The same was then read by the Clerk, and it is as follows:—

OTTAWA, 14th January, 1890.

SIR,—I have the honor to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament, on Thursday, the 16th instant, at 3 p.m.

I have the honor to be, Sir,
Your obedient servant,

CHARLES COLVILLE, Captain,
Governor General's Secretary.

The Honorable

The Speaker of the Senate.

The House was adjourned during pleasure.

After some time the House was resumed.

His Excellency the Right Honorable Sir Frederick Arthur Stanley, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of Great Britain, Knight of the Grand Cross of the Most Honorable Order of the Bath, Governor General of Canada, and Vice Admiral of the same, being seated in the Chair on the Throne.

The Honorable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint the House,—“It is His Excellency's pleasure they attend him immediately in this House.”

Who, being come with their Speaker,

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses.

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In calling you together again for the consideration of Public Affairs, I may fairly congratulate you on a continuance of the progress and prosperity of the Country.

During the recess I visited Manitoba, and the North-West Territories and British Columbia, and everywhere I found myself received with the loyalty and good-will which I have learned to be characteristic of Canada. A comparison of my own observations with those of my predecessors shows clearly the great progress which has marked this part of the Dominion, in the settlement of the Country and in the development of its great agricultural capabilities, of its mineral wealth and of its other natural resources.

In consequence of the repeated seizures by Cruisers of the United States Navy of Canadian Vessels, while employed in the capture of seals in that part of the Northern Pacific Ocean, known as Behring Sea, my Government has strongly represented to Her Majesty's Ministers, the necessity of protecting our shipping, while engaged in their lawful calling, as well as of guarding against the assumption by any nation of exclusive proprietary rights in those waters. I feel confident that those representations have had due weight, and I hope to be enabled during the present Session to assure you that all differences on this question are in the course of satisfactory adjustment.

Having observed the close attention which has recently been given by the Imperial Authorities and on the Continent of Europe to the improvement in the methods of catching, curing and packing fish, I deemed it expedient to cause a Commission to be sent to Scotland and Holland to examine and report upon this subject during the fishing season. The report of the delegates will be laid before you; it

will, I am sure, give our Fishermen most valuable information and instruction as to the best means of improving and developing this important industry.

My Ministers have carefully considered the difficulties which surround the administration of the rights of the Dominion in its foreshores, harbors, lakes and rivers, and a measure will be submitted to you for removing uncertainty as to the respective rights of the Dominion and of the Provinces, and for preventing confusion in the titles thereto.

The report of the Royal Commission on Labor, which was laid before you during the last Session, has been distributed throughout the country. I have reason to believe that the information which it contains will be found eminently useful in suggesting improvements in the administration of the laws which affect the working classes. Measures for the amendment of those laws, so far as they come within the jurisdiction of the Parliament of Canada, will be submitted for your consideration.

The early termination of the Acts of Incorporation of the principal Banking institutions of the Dominion necessitates a review of our present system of Banking and an adjustment of the terms under which the Charters of these corporations should be renewed. Your attention will be drawn to this important subject.

Certain amendments to the Acts relating to the North-West Territories, calculated to facilitate the administration of affairs in that region, as also a Bill further to promote the efficiency of the North-West Mounted Police, will be submitted for your consideration.

Measures will be laid before you relating to Bills of Exchange and Promissory Notes, to improve the laws respecting patents of invention and discovery, to amend the Adulteration Act, and the law respecting the Inland Revenue, to amend also the Act respecting the Geological and Natural History Survey of Canada, and to provide for the better organization of the National Printing Establishment.

Gentlemen of the House of Commons :

The accounts for the past year will be laid before you. It will be found that the Estimates of Revenue have been realized, and that after having fully provided for the various public services of the country, a substantial surplus will remain. The Estimates for next year have been framed with a due regard to the requirements of the Public Service.

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I commit these weighty matters, and all others which may come before you, to your earnest consideration, and I rely upon your wisdom and prudence to deal with them in the manner which, under Divine Providence, may prove most conducive to the happiness and prosperity of Canada.

The Honorable Mr. Abbott presented to the House a Bill intituled: "An Act relating to Railways."

The said Bill was read for the first time.

