\$10,000 A YEAR TO MAKE BOY SOLDIERS

Lord Strathcona Has Established a Patriotic Fund for Physical and Rifle Training in Canadian Schools.

OTTAWA, March 24.—(Special).—For the encouragement of physical and military training in the public schools of Canada, Lord Strathcona has made the generous donation of \$250,000, a sum which will yield \$10,000 a year for the patriotic purpose designated by Canada's high commissioner in London.

The announcement was made in the house this afternoon by Sir Frederick Borden, minister of militia, and was received with applause and a resolution of thanks, moved by the prime minister and seconded by R. L. Borden.

Sir Frederick Borden prefaced his announcement by referring to a portion of his recent speech upon the estimates, in which he referred to the importance of training in schools, and to the unanimity with which the idea had been accepted through the Dominion. Sir Frederick then read the following letter, received yesterday, from Lord Strathcona:

"You will recollect that when we met in London during your recent visit, I was greatly interested in your account you gave me of your efforts to get a system of physical training and military drill, including rifle practice, introduced into the public schools of the Dominion.

"I have long entertained the opinion that such training, if you are striving for it of the highest value in developing the moral, physical and intellectual qualities of children, is as valuable a quality known as patriotism, and I am anxious to take part in the good work which is being done in this direction.

"I write, therefore, to inform you that I am prepared to place at your disposal, or that of any competent body which you may be in a position to constitute, with the object of encouraging such training, a sum of \$10,000 per annum. I would suggest that the fund which this sum will form might be designated as the fund for the encouragement of physical and military training in the public schools, and that it should be administered by a committee of trustees appointed for this purpose.

"I should be glad to know what your own proposals as to the constitution of this body should be, and I should be glad to know what the central committee might perhaps be composed somewhat as follows: Yourself, as the minister of militia, for the provinces of Ontario and Quebec, and one each for the remaining provinces of the Dominion; the military officers commanding the commands and independent districts of the Dominion.

"Should his excellency the governor-general be exposed to become patron of the trust, I should feel especially honored by such action on his part, which would conduce very greatly to the success of the object which we have in view. I should also deem it an especial honor if his excellency should consent to be vice-patron of the trust.

"Local committees to administer the fund as a whole should be administered and money grants allotted by the executive committee in general proportionately to the population of the various provinces of the Dominion, it would, I think, be desirable that the administration of the grant within the several provinces should be made by local committees appointed under the authority of the central committee. These local committees might be composed, for example of the military officers commanding the districts as chairman, three civil members nominated by the minister of education for the province and three military members nominated by the minister of militia.

"While I attach the highest importance to the advantages of physical training and elementary drill for the children of both sexes, I am particularly anxious that the special value of military drill, including rifle shooting, should be borne in mind. My object is not only to help to improve the physical and intellectual capabilities of the children by instilling habits of a certain orderliness and prompt obedience, but also to bring up the boys to participate to a realization of the first duty of a citizen is to be prepared to defend his country.

"The Dominion at the present time, and for many years to come, can hardly hope to be able to give so long a period of training would suffice to make them efficient soldiers. But, if the boys had acquired a fair acquaintance with the drill and rifle shooting, the degree of efficiency which could be reached in the otherwise short military training which the Dominion forces would receive in my opinion be enormously enhanced.

"Teachers Should Also Share. I will only add that I should be glad to see that the fund should be administered in a manner which would be in accordance with the wishes of the donor.

BOY IDENTIFIES HIS KIDNAPPERS

"How Do You Do?" He Says to Mysterious Woman, and Offers Hand, While She Cares Him.

CLEVELAND, O., March 24.—While Willie Whitla to-day identified the man and woman held on suspicion by the Cleveland police as the persons who kidnaped him from the school at Sharon, Pa., last Thursday, and held him for the \$10,000 ransom, which was paid by his father, Attorney J. P. Whitla, Monday.

Willie said the man, who gave the name of James H. Boyle, was the one who took him from school and carried him thru a tortuous route to Cleveland, then to Ashtabula, back to this city, and placed him in the house in the east end, where he was held until the money was paid.

Willie also declares that the woman was the one who cared for him at the house where he was detained and who acted the part of a nurse. Boyle is said to reside in Sharon, and is a plumber by trade. He is said to have a widowed mother, four brothers and a sister.

The woman who is accredited with being the wife of Boyle, declared soon after her arrest that she was blacking the police believe the name is correct. Boyle is said to reside in Sharon, and is a plumber by trade. He is said to have a widowed mother, four brothers and a sister.

When the identification was completed, Mr. Whitla would say nothing regarding the woman. He said he knew Boyle slightly.

Immediately after Willie Whitla had seen the man and woman at the central police station, they were taken to the county court house and there appeared before the grand jury. They were examined for the purpose of aiding the jury in its attempt to identify the man and woman. The charge under the laws of Ohio against the man and woman, if an indictment was found, will be for kidnaping. The ransom paid by Willie Whitla was \$10,000.

A woman known as Mary Diner, who the police say may have been an associate of the kidnapers, or was implicated in the plot, committed suicide to-day by drinking morphine. The body was found in a drug store in the east end, not far from the house in which the kidnaping took place.

COBOURG, March 24.—(Special).—Representatives of the towns of Pickering, Cobourg and Campbellton met to-day, when a resolution was passed, moving the government to get into one of their periodical resolutions of frenzy, which judgment is warped by excitement, the Globe wants Canada to leave the thinking to be done afterwards.

La Presse is Outspoken in Opposition to Contribution.  
MONTREAL, March 24.—(Special).—Says La Presse, "If England were to give to France, Germany, Japan or any other country, and if Canada should think proper to abstain from such a contribution, it would be her exclusive affair. As a matter of fact it must be understood that Canada is free to do as she pleases, and that a contribution to the war in any way in which Great Britain may become involved, just as was the case in the one in South Africa, is not a contribution to Ottawa, says that these views coincide with all those heard in the lobby of the house of commons who have to start the cause of national autonomy.

