## RUSSIANS ARE WITHIN CANON RANGE OF STANISLAU FOE SLACKENS EFFORTS TO REGAIN GROUND ON THE WESTERN FRONT ITALIANS PREPARE TO ATTACK AUSTRIANS EAST OF GORIZIA

### RUSSIANS BRING STANISLAU WITHIN ARTILLERY RANGE

**General Letchitzky Loses No Time in Following Up Victory, and Injects New Element into Situation by Opening Offensive North of Dniester.**

PETROGRAD, Aug. 10, via London, 10.55 p.m.—The Town of Stanislaw, in Galicia, is already within the range of the Russian guns. The Russian General Letchitzky, losing no time to follow up his victory at Tymienita, has pushed westward along the railroad and northward along the wagon road, and in the latter direction has approached to within six miles of Stanislaw. Simultaneously he has announced a drive across the Koropce River, and the formation of a new line of advance north of the Dniester.

Hitherto Gen. Count Von Bothmer had enjoyed more or less protection for his right on the Tarnopol position from the flooded Dniester. The appearance of an offensive north of the Dniester, which has already carried the Russians as far west as the crossing of the railroad at Niznoff, and the Zlota Lipa, 20 and 12 miles east of Stanislaw, injects an entirely new element into the situation. With Monastyrzyska seriously flanked, Gen. Von Bothmer finds himself with Gen. Letchitzky in the rear of his advanced position along the Stripa and in close touch. The Austrians are vainly striving to stem this new advance by desperate counterattacks, in which the troops engage in hand-to-hand encounters, but apparently with the net result always favoring the Russians.

Taken Fifteen Thousand.

The totaling of Gen. Letchitzky's prisoners during the ten days' operations shows that he has taken upwards of 15,000, and it is estimated that 10,000 more men were put out of commission. This would bring the grand total of prisoners to Gen. Brusiloff's credit since early in June to 402,000.

In their advance along the Monastyrzyska-Niznoff Railway Russian troops have forced the Zlota Lipa River, practically the last defensive

Beyond the piercing of Austrian trenches south of Gorizia and the throwing of large forces across the Isonzo at Gorizia to pursue their advantage against the Austrians, the Italians officially did not claim the making of much progress east of the captured town. Their cavalry, which is harassing the retreating Austrians, is sending in thousands of prisoners. A total of over 12,000 was recorded to date. The Italians are hurrying men forward to establish contact with the main bodies of the enemy, posted on heights to the rear, and they seem to have momentarily lost touch with the enemy immediately following their surprisingly swift success in capturing Gorizia.

One effect of these two sudden blows, the Russian and the Italian, coming where they were unexpected by the enemy, is to increase the strain on the Austrian general staff and on the Austrian transport system. For instance, the shell supplies of the enemy are kept at central depots and sent forward by rail to points where they are needed most. The threat of the Italian counter-offensive in the Trentino certainly diverted large supplies of shells to that theatre of action. The Russian advance south of Brody also forced the enemy to find more shells for that front. Then came the blows to

### Marquis of Lansdowne Has Decided To Quit Cabinet?

LONDON, Friday, Aug. 11.—The Daily Chronicle says this morning: There is reason to believe that the Marquis of Lansdowne is about to resign. His resignation has no political significance, being due solely to falling health.

The Marquis of Lansdowne, who is 71 years of age, is a member of the cabinet without portfolio. He has been recently bitterly attacked by John Redmond, who alleged that his attitude was an obstacle to the success of the home rule negotiations. The Marquis of Lansdowne was governor-general of Canada from 1883 to 1888.

### FOE QUITS GORIZIA TO AVOID LOSSES

Major Moraht Asserts Italians Gained No Important Success.

### TOWN IS DESTROYED

German Military Critics Doubts Capture of Adjacent Heights.

AMSTERDAM, via London, Aug. 11.—Major Moraht, the military critic of The Berlin Tageblatt, discussing the taking of Gorizia by the Italians, says: "The decision to evacuate Gorizia must have been a bitter enough step for the Austrian command, but it can be justified by the endeavor to avoid unnecessary losses, in view of a superiority against which nothing could be done at present. The town of Gorizia is as good as destroyed, and the Italians have gained no important military success."

Regarding the Italian claim to have also captured Mount Sabotino and Monte San Michele, Major Moraht quotes the Austrian assertion that all attacks there have been repulsed and says: "We must wait until more light is shed on the result of the fighting, but for the present we can suppose that the Italian assault on the Isonzo will not make further progress."

### OUTLOOK UNCERTAIN FOR WESTERN FRONT

Toronto Grain Dealers Express Inability to Gauge the Situation.

### REPORTS CONFLICTING

One Estimate is of Thirty Per Cent. Reduction in Production.

To what extent has Canadian western crop been damaged by black rust and adverse weather conditions which have proven so disastrous in its effects south of the border? A number of local grain dealers when spoken to by The World last night said that it was a most difficult task to size up the situation in view of the conflicting reports, and they were unable to make any but rough estimates.

Various grain brokerage firms are sending representatives to the northwest to obtain first-hand knowledge of the extent of the damage in areas most severely affected.

One grain dealer estimated that the grain yield in Canada this year will be seventy per cent. of last year's crops, making a shortage of thirty per cent. compared with last year's phenomenal showing.

