BOUND HAND AND FOOT TO ANT HILL

Native Woman's Awful Fate in Congo—Case in Court Will Re- veal Incredible Atrocities.

Brussels, October 12.—The atrocities perpetrated by King Leopold of Belgium, through his representatives in the Congo Free State, are to be exposed at last in a court of law. The torturing and maiming of defenceless native men, women and children, which have aroused the indignation, but never the active interference of the civilized world, will be bare, and, it is hoped, proved, by Lieutenant Emil Dorelhaus, naval officer who, with other dignitaries, has been on up to Congo as an official in the Congo to come home and reveal to his countrymen the horrors that he has witnessed with his own eyes.

Could Not Stomach Atrocities.
Lieut. Dorelhaus has been for two years in the employ of the Societe Antwerp Beige in the Congo. He managed to endure the sight of a native man flayed alive because he had failed to bring in the assigned tribute of rubber to the Belgian officials. But when the lieutenant beheld a woman, bound hand and foot upon a hill of red ants and devoured by the insects, which caused his commission and returned to this country.

Company Breaks the Law.
The company, alleging breach of contract refused to pay him back salary or to reimburse him his expenses. The lieutenant admits breaking his contract, but he insists on the defence that the company breaks the law and by that act invalidates the contract. He is now suing the company and there is to be a court hearing, at which the atrocities of the Congo will be brought home to King Leopold and laid bare to his eyes never before.

Mark Twain Wishes Crusade Success.
London, October 13.—Mark Twain, in a message to the "Express" wishing success to the agitation for reform in the administration of the Congo, says: "I would be glad if I were able to take an active part in your crusade, but I am obliged to refrain from entering into the matter of this nature, where I have made it necessary for my physician to advise me not to take any part in any public movement, particularly one like that affecting the Congo, the effect of which could be otherwise than disturbing to my general mental and physical condition."

CHINA EMERGING FROM THE DARKNESS OF AGES

Constitutional Government Will be Inaugurated Today—Representatives From Each Self-governing Province Will Meet to Draw up a Constitution for the Empire—Pekin the Capital.

Mukden, Oct. 13.—The despotic government of China will terminate today. All the legislatures of the self-governing provinces throughout the Empire will hold their first meetings preparatory to the drafting of a constitution of the Empire. Each province will be represented in the Imperial assembly, which will draft the constitution with fifty members publicly elected. The assembly will be held in a palatial auditorium erected in Peking on the site of the ancient hall of examinations. Many rooms have been built as an annex to the auditorium for the purpose of lodging the members during the assembly.

THIS WOULD BE A SOLUTION.
London Daily News Says Asquith Has Authority to Create New Peers.

London, Oct. 13.—The Daily News' parliamentary lobbyist announces that Premier Asquith obtained the King's written consent to the creation of a sufficient number of new peers to assure the passage of the budget through the House of Lords and suggests that this document was shown to Lord Lansdowne and Arthur Balfour yesterday. Although the Daily News is a liberal organ, this solution of the crisis is considered hardly probable.

WILL DIE OF STARVATION.
Three-year-old Child Ate Soap and Throat Closed up.

Kingman, Wis., Oct. 12.—Norman Dafeo, aged three, of Madoc, is in the hospital and will probably die by slow starvation. The child a few weeks ago found some crystallized soap and ate it. His throat has closed up and nothing can be done. Today that time he has been kept on liquid food fed to him through a tube. Today an operation was performed by a specialist and his throat was temporarily opened, but he could not take substantial food.

Edmonton Bulletin.

EDMONTON, ALBERTA, CANADA, THURSDAY, OCTOBER 14, 1920

GREAT WELCOME FOR GOMPER'S.

Labor President is Tendered Enthusiastic Reception on Return From Abroad.

Washington, D.C., October 12.—Samuel Gompers, president of the American Federation of Labor, reached his home tonight after an extended European trip. He was met at the station by 500 friends and his passage to a waiting automobile was triumphant. Twenty thousand members of labor organizations with floats, banners and bands of music paraded in his honor. After a formal reception at the St. James Hotel, attended by thousands, Gompers returned to his home at the Ritz Hotel. A mass meeting of welcome was held later in the Convention Hall.

TRAGIC END OF A GERMAN CAPTAIN

On Eve of Wedding He Takes His Own Life Through Remorse for Having Killed a Brother Officer.

Berlin, Oct. 13.—The suicide of Capt. Hildebrandt at Hanover on the eve of his wedding, reveals a case in which truth is stranger than fiction. Hildebrandt was engaged to the daughter of a high officer at Hanover, and the wedding was to have taken place Monday. In accordance with German custom a preliminary wedding party was given at the residence of the bride's parents Sunday night, at which Hildebrandt was present and in the presence of his bride-elect.

PEARY ISSUES HIS STATEMENT

Upon the Story of Two Eskimos He Bases Claim That Dr. Cook Never Reached the Pole.

New York, October 12.—Commander Robert E. Peary made public today a statement purporting to disprove Dr. Frederick A. Cook's claim to having discovered the North Pole about a year before the Commander did himself. The statement embodied the signed testimony of Captain R. Bartlett, of the Roosevelt; D. B. McMillan, George Borup and Matthew A. Hensen, as to the statements of two Eskimos who accompanied Dr. Cook.

MORE MONEY FOR THE C.P.R. BRIDGE

Provincial Government Will Increase Grant and Same is Expected From the Dominion.

The high-level bridge question will be at a standstill for the remainder of this week. Mayor Lee and Alderman Gariety, two of the committee who have been endeavoring to bring the question to a head, have gone to the municipal convention at Edmonton and will not be back till Saturday. The Strathcona Council have left the question in abeyance until the end of the week, owing to the fact that the Edmonton council are not in a rush for a statement as to what they will do with the bridge. The agreement will not take any further action until the arrival of F. W. Peters from Winnipeg on Monday. Upon his reaching Edmonton council meeting will likely be held in the afternoon and the details with reference to the plans for the crossing of Victoria and McKay avenues, as well as for the Jasper avenue subway, which form part of the agreement, will be arranged.

TERRIFIC EXPLOSION IN TOWN OF AYLMER

Boiler in Electric Light Plant Blew Up, Killing Engineer and Wrecking Water and Light Plant Building—Injury to Town's Principal Industry, a Prey to Flames.

Toronto, Oct. 12.—Harry Fisher is dead, Aylmer is without either light or water, the Brandon Shovel factory is a mass of smoking ruins and practically everything in the place is a mass of smoking ruins. The result of a terrific boiler explosion in the electric light works tonight. What the cause was, it is not known, but it is known as the boiler was blown into a thousand pieces and the body of the boiler was scattered over a wide area. The boiler was recovered a couple of hours after from beneath the wall which had fallen on it.

What Strathcona Will Give.
It is practically certain that Strathcona will not agree to submitting a by-law for \$300,000, the amount named by the Edmonton committee in the joint conference held last Friday night. Those who are most enthusiastic with regard to the high-level bridge in the Strathcona council feel that the utmost limit to which the amount of a grant could be \$50,000.

What Edmonton's Share Will Be.
The ratepayers will not pass a by-law for more than \$35,000, twice the amount already pledged, said a prominent official of Strathcona yesterday in conversation with the Edmonton authorities. The council of the southern city hold that the cost of the bridge over the estimate of \$275,000 several years ago is largely if not all of the additional factoring in the street car lines. This being the case, they contend that it is up to the Dominion government to pay the additional cost. As a concession, however, they have previously voted, but farther than this the majority do not think they are justified in going.

World's Metropol is Owned by Few People.
London, Oct. 13.—The London county council has spent ten years in preparing a ground plan of London, showing the owners of the land, and it is now ready to be published. It shows that 34,000 persons, mostly single house owners, own land covering 113 square miles. Sixty per cent of the land is owned by 187 persons, and the remainder is owned by 33,813 persons. One-third of this area belongs to the Crown, ecclesiastical commissioners, the county council and the city corporation.

SPAIN ON VERGE OF A REVOLUTION

Execution Today of Prof. Ferrer the Spark That Will Set Nation Afire.

Paris, Oct. 13.—In the face of the protest of Pope Pius and King Emmanuel of Italy, Prof. Francisco Ferrer, convicted by a court martial of having incited the Barcelona riots last summer, was executed today. His death is looked upon as the spark that will set off the revolution in Spain. The life of King Alfonso is thought to be in danger. The threats of violence are made against the Spanish monarch by the revolutionists throughout Europe. All Spain is aroused to the danger and the crisis is spreading. The day is rapidly spreading. The large cities in Spain are under the semblance of martial law. Extra guards surround the palace.

WILL FRANCE BECOME INVOLVED IN MOROCCO?

French Press Making Concerted Effort to Rouse French Public into Forcing Government to Occupy Taza, to Secure Opening of Trade Route From Algeria to Atlantic.

Paris, October 13.—If France is not soon in the thick of the Moroccan question it will not be the fault of the government. The French press is making a concerted effort to rouse the public and this force the French government to order the military occupation of Taza. Moorish town, about midway between Algeria's western frontier and Fez, on the great trade route from the Atlantic coast, which the French dream of piercing through Morocco, the "Echo de Paris" and "Le Temps" are making a concerted effort to rouse the public and this force the French government to order the military occupation of Taza. Moorish town, about midway between Algeria's western frontier and Fez, on the great trade route from the Atlantic coast, which the French dream of piercing through Morocco, the "Echo de Paris" and "Le Temps" are making a concerted effort to rouse the public and this force the French government to order the military occupation of Taza. Blueberries, \$1.25 per patent pail. Cranberries, \$1 per pail.

FARMERS DISCUSS GRAIN PRICES.

