French Believe Settlement of Reparations Question In Sight  
ITALY'S ANNEXATION OF FIUME

STRESEMANN SILENT ON RESISTANCE

No Definite Offer Yet in Conversations With the French Envoy

PROGRESS REPORTED

Berlin Believes Atmosphere of Contact With France Strengthened.

(Canadian Press Cable.)

Paris, Sept. 11.—Conversations that are taking place between Jacques de Margerie, the French ambassador to Germany, and Chancellor Stresemann in Berlin, are considered by the French government as leading toward a settlement of the reparations question, although it is stated that the Chancellor has not yet made a definite offer either respecting the cessation of resistance in the Ruhr or what could be proposed afterward. The conference will be continued.

Any proposition received by France from Chancellor Stresemann will be communicated immediately to the British and other Allied Governments.

PROGRESS BEING MADE

Berlin, Sept. 11.—Political circles aver that "progress" is being made in unofficial efforts to strengthen the "atmosphere of contact" which the government is endeavoring to establish with France. These informal conversations, it is believed, forecast official action by the German Government.

An outline of the extensive economic guarantee which Germany is prepared to pledge for the payment of her reparations obligations is generally looked for in the address which Chancellor Stresemann is scheduled to deliver in Berlin tomorrow. This plan, it is known, is based upon the hypothetical of the entire economic structure of the Reich, according to the scheme involved during the chancellorship of Dr. Cuno. If acceptable to the allied creditors the programme will be supported by full legislative authority.

Official circles are somewhat disappointed that Premier Poincaré has not seen fit to consider Dr. Cuno's offer which has been amplified by the new Chancellor, and it is expected that Herr Stresemann will deal with the subject in detail in tomorrow's speech.

BODY IS FOUND IN N. S. WOODS

Coroner to Probe Mystery of Tragedy Near Oxford on Saturday.

(Canadian Press)

Moncton, N. B., Sept. 11.—William Dutcher, a former resident of Meslow Brook, Westmorland county was found dead in the woods near the town of Oxford, N. S., on Saturday. There is, as far as can be learned at this time, no indication as to how he came to his death.

Word of the finding of the body was received by Chief of Police Hutchinson, who was requested to look up the man's relatives who were believed to be in Moncton. The enquiries instituted by the chief elicited the information that while a son had formerly resided here, he could not be located. Another son resides in Sackville and he has been notified.

An inquest will be held this afternoon by Coroner P. M. Johnson of Oxford in an attempt to solve the mystery.

U. S. Freighter Afire; Blaze Is Extinguished

Los Angeles, Sept. 11.—Fired in the hold of the freighter American, while 50 miles at sea, was extinguished late last night after the vessel had been conveyed to harbor by the U. S. S. Nevada and a Los Angeles fire boat which went to her assistance in response to radio calls.

Worcester Jail Cells Filled With Booze

Worcester, Mass., Sept. 11.—All spare cells at Worcester police headquarters having been filled to overflowing with contraband beer and whiskey, federal prohibition agents stationed in this city and surrounding towns have begun to store their seizures in Worcester County House of Correction. In one room on the east side of the jail there have been placed 500 cases of beer and 15 barrels of whiskey.

ECLIPSE THROWS CITY INTO DARK

Lights Turned On In Mexico City as Moon Obscures Sun.

Mexico City, Sept. 11.—Irregular measures of cumulus clouds parted sufficiently yesterday to afford the people of Mexico City an exceptional view of the solar eclipse, which at its maximum was 99.1,000ths complete. The eclipse began at 1 hour, 30 minutes, 59 seconds, Mexican afternoon time, and ended at 4 hours, 1 minute, 41.9-10 seconds. A thin cloudbank passing approximately at the maximum of the eclipse caused a weird, unearthly sort of twilight, which enveloped the capital and obliged the turning on of the electric lights indoors.

Eclipse Photographed

San Diego, Sept. 11.—Navy aviators are depending upon scientists to furnish them with photographs showing the corona of the sun. Fifteen airplanes from the U. S. battle fleet squadrons took the air more than an hour before the totality period of yesterday's eclipse of the sun, and each of them rose to more than 10,000 feet, considerably above the fog and cloud banks that interfered with the view from the ground. Many photographs were taken of the eclipse.

Corfu Calm When Agreement News Told

Corfu, Sept. 11.—News that both Greece and Italy had accepted the proposal made by the Inter-Allied Council of Ambassadors for the settlement of the Greco-Italian dispute was received quietly here and there was no demonstration. There is a tendency among the Italian authorities to wonder how long the occupation will continue. Some hazard the opinion that the evacuation will take place immediately and that all the forces will be out in 15 days. Others expect it will take a month or more for Italy to withdraw.

Ontario Will Test Spahlinger Serum

Toronto, Sept. 11.—Ontario will aim to ascertain definitely the value of the new Spahlinger serum, widely heralded as a cure for tuberculosis, which has recently been discovered in Switzerland. Hon. Dr. Forbes Godfrey, minister of health and labor has issued instructions for a report on it.

ORDERS REGARDING LIGNITE COAL ISSUED AT OTTAWA

Ottawa, Sept. 11.—In the matter of lignite coal and lignite coal dust, which are now admitted into Canada duty free, a ruling of the Customs and Excise Department just issued provides that such coals are to be defined as having not less than six per cent. moisture content on the air-dried basis. Lignite coals, it is declared, include all grades lower than true bituminous.

Wire Briefs

London, Sept. 11.—Refugee from Japan, brought to Shanghai by the steamer Empress of Canada, confirm reports that foreign victims of the disaster were robbed and murdered, says a Shanghai despatch to the Morning Mail. All the survivors told poignant stories of their experiences.

Montreal, Sept. 11.—Following a meeting of directors, the Labrador Gold Fields, Ltd., were put into liquidation this morning by order of Mr. Justice Coderre, in the Superior Court, acting on a petition presented by the company itself asking that its affairs be wound up through lack of assets.

Toronto, Sept. 11.—By resolution passed unanimously today by the delegates to the Public Ownership Conference, the officers of the Public Ownership League of America were instructed to secure the introduction at the next session of the U. S. Congress of a measure providing for a United States super-power commission for creation and conservation of a nationwide hydro-electric and super-power system, publicly owned and operated.

BOARD WILL INVESTIGATE SEA TRAGEDY

Death List in Destroyer Accident in the Pacific Now 23.

22 DEAD; 1 MISSING

Three Bodies Reported Recovered—All Injured are Doing Well.

(Canadian Press.)

Santa Barbara, Calif., Sept. 11.—A board of inquiry with Rear Admiral Pratt as its senior member is expected at the scene of seven wrecked naval destroyers at Honda, 75 miles north of here today to investigate the disaster which cost the lives of 23 enlisted men and set a record for peace time naval losses.

The death list was placed at 23 last night with the official announcement that 22 men were missing and one dead. The possibility that the unrecovered bodies may have been swept out to sea was given added strength today when Lieut. Lee, at the scene of the wreck, said he believed no bodies remained on the destroyer Young. It was thought the men were trapped in the lower decks of the Young as she turned over after the wreck, but Lieut. Lee says all vessels were searched before they were deserted after the wreck.

The official list shows that three bodies were recovered from the area near the wreck yesterday. Of the injured in hospitals here and at San Diego it is believed all will recover. The inquiry will involve explanations from the commanders of the vessels which went ashore in the fog last Saturday night while cruising at 20 knots in a heavy fog from San Francisco to San Diego.

YUKON HAS TASK TO OBTAIN LIQUOR

Matter of Difficulty in Supply Laid Before U. S. Government.

Victoria, B. C., Sept. 11.—British Columbia's difficulties in attempting to take liquor supplies into the Yukon and Alton county have been laid before the U. S. State Department by the Canadian government, according to cables received at the Attorney-General's department here yesterday from Premier King.

Mr. King will explain to the State Department that the Yukon and Alton districts, cut off from the coast by dry Alaskan territory, cannot bring in supplies of liquor and that present supplies are growing low. Until he has ascertained the views of the U. S. Government on the question, Mr. King will reserve announcement of the Canadian Government's policy, he said in his letter to Attorney-General Hanson.

Beck Says Canada To Fight Lakes Diversion

Toronto, Sept. 11.—Firmly but kindly, even humorously in fact, Sir Adam Beck, chairman of the Ontario Hydro Electric Commission and present host to the convention of the Public Ownership League of America, informed his guests last night that Canada, in general, and Ontario particularly would fight "with our backs to the wall if necessary," to prevent any increased diversion of Great Lakes waters at Chicago through the drainage canal which carries the sewage of that city to the Mississippi Valley.

Labor Shortage In 2 Western Provinces

Winnipeg, Sept. 11.—Wheat cutting has made satisfactory progress under favorable weather conditions, and the close of the present week will see binders pulled off fields in all three prairie provinces. Apart from Manitoba little or no threshing has been done. There is a shortage of labor in Alberta and to a lesser extent in Saskatchewan, but the situation is gradually adjusting itself.

Hon. W. R. Motherwell Reaches Woodstock

(Special To The Times.)  
Woodstock, Sept. 11.—Hon. W. R. Motherwell, Mrs. Motherwell, Miss Motherwell and Miss Cummings, arrived here this morning accompanied by C. F. Bailey, superintendent of the Experimental Farm. The party motored to Florenceville and will visit the exhibition this afternoon, leaving for St. Stephen this evening.

Monkeys Go On Chloroform Jag

Indianapolis, Sept. 11.—Fifteen monkeys in a local park went on a chloroform "jag" when a keeper dropped a bottle of the fluid in their cage here.

Two of the animals engaged in a fight and in an attempt to separate them the keeper saturated a piece of cotton with chloroform and held it near the lighters' noses. In the process the bottle was knocked from his hand. The other monkeys sniffed inquisitively at the fluid and soon all became hilariously drunk.

APPEALS COURT IS IN SESSION TODAY

Oil Shales Case Included in Docket at Fredericton Session.

(Special To The Times.)  
Fredericton, Sept. 11.—The Court of Appeal opened here this morning before Mr. Justice, White, Grimmer and Barry, the latter occupying a seat on the bench in the absence of Chief Justice Sir Douglas Hazen.

Common motions were heard before proceeding with an assessment case from Moncton.

In the case of the King et parte the Board of Nova Scotia vs. the assessors of the town of Woodstock, in which a motion was recently given on appeal in favor of the town, A. B. Connell, K. C., moved for leave to appeal to the Supreme Court of Canada. Motion granted.

In the matter of the Estate of the late W. L. Carr, of Woodstock, P. J. Hughes, K. C., moved for leave to appeal from the decision of the Probate Court. On consideration leave was granted to renew the application.

In the matter of the King vs. Allen, Mannus in which Daniel Mullen, K. C., and Attorney General J. P. Byrne are appealing, was ordered entered on the docket for the afternoon of Sept. 11. Phillips vs. D. A. Corey was allowed to stand until next term.

The docket is as follows:—  
Motion Paper.

In the matter of Assignment of E. T. LeBlanc under the Bankruptcy Act, referred by Chief Justice McKeown, A. A. Allen, for City of Moncton, and A. C. Rand, for assignee, to argue reference.

Michael vs. Canadian National Railway Company, referred by the Registrar; R. B. Hanson, K. C., for plaintiff; E. J. Hughes, K. C., for defendant; to argue reference.

TROTSKY AGAIN REPORTED DEAD

No Details Given And No Confirmation of Report, However.

London, Sept. 11.—A Central News message from Berlin says it is reported from Moscow that Leon Trotsky, the Russian Soviet war minister has been assassinated. No details are given. There is no confirmation of the report.

Reports of the death by violence or otherwise of Premier Lenin, War Minister Trotsky and other prominent members of the Russian Soviet Government have frequently been circulated, usually coming through dubious channels. Serious reports regarding the condition of Trotsky's health were current early this year, but the news dispatches since have shown him pursuing his usual activities.

Blow For Blow

The most elaborate attempt to show fight fans the greatest fight in the history of the ring has been arranged by The Evening Times. Arrangements were completed this morning to have a direct wire service from the Polo Grounds, New York, Friday night, when a representative of this paper will be at the ringside. This is the first time that any newspaper in the Maritime Provinces has had a local representative at a world's championship fight. Be at The Times building Friday night if you want to see real fight action.

RE-UNITED HERE AFTER 54 YEARS

Thomas and Isaac Smith Visit Childhood Scenes Together.

KINGS COUNTY MEN

There is Another Brother Whom They've Not Seen Since 1867.

(Visiting St. John today are two brothers, natives of New Brunswick, who had not seen each other for 54 years until last week. They are Thomas E. Smith of Passasek, Kings County, and Isaac P. Smith of Paris, Ont. Equally remarkable is the fact that there is another brother, residing in California, who has not met the members of his family for 58 years. Still a fourth brother is in Newton, Mass., but he has been a recent visitor to his native province.

The old homestead at Passasek was ruled over by John D. Smith and his wife Elizabeth, and the household numbered seven sons and three daughters. The father was of Loyalist stock. He passed away at the venerable age of 88, while his wife lived to be well along in the eighties. Of the children, the four sons still survive, but the daughters have passed away. Only one of the boys clung to the old homestead. This was Thomas E. Smith, who has been a successful farmer and stock raiser. He has lived all his life, and has won a good name in the community.

Isaac P. Smith, the visitor of this week, left home 54 years ago at the age of 19. After a few years spent in Boston, he removed to the Ontario Peninsula and was engaged in various lines of endeavor there, part of the time in business for himself, and for the last nine years on the staff of Penman's, Ltd., makers of woollen goods. He married there, but his wife did not accompany him on the trip home.

Attracted to the old homestead as the years multiplied upon him, he decided to make the journey and he came by way of the United States, breaking his trip by a happy reunion with his brother, Elisha B. Smith, who is located in Newton, Mass., as a successful market gardener.

