It is expected that the rest of the London players will report some time today. Catcher Haggerty is expected this afternoon, and Reske and McWhirter are also expected. "Lefty" McDonald will report this evening.

SCHEDULE OF THE EAST END LEAGUE

A meeting of the East End League was held last evening in order to make corrections in the schedule drawn up. Each team had a representative present, and the schedule was gone over. It was found to be all right in every particular, and each team is apparently well satisfied with it. The league opens on May 11 and closes on Aug. 31. On the holidays only one game will be played, starting at 10 o'clock in the morning. Owing to this only one game will be played on Aug. 31 in order that each team will play the same number of games. In case of a tie in the league, two games will be played on this date. The league will wind up on Sept. 2 (Labor Day), with two games.

The schedule is as follows:

First Series.
May 11—Rambler vs. Hyman, McClary vs. Hyman.
May 18—Rambler vs. Hyman, McClary vs. Hyman.
May 24—Hyman vs. Hyman, McClary vs. Hyman.
May 25—Rambler vs. Hyman, McClary vs. Hyman.
June 1—Hyman vs. Hyman, Rambler vs. Hyman.
June 8—McClary vs. Hyman, Hyman vs. Rambler.
June 15—McClary vs. Hyman, Rambler vs. Hyman.

INTERNATIONAL LEAGUE.

It's Safe ON KITCHEN UTENSILS

FOR FLAVORING CAKES
Pies, puddings, sauces and ice creams try Shirriff's True Vanilla. The real extract of Mexican Vanilla Beans. Surpasses all others in flavor, bouquet and strength.

Shirriff's True Vanilla
TESTIMONY OF FIVE WOMEN
Proves That Lydia E. Pinkham's Vegetable Compound Is Reliable.

Reedville, Ore.—"I can truly recommend Lydia E. Pinkham's Vegetable Compound to all women who are passing through the Change of Life, as it made me a well woman after suffering three years."
—Mrs. MARY BOGART, Reedville, Oregon.

New Orleans, La.—"When passing through the Change of Life I was troubled with hot flashes, weak and dizzy spells and backache. I was not fit for anything until I took Lydia E. Pinkham's Vegetable Compound. It proved worth its weight in gold to me."
—Mrs. GASTON BLONDEAU, 1541 Polymnia St., New Orleans.

Mishawaka, Ind.—"Women passing through the Change of Life can take nothing better than Lydia E. Pinkham's Vegetable Compound. I am recommending it to my friends because of what it has done for me."
—Mrs. CHAS. BAUER, 525 E. Marion St., Mishawaka, Ind.

Alton Station, Ky.—"For months I suffered from troubles in consequence of my age and thought I could not live. Lydia E. Pinkham's Vegetable Compound made me well and I want other suffering women to know about it."
—Mrs. EMMA BAILEY, Alton Station, Ky.

Deism, No. Dak.—"I was passing through Change of Life and felt very bad. I could not sleep and was very nervous. Lydia E. Pinkham's Vegetable Compound restored me to perfect health and I would not be without it."

The Roaring Sun Spots

By Garrett P. Serviss

A GREAT SUN SPOT GROUP.

Photographed at the Yerkes Observatory, October, 1903. It covers millions of square miles, and is veiled with gigantic, glaring clouds of calcium vapor.

You will see on this page a photograph, made at the Yerkes Observatory, of a group of sun spots. Such groups, which look as if the sun had been peppered with projectiles thousands of miles in diameter, sometimes extend over a length of a hundred thousand miles.

A single sunspot has occasionally been seen 50,000 miles in diameter, with an apparently black centre 25,000 miles across. They frequently cover areas of many millions of square miles.

It is now believed that sun spots are caused by gigantic whirls in what may be called, for lack of a better term, the atmosphere of the sun. As Director C. G. Abbot, of the Smithsonian Astrophysical Observatory, says: "We may imagine that these vortexes are similar in form to waterspouts at sea, with the trumpet-shaped part at the top, and the whirl carrying matter from below outward."

The friction of their swift motion gives rise to electrical charges, which produce the effect of currents of electricity, and create tremendous magnetic fields, which Professor Hale has found to be characteristic of sun spots.

In this way they react upon the earth, causing widespread magnetic storms, which produce magnificent displays of the aurora borealis, or northern lights, and sometimes make jets of flame leap from telegraphic instruments, and interrupt the working of telegraph lines and ocean cables all over the world.

Similar to Tornadoes.

Sun spots might also be likened to tornadoes, in which there is a similar trumpet-shaped whirl or funnel through which heavy objects, such as the fragments of houses, barns and trees, and sometimes animals and human beings, are sucked up toward the clouds that gyrate round the broadened top of the funnel. But

Sun spots appear in cycles, or periods, averaging eleven years from one maximum to the next. The latest sun spot maximum occurred in 1906, and we are now at a minimum stage in the period, although the sun is seldom entirely free from spots for several months in succession.

One of the great problems of astronomy is to determine the exact effect of sun spots upon the earth. It is evident that when the sun is much spotted there must be some reduction in the amount of heat received from it, because the spots are cooler than the surrounding surface; and, in fact, many observations have led to the conclusion that the earth's temperature is perceptibly lower at a minimum stage in the period, and many large spots than at a maximum.

But the difference of temperature is larger than the mere darkening caused by the spots would account for, and it is thought that the presence of the spots causes some change in the sun's radiation of heat, over and above that due to the relative coolness of the spots.

Then, independently, perhaps, of the spots, there are changes of the sun's radiation in periods of several days, or of several months, which cause a fluctuation of temperature amounting to from five to ten per cent of the whole. It is manifest that such changes must have some effect upon the climates of the earth. They, together with the sun spots, are also, probably, indications that the sun is slowly dying out as a great centre of light and heat. In other words, the sun is a variable star, and the fate of the earth is directly dependent upon the variable stars, some many times greater than the sun, and hundreds of them are farther advanced toward extinction than the sun is.

Astronomers find in the sky many other variable stars, some many times greater than the sun, and hundreds of them are farther advanced toward extinction than the sun is. How long the sun will last we do not know, but it is believed that it will continue to shine for from five to ten million years—so we are not personally concerned with its approaching end.

It is a curious fact that our tornadoes sometimes occur in groups as do sun spots. A dozen tornadoes will occasionally break out simultaneously, a hundred miles or more apart. Yet the resemblance between tornadoes and sun spots can only be superficial.

One of the most fearful things connected with tornadoes is the awful roar that accompanies their passage. But a sun spot must create a noise on the sun thousands of times greater than that of the mightiest tornado, and if the atmosphere extended from the earth to the sun there can be little doubt that we should be able to hear the roar of sun spots. But there is a gap of space more than ninety million miles between the earth and the sun, and that gap is filled with nothing except the ether, which, although it bears the waves of light and electricity, cannot carry sound waves.

Consequently the uproar of the sun spots is inaudible on the earth. Many years ago Edison made some experiments intended to powder the howling of sun spots audible by means of a gigantic megaphone telephone, actuated by the electric waves from the sun. But the effort did not succeed. Perhaps some day a similar attempt may be successful, and if it should be the ears of man would be greeted with sounds such as were never before dreamed of. To listen to the roaring and roaring of the tormented sun, would be an experience surpassing all the other achievements of human ingenuity.