A meeting of the Edmonton Local Union of the United Farmers of Alberta was held Saturday, October 2nd, when the following resolutions were passed:

"That a committee of three be appointed to work in conjunction with a similar committee of the Strathcona Local Union to arrange for a seed fair to be held in Edmonton this fall and the following constitute this committee: Messrs. C. H. Grierson, W. A. Wilson and F. C. Glegg. The meeting then formed a joint meeting in conjunction with the neighboring local unions to consider the question of marketing the present crop. Among the members of the visiting locals present were: Messrs. Rice Stephens (vice-president of the society), D. W. Warner, and others and Mr. J. H. Thamer, of the Grain Growers' Grain Company, Calgary. The following resolutions were passed: "That it be resolved that at this joint meeting of the Edmonton, Strathcona and Clover Bar local unions of the United Farmers of Alberta, we recommend every farmer that is able to hold his grain in his own hands as much as possible, and if he cannot hold all, to hold such portion as he can, and if he feels compelled in any case to let it pass from his hands to put it in store at the terminals rather than sell at the present prices. That seeing a resolution favoring the farmers, as far as possible, holding their grain in storage or in their own granary has been passed by the joint meeting, we consider and recommend that, as the Grain Growers' Grain Company, of Winnipeg and Calgary, being a farmers' company, has in the past two years helped the farmers in this respect, our farmers, as far as possible, should, when having to put their grain into storage, ship to this farmers' company. That this meeting of local unions of the United Farmers of Alberta regrets that the generally exaggerated reports of the present crop (as usual) have had the effect of lowering the prices of same, whereas as far as we can ascertain the crop in this district is below the average and therefore warrants much higher prices.

PACKING REPRESENTATIVE.

Albert Mathews, of the large pork packing establishment of George Mathews and Co., of Ottawa, has been in the city for a day on his return from a trip to the Coast. Mr. Mathews was out this morning to inspect the J. Y. Griffin packing plant and on his return declared it to be by far the largest in Western Canada.

"The plant will mean much to the city of Edmonton and to the farming district round about," said Mr. Mathews. "The good prices which the plant is paying for hogs is certainly inducing them to get into the industry. The same is true all over the Dominion. Hogs are scarce in Ontario and Quebec and good prices there are inducing the farmers to raise more hogs. In Manitoba the hog growers are distrustful of the market, as far as experience has been that as soon as the production was large there came a drop in prices." Mr. Mathews was greatly interested in the chilled meat proposition which is on foot in Western Canada. He claimed by a year's experience in the old country, in connection with the live stock trade, that it would mean much to the west if the main meat market were established before shipment. This would mean that the local could be turned into commercial products instead of in the old country, as at the present time. In addition to the early establishment of the chilled meat trade, Mr. Mathews thought attention should be given to a fast freight service to the Atlantic seaboard.

ANOTHER REFORM IN THE INTERCOLONIAL

Minister of Railways Establishes a Purchasing Department, by Which a Close Supervision May Be Had Over Prices Paid on Quantities of Materials Purchased.

Ottawa, October 10.—The Hon. Geo. P. Graham, minister of railways, has instituted another reform in the management of the Intercolonial Railway with a view to securing the most reliable and economical system possible for the purchase of supplies for the road. A general purchasing agent has been appointed, who will have headquarters in the railway department at Ottawa with a staff of assistants.

The man selected for the position is Louis Lavoie, formerly of Rimouski, and for the past few years a most efficient member of the Intercolonial staff. He was for a time chief clerk in the general superintendent's office and later on was on the general staff of General Manager Pottinger. (Although only about 30 years of age, he has worked his way up through the various departments of the road and is considered by the board of management to be the best man available for the position. Three well qualified clerks will be brought from the stores department at Moncton to assist Mr. Lavoie in Ottawa.

By this new system of purchasing supplies the minister and the board of management will be able to exercise a closer supervision over the prices paid and the quantities purchased and will secure uniformity in the matter of obtaining lowest prices through the tender system.

YORK VS. CITY CASE IN OTTAWA COURT

Large Amount of Money Involved in Suit for the Return of \$800 License Fees.

Ottawa, Oct. 11.—In the Supreme Court of Canada today the case of York vs. the City of Edmonton, was taken up. The appellant is the proprietor of the Windsor and Alberta Hotels in the city of Edmonton and paid in respect to each a license fee imposed by the city in obtaining his liquor license. The city subsequently taxed his floor space not occupied by bar room and wine cellars on an assessment for business. He paid tax under protest and then sued to recover back the eight hundred dollars from the city on the ground that he had been taxed twice in respect of the same business. The respondent, Justice Stuart decided in his favor at the trial, but the full court of Alberta reversed the decision on the ground that the license fee was an imposition of a license granted under the city charter but was for one year under the Alberta liquor license act, and that the clause in the city charter prohibiting a double taxation referred merely to those for licenses issued under the authority of that charter. Judgment was reserved.

Nesbit, K.C., appeared for the appellant, and Chrysler K.C., for the respondent. The appeal, if allowed means that the city of Edmonton will have to refund the \$400 collected on each of the licensed hotels in the city and cannot again tax them in this respect until the Edmonton charter is amended. First Head in February Last. The case first came up in the Supreme Court before Mr. Justice Stuart on February 6th, 1909. The action was to recover the sum of \$800, with interest, paid to the city under protest by Mr. York in 1908, as certain liquor license fees for that year. The collection of these fees was against claim made by the Edmonton charter, section 3, paragraph 4, title xxviii, which provided that no person who is assessed in respect of any business or special franchise shall be assessed in respect of the same business or special franchise. The defendants' claim. The defendants claimed that the license fees were collected under city by-laws passed in accordance with the provisions of the liquor license ordinance. In assessing the hotels for business tax the floor space of the bar room was not twice assessed and the remainder assessed as were hotels where the sale of intoxicating liquors was not a special privilege. The plaintiff was not twice assessed in respect of the same business, the business tax or assessment being imposed under the terms of the Edmonton charter upon all hotels irrespective of whether intoxicating liquors are sold or not. The complaint of the plaintiff was that the authority of the city by-laws enacted in accordance with the Liquor License Ordinance in respect of a special privilege, that of selling intoxicating liquors.

The First Judgment. Judgment was given by Mr. Justice Stuart for the plaintiff but a deduction was made of \$41.69 being the amount for the floor space of the bar, wine cellar, etc., not assessed, leaving \$758.31, for which amount with costs he gave judgment in favor of the plaintiff. Against this decision an appeal was entered by the city and came up for hearing before the Supreme Court on March 13th. The result was the reversing of the judgment of Mr. Justice Stuart with costs against the respondents in both the appeal and the original action.

The next step was the taking of the case to the Supreme Court of Canada. The above association alleges that unfairness and discrimination by the latter companies in the transmission of its own service. This was announced this afternoon by acting Chairman D'Arcy Scott, who said that the board, whose aim was to do substantial justice, could not proceed with this case at the present time because Mr. Atkins for the C.P.R. had said that they were not ready to go on, while the G. N. W. sheltered under a highly technical point. He, however, realized the importance of the case and the board would hold a special sitting on their return. In agreeing to this, M. E. Nichols, on behalf of the Western Associated Press said that while he was willing that the first part of the application should stand over the claim for an equalization of rates for service supplied, affecting as it does, many newspapers west of Winnipeg, was very important and even urged and for this reason they had proposed the matter would have been dealt with at the present time.

D'Arcy Scott, chairman, and S. J. McLean were the members present when the railway commission opened for business this morning. Nine cases were withdrawn, and three were held over until the next sitting of the court in Winnipeg.

Blizzard Raging on Superior.

Duluth, Minn., October 11.—A sixty mile blizzard, accompanied by alternate rain, hail, sleet and snow, has been raging since early last night. Shipping on Lake Superior is delayed.

WITH THE FARMERS

DRY FARMING CONGRESS.

Geo. Harcourt, deputy minister of agriculture, is vice president and corresponding secretary for Alberta, for the Dry Farming Congress which is to be held at Billings, Montana, on October 26, 27 and 28. As such he has been interesting as many as possible in the congress because of its educational value and the discussion which will be held there on methods of scientific soil culture suitable for districts in which the rain fall is somewhat light. The result is that a large number are becoming members of the association and will be receiving the annual report, which will contain the valuable information laid before the congress during this month.

There will, however, be from fifteen to twenty who will be able to hear the deliberations in person. The Lethbridge board of trade has arranged a special pullman car to run between Lethbridge and Billings and to be used by the delegates during their stay at the congress. The entire responsibility of the sleeper is assumed by the Lethbridge board of trade and anyone desirous of taking advantage of it may do so by corresponding with the secretary. A special fare of \$17.55 return from Lethbridge has been arranged and it is expected that the C.P.R. will give reduced rates from any point in the province to Lethbridge. The departure of the special train from Lethbridge will be made at 9.30 on the morning of October 25th, so as to arrive at Billings in time for the evening session on the following day. With the rates made so low it is expected that a great many interested in soil culture will be able to attend.

In connection with the congress there is to be an exposition of Dry Farming products. Last year samples of Alberta grain were taken to the congress at Cheyenne, Wyoming by W. H. Fairfield of the Lethbridge Experimental Farm. These samples were judged worthy of a prominent place and if he had had a larger sample he would have been given the spot. For the exposition at Billings, Thos. Wolford, of Cardston, has been appointed by the officers of the congress as special exhibition commissioner for Alberta and has obtained an exhibit for points south of Calgary. The board of trade of Macleod, Lethbridge, Medicine Hat and Marden have also provided an exhibit and it is expected that other towns will do likewise, as well as private individuals. The exhibit space at the end of the hall has been reserved for Alberta's exhibit. From information secured from the secretary of the congress, it is expected that the freight on exhibits will be refunded, and in case that this is not done the department has agreed to bear the expense of the freight. No exhibit, however, is being made by the Department of Agriculture.