Isaac had sent word ahead of him that he was coming to New Brunswick, and his brother, Thomas E., and the latter's son, Louis S., a well-known Penman's representative of a New York salvage firm.

Reports of the death by violence or otherwise of Premier Lenin, War Minister Trotsky and other prominent members of the Russian Soviet Government have frequently been circulated, usually coming through dubious channels. Serious reports regarding the condition of Trotsky's health were current early this year, but the news dispatches since have shown him pursuing his usual activities.

Another accident occurred yesterday when James Robichaud, six-year-old son of Marcel Robichaud, suffered severe injuries to his head when it was caught in the wheel of a heavy truck wagon. The youngster, unknown to the driver, had climbed on the loaded truck and suddenly he slipped off. His head, which caught in the spokes of the wheel, was badly bruised and his collar bone broken. Dr. Marven, who is attending him, said that the young fellow's condition did not seem dangerous and that he had strong hopes for his recovery.

Weather Report

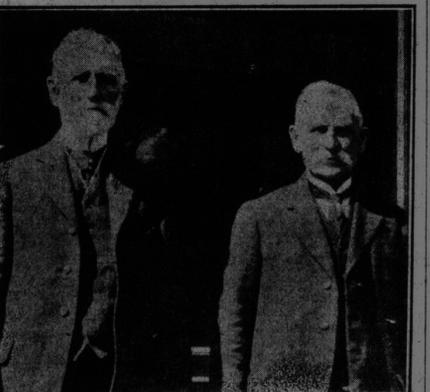

Synopsis—Rain fell yesterday near Lake Superior, but the weather is now fine throughout Canada. Frost was almost general this morning in the western provinces. Fine and Warm.

Forecasts:—  
Toronto, Sept. 11.—Temperatures:—  
Highest during day  
Lowest during night

Victoria ... 52 78 52  
Winnipeg ... 44 64 38  
Toronto ... 52 62 43  
Montreal ... 54 60 46  
St. John ... 50 60 46  
Halifax ... 58 74 52  
New York ... 58 72 54

Maritime—Light to moderate winds, fine and moderately warm today and Wednesday.  
Lower St. Lawrence, Gulf and North Shore—Fresh southwest winds, mostly fair today and on Wednesday; a few scattered showers.  
New England—Partly cloudy to-night and Wednesday, continued cool, light variable winds.

Together After Long Separation

On the left is Isaac P. Smith of Paris, Ontario, 73 years old who is just concluding a visit to his brother, Thomas E. Smith of Passasek, N. B., 76 years old, after a separation of 54 years. The picture was taken outside The Evening Times building about half past eleven o'clock this morning by Robert Melfosse of J. M. Roche & Co. He rushed the development of the negative and it was quickly in the hands of Wesley & Co., engravers, and they had the cut ready in good time for this issue. It was probably the fastest piece of work of the kind seen here in newspaper records.

Maddened By Hunger And Illness Many Japanese Resort To Suicide

Osaka, Sept. 11.—An Eastern News Agency despatch to the Osaka Asahi from Tokyo says that many of the hundreds of refugees gathered in Ueno Park, Tokio, have committed suicide as a result of hunger and exposure. Most of the refugees are exhausted and only a few are able to walk and these are fleeing to Nippori, where tens of thousands of other refugees are collected. A large number of women and children are reported to be lying helpless near the Nippori Railway station, unable to continue their flight.

Alleged Rum Runners Held by U. S. Officials

Niagara Falls, Ont., Sept. 11.—Frank J. Weigand, 36 years of age, and Ray Smith, 29, of Erie, Pa., are being held prisoners in the U. S. coastguard station at Youngstown, with their 45 foot cabin cruiser containing over 150 cases of alleged Canadian liquor with a value close to \$12,000, under a heavy guard. The capture was made by accident. The cruiser was sighted in a high sea off Four Mile Point, and the coastguard crew put out to render assistance. They were surprised to find the cruiser loaded with liquor.

MAN AND CHILD HURT IN CHATHAM

J. K. Loggie Has Injured Ankle—Youngster Breaks Collar Bone.

(Special To The Times.)  
Chatham, Sept. 11.—Ald. J. Kerr Loggie, vice-president and manager of the W. S. Loggie Co., injured his ankle yesterday afternoon when stepping off a platform at the company's storage shed. Today the injured member is badly swollen and it is not known yet whether the ankle is sprained or broken. This will necessitate an x-ray examination today. In any case Mr. Loggie will be confined to the house for some time.

Silver Bullion Is Salvaged From Wreck

Santa Barbara, Calif., Sept. 11.—The Pacific mail liner Cuba is stranded on a reef near Point Bennett on the western edge of San Miguel Island. The bulk was located yesterday by Captain L. Curtis, a representative of a New York salvage firm. Captain Holland and four members of the crew are on the island and are living in an abandoned fisherman's hut while awaiting a guard over the wreck. All of the \$2,500,000 in silver bullion the vessel carried has been taken from the bulk and is en route to San Francisco on a U. S. destroyer. The \$500,000 cargo of coffee is lost.

Fire Danger In Ont. Is Closely Watched

Toronto, Sept. 11.—Every precaution against the possible recurrence of the Northern Ontario holocaust of last October which cost many lives and did damage estimated at over \$6,000,000 is being taken this year by the Ontario government. The Department of Forests intends that the fire patrols will continue this year until every pretense of danger is passed, even if such a policy should involve retaining the services of the fire rangers until well on into October. At present almost 1,200 fire rangers are patrolling the Ontario woods.

British Still Claim Wrangel Island

London, Sept. 11.—Referring to a statement published in Canadian newspapers to the effect that the British Foreign Office informed the Russian Foreign Office that it had never questioned Russian sovereignty in Wrangel Island, the London correspondent of the Manchester Guardian says he understands that the statement that the Foreign Office has renounced the British claim to the island is unfounded. "I am told there has been no change in the attitude of the Foreign Office or in the British claim to Wrangel Island."

MUSSOLINI WANTS NO MEDIATION

Italy Intends to Deal Directly With Jugo-Slavia in Matter

ACTION THIS WEEK

Italians Ready to Use Force if Necessary to Ensure Peace.

(Canadian Press Cable.)

Paris, Sept. 11.—It is understood from information gathered in reliable sources that Premier Mussolini will proclaim the annexation of Fiume to Italy within a week, probably about Sept. 15. The government of Jugo-Slavia is reported as being aware of Mussolini's intention and as intending to make no serious protest, provided Porto-Barros and Sussak, adjacent, are not directly affected.

Will Settle Directly.

Rome, Sept. 11.—Best informed opinion here is that Italy will refuse any mediation of the settlement of the Fiume question with Jugo-Slavia, as proposed by the latter. Italy, it is declared, intends to settle directly with Jugo-Slavia, in line with the demands made for a settlement setting Sept. 15 as the date for a reply, even employing forceful means if necessary to end what she regards as an intolerable situation imperiling peace.

Rome, Sept. 11.—It was announced in a semi-official statement today that Italy is not prepared to consider any mediation or arbitration of her differences with Jugo-Slavia with regard to the status of Fiume, since the question is held to be one for direct settlement between the two countries.

Prince Active On Atlantic Voyage

London, Sept. 11.—Wireless messages are being published in the newspapers here with reference to the Prince of Wales' trip across the Atlantic on his way to Canada. The Daily Mail says the Prince as Lord Renfrew is the most popular passenger on the Empress of France and has made many friends. Trips walks on deck and physical exercises in the ship's gymnasium keep him in good fettle. He is a fancy dresser and his color Lord Renfrew fully entered into the spirit of the festivities.

The papers also refer to Lord Renfrew's part in the Sunday morning service on board the ship and his reading of the lesson from Corinthians.

Training For Empire Settlement Proposed

(Canadian Press.)  
London, Sept. 11.—A letter in the Morning Post signed by Col. Leslie Wilson, M. P., parliamentary secretary to the treasury, who has been appointed Governor of Bombay; Lord Strathpey, Lord Richard Frederick Cavendish and others deal at length with the scheme of training camps for Empire settlement.

The letter appeals for financial assistance in starting the camps for the training of prospective settlers overseas this autumn in different parts of the country so as to fit the emigrants for their new duties.

British Still Claim Wrangel Island

London, Sept. 11.—Referring to a statement published in Canadian newspapers to the effect that the British Foreign Office informed the Russian Foreign Office that it had never questioned Russian sovereignty in Wrangel Island, the London correspondent of the Manchester Guardian says he understands that the statement that the Foreign Office has renounced the British claim to the island is unfounded. "I am told there has been no change in the attitude of the Foreign Office or in the British claim to Wrangel Island."

PLAY-OFF MATTER NOT DETERMINED

Sussex Has Complaint Relative to Proposed St. Roses Series.

W. S. Fairweather of Sussex was in communication with The Times over the long distance telephone this afternoon and asked that some facts about the proposed series between Sussex and St. Roses for the amateur baseball championship of the province be published.

Mr. Fairweather said that he had been in communication with Manager Fitzgerald of St. Roses on September 8 and informed him that any arrangements that he made for the holding of a championship series would be acceptable.

ROY HANDREN IS NEW PRESIDENT Succeeds David Ramsey as Head of East End Improvement League.

At the annual meeting of the East End Improvement League, held in the club house last evening, the report of the officers and committee showed the league to be in a very satisfactory condition. The reports showed that owing to various reasons baseball was not to the fore, to any great extent during the season just ended, but numerous games were played by the school boys and the junior city league along with some games by the City Amateur League. It is the intention of the league to go after baseball in earnest next season. Plans were also discussed for an open air skating rink.

The meeting was marked by the retirement of David A. Ramsey as president. Much regret was expressed by the members and committee members present at the meeting for the loss of Mr. Ramsey's services during his incumbency.

Mr. Ramsey has for the last four years stood at the head of this very active organization in the playgrounds movement, and it is owing to his foresight and judgment that the grounds in the position now exist.

N. S. WOMAN IS AMONG INJURED

Two Dead, 16 Hurt in Train Derailment Near Boston Today.

Boston, Sept. 11.—The engineer and foreman of a New York, New Haven and Hartford train, bound from Fall River to Boston, were fatally injured and 16 passengers received serious injuries when the train was derailed near the New Bedford station today. The engineer and fireman, who died soon after they were removed from beneath the overturned engine, were Stephen T. Goshorn, of Taunton, and A. Anderson, of Fall River.

NOTICES OF BIRTHS, MARRIAGES AND DEATHS, 50 CENTS

BIRTHS

HOLMES—On Sept. 10, 1923, at St. Jude's rectory, St. John, West, to Rev. J. H. A. and Mrs. Holmes, a son.

MARRIAGES

MARSTERS-WATKINS—At Billtown, N. S., on Sept. 4, 1923, by Rev. G. W. Sherman, Edward P. Marsters of St. John, N. B., to Blanche E. Watkins, of Lakesville, N. S.

DEATHS

McDONALD—At the General Public Hospital, on Sept. 10, 1923, Henry, youngest son of the late John and Lydia McDonald, leaving two brothers, four sisters and two half-brothers to mourn.

LOCAL NEWS

BURIED TODAY.

The funeral of Mrs. M. L. Harrison was held this afternoon from her residence, Celebration street, at 2:30 o'clock. Service was conducted by Rev. R. G. Fulton and interment in Fernhill.

DEATH OF CHILD.

The friends of Mr. and Mrs. Gordon Hammond will be sorry to learn of the death of their little child, Catherine Rosamond, who died yesterday at their summer home Pandanus. The funeral will be held from their home, 44 Esplanade street.

JAP RELIEF.

Asked today about the collections for Japan being made by the Salvation Army, Major Burrows, divisional commander, said that he expected returns from each corps officer on Wednesday and until then had nothing to give out.

DRAMATIC.

The opening of the amateur theatrical season in St. John will be on Oct. 16, 18 and 17 when "The Man from Home" will be presented in St. Yvan's Auditorium under the direction of John H. McCloskey of the Holy Trinity School fund. The Liquorist orchestra will play.

HALIFAX GYRO GOVERNOR.

Dr. H. L. Spangler was the speaker at the weekly luncheon of the Gyro Club at noon today. Homer Zwicker of Halifax, governor of the sixth Gyro district, was present and received a hearty welcome. W. Grant Smith was in the chair.

LAW FACULTY MEETING.

A meeting of the faculty of the law branch of the University of New Brunswick was held today at noon in the office of the secretary, Dr. J. Roy Campbell, E. C. The only business transacted was the appointment of a committee to arrange the subjects on the law exams, and apportion them among the lecturers.

START ON NEXT MONDAY.

The steel ties, which are to be used in the street car rails replacement on Main street from Portland street to Douglas avenue, are expected to reach the city before the end of the week. The camp followers of the N. B. Power Company officials that they have been shipped. The work of replacing the rails and putting down a six inch concrete base will be started next Monday.

SEEKING BOY.

It is thought that the lure of the lights was too much for Bernard Sutton of 10 Sydney street, 18 years old, and that he went away with some camp followers of the exhibition. It is believed that he went either to St. Stephen, Woodstock or Springhill, Nova Scotia. The only camp followers of the exhibition who were contacted by the detective department telegraphed to Woodstock, but nothing has been heard of yet.

JEWISH NEW YEAR.

The Jewish New Year is being celebrated here today and tomorrow. The feast started last evening at sunset and will continue until tomorrow evening at sunset. All Jewish merchants in the city have closed their places of business in connection with the observance of the feast. Special services are being held in the Synagogue at 8:30 p.m. in Carleton street by Rabbi S. B. Yampolski.

"GYM" WORK RESUMED.

