HOW HAZEN'S GOVERNMENT GIVES JOBS TO FRIENDS

Thomas A. Peters, Deputy Commissioner of Agriculture Displaced to Make Room for W. W. Hubbard—Mr. Peters Many Friends Will Be Very Sore at the Change

Fredericton, N. B., June 22.—(Special)—The announcement of the dismissal of Thomas A. Peters, deputy commissioner of agriculture did not come as a great surprise to his friends here. It was known that W. W. Hubbard was slated for the job prior to the last general election, and the only reason that Mr. Peters was not sooner displaced was that the government feared the wrath of some of his supporters in Kings county, where he formerly resided.

BRODEUR FAVORS A CANADIAN NAVY

Minister of Marine and Fisheries Thinks This Would Be a Better Plan Than to Build Dreadnoughts or Give Cash Grant for Imperial Defence

Montreal, Que., June 22.—(Special)—The minister of marine and fisheries, in an interview here, has declared himself in favor of building a Canadian navy. There were three alternatives before the government, said Mr. Brodeur.—To give a couple of millions to build an annual cash grant, or build our own navy.

A WALL OF WATER SWEEPED DOWN CREEK

Great Damage Done in the Atlin District of British Columbia by the Breaking of a Dam—Bridges and Mills Swept Away

Vancouver, B. C., June 22.—(Special)—The dam of the North Columbia Company at Surprise Lake, at the head of Pine Creek, in the Atlin district, gave way on Thursday. A wall of water eight feet high rushed down the creek twelve miles to Lake Atlin, sweeping all before it. The bridge of the British American Dredging Company, costing \$250,000, was wrecked. The sawmill of James Clark at Half-way station was swept away, and the houses of the North Columbia Company and other mine owners were carried away. This damage is estimated at \$75,000.

THE NEW YORK MURDER IS FAR FROM SOLVED

Brother of Elsie Sigel Victim of New York Trunk Mystery Arrives to Identify an Arrested Suspect—Something About the Chinese Missions

Schenectady, N. Y., June 22.—Reginald Sigel, brother of Elsie Sigel, the victim of the trunk mystery in New York, arrived here early today for the purpose of identifying the Chinaman arrested here yesterday, and determining whether or not he is Leon Ling, in whose room Elsie Sigel's body was found. Sigel was accompanied by William Reich, a New York central office detective. They went to the New Vendome Hotel, and returned for a few hours sleep, planning to visit the jail during the morning to see the prisoner confined there, who declares he is Chu Hoo, but whom the police are detaining on the theory that he may be Leon Ling or an individual who may throw light on some feature of the murder mystery.

(N. Y. American.)

It is a notable fact that the Chinese Mission and "Girls' Recreation Rooms," conducted by Mrs. Frances Todd at No. 10 Mott street, was closed for the Summer Saturday night, twenty-four hours after the body of Elsie Sigel, one of its foremost workers, was found in the apartments of William H. Leonard, the American Chinaman, who had long been a frequent visitor of the place.

The only explanation left by Mrs. Todd was that she was going away to spend the rest of the summer with her son.

The other missions in the neighborhood were running full blast yesterday and last night, as though nothing unusual had occurred.

The Morning Star Mission (Baptist), at No. 17 Doyers street, in which Miss Helen Gould is said to be interested, presented a scene of animation. The place, as large as an ordinary school room, was filled with tables. The superintendent and the pastor, both Chinamen, were present, and at the tables were seated twenty or thirty Orientals.

Seated with them were white men and white women, teaching them the English language by means of the Bible. This session was called "Sunday school."

Most of the teachers were women of twenty-five years, all intelligent looking, and one or two more than passably prepossessing.

At one table were seated a man of forty-five, a girl of fourteen and two Chinamen. The girl sat between the Orientals, and in the mind of the one on her left she seemed to be installing Biblical truths and a knowledge of English simultaneously.

POOR BOXES IN ST. PETER'S STOLEN THIS MORNING; TWO BOYS ARRESTED FOR CRIME

They Are Also Believed to Have Looted the Poor Boxes in the Cathedral and St. John the Baptist Churches Last Night—Clever Work Done by Policemen S. D. Hamm.

