Allies Press Retreating Foe; Russia's Triumph Continues

British Drive Enemy Back

Forcing German's Right Wing While Allies Envelope It

FIGHTING, TOO, IN THE CENTRE

Kaiser's Men Had Advanced Too Eagerly To Get To Paris And Are Fagged And Short of Ammunition—Fate of Another Austrian Army Seems Sealed

The advance of the allies on the west continues. The French and British are progressing with their enveloping movement on the extreme right of the German right wing.

GERMANS' POSITION SERIOUS.

Paris, Sept. 9.—The German progress seems to have been too rapid and too precipitate in its eagerness to get to the gates of Paris, for they arrived out of breath and to all appearances out of ammunition.

THIS LOOKS WELL

Bordeaux, France, Via London, Sept. 9.—Des Armes, a newspaper issued by the ministry of war, declares there is every reason to expect that the stay of the French government in Bordeaux will be short.

GREAT BATTLE BY RUSSIANS AND AUSTRILIANS

Copenhagen, Sept. 9.—A despatch to the newspaper Politiken from Petrograd says:—

"According to a report issued by the war minister the Russian advance for the purpose of dividing the million Austrians who are advancing on Lubin, is the point of succeeding. A great battle is proceeding."

Washington, D. C., Sept. 9.—The Russian embassy here today issued the following statement:—

On September 8, a general engagement continued along the whole of the Austrian frontier. In the centre the Austrian army is falling back. Near Jarawaska a stubborn battle is being fought with considerable Austrian forces, but troops are attacking a strongly fortified position at Gorodok, west of wov. On the left bank of the Vistula river our army is developing very favorably."

Russian Force in France?

London, Sept. 9.—The Standard quotes a Russian and French embassies as denying the presence in France of a Russian force.

General Jellicoe Bereaved

London, Sept. 9.—Captain J. H. Jellicoe, father of Vice Admiral Jellicoe, and sea lord of the admiralty, died yesterday at Ryde. Captain Jellicoe had spent his life in the merchant marine service.

State of Siege.

Germans Give Way to The Fighters From Britain

(The Last News of the Day)

Paris, Sept. 9.—(3.05 p.m.)—An official communication issued this afternoon says the situation remains satisfactory. On the left wing, although the Germans have been reinforced, the situation remains satisfactory. The enemy is retreating before the British army.

THREE MILLIONS ON THE HISTORIC PLAINS OF CHALONS; ALLIES TAKE THE OFFENSIVE

Now Equal to Enemy in Numbers—Russians Again Successful Against Austrians and Advance Into East Prussia

London, Sept. 9.—If inspiration means now what it did in the time of Napoleon to the French soldier, the situation on the allies' centre on the historic field of Chalons, ought to do much to compensate for the disheartening effects of a month of rear guard actions.

At any rate the allies, now superior or with at least equal in numbers to the Germans, evidently have begun the offensive. At least 3,000,000 men are engaged and as the centre of the allies lies on the plains of Chalons, true to many prophecies, another armageddon may take place where Attila, surnamed "the scourge of God," was defeated by the Visigoths and Romans in the bloodiest battle in the world's history.

On these plains, hundreds of years later, Napoleon conducted the most brilliant offensive campaign of his career. The French soldiers will also not be allowed to forget that on this field a French army fought a victorious action, after its commander had surrendered his sword.

Logically, a great and decisive battle ought to be under way from Paris to Verdun, but the veil of secrecy and the meagreness of the official communication precludes possible predictions regarding the nature of the engagement proceeding in the western war theatre.

News from Austria indicates that the dual monarchy is in grave danger of internal troubles, while her military situation is daily becoming worse.

The latest Russian success, the capture of the fortress of Nicolai, about twenty-five miles southwest of Lemberg, is almost as great a feat as taking of Lemberg itself. The place is not only strongly fortified, but it was believed to be virtually unassailable, owing to the fact that it was surrounded by marshes extending for twenty-five miles.

MORE TROUBLES FOR AUSTRIA

One of the most strong features of the Austrian misfortunes, is the fact of the growing uneasiness in Roumania and other Balkan states. Montenegro and Servia already are engaged against Austria and have taken the offensive. Roumania also is hungry for territory, and is said to be ready at any moment to throw her 200,000 veteran troops against Austria.

Russia evidently has again begun her advance along the East Prussian frontier, the Russian vanguard being today sixty miles beyond Koningsberg.

BRITISH COMMANDER SHOWS CONFIDENCE IN THE SITUATION

Paris, Sept. 9.—British officers and soldiers arriving from the front today declare that the four days' battle which still continues to the east of Paris is being carried on furiously.

They asserted that the French captured a considerable number of field and machine guns, while the Germans often surrendered in groups.

MATTERS ARE VERY BAD IN AUSTRIA

Panic Rules; All Is Muddle And Fear

ARMIES ARE MUTINIOUS

Bosnia in Open Revolt and Trieste in Desperate Fear of Attack From Sea—Harvest Attacked, and Famine Threatens

London, Sept. 9.—The Milan correspondent of the Daily Mail, who has lately been in Vienna, draws a gloomy picture of that empire. He says:—

"Panic rules in Austria. The great, unwieldy and bankrupt empire, dragged reluctantly at the heels of Germany, is in a state of desperate muddle and fear. Her armies, half hearted at first and now openly mutinous, are beaten back at every point by the Russians.

"The policy of mixing in each company men of the different races which compose the empire has had the result that there is no esprit de corps in the army. The men were driven into trains at the point of the bayonet and scores were shot by their officers to terrorize their fellows into obedience.

"While the Russian avalanche drives on, Bosnia is in open revolt, and Trieste in desperate fear of an attack from sea. Austria is bankrupt, trade at a standstill, and thousands of business men are ruined by a war which they hate.

"While the harvest remains ungathered Vienna is menaced by a famine, and prices are steadily rising. In resentment, the popular anger has turned against the foreigner and Serbs have been torn to pieces in the streets. Two Russian newspaper correspondents were shot by the police and five foreign newspapermen are in prison.