The Y. W. C. A. gymnasium reopened for the autumn season yesterday and the prospects are declared bright for a successful term. It is expected that there will be about sixteen classes a week. The work will take in corrective gymnastics this evening. It will be under the supervision of the physical director, Miss Genevieve Richards. Owing to the fact that many city families are still in the country it is expected that the classes will not be up to full strength before October 1.

POSTAGE STAMP MACHINE APPROVED BY DEPARTMENT

Ottawa, Sept. 11.—The Post Office Department has approved the use in Canada of a machine that will print on mail matter the words "Canada Postage," the amount of postage prepaid and the date stamp. The printing will be in red and will be in the usual upright hand corner. As the postage on such mail matter will have been prepaid in cash, it will be delivered as well as forwarded free of charge.

THANKS CANADIANS.

Ottawa, Sept. 10.—An official telegram received today by the Japanese Consul-General from his home Government reads as follows: "The message of sympathy of the Canadian Government and people and their material contribution toward the Japanese relief has created a profound impression among the people of Japan now striving for rehabilitation after the unprecedented disaster in their country. The kindness of Canada so promptly manifested at this time is a source of deep appreciation and encouragement to them, and will be remembered forever in sincerest gratitude."

American "Timplat King's" \$40,000,000 Watched By All Europe At Princess' Death

YOUNG LEEDS AS HE LOOKED WHEN HE FLEW FROM CHERBOURG TO ATHENS TO HIS MOTHER'S BESIDE TWO YEARS AGO. INSET: MRS. W. M. B. LEEDS, JR. AND PRINCESS ANASTASIA.

LONDON—Princess Anastasia's \$40,000,000 estate left her by her former husband, William B. Leeds, the Cleveland "timplat king" will not pass into the hands of the Greek royal house, to rebuild their tottering fortunes according to the Princess' will. Several years ago the American "dollar princess" executed reports that her dollars were used to finance the attempt to replace King Constantine on the Greek throne.

She declared her interest upon a trust fund created by Mr. Leeds would pass to her son, married to Princess Xenia, Constantine's niece, and to their children, but would cease with the third generation.

MARITIME BOARD OF TRADE CONSIDERS IMMIGRATION MATTER

Union of 3 Provinces for British Organization is Urged.

Halifax, N. S., Sept. 11.—Vigorous discussion of Maritime Province immigration problems featured the opening session of the 26th annual convention of the Maritime Board of Trade which began its meeting in Halifax today. A resolution was introduced recommending that the three Maritime Province Governments should unite in establishing immigration agencies throughout Great Britain.

H. J. Logan, M. P., for Cumberland county made a spirited and emphatic appeal for the support of such a resolution, declaring that it was useless for the Maritime Provinces to expect to obtain any adequate immigration through the Federal Department of Immigration, as it is to the interests of both the Federal Government and the railways to divert immigration to the western provinces.

He suggested that the Federal Government give a bonus towards such an enterprise. Others in the resolution were Mr. Dennison, of Moncton; Dr. MacLaren, of St. John; Mr. J. S. Congdon, of Dartmouth; Col. A. Montgomery, President of the Halifax Board of Trade and Mr. Matthew Lodge, of Moncton. Col. Montgomery welcomed the Maritime delegates, and Captain J. E. Masters, president of the Maritime organization replied.

President's Address. In his president address, Capt. Masters said that he felt the Maritime spirit of unity had taken hold of the people and the impression was gaining ground that "we must work out our own salvation, that leaning upon governments was a fallacy, and our duty was to see that Governments do as we wish, not as they like, all within proper bounds, of course."

Relief Fund Will Exceed \$5,000,000

Washington, Sept. 11.—When returns from today are complete, the Red Cross Japanese Relief Fund probably will be far in excess of the \$5,000,000 mark set when the drive opened a week ago tomorrow. Overnight advices to headquarters here brought the total to \$4,855,000.

MONCTON TRANSCRIPT CHANGES.

Monday's Amherst News says: Several changes took place today in the Moncton Transcript staff. O. L. Barbour, formerly of the St. John Telegraph, assumed the position of editor-in-chief. He will occupy the desk of the late proprietor, John T. Hawke, and will write the editorials. Mr. Branscombe will be news and city editor and Mr. Parlee business manager.

Last Of Export Liquor Houses In N. B. Is Predicted

Action Expected At Government Meeting Tomorrow—Premier Will Not Comment.

(Canadian Press.) Fredericton, N. B., Sept. 11.—Passage of an order-in-council which will prohibit the operation after October 31 next of the export liquor houses now doing business in New Brunswick is forecast as one of the most important items of business on the programme for the meeting of the Provincial Government opening here tomorrow.

Premier Veniot ask whether or not it was the intention to pass such an order-in-council, replied that he preferred not to discuss the matter. "If any such order-in-council is passed you will hear about it after it happens," was his comment.

During the last session of the Legislature the Premier made a statement that with the conclusion of the present fiscal year the liquor export companies would be put out of business and that the act under which the province has collected license fees and a tax of \$125 per gallon from liquor exporters would be repealed. Since then the statement has been repeated and it is believed action in the matter cannot be delayed further if the wholesalers are to be given an opportunity of disposing of their stocks on hand, which it was said would be done.

Reunited Here After 54 Years

(Continued from page 1.) driver on the C. N. R., were down to the American boat on Tuesday of last week to greet him. Considering that it was 54 years since the son picked out a fresh-looking gentleman with white hair and upright carriage, upon whom time evidently had laid its hand heavily, and said to his father: "That's your brother?" He thought that he could see some resemblance to the other brother, Eliza, who had visited the Governor Dingley the son picked out a fresh-looking gentleman with white hair and upright carriage, upon whom time evidently had laid its hand heavily, and said to his father: "That's your brother?"

JAPANESE BANKS DOING BUSINESS

Order and Food Supplies Good, Says Official Report to Ottawa.

Ottawa, Sept. 11.—An official telegram giving general information regarding the Japanese catastrophe was received yesterday by the Japanese consulate-general as follows: "In spite of the wholesale destruction of the business districts in Tokyo and Yokohama, the maintenance of order and supply of foodstuffs are very good. Among the buildings left intact are several of the largest banks including the Bank of Japan, the branch office of the Yokohama Specie Bank in Tokyo, Industrial Bank of Japan, the Bank of Formosa, the Mitsubishi Bank and Sumitomo Bank."

"Since Sept. 8 these banks have been paying such small sums as are allowed by the moratorium. They are striving for the restoration of general business with the help of the Bank of Japan, which is again continuing the emission of its bank notes, and it is expected that the economic conditions on the afflicted districts will soon be restored."

"As business transactions among big concerns in Osaka and Kobe is reopened, the uneasiness throughout the country is gradually disappearing and the fear of a financial panic is averted. Many local exchanges including the Osaka Exchange are gradually re-opening their transactions."

Tokio Disease-Stricken. London, Sept. 11.—Typhoid and dysentery have broken out in Tokio, and there is great need for medical supplies, says a despatch to the Daily Express dated Sunday.

Distressing scenes are being witnessed daily as the foreigners and Japanese continue their search of the ruins for relatives. Many bodies are still lying in the streets. The British and U. S. embassies have established headquarters in the Imperial Hotel, which escaped demolition. The groups of foreigners marooned at Miyakojima, a summer resort in the Hakone district, have been rescued. Many Japanese have begun to build homes of some kind in order to protect themselves from the elements.

THE MAILS. Beginning September 9, 1923, mails will close and be due at this office as follows: Moncton, Sydney, Truro Halifax, etc.—Close 6 a. m., 12 M., and 9:30 p. m. Miss Harriet Melkjohn, director of public health nursing and of the St. John Health Centre, is in St. Stephen on business in connection with her work.

HEAR PRESIDENT OF MT. ALLISON

District Meeting of Methodist Church Opened in Carleton.

The financial district meeting of the St. John District of the Methodist Church was opened this morning in Carleton Methodist Church, with Rev. E. E. Stiles, president of the conference, in the chair. Scripture was read by the financial secretary, Rev. F. T. Bertram, and prayers were offered by Rev. Ernest Rowlands.

It was moved that J. Hunter White and R. Duncan Smith serve as the district financial committee and was passed unanimously.

In connection with the business of the district the following missionary grants were made: for Hampton, \$650; for St. Martins, \$610; for Wolford, \$700; for Long Reach, \$850 and for Jerusalem, \$882.

The pastor of Hampton Church, Rev. C. A. Ross, reported that the church at Passacook had been reopened, so that new there were preaching appointments instead of two.

One of the features of the meeting was an address delivered by Dr. G. Trueman, president of Mount Allison University, who made his first appearance at the St. John District meeting. Dr. Trueman spoke of the primary importance of a high spiritual influence in the life and work of the university. He assured all that he would in every way keep alive the close connection between the home life and the student life in the college and he asked the ministers on the circuit to do all they possibly could to strengthen his hand in this regard. He further spoke of the financial need of the struggling probationers and of the work of the university.

J. Hunter White in moving a vote of thanks and appreciation promised that in every way he would be upheld and supported in his new task. Rev. H. A. Goodwin seconded the motion.

Mr. and Mrs. Robert Lawson and daughter, Marion, of Raynes avenue, Fairville, left on Saturday for Boston, where they will visit at the home of their son, George Lawson, and Mrs. Lawson. Before returning they will also visit in Philadelphia, where they will be the guests of their son, Roland, and his wife.

Mrs. Henry Taylor and Mrs. Annie Stafford, of Lepreau, left on Monday to visit Mrs. Thomas Stafford, at Haverhill, Mass.

Mrs. T. Tobey, of New Jersey, is visiting at the home of her mother, Mrs. Charlotte Sweet, in Ready street.

LECONTE RISES 35,220 FEET.

French Filer is Believed to Have Set New Altitude Record.

Paris, Sept. 11.—Sadi Leconte, the French aviator, ascended to a height by which he is believed to have broken the world's record for altitude, held jointly by him and Lieutenant J. Macready. The first reading of his barograph at the Polytechnical laboratory showed that he reached a height of 10,741 meters, or 35,220.48 feet. The barograph will be examined again in five days before the result is accepted as official.

On Aug. 15 Leconte failed in his attempt to reach 12,000 meters, but he did reach a height of 10,518 meters, which tied the record of Lieutenant Macready.

A SIGN OF EARLY FALL.

Jersey Residents Report Migration of Meadow Birds as Omen.

Cape May, N. J., Sept. 11.—Thousands of meadow birds for the last three nights have been flying over the city on their way to the southlands. Old residents say that this is a sure sign of an early fall, as the meadow birds usually stay in New Jersey until the last of September. Amateurs here have been bagging big bags of yellowlegs, railbirds and other species. All night long the whistling of the birds can be heard in the air.

Captain Ellwood Bestead of the Cape May Point light house is at the Polytechnical laboratory showing the birds coming into this city report that the telegraph wires north of this city are clogged with thousands of swallows on their way south.

THIS MAY BE ESCAPED BOY

A lad who is supposed to be the boy who escaped from the Boys Industrial Home on last Saturday was found in the summer home of G. R. Andrews, yesterday and taken in custody by James Evans, police officer of No. 2 police district, Lancaster, but later set at liberty as Mr. Andrews did not wish to prosecute. He was not known at the time to be the escaped lad.

The boy was seen to enter the house about four o'clock yesterday afternoon by some neighbors. They notified Mr. Evans. He questioned the lad, who gave the name of Magee and said his home was in Strait Shore. Asked what he was doing in the house and so far from home alone, he said he had just wanted a day in the country. Mr. Andrews said as no harm had been done to the building and nothing was missing he had no wish to prosecute and last night the boy was placed on the train at Grand Bay to be brought to the city.

At the Boys' Industrial Home it was said this morning that a boy had been taken from the home since Saturday and the help of the police had been invoked to locate him. Some of the Morris people who saw the train taken from Grand Bay drew some sure he was the escaped boy.

Rug Effect Like Watered Silk

Priced so low they need no explaining, these seamless English Velvet Squares have this further attraction—the Jaspé streak background. On the motion of watered silk, but more noticeable, beige upon fawn. The myriad motifs take in touches of Rose and Golden to deep Brown.

PERSONALS

Mr. and Mrs. George W. Hill of Boston are visiting Mrs. J. A. Gillet, 23 Victoria street.

Mrs. William Pugsley left last evening for Montreal to meet Hon. Dr. Pugsley who left on Sunday evening.

Miss Dorothy Hunt, daughter of Mr. and Mrs. Donaldson Hunt, has returned to Wolfville, where she will resume her studies at the Ladies' Seminary, taking her course in household science.

George Scott, son of Mr. and Mrs. Ernest Scott, of Raynes avenue, Fairville, left last week to assume the principalship of the school at McAdam.

Mr. and Mrs. Ernest Scott, accompanied by their daughter, Miss Chic Scott, Mrs. Olive McCormack and Miss Nan Cowie, motored to Fredericton and spent the week-end with friends.

L. A. Atcheson, of Carleton Place, West St. John, is spending his vacation in Montreal and Toronto.

Miss Marlon Hanson, R. N., of the Victoria Hospital, Fredericton, who has been spending part of her vacation with her parents, Mr. and Mrs. Albert Hanson, Champlain street, left on Saturday evening for Boston to visit friends.

Mr. and Mrs. William Robinson and son, William, of Everett, Mass., who has been visiting at the home of Mr. and Mrs. James Robinson, Manawagush road, left on Saturday evening for Montreal, where they will spend the week-end with friends.

Miss Sadie Turner, of St. John, left last night for Watford, Me., to resume her duties as teacher in the school there.

Mr. and Mrs. Hollis Knox, of Lorneville, have removed to West St. John.

Miss Maude Cunningham, of West St. John, left on Friday night for a three weeks' visit in Montreal, Toronto and Detroit. At Detroit she will visit her brother, Charles.

