OCTOBER, 1913

# NOT MERELY THE BEST VALUE Or The Best At A Price, But Positively THE BEST At Any Price <br>  

Buy a Pound packet and if you don't find it superior to the tea you have been using you can return it and your grocer will refund purchase money.

## A PIANO FOR EVERY HOME IN THE WEST

This is a possibility that can be easily realized. Most people think of the purchase of a piano as entailing an expenditure of four, five or six hundred dollars cash, and never for a moment imagine that good pianos can be purchased for less.

This is where The House of McLean Demonstrates its Service to Piano Buyers

THE HEINTZMAN \& CO. PIANO There are more Heintzman \& Co. Pianos found
in Canada's best homes than any other make.

The House of McLean has proven time and again its leadership in the piano business in Western Canada. No other music house in the Dominion enjoys such a large business or can point to as many satisfied customers.

We purchase direct from the factories on such a large scale and, buying for cash, secure values that enable us to sell for much lower prices than the ordinary music house.

We have Pianos from $\$ 25$ to $\$ 1500$
We carry an immense stock of Heintzman \& Co. Pianos and PlayerPianos as well as other well known makes, and always have in stock secondhand pianos, received in exchange for new instruments. These are immediately overhauled and put in good condition and in many cases are practically as good as new.

## A Chat with our Readers

The Western Home Monthly is a bank of credies of whin our reaunsel in struction, sympathy, encouragement and help. Now, this is the definition of a true friend. An examination of the reading matter in our magazine wil convince the reader that we are more than a publication-The Western Home It is a popular friend because it is found in more homes in Western Canada than any other magazine. It is a Home Circle magazine, because it provides a depart ment for every member of the home. Not only do we receive letters of appreciation from the homes in Western Canada, but our subscribers in other Monthly is the most welcome magazin that comes to them. In fact, some of our best immigrants tell us that our publication is responsible for their coming to this country. It pays to tel the truth. We do not paint false pictures to lure people here-we think the world, but at the same time, we realize that people must work and be prepared to conquer difficulties and should understand Canadian conditions before they come-hence our readers in other lands come prepared to surmount obstacles and they prosper. People over there are begging for the trinf. about Canada, and since we are true to ourselves we are true to our readers. We learn from our Old Country readers that one copy of The Western Home Monthly is loaned to from six to twelve homes. It might not be out of place to suggest here that a years subwould be a most appreciable Christmas present to the "home folk" in the Old present to During the long winter evenings they would pass many happy hours with this good Canadian friend so complete in information of the country and people that form who have gone out from the old home to the new land. At the cost of great risks and cutting criticism we have exposed frauds and have saved our readers from falling into the traps of unscrupulous schemers who gather in the dollars of hard working men and women. We have done this because we have a personal interest in our readers. to express themselves sincerely. They are not hampered by a set form of rules. We believe there is good in all creeds and politics and are impartial. Mutua helpfulness and sound judgment form our policy, and thisfactory class of duced a most satisfach in their generous readers as expressed in their gener us. We value this confidence highly and are grateful for our sympathetic circulation. The Western Home Monthly is a genuine friend because it multipies joys and divides sorrows. Articles, poems, and paragraphs frace the pages from and inspiration grace the pages from more rosy to the reader. It is our more ges not the world that need attenglion. We impart in our publication, knowledge that others may light their candles by it. In short, our magazine is a "balancing pole to those
across the tightrope of ered with special

## Our Departments

The departments About the Farm each better farming and solve many perplexing problems, and consequently The recipes and helps in the department of Household Suggestions make housework easier by changing it from drudgery and monotony pleasure.
There is as much valuable informacan be found in The Philosopher as magazine of the first class rank.
Vital topics of the day are discussed
in correct, concise and convincing style.
The advice of The Home Doctor has saved many lives in isolated places wher
families cannot have the services of a doctor or a nurse.
Our readers express their appreciation of the practical articles on the care of children. The West is peopled by families of young children, because the country naturally appeals to men and
women who are anxious to locate where women children will have growing adtheir children will have growing ad children of the West is an important feature of our magazine; we realize that in the boys and girls is the potential power of Canada's future
Furthermore, The Western Home Monthly brings all the great achieve-
ments of man, the wonders of his inventions and discoveries to our subscribers who are shut in by the mountains or are far out on a lonely prairie. Then, too, it makes the reader more familiar with the wonders of Nature Pictures and articles create interest in the trees and nd grass and mount
A Market Place

The Western Home Monthly is a market place for the homes in Western Canada. A careful examination of our magazines will prove to the reader that we are true to our name for the contents thoroughy define all Every need of the home and family may be found in our advertisements and one who does not read the advertising columns misses a great deal for every advertisement carries a message of economy and value to the one who needs to purchase
comforts and necessities for the home. comforts and necessities for the home. We carry a great amount of advertistern Canada than any other magazind. If there is anything needed in clothing, home furnishings, provisions, or farm labor-saving devices that the reader does not find in our advertising columns, we want to know it-for we are justified Monthly is the best medium of advertising in Canada. The test of any magazine is "reading it." Every day we receive letters of appreciation for which we are truly grateful. During the past year we have made thousands of friends, and the coming months in advertising business and in prestige as a clean, intelligent and popular
magazine. We do not attribute our success to luck but to an absolute determination to make a magazine that will meet every requirement of home life. This is the creed of The Western Home Monthly.

## Let us Give Thanks

A recent visitor to Winnipeg reports that he gave up his seat on the street-car twelve times to lady passengers without ever hearing a words of thanks. In this he may have exaggerated or he may have been deaf, but at least he called attention to a danger that is ever present in a land where men are given over to gallantry. Ladies are so accustomed to receiving this proper courtesy from men that they sometimes take it as a matter of course and forget that it is a courtesy rather than a legal right. In some countries this courtesy is not extended. A young lady from Manitoba relates that recently she was travelling between Buffalo and Toronto and that she gave up her seat and Toronto and that she gave up her seat baby. Meantime she had to stand beside the husband, while a dozen young men gazed at her in a critical way without offer ing her a seat. Shortly afterwards a seat became vacant, and the husband made a dash for it, leaving our young Winnipeg lady to stand all the way to Toronto. The young lady was careful to say that the husband was evidently not a Canadian. Let us hope he iwas not. And as we hope courtesy will ever be a recognized trait of Canadians, we can hope at the same time that gratitude for courtesy bestowed will be equally common.
Nor need gratitude be expressed for courtesy alone, but for every favor from every source. The favors received by the people source. The favors received by the people
of Western Canada are so many, that they of Western Canada are so many, that they
should, of all people, have thankfulness in should, of all people, have thankfuln
their hearts and praises on their lips.

## The Problem of the West

By william Lutton
Interesting discussions took place at the fecent meeting of the General Assembly of the Presbyterian Church, in Toronto, on the problem of the spiritualization of the West which found its chief expression it was said, in materialism.
Several of the younger ministers, who had been sent to settlements remote from civil been sent to settlements remote from civil-
ization, spoke of the vicious conditions ization, spoke of the vicious conditions
which obtained in raw settlements, when groups of differing nationalities, belonging for the most part, to the submerged tenth, in older lands, found themselves free from the restraining religious and other influences which held them in leash in European countries.
It is not that the settlers desire or countenance immoral conditions; but wherever the nucleus of a town is formed, certain ex traneous elements, vicious in their nature and purpose, engraft themselves as features of the new life. These do not endure; for when the school, the church and the civic expression find themselves, grossly vicious elements and features disappear. Much will remain which is morally indefensible; but the majority of the people will be found desiring, in the main, approximation to decency of life and habit. The people who come to us in the West are for the most part the victims of economic systems in the old world which still keep the masses in ignorance and poverty, and still show, especially on the European continent, the oppressions of old and ruthless feudal systems. They have been dispossessed of the land, and forced to herd in cities where they have been forced to herd in cities where they have been
submerged by the untoward circumstances of their condition.
When such people hear of the opportunity in the West, their chief obsession is to share in the amazing wealth of which they hear such thrilling stories. They have known great state religions which have kept them alow and humble and poor. In the Weest they have found free spaces, independence.
frecelom of volition, opportunity to develp
and progress. They are keyed up. They kiss the soil in reverent token of thanks and ownership.
Every thought and purpose is to do, to ac quire, to make themselves over in the new Small wonder that the spiritual is neglected for the material. The spiritual has been associated in their minds with elaborate metaphysical creeds, the A B C of which they were unable to understand. Moreover these creeds had little comfort for the masses, they solved no economic prob lem, they did not fill the larder, they did not pay the rent or taxes, they did not find em ployment at living wages.
At first, the heady sense of freedom pro vokes license in ill regulated organisms Even, however, when wholesome civic instiutions have been set up, materialism will remain. We see it in every new land. All are obsessed by it. Even those in whom the spiritual lingers, over-laid with outward cares, confess the drawings of the material.
What has the church done?
Not enough, according to the statements made at the recent meeting of the General Assembly. Several speakers addressed the great meetings, with an uneasy sense of pessimism, as regards the West-not as to its prosperity, of which there was evidence on every hand, but with respect, first, to the possible limitation of assimilation on the part of the foreign elements, and, second, in respect of the spiritual ideal in life. It was respect of the spiritual ideal in life. It was
mournfully insisted that there was doubt as mournfully insisted that there was doubt as
to the outcome in these two regards. The people it was said, in many places, had not begun to understand the meaning of citizenship after the British model, while as for spiritual feeling, this seemed wholly absent.
This was a doleful picture enough; but those who have made the West a study are indeed startled to consider the amazing problem which awaits solution there, in the problem which awaits solution there, in the
two regards referred to at the Toronto meetings.
Nevertheless the church has had the wisdom to see the folly of duplicating denominations with the old bewildering creeds. If corporate union has not been realized, cooperation, especially in a new country like the West, making at once for simplicity and social service, can be employed. The cry is social service, can be employed. The cry is for more men, for more money, for more
machinery, but if the North-West is to be spiritualized in its manifold racial and linguistic expression, it must be through a medium which will be at once direct and strong and sympathetic, which will reach the common people not stooping from a height, but walking step by step and side by side with the great bulk of the new citizens.
Keep the eyes and ears open when you Keep the eyes and ears open when you and materialism will be all tooevident. There is, however, a candor and heartiness about it which almost compels admiration., In the older lands, it was the "other world" which impended.
This was a vale of tears in which, according to the decree of Providence, a few favorites were permitted to have a good time while the bulk of the people 'were to be miserable in order that in another world they might have eternal recompense-a happy notion which kept the "people" humble, and allowed the classes to give Lucullan banquets.

## Our Heritage

Consider our national heritage. In arable land, in forest, mine, water stretches, there is nothing on this wide earth, can compare with our own possessions. And all this we obtained freely. Thuse who came before us
were too early and those who succeed us will be too late to receive all this as a gift. We have been selected out of all people of all time to receive free homesteads. Let us be thankful. The truly thankful heart will not rest satisfied to utter empty platitudes, little lip praises that do not warm the heart of the Giver and that do not enrich the soul of the receiver. There is a thankfulness that ends in deeds. Our duty and supreme privilege is to use wisely, to conserve carefully what a kind Providence has bequeathed us: The grateful heart is not wasteful. All the good things of God are given to be used so that posterity may be the better. Maternal and paternal love were not implanted in the heart without a purpose. Our very natures compel us in every act to think of those that must follow after

The Harvest
Consider what we have received this year. Probably never before in the history of the West was there such a bountiful harvest. We count our grain by train loads, we estimate it in hundreds of millions of bushels The sun and rain came in season, the wind stirred the growing plants and warded them from disease. All that men had to do during from disease. All that men had to do during
the long warm days was to watch and wait and wonder. And now that the fields have been reaped shall there not be a hearty song of praise, a thanksgiving sincere, which will be followed by a decision to use the gift wisely-for God's glory and the good of mankind? For that is no true thanksgiving which falls short of this. The aim of living was forever set forth in that great com-mandment-Thou shalt love the Lord thy mandment-Thou shalt love the Lord ohy self. A thankful people is a generous people. Every gift from God is a test of worthiness to receive further gifts.

## International Peace

Consider our peaceful relations during tho year. We have had no war and no mumor o war. We have lived in friendly intercourse with our neighbors and the bonds of friend ship are growing stronger. Every year we are adding to our people scores of thousands of Americanized settlers. The people across the line are becoming as well known to us, and as companionable as the people of the Eastern provinces. Though political unity is lacking, the social and commercial ties are more numerous than ever. We should indeed be thankful that we are able to show how two great nations can live side by side like two friendly neighbors. They are none the less true to home because they delight in one another's companyand because the sons and daughters intermingle freely and love each other.

Nor has our love for the Mother Land grown any less. How can we fail to love such a Mother? During the year we have been troubled as to how we could best help our Mother. None the less is our love sinour Mother. None the less is our love sin-
cere, and we can say with all filial devotion
"Daughter am I in my mother's house
But mistress in my own.'
We have indeed been blessed during the year in our international relations, and we can return unfeigned thanks. As we do so shall we not determirie that peace must continue? Neither the loud clamors of military leaders, nor the frenzied appeals of the manufacturers of ship-armor and war equipment will induce us to quarrel with ou fellows. Our mission is not to destroy, but to save. We should be more than grateful that just at this time there is in command of international policies in the countries that bear the closest relation to us, such lover of peace as Sir Edward Grey and William Jennings Bryan.

## The $\mathbb{N}$ eeds of the Foreign Chilld

Written for The Western Home Monthly by J. Richardson

$\mathbb{N}$
O ehild is responsible for his birth. |knowledge of English as will give him Die he must in the course of time Between birth and death lies a life Hed with possibilities and opportunities or social service, for a fully developed, rational citizenship, and incidentally for the race in the fields of material, economic and ethical service
For the purpose of such a life work every child is entitled to, and should get which shall be to him a many-handed blessing and which may shed a beneficent influence upon those with whom he comes in contact.
Economic considerations and governmental indifference to the welfare of the
foreign born child debar it from perforeign born child debar it from per-
forming intelligently the duties and responsibilities of citizenship
knowledge of English as will give him English-speaking opposid. The greatest factor in the assimilation of the foreign born child is a knowledg of, and an ability to use, in
of life - the English speech. of lissimilation begins with the public school where the English tongue is th sole instrument of instruction. Hence, for the benefit of both child
and state, it is essential to provide the and state, it is essential to provide the
necessary school houses, but this woul necessary school houses, but this would are enacted, laws which can and will b enforced. A reasonable, regular attend ance must be ensured, of course, without factory results are to be obtained. factory results are to be obtained.
The Dominion government is large responsible for the present difficulties.

The education of the child of foreign It settled these people in large areas and prentage is delayed by the exigencies of party politicians. Tesponsible for the education of the child and if the educational machinery be insufficient it must be supplemented with
efficient machinery, and should any gov efficient machinery, and should any gov-
ernment, knowing its responsibilities, fail to live up to them, the only safe course is to remove that government
and replace it with one that will deal honestly with the problem and face
the difficulties, which have been creat the difficulties, which have been created for political gain, with courage and
determination, and place the foreign determinald in such a condition education
born child ally as will redound to his and the state's credit.
No money honestly spent can be money ill spent in this cause
The child's parent has a right to de-
mand an education for the child, duty of the state is to provide jointly with the parent the means of supplying Since the English langu:gy is the speech of Western Canada it inculd be
obligatory upon the state to insist upon
often rigorously excluded an influx or English speaking settlers into such dis
tricts. The provincial governments hav ing no control over these lands could not prevent such set tlement.
During the During the last twenty years the public
press pointed out some of the difficulties press pointed out some of the difficulties
likely to ensue, but the Dominion auth likely to ensue, but the Dominion auth-
orities turned a deaf ear to the protests orities turned a deaf ear to the protests,
but of course, that has usually been the course pursued, unless politica! gain was
o be got by unstopping the deaf to be got by unstopping the deaf ear.
The B. N. A. placed education within The province A. under the control of that province and the Dominion government
can point to B . S . A. and say the diffican point to B. N. A. and say the difficulties we have created by our method
of settling our land are yours to solve. Moreover, the late government, in it mad desifen policr admitted wist num bers which it was impossible to assimilate thus, a rank injustioe was perpetrate
upon the Hubern provinces, in orde upon the Whatern provines in order
that evidenew should exist as to the very Therefon,

## The People of the Hollow

$S^{\circ}$
CQUEAL! Flop!
The baby raccoon fell a matter of eighteen feet from the hole in the This was purely an accident, be it understood, yet it was one of those accidents that Nature seems to have designed for For a little while the baby raccoon lay very still, blinking incredulously at the sunlit world around him. Already he had learnt one great lesson concerning it-
namely, the world is hard; it is not pleasant to fall upon it from the oak tree. Then, having overcome his complete dismay at the unexpected turn of events, he proceeded to make known his predica-
ment by loud whimpers of anguish. ment by loud whimpers of anguish.
Almost immediately the face of the mother coon appeared at the hole in the great gnarled oak above. It was a
strangely rounded face with ears acock strangely rounded face with ears acock and pointed muzzle, a face which for the most part was of a dull grey, though about
each eye was a patch of black which gave it a pathetic and lachrymose expression.
Succeeding the face appeared the body
of the animal-a body some thirty-three
inches in length from tip to tip, and
of a dull grey color, though about the flanks
The oak tree was hollow to the root The oak tree was hollow to the root its interior and the outside world was by way of the large hole some eighteen feet from the ground. A few yards to the north of the tree a clear brook trickled through the woods, its banks fragrant
with sage and wild mint, while some hundred yards lower down this stream had been so dammed by beavers that it had widened out into a series of still lagoons. The forest was one of oak, birch, poplar heavier timber the tangle of undergrowth was so dense that no animal larger than a lynx could have found a comfortable way through it.
One would have thought that the thrilling escapades of that June afternoon coons' thirst for adventure, but this was by no means the case. That night the became restless, while the world outside no longer radiant with sunshine and gaudy insects, but peaceful and quie in the radiance of the full moon, lcoked very enticing. There was something seemed to whisper, "This is the time whe

Good Wheat Yield at Dauphin, September 1, 1913
the hair was tipped with dark brown, or
a deeper shade of yellow. The tail, the grey beasts of the hollow oak
should a deeper shade of yellow. The tail,
long and bushy, was the most distinguish- $\begin{gathered}\text { should go a-hunting." } \\ \text { The young coons }\end{gathered}$ ing feature, for it was ringed with black in so conspicuous a manner as to declare to all and sundry-"this slow-moving, black-yed beast is a coon.
Slowly and cautiously, hanging head downwards, the old raccoon proceeded
to descend the tree, her laborious manner suggesting that she would have made better progress had she attempted the feat tail foremost. But her gaze was fixed upon her little one, and reaching his side
she sniffed him over to make sure no hurt had befallen him. Then grunting softly she led him back to the tree and began to ascend, looking round to see that he was following. Fqual! Flop!
Squeal
A second baby raccoon fell from the A second baby raccoon fell from the
heavens, and struck the ground with a sodden thud. With a whimper of terror
this new arrival rushed towards his little brother, and the two disconcerted youngsters comforted themselves by tucking other's stomachs. At that moment a sharp scratching mother coon saw the third member of the family clinging desperately to the bark, Taking in the situation the peril of a fall. Taking in the situation the mother ran
up the tree, took the stranded youngster up the tree, took the stranded youngster
by the scruff of the neck, and placing
it it between her forepars, conveyed it
back to the nest. This done she returned for the other two, and escorted them in a similar manner back to safety.

Exactly how this quarrel arose was diffiExactly how this quarrel arose was diffi-
cult to surmise, for without an instant's warning the night became hideous with snarls and low screeches, while tufts of hair floated away on the still air. The
male seemed in favor of gnawing down male seemed in favor of gnawing down the rampike rom ispute the question the settled by the appearance of the lost cub, who crawled from his prison with eyes tightly closed and fell helplessly to the ground.
But his nose was bleeding, and the scent of blood caused his mother no little anxiety She seemed inclined to take him home but her husband, still growling, proceeded
doggedly on his way, while the two remaining cubs followed him without hesitation. They were evidently out to make a night of it, and had no choice as towho led them to the desired goal. Placing the wounded youngster between her fore-paws the mother followed, and thereafter, as though conscious that she for eyen the wild mothers of the woods like the mothers that we know so well hold their weakliest children closest to their bosoms.
The third event was no less thrilling so far as the two stronger youngster were concerned. Along the dark and denly appeared, and almost colliding with the coons shot straight over thei heads, and with one bound gained the creek. As he met the water his tail struck the surface with a loud smack, and instantly the alarm was taken up by the beavers lower down.
tailsp. Slap! Slap! A dozen beaver stampeded for their lodges. The picket posted in the centre of the dam, assumed an absurd air of significance, but did not desert his post. He was aware of the approach of the coons-otherwise his merits as a picket would have been of doubtful value. And as presently first surface, and the owners of these eyes sax that the picket had not taken to the water, the futile activity and bustle began again while the five coons slouched, bear-like, into view.
Along the margin of the pond, among the mud and rushes, the two old coons began to search for their supper-grop-

## HAPPY OLD AGE

Most Likely to Follow Proper Eating
As old age advances we reqiure less
ood to replace waste, and food that food to replace waste, and food that will not overtax the digestive organ
while supplying true nourishment.
Such an ideal food is found in GrapeNuts, made of whole wheat and barley by long baking and action of diastase into most digestible sugar.
to a most digestible sugar
The phosphates also, placed up under cluded in Crape-Nuts, but are lacking in white flour because the outer coat of the wheat darkens the flour and is left out by the miller. These natural phosphates are necessary to the well-bal-
anced building of muscle, brain and anced building of muscle, brain and erve cells.
"I have used Grape-Nuts," writes a Western man, "for 8 years and feel as good and am stronger than 1 was ten
years ago. Among my customers an every day who is well along in years Grape-Nuts and Postum which he has used for the last 5 years. He mixes Grape-Nuts with Postum and says they go fine together.
eat Grape-Nuts, I could not say that eat Grape-Nuts, I could not say that
$I$ enjoyed life or knew what it was to be able to say 'I am well.' I suffered greatly with constipation, but now my
habits are as regular as ever in my
${ }^{\text {life. "Whenever I ake extra effort I de }}$ pend on Grape-Nuts food and it just great deal ea ier." There's a Reason."

Wime given by
Windsor, Ont "The Road to Wellville," in pkgs er read the above letter? A new appears from time to time. They
genuine, true, and full of human in-
ing below the surface with their delicate the surrounding their keen eyes watched and the hideous larvae of two dragon fies were caught by the male, but before devouring these dainties he washed them arefully in clean water to make sure ho mud or sand adhered to them. Then golden frog stretching it huge green and golden frog, stretching it quivering on the
bank with one nip across the back it in her hand-like forepaws she washed it carefully, then tossed it to the cubs. Thus the youngsters were in the midst
of their first lesson in the delicate art of their first lesson in the delicate art of frog catching when a fresh turn of events took the night by storm.
at bolt upright. Out of the darkness sat bolt upright. Out of the darkness
slouched two other grey beasts, their slouched two other grey beasts, their
ringed and bushy tails proclaiming to riend and foe alike that they also were coons.
The meeting of the two families by the beaver pond was unprcjected, and judging from the noise that followed was night was off, and at a safe distance the ivals hissed and snarled at one another while all the woodland folk for miles around knew that two families of coons had met at the beaver pond.
As the minutes passed the noise increased, the combatants working themsave distance fromione another. At intervals the males of the respective parties would dash forward, all fangs and claws, as though to tear their opponent to ribbons, but only to dart off at a tangent, and thus avoid complications. The bloodless feud continued while the moon the horizon, and finally.disappeared from view. and having learnt that frogs were good to eat, proceeded to paddle about in the water, evidently contemplating that by such means they would successiully bring while their parents did battle near by The smallest member, becoming chilled, soon decided to return to his mother, but by mistake made his way to the wrong party, and was promptly cuffed into the water.
It was near daybreak when the battle was brought to a sudden conclusion by the reappearance of the skunk. With
characteristic deliberation that gentleman strolled into the centre of the battle ground, and with no object whatever except that of making himself objectionable to his neighbors proceeded to pollute
the whole atmosphere with his deadly the whole atmosphere with his deadly
musk. As it happened the strangers musk. As it happened the strangers
got the full benefit of it and retired in undignified haste, while the people of the hollow oak, tired, hungry, and angry, made their way homewards, doubtless feeling that they had attained something in the way of a great and single-handed
accievement.
"Gee"" muttered the naturalist who had
been watching the proceedings from the branches of a near-by poplar. "I've branches of a near-by poplar. Pve that some people wouldn't believe. l'll
set it down as fiction, and see how that set it down as fiction, and see how tha goes."

Necessity and Invention
A mother with her seven children start d away on a journey. After entering
the car the largest child was laid out flat on the seat, and the remaining six then sat upon him in a row.
When the conductor came around to collect the fares, the mother counted he money, handed it over, smiled and suave

## "The Trawler"

By James B. Connolly

T
-HERE he goes in his little dory, his -
lose life, whirls the dory bow or stern to that sea. If he does it skilfully, the dory rides the crest in safety; if not, a prayer or two for the repose of their a praye
souls. The man hauling the trawl wears what are called nippers, grooved rings o cloth, that the fingers may not be cut
through by the hard wet line; but should through by the hard wet line, but should he discards the nippers and hauls in barehanded. Quite often he has to haul in hundreds of fathoms of line in that man-
ner. Imagine that cutting into his flesh, while all the time the winter wind is whistling, biting, and the spray dashing over the gunnels, thwarts and into the dory freezing where it strikes, frequently to
such a thickness that if they did not often stop to pound it off, the little boat would sink under the weight of $i$ it.
The long chances of fishing are taken
by these men who fish from dories: by by these men who fish from dories; by
being capsized, and by becoming separated being capsized, and by becoming separated
from their vessels in thick weather. And this ever-present danger of going astray is never minimized by careful measures of safety. Of course, there would be many less lives lost if the men
were careful, more prudent: surely, bui were careful, more prudent: surely, bu
your careful, prudent men don't take to deep-sea fishing, nor would they brea any records if they did. A man could an uncertain sea the fish which and rarely is it more than the necessities, of life.

- Heavy enough labor, this trawling though never, on a fine day, beyond
the power of the moderately muscular the power of the moderately muscular
and enduring man who is broken to it who has learned to time the swing of
back and shoulders to the swell of an ocean that never, except in phenomenally calm weather, ceases to heave coneath it might be compared ashore to the work of the man who has, after toiling the long day through in the field, to carry whe where far away the home-light burn dimly, except that your light ashore can be reckoned with, whereas your vessel
light is ever shifting, up the wind, down light is ever shifting, up the wind, down
the wind, sometimes as near as a cable's the wind, sometimes again miles away; with that differyour feet, the substitution of a dory's bottom which is never for two consecutive seconds in the same place, and bearing in mind always that a casual stumble which ashore will only throw you at
body's length, may here throw you to your grave; and not forgetting after you
reach the vessel the little added labor

Salmon Fishing Industry, Fraser River. Floor of A.B.C. Cannery
of three or four hours at racing speed ${ }^{\text {ch }}$ cut his gear and run for the vessel, but of dressing, icing and stowing your fish your real fisherman doesn't do that in before you may turn in if so be you do a hurry. Pride of calling alone forces not have to go on watch the same night.
That is for smooth weather but of hang on as long as the next man, course come the days when it is rough. Then you may see them in battle, tossing their dories over the side, themselves standing by to leap, and carrying such a weight of clothing, boots and oilskins There goes the dorv, down in the valley.
one moment, high above the rail the next, one moment, high above the rail the next,
while whosoever's turn it is to go watche while whosoever's turn it is to go watches
calmly for his chance. Few of us would care for just once to try that dive: not
for the whole vessel's value would we even were we good swimmers and unweighted by clothing, but these-they do it several times every rough day, and
many of them cannot swim a stroke many of them cannot swim a stroke. Imagine it then, one of those days when ashore your ulster collar is up to your ears, your hands in thick gloves, your breath coming from you, in thick wreaths of vapor. homewhere upon the ocean at
that same hour are thousands of fishermen in their little dories, the same swinging easily or it may be tossing from here to as high as the ceiling of your room and back again. In the bow of each little
boat is standing the man who happen to be hauling the trawl; in the wapist is
then the other, coiling it into a tub as fast asit comes in. The man in the waist has to
keep an eye out for the bad seas. To circumvent them there is always a ready of a mortally high comber bearing down the man in the waist turns, and with a quick and clever flirt of the oar, never the fore rigging, it surely is a bad outlook quick and clever firt of the oar, never for a straying dory. But when you have
too soon to waste time. never too late to, to stare lard to make out your mate

creams and puddings. Grocers sell it. If not, write
at arm's length! It is to put the fear of
the Power into your heart. And for the gray drizzle or snow-storms? Well, if men ashore can perish in the snow-drifts
of crowded cities, what chance have lost of crowded citites, what chance have lost
men in the streetless wastes of a wide ocean men in the streetle
when it storms?
when it storms?
You read that, and you exclaim:"But why do they do it? If they are intelligent
men, why? . Well, listen to a bank fisherman telling his shipmates why he cast up that last shore job. It is a wild winter's night while this man is talkingvessel pitching, halyards humming, and so cold up on deck that the man to the his face from freezing.
"Every morning at seven o'clock," we were supposed to be inside the gates, aye, and to work-and at twelve oclock it blew again, and they said we could stop
and eat. At one oclock it and eat. At one o'clock it blew again,
and we turns to and no more time to take a drag out of your pipe, to so much as look sidewise at a chum till six o'clock again. And every day the same: seven ${ }^{\circ}$ 'clock and twelve o'clock and one o'clock and six o'clock-and every blessed man there, big or little, good worker or poor worker, just like another. And women,
Lord God, women doin' the same work Lord God, women doin the same bork
as men! And no matter how it blowed as men! And no matter how it blowed
outside, never a let-up. Never a restul gale of wind when it'd be too rough to put the dories over and all you had to do was to heave her to and take things easy for a day or two maybe till it moderated, and never your day or two in port-no, nothing like hat, shimp that we wouldn't cut up aboard here for bait-not for good bait-'twas him givin' the order to blow the whistles."
Now that same man had doubtless on occasions put more physical, mental and spititual energy into one day's
fishing than ever he did in a week at the fishing than ever he did in a week at the the danger. But it was a different matter entirely. He was brought up to the fishing life. His father before him had been a fisherman and his father before him; warm rooms, regular hours and certainty of wage did not mean ease to him. sure there was the skipper, but Lord in Heaven! the skipper whas something of a man-he'd proved that before his firm ever gave him a vessel.
However, a hard way to make a living. Surely that, but save your pity. Toiler he is, but no slave. He sings as he hauls to the heave of his dory and laughs as the
sea slaps aboard. Toiling he is out sea slaps aboard. Toiling he is out
there on the wide ocean, but 'tis a man's there on's doing-no bov's, nor woman's, nor half-made creature's, but a full man's work. And when he eats, he eats, and when he sleeps, he sleeps, and the good food meanwhile nourishing his great body
till it it pure joy just to be alive till it is pure joy just to be alive. Never a morning turning out of his bunk that he
doesn't feel equal to wrestling with all outdoors, never an hour that, his life depending on nerve, skill and strength, but what his nerve, skill and strength will measure up to the need and he comes away safe, for out there, despite his bounding self in full mastery of all his his highest self
tremendous forces.
For days and weeks he is out there wrestling with the eternal elements, his stature increasing all the while, and then he comes to port. He doesnt know what he will get for his trip he may hav money to the price of the children's shoes-it is all an adventure-but, well or ill he comes home, and walking the streets of men's cities again all who meet him know him for a man. He pauses on the corner, and there is that about him at him again. There is that in the balanced shoulders, the cast of his jaw, And the glow in his eye is unfathomable, as why shonfinite depths! Standing there
into the inf he might from out of his potency achiev
mastery of men, of women, of everybody but the world is to be loved, not mastered all things look good to him-all men friendchildren creatures to be crushed with tenderness.
He goes bark to the sea, and for days,
weeks on end it may be, he toils again; weeks on en hour, let his wits dull or his nerve grow slack, but what Death wr
never while he is given a chance. TTis sue that the catacyym will come, that
some day, if he but cling long enough to the fishing, the one overwhelming tide will flood and then will he go down. But sh-hks! every man to his own ending, and 'tis the grand grave-the ocean.
So there he is, doing the work he best can do, and 'tis a great work. He is setting the standard for all time, for after sail is gone and steam is gone, and
electricity and the more potent forces as electricity and the more potent forces as
vet undelivered men-not alone men of yet undelivered, men-not alone men oo
the sea, but all men of all worlds-will he sea, but all men of all worlds- whil
be more nearly true masters of their be more nearly true masters orso
craft because he has lived; and also will he be enshrined as of the immortal corpssea, plains, hills, woods and even crowded cities know them-who act not according to their profit but to their measure, and that measure makes ever for full manhood.
There he is out there in his little dory There he is out there in his little dory meenner and only thanking God that the fishing is good.

