Connecticut and Free Suffrage.

Connecticut, in her election yesterday, refused the right of suffrage to the colored people by her limits. The oldest of her legislators, Mr. Folger, says he is deeply regret that act of such slightness and injustice. She has committed wrong from pure force of it, for notwithstanding that she had chosen to give the right of suffrage to the blacks, in spite of the whole Copperhead party, and to weaken their own. It is simply one of gross injustice, which can only be accounted for by the fact that even four years of terrible war has not been enough to knead the dough out of the old pro-slavery prejudice of Connecticut, and their Southern slaveholding masters. They hated black men because Slavery whipped them into it, and they haven't acquired manhood enough to break the fetters of the old error.

Collision on the Grand Trunk.
ENGINE DRIVER KILLED, AND OTHEHS SEVERELY WOUNDED.
From the Stratford Beacon Extra, Oct. 6.
A terrible accident occurred this morning (Friday), a few minutes before seven, a little below the old passenger station, at Stratford, on the Grand Trunk Railway. The express train from Toronto, under the management of Mr. Sprout, was near two hours late, and the fog being very thick, collided with a freight train from the west with tremendous force. The effect of the collision was quite a smash both on the freight cars, and many of the passengers were killed or injured. The freight car, carrying the engine driver, Ed. Ward, was crushed, and he was killed on the spot. The freight car, carrying the baggage master, Harry Donald, and the conductor, John W. Torrance, was also crushed, and both were severely injured.

Curious Insurance Case.
A French paper relates the following singular case in connection with a policy of insurance upon a quantity of cigars:—
A gentleman one day presented himself at the office of the Phoenix & Fidelity Insurance Co. and wished to insure a quantity of cigars. He stated that he had 2,000 cigars, and he wished to insure them for 2,000 francs. An inspector examined the cigars, and having satisfied himself as to their value, the premium was fixed at 20 francs. Four months afterwards the gentleman returned to the insurance office, and he stated that he had lost the cigars.

How to Dig Potatoes.
When potatoes grow several inches below the surface of a heavy soil, digging them with a hoe or a fork is a laborious work. It is more laborious to dig with hoes than with forks, and more than this, the hoes will break the soil and will not bring up the potatoes as cleanly as the forks. The sharp corners of the iron bits of forks and hoes will break the potatoes. When digging with a fork, thrust the tines into the ground perpendicularly, as close to the hill as possible, and then lift. When digging with a hoe, the hoe will break the soil and will not bring up the potatoes as cleanly as the forks. The sharp corners of the iron bits of forks and hoes will break the potatoes.

Cold Blooded Murder in Buffalo.
A SOLDIER KILLED FOR \$100.—ARREST OF THE MURDERER.
A soldier named Henry Henney was murdered under circumstances of a peculiar character in Buffalo on Friday night last. It appears that Henney was on duty at the barracks, and he was shot by a man named Thomas W. Taylor, a private in the same regiment. The murderer was arrested shortly afterwards, and he is now in the custody of the police. The case is being treated as a murder, and it is expected that the murderer will be sentenced to a long term of imprisonment.

HERM'S DEATH FROM CATTLE PLAGUE.—
A terrible case of human death, caused by a plague which has occurred in England, at Sudbury, in Suffolk. Mr. Robert J. Plimby, a veterinary surgeon of that town, made a post-mortem examination of the body of a man named Thomas W. Taylor, who had died of the plague. The man had been in contact with a cow which had been shot in consequence of being afflicted with the prevailing disease. The man had been in the habit of milking the cow, and he had contracted the disease through the milk.

THE COUNCIL'S REPORT ON THE NARROW ESCAPE OF PRINCESS ROYAL.
A letter from Berlin says:—"The other day the Crown Princess had a narrow escape. Travelling with her husband by an extra train from Frankfurt, their carriage was smashed in. Happily, no one received any injury. A not word has been said about it in the papers."

THE COUNCIL'S REPORT ON THE NARROW ESCAPE OF PRINCESS ROYAL.
A letter from Berlin says:—"The other day the Crown Princess had a narrow escape. Travelling with her husband by an extra train from Frankfurt, their carriage was smashed in. Happily, no one received any injury. A not word has been said about it in the papers."

Oil on the Brain.

Oil on the Brain.
BY A POOR YOUNG MAN.
Poverty has its disadvantages, as I endeavored to point out in some former reports, but it has also its advantages. No one is in a better position to study human nature than a poor man, if he has young blood circulating through his veins. The rich have little time and less inclination to lay bare and laugh at the follies which so many of them are living examples; but a poor young man who has little to care for and plenty of leisure in his hours and plenty of leisure in his hours and plenty of leisure in his hours.