War, Without a Cause, if Excitement Continues.  
Godwin Smith, in The Weekly Sun: If frenetic rivalry can do it, we shall have war, really without a cause. The claim of England to be mistress of the seas, which is really the only cause alleged, is totally untenable. No power can, by merely dotting its possessions or dependencies over the globe, set up a claim to exclusive dominion over the common highway of nations. The Canadian farmer is not wanting in love of the mother country, but he would not really showing his love by suffering his earnings to be plundered on the basis of gratifying an insane ambition, and probably, at the same time, serving political and personal objects of a still less desirable kind.

ROYAL TRAIN KEPT READY TO MOVE WHEN WAR'S ON

Servian Monarch and Family Prepared to Leave Belgrade at a Moment's Notice.

VIENNA, March 24.—(N. Y. Herald Cable).—The whole of the brigades constituting the Montenegrin army have been mobilized at Belgrade and the royal train is kept under steam and ready to convey the king and royal family to Niš. For Belgrade is admitted to be untenable in case of war.

Gen. Zivkovich will become commander-in-chief of the army, and all matters, including the post telegraph funds, will be removed from Belgrade to Alexina.

British intervention appears to have aggravated the situation. It is intended at Belgrade as a movement in favor of Servia, and has stimulated the resistance of the little kingdom against Austria-Hungary.

Coming Competition of the White Star Line Necessitates Extension of Empress Voyages.

MONTREAL, March 24.—(Special).—The statement is made that the C.P.R. will locate their steamship terminal at Longue Pointe, and it is stated that the move is the result of the coming competition of the White Star Line in the port of Montreal. The White Star line, between Montreal and Liverpool this season, are larger than the "Empress" vessels of the C.P.R. and draw more water.

Sir James Whitney's contention that the best class of women do not want female suffrage, can hardly be sustained after yesterday's demonstration at the parliament buildings. As this was his main objection to the movement some years ago, he can scarcely be said to be consistent in the reply he made to the important delegation.

New Darraco Cabs Will Be Hastened Forward—Randall Offers to N. Y. to Expedite Matters

A. G. Randall, vice-president of Bona Motor and Taxicabs, Limited, together with the superintendent of the new taxicab company, left for New York last night. They will look after the new Darraco cars that have reached New York on route for Toronto, and use every means to expedite their shipment and delivery in this city. The cabs will be put into commission immediately on arrival here, and will be ready for service at the earliest possible moment. The first week in April should see Toronto with its new taxicabs.

Many enquiries reach the head office every day, which shows a great public interest, and in itself is a guarantee of the great popularity of the new method of city transportation.

**CONSTABLES ASK REFORM IN MACHINERY OF LAW**

Appointment of Inspector-General One Request to Be Made of Ontario Government

At a meeting of the high constables of Ontario, held in the city hall yesterday, it was decided to recommend to the Ontario Government extensive alterations in the present machinery of the law. The action was taken in pursuance of the request of Col. Grayley, who was authorized by the attorney-general's department to ask that they prepare a scheme of improvement which might be adopted by the government.

The meeting was presided over by High Constable Merewether, Wellington County. The other high constables present were: Rogers, Simcoe; Vincent, Victoria; Cawley, Ontario; Kerr, Brant; Hughes, Middlesex; Hopkins, Elgin; Ramsden, York; Brody, Peel; Hobson, Oxford; Mount, Brant; F. E. Jackson, York; McDonald, Grey; Duffin, Belleville; Burns, York; Jamieson, Whitby; J. H. Hughes, Durham.

The chief recommendations were:

**What They Want.**

That an inspector-general be appointed in Toronto in close touch with the constables, and that a force of provincial police be formed under him, to be composed largely of the present high constables, and described as such in the charter of the Ontario Assurance Co. The shareholders were to get ten per cent of the profits, and the constables were to be distributed among the shareholders.

Mr. Chadwick believes that the reports of the company show that the shareholders have been diverted to the constables.

Mr. Chadwick asks for an accounting covering the 25 years of his insurance.

**LENTEEN SERMON**

The difference between inspiration of the Bible and that of secular authors formed the topic at the mid-day Lenten service at St. James' Cathedral yesterday.

Canon Welch said that the writers of the Old Testament books repudiated the idea that they were ordinary exponents of truth. Their message was not only to the head, but also to the heart. That their writings were regarded as different to those of secular authors was fully recognized by the Jewish people. When Jeremiah warned the people that their city would be destroyed, the king was so incensed against him that they wanted him put to death, and actually had him cast into a dungeon. But his prophecies were verified by subsequent events.

The Old Testament writers evinced a remarkable unanimity from Moses to Malachi in claiming a special inspiration. Their teachings were not a material view. They differed from the human view of the world, for it was not by looking upon human suffering and wrongs that they were derived the thoughts of the prophets. The Hebrew prophets emphatically declared that their writings were divinely inspired. They saw "thus" with the "Lord" and "the word of the Lord" came unto them.

While secular writers speak of the Creator as the "great first cause," the prophets proclaim Him to be "the Lord God, full of compassion." They declare the revealed duty of humanity to be "To do justly, love mercy, and walk humbly with thy God."

To regard the inspiration of the Bible as a verbal dictation of the Holy Spirit without a heartfelt acceptance of its spiritual lessons would be to reduce it to a mere dogma, but to accept its revelation with mind and heart is to receive soul-satisfying help and comfort for every hour of need.

**BECOMES ILL IN STREET AND DIES IN TROLLEY**

Geo. Wilson's Sudden Call—Appointment of New Firemen Results in Charge of Crookedness.

