TWENTY-THIRD SENATE ROOM

BRITISH IN TRANSVAL

Sir H. M. Stanley Has Written a Letter on the South African Situation.

TO TRUST MR. CHAMBERLAIN is the Only Sensible Course For Englishmen To Take in the Present Crisis.

THE IRASCIBLE BOER PRESIDENT

Must Be Brought to Time, Else British Prestige Will Drop Away Below Zero.

London, Sept. 5.—Sir Henry M. Stanley, the African explorer, has written a letter to a friend on the Transvaal situation, in which he declares that the only sensible course for Englishmen to take is to trust in Mr. Joseph Chamberlain, who is now on trial before the nation and world. "If," Sir Henry writes, "these complications and wearisome tirades and unending repetitions do not soon terminate they must pass to the next Government, and Mr. Chamberlain will have proved no better than the mediocrities who made Chamberlain possible. The British nation is on trial before the world, and if we shrink from compelling that irascible old man in the Transvaal to deal justly with our countrymen we shall shortly see the gravest situation that necessitates a Cabinet Council at such unusual period, says: It would be unpardonable folly to shut our eyes to the suspiciously dilatory character of Kruger's diplomacy and the energy with which he is simultaneously preparing for the worst."

GRAVE VIEW TACTICS.

Both the Morning and Evening Papers in London View the Situation as Serious.

London, Sept. 5.—The latest news received from South Africa is of a grave nature. Nothing more is known regarding the status of the negotiations between Great Britain and the Transvaal Republic than that the reserves have been called out for that any day may be taken to that end.

THE BOER ORGAN SAYS.

The Boer organ says that the Standard and Digges' reports, to-day's dispatch from Pretoria, saying that the tension there was appearing less severe, and that it was believed arrangements for the proposed conference at Cape Town were completed, although President Kruger of the Transvaal Republic was unlikely to attend.

THE EXODUS CONTINUES.

Johannesburg, Sept. 5.—Public anxiety shows no abatement and the exodus of the population continues. The exodus of several large financial houses is leaving Toronto and their books for Cape Town.

ALL LOOKS WARLIKE.

Activity at the Admiralty, the War Office and the Colonial Office.

London, Sept. 5.—The Premier, the Marquis of Salisbury, will come to London to-day (Wednesday) from Walmer to confer with the Secretary of State for the Colonies, Mr. Joseph Chamberlain, and a Cabinet Council has been summoned for Friday.

TEMPORARY LINE AGREEMENT

The Alaska Boundary Dispute is Likely to Be Fixed Up Temporarily at Least.

CONCESSIONS MADE ON BOTH SIDES.

Montreal, Sept. 5.—(Special)—The Herald's special correspondent in the American capital writes the following: Washington, Sept. 5.—Great Britain and the United States have practically agreed upon a temporary line defining the boundary between Alaska and Canada. Negotiations have progressed rapidly since the Alaska Boundary Commission was organized by the United States. The prospect is bright for a settlement of the question as to the location of the boundary line.

THE WAGON-DOG IS WEST

Sir Mackenzie Bowell Talks a Little to an Interviewer in the Prairie City.

THE SENATE AND THE COMMONS

Something About the New Franchise Act and a Reference to the Alaska Boundary Question.

Winnipeg, Sept. 5.—(Special)—Sir Mackenzie Bowell arrived from the East to-day accompanied by his daughter, Mrs. McCarly, and his grandchildren, Miss McCarly and Mrs. Charles Holton. Asked concerning the political situation, Sir Mackenzie said he had nothing to say. The proposal of Sir Wilfrid Laurier to return the Senate to the Commons means simply annihilation of the Senate as a body. If there is a large majority in favor of a certain object in the Commons and a small one in the Senate, then the Senate would be swamped in the Commons. When conditions were reversed, the vote of the Commons would be nullified. However, as Sir Wilfrid proposes a thing one day and neglects to fulfill it next day, it is hard to say what the Government will do about Senate reconstruction.

THE BATTLE OF THE BUTTER

The Eastern Ontario Butter and Cheese Association, Superintendent of Farmers' Institute, Dr. J. D. Reynolds, president and the Ontario Dairy Producers' Association, president, were in session at the Hotel Hamilton to-day. The principal item of business was the fixing of the price of butter. The price was fixed at 12 1/2 cents per pound. The meeting was a success and the association was re-elected.

THE CATTLE OF THE DEATH.

