CONTRADICTS REPORT

Bathurst N.B. Jan 24—On Friday 23rd inst. the Fredericton Gleaner had a despatch from Bathurst to the effect that Mr. E.J.M. Bourgeois of Tracadie disapproved of the attitude of the Opposition Convention at Caraquez in nominating Mr. J.L. Ryan barrister of Bathurst to oppose I. C. Rand of Moncton in the present provincial by-election. The Gleaner also commented editorially on the attitude taken by the Opposition in Gloucester and stated that Mr. Bourgeois declined the nomination and went on to intimate that he was not in sympathy with the action taken by the convention.

The Gleaner's articles are so far from the truth that a telegram was forwarded to that paper outlining clearly Mr. Bourgeois position and telling exactly where he stands with regard to the present provincial government and his attitude in reference to the candidature of Mr. J.L. Ryan the opposing candidate.

In the telegram to the Gleaner Mr. Bourgeois states that he is solidly behind the opposition and their candidate in this contest.

The telegram which Mr. Bourgeois has authorized to be forwarded to the Fredericton Gleaner in contradiction of the untrue report emanating from local government sources and appearing in the Fredericton paper, which favors the Veniot administration, reads as follows—

Tracadie, N.B. Jan 24, 1925
Gleaner Office, Fredericton, N.B.

Dear Sirs: Your Bathurst informant as well as your editorial appearing in yesterday's issue being entirely misreading in regard to my political attitude in the present by-election I must ask you to give my flat contradiction to those statements the same publicity in today's issue. In the first place I am fully in accord with the action taken by the Opposition

party in contesting this present by-election and I have never heard that any outside influences have had any bearing on the party's decision and I had no reasons nor ever expressed any reasons to any persons for absents myself from the Opposition Convention held at Caraquez on Thursday last and was not aware that I had to furnish any even to the Gleaner's informant at Bathurst who surely must be a stranger to the political noises in this county or otherwise he would have known that I have not been present at any political convention held in this county during the past twelve years and that I never was an aspirant for any political office at this time or at any time in my life. He must likewise have known that I was not even offered the nomination in the present contest. Owing to the nature of my business interests I never have been what people style a party man but have always been guided by what was best in the interests of the province and our county.

In the present case I think the Opposition Party in this county have acted wisely in contesting this by-election and that the choice of the convention held by the Opposition Party at Caraquez on Thursday last is a very acceptable and popular one and from my observations will go a long way to bind the Conservative forces together stronger than they have been for some years past and this time I am solidly behind the party and their candidate, Mr. Ryan.

If your other reports are so much astray as the references you have published about me then all I have to say is that the Veniot party are fighting a lost cause in this county and that Mr. Ryan is as good as elected now.

E. J. M. BOURGEOIS,
Tracadie, N.B.

ONE IN FAVOR OF CHURCH UNION

Ottawa, Jan 26—By a large majority of the congregation the First Congregational church last night, voted in favor of entering a Union with the Westminster Presbyterian Church, creating the first Union Church in Ottawa. Other reports: First Presbyterian Church, Edmonton, for Union 1; against 421. Grierson Presbyterian Church, Edmonton, for Union 38; Against 44. Moqueen, North Edmonton; for Union 4; against 23. Beverly, Edmonton; for Union 5 against 10. Dovercourt Road Church, Toronto for 333; against 897. Knox Church, Galt, for 363 against 540.

Halifax, N.S. Jan 24—Following the announcement of the vote on organic Union in four Halifax Presbyterian churches a meeting of all true blue Presbyterians was held in the city at which a resolution was unanimously passed to proceed immediately to take steps looking towards the formation of a new Presbyterian congregation in the city a step which is being taken in many districts throughout the Province where Presbyterianism still remains staunch and true.

Committees have been appointed with few exceptions at all the meetings held and plans are already underway in the city of Halifax to find a place of worship and if this can be arranged in either church or a hall. A though definite announcement of the plans of the anti in the city of Halifax and in other districts throughout the Province have not yet been made it is planned in many instances to have the opening services in the new congregations before the end of January.

MUCH INTEREST IN SUN'S ECLIPSE

Great interest was taken here Saturday morning in the eclipse of the sun. Although a trifle cold and a strong wind blowing, the weather was highly satisfactory from the standpoint of the amateur astronomer.

While the eclipse was not a total one in this section of the continent, it was nearly so. Many persons, armed with smoked glasses, were on hand before nine o'clock gazing heavenward and were soon rewarded by the first sign of the darkening process of the great orb of the day. The eclipse began here at 9:15 o'clock a.m. and continued until shortly after eleven o'clock. The limit was reached at 10:30, when the sun, as seen through a smoked glass, resembled a new moon with its point towards the earth. It was quite dark at this time, especially indoors and in places not exposed to the sun's rays. As it was the only opportunity, people now living will ever have to observe an eclipse of the sun, nearly everybody availed themselves of it. For a time overcast skies hampered the observations but it is, announced by scientists, who were in the path of totality, that the conditions were ideal for their observations.

BATHURST DEFEATED CHATHAM 8-1

Bathurst administered another bad drubbing to the Chatham team last Tuesday night, winning by a score of 8 to 1 in the Bathurst Arena. This concludes the first half of the schedule for the Bathurst team and they lost but one game.

CHATHAM BROKE WINNING STREAK OF CAMPBELLTON

Chatham broke Campbellton's winning streak by winning out Friday night 6 to 1; and out-playing and out-skating the visitors at all stages of the game. Chatham was strengthened by several changes in the line up which worked to great advantage in the encounter. The work of Moar in goal was excellent as was also that of Campbellton's net minder, LeBlanc.

The visitors gave a splendid exhibition of combination play, but Chatham's outer defence generally broke it up, before it got within the danger zone. Chatham took the lead early in the game and they were never headed. Kerr was responsible for four goals, Duncan for one and J. Fallon for the other count. The visitor's lone tally was secured in the last half of the third period, when Pete McLean got away on one of his headlong rushes and batted his own rebound behind Moar. The Chatham forward line was slightly changed. Kerr, McMahon and Duncan were the snipers and the Campbellton goalie found them dangerous at all times. Les Lowther of Amherst handled the game in a manner that gave satisfaction to all. Few penalties were handed out.

The line up was:—
Chatham Campbellton
Moar Goal LeBlanc
J. Fallon Defence Sharpe
R. Keoughan Defence McLean
Kerr Centre Lavolette
Duncan R. Wing Thomas
McMahon L. Wing Wilkins
Subs, Chatham—T. Fallon, J. Keoughan.
Subs, Campbellton—H. Mann.
Referee—Les Lowther

DISASTROUS FIRE AT TROUT BROOK

Last Tuesday morning the beautiful residence of Mr. Kiah Copp, of Trout Brook, was totally destroyed by fire. Practically all the contents were destroyed although outbuildings, which were detached, were saved. At the time the house caught on fire Mr. Copp was on his way to Newcastle to attend the annual meeting of the County Council, of which he is a member. He was intercepted on his way to town and returned immediately.

Rev. A. R. Yoemans Named As Rector

The appointment of Rev. A. R. Yoemans as rector of St. George's, Charlotte County, was announced at the meeting of the Board of Missions of the Fredericton diocese synod by His Lordship Bishop Richardson. Mr. Yoemans is a native of Newcastle, N. B.; and has resigned from the parish of Derby and Blackville in this diocese and came to the diocese of Fredericton from Millerton in the diocese of Nova Scotia.

Fire at McDonald's Store, Chatham, N.B.

