

ENGINEERS MADE MERRY.

Spent a Great Day at Niagara Falls Yesterday.

Sight Seeing In and Around the City To-day.

Stanley Mills & Co. Trip Feature of the Afternoon.

Two very large trains pulled out of Hamilton at 8.30 a. m. yesterday, taking the visiting Locomotive Engineers to Niagara Falls for a day's outing.

Master Mechanic J. Christopher, of the T. H. & B., Master Mechanic J. Marley, of the G. T. R., Trainmaster Higginson of the T. H. & B., Trainmaster S. L. Trusler, of the G. T. R., Traveling Engineer Robert Fish and George Cooper, of the G. T. R., and Locomotive Foreman J. Ellis, of the T. H. & B., did all in their power and exerted themselves to the utmost to make everything pleasant for the visitors.

SIGHT SEEING TO-DAY.

This morning the engineers were treated to an exhibition of quick hitch-up at the Central fire station.

The Hamilton Street Car Company have provided a large number of special cars for the convenience of the brotherhood for the day.

MILLS COMPANY TRIP.

Through the generosity of Stanley Mills & Co. the members of the order were treated to a pleasure trip around the city this afternoon.

GOOD CHOICE.

Miss Steinmetz Appointed to Burlington School.

Burlington School Board on Monday evening appointed Miss Steinmetz, of this city, as assistant teacher of the continuation class.

HOGS SCARCE.

London, July 29.—As a result of a shortage of hogs, packing plants all through the district are running with greatly reduced forces.

Detroit Over Civic Holiday.

Indications are that a large crowd will take in the excursion to Detroit Saturday afternoon via the T. H. & B. and M. C. R.

THEY PASSED.

Students From This Vicinity Successful at Guelph.

Under the regulations of the department of education, a number of normal school teachers-in-training, who obtained second class certificates on the result of the normal school examinations in April last, attended the Ontario Agricultural College, Guelph, for courses in elementary agriculture and horticulture and elementary industrial art.

Certificates will be issued in the course of two weeks to the successful students. Those from Hamilton and vicinity are: Frankie A. Bennett, Hamilton; Gretta E. Faber, Dundas; Lena M. Fields, Smithville; Mary Fitzgerald, Hagersville; Mabel McClung, Cayuga; Blanche A. Robertson, Dundas; Lizzie H. Taylor, Smithville; Edna Day Twiss, Woodburn.

THAW TRIAL.

Harry on the Stand Again Pale and Haggard.

Susan Merrill's Cheque Book Not Produced.

White Plains, N. Y., July 29.—Pale and somewhat haggard, although still confident of his ability to prove himself sane and fit for release from the asylum, Harry K. Thaw appeared in the Supreme Court room to-day for the second day's examination by District Attorney Jerome.

Thaw's examination was delayed a few moments while his attorney called Clifford W. Hartridge, Thaw's former counsel. Hartridge is the man from whom Susan Merrill said she received \$25,000, paid to women and girls, alleged to have been abused by Thaw in her New York lodging house to keep them quiet.

Thaw's attorney brought out the fact that Hartridge was suing Mrs. Wm. C. Thaw for a balance claimed for his legal service, which he alleges consisted largely in suppressing revelations damaging to Thaw and his family.

Replying to questions by Mr. Jerome, Mr. Hartridge said that he had paid out considerable sums of money and that his instructions were general and did not come from Mr. Thaw. Mr. Hartridge was not instructed as to whom he should pay the money. He added that Thaw gave him small amounts of money for Mrs. Merrill, and sent word to her that "Mr. Reid says to say nothing."

Mr. Hartridge also was to tell Mrs. Merrill to keep quiet about what happened in her house, and to keep everybody else quiet and to obtain from her letters to "Mr. Reid."

Mr. Hartridge said he received a mysterious telegram Thaw addressed to Roger O'Mara, chief of detectives in Pittsburgh, directing him to get three tin boxes kept by a certain "Miss Bell" in the Highlands' exchange in that city. "Let nobody else have them," said the message to O'Mara. Another message contained in this telegram told "Miss Bell" to deliver the boxes to O'Mara, and cautioned her also to let nobody else have them.

NOT KNOWN.

Hamilton People Said to be in Blackmailing Case.

New York, July 29.—Lester Franklin Barry, and his wife, Theresa Miller Barry, of Hamilton, Ont., were arraigned in the Yorkville police court here yesterday, on a charge of attempted blackmail, brought by Samuel Meyers, a former deputy sheriff of Scheffstadt, N. Y.

Four letters, alleged to have been written by the couple, in which money was demanded from Meyers, form the basis of the complaint.

According to Mr. Meyers, who is 78 years old, he met Mrs. Barry, who is only 29 years old, in Broadway about five weeks ago. He saw her several times within the next few days. Then letters came to Meyers purporting to be from Mrs. Barry's father, demanding \$10,000. Barry and his wife were held in \$3,000 bail for examination on Friday.

The local police know nothing about any such people as those mentioned in the above despatch ever having been in Hamilton. The names do not appear in any recent city directories.

GOMPERS IN BERLIN.

Berlin, July 29.—Samuel Gompers, President of the American Federation of Labor, arrived here to-day to study labor conditions.

MARTIAL LAW IN SPAIN; WHOLE ARMY MOBILIZED.

African War Overshadowed—Dynasty Now In Danger—Cabinet Offers to Resign.

Barcelona Streets Barricaded—Revolutionists in Control—Desperate Fighting—Too Few Troops.

Madrid, July 29.—In view of the grave situation in Barcelona, which steadily is growing more serious, the Naval Infantry has been ordered to the city. Senor Lacierva, the Minister of the Interior, now termed the Spanish Trepoff, to-day announced that any newspaper printing reports disagreeing with official information would be prosecuted and the editions suppressed.

A statement was issued this morning by the Ministry of Finance designed to stop the fall of Spanish securities. It says that the treasury balance is \$18,000,000, of which \$13,600,000 is in gold. No extraordinary taxes are contemplated. Since the declaration of martial law throughout Spain yesterday the censorship over news has been more severe.

The complete mobilization of the Spanish army has been ordered. All officers on leave have been recalled. The reserves of all classes have been summoned to the colors. The railroad lines in the north of Spain are strictly guarded, and no one is allowed to enter Spain without the permission of the military authorities.

The garrisons at Burgos, Lagrono, Victoria and other towns are under arms. The censor forbids telegraphic communication with Bilbao. The royal family is hastily returning to Madrid from San Sebastian. It is reported that Premier Maura has tendered his resignation, but that King Alfonso has declined to accept it.

WAR OVERSHADOWED.

Paris, July 29.—The internal insurrection in Spain now completely overshadows the war in Africa in the eyes of Europe. Although official despatches received here from Madrid predict an early restoration of order in the Province of Catalonia, grave fear is entertained.

The decision of Premier Maura's Cabinet yesterday to place the country under martial law and employ the army to repress the revolt in Catalonia, and as an alternative convoking Parliament, may provoke an extension of the insurrection, which would endanger the dynasty.

Preparations now being made in Madrid to quell the disturbance include the despatch to Catalonia of the entire third and fourth army corps and the Madrid cavalry brigade under the command of Prince Charles of Bourbon, who was about to leave for Melilla. Prince Ferdinand of Bavaria is one of the squadron commanders of the first brigade.

The scales upon which the military intervention is planned prove that the

TWO MEN WERE KILLED; ANOTHER LIKELY TO DIE.

Fatal Accidents Last Night—Man's Arm Was Pulled Out This Morning—Severe Hemorrhage.

Within the past twenty-four hours Hamilton has been shocked by two accidental deaths, one serious accident, from which the victim may die, and a man picked up by the police suffering from a severe hemorrhage, who is now in a critical condition.

The first victim was John Flynn, who was unloading piles at the Grand Trunk street yard. While taking one pile down the sloping plank the end tilted up and struck him a severe blow on the back of the head, knocking him to the ground in an unconscious condition. His companions rendered what assistance they could and at once called the ambulance, in which the poor fellow was taken to the City Hospital, where he died shortly after arriving there. Deceased was a moulder by trade, but had been working as a laborer for Mr. Carson, a Government contractor at the Beach. Mr. Flynn was 42 years of age, single and had been boarding at the Beach. He was a good, steady, reliable man, and was well liked by his employer. He has a brother living on Barton street, near East avenue, and an uncle at 115 Hunter street east. His parents live in Ireland. The inquest will be resumed on Tuesday evening at No. 3 Police Station at 8.30.

STRUCK BY TRAIN.

The Grand Trunk flyer, No. 19, from Buffalo, steaming along at 45 miles an hour, struck and instantly killed Charles Harriot, an old man, 67 years of age, near the Jockey Club last night about 8.45. Harriot was walking along the track and being hard of hearing, it is supposed he did not know of the approach of the oncoming train, as the engineer blew his whistle several times near the point where the man was struck. The engineer did not realize the danger until it was too late to stop the train. Harriot was hurled a distance of 150 feet and his body was terribly mangled. Both his arms and legs were broken, besides other parts of his body being mutilated.

The body was taken to the morgue and this morning a jury was empanelled to view the remains, after which the inquest was adjourned until Monday evening at 8.15. Deceased lived in Barton Township, on the Lake Shore road, and leaves an invalid widow.

The old couple were supported by the township, Harriot being too old to work. The funeral will take place Saturday afternoon at 2.30, from Blackford & Son's undertaking parlors, King street west. Harriot was a well-known character in the city a few years ago.

He used to deliver hand bills for the various dry goods stores about the city and was known by many as a quiet, inoffensive old fellow.

HIS ARM PULLED OUT.

Monsoto Perony, 178 Barton street west, was the victim of a terrible accident about 4.30 this morning at the Queen street rolling mills, where he was employed. By some means he got one of his arms in the rollers and had it pulled completely out of the socket—so badly that, it is said, his lungs could not sustain it. He was hastened to the City Hospital in the ambulance, where he was attended to by Dr. Mullin. The latest report at the time of going to press was that the poor fellow is suffering terribly.

A BAD HEMORRHAGE.

Charles Wright was picked up by the police last night at 11.30, suffering from internal hemorrhage. Wright is a consumptive, and yesterday applied to Relief Officer McMenemy for admittance to the Hospital, and the application was granted.

Wright had previously been in the Sanatorium for the last two months and had gained 20 pounds, but he came out against the wishes of the Sanatorium authorities, with yesterday's results. His condition is very critical, and it is doubtful if he will live long.

Thirst Quenchers.

fruit farm at Oakville. The Magistrate discharged him remarking that he had better put on his new boots and make good use of them by getting out of the city.

Bridget Connors came over from Dundas yesterday and the excessive heat gave her an abnormal thirst which required considerable allaying. She endeavored to bring that about by visiting local hotels and ultimately became in an advanced state of inebriety, so much so that it was necessary to lock her up. She was fined \$2 this morning.

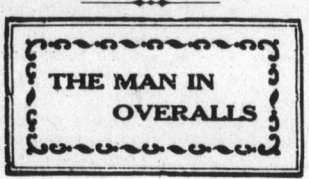

Charles Christie got under the weather yesterday and paid the customary \$2 this morning.

Henry Stock came from Oakville after work last evening to buy a pair of boots. At 1.30 a. m. Constable Thompson found him having a midnight siesta in an alley off John street, and arrested him as a vagrant. He indignantly denied such an ignominious charge this morning, and said he was working like a Trojan on a

NEW WHEAT.

Crop Is Good and the Price Is \$1.05.

The farmers are busy just now as is also new wheat. The crop of hay in this section is average, but compared with other places it is good. The farmers back over the mountain seem to have the best hay and it is considered that the crop there almost equals that of last year, which was good. Wheat put in an appearance yesterday when the first load was offered and brought \$1.05 a bushel. The farmers report that the crops are very good.

Wonder what Ald. Hopkins has got against the mountain people, anyway. It must be something dreadful.

You bet when John Patterson gets home all the other railway men will have to hustle if they want to get into the city before him.

"The Day of the Duel" series begins in Saturday's Times. Watch for the first story.

Did they try insect powder down at the Hospital?

With war abroad and revolution at home, King Alfonso won't have much time to look after the baby.

A fly cop—one who uses an aeroplane.

The satisfaction of duty well done appears to be Mr. John Billings' reward for long service to the Hospital.

Have you had your holidays yet? A few days won't do you any harm.

Trustee Booker means well and is most attentive to his duties, but I cannot take much stock in his pension idea. Is there any chance of anybody giving Mr. Booker a pension when he arrives at the chloroform age?

Fake drownings have several times this year led persons to believe that it was a false alarm when a case of real drowning was occurring. Those who simulate drownings to have some fun with would-be rescuers are worse than the idiot who rocks the boat.

Do you notice the frequency of the "scop" the Times is having on its two local competitors?

From various press notices the inference may be drawn that that jolly dog, Ald. Juiten, is also hankering to sit down in the Mayor's chair.

Thaw swears he is not crazy. But they all do that.

The reported attempted coalition of the coal dealers has not the same interest to the public as it might have next January.

Toronto is another jay town that is always pulling wires to get its name in the papers. It might resurrect Longboat.

It would be just as well if the Waterworks Committee got the compressed air tanks and other impedimenta put in place in the "incline" building.

It isn't fair to laugh at Ald. Hopkins. He is doing the best he can.

Now will Britannia also rule the clouds?

I suppose my Labor friends would jump on me were I to suggest that Mark Tompkins and his fellow prisoners be put to work to fix up the Jolley Cut, and allowed enough wages to keep their wives and families, if they had any, from starvation.

BADLY TORN BY A DOG.

Another Serious Biting Case—Leslie Small the Victim.

From all over the city complaints are being made about dogs running at large. Indignation is running high, and more stringent enforcement of the dog-by-law is demanded. Recently a little boy named Arnold, 103 Wentworth street north, was bitten by a collie dog, the bite leaving a wound about an inch long. Dr. Sullivan attended the boy, and told the people who owned the dog that it ought to be shot. They said they would do so, but up to the present the dog is still living.

This morning a little boy was taken into the City Hospital suffering terribly from bites from a dog. The little fellow had a scalp wound about four inches long and a wound on his eyelid about one inch long. Dr. Storms saw the boy before he was operated on, and says he never saw a boy in such a terrible condition from dog bites. The boy in this case is Leslie Small, ten years of age, residing at 292 Wellington street north. Nine stitches were required to close the wounds.