The work of robbing the poor boxes in the Roman Catholic churches took a new turn today, when a daring robbery of the boxes in St. Peter's church resulted in the rounding up of two youths, who are believed to have those responsible for the forcing of the boxes in the Cathedral and St. John the Baptist church. The poor boxes in St. Peter's church, in which collections are placed for the orphans, were missing. Patrolman S. D. Hamm, who was in plain clothes, was notified. Acting on information that two youths were seen acting suspiciously near the church, Hamm went to work on this slim clue.

WILL TAKE TO PRIVY COUNCIL

Armand Lavergne Says the Fournier Case Will Be Carried to the Highest Legal Tribunal

Montreal, Que., June 22.—(Special)—Armand Lavergne, M. P. A., one of the Nationalist leaders, declared in an interview here this morning, that the Fournier case would be carried to the privy council if necessary. Mr. Fournier, editor of Le Nationaliste, who was committed to jail for contempt of court, is now in the infirmary of the jail, and is to come before the court on habeas corpus on Thursday. "There was no contempt of court," he said, "in my article."

A PLEASANT EVENT

Mr. and Mrs. Robert Wilkins were ten years married yesterday. In recognition of the event about fifty intimate friends called at their home last evening and presented them with a very handsome china cabinet. Mr. Wilkins in reply for himself and wife, voiced their surprise and thanked the donors for their gift and good wishes.

The funeral of the late Andrew Dwyer was held at 2:30 this afternoon from his late residence, 224 Waterloo street. Rev. Samuel Howard conducted the funeral service, after which interment was made in Fernhill cemetery.

The remains of the late Mrs. John MacAllister, of Victoria street, north end, were taken to Chipman, Queens Co., on the early train this morning for burial. The members of the family accompanied the body. Last evening at the home of the deceased Rev. J. J. MacCaskill officiated at a funeral service, which was largely attended by the many friends of the late Mrs. MacAllister.

Thompson-Thompson

A quiet wedding took place last evening at the residence of the groom's father, A. C. Thompson, 182 Erin street, when Charles James Thompson was united in marriage to Miss Alvina Thompson, daughter of James Thompson, 27 Gilbert's Lane. Rev. Samuel Howard performed the ceremony in the presence of the immediate relatives. Mr. and Mrs. Thompson will reside at 182 Erin street. They were well remembered by their friends with gifts of every description.

AN UNUSUAL VISITOR

Charles F. Brown, the north end crockery merchant, was somewhat surprised early this morning, after opening up his shop, by the appearance of a fat, dazed, turtle a few feet away from him. About seven o'clock Mr. Brown opened his store and taking a seat in front, was reading his paper when, looking around, he beheld the turtle gazing serenely around him. He placed it on exhibition in one of his windows and crowds were attracted to the sight.

Mr. and Mrs. F. S. Howe, of Japan, arrived in the city on the Boston boat this morning and are registered at the Royal.

TROUBLE IN HONDURAS

It is Expected That a Revolution May Break Out at Any Time Now.

Washington, June 22.—Private dispatches received by persons interested in Honduras confirm the press despatches by way of New Orleans that the revolutionary spirit is becoming more manifest there. The despatches express the opinion that an outbreak is certain to develop in the Central American republic within a few weeks. The state department maintains that it has received no news of this character from its diplomatic or consular offices.

HAD JAM AT PRISONER'S DOOR BUT HE COULD NOT ENTER

Interesting Sequel to a Moncton Scott Act Case—Boys Steal Money From C... Collection Plate—Missing Men—Missals on the I. C. R.

Moncton, N. B., June 22.—(Special)—A great here and it is probable some action will be taken in connection. Officer Crossman, interviewed, told of taking McSweeney to Dorchester and Willett not allowing him to enter the jail. Ald. P. N. Crandall, chairman of police, says he will do all in his power to have the law take its course, while City Solicitor W. B. Chandler does not know just what action will be taken. It may be placed in the attorney general's hands. Herbert Moore, brother of Oliver, who has been missing some months, started out to look for his brother, and is also missing. His wife has started a search for him and is advertising for information. Some eighty employes in the shops and offices received notice this morning of their dismissal while some hundred and twenty-five are to be discharged at Halifax.

