

## TWENTY-FIVE THOUSAND STRIKE

### Britain and France Are to Guarantee Russian War Debts

Tokio, Aug. 27.—The decision of the government to utilize all available means for increasing the production of war munitions for the Allies, particularly Russia, has aroused the greatest enthusiasm. Army officers of high rank are arranging the details with manufacturers preparatory to enlarging arsenals and factories.

It is understood that France and England have guaranteed payment for these supplies.

### TROOPS OF CZAR ARE FIGHTING FOR THEIR EXISTENCE

#### Austro-German Advance is Well Into Russia.

By Special Wire to the Courier.

Berlin, Aug. 27.—Via London.—The Russian fortress of Olita on the Niemen river, 30 miles south of Kovno, has been evacuated. Official announcement to this effect was made here to-day.

In all the wide sweep of Russian territory south of the Baltic provinces which has been covered during the great Austro-German offensive movement the fortress of Grodno is now the only strongly defended position remaining in the hands of the Russians. Olita was on the principal Russian line of defense, midway between Kovno, already in the hands of the Germans, and Grodno. It is about 50 miles southwest of the important railroad centre of Vilna, which is on the direct trunk line to Petrograd.

Olita is the ninth important Russian fortress to fall before the invaders in the last three weeks.

London, Aug. 27.—The Austro-German invaders have not only pressed their opponents into old Russia, beyond the Political borders of ancient Poland, but have penetrated well beyond the district of Russia proper inhabited by the Poles. This enormous advance has now reached a stage in which the troops of Emperor Nicholas are fighting for existence on the soil of White Russia, which for the first time during this war is feeling the effects of invasion.

The main object of the German attack around Brest-Litovsk for a number of days has been the railroad running eastward from the fortress toward Moscow. This line, with a branch running in a southeasterly direction, provided the means for Russian evacuation of the fortress. The Austro-German advance against this railroad has been so slow that it is believed here the evacuation was accomplished successfully before the fortress surrendered.

Serbia's reply to the note of the Quadruple Entente, which has not been made public although reported to have been delivered, evidently is awaited by the other Balkan states before they take further action. Doubts are now being cast on the accuracy of the report, which was accepted yesterday, that a Turco-Bulgarian agreement had been signed.

With 25,000 miners out in South Wales, England again faces the possibility of a coal crisis.

Although the admiralty thus far has not issued a report of the recent bombardment of Zeebrugge, on the Belgian coast, additional details of the damage inflicted continue to reach London. The latest despatch states that the harbor defenses were damaged seriously and several submarines were destroyed.

Transference of considerable bodies of German troops from the Eastern to the Western front is reported in press despatches.

#### A YOUNG HOPEFUL.

By Special Wire to the Courier.

New York, Aug. 27.—Waite Hoyt, a 15-year-old high school boy of Brooklyn, who has just been signed by John J. McGraw, manager of the New York club of the National League, is said to be the youngest ball player ever placed under any form of contract by a big league club. Hoyt, who was pitcher of the Erasmus High school team last year, weighs 165 lbs. After seeing him pitch in a high school game, Mr. McGraw drew up an agreement with Hoyt's father whereby the Giants are to have the services of the boy when he is old enough to play with them. It may be two or three years before he takes part in a league game.

### WELSH MINERS AGAIN LEAVE THE PITS

By Special Wire to the Courier.

LONDON, Aug. 27, 1:03 p.m.—Reports from the South Wales coal fields this afternoon state that 25,000 miners already have joined the new strike.

THE RECURRENCE OF LABOR TROUBLES IS DUE TO GROWING DISSATISFACTION WITH THE AWARD OF WALTER RUNCIMAN, PRESIDENT OF THE BOARD OF TRADE, WHO ACTED AS ARBITRATOR IN THE RECENT STRIKE. THE SITUATION WAS STRAINED FURTHER WHEN THE COLLIERIES LEARNED THAT MR. RUNCIMAN HAD DECLINED TO SEE A DEPUTATION REPRESENTING THEM.

THE MINERS CHARGE MR. RUNCIMAN WITH GOING BEHIND THE ARRANGEMENT MADE BY DAVID LLOYD-GEORGE, AND DEMAND THAT MR. LLOYD-GEORGE MAKE GOOD HIS PROMISES TO THEM.

#### MINE OWNERS SEND URGENT REQUEST.

LONDON, Aug. 27.—The Mine Owners' Federation sent an urgent request to the strikers to-day to return to work at once. The executive council of the miners' organization adopted a resolution to-day condemning the new strike as unauthorized, and urged the men to remain at work pending further negotiations.

A deputation representing the council is on its way to London in an attempt to overcome Mr. Runciman's objection to re-opening the matter.

Despatches from Cardiff at the time the strike was settled last month said that the terms accepted by the miners as a result of Mr. Lloyd-George's trip to Wales provided for a substantial increase in wages and other concessions to the strikers, which were considered by them as tantamount to an admission of their claims on nearly all the outstanding points. Mr. Lloyd-George won the men over not only by promising concessions, but by emphasizing the fact that uninterrupted operation of the coal mines was highly essential to the conduct of the war.

Mr. Runciman's award contained wage concessions, but rejected a number of demands relating to working conditions, hours of labor and arbitration arrangements.

### "SNAPPY OLD HORSE" AGE SEVENTEEN SOLD CHEAP, JUST SEVENTY FIVE DOLLARS: IS DESCRIBED AS HAVING A SLOPING SHAPE IN COURT

By Special Wire to the Courier.

Halifax, N. S., Aug. 27.—A. B. Crosby, defeated Conservative candidate for one of the local seats in the Federal election of 1911, recommended Dr. Gough for the position of official remount veterinary for the Dominion.

Dr. Gough, the Davidson was supply commission this morning. Dr. Gough, who is at present in the Western states, examined most of the horses, the purchase and examination of which were probed by the commission yesterday. Mr. Crosby said he had always considered Gough a reliable veterinary. He recommended him as an official veterinary for the Dominion and the British Government, though he could not be sure whether it was to the minister of militia or Sir Robert Borden.

Dr. Potter, Truro, sold a horse to the remount agents. He said Mr. Foster had nothing to do with the sale of the horse.

F. L. Sangster, representing Mr. Harry Harris, once traded this horse for \$35 and a cow. He thought him about fourteen.

E. C. Mackenzie took the horse's age up to fifteen and claimed he was a rough homely old horse. He was all right. Everybody took notice of the beast at the sale, because, while being run up and down, it nearly ran over everybody.

#### CAPTAIN SUSPENDED

By Special Wire to the Courier.

Nantes, Aug. 27.—The marine court has ordered that Capt. Jousseau of the steamship Champagne, which was wrecked recently while entering the harbor of St. Nazaire, be suspended from his command for a week. The court thus holds that although a captain is bound to hand over control of his ship to pilots when entering port he nevertheless remains responsible.

### COMMANDER FINCH OF THE ARABIC

Lieutenant Will Finch, of the Royal Naval Reserves, commander of the Arabic, all his officers and all the passengers were on the decks when the ill fated ship was struck by a torpedo from a German submarine and sent to the bottom eleven minutes later. Captain Finch realized a moment after the impact of the torpedo that the Arabic was doomed and immediately issued orders to man the lifeboats.

VERY SATISFACTORY.

Montreal, Aug. 27.—Sir William VanHorne is steadily improving. The following bulletin was issued by his physicians at the Royal Victoria hospital at ten o'clock this morning: "Sir William VanHorne's condition is very satisfactory."

### NATIONAL SERVICE IS DISCUSSED

#### British Committee of the Cabinet is Holding Enquiry on Conscription.

By Special Wire to the Courier.

London, Aug. 27.—The Daily Chronicle says a committee of the Cabinet consisting of Lord Curzon, Winston Churchill, Austin Chamberlain, and Arthur Henderson, is holding an enquiry as to the advisability and feasibility of conscription.

Lord Kitchener has given evidence before the committee, as have other ministers, members and officials, and it is hoped that the committee will finish its labors before the meeting of Parliament in the middle of September.

#### SAFE IN ENGLAND.

By Special Wire to the Courier.

Ottawa, Aug. 27.—It is officially announced that the Hesperian, which sailed from Canada on August 17, has safely arrived in England with the following drafts of reinforcements: Royal Canadian Dragoons, 2 officers and 15 men; horse artillery, 2 officers and 50 men; field artillery 4 officers and 100 men; engineers, 1 officer and 30 men; infantry from Ontario, 24 officers and 1,246 men. Other details, 3 officers and 6 men.

### "CATTLE KING'S" GRANDDAUGHTER, BROKER'S BRIDE, IS MISSING

Where is Mrs. Harper Lake, who was Miss Margaret Stiff, of McKinney, Texas, the daughter of Mr. Clint Stiff and the granddaughter of the late Captain E. R. Stiff, known for many years as the "cattle king" of Texas?

