Britain Wants Her Air Raid Damage And Ship Losses Paid

Looking Also For a Good Agreement With U. S.

PEACE CONFERENCE OPENS

Defeat of Bolshevism in Germany, it is Believed, Will Make For More Rapid Progress at Paris—Method of Procedure Outlined

London, Jan. 18.—In addition to the League of Nations one of the great things which Great Britain hopes will grow out of the peace conference, it is apparent, is a thoroughly good working agreement with the United States, of great importance is attached to this.

As to indemnities Great Britain expects to enter a protest against other nations. Her claims are comparatively small, it is said, but she wants her air raid damage and her shipping losses paid for. Conference Begins.

Paris, Jan. 18.—With the assembling of the first full session of the peace conference today the prospects of rapid progress seemed enhanced by the apparent defeat of Bolshevism in Germany, thus opening the way to the stabilizing of the government and the prospect of being able to send responsible representatives to the conference.

The conference is expected to devote itself single-mindedly to the creation of a league of nations, and the first steps towards formation of that league, it is understood, will be taken at the opening of the methods by which the league can be organized will be committed to an international commission.

As regards Russia, it is said that the five great powers have agreed that their representatives will be present at the conference, which will be held at the end of the month.

All questions at issue of water and will be settled before the enemy delegates arrive, the delegates are re-emphasizing the vital importance of presenting an unbroken front to the enemy.

HON. C. H. LABILLOIS TO BE CANDIDATE

Issues Statement Relative to the Next General Election in New Brunswick

Dalhousie, Jan. 18.—The first gun in connection with a provincial election was fired in Restigouche county if one can judge by a statement which appeared in a Moncton paper recently. It was the line of the legislature, will no doubt be fired in Restigouche county if one can judge by a statement which appeared in a Moncton paper recently.

Alberta Liberals For Total Prohibition

Calgary, Jan. 18.—At the closing session of the Alberta Liberal conference yesterday the following resolution was passed: "The federal parliament should absolutely prohibit the manufacture, importation, storage or sale of intoxicating liquors within the Dominion of Canada."

BRITAIN HAD BIG GUN TO RIVAL THAT OF HUNS

Workers Said It Would Probably be Destructive at Ninety Miles

London, Jan. 18.—British Wireless Service has been known yesterday that a big gun, which was expected to be of even greater power than the "big Bertha" was among the secret productions of the Sheffield Cannon Works. This gun, which it is said, was to have been used to bombard Rangoon, was about eighty-three feet long and its weight, presumably when mounted, is reported to be about 124 tons.

Practical Economy In Health Act

A Talk With District Medical Health Officer

Shows How Organized Administration Will Work in Connection With Such Matters—No Need to Send Away to Montreal

Dr. J. F. L. Brown, district medical health officer, said today: "The Health Act is one of practical economy. For instance the population of New Brunswick in round numbers is 400,000. A fair estimate would be that half that number are males, that is, 200,000, and that two-fifths of these are wage earners, being 80,000. Of this number 40,000 are laid up yearly by preventable disease. Let us say that these 80,000 men earn \$2 a day, which is a very modest amount for today. This amounts to \$160,000 a day. Multiplying by 300 represents the working days in a year, that is \$48,000,000. Five per cent of this is lost annually by preventable disease, that is \$2,400,000, a sum greater than the total revenue of the province."

Speaking of preventable disease, the recent epidemic of influenza has killed fifteen weeks as many people in about fifteen weeks as were killed in four and a half years in war.

It is reported that the Federalists of Berlin, is calling upon the workers there to begin a general strike.

Berlin, Thursday, Jan. 16.—(By the Associated Press)—While the Spartacus revolt crashed, the German Bolsheviki appear to be in full control in Bremen, "the public domain" of the "Düsseldorfer 'Brunswick Republic' is also in the hands of the radicals. Martial law has been declared in Bremen and the communists threatened with summary execution.

They have proclaimed martial law and have utterly abolished German administrative institutions. Indications are that Bolshevism will soon be in possession of the poles."

The newspaper declares that 800,000 Germans in Russia are being prepared to be about to invade Upper Silesia.

At a meeting at Breslau an army of 800,000 men on the border and threaten an invasion.

Amsterdam, Jan. 18.—The Ebert government has under advisement a draft of a constitution for Germany prepared by Professor Frese, according to the Acht Uhr Abendblatt of Berlin has agreed to the fundamentals of the proposed constitution. The federal character of Germany will be maintained and the country will be composed of several free states.

At the head of the government will be a president elected for ten years with a government composed of a chancellor and ministers. There will be a national chamber, "Volksrat," elected by all the people, and a federal chamber, "Staatsrat," elected by the national representatives and the federal states.

Berlin, Jan. 17.—(By the Associated Press)—Berlin inter-urban railway has been compelled to suspend operations, as a result of the delivery of its best locomotives to the Entente Powers, according to statements of officials. It is said that the Berlin railway division has turned over 103 locomotives and that of a total of 896 now in its possession, only 494 are in running condition. This number, it is declared, is hardly adequate to carry provisions and coal to Berlin.

Warsaw, Jan. 18.—(By the Associated Press)—The rigors of winter setting in at Moscow are said to have reduced the city to the same condition as Petrograd with the streets littered with cats, dogs and horses dead from starvation. The lack of coal has already compelled the closing of the public baths, while meals cost fifty rubles each as those restaurants which are still able to remain open. So say the latest refugees arriving here.

LOCAL NEWS

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, JANUARY 18, 1919

MEN AND WOMEN OF ST. JOHN

What Are You Going to do About it? This Does Not Refer to Mere Money But Rather a Heart Interest. A Few Days Concentration to a Given Object All That is Necessary to Attain Desired Results for The Salvation Army, the Institution That Boasts Locally 50,000 Friends and no Enemies—Thursday the Day

Thousands are anxious to give to the Salvation Army on Thursday. Some can hardly wait for that day, so desirous are they to show in some practical manner their appreciation. Thousands of soldiers are returning daily preaching the gospel of praise for the Army and its work in the war arena. The Rotary Club, under President Waterman, is pledged to make this day a success but, if under their banner are not enrolled hundreds of enthusiastic men and women, it will be impossible to reach the thousands on Thursday who, in stores, offices, factories and homes, will have laid aside their subscription in amounts varying from pennies to thousands, waiting for the collectors referred to in the press.

It is a stupendous job, but it will require system, co-operation and enthusiasm. The Army in its work is being talked about now more than ever before. This great institution is coming into its own locally, which but for the Army if they will send their subscription immediately to Rev. E. P. Looze, 84 Prince William street.

The Rotary battle cry next week will be "Help us to help the boys," and this is going to bring the Salvation Army over the top on next Thursday.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

CHAPLIN'S FAREWELL TODAY. The last showings of the wonderfully funny trench life comedy, "Shoulder Arms," will be made at Imperial Theatre this afternoon and tonight—extra showing for the benefit of the school children and the Saturday night shopping crowds. There will also be a fine festive Barbecue feature and the final chapter of the Vitaphone serial, "A Fight for Millions."

High Price for Tobacco. Danville, Ky., Jan. 18.—Prices for white burley tobacco which have been rising constantly since the selling season opened in December, reached unprecedented levels here yesterday when the crop of T. Y. Hudson, of Boston, sold at an average price of seventy-five cents a pound. Some of the best of his best brought ninety cents a pound.