Mr. and Mrs. Robert Lawson and daughter, Marion, of Raynes avenue, Fairville, left on Saturday for Boston, where they will visit at the home of their son, George Lawson, and Mrs. Lawson. Before returning they will also visit in Philadelphia, where they will be the guests of their son, Roland, and his wife.

Mrs. Henry Taylor and Mrs. Annie Stafford, of Lepreau, left on Monday to visit Mrs. Thomas Stafford, at Haverhill, Mass.

Mrs. T. Tobey, of New Jersey, is visiting at the home of her mother, Mrs. Charlotte Sweet, in Ready street.

CARROLL PLAYERS GIVE GOOD COMEDY

Present "Why Men Leave Home" Cleverly at the Opera House.

"Why Men Leave Home," a three act comedy from the pen of Avery Hopwood, was cleverly presented in the Opera House last evening by the F. James Carroll players.

It was a case of thoughtless, frivolous wives who spent the major portion of their time travelling seeking all kinds of pleasure, while their dissatisfied husbands remained at home.

Miss Preston, as Pifi Morgan, had excellent opportunity to demonstrate her versatility, for the role was different from any she has as yet appeared in before a St. John audience.

Miss Kilton, as Grandma Sutton, has a pleasing role and one which she handled most capably.

On the whole the play was a popular one and the clever manner in which it was portrayed won the admiration of all present.

QUEEN SQUARE HAS "DANGEROUS AGE"

Striking Picture of Family Life With Prominent Cast.

An excellent drama is "The Dangerous Age" John M. Stahl-First National attraction which began a two day engagement at the Queen Square Theatre yesterday.

The picture contains so many features worthy of favorable comment that it is difficult to point out the best.

Much credit is also due to Frances Irene Reids, the author, who has supplied a story eminently fitted for picture dramatization and containing many episodes of gripping power.

C. P. R. SUBURBAN ON FRIDAY NIGHTS

At the earnest request of a delegation of summer residents along the C. P. R., the passenger department has decided to extend the suburban service train run on each Friday evening.

In Fredericton yesterday Justice Crockett granted an absolute divorce to the plaintiff in the case of Alexander M. Seely against Cicely Muir Seely of Moncton.

COLLEGE NEWS The staff of the Standard Business College has been augmented by the addition of Eric Murray, late of Mount Allison University, who will look after several branches of the Commercial Department, including Commercial Law, of which he made a specialty.

Fire early yesterday morning destroyed lumber valued at \$15,000 in Port Elgin. C. H. Read of Amherst was the heaviest owner. A mill nearby was in great danger.

INQUEST INTO DEATH OF CHILD

The inquest into the death of George James, two and a half years old son of Mr. and Mrs. George P. James, 99 Broadview avenue was concluded in the Court House, Germain street, last night before Coroner A. F. Emery.

Alfie Ford, driver of the team, said the first intimation he had of any trouble was hearing some children scream. He stopped and picked up the boy and carried him into his home.

Evidence was also given by Dr. W. O. Chestnut, Dr. A. E. Loggie, George P. James, Mrs. Susan James and Detective Biddiscombe. The jury was composed of E. J. Todd, Dennis Burke, C. E. Parren, J. Murray, H. J. Keyes and I. Webber.

A party of five Swiss editors who have come to Canada on the invitation of E. W. Beatty, K. C., president of the C. P. R., arrived at Quebec yesterday. The Swiss consul-general to Canada and his family also were of the party.

Charles McIntyre, aged 58 years, of Sussex, sustained a broken leg yesterday at the St. Stephen Exhibition when a bull being unloaded from a car made a rush at him.

Young White had jumped a fence surrounding a pasture, when the animal, a prize bull owned by Mr. White, rushed with lowered horns.

The Evening Times-Star

ST. JOHN, N. B., SEPTEMBER 11, 1923

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by the New Brunswick Publishing Co., Ltd., J. D. McCann, President.

THE NATIONAL PORTS.

A Vancouver shipping man told the Royal Grain Commission yesterday that when the port serves the grain trade of the west as it should it will stand second only to New York.

THE TWO TRADITIONS.

The Canadian movement for greater recognition and support of Canadian authors comes the Manchester Guardian to cast a none too hopeful glance at our literary situation.

SAY NOT THE STRUGGLE NAUGHT AVAILETH.

(By Arthur Hugh Clough.) Say not the struggle naught availeth, The labor and the wounds are vain.

If hopes were dupes, fears might be base. It may be, in your smoke conceals, Your comrades chase e'en now the flies.

For while the tired waves, vainly breaking, Seem here so painful in their pain, Far back, through creeks and inlets making, Comes silent, flooding in, the main.

And not by eastern windows only, When daylight comes, comes in the light, In front the sun climbs slow, how slowly!

But westward, look, the land is bright! IN LIGHTER VEIN. Nothing But Trouble.

"Ever have any trouble with your automobile?" "Yes. Ever since I got it my wife's relatives have expected me to be their chauffeur."

Modern Complexities. "John, our new maid is leaving because we don't like the things she does."

"Good heavens! It's got so that one has to consider not only a girl's references but her preferences as well."

Not Much. "Name—I don't know whether I ought to recognize him in the city or not. Our acquaintance at the seashore was very slight."

"Made—You promised to marry him, didn't you?" "Name—Yes, but that was all."

Why Woman is So Changeable. "The early origin of the habit of forming good resolutions is shown in the fact that every time Eve changed her dress she turned over a new leaf."

The Right Job. "Two men passing down a back street saw a big fat man, soiled and untidy, sitting on a box eating off."

"That's a baker," said one man. "Get! what a dirty-looking chap to be a baker," said the other man.

"Oh, that's all right," responded the first speaker, "he's just the fellow, you know, that makes the brown bread."

A Four-Year-Old's Revenge. Little Jack had been so persistently naughty that mother just had to give him a good spanking, and all that afternoon a desire for revenge rankled in his little breast.

His Mistake. "The artist lit his pipe and rubbed his hands with satisfaction. 'Well,' he remarked, 'these illustrations are done and a good batch, too.'"

"But what have you illustrated?" inquired his good wife. "The 'Halls' and 'Wood & Pulp' are about to publish. You know I told you I had the order. Here is the volume."

"George, have you been drinking that horrid bootleg again?" "Whaddy's mean?" "This is a patent office report that some congressmen has sent you."

DIPLODOCUS ENDS JOURNEY

Sandstone Encased Bones Weighing 25 Tons Arrive for Museum.

Washington, Sept. 11.—Diplodocus, the gigantic 80 foot long reptile which roamed the swamps of what is now Utah, has just arrived in Washington.

The Times-Star quoted a few days ago a letter from Mr. Roscoe Fillmore, a New Brunswick man who has travelled five thousand miles through Russia since April, and who said life was as peaceful and secure there as in this province.

The Social Service Council of New Brunswick has passed resolutions urging the establishment of an industrial farm and a home for the feeble minded.

Whoever travels by motor car on the roads leading out of St. John realizes the need of some action to reduce the risk of tragedy.

The daily cables paint a harrowing picture of the suffering of the sorely stricken survivors of the earthquake in Japan.

For shipment of fossils were roughly hewn out of the stone, and much careful work will be required to move the remaining rock from around the fossilized bones.

WORLD TO GATHER IN LONDON TO TALK ABOUT ITS POWER

Result May be to Broaden Field for Investment of Capital.

(William E. Brigham in Boston Transcript.) Washington, Sept. 11.—America is preparing itself for its representation, including that of Canada, in the first World Power Conference to be held in London beginning July 1, 1924.

This is a novel undertaking; not a conference dealing with military or political power, but that derived from streams of finance—primarily a waterpower conference, as far as the United States is concerned.

Presumably this conference will be the first of many of its kind and it is hoped that out of their deliberations the field of capital investment will be materially broadened and the natural resources of any country on this and the other continents will be developed to the highest degree.

The conference will be held under the auspices of the British Electrical and Allied Manufacturers' Association.

The organizing director is D. N. Dunlop, 38 Kingsway, London, W. C. 2, whose energy and ability promise a gathering of the leading engineering scientists of the world.

The United States Government was asked to extend the invitation to delegates to the conference, but finally the matter came into the hands of G. C. Merrill, executive secretary of the Federal Power Commission, and since then a series of meetings has been held which has resulted in enlisting the interest of the leading engineering societies of the United States and the organization of an American committee.

which will insure a representation of this country in the forthcoming conference. In July, accompanied by J. B. Challen, director of the Water Power Branch of the Department of the Interior, Government of the Dominion of Canada, Mr. Merrill visited England, and incidentally France, and he has just returned from a mission which has proved highly successful in assisting in the preparation of a programme for the conference and other countries which already have secured the largest degree of American co-operation.

The vacation season is in full swing while the two Americans are absent, and the other representative occupying positions similar to their own with whom they conferred was that of Norway, nevertheless the conferences achieved very practical results.

In preparation for the visit abroad of Mr. Merrill an American executive committee already has been organized, of which the honorary chairman is Secretary of War Weeks, who also is chairman of the Federal Power Commission.

Other Countries Participating. Other countries are contributing groups of equal eminence in their respective fields. The president of the British Electrical and Allied Manufacturers' Association, the Earl of Derby, associated with him as vice-presidents and members of the grand council are 56 other gentlemen of the highest standing in the engineering and business world.

The Dominion Government will send a delegation as representative of that of the United States, and other countries which already have appointed national committees are France, Belgium, Italy, Norway, Sweden, Czechoslovakia, Denmark and Holland. Chile, Brazil, Mexico and some other American countries will be invited to send delegates.

Three Objects in View. The programme of the conference has been greatly simplified since the first tentative suggestions as to procedure were made and first world Power conference will concern itself almost exclusively with general questions of fundamental importance. No papers will be read during the conference, as all will have been published and distributed among the delegates before the delegates assemble. No papers will be made for a genuine conference, as the time will be given up wholly to discussion and not to the reading of documents, and it is hoped that the conference will accomplish its objects in a more practical manner than the first conference.

The first will be the collection of all available information regarding the natural resources, as to water-power and fuel, and the participating countries. During the Peace Conference Mr. Merrill was called upon officially to support the procedure of the conference, and it is expected that he will be able to find that no general fund of information upon this important subject was at hand.

The conference also will give the United States and other nations an opportunity to explain their laws and practices, and it is believed that here America can make a distinct contribution to the discussions, for probably in no other country in the world have the laws relating to power production been more highly developed than here.

To Make Investment Safe. Secondly the conference will afford an opportunity to disclose and set forth the conditions under which American capital may be safely and profitably invested in foreign water-power. At present the laws and practices of many countries respecting power development are more or less chaotic, or at least attempts to invest in power projects involve contracts with so many different bureaus and so much red tape that the investor often finds himself discouraged at the start. It is believed by the American delegates that aside from the possibility of governmental interference no sounder investment for capital can be found than in power projects, and this belief is confirmed by the fact that these projects held up wonderfully during the war and came back to normalcy quicker than many other lines of enterprise.

U. S. Leads in Legislation. Thirdly, and perhaps most important of all, the conference will give opportunity for the great engineers of the world to get together and become acquainted with each other's methods of their problems, exchange experiences and to unite in an effort to rid the power field of the governmental red tape which now hampers its development. It will be the purpose to devise ways and means, not only to protect money invested in power projects but to bring about cheaper rates for power, to do away with petty interference and to systematize the legislation affecting power production.

HOW TO END GANG MURDERS. (Syracuse Post-Standard.) London and Paris and Naples have gangs as murderous as are those of New York. But London and Paris and Naples do not have murders like the Kid Dropper's or funerals like his. The European gunman does not shoot down his enemy at the courthouse door in police presence, for he knows that he will pay the penalty surely and soon.

When Cohen boasted of his deed and posed for his picture he said that he would not get at the most five years up the river. The shame of that boast is that it was based on sound reasoning. Not one murderer in a hundred is executed in New York. The gunman can afford to take a chance.

The city of New York has one-half as many homicides as all of France. The city of Chicago has twice as many murders last year. Few of them were solved. The murderer was in most cases apprehended and arrested. It was in rare cases that one was convicted, and in rarer still that one was executed.

There will be an end to the Kid Dropper style of murder—a challenge to the State to punish if it can—and to all the other styles with which we are shockingly familiar, when punishment is certain, swift and sure. There will be no more gang wars, and what is more important there will be less readiness throughout the land to express revenge and hate with the gun. The means by which we may reduce our shocking homicide rate is as simple as it is certain. We have only to fulfill the spirit of the law when a letter to the chief of police is sent, and a copy to the law in the jury box, which refuses to consider the counsel of kindness and forgiveness. We need a loyalty to the law in public sentiment. Our criminal procedure does not differ greatly from England's. They have indiscrimination, but before a jury and an executioner. The murderer does not escape in England as he does here. He escapes here when you get down to cases because justice, which means the public, let him go.

New York is stirred by the cool audacity of its gangsters. It is so audacious that the district attorney actually hopes to get a first degree verdict against the murderer of Dropper. A first degree verdict and an execution—this is always followed by the other—would do more than hundreds of policemen on guard to destroy the gangs that prey upon New York, like bandits in the mountains of Mexico or China.

PROTESTS USE OF AMERICAN BOOKS

The use of United States text books in Canadian educational work was objected to at a meeting of the executive of the Montreal Branch of the Canadian Manufacturers' Association on Friday.

J. J. Harpell brought the matter up. He said that a number of books published in the United States were used to a great extent in different parts of the country. They appeared to Mr. Harpell to be quite misleading and contained little or no knowledge of Canada.

The matter will be discussed further at the next meeting. Another subject was brought up by W. S. Falls with regard to the practical training of the youth of Canada with respect to developing the potential wealth of the Dominion. It was felt that some effort should be made to secure better information as to the resources of the Dominion.