HAMILTON, March 24.—(Special).—George Wilson, 250 North MacNab-street, dropped dead in a street car near the city hall this evening at 6.10. He was employed at the rolling mills, and on his way home was seized near the Stuafe-street station with a sudden illness. The rolling mill manager helped him to a doctor. The two men boarded a street car. Death overtook Wilson before the car departed. The driver's office. His remains were taken on the car to the city hall, where the ambulance was called. The deceased was 65 years of age and came from Paris seven years ago.

The fire and water committee added the following six new men to the strength of the fire department: B. Spruit, N. Twyman, W. Robson, W. Boylan, G. J. McKeown and P. Maloney. Their names were first on the list of twenty-three applicants that Chief Ten Eyck submitted to the committee. When a majority of the committee carried a motion appointing the first six on the list, Ald. Lees charged them with playing with loaded dice and announced that he would bring the matter up in the council. A sub-committee was named to draft a new charter bylaw to come into force at the beginning of next year. Chief Ten Eyck urged the committee to every thing in its power to force the telegraph, telephone and electric power companies to bury their wires, as he said they were a menace to the city. A sub-committee was named to wait on the board of works to see what can be done.

Franklin Crum, 72 North John-street, died to-night at the age of 61 years. The remains will be forwarded to Schohar, N.Y.

**Brevities.**

It is probable that the Hamilton Art School will get its usual civic grant of \$3500 this year.

The strike committee of the Moulders' Union has issued a statement, in which it sets forth that although the stove founders have protection from the law, they are not entitled to a strike to accept a cut of 25 per cent., in face of the fact that the moulders on the other side of the border have been granted the same scale as paid last year.

The Inland Navigation Co., which will have a fleet of 11 boats, will start its service, Monday and Fort William, on April 21.

**Canadian Folk Lore Society.**

At a meeting of the Canadian Folk Lore Society last night in Victoria College steps were taken towards securing a three-cent stamp for the benefit of the English visitors to the British Association in Winnipeg. It was decided to postpone the formal inaugural meeting until the next meeting. A program committee was appointed and will arrange for monthly meetings next season. Members will be elected meanwhile, and the charter of incorporation is being procured.

KINGSTON, March 24.—The Kingston and Pembroke Railway operators have made a settlement with the company of their demands. They secure a schedule overtime pay and a small increase in wages.

**G.T.R. MAY BLOCK SCHEME**

Elevation of Tracks Will Mean Abandonment of Bathurst St. Bridge.

There is an apparent danger of the plan to run street cars thru the old fort and into the eastern entrance of the exhibition being blocked altogether through the raising of two feet of the tracks under the Bathurst-street bridge. City Engineer Rust says that if this were done, it would be impossible for the city to carry out its plans save by the extending of a car line down Tecumseh-street and the street railway declines to consider.

Assistant Chief Engineer Ambrose of the Grand Trunk told Mr. Rust yesterday that the company had a bridge under consideration elevating its tracks two feet in connection with the viaduct plan. Mr. Rust says that the street railway declines to consider the plan. The bridge would be too sharp on the south side would be too sharp for street cars.

The court of revision yesterday settled the trouble over the assessment for the Woodbine drainage system by the city. The assessment of \$16,482 is divided evenly between the city and the ratepayers.

The assessment of \$30 per foot on Elias Rogers' Deer Park property was confirmed. The land has a frontage of 149 feet by a depth of 346 feet. The assessed value is \$11,982. Mr. Rogers' assessable income is \$6600.

**Meters Insured?**

Ald. J. J. Graham is once again after the scamp of the Consumers' Gas Company. He says that a former gas meter repairer in the service of the company has told him that the meters are not properly cleaned and do not register accurately for the period of six years, during which they are supposed to keep an exact record.

The city engineer says Capt. Jos. Tymon, against whom charges of lack of proper discipline were made, has been reduced to the command of a smaller driske.

It is probable that an attempt will be made to re-open the question of civic salary increases at to-morrow's council meeting.

**DISCUSSING INSURANCE BILL**

Militiamen's Follies in War Time—Doctors as Directors.

OTTAWA, March 24.—The banking and commerce committee again today resumed consideration of the insurance bill. It was suggested that British and foreign companies should be required to add to their expenses in Canada an amount equal to five per cent. of their Canadian premiums, to provide for head office expenses. The committee also asked that industrial assurance be exempted from all restriction for expenses.

J. K. Macdonald, for the Life Officers' Association, welcomed the prohibition of rebates, but suggested an amendment with the view of enabling companies to deal more generously with people who are surrendering their policies.

An interesting change proposed was to enable the companies to accept bequeathed policies which had been issued in the manner in which dividends shall be applied. The practice is in the majority of cases for insurers to make deductions when they take out their policies.

The companies also asked that in action by policyholders against the companies the courts should compel deposits as security for costs, the object being to limit the amount of litigation.

Mr. Perley of Argenteuil objected to the law stipulating that a member of the militia would be compelled to ask the consent of his assurance company before he obeyed his country's call to duty. Mr. Macdonald replied that the practice was to allow a militiaman to go out on war duty, but he must notify the company within a reasonable time and be prepared to pay the additional premium necessitated.

Dr. T. F. McMahon of Toronto appeared on behalf of the medical men connected with insurance, and objected to a provision prohibiting officers and companies becoming directors. He contended that parliament had no power or right to take away their rights from medical directors, which had been secured at much expense.

Mr. Fitch of Quebec is to make the distinction between master and servant, and to provide that a man cannot be both master and servant.