GOULD CASE IS BEING HEARD TODAY

Witnesses Being Called to Refute the Charges Made Against Her By Her Husband's Witnesses

New York, June 22.—The task of rebutting the testimony of intoxication on the part of Mrs. Katherine Clemmons Gould, who is suing her husband, Howard Gould, for separation and alimony, was continued by the witnesses called by Mr. Searn, Mrs. Gould's counsel, at the trial today. The array of rebuttal witnesses is similar in make up to those called by the defence. The trial has almost resolved itself into a battle of domestic with all these servants who were closely associated with Mrs. Gould giving directly opposite testimony in regard to their mistress' conduct at various times and places. Another point is that \$2.50 per lineal foot frontage is mentioned as the limit which the petitioners agree to pay, whereas the state statutes that they shall pay one-half the rent, which is taken to mean the rent of the house, Victoria street, and water pipes, etc., beneath the street, the cost of which would probably exceed that figure. The board of works will meet next week to discuss the matter.

SEA MONSTERS IN A DEADLY COMBAT

Passengers and Crew of Steamer Esparta See Novel Sight on Trip to Boston

Boston, Mass., June 22.—A remarkable fight between sea monsters was witnessed by the passengers and crew of the steamer Esparta, which arrived here from Fort Limon, Costa Rica. The thrilling battle occurred south of Nantucket South Shoals and was witnessed by the fish boat and another great fish believed to be a swordfish. The whale was vanquished.

McFall of Trenton, N. J., in his address to the graduating class of St. Francis Xavier College.

C. to study the big glaciers of Alaska will sail from Seattle on the steamship Portland Thursday to remain in Alaska pursuing scientific investigations until the latter part of September. SUNDAY FISHING

A North End resident informed the Times today that he was given to understand that fishermen took 1,400 trout from Loch Lomond on Sunday. He could not vouch for the accuracy of the information, he said. It might be here remarked that if any fish were taken out of Loch Lomond on Sunday it would be well for the fishery wardens to be on the alert, as there could not possibly be any excuse for such a condition of things.

THE "ACROSS AMERICA," AUTOMOBILE COSTS

THE TIMES NEW REPORTER

HIRAM IS AMUSED.

"Well, well," ejaculated Mr. Hiram Hornbush this morning. "So Hazen's got another job for Hubbard. Good pay—I suppose. I thought some time W. W. was going to be the richest farmers in New Brunswick. I don't know how he got 'em, but he's got 'em."

"How he took 'em on his own advice," that settled it. Now Hazen's got 'em, and I advise the rest of us. Hey—what? I been waitin' this long while for the report of that commission. I bet ten dollars I've heard Hubbard say everything in it over an over again, when he was stumped around among the societies for 'em paper—or for something else. He's a nice fellow. I like 'em. But if I wanted a job done in a hurry—I'd do it myself. I suppose he'll be chief adviser to that doctor feller they got for commissioner. I calculate between 'em they'll make the weeds fly. I been waitin' ever since Hazen got in to see what his government knowed about farming. I know now. They know just what Hubbard knows—at 'at's all. He's a day."

MR. HUBBARD PROVIDED FOR

It is announced that the provincial government has decided to abolish the office of deputy commissioner of agriculture, and appoint a secretary for the department; and that Mr. W. W. Hubbard will on July 1st assume the duties of this office.

Mr. Hubbard's services as Conservative organizer in this province, which were first acknowledged by making him secretary of the agricultural commission, are now more fully rewarded by making him secretary for the agricultural department.

When Mr. Landry was made commissioner of agriculture it was necessary to have near him a gentleman who might be assumed to know something about farming, and Mr. Hubbard was willing to assume that role. He may be said to have been the author of the report of the agricultural commission, which the Standard will shortly be issued in book form.

Taft's Tax on Trusts

President Taft's proposal to tax net earnings of corporations two per cent. has excited a very lively controversy in the United States. A writer in the New York American praises the scheme in this enthusiastic way:—

"In his message to congress recommending a two per cent. tax on the net income of corporations, President Taft has found a solution of the trust problem. He has stated the disease and the cure almost in one sentence. His brief message promises to become historic. It is worth ten times to the stock market.

Such an exposure of the wealth of the corporations would be nothing more than a square deal. President Taft makes it clear that what he proposes is not any income tax, but a tax on special privilege of doing business. The privilege of being able to evade one's debts is certainly worth two per cent. on the annual net earnings of a business. Thousands of men are doing business under incorporation, paying the annual corporation tax and submitting to all the nuisance of issuing stock certificates and holding stated meetings, when they could do the business much more conveniently under their personal names.

It is useless to discuss the practicability of this measure of taxing net earnings, as the question of what are real net earnings is one that it would be practically impossible to establish in a manufacturing business. It must be regarded as a political move to shunt off the income tax advocates for the time being.