The foregoing question is one which Mrs. L. L. Elliott, of McKinney, Texas, her aunt, and Mrs. Winifred M. Shipley, of New York city, would like to have answered. While two relatives of Miss Margaret Stiff have established the record of her marriage to Harper Lake, of Lake Brothers, New York, cotton brokers, they have had no message from the girl or her husband.

The girl is only eighteen years old, and it is said her husband is forty-eight years old. And the disparity in their ages, said Mrs. Shipley, would have been the only objection, but no objections were made.

According to a close friend of the family the marriage of the beautiful young woman to Mr. Lake has elements of the sensational, if not of the mysterious.

### Will Change Policy Drastically If They are Well Meaning

London, Aug. 27.—"It is suggested that the American government will be satisfied if commanders of German submarines always warn passenger vessels and place their passengers in boats before sinking the vessels," says the Spectator. "We do not believe for a moment that America would consent to this caricature of satisfying international law and humane customs."

"Imagine placing women and children in small boats, 60 miles from land, in a high winter sea and piercing cold, and saying that their safety was provided for. Now we are sure that if Germany means to prevent America from taking action of some kind, she will have to change her policy drastically."

### UNITED STATES WILL BE OFFERED A FULL REPARATION FOR DEED

#### NOTABLE VICTORY, SAYS GAZETTE, FOR AMERICANS

By Special Wire to the Courier.

London, Aug. 27.—Cable despatches reporting the statement yesterday of Count Von Bernstorff, German Ambassador at Washington, to Secretary Lansing that German submarine commanders had been ordered to attack no more merchantmen, without warning are displayed prominently to-day in the London newspapers. The Westminster Gazette says:

"If Count Von Bernstorff is speaking with full authority, the American government can claim to have won a very notable victory."

#### So Von Bernstorff Assures U. S. if Arabic Was Sunk Without Notice.

By Special Wire to the Courier.

Washington, Aug. 27.—Count von Bernstorff, the German ambassador, acting on instructions from Berlin, to-day that "full satisfaction" would be given to the United States in the sinking of the White Star liner Arabia. The ambassador explained that Germany would make more than a mere disavowal, if it is found the Arabia was sunk without warning.

The ambassador did not make public the extent of the instructions from Berlin on which he acted, but it was understood they were in accord with the statement of German chancellor in Associated Press despatches from Berlin yesterday expressing the willingness of the German government to make fullest reparation if it is shown finally that the Arabic was torpedoed without warning. So far the German admiralty has received no report from its submarines which were operating in the Arabic's vicinity. Further communications now are expected from Berlin to the German ambassador and to the state department from Ambassador Gerard, which will advance the negotiations to a point where attacks on passenger-carrying ships will be definitely discontinued, at least while the subject is under further discussion. The crisis between the two countries now is regarded as having passed into the realm of diplomacy.

Count von Bernstorff called at the state department early and conferred with Secretary Lansing nearly half an hour. It had been suggested that perhaps Germany was ready also to make reparation for the Americans lost on the Lusitania, but that subject did not come up at to-day's conference. The disposition of the German embassy is to take up one step at a time.

### EXCESS CASH TO BE TAKEN FROM TOURISTS

By Special Wire to the Courier.

Paris, Aug. 27.—Every traveller leaving France hereafter will be required to declare the amount of funds in coin in his possession. If more than fifty francs (\$10) he will be compelled to exchange the excess for paper money, under a decree issued to-day by the Finance Minister, Alexandre Ribot.

This action resulted from an investigation of the scarcity of silver coin, particularly in the frontier regions. It was ascertained that coins in circulation were collected systematically for export. Even coppers and nickels were sought and exchanged at a premium.

It has been suggested unofficially that for the purpose of preventing hoarding during the war the government should announce its intention of issuing a new series of coins, after the conclusion of peace, demonetizing those now in circulation.

Cleveland street cars now have windows that can be lowered—a novelty there.

Samuel Davidoff, barber, Philadelphia is under arrest on a charge of having seven wives.

Lesson IX.—Third Quarter, For Aug. 29, 1915.

### THE INTERNATIONAL SERIES.

Text of the Lesson, 1 Kings xvii, 1-16. Memory Verses, 14-16—Golden Text, 1 Peter v, 7—Commentary Prepared by Rev. D. M. Stearns.

We have had a sample of the kings bad and good and are not asked by the committee to consider the life of another king until the end of October. We have heard the Lord's message through several prophets, and now we are to have seven lessons on Elijah and Elisha, two of the greatest of the prophets, both of whom, as well as Jonah, are mentioned by name by the Lord Jesus (Luke iv, 25-27; Matt. xii, 39-41). He spoke of Daniel also by name and said of all the true prophets that it was foolish not to believe all they said (Matt. xxiv, 15; Luke xxiv, 25, 27, 44; Acts iii, 21). There were false prophets whom God never sent, as well as bad kings (Jer. xxiii, 16, 21, 25, 26), but a true prophet was the Lord's messenger with the Lord's message (Hag. i, 13). This is our first introduction to Elijah, whose name signifies "Jehovah is my God," and his watchword is "The Lord God of Israel liveth, though I stand" (verse 1 and chapter xviii, 15). We are reminded of the angel's reply to Zacharia's "How shall I know?" in Luke i, 18, 19, "I am Gabriel, that stand in the presence of God," and also of Paul's words in Acts xxvii, 23, "There stood by me the angel of God, whose I am and whom I serve."

A true man of God has to do only with God—take his life from Him only and look to Him alone for supplies. Our Lord mentions the three and a half years without rain, and James says that it was in answer to the earnest prayer of Elijah, although he was a man subject to like passions as we are (Luke ix, 25; Jas. v, 17, 18). The reason of his prayer is found in the fact that Israel had become desperately wicked, and as to Ahab it is written of him that he did evil in the sight of the Lord above all that were before him (1 Kings xvi, 30-38). Then in the law of Moses it was written that if Israel sinned God would, among other things, make the heaven as iron or brass (Lev. xxvi, 19; Deut. xxviii, 23). Elijah therefore, in his jealousy for the honor of Jehovah, asked God to bring a drought in this manner that Israel might be brought to repentance. That Elijah might be out of the way of the wrath of Ahab the Lord sent him for a time to hide himself by the brook Cherith. Contrast "Get thee hence and hide thyself" with "Go show thyself" (xvii, 3; xviii, 1). The man of God has no say, no choice, but simply to obey.

If God is to be seen and glorified self must be out of sight. It must be "Not I, but Christ;" "Not I, but the grace of God" (Gal. ii, 20; 1 Cor. xv, 10). When the Lord sends us He will provide all that we need in His own way, and when He shall ask us at the end of the journey, "Lacked ye anything?" we shall, no doubt, be able to answer as did the disciples, "Nothing" (Luke xxii, 35). In this case Elijah's food was to be water from the brook and bread and flesh brought to him every morning and evening by ravens, real, literal blackbirds, such as the one Noah sent out of the ark. No other interpretation of ravens will stand. Notice that the Lord told Elijah where to go and then said, "I have commanded the ravens to feed thee there." To know the Lord's care we must be where the Lord wants us. "Strength and gladness are in His place" (1 Chron. xvi, 27), but if we are not in His place for us we may miss the strength and gladness. Both Elijah and the ravens were obedient to the word of the Lord, and this is all that is required of us. After awhile the brook dried up (verse 7), and some day Elijah may tell us if he had any anxiety as he saw the brook growing less and less—probably not.

If any who read this see their brook drying up, let them remember the Lord God of Elijah and Deut. xxxii, 8; Phil. iv, 10. By the word of the Lord he is now commanded to go to the house of a widow in Zarephath or Sarepta, who has been commanded to sustain him, and on his arrival there he finds the widow gathering sticks with which to prepare her last meal for her son and herself, for she assured Elijah that she had no provisions in the house, but a handful of meal and a little oil. Now make this as literally real as you can and say how you would feel with such a prospect. But Elijah had the word of the Lord to rest upon and he boldly assured her that there was no cause to fear, and that there would always be meal in the barrel and oil in the cruse, and so it came to pass according to the word of the Lord, which He spoke by Elijah, and she and he and her house did eat many days, or as in the margin, a full year (verses 13-16). It was simple and somewhat monotonous fare—meal and oil and meal—but we do not hear of any one complaining. The story of the death and resurrection of the widow's son in the rest of our lesson chapter is the first of the kind in the Bible, and has many suggestive and practical lessons. Let us lay it to heart and note verse 24 and trust the Lord to use us to give life to many. Note a similar event in II Kings iv, 22-27, by the hands of Elisha and consider the three resurrection by the Lord Jesus and see Phil. iii, 10.