The Honorable the Speaker reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honorable Mr. Abbott, seconded by the Honorable Mr. Smith, it was

Ordered, That the House do take into consideration the Speech of His Excellency the Governor General, to-morrow.

On motion of the Honorable Mr. Abbott, seconded by the Honorable Mr. Smith, it was

Ordered, That all the Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House, when and as often as they please.

The Honorable the Speaker presented to the House,—The Report of the Joint Librarians on the state of the Library of Parliament, for the year 1889.

The same was then read by the Clerk, as follows:—

TO THE HONORABLE THE SPEAKER OF THE HOUSE OF COMMONS.

The Joint Librarians of Parliament have the honor to report as follows for the year 1889.

The Librarians have great pleasure in acknowledging the valuable donations made to the Library by His Imperial Highness Prince Roland Bonaparte, who devotes his leisure and fortune to promoting the progress of science, himself taking a leading and earnest part in scientific studies. These donations consist of the Prince's contributions to anthropology, and various monographs on the countries visited by His Highness, and bear the following titles:—

Les habitants de Surinam, Folio, Paris, 1884.

Les premiers voyages des Néerlandais dans l'Insulinde.

Les derniers voyages de Néerlandais à la Nouvelle Guinée.

Note on the Lapps of Finmark; la Nouvelle Guinée N° III; le fleuve Augusta; la Nouvelle Guinée N° IV; le Golfe Huon.

Les recents voyages de Néerlandais à la Nouvelle Guinée.

F. Escard, le Prince Roland Bonaparte en Laponie.

The special grant placed at the disposal of the Librarians to enable them to complete the American and Canadian section has been made use of to purchase since last session several important works, amongst others:—

Vie de la mère de l'Incarnation par Charlevoix, Paris, 1735.

Grölands Historike Mindesmoeker. 3 vols.

Massachusetts Historical Society proceedings, from the beginning in 1791 up to date; in all 24 vols.

(This collection contains a most valuable record of papers relating to the early history of the United States and Canada.)

Leonard's Report (in manuscript, which has never appeared in print) on Nova Scotia, addressed to Lord Sheffield in 1789.

A collection of the Missions des Oblats, in which are found many documents on the settlement of the Red River district and the North-West.

We may also mention several works on Pre-Columbian discovery of America; and twelve letters written by the Hon. L. J. Papineau to Robert Christie, the historian; they refer to the last years of M. Papineau's political life.

Among other such interesting additions to the Library may be mentioned a copy of the "Anti-Jacobin," purchased at second-hand, which on careful examination, proved to be the copy owned by Sir James Mackintosh, from whom, as his friend Lord Macaulay said, "Scholars and Statesmen loved to receive the lessons of a serene and benevolent wisdom." In these volumes, Sir James Mackintosh has noted, on the authority of Canning, from whose copy the notes were transferred at the House of Dundas in Scotland, the authors of the various satirical pieces in that famous periodical.

During the year due attention has been paid also to the practical side of the Library.

The Law Section will be found, it is hoped, to contain the latest necessary books and editions.

The Statistical Section has been enriched by a considerable collection of reports of Boards of Trade, Chambers of Commerce, and business associations of various kinds, covering almost the entire field of mercantile operations in the United States.

The latest additions to the literature of Political Economy in all countries interesting to us will be found on the shelves.

An attempt has been made to collect the pamphlets and speeches delivered during the recess on Trade questions, but in the absence of a compulsory law, this attempt must always remain imperfectly successful.

The public interest attaching to the disputes concerning Alaska has suggested the preparation of a special list of papers relating to that country, which will be found in the Annual Catalogue.

The Librarians trust that the House will encourage them in placing restrictions on the issue from the Library room during the Session, of books of reference, and in particular, of the Congressional Documents of the United States, the Sessional Papers of Great Britain, and Law Books. The absence of these volumes, in the hands of private members, often for an undue time, occasions great inconvenience to others. The Library itself being the most convenient place for the study of public questions, the sending out of books of this character ought not to be necessary.

The Librarians, in conclusion, desire to call the attention of Parliament to the obvious fact that the space in the Library is almost fully occupied in most directions, and hopelessly exhausted in some particular sections. By careful re-arrangement, some space may still perhaps be provided for the practical part of the Library; but at an early date it will be necessary to take into serious consideration the necessity of providing additional space.