Mrs. Wm. Graham leaves this week for Port Cunnington, Muskoka.

Mr. and Mrs. Robt. McQueen left last Thursday for an extended trip to California and Oregon.

Miss Beatrice Ross, of Montreal, is expected in town next week to spend a month with relatives and old friends.

Mrs. J. Markie and her son-in-law, Mr. W. H. House, left yesterday morning for Saute Ste. Marie.

Hiram Binkley, of the Hamilton road, was removed to the City Hospital on Monday, having been suddenly attacked with a serious illness.

Mrs. Andrews, with Master Norman Andrews, of Brantford, and Mrs. Beckett, of Chicago, are visiting their sister, Mrs. (Rev.) W. H. Harvey.

The returns for the House of Providence picnic on July 1st, are all in, and show it to have been a financial success. This is largely due to the excellent management of Mr. F. O'Brien and his able corps of assistants. To them as well as to the good ladies who worked so energetically at the different tables, the Sisters of St. Joseph beg to return their very sincere thanks. The following are the sums received:

St. Mary's table \$ 622.56
St. Patrick's table 212.40
St. Lawrence's table 348.28
St. Augustine's table 215.00
St. Joseph's table 165.74
Gate receipts 80.55
Ladies' dining table 58.70
Ladies' collection 29.00
Secretary's collection 175.45

Total \$1,907.72
Committee's expenses 516.45

Net balance \$1,391.27

It has been announced that Lt.-Col. J. J. Grafton will tear down the old wooden gates at the entrance to the Dundas Park and erect in their place wrought iron ones. The old wooden box office and fence will also be torn down. The garden at the entrance to the park will be done away with and a commodious driveway will be laid out in its place.

Yesterday afternoon Clifford Moss, a twelve-year-old youth, son of Mrs. Edward Moore, Munro avenue, Hamilton, was visiting his aunt, Mrs. Ed. Quackenbush, corner of Hatt and John streets. In the evening he and another lad were fishing in the dam, and while walking between the fishing spot and his aunt's house he gave the bottom of one of his feet a bad gash on some broken glass. He did not know for a moment what had happened until he found the forward part of his foot turning upwards. The gash is about two-thirds of the distance from his heel towards the toe points. Doctors Main and Lockland were hurriedly summoned and found the wound a bad one. It was first necessary to draw and stitch together two ligaments of the foot and afterward the outer part of the cut. His mother was quickly brought to him, and this morning had the lad removed to the City Hospital. The wound is considered a very critical one.

DOPE FIENDS.

New York Crooks Plead Guilty to Jewelry Theft.

Ottawa, Ont., July 29.—In the police court this morning the two New York crooks, giving the names of Woods and Conrad, under arrest for the theft of \$4,000 worth of diamond rings from McMillan's jewelry store last week, pleaded guilty to the charge. Their lawyers pleaded in extenuation that they were under the influence of morphine when the crime was committed, and had made full restitution of the stolen jewelry. The deputy police magistrate deferred sentence until to-morrow, pending medical testimony as to the condition of the two men, who are both morphine victims. Mayward, under arrest for the robbery, pleaded not guilty, and as there was no tangible evidence to connect him with the crime the charge was withdrawn. He is still held by the police, however, on a charge of vagrancy.

SCRAP BOOK POETRY

THE DEAD ONE. Breathes there a man with soul so dead, Who never to himself has said: 'My trade of late is getting bad; I'll try another ten-inch ad.' If such there be, go mark him well, For him no bank account will swell, Nor shall he cheer or sulk again, A care for him no one will bear, To match a modern foe, Upon his sole retreat, He'll see his friends, but no rude sound will disturb his solitude profound. 'Till he lies in calm repose, Unthought except by men he owes, And when he dies no plant him deep, That might break his restles sleep. Where no rude clamor may dispel The quiet that he loved so well. And when the world may know his loss, Place on his grave a wreath of moss, And on the stone above, 'Here lies A man who would advertise.'

JAPAN WILL BE THERE.

Tokio, July 29.—Japan will be represented by royalty at the tri-centennial of the discovery of the Hudson River, according to the belief current here. The Japanese court probably will be represented by Prince and Princess Kun, who are now touring Europe. The couple will leave London for New York on Aug. 25. The members of the brass band may not be in the habit of fighting, but many of them often come to blows.

That Gas Range Question

Ever strike you that cooking with gas is not only the quickest and coolest way but also the cheapest? Yes. Artificial Gas is more economical than any hard fuel on the market to-day. And this week we are going to make it easy for you to secure that gas range we've reduced our latest and best type to \$17.00. FREE—With every purchase a handsome kitchen lamp is given and installed free. Phone No. 89 to-day. Our representative will call. HAMILTON GAS LIGHT COMPANY PARK STREET NORTH

NEWS IN BRIEF

Rev. W. A. Gunton has resigned the pastorate of Central Baptist Church, Chatham. Thomas E. Siberry, of Gowanda, has been arrested, charged with passing worthless checks.

TOOK POISON.

Saginaw, Mich., July 28.—'You won't need to have me bothering you much longer,' exclaimed Andrew Shaw to his fiancée, Miss Clara Jones, as the climax of a lover's quarrel at the girl's home, 923 North Harrison street, and the young man lifted an ounce bottle of laudanum to his mouth and swallowed the contents.

AN OMELETTE.

Someone in Canada Sent Eggs to Vermont. Washington, July 28.—Eggs as an article of mail transportation are not popular with United States postal authorities. It was learned to-day that some one in Canada had mailed three dozen eggs to Brattleboro, Vt., and when Postmaster H. E. Taylor opened a mail bag he found it dripping with eggs freshly scrambled. Addresses were obliterated and had to be sent to the dead letter office. Such a situation could not arise from mail originating in the United States, as eggs are not mailable in this country.

LADIES AND RIFLES.

Ottawa, July 28.—With regard to the coming request to the Militia Department by the Ladies' Rifle Association of Canada for the loan of Lee-Metford rifles for practice at the ranges, Major Helmer, deputy assistant adjutant-general for musketry, this morning, said that while no doubt the department would be willing to aid the ladies all they could, it would have to be a special case, as the regulation defining rifle associations and the loaning of rifles to them for practice purposes states that the members must be males of a military age. If the ladies made formal application through the officer commanding district No. 2, the request would be forwarded to headquarters with a recommendation.

Needed Inventions.

A man in the metropolis has invented a device which enables one to blow out the gas without fear of the consequences. Why cannot this beneficent genius turn his attention to other needed inventions? Where is the machine that will make banana peels on the sidewalk a delight to pedestrians? Isn't there some device that will make the humorist who rocks boats and pulls chairs from under folks a public benefactor? Can't we have an antidote for the revolver which no one supposed was loaded?—Success.

BOSS PAINTERS.

The Annual Convention Held at Peterboro'. Hamilton Men Elected to Office—Had Good Time. Peterboro', July 29.—The annual convention of the Master Painters of Canada, which opened here on Tuesday morning, concluded to-night. The 200 delegates from all parts of the Dominion were welcomed by Mayor Rush, and Rev. H. J. Keith opened the proceedings with prayer. The sessions on Tuesday and Wednesday were devoted to reports of the officers and papers on subjects of interest to the craft. The officers elected were: President, Benj. Goodfellow; Vice-President, R. Cook; Peterboro'; Secretary-Treasurer, A. M. Mackenzie; Hamilton; Executive Committee, Messrs. S. M. Hughes, Hamilton; H. Weatherwax, Tillsonburg; W. H. Stamp, Hamilton; W. Delaney, Niagara Falls; J. W. Morley, Winnipeg. Representatives of the international executive committee: E. Linington, Toronto. Scrutiny, J. M. Faircloth and J. Dewar, Pittsburg, Pa.; Organizing Committee—J. J. O'Hearn and E. Linington, Toronto; J. M. Faircloth, J. Phinmore, Toronto; A. M. Mackenzie, Geo. Metcalf, Hamilton. Representing the international convention—W. Morley, Winnipeg; J. M. Faircloth, Toronto, and Geo. Duncan, Peterboro'. The delegates were delighted with their reception and entertainment by the citizens and local fellow-craftsmen. The convention adjourned to-night, but all members will stay to-morrow for the steamer trip to the lift lock and to Stoney Lake, where they will be entertained at luncheon by Mr. James Acton, Toronto, at his summer home.

Cheapside

Mr. and Mrs. Stephenson, from London, Ont., spent a week with the latter's sister, Mrs. (Dr.) Sherk. Miss Hattie Day, from Niagara Falls, Ont., will be a guest of her mother, Mrs. S. Day, for a fortnight. Rev. Mr. and Mrs. Monsinger have spent the past week with Mrs. M.'s parents at Kerr. The painters are trying to paint the town. Miss Case, from Toronto, is spending a week with her cousin, Mrs. C. Armstrong. Encouraging reports come from Mr. Henry Hurst, who is in Port Dover Hospital. Mrs. Fred Sheppard, from Buffalo, N. Y., has been visiting friends in Hamilton, Grimsby, Beamsville, Winona, and Cheapside. She will go to meet Mr. Sheppard in Buffalo this week. Mr. and Mrs. T. Long on Saturday last, in company with Miss Teresa Long, visited at Mr. W. H. Smith's, Balmoral. Miss Long will leave there during the week for her home in Hamilton. Mr. and Mrs. James Sloan and son Harold, from Port Dover, spent the past Sunday with Mr. Sloan's sister, Mrs. Jas. Armstrong. Mr. Orrin Weiderick has been working in Nanticoke during the past week. Mrs. Susan Forsythe has been on the sick list recently. Best wishes for recovery. Quite a number from this vicinity have called to see Mr. H. Hurst in Port Dover Hospital.

WOODBURN

Service will be held in the church here next Sunday evening at 7.30 o'clock. Rob and Mrs. Green, of Cayuga, spent Sunday with W. B. and Mrs. Thomson, of this place. George Glidden, of Vinemont, paid a flying visit to this place on Sunday.

Winona

The Misses Treemer, of Smithville, are visiting friends in the village. Miss Kathleen Hamilton, is enjoying her holidays in Muskoka. Mr. Kennedy, of the Park House, was taken to the hospital on Tuesday, suffering from hemorrhage. The Ladies' Aid met in the Methodist Church last Thursday, and adjourned until after the hot season. Mrs. F. Awty has been visiting friends and relatives in Toronto.

Sheffield

Mrs. Quipp and niece, of Stratford, are visiting at Mr. R. Crown's. Mr. and Mrs. A. E. Bond were in Brantford on Tuesday. Mr. and Mrs. F. Mulholland and Mrs. Corson Weaver, of Lynden, were visiting at Mr. Jer. Cornell's last week. Mr. and Mrs. John Drone, of Brantford, are visiting under the parental roof. Miss Taylor, of Toronto, is visiting friends in and around the village. Mrs. J. Hood is visiting relatives at Crief this week. Mrs. Geo. Main was visiting relatives in Detroit last week. Mrs. E. Jones and son, of Bartonville, spent Sunday at Mr. J. Cornell's. Mrs. and Mrs. Harry Pierce, of Brantford, are visiting relatives here. Mrs. Hay, sec., is visiting in Troy. Miss Maggie Bond is visiting friends in Madison, Wisconsin. Miss Eliza Misner, of Galt, spent Sunday at her home here. Mrs. Jas. Summett, of Brantford, is visiting here. Mrs. Mrs. Mathers, of Brantford, is visiting under the parental roof. Mr. and Mrs. A. Green, of St. George, are visiting at P. H. Green's.

HOLLOW TREE TELEGRAPHY.

Colombian Natives Are Able to Signal for Many Miles. London, July 28.—Captain Whiffen has arrived here, after years of exploration in Southeastern Colombia. Among his discoveries is a secret system of telegraphy employed by the natives. Hollow trees are selected of various thicknesses, which give out high or low notes when struck. The sound travels from 30 to 40 miles. The sound travels played, but the natives recognize the words intended from the different musical notes.

Atlantic City Excursion.

Many Saw Him Drown. Brockville, July 28.—This morning at 11 o'clock a sad drowning accident occurred at the C. P. R. wharf here. Walter Conlon, an employee of the steamer Island Belle, lost his life. The boat left here, with a full complement of passengers, and as Conlon was in the act of handling a stern line, he fell overboard and in view of a hundred or more people was drowned, but a few feet from the wharf. \$11.00 round trip from Suspension Bridge, via Lehigh Valley Railroad, Friday, July 30th; tickets good 15 days. Particulars, 54 King street east, Toronto.

THE IRISH.

Toronto Policeman Found Them Not in Favor of Protection. Toronto, July 29.—That the people of Ireland are in general not in favor of protection, and that they have prospered greatly under recent Government measures, is the report brought back by Mr. G. R. Chapman, of the Morality Department of the Toronto police force, who has just returned from a two months' visit, with his wife and youngest daughter, to his brother, Alfred Chapman, Belfast. On the Dominion steamship by which Mr. Chapman came there were twelve or thirteen ladies coming out to meet husbands. All were from England. Ireland is improving much, said Mr. Chapman. The Liberal Government has built houses for the working classes all through the country that would do for even the better classes in Canada. The buildings are of cement, two stories high, with all conveniences. The farmers there, he says, have homes of their own, with hot and cold water, and all modern conveniences. The whole appearance of the country is one of prosperity. It was noticeable on the Twelfth of July, observed Mr. Chapman, that the majority of the banners carried by the Orange lodges bore the word 'Temperance,' showing that they were temperance lodges.

Compromise Has Been Agreed Upon by Carpenters at Edmonton.

Edmonton, Alta., July 28.—The strike of carpenters which has been in progress for several weeks has been settled on a compromise basis. The men agree to accept an order for a year, but after that a schedule will be effective which will make \$5.00 per day the minimum rate of pay. This is fifteen cents less than the demands of the union. Until the schedule is in operation the old rate of \$3.30 per day will hold. About 400 carpenters out of 400 on strike have left the city and building has been somewhat delayed, but it is anticipated that the settlement will result in a speedy adjustment of the conditions.

THE HAMILTON TIMES THURSDAY, JULY 29, 1906.

RIGHTS, NOT POLICY.

An Ottawa correspondent deprecates the disallowance of Whitney's confiscatory legislation, and expresses the opinion that "on a question of Provincial policy the federal Government believes in letting the electors decide for themselves."

MOUNTAIN WATER SUPPLY.