**"Slob" Banquet at Ottawa.**

OTTAWA, March 24.—(Special).—A unique gathering took place in the commons dining room to-night, when Senator Jaffray entertained a banquet of the present employees and graduates of The Globe, who are now in Ottawa. The invited guests included Hon. W. S. Fielding, Hon. J. P. Graham, Hon. J. P. Brodeur, Hon. Frank Oliver, Mr. Speaker Marcell, W. E. Maclean, M.P., and Mr. MacKenzie King, M.P. Senator Jaffray was in the chair. Rev. J. W. Ross in the vice-chair. Rev. J. A. Macdonald, chief editor, was here from Toronto for the function.

**POLICYHOLDER WILL SUE**

Wants Declaration as to Canada Life Division of Profits.

Mercer & Bradford have begun an action against the Canada Life Assurance Co. for a declaration of the right of the plaintiff and all other policyholders holding participating policies in defendant company to the profits earned, and for an account of the profits distributed between the shareholders and policyholders since the year 1883. It is the claim that a force of proper appointment of the profits distributed and payment thereof to them.

The charter of the Ontario Assurance Co. which is made in that by the charter of the Ontario Assurance Co. the shareholders were to get ten per cent of the profits, and the constables were to be distributed among the shareholders.

Mr. Chadwick believes that the reports of the company show that the shareholders have been diverted to the constables.

Mr. Chadwick asks for an accounting covering the 25 years of his insurance.

Appointment of Inspector-General One Request to Be Made of Ontario Government

At a meeting of the high constables of Ontario, held in the city hall yesterday, it was decided to recommend to the Ontario Government extensive alterations in the present machinery of the law. The action was taken in pursuance of the request of Col. Grayley, who was authorized by the attorney-general's department to ask that they prepare a scheme of improvement which might be adopted by the government.

The meeting was presided over by High Constable Merewether, Wellington County. The other high constables present were: Rogers, Simcoe; Vincent, Victoria; Cawley, Ontario; Kerr, Brant; Hughes, Middlesex; Hopkins, Elgin; Ramsden, York; Brody, Peel; Hobson, Oxford; Mount, Brant; F. E. Jackson, York; McDonald, Grey; Duffin, Belleville; Burns, York; Jamieson, Whitby; J. H. Hughes, Durham.

The chief recommendations were:

**What They Want.**

That an inspector-general be appointed in Toronto in close touch with the constables, and that a force of provincial police be formed under him, to be composed largely of the present high constables, and described as such in the charter of the Ontario Assurance Co. The shareholders were to get ten per cent of the profits, and the constables were to be distributed among the shareholders.

Mr. Chadwick believes that the reports of the company show that the shareholders have been diverted to the constables.

**ART IDEALS**

Concerning the Man Who Looks With Scorn Upon "Classical" Music.

Scarcely a man could be found who would admit that he thought far more of a common lithograph than he did of a fine oil painting. Yet scores of people consider that the paltriest musical jingles are more pleasing than what they scornfully call "classical" music. Indeed, they rather plume themselves upon their ignorance. No man, however unmusical, would express himself in this extraordinary manner if he knew anything about the music he so derides. What he lacks is education and the privilege of hearing that music until he becomes familiar with it. Unless as a pianist, or is in the home the chances of hearing good music are exceedingly limited. But in these days anyone may have the piano virtuoso known as the Angelus. It is the pneumatic piano-player brought to its highest perfection. Not only does the Angelus play the notes, but the operator has at his finger-ends special devices whereby he can secure all those beauties of phrasing and expression for the service of the melodian, phrasing lever and the melody buttons, make the Angelus a thing of life. For the Canadian market the Angelus is supplied by the firm of Gourlay, Winter & Leeming as an inferior part of the information. A finer instrument than the Gourlay can be found alike for tone, quality and durability. The Gourlay, therefore, provides an ideal combination. Go to the warerooms of the firm on Yonge-street and see it for yourselves. It will surprise you.

Need a Purchasing Agent. OTTAWA, March 24.—At the conclusion of the public account committee in a first-class company. Mr. Carvell gave notice that at a future meeting he will move a resolution affirming the need of a purchasing agent in the public works department.

Two robbers were seen at Todmorden yesterday morning.

**SILENCER DOESN'T SILENCE**

Only Reduces the Sound of Firing, Says the Inventor.

ALBANY, N.Y., March 24.—Before the assembly codes committee to-day, the inventor of a new kind of rifle and revolver into a box of sand, both with and without silencers, to demonstrate that the silencer could not be of benefit to criminals as it merely reduces and does not entirely prevent the sound of firing.

The inventor appeared in opposition to the Joseph Bill, which makes it a felony to manufacture or sell any noiseless apparatus for guns except to military or civil authorities. He said the purpose of the silencer was to make shooting comfortable and that it was not a means of silencing the noiseless guns as about smokeless powder.

**BURNS FIGHT PICTURES SOON**

Will Be Seen in Province Next Week and in City in May.

Mr. Colvin is representing Mr. McIntosh, who promoted the fight and who has the Canadian rights for the pictures. The fight pictures will be presented in this city in the near future. The booking for Ontario is as follows: Hamilton, March 29, 30, 31; St. Thomas, April 1; London, April 2 and 3; with Woodstock, Stratford, Berlin, Guelph, Galt, Brantford, St. Catharines, Collingwood, Barrie, Orillia, Lindsay, Peterboro, Ottawa, Brockville, Kingston, Perth, Renfrew, Pembroke, Arnprior and other towns to follow.

**Fire Interrupts Telegraph Service.**

Telegraph service on a few lines was interrupted for two hours and a half yesterday afternoon.

The cause was the crossing of several wires in the cable box just outside Mr. Fuller's office in the Union Station. The contact set the rubber insulation on fire and soon quite a blaze had developed. A chemical extinguisher was pressed into service and the fire put out.

The twenty-five wires in the G.T.R. office in the main building were cut off and several G.N.W. lines were put out of action.

