MANY MILLIONS LOOTED FROM NEW HAVEN

Report of Investigators is Scathing Arraignment of Methods of Late J. P. Morgan, Rockefeller and Associates—Criminal Prosecution of Directors is Declared Warranted.

WASHINGTON, July 13.—The story of the "reckless and profligate" financial operations of the New Haven Railroad, one of the most remarkable chapters in the history of the American railroad and American finance was revealed in part today by the Interstate Commerce Commission in a report to the senate of its investigation of that road. It told of millions used like stage money, of corporations as pawns in a monster game with all New England's transportation as a prize, which led the New Haven in the ten years just passed, from the height of prosperity to the point where a dissolution suit is threatening, and where criminal indictments of many of the directors who figured in its deals are at least a possibility.

Many Millions Lost. Hampered by unwilling witnesses, by burned books, and by all the masses which lawyers invented to cover the trail, the commission estimated that in the progress toward a monopolization of New England transportation the New Haven stockholders have lost between \$65,000,000 and \$90,000,000, but little of which they may recover. In return, the report said they have on their hands properties which pay no dividends, which eat into the earnings of the parent road, and which will be a burden on its capacity for many years to come.

The report deals with the management of the New Haven under former President Charles S. Mellen, and of the present directing head, Chairman Howard Elliott and Walker D. Hines, special counsel, says they have co-operated with the commission and rendered it substantial assistance through this investigation.

Coterie of Law-Breakers. The combination reared by the hands of Mr. Mellen, and approved by the late J. P. Morgan and William Rockefeller, the commission finds to be clearly in violation of the Sherman Anti-Trust Act, and a monopoly in practical control of the transportation of five states. The commission's report is unusual in the manner in which the directors of the New Haven are scored for their deeds. It speaks of criminal maladministration and speaks with positiveness that the directors knew they were perfecting an illegal combination, and says that the dream of a transportation monopoly was unsound and mischievous.

Director should be made individually liable to civil and criminal laws for the manner in which they discharge their trust. A corporation can do no better or worse than those who operate it. It should be just as grave a crime to plunder stockholders or the public thru a railroad corporation as it is personally to rob an individual.

SIR ADAM BECK'S MOTOR TRUCK FELL THRU RICKETY DON BRIDGE

The Surprising Story of How a Leading Road Into the City Has Been Abandoned—Poor Sir James is Blamed for It All.

The falling thru the bridge across the Don River on the Don road, near the entrance gate to Thorncliffe Farm of a five-ton Pierce-Arrow motor truck, loaded with construction material for the new Hydro-Electric line on that road, yesterday, emphasized in a sudden way the disgraceful condition that exists in connection with this road, caused by the failure of the highways commission, or good roads commission, as it is called, to take care of that road, and the still more disgraceful fact that the Township of York repudiated all responsibility for the road and tries to place it upon the county authorities or on the highway commission, or even on the Ontario Government.

Neglected For Years. Anyway, as a matter of fact, the road has been practically neglected for three years, at least that portion of it from De Grassi hill down thru the Don Valley to the Don Mills road, and on thru Todmorden. The good roads commission, when it was in funds, stoned, rolled and drained the road for three and a half miles, from Duncan's side-line to De Grassi hill. Then their money gave out and Engineer James, last fall, went to the township council and persuaded that body to give him \$2,000 to help to cut down De Grassi hill.

ROAD ENTITLED TO NO SUBSIDY RECEIVERS FOR BIG LIGHT CO.

Commission So Declares at End of Inquiry Into Building of Southampton Railway. Seventeen Million Dollar United States Corporation to Be Put on Its Feet.

FREDERICTON, N.B., July 13.—The inquiry of Commissioner R. A. Pringle, K.C., of Ottawa, into the Southampton Railway Company, to determine why the double Dominion subsidy of \$6,400 a mile was paid, was brought to a close here late this afternoon. Commissioner Pringle stated that the evidence proved beyond a doubt that the road was not entitled to the subsidy. He said that the blame lay between J. K. Pinder and D. W. Brown, engineer.

DOUBLE TRACK RIVER CHANNEL BEAT DEFIANCE

Dominion Government Take Measures to Lessen Danger of Collision in St. Lawrence. Hundred Thousand Orange Men of Belfast March to Drumbragh—Music Like Maxim Guns.

