CITY IS LOSING MONEY Lack of Day Off Means the Departure of Dozen Men a Year.

[Canadian Press.]  
Washington, May 13.—That General Huerta, preparing for a crisis in his dictatorship, has long been planning to leave Mexico City with his troops and make a last stand at Puebla, midway between Mexico City and Vera Cruz, was understood today to have been told President Wilson last night by Nelson O'Shaughnessy, former charge of the United States embassy in the Mexican capital.

Eliminate Huerta.  
Washington, May 13.—A startling disclosure in the news of preliminary attempts to compose the Mexican problem appeared to be gradually disappearing today, suggestions of the mediators' tentative plans unofficially were revealed. Disposition of the five South American delegates by Gen. Funston at Vera Cruz for shipping was held in abeyance. An assuring development was the dispatch from Huerta's Foreign Minister, that American Vice-Consul Silliman, at Saltillo, had been released and sent to Mexico City for safe-conduct to Gen. Funston's lines.

A report that the South American envoys tentatively were considering a plan for possible establishment of a form of government to include two administrators to be named by the Federals, two by the Constitutionalists and a fifth by the mediators, attracted some attention and immediately drew from Carranza's agents the declaration that any such proposal would not be acceptable to their chief. One reported detail contemplated the elimination of Huerta.

Rebels Will Object.  
It was understood that the mediators had withdrawn their invitation to the Constitutionalists to join them in the conference, yet they were seeking to learn whether Carranza would agree, in case of Huerta's elimination, to some form of temporary government in which the provisional president would be Carranza, and his successors would have a voice. Neither Secretary Bryan nor the mediators would comment on that today.

However, Carranza's agents were emphatic in their declaration that Carranza would not agree to the elimination of Huerta and of his entire party. Roberto Pesqueira, Carranza's confidential representative, asserted that Carranza had beaten Huerta at every turn, and why should he yield our advantage when we have the reforms for which we strive almost within our grasp? This has been a fight of one hundred years for reform, and we will not be content to have those years of fighting wasted.

Zapata Is In Hand.  
Assertions of the Constitutionalists that there was a understanding between Zapata, the southern insurrection leader, and Carranza, that Zapata would not attempt to enter Mexico City until it had been captured by the Constitutionalists, had a tempering effect on the fear expressed that if the Huerta regime suddenly were to collapse the southern rebels might pillage the capital. The Constitutionalists agents asserted that Zapata had recognized Carranza as his chief, and that there were among his ranks many men from Mexico City who would not countenance pillaging.

The United States mission to the Niagara conference will consult President Wilson and Secretary Bryan about the personnel of the party, which probably will include several members of the staff from the State Department.  
Additional reports from the Tampico battle were received today from Rear-Admiral Badger. It was stated the rebels with their reinforcement of men and arms, were fighting fiercely in an attempt to bring the siege to an end. They appeared to be on the verge of success.

#### THE WEATHER.

TOMORROW—FAIR AND Milder.

Today—Moderate winds, mostly north and west; generally fair; stationary or a little higher temperature today.

Thursday—Fair and milder.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Station	High	Low	Weather
Victoria	70	32	Cloudy
Calgary	60	32	Clear
Winnipeg	60	34	Clear
Port Arthur	58	32	Cloudy
Perry Sound	56	34	Cloudy
Toronto	56	34	Cloudy
Ottawa	56	34	Cloudy

Pressure is now abnormally high in nearly all portions of the continent. High winds are blowing from the west, and the weather has been everywhere fair, in the West somewhat milder.

### WANTS CANADIAN AS GOVERNOR-GENERAL

John Ewart, K. C., However, Has No Objection to Prince Alexander Personally.

[Canadian Press.]  
Ottawa, May 13.—That Canadians should be eligible for any position in Canada, and that the office of Governor-General should be filled by a Canadian, is the conclusion of John Ewart, K. C., author of "The Kingdom Papers," in a statement to the Canadian Press today, ahead of the Prince of Teck's appointment, to which, however, he raises no objections.

"Historically we have never required that the representative of our sovereign should be chosen from among British Commonwealthers, and if there is no reason why our Governor-General should not belong to the nobility, there can be no objection to his having close family connection with our sovereign."

"While we admit the right of every country to confer social distinctions, we believe that the practice is mischievous and injurious, and that it ought, in Canada, to be discontinued. For my own part I feel that there ought to be no position in Canada for which Canadians are not eligible. I go further, and say that such an office as the Governor-Generalship ought to be filled by a Canadian."

#### DEMAND PURE FOOD

Board of Health insists On Knowing Origin of Meat.

The board of health has issued affidavits to all the butchers in London, which must be filled out within seven days, telling where the meat they sell is slaughtered, and where the meat comes from originally. "Unless these regulations are immediately complied with, we will close the butcher stores," declared Dr. F. L. Burdon at the board of health meeting yesterday.

Under the health act, the board of health has the power to prevent the sale of meat unless it is declared to be in a sanitary condition. An inspection of all the slaughter-houses will be made at once.

### Rushed Duke Into Beachville Ditch

People Very Anxious To See Him Did Not Recognize His Highness Walking Along the Road.

[Canadian Press.]  
Hamilton, May 13.—An amusing incident occurred at Beachville when the royal train stopped there for a short time yesterday. His royal highness, accompanied by H. F. Whittenberger, general superintendent of the Grand Trunk at Toronto, was taking a stroll up the street. The residents heard that the train had stopped there, and made a rush for it. They failed to recognize the distinguished visitor and rushed both him and Mr. Whittenberger into a ditch. The duke took it good-naturedly.

### ANGLICANS DISCUSS TO SPEND \$100,000 ON "GOOD ROADS"

Special Deanery Committee Is Appointed to Consider South London Needs.

Women Organize a Deanery Branch of the Women's Auxiliary.

Church extension in South London was discussed this morning at the business session of the East Middlesex Deanery in St. Matthew's Church. Extension of church work in general throughout the district was discussed, and plans formed to look into the matter pertaining to South London specially. Rev. E. Appleby, Very Rev. Dean E. Davis, Canon W. Craig, Rev. C. R. Gurnee, and Rev. Principal C. Waller.

Reports on apportionments, and the use of the duplex envelopes, were also heard.  
Address by Canon Craig.  
Following the holy communion service at the opening of the session, Rev. Canon W. Craig gave an address, speaking from I. Corinthians, x, 31-34: "I speak as to wise men; judge ye what I say. The cup of blessing which we bless, is it not the communion of the blood of Christ? The bread which we break, is it not the communion of the body of Christ? There should be the desire to increase our apportionment of, and devotion to the Sacrament of the Lord's Supper. The sacrament, treating the subject in a general way, chiefly devotional, the session took the form of a general prayer.

After luncheon, the session was explained naturally stand a small chance of landing any of the city paving contracts.

### WOULD STOP UNIONS OF ALCOHOL USERS BY EUGENIC LAW

Medical Officer of Health Declares the Inter-marriage of Drunkards Is Followed by Abnormal Children—Advocates Law for Healthy Offspring.

An ardent advocate of eugenic marriages, Dr. T. V. Hutchinson, medical officer of health, declared this morning in favor of a Dominion marriage law that would prevent marriages of confirmed drunkards, Indian listers, consumptives and the weak-minded.  
Marriages between the last-named class, according to the M. O. H., are fortunately very scarce, but even in rare instances they should not be tolerated.  
Dr. Hutchinson, who has been studying for some time along advanced eugenic lines, declares that the most engaged in eugenic law is the prevention of marriages of men and women who are addicted to the chronic use of alcohol. Such unions, he claims, invariably result in the birth of offspring, characterized by nervous diseases and abnormalities.  
In spite of his advanced views on the necessity of eugenic marriages, the doctor is a trifle doubtful whether or not a movement designed to further the practical application of eugenic principles and doctrines, would be favorably received in London.  
"I do not know whether or not such a movement would be taken up favorably in this city," said Dr. Hutchinson to The Advertiser. "It should be, for in eugenics we have the solution of perfect physique for the coming generation."

### ROSE IS CALM UNDER REDMOND'S SPEECH CROSS-EXAMINATION CAUSES SENSATION

Denies Insinuations Against His Mode of Life During the Past Years and Says He Was Never in Jail.

[Canadian Press.]  
New York, May 13.—"Bald Jack" Rose underwent the ordeal of cross-examination today at the trial of Charles Becker for the murder of Herman Rosenthal. Martin T. Manton, chief of Becker's counsel, began by asking Rose why he changed his name from Rosenzweig to Rose. Rose said he had changed his name 23 years ago. He denied that he had ever been in jail during that time. Manton hurried at him a long list of questions, asked to bring out the questionable life the witness had led. Rose calmly met each implication, denying that he had been associated with women of the streets, that he had been a "steerer" for "Bridge" Webber's opium den.  
Friendly With Rosenthal.  
Manton almost shouted some of his questions, but invariably the bald-headed witness never raised his voice in his replies. Apparently he was as calm as his acquaintance with Rosenthal, he said, dated back twenty-five years. They had been twice associated in business. He denied that they had quarrelled when this business connection was dissolved. It is a contention of the defence that Rosenthal was the victim of a gambler's war.  
Some Discrepancies.  
The witness was closely questioned about a series of newspaper articles on the underworld, for which he was sponsor. Rose said that in them he had mentioned meeting Becker at several places not mentioned in his testimony yesterday. The defence here introduced transcripts of yesterday's testimony, and from the first trial, showing discrepancies in the matter of these meetings. Rose admitted the discrepancies, but did not explain them. In the main, however, the informer's story up to that point was not shaken.

Press Opinions.  
London, May 13.—(Montreal Daily Mail Cable.) The Morning Post insists that the complete and ungrudging exclusion of Ulster forms the only solution. The Post warns Mr. Asquith that his drifting policy is creating a serious situation in Ulster. The Daily Express declares that the inevitable has happened, and that the Government is definitely facing a general election or a civil war.

### WILL START SEWERS EARLY IN JUNE

Construction Will Commence in First Week—Work for Many.

Contractors Must Live Up to Engineer's Specifications.

One hundred thousand dollars will be expended on pavements in London this year.

\$25,000 is now in progress, and tenders have been called for the Worley road pavement, to cost \$35,000. Pavements costing \$40,000 in all will be laid during the summer on Victor street, Howard, Dufferin to Princess avenues, Park avenue and Wellington street, from Queen's to Dufferin avenues, and either Wellington or Waterloo streets, south to Victoria Hospital. The latter pavement is greatly needed, the trip to the hospital over the present dilapidated roads being not only uncomfortable but in many cases dangerous to patients who are seriously ill.

Asphalt pavements with concrete bases will be laid in the majority of cases, although vitrified brick and other pavements will be tried out in various sections of the city. City Engineer Asphalting will not recommend asphalt or bitulithic pavements without the concrete base, and paving companies that will not agree to the specifications of the engineer's department will not be allowed to bid for the work.