GODERICH, OCT. 12, 1885.
THE DAY OF THANKSGIVING.
Wednesday the 18th inst. is the day appointed by His Excellency the Governor General to be observed by the people of Canada as a day of general thanksgiving for the temporal mercies vouchsafed to us during the past summer. Coming, as it does, in the season of universal fertility, we feel justified in the belief that we are all well.

Education in the Home.

Education in the Home.
It is often said that the home is the best school. This is true, for it is here that the child first learns the principles of morality and the habits of industry. The parents are the first teachers, and their example is more powerful than any schoolmaster's. The child learns to read and write, to play and to work, to love and to hate, all in the home. The home is the foundation of all education, and it is here that the child learns to be a man or a woman.

On Saturday afternoon last, between 5 and 6 o'clock, a storm swept over this section which for intensity has seldom equaled in this part of the season. It was a heavy rain, and the water was so high that it was a matter of some consequence to those who were in the city. The water was so high that it was a matter of some consequence to those who were in the city. The water was so high that it was a matter of some consequence to those who were in the city.

Town & Counties

DEPARED.—We are reluctantly compelled to leave a number of interesting local articles over till next week.

THE RIVER.—We are requested to state that the Lord Bishop of Huron will hold a confirmation in St. George's Church, Goderich, on Sunday next, the 15th inst., at morning service.

"MAKE TIME."—Mr. J. Frederick has enlarged his establishment and has now an exhibition for sale a very large number of clocks, watches, &c., besides Jewellery without end. Mr. F. is an excellent hand at repairing.

HURON TEACHERS' ASSOCIATION.—The next regular meeting of this Association will be held in the Central School, Goderich, on the afternoon of Friday, the 13th inst. Matters of much interest and importance will be discussed at the meeting.

ARRANGEMENTS MADE FOR ENTERTAINING THE TEACHERS AT A SOCIETY PARTY IN THE EVENING. We hope that there will be a large attendance on this occasion.

BIGGER ONIONS.—Mr. Joseph Martin, gardener of this town, has forwarded to our sanctum for exhibition a bunch of onions, each of which weighs from 18 to 22 ounces, larger than Mr. Wells' although not so finely formed and ripened. They are truly monster specimens. Also a mammoth cabbage.

STILL VERY COSTLY.—On Monday morning last a large drove of 110 head of cattle entered this town by the Northern gravel road. Some of the animals were very fine ones. On the same day drove entered Clinton and other places, and the loss is so great that care cannot be had in sufficient quantity. "How are you, beef?"

INTERESTING EXAMINATION.—We understand that J. B. McGinn, Esq., Supt. of the U. C. Institute for the deaf and dumb and blind entered shortly to give an examination of some of his pupils at Mitchell, Seaford, Clinton and Goderich. The object of the visit is purely in the interest of a most unfortunate class, and we are sure Mr. McGinn will be well supported in his arduous task.

A SEVERE STORM.—On Saturday afternoon last, between 5 and 6 o'clock, a storm swept over this section which for intensity has seldom equaled in this part of the season. It was a heavy rain, and the water was so high that it was a matter of some consequence to those who were in the city. The water was so high that it was a matter of some consequence to those who were in the city.

WAWANOSH.—At a Fair for the sale of cattle, &c., will be held at St. Helen's on Friday the 17th inst., when the following prizes will be given: Best bull of 15 lbs body, \$3.00; do 12 lb, \$2.00; 10 lbs do, \$1.00.

PLOUGHING MATCH.—A ploughing match will be held on the farm of Wm. Glendon, Esq., Clinton, on the 16th inst. Four prizes will be given for man and three for boys.

AGRICULTURAL EXHIBITION.—The Huron & Wingham Branch Agricultural Show will be held on Wednesday, the 4th inst., at Wingham. The show will be largely managed by the directors of the show, and will be a very interesting one. It will be a very interesting one. It will be a very interesting one.

GODERICH TOWNSHIP.—A meeting will be held in the house of Mr. James Torrance on Friday evening 13th inst. to take steps towards getting up a boys' ploughing match. All parties interested are expected to attend.

SOCIAL.—The Good Templars held a social party at Wilkinson's Corners, on Friday, the 10th inst. There were over 100 present, and all enjoyed themselves in listening to speeches, &c. The affair was got up under the auspices of South Star Lodge.

Goderich Township—Meeting of Council.—The Council met at H. H. H. on Monday, October 2nd, 1865, according to appointment. Present: Messrs. H. H. H. and H. H. H. The minutes of last meeting were read over and approved.