Mr. Harcourt will deliver an address on dry farming methods in Alberta and is down on the programme from an illustrated address on the resources of the province. To the end, a stereopticon machine and an assistant has been placed at his disposal and the free use of theatre. Mr. Harcourt has fifty slides with which he will endeavor to cover every phase of development in the province. As there will be from 2,000 to 3,000 delegates at the conference, an excellent opportunity will be given to interest farmers across the line in the agricultural possibilities of Alberta. This will be done from a standpoint other than that of dry farming in the province.

Among those from Alberta who will attend the congress are George Harcourt, deputy minister of agriculture; D. W. Warner, of Clover Bar, who has always been a student of soil culture; Thos. Wolford, who will be in charge of the exhibit; W. H. Fairfield, of the Lethbridge Experimental Farm, and T. B. B. Henderson, chief weed inspector. It is expected that a considerable number will go from the Lethbridge, Medicine Hat and Macleod districts.

HELD OVER TILL NOVEMBER.

Case of W. A. P. Will Be Heard by Railway Commission Then. Winnipeg, Oct. 11.—The board of railway commissioners will make a special stop over here on their return from the coast the second week of November to take up the case of the Western Associated Press with reference to the C.P.R. rates and discrimination by the latter companies in the transmission of its own service. This was announced this afternoon by acting Chairman D'Arcy Scott, who said that the board, whose aim was to do substantial justice, could not proceed with this case at the present time because Mr. Atkins for the C.P.R. had said that they were not ready to go on, while the G. N. W. sheltered under a highly technical point.

He, however, realized the importance of the case and the board would hold a special sitting on their return. In agreeing to this, M. E. Nichols, on behalf of the Western Associated Press said that while he was willing that the first part of the application should stand over the claim for an equalization of rates for service supplied, affecting as it does, many newspapers west of Winnipeg, was very important and even urged and for this reason they had proposed the matter would have been dealt with at the present time.

DUNCAN MARSHALL, Manager.

THURSDAY, OCTOBER 14, 1909.

The Toronto News notes that "fresh and important coal discoveries continue to be made in the Canadian west" and says: "The interests of the country demand that these shall not be alienated from the national heritage. Ownership should remain in the government, and the various areas should be leased to operating companies, upon terms that would safeguard the community at large. By this means we should be conserving our natural resources and providing against the future creation of a capitalist monopoly, the cornering of the fuel deposits and the imposition of unreasonable burdens upon the consumer." This, of course, is precisely what is being done, and what has been done for the past two years or more. Under regulations then adopted western coal lands are now leased under operating conditions not sold. Of this the News is apparently not aware. It will be interesting therefore to observe on what ground it will now proceed to condemn the Government for having done what it says ought to be done.

Calgary has had a religious census taken, though the results do not seem likely to promote the cause under whose auspices it was taken. The tone of the communications being sent to the city press seem to indicate that the popularity of the takers is on the wane rather than the increase, at least the popularity of those who made known the results of the inquiry. These reported that they had found some 14,000 people in the city. Naturally this is not received with acclamation by those who have been announcing that more than 30,000 people call Calgary their home. The best news unnecessary, however. No body is likely to construe the figures given out by the takers as indicating the whole population of the city, no one at least residing in a city where a religious census has been taken. This, indeed, is not the purpose of the promoters of a religious census. Their object is not so much to find out how many people live in a city, as how many of them do not go to church, and what churches these might attend, if a little persuasion were expended on them. Taking the Calgary press as a standard of measurement, and remembering the character they ascribe to the gentlemen elected to the highest offices in the city's gift, it seems probable that 4,000 about represents the proportion of non-church going people who reside there—providing, of course, the total is not above the 30,000 mark.

MISTAKEN ECONOMY.

The students enrolled at the Toronto Normal School, where teachers are trained, include 8 gentlemen and 299 ladies. These figures are perhaps in greater disproportion than those of any previous year, but there has for many years been a disproportion in the same direction. The meaning of course is that men are rapidly disappearing from the teaching profession in that Province and the training of the rising generations being left altogether in the hands of young women. Children in the primary grades no doubt derive an advantage from the deep sympathy and the untiring patience of a lady teacher. But with boys in the more advanced forms it is different. To them, the teacher should be not merely a teacher, but a leader. It is, after all, of less consequence that they be crammed with all manner of useful and useless information than that they be trained in the ways, the characteristics and the duties of manhood. This training the male teacher may impart by example as well as precept, perhaps by example much more than by precept. A boy is admittedly more liable to waywardness than their sisters, there is the greater need that the conditions of school life should be determined with a special regard to their welfare. Outside, a well regulated home perhaps no stronger influence can be wielded over a boy who is half a man than that of a teacher who is also a fit example of manhood. The figures from Toronto indicate that the

boys in the schools of Ontario are losing this advantage. Nor is the tendency peculiar to that Province. It seems to be general in the older Provinces. The cause is not a mystery. Canada is a prosperous country, and the wages paid teachers in the older Provinces are ordinarily much less than men can earn at other employment. In consequence few enter the profession, and those few get out of it early in life. As a life calling, a profession which does not offer something more than a bare living, and something proportionate to the rewards offered for other service, cannot be expected to attract men and hold them. Hundreds of well qualified men have abandoned the teaching profession in Canada with regret, simply because they were not prepared to become martyrs in a cause that should not require martyrs.

The disappearance of the male teacher means something more to the schools and their pupils than the loss of the influence of the masculine mind and character. It means also the absence of experienced teachers in the schools. Women do not ordinarily teach for more than a few years. Unless the men are persuaded to remain in the profession there cannot be developed a large percentage of long-experienced teachers in the schools.

Advocates of "up-to-date-ness," to the contrary, experience is worth something in teaching, as in every other occupation, and experience can be got only by doing. It may fairly be claimed, on the evidence of a thousand dismal failures, that teachers are born not made. And given a "born" teacher he should be a much better teacher after twenty years' teaching than before it. A country can never have the best of teachers till it has teachers who have devoted their lives to that business with singleness of intent and earnestness of purpose, and have acquired in the school-room the lessons which can be learned nowhere else. Nor can an educational system be considered perfect which does not tend to draw into the teaching profession those best qualified by nature for it, and to hold them once they have entered it.

At present the systems in our older Provinces do exactly the opposite. They make school-teaching simply a stepping-stone to the other professions, and they frequently drive out of the teaching profession those who would gladly remain in it.

In the younger Provinces we have not yet encountered this tendency. Teachers here are comparatively scarce. Consequently wages are comparatively good, and there is more temptation to enter the profession and less temptation to get out of it. But with the advanced development we must expect to encounter the difficulty from which the older provincial systems are now suffering. As the creation of new school districts slackens and as the teachers graduated from our high and normal schools increase the tendency will be to lower wages, and hence to the abandonment of the profession by men who have talent and forethought.

This problem should be fairly and thoughtfully faced by our educational authorities before it comes upon us. The consequences of it we have fully and unfortunately illustrated in the older Provinces. We should avoid those rather than await their development and then attempt to remedy matters. Prevention here is easier than cure, witness the attempt of the Ontario Government to raise the salaries of teachers generally throughout the Province by legislation, and the small success it seems to have attained. It would be in the highest and the longest interest of the people of the Province to fix a statutory limit below which the salary of a teacher should not fall, and perhaps to grade the Government grants in aid of schools according to the salaries paid the teachers.

The course would be a bold one perhaps, but that is no argument against it in this country. Its effect at present and for some time to come would be practically nil, as the salaries will for many years be kept at reasonable levels by natural conditions. Its value would be seen when the slow increase in schools introduces the tendency or the temptation to cut salaries. Nor need it be feared there would be a public outcry against such a measure.

Western people have learned many things from the older Provinces. They are not averse to improving on the methods and conditions there prevailing, nor in putting up the money necessary to do it. Certainly in matters of education our people cannot be accused of parsimony. It is not to be supposed they would find fault with a law restricting any district which might fall into this spirit, from robbing the future citizens of the best teachers who could be secured for its school.

DISTRICT NEWS

KEEPPHILLS.

Bulletin News Service. Dan Mackay is down from Tomahawk repairing John Bennett's separator for the threshing. Mr. and Mrs. Kyr of Bright Banks, paid a visit to their daughter, Mrs. William McDonald, last week. Mrs. E. B. Wilson has left for Edmonton to stay for some length of time. Mr. Wilson has since made a business trip to the capital. While threshing for Mr. Bennett, G. H. Collins, postmaster, had a slight accident, the blades of his knife penetrating the left muscle right to the bone. G. Schmidt and family have left for Edmonton. Forest fires are still blazing all round the district, another one starting near Old Hill Creek and Keepphills, October 8th.

FORT SASKATCHEWAN.

Bulletin News Service. Mrs. J. W. Sherr returned last night from a week's visit to the capital. Lieutenant Hughes, Sergeant Foster and Private Adams and Turner, of "C" squadron of the A.M.R., went to Edmonton to attend the fifth match of the regiment. It was a luck as good as last year, they won't return empty-handed. One of the infant twin daughters of Mr. and Mrs. E. Van died on Wednesday and was buried yesterday.

The home of Mr. and Mrs. Johnson Carscadden was brightened by the advent of a little daughter on Wednesday evening. A large flock of wauve geese passed over the Fort on Thursday evening. Some of the local sportsmen tried a few shots at them, but they were up beyond range.

Charles Stewart, who severely injured himself some time ago while lifting goods at the depot, was admitted into the General Hospital today. While working in his surgery early this morning, Dr. Harnden, the dentist, met with a serious accident. It seems that while welding two plates he doctored for a few minutes and was rudely awakened by the explosion of the welding lamp. When help arrived the doctor was enveloped in flames, which were quickly put out with a bucket of water standing nearby, but before he had received the severe burning. Medical aid was quickly procured and the doctor is resting as easily as possible under the circumstances.