Secretary Bryan Demands Inquiry Into Disappearance of Insane Private.

[Canadian Press.]  
Washington, D. C., May 13.—Secretary of War Garrison has directed Gen. Funston at Vera Cruz to ask Gen. Maas, Mexican Federal commander, what has become of Samuel Parks, the United States private, who, while supposedly insane, rode through the Mexican lines, and has not been heard from since. A rigid inquiry has been demanded by Secretary Bryan.

WHERE IS PARKS?

He did not think that he had the property sold to the Government before he bought it from the Racing Association.

He could not remember when he gave options on the property. However, it was shown that he gave the Government an option for \$100,000, which was allowed to lapse. He gave an option to Mr. Cameron for \$100,000, and this was allowed to lapse. He talked with a Mr. Baillie about selling him the land for \$200,000, but there was no offer. Then he closed with the Government and pocketed the money, Mr. Roden thought that he would have bought the land whether he had intended to sell it to the Government or not.

### DEPOSITS \$180,000, BUT FORGETS BANK

W. T. Roden, of Bonny Belair Fame, Unable to Remember Answers to Questions of Committee.

[Special to The Advertiser.]

Ottawa, May 13.—There was a fine, foggy forgetter before the public accounts committee this morning. He was the man who put over the Bonny Belair deal, W. T. Roden, manager of the Standard Securities Company, of Montreal. He handed the Government a race track for a rifle range, and made a profit of \$100,000.

He bought the property for \$85,000, and in just a year had sold it to the Dominion and deposited a check for \$180,000, which he had received from the Government for it. He put the money into a bank, but could not remember into what bank he put it.

# FRAUD AND MISREPRESENTATION IN THE WEST SHORE RAILWAY

Gross Negligence and Calculated Cunning Charged Against  
J. W. Moyes in Railway Board's Finding — Legal  
Proceedings Expected.

[Special to The Advertiser.]

TORONTO, May 12.—In strong language, charging fraud, misrepresentation, gross negligence, shifty evasion, reiterated falsehood, shameless cynicism and calculated cunning, against John W. Moyes, promoter, D. McIntyre, chairman of the Ontario Railway and Motor Board, handed out the finding of that body this afternoon on the investigation into the affairs of the Ontario West Shore Railway. The full weight of the board's finding is directed against Mr. Moyes for his attitude at the inquiry, his failure to give adequate or accurate testimony, and his manipulation of the funds secured from the sale of bonds of the railway company guaranteed by the municipalities of Goderich, Kincardine and Huron.

The tenor of the judgment is no surprise to those who followed Mr. McIntyre's attitude during the course of the investigation, although the comments he makes are probably as strong as have ever been delivered in a judicial pronouncement. This concludes the first inquiry conducted under the special power conferred by the Legislature two years ago, and is an added impetus to the many powers already possessed by the board, which is more easily available than the lengthy procedure required by procuring a royal commission.

It is stated in Toronto that the municipalities affected by the default of the railway and the fraud of Moyes will take legal proceedings against him as soon as the necessary arrangements can be made.

## Findings of the Board.

The summarized conclusion of the board is given as follows:

(a) That John W. Moyes, by the false and fraudulent representation that \$12,500 had been paid into the Dominion Bank, Toronto, on account of the capital stock, procured the Ontario West Shore Railway Company to be permanently organized.

(b) That no permanent capital was contributed to the undertaking beyond the proceeds of the sale of the bonds guaranteed by the applicants, although fifteen of the unguaranteed bonds of a par value of \$15,000 appear to have been taken by the Provincial Steel Company in part payment of rails.

(c) That John W. Moyes, in breach of the Ontario Railway Act, procured a colorable agreement for the construction of the railway, to be entered into between the railway company and the so-called Huron Construction Company, which latter was, in fact, John W. Moyes.

## Engineer Aided Moyes.

(d) That by procuring the issued false and fraudulent progress certificates, John W. Moyes withdrew from the Toronto General Trusts Corporation the proceeds of the sale of the bonds guaranteed by the applicants, amounting with interest to the sum of \$402,837.37, and Vaughan M. Roberts, the railway company's engineer, by his gross negligence and breach of duty, aided and abetted Moyes in his fraudulent design.

(e) That owing to the fact that no books of account of the company's business were kept, and that many vouchers for payments are missing, the board cannot report with exactness how much of the amount so fraudulently withdrawn by Moyes was properly expended. This much is clear, that while several thousands of dollars were applied to purposes foreign to the railway, the sum of \$228,272.06 was properly expended in railway construction and materials.

(f) That the assets of the company consist of the right-of-way (which for

the entire distance, except some twelve parcels, has been acquired), and construction work and material, all according to the corrected valuation of Mr. Middlemist, C. E., is worth \$276,021.21.

(g) That all the liabilities of the company known to the board are the bonds guaranteed by the applicants of a par value of \$400,000, and a parcel of unguaranteed bonds of the par value of \$15,000, both of which are secured by a mortgage on all the company's undertakings, and besides these there are outstanding unsecured accounts amounting to some \$2,000.

**Bonds Guaranteed.**  
The finding itself is a lengthy document, covering twenty-eight typewritten pages, in which the board has prepared a careful and thorough summary of the whole case, commencing from the organization of the railway in 1902 as the Huron, Bruce and Grey Electric Railway Company, and changed the next year to the Ontario West Shore Railway Company.

On a basis of consideration there is a reference to the guarantee of \$400,000 bonds, as follows: Goderich, \$150,000; Kincardine, \$150,000; Ashfield, \$125,000; Township of Huron, \$75,000. The company was given bonding powers of \$15,000 per mile, under which it was estimated \$600,000 bonds would be issued, as was afterwards the case, and a capitalization of \$500,000. The deed of trust and mortgage securing the bonds provided that the trustees should pay out of the funds derived from the sale of the guaranteed bonds two-thirds of the amount of work done and material supplied.

**Payments to Moyes.**

Certificates were issued for an aggregate amount of \$538,548, and upon these the trustees paid over to John W. Moyes, representing the railway company, two-thirds of 90 per cent, namely \$383,969, which exhausted the avails of the guaranteed bonds except \$30.68. The abandonment of the uncompleted line from Goderich to Kincardine, and the default of the railway company to pay interest on the guaranteed bonds brought demands from the shareholders upon the municipalities. These incidents are referred to in passing along with the investigation of W. H. Middlemist, C. E., in the fall of 1912. Allowing five per cent for engineering expenses, fifteen per cent for profit, Mr. Middlemist estimated the value of the work and materials done and furnished at \$305,200. On that basis two-thirds of 90 per cent would be \$183,120, while, in fact, there had been paid to the company \$383,969, or an over-payment of \$200,849.

Discussing the progress of the inquiry the judgment comments on the severe adjustments in 1912, and the subsequent sittings up to the first of the present month. The evidence of the bank and trust company officers is dealt with briefly, the conduct of Mr. Moyes, the judgment proceeds, was procured with some difficulty, and after a long delay. The evidence of H. J. McEwan, secretary of the company, and V. M. Roberts, the engineer, pointed to Mr. Moyes as the custodian of the books and documentary records of the company.

**Board's Comments Severe.**

At this point comments of the board are most severe, and the words of the chairman require no explanation. The hope that Mr. Moyes would assist the inquiry was not realized.

While his memory refused to recall with accuracy individual transactions recorded in the bank ledgers," says Mr. McIntyre, "even the application of a check for so large an amount as \$15,000, the totally unexpected and disconcerting turn which his testimony took when asked to produce the company's books and papers, promised to land the investigation in an impasse from which there seemed no escape. A few excerpts from the notes of evidence will best illustrate this, and show the unsatisfactory character of

Moyes' testimony, which throughout was characterized by shifty evasion, and a subsequent development proved, by bold, reiterated falsehoods."

After citing some pertinent portions of Moyes' testimony, Mr. McIntyre refers to his attempt to evade responsibility for the disappearance of the books and papers of the company by declaring that he delivered them into the custody of Mr. Smoke, vice-president of the company, who died on May 21, 1913. A search revealed none of the papers in possession of Mr. Smoke's executors or of the members of his firm. All members found there were the minute books and papers covering the formal organization of the company, but no trace of anything connected with the disbursements of \$400,000.

**An Infamous Fabrication.**

Here the judgment proceeds: "The board's inquiry had been piloted in this cul-de-sac by Moyes, and there is no doubt he intended it should end. And yet, as afterwards appeared, this story so solemnly affirmed and reaffirmed by Moyes, was an infamous fabrication. Dead men tell no tales; and appreciating this, with shameless cynicism and calculated cunning, Moyes sought to unload upon the dead vice-president, Mr. Smoke, the vanished books and papers, with all the odium attaching to their disappearance."

Referring to the examination by A. C. Neff, chartered accountant, after the discovery of the trunk of papers last January, it is shown that no systematic record of the company's business had been kept. "This amazing fact is all the more incredible when it is borne in mind that during the years 1909, 1910 and part of the year 1911 the major part of the work of construction was carried on by the company and the cash disbursements had amounted to \$357,959. Yet during this period of three years, not a single entry was made in the books of the company to show what was being done with this large sum of money. Mr. Neff's difficulties were further increased by the confusion and uncertainty arising from the fact that Moyes had opened eight separate bank accounts—some at Toronto and others at Goderich—no less than five being in his own name—to each of which some part of the railway company's money was traced."

**Thousands Unaccounted For.**

From the ledger leaves of these bank accounts, along with vouchers, cheques and payrolls, Mr. Neff sought to make out a book of accounts, which as far as possible, with a properly conducted company, would have been the subject of a daily contemporaneous record. "Evil chance is still wanting of the destination and legitimate disbursement of many thousands of dollars."

The sitting on May 1 was arranged to enable Mr. Moyes to have an opportunity for further explanation, his counsel having stated that he would attend. His failure to do so on the pretext of ill-health leads to the conclusion that he never showed any disposition to assist the board in the inquiry.

**False Statement.**

The detailed summary of the salient facts of the case, the situation is discussed under seven headings. With regard to the organization of the company, it is known that Moyes' statement that \$12,500, representing 10 per cent of the \$125,000 of subscribed stock, had been procured from Mr. Smoke and deposited in the Dominion Bank to the credit of the railway company in accordance with the provisions of the act, was false. The deposit was secured through a manipulation of Mr. Pattinson's cheque. "Apparently," says Mr. Neff, "no permanent capital whatever has been furnished, outside of the proceeds of the guaranteed bonds."

