## JOFFRE DELIVERS HEAVY BLOW ON VERDUN FRONT HAIG RECORDS ANOTHER GAIN—MANY FOES FOUND DEAD AUSTRIAN COUNTER-ATTACKS FAIL TO STOP THE RUSSIANS

### Portugal To Enter War on Side of the Allies War Minister Announces

Early Participation in the Conflict Officially Announced by Little Republic—German Ships Seized and Troops Called To Colors.

(Canadian Press.)

Lisbon, via Paris, Aug. 18.—Major Norton Matos, the Portuguese minister of war, announced today that Portugal soon will participate in the war, fighting on the side of the Entente Allies.

The Portuguese Congress voted to join the Entente Allies in the war in November, 1914. A Portuguese naval commander seized 36 German and Austrian vessels in the Tagus River in February, 1916, and the following March Germany declared war on Portugal because of this action. The Portuguese troops were called to the colors on March 16.

### EXTEND GAINS INTO LINES OF GERMANS, IS HAIG'S REPORT

Small Local Success for British Near Bazentin.

MANY DEAD IN TRENCHES

Hostile Attack From Martinpuich Last Night Repulsed.

Berlin, Aug. 18.—Via London, 4:51 p.m.—The British, with several divisions, launched an attack on the German lines north of the Somme and succeeded in driving back the German first line for a short distance on a narrow front southwest of Martinpuich, the war office announced today.

[Canadian Press.] London, Aug. 18.—3:19 p.m.—German artillery became more active last night along the Somme front. A small British gain is reported in the official announcement of today, which follows:

"Last night the enemy's artillery generally showed increased activity. Northwest of Bazentin-le-Petit, by a small local enterprise, we further extended our gains in the enemy's lines. German trenches in this area were found to be greatly damaged and full of the enemy's dead.

"A further hostile attack from Martinpuich last night was repulsed as completely as were his former attempts yesterday."

Turned the Assault.

New York, Aug. 18.—Cabling last night the Tribune's London correspondent says:

"The Germans struck a heavy counter-blow at the British line today, but it was beaten back with severe losses. Haig's troops stood their ground despite six rushes in a storm of shell-fire, and turned the assault so thoroughly that they were able to advance their line on a narrow front.

"In the morning the British line was chosen again for the Teuton counter-attack. The British advance here has driven a wedge between Thiepval and Martinpuich, threatening to pocket both villages, which are bulwarks of the second line, and in effort to dislodge this wedge, the Kaiser's troops attacked on a broad front, and with strong forces last night and this morning Haig's guns set up six successive curtains of fire, through which the enemy could not penetrate.

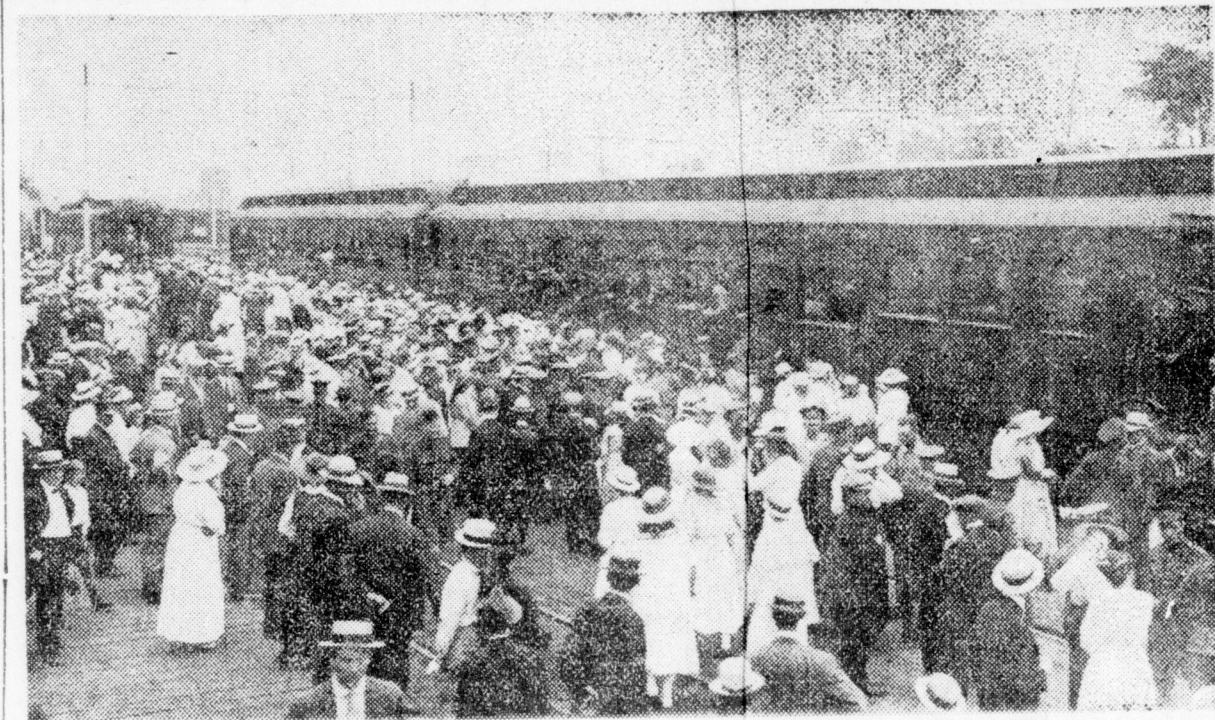

The British Turn.

Then the British assaulted the German line northwest of Bazentin, lying east of Pozieres, and succeeded in capturing a hundred yards of trenches. The Teutons immediately counter-attacked, but were repulsed again. The Allied forces have now driven their wedge eastward far enough to menace seriously the German second system, Guilleminot, Maurepas and Clercy will fall with the next thrust. The British, while the French were pushing forward on Comblès last night, pushed on west of Guilleminot along a 300-yard line.

Along the front north and south of Maurepas and south of the Somme, where the Allied forces advanced on a three-mile front yesterday, the Kaiser's forces made no move to counter-attack today. They elected to assault

### BIDDING FAREWELL TO UNIVERSITY HOSPITAL

Snapshot at Grand Trunk depot at noon today, showing the crowd that gave such an enthusiastic send-off to the members of the Western University Hospital that left at 12:55 p.m.

### LONDON GIVES BOYS OF NO. 10 GREAT SENDOFF

Thousands Turn Out to Bid Farewell to Men of Hospital Unit.

UNEQUALLED ENTHUSIASM

Reception Accorded Departing Soldiers Best Yet Witnessed in City.

EVERY MAN WAS ON TIME

Not an Absentee From Ranks of Western University Corps.

The Western University Hospital Unit, officially designated as No. 10 Stationary Hospital, left London at noon today for a point east to finish its training. The boys were given a most enthusiastic send-off, perhaps the most enthusiastic yet given to any body of men training for overseas.

The method by which the boys were sent off, if there has been any doubt in the minds of Londoners as to the feeling the city had for soldiers it was dispelled. The citizens took pains to show the unit just what they thought of it, and judging from the demonstration it was quite a lot.

Governors There in Body.

The university governors, one of whose aims went with the unit, was present, among them being Dr. H. H. Williams, Dr. J. B. Campbell, Dr. Geo. Clarke, Dr. John Wishart, and others.

A large number of the medical practitioners of the city, particularly those connected with the university, were present, among them being Dr. Hadley Williams, Dr. J. B. Campbell, Dr. Geo. Clarke, Dr. John Wishart, and others.

Headquarters Staff, Too.

The headquarters staff came down to see the boys off. Col. L. W. Shannon, Lieut.-Col. H. D. Smith, Major Gordon Ingram, Major Baron Osborne, Major Bell, Major Frank Spary, and others.

Cardinals Ordered

TO PRAY FOR ALLIES

BY POPE BENEDICT

Vatican Convinced Lasting

Peace Will Come By

Entente Triumph.

[Canadian Press.]

Rome, Aug. 18.—Pope Benedict has instructed all the cardinals in Italy to pray for victory for Italy and her allies. Hitherto the cardinals, following the pope's example, have been preaching and praying for peace at all their services. They have exhorted all the faithful to attend the functions of intercession for an early peace. Now, however, they will pray for the defeat of the Teutonic powers.

Cardinal Ferrari, archbishop of Milan, and other cardinals holding episcopal sees, have publicly explained that the Catholic Church wants to see a lasting peace. They have explained that no peace can be lasting unless the war ends victoriously for Italy and her allies. They are urging, therefore, that all loyal citizen churchmen should join in efforts to win the war.

### Germans Admit Terrible Losses

[Canadian Press.] London, Aug. 18.—Erichrich Von Saltzman, military critic of the Vossische Zeitung, writing about the Somme battle, makes the following remarkable admission today:

"We can admit without hesitation that certain regiments came out of this fighting with a total of losses hitherto unknown in the history of war."

### NO BREAKING OF BIG OFFENSIVE ON THE SOMME

French Captain Back From

Front Shows Foe Doomed to Defeat.

BATTERED ON THREE SIDES

Tremendous Bombardment Is

Too Much for Defence of the Germans.

[Canadian Press.]

New York, Aug. 18.—A New York Times cable from Paris, under Thursday's date, follows:

"As a result of yesterday's success, said a French staff captain, who arrived in Paris this morning from the Somme front, Guilleminot and Maurepas are under the allied fire from three sides. Their capture is now merely a question of time and artillery preparation."

"I am glad," he continued, "to have the opportunity to speak to the news, papers, in view of the messages of correspondents visiting the German headquarters in Picardy."

"If contradictions were needed, is proof better than any argument? Since July 20 we, in three days, gained ground over two miles in depth on a four-mile front north of the Somme, and that at a cost absolutely trifling compared with what the Germans paid for their gains at Verdun."

"Just examine the battlefield and you will see that we have steadily widened it since the beginning. That doesn't look as if the offensive had broken down, but on the contrary that it is ever growing toward full development. The difference from previous attempts is that this is a logical offensive. We aim at nothing we cannot reach, then make certain of our hold before advancing further."