"In utter fear, the government has begun to fortify Vienna and arrangements have been made to flood large tracts of low lying land around the city. Riots have occurred in many towns and to the terrors of the Cossack and the Serb will be added those of revolution and famine."

Trieste, Austria, Sept. 9.—The defeat

Germans Abandon Amiens In Retreat Which May Be More of a Rout

The Beginning of the End, Says London Chronicle's Man at the Front—British Cavalry Doing Great Work—Effort to Cut Off German Right Wing and Annihilate It

London, Sept. 9.—The correspondent of the Chronicle at the front in France telegraphs as follows: "The tables are turned. The right wing of the German army, which was considerably battered by the heavy fighting of the last two days, is continuing its retrograde movement. It is falling back with the British army fast on its flank.

"Everything points to the movement being rather a rout than a temporary retreat. The greater part of the German force held Amiens on Tuesday morning, and the Germans' wounded were rushed to Arras. When I left the neighborhood of Amiens at noon, a small French force was waiting in the vicinity to re-occupy Amiens as soon as the last German soldier had withdrawn, which was expected Tuesday night.

"The allies' left wing is giving the retreating enemy no respite, the British cavalry being especially active. The allies are making every effort to detach the harried German right wing from the main body annihilate it.

"In an effort to prevent this, the German commander seems to be directing the rearward march upon Cambrai and Tournai, evidently with the intention of attempting to re-pass the Belgian border east of Lille.

"Each instant the rearward progress of the Germans is gaining momentum. It is the beginning of the end."

GALLANT ALGERIANS

In Critical Moment Prove Themselves Sturdy Fighters

Charge German Position at Double Quick Under Storm of Shot and Shell and Drive Enemy to Flight

Paris, Sept. 9.—A feature of Monday's action was another heroic charge by the Algerian riflemen. At a critical moment it became necessary to carry a certain position and, after the artillery had prepared the way, 2,000 Algerians, with fixed bayonets, charged the position at double quick without flinching under the storm of shot and shells. They never stopped until they reached the trenches, where they wrought fearful carnage. Many pieces of artillery and machine guns were captured.

After the Algerians came the artillery and infantry and the wedge drove into the line, forced the Germans to retreat. They were pursued by the same Algerians, who inflicted terrible losses.

AGED ENGINE DRIVER KILLED

Robert Donaldson Struck by Locomotive on Valley Railway Line

Frederickton, N. B., Sept. 9.—Robert Donaldson, for thirty-two years a locomotive driver on what is now the C. P. R., met a tragic death on the Valley Railway line at Springhill last night. He was walking along the track near St. Peter's church en route to his home when he was struck by a locomotive of a gravel train. The body was not found until this morning. His right arm was cut off and there were cuts and abrasions on his body.

LOSSES ARE AWFUL

Ten Thousand German Dead After a Single Battle

WAR RECORDS ARE BROKEN

In September 1 Fighting Casualties Totalled 60,000 to 70,000—Germans Lose Two More Major Generals—A Prince Among Wounded

London, Sept. 9.—A despatch to the Daily Mail from Boulogne narrates on the authority of Private Black of the Gordon Highlanders, how the Gordons were surprised and their colonel, W. E. Gordon, killed.

Black says that after the battle at Mons, in which the Gordons suffered severely, at eleven o'clock at night they were ordered to prepare for a long march. They slipped quietly out of the trenches and moved along the road. About two o'clock in the morning they were fired upon from a field. The word was passed that it was a French picket and supposed they were in the French lines. "The colonel called a halt," says Black, "and went into the field and called out trying to make them understand we were English. While we were thus waiting the Germans got all around us.

"The colonel came back and stood in front of us. We were quite helpless, asking each other what was going to happen. Presently they began to shoot. I dropped down to shelter and a comrade fell upon me, shot dead. Some tried to move off, but that was impossible. The Germans were within three yards of us, and shot every man who rose.

"I stayed lying there till light of dawn, before I dared to crawl out. Then I saw the colonel lying dead apart from others, and bodies lying all around."

Berlin, Sept. 9.—Two more major generals have been added to the death list of field officers, Generals Von Gotha and Rieland, Premier Von Weizsacker of Wurtemberg and Finance Minister Von Briesing of Bavaria, have both lost sons. Prince William of Hesse was wounded in the fighting in France.

Long trainloads of wounded are now being brought from advanced to base hospitals or forwarded to lazarettos in the interior of Germany. Only the most severely wounded who are unable to bear transportation have been left in the advanced hospitals.

Stirring Tale of Fight In Air

British Aeroplane Chases German; Frenchman Joins In Pursuit—Revolver Duel Among the Clouds

London, Sept. 9.—A despatch from Rome quotes interview with a German flying officer, who did reconnoitering in Northern France after the battle of Mons.

The German flier, it appears, was chased by an English aeroplane and tried to prevent the Britisher from climbing higher, but as the British machine was cleverly handled, he was unable to do so. Evidently each feared the other carried bombs.

The German said to his mechanic, as the Englishman gained the position overhead: "Our last hour is come," and his mechanic said in reply, "our last half hour."

The Englishman had no bombs or otherwise he could not have missed. The Germans emptied revolvers at the British airman, who replied, but no one was hit.

The German then flew in the direction of his own lines, chased by the British machine, and a French monoplane, which meantime had appeared, also took part in the pursuit. The three machines engaged in a revolver duel, and the ammunition of the German was nearly exhausted when sounds of firing from below reached them. They had reached the German camp, and the two allies thereupon retired.

Field Marshall Sir John French, the commander-in-chief of the British expeditionary force now fighting with the French army, looked perfectly satisfied with the situation, according to the British soldiers. They say he went about the lines smoking a cigarette as though he was on the parade ground.

of the Austrians at Lemberg has created a deep impression at Trieste, and along the Adriatic coast. The regiment, which suffered most were composed of men of Italian origin; the 7th Austrian infantry was recruited almost entirely from Trieste Italians. This organization was virtually annihilated, 2,000 being left on the field and only sixty-five returning.