**Huron Construction Company.**

Dealing with the arrangements for construction of the railway, the finding declared that the terms of the contract between the Huron Construction Company and the Ontario West Shore Railway Company were that the contractor should receive the stock and bonds of the railway company, nominally a consideration of \$1,100,000. "Owing to the evasive and untruthful answers of Moyes, much confusion arose in the early stages of the inquiry, and before possession was had of the books and papers, as to the identity of the Huron Construction Company. Notwithstanding Mr. Moyes' denial, it is shown that the Huron Construction Company, Limited, was incorporated by Mr. Road, under instructions from Moyes, although this company never got beyond the stage of provisional organization. The Huron Construction Company was not incorporated, and was really Moyes," says the board. "He was the sole initiating, efficient actor throughout, the others appearing, Roberts, the

engineer; MacEwen, the secretary, and Pattinson, the accommodating broker, being admittedly mere agents, moved by him and doing his will."

The finding then goes on to declare that under section 16 of the railway act, 1906, "no director or promoter of the company shall enter into or be directly or indirectly interested or concerned in or participate in the profit of any contract with the company not relating to the purchase of land necessary for the railway, nor become a partner of any contractor with the company."

**Breach of Railway Act.**

"It thus appears that the contract made by the Huron Construction Company, which was John W. Moyes, with the Ontario West Shore Railway Company, controlled by John W. Moyes, was in breach of the express terms of the railway act. In support of this it is shown that Moyes owned \$121,000 of the \$125,000 subscribed stock of the railway company."

Mr. Roberts, engineer, in issuing the certificates as he did, "failed grievously in his duty as certifying engineer." "This means that Roberts, under instructions from Moyes, adopted the contract price as the basis of the progress estimates and not the value of the service or materials done or supplied in the construction of the railway, which was the true basis as laid down in the trust deed. The application of such an erroneous method might explain, but could never justify, a result of which work and materials appraised by Mr. Middlemist at \$305,200 were certified to be of a value of \$353,910."

**Moyes' Financial Necessities.**

"In a word, the financial necessities of Moyes, not the deserts of the company, determined the quantum of his demand."

Continuing, the judgment adds that Mr. MacEwan's statement of the amount spent out of the funds of the company approximates Mr. Neff's estimates. To Mr. MacEwan's knowledge, the payments amounted to \$228,272, which leaves to be accounted for \$174,555. "And the board places the burden of accounting for this where it properly belongs, upon the shoulders of John W. Moyes. This burden he has so far signally failed to discharge. How much of this large balance was legitimately applied to the purpose of the railway the board is unable to say from the material at its command."

**Securities Held by Moyes.**

As to the securities of the company, the investigation has demonstrated to the belief of the board, that \$165,000 of an issue of \$200,000 of unsecured bonds are in the possession of Moyes, to which, under the law, he cannot make title. The visible assets of the company at the present time are shown to be \$276,021, made up of right-of-way work done and material supplied, engineering, etc. The liabilities to the public, which of course do not include the \$200,000 of unsecured bonds, are placed at \$147,000. Stock to Moyes and his associates and \$270,000 to the Huron Construction Company, but the report states "it is clear that no real ability exists to pay the debt."

**May Prosecute Moyes.**

Wm. Proudfoot, K. C., M. P. P., who was counsel for the township of Ashfield at the investigation, when interviewed by "The Advertiser" recently expressed by the corporation is that as soon as the report is issued, it would be placed in the hands of the Attorney-General. "The opinion is that the matter was of such public interest to the Province that it should be taken hold of and Moyes prosecuted by the department."

When asked about the whereabouts of Mr. Moyes, Mr. T. Herbert Lemoine, K. C., who appeared on his behalf before the board, said last night: "The last I knew of Mr. Moyes was that he had gone to Quebec, P. Q., since then I have heard nothing."

## CANADA WILL NOT HELP SUPPORT NAVY TO FIGHT ULSSTER

Says A. H. Musgrove, M. P., in  
Speech at Clinton—Dodges  
the Liquor Question, but  
Touches Bilingual.

[Special to The Advertiser.]

CLINTON, May 12.—"If England opens any fight in Ulster, then Canada's interest in England will very suddenly change. The thing is absolutely sure, there will be no Canadian contribution towards an English navy."

Such was the declaration of A. H. Musgrove, of Wingham, Conservative member for North Huron, at a big "at home" held under the auspices of the local Orangemen here this evening.

He gave it as his opinion that the British Parliament should not take any steps to force anything on the people of Ulster that they did not want.

**Avoids Temperance Issue.**

While most carefully avoiding any reference to the temperance issue which is the talk of all Huron since Mr. Hanna's recent breach of faith, Mr. Musgrove touched upon the bilingual question. He declared that while under the Dominion statutes the French language has a status under the provincial law it has none. What the French people really want, he said, is to have their language taught. "What the law desired, said Mr. Musgrove, is that every student on leaving the public school should have a working knowledge of English. This many of the French people did not favor."

**Law To Be Amended.**

"The Government," he said, "proposes to amend the law shortly so that in schools where English is not being taught as it is thought it should be, the grant will be withheld."

Mr. Musgrove also mentioned the temperance decree, stating that in his opinion marriage should be a civil rite which could not be set aside by any church or sect, but only by the Government.

In speaking of the Orange Order he mentioned that 23 Orangemen are members of the Ontario House.

**CAPTAIN ROBERTSON**

**ARRIVES AT GODERICH**

Asks That He Be Allowed To Charter a Tug To Search For Vessels.

[Special to The Advertiser.]

GODERICH, May 12.—Captain Robertson, of the Government cruiser Vigilant, arrived here today, and it is understood that a thorough search will be made shortly, with a view of locating any of the vessels lost in the recent storms, which may be in this vicinity.

Captain Robertson tonight wired to headquarters asking that he be allowed to charter a tug suitable for the work, or that the Vigilant be sent.

The keenest interest is being taken in the matter all through this district, and many mariners are confident that one or more of the missing lake freighters will be discovered.

## BLVTH INSTITUTE IS MAKING FINE PROGRESS

[Special to The Advertiser.]

BLVTH, May 12.—At the annual meeting of the Women's Institute, held at the house of Mrs. John Emigh, gratifying reports were received.

This society was organized four years ago with but a few members, but has been steadily increasing in popularity and in membership.

During the past year twelve meetings have been held, with an average attendance of fifty. Many subjects of interest to the home-maker have been discussed, subjects both practical and ethical, and altogether 27 addresses have been given.

During the year the total receipts

have amounted to \$129.90, the expenditures \$91.46, leaving a balance in the treasury of \$38.44. The members of the institute have taken an interest in local affairs.

The society gave liberal prizes at the fall fair, aided local charity and allows \$1 each month for flowers to the sick.

The officers elected for the coming year are: President, Mrs. H. Gardiner; first vice-president, Mrs. R. Richmond; second vice-president, Mrs. C. H. Beese; third vice-president, Mrs. Duncan Laidlaw; secretary-treasurer, Mrs. R. Wightman; assistant secretary, Miss Odell; press correspondent, Mrs. E. Bender; representatives to district meeting, Mrs. Bender, Mrs. Gidley, Mrs. Cockertine, Mrs. Gardiner and Wightman; district directors, Miss Gardiner; board of directors, Mrs. H.

Young, Mrs. J. Hoss, Mrs. J. Carter, Mrs. Pratt and the officers.

## ASK BOARD TO TAKE OVER CATHOLIC SCHOOL

Winnipeg, Man., May 13.—New developments in Manitoba's school controversy seem likely to be the result of a letter from the trustees of St. Mary's Catholic school to the Winnipeg Public School Board. It formally requests the school board to take charge of St. Mary's school and manage it under the terms of the public school act. The chairman was empowered to choose a committee to go into the matter. No intimation was given at the meeting as to what the decision will be.

## An Author's Experience WITH DR. CHASE'S NERVE FOOD

Shock and Overwork caused Nervous Breakdown—Never found anything to compare with Dr. Chase's Nerve Food as a Restorative.

Miss Innes is widely known in New York, Toronto and other large centres as a Teacher of Dressmaking and as author of the most complete work on this subject: "Scientific Dressmaking and Millinery." This book has been ordered by the government for use in Women's Institutes throughout this province, and is being put into practically all Public Libraries. The experience which Miss Innes has had with Dr. Chase's Nerve Food is told in such an interesting manner in her letter that we shall quote it in full.

MISS I. INNES

Miss I. Innes, 245 Huron St., Toronto, writes:—"I have a strong constitution and do not neglect the health as many do whose strenuous lives of overwork lead to breakdown of the nervous system. Consequently when, on receipt of a telegram announcing the death of a brother who was very dear to me, the nerves failed me, I went to my doctor and his prescription acted beautifully and restored the nervous system for a time. Again in New York I felt the need of a tonic and had the doctor's prescription filled but to no avail, and just here I want to emphasize the necessity of going to a reliable druggist who you know will use only the best and purest drugs. I was benefitted to some extent by trying a prescription which is used extensively by stock brokers on Wall Street, where fortunes are made and lost in a day, and the nerves give way under the enormous strain."

This helped me but I am writing this letter to say that nothing I used could for a moment be compared to Dr. Chase's Nerve Food. This treatment restored my exhausted nerves, gave me new vigor and energy, and banished the many distressing and disheartening symptoms which only nervous people will understand.

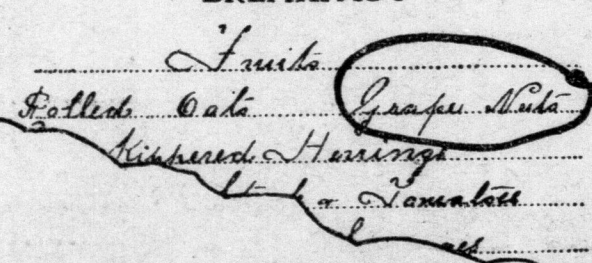

I know there are authors, journalists and business men with whom I come in contact daily who should know about this great nerve restorative. I know there are women in the home straining the last nerve to make the best use of the income in these times of high prices and whose nerve cells have been sapped by worry and anxiety until they live in misery and do not understand the reason. It is because I know this that I want to tell these nervous, worn out people about Dr. Chase's Nerve Food. From my own experience I know just how they feel and just as certainly know that Dr. Chase's Nerve Food will prove a wonderful blessing to them."

## BE READY.

IT is well for the Liberals of Western Ontario to have a keen eye for trickery in connection with the announcing of the provincial election date. In all of the newspapers possessing the confidence of the Government, there have been announcements purporting to be official that the next election will be held in June.

It may be that the disturbance known to exist in the Ontario cabinet has held up the matter indefinitely, but it is just as wise to be prepared as to read dispatches of postponement with too great faith. The election is a "flash" contest at best. There was no logical reason for an appeal to the people, unless it is because Sir James Whitney is disgusted with Hanna incidents and the conduct of the session from which he was absent, and wishes to test public confidence before faith in the old Premier's works has been shattered. So that if the election is for the sole purpose of putting the Liberals further from power than at present, the bringing on of the election itself will not be the only advantage the Conservatives will seek to take. They will stoop to any chicanery in the fixing of the date. They will "spring" the election after putting the Liberals off their guard, if possible. But the Liberals may be "foolish, like the fox." They are preparing for elections at the present time. Every wing of the organization should be marshalled into fighting strength as quickly as possible. Let the mediation and the mediation belong to the Conservatives. Candidates and the strength of good support are what the Liberals most need. A convention within the next two weeks will put spirit into the Ontario leader and the party as a whole.