ST. JOHN'S GREATEST MERCANTILE EVENT

Its Inception and History up to the Present Time

St. John's greatest mercantile event each January is now conceded to be the Oak Hill annual winter sale, which has grown from a very small and unpretentious beginning to this leading position. In 1888 Messrs. Fraser, Scovill and Messrs. Fraser opened a clothing store on the Market square under the firm name of Scovill, Fraser & Company, Oak Hill. The business increased from the very first day. In the May of the same year they required larger quarters, and removed to the Vernon building, corner King and German streets.

At first only a small portion of this building was occupied, but the business increased rapidly, demanding more space. Enlargements continued until the whole building was occupied, soon this was outgrown, and another story was added to the building. In 1898 Messrs. Fraser were bought out and the firm carried on under the name of Scovill Bros. & Company. Business continued to increase and on July 4, 1906, it became incorporated, taking the name of Scovill Bros. Limited. It was finally recognized that the corner building was not of sufficient size to accommodate the growing business, and there being no further room for expansion there, Scovill Bros. Limited, were obliged to look about for new quarters, consequently, the present up-to-date building was erected. On the 9th of March, 1915, this building, which is equipped with the most modern store fixtures and was occupied and a ladies' ready-to-wear department was added, which has had a phenomenal growth and now is considered one of the elite departments of St. John. Today Oak Hill is recognized as the leading clothing centre of eastern Canada.

From the very start, in 1888, ten days have always been set aside in January to celebrate the sale. It does not believe that the very piece of merchandise in the store is reduced, giving friends and customers an opportunity of making purchases at substantial savings. This is an unique event, peculiar to Oak Hill, because so far as is known at the present writing no other store of this size in Canada reduces the price of the entire stock of all suitables at one time. The event, from a small beginning, has grown with the business, and today the 30th celebration now under way, is considered one of St. John's greatest mercantile events.

This 30th anniversary sale started January 16 and will continue until Saturday, January 25, giving everyone ample time to take advantage of the money-saving possibilities. It is done in different ways, but the most approved method is to pop your corn with Putnam's Corn Extractor—corn pop out for fair, and stay out, long when removed by "Fatman". Try this painless remedy yourself, 25c. at all dealers.

EX-KAISER WORRIES GREATLY; HE LOOKS YEARS OLDER THAN HE DID IN NOVEMBER

Amersfoort, Holland, Jan. 18.—(By the Associated Press)—William Holstebroek, former Kaiser's physician, who is in the form of his life, is being aggravated by the constant worryment in his features and his general physical condition. The former German emperor looks to be perhaps fifteen years older than when he crossed the frontier of Holland.

TERMS OF EXTENSION OF THE ARMISTICE

Right to Occupy Part of Strasbourg Delences and Territory Beyond. Paris, Jan. 18.—(By the Associated Press)—The German armistice commissioners on Thursday signed an agreement for a renewal of the armistice. The armistice is extended for one month and the extension will be renewed thereafter until the conclusion of peace, subject to the approval of the Allied governments.

The principal terms of the renewal are substantially as already reported. In addition, there is a clause by which the Allied command reserves the right to occupy that part of the Strasbourg defences comprised by the forts on the eastern bank of the Rhine and a strip of territory from three to six miles beyond. Other clauses provide for the substitution of supplementary railroad material, fixed at 500 locomotives and 150,000 cars by the protocol of Dec. 17, by large quantities of industrial and agricultural supplies and give control of Russian prisoners in Germany to Allied and associated delegates for repatriation. German headquarters at Berlin will act in collaboration with the Allied and associated relief organizations in this phase of their work. Germany undertakes to turn over all Allied ships still detained in German ports. A clause providing that Germany shall place her mercantile marine at the disposal of the Allies in return for food supplies, says the agreement, in no way affects the final disposal of those ships.

GERMANS MUST DO AS BID OR FOCH SAYS HE WILL TAKE ACTION

Paris, Jan. 18.—(Havas Agency)—Marshal Foch, according to the Matin, will immediately break off the armistice with Germany if the conditions are not fulfilled. The Allied commander-in-chief, the paper adds, does not believe that the Germans exaggerate when they cry "amine."

Amsterdam, Jan. 18.—The commander of the neutral zone east of the Rhine in the region of Duisburg, Rheinfelden, Prussia, has ordered that the boats on the Rhine harbors and landing places on the right bank of the Rhine.

THE BEST QUALITY AT A REASONABLE PRICE

The Points in a Watch

There are two important things about a man's watch—appearance and mechanical construction. Appearance is a matter of taste. Buy the design that appeals to you most. Construction is a matter of much technical detail. It is something you should talk over with an expert. Hamilton, Howard, Waltham and Decatur are fine watches. Each is made in different grades. There is one grade of one of these watches that is the best watch for you.

DELEGATION OF TEACHERS HEARD AT CITY HALL

(Continued from page 1) Mr. Nelson said that since the beginning of the war the teachers had received increases of only ten to fifteen per cent. In reply to Mr. Bullock, Mr. Myles said that the total increase for both male and female teachers would be about \$27,000.

Mr. Dykeman said that the teachers had received one increase since they began, but that a large proportion of it had gone to pay their voluntary assessment for patriotic purposes.

The mayor said if the trustees were willing to increase the salaries and the amount, he, as a member of the council, would not oppose it, by he was willing to work it out between them.

Mr. Fisher said he could not understand why the trustees did not grant the increase of which they seemed to approve. He would vote for increased financial provision to overcome the difficulty.

Mr. Thornton said he would like to have a little time to think the matter over and would like to have more information regarding present salaries.

Mr. Jones said that he was heartily in favor of the increase and if the school board increased the estimates to cover the increase in salaries he was sure that the council would oppose it no longer.

Mr. Thornton remarked that this met with his approval.

PRACTICAL ECONOMY IN HEALTH ACT

(Continued from page 1) Had there been well organized health administration in this province, having a representative in every parish to show the people how to avoid infection and to see that all infected persons received proper care, to institute closure of public gatherings the moment influenza broke out in a community, half the people would be walking around, alive, who are dead today in this province.

By instituting closure of public gatherings places the epidemic does not spread so rapidly and consequently the longer time it takes to pass through any community the less virulent it becomes, resulting in less pneumonia and fewer deaths.

Consider for a moment a man injures himself with a rusty nail or what not and begins to show signs of developing lockjaw. When he has his first convulsions with this dread disease he has begun to die. Fortunately lockjaw is not a common disease, but the fact remains it does occur and under present conditions, having to send to Montreal or some equally distant point for antitoxin, it usually terminates fatally.

The Department of Health will have distributed various centres throughout the province a supply of all the vaccines and sera and antitoxins used today in combating disease, a supply accessible in a few hours to any physician. The remedy will be right at hand, saving untold suffering and in many cases will mean the saving of a life.

In a very short time an epidemic of which cost the municipality where it occurs some hundreds of dollars, an epidemic running into thousands will be an impossibility. This is the result of vaccination of the whole population through free compulsory vaccination of school children. This another disease prevented.

Other diseases will be combated in an equally successful manner through the department, for instance, typhoid epidemics will be minimized and abolished through frequent examinations of water supplies and through the work of the sanitary inspectors. Instruction will be given in the proper care of tuberculosis and hospitals for their treatment will be established.