The cause of sun spots remains unknown. They are probably due to some action going on within the body of the sun. The sun consists of substances resembling those of which the earth is formed—such as iron, calcium, silicon and other elements of which our rocks are made, but, owing to the intense heat, these substances, instead of being solid, are in the state of hot, glowing vapors. The immense size of the sun—365,000 miles in diameter—causes these vapors and gases of which it consists to be subjected to enormous pressure, and Titanic explosions occur from within, shooting vast masses of glowing matter to a height

of tens, and sometimes hundreds of thousands of miles.

Every Eleven Years.

Sun spots appear in cycles, or periods, averaging eleven years from one maximum to the next. The latest sun spot maximum occurred in 1906, and we are now at a minimum stage in the period, although the sun is seldom entirely free from spots for several months in succession.

A REMARKABLE SUN SPOT.

This photograph was taken by Dr. Janssen, and shows the willow-leaved structure of the penumbra of the spots and the granulated structure of the whole of the photosphere.

while a great tornado on the earth has a path only a few rods wide, the solar tornadoes are thousands of miles wide, and probably thousands of miles deep.

If the earth were caught in one of those gigantic whirls on the sun it would be spun about like a boat in the Niagara eddies. But it would not last long, for the immense heat would quickly dissolve the solid rocks into very liquid and vapor.

It is a curious fact that our tornadoes sometimes occur in groups as do sun spots. A dozen tornadoes will occasionally break out simultaneously, a hundred miles or more apart. Yet the resemblance between tornadoes and sun spots can only be superficial.

One of the most fearful things connected with tornadoes is the awful roar that accompanies their passage. WESTERN CANADA

WILL CONCENTRATE AT

COQUITLAM

Pacific supplementary operating terminus of the Canadian Pacific Railway, which has started to build there the largest railway terminals in Pacific America; also objective point for other great railway system; deep-water port and coming industrial and manufacturing centre.

Your Big Opportunity Renewed

If you had bought lots on the business streets of Vancouver years ago, you would now be worth a fortune. Lots which started at \$8 a foot and less are now worth \$4,000 to \$5,000 a foot. Dozens of people who had grand opportunities to get these lots when they were cheap and when Vancouver was small, now say, "If I had only bought a 25-foot lot, I would now be worth \$100,000." The same thing might be said regarding Winnipeg and, in a lesser degree,

Calgary, Edmonton, Saskatoon, Regina, and half a dozen other places in Western Canada.

Let us tell you right here and now that YOU have these opportunities renewed—not in the innumerable townsites now on the market all over the country, because there can be only a few real metropolises, but in Coquitlam, which some conservative people say will have 50,000 people in five to ten years.

What Will Make Coquitlam?

First of all the mighty Canadian Pacific Railway, the greatest transportation system in Canada, will have at Coquitlam its great railway terminals. There is not one city or town in all Western Canada, started by the C. P. R., where initial investors have not made money. The railway will ultimately expend millions here, and work has already commenced on a 48-stall roundhouse and the first terminal unit of 25 miles of yards. Nearly a thousand men are or are about to be employed.

Since the C. P. R., less than a year ago, decided to establish at Coquitlam yards and other facilities which would do for all time, other great transportation systems have had their eyes on Coquitlam. Ask any railway man, any shipper, any businessman, what the advent of a competitive railway system means to a place. They will tell you that such incalculable advantages will accrue to that city in the shape of trackage, car storage, freight rates, etc., all

competitive, that manufacturers, wholesalers and all kinds of businesses will flock there, bringing with them hundreds of employees. This is exactly what is happening at Coquitlam.

Coquitlam will be the front door to Canada in its relation to the shipment of grain and a hundred and one other commodities into and out of the country. It has been estimated by railway officials that the three Canadian roads will ship one hundred million bushels of wheat each to the European markets via the Pacific and the Panama Canal the first year the canal is ready for business. To a thinking man this one item of grain alone is wonderful, but when all the commodities which depart from and enter Canada are included the effect is staggering.

It is perhaps not generally known that the continent of Asia alone contains nearly one-half of the whole world's population. The Oriental races are just now waking up rather suddenly to

Western civilization and all that it implies. That means a large increase in Pacific commerce. Vancouver and Coquitlam are on the short route. That is another reason why the C. P. R., with big, far-sighted men at its head, is building the Coquitlam terminals.

In this age of electricity any city which aspires to be a real metropolis, as Coquitlam does, must have cheap power to drive the wheels of great industries. The power lines of two competitive power and light companies are there now, and both will not only furnish electric power and light at low rates, but will also build tram lines, connecting Coquitlam with Vancouver and the whole Vancouver Metropolitan District and the Fraser Valley. Being a deep-water port, easy of access to the coal mines on Vancouver Island and other places, Coquitlam will also get coal at rock-bottom prices. Important new discoveries of coal have been made near Coquitlam.

The Pitt River Harbor

The Canadian Pacific has acquired extensive water frontage of the Pitt River, which at Coquitlam averages 30 feet deep at low tide and is only twenty miles from the Pacific. This acquisition is significant in view of the fact that the Panama Canal will be ready for traffic in two years. It is said to be the plan of the railway to build at Coquitlam terminal grain elevators, to handle the millions of bushels of grain which the Prairie Provinces will ship westward. It is conceded that most of the grain exported from Alberta and Saskatchewan will go to the world's markets via the Pacific when the Panama is completed.

Almost every day big things are announced for Coquitlam. Its transformation from a forlorn junction point to an embryonic metropolis inside of a short six months has been so rapid as to surprise even the most sanguine enthusiasts, among them ourselves.

Among the new enterprises are the Brown-McKay lumber mill, which employs forty men at the start; two other lumber mills; a large hotel; an industrial trunk line railway (the finest trackage layout in Western Canada) to be built by ourselves at a cost of \$30,000. One hundred buildings have recently been completed or are now in course of erection. There are twenty residences in one small part of the townsite that have been erected within six months.

Some Late Developments

Coquitlam is so situated in relation to the whole of Western Canada, the Province of British Columbia, now on the eve of an era of unprecedented development and prosperity, and the Vancouver Metropolitan District that it must and will become a big city.

As we said before, you have thrust in front of your face the Winnipeg, Calgary, Vancouver opportunity of a few years ago. Thousands of others are realizing this fact. If YOU realize it don't lay this paper away till you have filled in and torn out the coupon. Mail it to us today, and if you want further information write us an accompanying letter. But sign the coupon anyway before prices advance—it costs you nothing to learn fully about this wonderful opportunity.

AFTER MANY YEARS.
(From Reynolds' Newspaper, London.)

It is twenty-six years since Mr. Gladstone introduced his first home rule bill, and nineteen years since the introduction of his second bill. Now Mr. Asquith has brought in his measure, and justice to Ireland is to be accomplished at last.

News From Western Ontario

A SAD MISSION

I. W. Graham To Bring Home Body of Titanic Victim.

[Special to The Advertiser.]
St. Marys, April 29.—J. W. Graham has left for Halifax for the body of his deceased brother, Geo. E. Graham, who was drowned in the Titanic disaster. Mr. Jackson, of Winnipeg, brother-in-law of the deceased, joined Mr. Graham on the way to Halifax. The remains will be taken to Hamilton for burial.