U. S. Leads in Legislation. Thirdly, and perhaps most important of all, the conference will give opportunity for the great engineers of the world to get together and become acquainted with each other's methods of their problems, exchange experiences and to unite in an effort to rid the power field of the governmental red tape which now hampers its development.

It will be the purpose to devise ways and means, not only to protect money invested in power projects but to bring about cheaper rates for power, to do away with petty interference and to systematize the legislation affecting power production.

HOW TO END GANG MURDERS. (Syracuse Post-Standard.) London and Paris and Naples have gangs as murderous as are those of New York. But London and Paris and Naples do not have murders like the Kid Dropper's or funerals like his.

The European gunman does not shoot down his enemy at the courthouse door in police presence, for he knows that he will pay the penalty surely and soon. When Cohen boasted of his deed and posed for his picture he said that he would not get at the most five years up the river.

The shame of that boast is that it was based on sound reasoning. Not one murderer in a hundred is executed in New York. The gunman can afford to take a chance.

The city of New York has one-half as many homicides as all of France. The city of Chicago has twice as many murders last year. Few of them were solved. The murderer was in most cases apprehended and arrested. It was in rare cases that one was convicted, and in rarer still that one was executed.

There will be an end to the Kid Dropper style of murder—a challenge to the State to punish if it can—and to all the other styles with which we are shockingly familiar, when punishment is certain, swift and sure. There will be no more gang wars, and what is more important there will be less readiness throughout the land to express revenge and hate with the gun.

The means by which we may reduce our shocking homicide rate is as simple as it is certain. We have only to fulfill the spirit of the law when a letter to the chief of police is sent, and a copy to the law in the jury box, which refuses to consider the counsel of kindness and forgiveness. We need a loyalty to the law in public sentiment. Our criminal procedure does not differ greatly from England's. They have indiscrimination, but before a jury and an executioner.

The murderer does not escape in England as he does here. He escapes here when you get down to cases because justice, which means the public, let him go.

New York is stirred by the cool audacity of its gangsters. It is so audacious that the district attorney actually hopes to get a first degree verdict against the murderer of Dropper. A first degree verdict and an execution—this is always followed by the other—would do more than hundreds of policemen on guard to destroy the gangs that prey upon New York, like bandits in the mountains of Mexico or China.

NEW DAM TO OBLITERATE HISTORIC ENGLISH VILLAGE

Derbyshire, Sept. 10.—The picturesque village of Derwent, with its dual seat dating back to the seventeenth century will be blotted out in the near future and the population numbering several hundred will be obliged to find fresh homes.

The village will be submerged by the construction of a dam in connection with the scheme of development of the Derwent Valley Waterboard. No systematic attempt is to be made to demolish any of the village buildings, and the chief of the village buildings, a fine stone mansion, Derwent Hall, a seat of the Duke of Norfolk which was built in 1672. A large sum of money will be paid to the owners of the property and for the hall alone the authorities have had to pay \$100,000.

Sunshine After Rain

The sky throws far the deep cold hue of Gray, which was such a torment to temperment. Drab Brown earth leaps to life-serving color. Nothing cheers like sunshine after rain.

A fair and honest comparison with the new clearness and color, and spur to released energy, that come as sure as the sun, when the right Glasses are ground and cut to correct the strains of modern eyes.

Four in every five of us have this unexpected experience coming.

An Electric Sun Bath When the Skies are Dull

AUTUMN blasts that find the crevices, and chill you to the marrow! Cold, driving rain that makes your rooms damp and dangerous. Not cold enough to have the furnace going, but too cool for health or comfort without any heat.

Wouldn't some radiant sunlight make you feel great? You can have it, though the skies are leaden. Anywhere in the house that you feel the need of clean, safe, healthful heat. The wonder-worker is a

Majestic Electric Heater

It is literally a portable sun-bath. The eight-foot cord of a Majestic Heater links it up with any wall or lamp socket, and you have unlimited "sunshine." When a sun-bath is required elsewhere in the house, a child can safely carry this seven-pound heater to another room. At small cost, you can have heat at any hour of the day or night. Many homes use more than one, with added comfort.

There's real economy in a Majestic Heater. Its use as a furnace substitute in the early fall and as a furnace auxiliary later on, will easily save its cost in coal. The best time to buy your heater is during

Majestic Week—September 10th to 17th

During this week you can make sure of having a Majestic Heater, for we, the manufacturers, guarantee delivery on all "Majestic Week" orders. Get your "Majestic" early—and begin to save fuel. Don't accept any substitute. The nameplate "Majestic" is on the front of every genuine Majestic Heater.

**GLASS JARS ARE BEST FOR CANNING**

Department of Agriculture Gives Advice to Housewives for Fall Preserving.

The approach of the Fall canning and preserving season has induced the United States Department of Agriculture to issue pamphlets of information for the benefit of those preparing fruits and vegetables for Winter use. Many hundreds of thousands of housewives know how to preserve food so that it will remain in excellent condition for a long time, but there are many who are not capable of testing containers so that blemishes in them may not cause the preserved food to spoil.

A study of the various receptacles for preserved food has convinced the experts of the department that for home use glass jars are more economical than tin, because they can be used repeatedly and, with care, will last for a long time. But the rubber rings must be new each season. It does not pay to use them a second time since the spoilage frequently resulting much more than offsets the cost of new rubbers.

"It must be remembered," say the experts, "that modern methods of canning constitute a much more severe test for endurance of rubbers than does the 'open-kettle' procedure, since the rubber now has to withstand moist heat for a number of hours in canning some garden products."

Stress is laid on the necessity of having the rubber rings of first rate quality. They may be tested, it is explained, "by inserting forefingers and stretching the ring. If the rubber cracks, or if it does not readily return to its former size and shape, it should not be used."

In case there should be difficulty in obtaining a good quality of rubber, certain tests are offered by which the rubber may be proved. A good rubber ring will be strong enough to stand the strain of seventeen pounds of a 6-inch piece should stretch the same distance without cracking or breaking. As to

the sort of jars that should be used the department says:

"The original type of Mason Jar seals with a screw cap usually made of zinc with the top lined with porcelain. This top sometimes becomes loosened and the cap is then difficult to clean and sterilize. Then, too, its edge may be bent in opening the jar, so that thereafter it fails to make close contact with the rubber ring. There are several improved types of the Mason Jar, among which is one which has a glass top fitting down onto the rubber ring and a metal ring which screws down over the glass top holding it in place. This jar needs no new parts from year to year except the rubber ring and it is easily sealed and opened."

There is also a wire clamp glass-top jar with a glass disk cover which fits over the rubber ring and is held in place by a wire clamp. Another type of jar referred to is the automatic seal jar which has large mouths and are

especially good for packing whole fruits of the larger variety and for those products which require only a short processing period. Concerning tin cans the experts say:

"They are advantageous because there is no danger of breakage, either during the process of canning or afterward, during storage and transportation. Then, too, the cans may be cooled

with cold water immediately after processing, which cannot be done with glass jars. The larger opening makes it easier to pack most products in the cans than in jars."

It is explained that in use at present are two types of cans. One type is the cap and hole can, much like the old-fashioned wax sealed cans, but is sealed with solder. The second type is the ordinary sanitary or rim-sealed can which is said to be rapidly replacing all other types.

"In canning most products," says the department, "which are highly acid, and a few others, such as pumpkin and squash (which contain certain corrosive substances) it is necessary to use cans which have a lacquered or enameled lining. This inside coating prevents to some extent any action of the fruits or vegetables upon the tin."

CANON ARMSTRONG HEADS SOCIAL SERVICE COUNCIL OF PROVINCE

Elected Yesterday at Meeting Which Issues Call for Reforms.

Important resolutions dealing with the care of children, prison reform and the enforcement of the gambling laws were passed at the annual meeting of the New Brunswick Social Service Council in its sessions yesterday afternoon and evening in St. John's (Stone) church when Rev. Dr. J. G. Shearer, general secretary of the Social Service Council of Canada, was present and gave informative addresses.

In the evening Dr. Shearer gave an illustrated address on the care of the mentally deficient, showing how in various institutions in Canada and the United States the problem is effectively handled.

Afternoon Session.

The afternoon session had an unusually large attendance and among those present from outside the city were: J. C. Mills, the president; Rev. J. D. MacPherson and Rev. George F. Dawson, of Sussex.

Committees were named to report at the evening meeting as follows: Nominations, Rev. H. E. Thomas, Miss C. O. McGivern, Hon. R. J. Ritchie, Rev. Neil MacLauchlan and Rev. A. L. Tedford.

The meeting appointed Rev. Canon R. A. Armstrong, Rev. H. A. Goodwin, Miss C. O. McGivern and T. H. Estabrook as a committee on arrangements for the dominion annual meeting.

Dr. Shearer asked the opinion of the meeting with regard to the proposal to make uniform the provincial Councils, so that each might be represented at an annual dominion meeting which would be held in the province.

The report of the committee on resolutions was presented by Rev. A. L. Tedford and was adopted, as follows:

1. That the budget be referred to the executive committee to be considered along with the question of unifying the Councils already referred to the executive.

2. That the Council of Social Service during the next session of the Legislature should press for the enactment of the law for the care of children born out of wedlock.

3. That the Council of Social Service should take up the matter of having some official appointed to look after the matter of under-privileged children who are wards of the province.

4. That the Council of Social Service should take up the matter of having some official appointed to look after the matter of under-privileged children who are wards of the province.

5. That the Council of Social Service should take up the matter of having some official appointed to look after the matter of under-privileged children who are wards of the province.

6. That the Council of Social Service should take up the matter of having some official appointed to look after the matter of under-privileged children who are wards of the province.

Baby Cutting Teeth Was Very Sick With Diarrhoea

When the baby starts to cut its teeth, especially during the hot weather, then is the time that the poor mother is under the stress and strain of great anxiety.

There is no remedy so safe and effectual for the teething complaints of infants, as Dr. Fowler's Extract of Wild Strawberry, no remedy that has had the endorsement of so many Canadian mothers during the past 78 years it has been on the market.

Plans for the observance of the church anniversary were made at the quarterly meeting of the official board of the Queen Square Methodist church last night.

The delegates appointed to attend the district financial meeting were Newton A. Rogers and Mrs. Belle Blizard, and their alternates, Mrs. E. A. Stephenson and Mrs. A. R. C. Rayworth.

Church Improvements. Reports of the progress made in renovating and re-decorating the Exmouth street church were presented at the quarterly meeting.

Centenary Meeting. The first chapter of the study book for the season, "Building a Nation," Mrs. C. R. Kinney, at the initial session for the season, of the Centenary church hall, with Mrs. C. F. Sanford, president in the chair.

Officers Elected. The report of the nominating committee was read by Miss A. O. McGivern and was adopted as follows: President, Rev. Canon R. A. Armstrong; secretary, Miss C. O. McGivern; treasurer, T. H. Estabrook.

Resolutions Adopted. Rev. H. A. Goodwin presided at the evening session and Dr. Mabel Hanington expressed the regrets of Hon. Dr. W. F. Roberts at his inability to attend.

HEMORRHOIDS. Do not suffer another day with itching, burning, or protruding piles or hemorrhoids. No surgical operation required.

BEECHAM'S Sweeten the Stomach PILLS. Do not suffer another day with indigestion, flatulence, or other stomach troubles.

MUTT AND JEFF. TRY A BOTTLE OF PEPPLO, MISTER! IT'S THE GREATEST TONIC IN THE WORLD!

A few drops of Absorbine Jr., to an ounce of water, makes a Mouth Wash that will free the teeth of injurious germs.

ABSORBINE JR. is pleasantly aromatic and leaves the mouth feeling clean, cool and fresh.

EAST ST. JOHN COMMUNITY CLUB

The matter of fire protection was discussed by the East St. John Community Club, last night when they resumed their fortnightly meetings.

Attention was drawn to the fact that since the new road was completed from Kane's Corner to Little River there was a tendency on the part of automobile drivers to use the road as a special-way.

The new road was the subject of much favorable comment and the club decided to send a letter of appreciation to the public works department at Fredericton.

That he would give careful consideration to an invitation from the St. John Canadian Club to address them, was the reply received by the secretary of the club from the secretary of Hon. David Lloyd George.

The executive of the New Brunswick Graduate Nurses Association met last evening to make arrangements for the annual convention to be held in Woodstock on September 18 and 19.

Multitudes Use and Praise this Great Remedy

STOMACH, liver and bowel troubles are the universal ailments. Nearly everybody is troubled with indigestion, dyspepsia, sluggish liver and constipation more or less, and it has been said that 80% of all human ills originate in the digestive tract.

From Canada to the Gulf DRECO is the favorite remedy for these ailments because it is tried and proven. Millions have used it with satisfactory results. Never has any medicine so justified the people's faith.

DRECO is made of twelve of the world's best medicinal herbs, roots, barks and leaves used for centuries in cases of this kind. It is purely vegetable—absolutely harmless—safe for children—can be taken freely.

DRECO is being specially introduced in St. John by Ross Drug Co., 100 King Street; Moore's Drug Store, 105 Prince Edward Street; F. W. Munro, 327 Main Street; and in West St. John by Watson R. Dunlop. It is also sold in Fairville by T. H. Wilson.

## TOTAL OF \$226,000 BEQUEATHED BY THE LATE PRESIDENT HARDING

Will Filed for Probate—His \$100,000 Estate Left to Widow.

Marion, O., Sept. 11.—Requests totaling \$226,000 were made to relatives, life-long friends, churches and the Marion Park Association by President Warren G. Harding under the terms of his will filed for probate here.