Team Work Wins.

"Already," between Maurepas and Clercy we are tackling fortifications, bastions constructed to link up strong points d'appui of the German third line. It is evident that we are piercing the first and second line. Such trenches are far less defensible than the armored labyrinthine forming the previous lines. Moreover, penetrating weaker points enables us to work around the strong ones like Guilleminot or Maurepas until we can batter them to pieces before assaulting with infantry. We know the method now. Success has become a matter of artillery hammering and team work."

A Tremendous Shelling.

"Thus yesterday the advance was preceded by two days' of the most tremendous bombardment I ever heard. Verdun did not compare with it. And you must remember that mastery of the air lets us know the exact targets, while the German gunners are practically blindfolded."

The captain, who took part in the assault, beyond Maurepas-Clercy road, said: "It is difficult at many places even to distinguish where the German trenches have been, and as good a fighter as the 'boche' has shown himself to be, you don't find him making desperate resistance in these shell holes, like our men at Verdun."

Once the shelters and quick-firers have been demolished the German throws up the sponge readily enough."

The German Morale.

When asked whether there had been a distinct weakening in the German morale as the offensive progressed, the officer said: "It is hard to say, for two reasons: First, the troops opposite any one point of our line are constantly being renewed, so that what one takes for lowered morale is often the inferior quality of the newcomers, while the next lot may be better. Second, our present system of limiting the advance after a gigantic bombardment has reduced the defenders to such a condition that it is impossible to judge what the morale would be in more equal fighting."

### ARMENIANS SUFFER DREADFUL HARDSHIP BY TURK CRUELTY

Obliged To Eat Locusts, Dead Dogs and Sometimes Children.

[Canadian Press.]

Boston, Aug. 18.—A statement describing the hardships suffered by Armenian refugees in Northern Arabia was made public today by Rev. Dr. James L. Barton, chairman of the American committee for Armenian and Syrian relief. Dr. Barton said that the statement came from an eyewitness not an American, and could be depended upon as an unexaggerated.

Wished To Die.

The eyewitness said that of 2,500 deported Armenians at Meskene a part had found employment, but the rest were begging.

"In every tent," he said, "there are sick and dying. Many hundreds of the sick are left without any tent and covering. I saw desperate ones throw themselves in grave trenches and beg the gravediggers to bury them. The Government does not give the hungry any bread."

Fed On Grass.

He described one party of 600 which had been sent from place to place without food. As nourishment, he said, they cooked grass, pressed the water out and made balls which dried in the sun. In Hama he found the deported Armenians subsisting on locusts and dead dogs. Similar conditions were found in other places.

"In Sepka," the statement continues, "a preacher from Alehat told me that parents have often killed their own children. At the Government investigation it was shown that some people had eaten their children."

Farmer of Kintail

MEETS TRAGIC DEATH

[Special to The Advertiser.]

Lucknow, Aug. 18.—While helping his son-in-law to haul in grain, Mr. John B. McKenzie of Kintail met with a fatal accident. He was on the load when the team took a sudden start, causing him to fall to the ground. He alighted on his head and dislocated his neck, death being instantaneous. He was in his 72nd year.

The funeral was held to Lochalsh Cemetery Thursday afternoon.

FOUR POISONED.

[Canadian Press.]

Prince Rupert, B. C., Aug. 18.—At an inquest held Thursday into the deaths of Mrs. J. F. Sips of Port Clements, her three children and her mother, from eating poisoned fish, a verdict of accidental death was returned. The children were aged 4, 7 and 10. A fourth child, and the father, who was away, are the survivors of the family. The deaths occurred Wednesday afternoon.

### French Throw Heavy Forces at German Positions on Verdun Front, Making Considerable Gains at Several Points—Counter-Attacks of Germans on the Somme Repulsed, Says Paris Report.

(Canadian Press.)

Paris, Aug. 18, noon.—Heavy attacks were made by the French last night on the Verdun front. After violent fighting at Fleury, east of the Meuse, they expelled the Germans from part of the town which had been captured, says the official statement of today.

Several German counter-attacks on the Somme front southeast of Maurepas, were repulsed.

The French also made considerable progress in the region of Thiaumont, in the Verdun sector. Fifty Germans were captured there.

TOOK PRISONERS.

The statement follows:

"North of the Somme several attempted counter-attacks by the enemy against our new positions southeast of Maurepas failed under our fire. We took some prisoners.

"South of the Somme we recovered four machine guns in trenches taken by us south of Belleu.

EXPULSED GERMANS.

"On the right bank of the Meuse (Verdun front), an attack by our troops enabled us, after a violent combat, to drive out the Germans from a portion of the village of Fleury which they were occupying."

"Some enemy troops are still maintaining themselves in a small clump of ruins on the eastern edge of the village. Between Thiaumont and Fleury our troops also made an appreciable advance. Fifty prisoners, including an officer, remained in our hands. We also captured a machine gun."

"Everywhere else the night was relatively calm."

HOOK'S STORY OF

MONEY FOR SALT

READ TO JURORS

Says That Ex-Ministers Knew Where Salt Had Gone.

WAS ROBBED OF \$10,000

Declares He Was Afraid Horwood Would Lose His Reason.

[Canadian Press.]

Winnipeg, Man., Aug. 18.—J. B. Priestman of the Imperial Bank staff, was recalled to the stand this morning in the exonerating trial, to give evidence on Thomas Kelly's tender account with the bank. Defence objected to this evidence being received. The crown argued that they were entitled to produce secondary evidence, since L. C. and C. B. Kelly had failed to produce certain checks they were asked to bring. The judge reserved decision on this point.

Kelly's Check.

J. B. Craig for the crown spoke of the possibility of calling upon Thomas Kelly to produce the check. "There's no need of going through that farce," said J. B. Craig for the defence. The judge stated it was on record through Kelly's solicitor that he refused to produce it.

R. W. Craig, for the crown, read to the jury evidence given by Horwood to the commission in New York, April 11 last, by M. G. Hook, formerly official of Manitoba's provincial architects department.

Hook's Story.

Hook told of taking money to Salt in Chicago at the request of V. W. Horwood. He said he was "no fool" and he did not report Salt's whereabouts to the Government. He could "read between the lines" and he "suspected" they knew where Salt was and were keeping him from the public accounts committee. Hook inferred this from the way Horwood spoke to him. Later Horwood went to Minneapolis, gave Salt \$300 and persuaded him to keep away from Winnipeg. Later Horwood gave Hook ten thousand dollars to deliver to Salt in Denver, and he was to see Salt on the way to Australia.

Robbed of \$10,000.

Hook said Horwood told him he thought "Coldwell and Howden" got the money out of their own pockets. Later Horwood told him at the same time that Dr. Simpson had furnished some money. He said he was robbed of the ten thousand and the balance of \$400 expense money by two men with a gun on Omaha street. He had \$20 left on which he returned to Winnipeg, and he was to see Salt on the way to Australia.

### PRESIDENT WILSON VETOED ARMY APPROPRIATION BILL

[Canadian Press.]

Washington, Aug. 18.—President Wilson today vetoed the army appropriation bill because of exemptions from discipline for retired officers forced into it by the House conferees led by Representative Hay, chairman of the military committee, over the opposition of the war department.

A new bill will be necessary and may delay the adjournment of Congress. Representative Hay said he would reintroduce the bill in the House immediately with the features to which the president objected eliminated.

## ONE DOZEN BIDS FOR RECRUITS IN CITY NEXT WEEK

That Many Units Will Be Ap-  
pealing For Men.

## RECORD-BREAKING TOTAL

All Branches of Service Rep-  
resented in Special Appeals  
To London Men.

London men who want to go overseas  
in any particular branch of the Cana-  
dian forces will not lack the opportunity,  
for next week an even dozen military or-  
ganizations will be bidding for recruits  
in this city. This is the largest num-  
ber of "bids" since the declaration of  
war and keen competition between the  
different branches of the service is  
naturally to be expected. This competi-  
tion, it is claimed, will act as a stimulus  
to recruiting here that will be further  
given with the new system of recruit-  
ing by practical registration.

Many of the units are, in an unofficial  
way, using the fact that they won't go  
to Camp Borden, as an added induc-  
ement to bring in recruits.

Some Already Started.

Some of the recruiting campaigns  
have been started, indeed some have  
almost over, but others again will not  
commence until after Tuesday next.

It is proposed to start another cam-  
paign to aid the 142nd Battalion after  
that unit leaves for Camp Borden again,  
and as the 11th (South Waterloo) Bat-  
talion has been authorized to campaign  
in London for recruits, there will be  
competition between the two units.

The Second Depot Regiment, Canadian  
Mounted Rifles, calls for 60 recruits from  
the city and district to help fill the gaps  
made by the last overseas draft from  
the regimental headquarters at Hamil-  
ton, has been made, and Major B. C.  
Ball will be in the city and district  
all week to aid in the campaign.

The 63rd and 64th Batteries have  
been taking on men since they were  
organized at Guelph, and it is ex-  
pected that a number more artillery-  
men will be signed on at once. Drafts  
will be going constantly from these  
units and London and district men  
will be taken by London and district men.

Engineer Drafts, Too.

The constant overseas drafts from No.  
7 Field Company, Canadian Engineers,  
makes another unit continuously in the  
field for men, and while the majority  
of the overseas recruits for the engi-  
neers from this district have been secured  
from Windsor and border towns, the  
plan is to campaign more actively for  
them here.

The two construction battalions—Nos.  
1 and the 239th Railway Construction  
Unit—are taking on men here all the  
time. Other outside units that are au-  
thorized to recruit in this district are  
the 21st (Highland) Battalion with  
headquarters at Windsor, and the 216th  
Battalion from Toronto. The 216th  
Battalion, of course, cover a wide area  
of the other units told that none of  
the other units told that none of the  
men who are too short in stature to  
make the grade for the regular infantry  
battalions.

An active campaign to secure a Lon-  
don platoon or company for the 21st  
has been mooted for some time, but no  
official announcement has yet been  
made on the question.