The Pot O' Pent
Ian Maclaren in "Leaves from the Scrapbook of a Scottish Exile"-
In a dull Scottish village, on a dull morning, one neighbour called, at another's house, He was met at the door by his riend's wife, and the conversation which ensued was thus
"Cauld
"Ay." tae be weety (rainy), I'm "hinkin'"

## "Ay."

"Is John in?"
"Ou, ay ! he's in."
"Can I see him ?
"Can,I see him?"
But a winted tae see him. Ay, but ye canna see him. John's "Deid?"
"Ay"
"Sudden
"Ay."
"Ay." "Verra sudden?"
"Ay, verra sudden."
"Did he say onything aboot a pot o" green pent afore he deed?

## He Kept Himself Cool

A man and his wife were once staying at a hotel, when in the night they were aroused from their slumbers by the ery
that the hotel was afire, says The Boston Herald.
"Now, my dear," said the husband, "I will put into practice what I have preached.
Put on all your indispensable apparel, and Put on all, your indispensable apparel, and
keep cool.' pocket and walked with his wife out of the hotel.
When all danger was past he said: "Now Thu see how necessary it is to keep cool." husband. "Yilliam" she said, "it is a gran hing, but if I were you I would have put on my trousers.

Canadian Trap Shooting Honors
At the Grand Canadian Trap Shooting Tournament recently held at Hamilto ween the leading shots of the Dominion for supremacy. The Amateur Championship of Canada was won by W. Barnes of Hamilton with a perfect score of targets. Mr. Barnes used Winchester
Factory Loaded Shells. The Grand actory Loaded was won by $H$ Cmith of Chatham with a score of 48 x 50 from 18 yard rise, and the Earl Grey cup, for the High Aggregate of the tournament, was won by R. Day of London with a score of $287 \times 300$ targets. Both Mr. Smith and Mr. Day used Winchester Repeating Shotguns. The imLoaded Shells and repeating Shotguns is another demonstration of their splendid shooting qualities.

A mother bought thirteen large apples and thirteen small ones, which she divided
equally amongst her seven sons. How equally amongst her seven sons. How did she do it?
This is not an abstruse problem. It very simple.

When infants are weakly from digestive strength is naturally
dith sub-normal, and, as there is failure to extract full nourishment from ordinary food, malnutrition results.

## The Duke

Written for The Western Home Monthly by H. Mortimer Batten.
A LEC NORTON was certainly the Mattagami Landing. They called him the Duke. Why he went there, into the very heart of the North Ontario lish public school, goodness alone knew. Yet there he was-his face chewed out of all recognition by the mosquitos, his hands and feet blistered, tolerating his pains for two and one-half dollars a day,
most of which went to the Chink laundryman for washing khakis.
Whenever the Duke passed through the settlement the old mining camp toughs grinned and nodded to one another. Why does old Tom keep him on?" they his pay, and anyway it's cruelty to ani-
and
"Tom knows when he's got a man cheap,", was the possible reply. "But he on't keep him for long, you see. That to stay."
The Duke did stay, however, working with pick and shovel in the trenches from sunrise to sunset. His boss, Tom Lawrence, was a tough old stick, and
lived on his own claims in a dense patch of bush about half a mile from the Landing. He was a widower with one child-a boy of twelve, they called Billy.
Billy was as white a little white man s ever you saw, with the face of an ngel and te heart of a warrior. He ather, and those who wave such mam his any thought must have seen in Billy a type of character far removed from the Billy hue of his surroundings. Billy and the Duke got on A1. The
Duke-goodness knows when he time-cleared a patch of bush near to the shanty, levelled it down, and here taught Billy to play cricket. Billy was kindly little soul, and I fancy he ooked upon the Duke as a sort of a god. Whenever Alec Norton appeared at
the settlement Billy was in the canoe with him, till the boys took to enquiring whether the Duke enjoyed any extra pay in return for his duties as governess. ginning of July when some philanthroinst returned from Montreal city with a consignment of hootch, which he distributed liberally up and down the settlement. Tom Lawrence got his share, then did what he always did on such fcasions. He took more than was good about. The result was that Tom Lawrence got a black eye and the Duke got

Alec Norton had only one pal-a young English mining engineer called Ford, who travelled north in'the same coach. He went to Ford with his troubles.
"I wouldn't mind," he explained, "if it wasn't for Billy. He's the whitest little cuss I ever knew. Now I've got to
clear out and leave him to that dad of

Then suddenly the Duke buried his face in his hands and said no more. It's surprising how the flies and mining
camp grub pull a fellow down who isn't camp grub pull a fellow down who isn't
used to them. used to them.
a few days, but about the city fol to find him work. "You'd best get a way south and find a softer place," Ford advised. "It takes a fellow a year or two to get used to life up here, and
you're about done up already. If you get typhoid you'll kick it, and besides we're likely to be burnt out by forest fire any day."
The forest fire came before it was expected. It always does. One never ex pects a forest fire till it appears, and thing.
That day-the eleventh of July dawned as cleare as erystal, save for the slight taint of smoke that had been in
the air for the air for weeks past. At about eleven
o'elock it began to blow in short, savage gusts. By twelve it was blowing a Never was Mattagami Landing more
thoroughly wascucd. Everyone tras car-
rying buckets of water, and damping down the surrounding bush. But soon it began to get darker and darker. Me collided with one another in the main avenue; dogs barked, women screamed and children ran hither and thithe
searching for their rarents. It was just searching for their rarents. It was jus
as you would imagine the streets of don to be if the cit were bombarded by artillery in the midst of a fog.
The fire must have been still ten miles distant when a man came running down the tote road from the bush, hat less and ragged, his' face scratched wit
branches. "she's right behind us-trav elling at the rate of an express train was the report he brought. Then he asked if anyone had seen Tom Lawrence and Billy.
No one had. Those who knew Tom said that he'd stay behind and try t save his property; those who knew Bill
said that the boy would stand by his father.
Panting and coughing the man wh had come in from the bush groped hi way to the main' nding stage. In th
gloom no one recognized him as th Duke. Swinging clouds of smoke filled the air, and in the distance could be heard a dull, persistent roar, like the roar of thunder
As' the Duke reached the main landing
stage some of the men were pushing stage some of the men were pushing of group of women and children. For moment the smoke cleared, and the Eng lish public school boy saw that Billy canoe wasn't there. He climbed into the push off when someone clutched the gun push o
wale.
"Wh
"Where are you going, you all-fire idiot?" enquired that someone excitedly It was Saphray, of the police.
a hand," the Duke answered. "He, stopping behind to save his property."
"Save his-aunt "Save his-aunt! Don't you be blame goat. You stay right here. You won't stand a lame duck's chance awa
from the clearing". from the clearing
The policeman clung tenaciously to the exposed a revolver hitherto round, and "Let go, or by Jupiter I'll brain you!" he shouted. He had to shout to mak and the canoe vanished plied his paddle of swinging blackness.

## II

As soon as Tom Lawrence and Billy saw the fire coming they got to work a down the surrounding bush. They shoul have cleared out right away, but lik many another close-fisted man Tom wa prepared to risk his own life and that his son in order to save his property When at length the Duke arrived at the clearing on which the hut stood, he the river. Down it fanned a scorching draught like the blast from a furnace a draught which had burnt his face, and Throughly blisters on his naked arm through the air flew wisps of burnin stung like a swarm of hornets.
The Duke rolled out of the canoe into the water to saturate his smoulderin clothes. Then he ascended the bank, an groped his way hot-footed towards th against a huddel he it he stumbled against a huddled heap crouching for
shelter behind a rampike. He stooped and touched it-it was Billy! He stoop "Gosh, I'm glad "ou've come,", said "Don't know sonny. Come on quick." He gripped the boy by the hand, and ingoed him towards the river. "Ge in. That's right. Take off your jacket
and shield your face with it.
Come on." "Where? We'd best stay kere in the match. Those cedars will burn like matchwood. Ceder stitles you. Come o to the cricket ${ }^{\text {pitch." }}$
on they went-stubling on they went-stumbling, groping
from place to place. Their eyes bunt
likin fre
heir lips. Once the boy fell to the grounc whim up-d, gged him on. His own limbs felt like lead and burnt like fre. They reached the little clearing, and here the Duke hacked a hole in the ground large enough for the boy to hide his face. He pushed the youngster down. Cover your head . th your tunic, and don't creep away for Heavens sake.
"Where are you going !" When I come To look for your dad.
But the Duke knew he might never come back. He took off his own saturated tunic, and threw it over the boy. Then, creeping on all fours, he made his
way towards the shanty. way towards he sost contro
om had lost control of himself. He had reached that condition of panic
into which even the strongest of $m$ men will fall when beset by dangers they cannot hope to overcome. Mechanically, frantically, he was wielding his bucket, hrowing impotent draughts of water from the almost empty well by the hant on to the surrounding bush.
Alec's fingers closed upon his arm like a vice. "Come on, you fool, and save from the frenzied man's fingers.
He led the way back towards the pitch-both men stooping forward in a strained attitude. Their breath came and went between clenched teeth; the hair of their heads curled and singed in the teat. In the distance they could hear only faintly discernible above the roar of the approaching fire.
As they reached the pitch the Duke stooped down and touched Billy on the shoulder. "All right, Billy?" he enquired.
"Yes. I fancy I can pull through if it gets no worse than this.,
"It will get worse, Billy. You must be brave and try to stick,
leave here on any account."
Then he turned and spoke to Tom tawrence. "Lie down here," he said "and if you've got a spark of manhood in you try to protect the boy. I'm going for water.'
He seized the bucket, and again groped
his way from the doubtul sganctury of his way from the doubtful sanctuary of the cricket pitch. Reaching the river
he lay down in it to cool his smoking he lay down in it to cool his smoking
clothing. For a moment he thought of the awful place he had left behind, and what awaited him if he went back Death where he was was certain, but a death a thousand times more mercifu than the heat of the burning forest. He scrambled to his feet, bucket in hand. How he got back to the cricket pitch he never knew. He remembere bearing a roar, and looking up to see a
huge cloud of detached fire, several acres in extent, racing overhead on the wings of the hurricane. Then there came a roar-louder-more terrifying. It filled the great forest with an ocean of sound, and at the same instant the smoke cleared, and instantaneously the whole In the crimson glow the Duke saw In the crimson glow the Duke saw
Billy and his father crouching where he had left them. He fell on his face, and began to worm his way inch by inch to where they lay. As he drew near Tom Lawrence rose to his feet, and began to grope his way wildly towards the river. The Duke was upon him in one leap. His fist shot out, and Lawrence col lapsed in a heap to the ground. Over him the English public school boy poured
half the contents of the bucket. He tried to speak-to tell the frenzied man to lie still, but no words came. He dragged him into the centre of the clearing and left him there. groping his way on towards Billy.
Billy had never moved, though all his senses cried out to him to search for à
better shelter from the awiul heat. His better shelter from the awiul heat. His
hero had told him to lie still, and that was enough for him. As the Duke drew near the boy held out a blistered hand, and the Englishman wrung it. Speech was beyond them, but each understood in a dazed and painful way, that they "were "going out" together. So they
shook Thon thas upon it. the body of hise threw himself down on fend him from the heat. Around them the fire roared like a thousand lions. Hungry tongues of flame reached out towards them across the clearing. As
though in a nightmare Billy was aware that the awful heat no longer scorched his back and shoulders. He heard deafening reports all round as the trunks of the forest giants burst into pulpwood, and once he saw his father creeping towhats them like a giant spider, through what appeared to him as a white-hot
furnace.

> As fo

As for the Duke-he thought that he the range of human endurance, but some how it seemed not to matter. Billy might pull through, and if so he would grow up into a topping good fellow. He felt sure of that. Billy was made of the proper stuff. He had the soul of a gentleman, and some day would find his British public school and disowned by
his people-had failed in many ways where Billy would succeed.
In a few minutes the worst of the fire was passed, but all round them the bush
was still burning savagely burn for hours, they knew, though mercifully they lost all sense of time as they huddled there, their faces to the ground their heads defended by their tunic.
What at length called the Duke back to earth was the boy's voice. It saidGosh, but I'm thirsty."
Then the Duke remembered the buck.. He stretched out his hand to reach it, but the iron handle burnt his fingers. The water within it was almost boiling He sat up with an effort and tried to pay-bill through. Shake!" But he said nothing at all.

A few minutes later the Duke began to grope his way, bucket in hand, toward grope his way, bucket in hand, toward
the river. His clothing fell to pieces as he went. After what seemed an eternity he came groping back without the bucket, and motioned to Billy. "Billy," he managed to mutter, "we can live in the river now. Come on."
The boy followed him. Ere they had gone many yards Billy turned back and they dragged Tom Lawrence to the river and once within the cool and comforting water they knew all danger to be past.
Little Billy Lawrence received the new of his father's death with a stifr lip Before the advent of the Duke he ha now that poor old Tom was gone Bill called to mind the few kindly actions

Billy said nothing, but his fingers closed tighter upon the sleeve of the
Duke's tunic, and the two passell out of sight together.

## A Hallowe'en Frolic

Some-Novel Suggestions for an Autumn Party.

By Gladys Beattie Crozier

"DAISY, darling, it's Hallow E'en on |in school suits and the little girls in Saturday week!" announced Beryl and Jéry climbing on their sister's lap.
"That means you want me to keep
my promise to ask Teddy and the my promise to ask Teddy and the little Johnsons over to tea and to get up a
'Hallow E'en Frolic,' like the one I told you about that I went to when I was a little girl!" laughed Daisy, kissing her small brother and sister, who snuggled up to her cosily as she, sat reading alsom fire after a long day at the High School. Daisy had "mothered" the little ones almost ever since she could remember.
"Think of all the things you did, so that we can do just the same!" begged both the children, and, paper and pencil
having been produced, they, after much discussion, drew up a splendid programme for the evening's fun.
"I shall have to ask Cook to lend us a kitchen chair, a big wooden tub, a
three-pronged steel fork, three soup plates, a large basketful of her biggest rosiest apples, a carrot, a turnip, and a potato, three candle-ends, and a fruit knife!" observed Daisy, putting down
the items. the items.
"We are going to have a 'Hallow E'en will you come to tea at 4.30 o'clock, and stay as late as you can? Wear your oldest clothes, please!" So ran the in-
vitations, which were vitations, which were accepted with
much enthusiasm by return of post much enthusiasm by return of post.
Five oclock on Hallow E'en found Daisy and her great chum. Helen Col thurst, who had readily agreed to come and help her to make the party" "go",
seated at either end of a gaily spreai seated at either end of a gaily spread
tea-table. with half a dozen extremely tea-table. with half a dozen extremely
lively children between them, the hoy=
sensible linen over-alls, all chattering as to the probable nature of the entertainment prepared for them!
Half-an-hour lat
Half-an-hour later, a procession wound upstairs to the schoolroom, which had and ends, and wore a very gay and fes tive appearance. The mantelpiece was prettily decorated with bunches of gold en corn, branches of tinted beech leaves, and boughs. bearing nuts on them, whilst further similarly composed trophies
were erected in each corner of the room, until it looked as though a harvest festival were about to be celebrated.
Upon the bare-boarded table, bereft of its pretty cover, was arranged at one nd a row of soup plates, and at the placed in a row. A bright fire burned in the wide grate and a plate of chestnuts waiting to be roasted, and another of fine applesach of which had a piece of thick a low stool on one side of the hearth, whilst over the fender a couple of thick towels were being heated.
A big tub, half full of water, in which ome rosy apples floated, occupied the pace just in front of the hearthrug,
whilst a second similar tub was' ar anged in a corner with a wooden chair beside it. On the chair a steel-pronged Nitchen fork was placed in readiness, Whilst an apple, a potato, a turnip, and arrut bobbed merrily on the surface
"Oh, how jolly! May I eat one?" ex-
lained small Teddy, running up to the
thl, in which the apples floated.
Not till vouve ducked for it, you
rascal. :"
ing him back by the tail of his little unic, as she hastily proceeded to place couple of children, one at either side turns, and try to bring out an apple in their teeth! It was by no means so easy a task as would at first appear, but after prolonged diving and spluttering both Teddy and sy tightypeared one after another, each itighty grasping a a prize between their sharp et by the other children, who hastened in turns to take their places, whilst Daisy and Helen promptly grasped each successful competitor, to give his or her to prevent their taking colds!
"'Now lift the tub, please, boys, on to this smali tate across it," directed Doing to race ing a couple of tiny paper fans and two delightful little walnut shell boats, each of which bore a wee paper sail. The children, two by two, proceeded to fan and blow their boats across the water into port, each winner being presented with a chestnut, which he or she was warned to keep ready for the next com-
petition!
tick tub voted too small;' and, struck. by a bright idea, Daisy sent for a big, shallow hip-bath, which, filled with a couple of inches of water, made a splendid sailing reach! whilst the spout by which it was emptied provided a delightful harbo winning $P$
"Now everyone must go outside the door until I call them in again," an-
nounced Daisy, proceeding, directly the nounced Baisy, proceeding, directly the
door had shut upon the noisy, chatter ing thirong, to produce and hide a ring a thimble, and a penny-the ring and the thimble, bëing silver, were specially provided, so that they could be kept by their finders.,
"Come in!" she cried two minutes finder three emblems foretelling your futuire destinies ${ }^{t}$ hidden about the rooma ring, a thimble, and a penny! The ring means' marriage, the thimble an 'old. maid' or 'old bachelor,' and the penny future wealth!" she explained, as the children promptly went down on all fours and proceeded to hunt merrily amongst the chairs, table legs, under the skirtings of the walls.
"Hurrah! I've found the penny," "Hurrah! I've found the penny,',
cried Bobby, jumping up and producing cried Bobby, jumping up and producing
it from underneath the fender.
"And I've "And I've got the thimble!" an
nounced Sybil "I saw it before you did, but I thought Id rather have the ring!' So I just let it stay there, and went on hunting, and
now I've just found the ring hanging now ve just found the ring hanging said Nancy slyly, proceeding to put i on the third finger of her left hand. Daisy, who is fond of travel?" asked
"I am !" cried the children in chorus. "Sit on the floor, then, in a row, take off your right shoes, and hold them in
your hands ready to do what I tell you. Are you ready? Then throw them which way the toes point!"
Five little shoes pointed towards their wearers' backs, but the sixth pointe away from its owner, little Sybil, and
as Sybil's parents had promised to take as Sybil's parents had promised to take
their little daughter to the South of France with them for Christmas, it seemed likely that the prophecy would seemed likel
be fulfilled.
peel it, Nancy, take this apple, and peel it very carefully, so that you don't
break the skin!" said Daisy, handing her a big red one, and a silver fruit knife-to avoid possible accidents! Nancy proceeded to peel it, and this done, she was next directed to swing it
gently three times round her head and gently three times round her head and
drop it over her left shoulder, to see what initial it would form, the initial being that of the individual she would some day marry!
Xancy, much delighted, did just as
she was bidden, and the apple peel formel a beautiful capital letter of very after "ate shape, which Jerry declared
ate "I apect that means, you will very gle. "dly, to her great indignation!

When everyone's initials had been
ried -including Helen's and Daisy's to the delight of the children, they all gathered round the table to try their Cortunes with candle ends.
Three played at a time, and the three candle ends-which were of exactly equal length-were lighted simultaneusly, and watched eagerly by their re-
spective owners, who were each bidden to wish as they lighted them. The owner of the candle which burned long. est would be the first to have his or her wish come true.
Meanwhile the fire had subsided into a steady orange and crimson glow, the very moment, so it seemed, for roasting "Help.
Help yourselves to three each, chilthem," directed well play a game with passed along, and she proceeded to place them in sets of three all along the hot "N to await further developments. hestnuts you must each name your three chestnuts. The owner of each set of hestnuts: is always the middle of the
three, atad the ones on either side of you mûst be called after two of your friends. Watch how they burn, and you
 they glow gently, it is a steady friendship; if you 'blaze up together it is a very violent affection between you; and that your friendship with before long be that your
broken!?
This delighted the children, amidst much whispering, named all their nuts, and then, as they grew hotter and began to hop or burn, the excitement grew higher and higher, until the flames died out again, "and the nuts which had arvived the ordeal and become. more romantically Daisy and .Helen pencils and stips of produced eight each child was directed to write a wisk Now put each paper into the fire get your wish, , but if it gets burnt you won't!
Helen's Nancy's Sybil's an Bobls apers flew up the chimney without begig even scorched, but Daisy's, Jerry's nd Jm 's were gobbled up by a little "W, much to their disappointment. and things floasting in this tub for Daisy ?" asked Helen
Daisy "" asked Helen.
"That's
That's another way of foretelling the future, and it"s rather fun!" laughed Daisy. Do you know hese new yittle Bore,' and 'Suffragette, Actress, Clarwoman, Flirt,' for the girls and boys respectively, invented by a girl 1 know to use for the cherry stones instead o," hhe old ""Tinker, Tailor, Soldier, Sailor.
"Oh, no! What fun! Do let me try ny fortune," exclaimed Helen, and according to instructions, she proceeded to perch herself upon the seat of the kitchen chair, grasping the fork, prongs downward, in her right hand, whilst steadying herself by holding on to the back of the chair with her let. Daisy, having roiled op bobbing fruit and vegetables a good swish round, explained that they came Apple, Turnip, Potato, Carrot in the list. She then stood back again. whilst Helen tried to drop her fork into the apple.
She had no luck, however, for after three unsuccessful throws she finally
pronged the carrot, and went off to pronged amidst loud-voiced condolences and threats of being dropped for ever should she dare to carry out her predestined fate and marry a "Bore!"
Jerry, much to his vexation, got a Suffragette, to the delight of the children, who teased him unmercifully about it, whilst naughty Sybil pinned a paper under the pretext of wiping off a splash of water, which he wore for hours before he found out what they were all laughing about!
Nancy got an "Athlete," however, to her complete content, whilst poor Bobly lad to put up with the "Char"-a
great joke because of her pronounced

"Now for the test of the Three Magic Plates!" cried Daisy, pouncing upon
Beryl and blindfolding her ready to be-

a toasting fork, doesn't it
"That's an American Popper for mak. "That's an American Popper for mak-
ing pop-corn," answered Daisy proudly, ing pop-corn," answered Daisy proudly,
as she took it down from the wall, and, as she took it down from the wall, and,
opening a bag of maize, she proceeded opening a bag of maize, she proceeded
to pour in a small handful of the shining golden grain; then she fastened down the lid of the popper and held it over the hottest part of the fire, shaking it gently all the time.
Pop! ' Pop! Pop! went the corn, beginning to jump about inside the pop-
per in the most exciting manner, and a minute later Daisy, opening the lid, shook out a pile of delicious white and golden pop-corn into a plate and passed it round.
"American children make such pretty
chains for decorating Christmas trees chains for decorating Christmas trees
or wearing round their necks of popor wearing round their necks of pop-
corns strung on a double thread of cotton, and then if they get hungry they can eat them!" Daisy told them, and, darning needles and a reel of cotton having been produced, soon half a doz-
en fine chains were decorating the respective necks of the delighted makers! "Now for a real indigestible Hallow E'en supper, which we're going to cook
ourselves!', anncunced Daisy as the maid came in with a tray on which reposed a large jug of milk, a huge plate of bread, and some slabs of delicious yel-
low cheese, and they all gathered again lov cheese, and they all gathered again
round the fire, which now sent out a steady glow.
"First of all we must put our ppless
up to roast," and, suiting the acion to up to roast," and, suiting the action to the word, Daisy proceeded to hang the apples in a row at the end of their
strings all along the mantel-piece tying the strings to a row of kitchen weights, where they soon began to bubble and throw out a delicious odor.
"No, not yet, children, they"ll be as
hard as iron in the middle," she protested, as Jerry was about to pull his down, declaring it to be done! "We're going to begin by toasting slices of
bread, and then toasting cheese and eating them together whilst they're very
hot!" And this they accordingly did, hot!" And this they accordingly did,
with the help of several wire toasting with the help of several wire toasting
forks which Daisy had thoughtfully forks which Daisy had thoughtunuly
provided, amidst scenes of the wildest excitement when the cheese dropped off the toasting fork, as constantly happened, and had to be rescued again and
fished out from the depths of the flames, fished out from the depths of the flames,
to be eaten with enjopment by its own to be eaten with enjoyment by its own-
er despite the by no means silight addition of ash which it had accumulated on its journey!
whispered the children as she tucked them up in bed and kissed shem both good-night later on.

## A Canadian Wonderland

Written for The Western Home Monthly by Edith G. Bayne, Grand Coulee

JSPER PARK is the last great Wonderland of Canada-a goodly heritage miles which has been set apart square government as a huge pleasure by the government as a huge pleasurethis wonderland?" you ask. Up among the Rocky Mountains along the Yellow Head Pass route, in a region of wild and rugged grandeur and great natural re sources. Here is the very heart of Na ture, the very pulse of life. Here the sordid and the petty cares of existence drop from garment with one long breath of the mountain air. Approaching Jas per Park along the line of the Grand Trunk Pacific Railway the mountains rise and stand like giant sentinels, first in a long serried line and then as we wind in and out among them, on either hand they appear close beside us and permit in certain parts of the route only a patch of sky to be seen over
head. The railway follows the old trail faithfully-that trail which has been beaten by moccasined feet of past ages
and which still remains. Now w and which still remains. Now we
glimpse it on our left and again it is glimpse it on our left and again it It winds off into the dim pine woods and we think it is lost, but suddenly it ap pears again away on old corduroy bridg panning a rushing little mountain panning a rushing now between zig stream. On we go, now between zig
zag giant walls of rock and then taking sharp curve with a sheer dip on on side, while we hold our breaths and wait and wisely refrain from looking down into that abysmal depth. Instead we ook straight ahead and presently see our engine rods ahead of us entering ern is building along this route also and every few minutes' we fly past their every few minutes we fy past their
construction camps, while the gangs at

GROWING STRONGER
Apparently, with Advancing Age
"At the age of 50 years I collapsed from excessive coffee urinking," writes a Western man. Tea is just as injurious, because it contains caffeine, the
same drug found in coffee. "For four same drug found in coffee. "For four
years I shambled about with the aid of years I shambled about with the aid of able to dress myself without help.
"My feet were greatly swollen, my ward the fingers of my right hand were clenched and could not be extended except with great effort an . pain. Noth ing seemed to give me more than temporary relief.
"Now, during all this time and for about 30 years previously, I drank daily an average of 6 cups of strong "My wife at last took my case into her. own hands and bought some Postum. She made it. according to direc-
tions and I liked it fully as well as the tions and I liked it fully as well as the best high-grade coffee.
"Improvement set in at once. In about six months I began to work a little, and in le, than a year I was
very much better, improving rapidly from day to day. I am now in far better health than most men of my years, and apparently growing stronger with advancing age.
"I am busy every day at some kind of work and am able to keep up with the procession without a cane. The
arm and hand that were once almost useless, now keep far' ahead in rapidity of movement and beauty of penmanship." Windsor, Ont. Write for copv of the
little book,"The Road to Wellville."

work on the roadbed cease labor for raction of time to gaze at our train hen there is the lonely-looking shack mountain grandeur. His land lies back of the mountains perhaps buc home he chooses the hills and a spot near the railway. At Jasper station there is a little stir for the arrival of train is a great event, bringing new and often friends from the Eastern world. It is quite conceivable that, even ings, a man of the mountains surround for letters, papers and the sight of friend.
Jasper Park received its name from Jasper Howes, the first white man to penetrate the fastnesses of the Northern Rocky Mountains. Between 1804 and 1810, with Indian guides he found his range and established for himself a lasting name. He was, besides being a "paleface," a man of the blond type and the Indians called him "yellow-head," contrasting him with his Indian wife and her jet locks. Hence comes the name for the mountain pass-Yellow Head

## Pearl Fishing in Australia

Written for The Western Home Monthly, by W. R. Gilbert
$T^{\mathrm{N}}$ the top left hand corner of Australia ignored by all but the most conscie centre of the British Empire than any other part of it, lies the little township of Broome, the metropolis of modern pearl fishing. A ting segregation of
iron and wooden one-storeyed houses dotted in the sand at irregular intervals, like currants in a cake the place itsel has no pretension to distinction except in a good deal more than its fair share
of heat records. Its sole excuse for of heat records. Its sole excuse for
sweltering existence is, that it is the supply sweltering existence is, that it ind their only
station for the pearlers, and means of communication with the dis-
her chickens. Work commences a little before daybreak and when the diver is before daybreak accoutred the crew are busy hauling
bp. Tides are strong on this part up. Tides are strong on this part of the coast and the diver below must walk with or across them! The boat must drift as well, and in order to prevent
her drifting too fast, a stockless anchor is lowered to act as a drag, and the sails are hoisted as occasion requires. A good deal of skill is required to give the diver the best chance of finding the shell un-
hampered by a strain upon his life line hampered by a strain upon his life line
or air pipe, but aided by an intricat or air pipe, but aided by an intricat

Ready for Thanksgiving
tant civilized world whose nearest rail- $\mid$ In fact, the divers themselves take ver way is a thousand miles away, and whose nearest port means 10 days' steady steaming.
Though by no means unhealthy the climate is so hot that white crews are
unobtainable to work the 300 fishing boats, and it is significant of the importance of the industry that the Australian government permits in this part alone of the great continent, the importation
of indentured colored labor Some 1500 of indentured colored labor. Some 1,500
colored men are constantly employed, colored men are constantly employed,
shipped at Singapore, and for each man the pearler must enter into a bond of $\$ 500$ to guarantee that he does not escape to any other part of the state. A curious
medley of races is the result. On my one and only visit I recognized Japanese, Chinese, Malays, Arab, South Sea Islanders, and a few even of the native aborigin-ls working together more or less-less as a
rule-harmoniously. The older method of raising the pearl oysters, as I have seen still followed in Ceylon and the "ersian Gulf, is simply the so-called "naked diving," the diver sinking to the bottom with the aid of a heavy stone
and remaining below so long as his breath and remaining below so long as his breath
will hold out: in some instances in Ceylon, I have seen men stay down over two minutes. When the shell lies in shallow water, and native labor is abundant, and
cheap, this system answers well But cheap, this system answers well. But
out in Northwest Australia neither of these conditions prevail
The typical fishing boat is a 10 or 12 ton two-masted, schooner-rigged "lugger," carrying a crew of four as well as the diver and his tender; and where a number of these boats are of the same ownership a schooner of 100 or 150 tons is provided
as a floating station and base of supplies as a floatin
for them.
And a very pretty sight it is to see
20 or 30 boats around the schooner, lying at anchor in the midst of them, like a hen among
good care to choose the best man for the purpose. Where the depth is not too great, the diver generally stays on the
sea bottom for something over half an sea bottom for something over half an
hour while two of the crew toil at the handles of the air pump amidships and the tender balances himself on the rai astern. When the diver wishes to come up, he closes the escape valve in his
helmet and his dress fills with air, causing a speedy return to the surface, the tender hauling him alongside by means of the life line. A ten minutes' rest, with theto the Japanese-indispensable cigarette, and he goes down again, leaving on the
deck his catch of shell. It must not be imagined that it is an easy matter for him to find the shell. Of a neutral color it is not at all conspicuous as it lies on its grey coral bed, itself covered with coral or sponge or hidden in dense swaying visible is the shell on a muddy bottom for it embeds itself in the dark brown ooze, up to the "lip" or outer fringe and an expert might miss the half inch o
so open to catch the minute so open to eatch the minute animalcula
which form its food The diver has many sharks are numerous in the to avoidwaters, but as a rule, though accident occasionally happen, they are exceedingly timid-a stream of air-bubbles from the sleeve of the dress will send them flying in terror. More to be feared is the diamond fish, a huge flat monster the size and shape of a blanket, whose method
of demolishing his of demolishing his prey is to wrap the
side fins around him and crush him, after the manner of a python. The prudent diver does not wait for a closer view, but uses his emergency signal. Then agai there is the rock cod who lurks in sea caverns, with head protruding and tooth
less jaws wide open. He attains immense size and tradition has it that the explorin novice has walked unheeding into hi novice has walked unheeding into
gaping mouth with direful consequences.