Scarlet fever as a scourge has been minimized so that a death from it is rare through the anti diptheritic serum. This is one of the serums that will be kept at convenient centres in the province for the use of the physicians.

In every physician's office there will be containers and material for sending any pathological specimen, for example, coughing specimens of suspected cancer, to the laboratory at St. John. This has been established and provided by the department at a cost of about \$15,000, and is prepared to do any examinations which may be done on the continent, and which may be done in this province, in the 20th century manner in this respect, in 10 to 15 days. Several high quality medicine in this province are now being formed but a few seats remain and information regarding them had been had on application to "Phone Main 748.

RICH, RED BLOOD RESISTS INFLUENZA

Its Victims Are Largely Among Weak, Anemic People.

In the epidemic of influenza, in influenza, that has swept over Canada, it has been noticeable that its earliest victims were the thin-blooded anemic people whose power of resistance is greatly weakened because of the wretched condition of their blood. When a person is strong, hearty, able to enjoy a brisk cold day, chills and infections are set at defiance. But when the system is run down, when the nerves are shaky and the blood watery, the germs of influenza are quick to seize their opportunity. It is therefore good policy to keep the blood always rich, red and strong, and the nerves well nourished by the use of such a reliable tonic as Dr. Williams' Pink Pills. People who take these pills from time to time are usually able to resist colds, influenza and other ailments, and enjoy good health while many about them are weak, ailing and miserable.

Those who have been attacked by influenza, the after effects are more dangerous than the attack itself. They are left at the mercy of relapses and complications. There is a persistent weakness of the blood, indigestion, poor digestion and a tendency to take cold easily. This condition will persist until the blood is renewed and the shattered nerves strengthened. For this purpose there is no tonic so equal as Dr. Williams' Pink Pills. From first to last these pills make new, rich, red blood, which reaches every organ and every nerve in the body. Thus the lingering germs are driven out, the appetite is improved, and weak, dependent victims of influenza are transformed into cheerful, healthy, happy men and women. If you have passed through an attack of influenza you will find Dr. Williams' Pink Pills the one thing needed to restore you to full health and strength. If the trouble has passed, you can further strengthen yourself against its insidious advance by the use of this same tonic medicine.

Medicine dealers everywhere sell Dr. Williams' Pink Pills, or you can procure them by mail from Dr. Williams' Pink Pills for Pale People, 600 North Third Street, Brockville, Ont.

THIS SHOULD STARTLE US.

An amazing statement is made regarding the number of vacant schools in St. John county. In one place where special enquiry was made, twenty children are without school advantages. This is so serious a neglect of the rights of the children that action must be taken. This province cannot get compulsory school attendance a day too soon. The duty of the government and legislature is plain. The interests of the children are the interests of society as a whole, and they must not be neglected. It may be necessary to abolish local school boards and place upon county boards the responsibility for seeing that every child of school age is at school. The conditions revealed to the municipal council are startling. In how many other counties are settlements without schools—and how many children in all are deprived of the right to get an education? Here is a text for public press and legislator. The good name of the province is at stake. Now that the facts have been partially revealed in relation to St. John county public opinion should be aroused, a general survey made and the remedy applied.

A HEALTH PROGRAMME.

In an article on the defects in American education revealed by the war, Dr. Charles W. Elliot, in School and Society for the week of January 4, makes some observations that are especially applicable in New Brunswick. The new health department in this province is now being organized, and will doubtless be the subject of some criticism on the part of those who think more about cost than about public needs. Dr. Elliot's remarks are therefore timely and applicable for local application. He writes: "The sporadic inspection of school children and the medical examinations of young men drafted for the national army have revealed a percentage of defective bodies in the youth of the country very mortifying to thinking Americans. Many of these bodily defects are remediable, but thus far the organization and enforcing of remedial and preventive processes have been by no means adequate for coping with existing evils. Most of the attempts at remedy and prevention have been made in towns or cities, and the national government and the state governments have not yet attacked seriously the general problem. Both the national and the state governments should at once plan and carry into execution a great expansion of the functions of the medical examiner, the school nurse, and the district nurse, and these officers should work all through the year on the detection and treatment of defects and diseases in children and the instruction of parents and children as to remedial and preventive action in their homes. These permanent officials should also give public instruction in regard to diet, nutrition, housing, community cleanliness, and the medical means of controlling epidemics. They should be employed at public expense, and access to this instruction should be free to all comers, of whatever race, age or condition. This is the most legitimate kind of public instruction in a democracy, because the kind most directly and immediately useful to the entire community. A strong beginning should be made at once, and the national, state and municipal governments should all take part in the good work. In order that the future fathers and mothers may be able to understand thoroughly the instruction to be given by physicians, nurses and health officers, all school children should receive at the appropriate time instruction in so much chemistry, physics and biology as is necessary to the comprehension of what is meant by a complete diet for infant, child or adult, and to the mastery by both sexes of the processes of cooking food in wholesome ways. This amount of applied science should be learned by every boy and girl in every American school before the age of sixteen years, and no subject, except the English language, should be more carefully provided for in school programmes than that amount of applied science."

Dr. Elliot has here set forth a policy which must commend itself to all, with the exception that there will perhaps be some to question the necessity of giving boys lessons in preparing food; and yet everybody will agree that it would be a good thing if all boys had that knowledge. With regard to the other features of the policy advanced there can be no question, and to the extent that the new health act will permit of their being carried out in this province the people in every municipality should give their hearty assent and active support. It is a duty society owes to the children, and only selfishness or parsimony would stand in the way of its performance.

The Toronto Globe says: "The American Republic under prohibition—the absolute prohibition of the manufacture and sale of intoxicants—from Canada to Mexico, and the Atlantic to the Pacific, would be an influence and example which would surely sweep away any amount of opposition to the retention of the federal prohibitory law in this country, and would make its enforcement comparatively easy. There is a great deal of illicit traffic in liquor across the boundary line, and there will be while a wet state adjoins a dry province, or a wet province a dry state. A federal prohibitory law in the United States will be a permanent law, unless an extraordinary revision of public sentiment compels three-fourths of the state legislatures to demand its repeal. This permanency will be another argument for federal prohibition in Canada."

The Standard today devotes a column of space to an utterly misleading review of the financial statement of the province for the past year. The Standard's reputation for veracity is such that this review will only be of interest to those who relish mathematical vagaries. But if the Standard would tell all it knows about timber lands, Valley Railway and patriotic potato finance, and the commission of the liquor dealers on a certain famous occasion, the public would sit up and take notice.

The mildness of the winter is remarkable. The days grow longer and soon the power of the sun's rays will begin to be noticeable in the middle of the day. We may expect severe cold before another month passes, but the contrast between this winter and last would still be remarkable, even if steady cold prevailed for a month. There is evidently not going to be the fuel shortage which a few months ago was seriously feared.

The remark was made by a teacher the other day that they did not wish to be going back and forth between the city council and the school board to plead their cause first before one and then before the other. That is a reasonable appeal. The existing conditions are not satisfactory. The board and council should come together, although Dr. Frink holds that the school board can settle the matter of teachers' salaries themselves.

The representatives of the press are to be admitted to the peace conference. In no other way could the great public be satisfied. If there are some discussions that were better held in private the men of the press have only to be discreet as any delegate; but the general news of the conference must be given to the public.

