CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages) \$1.00 PER YEAR (The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI.

TORONTO, ONT., MAY 9, 1900

No. 16

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co' of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

NEW YORK LIFE INSURANCE BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions for one year, \$1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.—A medium sized Alligator. Reply, stating age, conditions and price, to "LOGS," c/o CANADA LUMBERMAN.

FOR SALE.—3,000 arpents Boardwood Limits near St. Hilaire Station, only 22 miles from Montreal—Red Oak, Maple, Beech. B. F. CAMPBELL, St. Hilaire Station, Que.

DECKING FOR SALE.

58 M FEET 3x3 25 TO 35 FEET B. C. PINE Decking edge grain, clear stock. THE BRADLEY COMPANY, Hamilton, Ont.

FOR SALE.—30,000 feet of 1 in. and 2 in. Dry Birch Lumber; could cut to order one million feet of Hemlock and Birch. Also for sale, Boiler and Engine; size of boiler, 37 in diameter inside plate, 33 tubes 3/4 inches, length of tubes 12 feet, good front double doors; size of Engine, 6x11, Rocker valve, Waterous build. Address S. M. MOORE, Falkenburg, Ont.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. The area contains quantities of Cedar, Hemlock, Spruce, Balsam, Larch, Cherry Birch, Maple also considerable Pine, Fir and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location. Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON, Managing Director, 157 Bay Street, Toronto.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in this department Address, CANADA LUMBERMAN, Toronto

WANTED—Hard Maple Logs in lots of 30 M ft. board measure, and upward, to be sawn to order, whole product taken except culls, a large percentage green. Address, R. E. KRISMAN, Hamilton.

FOR SALE.

SOME MAPLE AND ELM LUMBER, ALSO 45 horse power Steam Mill, che 7; Foundry and Machine Shop to rent, very reasonable. J. C. SCRINTURK, Colborne, Ont.

SITUATION WANTED AS SUPERINTENDENT or Foreman in Wood Pulp or Board Mill, by young Swede who has been engaged for 8 years in large mills in Sweden. Address, JOHANNES HERTS, Sædih rquai, Helsingborg, Germany

WANTED.

30 TO 50 M CUBIC FEET OF RED SPRUCE, 10 in and up, 757 to 1,000 pss. Red Hemlock, 12 in and up, for month June, 1900 Cash on delivery. Address, Box 630, Sorel, Que.

TELEPHONE POLES.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths, from 25 to 55 feet. A 5,000 Fence Posts. Quotations given by mail or wire. GEORGE & MCGREGOR, Killaloe Station, Ont.

Limits For Sale

TOWNSHIP OF ARMAND, P.Q.

About 42 square miles in above Township, well timbered and well watered. Logs can be hauled partly to Temiscouata Railway, but the greater part can be driven to advantage into the St. John River. For particulars apply to

H. M. PRICE & CO, Quebec.

Waterous List—Rebuilt Machinery

We find it impossible to avoid taking machinery in trade. This we rest, guarantee in good working order and sell very low:

- 7 1/2 x 36 ft. Direct Steam Feed.
- 8 x 12 Cunningham Rope Feed.
- 11 x 20 Cunningham Cable Feed, 48 x 12 drum, 10 grooves, 3/4 cable.
- 3 Block girder steel Carriage, 40 in. opening, steel faced, 14 in. wheels. Boss Dogs run one year.
- 2 Block cast iron Hamilton 40 in. Carriage, 1 ccs Dogs.
- 3 Block Sewry Carriage, 40 in. Boss Dogs, run one season.
- 7 Block Steam Carriage, King Dog, would make two carriages. All have rolled V and flat track planed. Waterous iron frame, Three Block Carriage, R. H. Sing e Edger.
- Small wood frame and Two Block Carriage.
- Kelley Kicker, Kline Loader, Steam Jump Saw, 60 in Saw.
- 1 Waterous Shingle Mill.
- 1 Boss Shingle Mill.
- 1 Saw Hamilton Edger, Single Edger, Slabsaw.
- Endless Log Jack, spiked roll.
- 450 feet Conveyor Chain, 3/4 in. round, 2 x 3/4 in. flat.
- Steel Conveyor Chain, 18 in. 100 flights.
- 11 x 14, 12 x 12, 12 x 14, 20 x 24, Eng. necs.
- 60 x 16 Boiler, forty-four 4 x 16 tubes.
- 60 x 12 Boiler, Seventy-eight 3 x 12 tubes.
- 48 x 14 Boiler, forty-four 12 foot tubes.
- Several smaller boilers.
- 10, 12, 16 horse upright Boilers.
- 25 h.p. submerged tube Marine upright Boiler, good for 100 lbs.
- No. 5 Rotary Fire Pump, two 2 1/2 in. take offs, double geared, good as new.
- Several Hand Fire Engines; one 600 gallon Steam Fire Engine.
- 21 in. Little Giant Water Wheel with sun.
- 48 in. Leflet Water Wheel with sun.
- 10 in. Centrifugal Sand Pump, 300 feet of 2 gauge delivery pipe.
- 7 in. four-sided Moulder.
- 3 in. Chopper, 20 in. Chopper, 12 in. Jolietter Crushers.
- Circular Saws, 68, 61, 60, 53 and 45 in.
- 24 in. Champ on Planer and Mather.
- Several Marine Engines and Boilers.