Before a moderately filled but well pleased house, the Gospel Festival Entertainers gave an excellent performance here last night. Miss Minnie Simmons is back to the Fort renewing old acquaintances. Fort Saskatchewan, October 8th.

WABAMUN.

Bulletin News Service. Mr. and Mrs. Harry Smith are rejoicing over the birth of a son on Sunday, October 3. On Saturday, October 8th, at the residence of the bride, Miss Yelma Lent to D. MacDonald, of Messiasin. The young couple will enjoy the best wishes of the entire community to their new home. Ed. Willard recently suffered the loss of two stable of valuable horses by fire and a C. Smith's hay, on the Esauot place, was burned up with the stable this week. Willard's loss was covered by insurance. C. H. Dunn attended the ceremony of laying the corner stone of the Capital buildings at Edmonton last week.

A. C. Smith purchased one hundred head of cattle near Island Lake last week and later sold the whole bunch to E. Burns & Co. Messrs. Chauvin and C. Race, of Edmonton, continued business with pleasure in visiting the lake the latter part of the week. Mr. Race interviewed the merchants of the vicinity in the interests of his firm and Mr. Chauvin was exploiting the glories of the lake and the parting lot spot on it owned by his land company. It is the intention of the syndicate to erect a fine hotel at Selma the coming summer.

Threshing in this vicinity is nearly completed. The grain is turning out well and the oats are particularly heavy. S. W. Eakins B.A. returned the first of the week from a ten days' trip to the capital city. Wabamun, October 8th.

RIVIERE QUI BARRE.

Bulletin News Service. On October 8th, a quiet but very pleasant wedding was solemnized here. The contracting parties were Hazel Olive Stewart, second daughter of John Stewart, and James Flynn. The marriage ceremony was performed by Rev. Father Okajewski, who gave the nuptial blessing during high mass at nine o'clock. The bride was attired in a brown travelling suit with white pique hat. The bride was attended by M. Flynn and Mr. Hut, fermas, was groomsmen. After mass they adjourned to the home of Mr. Flynn where they were the recipients of a shower of rice and hearty congratulations. After dinner the happy couple left for their new home in Sion taking with them the best wishes of a host of friends. Riviere Qui Barre, Oct. 8th.

SION.

Bulletin News Service. On Monday last, the 4th inst., the trustees of the Clifton School District opened their school for instruction, under the appointed teacher, Mr. Donald McLeod, and although the move was completed in one day, or only a day or two, five children put in an appearance. The particularly well equipped in up-to-date furniture and fittings, maps and appliances. The playground an acre in extent, is cleared of brush, etc., and fenced with up-to-date wire fencing. A well has been sunk at about 30 feet and is a good supply of excellent water is obtained. Sion, October 8th.

DOMINION'S REVENUE SHOWS BIG INCREASE

Surplus of Receipts Over Ordinary Expenditure Gives Promise of Being the Largest on Record—Net Debt of the Dominion, \$320,000,464 on September 30.

Ottawa, Oct. 11.—The financial statement of the Dominion for the first half of the present fiscal year shows an increase of \$6,500,250 in the revenue as compared with the first six months of 1908-09. On the other hand the expenditure on consolidated fund account decreased by \$1,008,336 and on capital account by \$209,582. For September alone the increase in the revenue was \$1,570,709, while the total expenditure decreased as compared with September of last year by \$2,684,275.

Judging by the figures of revenue and expenditure for the first half of the year the surplus of receipts over ordinary expenditures at the close of the year will be the largest on record and the Hon. W. S. Fielding's budget estimate of the probable increase in the revenue is likely to happily prove to be several millions too small. The main figures for the month and for the six months are as follows: Revenue—September, \$8,859,639; expenditures on capital account, September, \$3,967,321; for the six months, \$13,213,063. The net debt of the Dominion on September 30 was \$320,000,464.

FATHER SENTENCED TO 10 YEARS

Frank Harder and Two Sons Will be Inmates of Penitentiary.

Moose Jaw, Sask., Oct. 10.—At the supreme court yesterday Frank Harder, father of the two boys previously sentenced for incest was ordered to be confined to the Edmonton penitentiary for ten years for a similar offence. Joseph Bessinger, also convicted of incest, was sentenced to three years with the application of the lash fifteen days after his arrival at the penitentiary. Wm. M. Ball found guilty of theft of \$500 from a business partner was given a penitentiary term of two years. In the latter case a petition, largely signed by influential persons, was presented to Chief Justice Wetmore in favour of the prisoner and there is a movement now on foot to address the Governor General on his behalf.

C. E. McCormick, C.P.R. brakeman, charged with conspiracy and defrauding the company by selling tickets to passengers, found not guilty on both counts. His lordship in directing the jury to return a verdict of not guilty said he had no doubt McCormick was innocent and intending to keep it, but the section under which the charge was brought did not cover the offence nor was there any section to cover it.

TO USE POLAR BEARS TO DRAW HIS SLEDGES.

Hamburg, Oct. 10.—Capt. Raold Amundsen, a widely known Danish explorer, who is about to start on a polar expedition, has decided to try a remarkable innovation in the use of draught animals for polar travel. He will endeavor to make polar bears draw his sledges. Some time ago Capt. Amundsen made a contract with Carl Hagback, the famous animal trainer, for twenty ice bears three years old. Hagback's men have been industriously training the bears for a month, and the results are said to promise success for them in polar work. The animals will be shipped this week to Christiania, Norway, where they will be taken on board Captain Amundsen's ship.

CHRISTIAN SCIENTISTS SPLIT.

Mrs. Della Gilbert Finds New Sect On Her Expulsion From Mother Church.

New York, October 10.—In three distinct camps, two of which are bitterly hostile to each other, the Christian Scientists of New York City found themselves today as the result of the present crisis in the affairs of this church, in the hall room of the Hotel Gotham. Mrs. Della Gilbert, a recent ex-communicant because of her attacks on Mrs. Eddy, inaugurated "The New Christian Science Church."

ABOUT 75 PERSONS WERE PRESENT.

Not only did she openly attack from the pulpit the woman founder of the church, but in an after talk she frequently assailed Mrs. Auguste Stetson, leader of the First Church. She said that Mrs. Stetson not only tried to set herself above all other Christian Science teachers, but was also guilty of malicious animal magnetism. Although it was commonly reported in Christian Science circles today that this congregation under the leadership of Mrs. Stetson is about to secede and found a new church which will place Mrs. Stetson above Mrs. Eddy, no member of it would discuss the subject. At the services all reference to the present feud between the two women leaders was studiously avoided.

EARL GREY AT DIVINE SERVICE.

Winnipeg, Oct. 10.—Earl Grey attended divine service at Holy Trinity church this morning. All the units of the garrison paraded to church. The Governor-General inspected the brigade on the university grounds. The choir and congregation heralded the arrival of the viceregal party by singing the National Anthem, including the third verse as printed in the new book of Common Prayer.

A BIG INCREASE IN THE ACREAGE

6,179 Acres More Under Cultivation in Edmonton District This Year Than Last.

The Provincial Department of Agriculture has submitted an official report on the Edmonton district crops of 1909 which shows the net increase in acreage under cultivation to be 6,179 acres. This total increase is distributed as follows: Fall wheat 879 acres, barely 6,229 acres, oats 10,993 acres, with decreases recorded in spring wheat of 10,401 acres and flax 12 acres. This growth compared with other years, is equal, if not better than that of several years previous.

FREE WHEAT FROM CANADA.

National Grain Dealers Oppose Federal Inspection of Grain.

Indianapolis, Oct. 9.—The National Grain Dealers in convention here Friday declare for rescinding the duty on wheat from Canada and placed itself on record as opposing the federal inspection of grain. The report of the legislative committee, which was adopted, further protested that there was no shrinkage of grain in transit, and the practice of making shrinking deductions should be stopped. The government crop reports was assailed as inadequate. Numerous questions as to shipping grain are to be taken up with the interstate commerce commission. The convention adjourned after electing the following officers: President, A. G. Tye of Peoria, Ill.; vice-president, James L. King of Philadelphia, Pa.; second vice-president, E. W. Seeds of Columbus, Ohio; directors, A. L. Morey of New York, Charles J. Jones of Memphis, Tenn., A. B. Bledsoe of Lexington, John R. Marfield of Minneapolis and E. A. Bowen of Iowa. At the meeting of the new board of directors this afternoon John F. Conrier of Toledo, was re-elected secretary-treasurer.

SHE IS FIVE TIMES A BIGAMIST

She Now Declares She is Somewhat Tired of Matrimony.

Kansas City, Mo., October 8.—Grace M. Chapman pleaded guilty to a charge of bigamy in Justice Miller's court, at her preliminary trial here today, admitting that she had married six men without having obtained a divorce from any of them. "Yes, I'm guilty," she testified. "I've had six husbands and I'm sick of matrimony. Most of the men I married were farmers. I would live with them until I got tired of them, then I'd leave. They were so tiresome. "Were you ever divorced?" "Not that I know of," Mrs. Chapman replied. Mrs. Chapman was unable to furnish a bond of \$2,000 and was remanded to jail.

CADET TEAM FROM OLD COUNTRY.

Ottawa, Ont., October 8.—Word has been received here that a team of Canada from Great Britain will visit Canada next year and take part in D.R.A. matches.

IMMIGRATION SHOWS AN INCREASE OF 71 PER CENT.

Ottawa, Oct. 10.—During the month of August the total immigration into Canada was 15,387 as compared with 10,022 for the same month last year. Arrivals from the United States numbered 8,024 as compared with August 1908, an increase of 71 per cent.