**Blackhand Murder in Brooklyn.**

NEW YORK, March 24.—Another killing by the police declare should be added to the list of crimes of the "Black Hand" Society was committed on the streets of Brooklyn to-day, when Joseph Genaro, a cigar-maker and supporter of the father of a vaudeville performer of that name, was killed in a fusillade of bullets that followed a meeting of Genaro and a crowd of several Italians.

**Kaiser's Yacht Sinks Steamer.**

HAMBURG, March 24.—The Imperial yacht Hohenzollern, bound for the Mediterranean, for the use of Emperor William in the event of his desiring to make a cruise to Corfu, collided last night in a dense fog near Norderney, in the North Sea, with the Norwegian steamer Pors, which sank immediately.

**Witches Must Die.**

NEW YORK, March 24.—A Times' despatch from Havana says: Three reputed witches have been convicted of murdering a white baby in order to procure the blood and heart wherewith to heal the sick. The women have been sentenced to death, and two others, convicted as accomplices, have been sentenced to from 14 to 20 years' imprisonment.

**Weak, Nervous Women**

Their sad story would fill a book of countless pages.

Ever since the world began woman has borne more than her share of suffering. Secret troubles undermine her strength, yet she seldom complains. She has suffered in the past in no reason why she should forever be dragged down by misery and sleeplessness.

There are many in the life of every woman when she should exercise great care in the protection of her health, but many women when the slightest cold will bring on troubles that shock the nervous system, weaken the frame and invite disease.

Thousands have been cured. There is a remedy, one that will lift that awful burden and remove the ills from which women suffer. The name of this remedy is Ferrozene, which is a household word throughout the length and breadth of the American continent. New hope has been brought into the life of many a downcast woman and a new era of health has dawned for thousands who have tried and proved the merit of Ferrozene.

**Get Back Strength and Vigor.**

Ferrozene is a remedy that acts directly on all the organs and insures functional activity upon which health largely depends.

Among the troubles that are relieved and cured by Ferrozene, are: suppressed or irregular menstruation, leucorrhoea (whites), bearing-down pains, womb and ovarian weaknesses and uterine displacements.

**Ferrozene Makes Strong Women.**

Your days of weakness and headache, your hours of nervousness and despondency will all depart. Life will be yours and many new joys as does for everyone that uses Ferrozene regularly.

Your whole body will feel the quickening influence of Ferrozene. The blood will be purified and enriched. You will no longer suffer from the suppression and interference with the menstrual functions. Ferrozene cures all such ailments and prevents their return.

Don't listen to the druggist who suggests something just as good. No substitute compares with Ferrozene, which does all that is claimed for it. Price 50c per box or six boxes for \$2.50, at druggists and dealers.

**COLDS Quickly Cured**

Everybody has a cold. Some resort to tablets and powders that contain dangerous drugs, and death from heart-depressing remedies is not infrequent.

It's poor policy to neglect a cold—especially when it can be cured so quickly without medicine.

You can send the soothing vapor of the pine woods, the richest balsams and healing essences, right to the cause of your cold by inhaling Catarrhazone.

Little drops of wonderful curative power are distributed through the whole breathing apparatus in two seconds.

Like a miracle, that's how Catarrhazone works in bronchitis, catarrh, colds, and irritable throat. You simply breathe its oily, fragrant vapor, and every trace of congestion and disease flees as before fire.

**Catarrhazone Cures**

No trace of the disease remains after Catarrhazone is used—no more matter to clog up the nose and cause you to cough and spit—no more headache and buzzing ears.

Cure is absolute.

Because Catarrhazone contains such healing balsams and soothing antiseptics it can't help curing every kind of catarrh, throat, lung and headache and buzzing ears.

Don't experiment longer. Catarrhazone means sure cure. Two months' treatment (guaranteed), price \$7.00; smaller size, 50c, at all dealers, or Catarrhazone Company, Kingston, Ont.

**Canada's Share in Defence**

Poster Resolution Will Be Discussed on Monday Next.

OTTAWA, March 24.—(Special).—The opposition made a strategic movement this afternoon.

It is broadly hinted that the government is seriously considering the advisability of building a battleship of the Dreadnought type for the service of the empire. Mr. Foster, who some time ago gave notice of a resolution favoring a contribution to the general defence, to-day gave notice that on Monday next he will move: "That in the opinion of this house, in view of her great and varied resources, of her geographical position, and national environment, and of that spirit of self-help and self-respect which alone befits a strong and growing people, Canada should no longer delay in assuming her proper share of the responsibility and financial burden incident to the suitable protection here exposed coast line and great seaports."

Mr. Foster asked the prime minister to make his resolution the first order of business on Monday next.

E. N. Lewis asked that the government take over his daylight saving bill or appoint a committee to investigate the question.

Mr. Borden gave notice that on Thursday he will discuss the report of Judge Cassels on the marine department, if that is convenient.

It was not, Sir Wilfrid said he was waiting for certain information, which he did not expect to receive till next week, before announcing the policy of the government. He suggested a week from Thursday, and Mr. Borden agreed.

**LIVERIED COLLECTOR OF DEBTS.**

BRANTFORD, March 24.—(Special).—Brantford merchants have decided to adopt the Guelph system of collecting debts by the appointment of a liveried collector on a regular salary paid by the merchant body.