The L. O. P. of St. Marys, headed by the Maxwell Maple Leaf Band, marched from their lodgings on Sunday to the First Presbyterian Church, where Rev. Mr. Miller preached an inspiring sermon suitable to the occasion.

Mayor F. G. Sanderson and Messrs. S. Pringle and S. J. Dunsmuir have left for an extended trip to the West. Mayor Sanderson will be absent for a month.

The St. Marys fire department recently purchased a team of horses for the department, and had the misfortune to lose one of the horses recently by an attack of colic.

At a special meeting of the water, light and heat commissioners, a warrant was issued for \$83.34 to pay the balance of salaries due the commissioners. J. J. Stapleton, secretary, was also ordered for the powerhouse.

The Maxwell works on account of increasing business are adding another story to their carpenter shop.

CHURCH REOPENED

W. H. Presbyterians Held Big Gathering in Honor of Occasion.

[Special to The Advertiser.]
St. Marys, April 29.—The re-opening of the Presbyterian Church took place on Sunday and there were very large congregations at both services, especially in the evening, when the Methodists closed their church. Rev. Mr. Robinson, of Toronto, gave a description of his work in the slums, which was very interesting. The choir also rendered some good selections, and Mr. Fowler, of Goderich, rendered a solo in a very pleasing manner. The church looks very pretty with all its new decorations.

Miss Jean McEwan, who died in Chippewash, Saskatchewan, was brought here for burial, and her nephew, Dr. Stewart, accompanied the remains. The funeral took place from the Presbyterian Church on Sunday to the Union Cemetery.

COMMENCE SEEDING

Work Around Kincardine Greatly Delayed by Backward Spring.

[Special to The Advertiser.]
Kincardine, April 29.—Farmers are now busy preparing for seeding, and but little has been sown as yet. The cold, backward weather retards the growth of pasture, and fall wheat is the snow left, but there is some prospect still of a revival, if warm weather sets in.

GET RID OF PILES AT HOME

Try This Home Treatment—Absolutely Free.

No matter how long you've been suffering or how bad you think your case is, send at once for a free trial of the wonderful Pyramid Pile Remedy. Thousands afflicted as badly or worse than you trace their quick recovery to the day they began using this marvellously successful remedy. Pyramid Pile Remedy retards instant, blessed relief. Pain disappears, inflammation and swelling subside, and you are able to move about as comfortable as though you had never been afflicted at all. It may save the expense and danger of a surgical operation. Just send in the coupon below with your name and address on a slip of paper for the free trial treatment. It will show you conclusively what Pyramid Pile Remedy will do. Then you can get the regular package for 50 cents at any drug store. Don't suffer another needless minute. Write now.

Free Pile Remedy

Cut out this coupon and mail to the PYRAMID DRUG COMPANY, 422 Pyramid Bldg., Marshall, Mich., with your full name and address on a slip of paper. A sample of the great Pyramid Pile Remedy will then be sent you at once by mail, FREE, in plain wrapper.

FOUND OLD COIN

Penny 122 Years Old Was Picked Up in Harrison Park.

[Special to The Advertiser.]
Harrison, April 29.—While wandering around the Daughters of the Empire Park on Arthur street, Mr. A. B. Whitestone picked up a blackened coin which, on being cleaned, proved to be one of the old King George II. pennies called in years ago. The coin, which is 122 years old, has on one side the head of King George II. with the words "Georgius II. Dei Gratia" and on the other side the royal coat of arms of that date and the royal inscription. The coin is in an excellent state of preservation.

FORMALLY INDUCTED

Rev. Mr. Gorman Takes Charge of Duncannon Church.

[Special to The Advertiser.]
Duncannon, April 29.—Rev. Mr. Gorman, a recent graduate of Knox College, was duly inducted and ordained into the pastorate of the Duncannon and Port Albert charges of the Presbyterian Church yesterday, by the Methodist Presbytery in the St. Lawrence Church, Duncannon. Rev. Mr. McLean, moderator of the Presbytery, presided. Rev. Mr. McLean, of Kincardine, preached the induction sermon. Rev. Mr. McLean formally inducted the new pastor, Rev. Mr. Hardy, of Lochalsh, addressed the minister, and Rev. Mr. Duncan, of Lucknow, moderator of these two charges while vacant, addressed the people. Appropriate music was rendered by Knox Church choir, Goderich.

In the evening a successful supper and entertainment was held, and there was a very large turnout.

Addresses were delivered in a very pleasing manner by the chairman, Rev. Mr. Duncan, Rev. Mr. McIntosh, of St. Helens; Rev. Mr. McLean, Rev. Mr. McArthur, Rev. Mr. West, of Bluewater; Rev. L. Bartlett, pastor of the Methodist Church, and Rev. Mr. Gorman, the new pastor-elect. Solos, choruses and anthems were beautifully rendered by the Knox Church choir.

WHEELER-JORDAN

Pretty Brussels Girl Becomes Wife of Young Vancouver Man.

[Special to The Advertiser.]
Brussels, April 29.—Leonard Wheeler, of Vancouver, B. C., and Miss Jennie Jordan, daughter of Mr. and Mrs. Samuel Jordan, were married recently by Rev. Mr. Ferguson, and will leave this week for their home in the West.

The imported Clydesdale stallion, Cammyman, has been purchased by Walter Miller, of Mr. Dickson, of Seaforth. He is a fine horse, and weighs about a ton.

In connection with the annual meeting of officers of the Methodist Sabbath school, following was the result: Honorary superintendent, B. Gerry; superintendent, W. H. Kerr; associate, F. H. Gilroy; secretaries, W. J. McCracken and F. Gerry; treasurer, R. A. Pryne; librarians, Misses Pryne and Cunningham; conductor of orchestra, H. L. Jackson; superintendent of home department, Mrs. W. Rands; superintendent of cradle roll, Mrs. H. L. Jackson. The school has had an excellent year.

CLINTON.

Clinton, April 30.—A mass meeting under the auspices of the Clinton branch of the W. C. T. U. will be held on Thursday evening in the aptent Church, Mrs. Chrysler, superintendent of the juvenile department, will address the meeting.

Fred Rumball and Laurie Greig have joined the Royal and Molsens Bank respectively.

The young ladies will hold a leap-year dance in the Pastime Club's rooms tomorrow night.

A. Mr. Len Cantlon, who has been with the Royal Bank at the Cobalt branch, has been transferred to Toronto.

Mr. and Mrs. Harold Raynor sail next month for England to spend a couple of months with the former's parents, Dr. and Mrs. Raynor, of Preston, in Lancashire.

Miss Jennie Baker, formerly teacher in the Collegiate here, has been appointed examiner in grammar by the educational department for the coming examinations.

Mrs. David Crawford and family have moved to Dublin, where Mr. Crawford will conduct a feed and produce store.

T. McKenzie, who has the contract for the new postoffice at Seaforth, is busy at his mill here getting out the window-sashes and door-frames.

Dick Tasker, of Clinton, has reported to the Brantford baseball team.