## Breaking the Western Broncho

One of the old "Busters" of Southern Alberta Breaking the Wcstern broncho is no easy job. It requires all the skill and
dexterity of the man of the plains. It has come to be a business by itself, and for years every ranch had its "twister" or "wrangler" or "buster," whose duty it was to ride the wild range
horses for the first time. Usually when he had ridden them a few times they were ready to turn over to the less nervy cow-puncher.
But there is a process of the life of the Western horse ampleted before the "buster" gets him. He must be halter broken, that is he must know how to

Halter Breaking "Eno"
saddle on him, the rag or kerchief re mains on his eyes till the rider has and the bucking begins. The movement is hard to describe to one who has never experienced it. To sit on a grand stand at a stampede or exhibition and look on does not give any accurate idea of the earful and wonderful stunts a 11 estern bunchgrass broncho is capable of, while in a state of active eruption. Someone the square inch than a brace of Kilkenny cats with their tails tied over a clothes line."
In describing the Western broncho some one has said: "He kicks', squeals, strikes, bites, jump and bucks all in the one breath. In the next he twists, squirms, wiggles, paws the air, pounds the earth a roars like a ll buffalo. When

On the Renfrew Ranch, South Alberta
day at a steady lope with less foud and water than a tin-can dieting goat could live on standing still. When it rains he merely humps his back and makes an evetrough of his tail. If a buzzard comes his way he merely hunches himself into a snow bank and paws off the snow. And makes his meal paws off the suss. When the grass

[^0]scarce he eats barbwire-fences. He doesn't relish them as he used to be-
cause Eastern fence-makers don't use as cause Eastern fence-makers don't use as many barbs as formerly. In short he infests this globe."
infests this globe. often becomies th gentlest of horses. It has been remarked time and again among horsemen that the horse that proves hardes to break often is the
gentlest horse ther ranch when the process is complete.

The Ranch, the Boss and his Buster are all
A regrettable thing about the westward trend of civilization is the shutting out of the range, the broncho and his
"Buster." All are passing away. The "Buster." All are passing away. The
range horse of today is no more like the broncho of ten years ago than the nerved
strained thoroughbred is like the Indian strained thoroughbred is ike the Indian are now used. The colt is raised within the confines of a farm pasture, and is handled from a foal. Perhaps a collar and harness are put on him before he is
broke and he becomes accustomed to it before he is ever hitched. The result is gentler horses and the passing of the picturesque wrangler.

## My First Thanksgiving Dinner

We had just Moot Hutson Will and $I$, and in equipping our dining room, after the purchase of a few the choice between a sideboard and a dining table; our slender purse did not admit of both. I did not hesitate. The lovely silver received as wedding gifts
must by all means be me te to show to must by all means be make to show to
advantage; the table could wait. Any advantage; the table could wait. Any
kind would do for people just over their honeymoon-the smaller the better. The night before Thanksgiving, Wil announced that he had invited' a lady and gentleman from his native village,
strangers to me, to take Thanksgiving strangers to me, to take Thanksgiving
dinner with us.
"Will," I exclaimed, aghast, "have you forgotten the table?" "Nelly," he gasped
He stood petrified. He stood petrified, "Nelly," he gasped,
"what shall we do?" But he was a man of resources. Turning suddenly with a brighted.
claimed.
of equal them in the attic-and proper can find ly together; I will saw them of niceself, and fix them tomorrow. I could apologetic tone. "Besides," he added, "I wanted to slow off my little wife." That was sufficient; I would have
died rather than make a failure. All that morning while Will hunted the boxes and awed the plank, I flew around in high spirits, arranging my
little dinner. I prepared the plump tur key for roasting, saw that the potatoes
were scraped white for boiling, arrangel were scraped white for boiling, arranged
the cranberry sauce, and grated the the cranbery sance, and grated the
cheese over an inviting dish of macaBut we needed another meat dish. T looked at the ragged old ham bone, the only thing in the flesh line that i pres

For dessert a pair of pumpkin pie only to be browned over, some lovely amber jelly turned on a glass dish ar
tistically garnished with autumn leaves and a cake iced by my own hand. How proud Will would feel, to be sure! The final preparation was the taking down of a lone bottle of wine we possessed, one left over from our reception, dust it off-we owned no decanters-and
place it on the shelf, to be handed at the proper moment.
'A little later the "table" was a thing of beauty, covered with two new table-cloths-oh, that it could have proved "a joy forever."

Just before the arrival of the guests, I gave Mary, the colored maid of all
work, full and positive instructions on every point. "Bring in the tructions on Mary, and set it before Mr. Will; the ham next, and set that before me; then the side dishes. Do you understand?"
"Well, while we are eating the other dinner, the pies can be browning.

- "'Ill 'member 'em sho'" "
"Now, listen closely, Mary. When you
co to clear off the first course--that is go to clear off the first course-that is,
the meat and things, you know-brush the meat and things, you know-brush
away the crumbs, and carefully, very
carefully take off' the top cloth. There away the crumbs, and top cloth. There
carefully, take off the
will be another underneath, which you will be another underneath, which now
must leave-for the dessert, you know -on no account move that. Are you on no account move
sure you understand?"
"Sho""
An hour later, and we were smilingly ushering our guests in to dinner. The table was really artistic, and no one
would ever have guessed what a whited would ever have guessed what a whited
sepulchre it was; but my first shock sepulchre it was; but my first sho
came when Will, forgetting to be ou his guard, hit the box a thundering kick by accident. The guests looked startled, we more so, but Will talked fast and furiously, and the fateful moment was
tided over. This while we waited for the dinner to come on; for though the bell had rung, nothing had yet made its appearance, save the turkey and macaroni.
I tapped the bell. Mary appeared. "Mary, the rest of the dinner," I "Sho'."
She vanished, and an instant later appeared with-the cake. I saw her coming in the door, fortunately, and by Our guests evidently thought I had been seized by a sudden attack of insanity, for they looked at me, alarmed, Mary backs being toward the door and Mary.
I rang again. The head appeared. The side dishes!" I commanded with "You mean de tater en ting?"
I colored angrily, but nodded. All this time Will talked and talked, to tater en ting" were being deposited on the table, I managed to whisper: "The ham, bring the ham, Mary! She hastened out, and a moment later oh, horror of horrors!-loomed into reposed the forlorn, frazzled, disreputabosed the forlorn, frazzled, disrepul-
table old bone, which I had utterly denuded. Again frantic signs and ges-
tures on my part, and the startled look on my guests' faces. This time they looked round quickly to see what had aused my second attack.
There stood Mary, irresolutely balancing, first on one foot, then on the other,
"Enty you tell me fur bring de ham?" He a sudacn comviction as to whime the path of duty lay, she made a swoop hideous: ham bone before my mortified face, and instantly disappeared.
I dared not look at Will. Oh, why we all have laughed, and saved the sitnation? But for the life of me I could not have raised a smile. Neither, I am aremel to see the fun of the thing, and were politely struggling with their
mirth. 1 could have killed them for it. Tinging once more, I had the bone re(1) What manayed in an undertone -1.w minced ham broug sufficiently the minced ham brought on. As If it appearance, parsley-bedecked,

Home Economics Meeting Th spite of the busy season and the ect ladies in the country who es pected a visit from the threshers earls
was very fully attended. At this meet ing there were six ladies in charge of the afternoon, a fact which was ac counted for by the omission of the July programme, owing to the absence of
The first item on the programme wa reading by Mrs. H. Dodd of an excerpt rom Ruskin's Sesame and Lilies, which was listened to with the greatest attention. It is probably too well known t need any but passing reference. Mrs Godd hat chosent the passage which emto transform the girl into "the perfect woman," and which spoke of the in Huence our private feclings have on the building up of character, of moulding the brain as well as the body, of the way in which we can edncate ourselves in both mind and habit. and of the effect Which the reading of good and in-piring

This was followed by the singing of duet by Misses Eva. Simpson and ita Simpson, which was much enjo posed to have been written by one of the pioneers of the West, and which was both amusing and instructive. It was written in an old fashioned style, which gave it an interesting narrative form, and told of the hardships of the early days as shared by a man and wife, and
of the first quarrel between them, which unhappily was the last also, since it unhappily was the last also, sife, an unhappy ending which seemed unnecessarily severe. This reading was thoroughly enjoyed as also was a recitation by Mrs. Clarke, entitled, "A Day Too Late," which also told a story of
sadness and death, and at the same time taught a much needed lesson to every-one-never to postpone the performance of a kind action lest it come too late. The last item on the programme was a reading by Miss Vera Gordon of the steps which were taken to stop the spread of disease in Friendship excellent practical paper was of such excents the Society suggests its be-
value, ing read again in early spring, with the view of adopting its suggestion of having a systematic weekly collection of all garbage and waste which is likely to prove a source of, and breeding place or, disease.
Thittee also secretary of the Cemetery Comof their members to see how much work still remained to be done in the cemetery and to report the result of her enquirics at the September meeting of the Soclety, and the afternoon closed with the singing of the Na
of lunch. $\qquad$

every one." "T'll keep your dinner warm, but don't be later than you can help. I wish you
could have started earlier, but I could have started earlier, but I s'pose corn, for the weather may turn' the n
any time. Now don't forget the raisins,",
she admonished, as her husband climbed stiffly to the high seat, gathered up the lines, and chirruped to Billy, the ol family horse. "Five pounds'll be about right, I calculate to
mincemeat, Monday."
It was ten o'clock when Martha turned to enter the house, and most of her Saturday's work still awaited her, for she had churned that morning, sorted the eggs for market, and held Billy while Daniel loaded the pumpkins. But the seventy years that had turned her soft
hair white and somewhat dimmed both sight and memory had left her feet
nimble and hands capable; and the little

woman worked so busily and cheerfully that by one oclock, when she heard the wagon coming up the lane, the porch of cup cakes and three pumpkin pies breathed spicy fragrance from the pantry window, and dinner was ready to serve "Dinner's ready, soon as you are, Daniel," she called, hurrying to the door as his step sounded on the porch. As
she took the basket from his hands, sh lifted a corner of the paper that covered it, there were the clean, white eggs and the roll of butter she had packed that morning, instead of the groceries she had sent for.
ever made you bring questioned, "what I can't understand it. You-you don't mean to say that Jim wouldn't take them? He's always so glad to get a churning of our butter
and he says we bring the biggest and he says we bring the biggest
cleanest eggs to market of any one in Jefferson Township." Then, glancing past her husband, she noted that the pumpkins were still in the wagon, and inquired anxiously, "Did anything, happen to the harness, that you couldn't ge "No, Marthy, I got to Mapleton all right; but I don't know what's got into the town. Every house and store's shet up as tight as wax. Even the postnohow." "I and on a Saturday, too. There must be something unusual going on to make Jim Thornberry close his store on a week
day. Why didn't you ask some one? day. Why didn't you ask some one? didn't see a soul but old Gran'ma Smith, and when I went past the window she threw up her hands and put her apron Poor old woman; she must be qetting Poor oh. Istopped at nearly every house
childish. I on Main street, thinking maybe I could sell some pumpkins or a few dozen eggs;
but every house was shet up tight as if 't was Sunday morning, and I didn't meet anybody on the road." in a worried tone. "The only thing the Chronicle mentioned that was going on today was a ball game between the Mapleton boys and the Battlesburg team, but that doesn't explain why al
the women have gone off and left their Saturday's work; and I don't s'pose Jim Thornberry'd close his store for the biggest ball game that ever was." "I reckon not," agreed her husband,
emphatically. "There ain't nothin' Jim emphatically. "There ain't nothin Jin
would shet up shop for, cepting funeral maybe. Say, Marthy," he continued, his face clearing, "do you s'pose that's it? Maybe somebody's dead and we "'ll tell you, Daniel! It must be that Laura Green's dead-she that be that live on the Ridge, and married a man out West. Sary Criswell was telling me that Laura's been poorly for nearly a year and she d made her husband promise
to bring her home to be buried why you didn't see any rigs in town. Her folks always 'tended church at Mt. Zion, on the Ridge, and the funeral'd be
"Ield there, of course." "I reckon you're right, Marthy. Youre, and he looked down at the little woman with the admiration that her quick wit
and woman's instinct always' won from him.
"Now go along, father, and unhitch
Billy, and r'll dish up the dinner Billy, and l'll dish up the dinner. Id
run the wagon on the barn floor, if I was you and let it set till Monday. I can get along without the raisins and spices for another day, I guess." "I blieve I'll haul in a few shocks of particular bout having them groceries
pater before Monday. From the looks of the sky, I reckon we're due to have a spell of weather shortly, and it goes hard with me to haul fodder in rough weather. "e're getting old, Marthy," and his wife
noticed as his tall form passed through the door, that the rugged looking man was stooping more and more, and that his twot dragged a little as, he walked. It was true; they were getting old.
the hal beell thinking only the day before how her memory was failing.
"But

of imaginary dust. Then she sat down by the window to hem some towels. She paused occasionally in her sewing, to
look out across the quiet valley to the distant hills; but her thoughts journeyed beyond the hills, out into the world where her children had gone when they weft the shelter of the home nest. She thought of them always with fond pride,
for they were dutiful, loving sons and for they were dutiful, loving sons and
doughters. Ned and Tom were suceessdaughters. Nemen, Alice had married a lawyer and Harriet a doctor. In the early years of their married life her children often came home, and a month seldom passed without one or another of them cheering the old home with a short visit. As their family and business cares increased and Daniel had alway ly, but sure of one visit a year uhen al the children came home for Thanks giving. It would be different this year, thought Martha sadly. The sons were going west for a few weeks to inquire into the desirability of some proposed investments, and Alice and Harriet, after much pleading on the part of the young and girls a Thanksgiving house party. It was a keen disappointment to the old couple and as Martha folded the last towel she sighed to think how lonely the day would be. As she rose to put away her work, she glanced through

the window and saw a man and a woman As buge hurried the gate.
the visitors, the bright, eager to greet Martha Ware fell a trifle for she saw that the occupants of the buggy were oood-natured, easy going Philip Riker neighbane, his wife, who was the neighborhood gossip and whose sharp tongue
friend
nor
nor Mriend nor enemy. But hospitable
Martha greeted them cordially "Just tie your horse, Philip, and come into the house with Jane and me Daniel ought to be here soon, he's gone to the bottom for a load of corn fodder." Jane, we can't come in," responded if you was sick, "We just stopped to ask if you was sick, seein' that you wasn't at church today."
Why, we never heard a word about ing but we'd no idea that she was dead. l'd have liked to go to the funeral -I always liked Laura. Who's going to take the children? It'd be a pity if
they'd have to be separated they'd have to be separated. Poor little tots-how they'll miss their ma!"
"Funeral! What funeral? wasn't no funeral in Mapleton today that I heard of." mean, Laura Green that was-she always 'tended church there and there was where she wanted to be buried."
"Well, of all things!" exclaimed Jane disgustedly. "Is it Laura you're talking about? She wasn't buried at Mt. Zion today any more than I was. I saw her
own cousin, Mary Hoover, this morning. She had a letter yesterday, saying that Laura's a lot better and the doctor says she's going to get well." "Well, I'm right glad to hear that, but what was going on at Mapleton church today? When Daniel took the trade and a load of punkins in, there wasn't a soul in sight 'cepting Gran'me
Smith, and the postoffice and Thorn Smith, and the postoffice and Thorn-
berry's store was both closed."
"Cartly; "Closed!" echoed Jane tartly;
"course they was closed. Anxious as "course they was closed. Anxious as
Jim Thornberry is to turn an honest penny, he's too good a church member to keep his store open, on Sunday, even if the law allowed it.",
"Sunday-church," quavered Martha; "why-why Jane, this is Saturday. Why,
Daniel finished the corn huskin' this Daniel finished the corn orning and hauled a load of punkins to market; and I churned." "So it's all true, then! When Sam Perkins said he saw Uncle Dantel Ware huskin' corn this morning we thought it
was only a joke. Uncle Daniel Ware, was only a joke. that's been a pillar in the Mapleton church ever since I can remember. I wouldn't have thought it of him, never." "Oh, it isn't sunday, is it?" pleaded Martha piteously. "I don't see how it can be. Daniel and me couldn't be mistaken about the Lord's day-we just couldn't."
"Uncle Daniel must be getting "Uncle forgetful," continued Jane, mercilessly; but at with some show of
drew herself up win spirit. "Daniel's memory's good for a man of lis years," she asserted, forgetting that the thought Jane had voiced was in her
own mind only that morning. "Besides, own mind only thaty, "he ain't done any woren me. I churned a roll of butter
this morning and did all my Saturday's cleaning and baking. to perdition. Aure." said Philip, gravely

but Martha did not see it; to her the matter was anything but a joke. "I only hope the matter won't be brought up in the meetin' like they had a mind to do when Charlie Barnes hauled in his
clover hay on a Sunday. They'd have clover hay on a Sunday. They'd have
put him out of church sure, if it hadn't put him out of church sure, if it hadn and would have been foreclosed if he'd lost that hay. You remember how everybody said if it ever happened again the
person'd have to leave the church. At person'd have to leave the church. At
yours and Daniel's age it'd be awful to be brought up in meetin' and put out of church." "O, come, come, Jane", remonstrated Philip, who saw that Martha's lip was quivering. "I guess there ain't no danger anyway. I don't know what we'd have done that time you had the fever if it hadn't been for Aunt Martha and Uncle Daniel; and I don't believe there's a
family in this neighborhood that's ever had sickness or trouble, but owes thanks to them for help and comfort." Jane had the grace to feel a little ashamed after this rebuke, and to cover her con fusion insisted on leaving at once. Martha walke had done path dazed and work on Sunday-she who had always been a consistent church member had churned and baked when she should have
been at church; and Daniel, the husband been at church; and Daniel, the husband of whose upright conduct she had been
so proud-he was driving into town with so proud-he was driving into town with
a load of pumpkins when he should have a load of pumpkins when he shousk has passing the collection basket.

An expert Girl Swimmer at Whytewold Beach
She waited until after supper before
telling him, and womanlike, cooked the dishes he liked best and heaped his plat until he protested. When he mentioned the funeral she hurried into the pantry
for a plate of cookies, that she might rot have to reply; but after supper when he had finished with the chronicle and drew the family Bible toward him, she
could delay no longer could delay no longer
a whisper: "Daniel scarcely more than no funeral at Mt. Zion today" wasn't no "Theral wasn't, Marthy! Wiell, now, want to know! Are you sure; and i
there wasn't there wasn't no funeral, why under
canopy was Thornberry's store closed canopy was Thornberry's store closed
and the postoffice?" "They was closed-0, Daniel-" and the sweet voice wavered and broke; "they Was closed 'cause this is Sunday," and
Martha sank into her old rocker, Martha sank into her old rocker, her
hands over her face, and wept silently. "Marthy!" and the consternation and incredulity in his voice echoed her feelings. "It can't be; we couldn't for get Sunday. Why, I husked corn and of trade to market. What must the of teighbors think of "What will they think of me, Daniel? I churned and baked and scrubbed and sewed.'
Both were silent for a time, too wretched to speak. then Martha ven tured fearfult: Daniel, do you reBarnes hauled in his hay on Sunday?" "I was thinking of that; but that wasn't half as bad as this; the poor fellow was well-nigh desperate abort
that mortgage--his was necessary work; that mortgage--his was necessary work;
it wasn't like this."
"Daniel, who do you s'pose they'll "Daniel, who do you s'pose to talk to us? You know you and he minister went to Charlie.
"To talk to us, Marthy ? I hadn't thought of that. Surely they'll know we wouldn't have done it if we'd known." "T'm afraid they will, Daniel. They hadn't ought to lay anything up against
us when they know we're old and forget-ful-I'm sure the Lord won't; but folks are different, leastwise some are. You don't think, Daniel, they'd put us out of the church, do you? The shame of that would kill me, 'specially if the
children ever came to know. O, I wish they was coming home for Thanksgiving! We'll not have anything to be thankful for this year."
"Don't you worry. If they'd put you out of the church where you was bap-
tized and married and all the children was baptized, for getting old and forgetful, why the Mapleton church hasn't much, Christianity in it and we'd better e out than in.
"But, Daniel," she persisted, "if they'd bring it up in meetin' I couldn't
"I
"I don't believe they'll do that, either; Preacher Vinton has too good a heart.
don't believe he'd have said much to Charlie Barnes if he'd been here then, considering the mortgage and everything, More'n likely, if he'd happened 'round on Saturday there'd been no hay out to get wet; he ain't afraid of work;
Preacher Vinton ain't." But for all his reacher Vinton ain't." But for all his
cheering assurances Martha was still cheering assurances Martha was
unconvinced and Daniel himself was
ar from certain that nothing would be The following week was a trying one for the old couple; and such is the power of one gossiping, mischief-making tongue, heir neighbors by an invisible barrier. In spite of his wife's protests, Daniel hitched Billy to the wagon and drove to town Monday. "Wait a few days,
Daniel," she counseled; "everybody"ll be Daniel," she counseled; "everybody'll be
talking 'bout us today, and I can't bear to think of you being made sport of There's always thoughtless sport of Thornberry's store. Do wait." "No," he replied, doggedly, "Tm g ;ing today. I ain't no coward, and if I'was aasier., wouldn't make things any When he entered the store, Daniel was acutely conscious of the sudden silence that fell, and knew that the illers gathered about the store had been dis-
cussing him. He greeted them as usual however, and setting his basket on the counter, inquired of Thornberry if he could use a load of pumpkins.
"Punkins, did you
"Pumkins, did you say, Uncle Danicl?" put in Lem Jones, who prided himself on
being the local wit. "You must ha' ring the local wit. "You must ha
raised a sight of punkins out your way
lhis this year. I heard tell of a man coming to town yisterday with a load, but they didn't sell wuth a cent. Hope you'l for cast mer luck. If Jou can't sell 'em
fill trade you a bunch of old calendars. Might keep you from mistakin' Sunday for Saturday;" and Lerm wave a loud guffaw, for he was ever the loudest laugher at his own jokes.
"Yow look here, Lem," interposed Thornberry, who made it a rule to see

were hurt in his store; far as getting the days of the week mixed, I reckon
theres others that does that, I know of there's others that does that, I know of
one man, not a thousand miles from
men here, that seems to think every day's of work for six months." This thrust turned the laughter against Lem, who was notoriously lazy; and he subsided, being unable to enjoy a joke at his own expense. Thial of allowing Sunday was the greatest trial of all. The thought of remaining away from church never occurred to either
Daniel or Martha. They would have felt that it was adding another fault to one already committed. Both of them hoped for a powerful sermon, one that would help to straighten their tangle and give them strength to bear the ridicule of the thoughtless or unkind. They had a reven prepared to bear his censure with
ent what equanimity they could, if he should feel it his duty to regard their unconscious backsliding seriously; therefore it was a shock to see a stranger in the pulpit.

Two beautiful daughters of the Czar of Russia. These are Duchesse Olgar and Duchesse Tatiana The Reverend James Ballar was a good while, so Thanksgiving eve found noth man, and a zealous worker, and when ing on their pantry shelves but one loneMr. Vinton was suddenly called away by ly pie and a jar of cookies. The sigh friend of his colle mether and asked this pulpit during his absence it was with pulpit during his absence, it was with
the best intentions on both sides. Mr. Ballard, however, was a somewhat impulsive man, and when he learned, by the merest accident, that a member of
his friend's congregation had done unhis friends congregation had done un-
necessary work on Sunday, he concluded necessarye had been some flagrant violation of the Sabbath, and putting aside lis carefully prepared Thanksgivinity sermon, he delivered an impassioned extemporalueous aydress, work be done, but text. on the seventh day there shay a sabbath of rest to the

## To the Top of Cathedral Mountain <br> By Carolyn Cornell

BEYOND the western gateway of the
Canadian prairie lies a wonderland Canadian prairie lies a wonderland hollow, undreamed-of deeps. A lind and hollow, undreamed-of deeps. A land
where fish play in mountain brooks and tarns-where the goats wander unimolested on the crags. A land of unexpiored secrets for the curious, of research to the student.
Much do we often complain of the cordid worries of our too commercial age unaware that at our portals is a playground in which fagged brains may in the splendor, the sublimity of our locky Mountain land.
A stupendous gymnasium we have where in the dim ages Jove hurled rocks like snowballs and heaved a whole continent on his shoulders. Still does that spirit of masculine vigor frequent the place and enthuse all who engage in the arduous sport of mountaineering.
ise does this playground appeal. For the scientist it is an unread book of marvels, for the artist a mystic land of beauty and for the novelist a land of haunting romance. Long did this recreation ground lie all unclaimed in our probed by a few so-called eccentrics led probed largely by their professions. The average layman fought slyy of the ex-periment-or if he did have a vagrant desire to try his muscles on some of the heights and breathe the thin air at the top and fill his eyes with the panoramic view, he kept that desire hidden
ridicule where could be found the means? A guide had to be hired and the trail packed alone the hired and difficulties that confronted the ambitious in mountaineering until the organiza tion of the Alpine Club.
It was founded by a little group of enthusiastic mountaineers who for years had seen the possibilities of the CanaThe Rockies as a national playground. The names in that first membership list nere many of ligh international recog were Western Canadians but the East ern provinces and United States were well represented.
The club has held eight annual camps. The membership now of over five hun red names. That means that each of hose five hundred has climbed at least one Alpine height-the requisite for thrill of excitement as the guide care fully knotted the rope around his waist preparatory to covering the glacier. The serious instructions concerning the responsibility of keeping the length of rope between him and the person in front of him would impress on his min wind of the frosty height must have cut his cheek as he gazed over the vistas of snow crowned monarchs. Each must have munched his sandwich intersliced with a thick layer of ham-or was it currant jam?-and drunk the cold wa
virgin snow on the peak. A rare appetizer is a mountain peak and rar good eating were those sandwiches.
Under the aegis of the Alpine Club of Canada are now jo sed a group of peo ple haling from almost every quarte of the globe. England, Ireland, Sicily,
Brazil, Austria and Newfoundland every province in the Dominion and many of province in the Dominion and many of
the states of the Union have now their representatives on its membership Many creeds and languages but good fellows all and actuated by one conmon impulse to conquer 'Nature's bulwarks and drink deep of her rewards to thos who pursue her without fear. main camp which opened on July. The pitched in the larg park-like meadow ying between Cathedral and Victoria mountains. Cataract Brook, a sparkling, gurgling leaping, roaring mountain stream tumbles down the valley. Great care was exercised in the choosing of
the site and in the stationing of the the site and in the stationing of the an be made by the uninitiated. Numerous minute details had to be planned for and executed with precision before ver a guest could enter camp. In this particular the club is p ticularly forunate in having as its director a man of immense practical experience in the
mountains. The situ
ery happy. On one side of Cataract brook was the main camp, dining tent, kitchen and offices. Farther down the stream was the sleeping quarters for the men where they could enjoy an inrigorating plunge after the day of spanned the stream to the women's spanned the stream the the women's pitched on the deep moss on the hillside bedded deep with spruce boughs. Slumber was sweet with the life breath of the forest things in the nostrils and the
rided a knotty stick did not push through the bedding and insist on imCamp was officially opened on Tuesday, July , 15, but for two weeks preeding this a number of nuen and boys had been engaged in preparations. Invof this advance guard when forty expected guests arrived on Monday preexperted guests arrived on Monday pre-
ceding the opening day. All food had to be packed in on ponies and that the Chinamen cooks were able to feed this hungry crowd and at the same time conceal from them the tragic condition of the lard management.
The next few days saw additions to the camp from almost every train from either East or West until the canvas covered one hundred and eighty people. The first tramp of the season was to Lake O'Hara, a distance of about eight miles from camp. The dullness of the
day could not dampen ir spirits as day could not dampen ur spirits as
we looked into the green depths. In the background Leroy raised his head above a low hung glacier. On the return trip a heavy downpour of rain forced us to scuttle for shelter under the trees While we were huddled in little groups under the dripping trees three riders on pack-ponies passed us on their way far
ther up the vallev, the water stream ing from their yellow slickers and from their ponies' sides.
The following days other short climbs were inaugurated. The watch tower. solitary pillar of rock which sentinelle the valley on the Eastern side, proved a problem unsolvable after repeated ef
forts. The bald eagle perhaps has used forts. The bald \&agle perhaps has use
that vantage point for reconnoiterin the surrounding land. Human ieye has not looked out from it.
Many of the undergraduates after these days of preliminary scrambling began to pine for a real mountain bn which to try their strength in order to

## You Had A Share in Building This Wonderful Milling Plant

How?" you ask.
By using
OGILVIE'S Royal Household Flour
In the earlier days of the West, not long ago, a 300 -barrel mill supplied the demand for Royal Household Flour.
Now, two immense plants at Fort William and Winnipeg are unable to supply the demand: and the erection of this 4,000 -barrel mill at Medicine Hat became a necessity.