CURRENT TRADE CONDITIONS.

ONTARIO.

Throughout the timber trade there prevails a tendency towards lower prices. The spring demand for lumber has not developed altogether satisfactorily, the high price of all building materials having retarded building operations to some extent. It is understood that in Toronto the erection of some important buildings has been deferred after the tenders for same were taken. Nor have enquiries from the Eastern States been as numerous of late as might reasonably be expected. Much importance has been placed upon the fact that by the Ottawa fire upwards of 150,000,000 feet of lumber was taken out of the market, but it must be remembered that the bulk of this was export lumber, and consequently the effect upon the local market will not be as beneficial as some may suppose. Of course, the fact must be reckoned with that the rebuilding of the burned districts of Hull and Ottawa will consume a very large quantity of lumber.

A situation favorable to the maintenance of prices may be brought about by the hanging up in the streams of a large quantity of logs, as up to the present the progress made in rafting operations has been anything but satisfactory. It must also be remembered, however, that some logs were held over from last season, and that these will increase the lumber production. The hardwood manufacturers are holding very firmly to prices, but dealers are not buying with much liberality. They seem to prefer to wait in the hope of being able to purchase at lower values at a later date.

QUEBEC AND NEW BRUNSWICK.

News of a sharp break in prices in the New York market caused a feeling of uncertainty in the lumber trade of the Eastern Provinces, but as the situation seems to have been brought about by exceptional circumstances, there has since been a partial recovery of confidence. The news had the effect of checking, to some extent, the shipments to the Eastern States. Local trade is quite brisk, and as

navigation on the St. Lawrence is now open, we look forward to the usual shipments to Great Britain and other foreign countries.

The log drives are reported to be making considerable progress, and the lumbermen expect that very few logs will be hung up. The cut on the Nashwaak is given as 25,000,000 feet.

MANITOBA AND BRITISH COLUMBIA.

The farmers of Manitoba and the Territories have been busily engaged in their seeding, and consequently of late there has not been a heavy movement of lumber on country account. Any falling off in this direction has been more than counterbalanced by increased building operations in Winnipeg and other places. The present outlook is for an active building season and a continuance of a strong demand for lumber. In British Columbia nearly every mill is working to its full capacity, and there seems little doubt but that the demand will take care of the entire production. Several vessels are loading for foreign destinations.

UNITED STATES.

Lumber dealers in the Eastern States have taken advantage of the Ottawa fire to maintain prices on a firm basis. Had it not been for this circumstance, it is quite possible that signs of weakness would have been visible before this time. The spring has been so backward that the usual quantity of lumber has not been consumed in building operations, while the lack of country trade has also had a deterrent influence. On the other hand, the manufacturing demand is holding up well, and mill owners are not offering any concessions to dealers. Manufacturers claim that prices are not too high considering the increased cost of production, and as they have already disposed of fully 25 per cent. of their season's production, they are in a position to feel independent for some time at least. Piece stuff only has shown weakness. At Saginaw log run pine is quoted at \$16 to \$22, box at \$14 to \$15, Norway at \$14 and \$14.50, and mill culls at \$12. In the Boston market white pine is selling at \$45 for inch fine common, \$53 for inch selects, \$67 for uppers and \$36 for inch No. 1 cuts. From Boston again comes the report of scarcity of box and mill culls and cutting-up grades.

Spruce lumber shows a remarkable steadiness, although the demand is by no means large. For New York delivery

the price for 10 and 12 inch boards is \$20. Hardwood prices are not as firm as they were, but the conditions surrounding the trade are such that no serious decline is expected. At a recent meeting of the Michigan Hardwood Lumber Association reports were submitted from sixty per cent. of the hardwood manufacturers of Michigan. These showed the output of hardwood logs this year to exceed that of last year by only 5 per cent. Birch and maple are, if anything, slightly weaker.