Before his departure for Valenciennes last evening, Bruce McG. Caldwell, railway mail clerk, was remembered by fellow members of the lodge of Elks, who presented to him a valuable wrist watch. Mr. Caldwell made the presentation. Mr. Caldwell has been appointed to the postal service with the Canadian Army Division for service at the front, and will leave with the contingent from this country.

Sir Henrick Heaton Dead London, Sept. 9.—A despatch to the Morning Post from Geneva says Sir Henrick Heaton died there last night. He was sixty-six years old.

India is contributing £1,000,000 to the cost of the Indian contingent, and the Maharaja of Mysore has given \$1,600,000 toward the cost of transport.

A Portland (Me.) despatch says: With a view of still better protection against fire the boats of the Eastern Steamship Corporation, in addition to the excellent system already in use, are to be further equipped with chemical engines. The apparatus consists of a tank of 60 gallons capacity, mounted on two large wooden wheels equipped with rubber tires, with 100 feet of hose attached to the tank. The apparatus is only about four feet in width, and can be moved readily from one end of the boat to the other. Two of the engines have already been received at Franklin wharf, one for the Bay State and the other for the Ransom B. Fuller, while a third one is to be stationed at the freight shed. It is possible that later all the boats of the Eastern Steamship Corporation may be similarly equipped.

"THE QUEER BRITISH EMPIRE"

(Chicago Herald) -What a queer, queer thing the British Empire is when you come to think of it. In ordinary times you would naturally judge from the way Ireland and the dominions and colonies talk about Great Britain that the poor old country didn't have a friend on earth. In ordinary times some part of the British Empire is always berating the home government. In time of peace everybody feels at liberty to assume a possible revolution in India; separation of the dominions, and all sorts of other disastrous things. In times of peace the empire is always more or less "doomed," according to the statements of many gloom-laden British subjects. But in time of war how suddenly things look up in that queer, queer British Empire! "I haven't a thing to take back," says Ireland, "but under the circumstances kindly show me the enemy as soon as possible. I want to get at him." "Yours of recent date received," says Canada. "Am sending men as fast as they can be gotten ready and transportation secured." "Reserving for a more auspicious time any hatred a part of our population bears to England," says South Africa. "We are preparing to do our utmost in the present war." "Serious local dissatisfaction will arise, unless Indians are permitted to give their lives for the honorable empire, now that it is at war with a foreign nation," says India. "It's everywhere," the same story. In peace it's "Confound your stupid, unreasonable, fat-headed, doomed arrogant soul!" in time of need it's "Count on us to the limit!" Which is why we say that the British Empire is a queer, queer institution!

How She Acquired "Feminine Charm" A nicely-dressed woman sat beside me in the train. Everyone stared at her. It was not her beauty of feature that held our eyes, nor her costume. But there was something about her face and expression.—I risked it and asked: "Would you mind telling me how you keep your complexion so distinctly pure? Don't think me impudent, but you seem over 30, yet haven't a wrinkle in your face, and your cheeks are quite peach-like. How do you do it?"

Laughing, she said: "That's easy; I remove my skin. Sounds shocking, doesn't it? But listen. Instead of cosmetics, I use only pure mercuric sulphate, procurable at any drugstore. I apply this nightly, like cold cream, washing it off mornings. This gently abrades the soiled, weather-beaten film-skin, without pain or discomfort. Thus revealing the soft, clear, unadorned film-skin, without pain or discomfort. Every woman has a beautiful complexion. You know it, and you know how to get it. Use a face bath made of hard soap and water. (One hard soap containing which tones the skin wonderfully, very simple, isn't it? I thought so. I'm now trying her plan and like it immensely.—Missout Browns in The Story Teller.

Your Manly Strength "Nature" Book Free

My Free Offer to My Men and Young Men Readers. My free offer is as follows: There are in existence today numerous creditable books relating to the much discussed sex science, and they range in price from \$2 to \$5, while my offer as given below is a free one. I publish a little private compendium of 72 pages, pocket size, containing 6,000 words and 80 half-tone photo reproductions, which thoroughly covers the subject of sex, but only in its relation to manhood or vital manly strength. Its legitimate use its wanton abuses, its loss and the causes thereof, its possible self-restoration and its permanent preservation. These are the vital phases of the sex subject which I find to be of most interest to all men, young or elderly, single or married, and I have therefore put into this little self help book the very best that I can offer relating to that particular personal and private advice and information, which my 80 years' practical experience in this field has taught me man most seek, and through which they can get the most real benefit in respect to their own vigor and vital health. This, reader, is the book, and my offer to send it by mail, absolutely free of charge, in a perfectly plain, sealed envelope, to any man or young man anywhere who writes for it (see coupon below), and there is not a particle of obligation of any kind whatsoever involved in making this gift offer to you. Over a million of these books have been thus sent to men all over the world who wrote for them. The reason why I can offer this illustrated sex book free is that in one part I include a description of a little mechanical vitalizer of my own invention, which is for use by those of my readers who need some outside aid in the restoration of their manly vigor. However, that is a matter for each person to decide for himself. The book is complete and entirely independent of anything it says with respect to the vitalizer. Therefore please use free coupon and get the book by return mail. You will find it a valuable adviser in many respects.

THE WAR NEWS

What appeared to be the most important news of yesterday, and which certainly would have been such if it had been confirmed, is still lacking confirmation. It was the statement to the effect that a combined British, Belgian and Russian army was striking at the German line of communication into France.

The situation in France is still reported to be satisfactory to the allies. The German right wing has been forced back farther from Paris, and, while the German centre and left are in close contact with the British and French, the reports show that they have not only been repulsed, but at some points have been driven back for some distance.

There appears to be some further evidence of a German plan to converge their several armies upon a point in the French line of defence somewhere south-eastward of Paris, as was suggested in this column yesterday, and drive a wedge through in such a way as to divide the allied armies and perhaps make it possible to crush the French right wing before effective reinforcements could come from the north.