Moved by Mr. Ford, seconded by Mr. Patton. That the by-law in reference to the road allowance running between the 1st and 2nd Bayfield con. be now passed, as the necessary terms were noted up and published in the Huron Signal (newspaper) according to Statute.

The Council met at H. H. H. on Monday, October 2nd, 1865, according to appointment. Present: Messrs. H. H. H. and H. H. H. The minutes of last meeting were read over and approved.

Moved by Mr. Patton, seconded by Mr. Patton. That the following persons be returned Officers for the township of Goderich for the year 1866, viz:—For Ward No. 1, Thomas Stokes; Ward No. 2, John Road; Ward No. 3, Thomas Woods; No. 4, James Richardson; Ward No. 5, John Road. The meeting for Ward No. 2 to be held in the frame store at the residence of John B. Duggan, Huron Road.

The ac. of John Deceas for tampering 167 rods opposite lot 40, Bayfield con., certified by Mr. Sheppard, amounting to \$10.

Moved by Mr. Sheppard, seconded by Mr. Patton. That the account of John Deceas be paid. The account of Samuel Churchill for putting in a culvert opposite lot 10, on the 11th concession, certified by Mr. Sheppard, amounting to \$2.25.

Moved by Mr. Patton, seconded by Mr. Patton. That the ac. of Samuel Churchill be paid; that the ac. of William McCullagh for putting in a culvert on the Huron Road, opposite Mr. A. Taylor's farm.

Moved by Mr. Patton, seconded by Mr. Patton. That the account of Wm. McCullagh be paid. Moved by Mr. Ford, seconded by Mr. Patton. That an order of \$10 be paid Wm. Leavis on account of fence, and that the same be ordered for the same—Carried.

Moved by Mr. Patton, seconded by Mr. Patton. That an order of \$10 be paid Wm. Leavis on account of fence, and that the same be ordered for the same—Carried. The Council then adjourned to meet again on the second Monday in December next.

JOHN SHAW, W. Clerk.

Left about Face—March. The last Gazette has the following interesting item:—Passed candidate E. L. Atkinson, of the Military School, residing at Stratford, C. W., having been guilty of writing an insolent letter to the Adjutant of the Hamilton Military School, is removed from the roll of passed candidates, and his certificate is annulled.

The Root Crops.

The Judges appointed by the directors of the Co. H. A. S. to award the premiums for root crops, having completed their labors, kindly forwarded the result to this office. The following are the successful competitors: POTATOES.—1st, C. Wells, 485 bushels per acre; 2nd, B. Gibbons, 400 bushels per acre; 3rd, P. Carroll, 373 bushels per acre.

CARROTS.—1st, B. Gibbons, 2nd Jas. Lomas, 3rd I. Salkeld. The Mangie and Turnips, excepting the first prize of the latter, were found to be below the average. Carrots were a good average crop. The Judges state that the fall wheat looks remarkably well.

JUDGES. Messrs. Geo. Cox, (6th con.), John Hunter, and Colin Clark.

COLBORNE.

PLUGHING MATCH.—At a meeting of the Ploughing Match Association, held, according to notice, at Ross' Tavern, on the 2nd inst., to take into consideration the propriety of holding the annual Ploughing Match and to take measures for carrying out the same, after the minutes and accounts of last meeting were read and approved, the following officers were duly appointed:—Mr. Thomas Maitle, President; Peter Robertson, Secretary; John Buchanan, Treasurer; Messrs. Angus Hamilton, Thos. Martin and Alex. Annand, Committee of Management. Thos. Thomson, of Hallett, John Hutchison of Ashfield, and Adam Annand of Colborne, were appointed Judges for the coming year.

Mr. Maitle's Motion.—Resolved, that the annual Ploughing Match be held on the 26th day of October, on the farm of Mr. David Campbell, 7th con., Colborne. The above Ploughing Match to take place on the 26th day of October, on the farm of Mr. David Campbell, 7th con., Colborne. The above Ploughing Match to take place on the 26th day of October, on the farm of Mr. David Campbell, 7th con., Colborne.

Mr. Robertson's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Thomson's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Buchanan's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Hamilton's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Annand's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Martin's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Hutchison's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Annand's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Hamilton's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Buchanan's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Maitle's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Thomson's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Robertson's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

Mr. Hamilton's Motion.—Resolved, that the prizes for the coming year be given as follows:—For the best ploughed piece of 10 a. or more, a silver cup or other valuable article; for the best ploughed piece of 5 a. or more, a silver cup or other valuable article; for the best ploughed piece of 2 a. or more, a silver cup or other valuable article.

The Danagonon Oil Well.