It was explained that many farmers are seeking a substitute for the rain-soaked fields last fall, planted wheat on high-ground fields and on ground unfavorable to a big yield in wheat. Others continued to plant wheat in the wet fields, losing heavily as a result.

Grain dealers are closely watching the market and believe that within a few days they will be better able to make estimates on the probable shortage and the extent of the damage to the various grains.

"Our aeroplanes continued bombing operations against enemy billets and other points of military importance."

### ITALIAN-PUSH ON TO ATTACK BEATEN ENEMY

Troops Continue to Pour Across Isonzo and Thru Gorizia.

### ADVANCE ON PLATEAU

Ally's Troops Pierce Austrian Lines in Fierce Fighting.

LONDON, Aug. 10.—Italian troops continue to pour across the Isonzo in the region of Gorizia, and they are pushing on without delay to attack the Austrians on the heights northeast of the town, on the Rosenthal Hills, and at several points along the Vertobla line.

Great numbers of cavalry and cyclists were used by the Italians in pursuing the retreating foe, and heavy losses were inflicted by impetuous charges. A steady stream of prisoners who have been overtaken in their flight is coming in to the Italian clearing stations. Among those taken so far 268 officers and 12,012 men have been counted.

Heavy fighting is proceeding on the Carso plateau, which the Austrians are desperately defending in order to gain time for their beaten forces to rally and to protect the road to Trieste.

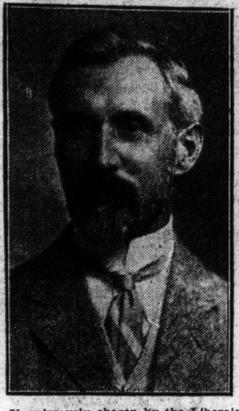

In this region fierce and strong trenchments northeast of San Michele, and near the Village of San Martitico,

### HARTLEY DEWART CHOSEN AT A NOISY CONVENTION

Order and Rules Disregarded by Liberal Delegates at Broadway Hall and Proceedings Become Farcical—Five Men Clamor for Right to Act as Chairman and Orations Are Interrupted by Noisy Elements—Selection Unanimous.

### HARTLEY DEWART, K.C.

Unanimously chosen by the Liberals of Southwest Toronto to contest riding at the coming election.

A thirty-ring circus with all the wild animals out of their cages, 7 lunatic asylums on fire with all the inmates running amuck, ten thousand dogs, each one with a tin can tied to his tail, any or all of these spectacles would have been as quiet and orderly as a Sunday School for deaf mutes compared with the Liberal convention for Southwest Toronto held in Broadway Hall last night.

Whether it really was a convention or merely a gathering no one seemed to know. There were five chairmen in something less than five minutes and one of them ruled on questions to tall young men, bearing in his hand a volume which he declared to be the constitution, several times, endeavoring to make a legal argument, but his voice was drowned in cries of "Sit down," "Bull," "Rais," and so forth. It turned out that the young man was employed by The Toronto Star and this fact did not add to his popularity.

"We are not going to be bossed by Atkinson's paper," was the way one delegate put it.

Order Was Absent.

The convention was opened, but not called to order because order never reigned during the entire evening, by Peter Shea, vice-president of the Central Liberal Association, who announced that Charles Kerr would take charge of the meeting. Instead the meeting promptly took charge of Mr. Kerr and vociferously demanded that he "go back and sit down." The editor of The Orange Sentinel has had a great deal to say about bilingualism, as it is called, but the people have heard very little about bi-manipulation of our political parties by one influence, the this all-powerful influence is the real explanation of many of the unexplained heretofore in our politics. ### Nickel and the Double Manipulation of Parties and Politicians

Orange Sentinel, Aug. 10: At last Canada is to get some benefit from the vast stores of nickel which this province has been endowed with. A refinery is to be erected at Fort Colborne by the International Nickel Company, while another is to be erected at Sudbury. For twenty years every government that Ontario has had, and every administration at Ottawa, has been urged to adopt a policy of refining our nickel ores in our own province, or at least in our own country. For some inscrutable reason this has been resisted by successive administrations. We have no doubt that such a proposal would still be rejected but for the conditions caused by the war.

The only deduction that one can arrive at from such a state of affairs is that the International Nickel Company has had altogether too much influence in the politics of this country, for the welfare of the people. Dealing with the question altogether apart from the circumstances of the war, it is an outrageous policy for any country enjoying such a monopoly to allow the fruits of this inestimable natural endowment to be gathered by a competing nation. For thirty years nickel has been mined in Sudbury and roasted at Copper Cliff, but taken to New Jersey for the more costly operations required to make it a merchantable product. Millions of dollars in wages and other millions necessary to the operations of a large industry, which should have been expended in this country, went to the workmen and the merchants of the United States.

It is to be hoped that these refineries will not be erected merely to bluff the people of Canada into believing that their nickel is being refined here, while the greater part of the work is done in New Jersey. We have no confidence in the good intentions of the International Nickel Company. Their course in the past warrants the government exercising the closest possible scrutiny of their operations and compelling them to do all the refining here by the imposition of an export duty.