FOUND OLD COIN

Penny 122 Years Old Was Picked Up in Harrison Park.

[Special to The Advertiser.]
Harrison, April 29.—While wandering around the Daughters of the Empire Park on Arthur street, Mr. A. B. Whitestone picked up a blackened coin which, on being cleaned, proved to be one of the old King George II. pennies called in years ago. The coin, which is 122 years old, has on one side the head of King George II. with the words "Georgius II. The following residents of this town have received automobiles, Messrs. A. A. Stepler, W. C. Dryden and J. J. Pritchard. Several more machines are on order and are expected to arrive this week.

Ernie Scudamore was threatened with an attack of appendicitis, and his position in the Standard Bank is being filled by Duncan McLeod, who is home from Ottawa for a few holidays.

Mr. McMichael, of Brampton, shipped a car of heavy horses from this vicinity to the West recently. Mr. Chas. Edgar has rented the horse stables on the ground floor at the Royal Farms and has some fine stock on exhibition.

This town has been compelled to go along without electric light for a couple of days, owing to a break in the circuit, but which has been repaired and the plant is again in operation.

GIVEN A CHANCE

West Lorne Hotelkeeper Will Not Close on May 1.

[Special to The Advertiser.]
St. Thomas, April 29.—A meeting of the West Lorne board of license commissioners was held here today, when a petition, with 50 signatures of business men from West Lorne, asking that the proprietor of the Argyle House, West Lorne, be granted time to dispose of his business instead of closing on the last of May, was presented. The petition was granted.

Health for Every Woman No More Headaches

From Weakness and Despair Thousands Have Been Restored to Robust Good Health by Dr. Hamilton's Pills.

That sick women are made well by Dr. Hamilton's Pills is proved in the following letter:

"For years I was thin and delicate, I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed, I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She placed reliance upon them, and now that I have made me a well woman I would not be without them, whatever they might cost. I found Dr. Hamilton's Pills, by their mild, yet searching action, very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established regularly. My appetite grew, my blood red and pure—my rings under my eyes disappeared, and today my skin is as clear and unblemished as when I was a girl. Dr. Hamilton's Pills did it all."

The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known citizen in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's, 25c per box. All dealers or the Catarrh-zone Company, Kingston, Ont.

GODERICH BRIBERY CHARGES NOW UNDER THE SEARCHLIGHT

Hotelman's Story Given at the Opening of Hearing Implicates Chairman of Commission and License Inspector—Reported That Chairman Patterson Has Resigned.

[Special to The Advertiser.]

Goderich, April 29.—There was a fine wash of dirty linen in connection with the license administration of Centre, Huron disclosed in the statements made at the investigation by commission of the recent bribery charge. The alleged offence grows out of charges made against Chairman Patterson, of the license commission, by Mr. J. Farr, a local hotelman, and for three hours this afternoon Mr. Farr stood in the witness box and told Mr. Endo and other members of the commission his story. As a result of his statements Inspector Asquith is now implicated in the case.

Chairman Resigns.

The charge is that these men sold a belief in return for which they were to guarantee the renewal of the license by the commissioners. M. J. Farr, proprietor of the Union Hotel, who made the charges, told Mr. Patterson, of five interviews with Commissioner Patterson, with reference to the deal, and told of hearing of the consummation of other corrupt agreements between local hotelmen and Patterson, since the exposure of the deal, has resigned his position as chairman of the license commission, although it has not yet been officially announced. L. E. Dancy appears for him at the investigation.

Farr's Evidence.

Farr said he was first approached about Feb. 23 by Commissioner Patterson and Andrew Porter. They told him that he had something to fear about his license, as it was in danger of being cut off. The witness said that this visit did not alarm him till a later conversation with Porter, whose hints made Farr suspicious. Farr told about this visit to Thomas Stothers, the warden, who was a frequent guest at his hotel. He also told Stothers after each of the subsequent visits of what passed between him, the commissioner and inspector. After the next meeting of the license commission, Patterson again visited Farr at his hotel, and Farr said the following conversation was part of their talk: "You've got a nice business here, said Patterson, 'but with the Colborne Hotel cut off you ought to be able to double it.' 'Look here,' said Farr, 'Mr. Patterson, about paying any money, get that idea out of your head. I won't do it.' 'Well, you do it,' Patterson replied, 'or you'll have to cut off. Think it over.' 'I'm not going to do something for nothing.'"

That same night Farr says Porter and Asquith came down to the hotel after midnight to see Patterson, who stayed at the hotel all night, and did not offer to pay his bill in the morning. After the next meeting of the commission, Patterson again visited his third visit to Farr to ask if he had thought over the proposition. Farr did not commit himself. As Patterson's train was due to leave in a few minutes, he had him driven to the depot.

Named a Figure.

On April 10th, a figure was named. Farr says he asked, "How much money are you going to take to put this deal through?" by which he meant the renewal of his license and the cancellation of that of the Colborne Hotel. "Well," replied Patterson, "you can make six thousand dollars a year with the Colborne cut off, and I want \$100

for every thousand." Then later he said, "Write me at Auburn if you make a decision; but be careful. There's another William Patterson there, and he might get it. Address the license commission." He also offered to meet me at the Waverley House, Clinton, as no one knew him there," said Farr. These proceedings he told to Thomas Stothers shortly after they had happened. By these men he was advised not to write to Patterson, as it might implicate him in crooked work. At the next interview with Farr, Patterson said he had seen Commissioner R. J. Cluff at Clinton, and had got him solid.

Some Dickerings.

He asked Farr what he thought would be a fair figure for the deal they were talking over, and Farr mentioned \$300. Patterson then reduced his price to \$200, and said, "Even that's not much when it has to be split." Farr said he then refused to pay the money, and that Patterson informed him that the proprietors of the Colborne Hotel were ready to pay that amount to insure the renewal of their license. But Farr says he reasoned thus: "If they do it and I know it, wouldn't I put up a kick, and if I do it and they know of it, won't they put up a kick," and so he informed Patterson that he had made up his mind. Further urging and a promise of protection for a period of three years failed to change him any. In order, then, to protect himself and have Patterson prosecuted he took a declaration concerning all these interviews and gave it into the hands of the crown attorney. Farr also told of an interview with Inspector Asquith, in which Asquith hinted at his license being protected, saying: "You've got the cards, and you've got the trump. Now go ahead and play."

Cross-Examined.

On cross-examination by Mr. L. E. Dancy, Farr admitted that no one had been present at the interviews he told of, and said that he had not suggested money in any one of them. He said that he had fixed the time of one of the interviews with Patterson by a mark on the calendar in the bar. The calendar was sent for and the mark found, Farr said: "I could easily have trapped the men in some interview, and had evidence taken to convict them, but I didn't do so, and I have never bribed anybody in my life. I heard that other hotelkeepers were making themselves solid, and knew there were other victims. Patterson told me I was getting off easy compared to the rest of them." Cross-examined by his own counsel, L. H. Dickinson, of Exeter, Farr said he heard about other hotelmen in town being approached. These things he learned from his father-in-law, John Kelly, and other sources.