#### MARQUARD RELEASE

By Special Wire to the courier.  
New York, Aug. 27.—It was stated to-day that Rube Marquard, the left-handed pitcher of the New York National League club, will not report to the Toronto International League club, to which he has been released. It was also said that Marquard has no intention of joining the Federal League, but believes that if he could obtain an unconditional release from the Giants he could sign with the Boston or Philadelphia clubs of the National League. Neither of these clubs, however, took advantage of the opportunity to pay the price of his waiver, Manager McGraw of the New York club is quoted as saying that he would not give Marquard an unconditional release, and that if he wants to continue to draw his \$8,000 salary he must report to Toronto. The situation affecting Marquard seems to be deadlocked.

### TREATY WITH TURKEY MADE BY BULGARIA

By Special Wire to the Courier.

New York, Aug. 27.—A cable to the Tribune from Zurich says: A great sensation has been caused by despatches from Berlin saying that the Bulgarian minister had informed the correspondent of the National Zeitung that Bulgaria had concluded a treaty with Turkey. The Sofia correspondent of the Vossische Zeitung telegraphed that the treaty would be signed in Constantinople on Friday.

By this treaty Bulgaria agrees to abandon her claims on Kirk Kiliss, receiving in return Karagat and certain territory along both banks of the Maritza. The new Turkish frontier will therefore run along the Tandcha river to where it runs into the Maritza, then from Kulebulgas, or Dimotika, to a point about ten kilometres east of the Maritza.

The National Zeitung publishes an interview with a neutral Balkan diplomat, supposed to be M. Rezdoff, Bulgarian foreign minister. The latter declared that the diplomatic pressure of the Quadruple Entente had reached its highest point and would be unsuccessful.

If this interview, as generally believed, was given by the Bulgarian minister, it will excite no surprise, as he is known to be intensely pro-German. When minister at Rome before the war with Austria, Rezdoff made such propaganda for Germany that he was regarded as a kind of underling to Prince Von Bulow. In fact he was so compromised that when the German and Austrian ambassadors left Rome he had to be transferred to another post and was sent to Berlin. The utterances of him are intended to aid the German cause by causing a distrust of the Balkan states among the allies, and may be part of a German eleventh hour bluff intended to confuse the issue.

ATTEMPT FAILS.

Washington, Aug. 27.—Unofficial advice from representatives of the Balkans here say Bulgaria has signed an agreement with Turkey which includes the provision that she will remain neutral, and that she attempt to form a Balkan league has failed.

News of the formation of the new cabinet by Venizelos, reached the Greek legation last night. It is said here that the demands of the Allies on Greece are unsatisfactory, and that the Hellenic Government will announce its intention of remaining neutral, for the present at least.

THE SITUATION

The news from the Eastern theatre of the war continues to show that the Russian forces are suffering little short of a rout. They did not attempt to defend Brest-Litovsk, their chief fortress on the Bug line defences, and the enemy is pursuing them with undiminished vigor, despite marsh areas or anything else. One German general, in recently referring to their withdrawal tactics as a parallel with the plan adopted at the time of the Napoleonic invasion, claimed that in view of modern equipment the method would not avail much, and this is clearly the case.

Meanwhile the feeling continues to grow that it is up to the other Allies to start some big diversion in the Western theatre. Holding the foe while they for their part continue to run sledge-hammer blows upon the Russians is regarded as altogether insufficient. It may be that the long-failed drive is on the edge of materializing, an idea strengthened by the circumstance that Kitchener and Joffre were recently in close conference. That matters are on the eve of such a movement is, for every reason, to be devoutly hoped.

The Italians still continue to meet with very strong opposition, while the veil has once more descended upon the Dardanelles operations. The statement some time ago that the Allies had obtained a commanding point on the Gallipoli peninsula caused premature satisfaction, for it has since been officially recorded that they were almost immediately unable to hold the same. An exchange says that one of the surprises of the war has been the fighting quality of the Turk. No surprise at all. He has always had it—that was why in earlier times he conquered large portions of Europe, Asia and Africa.

The splendid feat of Commander Bigsforth of the Royal Navy, in destroying a German submarine, has led to a special announcement of the achievement. In doing so they make the significant statement that it has not been their habit to announce losses of submarines by the foe, "important though they have been." This conspicuous comment means that many German undersea craft have been destroyed.

The Courier's cable service to-day contains the announcement that some twenty-five thousand Welsh miners have joined in the second strike. There is evidently need for some very drastic action to settle this renewed menace. Another cable announces that a Cabinet committee is considering some form of conscription. It will have to come.

OBJECT IS—SECURITY.

Sir Henry Lucy, of London, writing in an American paper, recalls that when, 115 years ago, Pitt, with his back to the wall, fought Napoleon, an Opposition member named Tierney, one of those forward persons of whom we have of late had experience in the Imperial House of Commons, a class who know better than Ministers how a national crisis should be met, asked the great statesman to state exactly what was the object of the war in which he had engaged the country. By odd coincidence, on the eve of the rising of the present Parliament for the recess, a man of peace below the gangway in the House of Commons, waking up to the fact that we are at war, asked the Prime Minister if he would oblige with a statement as to the causes and purposes of the conflict. Had Mr. Asquith borne the passage in mind he might have carried the coincidence a step further by quoting Pitt's reply to Tierney:

"The honorable member," said Pitt, bending angry brows upon his interlocutor, "defines me to state in one sentence the object of the war. I know not whether I can do it in one sentence; but in one word I can tell him that it is security, security against danger, the greatest that ever threatened the world. It is security against a danger which never existed in any past period of society. It is security against a danger which in degree and extent was never equalled against a danger which threatened all the nations of Europe, and resisted by none

with so much success as by this nation, because by none has it been resisted so uniformly and with so much energy."

Sir Henry Lucy well says it would be difficult to set forth in more precise yet comprehensive phrases a description of the actual situation as created by the war between this country and Germany. Mr. Asquith, a master of forceful, penetrating speech, could not improve on this impromptu statement of the Prime Minister who broke the power of Napoleon, but did not live to know of Waterloo and St. Helena.

BRITISH NATIONAL DEBT. Some interesting and enlightening information about the British national debt is contained in a recent issue of the London Economist, which prints a brief history of the debt since its institution in 1769 during the war against Louis XIV.

At the time it was created the permanent debt was criticized as "Dutch finance." Nine years after it amounted to £20,000,000, and the interest ran from 6 to 8 per cent.

The figures as commented on above are conveniently summarized by the Economist in a table:

Table with 2 columns: Year and Amount (£). Rows include 1775 (before American war), 1783 (Peace of Versailles), 1802 (Peace of Amiens), 1816, 1857, 1899, 1903, 1914 (March 31), and 1915 (March 31).

The Economist points out that "the whole of the debt-reduction that had been effected in eight recent years was in 1914 swept away by two months of the war," and by "March 31, 1915, £458,000,000 had been added to the national debt, it being then £1,165,802,000. Between March 31 and June 19, another £784,000,000 was added to this total, giving £1,949,802,000, to be made good by receipts other than from revenue."

Mr. Lloyd George put the deficit at the end of the year £860,000,000, but it will be nearer £900,000,000. In other words, unless revenue is increased by taxation at the end of the financial year, the national debt will have grown from £1,165,000,000 to over £2,065,000,000; and the debt charge (exclusive of sinking fund) to nearly £90,000,000 per annum."

NOTES AND COMMENTS. Ports do not seem to be of much use these days, except as something to give up.

There is said to be a split in the Turkish Cabinet. There'll be another one with regard to their territorial holdings when the war is through.

Sir Robert Borden is now well on his way home after the most historic visit to the Old Land ever made by a Canadian Premier. In every direction the reports have shown that the man was fully worthy of the occasion.

Roosevelt, during a recent speech at a camp of citizen soldiers in the United States, dwelt on the military unpreparedness of Uncle Sam. Now Secretary of War Wood has announced that he must not be permitted to address any other camp. Wood had better prepare for Teddy's axe.

Manitoba reports the earliest severe frost ever recorded in 27 years—twelve degrees. Fortunately, nature had so developed the wheat crop that most of it had been cut. The Prairie Province has always to face this yearly danger, while old Ontario—the best Province of all—never has to worry on this score. Even the sousing rains of this summer scarcely affected the average yield.

There Will be No Delay in This Matter

By Special Wire to the Courier. Winnipeg, Aug. 27.—"There will be no delay," said Hon. A. B. Hudson, attorney-general, when asked, as he stepped from the train to-day, how soon warrants would be issued for arrests in connection with the parliament building contracts. Mr. Hudson said he had not seen the full text of the Mathers Commission report. He wanted to review this carefully before outlining his plans. He stated, however, that there would be no hedging. The guilty would be punished, irrespective of rank or former power. The task was somewhat unpleasant, he said. "It was not a pleasant duty to prosecute to the full extent of the law those who once sat in high places, but, although the ordeal was bitter, it would be carried out to the end."

HAMPSHIRE AND "PAT'S" FAMOUS PETS

The following item, clipped from The Hampshire Observer, is of special interest at the present moment: "AN UNDYING STORY."