## THANKS TO NICKLE!

THE Conservative Government at Ottawa has taken back all it said or insinuated about Mr. Fielding and the Farmers' Bank. When the debate was on in the House, W. F. Nickle, Conservative M. P., won the respect of Liberals when he refused to allow Hon. Mr. White to imply that the former Minister of Finance had been responsible for the crash that came as a climax to the bank's muddled internal affairs.

Mr. Nickle said he could not indorse the argument of the Finance Minister in charging the failure to the negligence of the treasury board. Sir William Meredith, who investigated the bank's affairs, had made it clear that this was not the case.

Mr. Nickle having challenged the Finance Minister to state that he meant that Mr. Fielding had been responsible, Mr. White refused to take the responsibility. The incident is closed.

## PROHIBITION AND PARTIZANSHIP.

THE Canadian Courier, a non-party paper, and usually fair-minded, is scarcely just to Mr. Rowell and the Liberal party in its references to their temperance policy. The circumstance of the case do not authorize the statement that the advanced reforms advocated were adopted "more as a matter of politics than of principle." There has always been an influential section of the Liberal party in favor of temperance. All restrictive legislation heretofore enacted has come from the Liberal party. The Canada Temperance Act and the Ontario License Act came from the Liberals. As the temperance element in the party has grown stronger, it has insisted on more advanced legislation. The present policy of the party was adopted because this element had become strong enough to control the party. Mr. Rowell was chosen as leader because it was felt that he was in sympathy with the views of the dominant section of the party, and he would not have accepted the position unless he felt the party was prepared to go as far as he was himself. Unless both Mr. Rowell and the majority of the party were ready to take their stand on this platform as a matter of principle, altogether apart from politics, they would not have risked losing a powerful support with the very uncertain prospect of anything in its place.

The Courier takes the ground that prohibition should not be mixed up with politics, that the cause of temperance can only suffer thereby. The basis for this statement is that if one political party adopts a policy of prohibition, or of "banish the bar," then the other party will be organized to oppose it. As a general principle there is doubtless some truth in it. Let any party advocate a radical measure of any kind, and we may expect the other party to oppose it. Even where two parties unite for a time on some great measure like the Canadian naval policy one party will sink out of the alliance and swallow itself, so to speak, if there is a prospect of party advantage to be gained thereby. But the circumstances are different with the temperance policy of the Liberals. In introducing it Mr. Rowell offered it to the Government. He was willing that Sir James should take it up, and

get all the party advantages he could out of it. The Liberals were ready to take second place and support the Government in its most advanced temperance legislation. The offer has been repeated. Mr. Rowell is quite willing for the Government to go further than he is going, and will support any measures more radical than his own. If his "banish the bar" policy is confined to the one party it is simply because the other refuses to take it up. If it is a party question today it is simply because the Conservative leaders have made it so. Public sentiment is in favor of it. There is no need for it to be a party question at all. There are numbers of Conservatives who want the Government to adopt it. With the active assistance of the Liberals, the ministers could carry this measure through the Assembly with an almost unanimous vote; and they might sweep the country at a general election on such a platform in spite of their record of neglect and incompetence in other matters. But they apparently dare not do it. There is a powerful element among their supporters that they dare not antagonize, or that they do not wish to antagonize. So they insist on making temperance legislation a party question, and try to postpone reforms that the people demand. But neither Mr. Rowell nor the Liberals should be blamed for a condition of affairs which they cannot prevent. The remedy for it lies with the Government.

## MAGIC AND SCIENCE.

DR. FRAZER'S "Golden Bough" is now out in twelve volumes as compared with the two volumes of the first edition. This Bough keeps on branching all the author's life. It is a remarkable study of the subject of magic and savage religion.

Magic, Dr. Frazer shows, is the barbarian's system of controlling nature, especially the weather or health and disease. The medicineman is thoroughly aware of nature as an organism of cause and effect, and he thinks he can secure any desired effect by a childish imitation of the cause and the utterance of certain words therat.

Modern science also tries to control nature and successfully, but it does not compel nature's secrets by spells and prayers. Signs and passwords, forms and ceremonies, are dead for modern science. A doctor's prescription does not vary according to the moon or in its effects, according to the potency of the words pronounced over it, although Latin is the language still in use. It is not the manner of doing a thing but what to do that modern science considers, not an imitation of a cause, but the production of the cause. As Dr. Frazer says, the history of magic is a "melancholy record of human error and folly," but it leads after all through astrology and alchemy to modern science.

And our team was just itching to wallop Ottawa!

Will somebody please mediate between the weather and the baseball schedule? This is the 'tenth day since Mr. Hanna has failed to explain the Huron license fiasco.

Leamington has five fat men who average 319 pounds. From all one hears of that district, there are heavy men in more ways than one there.

A New Jersey man, who lost both his arms in a railway accident, was allowed damages of \$75,000. And to think he won't be able to handle it.

The apology of a stranger in New York revealed a long lost brother who was worth several millions. Truly a case of where it paid to be polite.

A lot of people will be of the opinion that in shrieking at a grand opera performance those militant suffragettes were "carrying coals to Newcastle."

Now that the worst is out about Mr. Moyes, what do Huron investors think of the Government that opened the cage and let the promoter fly away?

It would be the gentlemanly thing if Huerta would just step back for a few days, and give Sir Edward Carson the spotlight. Ulster needs it badly.

Competition is the greatest rattler of dry newspaper bones in the world. That's why Montreal wants to take the monopoly of the evening field away from the Graham crowd.

Wilson and Asquith both took the same, mild attitude to great questions. Yet no one has been heard to accuse either one of weakness. And when they are forced to act, these sort of men act decisively.

The Canadian Clubs throughout the country are about the one national chain of organizations controlled by men which has remained above politics. In London it has been refreshing to see the old ideas torn down. Many men may have quailed, but the midday luncheon provides a platform from which any cause, however radical, may be expounded. And a great many of our most practical summaries are heard at these gatherings. Not only should the clubs in existence be encouraged, but every town of size in Western Ontario should have one.

## ONE EXPLANATION.

[New York World.]  
 Another case of cognac must have arrived in Mexico City, for Gen. Huerta has appointed commissioners to meet the mediators and is otherwise exhibiting an intention to sit in the game.

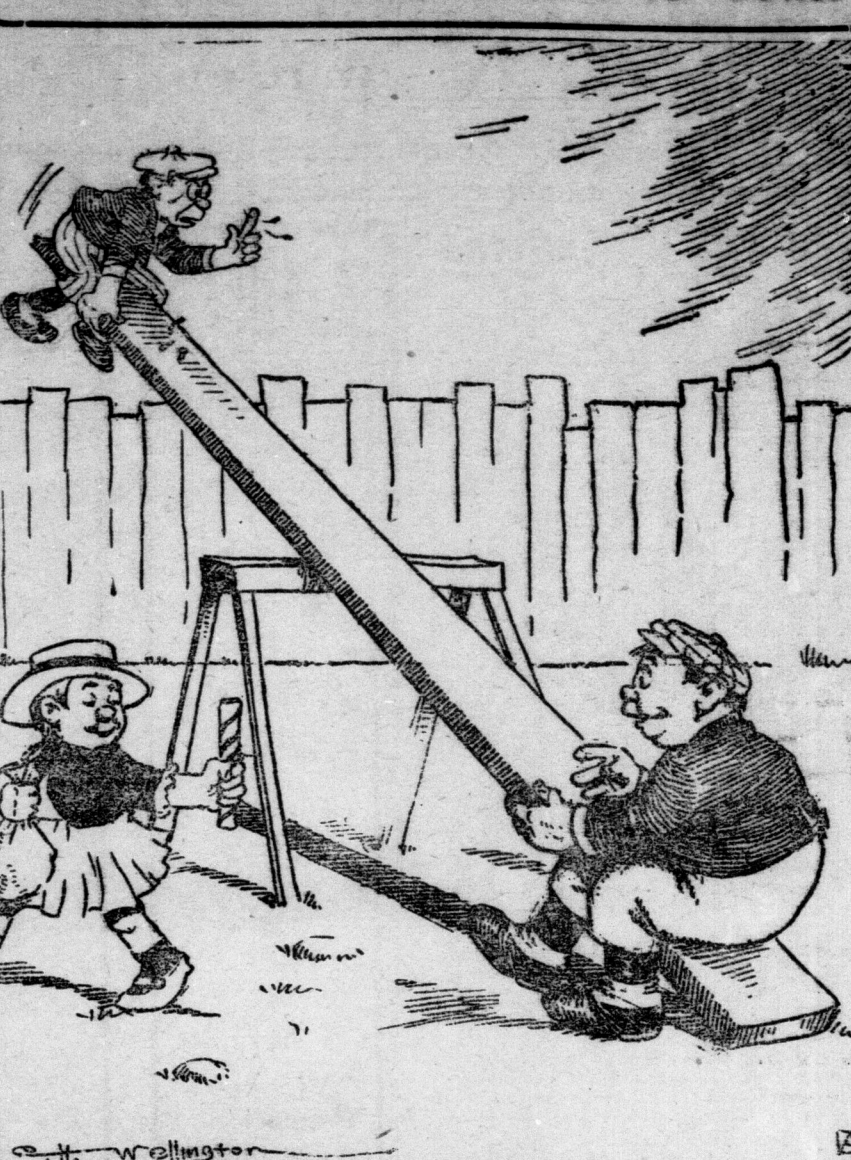

## YES.

[New York World.]  
 The "refugee" from Mexico who is rescued at great public expense and then insists upon returning to the stricken fields should be dismissed with a warning and a blessing. Probably he needs both.

## ENTERPRISING.

[Washington Star.]  
 "You want my consent to marry my daughter?" said Mr. Cumrox.  
 "Do," replied the young man.  
 "But my daughter says she wouldn't think of marrying you."  
 "Still your consent would be a good recommendation for me with some other family."

### GOD REMEMBERS WHEN ALL THE WORLD FORGETS.

How many gardens in this world of ours  
 Hold blossoms that have never come to flowers?  
 A sudden wind comes coldly by—  
 The rose tree bids its fairest bud  
 Good-bye.

How many ships of ours go out to sea  
 In search of havens that shall tranquil be?  
 The storms of fate their fairest hopes o'er  
 set,  
 And there is naught to do except—forget.

How many wear a smile upon their face,  
 Although their hearts may hold an empty place?  
 None know the heights nor depths of their regrets,  
 But God remembers when the world forgets.

[Galt Reporter.]  
 The old English adage, "A penny saved is a penny gained," is very true. When the pinch comes and a man needs a little extra cash the best haven is the bank account. Such philosophy cannot be gainsaid.

### Voice Of The People

**A Veteran's Widow's Plea.**  
 To the Editor of The Advertiser:  
 "Fenian Raid Bounty" was the heading of an item in The Weekly Western Advertiser of recent date.

My attention was called to this article, as I am a veteran's widow. My husband served in the Canadian militia for five years, and was at the front in all Fenian activities, except the Fort Erie incident. What I want to know is how can the Government or the Veterans' Association ignore my rights, or both together conspire to keep the widows of veterans who died before 1895 out of the grants? I beg you to put this article in print in hopes that someone may be high-minded enough to see my point of view.

In the year 1906 I was in Colorado with a sick daughter of this veteran, and my attention was called to the fact that the time for application for the widows' land grants would soon expire. I could not return at that time. My sister got an application blank from the Windsor Association and took it in person to Sarnia. Petrol and Oil Springs to have the living witness of two or more who were in the company. My son verified this, and it was forwarded to the Minister of Militia, and by return of mail the reply

came: "Your husband died too soon." Not in these words, but the meaning was the same. My husband was killed in a railway accident December 24, 1897, so that by his death in 1897 I was not eligible.

All widows whose husbands died after 1893 received the land grant. I am personally acquainted with some whose husbands never did anything but enlist, and kindly lived until 1893. They were not questioned, but given the land grant.

Farther, I will say that when I heard that the living veterans were again going before Parliament for another grant, I appealed to a prominent member of the Windsor association to insert a clause to ask for the widows also. I showed him how shamefully I had been treated. He very forcibly told me it might reduce their chances, and, of course, so to speak, "we will get all we can—and never mind the widows and orphans. Let them take care of themselves." So he never lifted his hand to help me, and has been in a good Government position long and steadily, and of a certainty he and his are provided for.

I will not mention his name, but at any time anyone is welcome to it. It seems that at last—by the words in this article—that someone has arrived at the conclusion that it was a strange process to leave the widows of early date out. Where under the British flag were there ever such discrimination?

My husband served, and is dead. I want my land. I also want, if the widows are granted the sum of \$100, to get that also, if I am an old widow. I want a special act passed to enable me at this late date to get a good tract of land worth my waiting for. There are others in my class. Give us all a fair chance. I hope the Hon. Mr. Hughes is broad enough to see our point of view, and once for all clear up this petty handling out a sop to first one and then another, and leave out the most deserving—the old widow.

ISABELLA ROLSTON (widow of Thomas Rolston), 210 John R. Street, Detroit, Mich.

### Complaints of Mail Service.

To the Editor of The Advertiser:  
 It is a well-known saying that the world is growing weaker and wiser, but in regard to that portion of the Government that regulates our mail system, the word "wiser" might as well be struck out, or a more appropriate word substituted. Morpeth is only a tiny village in West Kent, five miles from a railway station, but it is the postoffice centre of one of the richest farming districts in "The Garden of Canada," and many of its progressive farmers with telephones and automobiles have been largely assisted by The Daily Advertiser bringing to their preside the markets and news of the outside world "hot from the wire." A year ago by taking a little trip to the postoffice, which most of the men enjoyed, we received most of our letters—and best of all—our Daily Advertiser, the same day it was mailed, and when an accident happened down in our corner of the world in the morning, and we found it printed in our evening paper it gave us a pleasant confidence that we were getting our news while it was fresh. But many changes have taken place, each one for the worse, till we feel that one more change will reduce us to the necessity of hiding in some of our ravines and robbing the rural mail in order to get our mail even the same week it is mailed. First, the stage that for over fifty years carried the mail between Thamesville and Morpeth, taking in Ridgeway, and bringing our mail in the evening, was laid aside, and our mail now comes over from Ridgeway about noon with the rural mail, so, of course, all mail arriving in Ridgeway after noon of one day does not arrive in Morpeth until noon of the next day. Also most of our letters which are posted here before noon one day only get as far as Ridgeway that day, making the mails each way one day late. Now, we have a new change. This is a rural mail route that takes the mail from Morpeth out through the southern portion of the district, which might be an advantage for the farmers and fishermen only for the fact that although two mails arrive in Morpeth, one from Blenheim and one from Ridgeway, and only the matter of an hour apart, the new rural mail is not required to wait for the second—and if anything more important—mail. Therefore, farmers on the route must still make their daily trip to the office or half their mail is two days late instead of one as formerly. Well, maybe women are not considered capable of taking a hand in the affairs of the country, even so far as registering their opinion of whistles at the polls. She will never be given the chance, for fear she might upset the good man's glass of beer, but she can sit back and smile at the way the men run the country, and say "I told you so."

### WOMEN'S CANADIAN CLUB TO GIVE PRIZES.

Empire Day will be celebrated in the schools of London on Friday, May 22nd, and as has been the custom in other years the Women's Canadian Club is donating a number of book prizes to pupils writing the best essays on subjects typically Canadian. Awards will be given in thirty schools, including public, private and separate institutions.

The subjects for the essays this year are, senior grades, "The Hundred Years of Peace Between Canada and the United States"; "One Hundred Years of Canadian Progress"; and "Empire Builders—Lord Strathcona." In the junior grades the competitors will write on one of the following: "Christopher Columbus," "Champlain" or "Frontenac."

On May 22nd the various schools will be visited by members of the Women's Canadian Club, who will attend the patriotic sessions, and award the prizes to the successful essayists.

### W. M. S. CONVENTION.

On Tuesday next the London Conference branch of the Women's Missionary Society will convene in Dundas Centre Methodist Church. Delegates will be present from many parts in this district. It is expected that Miss Morgan, missionary home on furlough from Japan, will be among the speakers. The session will last until Thursday.

### Woolnough Corsets

Admiration has been freely expressed over our beautiful spring models. We point out the desirability of being fitted with a pair before deciding on your spring gown. One of our most popular models gives the desired uncorseted effect—low bust, long hips and sweeping lines. Almost entirely free from boning, this model is of exceptionally graceful contour.

Tailored-to-Order Corsets, \$6.00, \$10.00, \$15.00 to \$30.00.

Tailored Ready-to-Wear Corsets, 98c, \$1.55, \$2.50 to \$12.50.

One of our experts from Toronto is at present in London assisting Miss Quinn, and we especially invite you to our daily demonstration during her visit.

## THE CARE OF THE BABY

BY KATHARINE McFARLAND.

### PART TWO—BATHING.

A baby should have a tub bath every day after it is two weeks old. By that time the navel should be healed. Never bathe a child sooner than one hour after it has been fed. A foot tub makes a good bath for baby. It should never be used for any other purpose.

Use a soft piece of old linen to wash the face and a small soft sponge for the head and limbs. Be very careful to wash every part thoroughly and dry well; if you do not, chafing will result.

Use old soft towels which have been boiled and aired in the sun. Never under any consideration use sponge, cloth, or towel that is used by any one else, as infection might result.

Use a little pure uncolored soap and be careful not to get any in the eyes.

**Temperature For Bath.**  
The temperature for the water should be 100 degrees Fahrenheit during the first month, 98 until the sixth month, 95 until one year and a half and 93 to 95 after that.

Never test the water with the hand, as water which would feel quite comfortable would be much too hot for the baby's tender skin. If you do not happen to have a floating bath thermometer (and few private homes have) test with the bare elbow, as this is more sensitive to heat. The roll call will be answered by paying the yearly dues.

Warm the room to 70 degrees and have all doors and windows closed. Be sure there is no draught. A screen is very convenient, a clothes-horse covered with a blanket is as good as any.

Before taking baby up have everything needed by your side on a low table or chair, needle and thread, powder, safety pins, bottle acid, small pieces of cheese cloth and all the clean clothing you need.

Set the tub on a low bench in front of your chair. If baby is big enough to sit up and splash the small tub may be put inside a larger one.

Lay a flannel blanket across the knees; then over that a large soft bath towel. Undress baby and roll him in the towel, keeping his head covered until the head, face and ears are thoroughly washed and dried. Be particularly careful in washing and drying the ears and the creases behind the neck.

Next unwrap baby and support his head and shoulders with your left hand; hold his feet in the right and gradually lower into the water. If the water has cooled a little while waiting have added a little hot water before putting the little one in. Rinse him quickly and well with the right hand. Then lift out and wrap in flannel blanket, only exposing the limbs as you pat them with the soft towels.

Sprinkle a little good talcum powder in all creases, especially under the arms and around the buttocks.

Always dress as quickly as possible, slipping the clothes on over the feet. Wash the mouth with boracic water, one half teaspoon to a cup of warm hard water. Boric acid can be bought at any druggist's at five cents a package, and is very good as a wash for baby's mouth.

**Songs We Used to Whistle and Sing**

ROCKED IN THE CRADLE OF THE DEEP.

Rocked in the cradle of the deep,  
I lay me down in peace to sleep;  
Secure I rest upon the wave,  
For Thou, O Lord, hast power to save.

I know Thou wilt not slight my call,  
For Thou dost mark the sparrow's fall;  
And calm and peaceful is my sleep,  
Rocked in the cradle of the deep.

And such the trust that still were mine,  
Thou stormy winds sweep o'er the brine,  
Or tho' the tempest's fiery breath,  
Rouse me from sleep to wreck and death—

In ocean cave still safe with Thee,  
The germ of immortality,  
And calm and peaceful is my sleep,  
Rocked in the cradle of the deep.

**THE HOROSCOPE**

Thursday, May 14, 1914.

"Good influences predominate today, according to the reading of astrologers, for Mercury, Jupiter and Venus are in benefic aspect, while Neptune alone is adverse."

This time is most auspicious for putting through enterprises involving the co-operation of governments of large corporations.

Men with heavy responsibilities are especially favored under this configuration, for the sun and Jupiter give them aid. An excess of energy and confidence should help them to prosper.

**WOES OF MRS. NEWLYWED**

"Can you tell me how to make a nice icing for a cake?" asked Mrs. Newlywed.

"A very delicious icing is made with one and one-half pounds of icing sugar, three whites of eggs and the juice of a lemon. Beat thoroughly and beat hard for half an hour," directed Mrs. Neighbor.

**RE MODEL SCHOOLS.**

Dear Miss Grey: Will you please tell me where the Model Schools of Ontario are situated? For how many years have they been in existence? Is it valid anywhere in the province?

**SCHOOL GIRL.**

A.—For a full list of the Model Schools write to Dr. Colquhoun, Department of Education, Toronto. The schools nearest to London are situated at Chatham and Guelph.

2. Five years.

3. There are certain restrictions as to where a Model School graduate may teach. I believe that Normal graduates have the preference in case both apply for the same school. I don't just understand it, but I feel certain that if you write Dr. Colquhoun he will be able to give you complete information.