All of which is most respectfully submitted.

TO HIS EXCELLENCY the Right Honorable Sir FREDERICK ARTHUR STANLEY, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of Great Britain; Knight Grand Cross of the Most Honorable Order of the Bath, Governor General of Canada and Vice-Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY:—

We, Her Majesty's dutiful and loyal subjects, the Senate of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of this Session.

We rejoice that Your Excellency, on calling us together again for the consideration of Public Affairs, can with justice congratulate us on a continuance of the progress and prosperity of the Country.

The Select Committee on Standing Orders and Private Bills have the honor to make their Eighth Report.

Your Committee have examined the following Petition:—

Of J. R. Booth and others, of the City of Ottawa; praying to be incorporated as the Interprovincial Bridge Company, and

Your Committee find that in the Bill introduced in the House of Commons, powers are asked for collecting tolls from foot passengers and carriages. In accordance with the 52nd Rule of the Senate, notice should have been given to that effect. It was represented, however, to your Committee that it was not the intention of the promoters to ask for such powers, and that when the Bill came before the Committee to whom it would be referred, they would ask that the clauses in reference thereto would be struck out. Your Committee therefore recommend that the notice be deemed sufficient.

All which is respectfully submitted.

The Honorable Mr. Howlan, from the Committee on Standing Orders and Private Bills, presented their Twenty-eighth Report.

Ordered, That it be received, and

The same was then read by the Clerk, as follows :—

THE SENATE,
COMMITTEE ROOM No. 8,
FRIDAY, 11th April, 1890.

The Select Committee on Standing Orders and Private Bills have the honor to make their Twenty-eighth Report.

Your Committee have examined the following Petition :—

Of the Dominion Mineral Company; praying for an Act amending their Act of incorporation, and find that no notices have been published. Your Committee, however, recommend the suspension of the Fifty-first Rule of your Honorable House, inasmuch as it has been shown to them that the necessity for the legislation asked for has arisen too recently to allow of the usual notice being given, and that, furthermore, the rights of the shareholders are duly guarded by a clause in the Bill now before Parliament.

Your Committee also examined the Petition of H. Abbott, and others, of the City of Vancouver, in the Province of British Columbia, the Corporators of the Columbia and Kootenay Railway and Navigation Company; praying for an Act declaring their work to be one for the general advantage of Canada, and authorizing them to lease their railway, or any part thereof, to the Canadian Pacific Railway Company, and for other purposes, and find that the notices given are short in point of time, but as the necessity for this application has arisen too recently for the full notice to be given, your Committee recommend the suspension of the Fifty-first Rule of your Honorable House in this case.

All which is respectfully submitted.

GEORGE W. HOWLAN,
Chairman.

Ordered, That the same do lie on the Table.

On motion of the Honorable Mr. MacInnes (Burlington), seconded by the Honorable Mr. Vidal, it was

Ordered, That the Fifty-first Rule of this House be suspended with in so far as the same relates to the Dominion Mineral Company, as recommended in the Twenty-eighth Report of the Select Committee on Standing Orders and Private Bills.

On motion of the Honorable Mr. Reid (Caribou), seconded by the Honorable Mr. Macdonald (Victoria), it was

Ordered, That the Fifty-first Rule of this House be dispensed with in so far as the same relates to the Petition of H. Abbott, and others, as recommended in the Twenty-eighth Report of the Select Committee on Standing Orders and Private Bills.

The Honorable Mr. Howland, from the Committee on Standing Orders and Private Bills, to whom was referred the Bill intituled: "An Act to confer on the Commissioner of Patents certain powers for the relief of Samuel May," reported that they had gone through the said Bill, and had directed him to report the same to the House without any amendment.

On motion of the Honorable Mr. MacInnes (Burlington), seconded by the Honorable Mr. Vidal, it was

Ordered, That the said Bill be read a third time on Wednesday next.

The Honorable Mr. Lougheed moved, seconded by the Honorable Mr. Murphy, That the Bill intituled: "An Act to incorporate the Elbow River Water Power Company," be re-committed to the Select Committee on Railways, Telegraphs and Harbors for re-consideration.

The question of concurrence being put thereon, the same was resolved in the negative.