"Elsewhere in this issue we publish a story of the bravery of the Princess Patricia's Connaught's Light Infantry in one of the many terrible struggles on the battlefields of Flanders. It is a narrative of undying heroism, and comes home to Wintonians with as much poignancy as to the people of Canada, for most of the men who fell on that day were known to the people of Winchester. Into the trenches they went 635 strong—a depleted regiment, it is true, for they numbered over a thousand strong when they marched out of the gates of Winchester, down the Station Hill, through the city, and to their camp on Morn Hill on that cold day in November last, when they arrived at Winchester from Salisbury Plain. They passed out of the trenches, but 150. The Colonel, transferred from the Rifle Brigade to take the place of Colonel Parquhar, who had been killed, was wounded, their second-in-command, Major Gault, who raised the regiment, and financed it, was wounded likewise, and the command of the men fell upon Lieut. Nevin, who will be remembered by many Wintonians. With him was Lieut. Papineau, who, it may be recalled, had a narrow escape, from being burned to death at Winchester Camp by the overturning of a lamp which set the marquee on fire. Men who had walked the streets of Winchester, who had mixed with Wintonians, who had formed friendships in the city, and who had contracted closer ties with citizens fell in that brave struggle for the trenches. The sacrifice is great, but it covers the page in the history of Canada's share in the great European War. Few more pathetic scenes have been pictured by the pen than that of the burial of the men standing round the great open grave filled with brave comrades' bodies, the young lieutenant grasping the colors, a relic, but presented by the dust of the battlefield and dyed with the blood of those sacrificed lives yet still intact. Lieut. Nevin, in place of a chaplain and without a prayer book, recited what passed out of the Church of England Burial Service he could remember, and then, the men standing in silence after the service as if riveted to the spot until a sternly hearted command ordered them away, to a scene worthy the brush of an artist. We hope some painter, who can realize the incident will paint it, and that it will find a place among the cherished possessions of the Dominion, for that were ever done a copy might well be obtained from Winchester, where the brave men who gave their lives for King and Empire passed the last few years of their careers on English soil."

CONDITIONS BAD

By Special Wire to the Courier. Boston, Aug. 27.—Information regarding the condition of the missionaries who recently reached Tiflis, Russian Transcaucasia, after a flight from their station at Van, Turkish Armenia, was contained in a cablegram from the United States consular Board of Commissioners for Foreign Missions to-day. Mrs. Geo. C. Raynolds, an aged missionary, who is suffering from a broken leg, was reported to be in a serious condition. She has been in Turkey 46 years. Dr. Clarence D. Usher, reported seriously ill on his arrival at Tiflis, was said to be improving. Mrs. Usher died before the party left Van.

WILL SELL SHIP.

By Special Wire to the Courier. Seattle, Aug. 27.—The Great Northern Steamship Company announces it is arranging to sell its only steamer, the Minnesota, and discontinue trans-Pacific service, which has never been profitable. The Minnesota, now discharging cargo at Vladivostok, will return to Seattle for a load of wheat, lumber, salmon and flour, which will be taken to England by way of Cape Horn, as the Panama Canal could not admit the Minnesota, the largest vessel on the Pacific coast. The vessel is expected to find a buyer for the Minnesota in London. The vessel is valued at \$2,000,000.

REACHED AGREEMENT

By Special Wire to the Courier. Paris, Aug. 27.—Representatives of the Entente powers and Greece, following to a dispatch from Athens to the Havas Agency, have reached an agreement upon greater trade privileges between these countries, which has produced an impression that public opinion in Greece favors the Allies. Henceforth, all importations to Greece will be allowed without hindrance on the basis of trade statistics, Greece undertakes to prevent re-exportation to the central powers or Turkey, and to permit free transit and access to Greek territory to all goods destined for Bulgaria and Serbia. Partisans of the Entente comment upon this act of the Venizelos ministry as a good augury for further negotiations.

FOUR PERSONS KILLED

By Special Wire to the Courier. Phoenix, Ariz., Aug. 27.—Four persons were killed and twelve injured when part of a north-bound Atchison, Topeka and Santa Fe passenger train from Phoenix to Prescott fell through a bridge at Date Creek, 70 miles north of here to-day. The bridge had been weakened by a cloudburst. The engine passed over safely, then the span collapsed, plunging a smoking car into the stream.

WHEAT CROP NOW ENGAGES MILLER'S WHOLE ATTENTION

By Special Wire to the Courier. Toronto, Aug. 27.—The disposition of Canada's wheat crop is engaging the serious attention of prominent millers and bankers of this city. It is absolutely certain, the milling men say, that the Allies this year will buy their wheat in the cheapest market. They suggest a conference of the ministers of agriculture throughout the Dominion to bring the matter to the attention of the government of Great Britain. A leading banker, discussing the situation, said that if Canada's wheat crop were stored, the banks might advance the farmers money on it, but they could only do so at the rate of sixty cents a bushel. It costs on an average 60 1/2 cents per bushel to grow and store the wheat. This banker thinks the government of Canada should at once impress upon the British government the importance of taking care of Canada's wheat.

INDICTED FOR MAN SLAUGHTRE.

Chicago, Aug. 27.—Walter K. Greenbaum, manager of the Indiana Transportation Co., was indicted by the County Grand Jury to-day charged with manslaughter in connection with the Eastland disaster. His company leased the steamer for the excursion which was blocked by the capsizing of the Eastland in the Chicago river with the loss of nearly a thousand lives. The indictment charges that the boat was unseaworthy and overloaded.

BURNS WRE IN DANGER. While several farmers were burning hay yesterday afternoon, the farm of Mr. Young, on the Fallow road, saw several bundles near the haystack caught fire in some inexplicable manner and threatened to near-by barns. The men succeeded in hauling the bales into a clear space and then putting out the blaze. This was not accomplished before the hay well was nearly emptied, and one of the men, fearful for the safety of the barns, phoned the Central Fire Department. The call was received three o'clock and the captain and fireman went out with chemical. Then the blaze was soon extinguished, but it took considerable time to drive out there. The need of an automobile truck in the city was again urgently seen.

BRANT THEATRE. Earl's six water nymphs and Charlie Chaplin picture attracted a very large crowd yesterday. The five nymphs were better than usual, and made several new dives. SECOND DRAGS EFFECTED VERY QUICK RESCUE

To save three little children from death by burning, and also to check at the outset a formidable blaze, is the proud record of the Second Dragons this morning, although as the men say "it is all in the day's work."

When the Second Dragons under charge of Serg-Major Mayot were marching over Lorne Bridge this morning, smoke was noticed issuing from the rear window of a house on Gilkinson street, and flames could be seen mounting the window curtains. Immediately the command was given to "break ranks" and the whole squad, rushed pell mell over the intervening fences and into the house. They found there that not only was the fire making headway, but that three little children were in the midst of the flames. They quickly rescued the tots and attacked the flames, extinguishing them in short order.

The house is No. 33 Gilkinson street and owned by Mrs. Farr, who had gone next door for a moment leaving her three children in the kitchen. By some means or other the gas stove became overheated and set fire to the window curtains, the little children, helpless, were too terrified to escape. All of them were scorched, their hair being singed, and one little boy's blouse was in flames when the soldiers burst in.

The distracted mother came in a few moments later and found to her unspeakable relief that the black coats had averted what might have been a terrible tragedy.

The fire was completely extinguished before the soldiers left, so no alarm was rung in.

Chief Lewis, however, upon learning of the incident, expressed his deep appreciation of the work that had been done by the soldiers and commended highly their promptness and efficiency.

MACHINE GUN FUND GOING ON STRONG

Further expressions of generosity and loyal feeling are to hand in the lists below. They are highly creditable to the city and people:

FINLAND AND THE WAR—HER VIEW

A Finlander, in whose friendship a Courier representative stands, on a confidential basis, talking many months ago, gave some interesting sidelights, which are borne out now relative to the reported attitude of the Finnish people towards this war.

Finland, it must be remembered, was ceded from Sweden to Russia, and thereby lost her autonomy and both religious and political freedom. She became part of Russia and the process of Russifying, while it left her with a house of representatives, took from her the right of final judgment, that resting with the Czar and the imperial government. Her school system has altered also, and the spiritual submissiveness for which the Slav has been remarkable, has been to some extent grafted on the alien Norse stock of the Finns. The people are very ignorant—schools are luxuries, living is poor and the daily wages of a laboring man is only a matter of 25 cents per diem. In fact, between conquered Poland and the Finns there exists a bond at present which reflects the racial antipathies engendered by centuries of oppression by the Big Bear.

There are many of both nations in Brantford, and their opinions are indeed on one point: "Why is Democratic free England on the side of autocratic Russia?" it presents to their mind such a contrast, that to a prejudiced person amounts also to pro-German sentiment.

Says one: "My brother a soldier of Russia (a Finn) sends me a letter asking is it true 'England is on the side of Russia'—the feeling of concern being that England, which to them has represented 'democratic advance, has fallen from her high estate in taking up arms with such an ally."