The Cattle Committee yesterday received the report of the veterinarians appointed to investigate the cause of the mortality among the cattle of the Dominion. The report showed that the cause of death was a contagious disease existing among the cattle of the Dominion. The committee was instructed to make adequate arrangements for the removal of the infected cattle. The committee has passed a resolution asking the Ontario Government to make a larger grant for the purpose of the payment of cheese and butter inspectors.

GREAT ATTENDANCE YESTERDAY

Manufacturers and Butter and Cheese Men Met on the Grounds—Special Exhibits.

Germany Day was a pronounced success at Canada's Greatest Fair yesterday. The day's attendance was not favorable for the visitors, rain falling steadily for several hours. Later the weather improved and the afternoon and evening were very fine. The attendance was very large, beyond the average of Germania Day. Crowds came in by the early trains, principally from Berlin, Waterloo, Goderich and all intermediate stations en route to Toronto. The fair grounds presented a busy scene, and every department of the Exhibition was thronged. The speakers at the directors' luncheon, principally from Buffalo, were enthusiastic as to the forthcoming Pan-American Exposition at that city, though each said all in superlatives as to the merits of Toronto's unrivaled Exhibition. The chief note at the meeting of the cheese manufacturers was one of progress, this department of the fair having assumed larger dimensions each year. The Canadian Dairy Producers' Association, which is the promoter of the cheese and butter trade amongst the British, was very successful in its efforts to secure a large attendance at the fair. The association has passed a resolution asking the Ontario Government to make a larger grant for the purpose of the payment of cheese and butter inspectors.

BOARD OF WORKS MEETING
Request of a Syndicate for Street Extension Set Upon by City Engineer Wingate.

REPAIRS TO UPPER JAMES STREET
New Pavement to Be Laid--Teamsters Must Go on Carrying Big Loads--General News.

Hamilton, Sept. 5.—(Special.)—The Board of Works held its first meeting this evening after the holidays, and had a lot of business to dispose of. Engineer Wingate reported to the board on a variety of matters referred to him. Among them was the request of a syndicate headed by E. A. Colquhoun, that Hannab-street east be opened out to Wentworth-street. Engineer Wingate reported that the extension of the street would open out a number of fine building sites, but as the greatest benefit would accrue to the syndicate, it should bear the cost, except that for taxes or for gutters to carry away the water, which cost he thought should be borne by the city. He estimated the cost as follows: Grading, \$150; macadam, \$100; curbs, \$50. The board was so recommended by the council. Mr. Wingate stated that he would not be prepared to report on the Springer quarry for one month.

Richard Plant Missing.
Richard Plant, Wellington-street, south, has been missing from his home since Saturday. He is about 70 years of age, 5 feet 10 inches high, of medium build, and at the time he disappeared wore a dark suit of clothes and black fedora hat. He may be recognized by a slight reddish tinge to the left side, caused by a stroke of paralysis some years ago.

MUNICIPAL CONVENTION.
There Was Not Much Alertness on the Part of the Delegates in Assembling.
Hamilton, Sept. 5.—(Special.)—The delegates to the municipal convention set for today and to-morrow in the City Hall did not show any alertness in gathering together this morning. Not more than a baker's dozen were present at 10 o'clock, the hour set forth for the commencement of the convention. Mayor Teezel was unanimous in chosen chairman and he proceeded to welcome the delegates. The mayor spoke at some length, discussing the inequalities and anomalies of the Assessment Act, referring to the Municipal Act, which will give the city a new assessment system.

Untiring in Strength
Former Invalid
RESTORED BY
GRAPE-NUTS
FOOD.
A RATIONAL FOOD CURE.

One of the well-known grocers in Washington, D.C., who has used the food of many of the brainy representative men of his state, says: "I have become an enthusiastic consumer of Grape-Nuts Food. It has done for me what no other food has done. I had a store for my supper a dish and a half dish, and was impressed, perhaps unfavorably, with its richness, and eating at the same time how very properly the new food was named. I had at my home, I remarked to the family, that it was the first time in a whole year that I had felt like myself. I was much elated, and naturally attributed the change to Grape-Nuts. My improvement since then has been continuous, my health is better than ever before. I look ten years younger, and am untiring in strength." (The gentleman does not care to have his name quoted publicly, but his store can be found at 729 Eighteenth-street, Washington, D.C.)

Now for the rest of the man or woman worn out with overwork or nervous prostration will find an immediate gain in strength by the use of Grape-Nuts and cream, because of the fact that the natural phosphate of potassium, which is one of the elements in Grape-Nuts, and this is presented to the system in the form demanded by nature, not as a drug.