**THE HOME DRESSMAKER.**

Keep a supply of extra bobbins for your sewing machine. They are not expensive and by winding them beforehand when sewing is contemplated interruptions in the work are prevented. Fill them with white and black cotton of numbers most used and white and black silk. A convenient rack for keeping bobbins so that the thread may be numbered may be made from a small block of wood with parallel grooves, each groove made to hold one bobbin, and numbered with the size of its thread. If for cotton bobbins, a strip of wood with nails driven into it so as to stand up will answer the purpose, and each nail may be numbered at its base with the size of thread that its bobbin is to carry.

**SPANISH STEAK.**

Pound one-half cup of flour with a half teaspoon of salt into an inch thick, medium sized round steak.

Slice one onion, seed and chop two green peppers, one clove of garlic, cut in three pieces, peel and slice six large tomatoes. Put into skillet with two tablespoons of butter. Allow to cook slowly until it forms thick sauce. Turn sauce into bowl. Put tablespoons of butter into skillet. Heat hot. Put in steak. Turn several times to sear. When steak is brown add sauce. Cover and simmer forty minutes. Do not allow the sauce to cook brown; add a little stock of water as needed. Serve steak and sauce in centre of platter with border of cooked rice with dash of curry powder.

**CHILI, CHICKEN AND RICE.**

Joint two chickens, boil in three quarts of water with salt to taste until very tender. There should be two quarts of stock left. Take out one pint. Boil three pints of rice in two-thirds cup of rice. Boil ten minutes and add three chopped chilis that have been put in oven until skin can be removed. Boil ten minutes longer. Stir into rice and chili two tablespoons of butter. Put layer of one-third rice in bottom of shallow pan, then layer of half-boned chicken. Alternate rice and chicken, having rice on top. Beat the yolks of three eggs into the pint of cool broth, pour over rice, sprinkle with few breadcrumbs and bits of butter. Set in oven to brown. Serve very hot.

## NO GAME PLAYED YESTERDAY ONE WILL BE PLAYED TODAY

Canadian League Contests All Over Circuit Again Delayed  
by Rain and Cold—Weather Is More Promising for Today.

BY BERT PERRY.  
The weatherman is not out of the woods yet. The row of figures representing little drops of water that have been falling in this section of Ontario almost continually for the past thirty-six hours. It was impossible for London and Ottawa to stage a game at Tecumseh Park yesterday without the aid of diving suits, and not having enough of these uniforms to go around, Managers Reising and Shaughnessy were forced to postpone their little differences until the surface of the diamond once again shows itself up into the sunlight and sheds the miniature lake which buried it.

**Wearing Out the Cushions.**  
And all this time, the players of both teams have been impatiently lounging around the hotel wearing out the leather covering on the upholstered chairs, and trying to keep a cheerful and pleasant look. About the only game is pitching to the cuspidors and running up and down in the elevator.

**Delay Is Painful.**  
Both managers are fretting over the delay. The rain has cooled the atmosphere until it is decidedly uncomfortable to go out without an overcoat, and as a consequence both teams are in danger of having some of their players laid up with sore arms and stiff joints. The weather is exceptional for London at this time of the year. It is the first time in the history of the local club that such conditions have existed and the local owners will drop a bunch of coins as a reward for the delay. ## PETES LEAVE FOR HOME Diamond Is So Wet Today's Game Could Not Have Been Played.

[Special to The Advertiser.]  
ST. THOMAS, May 12.—Rain again prevented today's game with Peterboro, and as the grounds were nearly flooded, making play tomorrow almost impossible as the visitors desired the contest to start at 2:30 to allow them to catch an early train for home, it was decided to postpone Wednesday's fixture, and Curly Blount and his Petes departed at 5 o'clock Tuesday afternoon for Peterboro, where they open on Thursday. This is the first time in the history of the league that a three-day series has had to be postponed.

## MANY CANADIAN LEAGUE PLAYERS HAVE COME FROM THE BIG LEAGUES

Here's a partial list of men who have seen big league service at some time or other and are now holding down jobs in the Canadian: Frank Shaughnessy, Ottawa, formerly with the Athletics and Washington; Doc Reising, London, with Washington; George Nill, Ottawa, with Cleveland and Washington; Kustus, of St. Thomas, with Brooklyn; Hall, of Ottawa, with Cleveland; Shockor, of Ottawa, with Detroit; Dr. Yates, Hamilton, formerly with the Athletics and Washington; Butler, Erie, formerly with New York; Louis Scheller, of Peterboro, formerly with Philadelphia Nationals.

## GRANEY'S ILLNESS HITS CRIPPLED NAPS ANOTHER SERIOUS BLOW

JOHN GLADSTONE GRANEY, better known as "Glad" Grane, famous outfielder of the Cleveland American League team, who is at present laid up with touch of malaria fever, "Glad" Grane lives in St. Thomas, Ontario, and it is likely he will come home to recuperate. Grane's sickness follows closely on a chapter of accidents and misfortunes that have pursued the Cleveland team all year. Never in the history of the American League has a team suffered from so many injuries so early in the season. "Glad" was playing a great game up to the time he was taken ill, but it is not likely he will be able to again don a uniform for some weeks. He is the owner of "Larry," the famous dog mascot of the Naps, and it is a peculiar fact that ever since "Larry" came to the club, it has suffered a great deal from accidents to its players. But the Cleveland club would not lose "Larry" for all the money in organized baseball.

## Have You Noticed How Enthusiastic Hamilton Fans Are?

One of the most refreshing things about the present Canadian League season outside of the weather is the way the Hamilton fans and papers are enthusing over Doc Yates' Athletics. Judging from the present interest taken in the Hamilton club by Hamilton people, the team there this season should be a big money maker, and it promises to put the Canadian League in solid with ambitious City fans. There is no doubt that the best move ever made in the Canadian League was the removal of Knott Les from Hamilton. Tiger-Knott would develop into one of the best baseball titles in Canada now.

## TYLER AND TYLER'S MODERN BASEBALL'S ONLY BROTHER BATTERY

## [BY HUG S. FULLERTON.]

The Boston Braves this year have a battery composed of two brothers, George and Fred Tyler. This is the first time in the history of modern baseball that such a combination has been seen. George Tyler, the pitcher, is one of the best of the left-handers when properly handled. He declares he is the hardest pitcher to catch they ever worked with. Manager Stallings was seeking to better this conditions and asked George what catcher he worked best with. George remarked: "My brother Fred catches me better than anyone I ever had." Without a word Stallings sent out orders to get Fred Tyler, and he was brought into camp. He lacks experience, but is strong, heavier than George, and promising. The Tyler brothers recall Martin Walsh, who was a brother of the famous Chicago pitcher. One spring Martin was tried out by the Chicago Cubs, in the hope that his immense strength could be utilized until he could pitch as well as Ed. The first night out on the spring training trip

## INDIAN'S FAILURE TO REPORT HAS FINALLY BEEN DISCOVERED

Manager Reising Receives Word From Ellis W. Manning and Indian Tells Him Why He Did Not Show Up at Marietta—U. S. Government to Blame.

Manager Reising has finally discovered what happened to the Indian player, Ellis W. Manning, whom he had signed up early in the winter, and who failed to report at Marietta for spring training. It will be remembered that repeated telegrams and letters failed to bring any reply from Manning, and for all the London Club knew he had died or disappeared in some strange manner. The last Manager Reising heard of him he was working in the department of Justice at Washington, but telegrams to him there brought no news.

**Government Sent Him to Oklahoma.**  
Since arriving in London, however, Manager Reising has received word that on the eve of his departure for Marietta to join the London team, the United States Government dispatched him to Oklahoma City on some import business and he is now in the United States. He is now in the United States. He is now in the United States. He is now in the United States.

Cincinnati, May 13.—The appeal of the Chicago Federal League club from the decision of United States Judge Sessions at Grand Rapids in the case against the Philadelphia National League club relative to the Philadelphia club, was filed today in the United States circuit court of appeals. This formal filing followed an announcement made by Judge Sessions last week that he had allowed the Chicago Federal League club an appeal from his court.

## BRITISH INTERNATIONAL POLO TEAM IS PICKED

Major Barrett, Captain Cheape, Captain Tompkinson and Major Bingham Will Compose Team.

London, May 13.—Captain Leslie Cheape agreed today to join the British team to compete for the international polo cup and will accompany the other members of the team to the United States. The final composition of the team is as follows: Major F. W. Barrett, Captain Leslie Cheape, Captain H. A. Tompkinson, Major Bingham, and Major Mathew Lannowe as spare man. The team was selected at a meeting of the general committee of the Hurlingham club, under the presidency of Lord Valentia. Walter S. Buckmaster and Baron Wilborne were both present. The team will play in the following positions: Capt. Tompkinson, No. 1; Major Bingham, No. 2; Major Barrett, No. 3; Captain Cheape, back.

## SIEGEL MUST RETURN QUICKLY TO THE U. S.

[Canadian Press.]  
New York, N. Y., May 13.—Henry Siegel, awaiting trial on charges growing out of the alleged mismanagement of his mercantile enterprises here, will be allowed to land at Plymouth, England, according to an agreement reached today and consented to by Supreme Court Justice Seabury. Permission for Siegel to land was conditional, it is stated, on his not attempting to leave England for the continent and his returning to New York on the ship on which he left, the Olympic, due to sail from Southampton on May 20. Should Siegel not voluntarily land in Plymouth, Mr. Whitman announced, he would be returned here as a prisoner as soon as the requirements of the English laws could be complied with.

## HARD FOR MORAN

Will Train Fully Two Months Before the Bout.

## FRENCH ARE ENTHUSED

Sailing of Moran for France Also Helps to Create Interest in Coming Match.

NEW YORK, May 12.—The sailing of Frank Moran for France marks the passing of the preliminary stage in the arrangement for the heavyweight titular bout to be fought in Paris on June 27. Jack Johnson, as defender of the championship, has already begun a regular routine of training and Moran will follow suit as soon as he arrives upon the scene of the coming contest. While his plans are but tentatively outlined at present and subject to conditions that Moran will have to consider upon his arrival in Paris, Johnson has settled upon a two months' schedule of "conditioning" which he declares will fit him for a successful defense of the title won at Reno on July 4, 1910.

Johnson has selected Amieres, a suburb of Paris, as the site of his training camp and begun his conditioning there early this week. Judging from the reports from Paris the littleholder has entered upon a round of preparation which indicates his belief that the coming test with Moran is not to be considered lightly. Despite the fact that he is within 20 pounds of the weight at which he entered the ring against Jeffries, he has elected to train fully two months for the meeting with Moran. Apparently Johnson expects a lengthy bout in which there will be some of the principal reasons for his selection of Amieres as training camp. He has indicated that this department of his training will be one to which he will devote much attention.