FOREIGN.

Some uncertainty seems to exist in Great Britain as to whether the present prices for wood goods will be maintained when the new cargoes commence to arrive. Importers find great difficulty in keeping up prices owing to the lessened consumption, and unless the demand shall improve we would not be surprised to learn of a break in prices. At the present time, however, the market for Canadian timber is holding up remarkably well. At many of the ports there is a scarcity of spruce. At London 3x9 third quality spruce in docks is held at £10 5s, and second quality at £10 10s. Pine deals also continue to sell at very satisfactory prices.

The French market is now quiet, although reports from Great Britain state that by no means have sufficient goods yet been purchased for consumers' needs. It is asserted that 150,000,000 feet of lumber has been consumed in construction work in connection with the Paris Exposition.

STOCKS AND PRICES

The quantity of lumber lost by J. R. Booth in the recent Ottawa fire is definitely given as 41,000,000 feet.

Jacob Lawrence & Son, of Sarnia, Ont., have recently purchased a quantity of lumber from the Ontario Lumber Company.

It is reported that the Haliburton Lumber Co. recently purchased some timber limits from Mr. G. W. Yarker, of Toronto.

Over 10,000,000 feet of dry stock has been shipped from Marinette, Wis., to Buffalo and Cleveland since the opening of navigation.

Three million feet of logs cut in the vicinity of Loch Lomond, N.B., during the past winter for the Mispic pulp mill, will shortly reach their destination.

It is estimated that W. & J. Sharples, of Quebec, will ship out of Ontario this season over 300,000 cubic feet of square timber, principally elm, ash and birch.

Rupp & Kerr and W. C. McClure, of Saginaw, Mich., who own a timber limit near Three Rivers, Que., are reported to have sold it, the consideration being \$175,000.

The Smider Lumber Company, of Gravenhurst, Ont., have secured a stock of 11,000,000 feet of logs for this season's operations, and are running their mill day and night.

Messrs. George & McGregor, of Killaloe Station, Ont., offer for sale through the Wanted and For Sale Department of this issue 5,000 cedar telephone poles, from 25 to 55 feet in length, also 5,000 fence posts.

Honorable A. Dickey and R. Brownell, of Truro, N. S., are said to have sold to the American Furniture Company, of Oxford, N. S., a saw mill and 700 acres of timber land situated at River Philip, Cumberland county.

The shingle manufacturers of Washington have failed to agree upon a plan for reducing the output, and as a result prices of red cedar shingles are reported to be off in the Mississippi Valley territory from 12 to 20 cents per thousand.

J. W. Baird & Company, of West Hartlepool, England, advise us that they are in the market for a quantity of Canadian birch planks, 15 to 16 feet in length and 2 to 2½ inches thick, to be prime first quality wood, suitable for cabinet work.

J. W. Munro, of Pembroke, Ont., is reported to have sold his timber limits in the township of McKim to Toronto parties for the sum of \$45,000. It is also stated that Mr. Munro has purchased the Bronson & Weston limits on the Upper Ottawa for a sum in the neighborhood of \$200,000.

Duncan Brewer & Company, of Duluth, Minn., have sold of this year's manufacture all their No. 4 and 5 boards and lath and 1,500,000 feet of No. 3 and better. Merrill & Ring, of same place, have sold all their lath and shingles, 1,000,000 of No. 3 and 4 boards, and 10,000,000 feet of No. 2 and better.

The steamship Vancouver sailed from Montreal last week for Liverpool with 200 standards of deals, four cars of pulp, ten cars of blocks and ten cars of lumber. The steamer Ramore Head took on 150 standards of deals at Montreal, and 350 loads of timber and 600 standards of deals at Quebec. She sailed for Belfast on the 8th inst. The steamship Rydal Holme will load a full cargo of deals at Montreal for Newcastle.

The Montreal representative of a British manufacturing firm desires to secure tenders from Canadian lumber manufacturers or dealers for one million feet of mill run inch lumber, undressed, to be delivered f.o.b. Glasgow or f.o.b. Montreal for re-shipment per Glasgow steamer. Delivery may be made according to convenience of shipper at any time during the season of open navigation. This lumber is required for making crates and packing cases. Persons wishing to figure on this order may obtain particulars by communicating with this office.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada, in London, Eng.

30. A timber house who are buyers of large quantities of mouldings and ready made sashes and frames, which might be worked from white pine, red pine, or bass wood, desire to correspond with large makers in Canada.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.

CANADIAN RED PINE.

