

PASTOR PLANNED HIS OWN FUNERAL.

He Picked Text, Hymns and Pall-bearers and Wrote Sketch.

Financial Panic Expected to Make Cost of Living Cheaper.

New York, Oct. 30.—Realizing he was dying, Rev. Henry Truemp, who succumbed to pneumonia Friday at his home in Brooklyn, made arrangements for his funeral, which took place from the First Baptist Church yesterday.

Funeral Costs as Penalty. Wilmington, Del., Oct. 30.—One of the most unique verdicts ever rendered by a Coroner's jury was that found by the jurymen impaneled by Coroner Calloway to inquire into the killing of David Simpson on the Baltimore & Ohio Railroad, on October 24.

CANNIBALS EAT FORTY SHIPWRECKED U. S. SAILORS.

American Sailing Ship Thought to Have Been Wrecked Off Cape Horn.

New York, Oct. 30.—That the big sailing ship Arthur Sewell, laden with coal for the United States in the Pacific, has been wrecked close to Cape Horn and the crew of forty eaten by cannibals who infest the islands near Terra del Fuego and the Straits of Magellan, is believed on the Maritime Exchange.

Since the Sewell sailed away from Philadelphia, on April 3rd, bound for Seattle, via Cape Horn, not a word had been heard from her until to-day, when a letter was received by the Maritime Exchange which seems to indicate that one of the biggest square-rigged ships in the merchant marine has foundered.

NOT RECOVERED. TEDDY BEARS

Much Difficulty Experienced by Searchers at the Beach.

As soon as morning dawned to-day arrangements were made for renewing the search for the body of Mr. Charles Lenz, about whose death by accidental drowning there seems now to be no doubt. Some wonder was expressed yesterday that a good swimmer was not able to reach the boat, but the unfortunate thing is that Mr. Lenz was a very poor swimmer, about a boat length, with no clothes on, being all he could go.

JACKSON'S CASE.

Hamilton Man Again Remanded a Woodstock.

Woodstock, Ont., Oct. 30.—(Special).—Arthur Jackson, the colored man arrested at Hamilton a couple of weeks ago for vagrancy, really on suspicion of having been implicated in the recent hold up of the operator and the robbery of the C. P. R. station here, was remanded for the third time at police court this morning for another week.

BLOWN DOWN.

Houses at Galveston Knocked Down By Big Storm.

Galveston, Texas, Oct. 30.—A wind and rain storm of unusual severity struck this city early to-day. A number of residences in the west end were blown to the ground and two or three persons are reported injured.

LICENCE TRANSFER.

The License Commissioners met this afternoon for the purpose of considering the transfer of the license of Lillie's hotel to Harry Dean. While there is not likely to be any hitch in the matter, the commissioners are inclined to go slow in the matter, as they are of the opinion that this is a case of "wheels within wheels" somewhere. The price is placed at \$4,000.

DOCTORS' FEES

Will Likely be Increased to \$1.50 a Visit.

The physicians in several Canadian cities have raised their fees, "owing to the increased cost of living," and this has caused some uneasiness in local medical circles, as Hamilton physicians pride themselves in being up-to-date. The question of increasing the fee for visiting patients was up at the last meeting of the Hamilton Medical Association, and as some wanted to make it \$1.50 and others \$2, the matter was referred to a committee of three to consider and report at the November meeting.

NO TRUTH IN IT.

Sir Frederick Borden Not Asked to Resign.

Ottawa, Oct. 30.—(Special).—Sir Wilfrid Laurier was asked by your correspondent this forenoon if there was any truth in the Ottawa despatch to the Toronto World that Sir Frederick Borden was asked to resign his portfolio, and refused to do so. The Premier said that, while he made it a practice not to be interviewed by the press, on this occasion he would have to depart from that rule and say that there was not one word of truth in the report. He had not asked Sir Frederick to resign, and therefore there could be no refusal. Sir Frederick is now in Nova Scotia.

BACK TO LONDON.

Dr. English Has Heard Nothing About the Rumor.

London Free Press: There is said to be some possibility that Dr. English, the Superintendent of the Hamilton Asylum for the Insane, may be transferred to the asylum in this city. It has been rumored for some time that Dr. McCallum, the present Superintendent at London, would be removed for the charge of some other institution. He may go to Pen-tang. The vacancy caused by the death of Dr. Buchan, the Assistant Superintendent of the London Asylum, will probably be filled by the appointment of an outside man. Dr. English said to-day that he knew nothing of the rumor of his transfer to London. He did not think there was anything in the report.

WANT RIGHT TO RUN PASSENGER CARS.

T., H. & B. Springs Surprise In Connection With That Switch.

Officers Ask Permission To Transport Troops Over B. & H. Railway To-morrow.

The Dominion Board of Railway Commissioners is in session here to-day, dealing with a number of matters affecting Hamilton and other municipalities. On account of the Court of Revision sitting in the Council chambers, it was necessary for the Commissioners to use the Board of Trade rooms. There was quite a gathering of legal lights, and railway officials, in attendance when the Board got down to business shortly before 10.30.

The Toronto, Hamilton & Buffalo Railway sprang a big surprise in connection with its application for permission to cross a number of east end streets with the new spur it proposed building to the Westinghouse works. The grading has been completed to Sherman avenue and that is as far as the tracks will be laid this year. The company asked that it be permitted to lay double tracks and be given the right to run passenger trains over them. It is supposed that the company is looking ahead to the future growth down there in making this request.

KARATAGH CITY DESTROYED, 15,000 PERSONS BURIED ALIVE.

Earthquake, Followed by Mountain Slide, Caused Catastrophe---Only the Governor and His Mother Saved.

Tashkend, Russian Turkestan, Oct. 30.—The whole of the town of Karatagh, in Bokhara, has been destroyed and the entire population, numbering about 15,000 persons, was buried by a mountain slide following recent earthquake there.

The Governor of Karatagh and his mother were the only persons who survived the disaster.

Karatagh is 100 miles southeast of Samarkand, in Russian Turkestan, where severe earthquake shocks occurred on Oct. 21, causing a great deal of damage. At Samarkand only two women were killed by falling houses, though the population in alarm fled from their dwellings, and camped out in the streets and other open spaces. The same day London announced that prolonged earthquake shocks beginning at five o'clock in the morning of Oct. 21 and lasting for several hours, had been reported on the instruments on the Isle of Wight and at Laibach, Austria. The distance of the disturbances were at those points estimated as being over 3,000 miles from the observatories which recorded them.

THE IFFEL TOWER

Equipped as Wireless Station and With a Luminous Clock.

Paris, Oct. 30.—In addition to being used as a wireless station the Eiffel Tower is now equipped as a luminous clock. The apparatus is fixed to the second story, and flashes forth every minute in huge figures visible at a great distance. The system was found to be the only practicable one, for at such a height the ordinary clock dial would be indistinguishable.

The Man In Overalls

Be thankful— That you are alive. That things are not worse than they are. That you get three square meals a day. That you live in a land of plenty. That you are enjoying good Grit times. That the Tigers look like champions. That the Citizens' League still cares for our morals. That the Stony Creek battlefield is free of debt. That the financial panic is about over. That Sir John's monument is being moved out of the way. That we are not all limerick crazy. That you don't live in Toronto. That Christmas is coming. That there is only one Billy Maelaan. That you have a home to go to when you can't go anywhere else. That Hallowe'en is not what it used to be. That you can count your blessings. That Leader Mackay will be here on Saturday. That the aldermanic term will soon be up. That the Mayor will be content with a second term. That you have still Sunday to yourself. That there are no signs of the factories shutting down. That Adam Zimmerman is still Hamilton's favorite son. That the Twentieth Century Club didn't get that license. That we are a' John Tamson's bairns. That you don't live at the Beach. That a Grit wasn't defeated in London yesterday. That the barbers have settled their trouble. That nobody is starving for want of ice. That a good Christmas trade is ahead of our merchants. That the knockers have quit knocking the Sanitarium. That you have reason to be thankful. That Leader Borden's western tour has been a failure. If you have nothing else to do to-morrow, you might go down and see the re-erected wall.

A NEW SWINDLE.

Alleged Hamilton Man Under Arrest in Toronto.

Walter Strouse, aged 27, who stated that he lived at 24 Hess street, Hamilton, was arrested by Acting Detective Moffatt last night at Toronto, charged with fraudulently obtaining money by a new scheme. It is alleged he went in to David Davenport's barber shop, at 32 Arthur street, requested Davenport to pay for a parcel which was to be left at the shop for him, saying that he would call for it later. Davenport paid \$5.84 for the parcel, but Strouse failed to appear and claim it. When it was opened, two empty pasteboard boxes were discovered.

at once with Parke's Laxative Quinine Tablets. Don't let it run on or you may find yourself in a sanitarium for consumptives just because you neglected that first chill. Remember these tablets are chocolate coated and are easily taken, and they usually break up a cold in 24 hours. Sold at 20c by Parke & Parke, druggists.

LIBERALS WILL BE BUSY IN THE CITY AND COUNTY.

Public Meetings and Annual Meetings Announced For the Next Two Weeks.

Saturday night's meeting in the large hall of the Liberal Club, at which Hon. A. G. MacKay, the new Provincial leader, will be the chief speaker, will be the most important political gathering of the year here. Hon. Mr. MacKay will arrive early in the morning, and will be taken in hand by the Liberal Club Reception Committee. A visit will be made to some of the chief industries of the city during the morning.

Much importance is attached to the evening meeting. It will be Hon. Mr. MacKay's first appearance in this part of the Province since his election as leader, and what he will have to say on the situation is regarded as being full of diverting possibilities.

PROF. SCHOFIELD.

His Appointment Causing Indignation in Berlin.

Berlin, Oct. 30.—Intense indignation prevails in the highest American quarters in Berlin over what is called Harvard's "bull" in deputing Prof. Schofield, a Canadian, to lecture, instead of an American, which it is feared may seriously hamper the Kaiser's whole purpose in initiating an interchange of American and German thought and feeling. Ambassador Tower first heard of Prof. Schofield's allegiance to King Edward when Sir Frank C. Lascelles, the British Ambassador, to whom Prof. Schofield brought letters of introduction, casually remarked: "Well, I see that one of my fellow subjects has come over to take part in your German-American intellectual reciprocity scheme."

DAUGHTERS OF KING.

Triennial Convention Opened in This City To-day.

The Daughters of the King, of Canada, are holding their triennial convention in the Church of the Ascension to-day and to-morrow. An interesting programme has been prepared as follows: This afternoon: 2.30—Business meeting of the council, 4.15—Devotional services, conducted by Rev. F. E. Howitt. 8 p. m.—Addresses given by Canon Wade, A. G. Alexander, Archdeacon Forester, Canon Sutherland, and Canon Downey, Port Stanley. Thursday: 9 a. m.—Communion services. 10 a. m.—Meeting of council for presentation of reports. 11.15 a. m.—Address, "Functions of the Chapter," by Mrs. Hamilton. 12—Address, "Junior Work," by Miss Langille. 1 p. m.—Luncheon. 2.15—Address, "Opportunities for Service," by Mrs. Williams, Chatham, Dominion President of the council. 3.15—Address by Miss Connell. 3.45—Address, "The Daughters of the King," by Mrs. Gibbons, of Liverpool, Nova Scotia. 8—Sermon by Canon Dann, of London.

WAS IT INCENDIARY.

The town of Cayuga is stirred up again, this time over a mysterious fire which started in the glass factory of that town. It is believed that it was the work of fire bugs. The factory, which is a frame, building was found to have been burned in the interior. It was discovered until yesterday morning, but it was out by that time, not having taken a good start.

SAFETY DEPOSIT BOXES.

To rent at \$2 a year and upwards, for the storing of deeds, bonds, stocks, wills, silver and other valuables, at the TRADERS BANK OF CANADA. "I think I will write a poem on summer." "Go ahead! The summer we have been having deserves it!"

Love and Crime

CHAPTER IV.

Something seems to make the young Australian nervous and awkward in the face of being deemed presumptuous by this tall, fair girl, with her clear, sweet voice, her graceful, kindly manner, and the dignity of her modest, self-possessed bearing.

loss of cheerful decision. "That is all right, then, as the train will return in a few minutes, and we must be ready for it. They won't run another from St. Cray's on the down line for hours!"

THE HAMILTON TIMES

WEDNESDAY, OCT. 30, 1907.

BE THANKFUL.

To-morrow is Thanksgiving Day—the day set apart by the State as the annual occasion for formal recognition of the bounties of a kind Providence to a prosperous and happy people.

Just when the custom of proclaiming a Thanksgiving Day upon which the people of a community or a country should unite in expressing in various ways their gratitude for the blessings of the year had its origin is not easy to tell.

While our thankfulness is not necessarily expressed only in devotional exercises or the outwardly religious forms, the worship of grateful hearts is truly religious.

YESTERDAY'S CONTESTS.

The three by-elections yesterday produced no surprises. It was hoped by many of the liberal leaders that the vigorous campaign of Mr. Mulholland in East Northumberland would succeed in wresting the constituency from the Tories.

In North Wellington Mr. Martin, Liberal, won with a majority of 387, the largest in the history of the constituency.

In London, where Jacobs (Labor) opposed Beattie (Con.), there was little excitement, and Jacobs is buried under an adverse majority of 1,936.

The Union Pacific is enforcing an economy order which lays off between 4,000 and 8,000 men.

The Toronto Grand Jury recommends the application of the lash to those found guilty of assaults upon young girls.

ORGANS IN A FIX.

Mr. Borden's platform has been productive of much awkwardness among the organs during his stumping tour of the Northwest.

Mr. A. C. Bell, who was thrown overboard by the Picton, N. S., Tories to give the nomination to Sir Charles Hibbert Tupper, did not take his ousting silently.

lands. The Leader, with little regard for the Standard's feelings, reproduces one of that organ's articles published at the line of the passage of the Autonomy bills in which it puts the case for Dominion control of the public lands very strongly.

"The Dominion," said the Standard at that time, "will retain control of the Territorial public lands. Perhaps, under the circumstances, this is best for all concerned."

THE SHAM FIGHT.

The Times prints to-day a sketch map of the territory in which to-morrow's mimic war will be fought, with the hope that it may assist readers in following the movements of the opposing forces.

EDITORIAL NOTES.

Be thankful, but play good football.

No game is ever won till the play is over. Mark that, Tigers.

Billy Maclean went up to London to help Jacobs. Result: Majority against Jacobs, 1,036.

That ought to be a pretty good game of football to-morrow. And the Tigers want it in their business.

The street railway receipts are increasing, and if they continue to grow the city will receive about \$40,000 from the company this year.

Bubonic plague has been discovered at Glasgow, and the Dominion health authorities will enforce strict quarantine on all suspected vessels from that port.

Is London to be Jacobs' ladder.—London Advertiser.

Oh, yes! But that naughty boy Billy Maclean went up and jerked the foot of it away, letting Jacob down rudely.

Copper has taken a turn, and prices are rising. The demand is large, the exports from New York since Oct. 1 being 48,000,000 lbs., and the upward tendency is strong.

Mr. Maclean went to London to help Mr. Jacobs because Mr. Jacobs advocated public ownership, Mr. Borden poses as a public ownership man, but Maclean evidently scents a trick.

Mr. W. F. Cocksbutt wishes to hold the Fielding tariff guilty of causing the money tightness in Canada.