With its usual ignorance of the subject it seeks to discuss, the Herald last evening made the statement that the mountain people "cannot use a water supply until they have their sewerage system completed."

warned the country to get ready for war within twenty months. The dire news was printed in big type and we were assured in high sounding editorials that the country was on the eve of disaster, and the brave old general had to arouse the nation to its danger, and incidentally to the innate wickedness of the Asquith Ministry."

IS EARL GREY LOYAL?

At the Dominion Day banquet in London, England, Earl Grey, as Governor-General of Canada, responded to the toast of the evening, "The Dominion of Canada."

A SLANDERER FOILED.

The senior local Tory organ, exasperated at the public announcement of the fact that St. John city is now paying Mr. Mayes 85 1/2 cents a yard for dredging such as he did for the Government for 55 cents, thus destroying a graft sensation beyond cure even by false affidavits, makes an effort to save its face by saying that "even though the two works were identical, and the facts as stated, that the City Council paid much more than the Government did, nothing is proven. The undisputed fact still remains that Mayes offered to do the Government work at a lower price, and his tender was turned down."

HOW IT IS WORKED.

A British Columbia Conservative contemporary frankly confesses that it has lately "got into the way of declining to accept alarmist telegrams from the United Kingdom at their face value, and every English mail gives proof of the wisdom of such a course. Not long ago Canada was startled by a despatch saying that Lord Roberts had declared himself in no unmeasured terms against the new British army programme, and

EDITORIAL NOTES.

If Thaw has really become sane again how would it do to punish him for the diabolical crime of which he was guilty?

Perhaps the School Board may set a detective to discover what has become of that \$2,500 missing from the Government grant.

The total assessment of the city of New York is \$7,250,500,559. The tax rate will be 1.678. The budget for the year amounts to \$156,545,184.

Montreal is going to welcome the return of the Canadian members of the Bisley team. What is Hamilton going to do toward giving her boys a welcome?

The imports at the port of Winnipeg in 1900 amounted to \$6,290,269. For the year ending March last the aggregate was \$14,826,727. The year before it was \$18,875,179.

We do not appear to have made much of that T. H. & B. bridge appeal. But then, when the officials profess to regard the decision as fair we must not grumble. We should not ask more than what is fair in any event.

It is said that "the presence of the soldiers who quelled the disturbances has grown irksome to the more impatient strikers" at Glace Bay. Too bad, isn't it to maintain order against the wishes of the Yankee organization.

Whether Lieut. Sutton was killed in a duel, committed suicide, or was the victim of a murder, the testimony at the inquiry shows that Uncle Sam's people are taxed to maintain in wasteful idleness a pretty bad gang of young toughs.

Ald. Hopkins wishes to set up the contention that he shall be dictator of the Power Committee, by the rule being adopted that every action of the committee must be unanimous. Why not make Hopkins Czar of Hamilton at once?

The recent celebration of July 4 by our neighbors appears to have been a trifle sner than many that preceded it. Only 140 fatalities are reported. The Yankees lost only 145 in the celebrated Bunker Hill fight. There is still room for reform.

Spain is facing serious internal troubles, and the country is almost on the verge of revolution. As is too frequently the case, the authorities trifled too long with disorder, and what might have been easily quelled at first by prompt and vigorous action, now presents a very serious problem.

It was natural enough to find the Hydro organ joining Ald. Hopkins in trying to cause unnecessary delay in furnishing the mountaineers water. What do they care for the convenience of the people? They look only to the interests of the Hydro bosses which they serve. The mountain residents may go thirsty.

The United States Government is undertaking an inquiry into new sources of paper pulp supply. Experts are to test various woods, pine particularly; and George F. Steife is to furnish the outfit necessary. It is thus hoped to "become independent of Canada." Congress has appropriated \$10,000 for the purpose.

Well, what do the ratepayers think of that self-styled "Union of Municipalities" proposal to take away from them the right to be consulted as to issuing debentures placing debt on their properties and allowing Councils to incur any debt they choose? And the ratepayers' money is being spent to give these self-elected "delegates" fine summer outings!

The Buffalo Enquirer grumbles at the high prices charged at Canadian summer resorts for table supplies, and says they tend to discourage visitors. But high prices prevail for our own people. And, Great Scott! did the Enquirer ever try a United States holiday resort? Had it enough to pay car fare home after liquidating a three days' hotel bill and tipping the servants?

The London Times' principles of Empire defence are laid down: Naval resources for each dominion; training and material the same; individual efforts coordinated. My, my! How angry the Hamilton Herald will be to find that the London Times is as "mean" and disloyal as the Canadian Parliament—as the Canadian people, in fact, with the exception of the Hamilton Herald.

Whitney refers to the signing of the disallowance petitions by financial and other men and companies outside of Ontario as "impertinence." The Czar is annoyed that the honest business world should object to the horse-thief ethics on which his act is founded. Ontario has millions of dollars invested in the Province advanced by financiers from without. The question raised by this legislation so destructive of good faith is not of interest limited to Ontario—not even to the Dominion.

KEEP THEM AT HOME. (Goldwin Smith.)

We are much obliged to the English journal which proposes to get rid of all the pauper infants by sending them here. The remark might sound rather malthusian; otherwise we might say that the best way of getting rid of pauper infants would be to abstain from bringing them into the world. A man surely has no right to bring into the world beings whom he cannot support and thrust them on the community. Malthus may have been rough in the expression of his views, though the blame for this rests, it is believed, mainly on his disciples, but it is difficult to deny that he is right.

JIM DOESN'T GO. (Grimsbey Independent.) Why don't men go to church?—I don't know, ask me something easy.

WORKING HARD. (Woodstock Sentinel-Review.) The "tussock" moth is getting in its pernicious work on the shade trees of both Toronto and Hamilton. How about Woodstock?

ANOTHER SCARE. (Stratford Beacon.) The British Channel having been bridged by a French monopolist, another war scare in England is now due. A fleet of monopolies should be the outcome.

BOLD BANDS. (Toronto Star.) The Ottawa Journal complains that there is not enough public music at the capital. Ottawa should take example from Hamilton, where even the thugs go around in bands.

A SPLENDID MOVE. (St. Catharines Star-Journal.) The opening of the playgrounds at the Public Schools to the boys and girls of the city during holidays, is a move on the part of the Public School Board that merits the commendation of every citizen.

ANXIETY. (Washington Star.) "I suppose the baby is a source of great anxiety to you," said the neighbor. "Yes," answered young Mrs. Hopkins. "When he is crying we are afraid he is sick, and when he isn't we are afraid he is unconscious."

UTILIZE THE IDIOSYNCRASY. (Washington Star.) "What kind of a career have you mapped out for your boy Josh?" "I'm going to make a lawyer out of him," answered Farmer Cornstossel. "He's got an unconquerable fancy for tending to other folks' business, and he might as well get paid for it."—Washington Star.

NOT A BAD IDEA, AT THAT. (New York Evening Journal.) Mr. Parkway—These two seats you gave me are in different rows, one behind the other. Ticket Seller—One seat is for a lady, is it not? Mr. Parkway—Yes, that's all right, then. You are expected to sit behind

the lady, and if you bring one with a big hat it's your own fault. That's the way we sell 'em now. TOO POLITE. (Tit-Bits.) First Tramp—After all, it pays to be polite, partner. Second Tramp—Not always. The other day I was actin' deaf and dumb when a man gave me sixpence. I says, "Thank you, sir," and he had me arrested.

MAMMOTH SHOE SALE

Patent, Gun Metal, Vici Kid and Tan Oxfords, twelve hundred and eighty-one pairs. 42 different styles in Women's, and 37 different styles in Men's. Every pair stylish and up-to-date—being sizes left over from our record season's selling. There are still three months of Oxford weather—so this is YOUR CHANCE. Don't miss it—come at once. We have been in Hamilton for more than 20 years and candidly state that this is the GREATEST GENUINE REDUCTION SALE of Shoes ever attempted in this city.

One-Fifth Off Present Prices

This means that our \$3.00 Oxfords will cost you \$2.40, \$4.00 for \$3.00, \$5.00 for \$4.00, \$25 for \$20, etc. Our regular selling price is marked in plain figures—one-fifth off the marked price. We know that other stores may offer a bigger reduction than we offer—but, bear in mind that our reduction is made from the lowest selling price—no tricks being allowed in this store—a ten-year-old child can at all times buy as cheaply in this store as the best buyer in Canada. This sale includes every Oxford in the store, from \$3.00 to \$7.00, for men and women, excepting a few lines of turn sole shoes which we keep sized up the year through—as many customers prefer them to slippers for house wear. Come in and look around; that is what the store is for. Don't miss getting your share. Come in and ask.

WAR IS HELL.

Annual Convention of Trades and Labor Congress.

Will Protest Against Jingoism in the Country.

The twenty-fifth annual session of the Trades and Labor Congress of Canada will convene in the Provincial Legislative buildings, city of Quebec, beginning at 10 o'clock, Monday morning, Sept. 20, 1909, and will continue in session from day to day until the business of the convention has been completed.

The official call for the convention says the matters that will be presented for the earnest consideration of the delegates are not less weighty than heretofore. Indeed, at no period in its history has the Congress had a more important duty to perform. Apart altogether from the important legislation of the Dominion Parliament and of the Provincial Legislatures, the ever pressing demands of the amelioration of industrial conditions and the betterment of the whole of our industrial forces—apart from these altogether, a programme is urgently needed upon the present jingo propaganda for military training in the schools, military and naval equipment. Canada is a country of peace. The problem of living in times of peace is difficult enough without having foisted upon us a vast expenditure for non-productive, but highly destructive effort. "War is hell"—for the workingman. Labor cannot afford to be silent at this critical juncture, but should unite with all peace loving citizens of Canada to squelch, in its incipientcy, the forced sentiment that would involve us in the quarrel of other lands.

STRUCK BY LIGHTNING.

Ruthven, Ont., July 29.—One of the worst electric storms in recent years passed over this place last night, when T. H. Wigles' general store and Post Office was struck by lightning and considerable damage was done by fire. A cake eaten in peace is worth two in trouble.—German.

FRUIT MEN AT GRIMSBY.

Ontario and Western Men Organizing Co-Operative Co.

I. B. Berry, of Winnipeg, Talks on Fruit and Prices.

Movement to Supply Manitoba With Ontario Fruit.

The meeting held at Grimsby on the evening of July 27th, to discuss the proposed Ontario & Western Co-Operative Company was not as well attended by the local growers as it should have been, considering the importance of the subject.

Unfortunately, as was pointed out at the meeting by Major Roberts, this matter has been somewhat suddenly sprung upon the growers of the section at a very busy time, and it hardly allowed them sufficient time to consider a matter of such importance to the fruit trade of the Niagara district.

It is unfortunate that the promoters of this company did not visit this locality in the early months of the year, when people were not so busy and when the matter would have been discussed at more leisure.

Mr. Mitchell, Reeve of Grimsby, in a very brief speech, introduced the speakers. Mr. Harris, of Port Dalhousie, the chairman of the provisional directors, said that he had shipped a quantity of fruit to Mr. Jones, of Winnipeg, last season, and had received very satisfactory prices.

Mr. J. W. Jones, wholesale fruit dealer of Winnipeg, made a short speech in which he said that last season he got 30 to 40 per cent. more for the fruit of customers from the south district than they were getting on the local market.

The chief speaker of the evening then took the floor, Mr. J. B. Berry, of Manitoba, who was the chief organizer of the Grain Growers' Company, of Manitoba.

After referring briefly to his standing in the grain company mentioned, Mr. Berry read a quotation from the Winnipeg Free Press showing how this grain company had made a profit of \$60,000 for its shareholders last year, and had handled 7,500,000 bushels of grain. The members had paid \$17.50 at the start on their 25 shares, and the balance was all being paid out of the profits of the company.

This was all done by means of co-operation and that is the one means, he said, in Canada and the States today, whereby business can be properly conducted. He also gave statistics showing the large profits being made by the English Co-Operative Companies. The laws in England are more favorable to co-operative companies than in Canada and efforts were being made to get the Canadian laws assimilated to those of Great Britain in this respect.

Fruit, he said, is evidently the backbone of this locality, as grain is in the west, and the growers are getting the thin edge of the wedge, the same as the grain growers in the West formerly were. Formerly there were over 300 brokers and dealers in grain in Winnipeg and the growers were also up against the Grain Dealers' Association which had complete control of the situation. It gave them what it liked for their grain and they had to take it. By the establishment of the Grain Growers' Co-Operative Company, however, containing from 50,000 to 60,000 members, all farmers, the situation had been changed, and there are now only about six grain brokers in Winnipeg, and the farmers are able to hold their own in the saying of what their grain shall fetch. The fruit situation in the West is in a similar condition now to what the grain was in the days of the establishment of the co-operative company.

A few years ago an enterprising American firm became alive to the immense possibilities of the Western fruit trade. Accordingly, in one day they bought up three of the largest wholesale houses for cash, and they control the situation in fruit distribution in Western Canada. They handle only American goods, on which is paid a duty of 30 per cent, and which they add to the already exorbitant price paid by the unfortunate consumer. The speaker read a paragraph from the Winnipeg Tribune of July 17th, which, after referring in high terms to the fine appearance and quality of the fruit exhibited there from Ontario and British Columbia, went on to say:

"It is scandalous the price demanded for fruit in Winnipeg at all seasons. Who is responsible for this?" The whole blame lies with the wholesale men. Last season on one consignment of apples alone from Ontario a wholesale house cleared about \$20,000. These apples were bought for \$1.00 per barrel, \$1 was paid in freight and 25 cents for charges, and the apples were sold in Winnipeg for \$4 per barrel. The mass of the people here look upon fruit as an occasional luxury and the poor never see it, except in shop windows."

That is a sample of what our opponents are doing, said the speaker. This year a consignment of strawberries was sent to Winnipeg, of the Williams variety, picked on the ripe side. They were sold at \$4 per crate, netting the shippers \$2.52 per crate. At the same time these same growers were getting 90 cents per crate in Toronto, netting 70 cents.

A car load was sent from Toronto about the same time to a private company. The fruit was not picked or handled properly; the berries went to mush and moulded, and only realized \$1.25 per crate.

Three cartloads, specially picked, arrived in excellent condition, consigned to a private company. They were sold at auction, bought by the combine at \$2.30 per crate, and sold to the retailers at \$4 to \$4.25 per crate. The retailers bought these in preference to American strawberries, as they were so much fresher and better.

