UNITED STATES BALLOON WINS THE BENNETT CUP

PARIS, Oct. 2.—All the uncertainty regarding the result of the balloon race for the James Gordon Bennett cup, started from here on Sunday afternoon, was ended at noon to-day, when a despatch was received by the club announcing that the Hon. C. S. Rolls and his companion, Col. Capper, in the balloon Britannia, landed at Sandringham Upland at 6.30 last night, thus establishing that Lieut. Frank P. Lahn, Sixth Cavalry, U. S. A., the American competitor in the race, who descended near Whitley yesterday in the balloon United States, is the winner.

Major Hersey's trip as Lieut. Lahn's assistant was quite accidental, a Frenchman, Leves, being selected as his assistant. But the aero club of France protested, and Major Hersey, who had just arrived here from Norway with Walter Wellman, leader of the Wellman Chicago Record-Herald expedition, eagerly seized on the chance. Lieut. Lahn covered 415 miles against 370 miles covered by Von Miller, his nearest competitor.

The beautiful cup, presented for competition by James Gordon Bennett, becomes a trophy of the Aero Club of America. The first cash prize of \$2,900 goes to Lieut. Lahn and the endurance medal to Mr. Rolls, who was the longest in the air.

Later in the day the Aero Club of England received a telegram announcing that Hon. C. S. Rolls and his companion, Lieut. Lahn and the sea at Tor. Since his assignment to the 6.30 last night, 23-14 hours from the by school at Sandringham, Lahn has devoted much attention to aerostatics, and his rapid advance as an aerial pilot has already attracted considerable attention. He made a dozen ascensions during the summer, the longest voyage being from Saint Cloud to St. Briac. The lieutenant took the place of his father in the race, the latter, who is the best known American aeronaut in Paris, being called home on Saturday.

MISER'S HOUSE SEARCHED; THOUSANDS IN GOLD FOUND

An Old Woman Made a Will Giving Her Money to Charity—Searchers Among Her Possessions Discover Boxes, Jars and Other Receptacles Filled With Coin.

NEW YORK, Oct. 2.—A Hudson, New York, despatch to the Herald states that pots or gold filled with coins dating back to the reign of King George III., bearing the date 1770, and bills tied in knots stuffed into vases and cups, were found yesterday in least expected places of the Robinson homestead at Hudson, where, four weeks ago neighbors found the body of Miss Frances Caroline Robinson. Until the hidden money was found it was supposed that Miss Robinson left not more than \$5,000. But with the finding of the concealed treasure the estate is brought up to more than \$50,000.

The finding of the hidden treasure will, it is thought, cause a considerable will that Miss Robinson left. The next of kin will probably take the matter into the surrogate court on the ground that Miss Robinson was of unsound mind, although she was always regarded as alert in business transactions. The treasure found yesterday, No. one special award, although she was always regarded as alert in business transactions. The treasure found yesterday, No. one special award, although she was always regarded as alert in business transactions.

Relief work for the stricken communities down the bay is now systematically being carried on. Food, clothing and bedding is being furnished, and although there is still much suffering it is not so acute as at first. There is still need, however, for all the supplies that can be sent in from the neighboring States.

BAGDAD, Fla., Oct. 1.—This region suffered terribly in the hurricane of last Thursday and Friday. The water here and Milton is ten feet deep in many places. The streets are blocked with fallen trees and debris and all electric light and telephone wires are down.

At the Bay Point and Robinson Point mills three and five miles from here, respectively, the houses were washed away. A number of houses here and along the coast at other points were demolished, but so far as known there was no loss of life.

MONROE, N. B., Oct. 2.—The Church of England Synod convened in the Church of England Hall at 2.30 this afternoon with Archbishop Neales presiding. The meeting opened with prayer, after which the secretary called the roll. There is a large attendance of both clergy and lay delegates, and much interest is being taken in the outcome. It is said that before balloting is proceeded with the question of paying the coadjutor's salary will be opened up and the initiative will be taken by Justice Hamilton, who will present a resolution from the Dorchester deanery strongly protesting against any interference with money now used for missionary purposes or the using of any moneys not specially set aside for the purpose of paying a bishop.

It is also said that the other dearies in the province have prepared similar resolutions and will present them. The discussion on this, if it is introduced before the balloting, will probably occupy some time. From one source comes the information that the finance committee will state that Bishop Kingston will give \$800 towards a coadjutor salary provided the coadjutor accepts deanship of the Cathedral; this \$800, with the endowment already set aside for the dean, to constitute the Bishop-coadjutor's salary.

YORK COUNTY COURTS. FREDERICKTON, N. B., Oct. 2.—The York County Court opened this morning. There was no criminal business, the docket consisting of a bastardy case from Marsville and four civil actions.

The York Equity Court this morning considered two cases, one the appointment of a trustee in the estate of Elizabeth Hovey, and the other the application of an infant, Hainsford Winslow, to sell land.

The hearing in the case of Geo. Pick v. John A. Edwards was adjourned until 20th October.

COMPANY FORMED TO BUILD A NEW RINK

Which Will be Used by the Hockey League. Capital is \$15,000 and the Promoters Hope to Have the Rink Open by January 1st.

That St. John will have another rink within the next three months is now practically assured. It has been felt for a number of years that St. John should have a real up to date skating and hockey rink, but as long as there was one rink catering to these lines of sport business men did not feel that it would be wise to start a new one. However now that it is understood that this winter there will be no skating and hockey rink, a number of prominent business men have taken up the matter and are forming themselves into a new company.

HEARST IS ACTIVE IN HIS CAMPAIGN. Spoke Last Evening at Five Meetings.

Denounces Corporations, Jerome, Parker, Sheehan and Others of His Opponents. —He is Not for Murphy.

NEW YORK, Oct. 1.—Congressman Wm. D. Hearst, the candidate of the Democratic party and the Independent League for governor, tonight paid a flying visit to Brooklyn, where he addressed five mass meetings in half an hour. Mr. Hearst was accompanied by Lewis Stuyvesant Chanler, former lieutenant governor of the same ticket, who also spoke. Large and demonstrative crowds greeted them, the greatest gathering being at Prospect Hall, where the final meeting was held. Here Mr. Hearst spoke in the following terms:

"The Democratic convention at Buffalo openly and scornfully repudiated the corporation lawyer. He can't invest their masters' money in the purchase of delegates, and that repudiation was the one thing that I have so long labored to have clearly drawn in clearly drawn at last.