An alarm was rung in about six o'clock Friday evening for a fire in the building on Cunard Street occupied by A.B. McDonald as a shoe store. The building is owned by Wm. Gay of Neguac. The fire which was in the upper floor of the building is thought to have been caused by an overheated pipe. The damage suffered was but slight and is covered by insurance.

RYAN IS SELECTED TO OPPOSE RAND

J. L. Ryan, lawyer, of Bathurst was selected as the Conservative Candidate to oppose Hon. I. C. Rand, Attorney General, of Moncton in the coming provincial by-election at the convention held Thursday in Caraquez.

A large and enthusiastic assembly of friends and supporters of the Provincial Opposition met in convention in the College Hall, Charles Poirier, of Caraquez, presided, while E. Degraze, of Shippegan, filled the office of secretary.

The first action of the convention was to form a county organization. J. Bennett Hachey of Bathurst, was made president, and Donald A. McIntyre, of Bathurst, secretary. A member from each parish throughout the county with the president and secretary are to form the county executive.

After completing organization the convention was asked to consider the advisability of contesting the coming by-election. There was a very decided feeling that such action was desirable. The convention then proceeded to select the standard-bearer and J. L. Ryan was the unanimous choice. His was the only name before the convention. Mr. Ryan who is a prominent lawyer of Bathurst, then addressed the gathering; speaking both in English and French.

Other speakers addressing the convention were C. D. Richards, M.L.A., Fredericton, leader of the opposition forces in the Legislature and A. J. Doucett, M.P., Kent Co.

Fraser's To Erect Paper Finishing Mill In Madawaska

Edmundston, Jan 23—Substantiating rumors that have been in circulation for some time to the effect that a paper finishing mill would be erected in Madawaska, facing this municipality, the city council has received a formal written communication from the Fraser Company, requesting that a feed pipe be constructed, maintained and repaired, the pipe to start from the proposed site of the mill at Edmundston and traversing certain streets of the town until it terminates at the international bridge on the St. John River. The feed pipe will be utilized for transporting the pulp to the new mill where the product will be converted into paper.

Camp Chocolate

Here's a new food confection. Moirs Camp Chocolate. It is a solid tablet weighing half a pound, in compact form, for hitch hikers, campers and outdoor sports generally.

The beauty of this chocolate is

that it is a delicious eating chocolate; a sustaining food that tides over between meals, and in addition it makes a most refreshing beverage without the addition of sugar.

The price—25c—is so low it prevents you from realizing how good Moirs Camp Chocolate is.

Northumberland County Council

The County Council met on Tuesday at 2.30 p. m. with R. J. Gill, Warden of the Municipality in the chair. The Warden called the meeting to order and in a short address to the Council gave the following figures as compared with last year with regard to the bonded indebtedness of our County etc.

Is Your Paper Paid For?

Newspapers have continually to notify subscribers that their subscription is due. Weekly papers have the same problems as their brothers in the daily field.

Daily papers today are under a system of inspection through an independent audit of their circulation that makes it compulsory to have their subscription lists clean.

A newspaper's power to secure revenue is based on its circulation. If it has a good circulation in its field it can secure business that makes the necessary revenue. The system under which nearly every paper in Canada now operates gives the office no credit for circulation that is not paid in advance. If a paper is carrying a thousand subscribers in arrears it does so at a direct loss.

Every newspaper has the unpleasant experience of having subscribers stop their subscription because a warning was sent out that the paper must be paid or discontinued. There is not a paper in existence that does not regret the departure of an old subscriber, not so much for what the connection means to the paper in the way of one subscription, but it breaks a long-standing friendship between paper and reader, and the paper is practically powerless to pursue any other course when it insists on payment of the subscription.

There is hardly another business in the country that deals with so many individuals as a newspaper, and for that reason it becomes all the more difficult to depart from the strict and fair practice or prompt collection of subscription rates. The reader who pays promptly is helping make his paper a better paper; he is giving encouragement to the whole organization to go and do better work; to provide more complete news service, to discuss with greater point the issues of the day.

The reading public, if they could get the side of the question that the office of publication has to face would be quick to realize how necessary the paid-up subscription is to the successful carrying on of the newspaper business.

OLD ORCHARD, Me., Jan. 20—W. J. Mewer, for many years chief of police, is dead. He was sick for five days. Deceased was born in South Nelson, N. B. and lived here since 1890. He was a realtor, a Mason and Odd Fellow. He left a wife and two sons.

Prince Of Wales Sails For South Africa March 28

The Prince of Wales made a public appearance in order to offer a toast of good health to the celebrated New Zealand rugby team, the "All Blacks" at a testimonial luncheon given them as a farewell by English sportsmen at the end of their triumphant English tour. The Zealanders took on 28 teams in Great Britain during the winter and beat all of them. Then they went to France and continued their broken string of successes.

At the luncheon to day the Prince presented the champions with a loving cup as a testimonial of the admiration with which they are held by British sportsmen. He charged them to tell the people on the other side of the earth that, although the oil country had lost her knack of winning for the time being, she did not intend to make a habit of it. His reference was as much to cricket as football, for the Australians had been winning a series of cricket matches in Australia from the invading British team during the past few weeks.

The Colonial office today issued the itinerary of the Prince's South African trip. According to the plans he will leave England March 28 and will touch at Bathurst and Freetown will spend a few days on the gold coast and Niagara and will arrive at Capetown April 30th. He will tour the Transvaal, Bechuanaland and the Rhodesia visiting all the important towns. His South African visit will end July 22 when he will go to the Argentine where a schedule already has been arranged for him.

Following his South American trip the Prince will pay his second visit to Ireland. His first trip to Ireland was as long ago as 1911.

WILL FOLLOW HIS CONGREGATION
Rev. D. MacOdrum, Minister of St. Andrew's Church in Halifax, in a letter in the Halifax Herald, says if his congregation votes against entering the United Church he will

certainly remain out with them. In view of the depth of cleavage revealed by the last few weeks' voting Rev. Mr. MacOdrum, on Sunday last, advised his congregation to vote against entering the present union.

A WOMAN'S SUFFERING

Relieved by Lydia E. Pinkham's Vegetable Compound

Verdun, Montreal, Quebec.—"I am one of thousands who have taken Lydia E. Pinkham's Vegetable Compound and I have great faith in it. I can safely say it has relieved my troubles and I shall never be without a bottle of it in my house. Since my last baby was born I suffered from pains and backache and would feel so tired I could not do anything in my home. Since I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine I feel so different. I recommend it to all my friends and hope it will cure other women who are suffering from the troubles I had."—Mrs. THOS. H. GARDNER, 321 Evelyn Street, Verdun, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for the new mother. It is prepared from roots and herbs, contains no harmful drugs and can be taken by the nursing mother.

Its worth in restoring the mother to normal health and strength is told again and again in just such letters as Mrs. Gardner writes.

A recent census of women users of the Vegetable Compound shows that 98 out of every 100 women taking the medicine are benefited by it. They write and tell us so. Such evidence is sufficient to call it a dependable medicine for women. It is for sale by druggists

Give Up Preacher And Install Radio

Bouctouche, N. B., Jan. 17 — Reports from Coatesville, a village in this country, are to the effect that members of the church congregations there have about decided to dispense with the weekly sermons by their visiting preacher. Instead they are preparing to instal a radio set in the church and in that manner get their sermons out of the air.

While advocates of the plan have pointed out that by means of radio a greater variety of sermons will be available and by exceptionally able preachers and opponents foresee serious consequences if the machine happens to get tuned in on a jazz orchestra concert or some such programme in error.