Repeated tests and continuation of boring in the well on the farm of Mr. Struthers have convinced most people about here that oil has been struck for certain. On boring ten or twelve feet below the place where digging was broken off it is discovered that the dark coarse sand is strongly impregnated with Petroleum, which smells strongly and from which oil rises when it is thrown into clean water. The oil excrement has been running very high in town since the discovery. Parties have been rushing out to the strength of the prospects on a two thousand acre farm of land in the neighborhood, we hear, have been leased. After offering the tempting sum of \$10,000 for his farm of fifty acres, we understand that Mr. Struthers has entered into an agreement with Mr. Platt to go on and bore the well for one half of the oil that may be found. The percentage is left above what is ever asked even in the best kills, but if friend Platt strikes a flowing well, which he hopes to do in a few weeks, he will, doubtless, think himself well repaid for his trouble, expense, and loss of time. If this discovery of oil in our immediate vicinity leads to the development of a new and important source in addition to those we at present enjoy, it is impossible to estimate the extent of the benefits it will confer upon the town of Goderich.

GO TO POT.—The Times says the mammoth cheese exhibited at the recent Provincial Fair at London, weighing 4,000 pounds, has met with a terrible disaster, and been irreparably damaged. The owners, desiring to exhibit it in Montreal, sent it by railway. The cheese was in a wagon which occupied a position on one of the platform cars, and when an abrupt distance east of Napanee this car, with several others, ran off the track, and the mammoth cheese was turned over, and laid with tremendous force down among the crowd of spectators. The effect of cracking it through and through, and knocking out a few pounds chunks, and it is further reported that steps are being taken to emerge from the spongy mass and make their way over the adjacent fields, but this is a mere fancy, and the true nature of the case of the story is possibly an exaggeration.

THE CHINESE REBELLION.—From the New York Tribune. The formidable uprising rebellion in China has, since the beginning of the present year, been gradually dying out; but another rebellion, which has for several years raged in the same part of the Empire, the so-called Nya-poi rebellion, has this year assumed dimensions which threaten very seriously the peace of the Empire. By one of the rebels, a letter was received by the Chinese Government, which stated that the rebels were in the neighborhood of the capital, and that serious apprehensions for the safety of the Empire were entertained. An English paper of China states that the Nya-poi have recently been reinforced by a body of French troops, who have only found their way northward, and that the two bodies of rebels have received a further increase for a set of men, who, under the name of the Mohammedan rebels, have committed grave depredations in Northern China. Various other bands have coalesced with the main body, and the number of Northern insurgents is 300,000.

THE MAGISTRATE'S MANUAL.—This valuable work, which is currently calculated to meet a want long felt by magistrates, is compiled by John McNab, Esq., and published by Messrs. Chew & Co. of Toronto. It comprises a full epitome of the law relating to the duties of Justices of the Peace in Upper Canada, together with a complete set of forms for summonses, warrants, informations, complaints, depositions, recognizances, bail, &c., and is highly approved of by all who have purchased it since its publication. The book, which is well printed and heavily bound in calf, may be had at the Signal office Book Store, price (publisher's) \$4.00 per copy. Wholesale magisterial friends will give it a trial. A contemporary says of it:—

"The Magistrate's Manual is a collection of the law, made easy of comprehension, ready for reference, and so well arranged that the lawyer can be put upon his feet in a minute, or a less. Take an example: A case of malicious mischief arises, such as destroying fences, maiming cattle, burning dams, &c. It is well that the magistrate before whom the case is to be heard should refresh his memory with the points of law connected with the species of offence. Well, he turns to the index, letter M, and sees that, at page 366, all that he has to do is to find out what the law is, and there it is set down without comment or explanation. In fact, the Manual is a very useful and a very complete work, and it is highly recommended to all magistrates, and to all who are engaged in the discharge of the important duties with which they have been entrusted."

MARRIAGE IN THE CLOUDS.—Marriage in the clouds is the latest sensation. It appears that Prof. J. S. Seward has in preparation a philosophical treatise on the subject of marriage, and that it will be published in the near future. The dimensions of the car are: length, five and a half feet; width, three and a half feet; depth, two feet four inches. It will contain seats for ten passengers. The car, when completed, will be used for the purpose of conveying the bride and groom, and will be a most convenient and comfortable mode of conveyance. It is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

THE MARKET.—Goderich, Oct. 10, 1865. Our market on Saturday last was the best we have seen since 1857-3. A very large quantity of grain changed hands at \$1.18 per bushel for Fall and 98c for Spring. The fact that Fall Wheat still pours in proves that there was a large crop of it after all, and also that there is a good trade in Spring grain still to be done during the Fall and Winter. We are glad to hear that our merchants are getting as much business almost as they can do, and that each sales are largely on the increase. The Market is a little duller since Saturday, but still trade is healthy:—