Mr. Berry read a letter from a prominent farmer in the West, Mr. W. Ferguson, M.P. for Hamiota, saying that the farmers of the West wanted fruit at a reasonable price, and speaking strongly in favor of this company as against the combine. They were organizing the company at this end to get enough growers into it to stay with it and supply them with fruit. They must have the growers.

The provision that each grower must take five shares in the company will be an inducement for them to stay with it. The capital of the company is to be \$100,000, divided into 500 shares of \$20 each. There is no promoters' stock and no rake off. They have already nearly enough growers.

SUMMER SORES

When troubled with sunburn, blisters, insect stings, sore feet, or heat rashes, apply Zam-Buk!

Surprising how quickly it cures the most irritating stings! Cures sores on young babies due to chafing.

Zam-Buk is made from pure herbal essences. No animal fats—no mineral poisons. Finest healer!

They only want a moderate number for this and next year, while they are taking hold of new towns in the West, and making their distributing points. They don't want too many members here to begin with, but will extend and enlarge the company in Ontario as the market extends. They will handle their fruit and give them right back the Winnipeg price, less transportation and a small charge for handling.

The warehouse in Winnipeg will be under the charge of the Ontario directors to be appointed at St. Catharines at a meeting to be held there next week.

There are to be 300 stockholders in Ontario, all producers. Every distributor will also be a stockholder. Each member has only one vote, no matter how many shares he holds, but each member is to have only five shares. When the fruit has been inspected here and put on the car, the growers will receive 60 per cent. of the price as wired from their director in Winnipeg, and 40 per cent. will be sent him as soon as the car arrives in Winnipeg. The stockholders in the West, acting as distributors, are only allowed a fixed profit.

The combine referred to is quickly working up two movements. The first is to have the duty of 30 per cent. on American fruit taken off. A petition is now being circulated amongst the farmers to that effect. The result will be to entirely kill the Ontario fruit trade in the West and place it in the hands of the combine, whilst the consumers would not get fruit one cent cheaper.

The second movement is to have the old freight rate re-established. These rates on fruit from Ontario to Winnipeg have been reduced from 84 cents to 64 cents per 100 lbs. to give the people of Ontario a chance to place their fruit in Winnipeg.

Since coming to Ontario, Mr. Barry has interviewed the Minister of Agriculture, the Provincial Secretary and several members of Parliament on this question.

Amongst others, Mr. W. O. Sealey of South Wentworth, M.P., expressed himself as strongly in favor of retaining the present duty and even re-adjusting it.

The latter is the speaker's desire, as he believes in Canada for the Canadians. The combine at present controls the entire fruit business of 20 large cities in the States, and have bought up great areas of fruit land in Washington Territory and in California.

The new company only intends to have a moderate capital on which \$8 per share is to be paid on application, a further call of \$7.50 to be paid on the first of November and the second and final call of \$7.50 to be made Nov. 1st, 1910. The most of the money will be used in building a cannery and jam factories in Ontario to absorb the fruit that cannot be sent to the West, fresh.

There is a great demand for jam in the West. At present there are two classes of jam largely bought there, E. D. Smith's, of Winona, selling at 65 cents per 5 lbs, and Crosbie & Blackwell's selling at 75 cents per 5 lbs.

California and British Columbia send fruit to Winnipeg nicely packed and in beautiful appearance, but the Ontario fruit is much superior in quality, and the Western farmer would sooner eat Ontario than American fruit. As an experiment, a car of raspberries, picked when dead ripe, left St. Catharines last Saturday by express, to arrive in Winnipeg as yet they have had no Ontario raspberries in Winnipeg, as they get them all from the States and British Columbia, the trade being in the hands of dealers who will not experiment in Ontario.

Last year Mr. Jones had cars sent that were 14 days on the way, yet the fruit sold at a price sufficient to pay the shippers 100 per cent. over Ontario prices. As an example, tomatoes sold at 30 to 35 cents for a 15-lb. basket when they were selling at 25 cents a bushel in Ontario. Apples and peaches sold at \$1 per basket, when worth only 20 cents in Toronto.

MAPLE LEAF.

A Fine Free Attraction There This Week.

The closeness of Maple Leaf Park to the city is one thing which commends it to the people, and tends to make it popular. Patrons of the amusement park can reach it from any part of the city within fifteen or twenty minutes. This is so much more convenient than in the average big city, where the white city is many miles outside the city limits. That is all the more reason why the people here should go oftener, as there is a complete change of programme every week. The free open air attractions in front of the grand stand every night should never be missed, for they include some of the finest vaudeville acts on the road. This week the Berry troupe is putting on a superb act. There are five people in the troupe, and they perform a number of hair raising stunts on ladders.

To-night the entries for the Marathon race to be held at the park on Monday will close at Billy Carroll's cigar store. The list is a pretty good one and those who have not yet handed in their names should do so to-night.

"It is impossible to take something from nothing," quoted the Wise Guy. "Well, you come pretty close to it when you take the conceit out of some people," added the Simple Mug.

CHILDREN AT DUNDURN.

Great Crowds Saw the Grocers' Daylight Fireworks.

The centre of attraction yesterday afternoon was Dundurn Park, where fully 3,000 children and 8,000 adults went to take advantage of the opportunity afforded by the Hamilton Retail Grocers' Association, and see the exhibition of daylight fireworks.

The fireworks were to have been used at the Grocers' picnic at Niagara Falls last week but it was too wet then, so the Grocers decided to let the children have the benefit of them yesterday. Two pipers of the 81st, Alex. Somerville and David Tait, were engaged and kept the crowd in good spirits. Mr. Mogridge, of the Hand Fireworks Co., set the fireworks off.

The first were some large paper balloons and as they went sailing skywards great shouts of delight went up from the children. Then some inflated paper animals were let go, the first humorously called Bay Hill's "razor-back." It was a paper pig and it soon had its sides cured and fell helplessly into the bay. Then there were paper elephants, cows, and came a long series of explosives that shot balls into the air which exploded at a great height, sending out everything from dolls to animals, all in prettily colored paper. Some were very pretty indeed, and when they exploded sent out streamers of flags, parachutes, etc.

The guests of honor were the children from the various homes. Mrs. E. Hodd, Mrs. J. Henderson and Miss Orton were in charge of the boys from the Stinson street home; Miss H. Jones and Miss Ida Crawford had charge of the children from the Hamilton Orphan Asylum; Mrs. Bennet and Miss Reid took charge of the girls from the George street home; Sister Annetta and Sister Cecilia those from St. Mary's Orphanage. After the display the children from the homes were each given a dish of ice cream at the expense of the Grocers' Association.

The police deserve the highest praise for the excellent order they maintained. Evening went off splendidly and the kindness of the Grocers was very much appreciated by young and old.

The names of the committee were: J. O. Carpenter, James Main, M. K. Hill, and a large number of grocers were on hand, too.

PARADE AGAIN.

Baron and Bailey Return to Good Old Custom.

The Barons and Bailey "Greatest Show on Earth" has returned to its old policy of giving a street parade as a part of its daily programme. Upon its visit to Hamilton, on Friday, Aug. 13, it will present in the forenoon, one of the greatest and most beautiful street parades ever witnessed at any time.

It is now learned that the reason for the omission of this feature for the past several years was owing to the scarcity of strange attractions to be found throughout the world. Rather than repeat itself the circus decided to drop the parade until such time as something new and more wonderful could be devised. That time has come this season after three years' hard labor by corps of artists, designers, artists and mechanics at the foreign quarters of the show in Stoke on Trent, England.

Agents have been on the constant lookout for novelties. They have gathered together for this year's parade the strangest types of the human race, their peculiar vehicles, rough implements of war and musical instruments. The artists of Italy have wrought in bronze replicas of the gods of mythology and the heroes of child-romance, and for these ornate floats of burnished gold have been designed in France.

Tableau wagons, band chariots, howdahs, floats and thrones were built in Germany, the costumes were originated in Japan and France, the scarfs, flags and banners are from the east of China and the tapestry came from Persia and Turkey.

In the parade will be seen 1,500 men, women and children, 700 horses, droves of camels, a complete menagerie, and nearly all the elephants in America.

Hop, step and jump, big boys—Charles Colston, Elmer Mosher.

Hop, step and jump, small boys—Leslie Galt, Harvey Culler.

Peanut race—Charles Colston, Frank Russell.

Three-legged race—Hugh O'Heir and Frank Russell, Frank See and Elmer Mosher.

Wheelbarrow race—Simpson brothers, Leo Woodroff and Leslie Cutler.

Biscuit eating contest—Stuart Simpson, Frank See.

Swimming match—Elmer Mosher, Jas. Cheeseman.

MARK TOMPKINS. (Toronto Mail and Empire). Mark Tompkins richly deserves what he is getting. But he has a young wife and a little child who were dependent upon him for support. Possibly the means he might have put at their disposal had he continued in the enjoyment of his liberty would have been ill gotten. But where he is now his occupation will be honest enough. In the prison he will have to work hard for such living as the law allows him. If he lives and labors till the end of his term he will have free man, living much less frugally, to accumulate a snug surplus. At all events, in an honest life, the work done by Tompkins during those years would

TEAM WINNER.

Freeborn, of Hamilton, Got Another Prize at Bisley.

London, July 29.—The National Rifle Association Council have decided that no service rifle of any pattern other than of the official pattern in use by the British army, will be admitted in service rifle competitions, unless an officially certified specimen of such rifle be deposited with the N. R. A. at least three months before the commencement of the Bisley meeting, and be approved for use at the Bisley meeting.

Sgt. W. Kelly, of the Toronto Grenadiers, and Color-Sgt. Jas. Freeborn, of Hamilton, were first in the doubles at Bisley, winning 90 shillings. McVittie and Lieut. Smith were sixth, 40 shillings.

In the Wantage, Blackburn was 13th, with 30; Mortimer 21st, with 29; Steek, 53th, with 20; Blackburn, of Winnipeg, was seventh in the Pixley match; Steek 15th, Mitchell 54th, and Mortimer 55th. Each won 20 shillings.

MAY BE WIPED OUT. Danville, Ill., July 29.—The village of Phoenix, 25 miles from here, on the Wabash, is burning. Fire started in a building on the main street at 3 o'clock and rapidly spread to adjoining buildings. It is feared the entire town will be destroyed, as it is without adequate fire protection.

The office that seeks the man is generally the one that isn't worth having.

OBITUARY.

Funeral of Miss Smart—Sudden Death of Mrs. Brown.

The remains of Miss Madge Smart were laid at rest yesterday afternoon, the funeral taking place from her mother's residence, 20 Elgin street, at 2 o'clock. Rev. Canon Wade, assisted by Rev. A. B. Higginson, of the Church of the Ascension, conducted the services at the house and grave, and the pall-bearers were Messrs. T. Fawcett, Charles Parsons, Edward Collard and Alex. McFarland. The floral tributes included the following: Pillow, mother, sisters and brothers; hearts, Mr. W. Nichols and Miss Sawyer; wreaths, Mrs. C. Kipp, Mr. and Mrs. Mills; maltese cross, Knights of St. John and Malta; baskets, Misses Reeves, McAllister, Dennis and Minnis; Reeves, McAllister, Dennis and Minnis; Mr. W. Ed. of B. McKay & Co.; sprays, Misses Raycroft, E. Collard, W. F. Jones, A. Henderson, Mrs. Parsons, T. Fawcett, J. J. Moylan, Mrs. Murphy, Mrs. Campbell, R. Linford, R. Bridge-wood, W. Nicholson, Amy and Ethel, Alia Nash, E. Mills, J. Goodfellow, H. Prellip, and M. Kartzmark.

Ella R., wife of W. E. Brown, died suddenly in this city on Tuesday. She had not resided in this city very long. The funeral took place this afternoon from J. H. Robinson & Co.'s chapel to Hamilton Cemetery. The services were conducted by Rev. Delos Smith, of Unity Church.

CAMERA CLUB.

Two Outings Arranged and Date For Testing Slides.

The Camera Club do not usually hold meetings during the summer months, but so great has been the interest manifested of late that meetings are being held about once a month. At a meeting this week it was decided to have an outing at Oaklands this Saturday afternoon. It was also decided that a meeting be held at the rooms, 104 1/2 King street west, on August 9, to be devoted to making and testing lantern slides, and any members who have pretty views suitable for slides are requested to take the negatives to the meeting. An outing will be held at Bronte on August 14.

ST. JOSEPH'S.

Choir and Sanctuary Boys Had an Outing.

Through the kindness of Mr. F. H. Whitton the choir and sanctuary boys of St. Joseph's Church had a delightful outing yesterday. The party went to 50 yard dash, small boys—Frank Lee, Elmer Mosher.

First of all there were fishing contests, the prize winners being: Largest number caught, John Woodroff; largest fish, Charles Colston; smallest fish, Jos. Woodroff.

H. B. & A. C. OUTING. The excursion to Windsor and Detroit which the Hamilton Bowling & Athletic Club has arranged for Saturday morning next affords a splendid opportunity for the racing public to attend the Windsor Derby on Saturday and the races on Civic Holiday and Tuesday. The train leaves Stuart street station at 10.05, arriving at Windsor at 2.15, and those going may return on regular trains any time up till Tuesday midnight. A special trip has been arranged by the club for those wishing to go to Cleveland by boat on Saturday night, returning on Sunday night to Detroit.

The Windsor old boys' reunion will be in full swing. If enough people signify a desire to return by special train on Saturday night or Sunday the club have arranged with the G. T. R. to put one on. The fare for round trip is \$2.45.

WHERE IS VALLEY INN? To the Editor of the Times: Sir,—A bet B that part of the driving shed of the Valley Inn is in the city. B says it is not. Which wins? Subscriber.

The stable and shed of the Valley Inn have for many years been assessed in the city of Hamilton, and the fact that the taxes have been paid without dispute is pretty good evidence that they are in the city. The hotel itself has been assessed in East Flamboro, but the city assessors say it is in the city also, and purpose so assessing it this year, in order that the point may be finally settled.

JAP IMMIGRANTS.