A Message was brought from the House of Commons by their Clerk, with a Bill intituled: "An Act to amend 'The Exchequer Court Act,'" to which they desire the concurrence of this House.

The said Bill was read a first time.

On motion of the Honorable Mr. Abbott, seconded by the Honorable Mr. Smith, it was

Ordered, That the said Bill be read a second time on Tuesday next.

Then, on motion of the Honorable Mr. Abbott, seconded by the Honorable Mr. Smith,

The House adjourned until Monday next, at three o'clock in the afternoon.

REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM,

April 10th, 1890.

The Sub-Committee of the Joint Committee of both Houses on the Printing of Parliament, to whom was referred the Report of the Clerk of the Committee on the Printing Services of the past year, and the necessary changes to be made in the Distribution Service, beg leave to report :—

That having fully considered the matters referred to them, recommend the accompanying memorandum by the Honorable the Secretary of State, marked "A," be adopted, except that the schedules of Numbers of Public Documents mentioned in the schedules annexed, Nos. 1 and 2 be amended as in Nos. 3 and 4 annexed.

Your Sub-Committee further recommend that the Distribution Staff be divided as follows: Mr. E. Botterell to be retained by your Committee as the head officer in the Distribution Department for both Houses; and that from this date he be graded as a first-class clerk in the Civil Service and receive a permanent salary of Eighteen Hundred Dollars per year, on account of his long service.

MEMORANDUM.

The undersigned has the honour to submit to the Sub-Committee of the Committee on Printing of the two Houses of Parliament, the following propositions, which he trusts will be favourably entertained and reported for adoption by that Committee and the two Houses.

He should preface them by saying that delays in the fitting up for the occupation and use of the present offices of the Printing and Stationery Department upon St. Patrick Street, and other causes have prevented that Department from undertaking, as it was expected to do, under the agreement of the session of 1888, the general distribution of public documents at the beginning of the present session. Meantime, Mr. Botterell very properly and prudently made all necessary preparations for the present session's distribution.

It is now proposed that, the distribution for the present session being completed,—

1. The distribution to the several Departments of the Government and the public shall be transferred as provided by law, to the Department of Public Printing and Stationery.

2. That to aid in that distribution, one (or two) of the clerks now employed in the Parliamentary Distribution Office, be transferred to the Department of Public Printing and Stationery.

3. That, if found advisable, a portion of the furniture or fittings now used in making such distribution shall be removed from the Parliamentary Distribution Office to the offices of the Department of Public Printing and Stationery on St. Patrick Street.

4. That a certain fixed number of all public documents printed for the use of Parliament under the direction of the Joint Committee on Printing of the two Houses, shall be furnished day by day as printed, to the Distribution clerk of the Committee,—

(a.) For the use of the members of the two Houses, as per schedule hereto appended.

(b.) For the use of the clerks, officers and employees of the two Houses, as per schedule.

(c.) For the use of the newspaper reporters and correspondents in attendance on the sittings of the two Houses, during the Session, as per schedule.

5. That all further distribution of these documents be entrusted, as directed by law, to the Government, through the Department of Public Printing and Stationery.

6. MEMORANDUM for the Honorable Mr. Chapleau, Secretary of State.

For some years past there has been difficulty in collecting from the members of the two Houses of Parliament, sums due for Government publications. The old custom of making these a free gift to members so long as the supply lasted is dying very hard. But last year this was specially noticeable with respect to accounts for *Hansard* and speeches extracted therefrom. Several hundred dollars of arrears have accumulated, which it is very difficult for this Department to collect.

If it were practicable and permitted to send such accounts to the Accountant of either House to be charged up against the sessional allowances of these members, a great deal of needless expenditure of time, as well as some unpleasantness might be avoided.

Respectfully submitted,

(Signed) B. CHAMBERLIN,

Queen's Printer and Controller of Stationery.

OTTAWA, 18th February, 1890.

I approve the suggestion.

(Signed) J. A. CHAPLEAU.

OTTAWA, 23rd February, 1890.

REPORT OF THE CLERK OF THE COMMITTEE.

To the Chairman and Members of the Joint Committee of both Houses on the Printing of Parliament.