The system takes up the needed particles of phosphate of potassium, and it is now known that the soft grey matter which fills the delicate nerve centres throughout the body, as well as the brain and the solar plexus, can only be made and renewed from day to day by the action of potassium phosphate on albumen. Albumen is one of the principal elements in the system, and unless albumen has with it in the system a sufficient amount of phosphate of potassium, it cannot be transformed into brain matter with the action of this particular element, for it is known that to make grey matter, except by the combination of albumen and phosphate of potassium.

Therefore, when the classes Grape-Nuts, which makes use of the best scientific knowledge of the day in the selection of food for the body, has become famous throughout the world, and is to be found in every well-stocked grocery store, Grape-Nuts are in Battle Creek.

ATHLETIC COMMITTEE MEET.

Elford and Companion Reinstated—For the Championships.

The Executive Committee of the Canadian Amateur Athletic Union met at the secretary's office, 16 West King-street, last night and transacted considerable business. These members were present: G. M. Higginbotham, president; Inspector Stark, J. J. Clarke, treasurer, and G. Heron, secretary. The Canadian Amateur Hockey League, Montreal, an outgrowth of the Amateur Hockey Association of Canada, was admitted to membership in the union.

The application of A. J. Quinn of Campbell's Bay, Que., for reinstatement was rejected. Messrs. Charles Elford of Montreal and Edward Companion of Brockville were reinstated.

Preliminary arrangements were completed for the annual championship games to be held Saturday, Sept. 16, at Rosedale, under the auspices of the union. This promises to be the most successful athletic meeting ever held in this city.

Boston Gipsies at Halifax. Halifax, N.S., Sept. 5.—The Boston Gipsies and Wanderers resumed their cricket match at noon to-day. The Gipsies began their second innings yesterday, and when stumps were drawn had 14 runs for one wicket. The innings was completed at 1:30 to-day when the Gipsies were all out for 95.

Paris, Sept. 5.—Paris lacrosse team defeated the Bramford team yesterday by a score of 3 goals to 1, winning the F100 trophy donated by the Labor Day Celebration Committee of that city.

Conwall or Toronto? The Toronto, by their decline in play against the Shamrocks in Monday's game, have once again re-established themselves in the opinion of hundreds of their admirers that it has been by the hardest sort of fortune and adverse circumstances that they have not landed the pennant this season. That they play a magnificent game has been again and again demonstrated and no game played this season will test their prowess to a greater extent than Saturday's match with Conwall at Rosedale. The plan of reserved seats will be open to-morrow morning at Northmen's 10 o'clock. Every member of the team is requested to be on lock-to-night for practice.

McCoy Knocked Out Thorne. New York, Sept. 5.—The 20-round bout scheduled for to-night between Jeffrey Thorne of England and Ed McCoy terminated suddenly in the third round, when McCoy scored a clean knockout.

Barrie bowlers Behind. The Barrie bowlers took advantage of Labor Day and paid the Granites a visit. Granites—Barrie—G. R. Hammett, sk. 42 P. H. Stewart, sk. 20 T. M. Scott, sk. 43 W. A. Boye, sk. 22 W. A. Cameron, sk. 34 J. M. Stevenson, 22 Total 119 Total 64

At Winnipeg yesterday Jones won the free-for-all, defeating Pathmore, who took the third and fourth heats. It was the greatest horse race ever seen in Manitoba.

Flanagan's New Record. New York, Sept. 5.—John Flanagan was the star performer yesterday at the Knickerbocker Athletic Club's carnival at Bayonne. Chief of Flanagan's performances was the sole record-smashing feat of the day. In throwing the 16 lb. hammer in Irish style from a nine-foot circle, he eclipsed by 12 feet 8 inches the world's record of 151 feet 10 inches, held by T. F. Kelly, the Irish champion weight hurler, the new figures for the game being 164 feet 6 inches.

Union Men should bear in mind that the famous "Collegian" cigars, which are melted at 5 cents straight by J. A. Thompson, Tobaccoist, 78 Yonge-street, are hand-made exclusively by skilled union workmen.

Double-Header for One Price. Wet grounds prevented the Toronto and Rochesterers from playing off their scheduled game of championship baseball at Hamilton's Point yesterday, and it was postponed until today, so that there will be two contests at the island this afternoon between these clubs for the one price of admission. Umpire Joe Lydon will call the first game at 2 o'clock sharp. Williams and Best will pitch for the locals and Morse and Bower for the visitors. The Rochesterers have clinched their hold on the pennant and will be the Eastern League champions of 1899. The Toronto have a good chance for third place in the race, and second place is also a possibility. Four games will be played in Montreal by the Toronto on Thursday, Friday, Saturday and Sunday. To-day's games will be the last of the season, and everybody should try the hay to give the players a parting hand.