**Public Amusements.**  
In Bertha Kalich's initial American play, "The Unbroken Road," in which she comes to the Royal Alexandra next week, the scenic laid in the capital city of a middle west state, and the leading figures are a governor, two political bosses and an erring girl, Eva Pellonova, the theme is so broad, so uplifting and far-reaching in its truth and humanity that it assumes international importance. Politics form the background of the play, but it is the clash of weak and strong, good and evil, that make the drama. Seats are now on sale.  
On Monday next, at the Princess Theatre, Miss Lulu Glaser will be the attraction in a new musical success, "Mlle. Mischief" in which operetta she plays the title role. "Mlle. Mischief" is a Viennese operetta, adapted

by Sydney Rosenfeld from the original book by Kraatz and Von Sterk, with music by Carl M. Ziehrer, a composer whose music in the Austrian capital is quite as popular as that of any other nation. Franz Lehár, who wrote "The Merry Widow."  
Gus Edwards' "School Days" will next Monday afternoon enter on an engagement of one week at the Grand Opera House. It is one of the novelties of the theatrical season, inasmuch as the majority of the company, chorus and principals, are youngsters, and the scenes illustrative of childhood days. Catchy music, riot of comedy, acrobatic dancing, make up the entertainment.  
"For Her Children's Sake," a melodrama not unknown to local theatregoers, will be the offering at the Majestic next week, with a matinee every day. The production is said to be given a handsome scenic equipment, and the company one of the best to be found in popular-price productions.  
The ever popular "Champagne Girls" company will begin a week's engagement at the Star on next Monday night. The company is equipped in lavish manner in the way of talent, scenery, costumes and electrical effects. There is a large chorus of the prettiest girls and the sun drill they do is the talk of every city they visit.  
Manager Shea has prepared another big show for next week, which will include Will M. Cressy and Blanche Dayne, in Cressy's latest and best comedy, entitled "The Wyoming Whoop." Montgomery and Moore, a real vaudeville pair; La Petite Revue, a great singing novelty; Clifford and Burke; Kelly and Rose; Mattie Lockette, Kartella Bros., and the Kineograph.  
Andy Lewis, one of the best comedians in burlesque, is the star of the "Gaiety" next week.  
The fertile island of Ceylon has every requisite for growing tea of the finest quality. The excellent value, absolute cleanliness and delicious flavor of "Salada" Tea produce a beverage that is the delight of thousands.

**MENUS FOR THE WEEK.**  
Friday.  
Breakfast—Stewed prunes, cereal with milk, codfish balls, creamed potatoes, Parker House rolls, coffee.  
Luncheon—Creamed halibut, potato balls, Banbury tarts, ginger snaps, tea or cocoa.  
Dinner—Cream of celery soup, egg cutlets, cream sauce, mashed potatoes, escalloped peas, lettuce, French dressing, water, cheese, apple pie, coffee.  
Recipes for Friday.  
Egg Cutlets: Boil 2 eggs for 15 minutes, remove shells, then chop them, add 1 ounce chopped ham, and 2 chopped mushrooms. Melt 1 tablespoonful butter, stir in 1 tablespoonful flour, gradually add 1-2 gill milk, stir till boiling, then add raw yolk of egg, stir 1 minute, then add egg mixture. Remove from fire; add salt, pepper and paprika to taste, allow to cool. Shape them into cutlets, brush over with beaten egg; roll in bread crumbs and fry in smoking hot fat till golden color. Serve hot.  
Ginger Snaps: Boil 1 cupful molasses and 1-4 cupful butter for 2 minutes. Add 2 teaspoonfuls salt, 1 tablespoonful ginger, 1-2 teaspoonful soda, and 3 cupful flour. Beat well; chill over night. Roll very thin. Cut out with cutter and bake on buttered pan in hot oven for 10 minutes.  
**Women's Canadian Club.**  
Altho a drizzling rain was falling all day it in no way interfered with the members of the Canadian Women's Club, who turned out in full force to hear the interesting lecture on "What the King Can Do" by Mr. Harold E. Gorst, son of Sir John Gorst, formerly minister of education in Great Britain, yesterday afternoon at the Conservatory Music Hall.  
In the course of his lecture Mr. Gorst gave a very accurate description of the royal life led behind the scenes and declared that very few people had any conception of the amount of work it was necessary for the King to do.  
The power of the sovereign, the lecturer said, was greater than many of his subjects supposed. He can at any time, if he wants to, ride over the will of the people and they have no other alternative than to submit. He can veto any bills that are brought for him to sign, and there is no court of appeal that they can be carried to.  
"One peculiar law," said Mr. Gorst, "that is not very widely known, is that the King is exempt from the law. No person can take any proceedings against him unless he consents to it. Another remarkable fact is that a servant of his household is also out of the reach of the law. He may assault you on royal property and you are powerless to have him arrested. The only way to obtain justice is to take your complaint to the board of 'green cloth,' who have charge of the household affairs."  
Mr. Gorst then compared England's constitution with the States and he declared that their president was vested with more power than the King.  
"The King," he declared, "cannot pledge the country by making any treaty without the cabinet's consent, while the president may make any treaty he likes."  
In concluding Mr. Gorst said that the president of the States had as much power as the czar of the Russians, al-

Note and Comment

The reports from the Newark and Rochester training camps in the south and the wind squalls from Buffalo and other places would indicate that Joe Kelley must do some hustling to keep Toronto's end up in the Eastern League this season.

The attention of President McCaffery, whose team is to train at Chatham, Ont., is directed to the announcement of another great president, Mr. Conkley, of the Chicago White Sox ball team, who states that the California trip this year was going to be a financial way.

There are clubs galore in the intermediate section of the Toronto Football League. The schedule for the season is arranged in the three sections as follows:

April 10-Royal Hearts at Don Albions, Britts at New Toronto, Western Congregational at Thistles.

April 17-Royal Hearts at Britts, New Toronto at Don Albions, Western Congregational at Royal Hearts, New Toronto at Thistles.

LACROSSE SITUATION CHEERFUL VIEW OF IT

Prominent Followers of the Game Discuss Doings and Propose Changes

Two or three prominent lacrosse followers were discussing the proposed amendments to the N.L.U. rules, one of them being known to be in a position that something had to be done in the way of a change.