The suggestion was made that as the supreme court had declared a general income tax unconstitutional, there was good reason to believe that a similar tax applying to corporations only would be held by that tribunal to be class legislation, and more abhorrent to the spirit of the Constitution than one embracing all trades and persons alike.

The bill is expected to make its appearance in the house this week, but in what shape nobody seems to be in a position to state. It is felt, however, that if Senator Aldrich and his following can be got to accept the measure it will be carried through the senate.

The Baptist ministers' conference in Chicago has finally dropped Prof. Geo. B. Foster's name from its roll, at a meeting said to "resemble a political meeting in a rowdy ward."

Hon. Dr. Pugsley was given a fine reception to the city of Quebec on the occasion of his visit to the ancient capital to inspect the public works in process of construction.

Petty thievery is common, and perhaps excites little attention, but the attempt to rob the poor-box in a church, in which money is dropped for the benefit of the orphans, reveals a depravity which we can only contemplate with shame that such characters live among us.

There will be a general feeling of relief that the two police officers against whom grave assertions were made yesterday by the prisoner have been completely exonerated.

It is a pleasing fact that the people around Kingston do not desire to turn back the clock. The consolidated school will be rebuilt.

She promised not to worry, and I know she meant it, too. And through the day their absence doesn't seem to make her blue. When the sun is shining she rejoices just to know that they are breathing country air, which strengthens children so.

TRAFFIC IN WOMEN

Montreal Comes Third Among Cities Where Evil is Worst.

Washington, Jan. 21.—The efforts of Secretary Nagel to stamp out the white slave traffic have been so far successful, that the number of arrests made by his small army of special agents has far exceeded all records this year.

More slave dealers have been run down this year to date than were caught in the full twelve months of last year.

New light has been shed on the traffic in girls for immoral purposes. The greatest number are brought to New York, with Seattle next, and Montreal third.

During the fiscal year, ending June 30, 1908, the government arrested and deported 118 girls and 12 of the "dealers."

In January, February and March of this year 82 young women were deported, together with 15 "dealers."

In April 22 girls and 6 "dealers" were deported and last month 34 victims and 7 of their captors were sent back to the countries from which they came.

More slave dealers have been run down this year to date than were caught in the full twelve months of last year.

New light has been shed on the traffic in girls for immoral purposes. The greatest number are brought to New York, with Seattle next, and Montreal third.

During the fiscal year, ending June 30, 1908, the government arrested and deported 118 girls and 12 of the "dealers."

In January, February and March of this year 82 young women were deported, together with 15 "dealers."

In April 22 girls and 6 "dealers" were deported and last month 34 victims and 7 of their captors were sent back to the countries from which they came.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them.

Anthony-Smith

A very pretty wedding took place at the home of Mr. and Mrs. Henry Anthony, Red Head, on Wednesday evening, June 9, when their son Harry was united in marriage to Miss Annie L. Smith, of Elgin, Albert county.

The bride was prettily gowned in white silk muslin and carried a bouquet of white carnations. Miss Rena Smith, sister of the bride, acted as bridesmaid, while the groom was attended by his brother, W. O. Anthony.

The ceremony, which was performed by Rev. J. B. Champion, of Silver Falls, was followed by a largely attended reception. The bride received many beautiful and useful presents, including an oak dining table and chairs and a handsome dinner set.

McGILL BROUGHT FROM PRISON TO TELL STORY

Ex-Manager of Wrecked Ontario Bank Throws the Blame for the Purchase of Worthless Stock on the Directors.

Toronto, June 21.—Charles McGill, serving a four years' sentence at Kingston penitentiary, appeared before Official Referee Kappel today to urge his defence to be officially declared liable for 1,715 shares of Ontario Bank stock. At par these shares would be worth \$171,500.

There is little doubt that McGill will finally be declared liable for that amount of shares. But neither the liquidator nor the referee imagines that McGill can possibly contribute any such sum. The real object is to bring out evidence such as McGill gave to the effect that the directors instructed him to violate the bank act and sell and purchase Ontario Bank shares when he was general manager. Such evidence will be of use ultimately against such directors as may face civil actions now launched by the Ontario Bank.

McGill was brought up from Kingston last night. He was accompanied by an official from that institution. Both men walked from the hotel to Kappel's office, McGill declining to go in a hack.