Germany they love as little and fear as much, though they can admire the better conditions of life that people the education freely given, even if it has resulted in the Prussianizing of a whole nation—to them it looks preferable to the dull, dead officialdom and merciless punishment meted out to their leaders for political freedom.

"Yes," says the Finn, "I have lived in England, great free country, fine people, but as yet not economically free as she is politically. I have seen the advance, but as yet not economically free as she is politically. I have seen the advance, but as yet not economically free as she is politically. I have seen the advance, but as yet not economically free as she is politically."

Briefly he left Russia young enough to escape service, has since been a resident of England, and a follower of Marxian and Slavian Socialism, a student wherever he could find tutors in shop or school, and to-day feels bitterly from his enlightened mind of western freedom the doom of his beloved motherland.

"Yes, sir, I would fight Germany, die for Canada, if the need comes, but no, sir, I would not take up arms on the battle front for Russia. She has done nothing to make that worth while doing. England lose? Never; fine navy, fine spirit, but she will cripple herself if Russia does not get a set back in this war. Some day in the future, Germany and England will fight side by side against Slav militarism. I like that; for outside race things and militarism, they are very nearly alike; but with this war, as with all war-madness, why not disarmament and peace?"  
So the questioning goes on from many peoples, and the truth and hope is that once the autocracy that demands from German and Muscovite the price of their life's blood, have in this welter of bloodshed, have in this welter of bloodshed, have in this welter of bloodshed, there will come economic changes that will remould opinions as to what constitutes living.  
The above opinions are an interesting sidelight on the dispatch which said that Finnish sentiment swayed wholly by the feeling of antipathy to Slav rule was overwhelming in favor of Germany as victor over Russia, and not for any other viewpoint. England as they call her—has always stood for freedom, but "why this?" France a republic, "why this?" Italy with a king who mingles on state terms with his subjects "why this?" and only the victory of the Allies will give a solution; only the expansion of ideals and the communion of collective suffering would supply the remedy; for Russia, no more than the others, can be the same.  
Our friend states that the Finns are not whole-hearted in this war, they are rather like sheep driven to the slaughter and therein lies, perhaps, some truth.

RECRUIT CLASS GOT INCREASE IN STRENGTH

The recruit class of the 38th Dufferin Rifles grew enlarged; it contained nine active youngsters last night, of which five were Canadians and the rest Old Countrymen—one up this time.

Col. Sergt. Hart was on the floor, and the recruits on the qui-vive, so that a couple of hours were passed quickly.

When the colors are finished with that squad they ought to be one of the best tutored sections to be drafted into the regiment, if painstaking thoroughness and patient repetition, with an irresistible fund of humor to aid, can inculcate into civilian minds the articles and essentials of a soldier.

Next night additional recruits will be taken on, and two squads may be at work, the fact that the number increased so quickly being an augury of greater things.

ACTIVES LOOKED ON  
The "lookies" were commented upon by several active, and one sergeant, an ex-Guardsman of twelve years service, said "He'd seen worse." There is hope therefore that the bunch will be made into a fairly efficient lot in three weeks, the thorough grinding is bound to influence their ability to execute.

OTHERS LOOKED ON  
How shy some young men are—they take a trip to the armories, but cannot be induced to sample the goods, that resting with the Czar and the imperial government. Her school system has altered also, and the spiritual submissiveness for which the Slav has been remarkable, has been to some extent grafted on the alien Norse stock of the Finns.

MY EMPLOYER, ETC.  
It is felt also that the excuse "my employer might not like it," is a poor one, which employers could eliminate by having a printed slip to this effect placed on the office notice boards, stating their willingness.

MEN KEEP COMING IN FOR FRONT

Eight men, five of them Canadians and six of them unmarried, joined the 32nd battery last night for active service. This brings the battalions strength up to 32, and the officers of the 32nd are highly pleased at the way recruits are coming in.

If any man has any sporting goods he wishes to contribute, the battery would be pleased to receive them—football or baseball material preferred.  
Captain Cutcliffe being still slightly under the weather, Capt. McLean is now in charge at the armories. Eight men joined up yesterday and are out at drill doing hard work.

The 25th Dragons also landed four recruits so that the total for yesterday was twenty.

## BRANTS GOT EVEN BREAK WITH LEAFS

Brantford managed to break even with Knotty Lee's crew yesterday afternoon. They should have taken both games and would have done so, but for the disastrous first innings of the first game. Chase walked Collins and shortly after, Brown, Kelly doubled to deep centre field and Collins scored. Then Kelly made the plate drive into the right garden. Manager Warner thought things looked too dark, so he pulled Chase and sent in Ryerson. Two men were put out and the frame came to an end. They were retired in order in the next frame but they were three to the good, for another run had been made on Ryerson's wild pitch. The kid had had no opportunity of warming up before he went in. He controlled the rest of the game splendidly. Streeter, as usual, got on first by singling, but was touched out in trying to steal. Neither Comstock or Cooper could get on. And the next three batters went out in the second and third. The Leafs were right on their toes all the time and the Brants had to buck against some air-tight fielding. Schaeffer made a brilliant one-handed catch of Ryerson's willow, in deep right field. The Leafs came across with still another in the third. Kelly rapped out a grass cutter past second, just out of Fried's reach. Ort's sacrifice and a passed ball placed him on the third sack. Schaeffer singled past Dunlop and Kelly crossed the plate. Collins

for in this game, but they prevented the visitors from raising their score. Dunlop made a neat double play, unassisted, in the seventh.

**SECOND GAME.**  
This game was much faster and both clubs played much better ball. This time the Warnettes got off to a good start. They held their opponents down in the first and came across with a run themselves. With two out Cooper was given a base on balls, and through two boots and Buster Burrill's timely bingle, brought in the only run of the game. Harkins and Collins each made a single in the second and third respectively, but that was all the Leafs could get off. Close, Kirley was also good and the

remainder of the game was uneventful. The Leafs were retired in order in every innings from the fourth to the last. And it was only through a couple of walks that the Brants got on the bags after the first.

Cooper played much better in this game, but was not at his best. It was a poor baseball day and he seemed rather indifferent in the first game. Ira Thomas, the noted catcher of the Philadelphia Americans, and one of Connie Mack's scouts, thought he had better stay over for to-day's game also. The score:

## MAYER COMES BACK TO HIS OLD FORM

Philadelphia, Aug. 27.—The Phillies won from Cincinnati by 4 to 1 yesterday; Mayer pitching steady ball throughout. The only run made by the Reds came in the second inning, when Griffith drove the ball out of the park. Dale, pitching for the visitors showed lots of speed, but the Phillies bunched hits off him in the first and eighth innings, scoring two runs in each session. Score: R.H.E. ## AND BRAVES IN 9TH DARKNESS STOPS CUBS

Boston, Aug. 27.—Chicago and Boston had scored four runs each when darkness stopped the game after nine innings yesterday. The Braves' early lead of four runs looked good, with the recruit pitcher Neff working well. However, Chicago earned two runs in the sixth and poor fielding by Maranville and Smith put them in a position to tie the score in the 7th. Score: R.H.E. Chicago ..... 000002200—4 6 1

New York, Aug. 27.—Kantelheuer defeated Stroud in a pitchers' battle here yesterday, and the Pittsburghs won the third game of its series from New York by a score of 2 to 1. The visitors bunched five of their nine hits in the second and third innings, when they did all their scoring. The score: R.H.E. Pittsburgh ..... 011000000—2 9 2  
New York ..... 000100000—1 7 0

## COBB CELEBRATES BY BEATING BOSTON

Detroit, Aug. 27.—Detroit and Boston yesterday played the third hair-raising game of their crucial series and the Tigers won by their twelfth and seventh. Muffs by Burns and Cobb in the ninth enabled the league leaders to score four tallies and enjoy a one-run lead. Leonard passed Kavanagh in the Detroit half; two infield outs put the pinch hitter on hurling past Wagner to tie the score. Cobb opened the twelfth with a single to left, took second on Crawford's sacrifice, and walked home when Veach hit the left field wall. Cobb celebrated the 10th anniversary of his debut as a Detroit player, and was presented with a bouquet of roses. R.H.E. Boston ..... 00000101000—6 10 1

## ONLY TWO HITS OFF ROSS

London, Ont., Aug. 27.—Ottawa won their fourth straight game on Tuesday by 7 to 1. Mulina, pitching for London, was found for 15 hits in all, mostly of the scratch variety, these and three errors by Lamy, who replaced Whitcraft at short, enabled the Ottawas to score their seven runs. Eckstein got the only hits off Ross and scored, saving the locals from a shutout on a steal and a sacrifice fly by Mulina. Score: R.H.E. Ottawa ..... 022003000—7 15 2

## PALMERO GOES BACK TO THE GIANTS NEXT YEAR

New York, Aug. 27.—Emilio Palmero, a left-handed Cuban pitcher, of the Rochester International League, team, was signed by Manager McGraw yesterday to pitch for the New York Nationals in 1916. Palmero's contract is said to stipulate that he will not be transferred to any minor league club. He will report at the close of the season.