Cyclists and A. M. C.

The special cyclist platoon, being  
raised in the district by Lieut. McLean,  
and the No. 1 A. M. C. training depot,  
are in the lists for recruits. The cyclists,  
of course, come under the head of the  
special units that are recruited for a  
short time only, as but 20 men are re-  
quired, while the A. M. C. unit is one  
of the "steady" recruits, it being a  
depot and sending drafts away contin-  
uously. The gaps left by these drafts  
have to be filled in the same manner as  
those in the overseas engineers and the  
depot battalions.

The twelfth unit that is asking for  
recruits is the Canadian Army Service  
Corps that has appealed for 45 backers  
from this military district to go over-  
seas at once for special service in  
France and Flanders.

## TAKING BOMB COURSE.

Lieut. Joe Walters of The Advertiser  
editorial staff, who went overseas with  
the 51st (Elgin) Battalion, is now tak-  
ing a bombing course at Shoreham.  
Lieut. Walters writes that life in Eng-  
land is apparently agreeing with the  
London, St. Thomas and Elgin boys  
who went over with the 51st.

### TAG-DAY NETS \$600 TOWARDS EXPENSES OF SOLDIERS' VISIT

Local Women Worked Hard  
and Exceeded Their Goal.

### PLANS MADE QUICKLY

Captains and Assistants Got  
Early Start and Solicited  
Thoroughly.

Tag day for the 142nd Battalion yester-  
day netted up to last night a  
neighborhood of \$600, with some returns  
to be received. This was at least  
\$100 more than the goal fixed. Consid-  
ering that so many of the citizens are  
away from town holidaying, and among  
these more than half the experienced  
workers who usually assist on tags, the  
members of the committee in charge  
felt very thankful for the success of  
their efforts. In addition, it must be  
taken into consideration that the ques-  
tion of holding a tag day in connection  
with the preparations for a farewell  
demonstration for "London's Own" was  
suggested, decided upon, and all ar-  
rangements made in less than 48 hours.  
The tag day was held on Tuesday when  
a joint meeting of the Women's Auxili-  
ary of the 142nd Battalion and a com-  
mittee of the I. O. D. E., specially ap-  
pointed to co-operate with the auxil-  
iary, decided to hold the tag day. Im-  
mediately, Mrs. Ernest Smith, conven-  
er of the special committee, and the mem-  
bers of her committee, got into touch  
with all the members of the order and  
other women's organizations whom  
they could reach, and called an emer-  
gency meeting for 3 o'clock the same  
afternoon. By 3:30 o'clock, captains  
were appointed, districts allocated and  
all details of the campaign worked out.  
The afternoon of the intervening day  
was devoted to making ready the boxes,  
giving out these and tags, and putting  
the finishing touches on arrangements.  
Mrs. McLean, as president of the Wo-  
men's Canadian Club, was captain of a  
team looking after the Traction, Lon-  
don and Port Stanley and Grand Trunk  
stations, and the Towns House.  
Among her assistants were Mrs. W.  
Meddames, J. M. McEvoy, A. T.  
Edwards, Bernard C. McCann and John  
Stevley.

### East of Adelaide.

All the territory east of Adelaide  
street was allocated to the Women's  
Auxiliary of the 142nd Battalion, Mrs.  
T. Murphy and Mrs. M. Millman  
acting as captains with the following  
assistants: Mesdames John Barnard,  
Grieve, Misses Fraser, Maud Hannah,  
Florence Burdon, Ellen Nelson, Mrs.  
Farnham, Mrs. Mary Morrison,  
Ellen McDougall, Helen Cook, Helen  
Davey, Hazel Davey, Gertrude Davey,  
Bernadette Murphy, Leona Murphy,  
Vera McDougall, Smith, Tyler, Law-  
son, Birdie Dwyer, Margaret Millman  
and Eugene Murphy.

The I. O. D. E. looked after the rest  
of the business district, the following  
performing the duties of captains: Mes-  
dames F. J. Greenaway, Tobias, W.  
A. McCrimmon, A. McLean, Frank  
C. Murphy, E. Barkie and R. M. Green.  
Among their assistants were Mrs. S.  
J. Radcliffe, Miss Mary Campbell, Miss  
Butler, Miss Green, Miss Isabel Ivey,  
Mrs. W. A. McLean, Mrs. Margaret  
Wheeler, Mrs. Birdie Russe, Miss Shirley  
White, Miss Isabel McCrimmon, Miss  
May (Stratford), Sweetney Hungerford,  
and Masters Jack Hungerford, Cahill,  
and Jack Yeates. Miss Rankin,  
welfare nurse, took charge of the  
tagging at McClary's.

In the evening several of the taggers  
went to Springfield, where they met  
with good success.

### Good for Entrance.

The bits of postcard sold yesterday  
are by no means tags and nothing more,  
tags to be thrown away and forgotten.  
They are also tickets which will admit  
the winners to the grandstand at  
Queen's Park for the big demonstra-  
tion on Saturday. The tags which are  
left over will be at the gates of the  
Park on Saturday, where they will be  
on sale for admission.

In connection with this, the an-  
nouncement is made that the tags will  
not be taken up like ordinary tickets,  
but will be on the order of passes, and  
may be retained by the purchasers as  
souvenirs of the battalion and of the  
great occasion when the city of Lon-  
don said good-bye and showed its ap-  
preciation of its very own battalion as a  
unit.

### ON LAST LEAVE

London Boy Going With 47th Battery.  
Pte. F. V. V. to City.

Lieut. John Labatt, Scatcherd, son of  
the late Allan Scatcherd of this city,  
and now one of the officers of the 47th  
Battalion, is in London on his last leave.  
Lieut. Scatcherd, qualified as an ar-  
tillery officer at Kingston and was im-  
mediately attached to the 47th. He was  
employed in the Canadian customs  
department at Buffalo and left his civil  
service appointment to enlist.

Lieut. Scatcherd was born in this  
city, and entered the customs service  
after graduating from Ridley College.  
His mother resides at 572 Queen's ave-  
nue.

### HERE AND THERE ABOUT THE CAMPS

135TH SOLDIER SERIOUSLY ILL.  
Pte. Gregory, a Grant member of the  
135th (Middlesex) Battalion, is in  
such serious condition at the military  
base hospital, Toronto, that his rela-  
tives were notified on Thursday by the  
military authorities.

Pte. Gregory contracted pneumonia  
at Camp Borden and was brought down  
from there a week ago yesterday. He  
did not make the expected improvement  
in the Toronto hospital.

### WILL AID WORK.

Word has been received here that  
Rev. T. T. Shields of Jarvis Street  
Baptist Church, Toronto, will be in Lon-  
don all next week to assist in the  
A. M. C. work among the soldiers  
here. He will conduct a number of  
special services at the military Y. M.  
C. A. at Carling Heights and the Cove  
ranges.

### WANT READING MATTER.

The camp branch of the Y. M. C. A.  
is being seriously handicapped in its  
work amongst the soldiers by the lack  
of reading matter. The supply of  
magazines and books which was placed  
in the camp canvas last June is now  
somewhat the worse for wear, and more  
magazines and books are badly needed.  
The association for transporting the read-  
ing matter to the camp, and citizens  
will be put to no expense. Arrange-  
ments can be made by telephoning 5550.

## COL. WIGLE'S FORCE IS SURROUNDED, BUT IN MIMIC BATTLE

Western Ontario Battalions Fail to Hold Camp Borden  
Against Cols. Currie and Howard—London's  
Own in the Battle.

[Special to The Advertiser.]  
CAMP BORDEN, Aug. 17.—The  
forces of Lieut.-Col. E. S. Wigle, the  
6th, 7th, 8th and 9th Brigades, were  
surrounded and defeated in today's  
manoeuvres.

The 8th and 9th Brigades are com-  
posed wholly of battalions from No. 1  
District. Col. Wigle and his men  
to take a certain position and then  
retire to another spot chosen by him-  
self.

The 2nd Brigade, Col. John A. Currie  
commanding, and the 3rd Brigade,  
Lieut.-Col. E. S. Howard commanding,  
turned the flank of Lieut.-Col. Wigle's  
division. The position taken up on re-  
tirement by Lieut.-Col. Wigle is only  
a small bridge over which to retire his  
forces.

### Stand Heat Well.

In spite of the excessive heat the  
most stood up well under the heavy  
marching. Some men from the 18th  
Battalion collapsed, but, according to  
Major O'Brien, returned to their ranks  
later in the day.

Major-General Logie and headquar-  
ters staff are sleeping with the troops  
on the plain tonight. Twenty thou-  
sand men took part in the exercises.

The 142nd Battalion of London took  
part in today's exercises, but will have  
plenty of time to catch the train which  
is carrying them to London for the  
holiday celebration. Lieut.-Col. Gra-  
ham was trying his examination for his  
field officer's certificate today. His  
battalion was in charge of his senior  
major.

### Today's orders announced the ap- pointment of Lieuts. R. T. McLean on the 1st, and H. A. Mowatt on the 2nd.

It was almost noon on Tuesday when  
Major-General Logie and headquar-  
ters staff are sleeping with the troops  
on the plain tonight. Twenty thou-  
sand men took part in the exercises.

The 142nd Battalion of London took  
part in today's exercises, but will have  
plenty of time to catch the train which  
is carrying them to London for the  
holiday celebration. Lieut.-Col. Gra-  
ham was trying his examination for his  
field officer's certificate today. His  
battalion was in charge of his senior  
major.

### Qualified Bomb Instructions.

The following have qualified as in-  
structors in bombing: Lieut. G. D.  
Smith, Sergt. C. Barnum, 114th; Lieut.  
G. M. Dingham, Sergt. R. Galbraith,  
118th; Lieut. Hamilton, Corps. C. Y.  
Henderson, 155th; Lieut. M. A. Taylor,  
Sergt. T. J. Pratt, 158th.

The following will be the bombers of  
the 135th Battalion: Ptes. D. C. Mc-  
Lachlan, C. E. Hawkins, A. E. Clark,  
F. C. Smith, O. Littleton, H. Poole, W.  
T. Brown, H. Harrison and G. Thomas.