Falling Off in Number Coming to Canada—Hydro-Electric Scheme. (Special Despatch to the Times.) Ottawa, July 29.—Canada's trade commissioner in Japan, Mr. G. A. Harris, reports to the Trade and Commerce Department that the official emigration figures of the Japanese Government for the first five months of this year show that Japan is fully living up to the agreement with Canada and the United States to restrict Japanese immigrants to these countries. Up to the end of May the total Japanese emigration to America was 718, as compared with 2,275 for the same period of last year. Emigration to Canada totalled only 184, and of these 56 were classed as non-laborers. The number of Japanese in Canada who returned during the same period was 163, leaving the net increase only 21.

NORDICA MARRIED.

London, July 29.—Geo. W. Young, the banker of New York, and Madame Lilian Nordica were married in King's Weigh House Church, in Grosvenor Square, at half past two this afternoon, in the presence of a few friends, most of whom are well known in American and English society.

BROKE HIS LEG.

Huntsville, Ont., July 29.—While the local fire brigade were having a trial practice last night in preparation for the annual tournament at Perry Sound next week, a serious accident occurred. The brigade had just made a record run, and Gilmore Sheridan, a member of the brigade, employed in the dry goods store of Mendolson & Soskin, was getting off the wagon, when he tripped and was thrown to the ground, fracturing one of his legs in two places.

OUTRAGES AT GLACE BAY.

Another Explosion in Vicinity of Mines.

Manager McNeil's House Badly Shaken.

Attempt to Burn a Shack—Four Italians Arrested.

Glance Bay, July 28.—With two powder outrages reported within twenty-four hours, and an attempt to burn a shack at the reserve, the arrest of four Italians for setting off powder around the shacks at Dominion No. 3, and the arrest of the president of the U. M. W. local at Dominion No. 1, on a charge of intimidation, the twenty-third day of the strike at the Dominion Coal Company's mines was somewhat eventful. Another big increase in production was claimed by the company. According to a statement made to-night, the day's production amounted to 11,300 tons, which is nearly one thousand tons larger than the best previous output claimed.

Within 24 hours after the attempt to blow up the house of Manager Simpson, at Dominion No. 10, a charge of high explosive powder was set off along the house occupied by Angus McNeil, at the Gardner mines. Shingles were ripped off for about six feet, and everything inside the house was shaken up, but no one was injured. Public feeling has been very much aroused by these two occurrences. The municipality has offered a reward of \$500 for information that will lead to the arrest of the person who set off the explosive at Simpson's house, and the Attorney-General's Department, through the Crown Prosecutor, is conducting an investigation into the two affairs.

The circumstances surrounding the affair at the Gardner are very much like those in the Simpson case. A man was seen running away after the explosion, and several shots were fired after him by Mr. McNeil, but none of them appeared to have taken effect. Sentries have been placed around the houses of many of the managers at night as a result of the Simpson affair.

The right of the Dominion Coal Company to eject tenants on strike on two days' notice will be determined on Tuesday. A number of persons notified to vacate their premises have complied with the notice, but it has been guarded by others, and an application for an order of ejection has been made to County Court Judge Finlayson by the company against about twenty persons.

The parade of the U. M. W. on Saturday is arousing much attention. The present plans are that the parade will commence in Glace Bay at 1 o'clock, and by the time the Dominion is reached it is expected that there will be from 10,000 to 12,000 people present. Speeches will be delivered by International Vice-President McCullough; Mr. James Simpson, Vice-President of the Trades and Labor Congress of Canada; International Board Members Patterson and Bousfield, District President McDougall and District Organizer McLennan. District President McDougall will march the parade. Several speeches will be in line. So far no application for an escort of troops has been made to General Drury. The Dominion is the stronghold of the P. W. A., and has been running practically on full time for several weeks. By this demonstration it is hoped to secure a number of the P. W. A. men to the ranks of the international union.

EVIDENCE OF INTIMIDATION.

Three witnesses were examined to-day when the case against Allan Graham, President of the U. M. W. local at New Aberdeen, charged with intimidation, was commenced before Stipendiary Macdonald. All the witnesses were Frenchmen, and they swore that on the night of July 29 they were in the hall at New Aberdeen when the accused asked if they were working, and finding that they were, threatened to kill them if they were at work when he came back. The first witness examined was Clement Gougeon. He testified that he came to No. 2 on July 18, and two days later was in the hall at New Aberdeen. He had a conversation with Graham, in the course of which the accused asked him if he wanted to go back to Montreal. The witness said he did, and Graham said that he would keep him in the hall all night and arrange for his passage in the morning. The witness said he laughed, whereupon Graham exclaimed: "Don't try to scam me; if you do I will knock you down, even if I die for it to-morrow." This threat, the witness deposed, was emphasized by pounding on the desk with a club. Two other witnesses corroborated Gougeon's story. A number of Germans who were returning from work at the Dominion yesterday evening were stoned by several women and men. They were attacked again this morning, and so thick did the missiles fly that the men were compelled to turn back. They were later on escorted to their work by the company's special police.

CATARRHAL ASTHMA

A Remedy Now Being Used That Destroys the Microbe and Cures Permanently.

That germs cause these diseases is beyond dispute—and this conclusion renders obsolete the practice of treating asthma, catarrh and bronchitis by stomachic drugs, sprays, snuffs, etc. Such treatments are an utter failure because they cannot penetrate the delicate air cells of the lungs or permeate the air passages of the nose and throat in two minutes where the germs of Catarrh have their stronghold. Catarrh is the only certain remedy. It is inhaled by the mouth, and after spreading through all the respiratory organs is exhaled through the nostrils. Catarrh kills the germs, heals the inflamed tissues, clears the head and throat in two minutes and cures in a few hours. Nothing so effective, pleasant and simple as Catarrh. The dollar outfit of Catarrh cures Catarrh, throat irritation and chest weakness. Smaller trial size 50c, all dealers or the Catarrh Co., Kingston, Ont.

ONE ON THE DOCTORS.

Mrs. J. Rioux, St. Moise, Que., says: "Fruit-a-tives cured me of severe Liver Disease. Neither doctors nor any other remedy did me any good, but Fruit-a-tives promptly cured."

"Fruit-a-tives" always cure Liver Trouble, Biliousness and Constipation because they are directly on the liver. They stimulate the secretion of bile, which decreases the quantity of blood in the liver, and thus relieves the Congestion or Biliousness. With plenty of bile to move the bowels, there is an end to the Constipation.

"Fruit-a-tives" are a positive cure for all troubles arising from a disordered liver.

"Fruit-a-tives" are the juices of apples, oranges, figs and prunes—prepared by a newly discovered process, and combined with valuable tonic and antiseptic. These, without doubt, the most popular remedy in Canada to-day.

50c. a box, 6 for \$2.50, or trial box 25c. If you can't get "Fruit-a-tives" in your neighborhood, these wonderful tablets will be sent postpaid, on receipt of price by addressing Fruit-a-tives Limited, Ottawa.

DROPPED TWO MILES

Aeronaut Turned His Balloon Into Parachute.

Conway, Mass., July 28.—Transforming his balloon into a parachute at a height of over two miles, by loosening the appendix cord and allowing the lower part of the balloon to rise into the netting, Dr. S. S. Stowell, of Pittsfield, in his first trip as pilot, to-day made a drop to earth in the balloon Pittsfield. The experiment was probably the first of this nature ever tried in this country. A perfect landing was made without the valve cord being touched.

The balloon ascended from Pittsfield this morning, the passengers being John T. Manning, of this city, and Miss Blanche Hulse, a nurse in Bellevue Hospital, New York. When over Ashfield and Buckland the aeronauts struck a vortex, which once before has troubled balloonists, and they were swept rapidly upward to a height of more than two miles.

At this height, with but one bag of ballast left, Dr. Stowell conceived the idea of making a parachute of his balloon and allowing it to take its own course to earth rather than to use the valve cord and allow gas to escape. The appendix cord was loosened, and the balloon took the form of a monster toadstool and started slowly earthward.

ST. ANNE'S SHRINE.

Remarkable Cures Reported From a Small Illinois Town.

Kankakee, Ill., July 28.—Lillian, the 3-year-old daughter of Mr. and Mrs. Edward Fountain, 52 Station street, Kankakee, was cured of blindness on the occasion of the annual pilgrimage to the shrine of St. Anne at St. Anne, Ill., marking the close of a nine days' novena.

Led by her mother, the child suddenly staggered back in fright as her closed eyelids opened. Crying for joy the mother pushed her way through the crowd of cripples and friends and hurried with the little one to a nearby house.

At the age of seven months the child became blind from the effects of blood poisoning caused by whooping cough. Two years ago a partial cure was effected at the shrine of St. Anne, but blindness resulted again two months ago and the mother desired to make the pilgrimage a second time.

Mrs. Michael Joyce, of Essex, cured a year ago of running sores on the left leg, received similar benefit to-day to sores on the right leg.

Martha Colpinsky, 7 years old, of Kankakee, suffering from a dislocated hip, appeared benefited.

It was reported that a young son of a Chicagoan, affected with hip trouble, was able to walk for the first time, but this could not be verified.

Three thousand pilgrims thronged the streets of the village, including 1,100 on an excursion from Kankakee and vicinity and 400 from Chicago. Father Bergeron, of Notre Dame Church, Chicago, and Father Fortin, of Brighton Park, assisted in the closing services.

OPIUM JOINTS.

No Fines Will Hereafter be Imposed on Keepers.

Toronto, July 29.—Two complete outfits from an opium-smoker's den—pipe, spirit lamp, opium bowl and tins of the sticky enticing drug—adorned the Crown Attorney's table in the Probate Court yesterday when Lee Chung Hung, a Chinese, wearing a native silk blouse and with his hair in a queue, was charged with conducting an opium joint at 154 York street.

Five of Lee's compatriots were charged with being frequenters of the place.

Magistrate Kingsford made a conviction. "As this is the first conviction under the amended code, and the amendment has only been in force since May 19, I will not inflict a year's imprisonment on the keeper, as the law permits," said "I instead, I will inflict a fine of \$100 and costs, or in default, twelve months in prison." Lee pulled out a wad containing about \$500 and paid the fine. "I want it understood that I only make it a fine because it is the first case. In future convictions the penalty will be a year in prison," warned Mr. Kingsford. The frequenters were allowed to go on remanded sentence. A similar fine was imposed on Tie Yon, who kept an opium resort on Richmond street west, near Simcoe.

New Judge Sworn In.

Peterboro, July 29.—Mr. E. C. S. Huycke, K. C., recently appointed County Court Judge of Peterboro, arrived with Mrs. Huycke in the city to-day to assume his duties. He was sworn in to-night by Registrar B. Morrow in the library of the Law Association in the presence of members of the local bar and the Mayor and members of the City Council. Addresses of congratulation and welcome were given on behalf of the bar and the citizens of the city and county.

Many a man has made his mark in the world by making a mark of some other fellow.

SPAIN THREATENED WITH REVOLUTION.

Desperate Fighting in Barcelona—Spain Placed Under Martial Law.

Governor Ordered to Crush Rebellion—Fighting in Morocco—King Alfonso Hooted.

EMPEROR OF MOROCCO.

Against whom the Spaniards are warring.

Madrid, July 28.—The revolution in Catalonia has reached a serious stage. There is much bloodshed, and artillery has been employed in the streets of Barcelona to quell the outbreaks. The city is terror-stricken. The revolutionists are reported to be fighting desperately behind barricades. The troops include mounted artillery and the defenses of the rebels have been raked with shot.

King Alfonso hastened back to Madrid from San Sebastian to-day and issued a decree proclaiming martial law and the suspension of constitutional guarantees throughout Spain. Orders have been given to the Governors of the provinces to crush the revolution at any cost, without hesitation and without pity. To-day marks a black chapter in Spain's history, for there was tragedy both at home and abroad. The King reached here in time to learn that part of his army at Melilla had a bloody battle with the Moors, which, though the final victory was the Spaniards', cost the lives of twenty-one officers and a total of two hundred Spaniards killed or wounded.

An exact estimate of the dead and wounded in the clashes between the troops and rebels in Catalonia is impossible owing to the rigid censorship. The Government admits, however, that rioters have been killed and wounded in several cities and towns, including Barcelona, Alcoy and Calahorra.

Details of the latest disturbances at other points are either meagre or lacking altogether. There has been rioting at Saragossa, Vendrail, Rioja, Port Bou and Llanon, and a general strike was declared to-day at Biscaya. At these places there has been much destruction of property, including bridges and public buildings.

The centre of the rebellion in Barcelona, to which place the Government is rushing extra troops, both infantry and naval marines. A despatch this morning said that the Barcelona revolutionists had been defeated as a result of desperate charges by the troops, but a despatch at noon announced that fighting had begun again, the artillery using heavy guns to demolish the barricades. The peaceful section of the population fled in fright to their homes and locked and barred the doors.

A military proclamation has been issued at that city that no life is safe, and warning peaceful citizens to remain under cover to avoid the fire of the troops.

The greatest inquietude exists in Madrid. King Alfonso was closeted until a late hour with Premier Maura, and an official note was issued, saying that the situation was exceedingly grave and that the rebellion must be repressed with an iron hand.

The latest reports from Barcelona show the conditions there to be in a dangerously grave. The rioters have attacked the convent of the Little Sisters of the Poor. This followed the riotous disorders when the mobs assaulted and then burned several of the religious establishments, following their attack by a fusillade on the Captain-General and his escort.

New disorders are now reported from two other interior points, thus far tranquil. The new points of disorder are Alcoy and Rioja. This shows that the zone of popular agitation is spreading beyond the turbulent Catalonians and is affecting the Valencians. The Minister of the Interior is besieged with inquiries as to the various outbreaks, but he declines to make public the details of the disorders in the Valencian towns.

The people continue to tear up the railways and noisily intervene at the points where reserves are being recruited for military service. The chief indignation of the people is directed against the Government's policy of rapidly recruiting a large army to cope with the grave condition confronting Spain in Morocco.

The inhabitants of Culera, a small station of the Port Bou line, maddened by the sight of a passing train carrying recruits, destroyed the roadbed for a distance of seven kilometres.

CAMPERS THREATENED WITH EPIDEMIC.

Oran, Algeria, July 28.—Reports received here from Melilla are very pessimistic. General Marina, head of the Spanish forces there, is described as being extremely unpopular with his men. The camps at Sidi Mura and Mount Atalayon, where the Spanish dead were interred where they fell, are threatened with epidemic.

MOORS AMBUSHED THE SPANISH.