MONTREAL, July 13.—In order to minimize the dangers of collision on the narrower reaches of the St. Lawrence, arrangements are now being made by the department of marine and fisheries, practically to double-track the channel from Point Aux Trembles down to the entrance to Lake St. Peter. Already part of this work is completed, and surveys are now being made to carry it on, so that by next season it is hoped it will be completed. This work is being done in the way of dredging two separate channels all the way down to the lake, one to be used by the smaller class of vessels with a draught of less than 15 feet, while the main channel will continue to be used by the Atlantic liners and other vessels of heavy draught.

COCHRANE TO INSPECT WELLAND CANAL WORK

OTTAWA, July 13.—Hon. Frank Cochrane, minister of railways and canals, left for Toronto tonight, and tomorrow he will go over to make a personal inspection of the work on the new Welland Canal.

FERVID SPEECHES BUT NO ROOTS IN IRELAND

Recognition of Grave Danger of Bloodshed Made Factions Exercise Unusual Restraint and Disorder Was Strikingly Absent—Carson Addressed Great Gathering of Orangemen.

LONDON, July 13.—The recognition of the danger inherent in the existence of two armed volunteer bodies seems to have imbued Irishmen with a sense of added responsibility, and the battle of the Boyne was commemorated today in Ireland with tremendous enthusiasm. But there was a more noticeable absence of disorder than on past occasions of this kind.

Following the custom a great procession marched from Belfast to Drumbragh, where Sir Edward Carson, the Ulster Unionist leader, made his now familiar speech defying the government either totally to exclude Ulster from home rule or come out and fight. Lord Londonderry at Enniskillen and Walter Hume Long, Unionist member of parliament for Strand, at Garvagh, made speeches in a similar vein to other big demonstrations of Ulstermen, but no disorder was reported at any point up to a late hour tonight.

LIBERALS BEATEN BY BILINGUALISM

Mayor Hocken Tells Orange Demonstration That Separate School Fear Hurt Roblin.

ST. THOMAS, Ont., July 13.—That "Abolish the bar" was not the issue in the recent Ontario elections and that the Liberal party met defeat because it was feared that if they were returned to power bilingualism would be introduced into the schools of the province, was the contention of Mayor Hocken of Toronto in addressing an immense Orange demonstration here today. He also criticized the increased Liberal vote in Manitoba to the belief on the part of the electors that if the Roblin government were returned separate schools would be forced upon the province.

STARRY FLAG BORNE IN PRESCOTT PARADE

OTTAWA, July 13.—The Stars and Stripes and the Union Jack were carried side by side at the head of the Orangemen's day parade in Prescott, Ont., across from Ogdensburg today. Thousands of Orangemen from many points in the province of Ontario were present. The day passed without disorder.

CARRIED UP BY DIRIGIBLE SOLDIER FELL TO DEATH

OTTAWA, July 13.—While ten soldiers were holding a dirigible balloon by ropes today a sudden gust swept it from the ground. Nine of the soldiers let go, but the tenth was carried up. The crew of the dirigible made efforts to haul him aboard, but he fell from a height of 500 feet and was killed.

Roblin Is Expected To Surrender To Manitoba's Aroused Electors By Abandoning His School Policy

ONTARIO CONSERVATIVES CANNOT AFFORD TO SUPPORT ROBLINISM

Friends of Borden Government Incline to View That Alliance With Administration That Has Lost Confidence of People May Be Source of Grave Weakness to Party

OTTAWA, July 13.—The situation in Manitoba is a matter of concern to the friends of the Borden Government, and most of all to the Ontario contingent. The strength of the Borden government is in Ontario, and therefore the question is asked if Ontario Conservatives can afford to take the risk of trying to keep Roblin in office, when he has been turned down by the majority of the electors of Manitoba and especially by the better element of that province. The moral sentiment, the Conservative vote that lays stress on principle has been recorded against Roblin policy and Roblin methods. Any effort to count Sir Rodmond in, will, it is feared, meet with the stern disapproval of the Conservatives of Ontario, who are the backbone of Sir James Whitney.

As previously announced in The World the General Synod has been summoned by Archbishop Mathieson to convene at Vancouver on Sept. 3. Toronto will be represented by an influential delegation of clergy and laity. Prayer Book revision will be one of the chief matters for consideration. C. B. St. George is one of the most outspoken advocates of a scholarly, modern version. In reference to the elimination of the traditional word, Mr. St. George says: "It would be much better to have the word 'hades' in the creeds instead of hell."