We have become so accustomed to the death of great numbers of people that a railroad tragedy does not excite such horror as would have been aroused before the war. Railroad accidents, however, appear to be occurring with unusual frequency. Of course traffic is exceptionally heavy, but is sufficient care taken to avoid disastrous accidents?

The municipal council is asked for more money this year for the general public and county hospitals. The case made out by the boards of management is such as must impress the members of the council. These institutions must meet new and larger needs with adequate staff and equipment.

The press representatives at Paris do not propose to be content with a too-much censored report of the doings of the peace conference, and they are right. The world wants to know what is being done to it by the gentlemen in conference.

It is now clear that there is to be no sudden change in business conditions as a result of the termination of the war. There will be no slump in prices, or great falling off in trade.

FREE PUZZLE PRIZE \$4500.00

In Cash has been Given Away FREE also hundreds of Merchandise Prizes \$200.00 more IN CASH will be Given Away as follows

1st Prize, \$50.00 in Cash. 2nd Prize, \$40.00 in Cash
3rd Prize, \$35.00 in Cash. 4th Prize, \$25.00 in Cash
5th to 9th Prizes—Each \$10.00 in Cash.

TOGETHER WITH MANY MERCHANDISE PRIZES

Herewith will be found the picture of an Aviator who has just dropped a bomb on a pile of shells. At first glance the Aviator and the Explosion appear to be all there is in the picture, but by careful study the faces of several soldiers will be found. There are 7 of them in all. Can you find them? It is no easy task but by patience and endurance can be accomplished.

You may win a cash prize by doing so. Many have done this and will be shown by word of mouth. If you find the faces mark each one with your name and address which we will send it to us, together with a slip of paper on which you have written the words "Aviator and the Explosion" and marked them. Write these plus words plainly and neatly, as in case of ties, both writing and accuracy are considered factors in this contest.

This may take up a little of your time but as TWO HUNDRED DOLLARS in cash and many merchandise prizes are given away, it is worth your time to take a little trouble over this matter. Remember all you have to do is to mark the faces, cut out the picture and write on a separate piece of paper the words "Aviator and the Explosion" and send it to us.

WE DO NOT ASK YOU TO SPEND ONE CENT OF YOUR MONEY IN ORDER TO ENTER THIS CONTEST.

Send your answer at once; we will reply by Return Mail telling you whether your answer is correct or not, and we will send you a complete list of names and addresses of persons who have won \$100.00 in Cash prizes in recent contests held by the Publishers of this advertisement. Although these persons are called winners to us, they are our references. An enquiry from any one of them will bring the information that our contests are carried out with the utmost fairness and integrity. Your opportunity to win a good round sum is equally as good as that of anyone else, as all previous winners of cash prizes are disbursed from winning this contest.

DAILY FISH BULLETIN

Issued by Canada Food Board

ODDS AND ENDS.
 One thick slice of fresh fish is more economical than two thin ones. Large fish are cheaper than small ones on account of the proportion of waste. Left-over fish can be creamed, scalloped or made into fish balls. It is delicious served cold with mayonnaise and chili sauce. Always cook fish thoroughly. Underdone fish is unwholesome. Steaming is more economical than boiling—under the liquid is used for a fish sauce.

THRIFT RECIPES

HOT POT OF MUTTON AND BARLEY.

1 pound mutton, 1/2 cup pearl barley, 1 tablespoon salt, 4 potatoes, 3 onions, Celery tops or other seasoning herbs. Cut the mutton in small pieces, and brown with the onion in fat cut from meat. This will help make the next tender and improves the flavor. Pour this into a covered saucepan. Add 2 quarts water and the barley. Simmer for 1 1/2 hours. Then add the potatoes cut in quarters, seasoning herbs, and seasoning, and cook one-half hour longer.

Food Board Flashes

Britain imports the equivalent of four leaves out of every five, her people eat. Half the flour she imports comes from Canada. Oatmeal and rolled oats are the staple breakfast foods of Great Britain. Canada sends to Great Britain about \$700,000 worth of oatmeal annually and over \$100,000 worth of rolled oats. For both commodities she is Great Britain's main source of supply.

Mothers! Have You Seen the Kiddie-Koop?

It is a combination of Bassinet, Safety Crib and Play Pen, and is, without a doubt, the most practical and economical piece of Baby Furniture ever invented.

A Kiddie-Koop saves washing, because it keeps baby up off the floor and allows mother time for other things without further thought for baby's welfare. It folds into a very small space, 8 x 42 inches, and is very light, so can easily be moved up and downstairs, out of doors, etc. It has no iron bars, which have proven so disastrous to kiddies, instead, the sides and ends are covered with galvanized wire screening that does not rust. It permits baby to sleep and play out of doors with lots of room to romp, and is so arranged that a tumble cannot hurt him.

The frames are made of lumber that has been specially selected and carefully put together.

Patented method of lowering and raising spring is safe and very easily arranged.

Kiddie-Koops are highly finished in white enamel, and will prove an asset to any room.

Prices \$25.00 and \$30.00

APPENDICIT AND LIQUORITIS

To the Editor of The Times: Sir—Once upon a time the body became sick, and the pain was very severe. One after another its members said, "The cause is not in me." After careful examination the trouble was located in the appendix, and the surgeon said, "It must be removed." But the appendix is a part of the body, and the body has a right to deny my right to rot or do just as I please. The surgeon, however, is diseased. You are a menace to the other members. You are killing the whole body. There is only one course to pursue. You must be removed, and forthwith he proceeded to cut out the appendix, the diseased and rotting member.

Much of the poverty, disease, trouble, insanity and crime in this country have been traced to liquor. For a long time the Canadian people suffered from "liquoritis." Mothers, business men, manufacturers, life insurance men, leaders in the army and navy, with one voice cried "cut it out!" "Not so," say the liquor manufacturers. "I believe in personal rights." "Not so," says the liquor politician. "The liquor business furnishes me money for campaigns, and helps to put me in office." "Not so," says the newspaper, grown wealthy on liquor advertisements, and fearful lest the feast be discontinued. "Don't dare to touch the liquor business." "Not so," says the liquor seller. "I am going to do better, I am going to reform. I believe in individual liberty. Don't touch me!"

And all this time the long suffering body of the Canadian people, having endured the pain and loss and shame of this terrible evil, have cried out to parliament. "Cut it out, and make a clean job of it." No institution has a right to exist that threatens the permanent welfare of the whole body. And the surgeon lifted his knife. A few months ago

An order-in-council was passed that cut it out for the period of the war. It only remains for the people to see to it that by legislative enactment the job is made permanent.

J. H. HAZLEWOOD,
 Dept. of Social Service.

Reports received at the war saving and thrift saving campaign office last

night show that the movement is proving a success throughout the province. Last evening Hon. J. B. M. Baxter spoke at W. H. Thorne & Co., Ltd.; Judge McInerney at J. Magee Sons, Ltd.; T. F. Drummond at the Semi-Ready Wardrobe and William E. Ward, and F. A. Dykeman at Francis & Vaughan's.

The vacant school problem is serious

In St. John county according to a committee of the municipal council. There are seventeen vacant schools in the county. In one district alone twenty children of school age are without educational facilities.

The Causes of Backache Can Be Remedied

Many people are apt to disregard backache as being of slight importance. This is wrong. A backache should be accepted as a very grave warning that the kidneys are not performing their proper function, and need immediate attention and assistance.