The Russians operating in Galicia have captured the fortress of Mikolajoff, south of Lemberg, and one of the most modern of Austrian fortresses. Supplies had been stored here and at Lemberg for a whole year, and these have fallen into the hands of the Russians.

The Ottomans are making no illusions concerning this war. He warns the English people that Germany will fight long and hard before she will accept such terms of peace as will be satisfactory to her enemies.

Since the above article was written, news of the most cheering character has come from the field of operations in France. The correspondent of the London Chronicle declares that the right wing of the German army is retreating, with the British fast on its flank, and that the movement appears to be a rout rather than a retreat.

The Ottawa Journal urges Col. Hughes to call out the militia. The Journal points out that, while there is a large voluntary force at Valcartier, many more men will be needed, and quotes the solemn warning of Lord Kitchener that this will not be a short war and that the people must be ready to make serious sacrifices.

The citizens of St. John should give the exhibition a generous patronage. A correspondent suggests that the children's playground provided for in the Fort Howe National Park plan should be called the Mabel Peters Memorial Playground.

to whom Mrs. Bell has also written embodying her admirable suggestion. Imagine a German army taking to its heels with those degenerate English in hot pursuit. Can the Kaiser imagine it?

There aren't many stations on the transcontinental system of the Canadian Pacific which don't know, by this time, that the Great British Columbia Horse have passed through on their way to the front. At any rate, they should know it, judging by the noise the troops made when they sang their regimental ditty while passing through Montreal and which they sang every time the train stopped between there and the Pacific Coast. This is the ditty:—

British Columbia Horse are we, From Canada's Pacific sea, To make the Kaiser understand, He must respect our Motherland.

Now we're on our way to war, What in reason are we going for? We're going to get the Kaiser's goat, And shove his whiskers down his throat.

We are the B. C. Horse you see, And on our way to Germany, We'll stick as one through thick and thin, And fight our way to old Berlin.

We'll make him bow and scrape to us For stirring up this nasty fuss; We'll make him dance the Highland Fling, And "Rule Britannia" loudly sing.

Next week will go A hat to him, That has a bow Tied on behind.

The Other Point of View "So you are taking summer boarders this year?" "Yes; we didn't have to, but my wife loves to hear 'em talk that city dialect."

All He's Come For "Mr. Green has called to pay his respects to you, sir." "Disappointed again. I thought he'd come to pay me that ten he owes."

He Was "Jane, what time is it?" called down the irate father. "I don't know, pa. The clock isn't going."

"But I am," spoke up the young man who could take a hint.

NINE GERMAN CRUISERS WERE SENT TO DOOM IN LESS THAN HOUR OF FIGHTING

London, Sept. 9.—How the German cruiser Mainz met her doom is told in a letter from one of the crew of the British light cruiser Southampton. It says:

"In the morning, we had a brush with two German destroyers off Heligoland, and we hit them twice before they disappeared in the mist. Things began to look lively as we were putting shells into her at the rate of thirty a minute, each shell being a six inch Lyddite, whose fumes had everyone within sixty yards, and set fire to everything nearby.

"Soon the Mainz was afloat and the next shell we sent went through two of her funnels and the mainmast. What a sight she was. The fire amidships made her funnels red hot while flames and smoke poured out from all parts of the vessel. Her port side was like a sieve. Every gun was smashed, the whole upper deck in chaos and the bridge a mass of tangled iron.

"We passed within 200 yards and only three living human beings were visible on the decks of the German cruiser. Many had jumped overboard, and most of these we rescued, but the total list of saved was only eighty-six out of a crew of 600.

"After this heavy firing was heard ahead, and we shot forward again, soon coming up with another German cruiser, similar to the previous one. We repeated the previous action, but this second cruiser sank so quickly we could not name her crew.

"Before this was over a third ship came up, and gave us a broadside to which we replied, enthusiastically, leaving her astern afterward, in a sinking condition.

"This made three ships done for in less than an hour, of actual action. We decided we had done a good day's work, so we shot away for home and safety. There is not a shell mark anywhere in our boat."

ORGANIZE FOR PATRIOTIC FUND IN THE COUNTY

A large and enthusiastic gathering was held in Temperance Hall, Fairville, last evening when the men of the county met to organize for the purpose of raising money for the patriotic fund.

Councillor John O'Brien has been chosen chairman of the fund committee, Walter Ross treasurer, and S. M. Wetmore secretary.

The following list was chosen by the nominating committee to take charge of the campaign:

For Fairville—The resident clergymen, Councillors Bryant, Golding and O'Brien, J. J. Hennessey, Charles Dalton and Alexander Scott.

South Bay—Amador W. Anderson, Grand Bay—Daniel Usher.

Manawagonish road—Alfred H. Clark, Lorneville—Nat. McGuire and John McCavour.

Beaconsfield—G. Earle Logan and W. O. Dunham.

WAR NOTES

The German cruisers Scharnhorst, Gneisenau, Nürnberg, Stettin and Emden are still in the Pacific and unaccounted for.

The Newfoundland legislature has provided for the expense of a volunteer force, confirmed action already taken by government, and provided for a moratorium if it should be needed.

The people of Roumania are wild with joy over Russian successes. Two hundred thousand people paraded yesterday in Bucharest to express sympathy.

Train loads of wounded Russians and Austrians and prisoners, are arriving in Petrograd from Lemberg.

The Spanish steamer Monserrat, taken into Halifax by H. M. S. Glory, was released today. The sixty-eight Germans taken off include a Count believed to be an important prisoner. They will be held till the end of the war.

The Germans are said to have evacuated Upper Alsace.

A GERMAN SUSPECT

The arrest of a German, who it is believed had intentions of destroying Canadian property with the aid of high explosives is announced at Riverview. Two bottles of nitro-glycerine and sixteen sticks of dynamite were found in his possession.

ROSE LINEN FOR SMALL GIRLS.

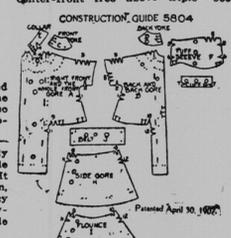

Little girl's frock in rose colored linen, trimmed with embroidery. The design is suitable to development also in taffeta and other non-tubular fabrics.