BEST MARKSMAN IS FROM ULSTER HAMILTON LAD SHOT HIMSELF

HAMILTON, July 13.—Clifton Irving, 31, shot himself to death at 3.30 this evening. Three friends were spending the evening with him when, according to their story, he said: "I am a soldier; watch me; this is the way I do." The revolver he used was a .32 calibre Colt. It is uncertain whether he fired the shot intentionally or not. The bullet entered his temple on the right side and lodged in the left cheek. Dr. Carr was summoned, but the victim did not regain consciousness and died at 11.15 in the General Hospital, where he had been taken. Coroner Anderson has ordered an inquest.

A MINORITY GOVERNMENT.

WINNIPEG, July 13.—The Free Press (Liberal) will say tomorrow: The Roblin government's candidates polled only 15,000 out of 35,000 votes cast in the City of Winnipeg.

It is in a popular minority in the province by about 5000 votes. It polled less than 40 per cent. of the English-speaking vote of the province.

Of the purely English-speaking constituencies of the province it carried only two. In eleven constituencies in the province substantial Liberal majorities in the English polls were swamped by the votes of non-English-speaking electors.

MINISTRY MORTALLY WOUNDED. The total majorities of all the ministers is less than the Liberal majority in South Winnipeg, the seat of government.

MOTOR TRUCK FALLS THRU DON BRIDGE

(Continued From Page 1.)

Yesterday Sir Adam Beck went out one of his big motors with cross beams and other material for the new power line up the Don road, and it had got fairly on the bridge when the planks began to crack and then the timbers underneath to give way and the rear wheels of the truck went right down almost to the water, and were simply held there by the jamming of the front wheels.

Advertisement for 'The Garden' conducted by R. Todd, featuring Phlox, The Perennials.

Phlox, The Perennials

In a week or two now gardens will be gay with the splendid heads of the perennial phloxes, a reliable inmate of the herbaceous border.

For the present day type of perennial phlox is a product of the union of several wild types native to the land south of us.

It is necessary to describe the phlox? It seems to me that all the world knows the monstrous dome-shaped heads a foot or more in length and correspondingly broad and rounded.

And such colors of colors, whites, pure and whites variegated; scarlets and pinks, purples, lavenders and rose, and such a variety of deep shades and faint shades as may be seldom found in any other member of the vast polyanthaceae or phlox family.

The plants should be raised from seed, as I always advise, a package of mixed seeds will furnish such a feast of color the second year as any color lover could desire.

Second year seedlings will blossom well, like all other second year seedling perennials. Sow seeds in early summer, and transplant to suitable spots in the autumn.

Next year keep well watered and do not be disappointed at the very insignificant looking plants that struggle slowly above the other plants.

Amateurs may learn good lessons very easily from perennial phloxes. Indeed, I know of no other plants capable of being such good teachers.

The finest flower heads are those produced from old plants. Three or four old plants will send out wonderful trusses of color. And these blossom heads are quite long lived.

meuse, worn by the charming Percy Haswell last week, is worthy of pleasing compliment. Over the narrow foundation skirt was fashioned a box pleated long tunic, finished at the waist by a stunning black gorde.

CHILD WELFARE BIG PHASE IN ANTI-TUBERCULOSIS WAR

HALIFAX, N.S., July 13.—That the welfare of the child is to be the most important phase of the anti-tuberculosis campaign in the future, was the opinion of some of the leading physicians at the opening session of the 14th annual convention of the Canadian Association for the prevention of tuberculosis this morning at the Technical College.

HEALTH AND SAFETY FIRST, G.T.R. EMPLOYEES TAUGHT

Health and safety first was the advice urged upon Grand Trunk Railway employees yesterday by Superintendent Farrell on the occasion of a meeting of the Safety First class at the opening session of the 14th annual convention of the Canadian Association for the prevention of tuberculosis this morning at the Technical College.

MANY GERMAN SOLDIERS SUFFER FROM SUNSTROKE

BERLIN, July 13.—Two German soldiers died and over 100 others are ill today as a result of sunstroke, they were affected yesterday during military manoeuvres at Frankfurt-on-Oder, according to The Tagblatt. The men belonged to the Second Prussian Infantry Regiment, commanded by Col. Von Reuter, who was transferred from Zimmern, Alsace, after the recent conflict between soldiers and civilians there. The weather was the hottest experienced in Germany this year.

PITTSBURG STRIKE OVER EMPLOYEES BACK TO WORK

PITTSBURG, July 13.—The strike in the Westinghouse factories was formally ended today when approximately 8,000 men and women returned to the shops. All plants were placed on full time operation.