The Spectator is almost ready to charge that Laurier stole out on that Quebec bridge and weakened the chords with his little cold chisel.

The Toronto Grand Jury recommends the application of the lash to those found guilty of assaults upon young girls.

Go down to the Liberal Club opening on Saturday night and hear Mr. G. A. MacKay, the Liberal leader in the Legislature, and get acquainted with him.

Mr. A. C. Bell, who was thrown overboard by the Picton, N. S., Tories to give the nomination to Sir Charles Hibbert Tupper, did not take his ousting silently.

Well, Dr. Workman may still congratulate himself that his judges have not to-day the power to apply the thumb-screw, the boot or the rack to him as they did to earlier heretics, nor to use such gently or kindly means to draw him from error as hot boiled eggs applied to his armpits, or boiling wax and oil, as preliminaries to burning him at the stake.

"Lovers of Birds" are sending out warnings against the annual slaughter of the innocents on Thanksgiving Day—a slaughter which is certainly a strange way of giving thanks for blessings received.

Sheffield, England, is experimenting with dried milk as food for babies. It has the appearance of a coarse cream powder, and is prepared by the simple addition of hot (not boiling) water.

The demand for a rational Sunday, for recreation and amusement on that day, cannot be supplied without depriving many of their rest day. Street cars cannot be run without some persons working, and shows cannot be given without the show people losing at least a portion of their Sunday.

The New York City Federation of Women's Clubs has condemned the project of introducing corporal punishment in the public schools of that city.

The Liberals as a party withdrew altogether from the field, giving to the Tories, in consequence, a free hand to select either the Conservatives or the Labor party and they divided their votes, as would appear. Probably the majority of Liberals refrained altogether from voting.

Robert N. Carson, a Philadelphia millionaire, who died suddenly last week, has left in his will a provision for a \$5,000,000 home for orphan girls near that city, the bequest to become effective after the death of his widow.

An evidence of how much in error some of the figures are was given in the Ottawa Herald case, where the engineer stated that the power would only cost the town \$200 per hour, owing to the fact that the electric power would be generated in a recent case of the Canadian Engineer this writer would hardly cover the cost of electricity, and that they divided their votes, as would appear.

The New York Post's rebuke of President Roosevelt's course in contributing to the financial uncertainty and stringency by his speeches for political effect is dignified and moderate and should have effect. It says: "The mistake he has made, in our judgment, in most of his speeches this summer, is that of stirring up excitement where he should have left it to quiet down."

It will displease the Hamilton Times, which cannot see the utility of public ownership of utilities that are essentially public, to learn that the city franchise committee of Detroit report in favor of an application to the constitutional convention for more power to enable the city to regulate public utility corporations and if necessary to own and operate such institutions municipally.

Very far from displeasing us, we find the news gratifying. The Times believes and has always advocated that the public should own all the public franchises, and regulate and control them in the interest of the public.

HERE AND THERE.

Brantford Expositor: Mr. Cocksbutt would have Canadians adopt the United States tariff as a means of preventing financial crises. Please don't everybody laugh!

Toronto Star: A criticism very often directed against municipal government is that it is unstable, lacking in steadiness and continuity of policy. It may be freely admitted that there is a danger of instability under our form of municipal government.

Moose Jaw Times: The audience which greeted Mr. R. L. Borden last night in Moose Jaw was moderately large. But not even the most ardent Conservative could by any reasonable stretch of imagination, convince himself that the leader of the Opposition aroused any such enthusiasm that would justify the contention that the public mind is being influenced by the purity of the Conservative party in Canada.

Galt Reformer: Even the fines have gone up. Can it be that the raw material is becoming scarcer under the Haman License Act?

Chicago Tribune: "Harold," she murmured in his ear, "mamma says I mustn't encourage you to come here so often, and I have to do as she tells me, of course, but you don't need any encouragement—do you, dear?"

London Free Press: The tendency of milk is to rise—urging cream's prerogative, as it were.

Toronto Star: Being fully apprised as to what electric power can be bought for at Niagara Falls, we now crave the sinews of milk of the word—what it can be used for in Toronto.

Chancellor of the Ontario University, desiring that the Government reveal its investigations and that the greater the exposure the better, the more the Government has claimed for his services, but that the reality has been worse than the disclosure.

"The Domestic." (Toronto Star.)

The problem of domestic service will never be solved until it is placed in the morning at a fixed hour, so certain domestic work for a certain time, and at a certain time, and the laborer who does the work, and the employer who pays for it, and the public who benefit by it, are all given their proper place.

The Liberals Merely Looked On. (London Free Press.)

The Liberals as a party withdrew altogether from the field, giving to the Tories, in consequence, a free hand to select either the Conservatives or the Labor party and they divided their votes, as would appear. Probably the majority of Liberals refrained altogether from voting.

"Greasy Heresy." (Geddes Signal.)

The Toronto News says the decision of the Liberals of London, not to contest the by-elections, is a concession in a humiliating position. The Liberals had put up a candidate, the News would have been glad to see them do so, but they would have been "battered" from their own seats.

Public Ownership Frauds. (Brookville Recorder.)

An evidence of how much in error some of the figures are was given in the Ottawa Herald case, where the engineer stated that the power would only cost the town \$200 per hour, owing to the fact that the electric power would be generated in a recent case of the Canadian Engineer this writer would hardly cover the cost of electricity, and that they divided their votes, as would appear.

A Plea for Freedom. (Goldwin Smith.)

Protectionism recently expressed its wish that there might be a commercial barrier between the two parts of the continent, in the high of Haman's gulf. Hence the man who has the power to regulate the flow of wealth on the part of members of protectionism.

TWO SISTERS HAVE ECZEMA OF HEAD

Two Illinois Girls Suffer from Scalp Trouble—Another Sister Needs a Tonic—Friend Suggests Cuticura—They Use It and Now Give

MUCH PRAISE TO ALL CUTICURA REMEDIES

"I must give much praise to all the Cuticura Remedies. I used but one box of Cuticura Soap and one box of Cuticura Ointment, as that was all that was required to cure my disease. I was very much troubled with eczema of the head, and a friend of mine told me to use the Cuticura Remedies, which I did, and am glad to say that they cured my eczema entirely. Since then we have always kept the soap on hand at all times. My sister was also cured of eczema of the head by using the Cuticura Remedies. Another sister has used Cuticura Resolvent and Pills and thinks they are a splendid tonic. I cannot say enough for these Remedies. Write to Miss Edith Hammer, R. F. D. No. 6, Morrison, Ill., Oct. 3, 1906."

make the "bread that mother made." Incredible! Not a bit of it.

No Spoils System Here. (Toronto Globe.)

Most people will learn with surprise that ninety-five per cent. of the men now employed on the Intercolonial Railway were employed on it by the Conservative Government, and yet this is the statement made by the new Minister of Railways in his speech to the electors of Northumberland. Such consideration for the officeholders of a previous regime speaks volumes for the desire of the Liberals to maintain a non-partisan civil service.

GROWING DWARF TREES

Requires Much Time and Patience, Says a Japanese Horticulturist. Exactly how these tiny trees are produced is known only to a score or so of individuals. But S. Eida, a Japanese fellow of the Royal Horticultural Society, was good enough to supply the writer with some interesting facts relating to the methods employed.

It would seem that the quality essential to the successful dwarf tree grower is patience, infinite patience, backed by a fund of calm resignation unknown to the western mind. Fifty years is named as the shortest period in which a really good and saleable dwarf tree may be grown, while a lifetime is not long enough to produce the highest examples of the art. The tree artist merely makes the beginning; his son, or even his son's son, reaps the reward of his labors.

Dwarf trees are produced from seeds or in cases where this is not practical from carefully selected cuttings. When the young plant begins to grow it is tended with ceaseless care, and from the commencement of its career its natural tendencies are subjugated to the will of its master. Each twig, each leaf, as it makes its appearance, becomes the object of the closest scrutiny. Shall it be permitted to grow, and if so, in what direction? May it not be advisable to cut it away altogether and encourage

growth elsewhere? These and a dozen similar questions occupy the mind of the Japanese artist, and upon their correct solution depends the ultimate value of the tree, for to perfect the dwarf must possess a shape and balance equal to the best life-sized models.—Windsor Magazine.

Italians Swarming to America. Italy is losing population by emigration at the rate of nearly a million—three per cent. of the total number of her inhabitants—a year. All the provinces in the kingdom are represented in this exodus, but it is chiefly from the southern part of the peninsula and Sicily, emigrants—New York City alone has an Italian population of 450,000, larger than that of any Italian city except Naples, Rome and Milan—though many go to Argentina, ten per cent. of whose population is of Italian origin. Northern Italy, thanks to its recent industrial development, is prosperous, but the difficulty of earning a livelihood in other parts of the country has resulted in the virtual depopulation of whole districts, many villages having been drained of their bodied inhabitants, and large tracts of land—consequently passing out of cultivation. "Emigration," as one observer puts it, "has become a kind of epidemic." Another result, which is causing alarm to the government, is the decreasing number of men available for military service. The present organization of the army calls annually for 100,000 new recruits for the standing army and 25,000 for the reserves. Last year the number of conscriptions fell to 75,000. It is suggested that some of the causes exempting men from military service be abolished, but such a proceeding would probably only increase the volume of emigration.—From Leslie's Weekly.

Agriculture is in a great measure founded on experience. It is, therefore, of consequence that every farmer should know what has been done, and is being done, by others engaged in the same occupation, and that he should impart to others the fruits of his own experience and observations.

FRIDAY, NOV. 1st, 1907 SHEA'S May Manton Patterns Best on Earth. All 10c

THE STORE FOR THRIFTY PEOPLE

A Few Special Bargains for Friday

This store will be closed all day to-morrow (Thanksgiving Day) and on Friday will open with a grand showing of bargains and exceptional values in every department.

After the immense business we have during this Thanksgiving week, nearly half more than during any previous Thanksgiving season, there will be a great many broken lines and oddments. These will be on sale on sale on Friday at cut prices. We can only mention a few in our space to-day, but come along. The values will be here for you.

LADIES' MANTLES AT \$1.99—A quantity of Ladies' and Misses' Coats in dark and light colors, hip length, 3/4 length and 5/8 length. Tweeds and cloths. Coats that are worth from \$5.00 to \$7.50, on sale Friday at each \$1.99.

DRESS GOODS AT 35c—Nearly a thousand yards of beautiful Plaid Dress Goods in the stylish brown and blue, brown and cardinal, brown and green, cardinal and navy, etc., etc., goods that have sold regularly in this city at 65 and 75c. On Friday you get all you want of it for per yard 35c.

UNBLEACHED SHEETING AT 16c—72-inch Unbleached Sheeting, beautiful clean weave, no specks and good weight; worth to-day every cent of 25c; on Monday we will sell 250 yards of it for per yard 16c.

50c TABLE LINEN FOR 25c—Splendid quality of Cream Table Damask, 68 inches wide, in grand quality and elegant patterns, a cloth that any store would be proud to show you at 50c; Friday bargain at per yard 25c.

A BIG SALE OF MANTLE CLOTHS—Hundreds of Mantle Cloths and Mantle Tweeds, Men's Suits, Men's Trouserings, Cloths for boys' wear, etc., etc. All must be cleared. \$3.00 Cloths for \$1.95; \$2.50 Cloths for \$1.50; \$1.50 Cloths for 95c.

MAY BE CLOSE RUN FOR JOB.

Think Perhaps Marshall May Not Get It So Easily.

Part of That Property for Park Site Has Been Sold

For a Quarry, But the City Can Get It Reasonably.

Although Harry Marshall was unanimously picked in civic circles as the only man who had a chance for the position of Parks Superintendent, it was stated to-day on good authority that the contest might be a little closer than expected when the Parks Commissioners meet this afternoon to deal with the matter.

Members of the Parks Board and Board of Works yesterday afternoon inspected the piece of property in the southwest end of W. D. Platt was offered the city as a site for a park. They discovered that a piece of the property, about five acres, had been sold to Contractor Stuart for a quarry.

Although it was announced yesterday by officials of the Waterworks Department that the sanducker would be boached by last night for repairs, City Engineer Barrow explained to-day that the sucker was still in the water. The water has been raised several inches over the middle road and he intends keeping it this way so that the sucker can be beached and floated as may be found necessary.

Dr. Roberts, Medical Health Officer, said to-day that he expected to raise the quarantine on the Birch avenue house where a smallpox patient is confined, in the course of a day or so. The woman has completely recovered.

The Board of Hospital Governors yesterday afternoon decided to ask the City Council to close up Copeland avenue which runs eastward from Wellington street and becomes a dead end, the hospital owning the ground on each side. It is not expected that there will be any objection to the request.

The Hospital Board decided yesterday to pay an account of \$183.88 to A. M. McKenzie for glass installed in the new wing. In the original specifications double diamond glass was called for, but this was later amended to plate. Mr. McKenzie tendered before the change was made, and was fully entitled to be paid.

John Stinton was granted a permit this morning for two brick houses on Wilson street, between Sanford avenue and Stinton avenue, to cost \$4,000.

The amount knocked off on appeals in Ward 1 this year was \$4,015 less than last year, when the total number of appeals allowed in that ward amounted to \$12,350.

G. T. R. CHANGES.

Mr. W. D. Kennedy, who is at present master mechanic of the middle division of the G. T. R., will shortly take the appointment as superintendent of motive power on the Vermont Central Railway, with offices at Albany. Mr. James Markey, master mechanic at Allandale, will probably be promoted to fill the vacancy, and the latter's successor is likely to be Mr. J. Donnelly, master mechanic of the Canada Atlantic division.

OTHERS WILL GO.

Rome, Oct. 30.—The virtual excommunication of the Rev. Father Tyrrell, the English Jesuit, who severely criticized the Pope's recent encyclical on modernism, will, it is said, probably be followed by the adoption of similar measures against German, Italian and French modernists.

STEAMER BURNED.

Tobermory, Ont., Oct. 30.—The steamer City of Grand Rapids was totally destroyed by fire at the dock here last night. The cause of the fire is not known. The crew are safe. There was only a small insurance on the boat.

DECLARED OFF.

Norfolk, Va., Oct. 30.—The strike of the local telegraphers, which began on Aug. 14, was declared off to-day.

A Good Trait.

Admiral Dewey praised a certain successful business man. "Part of his success," said Dewey, "comes from his neat way of getting people to do what he wants them to. They say that when, as a young fellow of 22, he first opened a little trimming store, he showed this trait. "Thus, if you went in hisemporium and asked him if he would change a quarter or a half-dollar for you, he would reply with a courteous smile: "Certainly, madam; and how will you have it? Buttons, ribbon, lace or insertions?"

Fair-haired people are rapidly diminishing in number in this country. Out of 440 women counted in a London street there were 227 dark to 213 fair or redd-haired.

EL REY CHILDREN. This week's strong attraction at the Alexandra Rink.

EL REY CHILDREN

Made Another Great Hit at Alexandra Rink.

The El Rey children got a great reception at the Alexandra Rink again last night. They are one of the best attractions ever shown here, and the Alexandra Rink management has received many words of praise from their patrons for the little girl skaters, they having created a sensation at both performances given already and established themselves as great favorites in the hearts of all who have seen them.

OBITUARY.