The above article, evidently from the pen of Horatio C. Hocken, ex-mayor of Toronto, is a very fair statement of the situation, although it might be much stronger, and then not all the truth would be told. The International Nickel Co. has had more influence in the politics of this country than even Mr. Hocken indicates, because the agents of the nickel trust have been able to do what they liked with both political parties! But would it be too much to say that the "inscrutable reason" referred to in the article above was contributions to the political funds of the two great parties, spread over the twenty years covering the career of every government that Ontario has had and every administration at Ottawa?

And if this is so the same "inscrutable reason" will prevail hereafter: if the people do not rise in their might and insist on an absolute change in policy, both at Ottawa and at Toronto, and that the German agents be chased out of the country.

The editor of The Orange Sentinel has had a great deal to say about bilingualism, as it is called, but the people have heard very little about bi-manipulation of our political parties by one influence, the this all-powerful influence is the real explanation of many of the unexplained heretofore in our politics. You can do almost anything in this country if you can manipulate both parties, and the chief feature of this double manipulation is that the beneficiaries of the manipulation are the party in power to do what it would like to have done, and to chloroform the other party from criticizing the thing proposed!

Whenever nickel came up in the house of commons or in the legislature of the province you could smell the chloroform all thru the chamber and thru the lobbies; and those who spoke, spoke with bated breath; and if any insurgent got up and started to speak loudly and to make allegations he was forthwith set upon by some worthy member of the opposition for the time being as a crank, or lacking in sanity; and if they could not put him down this way, then by co-operation be-

lieve the Orange Sentinel has had a great deal to say about bilingualism, as it is called, but the people have heard very little about bi-manipulation of our political parties by one influence, the this all-powerful influence is the real explanation of many of the unexplained heretofore in our politics. You can do almost anything in this country if you can manipulate both parties, and the chief feature of this double manipulation is that the beneficiaries of the manipulation are the party in power to do what it would like to have done, and to chloroform the other party from criticizing the thing proposed!

Fluffy Blouses in Charming Styles

Fashioned Atrily of Voile, the Trimmings of Lace, Insertion, and Frills Seem to Embody the Very Essence of That Lightness of Touch Which Makes for Charm and Fascination Among Blouses

GUIPURE INSERTION PROVES A FAVORITE among trimmings for the late Summer. Bands of it form a vest front in one blouse which has short bands of fllet inset at each side and bordered by floral embroidery in French style.

VALENCIENNES INSERTION FORMS A BOLERO EFFECT around masses of embroidery on another blouse which has a five-pointed collar and a turned back cuff fashioned mainly of insertion.

A VERY HIGH BUTTONED CUFF with band of fine guipure and cut to flare over the hand distinguishes a handsome blouse with wide lace-trimmed collar.

CREAM FILET INSERTION gives a quite unusual touch to a very fine blouse having the front scalloped and button-holed, and with bands of wide, double hemstitching suggesting Mexican drawn work on the front.

A CREPE DE CHINE BLOUSE in simple girlish style has a hemstitched kimona front opening over a small vest with convertible collar; grouped tucks adorn each side of the front and the sleeve is finished by a turn back cuff; colors, white, flesh, champagne, navy and black.

The Popular Jap Silk Waist, Some Less Than Half-price, at 98c

THEIR popularity is due largely to their smartness and adaptability to speedy and easy laundering. Nicely made in a plainly tailored style of Jap silk, having a turn down collar forming V-shape back with black tie, small pearl buttons down front; the three-quarter sleeves have turn back cuffs.

VOILE, ORGANDIE AND MUSLIN WAISTS, 98c—One style in organdie has an embroidery front, with two rows of guipure insertion, collar the two-in-one style, long sleeves finished with cuff of fine tucks; others are trimmed with Val. lace, clusters of pin tucks down the back; muslin are striped and are fastened with three large buttons to side front, convertible collar and black tie, all sizes. Price, 98c.

A NEW AND PRETTY STYLE IN A SHEER ORGANDIE WAIST, with hemstitched fronts of the embroidery, short tucks at the shoulder, long sleeves with hemstitched turn back cuff edged with Val. lace to match large sailor collar, shoulder seam outlined with fine beading; another style of fine striped voile has vest, collar and cuffs of rose or sky organdie. Sizes 34 to 46. Price, \$1.50.

New Cloth Suits For Autumn

That This Bids Fair to be a Season of Fur, Broadcloth and Velours Cloth is the Opinion of Many of the Well-informed Travellers From the Realms of Fashion

THE LONG JACKET, SHOWING THE INFLUENCE OF THE REDINGOTE in its semi-fitted lines is an outstanding feature and when these jackets are adorned as many are with large collars fur trimmed the effect is immensely smart.

A BAND OF ALASKA SABLE across the back of the square collar distinguishes a nigger brown suit made on strictly tailored lines and showing touches of military braid binding; the skirt shows a short pointed yoke on each hip and the back is shirred. Price, \$50.00.

A STOCK COLLAR OF MOLESKIN looping through in novel effect and fastening across at each side with spherical buttons gives an ultra fashionable touch to a green suit. Price, \$45.00.

HANDSOME TRIMMINGS OF BEAVER on cuffs, collar, and down the front distinguish a dark red suit; shirred sections at each side of the back at the waistline are accentuated by rows of tiny buttons; the collar may be fastened close to the neck. Price, \$45.00.