FATAL STUDENT DUEL

MARBURG, Germany, July 13.—A student of the university here died last night after a duel with a fellow student, during which his jugular vein was severed. Fatal results are almost unknown in these encounters between the members of the various college fraternities. The duels usually involve only a few harmless cuts on the head and face.

JEWEL BAG FINDER HAD A RICH REWARD

MONTREAL, July 13.—E. Mitchell of this city says a chamois bag which his wife lost, containing \$1400 and jewels valued at \$3000 intrinsically, but worth much more from a sentimental standpoint, was found and returned intact this morning, and he paid the promised reward, \$1400. He does not know who the fortunate finder was, he says.

MANY CONVICTS PARDONED

PARIS, July 13.—Pardons for 45 convicts in France and 2000 in the colonies of New Caledonia, French Guiana, and Algeria, were signed today by President Poincaré, in connection with tomorrow's national holiday in celebration of the fall of the Bastille.

EARL OF ELLESMERE DEAD

LONDON, July 13.—The Earl of Ellesmere died today, at the age of 81. He succeeded his father in the title in 1882, and his heir is his eldest son, Viscount Brackley, who was born Nov. 14, 1872.

WASHING CURTAINS

The curtains should be washed with a pure white soap, and then rinsed in the usual way. If the curtains lose their color, they may be easily restored. Purchase at a drug store some yellow ochre.

CREAM SALAD DRESSING

Mix thoroughly two teaspoonfuls of flour, one teaspoonful of salt, one teaspoonful of mustard, and one teaspoonful of cold water. Add one-half cupful of cold cream, and mix well.

POTATO AND EGG SALAD

Cut cold boiled potatoes in one-fourth inch cubes; there should be two cupfuls. Add one cupful of shredded cabbage, three hard-boiled eggs, finely chopped, two tablespoonfuls of chopped pickles, two tablespoonfuls of green pepper, finely chopped, and one teaspoonful of onion juice. Season with salt and pepper.

SCORCHED LINEN

It may not be possible to remove the scorch if it is very deep, but should it, fortunately, be chiefly on the surface of the linen, dampen the scorched part, and rub it well with pure white soap, then spread the cloth in the sun to bleach. Repeat the process several times, if necessary.

A COPPER TEA KETTLE

If a home-made brightener is preferred to any of the excellent pastes and polishes to be bought, here is a simple old-fashioned brightener—Heat a half a cupful of milk, half the quantity is used for the food. Spit-Rub the kettle with this hot mixture, using a bamboo rag and having a kettle hot when the polish is done.

MIXTURE FOR STAINED RAINCOATS

To clean raincoats that have become spotted and stained, sponge them with a mixture of equal proportions of ether and alcohol to which is added ammonia in proportion of one teaspoonful to a pint.

HOME-MADE BAKING POWDER

To make an inexpensive baking powder, use two level teaspoons of cream of tartar, half a pound of bicarbonate of soda, and half a pound of flour. Sift this together seven times. The quantity made thus will amount to two one-quart glass jars. For best use, use a sifter, and keep the jars tightly closed in the jars.

MILITANT IN COURT WAS IMPENITENT

LONDON, July 13.—Annie Bell, the militant suffragette who yesterday tried to destroy Archdeacon Wilberforce's famous Old Church of St. John the Evangelist, Westminster, was arraigned at the police court today, and on hearing the charge said: "The only thing I regret is that the beastly thing didn't go off."

THE NEW HOUSEKEEPING BY MRS. CHRISTINE FREDERICK

Why Do Women Needlessly Waste Energy? Stoopng vs. Standing.

FOR centuries women have been bending their backs in every piece of work they do. If it was to scrub the floor or pick up a handful of dirt or wash out a shirtwaist, some way, somehow, they had to stoop.

Another tool that has at last been put on a handle is our old enemy the scrubbing brush. Any one who will stop to think of the positively disgraceful appearance a woman presents while flat on her abdomen, and prostrate on the floor in the midst of wet suds and surfaces, would surely be willing to put every scrub brush on a stick to stay there forever.

There are also other kinds of scrub brush and mop combinations which are so arranged that the brush is used on a handle, or removed and replaced by a cloth. It is very much easier, and the work is also done better, when the pressure is applied by one standing than when she is stooping and sprawling like a frog swimming.