For Bread, Pies, Cakes and all kinds of Pastry, there's no Flour like

establish themselves as active members of the club. Cathedral Mountain had been chosen as the official climb but the
heavy snows the previous week had made it unadvisable to attempt it until Thursday after the camp opening.
For this day a graduating class was organized. Long before daylight the quiet effective voice of the never tiring
director was heard from tent to tent director was heard speaking the reveilc to the prospective climbers. A hurried toilet in the dim light, a breakfast of toast, bacon and coffee, much excitement about the getting of the paper bag luncheons and then whole party was placed in charge of a big Swiss guide to whose orders implicit obedience was strictly enjoinel. Under him sub-guides were appointed each in possession of a coil of rope Which he slung over his shoulder. The
inexperienced climbers were divided among the guides.
The first part of the climb was through woods, over fallen logs and stones, sinking sometimes in the spongy
moss-but still onward and upward Many a sigh was drawn by the tender Many a sigh was drawn by the tender
feet with just one long wish to set the sole of the foot on level soil once more. Many rests were taken in this first climb and at last we reached the open,
Here like the allegorical "Christlan" new obstacles beset our path Huge
rocks tumbled out of bed in some ancient convulsion of nature were piled
promiscuously for what seemed an endless distance. An hour or more of patient scrambling, jumping, creeping, with knocking of shins and scratching of
liands brought us out on a piece of shale, hands brought us out on a piece of shale,
where we crossed our first strip of Whow. seemed to be a sheer rock confronted us. The guide climbed to the top, stationed a man at an angle half
way down on the shale and another the bottom. These three held a rope taut by the aid of which the whole party ascended. Three hours were now consumed and the glaciers reached. Each guide roped
up his party and the tramp over the up his party and the tramp over the
snow field liegan. To the first climbers snow hish lowan. Tours was exceedingly tedious. Plod, plod, plod, with ant oc-

## Fall Days <br> For <br> Chilly

## Winter Sleepers

Written for The Western Home Monthly by H. When winter comes, many of the wild kindred of the woods find that their food supply is cut short, and thus they are forced to face one of two ald desolation Unabe winter in their summer quarters, many of them migrate to far off regions where the conditions of life are mori favorable, while others curl themselves in some sheltered nook or corner, and spend the months of famine comfcrtably sleeping.
For those who sleep away the viinter like the bears, the badgers, the squirrcls, and the dormice, nevild animals, indecd, have sense enough to store away a little food to keep them going through their winter sleep, and during our springtime rambles through the woods we often find the winter beds of squirrels, the litter of nut shells about the threshold betraying their whereabouts. If we the few nuts remaing in it that the squirrel has not cracked are sure to be bad ones, for the squirrel, being an authority on nuts, never wastes his tim cracking those that will not repay his trouble. But really the squirrel is not a true winter sleeper like the others with the first gleam of sunshine that peers through the clouds.

Fall is a time of plenty for all the winter eepers. For the squirrel nuts abound; the bears fatten themselves up on the berry crops; the badgers have no difficulty in catching the young mice, trembling in the grass; the dormice have not far to go in search osts see are able to secrete sufficient fat to keep them going through the period of sleep, for during this period they require little nourishment, as all the functions of the body almost cease. Thu the bear lounges into his winter quarters fat and sleek, but when he comes out mont'ls later he is thin and desperately hungry.
It must not be imagined, however, these animals as winter draws near cannot be avoided. They sleep because it is their only way of surviving the winter, When kept in captivity and fed regularly they do not hibernate. Neither would they do so in a wild state if it were untheir daily affairs out in the open, and should the winter be mild they take advantage of it by continuing their liberty. The bear, becoming morose and restless with age, dispenses with his winter sleep altogether, and during the months of famine he roams the woods, a demon of ravenous ill-temper. And when one
meets a brar it all depends on what time of the year it is as to how he will act. A winter grizzly is likely to be a very awkward customer which the Indians invariably give a wide berth.
Sometimes, too, a bear will rouse from his winter slecp while the snow is still is just at this time of the year when most of the bear tragedies occur at outlying umber camps. Only a few years ago at the Red River lumber camp two brothers were out for a stroll in the very early spring when they noticed a bear on the opposite bank. It was only a black bear, and both the men had seen
scores of black bears before and had invariably found them to be one of the most timorous of woodland creatures They did not think that this bear had just wakened from his winter sleep, ravenously hungry, to find game scarce, and cre they had time to reaize what was happening the bear had plunged into them. It followed them back to camp, where the cook, armed with an automatic pistol, ran to their rescue. IIc, too underestimated the ferocity of that springtime bear, and ere he could step aside the brute smashed in his skull with one tremendous blow.
a bear will do" is never any telling what age, but, as I have already said, his conduct all depends on the time of year you meet him.
Most winter sleepers give birth to their young during the period of hibernation, and by the time the thawing
spring comes the cubs have their eves open, and are strong cnough to accom-
pany their mothers out into the world. What an unsatisfactory meal for the great A friend of mine once saw a mother black half-starved mother, and what a lean ear and her two cubs who had evidently and desolate world the cubs must have The mother was so thin winter den. thought she had brought them into! hung upon her like ill-fitting clothing, Fall is the time to take the census of and as she hurried along she kept pausing , the woods, when the crisp brown leaves to gulp down great mouthfuls of snow. people, and one bright fall evening in

## An Old Timer Tallks

Written for The Western Home Monthly by J. D. A. Evans
$\int \begin{gathered}\text { UST one house; that } \\ \text { was in Winnipe }\end{gathered}$ Was in Winnipeg.
And this startli. today metropolis of fact concerning bears reference to the years of the long ago date of which is 1839. The speaker by whom this remarkable affirmation
was given is Thomas Fidler, at that was given is Thomas Fidler, at that time
a boy of ten years of age, native of a boy of ten years of age, native of
Headingly parish on the western bank of Assiniboine river. It is a pleasure to listen to the conversation of this man
of the of the octogenarian years concerning
events in the Manitoba of remote pring events in the Manitoba of remote period.
He will occasionally pause, deep in He wile occasionaly pause, deep in
thought, events forgotten in the abyss of the long years return within the archives of his memory, vivid pictures of days when the yell of the Indian echoed over the great lone land, and the Red
River cart rattled upon its prairie trails. River cart rattled upon its prairie trails.
Today the shadows of life's eventide are gathering around Fidler in a cosy cottage in the woodland country 'twixt Somerset and Swan Lake, Southern Manitoba
And Fort Garry, the Winnipeg of today, contained one dwelling louse in
'33. In this solitary abode dwelt me Dermot, In employee of the company jermot, employee of the company
known the Adventurers Trading into Hudson's Bay. McDermot, he who purchased furs down at the Fort, and known by all and sundry from the Great
Lakes to the extremities of the Werter plains. For years before of the pioneer set
tlers had penetrated into the fastnesse of Southern Manitoba, Fidler was resident at the locality now known as Barbour's Lake, he having removed from the parish in which he had spent forty
years of his life. Fidler sat absorbed thought as the writer made allusion to Headingly, once isolated hamlet of As siniboine's bank today suburban dis trict of Winnipeg, through which the street car rushés along. In a voice in dicative that the remembrances of times remote were being stirred up within him he said:
"Oh! but it's wonderful, I'd like to visit those old places once more."
Fidler has not visited the city nipeg for thirty-one years; with intense interest he lisered to the writer's con versation relative to its amazing dimen-
sions; the wide streets, electric sions; the wiock; streets, electric cars, enormous railway stations with cease less traffic, contrast to the rude ve hicles which moved slowly along the Main Street of old Fort Garry.
"Yes," remarked Fidler, "we never thought Fort Garry would get to be like Avenue (I've seen pictures of portage Avenue (rve seen pictures of it), was and we had to travel to the Fort that way. I can't realize, what it means, it's too much for me.

"Have you ever seen many bulfalo, Mr. Fidler?" asked the writer. At this
question the enthusiasm of the orto question the enthusiasm
genarian became aroused.
"Seen buffalo! Been with parties chas ing them over the plains many a time; yes, thousands of bison, we called them that; but it's a long while ago. That some idea of the date might be
forthcoming, Fidler referred to his forthicoming, foriter referred to his wife,
wrom various incidents she was able to remember in connection with the buffalo hunt, stated that the animals could be seen in extreme profusion uutil about the year 1850; then, after this time, the buffalo diminished in number
every year, and at the close of the sixties the appearance of the animal was somewhat a rarity.
"After quite a number of the bison had been killed," remarked Mrs. Fidler, "this was followed by the meat cutting, and the prepaation of that into pemmican, which is a very scarce article
today; you might see some yet away in the north."." "Were there not many Indian troubles
in those times?" enquired the writer in those times?" enquired the writer.
At this query, Fider enjoyed a qui At this query, Fidier enjoyed a quiet
laugl, and after refilling his pipe, said, laugh, and after refilling his pipe, said,
"Plenty of them. The Sioux and tribe, we called these Indians Bungay were squabbling nost of the time. When it came to a regular fight between them, guns which you could buy down at the Fort were used; probably you have seen
the kind with the very the kind with the very long barrels. If
some of these fighters did not have guus some of these fighters did not have gulus
they would use anything they could lay their hands upon. Arrows with a stone point sharp as a knife were one of their
weapons, and quite a number of the weapons, and quite a number of the
fighters got killed in these rows. Now fighters got killed in these rows. Now
that I am talking about this, I can remember seeing a Sioux, it was on the the
miver
merer buk in St, James, cutting a Bunriver bank in St. James, cutting a Bun-
gay into pieces just after he had killed gay into pieces just after he had killed
lim, and then he held up the sealp and gave a loud whoop whiilst a lot of Buncatch up to lim." him, but they didn. "People have said that General Custer
once came from the United States into Manitoba, Mr. Fidler; do you know if that is correcte"
"No, he never did come across the boundary line. Of course, we all knew Who Custer was; folk said he was ar-
ways coming to bring in some Indians to drive out those who were here."
For a few minutes Fidler sat in silence; then resumed lis talk concern-
iny thie troubles of the Indian popula"ion. Yes, it's about fifty-two years ago," to determine the date of which a family
event which lad occurred about tliis time proved of assistance; "some riders from the American side chased a party
of Indians, and killed nearly all of them., That fight took place over there," pointing with his finger to the tree-corered butte a few miles a way, and
wlich lans been symbolical of much lisWhich has been symbolical of much his-
tory of the loug yoars ago: and that tory of the long yoars ago; and that
nightit there was a big dance, at which We saw the scalps which the riders were danyling a atout in the room."
The writer cuguired as to the manner in which di-ponal of the loodies of tha
slain in these skirmishes wass made. "If the' werent too layy they duy a lole, and
ther wer them into it; sometimes they were left upon the prairies for
woives to eat up. There are lots of In dians buried around this part that I

This statement of Mr. Fidler is cor
rect, and is corroborated by the fact tlait in various localities of the portion of
Man
Mitolua to which reference is made,

 i"Thut furty-five vears a a o, remarked
Fitler. who stated he had reerntl:

thing there was to be seen. "No," said he, "we're not likely to forget that year, because we were forced to go to Fort Abercrombie to get flour. But before the very strange that the grasshopper was then known by this name), Bishop Anderson preached in St. Andrew's Church about the plagues of the children of Israel, and before the next Sunday the hoppers had come here in millions, yes millions of them, that they even darkened the sum, records of that period.
records ow was Christmas time observed in the old days?" the man of eighty-four winters in Manitoba was asked.
"Just about the same as Sunday was," he replied. "There wasn't much in the way of fun, but at New Year's lots of it; then everybod- was out for a good time. A whole week of holiday
and great preparing of food, which kept the women folk busy for several days; every night a dance somewhere around lots of fun in Red River settlement at New Year."
"You happened to speak of a windmill just now, what sort of flour did they make; was it as good as that we buy today?"
although people may best of flour, and going to say is vrong, down at the Fort you could get the very best of. goods. There is no need to think we had nothing but rubbish in the Colony. How about churches in your early days, Mr. Fidler; were there any in the country?" the writer asked earliest times that I can call to mind earliest times that I can call to mind Church of England, Roman Catholics. Along the Red River were churches at Kildonan, Middlechurch, St. Andrew's and Mapleton, one at St. James and another at Headingly. St. John's College in yars, and there was a college over St Boniface which my father showed me when I was a little boy."
The memory of Fidler is pregnant with actual fact. The institution to which e has reference is the arch episcopal headquarters of Western Canada's Roman Catholicism, which received its first pupils in 1821. St. John's College dates also located in the same neighborhood. In brief allusion, Mr. Fidler referred to the illustrious men in Manitoban record without the names of whom future history would not be complete. Machray, of St. John's; Tache, of St. Boniface; Anderson, whose footmarks are indelibly stamped in St. Andrew's; and the saintever remain verdant in Kildonan upon Red River.
When the conversation harks back to the early days in Manitoba and an oldtimer is present, the tragic murder of Thomas Scott, the Fort Garry martyr of mmortal memory, is certain to form a eric of the rew men living today who were present in Fort Garry upon the eventful date, March 4, 1870, when that dark tragedy was enacted. In respect of the disposition of Scott's remains, many theories have been adranced. The version of Thomas Fidler place acerds with sott s last earthly resting place, accords with that oner men subject. "The "They," Fidler is alluding to the rebels, "put Scott's corpse-into quicklime, and people said that a large grindstone was was thrown into the Red River near he old Hudson's Bay mill. No. I don't think this ever happened. Scott's corpse :nd put into a pit which had been dug for it; I alwars heard this was somewhere, Oh! yes. onme folks tried to say that his bolly, was taken out of the river at beried is few weeks afterwards, and than that, lint you could hear all manner of chorice at the time." was entirely owing to the intervention
of Tathe that several other men were of Tarly that several other men wer tragie fatc. The venerable Tache wa
absent from, St. Boniface at the time,
and information having been given him
car barns in St. Johns.
Mr. Fidler can
and information having been given him out stop in a Red River cart to Fort Garry, his timely arrival the preventive means whereby further taking of human life was averted.
In speaking of Middlechurch, which in these days can be enumerated northern suburb of Wininpeg, Fidler reby some Indians in the of a peddler by some Indians in the early sixties.
The scalp of this virtim was exhibited by his murderers during the same day
at the Fort.
"The Colony was usually peaceful although it was a do-as-you-like coun try," said Fidler. "No, I never saw What you would call a policeman, in fact The never seen one in my life." figured in the limelight of various his turbances is a matter of various dis close adjacence to the limits of that municipality with Winnipeg, the monument to. Governor Semple, murdered in 1813, may be noticed at the roadside in
hood in the forties, when he watched the contestants-Indians--through the win-
dows of a windmill, and several dows of a
were killed.
"I used to make a trip every year to hork factory, went in June and started
back October. They call it Selkirk now where we started from, then up Lake Winnipeg to Warren's Landing, after that it was boat and portage; yes, and it was hard work, too."
Thomas Fittler is today hale and hearty. He can be termed as marvellous in his walking prowess, for with regularity he trudges to the residence of a daughter, sixteen miles from his home. To Fidler, the three score years related in the long a aro, and when he is peaking of the oll times, there is sometimes a pause, he appears as submerged in the mazes of thought land. It cannot be wondered at, when it is recollected that his memory refers back over the Indian chased the buffalo, even city of IVinnipeg has arisen, the great on Fidler has seen the smoke of the tee pee arising and listened to the weir sound of the tom tom when the aborigine of Rupert's Land was engaged in the dance of the tribes.

And when the writer was leaving Fidler's abode, the octogenarian accomthe road. Pointing to the hill of the tree crown away in the distance, the old man remarked:
"I went there with my father when was a very little fellow to watch out it ?"

In bidding him farewell, the writer expressed the hope of calling ugain at his cottage away in the woods, and expressed the desire that Fidler may live into the years of the centenarian. If agile walk and robust appearance are criterionary of such, it is possible that such will transpire.

## SHOPPING ^т YOUR EASE <br>  <br> USE THE EATON MailOrderSystem

When you want to purchase anything it is no longer necessary to go to the city and visit the big stores.
The modern way-the easy way-and the profitable way is to use the Mail Order System, using our Catalogue to make your selections, and the mails to accomplish the delivery.

Have you ever tried this modern service which brings all of the resources of a great store within your reach even though you be a thousand miles distant?
If you have not our new Fall and Winter Catalogue, write for it. Read its pages carefully. Keep it as a book of reference. Use it as a guide in buying. Every item of household needs is available at reasonable prices.

## THE NEW SEASON

At the start of a new season's grain business we desire to thank all Who have employed us in the past in looking after and disposing of
their carlot shipments to Fort William and Port arthur We have endeavored to give all shipments $o^{8}$ grain en our very best personal attention. In checking the grading of cars to get the very highest grades possible, we have had several instances of reinspection in which we succeeded in getting the original grade raised
to the one above it. In selling we have studied how to secure the very highest prices obtainable according to the state of the market at time of sale; and in giving advice to our friends in regard to selling or holding for a higher market we have honestly used our very beit judgment for their advantage.

That we have succeeded in a large measure in thus serving our from time to time expressing approval and satisfaction have received of doing business. In our next advertisements we will publish a num ber of these letters giving names and addresses of the writers all of Whom are farmers in Manitoba, Saskatchewan and Alberta, so that farmers who have not yet entrusted us with the disposing of their carfor them the highest prices and to give their business prompt and satisfactory attention.
Farmers should keep themselves informed about market prospects and possibilities by writing to and consulting us; we are promptly and always at their service in all matters pertaining to grain business. all correspondence and inquiries to,

Blow we if can make it all out.

 positive was he that Imrr had clev duped him by hiding them in some ul shem he was convinced. But where had
that the half-breed had
Ber he hidden them? At this point in hi
cogitations he found himself within cogitations he found himself within
thirty feet of the ss bject of his pu\% thirty feet of the ss bject of his pu\%-
zlement, who was chaffering with a horse-dealer, and he was just in time
to hear Imri say: "What's the use arguin'? You ought to know that ain't no sucker, and that you can't sell me a pony that ain't salted. What? lou talk like a fool. Think, a man ine me, that's been born an, grown in this country, buyin horses since he,
was no bigger'n a karoo bush, is goin' to invest his tin in a green horse? No, else." "Now", thought Denby, passing "it strikes me strange that Imri should have said that. And yet I don't know natural; but there's something funny about it, and I can't say why. Course, if $I$ was buying a pony and a man want ed to sell me something unsalted, l'd probably say just what Imri did. Yet seem to feel that there is some reason why he wouldn't have said just those
words if he had thought I was so close Let's see; he wants a pony. Why does he get one here when he's going back to Kimberley soon, where they're He had two pack ponies and a saddler When he started out, and he needs 'em all, canse we had to divide up his second pack among us coming in this morning. pony out there at the corral his other of the tsetses! They were pretty bad esterday, and a green horse stood no show. But see here: how the devil is it that Imri was traveling with an say that he is too old a hand at the game-and I certainly think he is-to The cauglit doin' anything so foolsh? it comes to horses, and I'll be jolly well cussed if I don't believe there's some connection between those diamonds and -oh, the devil!
Half an hour afterward an observer might have seen Imri following the same course, not knowing that he had neither aware that he was separated from the other by a matter of only some five miles; each desperately bent on reaching the same point within as short a time as possible. Denby had the advantage because he knew by this time that Imri would return to the
camp of the night before as quickly amp of the night before as quickly with greater rapidity should he learn that the lieutenant of police had left Griqua Town suddenly. On the other
hand, Imri felt comparatively safe, but did having Denby follow him from town Therefore, neither gained perceptibly on
the other, and Denby was still about half an hour ahead of the half-breed when he arrived at the old corral. With out the loss of a moment he drew his sheath-knife and began probing the
gun-shot wound that had caused the death of Imri's pony the preceding day After three or four minutes of dissec tion and examination his knife-point gave a grunt of satisfaction and ran his right hand into the cavity
When Imri rode his lather-covered horse into the corral Denby arose from
his bloody work, held out his open has bloony work, held out his open minin' in dead pony-meat ain't pleacer but it's profitable when you can strik nine big shiners in it! Youn came guess you would have made a goond

## THE YOUNG MAN AND HIS PROBLEM

## By James L. Gordon, D.D., Central Congregational Church, Winnipeg

## FORGOTTEN

 Unless a man can root himself into the verysoil of the eternal there is a great danger that he
will be forgotten here. They recently found a will be forgotiten here, They recently found a
monument in Westminster Abbey erected to the monument in Westminster Abbey erected to the
memory of a man, the record of whose achievement memory of a man, the record of whose aechievement
they could not find on the page of English history. It was gone niy, never had been there. The hero had simply been forgotten; as though the nation
should forget Captain Seott and his heroic attempt to reach the South Pole. Several years ago an American periodical recorded a similar event: "A pathetic reminder of how soon we are forgotten is of Henry Clay, which has for forty-three years been of Henry Clay, which has for forty-tree years been attractive avenue in that city. It was found to be in the way of the street car company and so is technically "removed," but no destination has yet been found for it, and the public does not seem to
care. In 1856 popular enthusiasm there for the care. In 1856 popular enthusiasm there for the Dewey toalay. The erection of an out-of-door statue does not necessarily insure permanent fame. So long as it is not in the way a statue will be allowed to remain, even if its subject has been quite for-
gotten, as will doubtless be the case a a century hence gotten, as will doubtess be the casta a centurs hence
with a considerable proportion of the statues of our with a considerable proportion of the statues.,
National Capital and other cities of the land."

## DO YOUR DUTY

The only way to root yourself in the soil of the everlasting is to link yourself with an abiding eestiny. Do your duty, come what may. Be faithful,
no matter what your station may be. Take yourself seriously, even if others do not. Act with the dignity of a Napoleon, who regarded himself as an emperor, even when his throne was gone. Rememer the words of Emerson: "He who would be a great, sout in the future must be a great soul
ow." And the way to be truly great is to do all things in a great fashion. Remember the words of John C. Calhoun addressed to the Speaker of the American House of Representatives: "For many a ar higher than the p, have aspired is, doing my duty under all circumstances, in every trial, rrespective of parties, and without regard to friendship or enmities, but simply in reference to the

## ADAPTATION

Whether the critics are right or wrong, they have set in motion the little item of current gossip that an Englishman is lacking in adaptation when
he reaches the shores of the New World. Perhaps he is. If so, I have no doubt that in due time he will be fully equal to all the demands of circumstances. The man who would be successful must now the order of things, the drift of events, the
calue of all the materials in hand, and all the possible combinations of incident and accident. There is no turn in the wheel of chance which may not be put to advantage. Mark how a successful
orator makes use of every turn in the tide of affairs. orator makes use of every turn in the tide of affairs.
Lord Lytton became a great orator in spite of a Lord Lytton became a great orator in spite of a
less than ordinary allowance of personal gifts and talents, and Justin McCarthy says of him: "Lord Lytton did somehow' contrive to become a great speaker, and to seem occasionally like a great orator
in the House of Commons. He was at the very least a superb phrase-maker and he could turn to or science which he happened to possess."

## DECISION

Questions must be settled and settled, as a rule, at once. We are living in a universe where every we must move with the train or be left behind The man who lacks a talent for decision, will
certainly fail of great success. He may achieve certainly fail of great sucess. He may achieve moderate success as a clerk, bookkeeper, private secretary or stenographer, but he will never shine as a commander or men or events; for leadership
calls for decision of character. The French historian adds this comment concerning a great., man:
"Rabelais had in him nothing of the partisan.
He "Rabelais had in him nothing of the partisan. He
was gifted with the embarrassing faculty of seeing was gifted with the emba
two sides of a question."

## ACTIVE HATRED

times demand is a positive character, clean cut and pronounced. We are told by John Morley in his great biography that the "active hatred of cruelty, njustice and oppression is perhaps the main
difference between a good man and a bad one, and that here Mr. Gladstone was sublime.'

## TRUE POPULARITY

That man is on a fair way to genuine popularity who does not put himself in the way of other men's success, but who seeks to identify himself in every proper and legitimate fashion with the good name a community finally comes to the conclusion that the objects and motives of a man are clean, pure, high, unselfish and generous, they weave a garland "popularity." One reason which William Cullen Bryant gives for the good opinion of his con temporaries is "that as a general rule, I have been in no man's way. I have not been a competito with any man for office or honor, and the feeling o
animosity which is awakened by rivalry has had no occasion to manifest itself."

## THOUGHT FORCE

I believe that the brain's electricity which we call "thought force" is given in about an equal measure to every child of Adam, but some think
while others do not. It is a simple question of the application of thought energy. The man who stays with his subject long enough will think his way through. One man may be swifter in his mental operations than another, but all men possess the
same scope of intellectual possibility. He who same scope of ints for thought will not be disappointed. This is the experience of every successful inventor: "In due season ye shall reap if ye faint
not." James Watt wrote (April, 1765) to a friend not." James Watt wrote bent on this machine. can think of nothing else."

## TOILS OF GENIUS

All great achievement is the result of hard work. Inspirations come suddenly to men who have pre pared themselves for's sudden inspiration. - But an
inspiration is only "a diamond in the rough." An inspiration is only "a diamond in the rough." An
inspiration is like a flash of light in a dark road on inspiration is like a flash of light in a dark road on
a dark night. The flash of light simply reveals the
way Inspirations come in a moment, but the way. Inspirations come in a moment, but the
realization of our vision, dream, or revelation may call for months of tồll, labor and struggle. A pen man of the Encyclopedia of Biography affirms "Seven years the poet is said to have expended in the composition of the Georgics, and they could al be printed Tradition reports that he was in the habit of composing a few lines in the morning, and spending the rest of the day in polishing them Campbell used to say that if a poet made one good line a week, he did very well; but Moore though that if a poet did his duty he could get a line don every day. lines a week; but then they have laste eighteen hundred years, and will last eighteen eighteen hundred year

## SUNDAY OBSERVANCE

No Sunday means no church. No church means no religion. No religion means no morality. No mo longer secure and that our civilization must take its place with the civilizations of Nineveh, Babylon, Rome and Greece. Therefore a patriotic man, Whether a churchman or not, will stand firmly for
the observance of the Sabbath. The Christian Evangelist notes that "when General Grant was in Paris, the President of the Republic invited him to attend the Sunday races. He knew that to refuse such an invitation from the President of France
would be considered especially discourteous by the French people, and yet he politely declined the invitation, saying, 'It is not in accord with the custom of my country, or with the spirit of my religion to spend Sunday in that way. I will go to the House oi God.'"

[^2]things which we care to remember: Professor an ory hays that Dr. O. Hen an And as though he were reading a will that made him the heir of a million.

## PERSISTENCE

The world always makes room for the men and the things which persist. Running water wears smooth the rock. Repeated hammering finally breaks the boulder. We even get tired of the constant appeals of the person whom we almost dislike; and
to satisfy them, or to save ourselves future annoyance we agree to subscribe, or join, or tribute, as the case may be. What can you do with a persistent man but simply permit him to persist, and that-in the last analysis-means his triumph and success. All great men have possessed the gift not only to strike while the iron was hot, but to "make the iron hot by striking!"

## ONE MAN POWER

The secret of every great success is hid in the soul of man. Every noble work pivots on some one individual. Wherever you find a great demonstra-
tion of an idea, theory or suggestion, there you will tion of an idea, theory or suggestion, there you will
find the concentration of all the powers of a confind the concentration of all the powers of a conand state is inspired to its faithfulness by the divine persistence of one person who refuses, absolutely, persistence of one person who refuses, absolutely, relinquish, for one moment, in the discharge of recognized duties and responsibilities. There is a great truth in the following splendid paragraph by lengthened shadow of one man; as Monachism, of the Hermit Antony; the Reformation, of Luther; Quakerism, of Fox; Methodism, of Wesley; Abolition, of Clarkson. Scipio, Milton called 'the height of Rome' ; and all history resolves itself very easily persons."

## MARRIAGE

Get a bright, cheerful woman for your wife. enough to fight life's conflicts without having somebody at your side who shies at every shadow and whimpers every time the milk can topples over. worried have beautiful homes, well spread tables, loving husbands and money to spare. Young man, seek for the cheerful woman and pray that she may be kept cheerful. A plain-spoken preacher says: wealth. He was overwhelmed. He said to himself: 'I am ruined. I wish I could die-my insurance would help her.' He saw only the worst. He pictured himself as an outcast. 'Poverty talks,' he said, 'but nobody cares to hear what it has to say.' When the truth was finally made known to his there was a look of devotion and fine womanliness in her countenance, and she said: 'Martin, listen to me a moment. We had nothing when we began. Do you remember how happy we were? We are just where we started. If you think my happiness depends on these things you do not know me. If get food and raiment. What more do we need?'"