MILITARY BRAID is chic trimming on a suit shown in navy, black and brown; the coat is in fitted style and has the waist line emphasized by several narrow bands of braid across the back and wider bands give a panel effect in the front; the skirt has a yoke with points on the hips. Price, \$27.50.

Fascinating Fancies in Swiss and Linen Handkerchiefs

Daintiness and Variety itself Are These New "Hankies" With Charming Embroidery in White and Colors, Hemstitched or Embroidered Edges or Guipure Corners in Several Attractive Designs

WITH EMBROIDERY IN ROSE, BLUE, GREEN AND WHITE forming a wreath and spray beyond the "lattice" corner is one Swiss handkerchief illustrated. A white-embroidered edge and colored daisies in one corner form the decoration of another; while others have eyelet embroidery for the edge and within are rows of colored French dots arranged singly or in groups. Price, each, 20c.

GREY MADEIRA EMBROIDERY forms an eyelet edge on a handkerchief with daisies and eyelets forming a motif in one corner. Price, 20c.

LAVENDER EMBROIDERY with many French knots forms a decoration on a handkerchief; another features guipure lace as edge and inset in the corner. Price, 20c each.

Black French dots arranged in decorative styles are noted on some Swiss handkerchiefs with eyelet edge. Price 20c.

A MEDALLION OF LATTICE WORK with colored embroidery over it and a larger spray extending into the corner adds much to the hemstitched handkerchief in the cut. Price, 25c.

The popular butterfly motif is noted on others and in one attractive style is featured a half-inch hem with the embroidery of the corner extending into the hem; in this green, white and lavender unite alluringly. Price, 25c.

OF IRISH LINEN are handkerchiefs in all white with edge of narrow guipure extending to a greater width at each corner.

LIKE TENERIFFE WHEELS is the lace forming the corner of the third handkerchief pictured and another of equal charm has lace in fllet effect. Price, 35c each, or 3 for \$1.00.

SUNSHINE CIRCLE RAFFLE STOPPED

All Moneys Will Be Returned to the Subscribers.

MRS. ROADE REPLIES

President Explains Expenses in Connection With Fete.

After investigating the circumstances surrounding the raffling off of a motor car by members of the Sunshine Circle, which he stopped yesterday morning at the instructions of Mayor T. L. Church, Acting Chief of Police Archibald announced last night that all moneys taken in by the committee will be returned to the various subscribers, and that no legal proceedings will result thru the investigation.

I am at a loss to know, but for over a week now certain people have been circulating vague rumors about serious trouble in the Sunshine Circle over the fete at Oaklands. The only trouble there has been was that in the imagination of the people who circulated these rumors. The weeks ago, at a regularly called meeting by me, a full report of the Sunshine Circle fete was read by the treasurer. It was an itemized statement showing all the expenses and receipts. Twice I asked the members if anyone wished to ask any questions about that statement. Not a single question was asked. It was true the results were disappointing, but the bad weather spoiled the attendance, but the women who had worked the hardest for it took it like soldiers. I cannot express my gratitude to them, for there was no more disappointed woman there than myself.

"After the report had been passed on I told the members of my new plan of helping the convalescent soldiers by raising money for an automobile to daily take out parties. There was not a dissenting voice, and I received offers of assistance from every side. At that meeting the resignations were read of Mrs. Jas. Casey, Mrs. J. P. Patterson, and Mrs. R. A. Walker. They gave no reasons, and their resignations were unanimously accepted. These were all present at the meeting, and said not a word when I twice enquired if any member wished to ask any questions about the statement submitted, neither did they object to the plan for raising more money. Since then the newspapers, the city hall officials, and even the police have been receiving anonymous complaints of trouble in the Sunshine Circle. As for the criticism of the three ex-members, whose resignations were unanimously accepted by the Sunshine Circle, surely the time and place to criticize was when they were members, and at a meeting called to pass on the financial report. Consulted Executive. "The I personally organized the fete," I consulted the executive at every step. My treasurer, Mrs. W. R. Jackson, and my secretary, Mrs. Hugh Martin, went with me every time I made any important engagement with regard to the fete. As for Mrs. Jas. Casey, the vice-president, who resigned, she did not attend a single executive meeting, so occupied was she with the management of her daughter. It is true our expenses were high, but had the weather been favorable and the total what we expected, I believe we would not have heard even one dissenting voice. It is also true there was an electric bill of \$27.00, but it was the main expenditure, and when it is remembered that we had about sixty booths, tents and tea gardens, scattered over 15 acres, and that three times the size of Scarborough, it may not sound exorbitant. Not For Personal Use. "Again, much is being said about the \$229 bill for motor hire, but it is not taken into consideration that this amount extended over a period of over six weeks. It was not for my personal use, and it was practically in use day and night for that period. It was used not only for myself and convalescent soldiers, but by the whole executive. Had their motor cars been available even once, we would not have had to hire one. I regret very much that the pub-

lic have been misinformed that there was any bad feeling in the Sunshine Circle. According to certain press reports, it sounds as if there had been strife at our meeting. Everyone who was present at the meeting should hear the report can testify that it was a perfectly unanimous one. Again, from the remarks of the ex-members, it would seem that the criticism of the meeting, when they resigned because of their objecting to the motor car contest, when in reality their resignations had been sent before they had either heard of the financial report or the motor contest had been mentioned.