Mrs. Ann Wheeler, for many years a highly respected resident of this city, passed away at her late residence, 73 East avenue north, yesterday afternoon, after an extended illness. Deceased was 81 years of age, and leaves two sons, one in this city and one in Chicago. Her husband predeceased her 25 years ago. The funeral will take place on Thursday afternoon, from her late residence.

Reginald Bolus, the eldest son of Mr. and Mrs. George Bolus, 10 Catharine street, passed away this morning after an extended illness of a year with tuberculosis. Deceased was 16 years of age and was a very bright and intelligent boy, well liked by all. The funeral will take place on Friday afternoon, from his parents' residence.

Lena Ferne, the nine-year-old daughter of Mr. and Mrs. Elmer Vansickle, passed away at the City Hospital at an early hour this morning, after a short illness with diphtheria. The funeral took place this afternoon and was private.

CENTRAL LADIES.

Successful Sale of Work Yesterday and Last Night.

The sale of work and afternoon tea given by Central Presbyterian Ladies' Aid Society yesterday, was a great success, of course. There is no word failure in their dictionary. The attendance was very large, the number of outsiders proving the popularity of the work of these ladies. Mrs. Lyle and Mrs. Henderson, President of the society, received the platform was banked with grain, fruit and vegetables, for a Thanksgiving Harvest Home effect, and numerous small tables with artistic covers and dainty bouquets added to the beauty. The sale tables were arranged in a large circle, with a table in the center decorated with mums. A table loaded with home-made candies was presided over by Mrs. W. R. Davis and Miss Alice Davis, and the contents looked so delicious they quickly melted away.

The fancy work table, presided over by Mrs. W. A. Wood and Mrs. Will Hendrix, was laden with pretty things. The pictures, dolls, and baby clothes were in charge of Mrs. William Marshall, and included a generous donation of twelve original water colors, in artistic frames, from Mr. Wm. Marshall.

A table of knitted and crocheted articles, shawls, scarfs, slippers, etc., was presided over by Mrs. (Mrs.) W. H. Sedgewick, and Mrs. James Dickson. Mrs. Fenwick and Mrs. J. L. Lewis had a table of aprons, towels, etc. All the prices were so reasonable nearly everything was sold.

CANADIAN CLUB.

Will Discuss Method of Electing Aldermen Next.

At the next Canadian Club meeting the question of whether Hamilton aldermen should be elected from the city at large or from wards, will be discussed. The meeting will be held in the lecture hall of the Conservatory of Music on Monday evening, Nov. 11th, and representatives of various city organizations, as well as some of the aldermen, will be on hand to declare themselves. Club members can bring friends, if they wish, as the fortnightly talks are open. Considerable interest is being taken in this subject just now, in view of the approaching civic elections, and this is really the first opportunity the people of Hamilton have had for expressing their views. The meeting will take the form of a debate, and promises to be quite important. The several young men's clubs about the city have some particularly good speakers among them, and are doing a good work.

WANTED TO DIE.

Said Good-bye, But Cup Was Knocked From Her Hand.

Buffalo, Oct. 30.—Mrs. Mary Jacobs, 23 years old, living at 120 Mertie avenue, attempted to take her life by swallowing Paris green last night. It was reported to the police that she believed a woman unknown to her was alienating her husband's affections, and denials of this by friends and reassurance from Jacobs did not relieve her mind. She mixed a quantity of Paris green early last night, and said good-bye to her family. The cup was knocked from her hand, and Patrolman Louis Bloom, of the Seneca street police station, was called. He arrested the woman on a charge of attempting suicide.

EVIDENCE WAS NOT STRONG.

But a Bad Gang Seems to be Broken Up.

No Evidence Against Fred Anderson Accused of Arson.

Other Cases Before the Police Magistrate To-day.

Arthur Hudson, vag., one year in Central; William G. Tomlinson, vagrancy and stealing brass, remanded for examination for physical defects, and committed for trial, respectively; William Doyle, vag., remanded for evidence; John Nevills, receiving stolen hides, dismissed.

The above was the disposition of the quartette which the police rounded up last week, all suspected of stealing hides from a T. H. & B. car. Hard work was experienced in getting this gang rounded up, and then not enough evidence of their guilt could be gathered to make it worth while charging them with the theft. Hudson and Tomlinson were called first and pleaded not guilty to vagrancy. The detectives and several policemen stated that they were hangers around the market and were constant companions of a gang of thieves and were out on deferred sentence themselves for theft.

Hudson did not wish to be sworn, he said, and the Magistrate told him he had to do so, and would have to go to jail for one year.

Tomlinson, being sworn, stated that while working some time ago he had his back strained, and was unable to work now. The Magistrate remanded him to the jail for a few days, till the Medical Health Officer examines his back. Doyle was associated with thieves and never working. He pleaded not guilty through M. J. O'Reilly. The police and detectives gave similar evidence against him to that of the other two.

Doyle took the stand and declared that he had worked at three places lately. He was remanded till Friday to give him a chance to get evidence as to character and to show by his employers where he had been working of late. He was allowed out on his own recognizance, as the Magistrate did not wish him to eat skilly on Thanksgiving Day.

Nevills was called next, and the Crown Attorney announced that there was no evidence against him. He was acquitted and allowed to go.

Anderson was then arraigned on a charge of stealing brass in April last from the G. T. R. He pleaded not guilty and elected to go to a higher court. He stated before the case was gone on with that he was arraigned on that charge in the Police Court in August, when he was judged as a vag, and that he was acquitted. The Crown Attorney was positive he had not, however, and the case went on. It was shown that Tomlinson and a man named James Marshall went to Weinberg's second hand store on James street south and sold 186 pounds of brass. Some of it had G. T. R. marks on it, and a lot of it had the marks chiselled off. Tomlinson had nothing to state in rebuttal and was committed for trial.

Fred Anderson, remanded till to-day on a charge of having set fire to White day, was up this morning, and acquitted, as the evidence against him was very tottery. A. M. Lewis pleaded not guilty for him. Joe Gribbin said that he was passing White's and saw the defendant in front of the place in a rig. He stopped and spoke to him about the fire at six o'clock. There in a few minutes when he saw the fire in White's, at the back of the building. He told Anderson who hurried out of the rig and opening the door, told the witness to call the department, while he went back and shut the cellar door to keep the flames down. The building and saw him helping to put out the fire. Chief Fenwick, First Assistant Chief James and Captain Gilbert all gave evidence, but could not explain how the fire started, nor could they connect the defendant with it in any way. The manager of White & Co.'s head office in Toronto, W. H. Descourt, by request, said it was customary to go to the store on Sunday and take a look around, and Anderson, being the local manager, had a perfect right to be there.

BETHESDA

Quarterly meeting will be held in the White Brick Church next Sunday evening. Quite a number from this neighborhood attended the Free Methodist quarterly meeting in Hannon last Sunday. Prayer meeting in Bethesda Church every Tuesday evening. Mrs. Dickson, Hamilton, visited at Mr. W. Burr's last week. Mrs. C. Duff spent Tuesday at Mrs. M. Brown's. Mrs. Bernice Bristol spent Sunday at Mrs. G. S. Bristol, Mrs. D. S. Bristol, Mrs. Albert Shaver, Miss Beatrice and Miss Mattie Robinson, called on Mrs. Sam Smith last Thursday. Mrs. George Smith, who has been staying at Mrs. S. Smith's, has returned to her home in Jerseyville.

REDUCE EXPENSES.

New York, Oct. 30.—Prominent railroad men gathered here yesterday to discuss the curtailment of expenses on their respective roads. The general opinion expressed was that there would be a material reduction in the outlay for the operation of railroads and in the purchase of railway supplies.

TWEEDSIDE

Forest, of Hamilton, visited her niece, Mrs. David Fleming, over Sunday. Mr. Bruce Springstead and lady friend of Hamilton, visited at the home of his parents, Mr. and Mrs. J. H. Springstead. Mr. Stewart Johnson has been spending a few days with friends. Quarterly service will be held in the Methodist Church on Sunday, Nov. 3, at 10.30. Mr. Edgar Althouse returned home from the Northwest on Friday morning looking 'hale and hearty.' He still thinks there is no place like home. Mr. Wm. Bradt, of this place, and Miss Sarah Bell of Taplestown, were quietly married in Hamilton on Oct. 26th. Congratulations. Mr. and Mrs. Norman Irvine and son, of Grassie's spent Sunday with her mother, Mrs. Now Penfold. Miss E. M. Bradt, who has been spending a short time with relatives in Binbrook, has returned home. Mrs. Wm. Hildreth and daughter Corolla, have been under the doctor's care.

FULTON

The farmers are very busy getting their fall plowing done, gathering their crop of roots and picking apples. Quite a number of young men of this neighborhood are picking apples for Mr. Joseph Tweedie on the farm of Mr. Fred Packham, Binbrook.

CAMPDEN

Dr. Hamilton, of Smithville, is moving into the house formerly occupied by Dr. Mason, on Ontario street south, and intends practicing in Campden and vicinity. Campden has luck again. The long talked of broom factory is soon to be in full swing. Some of the raw material is on the ground, and the factory is on the way. Campden should be well swept after this. The village tailors are busy. Both Mr. Ingleby and Mr. Marshall are good tailors. The Evangelical Church here intends having its annual Thanksgiving entertainment on Thursday, with an appropriate sermon in the forenoon and in the evening a programme of music and discussions on several topics by individual members of the congregation. Silver collection.

BAPTIST SETTLEMENT

Mr. and Mrs. R. Lee, of Brantford, spent a couple of days this week at Mr. Jesse Vansickle's.

Mrs. G. White, of Hamilton, spent Saturday and Sunday with her daughter, Mrs. H. B. Miller.

Mr. and Mrs. E. L. Vansickle spent Sunday at Hamilton. Miss Lena Sager has returned to her home here, after spending a number of weeks at Brantford.

Mr. Orville Vansickle and wife spent Sunday at Jerseyville. Miss F. Vansickle is visiting relatives at Scotland.

Friends here are sorry to hear that Mrs. G. Haw, of Binkley's Corners, has had the misfortune to fall and break her hip.

Mr. and Mrs. D. Kemp, of Brantford, were guests at Mr. Elias Vansickle's on Saturday evening and Sunday. Plowing is the principal order of the day. Most of the farmers have their potatoes, apples and roots in.

Miss E. M. Sager is spending a few weeks at Lynden. Mrs. M. F. Vansickle and children, of Jerseyville, spent Thursday at Mr. Elias Vansickle's.

Little Miss Vera Vansickle has been visiting Rena Vansickle.

ELFRIDA

Quarterly service will be held in Elfrida Methodist Church on Sunday next. The apple packers are busy in the orchards these days. The farmers are busy with their fall plowing.

Mr. George Cline's new house is being rushed to completion. Samuel Quince put up a new wind-wheel one day last week. The many friends of Mr. Mitchell will be sorry to hear of his severe illness.

KELVIN.

Rev. C. and Mrs. Cookman were visiting friends in Harley a few days ago. It is rather cold weather for packing apples these days. Mr. and Mrs. T. Messer, of Scotland, were guests of their daughter here recently.

Mr. M. Brown's auction sale was quite largely attended, and fairly good prices were realized. Quite a number from here attended the anniversary services at Northfield Centre on Sunday.

The cheese factory is running yet, but there is not a very large quantity of milk at present. However, the factory will run until the end of the month. Mr. and Mrs. W. Almas entertained a few friends on Sunday. Mr. Densmore, of Onondaga, was visiting relatives here recently. Quite a number around here are complaining with very bad colds. Mr. C. Wardell, of New Ontario, is visiting relatives in and around Kelvin. Mr. Berrill, of Hamilton, was the guest of Mr. J. N. Ludlow a few days ago. A number around here are at present taking their onions to the station for shipment. Mr. J. O. Benedict was in this vicinity on business last week.

Painting the Eiffel Tower. For the third time since its erection, in 1889, the Eiffel Tower is performing its task. It is as well that the process is not more frequent, seeing that it costs \$3,000. For the first renewal the color was orange, but the last time it was changed to gold. Now it is to be silver white from the third platform upward, and iron brown lower down. Forty men will be at work for three months, and 300 pintals of paint will be used. Give the children plenty of nourishing food, suitable clothing, and as much play and healthy occupations and fresh air as possible and you need not look with dread upon the quickly approaching winter.

LIBERAL WINS IN WELLINGTON.

Labor Man Badly Beaten by Beattie in London.

Conservative Elected in East Northumberland.

THE VICTORS. North Wellington, Martin (Lib.) 387

In North Wellington. Mount Forest, Oct. 29.—By a majority of almost four hundred, Mr. Alexander M. Martin, Liberal, has been returned as member of the Dominion House of Commons for North Wellington.

This feeling found decided expression in Mount Forest, where Mr. Martin obtained a majority of 157, as compared with that of fifty-eight in the last election.

When the result became known here Mr. Martin was the recipient of congratulations from the members of both parties, and there can be no doubt but that his individuality, seconded by the untiring efforts of Senator McMullen, Mr. Hugh Guthrie, M. P., and Mr. H. H. Miller, M. P., did much toward securing his return.

The details as far as received follow: Martin's Majorities. Arthur township 93, Minto 189, Hillwood village 20, Drayton 3, Mount Forest 157, Deel 100.

Hamilton's Majorities. West Luther township 2, West Garafraxa 52, Maryboro 3, Arthur 3, Palmerston 52.

*Two polls to hear from.

The London Contest. London, Ont., Oct. 29.—After what was doubtless the most quiet election campaign in London's history, Major Thomas Beattie was today elected to the seat in the Dominion House made vacant by the resignation of Hon. Charles S. Hyman on account of illness, defeating the Labor candidate, Mr. John D. Jacobs, by 1,596 majority.

Following is to-day's vote by wards: Ward—Beattie, Jacobs, Maj. No. 1 798 521 271, No. 2 605 419 186, No. 3 801 633 168, No. 4 1,905 690 403.

Conservative scrutineers say the Liberal vote was not polled. In the general elections of 1900, Hon. Mr. Hyman was opposed by Major Beattie and Mr. Robert Roadhouse (Socialist), and he had a majority of 547.

Whirled Around a Shaft. Ottawa, Oct. 29.—John A. McCallum, a moulder apprentice, employed at the Caledonia Foundry, died today at the hospital as a result of injuries received through being caught in a revolving shaft at the foundry yesterday.

Major Beattie was officially declared to be 47, and over Roadhouse 2,576.

In the by-election of June 13, 1905, with the East, West and South suburbs annexed, and Gray and Hyman the only contestants, the vote was as follows: Ward 1 1,034 1,155, Ward 2 736 645, Ward 3 1,254 1,200, Ward 4 1,229 1,273.

Totals 4,253 4,682. Majority for Hyman, 329.

East Northumberland. Campbellford, Oct. 29.—The election in East Northumberland to fill the seat left vacant by the death of the late Conservative member, Mr. Edward Cochran, was held today, and resulted in the election by the majority of 256 of the Conservative candidate, Mr. C. L. Owens. The Liberal candidate was Major Mulholland. Both candidates are residents of Campbellford.