Warden Thomas Stothers was the only other witness examined. He said Farr had told him about the proceedings at each interview, and that he had advised him, along with others, not to pay the money and not to write to Patterson. He also suggested that the matter be put in the hands of Crown Attorney Seager and had Farr's affidavit taken by a justice of the peace.

At the conclusion of Stothers' testimony the inquiry adjourned till 9:30 a.m. Tuesday.

COAL FROM CANADA FOR THE ANTIPODES

British Vessel Came Across Ocean to Sydney for a Cargo.

Hallfax, N. S., April 30.—Unable to secure a supply of coal in Great Britain, the Shaw Savill and Albion liner Tokomaru was forced to cross the Atlantic for a cargo for Cape Town, and last week loaded at the Scotia piers in North Sydney. In addition she also took sufficient bunkers to last her on a fifteen thousand mile voyage to New Zealand, and sailed Saturday for Teneriffe, on the first stage of her long trip to the antipodes.

Since the beginning of the strike at the British collieries Cape Breton coal has gone to many quarters of the globe, but the present shipment is probably the largest single distance than any previous cargoes. Not since the British strike of 1873, when Nova Scotia collieries shipped coal to the Philippines and the East Indies, has there been anything like the amount of export trade carried on by the larger Nova Scotia companies as has marked the past three or four months. In addition to other business, the Scotia Company captured a contract said to be for over thirty thousand tons in Uruguay, while the Dominion Coal Company has also ports, Montevideo, Cape Verde, and Anafro, the West Indies, and many European ports have drawn on the two big Cape Breton companies, and one cargo has gone to London.

PAISLEY.

Paisley, April 30.—Mr. Norman Sheppard, accountant in the Traders' Bank, has been transferred to Bridgeburg. He is the son of Mr. Sheppard, of the Clifford branch, succeeds him here.

Mr. Hines, of the Toronto Dental College, is the assistant in Dr. Allen's dental office.

Jas. Steele, a former resident, now of Gore Bay, Manitoulin Island, is visiting friends here.

Mr. Alex. McGillivray purchased Dr. Hines' residence on Queen street north, and his sister, Mrs. Jas. McGillivray, has moved into it.

Members of Abiram Lodge, I. O. O. F., attended service in the Anglican Church on Sunday morning, the 29th anniversary of the death of the late Rev. Rector, Rev. Dean Dietl, preached an appropriate sermon.

Jubilee services will be held in the Presbyterian Church, Queen Hill, on Sunday, May 6. Rev. Victor McQuarrie, of Toronto, a former pastor, will preach morning and evening, and on the Monday evening following a tea meeting will be held with programme of addresses and music.

Children Often Need a laxative—but you cannot be too careful what you give them. Harsh

purgatives injure the bowels and pave the way for life-long troubles. The new evacuant in

INDIGNATION MEETINGS
TO PASS TIME AWAY

Some American Friends of the Titanic's Dead Proving a Nuisance.

[Canadian Press.]
Halifax, April 29.—The holding of indignation meetings of the American citizens here now seems to have degenerated into a means of passing away the time, which naturally hangs upon their hands. Last night the relatives gathered in the Halifax Hotel, and during the general conversation somebody asked what was to be done about the jewelry and money found in the clothes of the Titanic's dead. It is believed that in many cases the wealthy men on the ship were carrying thousands of dollars in their pockets. A query about it was addressed to the White Star Line officials, who stated that all money and valuables would be taken charge of by the company and handed over to the administrator of wills of the Province of Nova Scotia, and when a proper claimant of the money was established it would be handed over by him. Applications for personal trinkets were made and refused and the indignation visitors then agreed in speeches that the company was dealing too harshly. In vain the White Star officials urged that the probate law must be respected. Criticism was heaped upon them until it was time for the visitors to retire for the night, one of them before doing so expressing the opinion that he had spent a pleasant evening.

[Canadian Press.]
Halifax, N. S., April 29.—The Nova Scotia Government has promised to open negotiations with Washington with a view to a quick surrender to relatives of all valuables and money found on the bodies of United States citizens.

LEGAL QUERIES

W. J. L.—Can a woman, assessed as tenant, and paying water rates, who has her board and clothing free to keep house and look after it come on for wages or a share in property, after a certain number of years?
A.—Not upon the facts stated, but unless there was a definite agreement

WHAT STRIKES YOU
IN NEW BRUNSWICK

PEOPLE ALL HAVE CONFIDENCE IN DODD'S KIDNEY PILLS.

Everywhere You Find People Who Have Been Cured of Rheumatism, Lumbago, Bright's Disease, or Some Other Form of Kidney Disease—Cure Is Always Dodd's Kidney Pills.

Cameron's Mills, Kent County, N. B., April 29.—(Special.)—The one thing that strikes a visitor to New Brunswick is the confidence its people have in Dodd's Kidney Pills as a cure for any and all forms of Kidney Disease. They have used them and they know by their own experience that Dodd's Kidney Pills are all that is claimed for them. Everywhere you go you find this confidence. It is expressed in this village by Mrs. Joseph P. Daigle.
"I have great confidence in Dodd's Kidney Pills," she says. "Six boxes cured me of my Kidney Disease."
All over the province you find people who have been cured of Bright's Disease, Rheumatism, Diabetes, Backache, or some other form of Kidney Disease by Dodd's Kidney Pills. You cannot find a case in which they have been given a fair trial that the results have not been beneficial.

MIDDLESEX BEE MEN
WILL MAKE BIG EXHIBIT

Industry Is Prospering and Those Engaged In It Are Very Enthusiastic.

Whatever may be the condition of farming in Middlesex, there can be no doubt about the beekeeping industry. It is steadily improving. A few years ago, honey was almost begging a market. Now all that is produced may easily be disposed of at remunerative prices, and many men in the county are finding it an excellent means of livelihood. Among these might be mentioned: John McEwen, Alisa Craig; Moses Pierce, Brinsley; David Anguish, Lambeth; E. T. Ballard, Lambeth; Angus Galbraith, Napier; Donald Galbraith, Lamon; Mr. Martin, Belmont, and dozens of others, who are finding it a more or less profitable source of income.

The beekeeper, too, is a great benefit to the community. When aliske seed is grown, the crop is much more abundant when there are honey bees to fertilize the blossoms, and the orchardist knows they will greatly increase not only the quantity, but the quality of his apples. It is where there is co-operation between industries that you find the people prospering.

The beekeepers are forging ahead in another line. Anyone who visits the horticultural show in Toronto will be impressed with the creditable efforts many counties are making in exhibiting their products, where they will be seen by visitors from all over the country, and surprised to find that Middlesex, the banner county of them all, has made no effort to utilize this valuable form of advertising. The beekeepers are hoping to take the lead here, and are looking forward to putting up a large co-operative exhibit at the fruit, flower and honey show, next fall. Plans for this are still unformed, but will be discussed at the spring meeting, which will be held in the county council chambers, Ridout street, on Saturday, May 4. It is hoped there will be a good turnout of the beekeepers, and that they will be ready to put up a good exhibit for the credit of Middlesex.