Madrid, July 28.—Every supplementary detail of the battle which raged on July 23 proves that the Spanish situation was most grave. The Moors ambushed a Spanish column in the Alfer Ravine, killing and wounding 400 men. The shattered fragments of the column escaped only under the protection of the Spanish gunboat Martin Alonzo Pinson and the Melilla forts, which fired two thousand rounds.

SLEW HIS COLONEL.

Madrid, July 28.—The death of Lieutenant-Colonel Hanezmarin on July 23 in an engagement between the Spanish troops and Moorish tribesmen around Melilla was most dramatic. The Spanish regiment was decimated. Hanezmarin was wounded, and he ordered a sergeant to finish him in order to prevent his falling into the hands of the Moors to be tortured. The sergeant obeyed the order.

He closed his eyes and sent a bullet into his colonel's heart. Estimates of the Spanish losses have been raised to 400 killed or wounded. The mountain passes are filled with the bodies of Moors, over which jackals and birds of prey fight.

KING ALFONSO HOOTED.

London, July 28.—Special despatches from Madrid describe the situation as extremely grave. King Alfonso was widely hooted in the streets on his arrival, and the Government is doing its utmost to minimize the effect of the crushing reverses suffered by the Spanish forces at Melilla. It will be obliged to send large reinforcements to that point.

Breaches of discipline are common both at Melilla and the Madrid barracks, and the despatches declare, several soldiers have been shot daily for insubordination. It is also asserted that a whole battalion recently refused to fight at Melilla, and fled, leaving their colonel to be killed, while several companies when ordered to the firing line retorted by compelling their officers to go in front. This accounts for the heavy mortality among the officers.

In Catalonia the Socialists and other extremists are fanning the flames of revolution. Already the cry is heard, "Down with the King!"

G. T. P. ROAD.

Winnipeg to Lake Superior Section About Ready to Lease.

Want Branch Line to Connect Brandon With Main Line.

(Special Despatch to the Times).

Ottawa, July 28.—The Transcontinental commissioners report that the Winnipeg to Lake Superior section of the road will be ready to lease to the G. T. P. early in September, thus enabling the company to carry at least a portion of this year's crops handed on its main line west of Winnipeg through to Fort William. It is, however, doubtful if the road from Winnipeg to Superior Junction will be in shape this fall to handle all the traffic offering. With a new road there were bound to be a few bad spots where it will take some time to get the roadbed in shape to properly handle traffic, and if the fall brings heavy rains there will probably be many delays through washouts, etc. However, an effort is being made to hurry along completion of the road, and during the latter part of the fall it is expected the wheat trains will be running over it.

A deputation from Brandon, headed by Mayor Adolphe and introduced by Hon. Clifford Sifton, waited on Sir Wilfrid Laurier this morning, asking that the Government bring pressure to bear on the G. T. P. to compel the prompt construction of the company's promised branch line connecting Brandon with the main line of the G. T. P. at Justice, some ten miles north. Sir Wilfrid promised that the Government would endeavor to secure the immediate construction of the branch, so that it would be in operation this fall.

SKULL CLEFT.

Elmira Man is Found With Fractured Skull After a Riot.

Striking Laborers Swung Axes and Brandished Knives.

Hornell, July 27.—Philip Angelo, of Elmira, was fatally injured, and Frank Romeo, of this city, was severely injured in a riot in Little Italy, just east of the city line, this afternoon, and the timely arrival of a squad of patrolmen prevented a wholesale killing.

For two days the Italians in the Erie yards here have been on a strike. The laborers are housed in box cars near East avenue. Angelo, who is an agent of Delapapa, who furnishes laborers, was sent here this afternoon to talk over the situation with the strike leaders with a view to effecting a settlement.

What took place at the conference is not known, but a short time after Angelo was seen to walk down the tracks the residents of that vicinity heard shouting and saw a score of laborers brandishing knives and axes, chasing a man, who was also armed with an axe.

At Swan street the pursued man turned and hurled his axe in the crowd and disappeared between two houses.

The police were notified and at once sent a detail to the scene. They found Angelo lying on the ground with the blood pouring from an ugly wound in his head, near his ear. Romeo, bleeding from numerous knife wounds. Two other men who had been badly slashed could not be found. The wounded men were rushed to the hospital, where it was found that Angelo was suffering from a fractured skull. The surgeons there say that he will die.

Romeo was badly stabbed about the chest and shoulder.

The Italians the police have corralled refuse to say anything about the affair. The police are making a rigid investigation.

HUMAN CHAIN.

Three Policemen Linked Save Ten Lives.

New York, July 28.—Policemen McKenna, Leahy and Hildeman, of Hoboken, to-day formed a human chain between two buildings so that ten women and children might walk in safety over their backs from a burning structure. The women and children were trapped in the burning house at 112 Grand street. The policemen gathered at 110 Grand street and formed the human chain. McKenna suspended himself head downward and his body swung like a pendulum until he managed to grasp the opposite window. The women and children were ordered to crawl along McKenna's back to Leahy's and then over Hildeman's into the window of a house opposite.

THE OLD STORY.

Child and Matches, Clothes on Fire, Now Funeral.

Cannington, Ont., July 28.—While Mrs. Charles Hill was out shopping yesterday afternoon, her three-year-old daughter, Pearl, got hold of some matches and set fire to her clothing. The neighbors, hearing the child's screams, went to her assistance, but before the fire could be put out the child was badly burned and died early this morning.

FELL OFF SPEEDER.

Farmer Was Injured Trying to Escape from Locomotive.

Ferry Sound, July 28.—Yesterday evening a farmer named Joseph Graham, of Otter Lake, was riding on the back of a speeder with two employees of the C.P.R. on that railway near his residence, when on rounding a sharp curve a locomotive was discovered coming towards them. All the men jumped off the speeder, but in some way Graham's foot slid under the speeder, with the result that it was horribly mangled. Graham was brought to the General Hospital here where it was found necessary to amputate the foot. The speeder was demolished. The other men escaped unhurt.

MORTAR EXPLODED.

Two Men Killed at Fireworks Display Near Sandusky.

Sandusky, O., July 28.—One man was killed and two were injured when a mortar exploded during a fireworks display in connection with the convention of the National Hay Dealers' Association at Cedar Point last night. A part of the mortar struck Henry Jordan, of Sandusky, in the head, killing him instantly. Another piece of metal struck Thomas Larkin, of Sandusky, in the mouth, and flying sand probably destroyed the eyesight of Andrew Dietrich, of Reading, Ohio.

TEACHER RESIGNS.

Windsor, Ont., July 28.—D. M. Eagle, of the Windsor Collegiate Institute teaching staff, has tendered his resignation, to accept a position as principal of the schools of Nelson, B. C. Mr. Eagle has been connected with the Public School and Collegiate staffs in Windsor for about eight years.

LOST AN ARM.

Quebec, July 28.—A terrible accident occurred in the office of Le Soleil yesterday afternoon, when Oliver Arudel, the chief mechanic of the press department, had one of his hands caught between two of the cylinders of the news press, and before it could be stopped the forearm had been drawn in and crushed so badly that it had to be amputated.

Want Branch Line to Connect Brandon With Main Line.

(Special Despatch to the Times).

Ottawa, July 28.—The Transcontinental commissioners report that the Winnipeg to Lake Superior section of the road will be ready to lease to the G. T. P. early in September, thus enabling the company to carry at least a portion of this year's crops handed on its main line west of Winnipeg through to Fort William. It is, however, doubtful if the road from Winnipeg to Superior Junction will be in shape this fall to handle all the traffic offering. With a new road there were bound to be a few bad spots where it will take some time to get the roadbed in shape to properly handle traffic, and if the fall brings heavy rains there will probably be many delays through washouts, etc. However, an effort is being made to hurry along completion of the road, and during the latter part of the fall it is expected the wheat trains will be running over it.

A deputation from Brandon, headed by Mayor Adolphe and introduced by Hon. Clifford Sifton, waited on Sir Wilfrid Laurier this morning, asking that the Government bring pressure to bear on the G. T. P. to compel the prompt construction of the company's promised branch line connecting Brandon with the main line of the G. T. P. at Justice, some ten miles north. Sir Wilfrid promised that the Government would endeavor to secure the immediate construction of the branch, so that it would be in operation this fall.

SKULL CLEFT.

Elmira Man is Found With Fractured Skull After a Riot.

Striking Laborers Swung Axes and Brandished Knives.

Hornell, July 27.—Philip Angelo, of Elmira, was fatally injured, and Frank Romeo, of this city, was severely injured in a riot in Little Italy, just east of the city line, this afternoon, and the timely arrival of a squad of patrolmen prevented a wholesale killing.

For two days the Italians in the Erie yards here have been on a strike. The laborers are housed in box cars near East avenue. Angelo, who is an agent of Delapapa, who furnishes laborers, was sent here this afternoon to talk over the situation with the strike leaders with a view to effecting a settlement.

What took place at the conference is not known, but a short time after Angelo was seen to walk down the tracks the residents of that vicinity heard shouting and saw a score of laborers brandishing knives and axes, chasing a man, who was also armed with an axe.

At Swan street the pursued man turned and hurled his axe in the crowd and disappeared between two houses.

The police were notified and at once sent a detail to the scene. They found Angelo lying on the ground with the blood pouring from an ugly wound in his head, near his ear. Romeo, bleeding from numerous knife wounds. Two other men who had been badly slashed could not be found. The wounded men were rushed to the hospital, where it was found that Angelo was suffering from a fractured skull. The surgeons there say that he will die.

Romeo was badly stabbed about the chest and shoulder.

The Italians the police have corralled refuse to say anything about the affair. The police are making a rigid investigation.

HUMAN CHAIN.

Three Policemen Linked Save Ten Lives.

New York, July 28.—Policemen McKenna, Leahy and Hildeman, of Hoboken, to-day formed a human chain between two buildings so that ten women and children might walk in safety over their backs from a burning structure. The women and children were trapped in the burning house at 112 Grand street. The policemen gathered at 110 Grand street and formed the human chain. McKenna suspended himself head downward and his body swung like a pendulum until he managed to grasp the opposite window. The women and children were ordered to crawl along McKenna's back to Leahy's and then over Hildeman's into the window of a house opposite.

THE OLD STORY.

Child and Matches, Clothes on Fire, Now Funeral.

Cannington, Ont., July 28.—While Mrs. Charles Hill was out shopping yesterday afternoon, her three-year-old daughter, Pearl, got hold of some matches and set fire to her clothing. The neighbors, hearing the child's screams, went to her assistance, but before the fire could be put out the child was badly burned and died early this morning.

FELL OFF SPEEDER.

Farmer Was Injured Trying to Escape from Locomotive.

Ferry Sound, July 28.—Yesterday evening a farmer named Joseph Graham, of Otter Lake, was riding on the back of a speeder with two employees of the C.P.R. on that railway near his residence, when on rounding a sharp curve a locomotive was discovered coming towards them. All the men jumped off the speeder, but in some way Graham's foot slid under the speeder, with the result that it was horribly mangled. Graham was brought to the General Hospital here where it was found necessary to amputate the foot. The speeder was demolished. The other men escaped unhurt.

MORTAR EXPLODED.

Two Men Killed at Fireworks Display Near Sandusky.

Sandusky, O., July 28.—One man was killed and two were injured when a mortar exploded during a fireworks display in connection with the convention of the National Hay Dealers' Association at Cedar Point last night. A part of the mortar struck Henry Jordan, of Sandusky, in the head, killing him instantly. Another piece of metal struck Thomas Larkin, of Sandusky, in the mouth, and flying sand probably destroyed the eyesight of Andrew Dietrich, of Reading, Ohio.

TEACHER RESIGNS.

Windsor, Ont., July 28.—D. M. Eagle, of the Windsor Collegiate Institute teaching staff, has tendered his resignation, to accept a position as principal of the schools of Nelson, B. C. Mr. Eagle has been connected with the Public School and Collegiate staffs in Windsor for about eight years.

LOST AN ARM.

Quebec, July 28.—A terrible accident occurred in the office of Le Soleil yesterday afternoon, when Oliver Arudel, the chief mechanic of the press department, had one of his hands caught between two of the cylinders of the news press, and before it could be stopped the forearm had been drawn in and crushed so badly that it had to be amputated.

72 Days of Dish Washing

You spend two hours every day washing dishes. That's 720 hours a year or 72 days of ten working hours each. This means that half the time is wasted. For with Taylor's Borax Soap you finish your work in one hour instead of two.

Isn't it worth five cents to have 36 days a year to yourself—to have cleaner and sweeter dishes than ever before with less than half the work?

Taylor's Soap

This wonderful soap is unlike any other you have ever known. It digs into the corners of dishes and loosens the dirt almost like magic. It cuts away grease and leaves the surface clean and polished.

Hard water makes hard dish washing, but Taylor's Borax Soap softens the hardest water and so makes the work easy. But it does more than soften the water—it softens the hands and leaves them even whiter than before.

With this soap you save all the bother of rubbing and most of the scouring. You simply have no idea of the work this soap can save—it is the greatest surprise you have ever known.

The glassware has a lustre that fairly sparkles with brilliance. The china ware looks as fresh and inviting as new. Yet you work only half as hard with this astonishing soap. No soap could be purer than this, for during the boiling process we run thousands of gallons of clean water through the soap. Thus every impurity is carried away and the soap is absolutely clean.

Borax also sterilizes and sweetens. It kills every germ and leaves a clean scent that is simply delightful.

POLICE AND LAW.

INSPECTOR ARCHIBALD ON RACE TRACK LEGISLATION.

Interesting Papers at Convention of Police Constables' Association—Virtues of the Ideal Policeman Are as Diverse as Those of a Diplomat.

Niagara Falls, July 28.—The Police Constables' Association of Canada met in convention here to-day. The attendance was the largest in the history of the association, nearly 100 being present from points as widely separated as Rimouski and Victoria.

President George Rozell, Peterboro, in the president's address, reviewed the work of the past year, and pointed out the educational side of the convention. Criminals as a scientific study, the virtues of the much maligned policeman, and the inefficiency of the present law governing race track gambling were the subjects of able papers from Dominion Parole Officer Archibald, Ottawa; Chief Smythe, Cornwall, and Inspector Archibald, Toronto, and Chief Genest, Hull, gave a paper on "The Conservator of the Peace."

Officer W. P. Archibald's paper on the classification of criminals and preventive detention dealt in an able manner with the question of criminality as a scientific study. He divided criminals into their several classes and gave each class its particular features. He suggested that a preventive act similar to that in effect in England should be placed on the statute books of Canada.

