ST. JOHN, N. B., SEPT. 17, 1913.

WILLIAM J. GAYNOR

That fell sergeant, Death, so swift in his arrest, takes the commonplace characters from life's stage like the others, but it is the picturesque, the uncommon, the daring ones, that the world misses most when the news is made known.

Two years ago we were told that this diversion would be a horrible calamity for Canada. It would turn our hearts toward the United States, lure us away from the Empire, and undermine our nationality.

What they say now is that we are getting something for nothing. That is, while the Americans will eat untaxed food, we Canadians will continue to enjoy the glorious privilege of paying high taxes to the government and the combines on everything we eat.

THE HALIFAX IMPROVEMENTS. Ever since the government made public its plans for a large expenditure in enlarging the terminals at Halifax, there have been reports of dissatisfaction there over the location of the new harbor works and the route through the city to be followed by the Intercolonial in reaching the lower water front.

THE PARSON AND THE "COLLECTION"

Toronto is discussing the action of the rector of St. Jude's Church of that city who, on Sunday last, rebuked his congregation for its parsimony.

was no fewer than 100 five-cent pieces upon the plate.

While the clergyman's case will excite some sympathy, and while no doubt his congregation deserved all that he said, and more, there will be some clerical men in outlying parishes in the Maritime Provinces who will be disposed to think that the presence of 100 five-cent pieces upon the plate on a Sunday would be a cause for congratulation rather than for opening the vein of wrath.

A FAMILIAR DECEPTION.

The Montreal Star is overworking an unfounded assertion which many Conservative journals have been making in one form or another ever since the Wilson or Underwood tariff bill was introduced.

"The effect of maintaining the Canadian tariff has already been made apparent. American industries have been growing with each other ever since in a race to get the best locations in this country for branches of their manufacturing plants."

Note the false assumption that the American manufacturers would have had free entry to this market if the reciprocity agreement had been adopted. The truth is, of course, that the agreement did not affect manufacturers, with the exception of certain agricultural implements and farm machinery.

"My hon. friend was ready to join with the hon. member for St. John (Mr. Pugsley), and the hon. member for Carleton (Mr. Carvell) in advocating that a shipbuilding plant, or plants, with subsidiary and ancillary, should be established forthwith."

"The Recorder adds: "Would that the Tory representatives from the Maritime Provinces might show a similar zeal in the interests of their constituencies, but they seem to have all become Ontario men since reaching Ottawa."

THE RESPONSIBILITY.

Mr. Hatheway, in the columns of the Standard, continues to float himself to impossible conclusions by the free use of printer's ink, but he has all along neglected the main point.

These are questions having to do with national transportation as well as with the future of St. John. If Mr. Hatheway's political friends had taken hold of these matters in the right way as soon as they came into power, the city would not now be asking for this formation.

THE GENIUS TO UNITE. The ninth congress of the International Co-operative Alliance was held in Glasgow during the closing days of August.

THE GARBAGE QUESTION. St. John must before long undertake the collection and destruction of garbage as part of the work directed from City Hall.

Ottawa has an incinerator; that is to say it burns its garbage. The reduction plant, used in Cleveland and Columbus, Ohio, represents a different method. Municipal reducing plants in Ohio are reported by the Engineering News to be earning their own operating expenses and capital charges, while in New York a private garbage reduction company pays the city for the privilege of buying all the garbage at certain points on the water fronts under a contract.

disposing of 2,000 tons of garbage every twenty-four hours.

The Ottawa Citizen, in describing the incinerator in use in that city, says significantly: "The surrounding atmosphere is not conducive to romance."

THE TARIFF CHANGES. We may form a good idea of the significance and scope of the tariff changes that will be made by the Underwood bill from reading in the New York Journal of Commerce, a free-trade paper, this comment:

"The cuts made by the House measure were enough, on the whole, for the present requirements of the country even from the standpoint of the advanced tariff reformer."

manufacturing boots, soap, candles, biscuits, sweets, preserves, lead, underclothing, corsets, furniture, tobacco, and nearly everything for use and profit.

In this Glasgow Congress the principal discussion considered the direct export of goods between distributive, agricultural and other productive societies, and between the wholesale societies in different countries.

In some quarters doubt is being expressed about the deportation of Thaw by the Canadian authorities. There is no reason to doubt that the Canadian government did the right thing in this matter. Shorn of all legal formulae, the case is simple enough.

THE RIGHT THING.

"The expulsion of Thaw by the highest Canadian authorities was foreseen, though the promptness with which the Dominion has acted comes as a surprise."

"The simple-minded will discern in such an action any violation of Constitutional or human rights. A murderous lunatic has escaped from custody, and nothing has obstructed his being handed back to custody except the efforts of a battery of high-priced lawyers."

NOTE AND COMMENT.

During the twelve months ending April 30 the Toronto Railway Company paid to the city a little more than a million dollars for the city's share of its earnings for the year.

# BORDEN PUTTING OFF HIS TROUBLE

### Asks Strathcona to Continue Unable to Select Successor for London Post

### Sir Hugh Graham and Hon. Clifford Sifton Hot After the Job and Premier Knows Not What to Do—Cannot Afford to Offend Either of Them, for Obvious Reasons

Ottawa, Sept. 12.—The official announced desire of the government to have Lord Strathcona continue as Canadian High Commissioner at London for the present at least, means that original plans have been changed because of party complications in regard to appointing a successor. It is definitely known that Lord Strathcona had contemplated retirement from his onerous post early in the coming year. Intimations to that effect were received by the government some time ago. But when it came to definitely choosing a successor, Premier Borden found that he was up against trouble. Sir Hugh Graham, proprietor of the Montreal Star, is understood to be a persistent candidate for the office, and for obvious reasons he could not be offended.

# HOW IMMIGRATION OFFICIALS GUARD INNOCENT GIRLS

### A Typical Case at Union Depot Thursday—Young Italian Girl Detained Here Until Brother Was Heard From.

"There's a pretty looking girl," said a United States immigration official to a telegraph reporter last night in the L. C. R. depot as a finely dressed and most attractive looking Italian girl about 18 or 19 years of age, boarded the Montreal train accompanied by another immigration officer.

"Such girls," continued the official, "require more attention on the part of the immigration authorities than any other class of people. This young lady for instance has been held in the city for three days, before being allowed to cross the border, in order to make sure that she will be safe when she gets to her destination.

"You cannot imagine," he said, "what will attract these pretty young girls, when they arrive as strangers in the big American cities. Many eyes are watching them the minute they alight from the train, and should no friend meet them, the chances are ten to one that they will meet with evil people.

"This girl here, had she been allowed to go through to Boston as she wanted, she might have been in the city until we could locate someone who would meet her at her destination, and we arranged her whole trip for her."

The young Italian girl arrived a few days ago from Sydney (N. S.), on her way to Pennsylvania. She was detained here by the immigration authorities as she attempted to go out on the Boston train. Instead of allowing her to travel via Boston and New York, the immigration officials sent her via Buffalo, and she left on the Montreal train last night.

At each of the points where she must change, there will be met by an official who will look after her until she arrives safely in Uniontown (Penn.).

"This," said the official, "is the course which we must follow in many cases. Many girls drop in to the great cities and are swallowed up. No one hears of them again."

# CONFESSES TO TERRIBLE CRIME IN NEW YORK

### Rev. Hans Schmidt Admits He Killed Young Girl Had Performed MARRIAGE CEREMONY

Tells of Putting Her to Death and Disposing of Her Body—A Revolting Story of Cruelty—Police Practically Sure He Was Guilty Person Even Before He Made His Confession.

New York, Sept. 14.—With the arrest early today of the Rev. Hans Schmidt, assistant rector of the St. Joseph's Roman Catholic church, charged with the murder of Anna Ammuller, a domestic, the mystery surrounding the finding twelve days ago of parts of the dismembered body of a girl in the Hudson river, was solved. Schmidt, confessing to the police, admitted that he had killed her and at the time of his arrest, he was armed with a razor blade.

"I killed her because I loved her so much," Schmidt is alleged to have said to his captors, but the police version of the motive for the crime is that the young woman was about to become a mother. Schmidt had married her through a ceremony of his own performing, without witnesses.

According to the police Schmidt's confession was full and complete. In it he is quoted as saying that he killed his companion with a butcher's knife and cut up the body with a knife and saw. The deed was committed, the police say, while the woman slept, shortly after midnight on Sept. 2, in an apartment on No. 68 Broadway avenue, where the priest had placed her five days before.

When her heart had ceased beating, according to the alleged confession, Schmidt carried the body from the bed to the bathroom and placing it in the tub, began immediately his gory task of cutting it up. With the best knife he saw he cut off the head, arms and legs. Still fearful of detection, he then cut the body in two. Five bundles, wrapped in bed clothes and papers, were placed in the six parts. Five times Schmidt left the apartment house to a bundle to cross the Hudson river to the Jersey shore. Five times he leaned over the ferry boat in midstream and gently gave the river his burden. Then he returned to his church.

The stains of the girl's blood still discolored the bath tub when detectives searched the Broadhurst avenue apartment today. Schmidt told the police he had taken the mattress on which she lay and hid the death blow under cover of darkness, to a vacant lot nearby and burned it.