## RED SOX HAVE ALL BEST OF SCHEDULE

If the Boston Red Sox return home with a three or four game lead it will be hard to beat them out with 25 games on the home grounds to wind up the season. Commencing to-day the team will have sixteen straight games with Cleveland, New York and the Athletics, eight with the last named, and the chances are that they will win a large percentage of these games. It can be seen the Red Sox have a great advantage in the schedule, and they are playing good ball to boot.

## ANOTHER OF THE GRAYS JUMPS TO THE FEDERALS

Providence, R.I., Aug. 27.—Eddie Onslow, first sacker of the Providence International League club, came to terms with P. B. Brewer, Federal League agent, last night, after several conferences, and is expected to join the outlaws to-day. DUNN GETS \$3,500 FOR PITCHER ALLAN RUSSELL

Richmond, Aug. 27.—Manager Dunn of the International League team announced to-day the sale of Allan Russell, pitcher, to the New York American League club for \$3,500 for delivery about September 7.

## MARQUARD IS STILL OPPOSED TO TORONTO

Giants' Acquisition of Herbert Contingent on Deal.

New York, Aug. 27.—"Rube" Marquard may have been released by the Giants to the Toronto Club of the International League; but, according to "Rube," that fact is not going to drive him to the Canadian city. "Rube" refuses to play with Toronto. That was the way he felt about the release last night.

## CANNOT GET HIS RELEASE

John McGraw, on the other hand, insists that Marquard go to Toronto. The Giants will not give "Rube" his unconditional release as they did in interpretation of the attitude toward him is that McGraw is stinging under the criticism that has been heaped up on him for the release of Murray and Snodgrass, both of whom have been making good, Murray with Cubs and Snodgrass with the Braves.

## HERBERT IS IN THE DEAL

It is this attitude of the Giants that lends some credence to the report that there is more involved in the Toronto transaction than merely the release of "Rube." Though it is denied that the purchase of Pitcher Herbert of Toronto hinges on the obtaining by Toronto of Marquard, the belief that there is some such condition persists.

## MIGHT HAVE PAID TO DROP THE BALL AND HOLD THE RUNNER ON

Chicago, Aug. 27.—A new world's record for consecutive innings played in three consecutive games by two clubs, was established here yesterday when the Chicago White Sox and Washington Senators battled thirteen innings, the latter winning by a 1 to 0. Incidentally it was the fourth straight extra innings game played by Chicago, making a total of 8 1/2 innings played in six days. On two of the six days double-headers were played. Washington won the game through the poor work of Blackburne and Leibold's poor throw to the plate. In the thirteenth Williams doubled, and McBride hit to Blackburne, who could have tagged Williams, who was running to third, but held the ball too long and McBride beat the throw to first. Johnson, who replaced Boehling in the twelfth inning, sent a foul towards the left field. Leibold made a long run and caught the ball, but his throw to the plate was wide and Williams scored the winning run. Score: R.H.E. Chicago 000 000 000 001 0—1 7 3  
Washington 000 000 001 0—2 7 3  
Boehling, Johnson and Williams; Russing and Daly.

ALLIED AIRMEN RAID BELGIUM IN HUGE FLEET

Squadron Also Bombed a Town in Rhinisch Prussia.

Paris, Aug. 27.—Sixty-two aeroplanes rose from behind the French lines into a grey dawn yesterday, wheeled and manoeuvred into four groups, and sped away towards Rhinisch Prussia. It was the biggest and most formidable squadron of fliers that had ever set out as a body to bombard an enemy position.

Sarrouis, over the heights of Delingen, a small town in Rhinisch Prussia, was the objective, for at Sarrouis is a great German factory where shells and armour plate are being made.

From the moment that the aeroplanes, the aeroplanes crossed the German front until the army of aerial invaders had returned the crack of anti-aircraft guns was incessant.

The losses, if any, are not stated by the War Office, but it is probable that the damage was great, as it seems it must have been from the huge quantity of explosives carried by so many aeroplanes and dropped on a single target.

This raid was duplicated yesterday by one of equal proportions against the wood of Monthulst, in the north of Ypres, in Belgium, in the squadron which sailed forth on Thursday were 62 aeroplanes, but they were not all French. British and Belgian aeroplanes participated.

Heavy fires were observed as the fliers turned and began their flight back.

CREATES A RECORD.

So far as official reports have disclosed, there never has been previously by an air raid of such magnitude, so far as concerns the number of machines employed, as yesterday's attack by 62 aeroplanes.

In a few earlier ventures of the kind 30 or more aeroplanes were used. Press despatches have indicated that the principal belligerents have built great numbers of aeroplanes, and as a result of the development of this branch of the service since the outbreak of the war.

Count von Bernstorff, the German Ambassador, called upon Secretary Lansing and informed him that the statement presented Tuesday by direction of the Berlin Foreign Office saying there was no intent to cause loss of American lives when the White Star liner Arabic was destroyed, was intended to imply that German submarine commanders had been ordered to attack no more merchantmen with warning.

FUTURE RELATIONS MORE HOPEFUL WITH GERMANY

Washington, Aug. 27.—Two important developments yesterday in the relations between the United States and Germany further reduced the tenacity of the situation and were taken to foreshadow a declaration from Berlin on the subject of submarine warfare which would eliminate that source of discord between the two countries.

Count von Bernstorff, the German Ambassador, called upon Secretary Lansing and informed him that the statement presented Tuesday by direction of the Berlin Foreign Office saying there was no intent to cause loss of American lives when the White Star liner Arabic was destroyed, was intended to imply that German submarine commanders had been ordered to attack no more merchantmen with warning.

THE OFFICIAL REPUDIATION. Ambassador Gerard, reporting from Berlin the substance of a conference with Foreign Minister von Jagow, confirmed the Associated Press despatches of earlier in the day that Germany even before the sinking of the Arabic, had adopted a policy designed to settle completely the whole submarine problem.

The statement of von Jagow made clear the following principal facts: That the sinking of the Arabic caused by a German submarine, was not a "deliberately unfriendly" act, but—

1. That the sinking of the Arabic, published proves to be true, the arbitrary act of a submarine commander, and an act not only not sanctioned, but decidedly condemned by the German Government.

2. That Germany is anxious to meet the demands set forth by President Wilson's last and original Lusitania notes.

3. That since the sinking of the Lusitania, the German Admiralty has done all in its power to prevent a recurrence of such a disaster, and in fact, has taken specific steps to prevent danger to American passengers.

4. That the German Government is most desirous of maintaining peace and friendly relations with the American Government.

5. That if the Arabic was sent to the bottom by a German submarine under circumstances such as resulted to by scores of passengers and published in the foreign press, Germany will express its deep regret over the incident and will be ready to make full reparation.

BRITISH AIRMAN SANK SUBMARINE AT ZEEBRUGGE

Several German Submarines Destroyed by the British Fleet.

London, Aug. 27.—From out of the sky came the weapon that destroyed an immense host yesterday, recorded in the annals of history the first time that an aircraft sent a submarine to the bottom.

Lieut. Commander Bigsforth won for himself the distinction of having accomplished this feat. Single-handed, while on an "air patrol" near Ostend, Belgium, he tackled a German U boat and within a few minutes his victim, completely wrecked, submerged for the last time.

The text of the statement follows: "The Secretary of the Admiralty announces that Squadron Commander Arthur W. Bigsforth, R.N., destroyed single-handed a German submarine early this morning by bombs dropped from an aeroplane. The submarine was observed to be completely wrecked and sank off Ostend.

"It is not the practice of the Admiralty to publish statements regarding the losses of German submarines, important though they have been, in cases where the enemy has not other source of information as to the time and place at which these losses have occurred.

"In the case referred to above, however, the brilliant feat of Squadron Commander Bigsforth was performed in the immediate neighborhood of the coast in occupation of the enemy, and the position of the sunken submarine has been located by a German destroyer."

SEVERAL DESTROYED. Concerning the recent bombardment of Zeebrugge, Belgium, by a British fleet, the Amsterdam Tidy says it has learned that a large number of soldiers were killed by the fire of the fleet, and that 90 severely wounded men were brought to Ghent.

The material damage done, it adds, was apparently very great, as a shed built for submarines was completely destroyed and with it some submarines.

MANY HAVE BEEN SUNK. The significant announcement in the Admiralty report that it is not the practice of the Admiralty to publish statements regarding the losses of German submarines, together with the statement of the Earl of Selborne, President of the Board of Agriculture, in the course of an address to a deputation of agricultural landowners that the navy now has the submarine menace well in hand, lends color to recent unofficial reports to the effect that British have late months captured a large number of these submarines, visible vessels, and that many others have been sunk. The number sunk has been variously estimated at from 20 to 40, but yesterday's statement that the only official admission that they were others than those previously announced by the admiralty as having been destroyed.