HORWOOD STILL GIVING EVIDENCE

He Will Enter Upon Fourteenth Day of Testimony Tomorrow.

ACRIMONY DISPLAYED

Lively Tilts Between Opposing Counsel Marked Yesterday's Proceedings.

WINNIPEG, Aug. 10.—In the trial of the three former Manitoba cabinet ministers to-day's proceedings were devoted to further examination of V. W. Horwood, former provincial architect, by R. W. Craig, K.C., for the crown. Considerable time was consumed with disputes between counsel, it being contended by the defence that the re-examination was not based on evidence brought in at cross-examination by the defence. Mr. Craig did not conclude the court sat an extra hour in the afternoon, and Horwood will enter the witness box tomorrow morning for his fourteenth day. Horwood was questioned about evidence given before the royal commission. He declared that he had intended to give evidence, and did so at Minneapolis despite the advice of his surgeon not to do so. The witness quoted Thomas Kelly as saying that John Sweeney, formerly employed as an engineer with the

MAY INCREASE ALLOWANCES

NIAGARA FALLS, Ont., Aug. 10.—It was rumored here today that the separation allowance for wives and dependents of the members of the Welland Canal force would be increased to about \$20 a month. At the present the allowance is 45 cents a day, which amounts to \$14 a month. When headquarters of the guard at St. Catharines was communicated with there was no confirmation forthcoming. The military authorities have had the matter under consideration for some time and several attempts have been made to have the allowance increased.

view of the very clever man, and that everything was "all fixed up." Horwood said he understood from this that Sweeney "had made calculations which would protect the caissons."

NO DEDUCTION

Horwood said no deduction was made for excavation omitted thru raising the grade of the building, and there was "never any intention" of making any deduction. This applies also to omission of light areas. Witness declared E. C. Shankland, consulting engineer, knew what was going on about caissons, and discussed cost with him. Andrews declared the remark showed Horwood's "venom," and the crown objected to "insultuous and insulting remarks about witness."

### TWENTY-FIVE WERE PASSED YESTERDAY

Recruiting Results Better Than a Week Ago—Only Nine Rejected.

### INFANTRY UNITS LEAD

Irish and Forestry Battalions Equal With Two Men Each.

Only nine of those who applied for admission to the army were unsuccessful yesterday, 25 being attested out of 34 who came up for examination. This is better than for the same day a week ago. The infantry units all received the largest number of men, the 208th and 238th sharing alike with two recruits each. The others gained as follows: 168th 2, 21st 2, 24th 2, 21st 1, No. 1 Construction 2, 69th 1, 1st Pte. E. R. Wright of 12 Sackville street was received into the ranks of the 208th Irish Canadian Battalion yesterday, after having successfully undergone an operation several days ago which gave him this privilege. Mr. Wright is a soldier with much experience. He has served 12 years with the imperial army in the Royal Engineers, and later served thru the South African war. Lately he applied for admission to the ranks of the 208th Battalion, but was informed that he would have to undergo a minor operation before he would be accepted.

Chances for Those Unfit. Provost Marshal Campbell, who began his duties at the armories yesterday, needs several men to complete his military police force, and either returned soldiers or men who are physically unfit for active service would be accepted for this duty. Those desiring this position should apply at the 10th P. A. order rooms, at the northeast end of the armories.

A squad of 25 men will be on picket duty on the downtown streets commencing today, whose duty will be to check slouching in saluting, improper dress and disorderly conduct. They will also look after those in town without passes. The picket will be on duty all day and in the evening until 12 o'clock.

Special Force for Hospital. Authorization of the recruiting of a special force of men returned from the front or unfit for active service, to form the staff of the military base hospital, has recently been received by Lt.-Col. Richardson, commanding the base hospital. These men, who will now be taken on to replace those men at present on the staff, who are eligible for overseas duties, and many hope to leave for overseas shortly. It was at first reported that many men are yet needed to bring the hospital up to the required strength. Recruits who desire to join this unit should apply to Sgt. H. J. O'Connell, at the hospital.

The 32 men who were recently selected from the University Overseas Battalion, for commissions in the imperial army, will start out for overseas, to be assigned to their appointments. They have all joined the O. T. C. since inauguration, but as all men must be competent to train for officers who join, a number of the applicants have been rejected.

### COMMITTED FOR TRIAL

In the police court yesterday morning Harry R. Steele was committed for trial on a charge of not returning to the scene of an accident. Steele is alleged to have knocked down Richard Ryder, who was riding a bicycle on Dupont street.

### Say Acid Stomachs Need Magnesia

Calla Disburged Magnesia Safest, Quickest and Most Effective Food and Acid Stomach Corrective Yet

The almost universal use of magnesia by physicians and specialists in the treatment of stomach troubles is due to the fact that it quickly neutralizes the excessive acid in the stomach and stops food fermentation—the direct cause of nearly all stomach trouble. Of the many forms of magnesia such as oxides, citrates, carbonates, sulphates, etc., the most suitable and efficient for stomach purposes is disburged magnesia, a teaspoonful of which taken in a little water after eating, when indigestion is felt will instantly neutralize or dissolve the excessive acid, stop fermentation and make painless and normal digestion easy. Be sure to insist thereupon that your druggist supply you with magnesia in the disburged form—either powder or tablets. Stomach sufferers who follow this plan will avoid the use of medicines are astonished to find the stomach, once relieved of the irritating acid and gas, soon regains its normal tone, and can do its work alone without the doubtful aid of artificial digestives.