"Nothing has helped me more to-day than the trend of things in all our religious educational institutions is for deeper study of God's word, and I am perfectly satisfied that God's word is here and to-day such as it never before stood on," said Rev. Dr. Falconer, principal of the Presbyterian Theological Institute, in his address to the conference in St. John's Presbyterian church this morning. The conference was one preceding the synod, which opens this evening, and was largely attended by both ministers and laymen.

During Mr. Hearst's address at the Brooklyn Casino a man in the audience interrupted him with the question: "How about Murphy?" Mr. Hearst, raising his hand, said: "No, my friends, pay no more attention to him than I do to Murphy."

Some one on the platform then said: "That is the first raising statement of the campaign." Mr. Hearst replied: "I must correct the gentleman. This is not the first statement. I have said all along, no matter what reason, Murphy any other boss was for me, I was not for him. I have said all along, no matter what citizens or group of citizens or convention of citizens were for me, I would still stand as the candidate of the Independence League. I have said all along, no matter if nominated by every party in the state of New York, I would conduct this campaign according to my own honest opinions and that I would, if elected, conduct my administration according to my own convictions."

The funeral of Miss Florence M. McCaffrey was held this afternoon from the residence of her mother, Carmarthens street. The body was taken to the Cathedral where the service was conducted by Rev. D. O'Keefe. Relatives of the deceased acted as pall bearers. Interment was made in the New Catholic cemetery.

TRUE BILLS AGAINST CLARKE ON ALL THREE COUNTS.

ST. MARTINS PEOPLE WILL KICK HIM OUT. But Savery Is Wanted by His Former Landlady.

To Square a Little Bill—His Conduct the Talk of the Village—He Will Not Be Given the Church.

Rev. Harry S. Savery announced yesterday on leaving St. John, that he was going back to St. Martins to face the music, and intended staying there if he was not kicked out. There is every indication that Mr. Savery will not remain in St. Martins as a good many of the people are preparing to experiment on him in the kicking process. The Star talked this morning to a number of prominent residents of the village, and the opinion expressed was that Savery would not dare to show himself there again. During the summer this man boarded at the Fowles House. He was always regarded as a rather gay specimen of a clergyman, lively, and anxious for all sorts of amusements, but no person thought there was anything very much wrong with him until within the last few weeks, when his conduct was such as to cause comment among those whom he was most intimate.

Mr. Baxter then objected to having all the charges tried on one indictment. He thought it was very strange that all the counts in the indictment should not have been brought up before a magistrate before taking the case to the grand jury. As it is these charges have only come up before the grand jury, and the prisoner does not really know what he has to defend. He thought it is not fair by means to have all the charges tried under one head. At the least the case of attempted rape should be taken up separately and the other two charges together.

Mr. Baxter then moved to quash the count in the indictment charging the prisoner with assault on Mary Tuttle on June 22nd.

THE STAR HAS LEARNED THAT SAVERY LEFT ST. JOHN FOR BANGOR. Judge Landry resumed his session and the following jurors were empanelled: Hugh Ryan, Chas. H. Colwell, Michael Cain, Beverly Steeves, James Wilson, A. Nichol, J. P. Williams, Joseph Semple, Robert McConnell, Wm. Hickman, John Martin, Geo. E. Smith.

There was considerable trouble in getting a jury, as a large number were challenged by Mr. Baxter and several by the attorney general. Morton L. Harrison and W. G. Magee were challenged by Mr. Baxter for having expressed opinions on the case. Beverly Steeves and Michael Cain were appointed to decide whether these men were eligible to the jury or not. They decided that Mr. Harrison was eligible. Mr. Baxter then peremptorily challenged Mr. Harrison. Mr. Magee on being sworn stated that when he was notified that he was to serve as a juror in the Clarke case he made the statement that he thought the prisoner should be hanged, and he was still of the same opinion. Upon hearing this it was decided that he was not eligible as a member of the jury.

Upon the charges being read to the jury the court adjourned until Thursday morning at ten o'clock.

DR. PURSLEY NOTIFIED THE COURT THAT IT IS EXPECTED THAT THE CASE WILL BE FINISHED IN TWO DAYS. The attorney general suggested that the public should be excluded from the court during the trial. Judge Landry then agreed that the public should be excluded from Thursday morning's court.

CUSTOMS WILL NOT HINDER THE BEAVER. At yesterday's meeting of the common council Alderman McCollins said that the American drug Bothwell should be purchased by the city, as he thought the Beaver would be prevented by the customs from doing any other work than that which it is now engaged in.

A Star representative called at the customs this morning and asked if the statement made by Ald. McCollins, that the customs would not allow the Beaver to work for the city was correct. The reporter was informed that the statement was under a wrong impression. The customs are simply required by their instructions to report to the customs department if the Beaver should engage in any other work than that which it is now engaged in.

REV. MR. SAVARY'S WIFE AND MOTHER STILL TRUST HIM

Don't Believe Elopement Story -- Expected Him Home This Week -- Wife is Dying, Mother is ill -- Would be Bigamist on His Way to St. Martins to Face the Music.

PLYMOUTH, Mass., Oct. 1. -- Rev. Harry S. Savary, whose elopement with a young girl of St. John, N. B., is reported from that city, is well known here, where his family are much respected, being of one Plymouth's oldest and best reputed families. He was married some three years ago to a young lady from Nova Scotia, and this wife, from whom he has never been divorced, lies now at the point of death at the home of his mother, sister and brother, on Leyden street.

Rev. Mr. Savary's family refuse to believe the story at all, and say that it is impossible. He has always been devoted to his wife, and was here to see her only a few weeks ago. He has written regularly and sent her money also. Said his mother: "It is impossible, my son would never do such a thing. Here is a clipping only a few days old showing what he is doing."

"Sure enough," it was a despatch of last week from St. Martins, N. B., where Mr. Savary had held a pastorate of a group of Presbyterian churches for some months, stating that he had been re-elected for a year, and he was so highly thought of that it was widely hoped he would accept. Mrs. Savary much moved, said that he was even now on his way home before adding whether or not to accept, and that he was in due in Bangor tonight. "If my son has done such a thing, which I do not for a moment believe, he has been caught in the meshes of some bad woman."