North West Miramichi Notes

North West Miramichi, Jan. 19— Mr. Halvor Astles was the guest of Mr. Douglas Dunnett Sunday.

Miss Blanche Way has returned home from a visit in Millerton.

Miss Margaret Copp was the guest of Mrs. James Allison on Sunday.

Miss Blanche Way on Saturday and Sunday was the guest of Mrs. Henry Allison.

Quite a few of the people up in this section are laid up with the "Sore Head Grip" and they all seem to think the disease was well named.

Mr. Halvor Astles, Joseph Hosphord and Charles Walsh were the guests of Harry Allison on Sunday.

Mrs. Percy Hosphord was the guest of her mother Mrs. Kitchie Allison on Saturday.

The bobcats seem to be very plentiful around here coming right up to the houses.

We are glad to hear that Mr. Jerry Mullin is recovering.

Mr. Klah Copp starts for the Councilors meeting Tuesday, we hope his attendance meets with good results.

Mr. Harry Walsh is driving the leading team for the Dunnett & Copp Co.

While hauling water up the hill Mr. Douglas Dunnett got stuck and had to call the aid of Mr. Walsh's team to finish his trip.

Miss Elisabeth Dunnett was the guest of Mrs. Percy Hosphord on Thursday.

GIRLHOOD DANGERS Can Be Avoided by Keeping the Blood Rich and Pure.

The anaemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, hasty and irregular eating, insufficient outdoor exercise and not enough rest and sleep. It comes on gradually, beginning with languor, indisposition to exertion and a feeling of fatigue. Later combs aches. In the majority of cases constipation is present, and the complexion takes on a greenish-yellow pallor. The treatment is quite easy and simple. Dr. Williams' Pink Pills are just the tonic to remedy this wretched state of health. They act directly upon the blood, and as it becomes rich and pure, strength and activity returns. The glow of health comes to the cheeks, and soon the trouble will disappear and good health follow. Miss Pearl Parks, E. R. No. 1; Reboro, Ont., has proved the value of this medicine, and her statement will point the way to health to all other weak girls. She says:—"I was very ill with anaemia. I could not sleep at night; my appetite was poor, my face and lips were very pale and my eyes dull. I got so weak that I could not go upstairs without resting. I took dizzy and fainting spells, had no ambition whatever, and did not care to go about. I was in this condition for nearly a year. I had treatment from two doctors; but did not regain my strength, so my mother who was very uneasy about me, decided I should try Dr. Williams' Pink Pills. After using the pills for a while I felt somewhat better, and continued taking them until I had used about a dozen boxes, when I was again well and strong. I can strongly recommend Dr. Williams' Pink Pills for the treatment of any suffering from anaemia."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Broadcast College Courses and Degrees

Boulder, Col. Jan. 14— College courses and degrees via radio is the latest move under way at the University of Colorado at Boulder, Col. where plans are in the process of formation whereby college credit may be gained in economic, education, domestic science and vocational courses through the ether.

The movement is sponsored by the extension department in its 1925 program, which contemplates offering nightly lectures to be broadcast throughout the west.

The plans call for different divisions, one night being given over to economics, another to arts course another to domestic science, and so on. Radio students would be required to take lecture notes and forward them to instructors for grading. Examinations would be conducted through the mails at stated intervals.

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light even better than gas or electricity, has been tested by the U.S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean; safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. EEL GRASS FOR UPHOLSTERING

The Maritime Merchant says:— About twenty-five years ago we were very much interested in the creation of a new industry in the use of eel grass for upholstering purposes. We were reminded the other day of that new departure of twenty-five years ago, but reading an item in the press to the effect that an exhibit of eel grass at Wembley had created inquiries and that the firm of Van-geelkerken & Co. Ltd., upholsterers of London, want all they can get. We do not know how profitably eel grass can be shipped from the Maritime Provinces to London, but we can say that there is still plenty of eel grass left, and there are plenty of ways to get some of it across the ocean if it can be sold there at a profit.

Death Rate For 1924 Lowest On Record

That the general death rate for the year 1924 will be the lowest on record is forecasted in the Statistical Bulletin of a Life Insurance Company doing business in Canada as well as in the United States. The prediction is based on the cumulative death rate of more than fifteen million industrial policyholders calculated up to December 15, 1924.

The principle cause of death, in order of magnitude, were: Organic diseases of the heart, 123 per 100; 000 population; tuberculosis 101; cancer 89; pneumonia 89; chronic nephritis 65; cerebral hemorrhage 59. As compared with the preceding year, there has been a markable decline in the death rate from diphtheria, measles and scarlet fever.

The Catechism Of Hate

The German Attitude to France Recalls That of Carthage to Rome

To the Editor of The New York Times:

A dispatch from Paris tells us that a "Catechism of Hate" has been published and distributed in the Rhineland territory by a German Nationalist organization. Here are some of its precepts:

"Thou shalt hate France eternally. Thou shalt break the bonds and chains with which the hereditary foe would bind thy country. Thou shalt fill thy heart with disgust and contempt for all French manners and customs.

"Thou shalt nurture in the soul of thy children the sentiment and the desire for a bloody revenge.

"Thou shalt feed the burning flame of revenge.

"Thou shalt await with faith the great day that will bring thee peace and revenge."

Many readers will be reminded of the oath of Hannibal, who, when he was a boy, was led to the altar by his father and required to swear eternal enmity to Rome. It would be well—for Germans, especially—to remember not only the oath, but the disastrous sequel of the story, which may be said to have been written under the famous legend "Carthage must be destroyed!" How the Carthaginians exhibited their wonderful enterprise and valor in the Punic wars, and yet how Scipio carried the war into Africa, and in the end the City of Carthage was utterly destroyed and the site was plowed over and sown with salt, and the remnant of the inhabitants were sold into slavery.

From Germany's attitude since the Great War that was so disastrous to her, and from the discovery of her secret preparations, the inference appears to be plain that she contemplates repeating the sorrowful experiment. In that event, it may be regarded as a certainty that the great powers will come to the aid of France even more readily than in 1914—and this time not unprepared, nor will there be any euphemistic armistice to soften the blow of a surrender, nor any lack of promptness and severity in collecting reparations.

It behooves the Germans to remember the fate of Carthage; the war may be carried across the Rhine next time. And yet, as has been remarked, there is an unaccountable perversity in the working of the German mind. The best educated German woman that I ever met widow of a famous American—exclaimed at the beginning of the World War, "We could forgive France—but England, never!" Think of it!

Claiming Name
"Presbyterian"

To the Editor of the Gleaner,
Sir,—May I have space to make reply to certain Unionists who claim that Presbyterian congregations going into the United Church of Canada retain the right to call themselves Presbyterian?

1. In the preamble of the Church Union Act, it is stated that the negotiating churches "have agreed to unite and form one body or denomination of Christians under the name of the United Church of Canada." In section 4 (a) of the same Act we have these words "the said churches as so united are hereby constituted a body corporate and politic under the name of the United Church of Canada." I have on careful search of the Act, failed to find either hint or suggestion that a negotiating church, or any congregation of such church, shall do otherwise than bear the name "The United Church of Canada."

2. A letter addressed to the Hon. N.W. Rowell, K.C. by G.W. Mason and McGregor Young, the legal counsel who prepared the Church Union Bill, says "in our view the Basis of Union and the Bill as approved by the Union Committee for a union of the negotiating churches, and upon the passing of the Act these churches would cease to exist." Which simply means that those who go into the Union cease at the moment of their entry to be Presbyterian and become United Churchmen.