YOUR FATHER
We hear a good deal, these days, about the beautiful mothers of the present and the past. And Day" about the real "head" and shoulders of the home. God bless, our mothers! But should we not have a rathers Day? Are there not ten thousand noble men within the sound of our belfry chimes
who are worthy of all true praise and applause? Let us not forget the noble words of Thomas Carlyle: "It seems very strange as I look back ove it all-so far away-and the faces that grew aged and then vanished. A greater debt I owe to my father than he lived long enough to have fully paid
to him. He was a very thoughtful and earnest kind of man, even to stermiess. He was fond of reading too, particularly the reading of theology, ald John
Owen, of the corententh century, was his favorite
author author. He fond not tolerate anything fictitious in
books, and books, and

Association Sale of Sheep and Swine
"At a recent meeting of the Saskatche wan Swine and Sheep Associations, it was decided to hold a sale of sheep and swine at Regina on October 29th. Thi is the third annual sale of sheep held nual sale of swine. Both pure bred an grade females, and pure bred males wil be offered in the sheep classes, and pure bred males and females in the swine sec tion. There is no entry fee for contrib uted animals which must be the prop erty of members of the respective asso ciations, and the management offer an added inducement to contributors in
shape of freight and express rates shape of freight and express rates. of enabling farmers to obtain good
roundation stock within reasonable dis tances and at a reasonable cost. The class of stock will consist of sheep rom fifteen to thirty months of age, and swin of age.
ionther particulars, rules and regula tions, as well as entry forms, may be Associations, Department of Agriculture Regina.:
The Sheep Breeders' Association is also prepared to furnish farmers in the provipice of Saskatchewan with grade runge exes at cost price."

illa Shaving Stick

The box with its convenient hinged gover, is worthy of Williams' Shaving Stick. No more could be said for the container of a soap that has typified shaving perfection since 1840.

There are three other forms of this soap that produce the same rich, abundant lather. The Holder Top Shaving Stick offers a firm grip for the fingers until the last fraction is used. The Quick and Easy Powder appeals to the man who wants a perfect shave in the least possible time. Williams' Shaving Cream in tubes is the last word in shaving luxury.

## Special Offer

## Men's Combihation Package

consisting of a liberal trial sample of Williams' Holder Top Shaving Stick, Shaving Powder, Shaving Cream, Jersey Cream Toilet Soap, Violet Talc Powder and Dental Cream. Postpaid for 24 cents in stamps.

A single sample of either of the above articles sent for 4 cents in stamps.
Address THE J. B. WILLIAMS COMPANY, Dept. 265 Glastonbury, Conn.
 107 square miless, and the tributary drainage to its outlet at Ash Rapids is some 360 square miles. The major portion of the lake lies within the Pro-
vince of Ontario, but a small portion of the western shore line lies within the boundary of Manitoba. It is connected to the Lake of the Woods by a narrow
outlet called "Ash Rapids." The direcoutlet called "Ash Rapids." The direc-
tion of flow at this point depends on the tion of flow at this point depends on the
height of the water in the two lakes, as at certain season the flow is into Shoal Lake from the Lake of the Woods and at others from Shoal Lake into the shed of Shoal Lake is thought by the New York experts reporting to the city to be sufficient in itself to supply ail the water required for the next twentyfive years - and this appears to be further substantiated by recent measureof the Woods by the engineers of the Manitoba hydrographic survey-yet this factor is not important, due to the connection of Shoal Lake with the large wacked, as it were, by some 25,000 square miles of watershed. This makes the water supply available practically inexhaustible.
Shoal Lake is well worth a visit, not only because of its importance as the source of this much-needed pure, soft
water supply, but also because of natural, rugged beauty of its shores and the picturesqueness of its numerous wooded rocky islands. A trip much enjoyed was made by the writer early in September in connection with work relating to the regulation of the Lake

of the Woods and the effect of such on the water powers of the Winnipeg River By leaving Kenora in a launch, a run of twenty-two miles across the Lake o Shoal Lake from Lock Lake. Passing through these narrows or outlet into Lock Lake, one will notice rocks piled to make a clear channel-way, and if a close enough examination be made, it
will be found that the rocks are highly mineralized, a reminder that a few years ago prospectors swarmed over the Shoal Lake district and that a number of gold mines were opened up and operated in the region. Coming across Here between rocky banks a narrow channel connects the waters of Shoal Lake to those of the Lake of the Woods At this point remains of a substantia Tharf and pier are still in evidence. show signs of fire which are said to have destroyed the old stopping place or half-way house. The clear water channel connecting the two lakes was a the time of visit some thirty feet wid into the Lake of the Woods, and at that time Shoal Lake was discharging som two hundred cubic feet per second Fishing appeared to be good at these narrows and sone wonderful tales ar told of catches here.
Passing on through into the labyrinth ampressed with the rugred wilduess of the shores and with the rocky hummocky islands. Unless one were familiar with the district it would be impossible to decide whether they were in the Lake of the Woods or in Shoal and islands is exactly similar to that of those met with in the Lake of the Woods. In many places the scrub spruce, Jack-pine, birch and poplar regal though isolated groups of red pine Suddenly, as the launch goes forging along, a view of the big traverse bursts into view. It is this vast, open stretch of pitching, tossing, wind-driven water which, bounded with its dim, hazy, indistinct blue shore line, impresses one As one looks across this wide expanse of waters and remembers the rocky shore line precluding any large settlement about the lake shore, it is then perhaps that the desirability of tapping such a
lake area for domestic water supply is driven home forcibly. Continuin? along to the westward in the shelter of the islands, one sees a cottage, a tishing station, consisting of three shacks and a wharf, and then the abandoned
Cameron Island Mine buildings. The large, red buildings, standing alone in the wilderness, give a feeling of desola tion which is accented by the slirieking of the gulls. From opposite the three miles brings one to the C. Jaffray Indian School at a total distance o forty miles from Kenora. This schoo is set on a well-wooded point which has been cleared and underbushed to give space for school buildings, residence o
Reverend Dodge and also to allow room for a most attractive carden. Mr Dodge and Mrs. Kay, matron of the school, with their assistants, have much to keep them busy. The fine, large school with its well-kept grounds form wildness of the other portions of the Lake. At this school the city of Winnipeg Bacteriological Department has established a laboratory for test Aitken (analyst) and E. H. Alexander (assistant) are carrying on this work
They may tell you that in a cubic centi

metre of water you will imbibe some | 200 datomaceae, 20 or 30 chizomycetes, |
| :--- |
| 20 or 30 chlorophyceae, 50 or 60 | 20 or 30 chlorophyceae, 50 or 60

cyanophyceae, 1 or 2 protozoa, 2 or 3 cotifera, perhaps 1 or 2 crustacae, also few unidentified forms of organisms. Such organisms have much more dreaded names than they have effect on the water as all lake waters contain such microscopic organisms in varying numbers. This work, however, is really an index of the exhaustive nature of the water supply and shows that every prewater supply and shows that being made to secure all data that bears on the question.
Getting away from the technical or bacteriological viewpoint with respect to the water, one finds it a very soft, fairly palatable water, similar to that the present Winnipeg water one notices the present Winnipeg water one notices carried out and also that it takes much less soap to do the same amount of work.
The Indian school, being only some few miles from the point at which the proposed intake will be built, one becomes anxious to push on. So, leaving the school behind, a course is struck
north to reach the entrance to Indian north. From this point on a westerly course is held. Passing into Indian Bay, between the islands, one sees a number of Indian camps and shacks. The tepees, the round bark houses, the papooses hung on their cradle boards, the wolf-like dogs, the round squaw carrying up water so to make this portion of the trip interesting.
Soon these are left behind and the end of the bay is reached; and here is the Falcon River. In order to keep any of this muskeg or marshy water from contaminating the pure water of the lake, a channel is to be built to divert the flow of the Falcon River into Snow shoe Bay, so that by the time it cir become purified by the natural agencies of the sun, wind, air, etc.

After one has taken this trip they will most likely feel that the name Shoal Lake does not aptly describe thi
magnificent reservoir. "Rock Lake would be more significant and would give a better idea of the shore line, islands and tributary drainage
Comparison is also likely to be drawn with the works of other cities along its water a distance comparable to the Winnipeg supply is that brought by New York City from their Catskill water supply. The writer had the

opportunity two years ago to go over a while in process of construction. The water f this particular supply was to be collected in a huge, artificial be collected in a huge, Ashokan Reservoir, and from this gathering ground big pipe lines, tunnels, ete., were to carry the water some ninety miles to New York City. Other artificial reservoirs were included in the scheme, and to obtain a supply of $500,000,000$ gallons per day it was estimated that the city would hav to make an outlay of some $\$ 160,000,000$. Compared with Winnipeg water supply project, ing difficulties. The creation of a large artificial reservoir or gathering ground for storing the water, together with providing against sources of contamination about the same, was one of the first difficulties they had to overcome. The work also included the construction of a huge masonry dam 220 feet in
height, and the building of miles of conheight, and the building of miles of colls. The inhabitants of the valley had to be moved- the houses of the village taken away; nd, in all, some two thousand people were moved from the site In addition to this, cemeteries had to be established at new points to take care of the ones that would be
flooded when the reservoir was filled Railways hađ to be re-located and public highways diverted. From this large, artificial reservoir or gathering ground a pipe line was laid to New York Cit and to connect with the Croton wate supply. Wherever possible the gravity type of aqueduct similar to that pro-
posed for the Winnipeg supply was used; but in many places it was impossible to make use of this type of con struction, and huge, costly, steel pres sure pipes cased in concrete had to be laid across the valleys, while expensive rock tunnels were driven through the these tunnels dives down under the Hudson River and, crossing beneath, carries the Catskill water across to the aqueduct along Storm Mountain. There were many other details which presented engineering problems and, compared does not present any great construction difficulty. Other water supplies might be also compared to Winnipeg's proposal for tapping the Shoal Lake supply and each comparison would further impréss one with the very many desirable
features of the Shoal Lake supply, ceatures of the shoal Lake supply, appreciated by all, viz. - the fact that by this water supply pure, soft water will be obtained, and this in quantities sufficient for every purpose.

## THE PHILOSOPHER

## CANADIANIZE THE FOREIGN-BORN

There is no more pressing duty which our country claims from every true canadian than the duty of born people. The way to secure this effectively is to born pesple. The way public sentiment insisting on it. And in strengthening that public sentiment each of us can help, and so do good service to Canada. Upon our
Dominion authorities, our Provincial authorities, and Dorious local agencies, religious, educational and otherwise, rests a great responsibility in this connection. Our new citizens of foreign origin will be what Canada makes them. They can be educated to a high standard of citizenship. We Canadians whose by any means. And in doing our duty in the matter of Canadianizing the rewcomers of foreign origin, whose mother tongues are foreign, we may be able to make ourselves the better Canadians, raising our own standard of citizenship higher

## TEACHER

It is important that parents should realize the actual necessity and practical value that underlie the co-operation between parent and teacher imata is
based on acquaintance. work to do-there is no work in the world that is more mportant. And parents who understand rightly the importance of that work do not say: "We pay the
teacher to teach our children-we do our duty", and reacher to teach our children-we do our duty, and leacher at work. Have you ever stopped to think hat teaching involves the investment of some capital hard work, disappointments and wakeful nights," Have you ever tried to "think yourself into skin,' trying day's work, perhaps after the visit of some angry parent, and feel the throbbing of the temples, he heaviness of the heart, the nervous tension throughout the whole body ? Do not judge one teacher by another. It is with teachers as with every other clas of people. Many often suffer wor the ill to go to the teacher of their whildren in a mood of sympathy and friendliness. In this way the school can be made to yield its fullest measure of value.

## as TO THE SIZE of families

The official figures of the latest census in Grea Britain show a considerable increase in the numbe of one-child homes. In London alone there are 5,11 as arisen over the question whether the tendency hus disclosed is to the advantage or the disadvantage of the nation. On the one side it is argued that the ne child has a better chance to develop into a superio human unit-chough, On the other side it is argued that all the children in the larger family may grow up to be fine men and women. Large families are to be seen everywhere i which all the members, are splendid specimens humanity. In the homes with only one child, it
sometimes happens unfortunately that the pride o the family is weak, physically or otherwise, and there is apt to be a tendency to spoil him, or her. Of course there are large families of by no means superior physique or mentality. The same can be said of the small ones. It is an absurdity th maogne that in the the one
child are concentrated all the good qualies that mht be distributed among several. Four children of a family may be ordinary, average human individuals and the fifth may turn out to be a genius in intellec

## THE BOY WHO HAS TOO MUCH

In looking over the newspapers that come to his desk, the Philosopher has found occasion for thought thirty miles to see a circus. He spent a day crossing the Alleghenies, a day seeing the strange, new sight and a third day returning to his home, with his min full of vivid and lasting impressions. Pity him By no means. Pity rather the boy who has so many
and varied pleasures and amusements that before he isstout of his boyhood years his capacity for innocen enjoyment is largely exhausted and he has more Worldly knowledge than is good for him. Of the two the boy with the restricted opportunities; who walke over the Alleghenies to see a circus may well be regarded

## "A leading problem of civilization."

One of the subjects very fully discussed at the recent Intrrazational Melical congress in London
England. that there were never before "under one roof so

Physicians, who was President of the Congress of 1881 Physicians, who was President of the Congress of made
characterized as " sastonishing" the progress mate since 1881 in the British Army and Navy in the matter
of abstinence from intoxicating liquors. He attribof abstinence from intoxicating liquors. He attrib-
uted it very largely to the example uted it very largely to the example set by the officers. An eminent German physiological chemist spoke of
the progress in temperance made in Germany, and quoted the Emperor's saying that in the next naval war the winning navy would be a " sober" one. A French bacteriologist, a recognized world authority, spoke of the poisonousness of alcohol, a physician from and one from Vienna of temperance progress in Austria But the most interesting contribution to the discussion was made by a Chinese physician, famous in his own country, who said that when a doctor in Cina, who had been trained in Europe or America, orders alcohol, he is likely to be ordered out of a Chimese house. He in China had bee a yew years the opium 50 pe cent. of the entire population to less than one per cent. and he wanted to know why the Western world could not do as well in respect of alcohol as China had done in respect of opium. All of which may be phrase of the London Times " a leading problem of civilization.'

## in regard to reading aloud

"How many daughters of men, who will faithfully practise singing with throats never made fo if they would apply themselved with half the zeal to the art of reading aloud ?" This question, in a weekly paper, has forced itself on the Philosopher's attention Few arts are nowadays more neglected than the ar of reading aloud. Indeed, no other art is more negthe reach of the average thoughtful man or woman A person may not be able to write effectively, or to speak with eloquence and fluent power of convincing or to sing, or to draw musicic from an instrument. Bu
most intelligent men and women are capable of coming reasonably good readers for ordinary purpose coming reasonably good readers for ordinary purposes aloud in a satisfactory manner? Even lawyers and othe public speakers, including preachers, are often far rom being as good readers aloud as they should be Not every person can become a really good reader many persons are incapable of realizing. But mos persons could acquire the art of reading aloud in manner at least acceptable and entertaining. Ther should be vastly more of reading aloud than there is what is read proges discussion, increases knowledge and brightens the intelligence.

## as of old, so it IS NOW

Self-praise is a failing as ancient as any other human fault. It was practised of yore in the lands
watered by the Euphrates and the Nile, and it is not watered by the Euphrates and the Nile, and it is not

unknown along the banks of the Red and the Saskathewan. So we need not feel surprised that there has been found wrapped round the breast of an Egyptian | mays |
| :---: |
| says |
| man |

 was h friend to the weak. I collected corn for the poor. I I gave

It is possible, of course, that this man may have been all he said about himself, and it is to be hoped he was, for that would mean that he was a model citizen, an ornament to humanity, a person of value in his time.
It is also possible, of course, that he was not responIt is also possible, of course, that he was not respon-
sible for the document found wrapped round his chest. sible for the document found wapped sund dis chest. with prominent citizens in ancient Egypt. Possibly the document was part of the funeral requirements of the ancient Egyptian religion. But if this worthy Egyptian of long ago was responsible for the record of his virtues that has now been brought into the light of day, atter more than a million sunrises and
cunsets since he was laid in the tomb, it seems fair to conclude that in life he probably spent much of
his time in calling his neighbors' attention to his virtues.

## ASHIONS PAST AND PRESENT

The follies of fashions have been a theme for moralists and humorists since the days of the first ancient records found along the Nile are full of sarcasm at fashion's expense, and the prophets of Israel
likewise lifted up their voices against the evil tendencies of the fashions of their times. For thousands of years there have been evil fashion: at which earnest
nunciations, and there have been ridiculous fashion at which the shafts of satire have been aimed-bu only to fall blunted. This is by no means the firs age in which the pleadings of the preacherss extreme mode have been in vain. Shielded and sere in the consciousness that they are in the mode, the devotees of fashion walk unheeding on their way The delightfully funny thing about those who ar dressed in the extremity of the fashion is that the will come to be looked on as ridiculous. The beau and belles of London in the fourteenth century strutted and minced on shoes with long points that turned up the men's shoes had their points chained to the knees. To go back considerably less than a century,
consider the crinolines that ballooned around the women during the earlier decades of Queen Victoria's reign. Looking at ancient prints showing the fashions of past generations, we laugh at them as ridiculous.
But they seemed fine to their wearers. How will the But they seemed fine the merent extreme styles of the p

## he yellow people and the white

That the Japanese have made it a part of their programme for the future to occupy British Columbia, is the assertion made by Mr. F. B. Vrooman, a aresident
of that Province, in a speech which is quoted from of that Province, in a speech which is quoted from
an article in the Fortnightly Review. "Our Provan article in the Fortnightly Review. Orien Prove and one of our important questions is whether it is to remain a British Province or become an Oriental Colony. He points out that there are three Oriental aces demanding entrance-the Japanese, the Chinese, and the East Indians. Yet the Japanese, as the
Fortnightly points out, refuse to allow a foreigner to own, or even work, a mine in Japan, or to engage in fisheries, and tolerates no foreign workmen other than hose skilled workmen needed to teach Japanese workmen how to make goods cheaper than they can
be made in white men's countries. Japan, too, is squeezing every Western interest out of Japan, Korea and Manchuria. The matter of equality of rights is the whole crux of the difficulty between Japan and the white men's countries washed by the Pacific. Japan's complaint is, in reality, that discrimination Japan objects- ${ }^{-}$to restrictions being set up against Japanese, from which Europeans are exempt. In short, Japan insists that she shall rank with white nations, and that whatever is granted to them must be granted to her, and that any ban against her must be made a ban against them likewise. She points out
that in excluding all foreigners from landholding and from working in Japan, she is not only within her national rights, but is making no discrimination between one white nation and another. That the
problem, as it presents itself on the Pacific coast of problem, as it presents itself on the Pacific coast of The Canadians of the coast hold the same strong feelings and convictions in this regard as their cousing over the border in California; ; both are as determined
as the Australians are to keep their country as the Australians are to keep their country a white
man's land. The Hindoos of whem now threatened are no more welcome than the Japow is The fact that the Hindoos are British subjects, some of whom have served in the British uniform, makes them, rightly or wrongly, no more welcome in British Col umbia than if they came from a country not alone
foreign but hostile

## ancient and modern vampires

Not so long ago in a Russian village several members of a lare family died with vin a few severa
The survivors, believing that the head of the family The survivors, believing that the head of the family who was the first to die, had returned as a vampire and cut off the head and drove a stake through the chest, by way of preventing his further activity. Strange reading, surely, in these days. Yet it is natura enough that primitive, ignorant people shouldi magine catastrophes otherwise of mexplainabile. The real to pires that take the lives of human beings in civilized as well as primitive, communities, we know to be certain wel defined diseases- the tuberculosis vampire the cancer vampire, and others. All these take thei and humanity are waging a conflict of ever-increasing effectiveness. ## Heart to Heart

This is not written for offence, from a desire to display superior knowldge; it is written in defence of the tired, busy house-mother, who tries to be
economical. Don't make new garments out of hal worn articles!" Old skirts, coats, cloaks, and even men's light-weight clothing, can be turned, washed, re-dyed, if neces sary, and fashioned over into something that pays; but cotton, flannelette, and such like, never can. In the first place, no one wants to discard clothing half worn, and when fit for dust-cloths, lampcleaners, etc., etc. Seriously speaking do not do anything that is not worth while. Spend the time in a nap of sleep, or just sit still and don't even think. Our thoughts tire us often far more than the work we do. We worry, plan and scheme, in our minds, until our brains are a scrapheap. Take a minute entirely outside your rutted track A peep into a book, a bit of verse, a joke peep into a book, a bit of verse, a joke
or witty story (and the magazines are not haff funny enough sometimes), or some interesting article, that will send your thoughts flying in new spaces. Open your kitchen door, and breathe deep. You can always' see something interesting there too, if you look for at night, look up to the quiet stars, and draw new strength from their glory. From my kitchen door after dark, between and over the roofs of some low buildings, I can see the winking flash of Fint Island Lighthouse reflected against the sky. Wink, wink, wink, like some great eye watching our little
petty earthly vexations. By the way, hety earthly vexations. By the way, recipe or "household hint," and had just awful results? The other wash day I put a bit of "lemon peel," warranted to give clothes a beautiful white appearance" in the tin where I boil my pockethandkerchiefs. I suppose I should have peeled the yellow rind off first; but, anypopped a generous portion in, and they were a beautiful shade-all right-of "yellow!" I learned my lesson though! That was "a frost on the lemons", sure-for me! I have tried "blueing" in the clothes boiler, with fairly good results. Not too much of it, or the results will be as' disastrous as my trial of the "lemonpeel." But clothes do get such a color drying, hard water, and short days, I would welcome any hints or helps in that line. I use a lot of household borax-that is a good friend when you have to wash in hard water.
Washing handkerchiefs is a disagreeable task, so I soak them well and boil
them in an old biscuit tin by themselves with some good washing powder, then rinse well and blue, and one feature of wash day is made easier. Every house keeper should have a washing machine It pays! The "goddess of the kitchen" deserves every convenience that can be properly afforded. It pays-in health, strength, nerves and longevity, and gives more time for relaxation and men

## The Woman's Quiet Hour

By E. Cora Hind.

I was very sorry that çonstant trav- $\begin{aligned} & \text { Co. and I would strongly recommend it }\end{aligned}$ elling prevented my writing any thing for the September number of The Western Home Monthly. I am not so vain as
to think that readers of the Monthly o think that readers of the without my A Word column, but I always of Apology. feel sorry when anything my readers. In my journeys, which covmy readers. In my journeys, which cov-
ered practically the whole of the three western provinces, I ran across a num wer of readers of the Monthly, and all of them were good enough to say kind things about the Woman's Quiet Hour. It was cheering to know that it had
been helpful to anyone. I came back been helpful to anyone. I came back
from my trip, which included 1500 miles of driving and motoring, with an even greater respect than I had before, for the courage and pluck of the women of the West. 1913 has not been an easy
year. Money has been very tight, and when money is tight, it it the woman in
the home who feels it more keenly the home who feels it more keenly
than anyone else, and yet I did not anyone who wants to add a really Ve have book to their home library. that corresponds to such land as is de scribed in this book, but we have situa tions which require almost equal cour age and perseverance and I am sure
this story will appeal strongly to Western women.

During September, Winnipeg was ored with the Dominion gathering of was very busy and unfortunately unable to attend the sessions with any regu-

Charities larity, in fact I only $\begin{array}{cc}\text { Charities } & \begin{array}{c}\text { heard } \\ \text { quite }\end{array} \\ \text { one address } \\ \text { through, but }\end{array}$ that address was given by Superintendent Finlay of the Prison Farm at Toronto, and it rejoiced me to find that he was doing what has always seemed to me the most sound

Namakan Lake. Rainy River district. This lake has many beaches in length, of beautiful Namakan Lake. Rainy River district. This lake has many beaches in length, of beautiful

[^3]ons in the West who are serving sen tences for drumkenness, thert ally minor in fact, that has been their undoing. They are sentenced to hard labor and are made to do it. Then why should not that hard labor produce an income which will go to the support of their a number of men were farmed out to do work, one as a carpenter, another as a blacksmith, and so on. Ther were under sentence and came to the prison farm every night. He collected their wages which they earned, and saw that their families received them, after a suitable deduction for the cost of the cases he told us connection with these were doing good work and furnishing money for their families had been a wholesome element in the regeneration of these men, and that they seldom came back to the prison farm for a second term, and quite a number of them had continued to hold the jobs which they had
prisoners.
It is a great thing for Winnipeg that it has come to be recognized as a Convention city. The gathering together enthusiasts along the line of social ser ice work particularly stirs the life of

Jean Lake. The gem lake of the Quetico reserve. The forest surrounding the lake is
in its primeval condition. Forest fires not having scarred the beautiful slopes.
the community when they come to it. In Winnipeg, not perhaps wholly as an outcome of this convention, but partly so, the Dominion Social Service League
has been formed, with the Rev. J. S. Woodsworth as its secretary, and the lines on which it proposes to work cannot help but be beneficial, especially
looking after the enormons number of non-English speaking immigrants that are continuously coming to our Canadian shores.

One of the most interesting personali ties among the speakers was Miss Nen feldt of Toronto. She is by birth a Rus sian Jew, but has been interested in social of her own in Toronto, though by the way, she objects' to the term "Settlement." In some ways I sympathise with her outlook. She objects to the large building which usually goes to mak up a settlement house one grom that it is not teaching the people to make the best of what the to have have. Heeting place. She think common meeting schools should be largely utilized for this purpose, and that these should be free to all people in the neighborhood. Various lines of educa tional and social work could be carried Miss Neufeldt. would be nothing of Miss Neufeldt. the pauperising el
ment: in fact. to Nuce it to plain English, the work
Vise Xeufeldt's settlement is to In atmo-plefe which will at once enCurage and stimulate the poor penple
expressed, but there is something in it. the mare, just as there is something in tiful garden in a district where here tofore gardens have not been made. garden to give away all the results his or her labor. The very fact that the garden is there will stimulate others to earnest in her plea that those who took up the work of social service in any form should be trained. She pointed out that no one would want a doctor who was untrained, and yet the work
of social service was to heal the body of social service was to heal the body politic of diseases far greater and
difficult to cope with than the individual human body could ever suffer, and why should the man or woman who undertakes this work dream that they can accomplish it without adequate train ing. I think this is a very strong point. it has always seemed to me that it is presumption for the untrained to at tempt work which requires the best training that it is posible Co obtain For example, why profess as elristian dren in the Sunday school is more important to their welfare here and here after than the teaching of them in th:e public schools, yet teachers without $t$ : slightest training are not only accepted

Sunday schools, but untrained people re constantly urged to take up this rork. Young men and young Sumen school that no one would dream of entrusting with a class in a day school. In this particular. the Cluristian Church has been far from consistent.

I think my readers this month will be pleased to have a picture of Lillian Laurie, Mrs. A. Vernon Thomas. This Lillian Laurie. characteristic picture is taken in her own cosy home at 45 is taken in her own cosy is sitting at the table at which she has written many of the articles and stories which have endeared her to Western readers. She is making rapid progress as a writer of stories for the American magazines. I would that Canadian magazine owner: could see their way to pay such prices
as would enable our Canadian writer to keep their wares at home where they would be more easily available for our own people. At the present time it doe not pay to write for Canadian maga zines, and anyone who wishes to mak an income from their pen must necessan eflorts to our fricmil across the line.

## Poultry Chat

By H. E. Vialoux, Sturgeon Creek

October is the general shipping month, for the up-to-date farmer, as the prices for the up-to-date farmer, as the prices
are excellent then, and the Winnipeg are excellent then, and the Winnipeg
dealers really prefer to handle well: fattened stock alive, and certainly offer good prices for good birds' in the spring chicken class; 15 cents per lb. ali means a nice profit to the producer.
Turkeys are worth 17 cents per 1 lb . alive, but, of course, turkeys gain so the fields, after the grain is' stacked or scratch around, where the threshing has been done, that it hardly pays to sell them until really cold weather comes to stop their rambles.
Of course, dealers will buy well-fattened and properly dressed chicken, crated to present a nice attractive appearance. If a shipper finds any trouble in the receipt of his birds, there are a
number of reputable dealers who will be glad to take shipments and pay cash glad to take shipments and pay cash
for them. I will answer any queries cheerfully in regard to the poultry market which I keep in touch with.

## A good herd on a farm near Gladstone, Man.

After some years' residence on the farm, however, where we raised a great we were poultry, I remember how pleased alive during the busy fall season, but the prices offered a dozen years. ago didn't pay so well. The ship now, and didn't pay so well. The shipping facili ties are better also.
Prof. Herner, of the M. A. C., has throughout the West, teaching better poultry farming. His' circular, No. 15 , will be sent out in response to a post card anywhere in Manitoba, free of charge, and should be in every poultryman's hands, dealing as it does with breeds for table birds and fattening for same. killing and dressing and mar keting of fowl.
This is a fattening ration highly recommended by the professor: "Two parts of finely ground oats, with hulls, sifted part fine part finely ground barley, one cheap food, as any farm produces all three grains, and the busy man who does not want to fres will surely grind all the grains togetier in his crusher,
when crushing oats for his horses. The mash is made into a batter by mixing butter milk. Start in by feeding each bird one ounce for a meal or two, then increate the ration, at the rate of one
ounce for each four birds, until they are on full rations, which will be about 20 to $3: 0$ ounces of mash a meal for every 12 hirks. Feed twice a day at regular and make them eat up clean feeding, allowing them $30 \mathrm{~min}-$ feed. Then remove any surive charcoal once a week in but water is only needed in hot
if the crates are kept in a cool if the crates are kept in a cool

well-grown bird of one of the utility "Rhode Island Reds" or Orpingtons are suitable for fattening as table fowl These breeds stand our Western winters well, and are therefore ideal for the
Manitoba farmer, as they will produce Manitoba farmer, as they will produce as many eggs in twelve morths as any
known breed of smaller fowl. known breed of smaller fowl
This I have seen tested more than once. I have seen Barred Rocks and the famous White Leghorns placed side by side, and given the same good care and at the end of the year the Rocks ord being kept.
There is a great deal in keeping a good eg laying strain
utility breeds of fowl
The time to prepare the winter puar ters for laying hens and pullets is with us, and a few hours' work in cleaning, whitewashing, mending windows and patching up draughty cracks and corners may save a peck of trouble later
on. Attention to these little details failure in winter egg production, when "below zeros" are registered.
Last season a small notch was broken in one of the hen house windows, and not pasted over early in the winter before fine cold weather had set in. I noticed he roosted just opposite that little ootch in the window, and it took me Il winter to cure lim of the frog in his throat. At the 13th annual exhibition of the Headingly Agricultural Association on September 13th dressed quite a foth ducks and chickens birds wase a feature; the exhibit of birs made an attractive slowing garnished with crisp parsley
The Colonial Intelligence League, with headyuarters in London, England, have started a somewhat novel undertaking in
the Okanagan Valley. Miss Sykes, who is travelling throughout Canada in the interests of the League, has purchased old Cold Stream Estate, formerly Lord Aberdeen's big ranch. A hostel is being built here, and the ground prepared for gardening, small fruits and vegestaff of three skilled gentlewomen, grad. nates of English agricultural colloges, ing, gardening and dairying. for graduates of agricultural colleges at home, who wish to take "a post gradarere embarking their capital in individnal enterprises in the West, the them-eves. ## Woman and the Home

Palmolive has been termed the

Different Soap.
When we learned that Palm and Olive oils were responsible for the wondrous complexions of famous historical beauties, we sent to the far-away land of palm and olive groves for these oils. Then we learned to blend them in soap, making countless improvements and finally realizing an Ideal-a perfect soap-after 38 years of striving.
The Olive and Palm oils alone give Palmolive its delicate green hue. It is more than mere soap.