The arrivals by ocean ports totalled 7,363 as compared with 5,388 for August of last year, an increase of 36 per cent. The total immigration into Canada for the first five months of the present year was 105,636, an increase of 17 per cent. over the same period last year when the arrivals numbered 90,385.

INDIANapolis, Oct. 9.—The National Grain Dealers in convention here Friday declare for rescinding the duty on wheat from Canada and placed itself on record as opposing the federal inspection of grain.

The report of the legislative committee, which was adopted, further protested that there was no shrinkage of grain in transit, and the practice of making shrinking deductions should be stopped. The government crop reports was assailed as inadequate. Numerous questions as to shipping grain are to be taken up with the interstate commerce commission. The convention adjourned after electing the following officers: President, A. G. Tye of Peoria, Ill.; vice-president, James L. King of Philadelphia, Pa.; second vice-president, E. W. Seeds of Columbus, Ohio; directors, A. L. Morey of New York, Charles J. Jones of Memphis, Tenn., A. B. Bledsoe of Lexington, John R. Marfield of Minneapolis and E. A. Bowen of Iowa. At the meeting of the new board of directors this afternoon John F. Conrier of Toledo, was re-elected secretary-treasurer.

Rich Find in Robbers' Cache

Denver, Oct. 10.—Five thousand dollars worth of stamps and \$5,600 worth of unsigned banknotes shipped to California banks, which were part of the booty contained in a mail pouch which mysteriously disappeared from a Union Pacific mail train in Wyoming some months ago, have been recovered by "Wild" Anderson, an emigrant, on the south fork of Green river and returned with other private papers to the post office inspectors in Denver.

Lost Record of Summer's Work.

Vancouver, Oct. 10.—H. Fred Lambert, representing the Canadian government, has lost accounts in connection with the summer's work by the joint boundary survey of the Alaskan Boundary by Canada and the printed stakes. The papers represent an expenditure of \$80,000.

HON. FRANK OLIVER TO AID FIRE SUFFERERS

Minister of Interior Promises That Government Will Provide Free Seed to Settlers Who Lost Their All in Prairie Fires Northwest of Calgary.

Calgary, Alta., Oct. 11.—A. L. Morris, of Hutton, interviewed Hon. Frank Oliver in regard to sufferers from the great prairie fire north of Red Deer river last week. Morris explained matters to Mr. Oliver, telling him of the settlers who had just gone in and who have suffered loss of their goods and telling him of the hard future they will have without help.

Mr. Oliver stated that he fully sympathized with the sufferers and promised that the government will supply seed absolutely free of charge to those who have suffered from the fire. He promised seed for one year, and said that there was a likelihood of the government supplying it for two years. The city council and board of trade will continue to render immediate assistance. It will likely take the form of rushing goods to the region affected where they will be sold at cost, as the people in the majority of cases do not look for charity.

NATIONS ARE NOT ALARMED.

Development of Airship Has No Terrors for Naval Authorities.

New York, Oct. 8.—American and foreign naval officers who gathered here witnessed Wilbur Wright's flight up the Hudson Monday, while impressed with the manner in which the aviator controlled his craft, are nevertheless of the opinion that the machine would be an easy target for shrapnel fired from the big guns. This was the view taken by Commander Sims. Sir Wm. White, formerly chief constructor for the British navy, said last night: "The nations of the earth are not disturbed over the likelihood of the aeroplane's possible use in war. As a matter of fact the contingency of dirigibles or aeroplanes carrying explosives has not been taken into serious consideration by the British admiralty and plans of considerable range and power have already been mounted on England's big ships which can be fired at an elevation which would insure the destruction of the airship."

THE EDMONTON CITY DAIRY, Limited

Established 1900. MANUFACTURERS OF CREAMERY BUTTER.

Also dealers in Milk, Cream, Eggs, Butter, and Buttermilk

Delivered to any part of city daily. Phone 3102.

Dairymen that have never sold their cream will do well to give us a trial. Why do all the work of making butter and selling it, when you can sell the cream for cash. If you would like to try a few shipments send your cans to Edmonton City Dairy, Ltd., Edmonton or Strathcona. We pay express and return cans free. If you haven't any cans write us and we will loan you cans while you give us a trial. We also pay highest price for fresh eggs. Our factory operates the year round. We are always glad to meet any visitors.

CLOSING OUT SALE
SALE OPENS SATURDAY, OCTOBER 16th, 1909
AT 9 O'CLOCK A.M.
THE ENTIRE \$60,000 STOCK

MESSRS. GARRIEPY & LESSARD have been in the mercantile business in Edmonton for many years, almost a fifth of a century past and have earned the enviable reputation of being thoroughly reliable in all their business transactions and their every ambition to please their customers prompted them to put in a stock of dependable merchandise, which at this writing would inventory over \$60,000. Now as they find it necessary to retire from the retail business as they have other business interests which requires and demands all their time and attention, this mammoth stock of fine merchandise will be thrown on the market at the mercy of the people and sold in the shortest possible time. Fixtures are included in this sale, leaving nothing but the bare walls.

We advise early forenoon shopping as it will be almost impossible to get proper attention afternoon and evenings, on account of the throngs of eager shoppers that will no doubt gather at this great closing out sale.

Consisting of Dry Goods, Groceries, Shoes, Notions, Men's and Boy's Clothing, Men's, Women's and Children's Furnishings, Etc., Etc,

—OF—
GARRIEPY & LESSARD
Edmonton, Alta., is now in the hands of
LEWIS BROS. & CO., of Spokane and Chicago
To be sacrificed and sold to the people of Edmonton and vicinity before November 21st regardless of profit, cost or consequences
THE STORE WILL BE CLOSED Tues., Wed., Thurs., Fri. OCTOBER 12-13-14-15
During which time Lewis Bros. & Co.'s large staff of sales people will be marking down prices and rearranging stock and preparing for the greatest outpouring of merchandise ever attempted in the north.
REMEMBER THE OPENING DAY—SALE OPENS SATURDAY, OCTOBER 16, AT 9 A.M.
Store open evenings. Fifty sales people wanted, men and women, apply at your earliest convenience.

TIME LIMIT. Short indeed is the time given to convert this mammoth stock into cash, but it must be done, therefore, the low price route is the only way such a gigantic feat can be accomplished, so it is the price that sells, that rules here. Remember this is not the ordinary sale of odd sizes and undesirable merchandise but a great clean sweep of the entire stock. The new fall and winter merchandise will go with the rest and at prices just as phenomenally low. This momentous mercantile movement, will place in obscurity all previous events of the kind and stand alone in the annals of sales as one without a peer. It will prove to be truly the greatest sensation of doubtless many years to come for the buying public, a saving opportunity of vital importance to everyone who can possibly reach the store. The astonishing values, the very timeliness of the offerings coupled with an utter disregard for cost or loss is bound to astonish the purchasing public and cause competition to stand aghast at our marvellous methods of speedy merchandising.

SPORTING NEWS

A SAD BLOW FOR

Chicago, Oct. 10.—Before a frantic mob of 25,000 persons had to be driven to the next town. The Cubs out of winning 2 to 1. They were Siders out in earnest, for stopping to wipe his nose. Having made a hole, which heathen literally blew the fire by blowing his nose, but the game was wadded as if to game away was nervous. They admit that heathen caused the greatest fiasco that ever had ragged in the Cubs do not deny that heathen that he stopped after standing to deliver the ball to dropped his hands and when they saw that heathen had complain that Walsh was to talk repeatedly without pause. The score by innings:—

Chicago (Cubs) . . . 100 000
Chicago (White Sox) . . . 100
Batteries—Brown and Ash and Sullivan. Umpires: Sh O'Day.

MARATHON.

Toronto, Oct. 10.—15,000 people met for the annual Marathon along the Lake Shore road. The time was 1:59:12.55. R. H. the Irish-Canadian A.C. was the Melody, Hamilton, Harry John Roe, West End N.Y.C. There were 192 entrants, Long was the event for the past was unable to enter being a

FOOTBALL.

Ottawa, Oct. 10.—After a hard game here on Saturday defeated the Hamilton Tigers points to five. The game lasted few minutes, the team even terms during most of the half time the score was 22-12, strained to the utmost but chances, with the result that was one long struggle horizontal divisions, and there were few features. Each score which indicates how events in game were. The attendance was large, and Hamilton who came to Ottawa prepared their team heavily, lost money.

LACROSSE.

Montreal, Oct. 10.—Montreal Eastern Lacrosse champions today, defeating the Shamrock one in the second game of series. The Shamrocks won game on a muddy field a week to 7 to 5, and went into battle with a lead of two goals. field they were outclassed by opponents. Nearly 10,000 watched. Montreal will not New Westminster for the

ARGOS LOSE TO MONTREAL.

Toronto, Oct. 10.—Montreal Toronto Argonauts in the 10 game of the Inter-Provincial son by 13 to 5. Two thousand saw the game. The visitors marked superiority in the half Montreal scored an unconvincing first quarter and a convulsing second. Argos scored goal, and goal from the field quarter and Montreal's touch

SPORTING NEWS

A SAD BLOW FOR CUBS. Chicago, Oct. 10.—Before a frenzied, frantic mob of 25,000 persons, who refused to allow even a driving, frenzied crowd to dampen their ardor, the White Sox, driven to the next to the last ditch, rallied on the West-Side grounds today and noosed the Cubs out of the game, winning 2 to 1. They noosed the West-Siders out in earnest, for Reulbach, stopping to wipe his nose in the ninth inning, made a balk, which brought Atiner home with the winning run and gave the Sox the victory for which they had fought fiercely for nearly two hours. Reulbach literally blew the game away by blowing his nose, but the blow was preceded by a period of anxiety and Reulbach, who three times during the game had wobbled as if to throw the game away, was nervous and excited. The balk he made, probably will be the cause of the greatest baseball dispute that ever had raged in Chicago. The Cubs do not deny that Reulbach balked; that he stopped after starting his motion to deliver the ball to the plate, dropped his hands and wiped his nose. They admit that Reulbach balked, but complain that Walsh was permitted to talk repeatedly without penalty. The score by innings:

R.H.E. Chicago (Cubs) 10 000 000-1 5 2 Chicago (White Sox) 001 100 000-2 6 2 Batteries—Brown and Archer, Smith and Sullivan. Umpires, Sheridan and O'Day.