Harry S. Savary was born here 24 years ago and was educated in the schools of the town. After an education he obtained his theological education in East Greenwich, Conn., and in Bangor, Me. He has never been regularly settled in this section and the statement which comes from New Brunswick that he was lately pastor of a large church near Boston, is without foundation so far as known. No one here can understand why he should do such a thing, as reported, for although never perhaps regarded as of great force of character, no scandal has ever been associated with his name.

Mrs. Savary the mother, is not signing and the coming of an unfortunate young wife makes the story particularly sad one.

TELLS ANOTHER STORY AT HAMPTON.

HAMPTON, N. B., Oct. 1. -- H. S. Savary, the man who on Saturday was saved from committing bigamy, much against his will and intention, arrived in Hampton this afternoon. He failed to get off the C. P. R. train when it got here, being, he says, so broken up by the self-conscious worry of which he had been guilty, that he did not notice when Hampton was reached, and so was taken on to Norton, from which place he was driven back by the hotel-keeper there.

He paid visits to the jeweller, minister and registry office, with the expectation of squaring himself financially, but with what success he did not say.

Boyd's Sister-in-Law Takes Celia's Husband and Says She's Happy.

FRANCISCO, Oct. 1. -- In a tent of the ruins of Chin-tow, Ella, sister of Mrs. Howard who was formerly Katherine, the actress, is living with the Sun Yee, a pig-tailed Chinese who is a play-actor. She says she is very happy according to Chinese, and is happy.

Two years before the great fire she was living on the border of the same quarter and worked among the Chinese. She became very friendly with her little friends, and enjoyed relations with the men and women of Chin-tow.

She was a neglected and used face and her sympathy was for them. Then came the fire and she was swept away. She

CORNELL'S HEAD PRAISES HUGHES

Dr. Schurman, President of the University, Talks to Students of Republican Nominee.

ITHACA, N. Y., Oct. 1. -- Dr. Jacob Gould Schurman, president of Cornell University, delivered a very flattering eulogy on Charles E. Hughes, the republican nominee for Governor of the State of New York, at the Cornell Law School from 1881 to 1888 and during those years President Schurman saw a great deal of him. Dr. Schurman's remarks about Mr. Hughes were made in his address at the opening exercises of the university, which were held in the university armory at noon today. About Mr. Hughes he said: "I cannot forget in concluding that a Cornell man and former professor has just been nominated by a great party for the office of Governor of this state. Members of the faculty recall Professor Hughes as a man of unimpeachable character, integrity and fidelity to principle, a man of wonderful legal learning and of great intellectual power."

"This is no place for party politics, and I have nothing to say about parties as such. I do say that the nomination of such a man to be the standard bearer for any party is enough to give heart to the best citizens of the state of New York."

"It appeals especially to the membership of this community. Here is a man who two or three years ago was known only to his friends as a man of high character, great ability, an able lawyer. Simply by discharging loyalty and faithfully professional duty which came to his hands, and as it will come to the hands of all of us, he has projected his personality over the horizon of this state."

"I know nothing that has happened in the politics of the state of New York which seems to me of such good omen as the appearance in active politics of Theodore Roosevelt and Grover Cleveland. All these men lift our politics to a higher plane, and for us, as Cornell men, we have had on the one hand every reason for pride, on the other hand it is for us to see if we cannot to some extent realize the ideals which have been the standards of this man."

THIS CLERGYMAN KEEPS A HOTEL.

Rev. S. W. Thackeray Wants License for Singing and Dancing.

Anglers and Workmen Will Then Be Free From Danger of Spending Godless Sundays.

LONDON, Oct. 1. -- The Rev. S. W. Thackeray, who is controlling the Fish and Pels public house at Roydon, in Essex county, applied to the Essex county council yesterday for a music and dancing license for his premises.

The clerical politician told the committee that he had already a large assembly hall at the Fish and Pels, and he had now built an additional room, in which he intended to hold service on Sundays, and provide music during the rest of the week. He was the inventor of a new system of music--a system which would revolutionize music as taught at present--and his pupils would want to hold concerts.

It was mainly for them, and not for the outside public, that he wanted the license. The new building would be used for religious services on Sundays, and for daily prayers. Impromptu concerts would be arranged from time to time by his students, visitors to the district, and anglers who at times wished for harmony. He would generally be present to act as chairman, and to see that the entertainments were properly conducted. He desired to encourage a love of music, and being himself a musician, he wanted people to go to his hotel not merely to get drink, but to get rational recreation.

A member of the Committee--Will this building be used for Communion services?

The Rev. S. W. Thackeray--I have a platform at the end of the building, which will be screened off, and on Sundays I shall conduct Communion services as well as other services. Anglers and workmen will be present, and when they visit the district, will thus be free from the reproach that they spend godless Sundays, for I shall hold short half-hour services for them, and give them brief addresses. After that, they may take their recreation in whatever form they think best.

The Chairman--Do you think dancing is a proper form of recreation?

Mr. Thackeray--I am strongly of the opinion that dancing is a suitable form of recreation. And it has Biblical sanction. David himself was dancing when he took the Ark, and dancing is mentioned in the Bible in several places. He felt that when it is properly conducted and under proper supervision it is a very good form of recreation.

POLES SPEAK BY CHRIST

Such is the Belief of the Poles in Germany, Who Refuse to Use German in the Schools--Strike is Declared.

BERLIN, Oct. 1. -- The Prussian school authorities in the Province of Posen are encountering serious opposition in carrying through the compulsory use of the German language in Polish schools. The opposition of the Poles is particularly persistent where religious instructions are concerned. In certain districts the children, who are instigated by their parents, refuse to answer questions in religion except in Polish, or to say their prayers, including the Lord's Prayer, in what they regard as a foreign language.

The other day, at a place called Slup, some children who obstinately refused to speak German were dismissed from school for three days in order that their parents might consider the serious consequences of persistent antagonism to the law, but when they returned they were still recalcitrant. The school authorities have telegraphed to Berlin for instructions, as it is feared that the strike will spread.