According to Chief Smythe, the virtues which an ideal policeman must possess are as manifold and as diverse as those which make a diplomat successful. A policeman is expected at all times to be dignified, tactful and of cool temper, with an inexhaustible well of patience. He is expected to be a judge of human nature, a walking bureau of information, and an animated check on the fickleness of the electric light. He must be ready to turn in an instant from an incipient street row to politely assist some nervous lady across the street, play the part of a genial grandpa, and a few minutes later be engaged in a rough-and-tumble with some individual spoiling for a fight.

Inspector Archibald, Toronto, gave a paper on "Race Track Gambling," and reviewed the legislation relating thereto enacted during the past twenty-five

THAW NOT TO BE TRIPPED.

Makes Excellent Witness For Himself at Sanity Hearing.

Fences Most Adroitly With District Attorney Jerome.

Expresses Regret at Some Things He Said About His Victim.

White Plains, July 28.—Harry K. Thaw's fate lay in his own hands to-day. For six hours he occupied the witness stand while District Attorney Jerome, the man who twice tried to send him to prison and who once already has thwarted an effort to release him from a criminal insane asylum, delved into his life history. Thaw emerged creditably from the ordeal.

To-night Thaw, the members of his family and his retinue of attorneys and experts were unanimous in their opinion that he has proved his fitness to be released from Matteawan.

But Thaw's ordeal is not over. He will remain on the witness stand to-morrow and perhaps a day longer. The state's alienists believe that if he is insane he will be more likely to betray himself toward the end, when wearied by Jerome's continued hammering.

Neither Thaw nor the New York district attorney displayed anything but the utmost good nature to-day. Sometimes Thaw thought he had scored a point and smiled with keen enjoyment. This smile was always reflected on the face of his mother, who sat in court throughout the day with the other members of the family.

Jerome to-day strove to establish Thaw's insanity mainly on alleged hallucinations regarding Stanford White's treatment of young girls. Time and again he asked the witness' own opinion of his mental state. Thaw's replies in substance were: "I have always been sane, medically. When I killed White I may have been legally insane for a few minutes, I am sane now."

Three years' confinement does not seem to have embittered Thaw. To-day he expressed regret for certain of the more unspeakable charges which he made in his will against the man he killed. Although frequently quoted in the past as not regretting his deed, he declared he sometimes felt regret, although any feelings of remorse and horror were diminished, he added, by the strain of the continued legal squabbling of the last three years.

At times the witness scored on the district attorney so palpably that the whole court-room joined in the smile of triumph. Nothing pleased him more than the chance to correct Jerome on some minor detail of the evidence of past legal proceedings, which he had at his tongue's end. One characteristic episode occurred when Jerome asked Thaw to explain his hostility to Dr. Allan McLane Hamilton, one of the state's former alienists. Thaw said he did not know exactly why he disliked Hamilton. It was like the case of Dr. Fell, he added.

"Who is Fell?" inquired Jerome, innocently.

"Why, don't you know?" exclaimed the witness in surprise. Then he quoted the first two lines of the nonsense rhyme.

I do not like you, Dr. Fell,
The reason why I cannot tell.

Thaw's mood was not always jovial. He gave the first signs of worry when the district attorney returned later to his dislike of Dr. Hamilton and asked a number of questions evidently designed to show that Thaw's prejudice was violent and abnormal.

Another line of questions that made the witness knit his brows had to do with his relations with Evelyn Nesbitt before their marriage. Although it has been alleged that Thaw has broken with his wife and that she is aiding the opposition, he showed a strong desire to-day to shield her name. The young woman herself arrived in the court-room during this part of the examination and rewarded her husband's evident consideration for her feelings with several radiant smiles.

Thaw said that his own choice of an

attorney for his first trial was Governor Hughes, "because the jury would know that any witnesses he put on the stand would be truthful."

Jerome reviewed Thaw's frequent changes of counsel. The witness explained that his disagreement with the firm of Black, Gruber & Olcott was due to their determination to try to acquit him on the ground of insanity, when he knew he was not insane. He reiterated, however, that he might have been insane for a brief interval when he killed White.

Mr. Jerome reverted to the testimony given yesterday by Susan Merrill, Thaw's former landlady in New York. Thaw declared that when he first learned that Mrs. Merrill was to go on the stand he was angry.

"I was told," he continued, "that Geraves, assistant district attorney, got her up in your office and spat in her face and got her to tell a lot of lies about me. But, of course, I don't say that is true."

Thaw apparently was unruffled by his ordeal when he left the stand.

When the afternoon session opened, Mr. Jerome asked Thaw: "In your opinion are you now sane?"

"Yes," said Thaw, "and in other persons' opinions."

The witness was then shown the pamphlet prepared by his mother.

"Did you believe there is any truth in the allegation which this pamphlet contains that a cowardly combination of powerful men existed against you?" asked the prosecutor.

"My mother must have been so informed or she would not have said it," was the reply.

Thaw said he did not believe that such a combination existed to conceal "the wrongdoing of Stanford White and his associates."

The first evidence Thaw gave of any hesitation was when Jerome probed further into the events leading up to the shooting and questioned him regarding his early relations with Evelyn Nesbitt. The witness fenced desperately and picked his words carefully with an evident desire to present this part of his career in the best possible light.

At this psychological moment Evelyn Nesbitt Thaw herself slid into a seat among the witnesses. If Jerome had planned her appearance to confuse Thaw, he could not have brought her in at a more telling juncture.

Young Mrs. Thaw looked more girlish than at any of her former appearances. She wore an extremely juvenile one-piece frock of some wash material and a red and blue plaid coat. Her street hat was of a blue that matched her dress.

Thaw said that after White's death he was exceedingly sorry for certain charges he had made against the architect in his will. This instrument was drawn in 1905 on the day of his marriage.

The codicil set aside \$50,000 to be used in investigating Thaw's death in case it occurred under suspicious circumstances, and this clause has been advanced as evidence of an unsound mind.

Thaw explained that it was inserted to do with the White matter. It was inserted, he said, on account of his recollection of a trip in 1903 to Mount Olympus, in Bithynia, Asia Minor, where he learned that travelers were frequently murdered by bandits and outlaws.

"Thinking that I might some day revisit Bithynia or some other equally dangerous neighborhood," said Thaw, "I made this provision."

Jerome asked Thaw if he would not prefer private examination by alienists chosen by both sides rather than submit to cross-questioning in open court, which necessitated dragging in such a quantity of unsavory details. Thaw answered that he had had enough of being examined by experts and now preferred to let the court decide.

"I prefer to have these things dragged out," he said, "if you insist on dragging them out."

Jerome devoted nearly an hour to reading letters sent by Thaw to Anthony Comstock, containing charges against White. Thaw said he had signed assumed names to these because he thought he could be more useful in ferreting out the crimes if his identity were kept secret. The allegations contained in these letters were part of the evidence at the homicide trial.

"Have you maintained your interest in the suppressing of such crimes?" asked Jerome.

"I lose my interest in them," replied Thaw, "on June 26, 1906." (The day he shot White.)

The hearing adjourned at 5.15 p. m.

CONCOR KING EAST AND HUGHSON BLD. THOMAS C. WATKINS HAMILTON, ONTARIO

FOUND AFFINITY

After Living as Husband and Wife for Ten Years.

Montreal, July 28.—Mr. Justice Dunlop rendered judgment this morning in the case of Jules Archambault vs. Georgina Bonin, annulling their marriage, contracted in October, 1897, on the ground that some unknown affinity between the parties had come to light in a recent semi-judicial and semi-religious enquete. The plaintiff had presented a petition to Mgr. Bruchesi, Archbishop of Montreal, to have the religious authorities annul his marriage because he was a relative of his wife to a degree which renders a license necessary for a union in the Catholic Church.

In the investigation held before the religious tribunal of the diocese it was established that Georgina Bonin was a collateral affinity of Jules Archambault, her husband, since 1897. Mgr. Bruchesi rendered his decision in January last, and declared that according to the Catholic canons the parties had no right to be married without a special license, and that the marriage was annulled.

The case was then carried before the civic courts of this Province on the same ground, and as both the Catholic canons and the civil code agree on the point at issue, Mr. Justice Dunlop decided the matter on the ground taken by Mgr. Bruchesi, so that now Jules Archambault and Georgina Bonin, who have lived a married life together for more than ten years, are no longer husband and wife, and can get married again to others.

CLAIRVOYANT

Says Young Man Was Murdered in Lake Montford.

Montreal, July 28.—Impressed with the story of a clairvoyant that her son was murdered and his body sunk in Lake Montford, Mrs. Francis Fournier sent a diver to-day on the 4 o'clock train to search the bottom of the lake. Impressed with her faith, which was in line with their own suspicions, two Provincial detectives went with the diver in a further effort to unravel this new mystery of the mountains. Last November Francis Fournier, jun., was working with a contractor in the mountains. He went duck-shooting one day with a companion and was never seen again. The story which came to Montreal was that he was drowned by the upsetting of the canoe. It is now believed that murder was committed.

Cheap Excursions For Civic Holiday, Monday, August 2nd.

Do you know that there are hundreds of attractive places conveniently reached by the Grand Trunk Railway System, where the holiday may be pleasantly spent at moderate cost? Muskoka, for instance. By all means the favorite way to this resort is the pioneer route, along the shores of Lake Simcoe and Lake Couchiching and across the Severn to Muskoka Wharf, the starting point of the Muskoka Lakes steamers. Do not miss the beautiful sail up Muskoka Lake to Beaumaris and Indian River to Port Carling, thence to Lake Rosseau and Lake Joseph.

Trains leave Hamilton 10.45 a. m. and 12.45 a. m. (midnight); through sleeper. Other places well worth visiting are: Lake of Bays district, Temagami, Georgian Bay, Kawartha Lakes, Magnetawan River, French River, Lake Couchiching, etc.

The Grand Trunk is the only line reaching all the resorts in the "Highlands of Ontario."

SEA COMMAND FIRST

MOST IMPORTANT OF ALL, SAYS MR. HALDANE.

The Chief Question Before the Defence Conference—Afterwards an Army of Long Range is Needed—Canada's Loyalty Not Dependent on Tariffs.

London, July 28.—Proposing the toast to the Imperial Defence Conference at the British Empire Club banquet in the Guildhall to-night, Mr. Haldane declared: "There is only one maxim that we can lay down: that the British Empire is one and indivisible on this question of defence. (Cheers.) I believe it to be on that maxim that the Conference is really concentrated. We recognize that the command of the sea must come in the first place, and that the army which is to protect the empire must be no army chained to these shores, but an army of long range, suited to deal with problems at long range."

Sir Frederick Borden, replying, said that while Canada stood upon her rights and insisted upon her freedom, it was untrue and unfair to pretend for any man to say, as had been said, that Canada's patriotism and loyalty depended in the slightest degree upon what the fiscal policy of Britain might be. (Hear, hear.) He thought true Imperialism was that which led different nations along the lines of development of their own resources. But they realized their Imperial responsibilities, and the people of Canada were prepared to pay their share of the cost. In thoroughly preparing their defence for local defence, they were doing their best to take their part in the defence of the empire. With the guidance of Mr. Haldane, a plan had been adopted in Canada by which, he believed, the local means of defence would be so carried out that should any one of the dominions wish at any time to send a division and a force to assist in another country it would be easy to carry out that end. Why could not the same thing be done with regard to a navy Canada would be prepared, to its last dollar, to assist in the maintenance of the integrity of the empire. (Cheers.)

THREE DEFENCE AXIOMS.

London, July 28.—The Times, referring to Imperial defence, lays down three principles: (1) Each dominion must develop naval resources of its own. (2) The training and material of these naval forces must be, as far as possible, the same. (3) All individual effort must be co-ordinated to a common end. "If," says the Times, "Canada, for instance, in the course of years, were to make the North Pacific her naval sphere, she would do so in the Empire's interests as well as her own, in combination with a common naval policy covering all parts of the world." It adds that the three principles mentioned are broadly accepted.

INCOMPETENT MOTORMEN.

Winnipeg Street Railway Company Censured for Them.

Winnipeg, July 28.—The adjourned Coroner's inquest on Enoch Rees and Ernest Illette, who were crushed between street cars on the devil strip at the corner of Logan and Main streets on Sunday, blamed Motorman Taylor for moving his car when the other car was already on the curve, and declared him to be grossly incompetent. They censured the Street Railway Company for employing incompetent motormen and for not having a standard examination.

Both Taylor and the other motorman, Herbert, were detained by the police, and in the ordinary course will appear before the Magistrate on Wednesday.

Thomas Taylor, the motorman who was in charge of the car, was to-day indicted for manslaughter, and sent up for trial at the Assizes. The company did not send a legal representative to defend him. An action has been entered on behalf of Rees' heirs for \$40,000 damages.

MOWAT MEMORIAL.

Kingston Hospital Will Serve the Dual Purpose.

Kingston, July 28.—At a meeting at the Kingston General Hospital of the committee appointed to erect a sanatorium it was unanimously decided to make the building serve the dual purpose of a sanatorium and memorial to the late Sir Oliver Mowat. The cost will be \$13,000. The memorial has the approval of the Mowat family.

BOTH DROWNED.

Woman Throws Arms Around Mother Who Swam to Rescue.

Rochester, N. Y., July 28.—Mrs. Gordon Hoyt and Miss Clara Hoyt, mother and daughter, were drowned to-day at Snug Harbor, near Hammondsport. The daughter had gone in bathing and being seized with cramps called to her mother, who was on the bank near by. Mrs. Hoyt, who is the expert swimmer, went to the rescue.

The daughter was so frightened that she threw her arms about her mother and her rescuer's effort were thus so hampered that both drowned before help could reach them.

WARM WELCOME.

Montreal to Give Bisley Team a Splendid Reception.

Montreal, July 28.—When Commandant Bertram and the members of the Bisley team who have covered themselves with glory on the famous ranges reach Montreal a week from to-morrow on the steamship Tunisian they will receive a splendid reception. Preparations are being made to show the members of the team how their good work has been admired by the militia and civilians of this city, and when the expected cable comes to-morrow that the team has sailed in the Tunisian active work will be commenced towards organizing a welcome home worthy of the men who have brought fame to themselves and to Canada. Lieut.-Colonel Dunbar, D. A.A.G. of Quebec, said to-night that so far as the military end of the welcome was concerned it would be the biggest ever accorded to any team.