Four Struck Off 135th.

Ptes. Thompson, John Thompson,  
Lozerus Schuyler and Sergt. Joseph T.  
Clarke have been struck from the 135th  
as medically unfit. Pte. Wm. Schuyler  
as over age and medically unfit. Pte.  
Ernest Hill as under age and medically  
unfit.

### Capt. J. L. Youngs, Gallant in Fight, Wins Decoration

First Battalion Officer Coming  
Home to Receive  
Promotion.

[Special to The Advertiser.]  
STRATFORD, Aug. 17.—Word has  
been received in the city that Capt.  
J. L. Youngs, of the 1st Battalion, has  
been decorated with the military cross  
for gallantry in action.

Capt. Youngs has been in France  
for about two years, and has been  
frequently mentioned by his men for  
his bravery and thoughtfulness.

He will sail for Canada soon to re-  
ceive some well-merited promotion.

### CYCLISTS' RECRUITING CAMPAIGN STARTS

Officer Hopes to Raise Detachment  
Without Drafting Any Men.

Recruiting arrangements for the  
cyclist platoon, which is to be raised  
in this city, are now in full swing.  
A banner has been procured and will  
be placed in the archway at the armor-  
ies. A number of recruiting posters  
have been printed and will be placed  
in various places throughout the city.  
Slides asking for recruits for the  
platoon will be shown at all perfor-  
mances in the local theatres.

Lieut. J. W. McVean, who has been  
appointed to the command, has opened  
a recruiting office on the ground floor  
of the armories in the room formerly  
occupied by the 7th Regiment. Recruits  
will also be received by Capt. Irvine in the recruiting  
office upstairs in the armories.

Two motorcyclists will be required,  
and it is expected that these will be  
obtained before the end of next week.  
Lieut. McVean will be permitted to  
fill up his platoon with drafts from  
other units if he desires it, but he is  
anxious to obtain all new men. His  
home town is Wallaceburg, and he is  
hopeful of securing a few recruits  
there. He is a capable officer for a  
cyclist section, having served in the  
beginning of the year by Lieut. Fet-  
terly in this city.

### BILLION DOLLAR CROP EXPECTED

After a thorough canvass of various  
points throughout Western Canada, Dr.  
McGill of the Dominion Grain Com-  
mission is quoted in Calgary as say-  
ing that Alberta would have a crop  
as good as last year, that the Domi-  
nion would have a billion dollar  
grain crop, and that the grain of the  
three prairie provinces would be  
little if any behind that of last year.

"The country as a whole never looked  
better than it does at present," said  
Dr. McGill. "The weather was made  
to order, as you might say, and I am  
of the opinion that this year's harvest  
will be another wonderful one."

Those who contemplate going West  
will do well to remember that the most  
fertile districts in Western Canada are  
served by the line of the C. N. R., and  
that this season they can travel in com-  
fort, Colonist and lunch counter cars  
being a feature.

The first of these excursions will be  
run in August, the date will be an-  
nounced later.

For further information apply to  
nearest Canadian Northern Agent or  
write to R. L. Fairbairn, General Pas-  
senger Agent, 68 King street E., To-  
ronto. B. Clark, Agent, 415 Richmond  
street, London, Ont.

[Special to The Advertiser.]  
has been transferred to the base hospi-  
tal in Toronto. He is suffering from  
pneumonia, and has been treated in  
Borden for the past few days.

Another court-martial is announced  
for August 21, to be held in Toronto.

### CAPT. THOS. BALLANTYNE COMES HERE WITH A.M.C.

[Special to The Advertiser.]  
STRATFORD, Aug. 17.—Capt.  
Thomas Ballantyne, son of A. L. and  
Mrs. Thomas Ballantyne, left today  
for London to report for duty with  
Major Smith's A. M. C. training depot.  
He is a young man and has just com-  
pleted his course in medicine at To-  
ronto.

### HURON BATTALION MAY GET COLORS AUGUST 25

[Special to The Advertiser.]  
EXETER, Aug. 16.—It is expected  
that the 161st Huron Battalion will be  
presented with colors in Exeter on  
August 25.

Full arrangements have not yet been  
completed, but it is expected that the  
revel will proclaim the day a holiday.

### THREE RECRUITS ARE SIGNED IN ST. THOMAS

[Special to The Advertiser.]  
ST. THOMAS, Aug. 17.—Henry  
Harford Murray, 125 Centre street,  
William Clark, 125 Centre street,  
Station, and George Stewart of Dutton  
enlisted at the local recruiting depot  
today, the first two named for the  
special service battalion and the latter  
for the Canadian Field Artillery.

### PAISLEY SENDS FIVE MORE BOYS TO WAR

[Special to The Advertiser.]  
PAISLEY, Aug. 17.—The boys of the  
16th Bruce Battalion, who have been  
here on harvest leave are all return-  
ing today to London Camp in fine  
health and spirits, glad to resume  
training and eager to be sent overseas.  
Five more of Paisley's brightest  
young men enlisted this week in the  
Divisional Signal Corps, Toronto, name-  
ly: Fred Blue, Harold Blue, Harold Co-  
lins, Stewart Dwyer and Wallace Dicht.  
They range in ages from 17 to 22. The  
three latter are recent graduates of the  
continuation school.

### CAR SHOPS MEN SEND CHECK FOR \$200 TO UNIVERSITY HOSPITAL

Today Is the Last Chance to  
Send Subscriptions.

### ABOUT \$900 IS NEEDED

Splendid Unit Raised in Lon-  
don Without Single Re-  
cruiting Meeting.

Nearly \$900 is to be added to the  
amount acknowledged last evening in  
contributions to the Western Univer-  
sity hospital fund. As the unit leaves  
today, and a widespread interest has  
developed in this matter, it is hoped  
that a large part of the \$900 still needed  
to make the fund up to the neces-  
sary \$2,000 will be sent today.

The employees of the G. T. R. car  
shops held a meeting yesterday after-  
noon and decided to donate \$200 from  
their fund to the fund for No. 10 Hos-  
pital, Superintendent Thomas Trele-  
aven at once got in touch with Lieut.-  
Col. Seaborn and gave him a check  
for the amount.

Not a single recruiting meeting was  
held to secure the enlistment of men  
in various places throughout the city.  
This special fund is that it has been  
practically got together without  
personal solicitation. A large number  
of others should have paid in it.

The statement to date is as follows:  
Previously acknowledged, \$1,667.65;  
employees G. T. R. car shops, per T.  
Treleaven, \$200; T. H. Smallman, per  
Mrs. A. M. Appleby, \$25; Mrs. Eva  
A. Glass, \$25; Mrs. H. A. Boomer, \$25;  
the Misses Moore and J. P. Moore, \$25;  
services of laymen, \$25; Mr. D. A.  
Hewes, \$25; E. Hobbs, \$10; Dr. D. A.  
Craig, \$10; William Carlie, \$5; Col.  
Fisher, \$5; Allan Wraith Chapter, J.  
O. E. S. Stratford, \$5; anonymous, \$5;  
Miss May Gillean, \$1; total, \$2,060.68.

### BANTAM BATTALION RECRUITING IN CITY

Lieut. G. T. Walsh of 216th Will Make  
Efforts to Secure Additional  
Men Here.

A chance for the men who are too  
small to sign up with the overseas units  
at present being recruited in the city  
is offered by the 216th Bantam Bat-  
talion, which will now recruit in the  
city. Lieut. G. T. Walsh of the bat-  
talion was in the city Thursday and se-  
cured permission to recruit in military  
district No. 1.

The headquarters of the regiment are  
at Toronto and Hamilton, and it  
is at present at Camp Borden.

A recruiting office has been opened  
in the city at 202 Dundas street in  
the Hiscox Block. Mr. Hiscox gen-  
erously gave the use of this office to  
secure other men too small for the  
local units who are still anxious to do  
their bit.

The battalion is about 800 strong  
and is at present at Camp Borden.

## WHAT LONDON NEEDS.

LONDON LACKS a program for its steady year-on-year development as a city. We have done those things which ought not to be done and left undone, etc. We have a number of barn doors that have been left wide open for many years, allowing many horses to get away. Often we rush into expenditures which have no place in our program until more important matters are cleared up.

Some of the things London needs first of all are:

AN ADEQUATE WATER SUPPLY.

AN UNINTERRUPTED SUPPLY OF LIGHT AND POWER.

A POLICY TO REMOVE THE MENACE AND INCONVENIENCE OF DEADLY LEVEL CROSSINGS.

AN ADEQUATE INDUSTRIAL POLICY WITH SOME FINANCIAL STRENGTH BEHIND IT.

MEN IN THE CITY COUNCIL WHO WILL DEVOTE THEIR ENERGY TO THE BEST INTERESTS OF THE COMMUNITY.

## HOW DEAL WITH THEM?

NOW THAT the day of victorious peace begins to be considered, the question how Germany can be made to abide by terms of settlement will arise. It may be a hard matter to bring Germany to our own terms, but it will be a still harder matter to devise a net to hold her to her engagements. We know the German Government to be most cunning and resourceful, and at the same time utterly regardless of any moral obligations. How shall the Teuton viper be bound?

A Slavonic writer in the July "Nineteenth Century" gives examples of Prussian cheating in the past, if the recent violations of treaties and Hague conventions were not enough. Tradition and heredity account considerably for the course of action pursued by the Kaiser, his bureaucracy and his people.

The Teutonic Knights, forerunners of the Hohenzollerns in a forward Polish and Baltic policy, made treaties with Poland in the 13th century which they planned to break before making them. A commission appointed by the pope convicted the Knights of forgery (compare the passport business in this war), and condemned them to make restitution to Poland both in lands and in money. This was not done, and the Knights continued to satisfy their rapacity with every artifice of treachery and perjured faith.

In the 18th century the Teutonic order was crushed, and Albert of Hohenzollern was authorized by the Polish king to hold Prussia, his territory, as a fief of Poland. So the Brandenburg rule over Prussia got its first start. From this beginning sprang eventually the partition of Poland, suggested and engineered by Frederick the Great. Diplomatic letters and official announcements remain from the 1760s to show not only the leading part taken by Prussia in that transaction, but also that official falsehoods were given out respecting Prussian intentions, false denials that anything was contemplated against the integrity of Poland and Lithuania. With this may be compared the assurances given to and about Belgium for some years before the opening of the present war. One of the declarations was personally ratified as follows by that exquisite forerunner of Kaiser Wilhelm, Frederick the Great:

"We having seen this declaration, and having maturely considered it, do assent to it and ratify it, approving it and confirming it with our royal word, in our name, and in the name of our successors. We protest that we shall religiously respect it, and that we shall allow no one whatsoever, for any reason whatsoever, to attempt it. In witness whereof . . . etc."

"Given at our Palace of Berlin, the 12th day of June in the year of Grace, 1764. In the twenty-fifth year of our reign."

And the partitioning of Poland here repudiated was already planned! The "great" king was no youth at this time, but was 25 years on the throne, like the present Hohenzollern, a seasoned old bird. Notice how he "protests" both for himself and for others after him. Religion also is explicitly dragged in, and Frederick was still religious after the first partition had taken place, as shown in a letter to his brother in 1772:

"The partition of Poland will unite three religions, the Catholic, the Orthodox and the Protestant; Poland will thus be for us a sort of holy communion, of which we shall all partake. If this act does not bring salvation to our souls, it will at any rate contribute considerably to the prosperity of our realm."

The same kind of mock religious slavery came from the present Kaiser's grandfather, another "Great" as the Germans call him, when Alsace-Lorraine was annexed. Have the partition of Poland and annexation of

Alsace-Lorraine "contributed" ultimately to the prosperity of our realm? The present Kaiser's religion is at bottom the same thing as that of his ancestor, the scandalous old skeptic of 1772.

The writer in "Nineteenth Century" goes on to show that Prussia continued the official assurances of friendship and innocence to Poland before the second and third partitions of that unhappy state. One would think that the Poles would not have been taken in a second and third time by such naive villainy, and probably they were not. In reference to reports in Warsaw of aggression contemplated by Berlin, the Prussian king wrote in 1791 to his envoy at Warsaw, "You will declare in the most solemn manner that these reports are malicious inventions. . . . No one will be able to prove to me that there has passed between me and the court of Vienna anything that might warrant such suppositions." "Prove to me!" No one can prove to the present Kaiser anything against his own supposed interest. The "solemn manner" is still used in denying facts that cry to heaven in Belgium.

When in 1793 this second partition of Poland had been consummated, the Prussian king pledged himself in the Treaty of Grodno "to guarantee the independence of the provinces still retained by Poland," and to the Poles newly-annexed that they "should retain intact their national privileges, their religion and their language."

A few months later he prohibited the employment of the Polish language in all public offices, and in 1795 he took part in the third and final partition of all remaining Poland, taking Warsaw as part of his share. How would Mr. Bourassa like that part about the language?

Such is the sort of enemy we have to deal with. The most rigorous measures will have to be taken for preventing Prussia from breaking the terms of peace we impose, when we consider how she has kept terms imposed by herself. Razing of gunworks, confiscation of navy, continued coercion, and military occupation while many millions of indemnity are being paid, these are possible means. We have to deal with the wild asses of the devil," as H. G. Wells calls them.

## THE QUESTION.

MOST of the passenger business on the city's electrified road was in the carrying of people for 20 cents to Port Stanley and return, a distance of about 53 miles, or a rate of 1/2-cent a mile.

If 30-cent fares pay Sir Adam Beck's line, why are they given to citizens only two days a week? (They were promised for every day.) If they do not pay, how can the road absorb the loss in the total of its higher fares, and claim a large surplus on summer business?

## THE AUTO AND THE RADIAL.

SEVERAL radial railways in Ohio have been put out of business because in the last five years of their existence almost every farmer residing along their routes has purchased an automobile. The London and Lake Erie Railway and Transportation Company, which serves many farmers in the district between London and St. Thomas, are providing their own "transportation systems," with the result that the line's earnings are visibly affected. On Wednesday it is said five hundred automobiles went from the city to the fishermen's picnic at Port Stanley. In five more years how many will go? Motor cars will be selling for less than \$200 by that time, and there will be few families who cannot afford one. It is safe to predict that there will be between four and five thousand motor cars in this district. That is a serious thought for those who talk so glibly of sinking millions into radial railways paralleling the steam roads.

## THE ROSS RIFLE.

NO CANADIAN wished to see the Ross rifle discarded, but there is no doubt that it was discarded as an inferior fighting weapon. And it is quite probable the decision was reached long before the actual rejection took place, for the reason that the Ross rifle, but held fast to the Ypres salient until they were relieved. Hughes, ranking as a military expert, blundered on what were probably the two greatest questions he tackled. Gen. Alderson, who commanded the Canadians on the field, declared the Ross to be unfit for active service. Up to that moment Hughes might have been excused for cleaving to his pet, but he should have concurred when, after actual and awful demonstration, the Canadian service weapon was condemned by the man who knew how badly the Ross had behaved. The Advertiser for years had an open mind on the question of the Ross' quality. But Gen. Alderson's report was convincing, and a returned soldier now on the staff of this paper who fought in the first great battles with the Canadians declared he never felt safe with it. That was enough. If the men had no confidence in their weapon they suffered much.

Sir Sam's other great blunder when he came in contact with British authority was his contemptible criticism of the late Earl Kitchener. How wrong he was in good taste and judgment is fresh in the minds of all.

should be the first consideration of London.

We must all take off our hats to the Toronto World for the sterling service it has given the country on the nickel question.

The Daily Racing Form, a paper supplying turf information, has been barred from circulation in Canada. Yet the New York American finds no objection.

Our trade with the Americans grows by leaps and bounds, which causes the Detroit Journal to observe: "Canada imported almost 45 per cent less from Great Britain during the past fiscal year than during 1913. But she imported as much as ever from the United States. In round numbers her imports from Great Britain were \$86,000,000 last year, and from the United States \$444,000,000. What does this teach us, dear children? When you become better at figures you will be able to draw your own conclusions as to artificial barriers and patriotic impulses where the natural economic laws are concerned."

## Mr. Sudds Speaks

BY KEITH KENYON.

Mrs. Van Kreep, elegant in rich black silk, drew on her gloves preparatory to a morning's shopping. Outside the big stone house a dove-grey car, with two men in dove-grey liveries, waited before the steps.

Then something occurred to the mistress of all this magnificence and she pressed a bell. "Send Mr. Sudds to me, Hutchinson."

When the private secretary appeared she sat down. "I've just thought of something, Sudds, and I guess I'll get it off my mind before I get out. Take that chair there!"

Obeyed. "Yes, Mrs. Van Kreep," he had never forgotten his employer's dictum when he was cutting his eye teeth of secretaryship. "I don't want people to talk much around me. I do enough myself."

"It's about Miss Joanna. She is coming today, Sudds."

"Yes, Mrs. Van Kreep," Mrs. Van K. had never said to keep a note of interest out of one's voice, so he didn't. The household sat up when Joanna was mentioned and the whole household sat back when Joanna was there. But of that later.

"It's a little difficult for me to express exactly what I want you to do, but it amounts to this: Her grandfather and myself want her to get married. It's our lookout to see that she is properly settled. Her parents, you know, are both dead, and the earlier she marries the better, for she is not going to live forever and there are settlements to be made and so on. You understand."

"Now, I've tried to talk marriage to her and so has my husband, but she just laughs at us. So I have been thinking that if you would put the gravity of the situation up to her, show her the business side of it and her duty to us, it might bring the desired result. And incidentally there are two young men who might mention. One is Reginald Grey, the other Houghton. Either one would be acceptable to us. They have family and money and all that. You understand."

"Yes, Mrs. Van Kreep. Am I to understand that I am to approach Miss Joanna this morning on the subject?"

"Not necessarily, but I thought I might not have another opportunity to speak about it. But soon, Sudds. She is young and impressionable and I want to get her interested in these young men before others make the acquaintance. You understand, I hope, Sudds."

"Yes, Mrs. Van Kreep. We do it in England. A very good plan, Mrs. Van Kreep."

"If you say Mrs. Van Kreep again, Sudds, I'll fire you. That's a good American word—fire. I hope you understand it, Sudds."

"Yes, Mrs. Van K.—perfectly," substituted Sudds.

Joanna came. The house was alive and astir with new life before she entered the door. Youth, beauty, vitality and a certain quality of incorrigibility that was irresistible came with her.

She changed her clothes and, trilling a tune as she came downstairs, she stuck her head into the email office off the library.

"Hello, Sudds!"

"How do you do, Miss Joanna?"

"Oh, just call me Joanna."

"But Mrs. Van Kreep would—"

"Oh, can Mrs. Van Kreep. Yes, I know she would. Sudds. So don't do it when she's around. When there's just you and me, though, you do as I say. I'm going to call you Billy."

## A PAGE OF GENERAL INTEREST TO WOMEN READERS

## Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letter can be answered privately.]