As regards their language for religious purposes, the Poles are peculiarly sensitive. Not long ago, in the course of the trial of a man charged with opposition to certain police regulations, the school authorities in Poland, one of the Polish witnesses stated his belief that Polish was the language spoken by Christ and His apostles, and that it was certainly the language spoken in heaven.

GASOLINE ENGINE. -- Stationary. PORTABLE AND MARINE--any Horse Power, 2 and 4 Cycles, Stationary Engines for Dough Mixers, Concrete Mixers, Grain Grinding, Thrashing and other uses. See our pleasure and Fishing Boats at the St. John Exhibition, Essex county, applied to the Essex county council yesterday for a music and dancing license for his premises.

The clerical politician told the committee that he had already a large assembly hall at the Fish and Pels, and he had now built an additional room, in which he intended to hold service on Sundays, and provide music during the rest of the week. He was the inventor of a new system of music--a system which would revolutionize music as taught at present--and his pupils would want to hold concerts.

It was mainly for them, and not for the outside public, that he wanted the license. The new building would be used for religious services on Sundays, and for daily prayers. Impromptu concerts would be arranged from time to time by his students, visitors to the district, and anglers who at times wished for harmony. He would generally be present to act as chairman, and to see that the entertainments were properly conducted. He desired to encourage a love of music, and being himself a musician, he wanted people to go to his hotel not merely to get drink, but to get rational recreation.

A member of the Committee--Will this building be used for Communion services?

The Rev. S. W. Thackeray--I have a platform at the end of the building, which will be screened off, and on Sundays I shall conduct Communion services as well as other services. Anglers and workmen will be present, and when they visit the district, will thus be free from the reproach that they spend godless Sundays, for I shall hold short half-hour services for them, and give them brief addresses. After that, they may take their recreation in whatever form they think best.

The Chairman--Do you think dancing is a proper form of recreation?

Mr. Thackeray--I am strongly of the opinion that dancing is a suitable form of recreation. And it has Biblical sanction. David himself was dancing when he took the Ark, and dancing is mentioned in the Bible in several places. He felt that when it is properly conducted and under proper supervision it is a very good form of recreation.

CUBA AND OTHER NATIONS.

Cuba, as an independent Republic, passed out of existence when Secretary Taft a day or two ago proclaimed himself governor of that island. United States intervention in the disturbed country has been applauded by other powers and hailed as the only salvation of the unsettled people.

Are any of us fit to govern ourselves? What has Cuba done? The party in power had obtained authority through illegal methods. There were many in the island who objected to this, who suffered under the policy adopted by the government.

The Cubans are not fit to govern themselves, so it is said. Are we Canadians any better off? True we have not experienced any revolutions; we have not had governments which acted so contrary to the will of the people.

It has been calculated that if all the federal, provincial and municipal officials in Canada were to resign, the amount realized would not only build every inch of railroad existing in the country but would leave a profit of six thousand dollars a mile.

No government is to be blamed for this. It is the ordinary plan not only in Canada but in many other countries, and the people are too indifferent, too languid, to express more than a passing interest in what is being done.

There are however, one or two nations which are awake, and among the leaders of the world are Germany and New Zealand. In those countries state ownership of the natural wealth, of public utilities, and state control of many of those institutions regarded by us as purely commercial, are no longer a dream.

When Frank Stockton started out on his business trip, says Harper's Weekly, met and married a lady who though famed for her goodness of heart, would be spoken of even by her friends as "a girl."

When the bride and groom arrived at the children's room, the door was ajar and at sight of their future mother-in-law, the bride and groom fled.

Drivers Want More Pay - A Lot of Minor Matters Under Discussion - Pedersen Take Action Against the City.

At yesterday's meeting of the Common Council some discussion took place as to who was the proper representative of the city in communication with the government engineers.

The board decided to inform Mr. Shewen that the chairman was the proper person. Mr. Mayes' offer to be liable if any damage resulted from the sinking of the crib was not discussed.

The report of the Board of Public Works was next read. The N. B. Telephone Co. was given permission to lay their conduits, providing the company enter into an agreement similar to one already prepared.

The report of the Water and Sewerage Board was taken up. Nothing was decided in connection with the extension to Lancaster.

A petition asking for the opening up of Lancaster street from Winslow to Charlotte was read. This was referred to the Board of Works.

Pedersen Bros. sent a communication stating that they were about to bring a suit against the city to recover damages due them as a result of a fire which destroyed their greenhouse.

The Dominion Moving Picture Company provided amusement for a large audience at the Opera House last night. Everyone seemed satisfied with the show and the company has made a good impression on St. John theatre-goers.

Commencing Monday, October 1st, the Dominion Atlantic Railway Company's steamer "Prince Rupert" will depart for St. John and Digby, leaving St. John Monday, Wednesday, Thursday and Saturday mornings, usual hour, 7:45, returning about 5 p. m.

RUIN MENACES ST. HELENA ISLE.

Will be Effect of Removal of British Troops.

Sole Defence of Islanders Will consist of a Small Police Force - Cattle Will Starve.

LONDON, Oct. 1.-Every white man resident on the island of St. Helena has signed a petition to the Government protesting against the proposed withdrawal of the military garrison there, and a league has been organized in London to promote the action of the islanders.

St. Helena has 4,000 inhabitants, of whom 200 are whites, said A. G. Wise, secretary of the St. Helena League, yesterday. The garrison consists of 300 men, and if they go the sole defence of the islanders will consist of a police force of five natives.

Moreover, the white inhabitants derive two-thirds of their livelihood from the garrison. The proposed abolition of the garrison and the withdrawal of the military constitute a direct suggestion of the Government to import a large number of expensive sheep and cattle from England.

"If the soldiers leave these animals will be useless to the inhabitants, who limit themselves almost exclusively to a fish diet. All who can afford to leave the island are planning to do so, and the rest will have nothing to live on."

"The result will be that the Government will be called on to support these poor people, and will have to pay for the development of the mineral resources, especially the manganese. The cables of the Eastern Telegraph Company pass through the island, and this makes it additionally important that the garrison, the cost of which is very small, should be maintained."

AIM TO PUNISH EMIGRATION LIES

British Government to be Asked for Legislation

Deputy Minister of Labor, Who Has Gone to England, Will Lay Facts Before Authorities.