Flanagan's New Record. New York, Sept. 5.—John Flanagan was the star performer yesterday at the Knickerbocker Athletic Club's carnival at Bayonne. Chief of Flanagan's performances was the sole record-smashing feat of the day. DEAD HEAT AT FORT ERIE.

Red Pirate Beat Ennomia After Finishing Together in the Mile Race.

Fort Erie, Sept. 5.—Splitted finishes were the rule this afternoon, and the betting ring was a busy scene despite an early shower. First time ruled. In the third race, at a mile, Ennomia came near repeating, finishing, with Songer's aid, right up with Red Pirate in the first dead heat of the track's history. The dead heat was run off, and Red Pirate had an easy time of it. H. Ross and Valentine were badly bruised and fell from Hungry Hill and Lady Bratton. Weather threatening, track good.

First race, 5/4 furlongs—Red Snapper, 99 (McQuade), 4 to 1 and 8 to 5, won by 2 lengths; Ice Drop, 98 (J. THIS GROWING TREE.

The Grits are all basking in the shade of the great tree that is symbolic of the manufacture of Canada. Every day now the Globe sings a paean in honor of the beautiful and stately tree that has risen up before our eyes. But where were the Grits when the tree was planted? That is surely a relevant question at the present moment. One would imagine from the praises that are now being sung by the Grits in honor of the growing tree that it was they who planted the seed. Everyone knows, however, that such was not the case. Instead of planting the tree the Grits did their very best to prevent its getting a foothold on Canadian soil. Twenty-one years ago the Grits had quite a different notion about the little tree that was then planted by the Conservative party. In those days it was represented as a spindly twig which was about to scorch its deadly poison and pollute the surrounding atmosphere. If we mistake not, it was a customary thing for Grit speakers, cartoonists and writers to employ this simile in referring to the National Policy introduced in Canada in 1878. But what a change has come over these Grits today! They cannot extol too highly the beauty of Canada's industrial tree. Yesterday the Globe devoted a column depicting some of its mighty branches. If any place more than another is an N.P. town it is the city of Hamilton. This is the city which claimed the Globe's attention yesterday. The manufacturers are all flourishing in the Ambitious City. Among them are several stove and general foundries, agricultural works, rolling mills, blast furnaces, car wheel works, tack factories, tobacco factories, wire works and so on. They are all the fruit of the National Policy tree. Kill the tree and you destroy this crop of industries. The "growing time" is certainly one of the characteristic features of the day. It deserves some kind of public recognition. But who are they that should sing its glories? Certainly not those who stood by when the tree was first planted, ready with axe in hand to fell it to the ground. Surely not the men and the Globe newspaper to take credit for the "growing time." If they had their way of it there would be no growing time to celebrate. The only ones who can with decency take part in these growing time festivities are the members of the Conservative party who originally planted the tree and afterwards sheltered it from the attacks of the murderous Grits. A celebration of Canada's growing time is very much in order, and we are pleased to notice that the Conservative leaders have decided to organize a celebration in honor of the 21st anniversary of the National Policy. That celebration will take place at Exhibition Park on September 15, on which day 21 years ago the great N. P. victory was scored. The Grits were not big enough to rise to the occasion in 1878 and give the country the legislation under which it has since prospered. They are quite small enough today, however, to claim credit for the magnificent fruits of a policy which they not only did not originate but which for twenty long years they opposed with all their might.

CANADA MOTOR CYCLE CO.

Reference Stock is to be Offered Publicly at Various Central Points. The organization of the Canada Motor Cycle Company has aroused a lot of interest in the local financial world, and the placing on the market of \$2,000,000 7 per cent. cumulative stock at par, is considered a good chance for investment. This morning at 10 o'clock the subscription list will open at the chief offices of the National Trust Company, 20 East King-street, Toronto, and also at the Canada Life Building in Montreal. The head office and all branches of the Bank of Commerce will also receive subscriptions to the stock. The big company says it purposes enlarging the plant and has already acquired by some of the companies which have amalgamated. England, with all its big trade, in mechanical devices, has ceased to be the world's bicycle maker, and America now gets most of the export business that formerly belonged to the island. This is because American machinery has been introduced that can make cheaper and better wheels than the English manufacturers. Canada has imported a large quantity of American wheels, and the amalgamation of interests which comprise the Canada Cycle and Motor Company makes it possible to manufacture wheels just as cheaply here as in any other place on the American continent. American bicycles have been sold in great numbers in Germany, Canada, France, Australia, Netherlands, Denmark, Africa, British East India, Japan and other countries, and this new Canadian company proposes to get after a lot of this business, because with the necessary capital and the very necessary brains, there is no reason why Canada cannot manufacture and export bicycles just as cheaply as can the wheel builders in the United States. The five companies which have formed the amalgam which composes the Canada Cycle and Motor Company, have already got a considerable trade in the numerous foreign countries already named, and the intention is to foster this trade, and to make it grow. The manufacture of automobiles will also be a big feature of the new company's proposals to make the stock a gilt-edged investment.