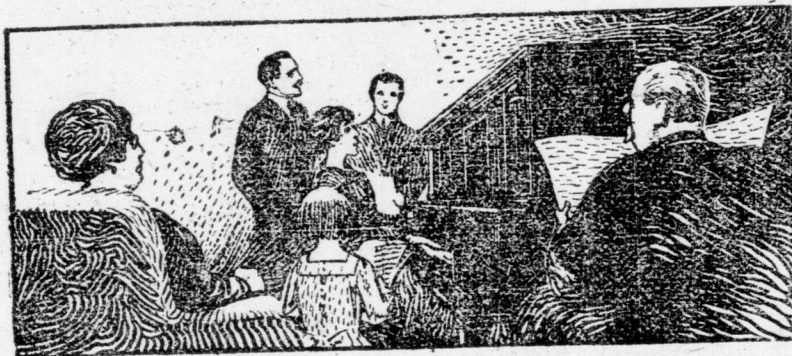

ROUTE MARCH POSTPONED
OWING TO WEATHER

Seventh Regiment Band Gave a Concert in Armories Last Night.

The route march of the Seventh Regiment, planned to be held on Monday evening, was postponed owing to the bad weather. The men were put through a strenuous hour's drill in the Armories by Lieut.-Col. Campbell and the officers, a number of different formations being attempted.
From 9 to 10 o'clock the band gave a varied programme of music, and all the numbers were thoroughly enjoyed by a large audience.
The members of the regiment turned out well. The various companies show a better form than in recent years, and it is expected that the regiment will have a banner year.
Preparations are being made for a big time on May 12, when the prizes won in the shooting competition will be presented. It is expected that Mayor Graham and members of the city council, together with Col. W. E. Hodgins, D. O. C., and his staff will be present to take part. The public will also be invited. The Regimental Chapter, Daughters of the Empire, will serve refreshments to the men.
The regular drill will be held on Monday evening next, and if the weather is favorable a route march will be held.

The Responsibility of a
Piano Maker

DO you realize that something very essential is missing if there is no Piano in your home? Do you realize what such a vacancy means to your family, to your friends, to yourself?

It is no exaggeration to say that a home is not fully rounded out until the piano arrives, because nothing takes the place of music, nothing ever can.

TASTES differ in music, as in all things, but indulgence in music in any form, whether the wondrous composition of a master or some light and rollicking jingle from the "latest success," introduces into the home an element of entertainment and interest for which there is no substitute.

BUT your Piano must be a worthy one. By reason of its pliant action and purity of tone it must sup-

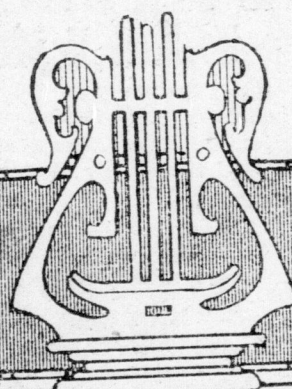

plement the efforts of those who play expertly, as well as those of less musical education and experience.

THE Gourlay Piano is not made to please for a day or a year. It is made and sold with the full knowledge of the responsibility which rests with us as piano makers, a responsibility which does not stop short of putting into the Gourlay the best efforts, choicest materials, and most skilful workmanship possible, whatever the cost.

WE want to demonstrate to you that the Gourlay is such a Piano, that it is the Piano you would like best to own, and a Piano that will contribute most to your continual satisfaction and pleasure.

Gourlay Winter & Teeming
Toronto Canada

LONDON, 261 DUNDAS STREET

GENEROSITY WAS
HIS ONLY FAULT

Rev. H. A. Graham's Tribute to Late Rev. James Livingstone.

A memorial service for the late Rev. James Livingstone was held on Sunday morning in Wellington Street Methodist Church, of which congregation Mr. Livingstone had been the good shepherd for some years. A most impressive sermon was preached by Rev. H. A. Graham, the pastor. Mr. Graham, with much feeling, also acknowledged the many words of consolation and sympathy which had been extended to himself and his family in the death of his brother, the late Mr. George Graham, of Winnipeg, who was drowned when the Titanic sunk in the Atlantic off the banks of Newfoundland.

Then Mr. Graham paid a glowing tribute to the late Mr. Livingstone. "The memory and words of Bro. Livingstone are abundantly blessed," he said. "I need not tell you, dear friends, of the grace and charm and sweetness of his personality and character. You knew him well and learned to love him, and that is to say a great deal of any man. He had the faculty of getting into the hearts of his fellow-men wherever he was, and of winning the friendship and fellowship of others."

"As I think of him, I recall the ex-

periences which I had with him—and they were many. He was a man most charitable and kindly in all his judgments of his fellow-men. I never heard him say an unkind word of his fellow-ministers or members of his congregations, and he had been all his ministry in Western Ontario.

A Broad Man.
"Besides that, Bro. Livingstone was a man of the broadest human sympathy; no denominational barriers hampered him. He loved the Methodist Church, in which he lived and served, because, as he said himself, he found in her one of the most appropriate means by which he could exercise the faculties and gifts which God gave him. He had a great generosity, which made it easy for the unworthy to take advantage of him. I have no doubt that if the men who did so were to bestow upon his widow that of which they robbed him, she would have an ample compensation. He said to me once, 'I never got five dollars in my life but what there was someone standing

Constitution brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers."

around who seemed to need it worse than I did."

Heart Was Young.
"It was impossible for Bro. Livingstone to grow old," continued Mr. Graham. "His heart was so young that even after the serious sickness he had

last summer it seemed as young and his mind as fresh as of yore, and this was due to the fact that he was a great lover of the young people. If he had been set free from details of pastoral work and been given a special opportunity to exercise the gifts which

he possessed as a preacher, he would have wielded much wider influence even than he did in fashioning life and molding character in the work of the Methodist Church, which he loved and served so well. His death leaves a great gap in the Methodist ministry. Special music was rendered by the choir and soloists, the service being a most impressive one.

THE BISHOP'S BUMPS.

In this picture John Bull's phrenologist is represented as naming the "bumps" of the Bishop of London, who is well known in Canada. Here is what the phrenologist says in part: "All things considered, my lord, you are not a bad bishop. You have a greater breadth of mind than is found in most High Church ecclesiastics, and you are not deficient in sympathy for other sections of the Christian faith with whom you may differ in unessential."

A \$4.00 DICTIONARY FOR EVERYBODY

PRESENTATION

Just think what the opportunity to possess the latest, most up-to-date Dictionary of the English language means to you, and then read below how you may obtain one or more of these valuable books.

We have just made an arrangement with the publishers of Webster's New Illustrated Dictionary, whereby we are able to offer the readers of The Advertiser the unparalleled opportunity of getting this invaluable reference work on practically their own terms.

Everybody needs a Dictionary. You need one, your wife or your husband needs one, and most of all, your children need one. A Dictionary is, in fact, more essential to the school child than any other book required in this course. This being an undoubted fact, read every word on this page, and then let us know that the good people of London and vicinity appreciate this opportunity by the promptness of your action in the matter.

This Dictionary is not published by the original publishers of Webster's Dictionary, or by their successors. It has been revised and brought up to the PRESENT DATE in accordance with the best authorities from the greatest universities, and is published by the well-known SYNDICATE PUBLISHING CO., of N. Y.