H. J. to M. C. J.  
More than pleased to hear from you again, "M. C. J." I received your greeting "Sylvia, Pankhurst" and, although I feel a little bit scared I would like very much to get just one glimpse of you, "Sylvia."  
Poor "M. C. J." how I sympathize with you in your evenings of utter loneliness. Don't I know what it is like, when one's whole being cries out for companionship?  
There is something very wrong in the order of things when one's spirit is cast down in this manner, there is a reason for this depression, so there must be a remedy. I will not attempt to philosophize now, I would take up too much space.  
But M. C. J., your fairy godmother in the person of Miss Grey, can easily bring my name and address right to your door, and you might intrust her with your own address and a stamp, then a theatre and many other things might follow. It surely cannot be right

to live and suffer as you are doing "M. C. J." A self-addressed stamped envelope awaits your name and address with your own and Miss Grey's permission.  
Ans.—Just how much of this is fun and how much is earnest, I'll not try to guess H. J., but leave M. C. J. to find out.  
Soldier's Wife's Burden.  
Dear Miss Grey,—I think your page is interesting; always look forward to reading it, especially the letters from soldiers' wives. My husband is in France and I am left with his business to look after and four children. The youngest, two years old, takes me all my time keeping him out of mischief. He has just pushed his kitten into the oven and shut the door. I'm sorry for the life of the kitten.  
In answer to "One From Old England," she should take the advice of our patriotic secretary. He says if

## THE PRINTER'S ERROR.

The other day I advised "Parkhill Echo" (among other named articles) to send her relative on the firing line a box of "home-made" candy. But the printer-man, in a fit of absent-mindedness—or something akin to it—made me say "home-made" candy! Just to prevent a rush of inquiries for the recipe of such a suggestively toothsome dainty, this correction is made.  
CYNTHIA GREY.

there are any women who think the soldiers' wives are getting too much money, let them persuade their husbands to enlist; the war isn't over, and we want still more men. If there are women who do not spend the money economically, whose business it is, I would like to know? Our husbands are risking their lives to earn it; in fact, money couldn't pay our soldiers for the hardships and for what they are doing for us. It's just as my husband says: "It's my duty at all costs." As for farming, everything we buy—beans, potatoes, etc., never was known to be so high.  
I'm sorry there are those soldiers' wives who are so improvident, for we little know how our husbands will re-

turn, perhaps nervous wrecks or cripples for life.  
There are few of us whose husbands are in France who have all the cares of home, through sickness we had debts to the amount of \$200; last month I cleared the last dollar, and intend to have a nestegg in the bank, if it is God's will my husband returns. Instead of scolding one or two soldiers' wives who are not what they should be as an example, why not speak of hundreds of the good and brave ones, who are helping to win this terrible war by sacrificing their husbands?  
I can sympathize with every mother who is left with children, for my heart aches often when I have to pacify my baby boy crying for daddy to come home.

"Overseas there came a pleading,  
Help a nation in distress,  
And we gave our glorious ladies;  
Honor bade us do no less."

A SOLDIER'S LANCASHIRE LASTIE.  
Ans.—Am glad to have you add your letter to those of other soldiers' wives in answer to G. and O. E. Yours is a heavy burden indeed, and it must be hard to always bear it with a brave heart.

Much In Need.  
"Blue Blossom"—I haven't the hintest idea how you should write such a paper, or what you should say! And I'm afraid it's too late to implore the aid of other institute ladies. These few thoughts I'll jot down, though. You can round them out and whittle them not containing much helpful information, will add to what you have yourself.  
The problem of "What to eat" is one of the earliest times. Primitive men didn't cook. He lived presumably on raw fruits and nuts. Then he invented around him, devouring the flesh raw, and its uses, the history of cooking received a great step upward. Meat was roasted by burying in hot ashes, or grilling on spits in the air. But this was a long way removed from the advanced methods of today, when cooking and baking have been converted into a science.  
It is notable that man of different countries has instinctively chosen the foods best suited to his needs. The Chinese and natives of India live on rice, while in the cold northlands, the Eskimoes, Norwegians and others produce of the whale, the seal and the reindeer.

Each housewife must consider her family and regulate their diet according to the mode of living. The farm worker and the office man require different foods; the individual with a tendency to fat and he of a lean nature should not follow the same line of diet. An intelligent selection of foods on the mother's part will oftentimes avert the effects of inherited disease, for instance, in the child.  
Here deal with the great classes of food, proteins, carbohydrates and fats. No doubt you have some book in your home that describes them and their average of each class is useful for the growing child requires more tissue amount of energy-producing food, the former is meat (roughly, beef, mutton, lamb, pork, fish, game, poultry, eggs, etc., and vegetables such as peas, beans and dried pulses. Energy-producing foods are carbohydrates, sugar, heat-producing foods are meat, butter, olive oil, soups, etc. A certain percentage of fats and acids found in fruit and fresh vegetables are also necessary to a well-balanced diet. These elements in food should be considered in preparing every meal of the day. The housewife must see to it that her family does not have too much starch, or too much fat, and so time spent on preparing fancy food nowadays. This does not mean that food should not be served in an attractive manner. You might arrange some menu for the week ahead, and write them on the blackboard for the ladies to copy. Now, does this help any?

Wanted—A Soldier.  
Dear Miss Grey,—I have just walked right in without knocking, but I think I have cheek enough to hold my own out on a farm.  
Ans.—The name and address of a soldier at the front that you might write to him? I am afraid that almost sentence me to death, so don't give it. Maybe I'll come again.  
Yours sincerely,  
KID KANUCK.  
Ans.—You are welcome, "K. K.," just like the rest. I know quite a few men who are overworked and who are fairly well supplied with corn and wheat, and so I am going to ask some of our readers for a name or two of soldiers whom they may deem are lonely. Then I shall be pleased to forward the same to you.  
Have Few Luxuries.  
Dear Miss Grey,—I see you ask for opinions on pay of soldiers' wives. "O. F. O. E." seems to think soldiers' wives are getting too much. Why, they are only getting a mere pittance in a great many cases, to what their husbands would earn, and are giving them up cheerfully, possibly never to see them again. There are a few who do not intend the pay which they receive, but what we deprive the soldier for a few? If "O. F. O. E." did not live on a farm, and was a soldier's wife with a family of say three to keep (the right kind of wife and mother), after paying rent, lighting, firing, feeding and clothing herself and

Children like Krumbles and it builds them up

REMARKABLE how quickly KRUMBLES, the delicious new whole Wheat food, has taken its permanent place on the Canadian table!

Krumbles has the full appetizing flavor and sweetness of wheat, now brought out for the first time by the Kellogg method. Krumbles is prepared from the whole of the wheat. It contains all the starch, all the protein, all the mineral salts, all the phosphates, and all the bran. It is cooked, "krumbled," and delicately toasted—all the food value is ready to be assimilated.

## ADVERTISER PATTERNS

A STYLISH FROCK FOR MOTHER'S GIRL

1608—Girls' Dress (With Sleeve in Either of Two Lengths).  
Brown plaid suiting with collar and cuffs of white pique would be nice for this. It will also look well in serge, cashmere, poplin or repp. The right front crosses over the left, where the closing is effected. The sleeve may be finished in wrist or elbow length. The skirt is cut in six gores and laid in deep plaits, which form a panel in back and front.  
The pattern for this model, which is excellent for wash as well as for woolen goods, is cut in four sizes—6, 8, 10 and 12 years. It requires 4 1/2 yards of 36-inch material for a 10-year size. A pattern of this illustration mailed to any address on receipt of 10 cents in silver or stamps.

## ADVERTISER PATTERN DEPT.

Please send above-mentioned patterns, as per directions given below, to:

Name .....

Town .....

Province .....

Age (if child's or misses' pattern) .....

Measurement: Bust..... Waist.....

Caution: Be careful to inclose the above illustration, and send size of pattern you need only mark 22, 24 or whatever it may be. When in waist measure, 22, 24 or whatever it may be. If a skirt, give waist and length measure. When misses' or child's pattern, write only the figure representing the age. It is not necessary to write "years." Patterns cannot reach you in less than one week from date of application.

children, she would find very little left out of the pay and patriotic pay as prices are now for luxuries. She says also: "They get their money easy from us poor hard-working farmers." They are the best-off people living today, bar none. They are getting higher prices and have larger crops last season, and so far this season, than for years. They admit it, and they are complaining.  
It was more than kind of "O. C. W." to think of depriving herself of a Poland flag for me. Am glad you are sending me, and kindly also inclose the enclosed. If "subscribers" will send me a resurrection plant, I will send cigarette flags in return—any kind if white satin. Am inclosing soldier flag. Have a large centre yacht club flag. Does anyone want it? Tell Miss Grey, and I'll send it to her.

P. S.—Do you just write the words of the different songs asked for? I have two I have never seen mentioned, and they really are very good: "Fall in Canada," and "By Order of the King." The "original idea of the 'old song' column was just to print favorites of other days. This plan is still adhered to pretty much, although the heading is changed. However, you might send me some of the verses. Your flags are being sent to "Old Country Women."

Favors the Idea.  
Dear Miss Grey,—I have been a reader of The Advertiser for some time. It is interesting to read the different views people have of a subject.  
"Twenty-One" is always a welcome visitor. I do hope he continues to write when in France. I only wish there were more like him, and trust he may be spared to come back to his loved ones.

Sympathy for "Tommy."  
Dear Miss Grey,—Inclosed are some cards for "Tommy Atkins." She has my sympathy. I know what it is like to have to stay in bed in warm weather.

What Would You Do?  
Dear Miss Grey.—I would like to ask a few questions. Please what could you do for a neighbor that is always borrowing different articles, which is not necessary as the store is always open and not a half-block away? I'll give you a little idea of some of the things she borrows—mattress, bread, coal and even to boil water on our stove. We wouldn't mind lending these things if she would return them. We have refused her a good many times, but she does not take the hint, but tells others we can't have very much because when she comes in to borrow we never have it. Hoping you will have a good remedy to cure her of the habit I will sign BORROWER.

Ans.—Well, this is a trying situation indeed. Seems to me I'd tell the borrowing lady a few plain truths, but then if I had an opportunity I'd likely just smile as best I could and lend the article if I had it! Wonder if it could this letter and answer out and mail it to her would give her a hint? Or how about trying to borrow in return, and give her some of her own methods? Cynthia who are afflicted with borrowing neighbors, what do you advise?

Ans.—Your imagination is a long way out, for I didn't sign a bill. "Tommy" will be delighted with the pretty cards, I know. Am sure mother will appreciate hints on babies' diseases and treatment for their prevention. You must have your hands fairly full with the two blessed infants. Shall send you any coupons or designs that come to hand.

RED CROSS AND C. W. C. A.

Please make haste and send in your names and your subscriptions (one dollar or over) to Mrs. F. P. Drake, if you wish to attend the Red Cross luncheon on Thursday of next week. The list closes on Monday. The success of the luncheon depends on the interest that the town members are going to take in. Three hundred delegates from the country have accepted the invitation. To cover the expenses, we must have at least one hundred, and twenty town members as hostesses.