Although this model seems especially designed for small girls, it is suitable for even the school miss of fourteen. It is fashionable developed in rose linen, trimmed with embroidery and fancy buttons. It looks equally well, however, in taffeta, serge or a non-tubular fabric.

For a girl of average size the material required is 4 1/2 yards of 36-inch linen. The buttons and loops may be bought for about 20 cents a dozen, and the embroidery is so simple in design that it can be done by the home dress-maker.

Patterns published in this series may be obtained by sending price of pattern in cash or stamps to The Evening Times Pattern Department, 23 Cartersburg Street, St. John. As a rule it takes about one week to deliver the pattern to the buyer. These sending money must be careful (1) to write the number of the pattern plainly (2) to write their name and post office address clearly, and (3) to enclose the price.

Cut This Out

Famous Specialist's Recipe for Catarrhal Deafness and Head Noises

If you know someone who is troubled with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmitin (Double Strength), about 75c. worth. Take this home, and add to it 1/4 pint of hot water and 4 oz. of moist or granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dripping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better.

Important—In ordering Parmitin always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c. to the International Laboratories, 74 St. Antoine St. Montreal, P. Q., who make a specialty of it.

A TRIBUTE TO "PEG" AND THE PLAYERS AND MANAGEMENT

St. John, N. B., Sept. 8, 1914.
 Mr. McKay,
 Manager Opera House,
 City:

Dear Sir—As an inveterate theatergoer of fully twenty years' standing, and having seen practically everything in the amusement line that has been presented here in that time, both good, bad and indifferent, mostly the last two, permit me to congratulate you on the very excellent company now presenting "Peg O' My Heart" at the Opera House. I must confess that it is difficult for me to decide which performance I enjoyed the most, he one in New York or the one here. I regard the play and players to be the best with perhaps the exception of "Bunt Pulls the Strings," that has visited this city in many years, and if given my choice I would much prefer to see Peg O' My Heart than the latter. The company certainly deserves crowded houses during their stay here. As I understand that you have very recently assumed the management of the Opera House, permit me to congratulate you on your present offering and I trust that you will give us many more such delightful treats. While you may, if you wish, publish this letter, I would prefer that you withhold my name unless the authorship of the letter is questioned. I enclose my card.

Sincerely yours,
 THE BAPTIST MINISTERS.

AMERICAN CITIZENS PULLING FOR THE ALLIES

Winnipeg, Ont., Sept. 8.—That the people of the United States are pulling for Britain in the European conflict is rather indicated by the fact that a number of Port Huron residents have ceased trading with German merchants.

A Bargain.

Scotsman who was spending a holiday in London fancied some nuts, so he went to a green-grocer's shop and asked for half-penny worth. The assistant told him if he would like them mixed, thinking for a few seconds Sandy inquired: "Oh, ay! give me them mixed and put in as many coconuts as you can!"

Toy-Makers Now Make Orphans

It must sadden the toy-makers in Germany to find on the streets of Berlin and other cities the children of a trade which makes children their gratitude to Santa Claus.—Winnipeg Courier-Journal.

MONEY FROM CANADA MOST WELCOME FORM OF RED CROSS AID

"Best form of help is money which can be turned into kind of relief suddenly needed" was the message received by Noel Marshall of Toronto from England in reply to a cablegram announcing that the Canadian Red Cross Association was organized and asking whether it should supply nurses, material or cash for use during the present war. The Canadian organization will, therefore, endeavor to "siphon back" ten thousand pounds this week. Already Winnipeg has voted \$10,000 for the cause, Vancouver \$2,187.50, Ottawa \$2,000 and Montreal has promised to make a contribution early in the week. The notification from England has been telegraphed to all branches of the association throughout Canada.

Addressing the Toronto branch of the Association last week General Sir William Offer offered some sensible advice. He recalled that in the South African War quantities of things made for the soldiers had never reached the front, and at the end of the war had been thrown away. He pointed out that British troops did not carry 50 pounds on their backs as did Russian, French and German soldiers, therefore he felt that the ladies of the country should be so guided that they would provide necessities for the men at the front rather than comforts. Money and comforts for hospitals, which would spring up in the war zone, would be very acceptable. Therefore, he felt that the society was acting wisely in collecting funds to be sent to the War Office, and he advised the women to make comforts for the sick and wounded rather than for men in the fighting line.

TIMES, SEPTEMBER 9, 1914

"Some fine day, Bill I'll put on some life insurance and when I do I'll take it with you."

In these words last summer a young man declined to apply for an Imperial Life policy to protect his widowed mother against the contingency of his death.

Four weeks later he and a friend were drowned while bathing.

Supposing you should die suddenly—what would happen to your dependents? Would they be destitute to a life of hardship? It is for you to say.

You can prevent it by means of an Imperial Home Protection policy. Let us tell you more about it! A postal will bring the information.

KEEPING DOWN THE PRICE OF THEIR FLOUR

Calgary, Alberta, Sept. 9.—To reduce the price of flour to its members, the Consumers League of Calgary—a woman's organization—proposes to attack the alleged flour trust by utilizing the output of the smaller flour mills. The league will bring flour in car lots to Calgary and sell to its members at actual cost. This course is made possible by the fact that many of the smaller mills in their effort to get business will undersell the larger mills. Consumers who are members of the Calgary League will thus save fifty cents a hundred pounds in their purchases of flour.

To Handle the Crops.
 Calgary, Alberta, Sept. 8.—To meet the demand for rolling stock to move the crop, the Ogdon locomotive and car shops at Calgary have again assumed activity, more than 1,200 men being employed. There appears to be no doubt that with the assistance of the two other transcontinental railways now operating in this district for the first time this season, the transportation companies are equipped to handle the crop in record time.

"England Expects Every Man (and Man-ufacturer) Will Do His Duty"

In times of national crises it seems especially appropriate for Canadian manufacturers to declare their policies.