In the Ottawa district of Canada there is an abundance of red pine that was at one time profitable to ship to the British market, but which, says The Timber Trades Journal, of London, England, since has suffered from competition with cheaper goods, until it has become hardly recognized as an article of import in the wood markets of Europe. Now that the prices of Baltic yellow deals have reached a level that would cover the cost of importing red pine and leave a margin of profit besides, the opportunity should not be lost of reviving the dormant market for the Canadian wood; but to do this with any chance of success in the competition with the ordinary deals would necessitate a thorough change in the methods of sorting and manufacture. Consumers here must have something in the nature of marks or brands on the deals that will signify the class to which they belong, and the lengths cut to the usual variety for them to select from. Red pine is in every way suitable for carpentering and joinery work, and to establish a permanent trade in it on this side of the Atlantic, in our opinion, only wants a little management on the other. The likelihood of Swedish or White Sea deals of the better class ever going back to the low prices of ten years ago is highly improbable from the lessened supply, which has been decreasing for years. To find some class of timber that will do in the place of the North of Europe yellow deal, that is equal in quality, at a lower price, is what consumers are looking for, and importers might probably meet the desire by enlarging the trade in red pine. But the shippers, or lumbermen, in Canada would have to cut the

wood in a suitable way for the building trade, and mark or brand it as well. To both the importer and the consumer the distinguishing mark is of considerable utility as forming a guarantee of quality that obviates all disputes, besides facilitating sales amongst the building fraternity, who have not always the leisure or the ability to judge those essential points for themselves. At any rate, the suggestions we offer seem feasible, and we shall be glad to hear the opinions of those who have dealt in red pine as to any reasons that may stand in the way of its adoption as a cheap building wood of the future.

SALE OF TIMBER PROPERTY.

Nearly five hundred square miles of timber limits belonging to the Cook Bros. Lumber Company, Limited, were offered for sale in the rotunda of the Board of Trade building, Toronto, on Thursday, May 3rd. The limits are situated on the north shore of Lake Huron, and consist of thirteen parcels of 36 square miles each and one parcel of 25 1-2 square miles, making a total of 493 1-2 square miles.

There was a large attendance of lumbermen, but only one or two persons represented the Michigan interests. The sale was conducted by Mr. Peter Ryan. At the beginning the bidding was decidedly slow and the first five parcels were withdrawn. The sixth berth, No. 155, on the north shore of Lake Huron, and containing 25 1-2 square miles, was purchased by the Victoria Harbor Lumber Company, at \$1,500 per mile. Berths No. 156 and 157 were withdrawn at \$5,500 and \$6,000 per mile respectively. Parcel No. 9, being berth No. 161, was purchased by W. J. Sheppard, of the Victoria Harbor Lumber Company, at \$3,800 per mile. No. 10 and 11 were withdrawn, while No. 12, Berth No. 167, was secured by Brennan & Sons, of Hamilton, at \$1,600 per mile. There was no bid for parcel 13, but parcel 14, Berth No. 194, township of Otter, went to W. J. Sheppard, of the Georgian Bay Lumber Company, at \$1,600 per mile. The saw mill property at Spragge and the side-wheel steamer "Meteor" were then offered, but no bids being received both were withdrawn.

Mr. Ryan also placed under the hammer timber Berth No. 139 on the north shore of Lake Huron, the property of George H. Perley, Ottawa. This berth was also withdrawn.

THE COOPERAGE MARKET.

The American Lumberman thus refers to the cooperage market at Buffalo:

There is already a casting about for apple-barrel stock, as the prospect of a crop is so far good. There will be no buying of second-class supply by barrel men as yet though, for there are plenty of chances to take between now and fall. The jobbers think they will be able to stand the demand, especially as the eastern call for flour-barrel stock is light, though most other industries needing barrels are active. The big decline of late is in coiled hoops, 6 foot lengths, selling at \$9.50 to \$10 and 5½-foot at \$8.75. Staves remain firm at \$8.75 to \$9 for first class dry elm flour-barrel stock, with basswood heading at 6½ to 6¼ cents a set, all by carload lots. In tight barrel stock tierce staves bring \$28 and hoops \$13. Coopers are getting 38 to 40 cents for flour barrels and paying 6½ to 7 cents for making. Tierces bring from \$1.25 to \$1.35 and the maker gets 33 cents. There is the usual complaint of low prices and small profits in the barrel business, though jobbers appear to be doing pretty well. The growing scarcity of elm constantly increases the use of maple and other hardwoods for slack barrel staves.

The Laurentide Pulp Company suffered a loss of \$20,000 by fire a few days ago, their pulp and wood-preparing mills at Grand Mere, Que., being destroyed.