Mrs. J. D. Reid is Dead.

Mrs. J. D. Reid, wife of the editor of The Arrow, Park's Falls, who had been in poor health for some time, had been spending her summer holidays with her father, Rev. J. Sleeverlight, B.A., of Lion's Head. On the morning of the 5th inst. Mr. Reid received at Park's Falls a telegram to come at once, that his wife was worse, and on arrival at Park's Falls he found her lying in her bed, and she died at 10 o'clock on the morning of the 6th inst. She had been improving in health for the past week and her father just left her on Monday for a visit to Huntsville and Park's Falls. She leaves a husband, a daughter aged 6 and two twin boys aged 3 to mourn her loss. The funeral arrangements will not be made until the arrival of Mr. Reid at Lion's Head on the evening of the 6th.

DISCUSSED THE FREIGHT RATES.

New Officers Elected—A List of Those Who Were Presented—Various Reports Presented. Oakville, Sept. 5.—(Special.)—The Millers' Association for the Dominion held their annual meeting and dinner yesterday afternoon. The association chartered the steamer White Star and picked up at Oakville, returning to the city in time to witness the fireworks and Grand Stand performance at Exhibition Park. The steamer left Goddard Wharf at 3 p.m. About 100 delegates were present from all parts of Ontario, some from Quebec, but none from the Eastern Provinces of the Dominion. The business of the convention was transacted in the smoking room of the steamer. The lake was rough and the constant pitching of the steamer rendered it difficult. The first business was the discussion of reports. The secretary's report re the inspection of Manitoba wheat was read. It recited the attempts of the Millers' Association through their representatives in Parliament and by means of two large deputations to Ottawa, to convince the Government of the injustice to the millers of Ontario of the inspection bill, as originally proposed. Finally, the report of the last year's amendment which the representatives of the association had proposed to the Government was also read. The report was put in force by instructions to the inspectors.

Some Honoraria.

The Executive Committee reported their success in protecting the interests of the Canadian millers at the international conference of Canadians and Americans conducted at Quebec. They recommended the payment of an honorarium of \$30 to the inspectors, William Gerrard of London and a bonus of \$500 to the central wheat buyer, Mr. Charles B. Watts of Toronto. The central wheat buyer is a man who that his services had been employed by a much larger number of millers than in previous years. The report stated that last winter was a very severe one and, as a result, the quality of wheat was poor.

Salaries Now Paid.

The Dominion Association during the past year has succeeded in settling one vexing problem, namely, the inspection of Manitoba wheat. The Government, by paying wheat inspectors now receive salaries in stead of fees. Thus the Government, by paying salaries, becomes responsible for the correct inspection. In place of the old fee system, the Government has appointed inspectors and inspectors in Manitoba will set the standards now.

Look Into Freight Rates.

The only matter of great importance which came before the association was the question of freight rates. The rates of Canadian roads compared with the rates charged by the same railways from American points show a wide difference. The rate for one barrel of flour sent from St. Louis to Montreal for export at present is 38 cents; the rate from Chicago is 30 cents per barrel and from Detroit 28 cents. Toronto to Montreal for one barrel of flour is 40 cents. The association offered no solution of the difficulty and did nothing in the matter but pass a motion granting the Executive Committee the authority to look into the question and bring it to the attention of the Government.

Officers Elected.

The officers of the association for the ensuing year are: H. L. Price of St. Mary's, president; W. H. Meldrum, Peterboro, first vice-president; J. C. Taylor, Toronto, second vice-president; W. M. Galbraith, Toronto, treasurer. The Executive Committee is as follows: W. G. Bailey, Hamilton; J. D. Flavelle, Toronto; J. A. Hunt, London; J. D. Flavelle, Lindsay; John Goldie, Ayr; J. A. Hunt, London; M. McLaughlin, Toronto; J. L. Spink, Toronto.

Were on the Boat.