SERIOUS CHARGE.

Old Man Dies at Quebec From Injuries Received.

Quebec, July 28.—After lingering between life and death as the result of injuries alleged to have been inflicted by his son, Arthur, Alfred Drouin died in the Hotel Dieu Hospital last night, and a very serious charge now hangs over the head of the former, who has been a prisoner in the jail since the tragedy, which occurred on July 15. As to what the exact charge will be against Arthur Drouin will not be known until the conclusion of the inquest, which will be opened to-morrow morning.

GOOD YEAR FOR THE C.P.R.

Net Profits Show Increase of Over a Million.

Montreal, July 28.—The following statement is issued by the Canadian Pacific Railway Company: Gross earnings for June \$6,550,154; working expenses, \$4,601,729; net profits, \$1,888,425. In June, 1908, the net profits were \$1,675,496, and for the twelve months ended June 30, 1909, the figures are as follows: Gross earnings, \$76,313,321; working expenses, \$53,357,748; net profits, \$22,955,573. For the twelve months ended June 30, 1908, there was a net profit of \$21,792,366. The increase in net profits over the same period last and for the twelve months ended June 30 there was an increase of \$1,163,207.

THE MARTIAL LAW IN SPAIN.

(Continued from Page 1.)

government entertains no illusions about half-way measures, and is ready to take the responsibility of putting down the revolt ruthlessly as a warning for the future.

The law-abiding element is under orders to remain indoors. The artillery is in position along the avenues and in central quarters.

The terror-stricken people are fleeing from the larger towns to the open country and the small villages, where there is less exposure to danger.

The situation is further complicated by the spread of the general strike ordered by the labor organizations of Barcelona two days ago.

The strikers are of the opinion that the strike will spread to the provinces of Llerida, Gerona and Terragon, but no definite news has been received from these points.

DESPERATE FIGHTING. Biarritz, near Spanish frontier, July 29.—The desperate condition of affairs at Barcelona is shown in reports received here from the disturbed city.

The streets of the city are barricaded with huge piles of stone and earth. Furniture and planks are heaped in these barricades to the height of the first storeys.

The arrival of reinforcements, so urgently needed by the government forces, is retarded by the destruction of railroads, which has rendered the communication leading to the city. The revolutionaries are heavily armed with muskets, knives and revolvers. They have an effective organization and hospital equipment, which promptly looks after the dead and wounded.

Whether there is an ulterior political purpose behind the revolutionary uprising through the revolution is not yet clear. Outwardly the movement is thus far a protest against the government's policy in Morocco, and its levy of a large reeve for war purposes.

NOT ENOUGH TROOPS. London, July 29.—Special advices from Biarritz, near the Spanish frontier, state that the situation at Barcelona is rendered desperate by the absence of a sufficient military force capable of putting down the revolutionists. This condition results from the despatch of all available troops to Melilla.

The Spanish killed and wounded numbered almost 3,000, which takes no account of the men at the advance posts, who evidently were cut off and abandoned to their fate.

Melilla is full of wounded men. The extent of the disaster is plainly apparent from General Marina's despatch as given out at the war office to-day. He says:

On July 27 the Moors cut the railroad, severing communications with our outposts. Our batteries shelled the Moors, but the advance posts were endangered and they had to be abandoned. The situation at Melilla is grave despite the desperate bravery of the troops, who are now fighting under the walls of the city.

"Our losses in the engagement were General Pintos, a colonel, two lieutenants-colonels, five captains, many officers and subalterns and about 1,000 men. The wounded number at least 1,500, including many officers. The hippodrome is full of wounded soldiers. Two generals were mortally wounded."

SITUATION GRAVE. London, July 29.—Information received through diplomatic channels in London tends to accentuate the gravity of the situation in Spain. It is intimated that there is reason to fear the garrison at Madrid itself has been tampered with by the insurrectionists.

TO BE SHOT ON SIGHT. Madrid, July 29.—The military governor of Barcelona today published a decree ordering the inhabitants of the city to return to their homes. After 24 hours any one found in the streets is liable to be shot on sight.

ORDERED TO MELILLA. London, July 29.—A special despatch from Gibraltar says all Spanish batteries stationed in that vicinity have received hurry orders to embark at once for Melilla. The embarkation of the troops is being proceeded, and it is believed that large numbers will leave in the course of the day.

More than 100 wounded Spaniards were landed this morning and taken to the hospital.

FARMER KILLED. Shelburne, Ont., July 29.—A fatal accident occurred last evening on the farm of Samuel Tweedy, a short distance north of here. Mr. Tweedy was operating a hayrack, and was drawing back the fork to reload when the fork struck the block, slipped the hook and fell, striking Mr. Tweedy on the forehead and killing him instantly. Mr. Tweedy was a prosperous young farmer of this section.

Baltimore is about to open its rest farm or fresh-air home for horses under the management of the Animal Refuge Association. It is a charitable enterprise, as only the horses of poor cabmen and hucksters, who are unable to care for their animals when they become ill, will be received at the farm.

lam, president of the National League of Baseball Clubs, attempted suicide last night in his room on the third floor of the New York Athletic Club.

Standing in the centre of the room Mr. Pulliam held a revolver to his right temple. He fired only one shot. It went in at the right temple and came out seven inches away on the left side of the head. The bullet destroyed the right eye and passed through the upper part of the left. It is not believed that Mr. Pulliam can recover, although he continued conscious for some time after the shooting. The sight of both eyes were destroyed by the bullet, the physicians said.

Toronto, July 29.—Frank Nebrieh's manager came over from Buffalo last night, and the arrangements for a race with Percy Sellen were closed after a spirited and protracted wrangle. As the matter now stands the winner will take the entire purse hung up for the race, allowing the loser a reasonable sum for training expenses.

Nebrieh and Sellen are to run five miles at Scarborough Beach as a curtain raiser to the Longboat-Shrubbs twelve-mile affair. Nebrieh is the man who ran Longboat to a nose finish at the Island in a three-mile race in 15.09 three years ago. Sellen's fifteen in 12.25.1, the fastest time for the distance ever shown on this continent, stamps him as the goods for that distance, and his records for three to ten miles have seldom been equalled in Canada.

The ladies are very sore because certain people have said that his race with Svanberg was not on the square. He beat Shrubbs and then lost to the Swede, but he says that he was a little short on condition and will make the carpers take back their words when he meets the Englishman at Scarborough Beach on Saturday night.

C.A.A.U. GIVES WARNING. Toronto, July 29.—The registration committee of the Canadian Amateur Athletic Union has given notice that it will disqualify all athletes competing against Harvey Purford, of Ottawa, in the rowing events, and against Jack Ryan in the canoe races at the Canadian Henley at St. Catharines next Friday and Saturday.

Montreal, July 29.—Capt. Foulkes, of Ottawa, made a decided step toward regaining the single tennis championship of Canada when he succeeded in defeating all opponents in the open singles, doubles and handicap matches yesterday.

The third day of the Canadian tennis championships proved full of exciting play, despite the terrific heat, the ladies' games proving surprisingly strong. McEachern, of Toronto, made a good showing against Cassils, of Montreal, in the singles, winning the first set and gaining a good lead in the second. Cassils' staidier play, however, won McEachern down, and the Toronto man was easily defeated in the final set.

In the ladies' championship the feature of the day was the match between Miss McIvor, of Ottawa, and Miss Clay, of Montreal, which furnished some of the best tennis seen here in years. Miss Clay finally won out after a very hard contest.

An exciting game yesterday afternoon was the match between Foulkes and Raby, of Ottawa, and Jellett and Williams, of Montreal. The latter put up a surprisingly strong game, and the Ottawa cracks had a hard time getting away with the game. Following are the results of the day's play:

Open Singles. Veysey, of Montreal, beat Chipman, of Montreal, 6-3, 6-4. Foulkes, of Ottawa, beat Boucher, of Ottawa, 3-6, 6-love, 6-1.

Snooking, of Montreal, beat Grier, of Montreal, 6-3, 6-4. Cassils, of Montreal, beat McEachern, of Toronto, 4-6, 7-5, 6-4.

Handicap Singles. Drew, of Montreal, beat Grier, of Montreal, 6-3, 6-4.

William Halpenny, of Montreal, cleared twelve feet over the bar at Moncton recently. Ed. Archibald's record, however, is twelve feet five inches.

Montreal, by default. Sargent, of Montreal, beat McAvity, of St. John, 6-8, 6-4, 6-love. Foulkes, of Ottawa, beat Hutchison, of Montreal, 6-4, 6-1.

Veysey, of Montreal, beat J. C. Bouchard, of Ottawa, 6-3, 7-5. Morrison, of Montreal, beat Adams, of Montreal, by default. Haskell, of Montreal, beat Ivms, of Montreal, 6-4, 4-6, 6-3.

Novice Singles. Bonnell, of Ottawa, beat Morrison, of Montreal, 6-3, 7-5. Bonnell, of Ottawa, beat Prevost, of Montreal, 6-4, 6-3.

Ladies' Championship. Miss Clay, of Montreal, beat Miss McIvor, of Ottawa, 7-1, 6-4.

Ladies' Handicap. Miss Hutchison, of Montreal, beat Miss K. McIvor, of Ottawa, 6-love, 6-3. Mrs. Stewart, of Montreal, beat Miss Brittain, of Montreal, 6-1, 6-1.

Mrs. Lyman, of Montreal, beat Miss Archibald, of Montreal, 6-2, 6-3. Men's Doubles. Foulkes and Sellen, both of Ottawa, beat Jellett and Williams, both of Montreal, 6-4, 5-7, 8-6.

VICTORIAS MET DEFEAT AT TORONTO.

Visitors Were Given a Cordial Reception.

The Victoria bowlers invaded Toronto yesterday and played against the Canada Club. The green was in perfect condition. Mr. F. H. Ross, a former Hamiltonian, who is the star player of the Canadians, received the Victoria contingent with open arms. With the Canada's recent victory of 45 shots over the Hamilton Thistles, the Victorias were on their metal. In the early part of the game the play was in favor of Hamilton, but the veterans of the Canada drew stealthily away from their opponents and came down the home stretch slightly in the lead.

True hospitality was accorded the visitors, and at the close of the game an adjournment was made to the club house, where light refreshments were partaken and complimentary courtesies were exchanged by Skips Dr. Carr and Geo. M. Begg.

The outing was greatly enjoyed by the players and a return match will be played in Hamilton at a later date.

W. O. B. A. TOURNEY. London, Ont., July 29.—Seven games in the Labatt Trophy were played off yesterday afternoon, and the winners were Skip Douglal, London Bowling Club; Skip J. Has, Abbott, Thistle Club; London; Skip J. Has, Abbott, Thistle Club; Skip Hughes, Strathroy; Skip Dr. Beacom, Harriston; Skip John Lochal, London Bowling Club, and Skip Nightingale, of the London Thistles. Both Toronto rinks went down and out. Billy Smith, of the Toronto Victorias, lost a brilliant game, but was not able to meet Davy Kuntz, who defeated Dick Thomson, of Paris, and his brilliant four. The finals will be finished this afternoon.

DUNDAS WON. As the Asylum grounds yesterday afternoon the Dundas and Asylum bowling clubs met. The green was in excellent condition, and good scores were made by both sides. Dundas won by a small margin.

JOHNSON SAYS JEFF IS BLUFFING. Jackson, Mich., July 28.—"I'll leave Chicago Monday night for New York and cover the forfeit," said Jack Johnson, the colored champion pugilist of the world, last evening when shown a despatch to the effect that Jeffries had posted a forfeit in New York of \$5,000 to fight Johnson and again place the honor of the championship among the white race. Johnson said he was not surprised to hear that Jeffries had posted the forfeit. "I expected he would do something of the kind," said Johnson, "as a sort of bluff and to make good his statement that he would fight."

"I will be ready to fight almost any time. I think I am in condition now to clean up Jeffries within fifteen rounds."

Johnson said he preferred to meet Jeffries in San Francisco. "That is the best place in the country," he said.

Johnson reached this city by automobile late this afternoon, en route to Detroit.

WILL STOP FIGHT. Denver, Col., July 29.—Governor Shaw declares that the law against prize fighting will be enforced during his term and that there will be no fight tomorrow night between "Philadelphia Jack" O'Brien and Jim Flynn in the auditorium in this city. The Denver Christian Citizenship Union is demanding that the law be enforced and is depending upon the governor to act. The chief executive, however, declares his faith in the district attorney and sheriff and is looking to them to prevent the fight. While considerably concerned over the announcement of the governor, the promoters of the bout say they do not expect any interference by officers of the law.

ATHLETICS

Tom Longboat persists in the statement that Shrubbs cannot beat him two races in the coming series of three. The Indian says that Alfred cannot duplicate his fifteen mile race at Montreal, in which the Onondagan was beaten.

Erk Lemming, the great Swedish javelin thrower, winner of the javelin events at Athens in 1904, and in London, 1908, established recently a new world's record at Malmo, Sweden. He threw the javelin, holding it in the middle, the enormous distance of 185 feet 1 1/2 inches.

Even if George Goulding's record at Winnipeg does not stand re-measuring, he has beaten Larner's time of 6:28 flat more than once. George has covered the mile several times at Varsity track, with experts holding the watches, too. He has gone the distance in 6:25, one second better than Larner's world's record.

Jack Tait and Chuck Skene are slated to meet at one mile next Wednesday at Scarborough Beach when the postponed Erie Marathon will be pulled off. Jack will not start training or the Dunlop until after that.

The annual provincial championship track and field meet under the auspices of the B. C. A. U. will be held in Vancouver on August 28.

William Halpenny, of Montreal, cleared twelve feet over the bar at Moncton recently. Ed. Archibald's record, however, is twelve feet five inches.

TERRIBLE DISASTER.

Spanish Troops Slaughtered Wholesale by the Moors.

Madrid, July 29.—The official despatches received here to-day admit that the battle between Moorish tribesmen and the Spanish forces outside of Melilla on July 27 was a disastrous defeat. The Moors cut off the communications with the Spanish outposts, and the main force of the Spaniards was driven back under the walls of the city, where fighting continued desperately in the city.

The Spanish killed and wounded numbered almost 3,000, which takes no account of the men at the advance posts, who evidently were cut off and abandoned to their fate.

Melilla is full of wounded men. The extent of the disaster is plainly apparent from General Marina's despatch as given out at the war office to-day. He says:
