Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, dry, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep. I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief, I tried Ayer's Cherry Pectoral. It helped me immediately, and effected a speedy cure.—G. Stoveall, M. D., Carrollten, Miss. Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases.—M. A. Rust, M. D., South Paris, Me. M. A. Rust, M. D., South Paris, Me.

I was attacked, last winter, with a severe
Cold, which, from exposure, grew worse
and finally settled on my Lungs. By
night sweats I was reduced almost to a
skeleton. My Cough was incessant, and I
frequently spit blood. My physician told
me to give up business, or I would not
live a month. After taking various remedies without relief, I was finally

Cured By Using two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.

S. P. Henderson, Saulsburgh, Penn. S. P. Henderson, Sauisburgh, Penn.
For years I was in a decline. I had
weak lungs, and suffered from Bronchitis
and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a
long time comparatively vigorous. In
case of a sudden cold I always resort to
the Pectoral, and find speedy relief.—
Edward E. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he finally prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine a short time, and was cured. this medicine a short time, and was cured.

### A Clock with a History.

Dr. Ed. Swivel, of Huntingdon, is the ossessor of an antique clock which has remarkable history. In 1712 the neestors of Mr. Swivel left Germany modation for a few boarders, male or female. for America, and among their effects was a large old-fashioned clock that was prized highly by them as an heirloom. Before reaching America the vessel on which they had sailed was wrecked, but fortunately no lives were lost. A few weeks after the cargo of the vessel was recovered by wreckers, when the old clock was sent to its proper owners in Pennsylvania. At this time the Indians had become very troublesome in the Cumberland Valley where the Swivels had settled, and the inhabitants of that region were kept in constant dread of

Finally an attack was made on the settlers, many of whom were killed, a as All work guaranteed and Rates reasonable number taken into captivity, and their village destroyed. Among the number taken captive were the Swivels, who were treated barbarously by their dusky captors, but by kind attention shown to the Indians during sickness, were finally liberated, after months of privation and

From the date of this occurrence nothing was heard of the old clock a party of Indians who were trading in the Juniata Valley—where the Swivel family had subsequently moved—ex-changed the old timepiece for ammunition to the very family from which it had been stolen during the Indian raids in the Cumberland Valley .- Harrisburg (Pa.) The moulting season, or the season when ens shed their feathers, will soon be at an end. the process is one that in certain respects de-ilitates and prevents hens from laying. The ason of this is that the growing of new feaths requires all the nitrogen and phosphates ntained in the food and there is none left to contained in the food and there is none left to form the egg. A curious fact about the hen, and one that illustrates the foregoing statement, is this, if a hen's leg be broken during the laying season, she will lay her eggs without shells until the break is mended. The reason for this must be that all the lime contained in the food is required to unite the broken bone, there is therefore none for the formation of egg shells.