The police found in the apartment, among other things, a marriage license issued in New York last February and bearing the names of the priest and the murdered woman. This license had been used. According to Schmidt's confession, he went through a marriage ceremony with the girl. In this ceremony Schmidt was both priest and bridegroom; there were no witnesses.

A gayly colored pillow of unusual pattern led to Schmidt's apprehension. This pillow, stained with blood and soiled with the filth of the river, was wrapped around a portion of the torso. The detectives traced the pillow to its manufacturer, the manufacturer traced it to the dealer, and the dealer traced it to Schmidt. And the police, tracing the pillow, and the girl, knew all about both of them hours before they arrested him.

Schmidt was arrested by Inspector Farrot, in charge of the detective bureau. The priest was dressed in full clerical garb when the detective entered his rooms in the parish house of his church at 406 West 168th street. The inspector had produced a photograph of Miss Ammuller and asked Schmidt if he knew the girl. The priest, after a moment of hesitation, inquired if his visitors were police officials. His actions indicated that he was expecting arrest. He then asked permission to change his clothes and it was when he left the room that Inspector Farrot declared that he attempted to cut his throat with a small safety razor blade.

# WANT YOUNG PEOPLE TO STAY IN BAYFIELD

### Enough Going on in This Corner of Westmorland County to Pay the Younger Generation to Look to New Brunswick for Their Future—Tourist Party Greatly Pleased With Section.

UPPER MAIN STREET IN BAYFIELD, WESTMORLAND COUNTY, SHOWING PART OF "THE CORNER."

Bayfield, West. Co., N. B., Sept. 12.—Just were Jerry Tucker's fine farm tops the crest of the hill Bayfield began and Cape Tormentine ends. That is if you enter this country by way of the N. B. & P. E. I. Railway and drive in towards the "Corner," where are centred four stores, two factories and the blacksmith shop, to say nothing of the Methodist church to which devoted worshippers come as far as the end of Cape Spear in the other direction from Cape Tormentine. This is Bayfield, Corner, but the advent of rural free delivery has extended the boundaries of the post office district to such an extent that the place name now includes many miles of territory in two different directions.

There is something about the place which certainly suggests the name. From the name it should be easy to conjure up that sweeping line of coast, symmetrically curved, the water line shifting with the tide, revealing at the ebb a shining expanse of sand as firmly packed as trodden snow. # NEW BRUNSWICK AND NOVA SCOTIA SPRUCE DEALS

### Little Change in Brisk Demand for Canadian Woods Noted in Timber Circular from Liverpool.

Dunoon, Ewing & Company's timber circular for the month of September, just arrived from Liverpool, states that the import of New Brunswick and Nova Scotia spruce deals during the month of August into England has been very heavy, and is expected to continue at a similar rate. The consumption has been good, viz: 9,450 standards, but the stocks are held high at 31,620 standards.

Little change in the brisk demand for Canadian woods is noted in the circular from the maritime provinces were imported many other kind of wood cut in Canada. Oak and birch logs showed slight improvement, with prices firm. For the month ending August 31, 1913, St. John exported to Liverpool and consumed no pine while the New Brunswick and Nova Scotia spruce figures compared with those of 1912 were as follows:

	1912	1913
Import	2,960	4,400
Consumption	2,910	3,750
Stock	5,740	9,870

These figures are greater than those of 1911, which were correspondingly larger than any previous year. England is more and more looking toward the spruce deals from the maritime provinces for St. John birch, raw, range from one shilling and sixpence to two shillings for birch planks one shilling and twopence to one shilling and fourpence; for St. John and Miramichi spruce £10 5 0 to £10 15 0 per standard. New Brunswick is quoted at a considerably higher rate for spruce deal than Canada, the figures for which province read from 29 17 6 to £10.

# HARVESTING IN FULL SWING IN CANADIAN WEST

Regina, Sept. 12.—Harvesting is in full swing wherever a crop can be gotten together, but several thousand men are still required in Saskatchewan, according to agriculture department officials. Large quantities of wheat so far threshed is running No. 1 Northern and weighing sixty-one pounds to the bush. Samples of Marquis wheat weigh as high as sixty-four pounds. While the yield is lighter than last year the grain is high and millers are delighted with samples received.

Farmers are holding grain for higher prices in Saskatchewan. The best kindergarten lunches are chiefly of fruit.

# GREAT GRAIN CROPS IN WEST

Winnipeg, Man. Sept. 11.—The Free Press today presented its official estimate of the crop of 1913, as follows:

Where	Acres	Total Yield
Manitoba	3,130,747	56,064,774
Saskatchewan	5,688,118	70,074,144
Alberta	1,874,400	24,789,300
Details	10,193,265	150,928,218
Wheat	5,207,700	208,808,000
Barley	1,107,850	85,440,640
Oats	3,290,000	17,600,000