OTTAWA, Oct. 1.-W. L. Mackenzie King, Deputy Minister of Labor, who took place in the House of Commons on May 9th. Earl Grey immediately sent a copy of the Hansard to Lord Elin, and the verbatim report of the discussion, together with all of the previous correspondence upon the subject, appeared in the Parliamentary paper just published. The Government, in his last despatch, says: "I would beg leave to call your Lordship's special attention to the speeches made by the Minister of Labor (the Hon. A. B. Aylesworth) and the leader of the Opposition (Mr. R. L. Borden). You will observe that these gentlemen, representing the two sides of the House, are united in the view that it is desirable, in the interests of the people of the United Kingdom, no less than in those of the people of Canada, that legislation should be enacted in the United Kingdom, in order that such cases can be dealt with. Until such legislation is provided, men like Mr. Brunning would appear to be exempt from any penalty for fraudulent representation."

Several were killed, many wounded and the remainder fled to the police station of the adjoining district where they sought protection. Herr Leuschner, who was appointed by the German Government to be chief of police of the district of Berlin in this position Herr Leuschner not only commanded the native police force of Berlin, but was also a supreme judge and administrator of his district.

His sole claim to his appointment was the fact that he was a talented artist whose water-color pictures strongly appealed to Herr Puttkamer's artistic tastes. One day Herr Leuschner, whose brain became affected by the tropical heat, suddenly imagined that the negroes forming his police corps were meditating a massacre of all Europeans in the district. He thereupon summoned the Europeans and gave them rifles and ammunition of the latest pattern.

Then he drew up the native levies and ordered them harshly to lay down their arms. The negroes, not understanding what was required of them, hesitated for a moment. In astonishment Herr Leuschner, regarding this hesitation as a proof of mutiny, ordered the Europeans to fire on the natives. Several were killed, many wounded and the remainder fled to the police station of the adjoining district where they sought protection.

Herr Leuschner escaped free. TWO MARIE CORELLIS BILLIARD CHAMPIONSHIPS
TO BE HELD IN NEW YORK

Outlook Thinks One of Them Should be Crowned.

LONDON, Oct. 2.—The Outlook has reached the conclusion that there are two Marie Corellis. It says that one of them could write good second-rate books if she could be prevailed upon to drop the novel in the nearest bucket of water. The Outlook says she would be drowned in the one that insists upon postulating in every Correll novel a society of rich steeped in vice, and another of the poor endowed with every imaginable virtue. It frankly admits, however, that if that Correll should be drowned the surviving Corellis could not write popular books.

THE TRANSPORT SHERIDAN IS IN A BAD STATE

HONOLULU, Oct. 2.—The transport Sheridan was pulled off the reef at Barber's Point and successfully floated with the aid of the Buford and other vessels, only to be beached in a worse position near the western entrance to Pearl Harbor a few hours later to prevent her sinking. The Sheridan, after being hoisted, had heavy list and had been towed about half the distance to this port, when she suddenly cut loose her lines and sailed for the beach. Efforts to refloat her will be begun today. The prospects saving the transport are good.

0 MORE HAZING FOR THEM

CHICAGO, Oct. 2.—Forty Lake Forest students refused last night to pledge submitted by the faculty to indulge in hazing and by the sanction of President Richard D. Sloan, they will be expelled from the college today. Sixty students after a meeting decided to accept the infest of the professors.

COMMERCIAL.

CANADIAN WOOD IN ENGLAND.

Farnworth & Jardine's wood circuit, dated Liverpool, September 1, is as follows:

Arrivals from British North America during August were 38,574 tons register, against 33,159 during August last year, and the aggregate tonnage to this date from all places during the years 1902 and 1903 has been 324,683, 347,623 and 254,348 tons respectively.

Business, although not particularly active, has again been of a steady character. There has been a full import, the consumption fairly satisfactory, and stocks, considering the time of year, with few exceptions, are not unduly large. Values are well maintained, and for several articles show improvement.

Canadian Woods—Pine Timber—Wayne pine arrivals, chiefly to Manchester, and largely on contract. Pine class Wood—the import is entirely on merchants' account and goes direct to consumption. Values steady; stock class wood arrived freely and with improved enquiry several consignments have been disposed of; values steady; stock sufficient. Square Pine—Arrivals moderate, limited demand, values firm. Red pine not imported, little enquiry. Oak—Import is the largest for many months and chiefly on contract; consumption small, bulk of import unsold, values firm, stock sufficient. Elm—Import reduced, deliveries disappointing, demand quiet, stocks ample, values high. Pine Deals—Arrivals fairly moderate, more enquiry, deliveries satisfactory. Values firm. Stocks not large. Best Pine Deals—No improvement in demand.

New Brunswick and Nova Scotia Spruce and Pine Deals—Arrivals to Mersey were 19,960 standards (of which about 12-13 per cent. went to Manchester canal), against 2,290 standards a year ago. Steady demand, enquiries fairly satisfactory, stocks increased. Stocks not heavy, values well maintained. Pine Deals are only in limited demand.

Birth of logs, arrivals moderate, consumption fair, stock large. No improvement in value. Planks arriving too freely; consumption not satisfactory, and stocks too heavy; values lower.

Pitch Pine—Arrivals were 5,960 tons, against 5,960 tons last year. There was an upward tendency in values, and in sawn timber especially there was a steady demand. Amongst importers to meet conditions at shipping points. Hewn imported moderately, consumption disappointing only first class wood in demand. Softwood imported on a moderate scale; satisfactory demand and values improved. Stocks not excessive. Deals and boards—Import on the light side; consumption satisfactory, values of prime wide boards improved; inferior shipments neglected.

British Columbia and Oregon Pine—Import consists of a cargo from Portland, Ore.; steady consumption, stocks sufficient; prices advanced.

CANADA TO REDEEM BIG BOND ISSUE.

MONTREAL, Oct. 1.—A London special says: The announcement to-day by the Bank of Montreal that the Canadian four per cent. coupon bonds for \$50,000,000 sterling will be redeemed at par on Nov. 10, is accepted as a gratifying indication of the country's credit, and to raise fresh money.

ESTIMATE OF CORN BY OFFICIAL AGENT.

OTTAWA, Oct. 1.—In a report to the Department of Trade and Commerce, Mr. David Home, Government Inspector of wheat at Winnipeg, estimated that the total crop of wheat in the West will be eighty-five million bushels, or about the same as last year.