Major Mulholland's Statement. Major A. A. Mulholland, the defeated Liberal candidate, said: "It was a straight party vote in the north. While we had everything with us up to the last twenty-four hours there, we were bought out at the last. We feel certain money was used in Campbellford and the township of Seymour. We knew it towards the last, too, and we think the money came from Toronto. The promises of the people in the north did not hold good, though we had reason to expect that they would. Towards the last the Conservatives whipped their voters into line. The statement of Hon. Mr. Graham that the Trent Valley Canal would be built, no matter which side won, was used against us with effect. Then, again, the feeling that whichever side won this election would also win the next Local and Dominion elections was worked very hard. The vote in the south of the riding was rather favorable to us, in fact, few votes remained unpolled. The voters' lists were against us to the extent of probably 150, that number of Liberals having been left off. In Campbellford alone there were 35 Liberals left off, because, not expecting an election, we did not watch the lists while in course of preparation."

Returns Quite Incomplete. With the exception of the townships of Percy and Murray, at 10:30 last night Major Mulholland stated that he thought his opponent's majority was about 250. The details are: Owens' majorities—Seymour 93, Campbellford 85, Brighton Villages 40, Brighton Township 19.

Mulholland's majorities—Hastings 49, Crumville 23, Colborne 70.

The late Mr. Cochrane's majority in 1904 was 206.

TORONTO MILK. Retailers Settle Upon New Scale of Prices.

Toronto, Oct. 30.—After Nov. 1 milk is going to cost the city householders one cent a quart more than at present. That was the decision arrived at yesterday at a meeting of the milk dealers' section of the Retail Merchants' Association.

The dealers have also advanced the price of cream. Table cream is now sold at 40 cents a quart and the advanced price will be 50 cents. Cream for shipping now retails at 50 cents, and this is to be increased to 60 cents.

TO CAPTURE BILL MINER. Mounted Police Corporal Sent After Noted Desperado.

Winnipeg, Oct. 29.—Bill Miner, the American train robber, who escaped from the penitentiary at New Westminster, is believed to be a fugitive in the fastnesses to the northeast of Prince Albert. Some time ago the news reached here that Miner had been seen in the vicinity of the pass, and was said to be making for the hills. He was armed heavily, and those who saw him are reasonably sure of his identity.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY enumerated section of Dominion Lands in Manitoba or the North-West Provinces, excepting 1 and 2, not reserved, may be homesteaded by any person the sole head of the family, or male over 18 years of age, to the extent of one-quarter section, of less more or less.

Application for homestead entry must be made in person by the applicant, or by a duly qualified agent, at the office of the local Agent or Sub-Agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

Application for entry or inspection made personally at any Sub-Agent's office may be referred to the local Agent by the Sub-Agent, at the expense of the applicant, and the local Agent may, at his discretion, refer such application to the local Agent, and the land will be sold until the necessary papers to complete the transaction are received by the local Agent.

When an entry is summarily cancelled, or voluntarily abandoned, subsequent to its cancellation, the applicant will be entitled to priority of entry.

Applicants for inspection must state in what particular the claims generally are in default, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any priority right of entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the following duties under one of the following classes: (1) At least six months' residence upon and cultivation of the land in each year for a period of three years.

COAL.—Coal mining rights may be leased for a period of one year at an annual rental of \$1 per acre. Not more than 2500 acres shall be leased for any one year or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal.

BARTON Y. M. U.

Oratorical Contest Has Been Arranged by This Union.

At the meeting of Barton Street Y. M. U. last night a challenge to Knox Church Y. M. U. to a friendly debate was issued.

An interesting address was given by Rev. R. E. Zimmerman on "Progress and the Relation of Optimism and Determination to True Success." This was followed by a lively discussion on the motion of England and America, opened by Mr. Skillen.

It was announced that an oratorical contest would be held on Tuesday, December 10th. The "Spectator" is very kindly furnishing gold and silver medals. The contest is to be open to every young man's union and debating society in the city. Every effort is being made to make this one of the largest and the most successful contests that has ever been held in the city. Particulars are to be announced in a few days.

BOILER BURST.

Engineer Killed, Fireman Hurt, Railway Commissioners on Board.

London, Ont., Oct. 30.—The boiler of engine No. 446, on the Grand Trunk accommodation from Detroit, due in London at 11 o'clock, exploded two miles east of Newbury, at 11 last night, and Engineer R. Rutherford was killed, and Fireman J. Robertson badly hurt. Thirteen passengers on the train escaped injury. Conductor McAniff, Brakeman A. McCallum and Baggage-man S. Finch, all of this city, were not injured. The accident occurred while the engine was making fair speed along a straight stretch of track, and came without warning, and it is believed that Rutherford was instantly killed. Fireman Robertson is reported to have been injured internally. Engineer Rutherford had been in the employ of the company for many years, and had a good record. Attached to the rear end of the train was the private car Arcadia, of the Railway Commissioners, comprising Hon. A. G. Kilham, Hon. N. E. Bernier and Dr. James Mills.

The explosion caused a detonation which was felt in the passenger coaches and the private car behind. Three lady passengers were greatly frightened.

A Hopeless Thing. Ex-Senator Dubois, of Idaho, in Aurora, Ill., said recently:

"Mormonism, with its attendant polygamy, is, look at it how you will, a bad thing a hopeless thing—a bad and hopeless as the case of Jacob Smithers."

"Jacob Smithers, criminal," he went on, "that in his cell making paper boxes when a dear old lady looked through the peep-hole in the door inquiringly."

"You poor man," said the old lady, "I guess you'll be dead when your time is up, won't you?"

"Wall, no'm, not particularly," Jacob Smithers answered; "I'm in for life."

THANKSGIVING

(By Margaret E. Saugster.)

For the days when nothing happens, For the cares that leave no trace, For the love of little children, For each sunny dwelling place, For the stars of our fathers, And the cloths where we pray, Take, O gracious God and Father, Praise this Thanksgiving Day.

For the quiet, uneventful, Blessed progress of our lives, For the love of friends and neighbors, Parents, children, husbands, wives, For the ever-present knowledge That our Saviour is our own, On this day of glad thanksgiving Prayers rise to reach the throne.

For our dear ones lifted higher, Through the darkness to the light— Ours to love and ours to cherish, In dear memory, beyond sight, For our kindred and acquaintance, In thy heaven who safely stay, We uplift our song of triumph, Lord, on this Thanksgiving Day.

For His wonderful and loving kindness, Warded hence by sovereign love, For the country, strong and hopeful, Songs arise to God above, Never people called and chosen, Had rich loving kindness shown As this people, God defaced! Therefore, praise to the throne.

For the hours when heaven is nearest, Blessed the program of our lives, For the very gloom oft broken, For our looking for the King; For our hearts that His is coming, For our courage on the way, Take, O Friend, unseen, eternal, Praise this Thanksgiving Day.

ST. ANDREW'S.

Annual Meeting Held and New Officers Elected.

The annual meeting of St. Andrew's Society was held last evening, and a very large attendance of the members was present. The Charitable Committee presented its report showing the disposition of the moneys of the society during the past year, to many deserving Scotchmen. A new list of the members and also the constitution will be printed in a few days.

The annual celebration of St. Andrew's Day will be held on the 29th of November, when a smoking concert will be held and a very interesting programme given. The concert will, of course, be of a Scottish nature. The annual sermon to St. Andrew's Society will be given this year by Rev. Mr. McLaughlan, of St. James' Church, of this city. The service will be held in St. Paul's Church on the first Sunday in December. The election of officers for the ensuing year, resulted in the following being chosen:

Hon. President, John Wright. President, Dr. McEdwards. First Vice-President, William Hunter. Second Vice-President, W. H. McClelland. Secretary, W. Davenport. Treasurer, James Chisholm. Auditors, W. H. McLaren and J. Riddell. Charitable Committee, W. Scott, J. Lyon, A. Cameron, J. Anderson, W. Robertson. The officers were installed by the Past President, Mr. George Milne.

DUNDAS COUNCIL.

Some Necessary Work Arranged For—Other Town News.

Dundas, Oct. 30.—A special meeting of the Town Council was held last evening for general business. All the members were present excepting Councillor Mount. The Board of Works made the following recommendations, which the Council concurred in:

First—That a cement crossing be laid down on Park street, opposite the house of Mr. Austin, and a walk three feet wide be put down from this crossing on north side of Park street easterly to the first pair of houses west of the creek.

Second—That a walk, three feet wide, be laid on the south side of Victoria street, from Albert to Princess streets. The bridge on McMurray street, when rebuilt, be widened from six to eight feet, providing the Valley City Sealing Co. agree to indemnify the town against any damage to their property east of McMurray street, and that forty feet of sheet piling be constructed easterly from the north abutment, on the north side of the stream and thirty feet on south east side to protect the bridge.

The special committee re High School building reported that it had considered the details relating to the submission of the plan and other questions connected with the matter, and that another meeting would be held to receive the opinion of the town solicitor in certain legal points, when further report will be made.

The Finance Committee reported as follows and the report was adopted: "First—Re Cumming vs. Dundas. The town solicitor had been instructed to again offer \$150 in settlement of the case, if refused, to allow the plaintiff to proceed.

Second—After an interview with J. D. Pennington the committee recommended that water be given him at the same rate as is paid by the Bertram Works and this rate to continue so long as the water is not used for power or manufacturing purposes.

The Council adjourned early. The Citizens' Committee announced an entertainment in the town hall on Nov. 14. Among those who will contribute to the programme are Owen Smiley, the popular Toronto entertainer, and Miss Myrtle Donald, Thornton's orchestra

ST. PAUL'S GUILD.

Nominations Last Night; Election at Next Meeting.

The second meeting of St. Paul's Church Young Men's Guild was held last evening in the schoolroom. The constitution, which had been drawn up by a committee appointed at the first meeting, was submitted, and after a few amendments was approved of. Nominations for officers were then taken place. The election will be held at the next meeting. A Programme Committee was appointed to arrange for the next meeting. The critic's remarks brought the meeting to a close. It was decided last evening that the new club should meet on the second and fourth Tuesdays of each month. The next meeting will be held on Nov. 12.

The college at Valparaiso with 5,141 students ranks second of those on this continent in point of enrollment.

The Day Before Thanksgiving.

(By Hope Darling, in the Northern Agriculturalist.)

"To-morrow will be Thanksgiving at home. There will be the dear old church service and the family dinner with all the aunts and cousins. Then in the evening the crowd will meet at Midge's this year. They will sing, and—"

Jessie's chambers could go no further. Down into her dining room she went, only to be followed by another and another. It was the young wife's first year away from her eastern village home. The winter before Carl Chambers had had a long illness, and the doctors had agreed that, for a few years at least, he must live out of doors. A farm in the West had been purchased and Carl and Jessie had begun life anew.

The crops had been good. Carl was strong and well. Still, there were times when the burden of homesickness bore heavily upon Jessie's slender shoulders, and that November morning was one of the times.

Suddenly the outside kitchen door flew open to admit Carl.

"Hi! Hi! The turkey before I go, little wife. Say, isn't that someone we can invite for to-morrow. It seems as if—"

"If our Thanksgiving would be more—well, more like old times."

It had not been easy for Carl to say just what he meant. Jessie had not turned from her dishwashing, and it was difficult to talk when one must address only the smooth coils of brown hair. There was a moment's silence. Then Jessie wheeled round, a crimson flush coloring her face.

"Thanksgiving! The word is a mockery here. I have nothing to give thanks for. You need not kill the turkey. I shall prepare no turkey of a feast."

Carl Chambers' handsome Saxon face grew pale. His voice trembled a little as he said:

"Nothing to be thankful for, Jessie? We have—each other."

Jessie made no reply. Instead she rattled her china recklessly. Carl waited a little, then stepped out of the door, closing it softly behind him. The dishes were soon drained and put away. Entering the sitting-room, broom in hand, Jessie's glance rested on the table, which was strewn with books and papers.

"Carl is so careless, always leaving things about! I'll carry some of these papers upstairs."

Hastily sorting over the periodicals, she gathered all save those of recent date up in her arms and ascended the stairs. Above there was a tiny hall from which two rooms opened. It was the back one of these that gave entrance to the garret where the papers were to be stored.

"How close the air is here," Jessie thought as she entered the back room. She laid down the papers and threw up a window. It looked out over the fields, brown and serene where they were covered with a growth of fall-sown wheat. A grove was near, the leafless trees outlined against the dazzling blue sky. Afar in the distance gleamed the water of a little lake.

Jessie's anger faded as she stood looking out of the window. With a sigh she picked up the papers and approached a small door that opened into the garret. This door fastened on the outside with a catch. Jessie stepped into the inner room, leaving the door ajar behind her. The garret was unfinished, there being no floor save a few loose boards laid down. The roof sloped so that a person could not stand upright only in the vicinity of the door. There was no window and a few crevices along the cornice and the open door serving to light the room.

Mrs. Chambers had just reached the box in which she intended to place the papers when the door closed with a violent bang.

"It is the draught from the window," Jessie said to herself. The closing of the door made the light very dim. Jessie groped her way across the room and pushed against the door. It did not open. She tried again, with the same result. The jar of closing had fastened the catch.

"Why, what will I do?" unconsciously Jessie spoke aloud. "I must open it. That was easier said than done. Again and again she struck the door, she pressed upon it with all her strength, and, finding a stick upon the floor, she tried to pry it open. It was all in vain; the door remained closed. Jessie had worked hurriedly, impatiently. She stopped and stood leaning against the wall, trembling in every limb. She called: "Carl! Carl! Come and help me out!"

There was no response. It seemed to the prisoner as if the noise of her voice filled the low apartment. She must make herself heard. There was a noise below stairs. Jessie knew that it was the opening of the kitchen door. Carl's voice could be heard. He was ready to start on his proposed drive to the town, eight miles distant, and had stopped at the house to tell his wife good-bye. Jessie hoped that when he did not reply Carl would come in search of her.

The call was repeated. Mrs. Chambers waited no longer but cried out as loud as she could. There was no reply but she heard the kitchen door slam. Then came the rattle of the wheels. Carl had gone. Calling, crying, screaming, Jessie pounded upon the door until her hands were bruised and smarting. She was alone in the house. Carl would not return until the middle of the afternoon. She must open the door.

The strongest determination is sometimes held in check by the resistance of matter. When, exhausted and sobbing, Jessie dropped down on the garret floor, she understood that she was a prisoner. Her tears ceased to flow. Resentment and anger possessed her.

"Carl ought to have looked for me," and she set up, putting back her disordered hair. "The idea of my having to stay here all day. What will I do? It is too dark to see anything. Carl ought to have looked for me. He ought—"

Jessie stopped. Carl had gone away with her cruel, unjust words ringing in his ears. He had thought her too angry to reply to his good-bye. What was it she had said to him? "What was it to give thanks for?" To his plea that they had each other, she had refused to reply. After one more ineffectual effort to open the door, Jessie Chambers sat down on a box and gave herself up to thought. Why was she so dissatisfied, so unhappy in her new home? Much of the work of the farm was new both to her and to Carl, yet they were prospering, and she had not found her tasks distasteful. She missed her old associates, she longed for the friends of her girlhood, but she was making no effort to win new friends.

Was there nothing here to recompense her for what she had left? There were many bright young people around them. Some of these had not enjoyed the advantages that had been the portion of herself and her husband. Carl had desired to make for themselves a place in

this new circle. He had talked of their doing much to shape public sentiment, to make their home community a better place, and she had laughed at him. Had she nothing to give thanks for? Jessie's mind went back to the days when Carl's life had been in danger. How she had prayed, in fiercest agony, asking only that he might be spared to her! He had grown strong, and yet she had "nothing to give thanks for."