MARATHON. WARD MARATHON WINNER. Toronto, Oct. 10.—15,000 people saw Jack Near, the Central Y.M.C.A. runner win the annual Ward Marathon along the Lake Shore road. The distance is about 20 miles and the winner's time was 1:58:12.3. R. H. Buxton of the Irish-Canadian A.C. was second; W. J. Meloy, Hamilton Harriers, third; John Roe, West End Y.M.C.A. fourth. There were 192 entries, Longboat, who won the event for the past three years was unable to enter because of a professional.

FOOTBALL. TIGERS BEATEN AT OTTAWA. Ottawa, Oct. 10.—After a hotly contested game here on Saturday Ottawa's defeated the Hamilton Tigers by seven points to five. The game was won in last few minutes, the teams being on even terms during most of the play. At half time the score was 3-3. Both sides strained to the utmost but took few chances, with the result that the game was one long struggle between the front divisions, and there were few spectacular features. Each score was a rouse which indicates how evenly balanced the teams were. The attendance at the game was large, and Hamilton sports, who came to Ottawa prepared to back their team heavily, lost considerable money.

LACROSSE. Montreal, Oct. 10.—Montreal won the Eastern Lacrosse championship on Saturday, defeating the Shamrocks five to one in the second game of the play-off series. The Shamrocks won the first game on a muddy field a week previous, 15 to 5, and went into Saturday's battle with a lead of two goals. On a dry field they were outclassed by their former opponents. Nearly 10,000 witnessed the battle. Montreal will now challenge New Westminster for the Minto cup.

ARGOS LOSE TO MONTREAL. Toronto, Oct. 10.—Montreal beat the Toronto Argonauts in the local opening game of the Inter-Provincial Rugby season by 13 to 5. Two thousand people saw the game. The visitors showed marked superiority in the back division. Montreal scored an unconverted try in the first quarter and a converted try in the second. Argos scored a touch-down goal, and goal from the field in the third quarter and Montreal's touch-in-goal in

HURRICANE SWEEPS WITH TERRIFIC FURY

Key West, on Florida Coast, Struck at Daybreak by a 80 Mile-an-hour Storm, Which Raged About Noon—Storm Passed Up East Coast. Key West, Fla., Oct. 11.—This city tonight is a mass of wreckage as a result of a West Indian hurricane which rushed up from the gulf today. At least one-half of the island city is in ruins tonight. The property loss is estimated at \$3,000,000. The city officials have asked the United States government to allow the regular troops to be used as guards until order is restored. So far as known no human lives have been lost. The property loss is appalling, over ten of the leading cigar factories being in ruins. Terrible havoc was wrought on the shipping vessels in the harbor. There were over 100 vessels at anchor and of these only a few are left. The others were driven out to sea or cast on the beach. The storm struck the city with full fury about day break this morning and raged until noon, when it suddenly ceased. At times the wind blew 90 miles an hour. Late this afternoon the sun was shining and the only evidence of the gulf hurricane was the mass of wreckage. The storm passed up the east coast and it is feared that loss of life has been great in that section. There are many minor buildings blown down or working on the Flagler east coast extension, across the Florida Keys, and it is impossible to see how they could escape.

OLD COUNTRY FOOTBALL. London, England, October 10.—Following are Saturday's league football results: First Division—Aston Villa 3, Everton 1; Bolton Wanderers 1, Blackburn Rovers 2; Liverpool 3, Manchester United 2; Middlesboro 0, Chelsea 1; Newcastle United 1, Bradford City 0; Notts County 0, Sheffield Wednesday 0; Preston North End 3, Burnley 0; Tottenham Hotspur 1, Bury 0; Woolwich Arsenal 0, Notts Forest 1. Second Division—Bradford City 3, Clapton Orient 1; Burnley 1, Oldham Athletic 2; Fatham 3, Barnsley 0; Gainsboro 1, Glossop 3; Grimsby Town 0, West Bromwich Albion 1; Leeds City 0, West Bromwich Albion 1; Leicester Fosse 3, Hull City 1; Manchester City 3, Derby County 1; Wolverhampton Wanderers 4, Birmingham 2; Lincoln 2, Blackpool 2. Southern League—Exeter 5, Brentford 1; Brighton and Hove 2, Leyton 0; Bristol Rovers 1, Walford 3; Norwich City 0, Coventry 1; Luton 1, Crystal Palace 3; Plymouth Argyle 0; Queens Park Rangers 1; Millwall 2; Northampton 1; West Brompton 1; Portsmouth 3; Reading 1; Swindon 1, Southampton 1; West Ham United 0, Southend 1. Scottish League—Aberdeen 1, Arbroath 0; Clyde 0, Queen's Park 1; Morton 0, Selkirk 1; Hamilton 3, Port Glasgow 1; St. Mirren 1, Hearts 0; Hibernians 0, Third Lanark 0; Kilmarnock 2, Motherwell 1.

ATTACK SPANISH CONSULATES. Anarchists Make Violent Protest Against Prof. Ferrer's Arrest. Amsterdam, Oct. 11.—A crowd attacked the Spanish consulate last night, clamoring for the release of Professor Ferrer, who is on trial in Barcelona for inciting the recent riots. They tried to destroy the escutcheon over the building and the police had to charge them twice before the mob scattered.

Zurich, Oct. 11.—A score or two of Spanish and Italian anarchists attacked the Spanish consulate last night as a protest against the trial of Prof. Ferrer at Barcelona. They broke all the windows and were preparing to burst open the door when the police arrived. The ringleader was arrested, but the others escaped and went to the residence of the Spanish consul. This was guarded by a force of gendarmes and the anarchists beat a retreat.

EASTERN CAPITAL BUYS JASPER WEST PROPERTY.

The sale has just been completed of the property at the northwest corner of Jasper avenue and Eight street, lot 87, block 8 H. B. E., known as the Degendorter corner. The purchaser is W. J. Gibbard, a well known furniture manufacturer of Naperville, Ont., and the price paid is in the vicinity of \$25,000. The lot has a frontage of 50 feet on Jasper and is 150 feet deep. The sale was put through by Magrath, Hart & Co. Mr. Gibbard intends holding the property for investment. He has visited the large cities of the west and thinks Edmonton's future is the greatest of them all. His recent investment shows his faith in the city.

ADOPT EDMONTON SYSTEM

Calgary Commissioners Will Hold Office at Will of Council. Calgary, Alta., Oct. 11.—At a meeting of the council today it was decided that Commissioners Graves and Clark would cease to act as such, and their successors, probably themselves, should be appointed by council, thus amending the idea of civic government by commission. The new law will provide that the commissioner receiving the largest number of Aldermanic votes will serve two years the other one year. Both men will succeed themselves. Alderman Hornby was appointed representative to investigate the needs of farmers and ranchers in the burned district northwest of Calgary and to co-operate with the Dominion government in supplying the assistance they require.

THE CYCLONE IN CUBA.

Havana, Oct. 11.—The most serious cyclone, since the big blow of October 17, 1926, struck Cuba early this morning, causing extensive devastation throughout the western part of the island. In the city of Havana many minor buildings were blown down or unroofed, almost all the trees were uprooted. Five persons were killed, one by an electric wire and the others by falling buildings. About twenty-five persons were injured. The greatest damage was done in the harbor, where forty or fifty lighters, launches and small tugs were either sunk or blown ashore. The Ward line's Morro Castle from New York and the plant line steamer Miami from Key West, arrived safe at Casa Blanca this evening.

THREE YEARS FOR ROBBERY.

Victoria, B.C., Oct. 8.—Frederick Babbage, a post office employee found guilty of stealing from the mails, was sentenced to three years in the penitentiary today. The sentence was light owing to the prisoner having a wife and family.

SAVED FROM SUFFERING IN HIS OLD AGE.

Gin Pills cured him. Annapolis, N.S., May 14, 1909. I am over 50 years of age and have been suffering from Kidney and Bladder trouble for fifteen years. I took doctor's medicine but got no help. I want to thank you for sending me the sample box of Gin Pills, which helped me. I have taken six boxes of Gin Pills altogether but got relief before I had taken near that amount. I had to get up some nights every fifteen minutes and had to use an instrument before I could urinate. Now I can lie in bed four or five hours without getting up. I can say that Gin Pills have nearly cured me and shall always keep a box in the house. Thanking you for your timely help, I am your sincere friend and well-wisher. W. H. PIERCE.

And all as a result of sending for a free sample box of Gin Pills. Do you suffer with your Kidneys or Bladder? Send to the National Drug & Chemical Co. of Canada Dept. AD Toronto, and get a sample free by return mail. Regular size, at all stores, 50c. a box—or 6 for \$2.50.

TO OPEN AEROPLANE STATIONS.

Paris, Oct. 9.—Dr. Cachet, a French deputy, has given notice that he will introduce a bill into the French Parliament for the opening of aeroplanes at Paris, Bordeaux, Marseilles, Belfort, Nantes, Cherbourg, Havre, Dunkerque, Lille and Sedan, each station to consist of a landing and starting stages, garages, and repair shops. The touring club DeFrance is supporting the proposition.