GENTLEMEN,—I beg to submit the Annual Statement of the Receipts and Expenditure on account of the Printing Services of Parliament, for the fiscal year 1888-89, showing the cost of those services to have been \$65,686.02. This is certified to, as being correct, by the signature of the Auditor General. The accounts and vouchers covering the above expenditure are ready to be submitted to the Audit Committee.

Last Session the Committee recommended that the contract of Mr. Mortimer, for the binding of the Sessional Papers, should be further extended, to cover the completion of the work of the then present Session, and then to cease. When the work was finished, I handed back to the contractor, Mr. Mortimer, the deposit receipt from the Quebec Bank, for \$1,000 being the security held by me, as Clerk of the Committee, for the faithful performance of his contract.

I received the following letter from the Queen's Printer :—

OTTAWA, 21st September, 1889.

SIR,—It is proposed to commence work in the Government Bindery, on the 1st October next. No further sheets, documents, or books should, therefore, be sent to the present contractors, for the binding, &c., except in cases of arrears of work of last Session.

I have the honour to be, Sir,
Your obedient servant,

B. CHAMBERLIN,
Queen's Printer and Controller of Stationery.

HENRY HARTNEY, Esq.,
Clerk of Parliamentary Printing.

The Messenger Service, under the control of this Committee, has been heretofore performed by two men, but if the present system, with regard to the delivery of proofs, &c., at the Printing Office, is to continue, more assistance will be necessary, owing to the greater distance from the Buildings of the new Printing Office.

It has heretofore been the policy of the Committee to insure, against loss by fire, all public property under their control, in the buildings occupied by the several contractors for the printing and binding of Parliament. The contract system having ceased, all the policies have lapsed; I did not feel authorized to transfer the same to the Government Printing Office without instructions from the Committee.

I asked that the sum of \$75,000, the same amount as last year, be placed on the Estimates, for the Printing of Parliament, for the fiscal year 1890-91, subject to the approval of the Committee.

All which is respectfully submitted.

HENRY HARTNEY,
Clerk, Printing of Parliament.

On motion of the Honorable Mr. Read (Quinté), seconded by the Honorable Mr. Girard, it was

The Honorable Mr. Howlan, from the Committee on Standing Orders and Private Bills, presented their Thirty-first Report.

Ordered, That it be received, and

The same was then read by the Clerk, as follows:—

THE SENATE,

COMMITTEE ROOM No. 8,

WEDNESDAY, 23rd April, 1890.

The Select Committee on Standing Orders and Private Bills have the honor to make their Thirty-first Report.

Your Committee have examined the following Petition, viz.:—

Of the Pontiac Pacific Junction Railway Company and the Canadian Pacific Railway Company; praying for an Act enabling the Canadian Pacific Railway Company to sell and convey a portion of their railway to the Pontiac Pacific Junction Railway Company, and find that no notices have been published, but as the necessity for the legislation applied for has arisen too recently to admit of the publication of the usual notices, your Committee recommend the suspension of the Fifty-first Rule, as it will be competent for the Committee to whom the Bill shall be referred to provide that no injury to any party shall arise therefrom.

All which is respectfully submitted.

GEORGE W. HOWLAN,

Chairman.

Ordered, That the same do lie on the Table.

On motion of the Honorable Mr. Ogilvie, seconded by the Honorable Mr. Vidal, it was

Your Committee have considered the following Bill (No. 124) from the House of Commons, referred to them under the Fifty-sixth Rule of your Honorable House, viz.: "An Act respecting H. H. Vivian and Company, Limited," and find the notices short in point of time. Satisfactory reasons being given to your Committee why no Petition had been presented to the Senate for this Bill, your Committee recommend the suspension of the Fifty-first and Fifty-seventh Rules of your Honorable House, as it will be competent for the Committee to whom the Bill shall be referred to provide that no injury to any party shall arise therefrom.

All which is respectfully submitted.

DEAR MR. I wish to disclaim as emphatically as I can all idea of reflecting in such report upon the Honorable Senator's action, or of referring to him disrespectfully in any way. I had no such intention, and I deeply regret that the language I used has been construed as applicable to him, a construction which I never contemplated, which I assure you I never intended and which I now repudiate and deny.

Yours very truly,

For Wednesday, 7th May, 1890.