Time wore on. Jessie was cramped and cold. At intervals she renewed her attempts to force open the door. She did not succeed. After each effort she went back to the box and her thoughts. About noon she heard the rattle of wheels. The wagon stopped at the gate. Could it be that Carl returned earlier than she had expected? It was not Carl, for she had heard a loud knocking upon the door. Jessie cried out, hoping to attract the attention of the caller, no matter who it was. She could not make him hear. After a second rapping, she again heard the rattle of wheels, and knew that the wagon had passed on.

How slowly the hours dragged by! Jessie could hear the striking of the sitting-room clock. Often she thought it must have stopped, the striking seemed so long delayed.

As she sat there, in the semi-gloom, the young wife made many resolutions and plans for the future.

It was not until the dim light began to grow still dimmer that Jessie allowed herself to grow uneasy over Carl's continued absence. He always reached home before three, and the clock was striking four. Darkness came on swiftly, and nervous fear when the clock struck five.

What could be wrong? "If something has happened to Carl! O God, grant that I have not learned my lesson too late!"

Six o'clock. Then she heard the rattle of wheels. The wagon was driving up to the barn. Carl had come! It was Carl. All day he had carried a heavy heart. As he sprang from the wagon, he saw that the farmhouse was in darkness and a strange fear took possession of him.

"Can it be that Jessie has gone away? Perhaps she has been as wretched to-day as I have been. Oh, it was a mistake, our coming here! I might have better stayed in the east and died."

Carl unhitched the horses and put them in the barn. Without waiting to remove the harness he started for the house. As he entered the kitchen door he called out:

"Jessie! Little wife! There was no reply. Carl found a lamp and lighted it. His breath was coming hard and fast. Where was his wife? There were no fires. The rooms were not in order. Going into the bedroom, he found that the bed was still airing. Jessie was gone, and apparently had been gone all day.

Just then a peculiar noise attracted Carl's attention. It was a muffled beating, and when he was in the sitting room he seemed directly over his head. In a moment he was in the door, and almost fear, Carl Chambers opened the stair door. Yes, the noise came from above. He ascended the stair, holding the lamp high.

"Carl! Carl!" It was his wife's voice, and sounded as if it came from a distance. "Carl, I am here! Forgive me for being so wicked this morning. I have so much to be thankful for, but the best of all is you."

It took some time to make the matter plain to Carl. When he understood, he was all tenderness and compassion. He drew Jessie downstairs, and soon had a brisk fire burning.

"Lay down, dear, and rest. I will get you some supper."

Jessie laughed gleefully. "Rest! I have had plenty of resting. We will both have to work, for we must prepare our Thanksgiving dinner this evening. Why were you so late, Carl?"

"Against Jessie threw her arms round her husband's neck, hiding her face on his shoulder.

"We will stay here, Carl. I have had time to-day to think—yes, and to give thanks. Help me to begin over, Carl. What you said was true—we have each other, and that is enough."

A few minutes later she lifted her head to say:

"You must go kill the turkey, Carl. After supper we will dress him. In the morning we will go to the services at the schoolhouse, and for dinner we will invite those two little boys who are 'backing up' the pretty school teacher."

"How can you get ready, dear?" Carl asked, helplessly. He was dazed by the change in his wife; it seemed too good to be true.

"Oh, I can manage with you to help me. We will not have dinner until six. You know I have mince-meat ready and fruit cake baked. I feel as if I could work all night, after I have had some supper. Carl, we will help the teacher organize the reading circle she talked of. There is so much to do—so much to give thanks for!"—The Northwestern Agriculturalist.

GOT PURSE.

Presentation by Chalmers' Church to Mr. Sarkissian.

Monday night the congregation of Chalmers' Church, Mount Hamilton, tendered a farewell to the retiring pastor and his wife, Rev. S. H. and Mrs. Sarkissian, at the home of Mrs. Nicol. Rev. John Young acted as chairman, introducing an interesting programme, the most enjoyable part being a speech by Mr. H. Bryant, in which he presented to Mr. Sarkissian, as a token of esteem and love, a well-filled purse, as a small token of esteem and love the people of the mountain have for him.

Mr. Sarkissian very feelingly replied, thanking the congregation for their kind words and love shown to both him and Mrs. Sarkissian, and although he was leaving them at present, he would not be very far away, and would be pleased to come and visit his friends on the mountain whenever possible. Among those present were Mr. Sarkissian's aged father and mother. An abundant supply of refreshments were then served, and after singing "Auld Lang Syne" the large gathering of people left for home.

Mr. Sarkissian preached his farewell sermon on Sunday evening last. For the next four Sundays Knox College students will preach in Chalmers', and then the congregation will vote, the one receiving the most votes to take charge of the church until next season. The student in charge will receive \$8 per Sunday, he continuing his studies during the week at college.

Our New Press

(Stratford Beacon.) The Hamilton Times has recently added to its equipment a new press which has brought its mechanical equipment up to the highest class. It is now one of the best newspapers, as it has always been one of the very best edited journals in the Dominion. The evidence of appreciation is shown in the fact that Hamilton as seen in its columns is testimony to a fine discernment on their part, which is a tribute to their intelligence.

ON BROWNING.

Last of Professor Moulton's Fine Course of Lectures.

The last of the course of lectures by Prof. R. G. Moulton, of Chicago University, under the auspices of the Hamilton Teachers' Association, was given yesterday afternoon in Centenary Lecture Hall, the subject being "Browning's 'Caliban Upon Setebos.'" The full title of Browning's poem is "Caliban Upon Setebos." It deals with natural theology on the island of Caliban, with the instincts and intelligence of an early savage, has, in an hour of holiday, set himself to conceive what Setebos, his mother's god, is like in character. He talks out the question with himself, and because he is in a vague fear lest Setebos, hearing him soliloquize about him, should feel insulted and swing a thunderbolt at him, he not only bites himself in the earth, but speaks in the third person, as if it was not he that spoke, hoping in that fashion to trick his god.

Browning invents a grammar for Caliban. Pronouns come late in the evolution of languages and he invents a prosody suitable for Caliban's verse. Caliban seems utterly incapable of rising in the world of being. This tendency raised to an infinite power represents Setebos.

Browning is frequently spoken of as obscure; but he is not obscure in the usual acceptance of that term. His obscurity is the obscurity of excessive vision.

The members of the Hamilton Teachers' Institute were most fortunate in their selection of a man who is not only a master of literary theory and interpretation, but who can also convey his thoughts to others in clear and forceful style.

At the conclusion of the lecture, Mr. Robinson, in words of deep appreciation, moved that a vote of thanks be given Dr. Moulton, which was heartily seconded by the Rev. Dr. Lyle, and unanimously carried.

GROWING FAST.

Springer Estate is Now Said to Be \$90,000,000.

Mr. Daniel Ashwell, of Piccadilly street, London, Ont., is the latest claimant to the Springer millions. The estate, by the way, has grown, within the last few days to ninety million dollars.

One of the direct heirs residing in Hamilton, and who, from costly experience knows more about the estate than any one else, is willing to take one cent on the dollar and surrender all claim to his share.

MACHINE GUNS MADE SHORT WORK OF ARMY SAPPERS.

Vladivostok, Oct. 29.—A mutiny this morning among a number of the recently arrived army sappers was quickly suppressed by the use of machine guns.

A battalion of sappers armed with rifles tried to capture one of the barracks here, but two companies of a rifle regiment which were quartered there brought machine guns into action and routed the attackers. 2 dozen of the latter were killed or wounded.

SHOT BY WOMAN.

Supreme Head of the Russian Prisons Assassinated.

Admitted to Room With High Explosive in Her Bosom—Tried to get at it on Being Arrested—The Assassination a Prelude to a Greater Terrorist Outrage.

St. Petersburg, Oct. 29.—General Maximoffsky, Director of the Department of Prisons in the Ministry of the Interior, was shot and killed yesterday.

The general was the highest responsible official connected with the Russian prisons, and it is supposed that this was the reason he was selected for assassination by the terrorists.

The murderer was a young woman, Mrs. Ragoznikova, the daughter of a teacher in the Imperial School of Music. She avowed herself to be an emissary of the northern flying section of the Social Revolutionists, who had been entrusted with the task of punishing Maximoffsky for the stern regime which he had lately introduced in the treatment of important political prisoners, who he ordered to be treated like ordinary criminals.

The young woman presented herself at the station of General Maximoffsky, and remained quietly in the crowded ante-room until it was her turn to enter the general's private office. When she was in his presence she drew a revolver and fired seven shots point-blank at the general. Six of them took effect. The wounded man groaned, but he was not killed. His condition was immediately recognized as hopeless.

The assassination apparently was designed to be only a prelude to a greater act of terrorism—the destruction of the headquarters of a secret police, which has been the object of at least three terrorist plots of recent months.

When the assassin was taken to the police station her agitated attempts to free her bound hands and reach her breast led to an investigation, and it was found that she carried inside her clothes a small explosive, a charge powerful enough to blow the entire building and its occupants to pieces. Her portrait is in that part of the police gallery marked "The assassin of Maximoffsky." She remained three hours in the general's reception room before being recognized. She pretended that her mission was to obtain better diet for her brother, who is sick in prison. It is understood that she will be court-martialed.

FOR HALLOW'EEN.

While one must use the imagination in telling fortunes by the leaves, there is always a great deal of amusement in the pastime. The reader should be dressed in a manner that her identity is unknown to those present. In the first place she must possess a high sense of humor and a bright fancy.

Serve the tea in small cups and do not drain it from the cups. Each person drinks his or her cup of tea, draining it of every drop. The cup is turned upside down in the saucer, turned three times, then the reader gets her vivid imagination to work. The objects nearest the rim of the cup are for first consideration. A leaf is a lady, a stem or small stick indicates a man. Long, wavy lines are misfortunes, four-leaf clovers good luck, likewise horseshoes. Letters are initials of loved ones, trees are good signs, squares mean letters, letters with money if dots are close by. A horse is a new lover, a dog or deer a good friend. In fact, one can see anything and call it what he may. It is all nonsense, yet helps to fill out the Halloween programme. The pleasure is in the merryment the reader causes by her jovial spirit in a fun-provoking reading of the fates.

HALLOW'EEN DECORATIONS.

An attractive centerpiece for the dining table would be a large pumpkin filled with yellow chrysanthemums. A candlestick may be improvised from small pumpkins by cutting holes in them to fit the candles. Place one of these at each corner of the table.

The round summer squashes may be employed in a similar manner for holding candles. Another pretty centerpiece is made from a jack-o'-lantern filled with cattails and grasses.

Outline a lace centerpiece and the accompanying doilies with pumpkin seeds. For favors use large, rosy apples with a jack-o'-lantern face cut on each one. Menu cards may have pictures of owls, black cats, witches, brownies, etc., printed on them.

Garlands and festoons of colored popcorn are effective when suspended over the table and extended to the four corners of the dining-room.

Have yellow and red apples strung on wires of different lengths and suspended over the centre of the table by fastening the wires to the chandelier.

Small fancy cakes may be decorated with jack-o'-lantern faces by using an ink-writing paper.

For souvenirs have books made of black paper containing Halloween signs, superstitions and charms printed in red ink.—What to Eat.

FALLS TO DEATH.

New York Banker Tumbles From Window Into Street.

New York, Oct. 29.—Through a report to the police made 24 hours after his death, it became known tonight that Charles Rapello Henderson, head of the banking firm of R. Henderson & Company, 24 Nassau street, and a director in several of the largest financial institutions of New York, died on Sunday after a fall from the window of his home. There were two witnesses to the accident, and Mr. Henderson lingered only an hour and a half after he was found. He was partly conscious, so that his efforts to talk were incoherent, so that no explanation could be obtained from him.

The home of the banker is on the corner of Madison avenue and 65th street.

On Sunday after his breakfast he retired to his room on the second floor. Shortly before noon Mary Lynch, a servant in the house, ran to the other members of the family, telling them that Mr. Henderson was lying in the yard in the rear of the house. He was carried into the house and a physician was summoned.

Mr. Henderson was then in a dying condition. There was an abrasion on the back of the head at the base of the brain. An examination showed that several of his ribs had been broken and he evidently had suffered internal injuries. He mumbled incoherently and lived about an hour after the arrival of the physician.

MUTINEERS SHOT.

Machine Guns Made Short Work of Army Sappers.

Vladivostok, Oct. 29.—A mutiny this morning among a number of the recently arrived army sappers was quickly suppressed by the use of machine guns.

A battalion of sappers armed with rifles tried to capture one of the barracks here, but two companies of a rifle regiment which were quartered there brought machine guns into action and routed the attackers. 2 dozen of the latter were killed or wounded.

RUSSIAN GIRL KIDNAPPED.

Taken Away From Companions at Theatre Door in London.

London, Oct. 28.—Barbara Laponkhin, daughter of Alexander Laponkhin, ex-Governor of Revel, and whose mother is a Russian Princess, has mysteriously disappeared. Miss Barbara, who is eighteen years old, was visiting London with her younger sister in charge of an English governess, Miss Russell. The trio went to the Aldwych Theatre, Oct. 24, and on coming out Barbara became separated in the crowd from her companions, and has not been seen since. The governess recently received a note in a handwriting which she recognized as Barbara's, saying that she had been kidnapped and was suffering from a wound. She hinted at suicide.

REFUSED THE OFFICE.

Bank of Canada Newly Elected Directors Resign.

Winnipeg, Oct. 28.—A number of gentlemen, who were elected directors of the proposed new Bank of Canada at the meeting on Saturday during their absence, have refused to accept the appointment. Among the number are Mr. Edward Brown and Senator Watson, of Portage la Prairie.

ACCIDENT TO A TORONTO BUILDER

John Felstead, a builder, of 312 Wilton avenue, Toronto, was working on a temporary scaffold, the plank broke, and he fell through. He received several severe cuts on the leg, a bruised knee and a thorough shaking. Zambuk, the herbal balm, was applied to the cuts and gave him great relief. He says:

"Zambuk was so effective that I was able to go on without a day's break from work. Zambuk takes the soreness out of a wound at once, and then it commences to heal. It is without doubt a wonderful balm for skin injuries, and I am glad to make this virtue known."

Zambuk is a sure and speedy cure for cuts, bruises, and all skin diseases. At all stores and druggists, 50c. box. For the Zambuk Co., Toronto, 3 boxes for \$1.25.

FOR HALLOW'EEN.

While one must use the imagination in telling fortunes by the leaves, there is always a great deal of amusement in the pastime. The reader should be dressed in a manner that her identity is unknown to those present. In the first place she must possess a high sense of humor and a bright fancy.

Serve the tea in small cups and do not drain it from the cups. Each person drinks his or her cup of tea, draining it of every drop. The cup is turned upside down in the saucer, turned three times, then the reader gets her vivid imagination to work. The objects nearest the rim of the cup are for first consideration. A leaf is a lady, a stem or small stick indicates a man. Long, wavy lines are misfortunes, four-leaf clovers good luck, likewise horseshoes. Letters are initials of loved ones, trees are good signs, squares mean letters, letters with money if dots are close by. A horse is a new lover, a dog or deer a good friend. In fact, one can see anything and call it what he may. It is all nonsense, yet helps to fill out the Halloween programme. The pleasure is in the merryment the reader causes by her jovial spirit in a fun-provoking reading of the fates.

HALLOW'EEN DECORATIONS.