The country members and contributors have always responded splendidly to every appeal made to them; and there have been very many. This branch would like to show its appreciation in a concrete way.

We hope that our members (of whom we now have a great many among our monthly subscribers), will remember that they are not only cordially invited to the meeting, but that they have a right to be there. It has often been said in regard to woman suffrage, that one of the chief reasons for not giving the women the vote is that they don't know how to appreciate it and would not half use it if they had it.

Every member of the Red Cross Society, man or woman, is entitled to a vote at the annual meeting.

"Lives there a man with soul so dead" that he would not use each and every vote to which he is entitled?

Perish the thought! Therefore there will without doubt be

many members of the stronger sex at the Masonic Temple on Thursday, August 24, actively repudiating the faintest shadow of the idea that men do not use their votes when they have them.

Here's hoping.

As the number of delegates coming to the meeting, justly excusing rates, the local branch are making arrangements to that end.

Will all delegates inquire about this, when buying their tickets for London?

On Tuesday, August 15, the Red Cross shipped from Hyman Hall 26 boxes, of which the contents were as follows:

Two boxes sheets, 1 box pillowcases, 2 boxes towels, 1 box face cloths, 6 boxes helpless shirts, 4 boxes pyjamas, 5 boxes grey flannel shirts, 1 box of con- valescent suits, 1 box bed socks, 1 box old cotton and linen, 2 boxes surgical supplies.

On the same date from the same place, the C. W. C. A. shipped nine boxes, containing 165 day shirts, 720 pairs socks, and 1,100 towels.

## CIGARETTE MAIL "BILL" TO BOSSES

Send Copies of Demanded Price Scale to  
All Manufacturers.

At noon today the executive of the Cigarette Manufacturers' Union, local 278, mailed copies of its demanded "bill" of prices to all the local cigar manufacturers. The "bill" will become effective on August 25, and in the meantime a committee from the cigarette manufacturers will wait upon the manufacturers to determine what course they propose to adopt. The committee will likely call upon the manufacturers about next Wednesday in order to give them time to fully consider what action they will take. The new scale of prices will mean approximately \$1.50 to \$3.50 more on a thousand and will not equal that paid in several other cities.

"We have information now to the effect that over one-half of the cigar manufacturers of the city have signified their willingness to accept the new scale of prices, and in this regard, we maintain that it is," stated an officer of the Cigarette Manufacturers' Union to the Advertiser this morning. "We do not anticipate any trouble except possibly in one or two factories," he continued. Dealing with the other side of the story, a manufacturer stated that the Cigarette Manufacturers' Union had been now paying, because he believed the present scale, all things considered, was high enough. "The prices are low enough now, and cigarette makers are making as much money as they do in other cities compared with a less cost of living here than in larger places," he declared.

## NO. 1, A. M. C. DRAFT LEAVES CITY FOR EAST

Thirty Strong, It Departed at 2 o'clock  
This Afternoon.

In spite of the fact that No. 10 Stationary Hospital had left only a few hours before there was a large crowd at the G. T. R. station at 2 o'clock to witness the departure of the first draft of 30 men from No. 1 A. M. C. Training Depot under command of Capt. George Ramsey of this city. The draft marched down to the station via Dundas street head by the pipe and drum band of the depot. All the other members of the unit, including the officers, accompanied it to the station. The men carried all their outfit, including their kit bags. At the station discipline was relaxed for a time and the men fell out to say good-bye to their friends. Even after the bugle sounded for the men to train, the train remained for some time, and another opportunity of saying good-bye was afforded by the open windows of the car. Everybody took advantage of this, and not a window but what was surrounded by friends of those leaving. Dress uniform was the order as soon as the cars were ordered. Most of the men showed the effects of the long walk from the camp, encumbered by their kit-bags, and made full use of the opportunity for cooling off. Many men from other units were at the station as well as a number from the headquarters staff. The train pulled out shortly after 2 o'clock, amid the cheers of the people and the station. The music of the bagpipes was almost lost amid the cheering.

## OUTPUT OF COPPER IN BRITISH COLUMBIA GROWS

Twenty Million Dollars Worth Being  
Turned Out Yearly.

VANCOUVER, Aug. 17.—British Columbia is this year producing copper at the rate of \$20,000,000 per annum, said E. A. Haggan, editor of the Mining and Engineering Record, today. "The total copper production of the province is now at the rate of ninety million pounds a year, and when the new mines, now being developed, are in a producing condition, as they will be in from six months to a year, the output will reach 110,000,000 pounds. This great output will be further increased by close to 20,000,000 pounds when the new mill at Britannia is completed. At present, the yield of 130,000,000 pounds will be about \$30,000,000, nearly double the production of 1915."

## INJURED RECOVERING—The six persons who sustained injuries in the street car accident at the corner of Huron and Dundas streets on Mon- day noon last are all recovering. The attending physician states that in all cases danger has passed, and unless unforeseen complications should arise all will recover in a few weeks.

## KELLY IS REFUSED NEW TRIAL; GOES TO SUPREME COURT

Conviction Sustained Three to  
Two by Court of  
Appeals.

[Canadian Press.]  
Winnipeg, Aug. 18.—Thomas Kelly is refused a new trial. The court of appeals by a majority of three to two refused the application of the defence. Chief Justice Howell and Justices Cameron and Pennefather sustained the conviction of the Parliament Buildings case. The defence will appeal to the supreme court.

It is not probable that the crown will move for sentence until after the conclusion of the trial of the ex-cabinet minister. Chief Justice Howell, in delivering his judgment said a charge of obtaining money by conspiracy was properly laid, and it was no defence for Kelly to say that he was not extradited on that charge. There was evidence, said the chief justice, to convict Kelly on count five in the indictment, but it was unwise and unsafe to let that count stand alone. The court was divided three to two on the question of a new trial. The chief justice said his quashing would have no effect on the trial since all the evidence given under it could have been given under other evidence. The chief justice pointed out that Kelly had been convicted for stealing, receiving and obtaining money by false pretences, yet he was guilty of one crime, and should be punished on one charge.

## NO MISCELLANEOUS TRIAL

"That he has committed a crime seems by evidence clearly established," he said. "I do not think there has been good reason to refuse a new trial, and I think the motion should be refused." Mr. Justice Giesbrecht said he had arrived at the same conclusion as the chief justice. He had every confidence that the trial judge would not impose a greater penalty than permitted for the crime of the offence. Justice Cameron also concurred. "The result," summed up the chief justice, "is that a new trial is refused, and the conviction sustained." W. A. T. Higgins, counsel for Kelly, served notice that he would appeal to the supreme court.

## CANNOT CONTRACT DISEASE IN WATER

Medical Officer of Health Says Infection  
Is Not Likely While in Bathing.

A dispatch in this morning's Advertiser that a boy of 12, Stanley, to the effect that he had been attacked with infantile paralysis while in bathing, and that parents were alarmed that their children might contract the disease from the water, is quite untrue. Stanley, a child of Dr. H. W. Hill, medical officer of health. There need be no alarm occasioned along this line, as infection is not likely to result from the water. In such a large body of water, should there be any germs present, the probabilities are that they would be lost before any infection would result. Theoretically, the disease might be contracted in the water, but practically not, and I think this is not apt to be the case," said Dr. Hill. Bathing is quite safe and brings on paralysis instantly where a child happens to be on the verge of the disease, and where a doubt exists between the medical health officer.

## IN POLICE COURT

Process of Enlargement.  
"She called me a liar. I called her a liar, she called me another, and I called her a bigger one," said Mrs. Ellen Hargreaves in police court today, in giving her testimony as defendant in the charge of abusive language laid by Mrs. G. Swansa, a neighbor.

The language of the both of you was quite ladylike and affectionate, I must say," said Magistrate Judd. After listening to a lot of conflicting evidence, he bound over both women in the sum of \$50, to keep the peace for the next six months. "You're six of one and half a dozen of the other, I think," said his worship in giving judgment.

David Wilson pleaded guilty to criminal libel and was fined \$1 and costs or ten days in jail.

Oh, You Watermelon!—An exclamation of Kenneth Howell, who grabbed a large juicy specimen from the fruit stand of Stove Metries on Richmond street, after he had paid for his purchase, and also the price of the watermelon to the fruit merchant.

A "Lady Lister."—A lady lister, who was familiarly known in police court circles, was charged with carrying an excess amount of "liquid refreshments."

When brought to the station last evening she insisted on singing several "touching and pathetic ballads" against the night sergeant's wishes. She was allowed to go with her sister, who kept her for the balance of the day at last.

Has Helpers At Last.—Two listers, minus the cash, so down to the county jail to help Governor Carter with various jobs for the next 21 days.

## GOOTSON UNPAID

Motion for Payment Before Justice  
Maston Dismissed Because Not in  
Supreme Court.

In the supreme court at Toronto yesterday, before Mr. Justice Maston, George S. Gootson, representing Maurice Gootson of this city, moved for payment of money out of court, the amount awarded Gootson in his action and Port Stanley Railway Commission for land expropriated. The arbitration board awarded Gootson \$7,930, and this amount Mr. Gootson asked to be paid. When the judge learned that the money was in the county court, he dismissed the motion, as he sat in the supreme court of Ontario.