WIFE'S MESSAGE

Cured Her Husband of Drinking. Write Her Today and She Will Gladly Tell You How She Did It. For over 20 years her husband was a hard drinker. He had tried in every way to stop but could not. At last she cured him by a simple home remedy which anyone can give even secretly. She wants everyone who has drunkness to know of this, and if they are sincere in their desire to stop, to write to her and she will send them the remedy is. She is sincere in this offer. She has sent this value to thousands and will gladly send it to you if you will but write her today. As she has nothing to sell, do not send her money. Simply write your name and full address plainly in the coupon below and she will send you the remedy free.

MRS. MARGARET ANDERSON, 147 Home Avenue, Hillburn, N. Y. Please tell me about the remedy you used to cure your husband, as I am personally interested in one who drinks.

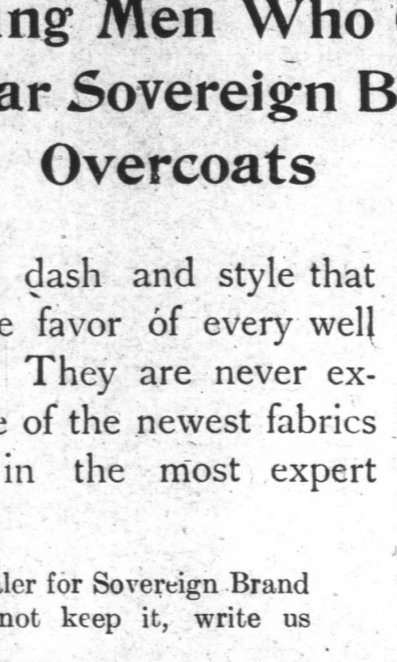

Name..... Address.....

EDMONTON NEWS

LOCAL. A. W. Pouton, D.L.S., of Macleod, who is extending the fifth meridian into the Cariboo mountains in the buffalo country north-east of Fort Vermilion, which is 700 miles north of Edmonton, arrived in the city on Saturday. His visit is for the purpose of replacing instruments which were lost by a Hudson's Bay raft bearing survey supplies going over the chutes on the Peace River. A party of 25 men are carrying on the work in the absence of Mr. Pouton.

BACK FROM SOVEREIGN LODGE. A. E. May, past grand master of the I.O.O.F. of Alberta, has returned from Seattle, where he was in attendance at the Sovereign Grand Lodge of the organization. The other delegates from Alberta were Past Grand Master J. W. Mitchell, of Calgary, and Grand Secretary O. E. Tisdale, of the same city. The Sovereign Lodge includes the whole world, but there was only one representative from Europe present, an Oddfellow from Denmark. There were about 220 delegates and officers present and the sessions took place from September 20th to the 28th.

FIRST CAR OF LIVE STOCK. The first car of live stock to be shipped over the G.T.P. arrived at the yards of J. F. Griffin & Co. on Saturday. The car which was made up of mixed stock was shipped by G. Maruszewski of Holden, Alta. It was unloaded in the stock yards.

WILSON-PFISTERER. The marriage took place at the First Presbyterian manse on Saturday at noon of Dr. Charles W. Wilson of Clover Bar, and Miss Carolyn Pfisterer of Philadelphia. The ceremony was performed by Rev. Dr. McQueen. After the ceremony Dr. and Mrs. Wilson left for Clover Bar where they will occupy the new home that has just been completed on the Doctor's farm.

PROMINENT FINANCIER HERE. Mayor G. S. St. Aubyn, of London, England, who has spent considerable time in the south of the province, is visiting in Edmonton and is a guest of the Alberta. Mayor St. Aubyn is director of the Canadian agency which purchased the issue of Provincial Government bonds amounting to \$2,000,000 for telephone extensions. He is also interested in the Western Canada Land Co., the Southern Alberta Land Co., and several irrigation schemes for the development of the district around Lethbridge.

CAMPING ON THE FLATS. On Saturday Medical Health Officer Dr. Whistler discovered a family residing on the Hudson's Bay flats, near the shore west of the old fort, and emptying all their refuse and garbage into the Hudson's Bay river above the city intake and the water had a direct flow to the pipe where the water for city use is taken in. The health officer at once protested against the people living at that point and they stated that they had received orders from the Hudson's Bay Company. They were at once removed. Cases such as this of pollution of the water above the intake are of frequent occurrence and keep the authorities constantly on the watch.

VON HAMMERSTEIN RETURNS. The thrilling experience undergone by Alfred Von Hammerstein, oil prospector, last July when his boat was wrecked in Grand Rapids on the Athabasca river, his tow companions being drowned, and he himself escaping death by miracle, has in no way dimmed his energy or affected his health. He returned from the north on Saturday and was interviewed at the Hotel Cecil this morning. He spoke of the drowning of his two companions with the deepest regret, and also expressed his admiration for the courage and skill of the crew of the Grand Rapids.

Five derricks set up. Mr. von Hammerstein's wells are situated on both sides of the Athabasca river in a stretch of from three miles south of Fort McMurray to thirty-five miles north. The oil, according to von Hammerstein's exploration and tests, runs in a comparatively small belt. There is natural gas everywhere. In every one of the five wells bored and where derricks have been set up, gas has been struck. The possibilities of our wells and our future intentions concerning them is a matter in which only the men interested with me are concerned. The company which I represent is a close corporation; we have no stock to be sold on the public. I may say that Mr. Smith was exceedingly exacting in his inspection of our prospects. He came direct from Missouri; he had to be shown.

Swallowhurst. A very encouraging English Church harvest festival service was held at Swallowhurst schoolroom on Sunday evening, October 3rd. The singing was nicely rendered by the choir and congregation and was conducted by Mrs. Shutt. The room was tastefully decorated by Mrs. King, Mrs. Hill, Mrs. Hunt, assisted by Mrs. Hill, the school teacher. The organ was lent by J. Alton Swallowhurst, and was manipulated by Mrs. Hunt, owing to the absence of Mrs. Crook, who was detained at home by the brush fires. The congregation was large, considering this schoolroom, every first Sunday in the month at 7.30 p.m.

HORTONBURG SIDING. Bulletin News Service. Miss Doreen Stratthoona is visiting her friend, Miss H. Steele. Sid Ottewill has about completed his contract of grading the elevator siding. The Alberta Grain Company have commenced work on the \$750,000 contract of grading the elevator siding. The ladies' aid of East Clover Bar Church held a supper on Thanksgiving Day, October 25th, at six o'clock. Afterwards an interesting program was given. A prairie fire came in south of Mr. Simon's, causing a little alarm, but was extinguished by the men of the district. Hortonburg, October 9th.

land along the proposed line of the railway, which is yet undeveloped. The climate is practically the same as in the Edmonton section of the year. Squash, pumpkins, corn, cucumbers and tomatoes have been successfully raised. In addition to this the new railway will tap a tremendously rich mineral country, which should supply a great volume of freight. Furthermore, the new railway will handle, as far as Fort McMurray, all the supplies, which go into the north country beyond.

STRATHOONA TO CALGARY. A dispatch from Lacombe has the following with reference to the Strathcona-Calgary line of the C.N.R.: "The surveyors for the Canadian Northern Railway have been working in the country to Calgary reached Lacombe yesterday and are at present making a trial survey southeast of the town. The preliminary survey runs about eleven miles west of Ponoka and the first line runs about four miles west of Lacombe. About week ago the C. & E. Railway a little south of the C.P.R. depot. While nothing definite is known as to the intention of the Canadian Northern as to when the line will be built or where it will be finally located, the fact that these surveyors have been working in the country west of Ponoka and Lacombe for the past month would appear to show that the company mean to construct the line in the near future."

AN ALIMONY CASE. The case of Richardson vs. Richardson, an action for alimony and the custody of an only child was heard in court Monday morning. The husband, Winnipeg was the home of the parties until last December, when the husband disappeared, taking the child with him. He took up residence in Vermilion, where his wife located him last spring. He refused to have anything to do with her when she came to see him and Mrs. Richardson began proceedings to establish her legal rights. The action came up for trial yesterday. E. B. Edwards, K.C., as counsel, appeared for the wife and O. M. Biggar for the husband.

Chief Justice Sifton admonished the parents as to the serious responsibility which devolved upon them in bringing the child up properly. The father, he remarked, by no means had absolute control over a child and a husband should realize that the mother has rights before the law which must be respected.

WHOLESALE SEED FIRM. A wholesale seed firm of Potter, Mill & Company has been established in the many lines of business conducted in Edmonton. This firm, a successor to the Potter, McDougall & Company, is a retail seed, flour and feed business, but will conduct the wholesale seed business as a new venture. F. Marshall is a seed man of many years experience in Ontario and Western Canada and C. E. Potter's knowledge of the seed business extends over a period of eight years in Edmonton. The firm will make a bid for business all over Alberta, Saskatchewan and British Columbia. The goods will be largely imported in our load lots and will arrive in Edmonton as a distributing centre.

"In the spring of the year when orders are expected to be coming in from our local agents through the county, we will engage from fifteen to twenty men," said Mr. Marshall to the Bulletin. "We will also require a body of men getting out our seed boxes for the use of local agents. These boxes will be made in Edmonton." The new firm have taken up quarters in the Mortlack block, on Rice street, recently built by the firm Hallier and Aldridge, in the rear of the new post office. This will bring their business in line with the market trade and will give them in every way a most desirable business location.

Swallowhurst. A very encouraging English Church harvest festival service was held at Swallowhurst schoolroom on Sunday evening, October 3rd. The singing was nicely rendered by the choir and congregation and was conducted by Mrs. Shutt. The room was tastefully decorated by Mrs. King, Mrs. Hill, Mrs. Hunt, assisted by Mrs. Hill, the school teacher. The organ was lent by J. Alton Swallowhurst, and was manipulated by Mrs. Hunt, owing to the absence of Mrs. Crook, who was detained at home by the brush fires. The congregation was large, considering this schoolroom, every first Sunday in the month at 7.30 p.m.