By the Honorable Mr. Drummond :—

- 3 May 5—Is the Government aware of the existence of any precedent, either in Europe or America, for the levy of a tax on tonnage alone for the support of a Harbor Police Force, such as is levied at the Port of Quebec, and there amounting to six cents per ton per annum?

Is the Government aware that the levy of this tax at the single port of Quebec, has caused the United States to levy a tonnage tax of fifteen cents per ton per annum by way of

reprisals on all vessels clearing from ports in the Province of Quebec; while vessels that have cleared from Ontario ports, in which Province there is no analagous Dominion tax, go free?

Is the Government aware that by virtue of the Act of Congress of June 19th, 1886, Section 11, provision is made that as soon as this taxation ceases in the Port of Quebec, the countervailing taxation now levied in the United States on tonnage from the Province of Quebec will also cease?

What steps does the Government purpose taking in the premises to the end that the tonnage of the Province of Quebec, trading with the United States, may be there placed on the same favorable footing as tonnage from the Province of Ontario?

SPEAKER'S CHAMBERS,
THE SENATE,
April 23rd, 1890.

REPORT OF THE SUB-COMMITTEE ON EXCHANGES.

The Sub-Committee appointed to consider the subject of Library Exchanges, beg leave to report as follows:—

That the Sub-Committee met and heard the explanations of the Librarians, from which it appears:

1st. That it was formerly the practice for the Government to purchase Exchanges for the Library on the recommendation of the Librarians;

2nd. That by an Order in Council of December, 1888, it was directed that all Library Exchanges be ordered by the Library Committee and paid for out of the Library grant;

3rd. That this Order in Council still remains in force, although, from the Supplementary Estimates, it would appear that the Government is again purchasing books for Exchanges.

The Sub-Committee is of opinion that the grant for the Library is not large enough to justify the purchase of books for the purpose of encouraging native literature; and that the purchase of Exchanges should be confined to books of a character similar to that of the Exchanges received from other countries.

For the information of the Committee, the Sub-Committee caused to be compiled a statement of the purchases made for Exchanges, for a series of years, a copy of which is annexed hereto.

NOTICES OF MOTIONS.

For Wednesday, 7th May, 1890.

By the Honorable Mr. Drummond :—

1890.

1 May 5—Is the Government aware of the existence of any precedent, either in Europe or America, for the levy of a tax on tonnage alone for the support of a Harbor Police Force, such as is levied at the Port of Quebec, and there amounting to six cents per ton per annum ?

Is the Government aware that the levy of this tax at the single port of Quebec, has caused the United States to levy a tonnage tax of fifteen cents per ton per annum by way of reprisals on all vessels clearing from ports in the Province of Quebec ; while vessels that have cleared from Ontario ports, in which Province there is no analagous Dominion tax, go free ?

Is the Government aware that by virtue of the Act of Congress of June 19th, 1886, Section 11, provision is made that as soon as this taxation ceases in the Port of Quebec, the countervailing taxation now levied in the United States on tonnage from the Province of Quebec will also cease ?

What steps does the Government purpose taking in the premises to the end that the tonnage of the Province of Quebec, trading with the United States, may be there placed on the same favorable footing as tonnage from the Province of Ontario ?

For Thursday, 8th May, 1890.

By the Honorable Mr. Bellerose :—

Because the limitation of the right of action by the drawer against the drawee provided for by the amendment of the House of Commons to the amendments made by the Senate to Clause 24 of the said Bill, to the period of one month after the drawer has acquired notice of such forgery is too short for the proper protection of his rights and of the rights and interests of other parties who may be affected by such limitation; and further to acquaint that House that, for the said reason, the Senate hath amended the said amendment made by the House of Commons, by substituting therein the word “year” for the word “month,” to which amendment the Senate doth desire the concurrence of that House.

Page 4, line 42.—After “district” insert “that the name or qualification of the person whose name is objected to is incorrectly entered on such list, but that he possesses such qualification as entitles him to be registered thereon, the revising officer shall retain such person’s name thereon, making the necessary corrections, or if it appears.”

The Honorable Mr. Read (Quinté) from the Select Committee appointed to examine and report upon the Contingent Accounts of the Senate, presented their Fifth Report.

Ordered, That it be received.