McGill was attired in the same suit in which he left for Kingston a few years ago. There is no sign of the depression in his appearance generally, except that his face displayed an expression of depression. He sat down at the head of the table in Mr. Kappel's office, and after being sworn he stood up and began to peruse some of the stock transfer books and other documents.

"I never held a share of the stock of the Ontario Bank in my life," he declared. The shares entered in my name in the books came to me from brokers and were entered under my name, but before the pen dried I entered the stock in the officers' guarantee account," said Mr. McGill.

"Under whose instructions did you do this?" asked Gideon Grant, K. C., McGill's lawyer.

"On instructions of the directors."

"What about these New York accounts?" asked Grant.

"In October, 1908, there was a meeting," said McGill, "at which Messrs. Cockburn, Walmesley and Parkes. These New York accounts were discussed and the balance sheet gone over. There was no question raised about the officers' guarantee fund."

"Were there any instructions given to you at that meeting to purchase more stock?"

"No, A. E. Ames came to me after the meeting and said there were 100 shares on the market and that it would be better to buy them. I paid little attention to it, but subsequently Walmesley and Cockburn told me that I'd better buy it. They remarked at the time, 'Remember, we don't want to know anything about it.' I bought the 100 shares and put them to the credit of the officers' guarantee account."

"Can you give me any specific transaction that the directors discussed?"

"Well, there was Perry. He said he did not want to hold the stock of the Smith estate, of which he was executor, any longer. He said either the bank would have to take it or he would put it on the open market, so the bank took it."

"On June 1908, Grant came to me and said his wife wanted to sell fifty shares of stock. He did not want to take it to his brokers, and said the bank would have to take it. That was the last of it. My money, again on Jan. 29, 1908, Grant came again and said he wanted to buy some real estate and the bank would have to

THE HOME PHYSICIAN

Some hints to keep people well.

Ninety-nine per cent. of the ordinary diseases are caused by the bowels, the kidneys or the skin.

As you know, these organs are the great purifiers of the human system. They filter impurities from the blood and pass them from the body. If the kidneys, bowels or skin weaken or get tired, but fail to do their regular work—then the blood becomes laden with impurities and poisoned. If it is the fault of the kidneys, then the skin is overworked in its efforts to throw off the excess of urea or waste matter. The glands become inflamed and enlarged—pimples break out—and there may be a rash or eczema of the skin. If it is the fault of the skin, then the kidneys are strained by overwork and there is constant pain in the back, dizziness, neuralgia, headaches and rheumatism. If it is the fault of the bowels, the blood is poisoned, the skin and kidneys weakened, the stomach upset—and, of course, there is Constipation and Biliousness.

How easy is it, then, to be free of all these troubles!

"Fruit-Active" is not merely a remedy for any one of these troubles, but a remedy for all. "Fruit-Active," acts on the skin, the liver, and the kidneys. "Fruit-Active" keeps all these great organs well and active and thus insures the blood being always pure and rich. With "Fruit-Active" in the house to take at the first sign of not feeling well, you need not have a day's sickness. 50c. a box, 6 for \$2.50, or trial box, 25c. At dealers or from Fruit-Active Limited, Ottawa.

GOULD WAS NOT ON THE STAND

Howard Gould Did Not Enter the Witness Box Yesterday to Testify Against His Wife.

New York, June 21.—Sensational-lookers and the curious who have waited daily on the suit of Katherine Clemmons Gould for separation with alimony of \$250,000 a year from her husband, Howard Gould, were sadly disappointed at the resumption of the hearings before Justice Dowling in the supreme court today, when it was announced that the defence had rested and that Howard Gould would not take the stand. It had been expected that his direct testimony and his cross-examination by Clarence J. Shearn, counsel for the plaintiff, would take two full days, but the termination of the case is now looked for at a correspondingly earlier date.

Mr. Shearn was apparently greatly surprised and taken aback by the announcement that Howard Gould would not testify. Gould himself seemed relieved and Mrs. Gould smiled.

"Since the recess of last Friday, your honor," said Delaney Nicoll, counsel for the husband, "my associates and I have Gould's direct testimony which we have offered is so complete that there is no necessity for going further. We have therefore decided to rest at this point."

When he recovered from his astonishment, Mr. Shearn led off the rebuttal with testimony designed to show that Mrs. Gould's faculty of the charge that Mrs. Gould was continually and habitually intoxicated from 1902 to the present date.

"Do you regard such evidence as necessary?" asked the court.