An attractive centerpiece for the dining table would be a large pumpkin filled with yellow chrysanthemums. A candlestick may be improvised from small pumpkins by cutting holes in them to fit the candles. Place one of these at each corner of the table.

The round summer squashes may be employed in a similar manner for holding candles. Another pretty centerpiece is made from a jack-o'-lantern filled with cattails and grasses.

Outline a lace centerpiece and the accompanying doilies with pumpkin seeds. For favors use large, rosy apples with a jack-o'-lantern face cut on each one. Menu cards may have pictures of owls, black cats, witches, brownies, etc., printed on them.

Garlands and festoons of colored popcorn are effective when suspended over the table and extended to the four corners of the dining-room.

Have yellow and red apples strung on wires of different lengths and suspended over the centre of the table by fastening the wires to the chandelier.

Small fancy cakes may be decorated with jack-o'-lantern faces by using an ink-writing paper.

For souvenirs have books made of black paper containing Halloween signs, superstitions and charms printed in red ink.—What to Eat.

FALLS TO DEATH.

New York Banker Tumbles From Window Into Street.

New York, Oct. 29.—Through a report to the police made 24 hours after his death, it became known tonight that Charles Rapello Henderson, head of the banking firm of R. Henderson & Company, 24 Nassau street, and a director in several of the largest financial institutions of New York, died on Sunday after a fall from the window of his home. There were two witnesses to the accident, and Mr. Henderson lingered only an hour and a half after he was found. He was partly conscious, so that his efforts to talk were incoherent, so that no explanation could be obtained from him.

The home of the banker is on the corner of Madison avenue and 65th street.

On Sunday after his breakfast he retired to his room on the second floor. Shortly before noon Mary Lynch, a servant in the house, ran to the other members of the family, telling them that Mr. Henderson was lying in the yard in the rear of the house. He was carried into the house and a physician was summoned.

Mr. Henderson was then in a dying condition. There was an abrasion on the back of the head at the base of the brain. An examination showed that several of his ribs had been broken and he evidently had suffered internal injuries. He mumbled incoherently and lived about an hour after the arrival of the physician.

Tigers Eager For the Fray With the Rough Riders.

Attell Won the Featherweight Championship Bout Last Night—Many Entries for the Amateur Bouts at Toronto.

There was a poor turn-out of the senior Tigers at the practice at the Cricket Ground last night, as most of the players felt that they were not yet entirely over the effect of Saturday's game at Montreal and instead of working out on the field went over to Dr. Kelly's Sanatorium and went through the treatment which the doctor has provided for them. The boys have all promised to be on hand to-night and will go through a light running and signal practice in final preparation for the championship game to-morrow with the Ottawa Rough Riders.

AN OLD MAN'S LONG WALK.

Portland, Me., Oct. 30.—Planning to duplicate his feat of forty years ago, of walking to Chicago, a distance of 1,230 miles, in 26 days, Edward Payson Weston started at 5 o'clock last night from the Portland Postoffice, amid the cheers and good wishes of fully one thousand people, who had gathered to see his start. He is 69 years of age. Mr. Weston was greeted by a number of friends, including former Mayor James P. Baxter, who watched his departure forty years ago, and was accompanied to the South Portland City line by Joseph C. Sterling, who as police officer, escorted him over the same route on the first walk. Mayor Clifford witnessed his departure and administered an oath that the conditions of the feat had been complied with. Mr. Weston expects to arrive at Chicago Postoffice at 2 p. m., Thursday, Nov. 28, averaging about 50 miles a day. He will go by way of Boston, Troy, Utica, Syracuse, Buffalo, Toledo and Cleveland. There was an arrangement for Henry Semehl, of Chicago, to start at the same time for Portland.

H. R. C. STEEPLECHASES

The annual steeplechases of the Hamilton Riding Club will be held next Saturday afternoon, just east of Ryekman's Corners. Four events will be decided, all of which are over a good stiff country. The entries which close on Friday promise to bring together some of the best horses in the club and furnish some excellent sport. Buses will leave the Mount Pleasant at 9 o'clock and the first race will be called at 3 o'clock sharp.

POOR OLD UNCLE.

Uncle—Bobby, I hear you are learning to swim. Bobby—Yes. So are you, ain't you, Uncle? Uncle—No, my boy. Why? Bobby—Oh, I heard father say yesterday that you had a hard job to keep your head above water!

BIG WRESTLING ASSOCIATION.

Buffalo Grapplers Going at the Game in Earnest.

Elwood Hughes Received a Letter From the Great Swedish Runner, Who Was Second to Sherring in the Marathon Race—The Course Longboat Will Take To-day.

Buffalo, Oct. 30.—The wrestlers of Central Y. M. C. A. are planning to form a wrestling association which, when completed, will be the most powerful and compact organization devoted solely to wrestling ever organized in western New York. With that object in view a call has been issued for every devotee of the grappling game—past, present and prospective—to assemble in the wrestling room at Central by nine sharp next Saturday evening, where the club will be formally organized, officers elected, plans discussed and whatever other necessary steps taken to place the affair in a thriving condition right at the outset.

ABOUT THE RUNNERS.

Hughes Receives a Letter From Svanberg, the Swede.

Toronto, Oct. 30.—Elwood A. Hughes, the Toronto runner, who sprained his ankle just before the Athens Olympic race last year, and was unable to face the starter, yesterday received a letter from John Svanberg of Stockholm, the Swedish runner, who finished second to Will Sherring of Hamilton, in which Svanberg says he will be a starter in the British Marathon. He says he is a greatly improved since Athens, and that he is the logical choice of the Swedish athletic body. Svanberg ran a great race in Athens, and Mr. Hughes says that he should be a contender in the great event.

THE BIG ROAD RACE.

The round-the-bay race will start at 9 o'clock to-morrow morning at the Herald office. It is likely that 25 or 30 of the 42 runners entered will start, but it is not probable that more than a dozen will finish. The officials will be: J. M. Harris, referee; J. W. C. McMillen, associate referee; A. J. Taylor, judge at the finish. R. B. Harris, D. S. Gillies, J. A. McPherson, John Bain, C. A. Mitchell, A. Stewart, Joseph Harris and C. W. Kirkpatrick, patrol judges.

VESSEL TIED UP.

Norwegian Boat Owners Being Sued By Hamilton Firm.

St. Catharines, Oct. 30.—Sheriff Dawson, acting on a writ issued by R. O. & A. Mackay, Hamilton, has tied up the steamer Pollux at Port Dalhousie. The steamer is a Norwegian boat, manned entirely by Norwegians. She came out some time ago and was chartered by the Mackays to take a cargo of wheat to Norway. When loading was begun it was discovered that the vessel's hold was covered with coal oil, and the officers refused to clean it. Messrs. Mackay cancelled the contract, and are suing the owners of the boat for \$4,000 damages.

STOVE BOYCOTT.

BUCK STOVE AND RANGE COMPANY MAKES NEW MOVE.

Seeks Temporary Restraint—Complainants Made That Stove Dealers Are Warned by Labor Unions to Shun St. Louis Company.

New York, Oct. 30.—Another move has been made by the Buck Stove and Range Co., of St. Louis, in its legal campaign against the boycott by the American Federation of Labor against the company's products. Through its counsel, J. J. Darlington and W. C. Sullivan, a petition was filed, asking a temporary injunction against the boycott.

Chief Judge Calabough, of the District Supreme Court, directed the Federation to show cause on Friday, November 8th, why an injunction should not issue against it and its subordinate organizations to prevent publication of the company's name in the "We Don't Patronize" list and other actions, pending hearing of the equity proceedings begun last August.

Among the dozen exhibits filed with the petition is a copy of a notice to stove dealers in the St. Louis labor, a periodical, warning them not to offend organized labor by patronizing the Buck Stove and Range Company. A similar notice in the Labor Times Herald, of Fort Wayne, Ind., states that local merchants handling the Buck products had just missed being put on the unfair list. Another exhibit shows scores of notices from the Federationist, an official organ of the American Federation of Labor, that various firms have been placed on the unfair list.

INDIAN INK.

So-called Indian ink, to be more correctly called China ink, is the most valuable product of China to every part of China and all over the world. Last year about two tons of it, valued at \$200,000, were exported from Shanghai to foreign countries. The material with which this beautiful black ink is made are securities of war, and is expressed from the poisonous seeds of a tree extensively cultivated in the Yangtze Valley and also in the United States. To this varnish and pork fat are added. The lacquered made by the combustion of these substances, is passed according to the materials and the grade of fineness, and also according to the time taken over the process of combustion. The price of the finished ink has some glue added, and is beaten on wooden anvils with steel hammers. Two good hammers will prepare in a day 50 boxes, each weighing half a pound. A certain quantity of musk of the musk deer or of Baron camphor, for coloring, and gold leaves, varying from 20 to 300 to the pound, are added to give a metallic lustre. The materials thus prepared are molded in molds of carved wood, dried, which takes about 20 days in fine weather, and adorned with Chinese characters in gilding. About 20 to 25 ounces of sticks of ink 20 to 30 inches long, and 1/2 inch in diameter, are made from 100 to 150 pounds of the material. Nearly all writing is done by the natives throughout China, Japan, Korea, Tongking and Annam with this China ink, rubbed down on a stone ink slab and applied with a paint brush or sable, fox or rabbit hair, set in a bamboo-holder and often not used, are carefully covered with a protecting brass cap. The superior kinds of this ink appear to be used in China and its exports.

SCIENCE BRIEVITIES.

London has 300,000 one-room dwellers. Soap has been known to the world for 3,000 years. A mouse seldom lives longer than three years. The annual fish catch of England is valued at \$53,960,000. The factories of Japan close on the 1st and 15th of each month. The absorbing capacity of a brick is about sixteen ounces of water. About 1,200,000 people are always afloat on the seas of the world. It is estimated that American tourists spent \$40,000,000 in Europe last summer. In 1897 there were only sixteen motor-cars in Britain. Now there are nearly 6,000. The army of American tourists in Europe last season is estimated at 100,000. Lord Kelvin opened the science buildings of Queen's College, Belfast, on Sept. 20. Nearly half the meat eaten in Berlin is beef; pork comes next, then mutton, while veal is fourth.

Malt Beverages Have Real Food Value

Though mistaken zeal sometimes classes beer with the intoxicants, common sense and medical knowledge will teach you its real worth as an item of daily diet. For beer is four times as rich in food elements as potatoes, nearly as rich as fresh wheat bread, and its proteids (body-builders) reach the stomach in the form easiest digested. The very small proportion of alcohol in Ontario beers helps the other food to digest quickly and easily. Quit thinking of beer as an intoxicant—learn how valuable it is for people with weak stomachs or slack digestions. A novel proposition is occupying the attention of a special committee of the Paris Municipal Council, in the form of a scheme to construct a series of moving platforms which are to form a circle in the centre of Paris underneath the grand boulevards and the Boulevard St. Germain. It is proposed to have three running roadways moving at different speeds. Passengers would step of the fixed platform to the slow-rolling platform, and from that to the faster ones in turn. A trial has proved that getting on and off the platform is as easy as boarding an omnibus. It doesn't take a dressmaker to ruffle a woman's temper.

BATTLES WITH RAT.

Bites Through Sailor's Boot and Holds on Like Dog. London, Oct. 29.—A remarkable story of a man's fight with a rat comes from Holywood, Belfast. The rat, which was as big as a good-sized dog, and has been pronounced a copy, a large rodent, frequenting the Rio de la Plata, sprang from the clump of grass and made a fierce onslaught on the man. This was met with a well directed kick, but it dashed back again, and this time sank its teeth through the sailor's boot and held on like a terrier. It was five minutes before the man killed the animal, which fought with great ferocity. It is thought that the animal was brought to Belfast in a trading vessel.

GIRLS STILL OUT.

Waitresses Will Not Get Up So Early in the Morning. St. Thomas, Oct. 29.—The dining-room girls of the Grand Central Hotel went out on Monday and are still standing by their guns. The trouble arose from their refusal to report for duty in the mornings at 6 instead of at 7, which has been the practice for the past. Manager Cameron secured a supply of waitresses 10-day and things are moving as usual.

SEVEN POSTMEN

Appointed to Deliver the Letters to Guelph People. Guelph Mercury: An official of the Postal Department at Ottawa is in the city to-day in connection with the establishment of the delivery service. This afternoon he is out looking over the city, with a couple of postmen.

The delivery service will be commenced within two or three days, although it cannot be said, definitely, when the whole city will be covered. It will probably be worked up by degrees.

Some Snap Shots at Sport and Sportsmen

Perhaps they are sending Longboat to Toronto over the long route so he will not have to pass any road houses or drinking places. A New York paper says that the winners on the eastern tracks this season of twenty owners amounted to over \$1,000,000, but it fails to say what bank the money is in. The many friends here of Mr. S. S. DuMoulin, formerly captain of the champion Tigers, will be glad to learn of his advancement in the west. He has been appointed manager of the Bank of Hamilton's branch at Moose Jaw, Alberta. Ottawa College seems to have adopted the old Ottawa motto, "Get the man and the ball will take care of itself." Williams was the dangerous man on Queen's team last Saturday, and college "got" him. His injuries are such that he is out of the game for the season. Why didn't the bookies on the road race explain to the police that the coat of living has increased? Coley, of the Irish-Canadians, first; Lawson, West End, second; Fowler, of Boston, third, and Green, of the Irish-Canadians, fourth, is T. C. Flanagan's dogs on to-morrow's Hamilton Herald race. By the new C. A. A. U. boxing rule adopted at the special meeting of the board of governors on Saturday it is impossible to frame up a bout to flummox the public. Not only is it in the referee's power to stop a bout when one of the contestants is not boxing on his merits, but the rule makes it compulsory on the official's part. He does not declare it no contest, and thus injure the man who is doing his best. The pair are retired from the ring, and the amateur at fault is declared out of the competition and out of athletics for good. Toronto World: The first game between Toronto and Ottawa Universities recalled medieval times, says a writer in the Detroit Free Press. In the United States, where clergymen are frowning down the game, it is seldom the case that wearers of the cloth are found on the catching lines at football games. Such is not the case in Toronto, however, for at the game mentioned the Rev. Biddy Barr, a Presbyterian minister and head coach of the Toronto fifteen, urged his men on against their opponents, while the Rev. Father Staunton, coach of the Ottawa team, cheered his men to victory over their Presbyterian rival. The reverend gentlemen were the subjects of much "joshing" by the spectators during the match, and were not averse to handing out some good-natured jokes themselves at each other's expense. Both clergymen were adepts at the game during their college days, and their praises are still sung by the old-timers who watched the battles of years ago.

IN THE WORLD OF AMUSEMENT

It looks as if the Savoy would be sold out in advance for the holiday performances to-morrow, so brisk has been the demand for seats. During the evening the prizes won in the "Bay" trace will be presented to the winners.