No other soap is so pure, so e fective in cleansing and beautify ing the skin. Its soothing, invig orating qualities have made Palm olive a household word in millions of homes.

Palmolive lathers freely in either
hard or soft water.
Every cake is hard-milled so it wears down to wafer thinness. Thus Palmolive lasts much longer than others. Price 15 c the calic.
Send two 2-cent
stamps for sample.

## ©n Growing Olds

Mrs. K. McQuarrie, Lower Caledonia S., sends us the poem 'On Growing Old,' recently asked for:
They call it going down the hill when And speak with mournful And speak with mournful
our tale is nearly told, They sigh when talking of the past, the They days that used to be,
As if the future were not bright with immortality.
But is it going down? Tis climbing higher and higher,
Until we almost see the mountains that
For our souls desire:
but dim to earth grow dim, it is While the eye of faith discern the Saviour's worth.
Who would exchange for shooting blade the waving golden grain?
when the corn was fully ripe would when the corn was full
wish it green again?
And who would wish the hoary head, found in the way of truth;
o be again encircled with the sunny be again encirc

For though, in truth, the outward man must perish and decay,
The inward man shall be
grace from day to day.
Those who are planted by the Lorl shaken in their root,
Shall in their old age flourish and bring forth their chosen fruit,
It is not years that make man old; the spirit may be young,
Though fully threescore years and ten, The wheels of life have run; God has Himself recorded in H :s blesse
That they who wait upon the Lord shall e'en renew their youth.

And when the eyes now dim, shall open to behold the King, the harps of heaven ring;
And on the head now hoary shall be And placed the crown of gold, shall be Then shall be known the lasting joy of never growing old.

## The Care of the Hands

## SPECIAL FALL OFFER

WEEKLY FREE PRESS and PRAIRIE FARMER, Winnipeg - $\quad \$ 1.00$
WESTERN HOME MONTHLY, Winnipeg 1.00

SNAP OFFER

## Both for One Year $\$ 1.00$

This offer docs not apply to those living within the City of Winnipeg limits or in the United States of America. It holds good, however, to Great Britain.

1913
WESTERN HOME MONTHLY, Winnipeg.
Find enclosed $\$ 1.00$ for which send the Weekly Free Press and Prairie Farmer, Winnipeg, and The Western Home Monthly to the following address for one year.

Soak the hands in water as hot as can be borne for five minutes. Dry then oil. Then run the fingers of one hand over the back of the other, picking up and rolling the skin. This treatment repeated several times, restores the circu lation and gets rid of the skin-bound
appearance which is so disfiguring appearance which is so disfiguring.
It is very unwise to wear tight glo or gloves with fingers shorter than those of your hand. Such gloves speedily impede the circulation, and cause the skin o become red and tough.
When sweeping, dusting, gardening, or doing any sort of rough work protect
your hands by wearing gloves. This is not vanity, but merely common sense. Brittle nails is a malady from which many a gardening woman suffers. A smeared on the nail and ander it jer work is started will prevent this condition of things.
The woman with thin, scraggy hands will find gloves worn at night a great help. Some emollient cream should be
well rubbed in before the gloves, which should be very large, are put on the liands. For keeping the hands soft and white a lotion made of equal parts of lemon juice, glycerine, and spirits of camphor, rubbed into the
skin whilst it is still moist from ing, is very effective.

## Our Mothers

The strength of a nation lies in its mothers. The spartans recognized this, and trained their girls to be brave, to
endure hardships, to be self-sacrificitig and pure, and their sons were sent out into life, strong, vigorous, chivalrous, and fearless.
Behind every invention, heroic deed, poem, or story, stands a great soul, and
back of this greatness is the mother who formed the character and was the inspiration and power.
The greatest place in the world is not in kings' palaces or in beautiful temples, made, but in the homes of the people where, by night and day, women tend little children and train them. Unconsciously we uncover our heads when we meet a mother with her little child She may be young, she may be poor; she
may be inexperienced, but she has power to work mysteries and perform miracles In sickness and in health, in toil and in ease, at home and abroad, she lives for the life that is grafted upon her own, cornful of pity, conceiving of no highe arm which she has made strong by her strength, and to trust to the heart which has been made pure and true by her own purity and fidelity.
So she lives So she lives her life. "Drudgery." silly people call it, but unto her who is wise it is a holy mystery.
So she lives her life. house," unknowing ones may a prison unto her whose eyes have been opened to see mysteries, and far into the future it is a queen's domain may have forgotten , when the world it was so commonplace, she stands up and puts judges and statesmen, and inventors and poets, to shame, for she
has done what they cannot do She has given a man unto the world, to rule it or a woman unto the world. Her ministry is above ordination. Only Christ's can compare with it-Grea Thoughts.

## Advantages of Economy

A large class of wives and daughters hamdle rery little money. These women are not sppposed to be needy. they are with tiateful wardrober. lountifully sprad tables. and. to the casual ob-
server. no apparent lack in their surbindings. But the house-mother hnew mally times she reckons ove the hom chnh bupplies to see what

| It is little money which causes so | $\begin{array}{c}\text { haune are souls in bitter bondage } \\ \text { many women to hant } \\ \text { the baryain }\end{array}$ |
| ---: | ---: |
| Beating 'gainst their prison bars |  | many women the "Family Doctor.") It gives interminable shopping in the search from shop to shop to find the best article for scanty means. And these vexations are not the worst which come to her with little money. She must bear with what grace she can imputations

upon her taste when she selects perforce upon her taste whon she selects perforce some cheap common oning in preerence
to the more elegant one which a beautyloving nature may cry out for. She must often curb with a stern hand her natural generosity of spirit, and forbear giving to the friend or cause she loves, or at most strive to content herself with a meagre, almost shabby, token. which to run my household comfortably. In have had to plan and contrive in order to get something out of every penny in the shilling," said one, considered a fine housewife and manager (and she was), who lived in fine style in a handsome mansion.
It brings lines all too soon to women's faces, and gives to many eyes an all
too wistful expression. But it also helps to develop valuable qualities which some women would never have shown. It sharpens invention, ingenuity, and carefungess, and like many a disagree-
arle thing in life, teaches patience and able thing
self-denial.

Amusing the Children
A successful indoor game for children,
of from 7 to 12 years of age, is made by means of the famous barley candies, says

Will you stretch a hand to lead them Ears that catchom neath the stars? Hearts oppressed by doubts and fears Will you make your life an echo
Of the music of the spheres?

These are gifts no gold can purchase,
Gifts the Gifts the poorest will not spurn Love which gives without return. Will y you, with your Lord and Master Shield the outcast, stand alone?
Or with falsity and harshness Cast the hard, unyielding stone?
There are souls all round about you, Drinking deep, with fevered rage, Yet its pangs can ne'er assuage Will you lead the purer fountains, To an atmosphere more true,
By your life and conversation Show the Christ reborn in you?

She was Never Pleased
After a slight accident to a boating party an aunt by marriage in the famsympathetic behavior to task for his un-
"When your mother-in-law fell into the water why didn't you help to get her out, George?
"My dear Aunt," replied George, "you know very well that nothing I could

Curtain Falls. Got its name from an Indian story which stated that there was a passage.
way behind the falls by which the river could be crosed dryshod.
According to Indians notion ecvery fall had a recess at the back, in which the spirit of the falls rives,
The higher the falls the bigger the recess and the greater the spirit tossed up the turbulent
(

Good Housekeeping." These represent An old Southern darky was presented both animals and toys and are very in- with triplets and was so elated over expensive as well as wholesome. The the event game consists in putting several of these candies into a dish and covering the whole in turn, draws a candy concealing it from his comrades. He then retires to an adjoining room, examines his candy and decides how, best to act out what it
represents He comes back to the room represents. He comes bark to the room and acts it, the other cliildren guessing
what he represents. At the end, the children vote as to who was the most successful in his acting, and a simple prize is his reward. I remember one
child who drew a candy cat; instead of meowing as might have been expected,
she curled herself up in a little heap, began to purr and lick her paws and wash her face in a very clever imitation. The
children were all delighted, and shẹ receired the prize.

## Some Schoolboys' "Howlers"

During a Scripture examination in Sheffield school the master received a very original piece of information from one of the lads. The teacher was dealing with the subject of Jacob's vision of the ladder which reached to heaven and on which angels ascended and de-
Presently he asked, "And scended. Presently he asked, "And
where was Jacol lying whilst he saw this wonderful vision?"
"On the ground," answered one of the boys. "Just so," said the manter. "But how was he lying?"
was he lhing? hith on the kerbstone," re sponded the lad.
A few inspectors have such a kind, friendly, and familiar way with them,
that their official visit to a school sathat their official
vours more of the nature of a treat than an examination. A certain gentleman of this type once put a class of vil lage scholars quite off their guard by his blandness and affability. After hav ing passed a few words with the mas ter, he stepped into one of the class rooms just like an ordinary "visitor," stood before the boys, chucked one of
them under the chinn, and began as folthem under the chin, and
lows:-
"Now, Tommy, suppose that you and I were playing marbles. At the start you have ten, and I have eight." The boys all pricked up their ears with in-
terest. They thought it was the be-
ginning of a story. ginning of a story.
have won half my marbles. So I want you to play again, in order that I may win some back.", The boys hitched still closer up.
"In $t$ next game, 1 win half the whole number of marbles you have Now, 'rommy, my question is this: how many marbles have you got left?"
Then Tommy, utterly disgusted, suddenly drew his face away from the inspector, leaned back in his desk, and ex spector,
claimed:
"Well. I'm blowed; then it's a sum
This reminds me of a very ingenious

## The Young Woman and Her Problem

By Pearl Richmond Hamilton

Our Western Home Monthly girl real-
ers provide a very interesting feature ers provide a very interesting feature
of our magazine. They write us letters full of problems, ambitions, affairs of girlhood, appreciation as well as pa-
thetic appeals for advice. We value these letters and give every one special ittention. One girl writes me that
while on the train she met two Winniwhile on the train sle met two winni-
peg young men. When she reaclied her peg young men. When she reached her
destination th y asked her to corresdestination thy asked her to corres-
pond with them. She asks me-"Is it proper?" No-a girl is ruming a great risk by corresponding with strange
Young men More trayedies result from young men. More tragedies result from correspondence $t^{2}$ an most peopie real-
ize. Men and women would give forize. Men and women would give for-
tunes to recall letters written in the emotional period of youth. A tirl should never commit herself in any way by letter. I have in my possession let-
ters that express various moods of girlters that express various moods of girlhood fancies and dreams-some are bit-
ter with tragodies resulti.s from careter with tragodies resultius from care-
less correspond:
Letters that are written to other girls are quite as dangerous. When friendship ceases as it often does, then do secrets and family affiairs untold before the
with most tragic results.

- STHLE-WORSHIPERS

The tendency of the age seems to have produced a deplorable heathenish
form of idolatry. form of idolatry. Women are fast be-
coming a race of style-worslipers. Paris is laughing at us in her sleeves and in fact all Europe is ridiculing our lack of good sense in not having mind of our
own enough to distinguish the differown enough to distinguish the differ-
encel between the dress of gentility from ence between the dress of gentility from
that adopted by the underworld. Modesty in dress seems to be a tling of the past and women appear before the male sex in costumes that ate
and disgusting.
Some of our best magazines are offerSome of our best magazines are ollier-
ing prizes for styles of lats and gowns ing. prizes for styles of lats and gowns
designed by our home artists. Why designed by our home artists.
can we not adopt Canadian styles? Why can we not have an individuality that is distinctly Canadian? When we go
down street wearing a Parisian gown. down street wearing a Parisian gown,
a hat designed in Vienna, a pair of a hat designed in Vienna, a pair of
American boons, Frencll gloves, Brussels trimmings, and carry a Mexican hand bag, how much is there really Canadian about us especially when we
ape the manner of another race? While ape the manner of another race.
we have been developing the industrial world we have largely lost sight of fine distinctions and morality. Women tear
the clothes off one another's lacks to get first place at a bargain counter
of
Conspices.
Consus consumption, conspicuous Conspictuous consumption, conspicuous
waster conspous pleasure, conspicuous
leisure, and conspicuous dress seem to leisure, and conspicuous dress seem to
be the code of laws set by the ricl, and painfully do the poor try to follow this code. The five-dollar-a-week girl reach-
es into the pocket of her five-luudredes into the pocket of her five-luudrdred.
dollar Persian lamb coat for her dollar Persian lamb coat for her purse
to pay the street car fare and her chum wears a slit in the botom of her dress revealing twelve inches of lace
ruftles quite as white and rich as the ruftles quite as white and rich as the
millionaire woman who rides by in her millionaire woman who rides by in her
limousine. What does it all mean? It means that the woman of wealth, who adopts her style of dress is responsille
to a certain extent for the soulthar to a certain extent for the soul-char-
acter of her wage-earning sister. Let me urge my girl readders to turn to the pages of history,
hero-worsliping.

THE SLOW GIRL
$\underset{\text { becauce thant girls lose their positions }}{\text { A }}$ seem to realize the value of wavt
 have ten times more leisure. five move conuts. They have time for "unt
and time for recreation as well. Th. and time for recreation as well.
busiest women of my acquaintilluw lain
minister said the other day that if he wanted something done he would a-k the busiest women for they seemed to have more timel It is all a matter o economizing time. The most successfil complishing the greatest amount of work in the least time. Employees think the employer has the easiest time He does more hard thinking and har work in five minutes than the unsuc During the summer I watched the build ing of a house back of my home. The mortar mixers, bricklayers and carpen ters were continually fretting over the work and striking for more wages
They complained to the foreman because he was paid more than they were Finally he exclaimed: "If you mak your services as valuable as mine you will be paid the same!" I have hear a great deal this summer about so many have watched man aiter man leav work on this house because they wanted five cents more an hour-when they wer getting good wages. Every morning unemploved mor work but refused it walk they wanted five cents more. Then each loafer would go home to his sufferin family and probably tell his tired wif who had washed all day that he could Efficiency. Efficiency should be the letter of cred it required of every immigrant girl-i
the word would mean only the abilit to value time. Half of life's failure are due to wasted time. Successfu women have spent tlee evenings of thei the mind and at the same time devel oped physical strength that the girl late hours' who spends her evenings in th search of artificial entertainment can never hope to have. The girl who need to earn her living must use her brains years ago. She was mot attrore thre she remembered the tastes of her cus tomers. The girls who had been in th:e store made fun or he for not enter ing into their foolish gossip. They rid the othe girls listlessly girl. But whil tomers she studied the situation, watched her customers, got every bit of information'she could along her line of Work and resolved to lift herself to position where the others would admir In one year from the ti
the store, this immigrant girl was re ceiving the largest salary in her de partment. While others were complain ing that the heads were chosen by fa
voritism this $g^{\circ} \cdot \boldsymbol{l}$ found ler opportunit by using to advantage the time that the other girls wasted.

TAINTED HAPPINESS
Two questions have come to my desk noti: "If by living a lie you can mak another human being happy is it not such a thing as tainted happiness?" Men and women of history from Biblica times to the present age have proven
that one is not justified in living a lie and there is no such thing as tainted happiness. Snatching happiness at the awful price of hypocrisy and silence fer tainted liappiness. George Eliot teste tainted lappiness and in every one of
her novels she pictures the tortures of a character-a victim of tainted happi nes.. Lady Macbeth worked for tainted charped that in the heart was so sorel, f remor Nought's had, all's spent Than ly destruction, dwell in doultfil

Is fallen into the sere, the yellow leaf; And that which should accompany old
age, honor, love, obedience, troops of friends,
must not hope to have; but in their stead, curses."
Shakespeare makes every one of his characters that pursues tainted happiness sumer the Divine law.

INDIVIDUALITY
During the summer I have been bothered with all kinds of book agents selling various works on the Bible. They tell me that we are growing a way from the Bible, hence a movement is on to make there is an inclination on the part of ambitious commercial men and women to chew and digest our literary food. There is danger of making the classics too easy It takes away the satisfaction of accomplishment. If we read the Bible as we should, it is the most interesting book in the world. A
veil thickens before the brain if we read veil thickens before the brain if we read
without thinking and reasoning. The without thinking and reasoning. The
true teacher makes Shakespeare so interesting that the student does not want helps to interpret the characters. "Lean on thy own understanding." I furnished a room this summer. When I asked the clerk for a certain shade of brown he replied: "'They' are not using that shade this year. This is the
proper shade." I exclaimed: "I do not

Can the brain keep cool and the heart
keep quiet When the blood ood is a river that's running And boys will be boys the old folks say,

Two Royyl Dukedoms will be united by a marriage between Prine Arthur of Connaught and the

care what 'they' are using. I want this shade. It is my room and I want it to suggest indiyiduality." We are de veloping into living copy books. A pro-
fessional comes to fessional comes to our homes and plans
all of the furnishings, others cull our reading matter for us, while another class of artists tell us what we must eat and drink, until we cry out in despair: My kingdom for a real man or a real woman-one with honest individu
ality," ality."

THE TWO STANDARDS
There are two kinds of young women I know many who are cruel among the first class and $I$ know many who are good and beautiful among the second class. Those of the first class have never made an error morally but they have hearts as cold as the winter snows. They are themselves stainless, yet they sisters. They judge their sisters harsh ly, and ignorantly because they have never been tempted like their sisters. The girls or young women of the second class perhaps in an hour of emotion stepped by the wayside. Yet in their sutferings they rise with aims so noble and merciful that they become otherg in the power to heal the woes of it welcones those of the former class From time to time I meet girls. the secoml class and I admire their strength of will that has brought them from depith so deep to heights so heavenly. .nit society sees the depths only
One poct One poct gives us two portraits.
«There wis a man it was said one time. There was a man, it was said one time.

The preacher prayed that she might be But told her to look for mercy-in For Heaven. know: That the woman is stoned, while the A brave man wedded her after all, But the world said, frowning, 'We shall not call!'"

THE DAUGHTER
Berenger wrote for the inscription on the tomb of a woman who died unmarmany sons arose and called her blessed." To her father and mother and brothers and sisters the daughter may be the greatest of blessings. Many a sister has been the confidante of the secret of her brothers and saved them from
Getal dangers.
George Eliot has furfatal dangers. George Eliot has furnished us with a beautinu poctura who cherisled and assisted her blind father. There are in Western Canada many sisters who have given up every precios:s hope of individual life for the sake of a brother or sister who never recognize the enormous debt of gratitude Which
thev owe to the sacrificing sister. Some they owe to the sacrimm of their lonely iives after the others have gone and lives after in the old home-or have eft them older sister out in the world
turned the to earn her living. Since she has given the best of her life in service for others she can earn little among strangers.
I feel that there will come a time The lives of ungrateful brothers and sisthe fives of ungrater when they will suffer according to theodegree of ingratitude that they in flict.

## A Big Success <br> The housewives of the

 West were quick to appreciate the extra value of the 3 lb . Green Label tin at $\$ 1.20$-Simply because Green Label Quality of Red Rose is a fine-flavored and rich tea-also a strong tea that goes farther and proves cheaper than the tea in any dollar tin.
## Red Rose Tea "is Good Tea"

In the 1 lb . package we would suggest your trying the 50 c . quality of Red Rose-It's a stronger as well as a finer-flavored tea.
red rose ted is never sold in bule.
N.B.-Coffee users will find Red Rose Coffee as generously good as Red Rose Tea. 351

Oriental peoples that once or wandering over the then Istly
Belviven, Behring, settled on this wild coast-had
lived and died here. This was, in modern parlance, a kitchen midden-a refuse or dumping place for the tribes that used these shores for their fishing grounds. Here was a sinuous mound
several hundred feet long, $a$ dozen feet several hundred feet long, a dozen tee
high, fifty feet wide, containing all that high, ifint
remained of these once numerous people -save the few scattered descendanits that exist along these shores today. On top of this now grass-covered shorebank
grew giant firs of five, six, seve grew giant firs of five, six, seve
hundred years of age. With sharp sticks and willing hands a prefect river of shells flowed down the pristurbed face of the "kitchen midden."
dis Layers of. .time-bleached clams, layers of
sea urchins, layers of salmon bones so sea urchins, lavers of salmon dones
delicately beautiful in their decay that a puff of the vagrant wind blew them afield like so much vapor. Now we found stratas of elk bones, bones of foxes and of small furbearers. Down we went-through the iron age, past
the rude bits of the copper age, down through the period when they formed their weapons of stone; and further down still-and well preserved, toowere bits of carred and polished bonen
that filled the place of tool and weapon that filled the place of tool and weapod in days when our own automatics. And
warclubs instead of automater beneath it all-what? The skull of a native, flattened from eye to crown, so
old that no work I have read on old that no work 1 have read on ethnology can place him to my satisfacthe earth tells that the firs are close to a thousand years old. We pictured all that is left of this ancient one and reverently committed it to the good old mother earth again.
But a way!-away with these scenes primitive life,
lith of an unknown people. Man-the city dweller, the luxurious, the money:maker, must have-money. magician's wand, ant io! these son and
places are filled with shouting men and kicking horses, and panting engines; and the mighty firs, tlat sheltered many diverse or kindred peoples in times gone by, disappear as before a cyclone. And the bation rocks, eroded
the great precipitation, rear their icethe great precip from a tangle of dry, withered boughs and limbs.
Man, planning carefully, builds tracks to carry the logs to tide edge. Here he looms them in switers." Short rafts
holding a few score logs - then the holding a few score logs - then the
wwestern trade" wind and a high tide, ignoring such puny efforts, sweeps along and of to sea goes the results of many a month's hard work. If not reclaimed, these derelict rafts form one of the
most dreaded perils of the seas. A big ship, plunging down an ocean billow, ship, plunging down an ocean ath full
with everything drawing-or with these speed alicad-strikes-one of these monster fir logs end on-and another.
and an unwritten tragedy of the ocean has taken place.
But, luckily, only a tithe of the fir
logs are lost logs are lost at the dumping place. The

hor. Huge lumber carriers in all the pride of their full rigs, snowy mountains of canvas when you meet them going down the Straits, were engulfing
one and two million feet and over into

Take the roof of the house or barn. upon the roof. All the furnishings of
und the lome with possibly many treas ured possessions as well as the very life of the individuals are protected from rain or snow storms, lightning and other
destructive elements lestructive elements by the indispen-
sable
The barn, with its stored-up wealth of field and its valuable livestock, finds its preservation without the roof. Yet strange to say, in view of the impor
tance of the roof, it is given so little consideration.
There are those who think that it doesn't matter much what the roof is made of, and content themselves with this self-esteemed reasoning until the
leaks compel quick action. eaks compel quick action.
This is the sure fate of cheap roofing yet such people are deluded by the at
tractiveness of low initial cost, not figuring the risk they run to the contents of the building or the time and labor takes to make frequent repairs.
In the long run, however, there dawns pon them the truth of the old adage The best is always the cheapest."
Then they get wise and begin to look round for the roofing to fill their needs. This state of mind invariably leads them to the choice of roonng made of
Trinidad Lake asphalt, for Trinidad

A Coast Sawmill B.C.
their capacious holds." On top of these Lake asphalt is reckoned as "Nature's huge "deck loads" are built and firmly everlasting waterproofer." hamed. Many and many a deck load And judging from the durability of gets no further than a few hundred
miles out into the Pacific, if the flotsam Genasco Roofing, which is made of Trinand jetsam of the Pacific, if the flotsam couver Island can be believed. My camera carrier and I have walked
for a full mile along the beach without for a full mile along the beach without timber, posts of the logs and square laths that literally covered this wild foreshore. I think one of the most graphic sights there was the great foreshoulder of an oak-ribbed ship that lay, rock tormented and wave twisted, on a
reef point. In the mass of broken and reef point. In the mass of broken and riven timber lay an electric light globe with the delicate platinum wires unin-
jured. We marvelled greatly at this, jured. We marvelled greatly at this,
but not more so than at the life preserver the lad picked up. It was passenger steamer, one that then plied to Californian ports. This wretched life
destroyer was filled with "tullies"destroyer was filled with "tullies"-
flags, or common rushes - instead of Ask the grinning flatheaded skull we reintonibed beneath the tall firs behind hit the nail on the head.
Science has suggested the method of using this natural asphalt in roofing so as to preserve its durability through all conditions of weather in any climate on roofing that will do its full duty without giving him periodical trouble finds what he is looking for when he strikes Genasco.
It is unfortunate that it is possible no imitate the surface-appearance of that asphalt roofing so completely cepting it people are inveigled into ach the man who is on his guard and satisfies himself that he is getting roofing made of genuine Trinidad Lake Asphalt profitest assured that he has made a profitable investment

Farmer Brown's Boy Gives Up
Fee, fi, fo, fum, fiddle dee-
A blackbird up in a tulip tree
The whole day long
Fee, fi, fo, fum, fiddle dee!
As he said this Farmer Brown's boy pointed his gun straight up at Mr. Red
wing, sitting on the very topmost twi oi a tall tree singing for joy because over in their cradle in the bulrushes, on the edge of the Smiling Pool he had four little babies. For just a minute Farmer
Brown's boy looked along the barrel of his dreadful gun and then-why barrel of the gun down again.
"I could shoot you just as easy as can be, Mr. Blackbird, but I guess I don't want to," said he. "I'd miss that beautiful song of yours, and it wouldn't do me
a bit of good just to know that I could hit you, because I know it anyway could I want is to get that fox who stole my pet chicken, but it looks as if I'll have to keep right on wanting. l've hunted the Green Meadows anl over and l've but no Mr. Fox. I've found the hous where he used to live, but he wasn't at home when I called, and he hasin't been
there since, for every day I have been to there since, for every day I have been to Fee, fi, fo, fum, fiddle dee! sang Mr. Redwing.
Farmer Brown's boy grinned until a rum into one big freckle. "Whaid to you know about it?" he askel,
Fee, fi, fo, fum, fiddle dee!
Fee, fi, fo, fum, fiddle dee!
sang Mr. Redwing, just as he had before
Farmer Brown's boy chuckled. "T
believe you could tell mee a whole lot
if you, only would," said he. "Ilas
good?"
edge of the mountain. "Bow, wow, wow!" said he.
Farmer Brown's boy looked over there, too, and a sudden thought came to him. He reached down and patted Bowser's
head. "I believe you're right, old fellow," said he. "I believe that fox has left the Green Meadows, and I shouldn't wonder but what he has gone up to the
Old Pasture. Some Old Pasture. Some day we'll have a look for him there. Now, I guess we'll give it
up on the Green Meadows and in the Green Forest, and we'll go home and put the gun away."
Fee, fi, fo, fum, fiddle dee!
sang Mr. Redwing from the topmost twig of the tall tree.

## Ten Good Rules

Here are ten good rules for a boy to Never put off till tomorrow what you an do today.
Never trouble another for what you can do yoursel
Never spend your money before you
have earned it Never buy what you don't want bePride costs more than hunger, thirst and cold. We seldom repent of having eaten too
little. Nothing is troublesome that we do How mu
How much pain the evils have cost
11. that have never happened.
Take things always by the smooth When angry, count ten before you
unry, count a hundred

Fee, fi, fo, fum, fiddle dee!
was all Mr. Redwing had to Farmer Brown's boy hitched rousers and looked over the up his Meadows. There was no one in sight excepting Mr. Redwing. You see, all the other little meadow and forest people had become so afraid of Farmer Brown's as he appeared they straightway lid. The only reason that Mr. Redwing hadn't lown away as soon as he saw Farmer Brown's boy was because his heart was o full of happiness that he couldn't beto hurt him.
Presently Farmer Brown's boy whistled to Bowser the Hound, who was ruming about pretending that he was of Reddy Fox. "Well, old fellow, can't you find that fox?" asked Farmer Brown's boy.
Bowser the Hound looked up in his master's face and wagged his tail. Then, toward the far away Old Pasture on the

## New Every Morning

The Master teaches us to pray for our daily bread. Yesterday's supply will not avail; neither will yesterdays sup
ply of grace. We must live by the : and draw on our loving, inexhaustib Father in heaven every morning fo
strength equal to the day trength equal to the day
I have often said, and repeat it here again, that no Christian is strong enough
to carry today's duties with tomorrow's anxieties and worries piled on the top of them. New every morning comes op portunity; new every morning come the sweet promise, "My grace is suffi cient for thee"; new every morning comes the Master offering to lead us morning will break on us with unclouded splendnr where there will be no need of the sun, for the glory of God

Fruit Trees in Blossom, Victoria, B.C.

Lazy Man's Paradise
If it be a crime to be lazy, Ruatan, the largest of the five Bay Islands, must be full of criminals, for this island is surely the lazy man's paradise. The thirty miles off the coast of Spanis Honduras, one of the most beautiful and prolific spots in the world. About three thousand people, mostly Carib Indians, inhabit it, and they are lazy because there is no need for them to work. Cocoanuts form the mainstay of the people, and there is nothing easier grow. To start a grove a man merely burns in rows twenty-five feet apart. In from four to five years the trees are a dozen feet high, and are beginning to bear; after that the planter is provided for for life.
When the native needs anything at the shop all he has to do is to gathe fogether some he requires.
for what he requis.
Other fruits grow just as freely as the cocoanut, and without the slightest cul
tivation.
In other respects also the island is attractive. The climate is singulariy
equable, the thermometer never having equable, the thermometer never hav, or
been known to fall below sixty-six, ri-e above eighty-eight. Being part of spanish Honduras, the island is unce the government of that republic. There -imple dutice being confined chiefly to the cullertion of customs. There is no military ctablishment, and the only jail on the illand is a small one-room
doth lighten it, and there shall be no night there-Rev. Theodore L. Cuy er, D.D.

## Daisy Dreams

Scores of field daisies-fast going to Thrown in the fence corner-only a Tell me your message! Just whisper a word!
What was it ye murmured, when flutt'ring winds stirred?
Short is your life; brief and bright your glad day!
Shining like stars in the midst of the hay, will cease, this warm throbbing heart? Ve'll be joyous like yon, nor fear to depart!
Bending low to the storm, when troubles arise,
Soon smiling again with face to the skies,
Could we be like you, with hearts good Could we be like you, with hearts good
as gold, Pure white like your petals, our lives would unfold.