It is said that if they abolish the Mason and Dixon line, when the game is over by going farther, and by doing away with the line altogether, and the players on the same line, and place the players on the same line, and place the players on the same line, and place the players on the same line.

Another good idea, if it could possibly be arranged, would be for the teams to play a double schedule, thus affording an opportunity of witnessing the game several times instead of just once.

It was the opinion of this same writer that the lacrosse game, as it is now being played, is a very good one, and that it is well worth the effort to play it.

"At last McInvo noticed what seemed to be a star shining at his very feet." Chapter VI.

Gow Ganda's Shore

A Tale of Silver and New Ontario's Northland

By Almee Landon—Illustrated by C. W. Jeffreys.

CHAPTER V. Continued. "Yes, marm, some of 'em has got spots on 'em."

"I'll wait till it comes. I just would like to trock with some spots on 'em," she said.

"Poor thing," thought Mac. "I wonder what she would do with a fashionable dress, and even the thought made him laugh."

Mac could not leave town without seeing the woman, being so used to such things, she knew just what to do, and will treat them like a mother.

"Well, Mary, and how are you to-day?" said Mac.

"Pretty well, Mac, thank you. Have you struck one yet?"

"Not yet, Mary, but hope for better luck."

"That's right, I never saw a Scotchman discouraged yet, unless he had given up."

"Well, Mary, it's good to have a woman around to wish a fellow luck, I tell you—Good-bye."

The next minute he called at the hotel for Dunbar, Miller, Munn, McCullough, Slater and Gould, to accompany him on his return trip to Gow Ganda.

CHAPTER VI. They were rather a silent group as they started up the river for Gow Ganda.

Some of them were just from the city found the scenery magnificently fascinating—the air buoyant and invigorating, as the solitude like a great mantle enveloped them.

Up the Montreal and down the east bank of the river, the scenery was so beautiful that the men who had served to develop a closer friendship between the men as they helped each other like brothers in the wearisome "toes" of packs and canoes.

Yet time passed very swiftly as they bent to their paddles and the third day was drawing to a close as they finished the seven mile run on Lake Gow Ganda, the last stage of their journey, and pulled into Mac's camp a hungry, famished group, hunting for some supper, which was soon prepared, and then completely worn out, they turned in for the night.

On Monday morning MacInvo and McCullough started out by themselves. Neither of them seemed the least bit anxious or expectant. All the morning they were working, digging here and there, and everywhere. At last MacInvo noticed what seemed to be a little star at his very feet. He caught his pick quickly and brought it down smartly, close to the star shining in the moss. It turned over, and he beheld a chunk of solid white metal as big as his fist.

"Good Lord, come here will you Sam!" he called in a subdued voice. McCullough hastened to his side. He was working but a short distance away.

"What is it Mac?" "Silver, yes by gad, it is and the pure stuff, too. What do you think of that?" "Is there any more like it I wonder?" "Hush, not a word, see here come some of the boys. Go your gack luck, and pick and puttering their way along the vein they managed to throw their pieces. See testimonials in the press and ask your neighbors about it. You can use it, get your money back if not satisfied, 50c. at all stores of E. J. McInvo, 125 St. George St., Toronto.

Wall Street Takes on a More Cheerful Attitude—Toronto Exchange About Lifeless.

World Office. Wednesday Evening, March 24. Transactions on the Toronto Stock Exchange to-day were again decidedly uninteresting and small. There was scarcely one issue in the market which attracted any attention over the others and nothing but the most meagre kind of deals transpired during both sessions.

At last night's close sentiment was a little more cheerful on account of the better condition on Wall-street, and this is expected to have a slight influence in the dealings from now forward.

ASBESTOS MONOPOLY WITH QUEBEC FIELD

Ontario Nickel Camps Will Be Rivalled by the Quebec Asbestos Mines.

As a mineral country Canada is gradually getting a well deserved recognition. This not only applies to minerals which are scattered throughout the world, but to those which appear to be almost inherent in the Dominion.

At the time of the discovery of asbestos in the Quebec district in the year 1877, the world's output of nickel is concentrated in Ontario, and now Quebec is believed to be about to occupy a similar position in regard to asbestos.

It is only within recent years that the many uses to which asbestos can be put have been discovered, and it is still thought that many new methods for its use will develop with modern achievements.

The asbestos mines of Quebec are situated about 160 miles from Montreal, along the line of the Quebec Railway.

The first discovery was made by a farmer named Johnston, in the Black Lake district, in the year 1877.

At the time of the discovery of asbestos in the Quebec district in the year 1877, the world's output of nickel is concentrated in Ontario, and now Quebec is believed to be about to occupy a similar position in regard to asbestos.

With the introduction of machinery by which the asbestos rock can be readily converted into a commercial product, the output from the Quebec field has been vastly increased.

Last year this output totaled 62,000 tons, of a value of \$2,500,000, and represented about 90 per cent. of the whole asbestos output of the world for that period.

Russians sent out the only other quantity worth recounting, but the quality of this was far below that of the Canadian, and was used principally as an adulterant to the Canadian to cheapen the cost.

The capacity of the Canadian mills has increased from 4,000 tons of rock per day to 8,000 tons within a year, and the value of the commodity has increased 100 per cent. in the last 25 years.

VERY BITTER COMMENTS PASS BETWEEN COUNSEL

G. T. Blackstock and Lally McCarthy Cross Swords in Addressing the Jury.

Warm, indeed, were the addresses of the learned counsels, George Tate Blackstock, K.C., and D. L. McCarthy, K.C., in the jury assize court yesterday afternoon, in the action by Mrs. Maud Honor Gray of Montreal against the Crown Life Insurance Company, for \$15,000 insurance on the life of her husband.