A Night in a Police Station, the one-act musical comedy by Joe Maxwell and a company of eleven people, was not operated in the advance notices. It is about the finest attraction of the class seen here yet, the singing of the company being splendid. The stage shows the interior of a police station, and the frolic begins with the arrest of several chorus girls for exceeding the speed limit in an automobile. The girls are prettily dressed and they have excellent voices. A broken-down actor, who applies for lodgings, injects a good dash of comedy into the act, which is bound to continue a good drawing card for the rest of the week. The Three Ernestos Sisters have a wonderful aerial act, in which they do many sensational acrobatic feats. Johnny Johns, "The Boy from Dixie," is a big favorite. He affords several minutes' enjoyable entertainment with new jokes and catchy songs. Hal Merritt is another who is making a big hit, his poster girl pictures proving a pleasing novelty. In addition he keeps up a quick fire of wonderful imitations. Dewar's dogs and cats are as pleasing an animal act as has been seen here this season. They are well trained, and a feature is the high diving trick of one of the little dogs. Other pleasing numbers are Haydon and Davis, in a bright little skit, and Reed and St. John, presenting a novel musical act. The moving pictures this week are of more than usual interest, showing several splendid pictures of Sherring, the world's champion long distance runner, winning the Marathon race at Athens, and the great Olympic games.

Wood, the somewhat different monologist, is a whole show in himself. He has a fine line of talk. There are few acts which combine such perfection in acrobatic skill and dog intelligence as that of Belini and his dogs. Wesson, Walters and Wesson have a clever sketch in "The Hotel Repose." For to-morrow, Thanksgiving Day, Manager Driscoll has arranged to have the results of the football matches announced from the stage.

The "Social Whirl," which the Shuberts will present at the Grand on Tuesday next. It is a burlesque of the scandal sheet which derives its support from the blackmail of persons of wealth and social position. Charles J. Ross and Mabel Fenton will head the cast of about eighty people. Seats will be on sale on Saturday.

"The Wizard of Oz" which is enjoying greater success than ever, comes to the Grand on Friday and Saturday. Fresh life has been injected into the extravaganza this season by the introduction of many new songs. The Scarecrow and Tin Man are sure of a welcome, and will doubtless excite spasms of laughter with their new travesty on football.

The Scarecrow is about the only person it would seem, whose bones are gelatinous enough to endure the modern college game, while the Tin Woodman wears the only sensible armor for a football player. As a consequence, "The Wizard of Oz" is one long, delightful frolic of the people working on the stage, and for the spectators sitting before the footlights. Seats are now on sale.

Adventures of Cab 23. The Vitagraph Co. promises an exceptionally good programme for the holiday, and also entire change of programme for Friday and Saturday. One film to be shown to-morrow, entitled "Adventures of Cab 23," is claimed to be well worth the price of admission alone. "The Inquisitive Boy" is another good one of the extremely ludicrous sort, and "Touring Scotland" is a very interesting travel subject.

At Bennett's Theatre. The audience was so large at Bennett's last night that the S. R. O. sign had to be put up shortly after 8.30. The excellent bill this week is not passing unnoticed by local theatregoers, and the indications are that to-morrow the house will be packed. There is a sensational trapeze act this week that is a leader for all others, and a clever dog and acrobatic act, which along with several delightful singing and dancing acts completes a bill second to none. The most laughable and cleverly produced feature on the programme is "Motoring." It is presented by Harry Tate's company of English comedians, and they certainly take the cake. The merit is all based on the breaking down of an automobile. None of the occupants of the car know how to repair it, and during their efforts to make the best of a bad job they almost completely wreck the machine. Della Fox, the great comic opera star, makes a pretty appearance, but the audience has to be satisfied with three songs, which she renders in a delightful manner. It is in the act of Zeno, Jordan and Zeno that the audience receives its thrills. The trio of acrobats perform a number of clown stunts which keep the audience in roars of laughter. The act is far in advance of anything of the kind ever seen here, and some of the tricks are truly remarkable. George

Berlin, Oct. 30.—Harvard University has mixed up the plans of the Kaiser for a German-American educational rapprochement in a pretty fashion by sending to Germany as this year's "exchange professor" a full-fledged Britisher instead of an American. The professor in question is William Henry Schofield, who is a native of Canada, an alumnus of Toronto University and a subject of King Edward. Together with President Hadley, of Yale, Professor Schofield will make his inaugural address in the presence of Emperor William and the American Ambassador at the University of Berlin to-day.

Mr. Schofield was formerly on the faculty of the Hamilton Collegiate Institute. Toronto retail milk dealers have advanced the price of milk a cent a quart. Mr. Richard Watson, a former Toronto school trustee, is dead.

MUST DRESS WARMLY.

ADVICE OF AUTHORITY, ALSO GIVES A SIMPLE PRESCRIPTION.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home-made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

JUDGE AND JURY.

A MAN OF MANY PARTS IS THIS GENTLEMAN.

Superintendent Harness, of Grey County House of Refuge, Who is Also a Magistrate, Fined an Inmate.

Owen Sound, Oct. 30.—Referring to the report of the Grand Jury on House of Refuge affairs the Sun says:

The superintendent appears to have been running things with a pretty high hand. An instance in point has come to our notice. Last April one of the inmates broke one of the rules—was insubordinate. For the offence she was condemned to three days' close confinement on bread and water diet. But this was not all. She had infringed by-law No. 644 of the county of Grey by disturbing the peace of the female inmates of the House of Refuge. So Thos. Harness, Superintendent of the House of Refuge, lays an information against her for the breach. Before whom? Before Thos. Harness, Esq., one of His Majesty's Justices of the Peace in and for the county of Grey! On the 15th day of April, 1907, Thos. Harness, Esq., J. P., hears the case. Thos. Harness, Superintendent, prosecuting. Harness, J. P., finds the prisoner guilty, and imposes a fine of one dollar, with six dollars' costs; in default of payment, twenty days in jail. The unfortunate prisoner of the conviction appears to have been made to the "Cell." The Peace. One sees from this that Mr. Harness is a man of many parts. Indeed, he seems to have solved the problem of being in two places at once—at the bar and on the bench. We give this story without comment—comment is needless. It is correct throughout; we have the best of vouchers.

STUDENT PRANKS,

Showing How Idiotic Presumably Sane Men May Be.

Reila, Mo., Oct. 28.—As a result of class rivalry twenty sophomores of the State School of Mines were routed out of bed last night, and, half clad, were tied to trees on the campus, where they remained until daylight, shivering in the nipping atmosphere. After they had been released by other sophomores the entire sophomore class captured twenty-five freshmen, bound their arms with ropes and chains and marched them around town, accompanied by the school band.

School Director Young was forced to declare a holiday to-day, as the class rooms were vacant. The trouble arose over the refusal of the freshmen to obey the order of the sophomores to wear greener caps with yellow buttons.

TWO BABY GIRLS.

Children's Aid Society Would Like to Find Homes.

The usual monthly meeting of the Children's Aid Society was held yesterday afternoon in the parlour of the Y. M. C. A. There was a good attendance, the President, Mr. Adam Brown, being in the chair. Miss Elsie Forbes, the newly appointed recording secretary, assumed her duties and read the minutes of the last meeting, which were confirmed. Quite a volume of correspondence was received from wards of the society and their foster parents, which were of a most satisfactory and encouraging character. Some changes were made in homes. Mr. Hunter reported two cases he had before the Magistrate, in one of which six children were handed over to the society temporarily, and placed by the society in St. Joseph's Orphan Asylum. Mr. Hunter reported several cases, a number of which will have to come before the Magistrate, as there has been no improvement. Several accounts were passed. The society has two baby girls, about six months old, which it would like to find homes for.

An Expert Witness. A. L. Erlanger, the theatrical magnate, says: "I have come to think that outdoor advertising for theatres is very largely a waste of money. Our business, like any other, must depend upon advertising for success. It is only the method of advertising that needs to be considered, and you may put me down now more than ever before in favor of the advertising columns of the newspaper." As the conclusions of a theorist these assertions would not be worth the paper they are printed on. As the conclusions of a practical man, who has tried all kinds of publicity, and has now pinned his faith to the best, they are worthy of the consideration of the promoters of other enterprises that are dependent on the support of intelligent people—that is, of newspaper readers. DEAF MUTES ARE INCREASING.

One Fact Brought to Light by the Volta Bureau.

Washington.—On a quiet street of Washington's once fashionable neighborhood Georgetown there is a building whose peculiar appearance arouses the curiosity of all strangers who see it. It is something like a library, something like a museum, and something like a small Christian Science church with a roof garden on top.

It is none of these. If you know what it is, even after you are told its name, you may step right along to the head of the class. Persons who know about the Volta Bureau are not plentiful enough to get in your way.

The story of the Volta Bureau is interesting. The beginning of it lies back in Italy more than 150 years ago, when Alessandro Volta, who was to make a study of electricity, was born. Later Napoleon had a great opinion of the Italian scientist and established the Volta prize, a great reward for inventions or discoveries, is not conferred at regular intervals. In fact, it has been given only three or four times. In 1880 it was voted to Dr. Alexander Graham Bell in recognition of his service to the world in producing the telephone.

The prize amounted to about \$10,000. Dr. Bell was a rich man, so he set apart the sum as a fund to be used for the benefit of the deaf.

First he invested it in one of his own inventions. That turned out so well that the original \$10,000 became \$100,000 and the Volta fund was a sizable sum. Part of this money was used for that building of haphazard aspect in Georgetown. Helen Keller herself turned the first spadeful of earth on May 4, 1894. Part of the structure really is a library, and absolutely unique at that. At the rear of the building, which is fireproof, are the steel book stacks containing thousands of books, periodicals and pamphlets, forming the most remarkable collection of statistics in regard to the deaf that exists anywhere in the world.

Dr. Bell has the best reasons for being interested in the deaf. His own wife is, though it is no longer an accurate term, Mrs. Bell has been taught speech, and as she is an accomplished lip reader many persons have met and talked with her without discovering her deafness.

It was Dr. Bell himself who taught her to speak. His father, Alexander Melville Bell, invented the system known as visible speech, and sent his son from Scotland to this country to introduce the method in schools for the deaf here.

Among the young men's pupils was a daughter of Gardiner G. Hubbard. Her teacher fell in love with her and she became the wife of the inventor.

The Volta Bureau corresponds with almost every civilized country in regard to work for the deaf. On its shelves are books in all languages. Its aid is sought by various Governments, and it has sent a representative to this country to study our system of instruction for the deaf and the man thus sent

greatest interest to-night in the infant son of the Spanish King and Queen. The laboratory in which the inventor worked is across the street from the Volta Bureau. It is a vine-covered red brick building at the rear of a corner lot. The large house on the front of the lot was the former Bell home, but was given by Dr. Bell to one of the scientific associations in which he is interested. He still uses the laboratory occasionally.

FEEDING HUNGRY.

Great Growth of the Canadian Milling Industry.

In an article entitled "The Romance of Milling" in the November number of The Canadian Magazine, the supremacy of the Canadian West in the milling industry is strikingly shown, and it is incidentally observed that credit for having the largest flour mills operating under the British flag is claimed by a Canadian concern, the Lake of the Woods Milling Company. The daily output of this great concern is 10,500 barrels. That it represents 47,000 bushels of wheat, which at twenty bushels to the acre represents the product of 2,350 acres. But that is for only one day. Take a year of 300 working days, and we have a representation of 705,000 acres. A Canadian Northwest homestead consists of 160 acres, so that the annual output of this milling company would consume the aggregate crop of 4,400 homesteads, even if every acre was cropped with wheat. The average crop of each homestead is perhaps eighty acres, so that the annual output really represents the aggregate crop of 8,500 homesteads.

Ten thousand five hundred barrels a day make a yearly aggregate of 3,150,000 barrels. One barrel of flour will make 140 two-pound loaves of bread, and therefore the annual output of 3,150,000 barrels will make 441,000,000 loaves. Giving the average family ten loaves a week, this output would supply 882,000 families for a whole year. Allowing two loaves a day to every man, it would maintain an army of 10,000 men in fighting form for seventy-three years.

An average loaf is about eight inches long. If, therefore, the total output of these mills was reduced to loaves of bread placed one in front of another the line would reach twice around the world, with enough left to connect Winnipeg with Liverpool.

IS NOT A UNITARIAN.

The Rev. Dr. Crummy Defends Dr. Workman.

Toronto, Oct. 30.—Rev. Dr. Workman, whose resignation has been requested by the Board of Governors of the Montreal Methodist College on account of his theological views, has been misjudged, according to Rev. Dr. Crummy, pastor of Bathurst Street Methodist Church. Dr. Crummy says that Dr. Workman's general position is quite in accord with many of the best theological scholars who have specialized on the Old Testament, and that his views are substantially accepted by many of the younger men of the Methodist ministry to-day. "I am quite in agreement with Dr. Workman's position myself," states Dr. Crummy, "while admitting a tendency towards dogmatism on the part of the professor, maintains that Dr. Workman's views are not unitarian. He says the word is used too freely and expressly denies that Dr. Workman holds any view contrary to the Divinity of Christ."

NEW BRAKEMAN KILLED.

Stepped on Main Line and Was Hurled Forty Feet.

Whitby, Oct. 29.—Brakeman W. Leamy, of the northern division Grand Trunk passenger train from Lindsay to Whitby, was killed here this morning at 9.40 while switching his train around the "Y." At the junction he stepped on the main line and the second section of No. 4 from Montreal struck him with such force as to throw his body over forty feet, killing him almost instantly. His head had been only at work a few days. His home is in Lindsay, and he was unmarried.

POSTMASTER HURT.

Serious Accident at Kelly's Crossing of the C. P. R.

Orangeville, Oct. 29.—John Davis, civil engineer and postmaster at Alton, received terrible and possibly fatal injuries about 7 o'clock last evening. He was driving from Melville across to Alton in a heavy rig driven by Bert McLellan, when the horse became frightened at the headlight of an approaching C. P. R. train for Teeswater. Davis jumped, but fell, his feet not clearing the track. The left leg was mangled below the knee, and the sole of the right foot injured. The scene of the accident is known as Kelly's crossing, and is very dangerous. Davis' left leg was amputated last night. He is 55 years old, and his injuries, owing to his age, are very serious. McLellan was unhurt.

IS JUDICIAL SYSTEM ROTTEN?

Chief Justice Meredith Indignant at Motion Made.

Toronto, Oct. 30.—Chief Justice Meredith waxed wroth yesterday over a motion presented by counsel for G. O. Barton in an action brought by J. W. Kay and one T. H. Fisher, who claimed \$500 damages over the transfer of certain shares in Nipissing Mine. The defendant's motion was to have Kay's name removed as plaintiff, and after a full presentation of facts counsel was interrupted.

Maidenhood.

Where the buds are white and pink, On the trees the bursting green, In the land of "Oh, I think," In the years, years that have been; 'Neath the blue of perfect skies, With the smile upon her lips, And the world at finger tips.

Merging from the dewy morn,

Dazzling is the noon-day heat, And the thunder of the storm, With its quick, pulsating beat; Watching shadowy figures glide In a new weird, regrettable. Still does dim regret abide For the morning prayer and song.

To the future vaguely reaches,

With a tearful glance behind; Listening, while the new hour teaches, With a new word, that seems to find That vast something for which speaks All the longing of the heart, In the land where mankind seeks For the still great, unknown part. —Minnie Evelyn Henderson, in The Canadian Magazine.

Young Men's Coats

There is no greater clothes critic than the young man—no one more familiar with what is correct.

The Coats we have here this season for young men are modelled after New York designs, and no matter how much the conservative dresser may admire the English models, "Broadway" styles suit the young Canadian better—so he thinks.

ORDERS FOR GREAT BATTLE.

Rules That Will Govern the Manoeuvres To-morrow.

Extracts From Command Orders Issued at Toronto

And Orders to the Local Regiments Participating.