Neither in doctrine nor policy will the United Church of Canada, Presbyterian, nor dare it claim so to be. That section of the Presbyterian Church in Canada, which goes into the merger leaves behind it the very "vitals" of Presbyterianism, amongst other features the ordained eldership, the right of the people to choose their ministers, the Westminster Confession of Faith, the Larger and Shorter Catechisms. What is the point of holding on to the husk when the kernel has been thrown away?

4. It is extremely unlikely that the large Methodist majority in the United Church will permit the retention of the name "Presbyterian." The Methodists would have a right to construe any attempt to retain the name as an insult to themselves, and as signifying unwillingness on the part of Presbyterians to be identified with them.
To put it bluntly, for any concurring Presbyterian congregation to call itself "Presbyterian" after being merged, as by law it will be merged, in the United Church of Canada is just sailing under false colors.

Yours,
R. MURPHY

CANADA PUSHES
HER WAY NORTH

Exploration of the Little-Known "Barren Lands" is Again Taken Up.

VAST INLAND COUNTRY VISITED

Haunts of the Caribou and Musk Ox Traverse surveyed Last Summer—Bird Breeding Place Found.

Although nearly one-sixth of the area of the Canadian Dominion is included under the name of the "Barren Lands," there has been very little authentic information available about their nature and possible resources. Most of the exploration throughout these regions was carried on in the earlier days—from 1770 to 1834—in the way of various overland journeys in connection with Arctic expeditions by sea, searching for a Northwest passage to the Orient.

These lands then lay far from the outposts of settlement, and, with the primitive forms of transportation available at that time, estimations of their possible value and resources were bound to be based upon restricted standards. From the close of that period of exploration to the present day, over a span of nearly a century, with its great strides in settlement and in the development of transportation and economic machinery in general, little has been done to reconsider the possibilities of these regions in the light of present-day conditions.

In order to obtain first hand information about the country, and at the same time lay down a skeleton system of survey for all possible future development purposes, control traverse and exploration surveys were extended last Summer through a series of waterways lying to the north and east of the eastern part of Great Slave Lake.

The waterways followed consist of a series of large lakes draining to Great Slave Lake which lie in a great plateau region of uniform elevation and generally subdued topography. This represents the drainage peak of the country in which some of the waters flowing into the great rivers of the North take their rise—Mackenzie River of the Western Arctic, Coppermine River of the Middle Arctic, Backs River of the Eastern Arctic and Thelon River flowing to Hudson Bay.

The coast line included between the mouths of these rivers exceeds 1,500 miles. It may readily be appreciated that as the head waters of all these rivers closely approach the lake series, the route by these waters is important in giving access to a vast area of inland country and an extensive stretch of coast line. In this connection it might be noted that a practicable water route was discovered in the course of the survey connecting with Coppermine River.

It was observed that the country became less rough toward the north and east and that the accumulation of soil was greater, with a corresponding improvement in the amount and variety of vegetation. The name "Barren Lands" as applied to the greater portion of this country is a misnomer. It is true that trees do not grow beyond a certain line, and to the north and east of this line areas of barrenness exist where soil is either lacking or too coarse for ordinary plant life; but in the greater portion of the country a variety of shrubs and mosses cover the hills and grasses flourish in the swampy valleys. The animals are of outstanding interest, native to the country, in the barren areas, leaving the open lands for the woodlands for a short period in the depth of winter. The country traversed forms the water divide between the Mackenzie and the Athabasca rivers.

FAMOUS PAINTINGS
COMING TO AMERICA

New York Dealers Give More Than \$1,500,000 for Six.

Six famous paintings have been purchased from the collection of the late Earl Spencer of Althorp Park, Northamptonshire, England, and are to come to America. This became known yesterday when it was learned that the paintings had been acquired by Duveen Brothers and were to be sent to this country soon.

The paintings include two portraits of Georgiana, Duchess of Devonshire, one by Sir Joshua Reynolds and the other by Gainsborough; two other portraits by Reynolds, one of Lavina Lady Spencer, and the other of Frances, Marchioness Camden; a Portrait of a Man by Frans Hals, and the Pegasus and Icarus of Van Dyck.

These have long been treasures of the Earls Spencer and until now have hung on the walls of Althorp Manor. In art circles last night it was said that the purchase was one of the most important in recent years. Seldom, if ever, it was said, has so large a group of paintings by such eminent artist been brought to this country, and judged in that respect; it was admitted that the acquisition was extremely fortunate. The price paid for the paintings is said to have been more than \$1,500,000, but the Duveens declined either to deny or confirm this report.

A BRILLIANT REYNOLDS

Probably the best known of the group is the brilliant portrait of the Duchess of Devonshire by Reynolds. It is a full length portrait and shows the young Duchess grace in her form and within her features, standing at the top of a flight of stone steps that lead to a formal park. The figure is at the right facing to the left, the right hand on the balustrade; the left holding her skirt at the side. Her hair, dressed high, is ornamented with pearls and grey and red plumes. A long curl touches her shoulder. Her cream-colored dress; cut low at the neck; is fashioned with ample folds and pleats in the skirt. A gauzy scarf surrounds her right arm and floats in the air below.

It was her marriage picture and she was still what Walpole called her; a lovely, natural girl; Henri Boucher compared her with her great-grandmother; the celebrated Duchess of Marlborough; and Walpole said further: "She effaces all without being a beauty; but her youthful figure; flowing good nature; sense and lively modesty; and modest familiarity make her a phenomenon."

Sir Joshua wrote it all into his picture, which measures 94 by 57 inches, and she has continued to be a phenomenon to the world of art ever since that year of her marriage when at seventeen she was bold enough to change the whole fashion of English from hoopskirts to the flowing draperies of her portrait.

fringe of the former range of the musk-ox, and from the fact that only one was seen during the season it may be assumed that either the herds have been reduced in numbers or that they have retired to the more inaccessible portions of their range. An interesting discovery was that a Summer breeding ground of the ivory-bill loon which winters in Norway and Iceland was found in the upper waters of Coppermine and Backs Rivers, where hundreds were observed.

TO BE HELD IN NEW
YORK CITY IN APRIL

Architectural and Allied Arts Exposition—Canadians to Attend.

New York, Jan. 23.—Interest in the forthcoming architectural and Allied Arts Exposition to be held in this city in April has outrun every anticipation of the organization committee. Architects in France, England, South America, Canada and the Baltic States have advised the local committee of their intention to come to New York to visit the largest architectural exposition ever held.

The four floors of the Grand Central Palace, with two hundred thousand square feet of floor area will contain something over three hundred exhibits. Producers of materials used in construction will show some of the finest architectural and industrial displays ever made in this field. They are going to a great deal of expense in planning this exhibit and fully realize that this is the most promising opportunity they have ever had to present their products to architects and to the public. Practically everything from the cellar to the chimney-pot in both home and office buildings will be shown.

The exposition will bring to New York leading architects from every State in the Union. Aside from the very comprehensive display of the materials and finishings that go into the construction and adornment of a home, factory, or business building, the extensive architectural exhibition will occupy more than one half mile of lineal floor space; consisting of drawings, photographs and sketches of architectural works. Examples of land-scaping, home decoration, of garden sculptures and fountains and other sculptures accessory to architecture of decorative tapestries, and objects of art will be shown. Their selection by the juries will assure a very beautiful and educational exhibition.