Mrs. Florence Kling Harding was left a life estate of \$100,000 in Government bonds, the east half of the building now occupied by the Marion Star, the Harding home on Mt. Vernon avenue, with all personal property there, with the request that Mrs. Harding give to each of the three sons of Dr. George T. Harding, Jr., of Columbus, brother of the President, a finger ring and watch.

Dr. George T. Harding, father of the President, was left a life estate of \$50,000 in Government bonds and the home where he resides. At Dr. Harding's death the home is to revert to Dr. Harding's son and three daughters.

The President made a stipulation that "no part of my estate shall be expended for a monument other than a simple marker at my grave."

The President left to Mrs. Harding "All dividends that accrue from and are paid on my entire stockholdings in the Harding Publishing Company." Mrs. Harding directed that it be left to Mrs. Harding's judgment "the bestowal of gifts, souvenirs, mementoes and any other articles of value to any society, organization or person she may see fit."

The two grandchildren of Mrs. Harding, Jean DeWolfe and George DeWolfe, are left \$2,000 each under the will.

To his three nephews and one niece, children of Dr. George T. Harding, Jr., the President left \$10,000 each.

Three old employees of the Marion Star, the newspaper formerly owned by Mr. Harding, are left small gifts, a mark of appreciation of the faithful service rendered." George H. Van Fleet, managing editor, was given \$2,000, Henry Schacht, treasurer, \$1,000 and James C. Woods, circulation manager, \$1,000.

Trinity Baptist Church, of which Mr. Harding was a trustee, was left \$2,000 and St. Paul's Episcopal Church, which stands next to the Star office, was given \$1,000.

The sum of \$25,000 was left to the Marion Park Commission, "to be applied in the creation of some permanent improvement to be determined by the commission and to be created in any one of the three parks in Marion. Residue to Brothers and Sisters.

All the residue of the estate is left to Mr. Harding's three sisters, Mrs. Carolyn Votaw of Washington, Mrs. Charity M. Remberg of St. Anne, Calif., and Miss Abigail Harding of Marion, and to his children, Dr. George T. Harding, Jr., of Columbus, "share and share alike," and "in the event that my sisters or brother should not survive me, but my children, and my children's children shall receive their parents' share."

## HOT SPRINGS MAY HEAT WHOLE OF ICELAND?

Plan Is to Pipe Hot Water a Mile Into Buildings of Reykjavik.

Bergen, Norway, Sept. 11.—Iceland authorities are considering utilizing the natural hot springs and geysers for heating the whole country. The famous geysers are situated about a mile from Reykjavik, the capital city, and have long been used by Reykjavik housewives as a free laundry and hot water supply.

According to the preliminary plans, the waters from the springs will be brought into the city through wooden pipes and piped into the buildings. The waters from the geysers and springs are both sulphurous and radio-active, and it is the hope of the city fathers that some future time may see the establishment of a medical spa in the Arctic. The wash houses which now surround the geysers are used by the inhabitants as baths and laundries and are entirely heated by the hot water.

## Montreal Reduces Infant Mortality

Dr. Boucher Says Pasteurization of All Milk Will Further Help.

(Montreal Star.)

A steady decrease in the number of children who die under one year of age is recorded in the figures for the current year as compared with that of previous years, according to the report prepared by Dr. S. Boucher, Director of Public Health, dealing with infant mortality. For the four weeks from August 4 to September 1 there were 220 deaths of children under one year of age, as compared with 258 for the corresponding period of last year, 216 for August 1921 and 404 for August 1920. The total deaths of infants since the beginning of this year to the end of August was 1,487, while for the same period last year it was 1,608, in 1921 it was 1,844 and in 1920 it was 2,438, so that, taking the figures for the eight months, there was a decrease of 116 last year, 214 over 1921 figures and 941 less than 1920 for the same period.

Dr. Boucher expressed satisfaction at the steady decline in infant mortality in the city but said the health authorities would not be satisfied until the mortality had been brought down to 10 per cent of births. Last year it was 15.9 per cent, so there was still much to be done in educating mothers in the care of their children. In 1918 the infant mortality rate was 21.5 per cent, so there was some encouragement, but he was convinced they would not gain success until mothers were willing to nurse their children. The majority of them could do so but were not doing so. The campaign of education among mothers was being steadily carried on, and this, coupled with the pasteurization of all milk consumed in the city of Montreal—which he had often recommended and still believed in the interests of health—would steadily decrease the number of children who died before reaching the age of twelve months.

## Tomorrow Will Be 50th Anniversary of Typewriter

Was Invented in 1873 and First Made in Iilon, N. Y.

On September 12 of this year the typewriter will be fifty years old and the event will be fittingly commemorated at its birth-place, Iilon, Herkimer County, N. Y., by a celebration attended by notable personages from all over the country. One feature of this celebration will be the unveiling of a memorial to the inventor of the writing machine.

"The inventor of the typewriter? Who was he?" This is the question that most people will be likely to ask. By the same token, if this anniversary celebration does no more than rescue the name of this great inventor, Christopher Latham Sholes, from its present obscurity it will have served a useful purpose. But the fiftieth anniversary of the birth of the typewriter is deserving of world-wide commemoration on other grounds, for it is hard to name any other invention of modern times which has played so commanding a role in the shaping of business destiny. The same may be said of social destiny also, for it was the typewriter which opened to women the doors of business life and thus enabled them to achieve economic independence, complete emancipation.

Considering the magnitude of the service that the typewriter has rendered to the modern world, it is surprising how little has ever been printed concerning its history. In this connection the Herkimer County (New York) Historical Society which is conducting all of the arrangements for the fiftieth anniversary celebration has rendered an important service by publishing an illustrated book entitled, "The

## BAD PATCH OF ECZEMA ON CHIN

In Rash, Itched and Burned. Cuticura Healed.

"I had a very bad patch of eczema on my chin. It broke out in a rash and was very troublesome, itching and burning a great deal. I lost my rest at night on account of the irritation, and my face was disfigured for the time.

"I tried many different remedies without success. I began using Cuticura Soap and Ointment, which brought relief right away, and after using two cakes of Cuticura Soap and two boxes of Cuticura Ointment I was completely healed." (Signed) Miss Mary Campbell, Big Pond Centre, Nova Scotia.

Use Cuticura Soap, Ointment and Talcum exclusively for every-day toilet purposes.

Sample Each Free by Mail. Address: "Cuticura," 154 St. Paul St., W. Montreal, Que., P. Q., Canada. Cuticura Soap always without cost.

## GOOD YEAR WINGFOOT CORD

Story of the Typewriter," which contains in compact form all of the essential facts in the history of this great invention.

It seems that the first man to conceive of the idea of mechanical writing, so far as historical records show, was Henry Mill, a British engineer who flourished in the reign of Good Queen Anne. His patent bears the date of 1714, but he never built even one machine, so far as we know, nor did anyone else for a period of more than 100 years thereafter.

The first American patent was taken out by William Austin Burt of Detroit, afterwards better known as the inventor of the solar compass. Burt's attempts became more numerous, including Projean's in 1833, Thurber's in 1843, Eddy's in 1850, Beach's in 1856 and at least a dozen others during the following ten years. The need for some means for more rapid writing had been constantly growing and every year more men with a mechanical turn were giving serious thought to the problem, but all of these early machines were too slow for practical use.

First One Is Made.

The first practical typewriter was the invention of two residents of Millis, Mass., Christopher Latham Sholes and Carlos Glidden who began their invention labors in 1867, but it was six years before they were able to produce a machine which was deemed sufficiently perfected for manufacture. In the meantime an interest in the enterprise had been purchased by James Densmore, a practical man whose confidence in the future of the machine was unbounded, and it was his invincible faith which encouraged Sholes to persevere in his enterprise. Early in 1873 Densmore brought the inventor's model to the gun works of E. Remington & Sons, at Iilon, N. Y., and succeeded in persuading the Remingtons to undertake its manufacture. The actual manufacture began on September 12th of the same year, the fiftieth anniversary of which date is commemorated in the approaching celebration. The first completed machines were ready for sale early in the following year.

The new machine, however, had a long road to travel before the world became convinced that it was a real necessity in modern business. Mark Twain, one of the first purchasers, called it a "curiously breeding little joker." The average person objected to the idea of paying \$125 for a writing implement when pens could be bought for a penny, and to convince the world that the new invention was worth its price as a time and labor saver was a toilsome work of education. There were no trained operators or any systematized means for training them, for the commercial school, as we know it today, was a later creation of the writing machine. In spite of these

## MYSTERY SURROUNDS BABY DESERTED IN PEKING STREET

Peking, Sept. 10.—Attracted by the wailing of an infant, a pedestrian turned aside into a cemetery outside Hsichimen, one of the principal western gates of Peking, and found a new-born child wrapped in red silk and with a silken cord about its neck.

An envelope attached to the cord contained \$200 in cash and a note asking the finder to use the money for the care of the youngster. The finder was further instructed to appear at a certain place, Wofian, on July 15, three years hence, when, the note said, he would meet with good fortune.

## Kellogg's Bran is prepared to do one thing—AND DO IT WELL!

Kellogg's Bran will permanently relieve constipation, mild or chronic. It is scientifically prepared for that purpose. It is ALL BRAN, therefore it has the necessary bulk to assure results. Foods with a small bran content cannot afford permanent relief.

When your physician or friends advise you to eat Kellogg's Bran, you follow on for the purpose of eliminating a dangerous clogging-up and toxic condition of your system. You can't afford to take half-way measures! Think of the lost time and the dangers of illness you are daily doing!

Try Kellogg's Bran mixed with a hot cereal, or cook it with hot cereals, adding two tablespoonsful of Bran for each person. Other popular ways are to sprinkle Kellogg's Bran on hot or cold cereals or to eat it as a cereal with hot milk. You can make delicious bakery products with Kellogg's Bran. Recipes on every package.

What you must have is real bran—KELLOGG'S BRAN, and if you will eat it regularly each day you will become a different person within a week or so. Kellogg's Bran, with its natural bulk, sweeps, cleanses and purifies. It not only gives relief, but it regulates the bowels. Every member of your family should eat it—every day—at least two tablespoonsful in chronic cases as much with each meal.

Kellogg's Bran is not only nationally sold in grocery stores, but can be had in individual packages in first-class hotels and clubs. Ask for it at your restaurant. Be certain to eat Kellogg's Bran daily for health's sake!

## True Beauty Is impossible to those who leave film on teeth

Prettier teeth form one great beauty item. And millions now enjoy them. Every day they are combating the dingy coats of film.

This offers you a ten-day test of the method they employ. It is used by dainty people of some 50 nations now. And you will always use it when you once see what it does.

That cloudy film

The clouds on teeth are due to film—that viscous film you feel. Much of it clings and stays on teeth under old-way brushing.

Soon that film discolors, then forms dingy coats which hide the luster of the teeth.

Film also causes most tooth troubles. It holds food substance which ferments and forms acid. It holds acid in contact with the teeth to cause decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Hardly one in fifty, in the old days, escaped these film-caused troubles.

New-day methods

Dental science has now found two ways to fight that film. One acts to disintegrate the film at all stages of formation. The other removes it without harmful scouring. These methods were proved effective by many careful tests. Then a new-type tooth paste was created to apply them daily. The name is Pepsodent.

Now that tooth paste is in worldwide use, largely by dental advice. Wherever you go you see the benefits it brings.

Natural ways

Pepsodent acts in natural, gentle ways. Its effects do not come from harsh grit.

Pepsodent multiplies the alkalinity of the saliva, also its starch digestant. One is to neutralize mouth acids, the other to digest starch deposits. These great natural tooth-protecting agents gain manifold power from each use.

Pepsodent will bring you a new conception of what clean teeth mean. Send for this 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth become whiter as the cloudy coats disappear.

Do this for your own sake and your family's sake. Cut out the coupon now.

Protect the Enamel

Pepsodent disintegrates the film. Then removes it with an agent far softer than enamel. Never use a film comb that contains harsh grit.

10-Day Tube Free

THE PEPSODENT COMPANY Dept. T, 191 George St., Toronto, Ont. Mail 10-Day Tube of Pepsodent to Only one tube to a family.

## A VALUABLE BOOK

The Canadian Manufacturers' Association has just issued its Canadian Trade Index for 1923-24. In the introduction we read:

"The primary aim of the publishers has been to provide all buyers of Canadian manufactured goods, in whatever country they may be, with a dependable list of the articles made in Canada and the names of the manufacturers making them. In this edition, with the co-operation of the Department of Trade and Commerce, Ottawa, there has been added a list of exporters of a wide variety of agricultural products, in a separate section.

Approximately twelve hundred new headings have been added to this new edition, many of them descriptive of goods not previously made in Canada, and, despite the trying times of the past two years, the Index includes for the first time the names of over two thousand new manufacturing firms, the total now reaching 10,500."

The book also contains a list of the Canadian Trade Commissioners and British Consuls. The produce export section gives an extended list of exporters of fruits, dairy products, live stock, eggs, poultry, fish, grain, hay, potatoes and seeds. It is not a complete list, but of much value. There is also a list of forty leading industries, showing cost of materials and gross value.

The Trade Index is a very comprehensive book of nearly 900 pages, and should prove of great value in connection with the extension of Canadian trade. It is supplemented by the services of the Commercial Intelligence Department of the Association, which maintains a monthly revision of information schedules for the benefit of all enquirers.

## Mustard tops off the meal

However good the beef, the mutton, the ham, the sausages at lunch or dinner, the meal falls short of perfection unless you add the saving touch of mustard. Mustard brings out the flavor, aids digestion, and adds a pleasant zest, all its own.