Hamilton, Ont., Oct. 29, 1907. No. 112.—Extracts from command orders dated Toronto, Oct. 7, 1907, are published for information of this corps. Distribution and command. The several units in M. D. No. 2, hereinafter named, will engage in a tactical exercise on Thursday, 31st inst. (Thanksgiving Day): the 13th Regiment, Hamilton. This exercise will form part of annual drill.

General idea. A southern force (grey) has reached Brantford unopposed, and is moving on Hamilton.

A northern force (red), based on Guelph, is ordered to check the advance of the enemy.

Ammunition. Blank ammunition to the extent of 20 rounds per man will be issued. An immediate collection of unexpended ammunition must be made at the close of operations.

Private property must be respected. Compensation officers will accompany troops, whose duty it will be to assess damage and report delinquents. Claims afterwards made for loss or destruction caused by the troops will be charged against the unit implicated.

Extraneous assistance. No extraneous assistance in the form of motor cars, wagons, etc., will be allowed during the exercise. Bicycles will only be permitted to scouts and orderlies.

No. 113.—Orders of officer for week ending Nov. 2. Lieut. Laidlaw; next for duty Lieut. Black.

Regimental orderly sergeant, Color Sergt. Ellis, A. Co.; next for duty, Color Sergt. Freeborn, B. Co.

No. 114.—In accordance with above command orders, the regiment, less the brass and bugle bands, will parade in drill order, with haversacks over left shoulder, at 7.30 a. m. on Thursday, Oct. 31. Officers will wear swords.

No. 115.—Each man will carry a mid-day meal in his haversack. Hot coffee will be provided.

No. 116.—The brass and bugle bands will parade at the Radial Station, corner of Gore and James streets, at 3 p. m. sharp, and will proceed by Hamilton & Dundas Railway, and join the regiment at the junction of Ancaster and Dundas roads.

No. 117.—Officers commanding companies will be most particular to examine rifles, cartridge pouches, etc., before leaving the Drill Hall, and must sign a certificate to the effect that there is no ball ammunition in same and hand to the adjutant.

No. 118.—At the close of the operations, arms will be examined and an immediate collection of unexpended ammunition will be made. Rifles will be carefully wiped out during lunch hour.

No. 119.—The Regimental parade for Nov. 1 is hereby cancelled. No. 120.—The Regiment will parade in review order on Friday, 8th November, at 7.45 p. m., for the annual inspection

and muster. Every man must be present or doctor's certificate presented. No. 121.—All arms, accoutrements and small stores must be returned to the Drill Hall after parade on Friday, Nov. 8. Arms, armories, books and stores will be inspected on Friday, 15th November, at 3 p. m. One officer per company will attend. By Order, PERCY DOMVILLE, Captain, Adjutant.

RECEIVER ASKED.

TWO AND ONE-HALF MILLIONS CLAIMED FROM SYNDICATE.

Cobalt Lake Company Action—Statement of Claim by Mr. J. J. McConvey Was Filed Yesterday at Osgoode Hall.

Toronto, Oct. 30.—Mr. J. J. McConvey has filed at Osgoode Hall his statement of claim in his action against the Cobalt Lake Mining Company, and Sir Henry M. Pellatt, Messrs. Thomas Birkett, Britton Oiler, G. F. Henderson, D. G. Rochester, Raymond Manca and J. H. Avery. Plaintiff sues on behalf of himself and all other shareholders, except the defendants and "those among whom shares of the said company have been improperly distributed."

It is alleged by plaintiff that the individual defendants formed a syndicate for the purchase of Cobalt Lake from the Government, and effected this for \$1,085,000. Then they formed a company with a capital of \$5,000,000, and purported to transfer the property to the said company for \$3,625,000, engaging to give a good title. Adverse claims to the property having been made, the syndicate applied to the Government for a patent, which was granted, but the plaintiff claims that this was illegal, and that the caution registered against the property has prevented the record of the letters patent.

Plaintiff claims that the individual defendants should not have been allotted shares for more than \$1,085,000, and that they are therefore liable for \$2,540,000.

The writ asks: 1. Payment by the individual defendants of the said sum of \$2,540,000. 2. That the stock paid for at par issued to the directors or promoters or others on their behalf or with the knowledge, and consent of the individual defendants or any of them, be either delivered up to the defendant company to be cancelled, or in default thereof be paid for at par by the individual defendants to the company.

3. Payment by the individual defendants of all the costs and expenses of and incidental to the promotion of the said legislation, and the abortive attempts to perfect the title of said company to the said property.

It winds up with the application for a receiver.

INVENTORS' WORK.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of J. C. Ayer & Co., Lowell, Mass., U.S.A.

Everything is in readiness for the big sham fight west of the city to-morrow. It is expected that hostilities will begin promptly at 10 o'clock in the morning, and that the "cease fire" will sound about 2 o'clock.

The arrangements are now complete as to the transportation of the troops and horses. The 9th Field Battery and the mounted section of the Engineers will leave Toronto this afternoon at 4.50 with the umpire, staff and orderlies. The rest of the force will entrain to-morrow morning between 8 and 9 o'clock.

The general idea of the fight is that a southern force (grey) is moving on Hamilton from Brantford, and a northern force (red) is moving from Guelph to check the advance. The nature of the country suggests that the centre of the conflict will be the "old red mill" in the Dundas Valley. This part of the country is rough and covered with bush, while the surrounding district is open.

A conference of officials will be held at the Hamilton rifle ranges immediately after the "cease fire" sounds. The officers of the directors' staff, the senior umpires and staff, the commanders of forces and of regiments and independent bodies will form the conference, and will start operations by a luncheon served at the range headquarters. After the decision is reached, the officers will go to Hamilton for dinner, at the invitation of the Hamilton regiments.

The Field Engineers are not taking their pontoon wagons, so there will be no bridge building. Roads and bridges will be "destroyed" by ticket. All the Engineers will have to do is to satisfy the umpire that they could repair or destroy, if they wanted to.

The Hamilton and other outside forces will reach the scene of conflict by early train and route march. Gen. Otter will be umpire-in-chief, assisted by a large staff. The Ottawa headquarters will be represented by Col. Shore, of the Indian army, and Major H. A. Parent, assistant adjutant general.

A few items in the orders are worthy of notice: Before troops armed with rifles or carbines leave camp to manoeuvre, pouches will be examined to see that there are no rounds of ball ammunition in them. Compensation officers will accompany troops to assess the damages and report the delinquents. This last rule was found to be very effective last year, and has a strong preventative effect.

All the troops will be back in Toronto by 6.30 at night if everything runs as smoothly as expected. There are to be war correspondents at the sham battle this year, and they will be accorded all the privileges that go with the regular role. They will wear red badges on their arms to distinguish them from the spectators.

DAWSON CITY.

THE FLUSH TIMES OF EARLY DAYS A THING OF THE PAST.

The Dredge Has Taken the Place of the Miner—Water Supply for Individual Claim-Owners a Serious Problem, Says Dr. Lachapelle.

Vancouver, Oct. 29.—"The Yukon Council has asked Commissioner Henderson to make representations to the Minister of the Interior in the direction of securing some kind of relief in regard to the water supply on behalf of individual claim owners in Dawson districts," said Dr. J. O. Lachapelle, Vancouver, on his way to Montreal from the north. "We are face to face with a mining situation anything but favorable to the country as a whole, the serious problem created by the possession by a large company of two principal courses of water supply. Water, and nothing but water, is the prime requisite in working placer ground. Under existing circumstances the individual claim owners are virtually in the hands of a few monopolists."

While appreciating the splendid enterprise of the New Yorkers, the large expenditures they are making, and sincerely hoping to see them making handsome returns on their investment, I believe that the question of other vested rights should not be lost sight of. Controlling as they do the two most available sources of water supply, grave danger threatens the individual claim owners. Wherein lies the remedy? Some kind of relief from the present intolerable situation will be heartily welcomed by the entire population in the district. The problem is a very complex one, requiring careful consideration by the authorities. Times are very quiet in the north. All the mines have suspended operations for the winter, except a few properties on Sulphur, Quartz and Black Hill Creeks. The former glory of Dawson has departed. It has no semblance of its former self of the good old days.

"Unlike in the earlier years, owing to lack of employment miners and laborers now go outside for the winter. All in all, the immediate outlook is not too encouraging. During the past season between fifteen hundred and two thousand men were employed by the large mining companies principally in improvements. With the inauguration of dredging operations there is a great reduction in the force of laborers em-

WARNING TO AUTOMOBILISTS.

Reckless Driving Discussed in Toronto Police Court.

Toronto, Oct. 30.—"I want the impression to get abroad that automobilists must consider pedestrians," said Col. Denison in the Police Court yesterday morning. "The drivers of autos will have to bear the blame when they run over any person. People have a perfect right to walk about our streets without risking their lives, and because a man happens to be absent-minded, it is no reason why he should be injured when he does not hear the auto horn tooted."

The case was that of Victor Otto, charged with reckless driving. The defendant knocked down the complainant, Q. Zurick, on Bloor street, and severely injured him. Zurick was alighting from a street car when the auto, coming from behind, struck him.

"The auto was only going at the rate of about six miles an hour," said the counsel for the defence. "It had no business to knock a man down going even at the rate of one mile an hour," replied Colonel Denison.

The case was complicated by the fact that the injured man has entered a suit for damages in the Civil Court. Colonel Denison said that he did not wish to have a double sentence imposed. Crown Attorney Corry pressed for some penalty. "There should be a lesson taught to automobilists," he said, "it would do the public a great deal of good if we showed these men that reckless driving will not be tolerated. Besides, it is Mr. H. C. Hammond, owner of the machine, who will be sued."

"Mr. Hammond would probably have to pay any fine imposed in this court," replied Colonel Denison, and allowed Otto to go on suspended sentence.

JUDGMENT RESERVED.

Grand Trunk Appeal on Two-Cent Fare Order.

Ottawa, Oct. 29.—In the Supreme Court to-day Mr. A. E. Bailey, s. c., on behalf of the Province of Ontario, concluded his argument in the appeal of the G. T. R. vs. Robertson; from the order of the Railway Commission re-ordering the railway company to provide third-class fare at two cents per mile. Judgment was reserved.

Mr. W. J. Mitchell, a former wholesale druggist, at Toronto, died at his residence, 96 St. George street.

IRISH MOB STOPS ORMOND HUNT.

CRISIS REACHED IN DISPUTE BETWEEN LEAGUE AND GRAZERS.

Police Swept Aside—Crowd Armed With Sticks Gathered at Master's Residence—Hunted Members of the Hunt as They Came to the Assembly—A Threat to Lay Poison on Fourteen Farms.

New York, Oct. 29.—The Herald has received the following "special" despatch from Dublin: Matters have come to a crisis in connection with the dispute between the Ormond Hunt, King's County, and the local branch of the United Irish League. The latter is opposed to the grazing system and has been agitating for break up the grazing lands and for their distribution to enlarge small holdings.

The graziers are the chief obstacle. Certain graziers are members of the Ormond Hunt, and the league some time ago informed the Hunt Committee that if they were allowed to follow the hounds the hunt would be stopped. No negotiations ensued, and it was then announced that the Messrs. Kenny, who are chiefly aimed at, agreed not to hunt during the season.

This, however, was not considered sufficient and the United Irish League circulated a notice broadcast on Sunday calling on the people to assemble their hounds at the opening of the meet this morning, at the master's, Mr. Craddock's, residence, and teach the insolent men a lesson by stopping the hunt.

More than five hundred people, all armed with heavy sticks, assembled, and headed by a band, marched to Mr. Craddock's residence. Meanwhile, the followers of the hounds were beginning to assemble, about one hundred mounts turning up. These were grained at, and so threatening was the aspect of the crowd when Mr. H. M. White Spooner and some friends were driving back that Mr. Spooner drew a revolver.

As the crowd drew near Mr. Craddock's place they created a terrible din, the band playing, horns and tin whistles being blown, and others cheering.

At the entrance to the private grounds in front of the mansion, Mr. Corbet Craddock and half a dozen police cleared the way, but were quickly swept aside, and an excited throng of several hundreds broke down the ornamental shrubs and swarmed all over the place, amid waving sticks and the ringleader declared that the hunt would be stopped.

At this juncture Mr. Michael Hogan, M. P. for North Tipperary, arrived and exerted his influence to prevent the breach of peace which seemed very imminent. As Mr. White Spooner was standing at the front door a couple of dozen men ran toward him with uplifted sticks, shouting: "Now draw your revolver on us. Shoot us if you dare!"

Mr. Hogan succeeded in inducing the crowd to withdraw. He was at one with them, he said, in stopping the hunt, but they should not resort to violent means.

Shortly after Mr. E. F. Saunders, President Says the Telegraphers' Strike is at an End.

New York, Oct. 29.—After being deposed and expelled from the Presidency and membership of the National Executive Board of the Commercial Telegraphers' Union, Sylvester J. Small, again today declared himself the legal President of the organization. He advises the men to return to work.

In a long statement issued to the press and his former followers, Small explained he had obtained concessions from both telegraph companies to be effective on condition the men would go back to work.

He said the men would be taken back without discrimination except those against whom serious charges were pending with the companies.

Superintendent Brooks, of the Western Union, to-night said his company had made no offer to compromise with the strikers.

NELSON RELICS FOR SCHOOLS.

Prizes to be Given for Essays Written by Canadian Children.

Toronto, Oct. 30.—Two "Nelson plaques," made from the copper of Nelson's flagships Victoria and Plover, will be given as prizes for the best essays written by Canadian school children, boy and girl, under 16 years of age. In this plan the Minister of Education is co-operating with the British and Foreign Sailors' Society, of London. Lord Strathcona has given £1,000 to the society to aid in a plan for giving Nelson shields to every school in Canada.

ESCAPED MURDER CHARGE.

Man Who Wounded Girl at Midland Gets Two Years and a Half.

Barrie, Ont., Oct. 29.—John Jeffries, of Midland, who shot Ross Latanyville, with whom he was infatuated, in a hotel in that town, on September 3, has been sentenced to two years and a half in Kingston Penitentiary. Sentence was deferred until the present awaiting results of the "wounds," as it was feared that the girl might die. She has, however, recovered, and Jeffries was convicted of manslaughter instead of murder.

LONGBOAT'S RUN. The Redskin Started for Toronto at 12.40 To-day. At 12.40 to-day Tom Longboat, the Indian runner, started from the Waldorf Hotel to run to Toronto, to establish a record for one man between the two cities. He will go over the lake road, which is a little longer than the middle road, and is about 44 miles. It was intended to make the trip start at 12.30, but there was a delay of ten minutes, while Secretary Flanagan made efforts to get another touring car to carry a number of newspaper men who desired to follow the redman. Just before the start Tom smiled one of his longest and widest smiles, while a photographer took his picture. When Lou Marsh gave him the word, he shot up King street at a fast pace and was almost out of sight when the motor car started after him. There was a large crowd on King street, near the starting point, when the Indian started. He is expected to reach Toronto about 6 o'clock, although some bets were made that he will cover the distance in 5 hours 15 minutes. Longboat was in bed at the hotel till 12.10. Among the newspaper men who followed Longboat in the auto was Peter Spanjaard, the sporting editor of the Montreal Star. He will return to the city to-night and do some missionary work in connection with the Montreal Star's team race on Nov. 9th.