### EIGHT DOLLARS A WEEK FOR AVIATION STUDENTS

Recommendation of Board of Control Passed by Council.

At a meeting of the city council held yesterday the urgency of training aviators for the first time by a municipality, in that the council made a grant of \$8 per week each for students from this city preparing for the Royal Flying Corps. Another feature in aviation training also met with recognition which is of some interest, namely, that the grant operates only after the student has taken his aero club certificate, which up to the present has been the highest type of training given on this continent. After this, individuals flying by the students under strenuous conditions marks a departure in higher flying education not hitherto undertaken, and while of sensational interest and not unaccompanied by danger, the Canadian aviation fund has been informed by the war office that this training is deemed necessary to make a man fit for the work at the front.

### WOULD PURCHASE MILK DIRECT FROM FARMERS

Dr. Adams Believes in Municipal Control of Milk Supply.

PURER, CLEANER, MILK

Pasteurization Could Be Supervised by Plants Conveniently Located.

Dr. Fred Adams of the Toronto department of public health, when interviewed regarding the proposed municipal control of the milk supply of London, England, thought that it would be a very good thing for Toronto. By purchasing direct from the farmers would obviate the necessity of keeping a watchful eye on the 113 dairies in Toronto, and pasteurization could be supervised at four plants conveniently located in the city.

It would, he thought, also make for purer, cleaner, milk. At present, when it is found that a dealer is buying from a farmer who is not handling the milk properly, the city cuts him off. This could be done better by the dealer, and under municipal control the city would be the dealer. At present when a farmer is cut off it is generally found that a neighbor of his is shipping twice the quantity of milk into the city, in other words, the farmer merely ships the milk thru a friend of his, mean cheaply and saving of bottles, many of which are at present used by the housewives for preserves.

### PLAYGROUNDS CAN BE USED BY CHILDREN

Justice Masten Dissolves Injunction Granted by Justice Britton.

Justice Masten at Osgoode Hall yesterday dissolved the injunction granted by Justice Britton restraining the board of education from permitting children to use the playgrounds of the Rose Avenue School as a supervised playground. The playgrounds, which have been used for this purpose for the past six years, it was declared, and until recently no complaint of the noise had been made, should be used for the purpose of playing ball games, and the board of education should be permitted to use the playgrounds of the Rose Avenue School as a supervised playground.

### NICKEL REFINING QUESTION.

Hamilton Deputation Told That Location Would Depend on Influence.

Hon. Mr. Ferguson yesterday told a deputation from Hamilton, who asked that the nickel refining plant be established in that city, that they would have to use their influence with the company.

The proprietors of the Ward House and Spencer House at Niagara Falls, were censured by the Ontario License Board yesterday for branches of the liquor act. Sentence was suspended in both cases.

### IN TRENCHES TWO HOURS WHEN KILLED

Corp. W. E. Mawson Met Death When Struck by Shell.

### IN YESTERDAY'S LIST

The Names of Twenty-Seven Citizens of Toronto Appeared.

Four officers and 23 men from Toronto were mentioned in yesterday's casualty list. Two of the officers are reported as missing, one is reported as wounded. Of the men, two have been reported as missing, one is reported as wounded, and one man is ill and eleven are reported as missing.

Corp. W. E. Mawson, of Toronto, was killed before he had been in the trenches two hours by the explosion of a shell. He was formerly a third year student of the School of Science, and was reported missing. He enlisted with the Eaton Machine Gun Battalion a year ago, and is supposed to have taken part in an engagement on the 1st of July.

Pte. Wesley Henderson, 151 Duke street, has been missing since July 25. He enlisted in the front line nearly two years ago. He was only 19 years of age, and was in the dairy business in Toronto. He has two brothers at the front.

Gunner K. A. R. Allen, 168 Lee avenue, is in the hospital at Boulogne and is dangerously ill from wounds received on July 15. News of his injuries was received some time ago, but the announcement of his serious illness was only received yesterday.

Pte. W. J. Simons, 9 Durie street, who enlisted a year ago with the 74th Battalion, has been slightly wounded. He was employed by the Steel and Radiation Company, Fraser avenue. He is the oldest of ten children, and is the family carter from England.

Pte. W. G. Bloom, 173 Dovercourt court, is reported wounded with a gunshot wound in the knee, and in the contusion of the ankle, and is in the military hospital at Chatham. He enlisted two years ago with the 36th Battalion. He was born in Ottawa and has lived in Toronto for the past six years.

Pte. Charles Malcolm, 77 Kimberley street, has been wounded after being in the trenches only four days. He had been a member of the Queen's Own, but had been transferred to the 83rd and left with that battalion in April of this year.

Lieut. E. H. Saefer, 211 Avenue road, an artillery officer, was wounded on August 5, after serving at the front about four months. He went overseas originally with the 38th Battalion, but later transferred to the artillery. He is a graduate of Upper Canada College, and had commenced a law course at Osgoode Hall.