Every effort is being made to attract the attention of prospective home owners. A too technical atmosphere will not be given the ex-

The whole main floor of the Grand Central Palace is being converted into an architectural paradise. No expense is being spared to produce an awe inspiring and palatial exhibition hall. The immediate plans are being kept a secret, it being intended to spring a surprise on even architects with the most vivid imagination.
Ten foreign countries will send over exhibits some of them being world famous. Original drawings by Sir Aston Webb, president of the Royal Academy; Sir Gilbert Scott who was knighted by King George; Sir Charles Burnett, Sir Edward Lutyens and Sir Reginald Bloomfield recognized as the leading architects of country homes in England, will be sent as a part of England's exhibit.

ENGLAND WILL SUPPORT CANADIAN ENTERPRISES
Before leaving England recently after a short visit to that country, E. W. "KING OF PAIN"

Sprains And Their Treatment

Any part of the body may suffer from a sprain, but, since we depend upon our joints and muscles in any special effort, it is they that suffer most. A simple form of joint sprain muscular effort; there is no real displacement of the joint, and a brisk shake may serve to unlock it and stop the discomfort instantly. If it may be more severe and the unlocking not quite so quick or so easy; then the joint must be suitably manipulated and sometimes must be supported afterward by an elastic cap.

If a sprain is severe enough to injure the structure of a joint, there will usually be synovitis as a sequel that is to say, inflammation of the

lining membrane. It is not considered to be good practice to immobilize a joint because synovitis is present, although that does not necessarily mean that it may be used as a joint. In case of injury to the knee followed by synovitis, for example, a system of prescribed exercise of all the muscles controlling the joint may hasten recovery, whereas insisting that the knee go on bearing the weight of the body may long delay it. Useful treatment is to wrap the joint very thickly in cotton wool and then apply a firm bandage over it. The dressing exerts pressure on the joint and thus prevents further effusion and also limits movement without actually preventing it.

If when a sprain is examined there is found a spot of extreme tenderness that is not directly on the line of the joint it is likely that allignment has been torn. In such a case it is even more important and permit movement and forbid function. As soon after the injury as possible a pad and bandage as described above should be applied, exerting pressure over the tender spot. When all swelling has disappeared and the joint is to be used again it is as well to limit movement by strapping.

In any severe sprain it is always possible that a bone may have been injured, and it is well to have an X-ray picture taken so as to make sure whether there is a fracture.

Make Care of Babies Easier

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble, for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them Mrs. Jos. Toussaint, Ste. Sophie, Que. writes:—"I would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use never fails to restore my little ones to health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

OBITUARY

MISS JANE WALL

Miss Jane Wall died Friday morning after a protracted illness. She was one of Chatham's oldest residents being 93 years of age. One sister and one step-brother survive her. The funeral was held on Sunday afternoon. Interment in St. Michael's cemetery.

MRS. ROBERT CLARK

Mr. R. Corry Clark received a cable on Friday morning 16th inst., containing the sad news of his mother's death. Mrs. Clark was 87 years of age and her death, which occurred at the family residence in London, England, was not unexpected. Mr. Clark who survives his wife, is 91 years of age.

MRS. ELLEN LYNCH

One of Chatham's oldest residents passed away at Wellfield on Saturday in the person of Mrs. Ellen Lynch the widow of Patrick Lynch. She had been enjoying good health until two weeks ago. She is survived by two sons, Wm. McLannigan of Chatham and Terence Lynch of Bathurst. The funeral was held in Chatham on Monday to St. Michael's cemetery.

MRS. DANIEL CLANCEY

The death of Mrs. Daniel Clancey occurred at the Hotel Dieu Hospital early Sunday morning. She had been ill but two weeks. She was 34 years of age and was formerly Miss Mary Duplacey. There survive her husband and six young children also five brothers, Alexander, Roger, Leo, Ronald and Stanley and two sisters Mrs. John McIntyre and Mrs. Robt England all of Chatham. The funeral was held this morning and interment was made in St. Michael's cemetery.

MRS. SARAH HOGGIN

The death of Mrs. Sarah Hoggin, wife of Albert Hoggin, occurred last night at her home. Deceased was in her 56th year and was born in Great Marlow, Buckinghamshire, England. Besides her husband she leaves to mourn, one son, W. Robert Hoggin and two daughters, Mrs. Norman Campbell and Mrs. John T. Henderson. The funeral will be held from the home tomorrow afternoon at 2:30 o'clock with interment in the Miramichi cemetery.

THOMAS B. COPP

The death of Thomas B. Copp occurred about one o'clock Wednesday morning at the home of his son, Finley R. Copp, with whom he resided. Deceased was 74 years of age and suffered a paralytic stroke on last Friday, which caused his death.

Mr. Copp is survived by three sons and two daughters, Hiram A. of Chatham, Henry A. of Lewiston, Maine, Finley R. of Newcastle, Mrs. Elizabeth Drysdale of Portland, Me. and Mrs. Jessie B. Murphy of Oakfield, Maine. Also surviving are two brothers, John Copp and Henry Copp of Newcastle.

The funeral was held Friday afternoon at 2:30 o'clock. Services conducted by Rev. Mr. Brown and interment in St. James cemetery.

WILLIAM WILSON

The death of William Wilson, now master of Chatham, occurred Saturday morning at 4 o'clock. A native of Aberdeen, Scotland, Mr. Wilson, as a youth, accompanied his widowed mother to Canada about sixty years ago.

Entering the service of his uncle, the late Senator Mulrhead, he took charge of the grocery and provision Department of that extensive business, and in later years he established a grocery store on his own account which was conducted with marked success until 1896, at which time he was appointed to the position of Postmaster upon the resignation of Mr. F. B. Adams. Mr. Wilson died in harness occupying that important office at the time of

his death. In all the various capacities of life, as a citizen, a parent husband, friend, adviser or official Mr. Wilson occupied a position which was indeed admirable, and enviable.

His wife, who predeceased him some years was the eldest daughter of the late Wm. Johnston, of the Canada House, Chatham, the family left consisting of two daughters and one son, Miss Agnes on the teaching staff of the Montreal schools; Miss Vera at home and Norman in the Biological service. Mr. Wilson was in his 76th year. He was treasurer of the Highland Society for thirty years.

The funeral was held Monday afternoon at 3 o'clock.

MRS. JOHN A. JEFFERSON

Mrs. Alma Sarah Jefferson, wife of John A. Jefferson, and for twenty two years a highly respected resident of Somerville Mass. died Tuesday morning Dec. 30th 1924, at 5 o'clock at her home at 33 Teele avenue following a five-week's illness.

She was born in Douglastown N. B. forty-one years ago, a daughter of the late Mr. and Mrs. William Goodfellow Russell and received her education and spent her early girlhood there. When twenty years of age she went to U.S.A. and had been a resident of Somerville ever since then.

Besides her husband, John A. Jefferson, she is survived by three children Ruth B. and Elinor Russell Jefferson both pupils in the Western Junior High School and a five year old son, James Francis Jefferson; also one sister, Mrs. Mabel Leslie of Douglastown who was with her sister when she died; and six brothers; John of Russellville; Allan of Bathurst; George, Stafford Ellis and Herbert of Douglastown, N. B. The funeral took place Jan 2nd, 1925 with services at 2:30 p.m. in Mt. Auburn Chapel. Rev. Wm. MacNair, pastor of the Prospect St. Church, Cambridge officiated. The Apollo Quartette rendered three vocal selections "Lead Kindly Light; Softly and Tenderly and Face to Face." The interment was in Mt. Auburn Cemetery.

IS SUFFERING FROM DEMENTIA

Evidence Given by Two Medical Men Regarding Williams.