AMATEUR SPORT TO BUILD NATION

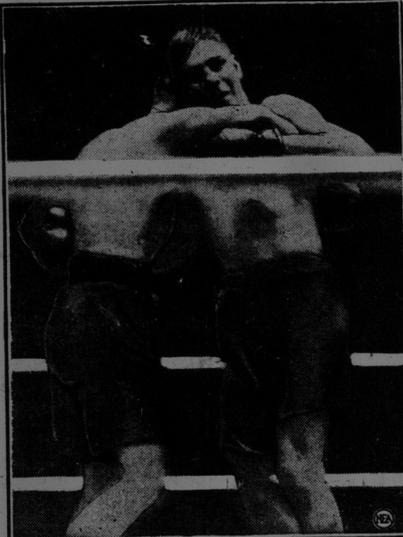

Feeling of Concord the Most Impressive Feature of Congress in Paris.

(Robert Harron in Boston Transcript.) International sport has progressed to a position from which it should wield positive power in the establishment of concord among the battle-weary nations of Europe.

"It was one of the most impressive scenes I ever have witnessed," Captain Macabe declared today, "to see the representatives of millions of young men in the various nations deliberating together for the betterment of amateur sport."

"Throughout the entire Congress, there was a spirit of concord and of good feeling that must bode well for future international amity. Toward

Greb Wins

Harry Greb smiles in the nineteenth round of the fight in New York in which he won the middleweight title from Johnny Wilson. This gives a good idea of what the fight was like—a 15-round war.

former enemies as well as toward former allies good feeling was evident. It is even probable that steps will be taken in the next meeting of the Congress at Paris next June to re-admit Germany to the Olympic Games."

European Nations Enthusiastic. "One of the most effective steps taken by the congress was the decision to have representatives of active athletic ruling bodies in the various countries direct the games rather than political dignitaries of the home country."

"The pictures also will be used to distinguish the winners in the various track events, in which they should prove of inestimable value. But their chief utility, the Congress believes, will result from their distribution throughout the various countries which have still much to learn about athletics. The pictures will be made of the leading sprinters, hurdlers, broad jumpers, shot-putters and stars in the other events. They will then be distributed throughout the competing nations and I believe that they will constitute the most effective step taken in a world-wide programme of body building."

Use Fifth of Second Watch. "As for the use of the pictures at the finish, plans will be made to develop the pictures within a half-hour after the finish of the race and the

winner in even the closest finishes can thus be determined without doubt. As to timing, it can be stated definitely that the fifth of a second watch will be used. Gaston Vidal, the French director of athletics, is hopeful that the Technical School of Paris, which is working on the project, can develop an effective tenth of a second watch, but it is generally believed that the present tenth of a second watch is satisfactory and that a satisfactory one will be developed in time for the next Olympics."

Interest in the approaching Olympic Games is at a higher pitch in Europe than has ever been the case before. Captain Macabe reports, confirming other impressions received before. He reiterates that America faces the most difficult task it has yet encountered to retain the world leadership in amateur sport.

FIRE DESTROYS THE CLUBHOUSE AND STANDS OF ATLANTA CLUB

Atlanta, Ga., Sept. 11.—Ponce de Leon Park, the home of the Atlanta Southern Association Baseball Club was visited by fire recently, and the clubhouse, grandstand and bleachers destroyed. William (Bill) Sticker, the club's assistant secretary, was asleep in the club house and was burned so seriously before firemen rescued him that he had to be sent to a hospital. The loss was estimated at from \$50,000 to \$100,000. It included the uniforms of two umpires and the Atlanta and Chattanooga players.

If you have ambition without energy, you will get about as far as a locomotive without steam.

ALBERT SCHOOL USED TO CAPACITY

Overflow of Pupils to Old Building Meeting of Trustees.

A report that the new Albert school on the West Side was already filled to capacity and a request from the trustees of the Beaconsfield school for the privilege of sending their pupils to the manual training and domestic science classes in the new Albert school, were items of interest before the Board of School Trustees last evening.

The meeting called to order by the chairman, Hon. H. A. McKewen. Others present were trustees, G. H. Green, Mrs. D. P. Chisholm, Mrs. E. R. Taylor, H. Colby Smith, E. R. W. Ingraham, Thomas Nagle, A. McIntyre and S. A. Worrell, and the secretary, A. G. Levesque.

An Application. A communication from the Beaconsfield School Board asking that instruction in domestic science and manual training in the west side city schools was received.

The report of the manual training committee showed that contracts for the building had been let to the following: Vaughan Electric Co., Ltd.; W. H. Thorne & Co., Ltd.; J. & A. McMillan, Ltd.; T. M. Kelly & Son, Ltd.; Manchester, Robertson, Allison, Ltd.; Halsey Bros. & Co., W. Tremaine Gard, and the St. John Show Case and Desk Co.

It was decided to pay the committee of the Protestant Orphan's Homes \$400 a year for rental for rooms in the west side in the Wright street homes, which had been used for school purposes. The rental is to date back three years.

The report of the committee on retarded pupils was received. The teachers who had received special instruction had been visiting schools and seeing the pupils recommended to them by the medical inspector, Dr. Hanington. The chairman explained that since the opening of the special classes during the summer, an allowance of \$165 had been given each. The expenses had been slightly in excess of the amount provided for.

The chairman also reported that the expense accounts as submitted by the teachers were very moderate. It was decided to have the amount for the year paid in advance.

It was also reported that Gilbert M. Robinson had been appointed inspector and weigher of coal. He was to be given twenty cents a ton for coal weighed on his own scales and ten cents a ton on other coal. The action of the committee was approved.

Coal Inspector. It was also reported that Gilbert M. Robinson had been appointed inspector and weigher of coal. He was to be given twenty cents a ton for coal weighed on his own scales and ten cents a ton on other coal.

Letters of appreciation were ordered sent to the teachers who had arranged for the exhibit of manual training and domestic science at the recent fair. Mr. McIntyre said that the exhibits had been exceedingly creditable and he thought they were the features of the exhibition.

The meeting then resolved itself into a teachers' committee and reports on the arrangements of the classes in the various buildings were received.

CHIGNECTO IN

The R. M. S. P. liner Chignecto, Captain J. Green, arrived in port yesterday afternoon about 5.30 o'clock from Bermuda and the British West Indies, and docked at the Pettigill wharf. The ship brought 171 passengers, the mails and a large general cargo. The passenger list was composed of 71 first class and 99 second class, of this number 78 are en route to the United States, 82 to Newfoundland, 18 Chinese for Hong Kong, and 50 for Canada. The party bound to Montreal have been engaged in Bermuda on the construction of the new hotel for the Furness Withy Steamship Company.

Miss Margaret O'Brien, daughter of Mr. and Mrs. J. L. O'Brien, of Main street, Fairville, is being congratulated on winning the first prize for original work in charcoal drawings at the St. John Exhibition. Miss O'Brien is a pupil of Sister Columba, of Mount Carmel School, Mount Pleasant, and is showing great proficiency in her art.

Fears are entertained for the safety of Miss M. Winifred Hall, who has been spending the summer in Japan and from whom no word has been received since the disaster. She was to have sailed from Yokohama on the day of the disaster but the latest word from her was that her plans had been changed and she would sail from Shanghai. Miss Hall is a niece of Mrs. C. H. Fairweather.

ST. JOHN MEN AND THE OLYMPICS

St. John will be represented by nine athletes in the Dominion championships track meet which is to be held in Halifax on Friday. In the sprints there are four local entries. Charles Gorman, Frank Campbell, Drew Mulcahy and Garnett. Maynes will compete in the 440 yards, Winchester in the mile and Monteth in the mile and a half. Ke will compete in the one mile walk and Sprague in the five mile race.

One problem has to be met before the boys leave, the raising of funds to pay their expenses. The athletes who went to Charlottetown had to pay part of the bills themselves and it is not desired that they should have to dig down into their own pockets again this time. About \$200 is necessary to finance the trip. Of this only \$28 has been raised up to date. \$8 was produced at a benefit ball game, \$10 was donated by the Dominion Rubber Company, and \$10 by a citizen who wished his name withheld. Those wishing to help out should telephone Frank White, and a man will be sent to them to receive their contribution.

BRUNSWICK CHAPTER, I.O.D.E.

The Brunswick Chapter I. O. D. E. has arranged to present the nucleus of a circulating library to the community of Lower Jemseg. The enterprise is a new one and it met with the hearty approval of the chapter, when it convened yesterday for the first meeting of the season. The meeting was held at the residence of Mrs. W. I. Fenton, with the regent, Mrs. Herbert Wetmore, presiding and there was a large attendance. As educational secretary, Mrs. Fenton reported on having presented eighteen patriotic pictures to the new Albert school and four prizes to pupils in the two classes of grade eight. She also told of sending to Lower Jemseg the thirty-two volumes which had been given by the members to help establish a community library in that district. Mrs. Fenton made an appeal for assistance in sending books to disabled soldiers in rural districts and this appeal was heartily endorsed. Mrs. Harold Mayes, as convener of the relief committee, told of much that had been done along that line during the summer months.

Miss Menklohn wrote to thank the chapter for its gift of \$35 for the Lady Byng day camp and to ask support for the St. John Health Centre. The meeting voted \$50 to the Health Centre. Plans were made for holding the Halloween tea and sale, which is an annual event.

The members were delighted to welcome Mrs. W. E. Earle, who has been absent from the city for some time. After the business was finished, a social hour was enjoyed and refreshments were served by Mrs. Walter Dougherty, Miss Jennie Clark and Mrs. W. I. Fenton.

More Than He Bargained For. "Sir, will you allow me to marry your daughter?" "I'll go farther than that, my boy. I'll come and live with you."

BARNEY MOONEY LEADS BATSMEN

Markham Next in Hitting Honors in League Play-off.

Barney Mooney led the regular batsmen in the championship series between Fredericton and St. Peter's in the Two-League, with an average of .417. Markham was second with .393, closely followed by Kenyon and Dean, of Fredericton, with .384 and .379, respectively. The locals had eight men in the .300 class and the Capital boys but five; but Fredericton as a team lead both in batting and fielding. The averages:

Gates will open at 4.30 p.m.

Papyrus Will Travel In Style

Air Cushions Will Surround British Colt on Atlantic Voyage.

London, Sept. 11.—When Papyrus crosses the Atlantic to race the champion U. S. three year old he will travel in a specially designed compartment in the lower decks of the liner Aquitania. This luxurious stall will be lined on all sides with huge air cushions in order that the Derby winner may make his ocean voyage in comfort, whatever the weather may be. Papyrus will even sleep on an air cushion, for his owner, Ben Irish, believes that an ordinary bed of straw might not be comfortable enough for his great thoroughbred.

The colt's luxurious compartment, together with the accommodations for his trainer, attendants, food supply and special water tanks, will occupy space equivalent to the area of a dozen first class passengers. It is calculated that the cost of transporting the aristocrat of the English race track will amount to more than \$10,000. Bar Gold, Papyrus' stable mate will make the trip in the same compartment.

Zey Not Badly Hurt.

New York, Sept. 11.—Zey, star three-year-old will be off the track for a time due to the loss of the frog from his off forefoot. The little triangular piece of cartilage which grows a little back of the middle of the sole of the foot scuffed off near the Lawrence Realization which he won last week.

The injury is not permanent, and, according to Zey's trainer, will not keep him from running in the international match race with Papyrus, Derby winner, if he should be chosen for that honor.

At present it is raw and painful, but three weeks should bring it around to normal.

Giants Strengthen League Leadership

Pirates Again Place Cincinnati For Second Place in National.

New York, Sept. 11.—The Giants in a leading race yesterday advanced their lead in the National League to five and a half games by knocking the Boston Braves around the lot for a score of 10 to 4. The Pirates, by shutting out the Reds, 8 to 0, regained second place, leading the Cincinnatians by a half game.

In the Cincinnati game "Specs" Meadows allowed seven hits, as did the Red moundsmen, Donohue and Harris, but he kept them so scattered that they amounted to nothing. Donohue was exceedingly wild, forcing two runs over in the fourth frame by his misdirected hurling. In this session the Pirates pushed over six runs with the aid of only one hit.

The Brooklyn Robins trounced the Phillies in spectacular style, winning 7 to 1 in a hard hitting battle. Pete Behan was driven from the box in three innings by a series of five closely bunched hits and a pair of bases on balls.

Ruth Ties Williams.

In the American League the Yankees and the Red Sox were the only teams to dig the turf, and the Red Sox didn't want to; not after a few innings of hurling by Sad Sam Jones, who allowed only two Red stockings to hit safely. Babe Ruth again tied Cy Williams for the home run honors when he banged out his 38th. Yesterday's victory was the third straight the Yanks have taken from Boston.

Injuries To Both Ends Ring Contest

Billy Wells And Jimmy Jones Topple From Ring in Sixth.

St. Paul, Minn., Sept. 11.—Injuries to both contestants in the sixth round ended the scheduled ten round no decision bout between Bernademy Billy Wells, of London, Eng., and Jimmy Jones, of Youngstown, Ohio, welterweights, here last night.

After a fast exchange of infighting in the sixth Wells and Jones fell through the ropes. Wells struck his head, cutting a gash and injuring his back, and Jones slightly hurt his left leg. The boxing commission's physician declared Wells would be unable to continue.

Both men were out of the ring for more than ten seconds and the referee called the match no contest without making a count.

Entries From Ont. In Canadian Track Champs At Halifax

Toronto, Sept. 11.—For the first time since pre-war days Ontario is to be represented at the Canadian track and field championship, the cream of the athletes of the province having been entered in the various events for Dominion titles, which are being held next Saturday at the grounds of the Wanderers A. C. of Halifax.

The Ontario athletes will leave for the east tonight. They will be under the eye of Captain Cornelius, who for the past two years has been making a record as coach of the Hamilton Collegiate Institute.