## FINANCIAL AND COMMERCIAL

### THE LOCAL MARKET

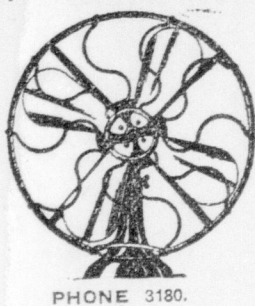

Little hay was offered on the local market this morning. The supply has been growing scarcer for several weeks. This is accounted for by the fact that the farmers are now busy with the oat and other crops, and have no time to come to market. Selling at \$11.50 to \$12.50. Straw, too, was scarce, but brought only from \$8 to \$8.25 a ton. Oats are being sold at \$1.15 to \$1.25 a cwt., and are in short supply. Vegetable prices all remained firm. Potatoes were more plentiful, as large quantities are being shipped into the city. Most of the new potatoes offered are of small size, but they sell readily at from \$1.75 to \$2 a bushel, wholesale. They retail at \$2.25 to \$2.50 a bushel. Offered in larger quantities, selling at 10c a pound. Green corn remained steady at 15c to 20c a dozen, with prospects of remaining steady for some time. Plums were more plentiful, but sold at 6c and 7c a basket. Thimbleberries sold for 13c and 15c a box. Apples were fairly plentiful, selling at 50c to 60c a bushel. Apples were offered only 24c and 25c a dozen. Butcher was scarce, bringing 36c a pound retail for country and 32c for city. Poultry prices were steady. No change was noted in live hogs. Owing to competition among local buyers, hogs were held at \$12 a cwt. live weight and \$15 a cwt. for the dressed. Fat hogs are going at \$8.50 to \$9.75 a cwt.

Winnipeg, Aug. 17.—Wheat closed 2 1/2c lower for October, 3c down for December, and 2 1/2c lower for May on the local market. Oats were 3c down for October, and 1 1/2c lower for May. Barley was 1c higher. In the last few minutes wheat broke sharply on heavy profit-taking by the big firms. The market was higher to close, but the close was not so good. All reports were bullish for the south, and the Provincial Government report was included in the day by the big houses. The demand for cash wheat and oats was very good. **M. O. H. WILL TEST WATER TAKEN FROM MACGREGOR WELLS**

Analysis Will Also Be Made by Toronto Experts.

**WILL SURVEY KILWORTH**

Samples From the White Springs Will Also Be Investigated.

At the meeting of the utilities commission held yesterday afternoon it was decided to have Dr. H. W. Hill, medical officer of health, take samples of the water at the Macgregor wells and report on its purity. The water will be tested here and in Toronto, in order to get an unbiased opinion as to its quality. In the interim a survey of the Kilworth Springs property will be made. A. E. Carruthers, formerly with J. M. Moore, architect, being engaged for the purpose.

Cal S. Parker, on behalf of the owners, appeared before the commission. He explained that he was willing to sell the property with all water rights, for the sum of \$30,000, the output to show at least one million gallons within a reasonable time.

The question of tests was brought up, Mr. Parker explaining that he had had tests made, using both city water and the Macgregor wells water. The water from the wells was no more impure, nor showed a worse test than the city water. However, he would be pleased to have the most thorough test made.

"We do not want to lose any time on this, either," said Commissioner Mitchell.

Dr. Hill will be asked to take samples of all the water and give a report. He will also collect samples from the Kilworth and White Springs property.

The parks commission suggested that the board fix a rental of \$100 for Queen's Park for shows, etc., and this will be done.

The question of closing the roads in Queen's Park for the Western Fair will be referred to the council.

The testing of the Macgregor wells will continue, the owner giving the utilities commission full power to lay wells and make all tests considered reasonable.

**LONDON MAN BUYS BUSINESS IN INGERSOLL**

[Special to The Advertiser.]  
INGERSOLL, Aug. 17.—Announcement was made today that John E. Boles had disposed of his old-established dry goods business to R. D. Ramsey of London, formerly of Edmonton. Stocktaking will be proceeded with as rapidly as possible, and Mr. Ramsey will take possession at an early date.

Mr. Boles has conducted the business for the last 27 years, and has been successful. The store is one of the best-known in the town of Western Ontario. Mr. Boles has not enjoyed good health for some time, and his retirement will doubtless prove beneficial to him in this respect.

Mr. Ramsey is a dry goods man of wide experience, and he will be accorded a cordial welcome into the business circles of the town.

**"QUEEN CITY SPECIAL," THE CONVENIENT TRAIN TO TORONTO.**

The convenient departure time of the Canadian Pacific "Queen City Special" from London, viz., 3 a.m., daily, for Woodstock, Galt, and Toronto, should appeal strongly to the travelling public. Excellent equipment, including parlor car, Pullman dining car, and Pullman sleeping car, is provided for the service.

As the time approaches for the exhibition the general offices have become a very busy place. Secretary A. M. Hunt was in Toronto yesterday in the interests of the exhibition. Every thing is running into shape for the largest and best exhibition ever held in London. There is a limited amount of space in some of the buildings yet available, but if required it should be applied for at once. Arrangements have been made with Col. Shannon to have a grand military band on Tuesday, September 12, also other following days. Watch the program announcing same. The platform attractions will be above the average. See program. The Galt Killie Band, 30 strong, have been engaged for Wednesday, September 13, and also the Clinton Killie Band. All the local bands are to assist with the program. The fireworks this year will be of special interest. There will be a change of program each night. Entries for the exhibition should be attended to at once in order to be assured of proper attention. All information at the general offices.

Forget what others think. The thing that matters is what you think yourself—Nicholas Beffel.

**COMPLAIN OF DUST**

Residents of Queen's avenue, east of Ontario street, are bitter in their condemnation of city departments that have made their street worse than Camp Borden they say. They claim that for more than five weeks the street has been a drop of water put on the street, and with the traffic diverted from Dundas street, because of the paving work in progress there.

"We have appealed to the city engineer and to the waterworks, but can get no satisfaction at all," declared one indignant resident. "The street is worse than a country road now, and the dust makes life almost unlivable here."

**LAD HAD CLOSE CALL**

Express Just Missed Him at Adelaide Street Crossing.

Otto Hilbert, employed at The Advertiser and residing at 77 Chesley avenue, had a narrow escape from death when he was going home at 11 o'clock last night.

He was riding down Adelaide street toward the G. T. R. tracks on his bicycle. He rang his bell several times, but the watchman did not see him until he was twenty yards away. Hilbert heard the watchman just in time to put on his brakes stopping a short distance from an incoming express which whirled past the front wheel of his bicycle.

**Prepare Again for An Old Sol Attack, Warns Weatherman**

"Decidedly warm today and on Saturday."

This is the weather man's that is handed out by the all-mighty weatherman for the consumption, edification and benefit of Londoners. It's not that they needed the printed word to tell them that it is hot today, for everyone realizes it better than possibly the weatherman, but the prediction of hotter weather tomorrow is hardly an alluring prospect.

Londoners who had hoped, after Sunday's coolness, that the record "burning" hot spell of 1916 was over for ever, will be keenly disappointed in today's weather, and the predictions for tomorrow. Those optimists who figured that the fall-like weather of the past week-end was to be continued are doomed to bitter disappointment.

Be that as it may, Londoners are in a more receptive mood, if such could be possible, than they were a month ago, for a continuance of the hot weather. Rains during the past week and more have dampened things down a bit, and have given gardeners and lawns a chance to recuperate after their July baking, and, in nautical terms, conditions are more ship shape now for warm weather.

Just as the week-end should be always selected for the extremes of this summer's temperature no one seems to know. That it has been proved to the hilt by the thermometer registrations. The coldest day of the summer season was a Sunday—last Sunday, to be exact—and the hottest day was likewise a Sunday. Fridays, Saturdays, Sundays and Mondays have been conversely the coldest days, if any day this summer might be called cold, and the hottest.

**NO NEW APPLICANTS**

Would-Be City Auditors Have Until Monday to File Bids, However.

No new applications for the position of city auditor have been received by City Clerk S. Underhill yet.

Those desiring to apply have until Monday morning to file their requests, and it is expected that several will offer themselves for the place.

W. R. Jones, Winnipeg, recommended by Ald. H. B. Ashplant, has applied. It is rumored that J. W. Westervelt will consider the position, although this is not known definitely. He will have much support if he does apply.

**BOARD SESSION OFF**

Controllers Will Not Meet Until Monday—May Be No Council Meeting.

There will be no meeting of the board of control today, the session having been called off, owing to a lack of business. There will be a meeting on Monday morning, to receive applications for the position of city auditor.

It has not yet been decided whether or not to hold a meeting of the council on Monday evening.

**POTATOES WILL BE LATE, BUT ONLY AVERAGE CROP**

Still Chance for Blight to Partially Ruin 1916 Production.

At present there is a shortage of potatoes. They are bringing as high as \$2 a bushel on the market, with prospects of going higher. This is caused not so much by the fact that there is a scarcity of potatoes, but because the crop is a late one. Continuous rains at the beginning of the season made it impossible to plant the crop, and as a consequence it will be several weeks late.

From present indications the crop will be only an average one, and is not likely to be large. On the other hand, it is not expected to be a small one.

There is plenty of time for the development of diseases, the most likely one now being late blight, or rot. This attacks the vegetable toward the end of August, and has been responsible for the failure of many crops throughout the country in past years. It is caused by a fungus growth, and is present usually long before it is noticed. Spots appear on the lower leaves and stems of the plant. These are dark brown to purplish black in color, and sometimes surrounded by a ring of light green. In a water-soaked appearance. In these spots the leaves often become brown. In moist weather they increase in size and number, and may involve the whole plant, causing it to die in a few days.

The infected potatoes are characterized by livid-colored patches on the surface. The flesh inside is mottled with brown spots. The disease often passes by the name of "dry rot," but this is incorrect. Late blight rot is the correct name.

This disease can be controlled perfectly if action is taken now. The plants should be sprayed about five times in a season with Bordeaux mixture, made up of six pounds of copper sulphate (bluestone), four pounds of quicklime and forty imperial gallons of water. The first treatment should be made about the middle of July, and other treatments given every two weeks. Owing to the lateness of the season these measures should begin just about now. The spraying should be thoroughly done, because the partial work is of no use whatever. Each spraying should, if possible, take place before rainy periods, and not after them.

The results of the races were:

Girls under six—Jennie White, Eric Eggett, Irma Eggett.

Boys under six—Charlie Dorman, Sam Carroll, Fred White.

Girls, 6 to 9—Pearl Sharman, Elsie Fuller, Gladys Dorman.

Boys, 6 to 9—Fred McEwen, Fred Eggett, Gordon Eggett.

Girls, 10 to 12—K. McGregor, I. Berry, Vera Sharman.