Pte. R. E. Rice, 27 Roxborough Drive, is in a serious condition in a hospital in France as a result of wounds received on July 14. Both legs have been amputated. He is 21 years old, and was a member of the Q.O.I.T. before enlisting.

### WILL HAVE SETTLERS' CABIN AT EXHIBITION

Plans Have Been Changed and Bushmen Will Erect Hut.

The idea was understood a week ago that as a result of the destruction in the recent bush fires of the model settlers' cabin, built to house the Timiskaming district exhibit of grains and other agricultural product at the Exhibition, there would be no display this year. There has been a change in plans, however, and a half dozen bushmen, brought down for that purpose, will start work assembling a log cabin on the original site selected, opposite the grand stand. After the case of the log by fire, others were cut and hewed and are now on the Exhibition site awaiting erection on the site provided, one of the most prominent locations on the grounds.

### CLEO MADISON BUSY AGAIN.

Cleo Madison of Universal is finding new vigor and strength for her work, now that she has given up directing to play the leading role in "The Choice of Sorrows," a coming Bluebird, under the direction of Rex Ingram. Miss Madison formerly spent all her leisure moments preparing for her photoplays and burned much midnight oil, with the result that several weeks ago she was on the verge of a nervous breakdown. Now, she says, she can assume that hard emotional role in this modernized version of "La Tosca" without suffering from the strain.

### ALWAYS A HERO.

Another Bluebird soon is to wing its way into prominence when J. Warren Kerrigan and his company complete the filming of "The Social Buccaneer," the romantic role in which "Jack of Hearts" now is putting all his efforts. It is a part which fits Kerrigan from head to foot, and it is a modernized Robin Hood story of an adventurer who takes from the wealthy to give to the poor. Of course, Kerrigan turns hero in the end.

E. A.—Cleo Madison is with the Universal Company. Marguerite Clark may be reached at the Famous Players' studio, New York. Beverly Bayne is with Metro in New York.

### Go Where the Ocean Breezes Blow—Seaside Excursions to the Maritime Provinces.

From Montreal, Quebec cool ocean breezes are blowing in an easy journey, and one made in the best equipped train on the coast. The "Ocean Limited" and the "Maritime Express," the through trains on the Canadian Government Railways, furnish a fast and luxurious service for those who desire to reach the watering places of the Lower St. Lawrence and points on La Baie de Chaleur, the Straits of Northumberland, the Bay of Fundy, or the sea-girt shores of Nova Scotia.

The annual excursions over the Canadian Government lines afford the right kind of an opportunity, as for a generous vacation period the special low fares prevail. The going dates are from Aug. 18 to Aug. 21, with a return limit to Sept. 6. Particulars regarding fares to the various points will be furnished at the office of the General Western Agent, 100 Queen street, east, Toronto, and sleeping car reservations may be secured through this source.

### PROGRAMS FOR TODAY MOVIES SCREEN GOSSIP

THRILLS! Annie Little, who will shortly be seen in "Nell Dale's Men Folks," recently completed under Frank Borzage's direction, had a narrow escape from injury while taking a prominent part in the Flying A rodeo presented by the American-Mutual Company's cowboys. In "A Face for a Bride," one of the features of the rodeo, she was pursued on horseback by a score of cowboys, the first to overtake her carrying off the "bride" by snatching her from the saddle. Pete Morrison, one of the star performers of the Flying A corral, outdistanced his rivals and lifted Anna from her galloping mount, but his horse became overbalanced and started to fall on her. Another rider, Manuel Sampson, spurred his horse alongside at the risk of crushing her between the horses and with one arm lifted her unharmed to his own saddle.

### Australian Notes

Raymond Longford, a prominent Australian picture producer, has returned with his large company of players from New Zealand, where they have been filming a historical subject. The working title of this picture is "The Mutiny on the Bounty," and its length will probably be eight reels. It deals with an early incident in Australian history, the mutiny of the crew of the ship "Bounty," carrying Governor Bligh from England to New South Wales.

The New South Wales Government is at present releasing a series of films dealing with the career of soldiers in the various camps within the state. Three have already been released, the first dealing with the training of infantry, the second with field artillery, while the third is devoted to the light horse section. Each picture has been first dealing with the training of the men, the second with the action, and the third with the life of the men in the field. The government photographer, and they are about the clearest topical films the writer has yet seen.

### DARING JUANITA MOTORS.

Serialites sometimes are more fortunate than other actors, in that when they complete their 12 or 15 episodes they obtain a longer breathing spell between pictures. Juanita Hansen, heroine of "The Secret of a Submarine" is having a vacation from the American studios at Santa Barbara, and is spending her time between Los Angeles, homes of her friends in Hollywood and the California beaches. Miss Hansen has her own car, and she is rapidly becoming familiar with all the roads in southern California.

Gertrude—You can reach Hamilton Revelle by addressing a letter to him at Seventh avenue and Fourteenth street, New York City. Yes, he was the leading man for Olga Netherole in "Sapho" and other stage successes.

Gladiola—Viola Dana is sixteen years old. Yes, she is a sister of Leonie and Edna Flugrath.

Steve—William Davidson was last seen on the screen as Pauline Frederick's leading man with "The Famous Players."