We are, therefore, pleased to announce that:

There will be no increase in the price of Dunlop Rubber Goods unless future advances in the crude rubber market make this imperative to the company.

As in the past, we will continue to select Made-in-Canada Goods in all our purchases of products obtainable in Canada.

We also endorse the sentiments of other Canadian companies who have, in effect, so splendidly said to the people of this country: "The question of whether prices ascend or descend, whether you are to be employed or unemployed is in nearly every case in your own hands."

If it is incumbent on the manufacturers of the Dominion to be courageous and generous as they never were before, it is tremendously more incumbent on the people of the Dominion to have a passion for purchasing goods made in Canada that they never had before.

Millions of dollars' worth of tires and general rubber-made goods are imported into Canada each year, and this is true of many other lines of manufacture. That money can be kept in Canada from now on if you say the word. As ably pointed out by Canadian newspapers, we cannot avoid the issue. We Canadians must seize the opportunity to cash in on the Made-in-Canada idea or forever forget about it. Think of this before you make a single purchase.

The Dunlop line of rubber-made goods is as complete in its variety as it is unexcelled in its quality. There is the famous Traction Tread Auto, Motorcycle, and Bicycle Tires, which have a Continental reputation for efficiency; Dunlop Motor Truck Tires, which lead in every big city in Canada; Pneumatic Carriage and Bike Wagon Tires, which have been used and endorsed for nearly two

decades; Belting, Packing, and Hose for every known purpose, which are to be found giving continuous and satisfactory service in railroads, mines, and in general manufacturing corporations; Horse Shoe Pads, where the crying need is to meet the demand; "Fearless" Rubber Heels, which are now superseding everything before them from coast to coast; Rubber Mats and Matting, which have reached the highest standard of excellence; and Dunlop General Rubber Specialties.

No other rubber goods manufacturing plant in the world can offer you advantages either in efficiency of equipment or skill of artisans which is not to be found in equal measure in the Dunlop organization.

In fact, Canadians have for so long exacted so many merits in the rubber products they buy that the very existence and continued growth of our company is proof that man for man, plant for plant, no one in the rubber business in this country need take a back seat to the world's best.

On all sides people are asking: "What can I do for my Mother Country? How can I give vent to my patriotism?"

Here is our suggestion:

RESOLVE that, no matter if it costs you a little more at first, you are once and forever going to say "Good-bye" to the old illusion that only good things come from other countries. THAT you will eat Canadian foodstuffs, wear Canadian clothing, read Canadian newspapers and magazines, ride in Canadian automobiles, use Canadian materials and manufactures wherever and whenever you can.

In short, when there is a world-wide desire to capture something, That you will contribute your quota towards helping the Canadian manufacturer capture the entire Canadian market. That is the surest way, the speediest way to bring back normal times. It is the only certain way to make employment sure for every man.

SPORT NEWS OF DAY, HOME AND ABROAD

Maritime Tournament. Sackville, N. B., Sept. 8.—The Maritime Golf tournament opened today with a fine field of entries. The new Sackville course proved most interesting, the local club under President Wood having done an immense amount of work to get the links into shape, and deserving of great credit. A high cross-wind prevailed during the qualifying round today and during the thirty-six holes the players found trouble plenty. The honors of the opening day went to the stalwarts of Lingan (Sydney). They won the team match for the best qualifying scores, Amherst being second, and St. John third. The best score was made by Malcolm Martin, veteran captain of the Sydney Inn. The first sixteen who qualified are as follows: Martin, Lingan, 189; Rogers, Amherst, 191; Russell, Amherst, 192; Sample, Truro, 199; Russell, Amherst, 200; Croucher, St. John, 202; J. McCann, Lingan, 204; J. Corbett, Lingan, 205; Lawson, Amherst, 206; Dunn, Lingan, 208; C. Skelton, St. John, 208; Rogers, Amherst, 208; N. Campbell, Truro, 209; M. McKenzie, Lingan, 210.

Windward Won. At Halifax yesterday the third race of the Corporation Cup was won by the sloop Windward, defeating the rigger II of Sydney and the Gem, of Halifax, over a twenty-one mile course.

St. John Winners at Toronto. By taking the first winners at the Toronto dog show, the St. John Irish setter, Jerry Law, completed the required ten titles and is now a champion. Glenchoff, a ruby toy spaniel, also from St. John, took five points for winners and requires only three more for a championship, and Glenchoff Indicator (kennel name Fleck) bred by John Mitchell of St. John, got first in the puppy class and in the novice class.

Horse Racing at Bathurst. The postponed Labor Day races, held yesterday at Bathurst, resulted as follows: Free-for-all, Hal I; 2nd, Northern; 3rd, Law, completed the required ten titles and is now a champion. Glenchoff, a ruby toy spaniel, also from St. John, took five points for winners and requires only three more for a championship, and Glenchoff Indicator (kennel name Fleck) bred by John Mitchell of St. John, got first in the puppy class and in the novice class.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

If Mixed With Sulphur it Darkens so Naturally Nobody Can Tell. Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 60 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

What Devore Would Do. Here is a good one that Josh Devore, outfielder for the Boston Nationals, got off on some of his team mates last week. The boys were sitting around talking about the close race in the National League between Boston and New York (let us whisper here that Devore was one time with New York). Devore was very enthusiastic. "I wish he said that the two teams would keep the right up to the last game and in the ninth inning, with the score tie, two men out and three on bases, and it was my turn up to bat." "What would you do?" came the chorus, every one expecting him to say he would wash out a homer. "Make out my will, stick my head in front of the first fast one and die happily," was Devore's retort.

THE TURF

Grand Circuit at Hartford. On the Charter Oak Park, Hartford, yesterday, the winners of the three events, each for a \$2,000 purse, were as follows: The Nutmeg, 2:10 pace, King Coudman (Murphy) best time, 2:07; The Acorn 2:24 trot for three-year-olds, Airdale (McDonald) time 2:13 1-4; The Elmwood 2:12 trot, Brighton B. (Murphy) time 2:08 1-2.