The attendance at the meeting was not large. Some of those present on the boat were: W. G. Bailey, Hamilton; J. A. Hunt, London; J. D. Flavelle, Lindsay; John Goldie, Ayr; J. A. Hunt, London; M. McLaughlin, Toronto; J. L. Spink, Toronto.

AT THE TEMPLE CAFE.

Crowds Visit Toronto's Modern Restaurant on Bay—The Temple Cafe in the I.O.F. Temple Building on Bay-street, is already one of the bores of Toronto, and prominent citizens who wish to give visiting strangers a proper conception of the development of the city have not been slow to see the advantage of taking them to the cafe for luncheon or dinner. In elegance the Temple Cafe is not equaled by any restaurant in the continent, except perhaps by two in New York and one in London, and it is surpassed by none of these. The Temple Cafe is one of the local institutions of which the city should be proud, and which citizens should not fail to bring under the eye of visitors from abroad. It is a fine, pillared, deep-carpeted, everything about the place is genuine, massive, rich, such as one never expects to find in a public restaurant. The annex and main building are connected, of course, and in the latter are situated a gentlemen's dining room and two ladies' dining rooms, admirably suited for dinner parties, and which Toronto society has but to see to similar. In the various dining halls the mural decorations are very artistic. But the cafe is not only designed for the luxurious purposes of society, as the rates for individuals are surprisingly low, and there is also a lunch counter on the ground floor, where very persons in a hurry may lunch well for very ground floor that is as elegant as the other parts of the cafe, and a large smoking room, handsomely appointed. Torontonians can claim to know his own city until he has made himself acquainted with the Temple Cafe, which is acquainted with the City Hall, Massey Music Hall and the Legislative Buildings as one of the bores of the city.

\$500,000 of the Preference Stock has already been subscribed for by certain of the Directors, and will be allotted to them for cash. \$500,000 of the Preference Stock is retained in the Treasury of the Company for purposes of its future operations. THE NATIONAL TRUST COMPANY, LIMITED, offer for public subscription the balance, viz:

\$2,000,000 7 PER CENT. CUMULATIVE PREFERENCE STOCK AT PAR.

THE CANADA CYCLE AND MOTOR COMPANY, Limited, is to be incorporated under the Ontario Companies' Act to acquire as going concerns the businesses, as manufacturers and dealers in Bicycles and Bicycle Parts, now carried on by the following well known Companies: MASSEY-HARRIS COMPANY, Limited, WELAND VALE MANUFACTURING COMPANY, Limited, GENDRON MANUFACTURING COMPANY, Limited, H. A. LOZIER & COMPANY (Cleveland Bicycles), GOULD BICYCLE COMPANY, Limited, including the Plant, Machinery, Tools, Stock-in-Trade, Fixtures, Patent Rights, Trade Marks, Trade Names, Copyrights, Good-will and Leaseholds of the above-named Companies in connection with their said business; and including also all the real property of H. A. Lozier & Company, and The Good Bicycle Company, Limited.

The bicycle industry is one of great importance and magnitude in Canada. The constituent Companies are the leaders in the trade. Their Trade Marks and Brands are everywhere popularly known, and by reason of their world-wide reputation for unrivalled excellence some of the Companies enjoy a large and growing foreign trade which offers a favourable field for development, and which this Company proposes to extend. The Companies give employment to about 1,700 men. Their outputs for the past year aggregated about 38,500 bicycles. The plant and machinery are of the latest and best equipment, and capable of twice that production with but small additional outlay in tools. The factory sites to be acquired by the Company are especially adapted for manufacturing purposes; have advantageous shipping facilities, and will permit of ample extensions to the existing buildings. Each of the above-named Companies has covenanted not to engage for long periods of years in any business competing with the bicycle business of this Company.

NET EARNINGS. The steadily progressive character of the business of the constituent Companies is shown by the following Accountants' certificate: We certify that the combined net profits in the business of Bicycles and Bicycle Parts of the Massey-Harris Co., Limited, H. A. Lozier & Co. (Cleveland Bicycles), Weland Vale Manufacturing Co., Limited, Good Bicycle Co., Limited, and Gendron Manufacturing Co., Limited, for the past three years, are as follows:—

Table with 2 columns: Year (1896-7, 1897-8, 1898-9) and Amount (\$190,914.02, \$304,907.03, \$330,115.35). Auditor: GEO. EDWARDS, F.C.A., ALEX. HART-SMITH, C.A.

ADVANTAGES. Amongst the advantages to be gained by this amalgamation of interests, the following may be enumerated:— FIRSTLY—Reduction in selling and distribution expenses and advertising. SECONDLY—The economies and improvements in production arising from the practical knowledge of the members forming the Board of Directors, which will be available for each branch of the business. THIRDLY—The economies due to consolidation of management, manufacturing, office work, and of buying, distributing, and financial arrangements.