Necessary or not, counsel for the plaintiff then proposed a string of depositions witnesses, whose testimony was followed by the reading of depositions of guests and friends who swore that Mrs. Gould never, to their knowledge, drank to excess and was always affable, reserved and modest in her language, testimony directly opposed to that which the defendant's witnesses have given.

It was on account of the unexpected attitude taken by the defence that Mr. Shearn ran short of witnesses late in the day and was obliged to introduce the depositions. He promised, however, to have a string of about fifty ready when court opens tomorrow morning. They will testify in rebuttal to disprove, if possible, the husband's charges, including Mrs. Gould's alleged associations with Dustin Farnum, the actor.

CARLIN IS DISMISSED AND POLICE ARE CLEARED

Perry and Jones Freed of all Suspicion in Connection With Water Street Case

Robert Carlin was found technically guilty in the police court yesterday afternoon of lying and lurking in a door way in the Magee building on Saturday night. At the same time Judge Ritchie dismissed the case. He exonerated Policemen Perry and Jones from suspicious cast on them and said it was just as well for citizens to remember that if a policeman asked a question after 9 o'clock they rendered themselves liable to be brought to the court if they refused to answer.

In the afternoon Pearl Collins and her sister, Mrs. Lottie Granphy, the two young women who complained to the policemen on the stand. They said that either policeman had hands on them. They both said that in the event of a woman and said that he did not see Perry touch either of the two.

J. B. M. Baxter, who appeared for the defence, at this point called Harry Quinn to tell about an alleged conversation in the Magee building on Sunday afternoon. The story was that both women in court were present with another of their sisters called Jessie. The witness said that after he had told the girls that Carlin was arrested Jessie said that it would be had for Perry if she went to the court. It did not become the first time she said, according to the witness, that Perry had been at the place and once he was afraid he would lose his job over it so much so that he had told them that in the event of Sgt. Caples asking them if he was there they were to say no. The witness was positive that Jessie had said this.

John Collins, who was the last witness, said he also was present on Sunday. He was sure, however, that the remarks attributed by the previous witness to Jessie had really been used by her sister, who was in court.

Mr. Baxter said that the law in the matter was technically against him. He contended, however, that common sense was on his side and that Carlin ought not to have been arrested.

Judge Ritchie, in dismissing the case, said that if a young man went up to a woman on the street, with whom he was not acquainted and spoke to her he rendered himself liable to arrest or if he followed her he runs the risk of being proceeded against. Neither of the young men mentioned in the case lived near Water street and had no right to be there at 11 o'clock at night.

At that hour if the policeman did not know the person he was quite justified in asking him his name and business. His honor went on to say that the police ought to use more judgment in asking questions. He said that complaints had

MRS. HAMILTON, DAUGHTER AND MAID, BARELY ESCAPED DEATH WHEN LIGHTNING STRUCK HOUSE

During the heavy storm yesterday afternoon lightning struck the summer home of James H. Hamilton at Penderac and maid had a miraculous escape from death.

As it was, all three were rendered unconscious and the house was set on fire. That they escaped with their lives is a marvel, as the lightning bolt carried destruction down them. The fact that the occupants of the house were sitting in the centre of the room down the wall of which the lightning passed, accounts more than anything else for their safety.

Of the storm yesterday afternoon, that toward evening was the more violent, and was the most severe in that part of the country in recent years. The bolt entered a bedroom, cut the rafters to splinters and set them on fire. The fire spread to the plaster wall. From the bedroom it followed the wall to the sitting room, where the three women were sitting on a table. Passing along the wall, the bolt entered the dining room and went out through the fireplace, demolishing the mantel.

It is stated that following a fearful crash of thunder a ripping sound was heard above the roof of the house, and rendered for the time stone dead and at the same time speechless. They saw the lightning on its terrible path of destruction and after that can remember no more, for they became unconscious. Just how long they were in that state is not known, but probably for some minutes. Mrs. Hamilton was the first to recover and the sight that met her gaze was one long to be remembered, for she beheld her daughter, Miss Marie Hamilton, and the maid, Miss Jennie Reid, on the floor unconscious. She courageously carried first one, then the other out into the open air, and with the liberal use of cold water restored them to consciousness.

Leaving them, Mrs. Hamilton, though herself exceedingly ill from the shock, hastened up stairs to ascertain the damage. She found a trunk full of clothing on fire and, breaking the glass in the window sash, put the blazing trunk out of doors. A call for help brought Mr. Brown, a farmer living near by, and with his assistance the fire, which had caught the woodwork, was extinguished.