General Contents of Webster's New Illustrated Dictionary

Based upon Noah Webster's Dictionary, revised and brought UP TO DATE in accordance with the most recent eminent English and American authorities on spelling, pronunciation and definition, and especially designed to meet the popular demand for a CONVENIENT, complete and RELIABLE Dictionary.

It contains all the words of the English language that are not peculiarly appropriate to a Dictionary of technical terms; it gives the spelling and pronunciation of plurals, and indicates the use of capitals and small letters in writing every word in the vocabulary. It gives the past tense and the participles of all verbs not regularly formed by the addition of -d, -ed and -ing; the pronunciation of each word is plainly indicated by phonetic spelling; the Definitions, comprehensive, yet concise, are accurate and reliable.

Preceding the Dictionary proper will be found a treatise on ABBREVIATIONS of the Parts of Speech and their grammatical signification. Also a discourse on the Origin, Composition and Derivation of the English Language.

The ANALYSIS of the "Principles of Grammar" will fill a long-felt want in promoting the correctness of speech, both spoken and written.

Under the head of "SIMPLIFIED SPELLING" will be found the rules as adopted by the SIMPLIFIED SPELLING BOARD, and giving a complete list of 300 words spelled in two ways, of which the board says "Choose the simpler spelling."

Finally is given a complete KEY TO PRO-
NUNCIATION.

Surprising results are obtained in looking up the Spelling, Pronunciation and definition of the

New Words

which have been incorporated into our language only yesterday, as it were. For instance: Aviator, Biplane, Brainstorm, Cordite, Okapi, Carburetter, Dictograph, Hookworm, Krypton, Lettergram, Nickelodeon, Oslerize, Stovaine, Taxicab, Zemele, Hangar, Equilibrator, etc.

Webster's New Illustrated Dictionary WITH LATEST CENSUS

Additional to the complete Dictionary of Words and Definitions, it has a wonderful department called

A Treasury of Facts

Containing Dictionary of Synonyms and Antonyms, of which there are over 11,000. This has the effect of enriching one's vocabulary and facilitates the expression of ideas. It also includes:

Proverbs and Colloquial Ex- pressions.	Christian Names of Men and Women.
Facts About the Earth.	Weather Forecasts.
Metric System of Weights and Measures.	Commercial and Legal Terms.
Value of Foreign Coins.	Language of Flowers.
Time Differences All Over the World.	Decisive Battle of the World's History.
Foreign Words and Phrases.	Familiar Illusions.
Language of Gems.	Famous Characters.

LONDON AND DISTRICT

Name Omitted.

In the results of the Western Medi-
cal College examinations, as published
in The Advertiser yesterday, the
name of H. C. Allison, 31 Becher
street, South London, was inadver-
tently omitted from the honor list.

In Serious Condition.

Rev. W. H. Butt, of Ridout Street
South Methodist Church, who has been
improving for the past week, took a
turn for the worse on Sunday, and
now is in a very serious condition. Mr
Butt has had several relapses during
his long illness, but it is thought that
he will recover and will be able to get
around again in a short time.

April Weather.

The weather statistics compiled at
the bureau in South London, show that
the highest temperature recorded dur-
ing the present month was 68 degrees
above zero on April 24th, and the low-
est on the 3rd, when the mercury
dropped to 20 above. In April of 1911
the highest temperature was on the
28th, namely, 75 degrees above zero,
and the lowest on the 14th, 14.5 degrees
above zero. The rainfall this month was 3.13
inches, against 3.45 inches in April of
1911.

Hospital Doctors.

A number of the graduates of the
Western Medical School have been
given positions in hospitals through-
out the province. It was also an-
nounced that the appointments to Vi-
ctoria Hospital, Dr. Scott will be nurse
surgeon at the Hotel Dieu, Windsor;
Dr. Park and Dr. Barrett at the West
Toronto Hospital; Dr. MacRobert, in
New York; Dr. Morand and Dr. Mc-
Auley, at St. Joseph's Hospital, this
city; Dr. E. Bice, at St. Catharines, and
Dr. Simpson, at St. Mary's, Detroit.

A Delightful Concert.

The Jessie Alexander concert, given
under the auspices of the Wellington
Street Epworth League, proved a suc-
cess in every way. Miss Alexander
pleased her audience with her
latest selections. Solos were rendered
by the Misses Layman and Taylor,
duets by Mr. and Mrs. Cockburn. Re-
quests, Mrs. Cockburn sang, "Ray My
Caldor Herrin" in costume. The ac-
companists of the evening were
Messrs. Herlick, Cockburn and Luney
and Miss Taylor.

Poker Players Fined.

Eight young men who were found
playing poker in a Richmond street
room early Sunday morning, appeared
before Police Magistrate Judd yester-
day, charged with committing a breach of
the Lord's Day act. Fines of \$10 each
were imposed and paid up. P. C. Wm.
McClough and P. C. John Handy,
sides, who were on beats in the vicin-
ity, noticed a light, and securing a
ladder placed it against one of the rear
windows, and watched the proceed-
ings, stepping in off the sill to-
gether just as the money was being
placed on the table.

TEMPERANCE WORK

IN THE DOMINION

Address Delivered in Askin Street
Church by Mrs. Gordon Wright.

Last night at the regular meeting of
the Askin Street Epworth League, Mrs.
Gordon Wright, president of the Do-
minion W. C. T. U., addressed a large
audience on the subject of temperance.
Mrs. Wright, in the course of her ad-
dress, gave an account of the temperance
movement in the different coun-
tries of Europe, and showed that an
advance was steadily being made. The
speaker then told of the work in Can-
ada with which she is much in contact.
Great advances have been made in the
Maritime Provinces and in Ontario.
reference to the policy of Mr. Rowell,
the leader of the Ontario Opposition,
she said that she considered it the best
policy that could be taken to lessen
the use of liquor.

Mr. John McArthur, the newly-
elected president of the league, occu-
pied the chair, and a selection was
given by the Askin Street Quartette.

The Health

of the Hair

is indicated by its condition.

When the natural secretions
decrease, when the hair be-
comes dry, splits at the ends
and comes out in clumps;
when the hair becomes gray
or faded, the ill-health of the
hair is indicated.

The success of Oriental
Rum and Quinine Hair
Tonic is due to the fact that
it restores the hair-produc-
ing organs to their natural
vigor. It also encourages
and promotes the secretion
of the hair follicles, and
thus gray or faded hair re-
gains its original color, new
growth begins and fresh-
ness and beauty is restored. 50c

ART OF LIVING IS

FOREMOST OF ALL ARTS

Mrs. Harry Phillips, of London, Eng.,
Addressed London Art Association.

"The art of living is the foremost
of all arts." "We are all idealists."
These and similar expressions of
thought were among many such in a
interesting address given by Mrs. H.
Phillips yesterday afternoon before the
London Art Association. That
show personal expression in human
work, and that the history of all na-
tions may be traced in its fine arts,
was clearly set forth by the lecturer.
Those present were urged to cultivate
expectancy, originality, simplicity
and receptivity.

To proclaim art for art's sake is a
mere jargon. The human element
must be paramount if our work is to
succeed.

Mrs. Phillips, of London, England,
has made many friends in London
the less, and expressions of apprecia-
tion were heard from Mrs. C. A.
Ross, the former president; Mrs. Mac-
beth, Miss G. Blackburn, and Mrs. A.
White.