DISSENTS, Switzerland, July 13.—The Cantons of Glarous celebrated today the 1,500th anniversary of the foundation of the Benedictine Abbey here by Saint Sigisbert, an Irishman, who in 614 began his work of converting the wild hunters of the Alpine forest. The abbey is reputed to be the oldest in the world except one in Rome.

AUNT SAVED LITTLE GIRL

CHATHAM, Ont., July 13.—Laura Newcombe, a 3-year-old girl, was saved from drowning by her aunt at Erie yesterday. The little girl was bathing in the lake and got out beyond her depth. Her aunt noticed her predicament, and plunging in, pulled her out. The rescue was witnessed by a number of pleasure-seekers on the shore.

TUESDAY MORNING, JULY 14.

REPORTS DO NOT DIFFER.

Nothing will be found in the report of the Ontario Railway and Municipal Board on the street railway which clashes with previous reports made on the same question. In some respects the report is more favorable to the Street Railway Company than previous reports have been. In no important particular is there any difference of opinion with the views expressed by the various experts that have already reported. There is nothing in the report that would sustain the criticisms leveled against Mr. Arnold and his colleagues. It is stated, for example, that a greater portion of the track is in fair condition, but that about thirteen miles single track basis should be reconstructed. This ten miles is about 10 per cent, there being 114 miles single track in the city according to the city clerk's municipal handbook. The report states that the "special work generally on this system is in good condition, reasonable repairs and renewals have evidently been made in the past." The defects of the service are not new discoveries. They are generally those which a company pays no attention to, but which a civic service would look after for the comfort of the passengers. The company has a "sufficient and reliable power supply. Unusual and expensive means are taken to ensure its reliability."

The point of most interest to the people is perhaps the suggestions made about re-routing cars with the object of giving more direct service to thousands of passengers. It is said that 17,228 people transfer between the east and west side lines daily. The recommendation is that the Dundas car line be extended to Broadview avenue. This is, of course, only a temporary expedient. When the Bloor street viaduct is built a cross-town service on Bloor and Danforth from the Humber to the eastern limits will shorten the trans-urban journey immensely.

It is estimated that \$3,000,000 will have to be expended in the immediate future for necessary improvements. This is in accord with the estimates and allowances made for such needs in the scheme for purchase laid before the city council by Mayor Hocken. The report as a whole is very full of detailed information concerning the actual traffic conditions, overcrowding and all the other defects that can only be remedied by public ownership.

WRECKING A RAILROAD.

Early in the course of the enquiry into the affairs of the New Haven Railroad Co. it became evident that one of the most typical examples is offered of exploitation of a profit-earning system for ulterior purposes. Before it passed under the control of the Wall street interests that saw in the system the opportunity to build up a transportation monopoly in the New England States it was a valuable and successful enterprise. Thereafter its credit and its earnings were dissipated in the acquisition of other steam railroads, trolley lines and navigation companies at prices far above their market values. Nor was this all, for large amounts were expended to educate and influence public opinion and secure the aid of political organizations.

The story as unfolded during the investigation is astounding in the variety and magnitude of the operations through which this unfortunate railroad was made to serve the objects of the controlling financiers. It seems indeed to have suffered in every possible way that skill and experience in the methods of "high finance" could possibly accomplish. While all this was in process the board of directors, from the president downwards, were satisfied to be and remain mere passive instruments of the powers that were. One dominant personality resigned supreme and was apparently satisfied to let some of his subordinate agents dip into the treasury without check or challenge. The Interstate Commerce Commission report that in their opinion the New Haven directors were "criminally negligent" and it

has transmitted the evidence to the district attorneys of Massachusetts, Rhode Island and New York, as well as to the federal department of justice.

BUSES FOR TORONTO.

A bus franchise has recently been granted at Stratford for a term of five years, and close upon this comes the announcement of the chartering of a bus company to operate in Toronto. This is the first evidence of any commercial reliance of the profitability of running bus lines. And of course it does not follow that the profit will go any further than the promoters' interests. We do not wish in the least to disparage the enterprise, which is a worthy one and has had a great deal of advice and commendation behind it. But in London, where there is comparatively little opposition to bus traffic, profits were a long time in being reached, and it was only after years of losses that the desired dividends were attained. No doubt every care will be taken to place the bus service on a basis of profit from the start, and we feel sure that everything that business foresight can suggest will be done to secure success. We have, however, repeatedly pointed out the dangers for the city in going into such a precarious investment, which we considered could only be justified as a makeshift expedient to relieve the inconvenience of districts which could not be served in any other way, but only as a temporary method until a better service could be substituted. The one great obstacle to the scheme is the double fare entailed, which no one has suggested any way to get rid of. The fares proposed are five cents each, and it will take all this, we believe, to make the enterprise pay. But this is not satisfactory beside the cheaper fares and the universal transfers of a unified civic car service.