By this time Mrs. Hamilton collapsed, and a telephone message was sent to the city for a doctor, and Mr. Hamilton and his son arrived. Mr. Hamilton went out on the Fredericton train and his son, accompanied by Dr. S. Skinner, followed on the Montreal train, which stopped at Penderac for their accommodation.

Dr. Skinner last night reported all three women considerably unwell, but not in any danger.

Lightning struck one of the chimneys of the Grand Union hotel, and, following down the chimney, played about in the hotel barber shop, but doing no damage. It also burned out the motor in street car No. 21 in Charlotte street.

At McAdam a house was struck, but not damaged much. It was reported that the Catholic church there was struck, but a late despatch to The Telegraph says the report was incorrect.

HALIFAX EXPRESS WAS ON FIRE AT SUSSEX

Fire Department Called Out for Slight Blaze in First Class Car—Train Delayed 45 Minutes

Sussex, June 21.—No. 10 train, Halifax express, which left St. John last night on time, was delayed here forty-five minutes on account of the first class car being on fire. When the train arrived the trainmen discovered a bad leak in the gas pipe near the cylinder under the car, and the brakeman was trying to fix it it burst out in flames, which supposed to have caught from a lantern sitting on the ground.

The gas, which was escaping very fast, made a tremendous heat and a stubborn fire to put out. The fire department had to be called out to extinguish the flames. The passengers got somewhat of a fright, and removed from the car until the flames went out.

Lamps had to be used to light the car to Moncton. The train left here at 1:45 o'clock this morning.

RIFLED THE POOR BOXES

Thieves Visited the Cathedral and St. John Baptist Church But Got No Booty.

One of the most despicable robberies reported in St. John for years came to light last night when it was discovered that the poor boxes in the cathedral in Waterloo street and St. John the Baptist church in Broad street had been broken open in search of money.

The offerings placed in these boxes are devoted to the maintenance of the organs, which statement is sufficient to stamp the character of the thieves, apart from the nature of the place in which they carried on their nefarious work.

There are three boxes at the front door of the cathedral, and one at the altar and two in the Virgin's Chapel. The locks of all these had been forced, or the lids wrenched open, but the thieves got nothing for their work, as after the Sunday services the boxes had been opened by the sexton and the offerings taken out.

It is thought the robbery in both instances must have taken place about the noon hour. There was no noise, however, to show whether the breaks were made by the one party or by two parties working in unison. As far as could be learned, no attempt was made to rob the poor boxes of any of the other Catholic churches of the city.

ADVANCE PARTY GOES INTO CAMP SATURDAY

There Will Be Only 1,500 Men Under Canvas at Camp Sussex This Year.

The office of Col. G. Bolt White, D. O. C., is a busy place just now as there is a great amount of detail work in connection with the militia camps at Woodstock, Sussex and Newcastle.

In all three places the men will be under canvas on June 29. At the first named place, there will be the Woodstock field battery, the 1st Engineers and the 67th Regiment. At Newcastle there will only be the Newcastle battery. The remainder of the provincial corps will assemble at Sussex.

The camp at Sussex will be under unusual strength this year. Whereas there were in the vicinity of 2,000 last year there will be barely 1,500 this season.

Besides the reduction in the number of officers, the strength of the various regiments is reduced from eight to six companies to four.

The Army Service Corps will go to camp on Saturday next to get things in readiness. They will be in command of Major Masie and the St. John detachment under command of Captain McClean. Advance parties of troops will be sent on Monday, the rest following on Tuesday. As the result of the smallness of the number at camp some changes in the plans are necessary and the drill will consist largely of musketry and judging distances.

Powerful story of New Canada

By Sir Gilbert Parker. "The Guest That Tarried" by Sir Gilbert Parker weaves a story around a brave community at work on the immense acreage of the North. The wise, but overworked Doctor, the bewildered Methodist minister, the sudden, unexpected millionaire are a few of the characters that contribute life to this little community drama.