"Gray had probably bitten off more than he could chew, to use a common phrase," said Mr. McCarthy, who appeared for the plaintiff, in telling of Gray's business worries. Also, he had been told he would have to undergo an operation.

Referring to the evidence of G. E. Treen, he scored the defence for not bringing him to testify, but instead using his evidence given before a commission. Gray's statement to Treen that "he intended dropping out," meant, said the counsel, that he intended dropping his insurance policies, as he had not enough money to pay the premiums and not that he intended suicide.

"Nothing but the jaundiced mind of my learned friend could put a different interpretation on these words," he said. "To prove a suicide you have to show a motive. The motive they ask you to believe is that Gray was afraid of Mr. Dunn's return. The Monday before he died Gray made arrangements to rent a house in Montreal for the winter, is that the action of a man who was about to commit suicide?"

As to the settlement offer of \$7500, Mr. McCarthy said: "Mr. Blackstock would bully Mrs. Gray into accepting the \$7500 by threatening to show her husband was a defaulter and a drunkard, and by dragging a net over Montreal, then he could hardly hope to convince you 12 men that Gray committed suicide."

"If my learned friend thought that by coming into this court he could blackmail my client into accepting \$7500, then he doesn't know a woman's power."

"Mr. Blackstock has a jaundiced mind and looks for crime in everything," was another of Mr. McCarthy's remarks.

"If corporations who put indisputable clauses in their policies to lure you and me along can turn around and have it declared these clauses are of no avail, is it any wonder that the country cries out against such aggressiveness? Do you think the State of Massachusetts laws have had to be passed to prevent just such methods?" said the lawyer, discussing another phase.

Mr. Blackstock addressed the jury for two hours and a half. "It was a speech filled with untruthful assertions directed for your attention, filled with malice and hatred against everybody—against the judge on the bench, the witnesses on the stand, and the counsel engaged in the trial," he said referring to his learned friend's address. "The judge scored because in the exercise of his duty he ruled out certain evidence which my learned friend tendered. He referred to myself in the course, virulent, and disreputable terms of bully and black-maller. And then he found fault with the witnesses. I tell you, gentlemen, he doesn't care a brass farthing for you. If you were on the witness stand and were in his way he would ride you down, too." He also added some other pungent personal remarks.

"The only thing he had to cash down to help his wife was his own life," he said, referring to Gray. Justice Macgee will charge the jury this morning.

G. T. R. CUTS GRAIN RATES

Gives Canadian Ports One Cent Per Bushel Advantage Over U.S. Ports.

MONTREAL, March 24.—L. I. Henderson, general manager of the Montreal Transportation Co., to-day announced a rate of 5 1/2 cents per bushel from Port William to Montreal. J. W. Loud, freight traffic manager of the G. T. R., announces a rate of four cents per bushel from Georgian Bay ports to Montreal. Both announcements also state they are prepared to cut these rates if necessary to keep the grain trade in Canada. That is the Canadian answer to the decision of the Truck Lines Association on Monday in New York.

"Therefore, I say do not expect that we will at once adopt the matter without considering it or looking into it from every point of view of moral and social obligation, as well as taking every opportunity for gaining information from what history may have taught us on the general question of its effect on the moral and political well being of the community.

No Real Right to Vote. "But you will allow me just to touch upon the fringe of the subject. No question can arise, and therefore no argument is necessary, as to the strength and influence of women. I do not care how or in what direction she chooses to exercise it. It needs no argument to show that the influence of woman will grow in the future as it has in the past. No man has the right to vote. There is no such thing in the political history of governmental machinery as any British country.

"Why?" asked George Wright. Sir James Whitney: "Because it is not a right. It is merely a question of men in order to express the views of the people. My friend shakes his head. It is not a question of argument; it is a question of fact, and if he does not understand that there is no inherent right to vote in man or woman, he is very imperfectly educated on this subject.

"The people have decided that man shall go out and vote. The question of the right to vote does not enter into the consideration, either municipal or political. But it was decided by legislators that the best way of seeing how the public mind stood was for man to accommodate, other municipal or political. "Come Again." "Nor can the question arise as to the good influence of woman, so it need not be discussed.

"You have said kind things about this government for which we are thankful. We hope you will come again, and I trust that we will be able to provide more comfortable accommodations for you. Last night Mrs. Flora MacD. Denison stated that as far as Sir James Whitney's response went, it was entirely satisfactory. But this is only the beginning of the woman's suffrage propaganda, and an active canvass of every member of parliament will be made.

Those in charge of the movement definitely state that they will adhere to constitutional methods in attaining their ends and militant tactics will not be adopted. The suffragists claim that they have the endorsement of every organized body of men whom they have approached in Canada, and are in affiliation with international bodies whose membership aggregates 16,000,000.

Manuscript Refuses. BOSTON, March 24.—An attempt to introduce a woman suffrage bill in the house of representatives was defeated by a vote of 43 to 160. The galleries were thronged with women during the debate.

Released From Jail. LONDON, March 24.—The women suffragists who were sent to prison on account of the demonstrations in parliament on Feb 25, were given an enthusiastic reception upon their release from Holloway Jail this morning. A procession was formed, headed by a band, and made its way to Holloway where a "welcome breakfast" was given. Lady Constance Lytton was among the women released.

THE SUFFRAGETTE. I know a little lady With eyes like violets wet, A skin like cream of roses— An ardent suffragette. No earnest supporter There lives of woman's rights. She asserts them in the mornings And even in the nights. Her arguments I cannot Exactly understand, But I haste to make concession To her thirdest demand.

The I sometimes screw my courage To the point of saying "No!" It doesn't take a moment To find that doesn't go. If all the sex were like her, It's millions to a groat A fast as bills could do it. Theist have the right to vote. If all her sex were like her, What tyrant rule we'd get. But she'd somehow make you like it. My year-old suffragette!