In view of the trials being made by private capital it will be unwise for the city to take up the bus business in any experimental fashion. We have concurred in the view that in order to relieve some districts, otherwise totally without traffic accommodation, buses might to a small extent be put into operation, but with the definite report of the commissioner of works, that each bus is bound to net a loss, there should be no idea that the city is making an experiment. The experiment can safely be left to the commercial companies, and we wish them success.

A TURN FOR THE BETTER.

Canada's trade relations with the United States are so large and intimate that any marked revival there will be reflected in improved conditions here. Unless all indications are misleading, our neighbors are experiencing a notable change in sentiment. They are escaping from an atmosphere of gloom and doubt into one of hope and confidence. This too, even before the issue of the award by the Interstate Commerce Commission on the requested five per cent. increase on foreign rates asked for by the eastern railroads. Indeed, now we are told that if a reasonable advance is allowed, it will complete the transformation and leave the path open and ready for the benefit that will come should the promise of an unparalleled harvest be fulfilled. For if the present government estimate is sustained the United States will have close on 170,000,000 bushels more wheat and 422,000,000 bushels more corn than the record yields of last year.

Iron and steel are regarded as among the best indices of trade movements. Only the other day The Iron Age ventured the prophecy that the steel trade had turned the corner. The Pennsylvania Railroad has handed out a large order for rails and the companies generally are restoring men to the pay rolls. Leading firms in other important lines report business to be improving and even flourishing. The European situation is decidedly on the mend and the striking revelation of the contents of the stockings of the thrifty French peasantry will also tend to relieve the financial strain. Canada also has good hope of crops which, if not phenomenal, will at least be up to the average. If we cannot look forward to a resumption of that flood of borrowed money whose abundance was our undoing, we can believe with assurance that real productive effort will ensure a safer and more stable prosperity.

THE PROBLEM OF IMMIGRATION.

Canada's weak point today is the large number of unemployed at a period of the year when work should be plentiful. This has arisen, without doubt, by reason of the incitements to immigration employed in all the countries of Europe by agencies that have found it profitable to act in that capacity. For many years during the process of railroad expansion work could be found for all or most of the unskilled labor that entered the country. Now that this has slackened to an appreciable extent, manual workers are seeking jobs on other public works and find that no openings are available. Could they be directed to the land on terms admitting of permanent employment a solution of the difficulty could be found. But the trouble is that the great majority of farmers only want casual and temporary help to tide them over the tilling and harvest seasons. Australia is suffering from the contrary reason of insufficient immigration at least of the kind it requires. Our sister states of the southern seas have not ransacked Europe for prospective citizens. They have confined their operations mainly to the United

Kingdom, and less insistently the northwestern countries of Europe. Hence their small percentage—less than four—of non-British-born residents. They also want incomes, skill in agricultural pursuits, who will go on the land and assist in enlarging production. The situation in both the Dominion and the Commonwealth suggests the necessity of readjusting their immigration policies to conform more closely with actual conditions. In these must be included the opposition offered in Britain to the migration of skilled agricultural laborers, and the certainty that they will be offered the inducement of small holdings as a betterment of their home circumstances. In the selection of youthful settlers, their training for farm life and the provision of advantageous opportunities to take up land for themselves appears to be the solution of the problem.

BEACH RESIDENTS' GRIEVANCE.

Editor World: At a time when the searchlight of public opinion is directed to the incompetence of the various departments of the city hall, the following instance will show that the growing impatience of the citizens with their civic officials is amply justified. About three weeks ago the wooden sidewalk on the north side of Queen street east between Silver Birch avenue and Kingswood road, Balm Beach, was removed. The level lowered about 3 feet, the idea being that the city would immediately lay an asphalt sidewalk previous to re-opening the road to the Beaches, and the necessity for no time being lost in doing this work will be understood when mention is made of the fact that there is no sidewalk any description on the south side of the street, and that consequently pedestrians, during the time elapsing before the new sidewalk was laid, had to walk on the heavy dust of the road or on a path on the south side, which was almost as dry. The work of grading the sidewalk occupied only a few days, but before any work of actually relaying the sidewalk could be done some of the shopkeepers, whose entrances were skirted by the new level, took out an injunction against the city and the work was immediately stopped. This means that the unfortunate residents of this section of the Beaches have no sidewalk of any description to walk on, and do not know when they are likely to have one. Now, sir, to the man in the street it would appear that the city should have full rights to lower the level before proceeding with the work. Had this been done much inconvenience to residents would have been obviated. A Long-Suffering Beacher.