THE ONLY CURE FOR A WEAK STOMACH

INDIGESTION AND SIMILAR TROUBLES MUST BE TREATED THROUGH THE BLOOD. Indigestion can be treated in many ways, but it can only be cured in one way—through the blood. Purgatives cannot cure indigestion. By main force they move on the food still indigested. That weakens the whole system, uses up the natural juices, and leads to the stomach and bowels parched and sore. It is actually a cause of indigestion—not a cure. Others try pre-digested foods and peptonized drugs. But drugs which digest the food for the stomach really weaken its power and makes the trouble chronic. The digestive organs can never do the work properly until they are strong enough to do it themselves. Nothing can give the stomach that power, but the new, rich, red blood that Dr. Williams' Pink Pills give.

THE GERMAN SPIES Work in Brussels Alone. A neutral lady, who has just managed to get out of Brussels, has a long and sad story to tell about conditions in the Belgian capital under the regime of the "Soltan."

Every man, woman and child, there are about 6,000 on von Bissing's list, and these 6,000 have been given free tramway passes, as it has been found that Belgians speak quite freely in tramcars.

STREET GAMING'S REVENGE. "The Brussels 'letjes'—street boys—have found a new method of teasing the Germans. They carry scissors in their sleeves, and when they get near a German soldier in a crowd, they cut off the leather knots of his sword."

ALL OVER A NEWSPAPER. This lady tells the story of a poor Belgian manufacturer whose husband has been sentenced to five years' detention in a German prison simply because he was suspected of getting English newspapers. He was "tried" before a German court-martial, and as there was no evidence of his crime, the Germans went to a Belgian whose aged father had just been sentenced to be shot for spying, and told him he could save his father's life by going to the court and swearing that he knew that this Belgian received English newspapers.

"If you refuse," he was told, "your father will be shot. If you do it, he will be released at once. You have ten minutes to think matters over." With his father's life in the balance, that could the poor man do, except obey his tempters?

A FEARFUL 'CRIME.' The world has been told of the arrest of Mme. Carton de Wiart, wife of the Belgian Minister of Justice, and the Germans stated she had been arrested and sentenced for corresponding with her husband. This is not true, of course. The truth is far more original. Mme. Carton de Wiart played an amusing trick on the German non-commissioned officer whose mission was to keep a tireless watch on all her movements. She is a splendid walker, so that some time ago, on a Saturday, she determined to make a picnic with her children in the woods of Evveruen, near Brussels. She departed early in the morning by train, with the food for all in a knap-

sack. It was a very warm day, and the party was very lively. The German was following. Half way to Tuveruen the party alighted and walked into the woods, where the lunch was taken on the lawn. The German was looking on, and was invited to participate in the meal. After lunch the walk was continued for five hours, the plan being to show a German officer how a Belgian woman can "outwalk" as well as outwit him.

Every now and then the German, perspiring in his heavy uniform, would approach Mme. Carton de Wiart: "Pray, madame, will you not take the tram now?" The reply was, "Certainly not. I must walk for my health, and must see my children. But I don't prevent you from taking the tram."

This lasted the whole day, and at 9 p.m. the party returned home, followed by the infuriated German, exhausted and half-starved. A report of the affair was sent to von Bissing, who ordered the immediate arrest of Mme. Carton de Wiart for having "grossly insulted a German non-commissioned officer."

"The Brussels 'letjes'—street boys—have found a new method of teasing the Germans. They carry scissors in their sleeves, and when they get near a German soldier in a crowd, they cut off the leather knots of his sword. I must see my children. But I don't prevent you from taking the tram."

POSITION VIA THE CANADIAN ROCKIES. At the present time a great many are planning their annual tour. Considerable numbers visit the popular California resorts, while many prefer the unsurpassed resorts, palatial hotels and magnificent scenery of the Canadian Rockies. This year why not combine the two by a visit to the Panama-Pacific Exposition?

Numerous people in comfortable circumstances will be able to afford a trip, having the mistaken idea that a journey of this nature is most expensive. This is not so; thanks to the modern railway facilities, an extensive trip, both interesting and educational, can be made with speed and comfort at a comparatively small cost. Why not investigate?

MR. WILLIAM H. VANDERBILT, eldest son of the late ALFRED G. VANDERBILT and MISS CONSTANCE W. PERKINS of NEWPORT. William H. Vanderbilt, who in November will be fourteen years old, is the eldest son of the late Alfred G. Vanderbilt, and already, for his age, is an accomplished whip and sailor. By his father's will he has inherited a trust fund of \$5,000,000, Oakland Farms, Mr. Vanderbilt's famous place at Portaustrail, R. I., and notable heirlooms. The coach Venetia is his and also the gold medal voted by the United States Congress to his great-great grandfather, Cornelius Vanderbilt, at the close of the War of the Rebellion in 1865.

A SUNDAY SERMON BY PASTOR RUSSELL

TO KNOW THE TRUE GOD IS TO LOVE HIM. He is a God of Mercy and Love.

The Glories of the Divine Character Unknown to the World—Faint Glimpses Given to the Israelites—A Clearer Vision Given to the Church of Christ—Still Increasing Light—Gross Darkness Covers the World—"The God of This World Hath Blinded the Minds" of Unbelievers—The Knowledge of God's Glory Shall Cover the Earth During the Messianic Kingdom.

Columbus, O., Aug. 22.—Pastor Russell is in our city to-day. We report his discourse on the text, "The glory of the Lord shall be revealed, and all flesh shall see it together." (Isaiah 40: 5.)

He spoke as follows: This text implies that a time is coming when the glory of God will be revealed, and all flesh shall see it together.

everybody will know about the glory of God. This will include not only all who will be living, but all who have ever lived. We rejoice that God has so grand a program. We are given an intimation of this as we look into the past and observe that the glory of the Lord has not yet been revealed to the world.

God gave some little intimations of His glory, His character, His design, to Abraham, telling him that by and by He purposed to bless the world through Abraham's Seed. But this was only a promise, not a revelation of God's glory; for only Abraham believed. Nevertheless he got a glimpse of His Law as he believed God's promises; so also did Isaac and Jacob. They saw faintly a great purpose of good on God's part, and a time coming when the curse of sin would somehow be rolled away and the true knowledge of God would reach all the human family. But still the glory of the Lord was not revealed.

This hope, though vague, continued with the Israelites, descendants of Abraham, Isaac, and Jacob. After their deliverance from Egyptian bondage, at Mount Sinai God made a covenant with them. If they would keep His Law, He would demonstrate their qualification to be the Seed of Abraham to bless the world. But they were unable to keep the Law. None of the fallen race of Adam was able to do so. (Romans 8: 3-10.)

The hope of becoming the Spiritual Seed of Abraham faded from the minds of the Israelites. But to strengthen them the Lord promised He will make a still greater covenant with the Law Covenant.—Jer. 31: 31-34.

Israel could not keep God's perfect Law. They failed because they were sinners, members of Adam's race, born in sin, and in iniquity. What did their mothers conceive them, as the Bible explains. Finally God sent His Son, "born under the Law," to put under the Law for the very purpose of demonstrating that what the Law could not do He could do. He kept the Law, thus manifesting that "He was holy, harmless, undefiled, and separate from sinners." Sinners were unable to keep God's Law, but He came to give life to the dying world. He must first lay down His own life as an equivalent price for the life of Adam, in whom the whole race fell; and He must also be a perfect Law, to redeem those who were under the Law. He must take the step of sacrificing His human life-rights, that He might do the Father's will. This He did.

But even then Jesus was not the Seed of Abraham that should bless the world, except as we might regard Him, properly, as having been begotten to be this Seed. At the time of His baptism, He was begotten of the Holy Spirit to a New Nature. It was here that He consecrated His human life-rights unto death. During the three and one-half years of His ministry He carried out His Covenant of Sacrifice. This work was not fully completed until He died, when He cried, "It is finished," and died. When on the third day God raised Him from the dead, He was fully qualified to be the Blessor of the world as Abraham's Spiritual Seed—a qualified man, but a spirit Being, privileged, with the price at His command, the value of His own human life-rights, to make application of it in the Father's due time, as a redemption-price for Adam and his race.

Since His resurrection, our Lord Jesus is the Spiritual Seed of Abraham. Speaking of Jesus' death and resurrection, the Apostle Paul says: "Wherefore [because He was obedient unto death] God hath highly exalted Him, and given Him a name which is above every name." (Philippians 2: 8-11.) This name is Christ, the Anointed of God. Christ Jesus is anointed to be Head over the Church

which is His Body, anointed to be the great High Priest after the Order of Melchisedec, anointed to be King of kings and Lord of lords, and who shall come into His Kingdom.