### WOULD BE ADMISSION ON GOVERNMENT'S PART

Justice of Its Legislation Made Questionable if Request Was Granted.

Attorney-General Lucas, in giving his reasons for refusing the Electrical Development Co.'s request for a fiat, says that the granting of the request would be practically an admission on the part of the government making questionable the justice of its legislation.

"It is undoubtedly true," he said, "that if a company or individual complains of any wrong and proceeds by petition the petition should be granted if a reasonable case has been made out. But in the application just refused the petition of right would practically ask the court to determine the justice of its own verdict."

"EARLY DAYS AT THE ISLAND" Will appear in The Sunday World of Aug. 13. The article was written by Eunice Gunn Ramsey, whose research has resulted in a historic document, extremely interesting.

### CITY HALL NOTES

The Medical Health Officer, Dr. C. J. Hastings, is now at his summer home in Muskoka on holidays. He will likely be away for another week.

The city architect has granted permits and approved the plans for the following new erections: E. C. Hurst, 44 Castlefield avenue, to erect a brick dwelling at 156 Brier Hill Road, at a cost of \$2200.

The Russell Motor Car Company to erect enclosed emergency stairs at the northwest corner of King and Duncan streets, on King street, at a cost of \$3800.

Owing to the lateness of the council meeting, which did not adjourn until 3 p.m., the inspection trip to the island by the parks committee and city council, which was scheduled for 2:30 was postponed until next Thursday at the same hour.

**TO SINK NEUTRAL SHIPS CARRYING CONTRABAND**

Germany Issues Revised List at Stockholm and Repeats Threat.

LONDON, Aug. 11.—The German minister at Stockholm, in behalf of the German Government a revised list of contraband, says a despatch from that city.

The list of contraband, which is announced that the commanders of German warships have been instructed to sink all ships bound for enemy ports carrying cargoes which consist wholly or in part of contraband, either absolute or relative.

The loss to Swedish commercial interests from the stoppage by Germany of timber exports to England and France, the despatch adds, is estimated at £6,000,000 sterling.

**DECORATED FOR VALOR**

**CAPT. ROBERT MURDIE.**

Upon whom the D.S.O. has recently been conferred by the King. By his heroic, skilful arrangement of his men and military strategy in a recent engagement he overpowered and drove back a much greater German force with little loss to his own men. He is well known in Belgium, he having been connected with the Dominion Bank here for seven years before going west to Moose Jaw, where he was in business before enlisting at the outbreak of the war. Capt. Murdie is a Furler, Scotland, boy and uncle of Pte. Alex. Smith of Camp Borden, 170th Battalion, Signals, who was with the Dominion Bank, Toronto, before enlisting.

Belgian communication: "There was some activity on the part of the German artillery at various points on the Belgian front. Our batteries carried out successful shelling of the sector of Steenstrate and further to the south."

Progress Around Pozieres. "The afternoon British statement said: 'Last night was generally quiet along our front, except for heavy hostile shelling of our lines southeast of Trones Wood. Northwest of Pozieres we made further progress, gaining all our local objectives, which are now being consolidated. Seventy-two prisoners were taken.'

"South of Arras we raided a sap of the enemy and inflicted several casualties. A similar attempt by the enemy against our trenches northwest of Hulluch met with no success.

"The enemy exploded a mine south of us with no effect.

"The afternoon French official statement reads: 'North of the River Somme French troops last night made progress in the direction of the north of Hen Wood, including at the same time 100 the number of prisoners made yesterday in this region. Further progress was made in the direction of the west of Vermandovillers in the rain and fog.

"South of the River Somme a German reconnoitering party was endeavoring to reach our lines by means of flaming liquids, was dispersed by our fire at a point to the west of Vermandovillers.

"On the Somme front French aviators delivered fifteen attacks. A German machine was brought down by a French fighter. Notwithstanding the intense fire of anti-aircraft batteries and attacks by hostile aeroplanes, one of which was brought down, the squadron returned safely.

"A hostile aircraft dropped bombs on Venice. Two persons were killed and some damage was done.

"In the evening a number of balloons were seen over the battlefield," adds the statement, "there were many bludgeons sixty centimetres long, ringed with iron bands from which jutted enormous spikes, and at the extremity of the larger but thinner spike, in some twisted in the struggle. When the bludgeons were shown to Austrians they were shown to be simply 'penstocks.' This reply, says the statement, is 'proof in Italian hands that they were used by combatants, and dozens of them bear the names of their owners.'

**PERMIT TO T. EATON CO.**

The T. Eaton Company, Limited, were granted a permit yesterday by the city architect for the erection of a reinforced concrete factory, to cost \$40,000, at the corner of Bloor and Dufferin streets.

and they also captured Boaschini. Later they took San Martino.

Attempts to relieve the situation for the Austrians took the shape of the launching of strong attacks on the fortified barrier west of the town left lower Italy, accompanied by violent artillery fire. The Italians were prepared for these movements and they repulsed all the attacks.

Eighteen large Caproni aeroplanes raided the Austrian supply stations at Pravnica and Dorberg and dropped fuel and bombs on the railway stations, on the railway station of high explosives at these points. Effective results were obtained. After bringing down an Austrian aeroplane which attacked them all the machines returned to their depots.