Fall do. \$1.14 @ 1.22
Spring wheat, 3 bushel.08 @ .10
Oats,02 @ .03
Barley,03 @ .04
Wheat,04 @ .05
Sheep,20 @ .30
Lamb,20 @ .30
Hides (green),25 @ .40
Hides (black),25 @ .40
Potatoes,02 @ .02
Wood,15 @ .20
Flour,08 @ .10
Lard, new 100 lbs.80 @ 1.00

SEAFORD, OCT. 9th, 1865.
Fall Wheat, 3 bushel. \$1.15 @ 1.20
Spring Wheat, 3 bushel.08 @ 1.00
Oats,02 @ .03
Barley,03 @ .04
Wheat,04 @ .05
Sheep,20 @ .30
Lamb,20 @ .30
Hides (green),25 @ .40
Hides (black),25 @ .40

Wood,15 @ .20
Flour,08 @ .10
Lard, new 100 lbs.80 @ 1.00

HURON'S HAIR RESTORATIVE.—IS FAR BETTER than any other Hair Restorative in the market. It is a most valuable and effective preparation for the hair, and will restore it to its natural color and texture. It is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

Restore Gray or White Hair.—The most effective and reliable preparation for the hair, and will restore it to its natural color and texture. It is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

Checks the Falling of the Hair!—The most effective and reliable preparation for the hair, and will restore it to its natural color and texture. It is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

Who will take the first ride?—The most effective and reliable preparation for the hair, and will restore it to its natural color and texture. It is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

THE POINT LEVI COAL.—A friend in Quebec writes us as follows: "I have examined the Point Levi coal, now so called, and have to state in reference thereto, that it is the best I have ever used. It is only about eight inches wide, in its best part; that as the strata are almost vertical where it occurs, it would cost far more to excavate it than the value of the mineral would justify; and it is not so good as the coal from Newcastle coal, is not coal at all, for this reason among others, that it does not leave any ash or cinders, but a kind of fine, white, soft, and is highly recommended to all who are engaged in the discharge of the important duties with which they have been entrusted."

EXPORTS.—The Customs officers of this town inform us that our exports for September, 1865, will foot up to nearly four times the aggregate for the corresponding month of last year. There were sent away during September last, 608 bushels of wheat, 508 bushels of corn, and 180 bushels of oats. Add to this the exports in the same line from Clinton, Seaford, &c., and it is highly probable that the great increase of trade and consequent influx of money.

A MEMBER.—The North America arrived out on Monday. Fenian arrests continued. Wheat has still further advanced. There is a report of yellow fever at Swansea. Fenianism, if successful, was to have been a system of wholesale slaughter.

At Reapton, near Quebec, a stable, containing a number of horses and other valuable property, belonging to the late James Hamilton, was recently destroyed by fire. The cause of the fire is supposed to be a candle which had been left burning in the stable.

An Oil Speculation.

The Erie Dispatch says:—About the 15th inst. appeared in the New York Herald an article by Mr. Jacob Althoff of the Erie Dispatch, which stated that he had discovered a vast oil territory, but had not been able to get it surveyed. He always thought his land was good oil territory, but had not been able to get it surveyed. He always thought his land was good oil territory, but had not been able to get it surveyed. He always thought his land was good oil territory, but had not been able to get it surveyed.

YOUTHFUL PEDDLER.—On Saturday evening, at Quarf Gap, near Bradford, a boy of nine years, named John Day, walked the course of five miles, with ease, in less than an hour, on a horse named "The Duke," which he had bought for five dollars. The boy was accompanied by a man named "The Duke," who was his father's partner in the business. The boy was accompanied by a man named "The Duke," who was his father's partner in the business. The boy was accompanied by a man named "The Duke," who was his father's partner in the business.

THE CHINESE REBELLION.—From the New York Tribune. The formidable uprising rebellion in China has, since the beginning of the present year, been gradually dying out; but another rebellion, which has for several years raged in the same part of the Empire, the so-called Nya-poi rebellion, has this year assumed dimensions which threaten very seriously the peace of the Empire. By one of the rebels, a letter was received by the Chinese Government, which stated that the rebels were in the neighborhood of the capital, and that serious apprehensions for the safety of the Empire were entertained. An English paper of China states that the Nya-poi have recently been reinforced by a body of French troops, who have only found their way northward, and that the two bodies of rebels have received a further increase for a set of men, who, under the name of the Mohammedan rebels, have committed grave depredations in Northern China. Various other bands have coalesced with the main body, and the number of Northern insurgents is 300,000.