HORTONBURG SIDING. Bulletin News Service. Miss Doreen Stratthoona is visiting her friend, Miss H. Steele. Sid Ottewill has about completed his contract of grading the elevator siding. The Alberta Grain Company have commenced work on the \$750,000 contract of grading the elevator siding. The ladies' aid of East Clover Bar Church held a supper on Thanksgiving Day, October 25th, at six o'clock. Afterwards an interesting program was given. A prairie fire came in south of Mr. Simon's, causing a little alarm, but was extinguished by the men of the district. Hortonburg, October 9th.

PREVIOUS SEASONS GREATLY OUTCLASSED

This is the Greatest Year in the History of Western Canada—Grain Movement Gives Cause for Congratulations. High Quality is Maintained in Recent Shipments.

Winnipeg, Oct. 11.—Proof that the crops of 1909 are the largest, finest and most valuable ever produced in the prairie country may not be required, but it is abundantly furnished by the statistics already available. The inspection figures covering cars examined and graded by the Government officials may serve as the basis of an opinion regarding the worth of the farmers' output, and from these it is not difficult to deduce the reasons which have caused a thrill of enthusiasm to spread from the Rocky Mountains to the great lakes and back again. During September, the first month of the new crop, the 17,848 cars of wheat, oats and barley were inspected. In other words, nearly 20,000,000 bushels of grain were shipped through Winnipeg on the way to the markets of eastern Canada and the United States. The increase in the quantity of Canada wheat prepared for export, and the quality of the grain, are gratifying. It is estimated that twenty million bushels of grain were available for shipment from the West in a whole season. It may not be necessary to insist that this year's grain takes on a finer quality than well, but that fact must be borne in mind whenever the shipments for the year are under consideration.

Other Years Outclassed. Comparisons with other years seem to be of little avail, because the figures of past seasons are so insignificant. In September of last year it was thought that a prodigious movement of grain to the market was under way, and the figures of that year were received every day with surprise. But that month and statistics of the past year are in the total number of cars so far this year is more than 50 per cent. And the output of quality is superior. Hundreds of farmers in all parts of the West are still thrashing, and their grain may not come to the market before the middle of November. Some persons have undertaken to say that a bumper crop was not grown in the West this year, but the figures of what agricultural development in the prairie provinces during the past few years is so significant that it is expected that the rate of increase, compared with last year, for instance, will be maintained by the shipment of the grain. The figures of that year, although continued activity in deliveries may be counted on. The high price of grain and the growers are not speculative.

Great Movement of West. Wheat naturally occupies the leading place in all the statistics of grain crops. The inspections of wheat for the month were 15,252 cars, or 17,848 cars, last year they were 10,351 cars. Of this number, 14,100 or a little more than 93 per cent., graded excellent. The quantity of wheat for the month was larger than for the whole month last year. From any standpoint of production or export, the wheat movement is decidedly more satisfactory than in previous seasons. Its most important feature, however, and the one which has happened in the districts where the grain originates, is the ability in the matter of productive capacity. The grain is being produced from practically all parts of the prairie provinces, east, west, south and north. The majority of the wheat is produced in the Red River and the eastern portion of Saskatchewan. The big movement from the latter is the result of the fact that out of the first sixteen million bushels of wheat to be thrown on the market fifteen millions are up to contract requirements in respect of quality. There is cause for believing that the agricultural community is doing well.

No Decline in Farming. It is apparent that the fears expressed in so many parts of the country about the decline in the science of farming are unfounded. It may be that the workers in the fields of the West do not make the most of their opportunities, and that they carry on their business in a way which does not lead to the best results. But when they can raise about 125,000,000 bushels of high-class wheat from less than 7,000,000 acres, as they have done this year, they go a long way towards justifying the methods under which they are operating. The latest official bulletin of the Saskatchewan Department of Agriculture indicates that the average yield of wheat in that province this season is 21.87 bushels per acre. The probability is that the average grade of grain will be No. 2 northern, or a shade better. Truly, when such a showing can be made there is not much occasion for alarm over the agricultural outlook. The average yield last year was 19.38 bushels, and in 1907 it was 18.52 bushels. In both those seasons, however, frost and drought caused much damage in particular sections of the Province and brought down the average production. From present indications it is possible that they occupied five years ago in this matter, per acre. The yield is under cultivation, there this season was, of course, about five times as large as that of 1904, and it would be difficult to suppose that the productivity would diminish as the acreage expanded. This has not yet been demonstrated, and it is possible that with continued attention to scientific ideals the farmers will secure the highest yields in the history of the land which gives them their living.

J. HARRY FINN UNDER ARREST IN ST. JOHN

is Held on Wire From Edmonton, Charging Him With Obtaining Money Under False Pretences—Is Alleged to Have Sold Property, which He Could Not Deliver Title.

A despatch received in the city this morning by the Bulletin from St. John, N.B., reported the arrest in that city yesterday, on a wire from Edmonton, of J. Harry Finn, who formerly conducted the Edmonton Express Co., on McDougall street, in this city. He was arrested some time ago, Corp. Davies, of the R.N.W.M.P., leaves tomorrow for the eastern city and will bring back the prisoner with him. The complainant in the case is George Hohl, a Rotherham, of the city and the charge is that Finn obtained the sum of \$366.89 from him by false pretences. The complainant alleges that Finn on the seventh of November, 1906 agreed to sell him and Fred Shikany eight lots, lots 1 to 8 in block H.R.L. 22, Parkdale for the sum of \$1,000. The agreement of sale was drawn up by Brunton and Hutchins of this city. Hohl was to pay for lots 1 to 4 and claims to have paid \$366.89, the most of which was to J. Harry Finn but \$166 to Brunton & Hutchins.

When Hohl had completed his payments some time ago he made a search for title but found that the title rested with the mother of the accused, Rosa Hohl, of Threestreet street, in this city. He then filed a caveat but notice was given by Dawson, Hyndman & Hyndman, solicitors, that it is not valid. Hohl then consulted J. A. Clarke, barrister, and after presenting the case to the attorney-general's department a warrant was issued by the Inspector of Police of St. John to make the arrest.

LORD NORTHCLEFFE OPENS \$6,000,000 PLANT

London's Great Journalist Built Expensive Pulp Mills in Woods of New-England—Has Established a Paper Mill Here—Will Get Paper From His Own Mills.

Grand Falls, N.B., Oct. 11.—An event which in the opinion of the people of Newfoundland means much for the material and industrial development of the colony, was celebrated here today in the first of two days' festivities in connection with the formal opening of the Northcliffe paper and pulpwood manufacturing industries here. A corporation, known as the Anglo-Newfoundland Development Company, is in charge of the enterprise, the leading spirit is Lord Northcliffe, proprietor of the London Daily Mail and numerous other daily, weekly and monthly publications. In the development of the pulpwood and paper industries here, Lord Northcliffe's company has spent more than \$6,000,000 and has established a plant which is excelled in size only by the paper mills at Millinocket, Maine.

Town in Wilderness. This new town of Grand Falls has sprung up in the wilderness in the center of Newfoundland. It is situated on the Exploits river, a stream of which has its source in a chain of lakes in the southwestern corner of the colony, and flows in a northeasterly direction, emptying into Notre Dame bay on the northeast coast. At the particular point on the river where the great mills have been built there is a heavy fall. The task of damming the river was an engineering problem, but it was finally accomplished at great expense, and an immense waterpower developed. Work was then begun on the erection of a series of mill buildings. These are now completed and are supplied with lumbermen find work in the timber tracts in the vicinity of Miller's brook, by Lord Northcliffe and his associates. To house these men and their families, comfortable and attractive dwellings have been built, churches, schools and a library are under construction, a hotel has been erected and a municipal water and sewerage system is in operation. Lord and Lady Northcliffe and a paper produced here will all be used by Lord Northcliffe in furnishing paper stock for his many publications.

LADY LYTTON IMPRISONED. Suffragette Leader Sentenced to One Month for Disorderly Conduct. New Castle England, Oct. 11.—Lady Constance Lytton, leader of the suffragettes, who attempted to break up a meeting at which Lloyd George, Chancellor of the exchequer, spoke, today was sentenced to one month's imprisonment. Three others were given a month, two a fortnight and one was discharged. Lady Constance attempted to cut her way through the crowd round the hall where the chancellor spoke.

Killed Collecting Rent. Albany, N.Y., Oct. 8.—George Phelps, a well-known Albanian died today as the result of wounds he received a few days ago in a fight in the Italian district where he had gone to collect \$12 rent due. After receiving the money he was attacked by some one who stabbed the forehead, neck, face, back and chest. The police believe that robbery was the cause of the crime. The landlord, proprietor of the saloon, who has been held by the police, it is understood, is the man who was with the victim when he is the man who stabbed Phelps.

FOR SALE BY The Bellamy Co.

MANITOBA COOPERS STRIKE. Winnipeg, Oct. 10.—Twenty coopers, employed by the Prairie City Oil Co., Winnipeg Oil Co., and Canadian and Continental Oil Co., struck on Saturday. The men state that their employers are trying to crush the union formed in February. Several days ago they presented demands for a nine-hour day at the present wages, \$3. The employers asked time for consideration and the date expired on Saturday. The employers are bitter, and express their strong determination to hold out. They claim that their men are getting ten cents more than is being paid in the States. Manager Lewis of the Prairie City Co., declares it is to the employing American labor that the strike is due. The demands of the men are preposterous, as they are asking the same wages for helpers, and the union wanted to be consulted previous to the striking of apprentices.