So sunny and blthe, like gay country girls,
Dearly you're loved. Daisies, Marguer ites, Pearls!
Flowers white and golden, leaves softly
green,
Name, blossom and jewel, all fit for a

## The Living Present

Over my head the stars, distant and over my head and cold Under my feet the world, wrinkled and scarred and old;
Back of me all that was, all the limit less past,
The future waiting beyond, silent, unI at the center of all that has been or I at the center of
that to be
The world lying under my feet and the stars looking down at me.

Babylon lies in dust; never a sentinel calls With fear on his parted lips from any of Ninevelh's walls;
Troy is only a name; Caesar is deaf to Troy is only a name; Caesar is deaf to
praise-praise-
Back of me spreads the past in number less yesterdays!
Under my feet the world; over my head the sky,
Here at the center of things, in the living present am I.

Out in the far beyond, waiting for God's good time,
Splendid cities may rive, heroes may be
sublime;
The past may measure against the fu-
ture that is to be
As a fleeting day compares with a stor-
arked to the author, "How strange it is to think that these great souls whose words are a beacon-light to all the generations that have come after them, should have had cares and anxieties to vex them in their daily life, just like the rest of us common mortals." A few win say, in dwelling upon the pre Dara visit paid by Mr. Gladstone had given him, "And he talked just as if he had been an ordinary person like one of ourselves."

I'm Growing Old
My days pass pleasantly away yy days pass pleasanty away,
My nights are bless'd with sweetest sleep;
I feel no symptoms of decay, I have no cause to mourn nor weep My foes are impotent and shy, My friends are neither false nor cold I'm growing old! My growing talk of olden times, My growing thirst for early news, My growing apathy to rhymes, My growing love of easy shoes, My growing hate of crowds and noise
My growing fear of taking cold, My growing fear of taking cold,
All whisper, in the plainest voice, I'm growing old! I'm growing fonder of my staff,
l'm growing dimmer in the eyes,

Prophets unborn may see with a vision I'm growing fainter in my laugh, But the future is dumb, and I, dowered I'm growing deeper in my sighs, with speech, am here. I'm growing frugal of my gold,
1 stand at the end of the past, where the future begins I stand; Fmperors lie in the dust; men may live to command; But greater than rulers unborn and Am $\begin{aligned} & \text { greater than kings who have reigned } \\ & \text { I that have hope in my breast and }\end{aligned}$ Am I that have hope in my breast and
victories still to be gained! Under my feet the world, over my hear the skyHere at the center of things, in the living present am I. -S. E. Kiser.

## Did the Handsome Thing

- In a volume of reminiscences just published, a minister relates his experience with two weddings in the same town on the same day, one in the morning wedding fee I received was two guineas After the second wedding the best man came into my private room and thus addressed me:
"'What's the price, parson?'
"'Anything you like, or nothing at all.' I answered. (I have frequently received nothing.)
thing up in style, 'we want to do this thing up in style, but I have had no ex-
perience in this business, and do not know what is proper. You name your price.'
"I suggested a moderate sum.
"'Pshaw,' he said. 'That's nothing. We want to do something handsome.' upon he reflected a moment and then upon he reflected a moment and then
asked me how much I had received for the wedding of the morning.
"His face brightened at once. Here was a solution of the difficulty. " 'I see,' he remarked, 'T'll give you a rise. Whereupon he handed me a five
pound note." pound note.

A Scotch minister and his servant, who were coming home from a wedding, began to consider the state into which
their potations at the wedding feast had left them.
"Sandy," said the minister, "Just stop a minute here till I go ahead. Maybe I don' walk very steady and the good right." He walked ahead of the serv short distance, and then asked:
"How is it? Am I walking straight?" "Oh, ay," answered Sandy thickly, "ye're
you?"

How many apples did Adam and Eve eat?

Some say Eve 8 and Adam 2, a total of 10 ; others say Eve 8 and Adam also, total 16; but if Eve 8 and Adam 82 the total will be 90 ; now, if Eve 81 and Adam 812, the total would be 893; then would be 1623; or again, Eve 814 Adam, Adam 81242 oblige Eve, total, 82,050; though we admit Eve 814 Adam, Adam if he 8181242 keep Eve company, total $8,182,056$. All wrong. Eve, when she 81812 many, and probably felt sorry for it, and Adam, in order to relieve her
grief, 812, therefore Adam, if he $\begin{array}{ll}\text { grief, 812, } \\ 81814240-f y & \text { Eve's } \\ \text { Evere Aressed }\end{array}$ hence both ate $81,896,864$ apples.

Upon a certain occasion General Sher-
man was the guest of honor at a banquet, after. which a reception was held, says "The Boston Herald."
Among the people who filed in to shake hands with him General Sherman noticed a face that was very familia "Who are you?" he asked in
tic aside, as he welcomed the guest getic aside
heartily.
The man blushed and murmured behind a deprecatory hand:"Made your shirts, sir. "Ah, of course," exclaimed the General loudly, and, turning to the receiving com"Gentlemen, allow me to present Majo Schurtz."

## About the Farm

## Why the Land is Ploughed

The question of why the land is ploughed would receive a variety of answers equal almost to the number questioned, observed J. G. Haney, Manager of the Northwest
Branch of the I H $\mathbf{C}$ service bureau, before the Internation Dry-Farming Congress, held at Lethbridge, Alta., last October. The ultimate end of all farming help towards this end.
Ploughing the land accomplishes many things. The present growth is usually
destroyed by being turned under, and the destroyed by being turned under, and the
process of decomposition of the matter turned under thereby hastened. The soil the elements. The circulation of ai through the ploughed soil is very beneficial and essential in making available plant food and in promoting the germination and growth of plant life. Ploughed land than unploughed, because thereis a greater surface exposed. Hence when there is a
surplus of moisture to be contended with surplus of moisture to be contended with
in the spring, the land had best be left in the spring, the land had best be left
rough after fall ploughing. Such land harrowed down after being sufficiently dry makes a good seed bed in which seed wil start promptly.
Ploughing also prevents evaporation after the surplus moisture from the surface has escaped, as capillarity is broken in the
furrow slice and the moisture not drawn from below as it would be in the unploughed soil.
The root system of cultivated plants must penetrate the soil quickly to obtain the elements necessary to their growth.

## Big Prices for Potatoes

The boys in the public schools of Utah compeat year for rrizes offered fo the best yield of potatoes. The prizes
were worth while, one special being $\$ 500$ in cash. This was won by Merle Heye of Lewiston. In making the awards the committee allowed 50 per cent. for yield
and 50 per cent. for the other qualities which make good potatoes. The yield of the prize acre was 797 kushels and the Early Eureka was the variety grown. In another contest, also held in Utah, one of the boys secured a yield of 840 bushels pe Now the results are simply astonishing. Of course, conditions in the West are very favorable for potato growing, but when the average yield for the United States even during a favorable year is less than 100
bushels per acre, the possibilities of bushes per acre, the possibilities of
improvement in potato production arp apparent. Of course, no one expects many growers to secure 700 or 800 bushels to the acre, but it is easily possible without very much extra work or effort to produce
300 and 400 bushels per acre age for Germany is something like 233 bushels or, at least, it was a year or two ago. Why is it that so much land is wasted in growing a crop that does not
produce more than 30 per cent. of what it produce more han se per cent. of what it cular attention should be given to increasing the production

## New Facts about Feeds

## By O. F. Sampson.

In an attempt to secure maximum egg
records from fowls much depends uper proper feed mixtures. We read and hear a great deal about proper food for egg
production. Every poultry journal production. Every poultry journal prints
articles each winter on food values, and in almost all of these cases we have the same practicai information. Simmered down
for everyday use it is this: Have your food for everyday use it is this: Have your food
ratio about one to five for winter eggs. ratio about one to five for winter eggs.
All these chemical and scientific data are
valuable to the veteran and benefit him. valuable to the veteran and benenit him; feeding, the average poultryman wants to be shown why our food ratios require
protein, fat, carbohydrates, and so forth. When this is proved to him he is ready to

Before any fowl can produce eggs its food must have created a surplus of the eggs. In other words, the hen is only an engine. Before this engine can produce power the fuel supplied must be more than nough to produce heat and a small mount of steam to fill the pipes. So the nd to give out power-or eggs. But the hen is more than a machine, because she does more than mechanical work; she produces eggs. Hence we must use atural means in feeding her. The best way to accomplish this is to know the
elements which Nature requires

## The Egg Essentials

The hen and the egg are composed of subject to waste and which consequent must be replaced by proper food. Most mportant of these are the fat and mineral lements, and large amounts of water. The chief element in the constitution of both hen and egg is water, and it also forms
large part of the waste. Since in order a large part of the waste. Since, in order
to produce any benefit, all foods must be digested and assimilated we must give Wention to these facts.
We know that a certain part of all foods
-such as fiber and the like- is such as fiber and the hike-is waste mater, and that only a limited portion is buying foods consider the protein of the greatest importance, and hence in every article in which we note formulas for a balanced ration we find certain ratios of rotein and carbo
Now, such a balanced ration may or may
not be profitable and satisfactory not be profitable and satisfactory. A digested or assimilated by the fowl, animal or man that eatsit. Foods that contain at east two per cent. of phosphorus yield the ast results in assimation and nutrition, and phosphorus is simply the ash and lime into the fowl's make-up.
Many foods of large protein content do not give the anticipated egg increase.
Why? Here may be an illustration. Take one of our essential foods, wheat. An analysis of 310 separate lots showed the following: water, 10.5 per cent; ash, 1.8 per cent; protein, 11.9 per cent; fiber, 1.8 cent; ether extract, 2.1 per cent. This is a ood of good protein content. The com-
bined food content is 87 per cent, or 87 pounds to every 100 pounds of feed. At first we should call this one of our best foods, and a cheap food at $\$ 2.25$ a hundred
pounds when compared to oats, say, at pounds when compared
Now let us consider its digestive and assimilative values, for upon these depends 72 per cent of the above 87 per cent is really digestible. Therefore, instead of getting a real value of 87 pounds per 100 pounds of food, our fowls really digest and receive
nutrition from only $62 \frac{1}{2}$ of the original 100 pounds.
Hence our feed costs us over $3 \frac{1}{2}$ cents a pound instead of $2 \frac{1}{4}$ cents. If this were all it would not be very bad, because other foods show little more than this. Our food values depend more upon assimilation than
upon digestion. Unless the digested food is assimilated there is refuse food in the excrement. We often find this to be true by watching the droppings from fowls that were given heavy feeds. This is just wha
we must guard against. Chemical we must guard against. Chemical author ity tells us that at least two per cent of
phosphoric acid in our feed is necessary to insure proper assimilation, and the only sources from which we secure phosphoric
acid are the ash and protein elements of acid are the ash and protein elements of eed. It requires 10 per cent of ash to give
us 2 per cent of the phosphoric element necessary to assimilate properly 75 per cen of the food.
On this basis the ash element of wheat provided for only about a 20 per cent its cost being $2^{\frac{1}{4}}$ cents a pound it is 10 cents. That is the real test. Here is the value of securing f eeds that have great assimilative and digestive properties. That is why clover hay gives such good egg
results; its ash content is high, varying

## Plant Pests in Canada

## Government and Importation of Vegetation

All persons who are accustomed, or intend, to import trees, shrubs, plants and, or to ship such trees and plants
ano one province to another, should from one province to another, should
make themselves thoroughly familiar make themselves thoroughly familiar
with the regulations of the Dominion with the regulations of the Dominion
and Provincial Governments in this matand Provincial Governments in this mat-
ter: If this is not donie, inconvenience ter. If this is not done, inconvenince the neglect to comply with the require $\underset{m}{m}$ ments, which requirements are niecessitated by the danger, always present, of the importation of dangerous pests into canada, or their spread from one province to another.
The regulations governing the impor into Canada and the Dominion and provincial laws under which they have been passed have been collected in a conve nient form and published as a bulletin with explanatory notes by the Dominion entomologist, Dr. C. Gordon Hewitt. This bulletin, entitled "Legislation in Canada to prevent the introduction and spread of insects, pests and diseases
destructive to vegetation with
regulations regarding the importation of vege tation into Canada," is published as bul letin No. 11, second series, of the Experimental Farms' Branch of the Domin ion Department of Agriculture. It also forms entomological bulletin No. 6, of the Division of Entomology. It may be ob-
tained free on application to the Publications' Branch, Department of Agricul tire, Ottawa. The laws and regulations of the Dominion Government and of the governments of those provinces possessing such legislation, namely, British Columbia, Nova Scotia, Ontario and Prince Edward Island are given. A tions which must be observed by persons importing nursery stock, which comprises trees, shrubs, plants, vines, etc.. pinto Canada and into the provinces mentioned.
A perusal of this bulletin, even by those who do not import, or intend to import plants, will afford the reader vision and care that is being exercised to prevent the introduction of further insect pests into Canada. More than half of the serious pests of Canada are not native to the country, but have been introduced or have migrated hither. The object of this legislation is to prevent further introduction and spreading, and the benefit which is resulting from the
careful inspection, and treatment when neeessary, of imported plants is incalcu lable, and is the means of saving the country from enormous losses.

## A Bull's Strength

The following authentic tale comes from a South Wairarapa (New Zealand) station, and shows the immense power possessed by a bull. Two shepherds were driving bulls from various paddocks, and bringing them down to the homestead. As each fresh bull was added to the mob there were trials of strength and savage skirmishes between the various members of the herd. At one gate a large ran
Shorthorn bull was waiting for the rest, and as soon as the gate was opened he charged out, and, after the usual roaring and grunting, came to locks with a well-grown red Shorthorn bull of equal size: After several bouts with horns locked, the red bull slipped past the

roan's guard, and getting him faing under the body, heaved him bodily over the fence into the paddock where he | thad fince into the paddock where he |
| :--- |
| hast come from. The roan bull | weighed nearly a ton, and his body cleared the fence, one of the posts being broken by his horns. Another remarkable event from a spectacular point of

view was when six or seven bulls atw was when six or seven bulls
attacked one, pitched him down the side of a big hill, hustled him through a gate,
and a and over another fence.

## The Farmer's Wife

A gencration ago the wife and mother
comparer her lot with that compared her lot with that of the pioneer
grandmu, her, and she felt that she had
much to be grateful for. Today the
past is past is forgotten; comparisons must be and friends herself and city sisters its reminders of yesterdey album, with opened. 'Today' is ever at hand in the automobile's honk, the jingle of the telephone bell, and the headines of the daily paper.
These farm women find themselves in a new civilization, but not of it. They have as great a longing for the best that ife can offer as have the well-gowned women of the cities. In many cases, from a financial standpoint,
they can as well afford the lund they can as well afford the luxuries of modern life as the majority of those
who possess them. But, as the wives of farmers, they must give themselves to the land, says the "Atlantic Magazine." Their houses go neglected that they may help with work in the fields.
Their hands are coarse and rough from assisting their husbands with pressing work on the land. Wives of wealthy
farmers in this our country while farmers in this our country while at their work, often resemble in their ap-
 farmer's son who has completed the course of the city high school has been helped to do so by the sacrifices of an
overworked mother back on the farm, Who has taken upon herself many of the his. In t, otherwise, would have been worn wo hearts of these lonely, toiling to bitterness, and the daughters olecting new things.

The Trail of the Lonesome Pine

## Animal, Not Pedigree

Pedigree is a very dangerous thing to buy without the animal, is the conclusion writer in the Farmer and Stock Breeder" comes to in discussing the in breeding of the Shorthorn dairy cow
from noted families that have in the from noted families that have in the past proved themselves heavy milkers,
He continues: No one likes to see a lot of cows coming home to milk with their eyes staring out of their sockets, with a vacant, listless walk, laboring unde pressure from ac coarse udder hanging as if it were a bag of carrots from the
body, which often brings a remark from body, which often brings a remark from
a casual observer, "That one will giv a casual observer, "That one will give
a lot of milk," whereas it is not this class of animal that proves the champion a the pail.
Each and every cow should have
quality, quality, combined with a sharp outlook, mellow udder, with teats hanging like kid-gloved finger as if they took no part
at all in filling the pail except as an adornment to a well shaped udder carried up as if a part of her body. am certain, to get back to this type more Scotch blood will have to be made use of, and to take a violent outcross on
to a long in-bred to a long in-bred milking pedigree has
the worst result possible on the female line. Yêt great success has been ob

## Wagons and IHC Wagons

THE farmer who, in need of a wagon, blindly makes a bee line for the first new wagon or dealer in sight may get a good wagon. If chance steers him to an I H C dealer, well and good. That is his good fortune. If not he will probably be in the wagon market again years before he should be. But the economical farmer will study and compare different makes; find out in advance which wagon will give him best service
and consider such questions as company standing and reputation The evidence will lead him inevitably to buy an I HC wagon.

## Petrolia Chatham

## Hamilton Old Dominion

 Here are only two of the many features that contribute to the mak-ing of I H C wagon reputation. 1. Air-drying of lumber. Every
stick of wood used - hickory and oak for wheels and axles, bay poplar stick of wood used -hickory and oak for wheels and axles, bay poplar
for box sides, long leaf yellow pine for bottoms - lies drying in open for box sides, long leaf yellow pine for bottoms - lies drying in open
sheds from two to three years, saving all its resinous saps, toughening seasoning, gaining elasticity, as only air-dried lumber does. Kilndrying, the terrific application of unnatural heat for a few days, evapo rates the sap, leaves the wood inelastic, brittle, and weak-ruins it, in short. 2. Thorough inspections. Every I H C wagon, before it is ar the farmer, from the agent, or, write the
International Harvester Company of Canada, Ltd western branch houses

tained by bulls from 1,000 -gallon cows with a scotch the beefy class will not become good milkers if they are handled in the righ way. It only requires suitable treat ment in feeding for the dairy, and in most cases they will give the req.
quantity to be entered in the D. S. H. B records.

Management of Sandy Solls
My experience and observation have convinced me that it is a waste of time and money to apply fine manure and an abundance of humus-forming material in connection with these fertilizers. There may be some special crops that will bring sufficient returns to justify the owner of the land in applying such
expensive fertilizers, but to speak from the standpoint of such crops as are ordinarily grown on our farms, I believe the expense will be greater than the increased returns. A sandy soil rightly managed, may be made the most pro-
ductive of any kind of soil we have on our farms, but we must constantly be furnishing it with humus forming material if we are to maintain the capacity to produce large crops.
Ween have found that by plowing under

How Western waste land can be profitably utilized
and by using a fertilizer rich in potash and phosphoric acid, sandy land may be made to produce profitable crops of po-
tatoes and corn, wherein it would fail to produce the same crops if a complete fertilizer were used with no legume plowed under. When we apply manure to sandy land I believe that under or-
dinary circumstances the best results dinary circumstances the best results
will come from applying it as a top dressing to the clover crop. By doing this the clover crop arrests and holds the plant food until such time as it is needed by the succeeding crop.
All of the time sandy land is not occupied by a growing crop it should on it that in turn will be plowed under to increase the humus content of the soil This improves the texture of the soil and also improves its action toward heat, light, penetration of roots, and also and fertility.

Care of the Machinery
By Maurice Kane, Manager of Experi ments, International Harvester Company
This question is of considerable im portance to the farmers of the present day, owing to the large amount of ma-
chinery used on the farm. In consider ing this question we will start with new machines. The important thing to look
out for is that the nuts are kept out for is that the nuts are kept tight
so that all the parts will be kept in proper operative relation to each other Next in importance is the use of good oil for lubricating the moving parts. as to not waste oil or time. It is quite common for the ordinary operator to squirt oil into all oil holes, especially
the ones that are most convenient, regardless of whether those parts need
cut, you will not have time to do a good job of repairing. On your mower it is ends of the pitman looseness at both that the guards be in taken care of and Those are the most important points in connection with mowing machines. By alignment of guards, we do not mean the points of the guards; we refer to sections work. To line up the guards, take a piece of fine string, connect to the inner and outer shoes, letting it bear on the ledger plates about midway beween the front and rear. Draw this
string tight and you can easily see if the sting tight and you can easily see if the
guards are in line with the shoe plates. As the guards are made of malleable iron they will stand bending up or down to bring them in proper alignment with the
shoe plates. shoe plates.
The less a
The less attention you pay to matters of this kind the better it is for the manufacturer, as yo
machines and repairs.

## Intensive Farming

A reader, stirred up by my statement of $\$ 200$ returns from one-eighth acre in regetable plants, especially cabbage and and Fireside," what may be his chances of securing an income of, say, $\$ 800$ an acre on two acres planted in these or imilar crops in the suburbs of a smal an acre in income of $\$ 800$ or $\$ 1,000$ from pecially of vegetable or flowering plants, is not only within the reach of possi bility, but also of reason, and is actually secured (and more, toof, by many cardeners near our cities or villages. ## It's Better than Plow

Silently and persistently alfalfa has
its way from southern latitudes to the north, carrying verdure and riches throughout practically every sh Mississippi. Nor have its $v$ or on to confined to the western hai
country, as the past few years country, as the past few years eastward to the Atlantic coas fully grown for untold centure in the old world, finding its first establishment in Greece somewhere about 500 B. C., and long one of the chief crops in modern Europe, alfalfa is now firmly established in the affections of the American people. What better introduction to than to here quote a few lines from Coburn in his Book of Alfalfa: "There are some silent subsoilers that do their work with ease, and in their way more effectually than any team or plow ever hitched. The clover plant is righteously famed as one of these, but
alfalfa is its superior. Its roots work aliaifa is its superior. Tts roots work
night and day; they strike $5,10,15$ or 20 feet deep, storing up nitrogen, and when these roots decay they leave not only a generous supply of fertility for any desired crop, but millions of open: ings, and help to constitute an unfiniing reservoir of wealth upon which the husbandmen can draw with
fear of protest or over-drafts."

Do not Breed Sows too Young
The age for breeding young sows has been demonstrated by the Mississippi
experiment station. Young sows should experiment station. Young sows should
not be bred until one year old, for a sow cannot make a litter of pigs and sow. cannot make a litter of pigs and
grow at the same time, according to grow at the same time, according to
their support. Our early maturing breeds mature at eight eand ten months old when properly fed, and are more generally bred before a year old, but
breeding too young injures the stamina.

Clover good for Early Hog Feed There probably is no crop upon the
farm that offers so much profitable farm that offers so much profitable succulent food for swine as a well-set
field of clover. With a goo
hith a good growth of clover we have kept our brood sows in splendid
shape after weaning the pigs, with but very litter weaning the pigs, with but
grain added, allowing them at all times plenty of water to drink. However, we do not always have good
stands of clover upon our farm and must stands of clover upon our farm and must supplement some other crop for forage
during the early summer season. We have met this demand to an extent by sowing rye in autumn, very heavy, three bushels to the acre, which is not too much for pasturing.
This crop starts us off in early spring as soon as the ground will bear turning on .to, and the swine round up their
foraging by gleaning the scattering heads oraging by gleaning the scattering heads It is best in the event of pasturing of a patch of rye to have another small plot adjoining the rye field, sown thickly dith oats and peas.
As soon as the succulent properties in the rye have ceased which will be as soon grain, we find that the oats and pea crop
is coming to fit ing on just in the proper condition ogs are finithe green ration, while the rye field is broken up, fitted for sowing into rape which makes an excellent green feed to keep the hogs healthy and connew ed for starting in on a ration of
We are sure that the outbreak of disease among swine would be greatly
range in the manner of succulent mase
turage turing the summer and autumn, in addition to gleaning over the dry grain green fiveld they Plenty of shade, all the green field they can consume, fresh
water to drink, no wallow and fith
holes, manure piles, and no dry hog also successfully used for heating these disease germs with myriads of dust and in swine raising.-Geo. W. Brown 0 .

## Principles of Natural Hatching

In the natural or hen hatching system we find the following conditions:

1. Heat for eggs is obtained from the contact with the hen's body.
ir passing througe ventilated by the hen.
2. The eggs are turned frequently by of keen's feet. This is for the purposs shell, and to allow the uniform development of the young chick.
3. The moisture required by the eggs to prevent too great a drying out, is obAlso from the hemp eath in the nest. come moist when she is off feeten be 5. The eggs are cooled and aired as often as the hen leaves the nest to feed and exercise.
In the incubator these conditions have been artificially supplied, although not yet entirely to such a degree that equal The heating is usually The heating is usually performed by a of the machine , the fumes of the lamp escaping, and only the heated air around the jacket of the heater passing into the incubator. Gas, electricity and coal are
machines.
Ventilati
Ventilation is obtained through openings in the incubator, either up or down draft being obtained
The eggs are turned twice each day by rand. Moisture is obtained by the evaporaor water from a tray of moist sand, machiner placed in the bpttom of the Cooling of the eggs takes place when they are being turned or in warm air of the rom for a exposed to th There are many makes of incubator on the market, all of which are being operated with more or less success. The diffusion type is recommended by some, the radiant by others. Both are good. It is important, however, in purchasing convenient access to the lamp and other parts.

## "Choking" in Cattle

Choking in cattle is usually due to their swallowing a piece of turnip, and
having it lodge in the gullet. If the having it lodge in the gullet. If the
animal breathes with its mouth shut, animal breathes with its mouth shut,
and only coughs a little, you and ould wait a little rather than adopt extreme measures or begin a surgical get over it of its own accord. The signs which call for immediate and heroic
treatment are when saliva runs from its mouth, its eyes bulge out, back is arched, and bloating takes place.
Various methods are recommended, a practical one of which is making the animal run down hill, as the violent exrtion thereby produced may cause the bstruction to come up and fly out of ow fence is likewise claimed to be good. Better still is to put a flat-ended stick irmly against the obstruction on the side of the neck, and strike against the other side with a mallet to smash it. A pretty hard bow in lecessary to achieve such, and instead of crushing the obof driving it along, which will, ever, give temporary relief. On the other hand, if the obstruction is not very far lown, it can sometimes be made to reurn to the mouth by gripping the gullet below it and squeezing and pushing upward.
Once in a while cows will appear choked, however, when nothing can be
felt in their throats, the trouble then is felt in their throats, the trouble then is
evidently within their bodies, and though it is always advisable to watch them, they will generally be all right in an hour or two without receiving any treatment. These simple means are usually as efficacious as resorting to a
probing or cutting down the gullet with probing or cutting down the gullet with
$a \mathrm{knife}$, making an incision, and thns removing the offending object, which are fit for no one to do, in fact, but a veterinary surgeon.

## Games for Thanksgiving

The games here given will be a source
of much fun and hilarity, and therefore can make merry time not only for the little tots, but for the big brothers, sis-
ters, mothers, fathers, uncles, aunts, and ters, mothers, fathers, uncles, aunts, and
even the grandparents, for young and old at this time should be willing to join together in the pursuit of mirth and jollity. First we have a
Pen and Pencil Game.
Give to every one in the company a
pencil and slip of paper which has been folded three times in equal parts. Request all to draw a head of either a per-
son, animal, bird or fish, and to extend son, animal, bird or tish, and to extend
the lines of the neck a little into the second division; then, after turning down the paper, pass to the person sitting next to them, who draws a body, beginning the legs on the last division,
and again passes to the third person,
who is expected to finish the picture drawn. When the papers are opened queer objects meet the gaze, and, as ma be imagined, produce hearty laughter. Hat Game.
In this exciting game the players are divided into two sides, and seat them elves in half circles at the same dis tance from a hat placed on the floor in
the center of the ring. The sides are given cards of different colors, and after dealing them out to all the players equally, they take turns throwing the cards in the hat. This is not easily accomplished, simple as it looks, for even cards on the floor than in the receptacle prepared for them? After all the cards have been thrown, those in the hat are counted, and the side having the most of one color wins the gam

Fruit Basket
Is a game which can be enjoyed by
"the children of larger prowth" as' well as by the little folks. almost mirth-provoking that no one can take part without having a jolly time. The players seat themselves in a circle, with leader in the center, who gives to very one the name of a fruit, also a
number. He then calls out a number and immediately counts ten very rapidly. The person who has the number called must answer with his fruit name before the leader stops counting. If he otherwise the leader continues with other numbers until he catches some-
one. Every little while the leader shouts "Fruit Basket," which means all are to change seats. The one who is left standing takes the floor. Let those who care for more intellec
tual effort try

## Pro and Con.

Divide the company into two sets, a
in the old-fashioned
in the old-fashioned spelling match. Call
one division the pros and the other the one division the pros and the other the
cons. Start the game by the leader of the cons commencing a story of some
kind, every sentence beg and he must sentence beginning with con sible, but at the least hesitation the pros mast be ready to promptly go on
with the narrative, prefixing pro instead of con. This is a difficult but fascinat both amusing and interesting. If a
wor word is wrongly chosen or mispro must leave the game. but when h other sidesitates the story goes to the remains in line read
ond to take his turn when it comes again
When only two remain the When only two remain the contest be comest intensely exciting. The one who
is last to fail is considered the victor as he wins for himself and for his side. It Has Many Qualities.-The, mant who prs

## A Thanksgiving Play

The children in Miss French's room
had such good times. During the whole had such good times. During the whome
month of November they had delightful month of November they had delightful
times playing "Mayflower," as they times playing "Mayflower", as they
called it. Miss French read them so many stories about the colonial boys
and girls, and told them and girls, and told them so many things,
that she hat that she had read in "grown-up folks"
books. She showed them pictures whicl books. She showed them pictures whic
Nena's mamma had sent of the Ply mouth Rock as it is now. She told them so much about the queer cuttoms the
people had in those olden dos people had in those olden days when th:
Puritans first came to
But best of all, she gave them name
-names of real people who had come over in the "Mayflower." There were
Gov. Bradford, William Carver, Elder Brewster, and many of the others. On Friday afternoons they played the story
of the Pilgrims. One corner of the room of the Pilgrims. One corner of the room
was Holland, one corner England, and was Holland, one corner England, and
then a way across the room was Amerithen away across the room was Ameri-
ca, It took them so long to cross. They waiked, of course, but they played they
were sailing, and they kept close to were sailing, and they kept close to-
gether beceuse they were all in the
boat. They used the pencil block for boat. They used the pencil block for
the Plymouth Rock. Each one stepped on it, and the little boys helped the lit-
the girls very carefully the girls very carefully. Of course little
Adelaide (who was named Mary Chilton) was the first girl to land: What fun day!" The little girls rubbed and hun out to their heart's content. A few of the boys were Indians. They were very
friendly to the Pilgrims. friendly to the Pilgrims.
The children had the most fun the
Friday when they played the "First Friday when they played the "Firs Thanksgiving," The girls played mak-
ing cakes and good things on the long ing cakes and good things on the long
kindergarten table. The boys wandered around the room shooting wild turkeys and other game. The girls. set the tables, and then Indians and all gathered around the kindergarten table. There was really nothing to eat but the
number blocks, but the children thought number blocks, but the children though it was lovely. They talked of it at reAt night they told their mammas all At night they toid their mammas al
about it. Sometimes they forgot their aboues, but Miss French had them al written on a paper so that she could
always tell them. When sometimes she always tell them. When sometimes she said, "Now let us see if we can remem.
ber our names,", almost every wee one in the room could tell. On the school room blackboard they had so many pretty pictures from magazines of Miss
French's. They were pasted on the French's. They were pasted on the
board and had a colored crayon border around them. There was a picture of
Priscilla and a picture of a colonial Priscilla and a picture of a colonial
mother and baby which they named mother and baby which they

Then Samoset and Squanto and Masso Then Samoset and squanto soit would strut about very proud of their beads. Sometimes Nena's mamma asked her if they didn't make lots of
noise playing "Mayflower," but she always' said, "Why, no, mamma, we play it much fun, and we
if we were noisy."