Home-seekers' and Settlers' Special
Trains to Western Canada.

Via Chicago and St. Paul, April 13,
23 and 30, and every second Tuesday
thereafter until Sept. 17, inclusive.
Tickets will also be on sale on certain
dates via Sarnia and Northern Naviga-
tion Company. Special train will
leave Toronto 10:30 p.m. on above
dates for Edmonton and points in
Manitoba and Saskatchewan, stopping
at all points on Grand Trunk Pacific
Railway west of Winnipeg. Through
coaches and Pullman tourist sleepers
will be carried, fully equipped with
bedding and porter in charge. Berths
may be secured in sleepers at a low
rate. This is an exceptional oppor-
tunity for those wishing to take ad-
vantage of the remarkably low one-
way settlers' rates or round-trip
home-seekers' excursions through the
American cities. No change of cars.
Secure tickets and berth reservations

RHODER WILL CASE

WAS CONCLUDED

Judgment Reserved at Non-Jury

Sittings By Justice Riddell

Yesterday.

THE LIST IS DWINDLING

Judge Will Fix the Amount To Be Paid

in the Morgan Alimony Case—
Some Actions Postponed.

The list at the non-jury sittings of the
high court, at which Justice Riddell
presided, dwindle rapidly at the court
house yesterday afternoon and evening,
settlements and postponements wrecking
what at first appeared to be a very in-
teresting programme.

The abandonment of the Smith will
case by the plaintiffs finished a suit that
has attracted much attention.

The action of the Pidelity Trust Com-
pany against T. J. James, a London
barber, was tried and judgment re-
served. The plaintiffs, as administrators
of the will of the late Thomas Rosal
Rhoder, claimed that Fred, Delta, Gordon
and Phoebe Rhoder, his grandchild-
ren, all minors, are the preferred ben-
eficiaries and are entitled to \$1,149.24,
the proceeds of a Royal Arcanum policy,
which have been paid into court. The
defendant contended that he is the owner
of the certificate, which he says he pur-
chased for value. The following wit-
nesses were called by the plaintiffs—
Walton P. Hendershot, Mary C. Downey,
J. H. A. Heald, James T. Westland, R.
K. Cowan, U. A. Buchner and W. H. Bar-
tram; J. M. McElroy for the defendant.

A Settlement.

The parties in Gibson vs. Wicker-
son arrived at a settlement out of
court, the defendant, Mabel Wickerson, retain-
ing the bulk of the estate in dispute.

Arthur Rudson Garthorne, Lan-
celot Strathairn, George N. Lancelotti,
Nora Campbell, the plaintiffs, sought to have
the probate of the will of the late Agnes
Wickerson, who died in Westminster
Township May 29, 1910, revoked. The
will, which was made in 1907, named
the defendant as executrix, and an-
nounced, further than Mabel Wickerson
paid certain sums to the plaintiffs and re-
tained the major portion. P. H. Bartlett
for the plaintiffs, J. B. McKillop for the
defence.

Alimony Case.

The defendant, in the suit of Mrs. Sam-
uel P. Morgan, of Kerwood, against her
husband for alimony, admitted the right
of the plaintiff to the crown attorney,
J. B. McKillop, to fix the amount.

The evidence of Mrs. Morgan and
her daughter was taken to assist the
court in giving judgment.

Tennant & Campbell for the plaintiff, J.
M. McElroy for the defendant.

As yesterday, the actions of Kirt
vs. Reid and Colburn vs. Munro and the
Township of Brockie, have been post-
poned.

The trial of the suit of the Bank of
Commerce against Frederick Adiel Fitz-
gerald for the execution of a judgment for
\$56,790.42, obtained from the defendant on
Oct. 2, 1901, is now in progress.

BUILDING IN LONDON

SHOWS BIG INCREASE

Month of April Almost Equalled

the First Four Months

of 1911.

The month of April was a banner
month for building in London. During the
month there were 151 permits issued,
for a total valuation of \$296,730. This
is almost as much as was issued dur-
ing the first four months of 1911, when
268 permits were issued, for a value of
\$218,377. So far 341 permits have been
granted by City Architect Nutter, to-
talling in value \$317,270.

Among the large permits were those
for the Mackenzie Hotel, \$40,000, and St.
Michael's Church, \$27,500.

It looks as if City Architect Nut-
ter's prediction, that building will
value much more than a million dol-
lars in 1912, will be verified.

THEDFORD ACCIDENT

Marion McInnes Fell and Fractured

Her Collarbone.

Thedford, April 30.—Miss Marion
McInnes, of the sixth concession of
Boisquet, while playing at school,
fell and broke her collarbone. She is

on box 25c

Wm. L. & Co.

58-1f

Titanic's Fund

Totals Millions

London, April 30.—The Ti-
tanic funds, including those
collected in Canada and the
United States, now aggregate
well over \$1,500,000. The sug-
gestion has been made that
sufficient money had been sub-
scribed, but the mayor of
Southampton points out that a
large number of people are
needy at that place, and he
wants the collection to con-
tinue.

It will not be surprising if
the amount eventually reaches
\$2,500,000 on this side. There
are still the proceeds of nu-
merous theatrical and musical
performances to come, and most
of the incoming steamers are
bringing in additional funds,
which have been collected on
the passage. A benefit perform-
ance on the Mauretania realized
\$3,250. The Kilmartin Auguste
Victoria brought \$1,670.

Affecting scenes were wit-
nessed at Southampton on the
arrival of the stewards and
stewardesses who escaped in
the disaster.

SOLD POTATOES

UNDER WEIGHT

John Hopper Appeared Before

Squire Chittick and Was

Committed for Trial.

BAGS 14 POUNDS SHORT

Defendant Stated That He Merely

Filled the Bags and Did Not Know

What the Weight Was.

John Hopper, of 744 Colborne street,
a gardener, found himself in serious
trouble at the court house last evening,
when he was committed for trial by
Squire Chittick on a charge of ob-
taining money by false pretences, the
prosecution arising out of the sale of
a bag of potatoes that was fourteen
pounds below the weight of 30 pounds
required by law.

Hopper's wife is at present seriously
ill in a local hospital, and when the
husband responded to the summons to
appear before Squire Chittick last
evening, he left four children, the eld-
est of whom is but 6 years, at home
alone.

Hopper was able to secure by tele-
phone two men, who agreed to supply
his bail, as required by the magistrate,
but according to the law bail cannot
be accepted without the consent of
the crown attorney.

It was found impossible to commu-
nicate with Mr. McKillop, but after the
commitment to jail had been made out
of the hands of the crown attorney,
he was discovered, and his consent to bail
was readily granted.

The Case.

A few days ago while driving
through Chelsea Green, Hopper called
at several houses selling potatoes.
Finally, he reached the home of Wm.
Jackson, an Englishman, who was
sworn in as a constable some time
ago.

Jackson asked if the potatoes weigh-
ed 30 pounds, and purchased a bag,
which, when Hopper departed, he
weighed and found to be 14 pounds
short. Hurling out, he came upon
the gardener again. Hopper, upon
finding that he had sold to a constable,
made the mistake of giving a fict