"To the Jew First." The Bible tells us that God, who made this glorious arrangement for our Lord Jesus, provided also that a certain class should be gathered out of the world to be members of His Body, otherwise called "the Royal Priesthood," "the Bride, the Lamb's Wife," and His Joint-heir. The work of calling out this class has been going on for nearly nineteen hundred years. It was necessary that our Lord should begin this work of selecting the Church with the Jews.—Acts 3: 25, 26; 13: 46; Romans 1: 16; 11: 7-21.

In a very few years the Lord apparently would select 25,000 Jews who were thoroughly consecrated to Him—"Israelites indeed, in whom was no guile." These were ready to receive Him. To such He said, "Unto you I have given to know the mysteries of the Kingdom of God; but to them that are without, all these things are spoken in parables and dark sayings." As it was in the Master's day, that none of the unrepentant ones, either Jews or Gentiles, could walk in Jesus' footsteps, and as the things revealed to the worthy ones were revealed to their eyes of understanding, so to to-day the Master's words equally apply. The Lord's consecrated ones shall see, shall understand. It is not God's will that others shall know now. Their time to know will be that mentioned in our text. By and by the Message shall go forth to all.

We recall the various steps in the selection of the Church. First God selected the worthy ones from the Jews in Palestine, then from those scattered abroad. The Apostle says that everywhere the Jews were sought first, and only after they had had their opportunity was the Gospel sent to the Gentiles. God wished a very cosmopolitan church to be gathered with Christ for the blessing of all mankind. Jesus is the Head of all these. All must be true-hearted, all must come through the same low gate of consecration, all must walk the same Narrow Way, walk in the footsteps of their Forerunner. Whether Jews or Gentiles at the start, all are now New Creatures in Christ. Old hopes, aims, and desires have passed away, and all things have become new.—2 Corinthians 5: 17.

Truths Revealed in Due Season. We have briefly traced the history of the world. During all this time the glory of the Lord had not been revealed. It is true that our Lord Jesus knew about the glory of the Father. The Apostles also saw the glory of the Lord clearly before their minds. Not many, even in the early Church, could see clearly. (Eph. 1: 18-23.) The Apostles, though fully in God's favor, were ignorant, however, to know certain things that we may now know. Certain truths are dispensational and cannot be understood until the due time has arrived. To illustrate: The Prophet Daniel sought to understand certain things that had been declared to him. But the angel replied, "Go thy way, Daniel; for the words are sealed till the Time of the End."—Daniel 12: 8-10.

The Scriptures indicate that we entered the period of the Time of the End in the year 1799. Since then, the knowledge of the times and seasons has been forthcoming, and at times and seasons have gradually been becoming better understood as the due time came for the wise in Heavenly things to understand. To this class it will be given to know everything that the Very Elect are to know, until the time when Christ shall receive the last of these unto Himself. We should rest ourselves in the Divine arrangement of things, and not seek to ferret out the things that which the Lord has not yet made clear.

God is able to make clear in due time whatever He has decreed shall come to pass. If we are in the right attitude of heart, we shall have enough to keep the eyes of our understanding open so that we can appreciate the things which are freely given us of God. His true children are witnesses to the Very Elect are to be opening the eyes of our understanding more and more during these last days. Certain great blessings have come to the God's people, particularly during the last forty years—riches of grace and knowledge.

Satan a Liar and Murderer. The world in general has been laboring under a gross misconception of God, which had its start six thousand years ago in Eden. God had said to our first parents respecting the fruit of the forbidden tree, "In the day thou eatest thereof, dying thou shalt die." But Satan, through the serpent, said, "This is not true. Ye shall not surely die." Thus he made God a liar, while he himself became a murderer; for he slew our race. (John 8: 44.) But God remained quiet. He did not smite Satan down, although He sentenced Adam and Eve to death and drove them out of Eden.

Practically the whole world has been deceived by Satan's lie. Mankind believe that when they appear to die they really become more alive—that what is called death is really a good thing for them. Practically everybody believes that God spoke falsely when He said, "Dying thou shalt die." This has greatly dishonored the Heavenly Father. Throughout the entire six thousand years He has been misapprehended. Satan's lie became the foundation for other falsehoods and misrepresentations. It has continued and multiplied; and upon it have been built all sorts of wrong suggestions regarding God and His character.

The lie is to-day at the bottom of nearly all wrong doctrine. God has been misrepresented to be the One who inflicts punishment upon the terrible tortures which we are told are being inflicted in places called Hell and Purgatory. That God had to put men somewhere in the theory. A dead person could not really be in Hell or conscious; but if the supposedly dead

person is alive, he must be put somewhere. "Only a handful fear God, and therefore the great mass," they say, "must have gone to a place of torture, being unable to attain the whole Heaven, they must be in Hell or Purgatory."

Many say, "God would be glad to destroy man if He could, but He made man too well to do so. He said that man would die. He can not kill the soul, which is immortal." Nearly everybody believes this nonsense about our Heavenly Father. They slander Him, making Him out to be the worst Being that ever lived. One cannot picture any more wicked being than we have been told that our Heavenly Father is. We are given all sorts of descriptions, according to the measure of ignorance and blindness of the one describing God—the God of all grace and mercy. Why has He not smitten those who have thus blasphemed His Holy Name? But He has said, "I have loved some of His children to do this in ignorance and blindness.

To some in his day the Apostle Paul expressed the fear that Satan would beguile many of the Church, as he had beguiled the Jews, by false doctrine, misrepresenting the Almighty. (2 Corinthians 11: 3.) It is very difficult for us to realize that we ever came into such a condition as that, but we have, yet we must have done so. It is difficult for us to sympathize with others who are in that condition; but we were once just as blind ourselves. Ignorance is the great evil which the Adventurer has used to lead the whole world.—Acts 3: 17; 1 Corinthians 2: 8; 2 Corinthians 4: 4.

Satan is a rebel against Jehovah. He wishes that the glory of God should not shine in the hearts of mankind; for it has a sanctifying influence, causes us to will and to do God's good pleasure. Satan would hinder us, would keep us in the dark respecting God's real character.

God's Purposes Will Be Accomplished. The idea of some evangelists that God is sweeping and smiting His teeth over the condition of our race is because they do not know that there is a God of all Wisdom and Power, who has full control of the situation. He has a broad, deep plan that will all work out properly, and in doing it will be an anxious concern whatever; for He has laid the responsibility upon His Son Jesus, as the Bible sets forth.

In this great work of human uplift the Church will be associated with Messiah will bless all of Adam's race, her Lord. For a thousand years it will progress. As the Bible declares, restoring to them all that was rejected by the Jews. For a thousand years it will progress. As the Bible declares, restoring to them all that was rejected by the Jews. For a thousand years it will progress.

Detroit, Aug. 26.—In their excitement over the hot fight the Tigers making for the pennant, Detroit almost—but not quite—forgot Tyrus Raymond Cobb, star outfielder and idol of the baseball world, who has completed ten years of service with the Tigers yesterday. The occasion was marked by no special ceremony other than the presentation to the famous Georgian of a huge bouquet of "American Beauty" roses.

HAS NEVER HIT BELOW. The marvellous Georgian has had nine full seasons with Detroit, but only in only 4 games in 1905 first year. In these nine campaigns he has never failed to well over 300, his lowest being in 1906, and his highest 420 in 1914. He has topped the American League batters since 1907, and is sure to again this season, making a total of nine years of leadership, a record never even approached by any other player. In addition to his prodigious hitting, he has led the league in stolen bases several times and his ways has ranked among the most brilliant fielders.

It is impossible to overstate what Tyrus has done for baseball Detroit. Largely because of his derring do the club has maintained a record in winning three championships in the time and finishing the second division but twice in 1906.

EXCHANGE MEN SAILING FOR THE STATES SOON

By Special Wire to the Courier. Paris, Aug. 27.—Octav Homberg, of the foreign office, and Ernest Mallet, regent of the Bank of France, have been designated by the Finance Minister, Alexandre Ribot, as the French delegates who are to join British representatives in New York early next month to consider the best means of obtaining French and British credit balances in the United States to stabilize the exchange rates. Mr. Ribot gave them their instructions to-day, and they are to depart for the United States on Monday.

BRITISH REPRESENTATIVES.—London, Aug. 27.—The Daily Express says it has been definitely settled that Lord Reading and Sir Edward Holden, accompanied by two officials will go to the United States to settle the question of exchange with American bankers. The Daily Telegraph says that owing to German submarine activity it is unlikely that the date of the missions departure will be advertised.

RECEPTION AND PRESENTATION TO REV. C. H. LIGHT.—St. Paul's Parish Hall presented a pleasing appearance last evening when the congregation tendered to the Rev. C. H. Light and Mrs. Light, their congratulations at a reception that was very largely attended.

Football.—A meeting of the Brantford and Paris Football Association took place last evening and it was decided to play the all-star game on Saturday next which was postponed from last week on account of the rain. The team to represent the rest of the league will be the same as last week with the exception of Collinson who is unable to play and J. Washington, Aug. 27.—Future relations between the United States and Germany were regarded much more hopeful here to-day than for many weeks past.