## Has Complete Staff of Trainers.

The other details for Johnson have been looked over, for Johnson has arranged to surround himself with a complete staff of trainers, boxers and wrestlers, which will include several of those who have aided him in preparing for past campaigns. Calvin Respress has been named as one trainer, and it is understood that overtures have been made to a well-known American trainer who has just returned from France. Respress, who has trained Johnson for several of his bouts in France and other parts of the continent, is expected to select those who will be members of the training corps. Johnson will choose such American trainers as he may decide will be of help to him during the training period. According to Johnson, the French are preparing to greet the principals with the usual French enthusiasm. Those in charge of the arrangements are in receipt of daily requests for reserved seats and several of the more desirable sections of the Veleldrome d'Hiver are already sold, and which is expected to show at least fifty starters.

## PRACTICE GAMES WILL BE PLAYED BY TEAMS IN SCHOOLBOYS' LEAGUE

At a meeting of the Schoolboys' Lacrosse League in Gurd's parlors yesterday afternoon the schedule for the ensuing week was arranged. The meeting was largely attended. These games are only practice ones, and regular games not starting for a week or so. The games arranged are as follows:

May 18—Talbot vs. Alexandra.  
May 19—Petersburg vs. Lorne Avenue.  
May 20—Chesley Avenue vs. Rectory.  
May 21—St. George's vs. Victoria.  
May 22—Haling vs. Rectory.

PITTSBURG AND BOSTON  
PLAY A TEN-INNING TIE

Umpire Klem Calls Game When Score Stands 1 to 1—Rudolph and Cooper Pitcher Great Ball.

PITTSBURG, May 12.—Pittsburgh and Boston went ten innings to a 1 to 1 tie this afternoon. Umpire Klem calling the game on account of darkness at the end of the tenth inning. Rudolph and Cooper pitched excellent ball, and each pitcher scored his team's only run. Cooper's single in the sixth was Pittsburgh's first hit off Rudolph. He took second on an out, and scored on Carey's triple. Rudolph singled in the sixth, advanced on Evers' sacrifice, took third on an out, and scored on Duguey's infield hit. Wagner's hand was badly spiked when Mann was retired at second trying to stretch a single in the tenth. He may not play in the New York game.

## Young Men's Suits

Some of the spring styles and patterns in Semi-ready Tailoring were personally selected by a young man for young men.

The very latest Kinks and Kickshaws for the distinctive touch of the Collegian or the budding Captain of Industry.

Not high-priced surely—for you look upon Semi-ready Clothes as spelling the one true economy in Good Clothes.

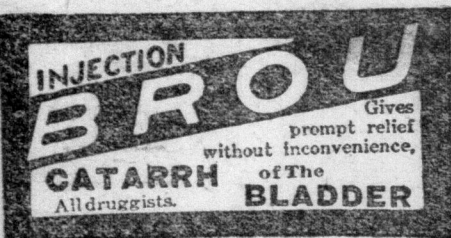

As many patterns in imported British woollens as you can find time to examine—all admirable.

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from their ear.

Therefore, if you know someone who is troubled with head noises or catarrh, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home, and is made as follows:

Secure from your druggist 1 oz. Parmitin (Double Strength), about 75¢ worth. Take this home, and add to it a quarter pint of hot water and 4 oz. of moist or granulated sugar, stir until dissolved. Take one tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore, there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better.

Important.—In ordering Parmitin always specify that you want Double Strength; your druggist has it, or he can get it for you; if not, send 75¢ to the International Laboratories, 74 St. Antoine street, Montreal, P. Q., who make a specialty of it.

A Boneheaded Play by Pitcher Mason and Failure to Hit the Ball Costs Montreal the Game.

MONTREAL, May 12.—After tying the score in the eighth inning, a headless play by Pitcher Mason lost Montreal the game. The Royals showed their old failing of not being able to hit in the pinches.

Fans Exhibit Baseball Spirit and Prepare for the Season—Will Arrange for Exhibition Games—Officers Elected.

INGERSOLL, May 12.—An ardent baseball spirit was exhibited at a meeting tonight in the council chamber, which was fairly representative of players and fans. It was unanimously decided to reorganize the town league, and also to have an amateur team, to be known as the town team, which will endeavor to arrange exhibition games with teams of neighboring places. The officers as follows were elected:

Honorary presidents, J. A. Coulter, Mayor Buchanan, and Charles L. Bailey; Toronto; president, Dr. Williams; first vice-president, S. A. Gibson; second vice-president, J. D. Grieve; third vice-president, R. M. Borrowman; secretary-treasurer, W. J. Clarke; assistant secretary-treasurer, J. D. Grieve; executive, J. D. Grieve; president, vice-presidents and secretary-treasurer. Four teams will be entered in the league. Efforts will be made to arrange a double-header for May 25.

WOODSTOCK BASEBALL CLUB  
PREPARES FOR THIS YEAR

Officers Have Been Elected and Everything Is Ready for the Opening Day of the Wobbly League.

WOODSTOCK, May 12.—The Woodstock Wobbly League Baseball Club held a meeting tonight and elected officers for the year: Honorary president, R. E. Butler; president, J. Henry Brown; vice-president, James Davis; secretary-treasurer, M. J. Brophy; manager, Keimlie Bradley; ticket committee, James Burton, Robert McGhee, John Wilson, Frank Lovitt, W. J. McLaughlin and Norman Wilson; grounds committee, Robert Bickerton, A. J. Gahagan and William Kennedy. The schedule, which was drawn up at Berlin, was discussed, and Mr. P. S. Connelley said that the one drawn up at that meeting was not official, but was only for ratification. At the opening game here with Berlin, May 25, the question of having the city officials attend in a body and having a band in attendance, and the ceremonial opening ceremonies was discussed. Nothing definite was decided on tonight, but was left in the hand of the officers.

DENEAU RELEASES BELTZ;  
RED SOX TO BE TRANSFORMED

Rube Says He Will Yet Give Brantford a Winner—Nelson's Arrival Will Mean Changes—Manager Believes in Roth.

BRANTFORD, May 12.—So confident is Manager Deneau of the ability of the new infielder Roth to make good, that he has given Beltz his release and, as far as he is concerned, the fight for the position is over. One or two other changes will be made upon the arrival of young Nelson and the composition of the Red Sox will be fairly well decided upon. The Rube has set upon the weak spots for all his worth, and he declares he will make them winners yet.

Terribly Afflicted  
With Lame Back.

Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain. Women are beginning to understand that weak, lame, and aching backs from which they suffer so much are due to wrong action of the kidneys, and should be attended to at once so as to avoid years of suffering from kidney trouble. On the first sign of anything wrong with the back Doan's Kidney Pills should be taken. They go right to the seat of the trouble. Mrs. Wilfrid Jolicœur, Nouvelle, Que., writes: "I take pleasure in writing you, stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not sweep my own floor. I was advised to try Doan's Kidney Pills. I only used three boxes, and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble." Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. M. M. Co., Toronto, Ont. If ordering direct specify "Doan's."

COVALESKE CONTINUES  
WINS ON GIANTS' DIAMOND

NEW YORK, May 12.—Harry Covalleski, known since 1908 as the "Giant Killer," for his successes over the New York Nationals in that year, revisited the Polo Grounds in a Detroit uniform today, and shut out the New York Americans by a score of 4 to 0. Covalleski yielded only four hits and only one New Yorker reached third base. Detroit won the game in the first inning, when they hit Schulz hard and scored three runs. Bush played a spectacular game at short for Detroit, besides making three hits. A delegation from Harrison, N. J., attended the game in honor of second baseman Kavanaugh, of Detroit, whose home is in Harrison. Mayor Joseph Rordan of that city presented the player with a gold watch when he went to bat in the first inning. Kavanaugh responded with a single.

## THREE PIONEERS OF HURON DIE IN DISTANT PLACES

W. H. Ransford, Pioneer Book Merchant, Stricken in New York, and Fred Watts Died in Toronto—Mrs. Cummings Brought Home From Saskatchewan.

[Special to The Advertiser.]

CLINTON, May 12.—Word was received here today from New York of the death of one of Clinton's pioneer book merchants, W. H. Ransford, brother of Mr. John Ransford, the present president of the local board of trade. He was 65 years old and went to New York about twenty-five years ago.

The funeral took place today at Clinton cemetery of F. W. White, who died in Toronto recently. He was 65 years old, and Clinton's first druggist and telegraph operator. Fifteen years ago he went to Toronto to take a position in the telegraph office. Besides his wife, who resides in Toronto, he is survived by one son, Rev. Hartley Watts, also of the Queen City.

[Special to The Advertiser.]

ELYTH, May 12.—The funeral of Mrs. Elizabeth Cummings who died at the

home of her son James, in Whitewood, Saskatchewan, on Friday last, was held here this afternoon to the Union Cemetery on the arrival of the C. P. R. train.

Deceased was 79 years old and one of the pioneers of Huron. She came from Devonshire, England just 61 years ago this month, and after remaining in Chigouche, Quebec, for a year, settled on concession 12, of Hullett Township.

Three years later she married John Cummings and moved to his farm, lot 22, concession 13, Hullett, where she remained until six years ago, when she went west to live with her son James.

She had nine children, William, John, Elias, Nicholas, Thomas, James, Charles and Gilbert. Three of them died, Nicholas in infancy, John in Hullett, and Thomas in the West. Two brothers, Thomas and James Shoblock, of Hullett, also survive.

Deceased was a life-long Methodist.

## HOPES TO HAVE THE SENATE KILL THE FARMERS' BANK BILL

Government Urging Upper Chamber to Save It From Embarrassing Situation—Proposed Measure Merely One of Politics.

[Special to The Advertiser.]

OTTAWA, May 13.—It begins to look as though the Borden Government was "playing politics" with its proposed measure to reimburse the depositors in the defunct Farmers' Bank. According to a well-defined rumor on Parliament Hill tonight, the administration is planning to have the bill "killed" by the Senate.

There is no gainsaying the fact that the Government as a whole has no heart for the reimbursement legislation. Despite the definite pre-election promises of Hon. T. W. Crothers and

other Ontario Conservatives, who made reimbursement one of the definite planks in their election program, the purpose was, to tell the depositors, in the words of one frank exponent of Government policy, to "go hang."

Reimbursement Mandatory. The exigencies of the political game as it is played by the Borden Administration, however, were too much for the plotters. The necessity of "lining up the boys" for the bank act and the fifteen million Canadian Northern subsidy toward the end of last session precipitated a condition which made it mandatory, from a party standpoint, that reimbursement of Farmers' Bank depositors be added to the customary inducements of patronage and advancement. Particularly, it is said, was this the case with David Henderson, of Halton. The veteran member for Halton had to be placated, for Hon. W. T. White had set hungry eyes upon the Halton seat. The Canadian Northern proposals of the present session made action necessary, and, after some three years of procrastination, the reimbursement legis-

lation made its tardy appearance almost simultaneously with the announcement that the Government had acquiesced in the Mackenzie-Mann and Lash deal.