GREAT HERRING FISHERIES IN THE ARCTIC FOUND

Ottawa, Ont., Jan. 18 - The discovery of great herring fisheries in the far northern waters of Canada by the Stefansson expedition is announced in a statement issued through the Naval Department. It asserts that an abundance of herring has been found along the entire coast of Canada, east and west of the mouth of the Mackenzie River, and that this will have an important bearing on Canadian northwest fisheries.

ALBERTA CALL FOR LOCAL NATIONAL BANKS

Calgary, Jan. 18 - After listening to Hon. W. R. Motherwell, who told the delegates he was glad to be out of office because he could now say what he pleased, the delegates to the Alberta Liberal convention yesterday passed a resolution urging that parliament pass an additional bank act, authorize the chartering of local national banks, with power to issue bank currency by first depositing with the minister of finance, dominion government, bonds to the extent of the full amount of bank notes issued or ten per cent in excess of the amount of notes to be secured, all national banks to be organized with paid up capital of \$50,000 or more and to be without power to establish branches.

"Double the Amount"

would have meant double the satisfaction," said a highly pleased Policyholder a few days ago, when receiving the returns of his Policy the day it was due. "The fact is, I consider this Endowment Policy the best investment I ever made, and I could easily have saved considerably more than double the amount of the annual deposit. From the moment I received the Policy, I enjoyed a feeling of security, knowing that in the event of anything happening to my family would be provided for. My advice to all young people is to 'play safe' and carry a guaranteed policy with The Manufacturers Life Insurance Company."

RECENT DEATHS

Robert Frank Merritt. The death of Robert Frank Merritt occurred yesterday at noon at his late residence, 87 High street. Mr. Merritt has been ill for about three months and will be greatly missed by a large circle of friends.

South Musquash, Jan. 17.—The death of Mrs. Albert E. Tedford occurred at her home in South Musquash on Thursday morning at 6 o'clock under very sad circumstances. Mrs. Tedford had been ill for only two weeks and her death was caused by influenza, developing to pneumonia. Her husband and three children were also stricken with the disease, a two-year-old baby passed away at 7:30 on Wednesday evening, the night before the mother's death, and the four-year-old daughter is in a critical condition and not expected to live.

Charlottetown, P. E. I., Jan. 17.—Dr. J. T. Jenkins, aged ninety, known as the "Grand Old Man of the Island," died here today. He was a surgeon in the Crimean war, where he received British and Turkish medals. He was a Conservative member of the provincial legislature and of the federal parliament nearly forty years ago. He was an extensive horse breeder and was a great sportsman. He owned the mare Devilish Dorothy, well known on maritime tracks. He was the father of Colonel H. R. Jenkins, M. P. P. for Charlottetown.

At the residence of Melford Hawkins at Nashuakwas on Thursday Mrs. Alice M. Currie, wife of Emory Currie, died at the age of 72. She was a widow of 52 years of age and is survived by her husband, two sons, Roy and Kenneth, of Douglas; Alfred Tedford, Mrs. Alexander Dunphy of Douglas, Mrs. Fred Bailey of South Devon, Mrs. Roland Scott of Douglas, and the Misses Christina, at home.

Mrs. F. H. Richards, Fredericton, in receipt of a telegram announcing the death of her sister, Mrs. Thomas Wharton, died at her home in Lewisville, N. B., on Jan. 12. She is survived by her husband, two sons and five daughters, also her mother, Mrs. John L. Bird, four brothers and four sisters.

On Friday at Prince William, Norman S. Graham, son of Coun. Robert H. Graham, passed away. He was nineteen years of age and is survived by his parents and four brothers.

Mr. and Mrs. Steven Thompson both died last Sunday at their home in St. Andrews of pneumonia. Mrs. Thompson was thirty-four years old and Mr. Thompson thirty-six.

Joseph K. Dunlop, who died at his home in Dulac, Minn., St. John, N. B., was buried on Thursday from the residence of his brother-in-law, Beverly F. Coates, Havelock. He was the only son of the late Joseph K. Dunlop, formerly of 66 Coburg street.

Mrs. E. Brotherhood, who arrived in the city last Friday from England on the Scandinavian on route to her home in Ottawa, died in the General Public Hospital yesterday afternoon. Mrs. Brotherhood's death makes the seventh of the Scandinavian's passengers to succumb.

There can be no strong, healthy, beautiful, rosy-cheeked woman, without iron, says Dr. Ferdinand King, a New York physician and medical author. "I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard-looking women patients. Pallor means anemia."

Notwithstanding all that has been said and written on this subject by well-known physicians, thousands of people still insist in doing themselves with metallic iron simply, I suppose, because it costs a few cents less. I strongly advise readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to a doctor, get Nuxated Iron. It is dispensed in this city by Watsons and all other druggists.

THEFT CASES DEALT WITH

In the supreme court yesterday afternoon, His Honor Judge Barry presiding, the jury in the case of John Travis, charged with theft of goods the property of F. Johnson, returned a verdict of guilty. Travis was also indicted on another charge of theft and he was remanded to jail to await the decision of the crown representative as to whether he will be proceeded against him on the second charge. The defence in the Travis case was that the stolen goods had not been traced to Travis and also that question of his sanity was raised. Dr. Anglin being called to give evidence as to the latter plea. Dr. W. B. Wallace, K.C., appeared for the crown, and J. A. Barry for the defendant.

In the case of the King vs. Charles Christiansen, charged with breaking and entering summer cottages at Millidgeville, and stealing therefrom, William M. Ryan appeared on behalf of the defendant and stated to the court that the defendant desired to be tried and be tried under the Speedy Trials Act. This was allowed with the consent of the crown.

County Court.

Before His Honor Judge Armstrong, under the Speedy Trials Act, McDonald and Ritchie, two lads who were committed for trial on the charge of theft pleaded guilty to the charge and were remanded for sentence.

In the case of the King vs. Totten, charged with breaking and entering summer cottages at Millidgeville, and stealing therefrom, the defendant pleaded guilty and was remanded.

In the case of the King vs. Freeman Dampy, charged with stealing a pair of boots the property of Miss Granville, the defendant through his counsel, William M. Ryan, entered a plea of guilty to the charge. In this case, owing to the defendant's previous good character and in view of the fact he was invalided home after having seen two years of active service, having enlisted at the age of fifteen, his honor allowed the defendant to go on suspended sentence recognizances having been entered into by two sureties for his future good behaviour.

TEACHERS AND STENOGRAPHERS.

To the Editor of The Times:

Sir,—The comparison between the salaries of stenographers and teachers and the very unfortunate reference to the former earning \$125 a month "with little education and training," has started a discussion which may be to the advantage of both of these poorly paid professions.

The gentleman who made the ill-judged criticism really could not have realized what he was saying. I have employed many stenographers and have always found it was economy to pay the highest wages for skill and efficiency. The busy business man knows that his stenographer cannot have too much brains or efficiency. A cultured, well read, finely educated stenographer with speed and accuracy is a jewel in any office where there is a large and varied correspondence and yet I venture the statement that there are few earning \$100 per month and those earning \$125 per month for business men know the character are yet to be heard from.

A stenographer may learn the first principles of her profession in a few months but none but those who become really proficient can realize how long and how many hours of practice are needed to attain this end.