The local police department have been requested to intercept Lee Chu the Chinaman, who is the central figure of much litigation in Halifax. Chu disappeared on Saturday from the Nova Scotia capital, and believing that he would endeavor to escape unobserved in his automobile, men have been stationed on roads leading out of Halifax. The proprietor of a hotel on Northwest Arm declared that Chu was outwitting in the neighborhood and had left the machine to another Celestial and had rowed out in the arm in a rowboat. The clue was followed, but was unavailing, as the mysterious Oriental could not be apprehended. As several Chinamen had claimed to be aware that Chu had departed ostensibly for this city, the police here were telegraphed to and asked to watch all incoming trains for the wily Chinaman, who has caused his arrest on several occasions, but in each instance he has obtained his liberation.

POLICE COURT

Junk Dealer Reported for Buying From a Boy—A Lower Cove Assault Case.

The examination of Charles Dunn, who is accused of theft of twelve pounds of brass from T. McAvity & Sons by whom he was employed was resumed with G. Hanington representing the firm in the proceedings. Myer Weitzman a Jewish junk dealer with a shop on Bond street testified to purchasing brass from Dunn. Weitzman's testimony weakened the prosecution somewhat. He declared that the metal could be purchased anywhere in the city although the McAvity concern are the sole manufacturers. Two fellow employees of Dunn testified that they saw evidence of Policeman Lucas was also adduced. E. S. Ritchie defended Dunn.

It required less than five minutes to decide an assault controversy in which both complainant and respondent were of the Ethiopian race. When William Richards was summoned to court it was understood from the information of a colored woman that Richards kicked her dog and repeated it to her. Richards was therefore accused of assault to which he pleaded not guilty.

The woman in her testimony after hearing and having advised the police clerk to follow her testimony minutely so as to avoid errors stated that Richards in strolling home on Saturday night after assembling an over-supply of corn extract, kicked her dog which was reposing on the pavement in front of her abode. In an instant she reached the sidewalk and remonstrated with Richards. He thereupon turned a veritable cranial shower upon her and after exhausting his vocabulary replied in triumph. His honor inquired if Richards had kicked her and when she replied in the negative he dismissed the case. Richards wasted no time in reaching the street but a white woman was not so quick to vanish. She remained in court for some minutes and in the corridor was quite boisterous in venturing her charges against the unsteady termination of the proceedings. It was suggested that she report Richards to the S. P. C. A. for kicking the dog but she was not in a suitable mood and did not receive the advice gratefully.

Daniel Taylor graciously loaned his presence to the court for a few minutes as a spectator. As a rule Daniel does not enter the portals of the police building except under police surveillance.

Extra Performances of Miss Hersey From Jersey on Saturday Afternoon and Evening

Owing to the very heavy sale of seats for Miss Hersey from Jersey to be presented by the St. John Dramatic Club in the Opera House on Thursday and Friday evenings of this week, it has been decided to repeat the play on Saturday afternoon and evening. Those who have purchased tickets for Thursday or Friday evening from members of the club and who have not yet exchanged them at the box office for seats, can, if they prefer, secure seats for Saturday evening's performance instead of the two previous days.

A stage rehearsal was held in the Opera House last evening and those who were privileged to witness it expressed the opinion that it will be the most delightful amateur production ever given in St. John. Full of bright sparkling comedy, and with ludicrous situations and climaxes, Miss Hersey from Jersey will prove a sure cure for the blues. There are still a number of seats for the play on Saturday and Friday evenings. Another complete rehearsal will be held in the Opera House this evening at 7:30 sharp.

NAVAL DEFENCE

To the Editor of the Times:

Sir,—Your article on the above subject is timely and sensible in its suggestions as to what plans may be arranged to meet all the representatives of the British realm come together. I note in the same issue of yesterday that four Dreadnoughts have been lost down in Russia. Austria-Hungary has others in contemplation. That country has in the past, in the patriot Kosovitz time, shown the determining action of ever opposing the masses, and like Russian and Germany, has kept their people under a slavish yoke. The true British heart has never been afraid, but it is well to be prepared for eventualities that might occur through a combination of such autocratic powers to try and crush the liberty-loving peoples who live outside the zone of their devastating and destructive-loving autocratic tyranny. It is clear to see that all the English-speaking peoples are of a non-desirous warring class—a class that desire peace and superior conditions of life at the present epoch, and that a combination of those people would prevent the present barbarous-living nations from further extending their tyranny on the English-speaking people of the world over, and who have learned the great blessing and knowledge of the arts of peace and industry; but to continue, we must be ever prepared to meet the Napoleonic oppressors who may combine to crush the only liberty worth living and working for—British Freedom.

Respectfully,
J. S. CLIMO.