Hopes to Escape. Now it is understood the Government hopes to escape responsibility by doing its utmost to have the Senate reject the measure on the ground that it is establishing a dangerous precedent. One Liberal senator told The Advertiser tonight that certain of his Conservative colleagues in the Upper Chamber were quietly counselling the rejection of the proposal. In this connection rumor mentions the names of Senator George Taylor, of Leeds, who was appointed to the Upper Chamber to create a "seat" for Hon. W. T. White, when the latter was taken into the Borden Cabinet to represent the "noble eighteen," Senator LaRiviere, of Provencen, and other Conservative members of the Upper House.

Conservative Senators Silent. The purpose is believed to be to secure the co-operation of a sufficient number of Liberal senators to secure the rejection of the bill and the escape of the Government from what it regards as an embarrassing position. Senator Taylor had not returned to Ottawa tonight, and Senator LaRiviere declined to be interviewed by The Advertiser beyond stating that the bill created a dangerous precedent. Other Conservative senators would neither affirm nor deny their prospective opposition to the measure.

Meanwhile, the rumor is persistent that the Government is placating those of its followers who are protesting against the proposed bill by quiet assurance that it is "merely playing politics," and that it will be prudently put to rest by the men of the Red Chamber.

## Asks Government to Aid the Widow of Mail Clerk Tye

Mr. Morphy Calls Attention to Fact That Only Ordinary Grant of \$200 Was Given.

[Special to The Advertiser.]

OTTAWA, May 12.—Mr. Morphy, of North Perth, today asked the Government to give financial recognition to the widow of W. P. Tye, a mail clerk, who was burned to death in the performance of his duties. He has a young son, who is now in the run between Wychwood and Paris for 33 years. Though he had met death in the service under striking conditions, the Government had only given the widow the ordinary grant of \$200.

Postmaster-General Pelletier stated that the case had been considered by the Government. A decision and the best reached, but he hoped that there would be favorable decision shortly.

## SCHUMANN-HEINCK PREVENTS A DISASTER

Averts Panic During Electric Storm by Continuing to Sing.

[Canadian Press.]

Montreal, May 13.—A dispatch to the Gazette from Chicago says: Mme. Schumann-Heink, by a commendable display of coolness, prevented a panic, a concert flashes of lightning, the lights went out leaving in complete darkness 2,500 people, many in a panicky condition. Realizing the situation, Mme. Schumann-Heink continued to sing, and the fears of the audience had been dispelled when the lights had been flashed up again.

### MAY ONLY OFFERING ON LOCAL MARKET

Brisk Demand for Other Lines Meets With No Supply—Hogs Are Low.

Due to the heavy condition of the country roads the attendance of farmers on the local square was small, and the demand for hay and oats was very much keener. Hay, the only commodity offered, was slightly firmer in price. Fifteen loads composed the offering and extreme quotations were \$16.00 per ton, while the average price paid ranged from \$14.00 to \$15.50 per ton. Oats were also in firmer demand, but there were none offered.

Dressed hogs were not offered and the demand during the past week has been exceeded. The prices paid on Friday ranged from \$11.50 to \$12.00 per cwt.

There were no live hogs brought in by the farmers. The prices paid on Friday will altogether likely be the same as prevail in Toronto.

## Use Connell's Coal

CHESTNUT, \$6.75 PER TON.  
STOVE AND EGG, \$6.50 PER TON.  
LARGE SIZE PEA COAL, \$5.60 PER TON.  
We recommend our Pea Coal for the range and heater. It has the value of the Chestnut in these burners, and saves you the difference in price, which is \$1.15 per ton.

## SAYS BOARD OF HEALTH IS CENSURED FOR CAUTION

Dr. Burdon Declares It Is Oritized for Not Allowing Meds to Visit Isolation Hospital.

Of the seven smallpox cases in the Cove Hospital, one is a medical student. Another student was released a short time ago. Both of them are fourth year men at the Western Medical College.

Censured for Caution.

"We received considerable censure for not letting all the medics go down to the isolation hospital to study and examine smallpox patients some time ago," said Dr. F. L. Burdon, at the board of health meeting yesterday. "Two of them have been sick with the disease, their board-houses have been quarantined. If they had all gone down to the hospital, no doubt they would have spread the disease all through the city."

"Five years ago," declared Dr. Hutchinson, "there was a student against vaccination. The children have grown up without vaccination, and now we are getting results. All of the pronounced smallpox cases now have not been vaccinated, which, according to Dr. Hutchinson, proves his theories about such treatment, which he said he strongly recommended five years ago.

Six Cases of Diphtheria.

Dr. Hutchinson reported that there are six cases of diphtheria and one case of scarlet fever in the city. One of the smallpox patients will be out of the hospital this week, leaving only six.

A. M. Hunt, secretary of the Western Fair Board, in a letter read at the meeting, in answer to one sent to the Western Fair regarding the public conveniences at Queen's Park, said: "We have nothing whatever to do with the lavatories until fair time."

"We are not deciding who is responsible for their condition, but if they are not cleaned they will be closed up," said Dr. Burdon. The question will be taken up again at the next meeting.

Order Repaired.

As the result of a determination of the natural watercourse which flows southwest from Cheapside and Colborne streets, into what is known as Carling's Creek, at Piccadilly and Wellington streets, the city engineers will be asked to take immediate action to have the tiling repaired or moved, so that the water does not flow back into the cellars and yards.

Inspector Latham said that a lane at the rear of Piccadilly, near the corner of Wellington street, was often a stretch of green solum, from the back-water of the creek.

## TIE-UP ON NORTH LINE

Dispute of Oxford Crews Forces Passengers to Walk Through Mud.

Two crews of the London Street Railway tied up the Oxford street switch, which Colborne street switch shortly after 6 o'clock last night for fully half an hour, forcing men and women passengers to wade through the mud, and anywhere from a half to five blocks from their destination.

Car No. 104 carrying an exceptionally heavy load of passengers, ran down from Richmond street to Colborne street switch. Here a car, bound for town was just leaving the points. Both crews refused to give way. After sitting in the car for over twenty minutes most of the passengers became tired, and some of them, in a side room, when his mother drops in. After many exciting and anxious moments, Bob decides to have it over with, and going into the room, proposes to "Billie" who turns him down. As they come out, "Billie's" father, who has learned of the incident, enters. In order to explain the situation, "Billie" and Bob pretend to be engaged. Their parents are surprised and offer congratulations and depart. Finding they really love each other, Bob, after a genuine proposal of marriage, tenderly clasps her in his arms.

"The Two Wrens"

TO PLAY AT THE STAR

Manager Reid of the Star Theatre, has been successful in securing for three days only the "Two Wrens" in a high-class singing, talking and musical act. The Wrens are known all over Canada and the United States, and are said to be headliners in comedy acting. Five excellent films, including the Mutual Girl series, will be shown during the latter part of the week. The "Mutual Girl" series is composed of eight films, and one is shown each week. They are the best that can be produced, and are meeting with considerable approval wherever shown.

## GIVE PLEASING CONCERT

The annual concert of the Centennial Methodist Sunday School held in the new school rooms last evening proved an unusual success. A long and varied program as contributed by the scholars of the school, was introduced by the superintendent, J. A. Page, who presided, and was greatly applauded by the large number of parents and members present.

The following program was given: choruses by the school, recitations by Alma McLaren and Marie Simpson, dialogues by Mrs. Huddleston's class and Miss McDonald's class, a patriotic drill and a song drill given by sixteen girls were easily the feature of the program. The song by Mr. Litchford's class, and a train song by eighteen girls of the school were pleasing. Perhaps the numbers which gave the greatest enjoyment were the dialogue "The Toy Makers," and "The Ten Virgins," by Mr. S. Lancaster's class.

## WHAT TO DO FOR SORE THROAT

SOME GOOD ADVICE BY A SPECIALIST.

As there seems to be a regular epidemic of Sore Throat in the city, the following valuable recipe will be welcomed by many. A sore throat is a dangerous complaint to trifling with, as a long and tedious cure directly to the lungs and the disease often travels along these tubes into the lungs and there sets up an inflammation that invariably results in a serious lung trouble.

At the first sign of soreness in the throat or chest, you should secure from your chemist 1 oz. of Parmitin (Double Strength), and take this home and add to it one-quarter pint of hot water and 4 oz. of moist sugar. Stir until dissolved. Take one tablespoonful four times a day. This will give instant relief and will usually cure the worst throat within 48 hours. The healing and soothing qualities of this formula are unequalled, and every person suffering with a bad throat should give this prescription a trial. There is nothing better.

Important.—In ordering Parmitin always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 4 St. Antoine street, Montreal, who make a specialty of it.

"MILLIONS FOR DEFENCE."

This Film Is Being Shown at the Majestic Theatre Today and Tomorrow—"The Winner," A Comedy Picture, Is Being Shown Today and Tomorrow Also.

CAST.

"Billie"..... Myrtle Gonzalez  
"Bob"..... William D. Taylor  
"Arthur"..... Alfred D. Young  
"Billie's Father"..... Charles Bennett  
"Bob's Mother"..... Minnie Humphrey  
Young, pretty and flirtatious. "Billie" is spoiled by too much attention. She refuses Arthur when he proposes, and later boasts to her girl friends she can make any man propose. Arthur's chum, Bob Clinton, is a millionaire, and, according to a newspaper article, a confirmed bachelor. The girls see this, and "Billie" immediately determines to make Bob propose. She sends Bob her picture and a declaration of war, reading, "I have decided to marry you." Angry and worried, he replies, "Millions for defence, but not one cent for tribute." He then orders the butler, who is smitten with her picture, not to admit "Billie" should she call.

"Billie" goes to see Bob, and, talking sweetly to the butler, walks right by him into Bob's presence. He is greatly surprised and becomes rather frightened. Rushing outside, he calls up a detective agency and the manager sends a score of men to look for his protection. "Billie" says, "Shame, calling detectives!" and goes out, promising to call again. On her next visit she is unable to get in the house. She intercepts a telegram to Bob, to take Arthur away, and, in many visits Bob, disguised as his mother, she gets in all right, and Bob is horrified when he discovers the deception. He calls up Arthur, requesting him to come at once, to take Arthur away, and many her, arrives, adopts a butler's disguise and on "Billie's" next call, stops her and tries to kiss her. She slaps his face and runs out, but comes back later. After a chase, Bob has just succeeded in locking her in a side room, when his mother drops in. After many exciting and anxious moments, Bob decides to have it over with, and going into the room, proposes to "Billie" who turns him down. As they come out, "Billie's" father, who has learned of the incident, enters. In order to explain the situation, "Billie" and Bob pretend to be engaged.