The same was then read by the Clerk, as follows:—

THE SENATE,
COMMITTEE ROOM, No. 8,
15th May, 1890.

The Select Committee appointed to examine and report upon the Contingent Accounts of the Senate for the present Session beg leave to make their Fifth Report as follows:—

2. The books are kept in a clear and comprehensive manner, showing each year, in accordance with the recommendation embodied in the report of the Committee on Contingent Accounts made to your Honorable House on the 26th of April, 1889, a comparison with the aggregate expenditure of previous years.

3. The revenue derived from fees on Private Bills and similar sources has been paid over to the Receiver General, as ordered by your Honorable House last Session.

4. A considerable reduction has this year been made in a number of extra copies of newspapers ordered for the Session, whereby a saving has been effected which will appear from the accounts of the current year when submitted.

5. Your Committee have made enquiry as to the large amount charged against the Senate for stationery for the fiscal year ending on the 30th June, 1889, and have ascertained, that, owing to the facts of the stock being very much depleted at the close of the preceding year, a larger quantity of the various articles usually supplied was ordered than customary; that a large proportion of the goods so ordered and charged to the Senate remained in stock at the end of June, 1889, but, owing to some misunderstanding between the officer in charge of the Senate stationery and the Department of Public Printing and Stationery, was not credited to the Senate in the report of the Auditor General as it should have been. Your Committee are pleased to be able to report that, owing to the large stock on hand at the beginning of the current fiscal year, the stationery account for this year will be considerably within the estimate.

In addition to the circumstances just mentioned your Committee have found that the amount charged against the Senate is considerably swollen by the purchase of various articles which can in no way be regarded as stationery, a practice that should be altogether discontinued, and by a too liberal distribution of articles usually included under the head of stationery.

6. Your Committee find that no specific rules have been laid down for the guidance of the officials heretofore charged with the procuring and distribution of the stationery, who have discharged these duties in a trustworthy and painstaking manner and are not responsible for the state of things above mentioned. Your Committee, therefore, have framed certain rules, the adoption of which will, in the opinion of your Committee, establish a satisfactory system of procuring and distributing stationery and ensure a very considerable diminution of expenditure.

Your Committee recommend that Mr. Charles Young, Clerk of Routine and Proceedings, who has already had considerable experience under the supervision of the Clerk Assistant in dealing with the stationery of the Senate, be made Stationery

Clerk, and be placed in charge of the ordering, distribution and management of the Senate Stationery, subject to the control and supervision of the Committee on Contingent Accounts, and that, when necessary, he be assisted by an able and trustworthy messenger.

8. Your Committee recommend that a stock-book showing all the articles in the various rooms and offices of the Senate, other than the Restaurant and the Stationery Office, for both of which special provision is made, be prepared and placed in the hands of the house-keeper, at the close of each Session, so as to enable him to see exactly what property is placed in his charge and to make it easier for him to guard and account for it.

RULES FOR THE PURCHASE AND DISTRIBUTION OF STATIONERY FOR THE USE OF THE SENATE.

A. No orders of any kind shall be issued for the purchase of supplies for the Stationery Department, without the express authority of the Committee on Contingent Accounts previously given. Such authority shall be obtained in the first place by the submission by the Stationery Clerk, of an estimate of the quantities and cost of each description of stationery and other articles included under that head. Such estimate shall be for the ensuing year, and shall be presented to the Chairman of the Committee on Contingent Accounts, at such period of the Session as is determined by the Committee. No further order shall be given or purchase made other than of the article contained in such estimate, until after the meeting of the following Session of Parliament.

2. Upon the meeting of Parliament a further requisition may be laid before the Sub-Committee on stationery of the Committee on Contingent Accounts, from time to time, for such articles as may be needed during the Session, and that Sub-Committee shall have authority to sanction such purchase if they think proper; in all cases calling the whole Committee together in the event of any application for any amount which the Sub-Committee may consider should be decided upon by the Committee.

B. There shall be supplied to each Senator and to each Officer entitled to a seat on the floor of the House, at the beginning of each Session, a small box or trunk containing such articles and of such quality as shall be decided upon by the Committee on Contingent Accounts, and also to each Senator during the Session, such stationery required for actual use while Parliament is sitting, as he may order by written requisition, signed by himself, upon the officer in charge of the stationery.