MANAGEMENT. The Directors are fully alive to the desirability of conserving the individuality and initiative of the various businesses, and will not allow consolidation to act detrimentally in these matters, but there are obvious advantages to be gained, as, for example, in buying in large quantities in the best markets, in the supply of ample capital, and in the manufacture of a large output of high-grade wheels at prices to meet the demands of the public.

WORKING CAPITAL. The Management of the Company will be in the hands of experienced manufacturers, who have been identified with the leading bicycle companies of Canada in the past, and have made a success of the business. The Company will commence business without any bonded or mortgage debt and with a working capital in excess of \$1,000,000, exclusive of the additional capital available from the issue of the Preference Stock in the treasury (\$500,000).

DIVIDENDS. The Preference Shares shall confer the right to a fixed cumulative preferential dividend of 7 per cent. per annum accruing from the date of payment by subscribers, to be provided for out of the net earnings of the Company before any dividends are paid upon the common stock, and the further right to repayment of capital in priority to the common stock, but they will not be entitled to further participation in profits or assets. If in any one year dividends amounting to 7 per cent. are not paid on the preference stock the deficiency shall be a first charge upon the net earnings of the Company and shall be paid subsequently before any dividend is paid upon or set apart for the common stock. Dividends will be payable half-yearly on the 1st days of May and November, or such other half-yearly dates as the Directors may determine.

RESERVE ACCOUNT. The Charter of the Company will provide that 25 per cent. of the balance of the net earnings, after payment of the 7 per cent. dividend on the Preference Stock, shall be annually transferred to a reserve account in the books of the Company, the better to secure to the Preferred Shareholders the payment of the 7 per cent. dividend on their preferred shares, and such annual transfers shall be continued until the amount of said account reaches \$500,000, at which sum it is to be maintained, and if it is at any time drawn upon it is to be in like manner restored and maintained. The amount required to pay 7 per cent. on the preference stock already taken by the Directors and that now offered to the public being \$175,000, it is considered that such dividends are amply assured, and the above reserve account of \$500,000 has been stipulated for in order that the position of the preferred shares may be rendered independent of any possible contingency.

AUTOMOBILES. It is intended that an important part of the Company's undertaking will be the manufacture and sale of motors and motor vehicles. This branch of business is a natural outgrowth of the Bicycle industry, and is believed to offer a profitable investment for the capital and the large and successful experience in manufacturing which this Company will command.

Arrangements have been made to have the books of the Company regularly audited by Chartered Accountants. Application will be made in due course to have the stock of the Company listed upon the Toronto and Montreal Stock Exchanges.

\$2,000,000 7 per cent. Preference Stock in the above Company will be offered for public subscription at PAR on WEDNESDAY, the 6TH DAY OF SEPTEMBER, 1899, payable as follows: 5 per cent. on application and the balance of 95 per cent. on allotment. The right is reserved to reject or reduce any application, and subscription carries with it an agreement to accept such reduced amount. The failure to make payment when due forfeits the previous payment. In case no allotment is made the amount deposited on application will be returned.

Subscription Lists will open at the chief offices of the National Trust Company, Limited, Toronto and Montreal, and at the Head Office and Branches of the Canadian Bank of Commerce, at 10 a.m. on Wednesday, the 6th September, '99, and close at 3 o'clock on the following day.

Forms of Power of Attorney to subscribe may be had on application to any branch of the Canadian Bank of Commerce, or to THE NATIONAL TRUST COMPANY, Limited, 26 King St. East, Toronto, Canada Life Bld., Montreal.

THEY SQUELCHED THE COURT.

Regulators Down South Apparently Believe the Justice Hill is a Delusion and Fraud. Chattanooga, Tenn., Sept. 5.—A mounted armed mob of some 200 men took charge of a court, sheriff and litigants to-day at Johnson Springs, Va., and by main force put a stop to the proceedings. For a time a wholesale lynching appeared inevitable. Elder Joseph E. Wulfin, a Mormon, was murdered and assaulted some nights ago.

That there was no justice in Virginia, whereupon members of the mob replied: "No law for Mormons, except to kill them."

THE SHOE OF TO-DAY

You have seen "The Slater Shoe" advertised in the papers, and it is certainly more talked about, better known, and the most popular shoe in Canada to-day.

We are putting on a display in both Slater Shoe Stores, where you can see the shoes themselves in 18 different stages of manufacture.