ROCK SLIDE HOLDS BACK TRAIN FROM WINNIPEG.

A rock slide east of Winnipeg was the cause of the delay yesterday for 13 hours of the C. P. R. train due at the Union Station at 11:45 a.m., and the express from the same city, which was five hours late. No trains were on the track at the time of the slide, which was cleared away by workmen summoned on a special work train from Winnipeg.

MANY INTERESTING MAPS ON EXHIBITION

Replica of Santa Maria, Flagship of Admiral Columbus, on View This Week.

One of the features of the exhibiting of the replica of the Santa Maria, flagship of Admiral Columbus, is a special showing of three maps and charts of the fifteenth century—an object lesson in history of great interest to school pupils and to parents. In the Roselli Partolan chart, made in 1488, you see what the mariners of the days of Columbus sailed by. In fact, many historians believe that Columbus used this very chart or one like it. The map, made by an unknown Genoese in 1487, shows the idea then prevalent of what the world was. The De la Cosa map of 1500 is the first map of record, showing the newly discovered continent. Naturally the big interest centres in the anchor that was used by Columbus 42 years ago, and in the wonderful interior construction of the boat. The Santa Maria will be on exhibition Wednesday, Thursday, Friday and Saturday of this week from 10 to 10 p.m. at Canadian Steamship Dock, foot of Yonge street.

DELAY IN TRACK-LAYING.

Editor World: The residents of the Beaches would very much like to know when the city proposes to lay the street railway tracks from the Scarborough Beach Park to the city limits. On April 8th (three months ago) the city obtained a bill from the legislature ordering the Toronto Street Railway Company to give a continuous service on Queen street east to the city limits, the city undertaking to pay for the laying of tracks for same. Since then nothing has been heard of the matter, and as the roadway east of Beech avenue to the city limits is in a shocking condition (no watering or oiling cart ever penetrating this region) the residents are wondering why the works commissioner does not get busy and give this much-needed relief to this long-enduring district. Certainly the condition of the roads and the lack of street car facilities in this high-class residential section would seem to argue an attitude of indifference to these matters by our civic officials.

CITY WILL DOUBLE BATHING FACILITIES

The city will double the bathing accommodation at Kew Beach Gardens by putting additional lockers for "grown-ups" and a tent for boys. The popularity of the beach has increased enormously, and more than twice as many bathers are enjoying the water this year as formerly. This fact has been brought to the notice of Parks Commissioner Chambers, and immediate steps are to be taken for the purpose of supplying the wants of the bathers.

SATURDAY'S CRICKET HOW IT RESULTED

City League and C. and M. Fixtures Provide Good Games.

ST. CYPRIANS V. ST. MATTHIAS.
Holt of St. Cyprian's again proved his value to the club by heading the score in batting, taking two wickets for 9 runs and catching Whitaker at slip off a fast delivery by Simmonds. In batting he was well backed up by Capps with 20 and a lucky 11 by Barber, an additional 18 for byes, owing to the visitors dispensing with the services of a long stop; running the total to 108. Whitaker taking 5 wickets for 19, Townsend 2 for 7, Langley 2 for 32, Arthur 1 for 27 and Blatherwick 0 for 5. For St. Matthias Langley played a good inning of 31, Townsend 18, and Whitaker 15, the latter being well set when caught out by Holt. Simmonds was most successful with the ball his 4 wickets for 14 in 7 overs being a meritorious performance. Barber 2 for 17, Holt 2 for 9, Gering 1 for 9 also did well. Capps and W. Davis falling to take wickets.

WEST TORONTO C.C. vs. ST. MARK'S C.C.

The above game was played at High Park Saturday last, and two points accrued to West Toronto in the C. and M. League by 77 runs. The over their opponents of the game was prominent in the batting. The batting of Scott for West Toronto secured eight wickets at a total cost of 22 runs.
For St. Mark's J. Murray was the only one to secure double figures, his 10 runs being compiled by very careful play. Sargent knocked out 9 for his side by short but vigorous batting. L. C. Murray starred for St. Mark's with the ball, doing better than the "hat trick" by taking four wickets in as many consecutive balls, his eight wickets costing him 24 runs. TRADING WAS QUIET ON FRUIT MARKET

Raspberries Scarce and Prices Held Firm—Quality Was Good.