Fredericton, Jan. 26—That Harry D. Williams now on trial for the murder of his half-nieces at Fosterville, is suffering from "dementia" and "acute confusion of insanity" was the evidence given this morning by W. H. Irvine and Dr. Charles Mackay of Fredericton, following an examination of the accused yesterday at the York County jail.

The evidence of the two medical practitioners was given this morning when the trial of the murder indictments was temporarily suspended in order that the sanity of the accused might be tested to determine whether or not he was fit to stand trial on the murder charges.

The sanity trial was allowed by Mr. Justice LeBlanc on the application of Fred H. Peters, counsel for the prisoner, immediately following the resumption of the court this morning. The members of the petit jury were then sworn to try the sanity issue and the evidence of the doctors taken.

Adjournment at 12 o'clock until 3 P. M. was granted in order to permit Dr. D. R. Moore, of Stanley, who was due to arrive in the city early this afternoon to make examination of the prisoner before being called as a witness by the defence.

Halting of the murder trial to determine the sanity issue is regarded as one of the most unusual cases in the criminal annals of the Dominion. Owing to the fact that Mr. Peters was called in to defend the destitute prisoner as the trial commenced, and that a delay of 24 hours, which was sought in order to consider a defence of insanity, was refused, Mr. Peters was previously unable to raise this issue.

READY TO FOLLOW HIS CONGREGATION

"Should St. Andrew's Vote Out, I Shall Remain Out," Says Halifax Pastor.

Editor of The Halifax Herald:

Sir:—It has been pointed out to me that the statement I made to my people last Sunday evening was understood by some to mean that I was advising the congregation to follow a course I declined to take myself.

Will you kindly allow me space to say that any ambiguity in my words arose from the fact that in making my statement I was considering the best interest of the Church and not my own. Moreover, it did not occur to me that I could be supposed to advise my people to follow a course I was not willing to follow myself. I declared my intention to enter the United Church at Synod last October, still hoping for the "reasonable unanimity" we have all for twenty years back declared to be essential.

But the depth of cleavage revealed by the last few week's voting especially the now obvious split in St. Andrew's and my own belief that we should not leave so many of our Presbyterian people churchless have created quite a new sensation for me.

Rightly or wrongly, but at least sincerely and looking alone to the conditions under which in my judgment St. Andrew can render the most effective Christian service, I advised my congregation to vote against entering the present union. Should St. Andrew's church follow the advice I gave and vote out, I shall certainly remain out with them.

Joint Brotherhood Gathering At St. Luke's Hall

On Wednesday evening of last week the members of the Newcastle Methodist Brotherhood and their wives were the guests of St. Luke's Brotherhood. Upwards of a hundred and fifty people of the two towns mingled together in social intercourse and spent a thoroughly enjoyable evening.

In the absence of the President Mr. George Groat, Mr. W. B. Snowball was elected chairman. The following excellent and varied program was splendidly given and evoked enthusiastic applause: Orchestra Selection Lisolette

Song---Time's Roses
Miss Mersereau
Reading Miss Vanstone
Violin Solo-- Jenny Jones
Mr. Littlejohns
Song... Lassie O'Mine Miss Nicol
Reading Miss Ellis
Quartette -- Ching Ching, Miss Nicol, Mrs. Forstell, Mrs. Snowball, Mrs. Nicol

Piano Duet---Bobs Burke and Mrs. Foresell
Reading Mr. L. H. Abbott
Violin Solo--- Kuyawiak
Mr. Littlejohns

Orchestra Selection
Immer Wieder

Much credit is due Mr. Bobs Butke and Mr. Guy Mersereau for arranging so fine a programme.

Following the Programme, delicious refreshments were served by the Ladies' Aid of the Church. Mr. Waldo Crecer voiced the sentiments of the Newcastle friends in a few well chosen words of appreciation and stated the intention of returning the compliment by inviting the Chatham Brotherhood to Newcastle in the near future.

The singing of Auld, Lang Syne concluded a very happy evening indeed.

Discordant Noises To Be Eliminated

A brass cylinder tube one-half inch in diameter and six inches long, containing nothing but air and open at both ends, is caused to transmit all tones of a piano up to a certain note and above this to transmit no audible sound. With another and slightly different tube, the tones below this same, or any other note, will be refused transmission, whereas all higher tones pass freely.

"Other equally remarkable results of a similar nature can be obtained," said Dr. Stewart in explaining his device. "The tubes, while entirely open and free from obstructions, have, at regular intervals, branching tubes and chambers. At each branching point waves are reflected backward through the tube. The design of the branches can be made in such a manner as to produce a backward reflection and an interference of almost any group of tones."

Dr. Stewart explained that he considered the device truly a filter. It is a new basic method of manipulating sound waves and may find application in many acoustic devices in use today.

"The telephone, the phonograph and even musical instruments themselves may sooner or later profit by this new device," Dr. Stewart said. "In fact, there is opened to the imagination the possibility of the elimination of undesirable noises and the enjoyment of sounds adjusted to an individual aesthetic taste."

Winter Carnival At Banff, Alta.

Banff, Alta, Jan 20--Judging from the activity of the people of this mountain town right in the middle of the winter season one would hardly think its greatest activity was in the middle of Summer. The Banff winter carnival has become an institution of winter the same as the Indian Day has been for many years an institution of summer. Instead of old and young all being engaged in the work of making tourists happy they are seen in more active pastime of preparing for competition in snowshoeing, skiing, pkiing racing, dog teams and the general run of outdoor sports. There is no question that Banff is coming into its own as a winter resort and this year will place it on the permanent calendar as such. People are already beginning to gather from the east and south to witness the sports that begin February seventh and run to the fourteenth, as usual great interest is taken in the Ski Jumping in which some of the great ski jumpers on the continent will participate. Among them being Uno Helstrom, now resident of Vancouver, who learned the game in his homeland, who still sticks to the idea that form and style is more attractive to spectators than distance and sloppy landings.

Rand Is Nominated In Gloucester Co.

Attorney-General Chosen as Liberal Candidate in N. B. By-election.

Hon. I. C. Rand, of Moncton, was nominated at an enthusiastic convention of the Liberals of Gloucester county, held Wednesday afternoon in the College Hall, Caraquet to choose a candidate for the by-election. S. R. Leger, M. L. A. of Caraquet, presided. There were present 80 accredited delegates representing every section of the county as well as more than 600 others.

Hon. P. J. Veniot, Premier of New Brunswick was the principal speaker. He outlined the reasons for the meeting and called on the delegates to act in the matter of nominating a candidate for the vacant seat in the legislature caused by the appointment of Hon. J. P. Byrne to the Supreme Court Bench of the province.

The name of Hon. Ivan C. Rand, Attorney-General of New Brunswick, was put forward and he was made the unanimous choice of the convention.

Mr. Rand was not in the building but he was sent for and made a speech of acceptance which was enthusiastically received by the meeting.

Other speakers included J. G. Robichaud, M. P. of Shippegan; J. A. Doucet, M. L. A., of Paquetville, and H. C. Ramsay and C. T. Richard, of Bathurst.

How The Banana Grows

Now that one of the so-called popular songs, which one cannot help hearing, deals with bananas, or rather the lack of them, it may interest our young readers to know something about the way this fruit grows.

At the fruit stores you will notice that the big bunch of bananas is usually hung with the fruit bending downward. From an article by Philip R. Reynolds in the Bulletin of the Pan-American Union, we learn that this is not the position of the growing fruit. As the single flower bud on the individual banana plant increases in size it bends downward, then the covering drops off and disclose the young bananas, which point outward. As they become larger they point upward the sun.