As to the condition of the wheat, he says that thus far some six million bushels of the new crop have been inspected. Of this some 25 per cent. has graded No. 1 hard, some 50 per cent. No. 1 northern and 15 per cent. No. 2 northern, making 80 per cent. high grade.

A discouraging feature is the large percentage of high grade rejected for the admittance of foreign markets. Especially wild oats, this being some 10 per cent.

This trouble seems to be on the increase, and at this ratio will steadily reduce the percentage of high grade wheat. Some per cent. of the crop is rejected for smut, and as the crop is looked into the proportion of smutty wheat seems to be increasing.

This matter of rejection for smut and rejection for smut is so much in the hands of the farmer himself, and so entirely his own fault, that it would seem to warrant the attention of the present Royal Commission as much or more than any other feature.

MINING IN BRITISH COLUMBIA.

Few things are more satisfactory in the provincial economies than the steady progress that the mining industry is making in British Columbia. The speculative element in connection with mining shares has disappeared almost entirely and the few attempts that have been made to revive it have not brought results that gave any encouragement to those who promoted them. But the industry itself is steadily forging ahead and the world will some morning wake up and realize that British Columbia mining enterprises have not only a bona fide existence but a great future. During the nine months of the present year about \$2,000,000 have been distributed as dividends by mining companies in the Kootenay and Boundary districts. With the development work now being carried on in existing shipping mines and the certainty that other properties will shortly be added to the list, the importance of British Columbia as a mineral field will come to be recognized in quarters wherein this province hitherto has not received much attention—Vancouver News-Advertiser.

Values of stocks in Wall Street have been larger this year than ever before, the par value of shares dealt in having been over \$19,000,000,000. In the same period of last year the trading aggregated \$2,000,000,000 less. The actual number of shares dealt in was 215,831,000 this year and 182,575,000 last.

The amount of money required to do this enormous trading is great, and the best and safest portion of the business of banks and trust companies is involved in it.

The monthly aggregate of share trad-

ing is about \$2,000,000,000. The average daily stock sales in New York were highest in January, at \$125,000,000, and lowest in July, \$22,000,000. The trading jumped to more than \$100,000,000 a day. These figures represent the full activity of the market and compare with those in August of other years as follows:

1906	1904
\$100,000,000	\$80,578,000
\$4,220,000	\$4,220,000

It is difficult to say which are the most active months in stock trading. In this year January took the lead, in 1904 April was the largest month, in 1903 November, in 1902 June, and in 1901 April, General, October and November and April and May are large months.

WALL STREET.

NEW YORK, Oct. 2.—Gains were in large majority in the changes resulting from an active opening today, but a number of issues showed the effect of realizing. Reading was a feature, with running sales of 19,000 shares at 154 and 154 1/4, compared with 153 1/4 last night and made a subsequent advance of an additional fraction. Wisconsin Central, pd. advanced 5 points, the common and St. Louis and San Francisco common advanced 1/2 point. Brooklyn Eastern, 1 1/4 and Atchafalaya, Northern Pacific, Atlantic Coast Line, Rock Island, Amalgamated Copper and Smelting about a point. SAY THE INSPECTOR DOES NOT DO HIS WORK

Chatham Aldermen Are Showing Some Excitement Over Enforcement of the Scott Act.

(Special to the Star.)

CHATHAM, N. B., Oct. 2.—At a meeting of the town council held last evening Ald. Stothart moved that the present Scott Act inspector be dismissed at the end of the month. He said enforcement of the act was a farce, and there seemed to be collusion between the police and bar keepers.

Ald. MacLachlan was equally emphatic, but thought the inspector could not be dismissed without cause.

Other aldermen agreed with this, and Ald. Stothart tried to pass a motion so that a special officer could be appointed here this week.

The marshal must have his eyes shut when he searches five places and finds no liquor; everybody knows it is being sold," Ald. Follen said. "The bartender puts the bottle in his pocket when the marshal comes in, and he cannot then be fined."

Ald. Stothart—Then fine him for having bar fixtures."

It was decided to give the marshal a hearing before the police committee before action is taken.

THE MUNICIPAL COUNCIL IS IN SESSION TODAY

A Bunch of Bills Passed by the Finance Committee—Want Legislation for the Issuing of Debentures.

The regular meeting of the municipal council is being held this afternoon in the finance committee held last Friday the following accounts were passed:

Matthew M. McFarland, M. D., Coroner, holding four views, \$16.00.

Lawrence Mahoney, removing ashes from court house, \$4.00.

St. John Globe, advertising Lancaster sewerage election notice, \$12.00.

A. D. Gault, fees for holding Lancaster sewerage election, \$12.00.

F. A. Dykeman, clothing supplied jail prisoners, \$7.50.

Assessors of St. John, making assessment for 1906, \$1,914.10.

D. E. Berryman, M. D., Coroner, holding 11 views, \$45.00.

Henderson and Hunt, clothing supplied jail prisoners, \$21.50.

James H. Smith, putting in lights in court house, \$3.00.

Barnes and Co., printing revisors' lists, printing blank forms supplied treasurers and secretary's office, \$85.00. County secretary, half cost care of offices, stamps, \$2.00.

The committee further had under consideration the report of James Bourke which was referred by the council to the committee on public works to act, and they have ordered the Bourke report to be returned to Mr. Bourke and the committee on public works to act, and they have ordered the Bourke report to be returned to Mr. Bourke and the committee on public works to act, and they have ordered the Bourke report to be returned to Mr. Bourke and the committee on public works to act.

THE AUTOMOBILE WILL BE INTRODUCED IN TIBET

Heretofore the Natives Have Never Seen Any Sort of a Vehicle on Wheels—A Surprise in Store for Them.

NEW YORK, Oct. 2.—A special despatch from London states that one of the British intrusions into the forbidden land of Tibet, from which the amount of three thousand dollars in inventions, will be the immediate introduction of the automobile, Captain O'Connor, British trade agent at Cyangtse, taking an 80 horsepower motor car for the use of the Grand Lama of Tashi Lhunpo.

The incongruity is increased by the fact that neither cart roads nor carriages are known in the neighborhood of Tashi Lhunpo and the motor will be first wheeled vehicle the natives have seen. The Tashi Lama, who has a road made from his monastery to Cyangtse, where there is a new British road.