VEGETABLES ARE LOWER

Feature Was Drop in Cucumbers of Half Dollar a Basket.

Raspberries were rather scarce on the market yesterday. Most of the fruit was fine and large, but wet owing to the recent rain. The price kept firm at 15c to 16c per box.

Canadian outside grown cucumbers showed the market yesterday, and sent the price bounding downwards to from 8c to 6c per basket for this variety, and the hot house brands 7c to 8c per basket, a decrease of about 50c per basket for the latter.

Cabbages, too, are on the decline in price owing to the large quantities coming on the market, and are now selling at 6c to 7c per bushel basket, and 3c per crate.

Wholesale Fruits. Apples—1.75 per hamper; 3c per box. Blueberries—41c to 42c per basket; 11c to 12c per box.

Bananas—\$1.50 to \$2 per bunch. Cantaloupes—(Georgia), 34c per crate. Currants—Red, 27c box crates, 4c to 6c per box; 11-quart baskets, 35c to 60c.

Cherries—Sour, 45c to 60c per 11-quart basket; black, 75c to 1.00 per 11-quart basket.

Gooseberries—Small and medium fruit.

35c to 45c per 11-quart basket; larger fruit, 65c, and extra fine, 75c to 90c. Grapes—Cal., \$2.50 to \$4 per box. Limes—1.25 per hundred. Lemons—Choice, \$4.75; extra fancy, \$5.25 per box.

WHEAT ARRIVALS ARE VERY LARGE

Movement on Heavy Scale — Price Goes Down — Closed Heavy.

CHICAGO, July 13.—Immense receipts from new crop led to a decided fall today in the price of wheat. The market, after favoring the bears through the session, closed heavy at 76 to 75c net decline.

Arrivals of wheat in Chicago reached a total of 1186 carloads, believed to be the largest amount that ever came here on a single day. The movement to other terminals, especially in the southwest, was also on a heavy scale.

Black rust news turned out to be of no advantage to the wheat bulls. Notwithstanding that in some places in South Dakota the damage was estimated at 50 per cent, the outlook for the spring crop as a whole encouraged belief that chances were good for escape from a general active and choice cattle found ready sale at firm prices, and good steers and heifers at steady prices.

Receipts of live stock at the Union Stock Yards yesterday were fairly liberal, 229 cars, 2268 cattle, 791 hogs, 356 sheep and 282 calves.

The quality of fat cattle was not as good as a week ago, at least there was not as large a number of the good to choice on sale, and more of the half-finished light, grass-fed steers and heifers, as well as cows.

In the morning trade was slow, as the buyers did not want to pay the prices asked by the sellers.

Later on in the afternoon business became more active, and choice cattle found ready sale at firm prices, and good steers and heifers at steady prices.

Stocks and feeders, as well as milkers and springers, were reported as unchanged.

Lamb and calves were firm at last Thursday's prices, and hog prices were on the decline.

Loads of choice steers and heifers sold all the way from \$25 to \$35 per cwt., and one lot of 13 at \$37.50, and one lot of 8 extra choice steers at \$35.00.

Choice steers at \$27.50; medium at \$27.00; common at \$26.50; good at \$27.00; medium at \$26.50; common at \$26.00; extra choice at \$27.50; good at \$27.00; medium at \$26.50; common at \$26.00.

That Son-in-Law of Pa's. A cartoon by G. H. Wellington showing a man in a suit talking to a man in a striped shirt. The man in the suit says: 'THEY AINT ANY SENSE IN GOIN' TO A DENTIST. JUST T HAVE A TOOTH PULLED, I'LL SHOW YOU HOW T PULL IT YOURSELF!' The man in the striped shirt replies: 'ALL YOU GOTTA DO IS TAKE A STRONG PIECE O' STRING AN' TIE ONE END T' TH' TOOTH LIKE THIS—' AND TH' OTHER END T' TH' DOOR-KNOB LIKE THIS, AND THEN WAIT TILL SOMEBODY OPENS TH' DOOR.' The man in the striped shirt then says: 'OOF!' The man in the suit replies: 'AN I SAY, PLEASE, SHOW ME AGAIN, FANTHOM, YOU WENT TOO BALLY FANTHOM T' TIME OLD, TOP?'
