The copy filmed here has been reproduced thanks to the generosity of:

Université de Sherbrooke

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Université de Sherbrooke

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

1908

Entered according to Act of the Parliament of Canada in the Office of the
Minister of Agriculture, by THE COPP, CLARK COMPANY, LIMITED, in
the year of our Lord one thousand nine hundred and eight.

PREFACE.

This Ready Reckoner contains tables showing the value of any number of articles from 1 to 600, at any price from $\frac{1}{8}$ of a cent to \$10.00.

The prices given rise by quarters of a cent from $\frac{1}{8}$ of one cent to 34 cents, and after that by half cents to 38 cents, and then by cents to \$1.00.

The method of using the Reckoner is shown by the following example: Find the cost of 90 yards of material @ $16\frac{3}{4}$ cents a yard. Turn to page 34 and opposite 90 under the price, $16\frac{3}{4}$ cents, is found \$15.07 $\frac{1}{2}$, which is the amount required.

Following the Reckoner are given Tables of Weights and Measures, such as are in common use, and Tables for Converting Sterling Money into Dollars and Cents, and *vice versa*. A list of Foreign Coins with their values in dollars and cents and a Perpetual Calendar are also given.

Interest Tables at six and seven per cent. form the concluding portion of the book.

Troy is the weight used by goldsmiths and jewellers. The grains Troy, Apothecaries', and Avoirdupois are equal, and the same in England, France, the United States, Holland, and in most other countries.

The oz. Troy and Apothecaries' = 1.09714 oz. avoirdupois; but the lb. Troy and lb. Apothecaries' = only 0.82286 lb. avoirdupois; while 175 lb. Troy and Apothecaries' = 144 lb. avoirdupois.

METRICAL WEIGHTS AND MEASURES.

The French Metrical System is based upon the (assumed) length of the fourth part of a terrestrial meridian. The ten-millionth part of this arc was chosen as the unit of measures of length, and called a *Metre*. The cube of the tenth part of the metre was adopted as the unit of capacity, and denominated a *Litre*. The weight of a litre of distilled water at its greatest density was called a *Kilogramme*, of which the thousandth part, or *Gramme*, was adopted as the unit of weight. The multiples of these, proceeding in decimal progression, are distinguished by the employment of the prefixes *deca*, *hecto*, *kilo*, and *myria*, from the Greek, and the subdivisions by *deci*, *centi*, and *milli*, from the Latin:—

Short Interest Rule.

One of the most convenient methods for working out interest is the following. It is short and accurate.

Multiply the principal by the number of days and divide—

If at 5 per cent.....	by 7,200	If at 11 per cent.....	by 3,273
" 6 "	" 6,000	" 12 "	" 3,000
" 7 "	" 5,143	" 13 "	" 2,760
" 8 "	" 4,500	" 14 "	" 2,571
" 9 "	" 4,000	" 15 "	" 2,400
" 10 "	" 3,600		

EXAMPLES :

What is the interest on \$90 for 95 days at 6% ?

$$90 \times 95 = 8550.$$

$$8550 \div 6000 = \$1.42 \text{ Answer.}$$

What is the interest on \$88 for 63 days at 7% ?

$$88 \times 63 = 5544.$$

$$5544 \div 5143 = \$1.08 \text{ Answer.}$$

INTEREST TABLES.

EXPLANATIONS.

In the following pages are given Tables of Interest at six and seven per cent., on any sum from \$1.00 to \$10,000, at any time from one day to one year. The tables are compiled on the basis of 30 days to a month or 360 days to a year.

While the interest in these tables is only given at six and seven per cent., it is a very simple matter to compute interest at other percentages. For instance, if four per cent. is required: Find the amount from the tables at six per cent. and then subtract one-third, the remainder will be the interest at four per cent.

If five per cent. is required: Find the amount at six per cent. and subtract one-sixth. If eight per cent. is required: Find the amount at six per cent. and add one-third. If nine per cent. is required: Find the amount at six per cent. and add one-half.

In calculating interest by days, the short interest rule given on page 123 will be found valuable.

Interest at 6 and 7 per cent.