Stage No. 1 is the leather that goes into them, and if you are any judge of leather you will see what quality it is. Sufficient for us to say that it is the best that can be got.

Stages No. 2 to 17 show the hidden parts of the shoe and the way it is put together. How it is cut and the famous Goodyear welt stitch that leaves the inside of the shoe smooth and comfortable on the foot.

No lumps or tacks under the foot to raise painful callosities on the sole of your foot, but soft, pliable, easy.

Stage No. 18 is the finished shoe, and we are showing them in all their multitude of varieties of shapes, leathers, colors. To see this is to see the shoe that was made for your foot.

Every pair has the name and price of the makers stamped on the soles as an endorsement of its value.

The village council held their regular monthly meeting in the council chamber to-night, the reverend A. McMillan, presiding. A petition presented by Mrs. Hewitt and supported by Messrs. Dodsworth, asking for water on the Kingston-road, was favorably received and the necessary steps will be taken to proceed with the work. Boys loitering about the corner of Kingston-road and Main-street are becoming a nuisance to passers-by and the clerk called the attention of council to the same. The tax rate for the year was struck at 15 1/2 mills, as follows: School rate 6 1/2 mills, country rate 3 1/2 mills, and village rate 5 1/2 mills.

North Toronto Town Council. The council met last night at the Town Hall, Mayor Davis in the chair, with Coun-

cillors Brown, Lawrence, Armstrong, Spittel and Ellis also present.

The order by the Council for the purchase of a water supply for that suburb, and will be advised to attend the next meeting of the Works Committee to place the matter before that body.

The Committee of the Whole dwelt at considerable length on the amount of water used by the street railway track through the town to-day and see that all portions of it were placed in a satisfactory condition.

Mr. Fletcher Snider of Deer Park again wrote respecting a water supply for that suburb, and will be advised to attend the next meeting of the Works Committee to place the matter before that body.

The Committee of the Whole dwelt at considerable length on the amount of water used by the street railway track through the town to-day and see that all portions of it were placed in a satisfactory condition.

Mr. Nicholas Garland lives between Eglington and Bedford Park on Yonge-street. The other day he was coming home from Manitoba and was coming down the Northern Railway. Instead, however, of coming right down to the Union Station and then hiring a rig to drive him up Yonge-street, he got out at Newmarket and then took the trolley line on Yonge-street past his own door, and as it was before the train that he came by arrived at the Union Station.

Thornton. Rev. J. Grant is expected to take his pulpit here again on Sunday next, after his trip to the Old Country.

Mr. and Mrs. John Clay are visiting among friends here.

Miss S. Mead is home again after several weeks' absence.

Mrs. L. Grace and Mrs. of Paisley are spending a few days with Mr. and Mrs. John Grace.

The ice cream socials held under the auspices of the Epworth League during the Saturday evening of the summer, have been successful and a fund of \$40 is left as a balance in the hands of the society.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually dispels worms and gives babies in its marvelous manner to the little ones. ed

THE ROBERT SIMPSON COMPANY, LIMITED

Toronto, Sept. 6th, 1899

This Store for Blankets and Flannels

It requires a special aptitude for values and a great foundation of common sense to succeed in the task imposed upon our buyer of staples. Customers are keenly alive to their requirements in these goods, which make up the warp and woof of daily wear for personal or household use. It is because we realize that a slip here is fatal that we are doubly careful never to admit an unworthy or dishonest piece of goods into the department. "Firm round cotton thread," "Pure long wool," "Linen made from flax," these are quotations from the gospel of our staple buyer, and we invite you to test along these lines our new fall stock. It is twice the size of any former season, for we are glad to say we have double the space devoted to it. Brightest daylight aids your keenest scrutiny, and would preclude deception, even if we had need or disposition to practise it.

ANOTHER DAY FOR DREYFUS

Servian Refugee, Cernushi, Was Not Examined Behind Closed Doors in Yesterday's Proceedings.

A REPORTER GIVES TESTIMONY.

Labort Was in Evidence Again and Had Any Amount of Awkward Questions to Answer.

Rennes, Sept. 5.—M. Cernushi, the political refugee and reputed scion of Servian royalty who appeared yesterday before the Dreyfus court martial as a witness for the prosecution, was not examined by the court during the time it sat behind closed doors on this, the second day of the week of Capt. Dreyfus' trial on the charge of treason in communicating army secrets to a foreign government.

Major Carriere's Reply. Major Carriere replied that he did not think the government would ask another witness to obtain and submit to the court officially to the court. He saw no objection to hearing Col. Sandherr's testimony.