In this morning's "Telegraph" a

Teacher" comes to the rescue of Dr. Bridges and hints that "Stenographer" probably owes her success to his work in the public schools and that "gratitude is certainly his only desert."

"Gratitude" in this case assumes the shape of a very handsome salary from the St. John school board, a salary from the provincial government as chairman of moving picture censors and some other small emoluments.

But why argue? Let us all rather see how both the teacher and her sister, stenographer, can get more money.

EMPLOYER.
St. John, Jan. 16, 1919.

SOLDIERS' MEMORIAL.

A returned soldier writes to the Times:—

"In the issue of Jan. 10th, I came across and read the proposal to erect a monument for the boys (who have fallen on the field of battle for the freedom of the entire world) at Riverside Park. I cannot see why it should be erected there, and not in King Square, where it can be in full view of the public. As I am a returned soldier, and have had two and a half years' experience on the field of battle, I would suggest that such a memorial be erected in the most conspicuous portion of the city, for the lads who fought and died for us."

DURING the last four years of Canada's war accomplishment—when "speeding up the production" meant a 24-hour day in many plants—Laco Lamps played a silent but truly wonderful part.

Laco's task was to render a light most nearly approaching daylight—an uninterrupted service—and in hundreds of factories they were selected for their degree of efficiency to that end.

If statistics could be secured measuring the difference of efficiency between poor lighting and perfect lighting, it would be found that Laco Lamps rendered to the Allies an aggregate of millions of hours of speed—and millions of dollars more of munitions than would have been possible by the use of inferior lamps.

Their saving in peace service is not less than their role in war service.

Laco Lamps are guaranteed for 1500 hours' useful life. No other lamp is guaranteed for more than 1000 hours. Laco Lamps are also guaranteed to give the candle power U.S. standard specifications provide.

Estimates For The County Are \$43,953 Higher

The county estimates for the year 1919, of which the city pays roughly eighty-six per cent, were passed yesterday afternoon and last evening by the finance committee of the municipal council. They amount to \$288,838, as compared with \$244,877 for the year 1918. The gross increases in comparison with last year's figures, were \$66,775, and the gross decreases \$22,023, leaving a net increase of \$44,752.

The chief cause for the increase, the county secretary explained, was the expense incurred by the board of health and the two epidemics during the year, smallpox and Spanish influenza. Some of it was attributed, too, to wage increases. The cost of the two epidemics was actually \$25,755, and \$11,899 was for the ordinary work of the board of health and \$4,000 for the inauguration of the new public health act, making the "local board of health" item for the year \$42,654.

With reference to the General Public Hospital for which \$86,646 will be assessed this year in comparison with \$63,530 last year, it is pointed out that the estimated expenditure for 1918 was \$84,274, while it actually was \$99,489. The estimated income from outside was \$19,988 while it actually was \$37,132. For 1919 the estimated receipts are \$106,996 of which the county is asked to provide \$86,646.

The total estimates which follow do not include a default of \$2,539.60 on patriotic assessment in previous years, which item was left open and will probably be taken up at the municipal council meeting Tuesday.

The committee, of which Mayor Hayes was chairman, sat during the afternoon and late into the evening before completing its work.

The estimates follow:

Article No. 4 Cut out for reference

Pensions

CANADA'S yearly pension bill is estimated by the Minister of Finance at \$30,000,000. This is a minimum figure. How is this vast fund to be administered? To whom will pensions be paid? Everyone is asking these questions. Here is the official answer.

The Organization

A huge organization has been built up to handle pensions promptly, smoothly, fairly.

At its head is the Board of Pensions Commissioners. This Board is to be developed as a civil rather than as a military body. It consists of three men, each appointed for ten years, each devoting his whole time to his duties as a Commissioner.

The Head Office of the Pensions Board is at Ottawa; and there are seventeen branch offices in the principal centres throughout Canada. An important branch is in operation in London, England.

These local branches receive applications from soldiers' dependents for pensions; send "Visitors" to call on pensioners in their homes; hold medical re-examinations; handle complaints.

The Board keeps a representative travelling from coast to coast interviewing pensioners and addressing organizations interested in their welfare. He has already conferred with more than 30,000 pensioners.

At present 60,000 pensions are being administered by the Board.

A Pension—What it is

A pension is not a gift, gratuity or reward for service done. It is compensation—money paid as a right by Canadians, through their Government, to offset in a measure the handicaps suffered in war by their fellow-citizens—a debt that the country owes to our returned men, and to the dependents of those who have fallen.

It is in this spirit that Orders-in-Council governing pensions are framed. It is in this spirit that the Board of Pensions Commissioners administers these Orders-in-Council.

To Whom Payable

Pensions are not awarded for service. Broadly speaking, any soldier or sailor who was disabled during his service is entitled to a pension—provided medical treatment fails to restore his full normal capacity.

The amount of the pension is based on the extent of the physical handicap he has suffered.

The physical condition of the disabled man is described on his discharge from the service by a Medical Board. Pension is awarded according to the amount of disablement from which he is then found to be suffering.

The percentage of handicap has been carefully and thoroughly worked out for every disability. It is both accurate and fair.

The relationship between the Medical Board and the pension applicant is that of doctor and patient. Every opportunity is given to have the man's condition judged from his point of view.

Amount of Pension

The pension is awarded to a soldier or sailor so that he can live in decent comfort, despite his handicap.

The money he may be able to earn, or the money he earned before the war, does not affect the amount of his pension. The extent of his handicap alone in the general labor market is considered.

Every man who has increased his income by Vocational Training will not have his pension decreased or discontinued.

The amount of the pension varies also according to the soldier's rank; but his trade or profession is not considered. The minimum pension for a totally disabled unmarried soldier or sailor of the lowest rank is \$600 a year.

Pensions to Dependents

Widows of soldiers or sailors who have died during or as a result of service, are entitled to pension so long as they do not remarry.

Children of soldiers or sailors are entitled to pensions up to the age of sixteen, if boys, or seventeen, if girls.

Pension is awarded to the parents of a soldier or sailor according, (a) to the degree of their dependency on the deceased soldier and, (b) according to their needs.

Keep Them Smiling

Soldiers Home Coming Campaign

The "Welcome" sign still hangs high on the doors of the Salvation Army Hostels. Help them to keep it there! While our soldiers have need of the comforts—spiritual as well as bodily—DON'T shut the doors in the boys' faces—Keep them smiling!

The Salvation Army appeals for a Million Dollars for the boys who won the Victory. This is the first time the Salvation Army has made a general appeal for its work. We urge you now, for the sake of the soldiers, and as a VITAL factor in the solution of Canada's Reconstruction problems, with the Homecoming of her boys, to give and to give liberally!

Our men in Khaki may not all be home for another year. While there is a company of Canadians in uniform over there or over HERE, there is work for the Salvation Army Lassie.

The weary waiting and the relaxed discipline spell dangers that MUST be guarded against. A happy smile and a comfortable body help to keep trouble at a distance. Do not let the Hostels shut for lack of funds!

The Salvation Army Million Dollar Fund

January 19th to 25th

"FIRST TO SERVE—LAST TO APPEAL"

A WORD ABOUT THE HOSTELS! Have you ever been inside a Salvation Army Hostel? If not, ask a returned man about the Hostels in Paris, London, Toronto, Hamilton, or any others that he has stayed in over HERE.