Each banana plant--popularly but incorrectly called a tree--bears only a single bunch of bananas which is made up of so-called "hands" or clusters. The "hands" grow separately in spirals, and each contains from ten to twenty five bananas, or "fingers." Commercially bananas are classed according to "hands". A bunch that has less than six is not readily marketable the standard bunches with nine or more clusters are classed as nine-hand fruit. A nine-hand bunch varies in weight according to the variety of the fruit and to the soil and the climatic conditions under which it is grown; the average weight is from fifty to seventy-five pounds. Occasionally you see a bunch that has as many as twenty-two "hands" and more than 300 bananas; a bunch as large as that might weigh approximately 150.

When a bunch of bananas is cut the individual plant is destroyed, but the root is still able to send up shoots. After the first crop of fruit from two to five of the most promising shoots are left to grow and supply fruit later.

Assuring Your Business

A policy of advertising is a policy of life assurance, and the protection thus secured is well worth its annual cost.

Old customers die or move away--they must be replaced.

Old customers are subject to the influence of temptation--they may be induced to divide their custom--to do some of their shopping at a competitor's.

New comers to this community will shop with you--become regular customers--if they are invited to do so.

Your competitor's advertising is an influence which must be offset if you are to maintain your trade.

Not to advertise regularly to the readers of the UNION ADVOCATE is to leave your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of advertising. You owe it to yourself to get the most for your money, the best goods and the best service. And if you find that your inclination is to shop where you are invited to shop rather than to continue to be a customer of the shop which never solicits your good-will, you need have no compunctions of conscience.

**JURY SELECTED IN
MURDER TRIAL**

Defence May Be Shaped Along
Insanity Lines.

At Fredericton forty out of
forty-two names on the petit jury
panel were called on Wednesday
before 12 jurors were selected to
try Harry D. Williams, who stands
charged with the murder of his
two nieces, Cynthia and Necia
Foster on Nov. 25, 1924, at Fos-
terville, N. B.

Every man was challenged for
cause by F. H. Peters, council for
the defence, and two were found
to be not indifferent, 15 were
found to be indifferent, but were
then challenged peremptorily, one
was challenged by the Crown and
the other 12 were chosen.

The jury, in order of selection,
is: John N. Inch, Burt's Corner
Norman L. Lawrence, Prince
William; William Hagerman,
Burt's Corner; Luke Morrison,
Fredericton; George Camp, Fred-
ericton; Hayward Brown, Marys-
ville; Frank Coleman, Harvey
Station; Fred Seymour, Nash-
waaksis; Angus McBean, Tay-
mouth; William H. Bailey, Nash-
waaksis; William H. Gunter, Fred-
ericton; and Eben Staples, Fred-
ericton.

It seemed evident that Mr. Peters
intended to shape his defense al-
ong insanity lines. Dr. Anglin,
superintendent of the Provincial
Hospital for Nervous Diseases, St
John, is in Fredericton as a pos-
sible witness for the Crown. Peter
J. Hughes, K. C. in his opening
address to the jury, reviewed the
details of the revolting crime, and
told of conversations with the ac-
cused on the day he was found.
He stated that the Crown want-
ed Williams to have a fair trial,
and said that he was sure he
would have one.

**DISCORDANT SOUND
MAY BE MASTERED**

Useful Invention of an Iowa
Professor of Physics

Iowa City, Ia., Jan. 19--By
causing successive wave of
sound to interfere in each
others transmission, Dr. G.
W. Stewart, a professor of
physics at the University of
Iowa, has perfected a device
which he believes in time
may be used to eliminate un-
desirable noises and to adjust
sounds "to an individual's
aesthetic taste."

The establishment of quiet
zones for hospitals and the re-
quirement of mufflers for
automobiles testify to the
penetrating nature of sound
waves. They will pass, Dr.
Stewart says, through the
most minute crack, and even
through an apparently solid
wall. With the theory that
sound waves would expend
themselves were they placed
in conflict with one another
Dr. Stewart worked out his
device, which he calls an ac-
oustic wave filter.

The results are obtained,
Dr. Stewart explains, not by
placing obstructions in the
path of sound, but by setting
up a sort of battle between
the various waves, thus caus-
ing a disordered transmission.

**Gough Is Found
Guilty On The
Whole Six Counts**

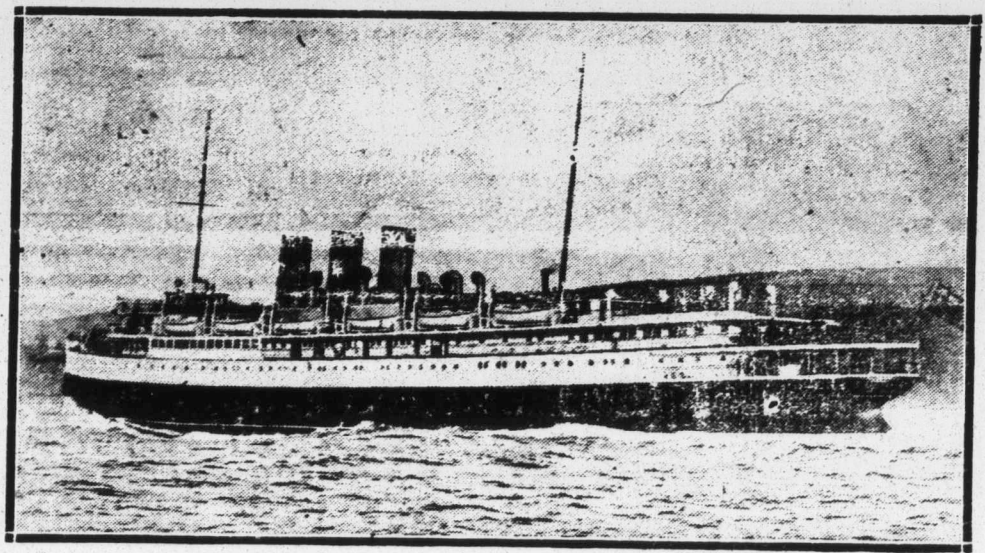

R. P. Gough, Vice-Pres-
ident of the Home Bank
which failed in August, 1923,
was found guilty by Judge
Coatsworth on all six counts
under the Bank Act upon
which he was charged. Gough
with J. F. M. Stewart, a Di-
rector convicted of negligence
will be sentenced on January
27th. Gough was charged
with making a wilfully false
and deceptive statement and
negligently signing, approving
and concurring in a false
statement. These charges
applied both to the annual
statement for the fiscal year
ending May 31, 1923, and to
the monthly statement for
December, 1922, making six
charges.

His Honor read his judg-
ment and first stated that
Gough was guilty on three
counts. D. L. McCarthy, K
C. Crown Counsel, pointed
out that there were six counts
and his Honor stated that he
had intended to say six
counts instead of three.
Gough's bail was renewed
until January 27th. The ac-
cused listened attentively

Princess Kathleen Makes Maiden Voyage

On her preliminary trials the "Princess Kathleen", built at the Clydesbank yards of John Brown and Company expected of her, and the Canadian engineers and other officers who conducted the trials and who will bring this and entirely satisfied. With a speed of 22 1/2 knots the new steamships will considerably reduce time between ports. Built with the object of speeding up and affording even better and more convenient service than is now offered, the two Princesses will be, without a shadow of doubt, the most elaborate yet tastefully beautiful vessels operating on the Pacific Coast. Three hundred and sixty-eight feet in length, their lines were specially designed for the service to others of their kind. Five decks are given over to the accommodation of the passengers, whose private quarters and public rooms are most spacious and luxuriously fitted up. The "Princess Kathleen" sailed from the Clyde on January 15, expecting to complete the journey to Vancouver in about thirty days, her route being via the Azores, the West Indies and the Panama, where she will pick up fuel oil. She will be placed in passenger service soon after her arrival. The "Princess Marguerite" is scheduled to leave the Clyde on March 15.