C. Stationery required for use for the various officers of the Senate shall be furnished only on written requisition, as in the case of that supplied to Senators during the Session.

D. The subordinate clerks and other employés of the Senate shall receive such allowance of stationery for their private purposes as the Committee on Contingent Accounts shall determine.

E. The supply of ribbons for type-writers and other materials to the Official Reporters of the Senate, and to newspaper reporters, shall be discontinued; provided that the Committee may allow a reasonable supply of paper, pens and pencils to any reporter actually employed in reporting the proceedings of the Senate.

F. It shall be the duty of the Stationery Clerk to carefully file and preserve for reference all orders drawn upon him.

G. All stationery for the use of Committees and for other public purposes of the Senate shall be legibly stamped, or otherwise marked in such a way as to identify it as issued from the Senate Office.

H. All stationery shall be placed in one room under the charge of one officer, who shall be held accountable for its safe-keeping and proper distribution, and shall deliver no article other than those contained in the trunks aforesaid without a proper written order.

I. Stock shall be taken at the close of the current fiscal year, and a stock-book shall be kept regularly and continuously.

L. The foregoing rules shall be printed and placed in the hands of Senators at the beginning of each Session.

M. No books or periodicals shall be purchased except by direction of the Senate, or of the Committee on Contingent Accounts.
All of which is respectfully submitted.

Chairman.

"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1890, and the 30th June, 1891, and for other purposes relating to the Public Service; ' to which Bill I humbly request Your Excellency's assent."

To this Bill the Clerk of this House, by His Excellency's command, did thereupon say:—

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal Subjects, accepts their benevolence, and assents to this Bill."

His Excellency the Governor General was then pleased to deliver the following Speech:—

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In bringing to a close this somewhat protracted Session of Parliament I desire to convey to you my best thanks for the diligence with which you have applied yourself to your important duties.

The negotiations respecting the Behring Sea Question are still in progress at Washington with good prospects of an equitable settlement. Meanwhile, the continuance for another year of what is known as the *Modus Vivendi*, will serve to show our earnest desire to cultivate the most friendly relations with the United States Government and people.

The re-adjustment of the Customs Tariff, intended to promote the development of our agricultural, manufacturing and other industries, will, I have reason to hope, operate for the general benefit of all classes.

I am glad to believe that the Act relating to Banking has been most carefully considered, and will be found to guard the interests of the public and to be sufficiently liberal to those who are more immediately affected by its provisions.

The measure relating to Bills of Exchange, Cheques and Promissory Notes will, doubtless, render more certain and plain the law relating to these instruments and make the law in that regard uniform in almost all respects throughout Canada.

The amendments to the Criminal Law include a great number and variety of provisions, all of which will probably be found useful, and several of which were urgently demanded for the public welfare.

The creation of the Bureau of Labor Statistics will promote the investigation and study of the questions which affect the relations of Capital and Labor, and which are now engaging the attention of all great Nations. It will likewise aid the diffusion of information on all that concerns the occupations and well-being of the working classes. In some other measures of the present Session your desire to improve the laws which apply particularly to those engaged in industrial pursuits will likewise be recognized.

The various provisions to amend the laws relating to Railways, Patents, Copy-rights, and Trade-Marks and to the Department of Inland Revenue, and, likewise, the enactments to improve the Statutes for the management of our Indian population are well adapted to promote the efficient administration of the Departments to which they relate, while the large amount of private Railway Legislation indicates a spirit of enterprise throughout the country, which, it is to be hoped, will lead to a substantial development of the railway works of the country.

Gentlemen of the House of Commons :

I thank you for the liberal provision which you made for the requirements of the Public Service.

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I take leave of you for the present, with the earnest hope that in the coming season our people in every part of Canada may be blessed with an abundant reward for their labours and may witness a marked advance in the prosperity of the Dominion.

Then the Honorable the Speaker of the Senate said :

Honorable Gentlemen of the Senate, and Gentlemen of the House of Commons :

It is His Excellency the Governor General's will and pleasure, that this Parliament be prorogued until Monday, the twenty-third day of June next, to be here held, and this Parliament is accordingly prorogued until Monday, the twenty-third day of June next.