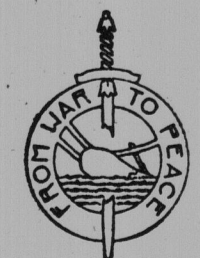

Let HIM tell you about the REAL beds, the home cooking, the fried eggs, and hot coffee—and hot baths. If he knows you very well, he may give you a hint about the spiritual comfort the Salvation Army Lassies give these men far from home and all it means!

Keep them smiling! We will not turn the men adrift after they have won so glorious a Victory! We will redeem our PLEDGE—"We will keep the home fires burning, till the boys come home!"

Next week the Campaign will be on! Help twice! First, by your liberal contribution—"To whom much is given, of him much is required." Second, urge upon your friends and neighbors the pressing needs of the soldiers, right up to the time they are safely settled once more into civilian life.

THE SALVATION ARMY MILLION DOLLAR FUND COMMITTEE

A complete schedule of the pensions granted to disabled soldiers and sailors, and to their dependents, will be sent to anyone interested. Apply to Board of Pensions Commissioners, Ottawa.

\$25,000 FOR STALLION. Chestnut Peter Brought Big Price After Record Season.

New York, Jan. 17.—When Trampstump won the two-year-old division of the Kentucky Futurity in 1907 and reduced the race record for foals of that age to 2:19 1/2, the chestnut filly Dorothy Axworthy was beaten only a head in the fast heat. It was also the last appearance of the pair, Trampstump being retired to the stud in Illinois, while Dorothy Axworthy passed into turf history with a race record of 2:21 1/2, which she made about two months prior to her start at the meeting of the Kentucky Trotting Horse Breeders' Association.

Dorothy Axworthy was bred by General B. F. Tracy, who was Secretary of the Navy under President Harrison. As her name implies, she was by Axworthy, out of Dorothy T. by Advertiser, a grandson of the old race mare, Lulu, 2:15

and out of Hannah Price, the dam of Lesa Wilkes, 2:09. In due time Dorothy Axworthy became the property of A. B. Cox, the most successful breeder of colt trotters since Palo Alto became a memory; his score in the three-year-old division last year included Nella Dillon, 2:05 1/2; Chestnut Peter, 2:03 1/2; The Divorcee, 2:06 1/2; The Cosack, 2:09 1/2, and Peter Vonia, 2:09 1/2, while he was also represented on the turf by the four-year-old filly, Miss Bertha Dillon, 2:02 1/2, and the two-year-old gelding, Norman Dillon, 2:07.

Peter the Great was selected as the male for Dorothy Axworthy for 1913 and 1914. In 1914 she produced Worthy Peter, and in 1915 Chestnut Peter. As a three-year-old Worthy Peter made a record of 2:09 1/2, and in his four-year-old form Berry won eight out of nine starts with Chestnut Peter. Chestnut Peter made his first start in July at North Randall, where he finished second to Hollywood Bob in 2:04 1/2, the fastest heat trotted by a three-year-old in 1918. After that meeting Chestnut Peter won in 2:11 1/2 from Peter Vonia, at Kalamazoo, where he was purchased by C. W. Leonard of Boston for \$25,000, at Toledo, in 2:07 1/2, from Hollywood Naomi; and at Columbus, in 2:05 1/2, his record, from The Divorcee and Eszka and Peter Vonia. This colt also won the Champion Stallion Stake at the North Randall August meeting in 2:04 1/2, and followed it by another victory at Philadelphia, where he defeated The Divorcee and The Cosack. The Divorcee balanced her account with Chestnut Peter, however, the following week at Poughkeepsie, where she defeated him after he won a heat in 2:05 1/2. Her stable companion, Nellie Dillon, also defeated him in a futurity at Readville where he equaled his record of 2:05 1/2.

At a meeting of the G. W. V. A. last evening plans were discussed for a production to be given in a local theatre and a tag day to be arranged for the benefit of the association.

PLAN BIG BOXING TOURNEY. K. of C. Arranging for Series of Bout Among Soldiers in Paris.

Paris, Jan. 17.—The Knights of Columbus are the promoters of a series of boxing tournaments and contests for the American Expeditionary Forces. This series of bouts has just been announced at the A. E. F. headquarters and confirmed by K. of C. headquarters here.

All the noted boxing promoters of France have enlisted to aid in what is expected to be the biggest boxing tournament ever conducted in Europe. It will be staged in Paris in the immediate future, and most of the contestants will be met from the American army. All divisions will be represented—heavyweight, middleweight, welterweight, lightweight, featherweight, bantamweight, and the so-called flyweight. Contests between heavyweights will be the feature of the tournament, and the bars will be let down so contenders from other countries may be pitted against the best the American army can offer in the way of pugilism. The Knights of Columbus will award championship belts to the victors.

There is little doubt that at this tournament there will be uncovered opponents suitable to meet Georges Carpentier, Jess Willard, Jack Dempsey, Frank O'Dowd, Bennie Leonard, and Pete Hermann.

American troops are exhibiting the liveliest interest in the approaching tournament, and it is entirely probable that the Knights of Columbus will try to have the winners appear later in contests at all the principal American camps, especially at points where Pershing's Army of Occupation is stationed.

INMAN TO DEFEND TITLE. English Billiard Champion Ready For Handicap Match.

New York, Jan. 17.—One of the important events in the restoration of sports in England to a pre-war basis will be a billiard championship tournament, in which Melbourne Inman, title holder, will be called on to defend his laurels. Latest dispatches from London stated the tournament will be conducted either in March or April. It will be a handicap competition, with Inman playing from scratch for 15,000 points, and conceding handicaps ranging probably from 1,000 to 2,500 points. Lower handicaps will be given to other players. The nature of the handicap allowances has not yet been definitely decided, although the committee in charge has practically agreed on this style tournament for the purpose of equalizing the play, and giving a sporting billiardist a chance against the champion. Inman submitted, as his own idea of what would make a good handicap, the scale

BOXING

of from 1,000 to 2,500 points to his rivals. In addition, Inman expressed a willingness to oppose any or all of four leading rivals on the terms of this handicap basis for £200 a side.

Claude Falkiner, who is advancing rapidly to the front in English billiard circles, is among Inman's foremost rivals. G. A. Heginbotham of Ashton-under-Lyne, Lancashire, has stepped forward with a challenge to support Falkiner for any sum up to £200 a side in a match on the scale proposed by the champion, Inman, to play 18,000 against Falkiner's 15,000. Heginbotham is a prominent amateur cueist, and an ardent advocate of the billiard sport. In his younger days at Oxford he won the Varsity cue. More recently he has attracted favorable attention as a runner-up in the amateur championships. He has a break of 174 balls, which stood as a record for an amateur for a considerable time.

Thomas Newman of North London is another player eager to oppose Inman. Newman has been tentatively allotted a handicap of 1,500 points on the champion, and it is generally felt that, under this arrangement, Newman is being accorded generous treatment. Thomas Reece has already accepted Inman's offer to concede him, with Stevenson, a handicap of 1,000 points. Stevenson, however, has not definitely decided.

Captain A. J. Mulesby delivered an address in the interests of the Salvation Army million dollar drive.