Trees at the rate of 20,000 a day
have been planted by farmers in
Western Canada during the last 20
years, according to a report of the
Federal Department of Agriculture.
A total of 150,000,000 young trees,
the report shows, has been distrib-
uted to farmers in that section in
1905.

Canada has entered into negotia-
tions with Germany for a trade
agreement which will give her the
benefit of the most favored nations
agreement. Exports to that coun-
try very nearly doubled during 1924
and at the close of the year Ger-
many was practically in the posi-
tion of being Canada's third best
customer.

A co-operative shipment of poul-
try to New York City, encouraged
and handled by the Dominion Poul-
try Service, Alberta branch,
brought good results. The ship-
ment consisted of two refrigerator
carloads of turkeys and the ship-
pers received 25 cents a pound for
their birds, the New York selling
price being 41 cents a pound.

Among the interesting books of
the season is "Canada's Great High-
way; from the First Stake to the
Last Spike," by J. H. E. Secretan,
C.E., (published by Thorburn and
Abbott, Ottawa). Dealing with the
early history of the Canadian Pa-
cific Railway, the volume contains
racy reminiscences of life in con-
struction days as experienced by
the author, who was a member of
the company's engineering staff.

Sailing from New York on Jan-
uary 14, the "Empress of France,"
palatial Canadian Pacific steam-
ship, began her "round-the-world"
cruise, which is to last 130 days. The
vessel was gallily decked with flags
and filled with happy passengers
eager to enjoy the experience of a
lifetime. F. L. Wanklyn and Mrs.
Wanklyn, were among those on
board. Mr. Wanklyn recently re-
ired from his position as executive
assistant of the Canadian Pacific
Railway.

The most novel Christmas card
handled by the Montreal post office
this year was one prepared for the
redoubtable Colonel George Ham,
of the Canadian Pacific Railway,
by a number of internationally
known newspaper artists, creators
of famous comic strip characters.
In the centre of the card is a photo
of the Colonel, while grouped around
him, commenting on his good qual-
ities, are signed drawings of Pa
Parkins, Tillie the Toiler and Mac,
Barney Google and Spark Plug,
Our Gang and Dumb Dora. Colonel
Ham is naturally very proud of the
card.

THE ROARIN' GAME

Last Friday night 'The City Fathers' accepted a challenge from a picked rink and defeated their opponents in an interesting game. The match was not played for brooms as the ones delivered to the winners of the first of these games, were found to be of very little use in the 'roarin' game' but more adapted for nursery games, so this time it was decided to play for something more substantial and oyster stews were chosen. The 'City Fathers' enjoyed the stews immensely and are desirous to obtain a few more so they state that they are ready and willing to take on any rink at any time.

Mrs. Emmons writes: "My little girl had croup at night pretty badly and Vicks did her a lot of good. I have also used it with very satisfactory results for head and chest colds. Vicks is just 'rubbed on' for sore throat, bronchitis, laryngitis, croup or deep chest colds. When so applied, Vicks has a double direct action: instantly medicated vapors are inhaled while, at the same time, externally, it is absorbed through and stimulates the skin."

A horse owned by Fraser Companies Ltd. ran away yesterday afternoon and in turning the Mason corner ran into a team driven by Mr. Sylva White, injuring the latter's horse so badly that the Chief of Police was called upon to shoot the animal. At Alex. H. MacKay's corner, the two occupants of the run away team jumped, just before the spirited animal struck one of the Stohart Mercantile Co's coal teams. In the impact the horse got clear of the sleigh, which was badly damaged and kept on its mad rush up Prince William street.

FANCY DRESS CARNIVAL

The Chatham Red Cross Society are planning on a monster fancy dress carnival in the College Kink tomorrow night. It promises to be one of the big events of the winter season. Among the principal features will be the choosing of a "Miss Miramichi" and a tug of war between the north and south sides of Water Street. There will also be a door prize of a barrel of flour. Much interest is being shown in the event and the proceeds will be utilised for the society's charitable work among the poor of Chatham.

FIRE IN MONCTON

It is reported that the Windsor Hotel at Moncton was totally destroyed last night by fire. For the past two years the hotel was used entirely as a rooming house.

CARD OF THANKS

Mr and Mrs. Fraser Harris and family wish to thank all those who so generously and immediately rendered assistance and hospitality when they lost their home on New Year's night.

HOCKEY

Chatham defeated Moncton at the former town last night by a score of 8-2. A large number of local hockey fans went down to see the game and all were pleased with the remarkable game put up by the two Fallons of Newcastle who are playing this year with Chatham.

WILL GO WEST

Mr. and Mrs. J.W. Spurden plan to leave early in February for Oklahoma where they will make an extended visit to their daughter, Mrs. Porter, wife of Rev. F.S. Porter. Mr. Spurden is auditor for the Town of Newcastle.

ESCAPED BOY HELD

Provincial Constable Adam Dickson went to Hardwicke Saturday and arrested Michael Martin, a youth who escaped from the Boys' Industrial Home at St. John some months ago. He was serving a term for theft. Martin will be held at the local lockup pending the arrival of word from the authorities at the Reformatory.

New Ship For Boston & Yarmouth Service

Calvin Austin, President of the Eastern Steamship Lines, Inc., accompanied by Mrs. Austin, sails on the S. S. "Aquatania" February 21 for England where Mr. Austin will place contracts for building a new passenger ship to go on the Boston Yarmouth, N.S. route.

The plans and specifications which have already been made call for a ship 365 feet long, 265 staterooms with bath and toilets and every other modern convenience, and many innovations which can not yet be made public. The new ship will be of staunch construction sufficient for her to make a round the world cruise if necessary. The specifications call for a speed of 13 knots. Immediately after contracts are placed work will be started and rushed through to completion in order to bring her out in the Spring of 1928. The cost of the new ship will be approximately \$1,250,000.

Wrote Too Much For First Prize But Gets Special

In the all-Canada competition of the Canadian Bureau for the Advancement of Music, the essay of Miss Isabel Allen of St. Michael's Academy, Chatham, N.B. was judged the best sent in by pupils of secondary schools and would have received the prize but for the fact that the essay contained 1045 words and the rules of the competition were that the essay was not to exceed 500

words. Miss Allen recently received word from the director of the Bureau, telling her of the judges' high opinion of her essay and of the reason that it could not be awarded the prize. The director wrote, however, that it had been decided to give a special prize of \$25 for Miss Allen's essay on condition that it might be published.

Several thousand essays were examined and those written in French had to be translated before they could be judged.

A board of selection, consisting of 12 to 15 of the principal newspaper

men in Montreal, Toronto and Ottawa, selected the best fifty essays and the final adjudicators were E. W. Beatty, president of the Canadian Pacific Railway; Sir Arthur W. Currie, G.C.M.G., K.C.B., principal and vice-chancellor of McGill University and Vincent Massey-Harris Co. Limited.

The subject of the essay was "The Advantage of Music in the Home" and the competition was divided into two classes, "A" class for students from secondary schools; and "B" class for students from elementary schools.