NO CHANGE FOR YACHT RACES NEXT YEAR

New York Club Will Not Consider a Contest in 1907—May be Arranged for the Following Season.

NEW YORK, Oct. 2.—There will be no race for the America's cup in 1907, according to the Times, which says today:

Whatever may be the ultimate outcome of Sir Thomas Lipton's negotiations with the British government, it can be stated that there will be no race next year. Assurances are said to have been positively given that under no conditions would the New York Yacht Club consent to a race in 1907. What might be done in the following year, or what action may be taken on the question of rules to govern any match that is arranged, is absolutely uncertain.

HOUSE CLAIMS OF NEW IRELAND, WHILE WORKING IN THE LUMBER WOODS LAST WEEK, HAD A NARROW ESCAPE FROM A BULL MOOSE, WHICH CHASED HIM A CONSIDERABLE DISTANCE THROUGH THE WOODS, UNTIL HE REACHED THE DRIVING DAM AT THE HEAD OF CROOKED CREEK, OVER WHICH HE MADE HIS ESCAPE AND SUCCESSFULLY MADE HIS WAY TO THE NEAREST LUMBER CAMP, WHICH WAS SOME SIX MILES DISTANT.

Next Monday evening the event of the season takes place at St. Andrew's Hallway. Of course, this refers to the Neptune Carnival. The club boys and their friends intend making this the chief event of the season, and judging from reports it will be. Extra seating arrangements will be provided. The Neptune boys will act as ushers, and in this way will try to provide every person with a seat. As the accommodations of the rink are limited, only a limited number of tickets have been issued, and these are selling fast. No tickets are for sale at the rink, and they can only be procured from members of the club.

LEFURGEY GIVES DETAILS OF WESTERN LAND DEAL

It Was Arranged During Conservative Leader's Western Trip.

Fowler, Borden and Others Had Secret Information of Route of McKenzie & Mann's Railway, and Were on Inside Track with C. P. R. — Lefurgey Claims He Was Fleeced — Foster Demands a Hearing.

TORONTO, Ont., Oct. 1.—At the inquest investigation today A. A. Lefurgey, M. P., Prince Edward Island, was called to the stand and told the story of how W. H. Bennett, M. P., Geo. W. Fowler, M. P., Rufus Pope, M. P., and himself, while on a tour of the Northwest some years ago became seized of the idea to buy land as a speculation. Originally there were ten persons interested. The lands were bought from the C. P. R. and were ultimately sold to certain parties in Toronto. At the time the option was given he understood the parties purchasing were acting as individuals. Lands which were bought at \$1.50 per acre were sold at \$4.50 per acre, which he thought was too low.

A telegram from Pope: "Must have \$4,000 tomorrow from you for Wednesday." Lefurgey replied that Bennett was only putting up \$2,000 and he supposed he was getting two shares. Afterwards Pope told him he did not know whether he could let him have more than one share. Lefurgey said he understood \$2,000 was required for the first payment to the C. P. R. for land, but he did not know the terms of the option. He supposed each member of the syndicate was putting up \$2,000. He did not know the amount of the payment until long afterwards. The question came up about another party dropping out, and he said he was perfectly willing to take another share and pay for it. His understanding was that if one member of the syndicate dropped out the others would get the benefit.

In some detail Lefurgey related the details of the transaction and the causes which led him to join with W. H. Bennett, M. P., and Peuchen in a West Land Co. business from beginning to end. When Pope and Fowler issued a statement for the division of \$1 per acre profits, the same charge made against the partnership account was \$20,000 for a commission on the sale of the land by Union Trust, but as the West Land Co. was not yet formed, Lefurgey's share was calculated upon the basis of one-tenth of the balance, but as there were apparently only five in combine he demanded one-fifth. He received between \$11,000 and \$12,000 cash and money that he was entitled to 55 shares in the Great West Land Co. This left Pope and Fowler, according to his calculation, in possession of seven-tenths of the cash and the same proportion of the stock in the land company, instead of making an equal division, as he understood would be the case.

DEFRAUDED EXHIBITION

Five Ticket Sellers Who Conspired With Man on the Outside, Arrested at Halifax — Balloonist Hurt

HALIFAX, Oct. 1.—Something of a sensation was caused at the exhibition grounds this afternoon, when five ticket sellers and turnstile keepers and "man on outside" were arrested on charges of conspiracy to defraud the exhibition commission. Those under arrest are W. E. Stewart, M. O'Toole, D. J. Sullivan, E. Kelly, John Boutiller and John Mulrooney, the latter a second hand dealer, who, it is alleged, operated outside of the grounds.

MORE SENSATIONS IN LONDON ELECTION CASE

Chief Witness for Prosecution a Disappointed Office Seeker and a Blackmailer—Conservative Returning Officer Among Those Bribed—Evidence of General Corruption is Plentiful.

TORONTO, Ont., Oct. 1.—The London election charges were again heard in police court here today. William Mulloy and Daniel Wiley morninged to the authorities this morning. George Ardy, W. Mulloy, W. Services G. Reid, D. Wiley and J. Gogman were arraigned and pleaded not guilty. John Cox, of the Dominion House, London, told of receiving an envelope from William Mulloy with Trudeau's name on it. Alexander Milne, stranger, who was deputy returning officer, said Jeremiah Collins, complainant, had instructed him to fall ballots in a certain unusual way.

FAVORS DEEP SEA FISHING SHEFFIELD BUSIEST IN THIRTY YEARS

Expert Cowie Says Bale de Chaleur Fishermen Have Been Keeping too Near the Shore

OTTAWA, Oct. 1.—J. J. Cowie, the Scotch fish expert, who has been for the past two years giving the fishermen of the Atlantic and Pacific coasts instruction in improved methods of fishing, has reported that there are great possibilities in the Bale de Chaleur herring fisheries. At the present time the fishermen there only seek the fish near the shore. During the summer Mr. Cowie has been using a small steamer and has been drifting in deep water from twenty to forty miles from the coast with great success. In the spring he took about 240 barrels of fat herring from deep water before the fish had reached the inshore fishermen.

Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured even after the symptoms were well defined and the lungs actually involved. On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

FERRROL

In fact, it is claimed that, with plenty of fresh air, sunlight and comfortable surroundings, FERRROL has pushed the hopeless point to the limit, that is to say, where these fall the chances of cure are very slim indeed. FERRROL does not kill the germs of Consumption (anything that will do that will kill the patient), but FERRROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature to expel the disease. The only possible chance of curing Consumption is by proper nutrition, and FERRROL is the only perfect nutrient, because it combines in palatable and easily digested form the very essentials of life—Oil, Iron and Phosphorus.

BABY KILLED IN MOTHER'S ARMS

NEW YORK, Oct. 1.—An infant was killed and a score of men and women injured, five or six dangerously, tonight, when a runaway car of the Yonkers street railway dashed down the steep incline of McLane avenue and jumped the track at a sharp turn at the foot of the hill, turned over and buried its passengers in the wreckage. Fifteen injured were removed to St. John's hospital, but many of these required little or no treatment, as they suffered chiefly from shock. Of the injured a few, it was believed, might die. The baby was killed in its mother's arms. The mother was seriously injured. The accident was due to the breaking of a brake chain.

Position of the Buildings is Becoming More Dangerous Every Day.

The situation at Union street (W. E.) grows more serious, and a visit to the scene of the landslide this morning would convince one that still greater damage would result.

Messrs. Sleeth & Quinlan's stone cutting and sawing works, at the eastern end of the building has sunk three or four feet.

At 11 o'clock this morning the tide was about high, and much more loose earth was washed into the harbor. The Shore Line station house appears to be main firm on its foundation, although the ground has been washed away from the structure. If a very high tide came it is thought that Messrs. Sleeth & Quinlan's building would collapse.

No men were at work at the landslide this morning on account of the high tide; but a crew will probably start in this afternoon.

POLICE COURT

The case against Alphonse Wauger, charged by James Brennan with disorderly conduct in the Union Hotel, came up before the magistrate this morning. Mr. Brennan swore that Wauger had assaulted him and threatened him with a hammer. The magistrate imposed a fine of \$20 or two months with hard labor.

Almer Secord was on the list, charged with allowing two horses to wander at large on the barrack green. Almer explained that he did not know they were doing any harm there. The magistrate said that he was liable to a fine of two dollars for each horse, and told him not to let them go there any more. Secord was allowed to go.

Mary McLean pleaded guilty to being and was sent to the Good Shepherd's for six months.

Richard O'Connor, who was up again this morning, pleaded guilty to being and was remanded.

Fred McAllister, reported for dumping coal on the sidewalk, explained that he had only been working at the coal business two weeks and was ignorant of the law. He was let go with a caution.

James McGarrity was arrested by Sgt. Campbell for being drunk on Water street. As it was his first offence he was let off for two dollars.

The liquor case against Mrs. Doyle did not come up, as an important witness was not on hand.

CHINESE PUPIL IN CENTENNIAL SCHOOL

He is Good Looking, Intelligent and a Favorite.

Plays With the Other Boys and is Very Apt as a Student—An Epoch in St. John School History

Principal Town of Centennial school, Brussels street, can doubtless enlighten St. John people somewhat on the gradual awakening of China to a realization of her possibilities, at least as it affects that good looking Mongolian youth, Hum Oak, who regularly attends Mr. Town's school nowadays.

This lad from Canton occupies the unique position of being the only Chinese day school pupil in the Eastern Provinces, and it is just possible he is the only one outside of Montreal, Toronto and British Columbia. His permit was sought by his uncle, Ham Lee, the Waterloo street laundryman, and after the board of school trustees had recovered somewhat from the uniqueness of the application, the necessary document was granted, and Master Oak—doubtless a heathenish Anglicized name—tripped merrily off to his studies with his books slung over his shoulder in a strap just like native scholars carry.

For a day or so Hum Oak was the centre of attraction at school assemblies, and recess hours. He is a large boy for eighteen, but perfectly boyish, and were it not for his raven queue, secreted under a cloth cap, he might easily have passed off for a stalwart Canadian by night of nativity.

So quickly did the Oriental chap win his way to the hearts of the better class of boys by entering into their baseball, French-foot-and-a-half and other amusements, that quick justice was administered a group of bullying pupils who endeavored to gully him.

After school hours young Oak may be seen proceeding home to his uncle's hand in hand with well dressed small boys belonging to the best homes; not that the Chinese lad is childish beyond his years, but rather because he evinces a fine, manly, gentlemanly spirit at all times, and seems to enjoy his studies over the wee fellows.

Centennial school teachers say Master Oak is an apt pupil. He is in the class of boys of entering into their English history, geography, reading, writing, arithmetic and Latin. There are other branches of learning in the curriculum of this standard, but the Chinese boy is concentrating on these studies industriously, and is making satisfactory progress, much to the delight of his worthy uncle and his English friends.

Should Master Oak, who is a high-caste citizen of the Flowery Kingdom, succeed particularly well in the public schools, his relatives will doubtless give him a higher education, and who knows, it has been said, but what this singular day school pupil from the Orient may be a factor in Chinese state affairs a quarter century hence.

FIFTY MEN WORKING ON THE CARLETON EXTENSION

This morning a large crew of men started work on the street railway's extension in Carleton. The work was begun with a small crowd yesterday and a large portion of ground on Tower street has been made ready for the placing of the rails.

The Street Railway officials are confident that no delays will occur. A shortage of rails is unlooked for, as a good supply is on hand. On Tower street the ground is very hard and much rock had to be cut away today. There are about fifty men at work and this number will probably be kept on until the job is finished.

MORE FOULDERS FOUND; THE DIVER IS AGAIN BUSY

The diver is again busy, as a large boulder has been located at the lower end of No. 2 crib site, and a steam drill is being used to remove the obstacle.

A number of surface blasts were made, but on account of the enormous size of the boulder they proved useless.

This morning the diver went down and is working the steam drill.

Mr. Mayes, when seen this morning, said that the work was progressing rapidly.

Glad News For Men.

This store is practically the pioneer in St. John of Fine Tailored Clothing ready-to-wear.

When we opened this department a few years ago really good ready-made clothing was just beginning to appear. We secured what was then the best; the ordinary kind was very "ready-made."

Since then the improvement has been very great. Today, the 20th Century Brand, which we control, stands at the top and excels the best in the United States. Good dressers all over Canada are wearing 20th Century.