Experiences of Some of the Soldiers in Their Years of Fighting Against the Huns on Historic Battlefields

About sixty of St. John's soldiers who reached Halifax yesterday on the trans-Atlantic Olympic arrived in the city this morning on a special train. The men were not tendered a reception at the station by the returning soldiers' reception committee owing to the fact that the train was some misunderstanding as to the time the train was due to arrive. A. O. Skinner, one of the members of the committee, was at the station, however, and he, in company with Charles Robinson, secretary of the Returned Soldiers' Aid Commission, looked after the needs of the men as best they could.

The train shed of the station was crowded with relatives of the soldiers and their friends to welcome home those who have been absent from the city, some for as long as four years.

Included in the party was Corporal Walter S. Manning, son of Mr. and Mrs. Ambrose Manning, Rodney street, West St. John, a member of the original 20th Battalion. Private Manning was wounded in the famous crater fight, the most notable action in which the 20th took part, and was again wounded in practically the last one on August 27, 1918. His brother, Corporal Percy Manning, a member of the 4th Siege Battery, only recently returned home from France.

Gunner C. R. Doherty, son of Mr. and Mrs. C. D. Doherty, 14 Crown street, arrived home with the party. He was a member of a draft from the 66th Battery about twenty-eight months ago. At the battle of Lens he was wounded in the face. He said that the trip across in the Olympic was an exceptionally fine one and was thoroughly enjoyed by the boys.

Bombardier C. J. Lee of 203 St. George street, West St. John, was in the party. He went overseas in 1915 and saw thirty-five months of service. He was wounded in the battle of Amiens on Aug. 27.

Was Prisoner.

Private E. G. R. Clayton, son of Joshua Clayton, superintendent of Fernhill, arrived home this morning after being absent from the city about four years, during which time he spent two and a half years in German prison camps. Private Clayton went overseas as a member of the 8th C. M. R. and on June 22, 1918, was taken prisoner. During his two and a half years in prison he made two attempts to escape but on both occasions was captured. The first time he attempted to escape this morning, he and five others made their escape from a working camp at Senneberger. He said that the weather in four feet of snow on the ground and the weather was very cold. They spent four days and four nights in the open before they were captured. The second time he attempted to get away, he said, he was not absent long before he was caught.

The food in all four camps in which he had been was very poor and consisted chiefly of cabbage leaves, turnip tops and dried fruits. The fruit he believed had been dried for many years. He said that no where did he receive very harsh treatment, but in no camp was the treatment so degrading as in the one in which he was held. Private Clayton has a brother now in France, Private Roy, a member of the 10th Infantry Brigade. Another brother, Private Joshua, is among the missing.

One of the interesting homecomers was Charles K. Cowan of 203 Gernall street, formerly decorator and furnishing expert for M. R. A.'s house furnishing department. He went overseas with the 4th Siege Battery, but in England was transferred to the 2nd Siege Battery under Colonel Frowd. The battery landed at Havre and proceeded to Fricourt. There was a fortnight's engagement there, then two more weeks at Menin, another two weeks at Longueval—the worst spot in the whole career of the battery—and then a fortnight at Moutauban. These were places on the Somme front in the first big offensive, and on December 8, 1916, the battery was shifted to the Arras front. At Carrency, Monte St. Eloi, Ecoles and Ancy, the 2nd Siege did long-distance bombardment of the Vimy Ridge position, a distance of two and a half miles, although this was pretty close for a heavy battery. The 4th Siege Battery was close at hand in these days, which lasted four months. The big Vimy "show" was on April 9, but two days previous Gunner Cowan received a shell splinter in the shin and was invalided to Boulogne, thence to Cardiff, Wales, and later to Shorncliffe. He did not return to the front, as his injury made him unfit for further service. He did duty as sketch artist for the Shorncliffe staff.

James J. Power, son of Mr. and Mrs. John T. Power, St. Andrews street—he who came home from his hotel work in Boston to join the colors at home away back in 1915—was another returned hero today. He was an artilleryman with Major Allen's 5th Siege Battery and saw service in the early Somme push. Besides being hit with a shell at Ypres, Gunner Power was attacked with appendicitis and invalided for a considerable time. However, he did his generous share of helping put the kibosh on Fritz and says he would not have missed it for a good deal, although it cost him some pain and bodily risk to enjoy it.

Gunner Charles M. Secord, 75 Sewell street, son of Mr. and Mrs. J. Edmund Secord—the father, proprietor of Nelson's bookstore—was another Olympic passenger. He enlisted with Major Allen's 6th Siege Battery, after resigning his position in the Bank of Nova Scotia, Charlotte street. He, too, went through the first Somme offensive, including Vimy and Passchendaele, as well as Cambrai. He is looking fit and strong and is delighted to know that he has served the flag to the best of ability and is home safe and sound again.

Quite a group of colored St. John boys were on the train that brought home the Olympic's St. John quota this morning. They belonged to the 2nd Construction Battalion, a labor unit, engaged for a

LOCAL NEWS

Nineteen deaths were reported to the board of health during the week, as follows: Pneumonia, five; influenza, two; senility, asthma, tuberculosis, endocarditis, childbirth, heart disease, angina pectoris, intestinal obstruction, gangrene and diabetes, pulmonary embolism and pericardial ecclampsia, each one.

BURIED TODAY.

The funeral of Mrs. Evelyn Mabel Aldous took place this afternoon from her late residence, 216 Watson street, West St. John. Services were conducted by Rev. W. R. Robinson and interment was made at Fernhill.

WINS MILITARY CROSS.

Captain John W. Coupe, Royal Canadian Regiment, has received the military cross. Captain Coupe is a son of Geo. Coupe of 129 St. James street. Captain Coupe has one brother in the C. A. M. C. and another brother in the American navy.

MRS. MARY McMURTRY

Many friends will regret to hear of the death of Mrs. Mary McMurry which occurred at an early hour this morning at her daughter's residence, 47 Garden street, at the advanced age of ninety years. Mrs. McMurry was a native of the County Derry, Ireland, but had been a resident of St. John for the last fifty-five years. She leaves two daughters, Mrs. J. E. Rossiter and Mrs. J. H. Murphy of this city.

FREDERICK HARRITY.

The death of Frederick Harrity occurred after a short illness of inflammation of the lungs. He was a young man of quiet and generous disposition and was well liked by all who knew him. He was employed for some years with Stetson, Cutler & Co. Besides his father, Joseph Harrity of West St. John, he leaves to mourn two brothers, Alfred J. of this city and Lana Corporal Harry M. Overeas, and two sisters, Mrs. Best of Montreal and Mrs. William Wheaton of this city; also his step-mother, his brother and sister, all of this city. He had a host of friends who will regret to learn of his death. The funeral will take place from the residence of his sister, Mrs. William Wheaton, Newman street, on Sunday afternoon at 1 o'clock.

Furniture of the Finer Quality

At Moderate Cost

And this sums up in a nutshell the reason for the success of The Everett Store—the growth from very small beginnings to the place it today occupies.

This store offers you furniture of the finer quality, sound construction, artistic, accurate design and superlative finish, at moderate cost.

We are able to do this because we are SPECIALISTS in the Furniture and Furnishings line—because of our immediate connection with the large furniture centres, pursuing a careful and consistent buying policy and selling at prices based wholly upon sound merchandising principles.

No matter what you may buy here, from a simple single piece to an expensive and complete home outfit, you will secure the very best it is possible to secure at the price.