Probably the greatest interest centered in the alleged baseball match in which the married men again demonstrated their superiority by defeating their single brethren by a score of 27 to 26, or something like that, for darkness had set in before the last runs were tallied and as it looked like rain the score-keepers journeyed homeward to get their umbrellas. Before they returned several more runs had been made on each side, but the married men were able to shout the loudest, so the single men are willing to let it go at that. The procession of the married men in the diamond resembled an old time Polynesian parade. Each was clad in an original if sometimes grotesque costume, and they represented many different personages of history and fiction.

That Snodgrass Incident. Mayor Curley, of Boston, has asked J. K. Tener, president of the National League, that Snodgrass, outfielder for the Giants, be punished for "flagrant and unwarranted insult to the public." He also asked that Umpires Klem and Emery be censured for refusing to remove Snodgrass.

SOCIALIST'S ORATION WAS STOPPED BY ANGRY CROWD

Drove Speaker From Stand When He Said "Britons Never Shall Be Slaves." With Sarcasm Intent—Near Riot. (Montreal Mail) There was an instance of the patriotic temper of the citizens of Montreal last night, when a crowd in Phillips Square credibly put an end to the oratorical efforts of a Socialist speaker. The deposed speaker took refuge in the doorway of Birks and Sons, Limited. He was not followed by a large gathering for the only object had been to put an end to his tirade, when the excitement was at its height a party of recruits who had been drilling at the Highlanders' Army came along with a pipet, and the air was soon ringing with patriotic cheers and songs.

How far the crowd might have gone is hard to tell; but while the excitement was at its height a party of Highland recruits, with a pipet came along St. Charles street and were attracted by the noise. The militiamen in-the-making started cheering and singing and the aroused crowd joined in and "let off steam" in a vigorous patriotic demonstration.

One of the ring-leaders of the "mob" admitted after that he had been "hired" for this particular speaker ever since he had overheard a remark made to a companion in Dominion Park on Sunday. "He talks like one of those bloody Christians," was the sentence claimed the advocate of Socialism had used. Since that time he had been ready to "take a punch at him" if chance offered. Here and there an advocate of free speech was found. But the answer they received was that the speaker "had no business bringing up subjects like that at this time."

THE WESTERN CROP

Edmonton Bulletin.—The present situation is that we have a fair crop and the promise of a less demand and as high prices as could be expected or desired. Whether viewed in the light of what occurred during the Boer war and the American civil war and the Crimean war, or from the standpoint of existing conditions in Europe alone, the conclusion is irresistible that the Canadian farmers and hence the Canadian people generally—are in line to benefit financially and commercially, immensely and immediately, from the war. We should as a nation be on the tip-toe of expectancy and reaching out to grasp as large a share as possible of the material results which must accrue to other productive portions of the world because of the blight that has fallen upon one continent.

Admiral de Ruyter—Greatest of Holland's Sea Captains LIKE our own Paul Jones, de Ruyter knew no such word as surrender. His life from boyhood up was one constant battle against the enemies of his country. He defeated the proud English navy in two wars. One of his sea battles with the English fleet lasted four solid days, and ended with the advantage resting with de Ruyter. Later he fought several great naval duels against the combined English and French fleets, and while his victories were not decisive, he won for Holland undying glory. The great de Ruyter abhorred tyranny of every kind, just as do the Hollanders of to-day. When prohibitory enactments are proposed to those of the blood of Holland they vote to a man against it. They are wherever found unalterably opposed to any legislation which would make the many suffer for the faults of a few. Hollanders know that there is no evil in the barley brews and light wines of their fathers—EVIL ONLY IS IN THE MAN WHO MISUSES THEM. In America we have thousands of these splendid people, and Personal Liberty always obtains where they reside. For 57 years Anheuser-Busch have enjoyed the trade of those of Holland blood every day of these 57 years has been devoted to the honest brewing of Barley-Malt and Hop brews. It is not to be wondered that 7,500 people are daily required to keep pace with the natural demand for Budweiser. Its sales exceed those of any other beer by millions of bottles. ANHEUSER-BUSCH-ST. Very Willing. A lecturer one torrential night addressed an audience which might have been much larger without taxing the seating capacity of the hall. Naturally he was willing to curtail his address, and, having reached what he considered the psychological moment, said:—"I'm afraid I've kept you too long." Whereupon a voice replied:—"Go on, it's still raining." Forty-three thousand persons make their living in connection with the hotel business in Switzerland. ROUND-ABOUT COURSE FOR STREET ROLLER

Necessity, besides being the mother of invention, is also responsible for some peculiar fancies, but perhaps there are none which from the outside look more peculiar than the manner in which the city's street roller is operated in Prince street.

The only way to roll the roadway is to run the machine down hill, and then comes the question, How will it get up again? This is where Mrs. Necessity fosters an idea and acting under it the "chauffeur" takes his machine along Prince William street up Duke and along Canterbury street for another descent.

HONESTY APPRECIATED An appreciation of honesty was made this morning by John J. Wood when he asked that mention be made of an instance in which a pocketbook which he had lost had been restored to him through the uprightness of a fellow citizen.

Mr. Allan's contribution was warmly received by the meeting, and Councillor John O'Brien, chairman of the committee, moved a vote of thanks, seconded by James McMurray, which was carried with enthusiasm.

No doubt the flags will do their good share in this campaign, and the committee feel grateful for the gift, which carries with it such a happy augury of success.

The Man In The Street

Been to the fair yet? Guess the censor's still on the job. But, speaking about the war, the Boston Braves are showing up well.

Yes, we thought it was a very good fair. The chap who passed the Yankee copers on the newsboys is another added to the "meanest man" class.

Going Up! Got your coal in yet? Think of the poor kids ten or fifteen years from now trying to struggle through the names of some of those battles now being fought.

The War Cost of Living is far worse than the H. C. of L. used to be. The weather bulletin in Europe probably announce "unsettled."

After many weeks' waiting we can now enjoy a through set ride, but still we don't see why we couldn't have it sooner.

Don't forget to take a 5 cent cup of tea or coffee for the patriotic fund, at the exhibition. If the Germans had only stuck to that band business, they would be more popular now.