The following are making the trip: H. Aylwin, Hamilton Collegiate, half mile run; A. T. Christie, B. C. L., quarter mile; Ralph Barnes, mile and running high jump; Victor W. Pickard and I. E. Frances, pole vault, from the Hamilton Y. M. C. A.; Jack Histed, in the running high jump; Philip Granville, in the mile walk and Eldie,

GORDON PARIS TO BOX IN HALIFAX

Gordon Paris, the local colored welterweight of St. John, left last night for Halifax where he will meet on Wednesday night Al Hunt, a welter of Halifax.

Before leaving Gordon said he would endeavor to have Nedder Healey, wel-

FIREMEN WELCOMED BY MAYOR MARTIN

Montreal, Sept. 10.—The sixth annual convention of the International Association of Fire-fighters opened here today and speeches of welcome on the part of Mayor Martin and officers marked the commencement of proceedings. A business session was scheduled for this afternoon but this was cancelled to allow delegates to see the city. In the evening the delegates were guests at a theatre and business will get under way tomorrow morning.

POPULAR YOUNG MAN FAREWELLED

J. P. McInerney Receives a Wrist Watch at Function in Renforth.

The club house of the Renforth Outing Association was the scene of a most enjoyable affair last evening, when members and others numbering in the vicinity of 100, gathered in honor of J. P. "Bud" McInerney, who will leave on Thursday for Scotland, where he will take up the study of medicine. Cards and dancing were enjoyed until eleven o'clock, when all assembled in the main room and William C. Clarke, on behalf of the Renforth Tennis Club, spoke of "Bud's" departure, his success in study and sport, and the great loss to the club and community in general in his departure and extended the best wishes of all to him for a successful future. On behalf of the tennis club he presented to him a wrist watch as a token of the esteem in which he was held by his friends.

In the absence of Louis C. Armstrong, president of the Renforth Athletic and Outing Association, Fred J. Nisbet spoke for the organization and expressed sentiments as put forth by Mr. Clarke. "Bud," who appeared to be in a difficult situation, extricated himself in bright and witty manner, and responded to the appeals from his friends for a speech, in a few well chosen words. After three hearty cheers had been given for the departing guest, the men gathered around and sang "For He's a Jolly Good Fellow." A delightful lunch was then served by the ladies of the tennis club and dancing was continued until midnight.

In the departure of "Bud" McInerney, New Brunswick loses for a time a fine young man and sport exponent. It is remembered what he did with the High School football team last year, when, having no facilities to work with he got a team together and secured a point of winning the interscholastic championship. In field and track sports he excels and at present holds the school shot put for Canada. In tennis he ranks among the first four in the province. Yet in his teens, even greater things may be expected of him. His career will be closely watched by all those who knew him at home. He carries with him the best wishes of all for a prosperous future.

FORD IN CITY FOR SAINTS PLAYERS

Baseball Games in Maine—St. Peter's May Go to Boston.

Joseph Ford, manager of the Fredricton baseball team, arrived in the city today. He is here to secure some players to accompany his team to South Brewer, Me., where they are scheduled to play on Thursday, Friday and Saturday of this week. He has secured Jimmy McCarthy, who played third base for St. Peter's, and is also anxious to sign a local catcher for the trip. He announced that Jimmy McCourt, star pitcher, and Chas. O'Brien, catcher, will sail from here tomorrow morning on the S. S. Governor Dingley for their homes in Boston. Dillon has already gone home as he had business matters to attend to. Mr. Ford has arranged to leave McCourt in the team on Saturday in time to pitch that afternoon and is also sending for Ralph Price, formerly of St. Peter's, to join him for the series. At a meeting of St. Peter's team last evening arrangements were made to go to St. Stephen on Friday to play two games. It is understood that only local players will accompany the team. No arrangements were made regarding any future local games.

As Hiram Sees It

"Well, sir," said Mr. Hiram Hornbeam to The Times reporter, "we had a party out here from town for two or three days and he had the fishin' bug. When he found out that he was perch an' rock bass in the river he went an' dug worms an' fixed up a line an' took the old boat an' started out. The first day he didn't catch a thing. The next mornin' he was up with the crows an' he had quite a streak o' luck. Hiram had to fry perch an' rock bass for breakfast. D'you know that feller almost lived in that old boat—an' said he wouldn't swap it for a lease o' the best trout crick in New Brunswick. Folks here never think about fishin'—but here was a feller that thought it was about the finest thing he had. I guess we'll hev to git into the tourist perch an' tell the world what we got out here."

"Hiram," said the reporter, "if you know how many perch, and chubs, and the fishing was good—you would expect to find bones sticking out all over me." "Well," said Hiram, "I'll say right now I wouldn't mind gittin' into the old boat for a spell myself." "Let's go," said the reporter. "And Mrs. Hornbeam will get out the frying-pan—I'm sure." "You men'll have to clean the fish," said Mrs. Hornbeam with decision. "You won't get me to scale any perch or rock bass, either. Anybody would think you was two boys—the way you talk." "So we be," quoth Hiram. "An' I got a reel boy's jack-knife right here. Come along—I got some lines out in the shed." "Does the boat leak?" asked the reporter. "Sure," said Hiram. "Then there is nothing lacking," said the reporter. "Hurry up—we ought to be there now."

LOCAL NEWS

AN OLD TIMER. An English shilling, with no date on it, but coined in the reign of William III during the seventeenth century was brought into the office yesterday. The only inscription which could be made out was "Gillielmus III. Der Gra."

DEID ON BIRTHDAY. Charles T. Boyer died at his home in East Florenceville, N. B., on Sept. 10, after two weeks' illness of heart trouble. He died on his 76th birthday. Four children survive—Miss Gertrude Boyer, Mrs. James Banks, Howard Boyer, of Woodstock, and Lorne Boyer, and seven grandchildren.

170 FROM BOSTON. Passengers who arrived in the city this morning on the S. S. Governor Dingley from Boston, announced that while stopping at Lubec and Eastport early this morning they saw heavy frost. They expressed surprise to see frost so early in the year and took for granted that this was an indication of an early winter. The steamer brought 170 passengers and forty tons of general cargo.

Messrs. Dexter and Richards, contractors on the Log Falls dam restoration at Musquash met with quite a loss yesterday when their cook house with all the equipment was destroyed by fire. The loss is about \$1,000. Work was started at once on the erection of a new cook house and last night was nearly complete, and a new set of cooking utensils and crockery were for the table sent out from the city.

CHURCH OF ASSUMPTION. The forty hours devotion in the Church of Assumption, West St. John, will be brought to a close this evening, when a procession in honor of the Most Blessed Sacrament will be held and a sermon preached by Rev. Henry Milligan of Fredericton on "The Real Presence." This morning two masses were celebrated, one at 6 o'clock by Rev. H. Ramage, and the second at High Mass at 8 o'clock by Rev. Father Milligan. Father Ryan, pastor of the Church in the sanctuary at last evening's services.

NO FORMAL CHARGE. The monthly meeting of the Board of Governors of the Boys' Industrial Home was held yesterday afternoon at the office of Mayor Fisher, His Worship in the chair. Others present were Mrs. J. H. Duddy, W. A. Lockhart, H. H. Mott and A. J. Parker, secretary. Charges of cruel treatment, as reported in the Moncton press, made by the Cunningham boys, were discussed, and Mr. Fisher reported they had no foundation in fact. As no formal charge had been laid before the governing board it was decided not to take any action in the matter.

TO CHANGE ON OCTOBER 1. After October 1 next, postage stamps will not be accepted for war duty on checks, receipts and bank drafts. Furthermore, it is announced by the post office department, the excise stamps for the purpose will not be sold at post offices. This, it is contended, would lead to confusion, as postal matter might be mailed with excise stamps instead of with the correct postal stamps. The excise stamps are to be sold at banks "and such other places as may be designated by the department of customs and excise." On money orders and postal notes the war tax will continue to be paid by affixing postage stamps.

WEST SIDE WATER. Commissioner Wigmore, accompanied by the city engineer, G. G. Hare and the superintendent of the water and sewerage department, Walter Thompson, paid a visit to Menzies Lake yesterday afternoon to look over the Sussex sub-station and the water to the Carleton supply. The Commissioner reports that he found a body of water larger than Spruce Lake, lying at a considerably higher altitude and the water of excellent quality. He has under consideration the cutting of a tunnel from Menzies to Ludgate to ensure a plentiful supply of good water at all times. It would also ensure a better pressure on the heights on the West Side.

HYDRO NEWS. It was reported at the office of the New Brunswick Electric Power Commission that the line to serve the Apohaqui, Norton and Millstream district was now being staked out. This district will be served from the Sussex sub-station and the primary lines will be about 14 1/2 miles from Apohaqui to Millstream and Berwick. It was also reported that the new transformer to handle 66,000 volts had been installed at the Manawagouish Road sub-station and this would allow the commission to carry this voltage on both lines from Musquash, where formerly they had to carry 18,200 volts on one line to serve the Westfield district.

OF INTEREST HERE. St. John friends of Miss Adda Mervin, of St. Joseph, Missouri, will be interested to read of her marriage, which took place in that city on last Tuesday. The groom is Kirby Chestnut, of the same city, and they were married on Tuesday evening at 8:30 o'clock at the home of the bride, 711 Faron street, by Rev. E. C. Baird, pastor of Woodson Chapel Christian church. They were unattended. Those present were Mr. and Mrs. Guy E. Chestnut and Guy E. Chestnut, Jr., J. D. Robinson, of Kansas, Miss Marie Ragland and Conrad Reid. After a wedding trip Mr. and Mrs. Chestnut will make their home in St. Joseph. Mrs. Chestnut made many friends in St. John while a guest of Mr. and Mrs. Charles H. Knodell, Duke street, some time ago.

WILLIAM H. STACKHOUSE. The death of William H. Stackhouse occurred at Belleisle on Friday, Sept. 7, aged 74 years. Mr. Stackhouse had been employed at carpenter work in the above place until a very short time before his death. The news of his death came as a great shock to his many friends. The funeral was held on Sunday, September 9, at the Belleisle Station Union Cemetery. The funeral service was conducted by Rev. H. Allaby and many attended. Mr. Stackhouse leaves to mourn his wife, two brothers, John E. Stackhouse, of Bloomfield, N. B., and W. T. Stackhouse, of Wolfville, N. S., one sister, Mrs. Alexander Reid, of Salt Springs, N. B., and five daughters, Mrs. Pinkham, of Bath, Me.; Mrs. Livingstone, of Worcester, Mass.; Mrs. Barnes, of Auburn, Mass.; and Mrs. Gillman and Mrs. Pearson, of St. John.

COLLIE IN FOUND. A collie dog carrying license tag 1246 was captured yesterday by the dog catcher and is in pound waiting for the owner to call and pay his fine.

POLICE COURT. One man, charged with drunkenness, was fined \$8 today. In default of payment he was sentenced to two months in jail.

REPLACING SEWER. A start was made this week on the replacing of an old wooden sewer in Charlotte street, from Harding to Broad, with a terra cotta pipe.

ENGAGEMENT. Thomas L. Buckley announces the engagement of his youngest daughter, Annie Maud, to Alfred Hunter, of this city, the wedding to take place the latter part of this month.

COUNTY COURT. Before Judge Barry in the County Court this morning hearing was begun in the case of Evans against Carey, a Hardingtonville case, which the plaintiff is suing for \$181 on an action for damages. J. King Kelley, K. C., and W. A. Ross are conducting the case for the plaintiff and Hon. Dr. J. B. M. Baxter, K. C., and Arthur N. Carter are representing the defendant. Evidence was given this morning by the plaintiff, David Lloyd Evans, and by Arthur Bennett, a fifteen-year-old boy of Hanford Brook, and by Mrs. Emma Morrow, also of Hanford Brook. This concluded the case for the plaintiff and adjournment was made until this afternoon at 2:30, when the defendant, Mary Ellen Carey, was to go on the stand. The cause of action arose last May.

WON RACE AND CUP 50 YEARS AGO TODAY

Anniversary of Race Won by Charles Logan on Charles River

Fifty years ago today the late Charles Logan of this city vanquished E. McAvoy in a single scull race on the Charles River in Boston. Logan won the championship of the Howard Associates. He received a large silver cup bearing an inscription as follows: "Won by Charles Logan. Defeated E. McAvoy in a single scull race for the championship of the Howard Associates, Sept. 11, 1873. Time 16:10." Mr. Logan died last year. The distance of the race was two miles and the time was considered exceptionally good. At a later date Mr. Logan also won a race on the Charles River, and received a silver medal, the only inscription on which was "won by Charles Logan." After winning the race Mr. Logan remained in Boston where he was employed on the Boston Globe. He later returned to this city and for some years was donee of the North End horse cart. Some of the older aquatic enthusiasts may recall the sculling race referred to, which at that time created considerable interest.

NAVY CHIEF HERE SEPTEMBER 24

Vice-Admiral Sir M. Culme-Seymour Coming in Flagship Cape Town.

A Canadian Press despatch from Fredericton today says that Lieutenant Governor Todd has been advised by C. J. Desbarats, acting Minister of Defence, of the proposed visit to New Brunswick of Vice-Admiral Sir Michael Culme-Seymour, R. N., commander-in-chief of H. M. ships and vessels in the North America and West Indies stations, who will visit St. John on his flagship H. M. S. Cape Town for a period of three days from Sept. 24 to 27.

REMEMBER WHEN—

Local Council of Women was organized in St. John on Thursday November 8, 1894. Jack Power and Mysterious Billy Smith went six rounds to a draw in the Mechanics Institute on Monday, November 19, 1894 when Connelley had the Boston man hopelessly beaten. The police stopped a bout between Eddie Connelley of St. John and Pete Manning of Boston, in the third round in the Mechanics Institute on Monday November 19, 1894 when Connelley had the Boston man hopelessly beaten. The 62nd band gave an open air concert in King Square for fire sufferers on June 26, 1877.