## Elizabeth's Thanksgiving

By E. Gilmore
It was the day before Thanksgiving and the Simm's family were very un-
lappy. Mr. Simm had been out of work for so long, that the little money he had saved up was nearly gone. Mrs.
Simm had such a cold that she could scarcely speak, and the whote family felt blue ove,
"thanks."
"thanks." The Simm's family had never depend on charity to help them along.
while tomorrow the wretchedly would have a good meal curnished by the
city, it was plain that the Simm's family, would have nothing but bread and
potatoes. The little money they had left potatoes. The litle moneyd other neces-
must be saved for fuel and
saries. "No turker or mince pies like we had
last year," sighed Fred dolefully. Mry
Simm looked from the window and
echoed Fred's sigh. Even Baby May
seemed to know of the shadow hovering
over the family. And so they werr all unhappy. That is, all but Elizabeth. Elizabeth was never unhappy. She was the most trusting, cheerful little soul
that ever lived. And why, I am sure I can't tell, unless it was wh, 1 am sure "truly good" as Fred always declared. of that couldn't walk a step. Just think when she was a Liby; her back pas crooked and her tiny feet helpless, and though she was eight years old she had never waiked. But she was a very pretty
little girl with great dark eyes and lighit curly hair. And she was just as sweet and loving and gentle as she was pretty. And the best thung about her, she never had "the bues," and never lost faith in
God. So while the rest of the family were feeling down-hearted she spoke up in her cheery way and said: "We al. ways have had a nice Thanksgiving and Her father tomorrow.
Her father patted the curly head gen-
ly. "I wish I had your faith dear" ly. "I wish I had your faith, dear," he
whispered. Mrs. Simm tried to smile she said: "We must try and be thankful, for we are all alive and well and that is more than everyone can say",
Thanksgiving eve was cold and Thanksgiving eve was cold and dark. Great clouds in the heavens foretold a now storm, and sure enough the next norning when the dimms family awoke snow and the white flakes were still steadily falling.
While the family was at the breakfast table the kitchen door was hastily opened and a grocery boy from one of
the large stores set a huge basket on the large stores set a huge basket on "Simm.
simm, Detroit street," he shouted cery wagon and hurried away.
"It must be some mistake," ejaculatel the astonished Mr. Simm gazing at the well-filled basket. "But this is your name," said Fred holding up a slip of paper. "'Mr. G: Simm, Detroit street.' That means you. don't it?'
Lhittle Elizabeth sat quietly in her chair, but her cheeks were glowing and
her eyes shining as she said softly
a her eyes shining as she said softly,
knew that God wouldn't forget us.,
As soon as the family were convinced that the basket belonged to them they basket it was! In the first place there was a large fat turkey, weighing almost as mueh as Baby May. Then there were cranberries and turnips and canned corn and tomatoes. A big bunch of crisp of mince meat on the other. There was also a box of delicious candy and several pounds of white grapes. Fred danced May cla lean ittle kitchen ands and danced too. Elizabeth only looked on and was happy.
In less time than you would think possible the fat turkey was in the oven
and Mrs. Simm was busy making mince pies. By two o'clock the dinner was ready and on the table and how fine everything did look.
The big turkey, stuffed almost to bursting, was just that lovely shade of
golden brown that all respectable turkeys ought to be. There was a large dish of mashed potatoes and another of turnips. The celery was nodding behind a glass dish just full of stewed cran-
berries and on the side table two fat mince pies were cooling. Then there was mince pies were cooing. Then there was that Simm's family did cat.
"This is Elizabeth's. Thanksgiving,"
said Mr. Simm, smiling across at his litste daughter.
"Because she prayed," said Fred, taking a big mouthful of meat.
could pray like Elizabeth."
They were just commencing on their pie loud and quick was the knock that So loud and quick was the knock that
little May was a fraid. Mr. Simm opened the door quickly and there on the steps
stood a stranger. The wind was howling stood a stranger. The wind was howling
so fismally and the snow falling so
swiftly that yr. swfftly that Mr. Simm asked the man to
come inside which he immediately did He was a jolly fat-faced man about fifty with a smooth face and iro

## WAS TROUBLED WITH SOUR STOMACH AMD BILLOUSNESS.

"Does a man live here by the name of Simm?" he asked in a jolly voice.
"That is my name," responded Mr. Simm quietly, "Mr. George Simm." "Well of all things, ejaculated the ory Simm. That accounts for it. Ha! ha! ha! Won't Emmeline laugh when she hears of it?" And again his loud ha! ha! echoed through the room. Mrs. Simm looked frightened, and won dered if the stranger might not be out but the stranger broke in again: "My turkey, or what is left of it! My grapes, my celery, my cranberries! Ha ha! ha! Won't this tickle Emmeline?" Mr. Simm now looked disturbed. "Per
haps you will tell us what you sir," he said.
"I ought to apologize," answered the man, "but the fact is, this is my dinne you have been eating."
"Your dinner!" gasped poor Mrs. Simm "It
"It is Elizabeth's dinner," shouted Fred, growing very red in the face "She prayed for $i t$."
"The fact is," broke in Mr. Simm, "we didn't expect any dinner today. That is nothing like this. I have been out of work so long we couldn't afford it. But
early this morning a basket came to the door with my name and address. Here is the paper," he concluded. "I supposed that some friend knowing our porerty and also our pride, took this way
of sending us the thing, of sending us the things."
The stranger looked at the paper. "Mr troit street-Well, I must apologize" $h e$ continued. "It is the jolliest mistake on earth. You see I am a bachelor and live on Detroit avenue with my niece, Em meline. I ordered my groceries yester
day, but they didn't come, so Emmeline and I went to a restaurant. The clerk said that maybe he had sent the goods o Detroit street instead of the avenue So I just thought Pd trot down here ak! He laughed so loud and heartily that Fred did too. And so did little May and Fred did too. And so Mr. and Mrs. Simm
Elizabeth and finally joined in.
"Well, one thing," began the stranger, taking off his overcoat. "I'm going to urkey." And he did stay, and a jolly meal it was. Mr. Simm was embarrassed somewhat, and said he would settle for the give him a little time. But the other Mr. G. Simm wouldn't listen to such a proposition.
"I never spent money I enjoyed more," e declared. for it is
He promised to help Mr. Simm to a job, and laughed and told stories til the children quite fell in love with him. Just before he went home Fred broks giving after all."
Elizabeth's eyes filled with tears, but she said bravely, "Well, God answered my prayer anyhow, even, if it was a mistake about the street."
The other Mr. G. Simm patted her fair "Gontly. always answers prayers some way," he whispered.

## Upholding a Boss's Dignity

"The 'boss' who disdains to accept an occasional hint from a subordinate is bound some time to have his egotism
come a cropper Dougall, the "dean of American cartoonists." "I once had a controlling interest," he went on, "in an up-state
amusement park. The venture wasn't amusement park. The venture wasn't
panning out well financially, so I resolved upon a strict examination into the methods of the manager.
y one morning I arrived at ene park, where I found several work-
men engaged in the construction of a new 'feature.' Nearby sat a man, idly watching Ah, this was indeed suggestive man. ${ }^{\text {"He followed without a word. }}$ "'Mr. Jones, pay this man off,' I abruptly ordered at the local office. "'But, Mr. McDougall-_' began that official. "That will do', I replied with increasing indignation. "When the fellow was paid and had
vanished with amazing celerity, I demanded: ‘
"" 'Now, sir, perhaps you can give me
some reason for hiring such worthless some reason for hiring such worthless
vagabonds.' "'Why, Mr. McDougall,' he was
finally able to explain, 'that fellow was never in our employ; he was merely a neectator!'

## The Wrong Kind of a Baby

 In a certain home where the stork re-antly visited there is a six-year-old on of inquiring mind. When he was
first taken in to see the new arrival he first taken in to see the new arrival he xclaimed: "Oh, mamma, it hasn't any hands in despair, he cried :"someyands in despair, he cried:"So."

## Gured Eczema Like Magic

## Correspondence

- ${ }^{2}$ ered for Years-Tried All Kinds of Treatment-Surprised at Results From Dr. Chase's Ointment.
You can soon tell when people are the language they use. After ex by the language they use. Afts of ointments in a vain effort to obtain relief and cure, the writer of this letter was stonished at the quick and satisfacChase's Ointment.
"It worked like magic," she writes. Indeed, it is surprising the healing that is often effected in a single night by this great ointment. The stinging and cure is only a matter of time and patient treatment. Mrs. Clements. 13 Strange street, fered from eczema for years, and af ter using all kinds of ointments, at last tried Dr. Chase's Ointment. It worked like magic and proved a Godsend to me. I would advise anyone suffering from eczema to try one box
and ibe convinced." 60 cents a box and be convinced." 60 cents a 'box Co.. Inited, Toranto

WV E invite readers to make use of but who after being brought under the E invite readers to make use of
these columns, and an effort
will be who after being brought under the
gentle influence of womankind have teresting letters made to publish all in- started on life's journey in a different amount of letters received. The large manner altogether after their convalesus has, hitherto, made it impossible for cence. I think the profession of a nurse every letter to appear in print, and, in who are devoting the best part of their uture, letters received from subserib- lives to alleviate the sufferings of others, irs will receive first consideration. A and it is their careful untiring attention ly criticism, writes that offering a kind- which wins the admiration of these men ly criticism, writes that the Correspond-
ence column has at times an air of monotony, as one writer after another follows the same phraseology. We wish to warn our correspondents against this common error. A little independent and readers of the Monthly will find valuable aid in the study of the many instructive articles by eminent men that appear from month to month.

The Uplifting of Mankind
Sask., July 26, 1913.
Dear Editor:-I have been a reader of your valuable magazine for some years, and must congratulate you on the successful progress of this publication, which appears to improve with each issue. In a recent number one of your numerous correspondents mentioned these mankind to fathom, especially as

The graceful Sea Gull on guard
a subject which greatly appealed to ray mind, so that 1 cannot refrain trom
writing a few lines on the same subject. "The uplifting of mankind by good and true women.". Having travelled in various countries I have had such
cases brought under my notice in various wases brought under my notice in various a few instances where one will find such a cases.
cer
If the readers of the W.H.M. can bring to their imagination the scenes of a battlefield after a hard fought batthe, the awful carnage of men and
animals, and go in among the silent animals, and go in among the sile
dead, one cannot but admire with reverence their' courage and noble sacrifice, in which they have given their lives
for their country's cause. But it is to the wounded to which I wish to draw vour attention-one will hear prayers from this one, and curses from another close by. The doctors and ambre ance men are attending to the immediate needs of these men, after which the ambulance comes along up to convey dants, and picks them up to convey
them to the field or permanent hospithem as the case may be according to the

their admittance where they can be attheir admittance where they can be at
tended to in a proper manner, the are made as comfortable as their circumstances will allow. It is here where one can find what the good influence of womankind can make The hospital with its clean many cases. surroundings is like a haven of rest to these men after their weary journeyings through the country, and the quiet gentle nurses attending to them give them a different view of life. I have seen men who before entering one of "these places,
were what one might term "hard cases,"
poorer classes, whose homes are mostly probably and uncomfortable surroundings from childhood. One will again see ladies of gentle birth going about the slums, doing deeds of kindness, and helping those who
are sick and in distress, going in and out of places where it is not safe for a single policeman topass along after dark. Even the hardened criminal and other law breakers look upon these quiet women as angels of mercy, and they go about
wherever they will unmolested. In wherever they will unmolested. In one man has fought another for passing some rude remark when one of these ladies has been passing-probably she has done some kind act in the home of one of the men.
Again, we will travel a little further and see the lassies of the Salvation Army wending their way amongst the worst
class of mankind, doing little deeds of kindness, here and there speaking a kind word to one, and helping those who can not help themselves. These little seeds they sow often bear fruit in after years. We will see a drunken man turned out of a saloon, helpless; one of these lassie comes along and helps him to the shelter stances' we will find this is the turning point of his life. Probably this is the first time he has had any one to tak any interest in his daily life. We will also take our soldiers and sailors insti tutes, where there are usually some good earnest women working for a good cause; many a young man back to the straight many a young man back to the straigh cess of his'after life, and in individual cases it is much the same. A young man

The Paper That is Wanted
Sask., August 15, 1913.
Dear Editor:-This is my second letter to the correspondence-my first having
apparently been consigned to the waste paper basket. I do not agree with "Dido" in the August number as regards the drink or dancing question. I think one
glass does hurt a man, and also leads him on to more. No man would stag.
ger home if he could stop at one or ger home if he could stop at one or
two, but the thirst is started with one glass, and it is not every man, or in
reality it is only a few, who have the
will power to sto when they wish will power to stop when they wisli.
work in the Post. Office, and know which papers are wanted, and which are
not. I have heard people that take your paper here ask for it nearly every
month a couple of days before it is due Would like correspondence with either
sex, and will leave my address with the sex, and will leave my address with thë
editor.
Lollic.

Enjoys the West
Kawende, Man., July, 1913.
Dear Editor:-If you will allow me Mr. Editor, I would like to say a few words through your valuable column.
have been a silent reader of your magazine for a long time, but only recently a subscriber. I, like many of your read-
ers, am a lonely bachelor of the West Crs, am a lonely bachelor of the
Now I see some of our Eastern friend talking about not having good times
in the West, but I do not quite agree in the West, but I do not quite agree
with them. I came from the East two years ago, and I believe I have had a more enjoyable time here. There have been quite a few subjects under discus-
sion-dancing and card playing have been well gone over. Then we have the
marriage question-some man, should have a home and money be fore marrying. Now friends I do not
quite agrece there. I think if true love "xists they will make the home in happiness. In the July number I read. "A
loung Sufferer's" letter. I certainly do
think her parents are far too strict Times are changing. It is very good of
girls to send cookery receipts for the bachelors, although I don't think I would like bisenits without salt. Now girls,
get pen and paper busy. I will leave my
ndurss with the editor.

The Charms of Ontario Dear Editor:- Ontatio, July, 1913. Dear Editor:-1 ame, another of the ul paper, and am also a subscriber. We all enjoy the saried subjects very much, especially "the correspondence column Like "A Pick at Sport" I would appre
ciate a serial story, though I enjoy the ciate a serial story, though I enjoy the
short stories too, as I am fond of reading. I live in one of the most beautiful sections of southern Ontario, on the banks. of a river on which there is a de lightful fall, surrounded by a pretty pic-
nic ground which is the haunt of summer nic ground which is the haunt of summer
campers. Around us are forest clad hills reaching to the height of about five hundred feet, from the top of which we have a fine view of the Georgian Bay an Christian Islands. Ours is a great fruit
section, and is also suitable for mixed farming. I have never visited your part of the Dominion, though I would very much like to do so. I agree with "My Dear Gaston" in upholding the life of the country women. Country life aroun fond of sports of some kind. If "Plato" would call around I believe he would change his 'mind on that subject at least My address is with the editor, and I wil be pleased to answer all who care
write to

## Can Bake Bread

Cloverley, Sask., August, 1913. Dear Editor and Readers:-Well here i prainee, onely I can assure you "lonely prachelor" is no mere phrase. It is a very stern reality. My nearest neighbor is four niles away, and a half breed at that. I am baking the bread this af-
ternoon, a and I would not mind betting ternoon, and I would not mind betting
any that she could not do any better. have 150 head of horses to herd night and day, so my leisure moments W.H.M. in a roll and tie it to my saddle and take it roith me when Fis go out to ride, and" then when:I have time to spare $I^{i}$ can rêad the letters and stories. It surtis good company. I think this must be all for this time. I would be pleased to receive post cards or letters more the merrier. Buffalo Bill 1000.

A Dull Country
West Sutton, Que., July 13, 1913.
Dear Editor:-I have been a reader he W H. II for a few months, and could not resist the temptation to write, although I am afraid the basket will get
this letter. I read the paper and like it very much-there are so many interin the country three miles from a rail road or village, but have a team I can school, and spend my vacation at home. was very interesting. It is my opinion that girls should have some privileges
given them by their parents. The magiven them by their parents. The ma-
jority of those who do not will take them. It is a dull place around herethere are no young folks outside our own
family, so it is lonely for one who is fond of company. I would like to correspond With "Happy Ike," "Gus," and some other Westerners. I will sign myself, Tops.

Rather Critical Bassano, Alta., July 21, 1913. reader of your paper, but I must writ now to gibe "Hazel Eyes" a pat on the back for her opinions, and her courage
in expressing them. In these days of

No Time For The Blues.
Water Glan, Alta., July, 1913. Dear Editor:-Will you please kindly allow another bachelor a small space in one of those who always look when mail one of those who always look when mail
day comes to see if the W.H.M. is there, but never find it more than once a month. Now dear readers how would
it he if we could get the W.H.M say it he if we could get the W.H.M say
twice a month, and pay a little more for our sul.; as this is the only thing We bachelors have to pass a pleasant
evening with after supper is over. Now as to farming-I have been in the West for the past sixteen years, and have never done anything else but farming, and farming is very good I may say it a person knows how to keep the
blues off. I, for one, farm from 50 to 60 acres of grain every year, and have some horses, hogs and hens. Say
bachelors, try this, if you keep, say from ten to twelve horses, about firty hogs and some hens, and say two cows, will find that the blues won't have much time to bother you. Now, dear editor,
I think I had better close. If any of I think I had better close. If any of
the members like to exclange snapshots with me I will be pleased to do so.
Wild Bill.

## Had a Good Time

letter--the influence of womankind on the he of a man. I can say from ex-
perience that $I$ am living a better life
today becouse of friends I ha : known. I could also say the opposite if $I$ chose, $b$ - this may be as much my fault as the ones in question. I think there is almost no limit to the influence a woman
or girl may exert over a or girl may exert over a man's life,
either for good or evil. I also think either for good or evil. I also think
there is a true ring in the letter there is a true ring in the letter
"Hazel Eyes" in the July number. these giris would like any further discussion on these topics I should be
curt pleased to answer any correspondence from them or others who wish to write, you will find my address with the
editór,
A True Westerner.

Very Good Advice
Dear Editor:-Although a subscriber for over two years I have not as yet
had courage to write to you. I am very much interested in the letter written by "A Young Sufferer" published in the July number. I can heartily sympathize with the dear girl. Although I am onl, nineteen I have had some trouble in the same line. I have found out from experience that mother knows best.
Who does not thrill at the name of "mother" There are so many jirls who do not put full confidence in their mothers. Remember girls she has been through many a rough path in life, and will do all in her power to save you from the same. I have often heard mothers say of their grown daughtersshe is but a child to me yet. I think if parents are strict on what we girls deem as pleasures they must have gon
reasons. If you are not allowed to accept any invitations from gentlemen friends why not have a heart to l.eart talk with mother. Recall to memory her girlhood days. Whatever you do girls do not make dates with gentle men on the street corners. 1 think our mothers can judge our gentlemen
friends fairly well, but, listen girls, if you have a big brother he can "put you wise." I wish to say before closing give your mother a chance girls, she may seem a little old-fashioned in her ideas, but she has. a heart of gold. She will prove a friend to you when all others fail My address is with the
editor and I editor, and 1 hope any of the readers
will drop me a line, including "A Young will drop, me a line, inclucing A Young
Sufferer." Wishing sucess to all,' I sign myself, Blondy.

## The Suffrage Question

Alta., August 25, 1913. Dear Editor:-Your valuable paper has just artive. Wo have taken it now for over three years. Everyone reads it, and finds something pleasant, instruc-
tive and helpful. We hear so much these days about the militant suffragettes. What do our lady readers think about the subject? Personally, 1 am a strong advocate of woman's suffrage, but I think that Emmeline Pankhurst and her clique are a detriment to the cause. Many women who believe in woman suffrage wibe beause of the foolwith and unwomanly methods employed by some of its advocates. Woman was the last of God's creatures, and I verily believe she is the best. He-intended her to be the best. Then why should we be afraid to let our women vote? Who would close $t \cdot y$ saloon any sooner than our mothers and sis white slave would put he women. Why can't the
traffic? The women, who have the care and training of the infant mind have a share in making the environment of youth more pleasanit and free from danger? There may be many how to use the ballot; but there are as many men who are the same way. believe would know enough Noman, is as to protect her child, and there are many men who don't. Woman suffrage is coming! Nothing can stop it, and no one in their right senses
would wish to. I am fond of music, dancing, football, skating or eanything in the sport line. No smoke, no booze, no
chewf lome from the moors of York. chew.. I come from the moors. So any
shire. I like writing letters. one who cares to write will be sure to the editor, Yorlshire Tyke.

## Household Suggestions

He Was Glad
There was a man who smiled Because the day was bright Because he slept at night;
Beause God gave him sight Because God gave him
To gize upon his child! Because his little one
Could leap and laugh and ru Because the distant sun on the earth, he smiled

He toiled and still was glad Because the air was free;
Because he loved, and she
Because he loved, and she That claimed his love, and 1 Shared all the joys they h Because the grasses grew;
Because the sweet wind ble Because that he conld hew And hammer he was glad. -Ladies' Home Journal

Scotch Eggs.-Take one cup of cooked lean ham, chopped very fine, one one-third of a cup of milk, half a teaspoonful mixed mustard, cayenne to suit the taste, one raw egg and six har boiled. Cook the bread and milk to gether until a smooth-paste. Add the
cooked ham, the seasoning and raw egg Mix thoroughly. Take the shells from the hard-boiled eggs and cover with the mixture Lay in a frying basket and plunge in
Smothered Beef.-Broil quickly over Smothered Beef.-Broil quickly over a
hot fire two pounds of steak cut two inches thick and trimmed of bone and fat. Plaee on a hot platter and spread both sides with the following mixture: A tablespoonful of melted butter, half spoonful of white pepper. On top of the steak lay three plantains or red bananas cut in two lengthwise and fried a little in butter. Sprinkle over with a table spoonful of grated horse-radish.
French Dressing-Four tablespoonfuls or or, half a teaspoon of salt, quarter o a.teaspoon of pepper. Stir until well blended and add, if desired, a few drops of onion juice.
Mayoniaise Dressing-Mix one teaspoon of mustard, one teaspoon salt, one grains of cayenne; add to this the yolks of two eggs, and when well mixed add one half teaspoon of vinegar. Add oil gradually at first drop by drop, and
stir constantly. As mixture thickens stir constantly. As mixture thickens
add from time to time a drop or tho add from time to time a drop or two
of vinegar or lemon juice. Add oil and lemon juice or vinegar alternately, beating or stirring constantly until you have used in all one and a half cups of olive oil, two tablespoons of lemon juice and
two tablespoons of vinegar. If the oil is scalded too rapidly it will curdle. In which case take the yolk of another egg and add the curdled mixture very slowly to it. Keep the bowl you are mixing in cold, setting it if necessary Have your olive oil thoroughly chilled. One-third of a cup of thick cream beaten until stiff and added makes a delicious mayonnaise, but it must be used the same day.
Potato Mayonnaise-The inside of one small baked potato mashed with one
teaspoonful of mustard, one teaspoonful salt, and one teaspoonful of powdered sugar; add a tablespoonful of vinegar. and rub all through a fine sieve. Add slowly oil and vinegar as for the mayonnaise until you have used in all two
tablespoonfuls of vinegar and threetablespoonfuls of vinegar and three-
quarters of a cup of oil. Thick cream or oiled butter may be used instead of olive oil.

Boiled Dressing-Mix in a double boiler one tablespoon of mustard with on tablespoon of salt, one tablespoon o sugar and one tablespoon of flour.
When smooth add three eggs and beat when smooth add three eggs and beat and one and a half cups of water and set over hot water, stirring constantly
egar and set off. Care must be taken not to overcook this, or, like any boiled custard, it will curdle. This may be
put into bottles or gem jars, and will keep for months in a cool place. Lemon salad dressing to serve wit fruit salads-Separate the whites and yolks of two eggs. Beat the yolks cupful of sugar, a pinch of salt half a juice of a lemon. Fold the whites, whipped till stiff, throughout the mixture, and serve at once. Salads in which tart fruit is used are best dressed only with salt and oil.
blankets of a generous size. The bed should be so placed that the light from
a window will not shine directly in the sleeper's face, and the sleeping-room should be well ventilated
Nothing that cannot be washed should be used about a bed. The housekeeper who does her own work, or who has
only a limited amount of help, should be careful not to increase her burdens by fancy and complicated dressings for her beds. Life is too short to waste in this manner. To my mind the simple spread that is made long and wide enough to cover the bed and pell down the sides and foot, is the most sensible. However, as the demand is for other things, I will give

some of the styles which are now in | $\begin{array}{l}\text { mand } \\ \text { some } \\ \text { use. }\end{array}$ |

6 \text { tablespoonfuls milk }
$$

Cream the butter and add the sugar gradually, then the beaten egg; beat until light and add milk and solid ingredients alternately; turn into a greased baking pan and spread with a knife; cut pared apples into quarters and slices; set in the dough in rows, pressing wedge end down; dust with sugar and cinnamon (2 teaspoonfuls cinnamon to 1 cupful sugar) and bake.

## STUFFED EGGS

6 eggs
teaspoonful salt
1 teaspoonful butter 1 teaspoonful vinegar 14 teaspoonful mustard Pepper
Cook 6 eggs 30 minutes; remove the shell and cut lengthwise; remove the yokes and mash them, then add butter, salt, pepper and mustard; when smooth, add the vinegar; fill the whites with the mixture; smooth the top. Arrange each half on a bed of lettuce leaves or fine parsley. Half the quantity of chopped ham or tonguétmay be added.

Some Suggestions For Draping Beds
Among my letters are many asking Iraping beds, but I regret to say that have never had a letter asking for what is the best kind of a bed for a realize theep. I wish that women could realize that the bed is quite as impor every housekeeper io make the condi tions for healthful sleep as nearly pershe has done this she cannot, with a clear conscience, devote time and money tions for the sleep that restores tired that does not sag; a mattress that is not so hard as to be uncomfortable, nor so
oft that the body sinks into it. covering should be sheets and woolen

A great variety of fabrics are em-
ployed for bedroom draperies. Nearly all white wash goods are suitable for this purpose. English dimities and art
tickings are attractive and are also suitable. These fabrics are very much alike. They are thick and firm, having an embossed appearance; they come in
white and in white and colored stripes. Simple and elegaint draperies can be curtain materials which are sold by the yard. For the middle of the spread $t$ same on both edges. and for the border a piece that is embroidered on one edge straight, and take bare not to perfectly Thin materials lined with silk or cam-
bric make dainty draperies for bras- or
enamele! beds. Spreads and scarfs of
different kinds of lace may be purchased at any first-class dry-goods store. These re the with the color or cambric to room. Dainty draperies may be made at home by employing any of the thin white or cream muslins or nets, and ining them with the deșired color. Sheer muslin and dotted muslin, ruffled and Thed, are pretty for country houses. same material, but left unlined.
Fish-net and scrim make plainer but richer draperies. The lining may be in white, cream or bright colors. A pretty way to make up these materials is to join the breadths with heavy insertion match. The border of the bolster scarf should be trimmed with lace. If valances are used I think they look and hang much better when box-plaited than when gathe be lined.
Canopied bedsteads. There are two inds of canopied bedsteads: the oldfashioned high-poster with a canopy
(tester) covering the entire top of the bed, and the new brass bedstead with an arched canopy over the head. The drapery for the arched canopy of the
brass bedstead should be 'a light, soft material.

## Ginger Cookies

A good recipe for ginger cookies is as follows: Take one cup of Orleans mo lasses, one-half cup of sugar, one cup
melted lard, two eggs-the whites and olks beaten separately-one,tablespoon ful of ginger, one teaspoonful of cinna flour enough to roll. Put the soda in the molasses, add one-half cup of sou milk and beat till it foams, stir in lard, yolks of eggs and the spices; then the lour and white of eggs. Roll out rathe Veal Loaf.
Chop fine three pounds of lean veal ${ }^{9}$ and one-half pound of rather lean ham. Add three raw eggs, crumbs of three alt, one-half teaspoonful of pepper and three tablespoonfuls of cream. Mix thoroughly and place one-half the mix ture in a bread pan which has been lined with paraffin pa r. Have ready five have been removed, and place over the meat lengthwise of the pan. Then add the remainder of the meat mixture and cover the top with four or five strips
of salt pork. Bake in a hot oven haif of salt pork. Bake in a hot oven hai an hour, then reduce the heat and bake
for an hour longer. When cold, slice thin and serve on a bed of lettuce leaves. Meat Pie.
Chop cold roast beef or other meat heat it with a cup of water in a fry
ing pan. Season with pepper, salt and ing pan. Seas a pary pepper, salt and with a spoonful of flour, and a little water. Pour this into a deep pan, an make a crust a triffe richer than bis cuit dough, which spread over the top bake. Cold potatoes may be added to the meat if desired.

Household Hints
If your window glass is lacking in bril liancy, clean it with liquid paste made of mixture will rem vee specks and impart a high lustre to the glass.
An ever-ready glue pot is a most use ful piece of property. It is easily prepared by putting naphtha in a wide in it. Finger marks on varnished furniture are removed by rubbing them with a picce of rag dip d in sweet oil. After-

## The Testimony of the Camera

The above is a reproduction of an actual photograph of two exhibits of bread made at a recent Western Fair.

It is a striking example of the vast difference found in flours. Both samples of bread were made by the same exhibitor under exactly similar conditions and from the same quantities of ingredients. The larger loaves were made from PURITY FLDUR, the smaller ones from 'the other kind of flour.'
Some dealers still insist upon representing other flour as being "just as good as PURITY FLIUR." They invariably handle a flour costing less money than merchants handling PURITY FLOUR have to pay for it. Yet, they try to get the same price for the "just as good" flour as for PURITY FLOUR. When they can do so, they make double profits-the usual profit on the other flour and the difference between the price of it and PURITY FLDUR
Wise dealers buy PURITY FLOUR and willingly pay more for it, knowing that it means satisfied customers. Don't hesitate to pay the trifle extra for PURITY FLOUR, because you use less flour (the flour goes further) to the same quantity of water (water costs nothing) and

## As The Camera Proves, You Get More Bread and Better Bread