Many fellows speaking of Nancy have a sigh of relief that at last there's come a name with which they're somewhat familiar. This actually happened at the big show on the exhibition grounds yesterday.

Hay's all stowed away, the potato crop is harvested, and we're in town for the exhibition. Another bag o' peanuts there, boss.

German's can't collect rents in Canada," says headline. The Germans needn't worry, there are others in the same boat. Great competition these days between the "barkers" on the midway and the other kind in the dog show.

That dinner in Paris to which the Kaiser invited his officers must be getting cold. New York restaurant keeper posted a sign on his place, reading "The War will be decided in Europe—Don't try to start anything here." Could anything be more eloquent?

Meanwhile what's become of the Pink steps, now that reinforcements have arrived? Advertising Pays They were from the country. That was plain to any person with an observant eye. He wore a black serge suit, pressed stiff on the edges, patent leather boots, a straight-up collar, and O! horrors a red bow tie. His derby hat was last season's style.

He wasn't just the kind of toger we see sauntering up and down King street on a fine summer afternoon. But aside from their garb, which would proclaim to a casual observer that they didn't come from Fairville, the way they meandered through the streets would have been enough to allow one to ask "How 's things on the farm?" Hand in hand they strolled along, wondering at the flow of traffic, automobiles, street cars and other vehicles, and "rubbering into the shop-windows and at the roof-tops sometimes. Thus it was that they were spied by a watchful cobby, eager for a fare, and going up to the young swain, he said "You're taking your girl to the exhibition, aren't you?"

Instantly there came a change over the young farmer. "Come on Lizzie," he whispered, "Let's get on out of this." And then when they were a safe distance from the coachman he said "Now, how d'ye 'spose he knew we wuz goin' to the fair? 'I dunno, Henry," she replied, "Praps, he's one o' them mind-readers off the Pike."

What He Was Called The opening of the schools bring the usual crop of first-day stories. In one the primary classes a youngster turned up without his permit, but was allowed to stay by the teacher, who promptly undertook to secure his name for the register. The last name was given without any trouble, but then the hitch came. "What is your Christian name?" she asked. A blank look was the only answer. "Well, what does your father call you?" was the next attempt. "He calls me son."

Not a bit non-plussed, the teacher returned to the charge. "What does your mother call you?" she asked. "Mamma calls me boy," was all the information she got. One more trial. "But what does your mother call you when you are out of doors and she wants you?" "She calls me in."

And the teacher gave it up as a bad job. MABEL PETERS MEMORIAL Editor Evening Times-Star: Sir:—While one might think the last word had been said in appreciation of the life and work of the late Miss Mabel Peters, I feel that half has not been told, as I recall the supreme efforts she made the first day of canvassing for the supervised playgrounds, and after hours of work had not received one subscription. Discouraged, but not dismayed, she was greatly cheered by a donation of one dollar. I want to say just here that Miss Alice Ketchum donated the first dollar to supervised playgrounds in St. John.

Our loss in the calling away of Mabel Peters, who can measure it? But she has left a monument in her work that will live, and unborn generations will rise and bless her. A fitting memorial would be to call the Fort Howe Park playground the Mabel Peters Memorial. I have written Mr. J. B. Harkin concerning the matter.

PATRIOTIC FUND

Matter of Merging With Canadian Organization Not Yet Settled—Further Contributions

Very little business of importance was transacted this morning at the meeting of the executive of the Soldiers' and Families' Patriotic Fund Committee. Lady Tilley and Mrs. G. F. Smith, in behalf of the Soldiers' Wives' League, asked that their organization be recognized by the committee in connection with the patriotic work now being done by them. On motion of Mayor Frink the request was granted.

Senator Thorne moved the following resolution, which carried—That a committee of nine, with power to add, be appointed for the following purposes: To obtain information and make recommendations to this committee as to the advisability of merging the association with the Canadian Patriotic Fund, or of organizing a separate provincial corporate body for the province. The following members were appointed: Mayor Frink, E. A. Schofield, A. P. Barnhill, C. B. Allan, J. F. Robertson, G. S. Mayer, Com. Wierman, Hon. J. E. Wilson and J. M. Robinson. Senator Daniel and C. B. Allan both spoke strongly in favor of merging the fund with the Canadian fund. The committee will meet this afternoon and report at Friday's meeting. Commissioner Russell, the first named on the relief committee, retired, and his place was filled by the appointment of M. E. Agar.

Lieut. Governor Wood referred to the work being done in connection with the organization of the province and read a draft of a letter he was sending out. The meeting adjourned until Friday morning at 11 o'clock.

HERE ARRANGING FOR NEW BRUNSWICK'S GIFT OF POTATOES TO ENGLAND

The arrangements preliminary to the shipping of New Brunswick's 100,000 bushels of potatoes to England, as her war gift to the Motherland, are being made now. J. B. Daggett, provincial secretary of agriculture, arrived in the city this morning from Fredericton, to consult local people in regard to transportation, warehouse accommodation, and other matters.

Mr. Daggett said he did not anticipate any trouble in securing the desired quantity, but before they were purchased it was necessary to arrange for their shipment. The department had as yet had no advice from the imperial authorities as to what point they desired the shipment to be made. He thought the potatoes would be handled at St. John. Mr. Daggett will report upon his part of the work here, to the minister of agriculture in Fredericton tomorrow.

This Boys' Clothing Store Meets Every Demand of Both Parents and Boys

Most Youths and Mothers when they buy Boys' Clothing judge it from three standpoints—how well it will wear, how well the boy will look in it, and the price. The boy is concerned chiefly in whether it fits and looks well and allows perfect freedom of motion.

We believe the Boys' Clothing here will meet every one of these demands, fairly and squarely. We do not claim that it never wears out. We do not maintain that it is the lowest priced Boys' Clothing you can buy. What we do say, and say it emphatically, is that BOYS' CLOTHING SO GOOD AS THIS CANNOT BE PURCHASED AT LOWER PRICES.
