'BEAVER' FLOUR Makes the True Home-Made Bread Your Mother Used to Make

"Beaver" Flour is a blended flour—really two flours in one. It contains the quality, nutriment and flavor of Ontario fall wheat and the strength of Western wheat.

"Beaver" Flour is a perfectly balanced flour. It makes baking easy because it is always the same in strength, quality and flavor. Your grocer has it. Try it.

through the stained glass windows of the parish church on the assembled guests as they waited for the bridal party.

The old church was crowded, the chancel alone being reserved for the guests; the rest of the building was thronged with the good people of Erindale, the women in their gala dress, the men with nosebags in their button-holes in honor of Miss Madge.

And in the carved pews of the chancel there were familiar faces—Sir Oswald and Lady Fairholme, the latter as bright and sweet and sparkling as ever, and Mr. and Mrs. Litton, who had been married a year and more, and were settled in London, where the young surgeon's skill and perseverance and genuine love of his profession were meeting with their reward. They had come down for the occasion, for Rosie Litton and Madge had been fast friends in their girlhood. There, too, was Shirley, grave and beautiful in her rich dress of shimmering silk and lace; and, as Mr. Litton's eyes rested upon her he recalled the pale, trembling woman who had come to him through the winter night, and their midnight walk through the snow. There also was Guy, so tall, erect, and stately, with

Captain and Four Men Drowned.

London, March 15.—The Swedish barque, Trifolium, was driven ashore on Land's End during last night, and Capt. Olsen and four sailors were drowned. Six members of the crew were saved.

Storms all along the coast did much damage during the night to small craft, and there also were several vessels wrecked in Queenstown and Liverpool harbors.

Celebrated Norwegian Jigger.

Fishermen should use these Jiggers and rig them with swivels same style as in Norway, then the Jigger acts like a minnow and when spinning attracts the fish, so that instead of jiggering they really snap the Jigger and in this manner you never fail to catch them. Ordinary leads can be used, but the Norwegian style seems more simple and easily made. Our fishermen should try this great Norwegian fish killer.

O. MUSTAD & SON,
Manufacturers of the celebrated Key Brand Fish Hooks, Dappers, Dogfish and all other kinds of hooks used in deep sea fishing.

Love a Conqueror —OR— WEDDED AT LAST.

CHAPTER LIII.

The tenants' ball given in honor of Madge's marriage had been a great success, and the ball given to Sir Frederic and Lady Oliphant's friends on the eve of their daughter's wedding day was not less so. The entertainment gained considerably by the presence of the charming bride-elect, whose fair face and radiant smiles were pleasant to see and to remember.

Out of consideration for the event of the next day, it was not to be a late party, but dancing was kept up with unabated vigor, and the bonny queen of the ball must have danced her tiny satin slippers into holes on the occasion.

Many of the guests were to remain at Erindale for the night, in order to be present at the wedding on the next day, and from garret to basement the grand old house was bright with light, while the gay strains of the dance music rose and fell softly.

"Madgie," Jack whispered, when, having waltzed her cleverly out of the circle of dancers, they found themselves for a few minutes alone in the solitude of the conservatory, where the light fell on the rich-hued flowers and on Madge Oliphant's golden hair and white dress, colorless and pure as the dress she would wear next day, "tell me, my dearest, are you quite happy?"

"Quite happy, Jack," she answered, leaning her bright head against him for a moment.

"You have no fears, no misgivings, Madge?"

"No fears—oh, no!—and no misgivings, Jack, save one."

"And that, my own?"

"Is that I am not worthy of your love?"

He caught her in his arms and pressed his cheek to hers.

"And you never think—you never fear that— Oh, Madgie, even now, in my great happiness, I cannot help thinking of—"

"Jack"—she lifted her head and looked at him with deep earnestness—"this evening, when I went to Shirley, and she told me that what we had all so longed and wished for was to take place, she said that she had no

regret now for the past, that all the sorrow had been blessed to her, that the present happiness was brighter for the past darkness, that there was no shadow—not one—upon her and Guy now. Jack—the golden head was pressed closely against him now—"if you cannot forget, think of it as she does—with gratitude and love; and"—she looked up smiling—"out of that trouble has come something for which you at least ought to be thankful, you ungrateful boy, since without it you would never have known me!"

He drew her closer in his arms.

"And you are more than able to make me forget the past," he said tremulously; and the last shadow of the cloud fell away from them.

Other lovers beside Jack and Madge sought the solitude of the conservatory to talk to each other in uninterrupted felicity; but perhaps of all none were more peacefully happy than Guy Stuart and Shirley Glynn, as they stood there toward the end of the ball, while Sir Frederic and Lady Oliphant were speeding the parting guests. Many an interested and admiring glance had followed Lady Glynn that night, for her story was well known, and it surrounded her with a halo of romance which her grace and beauty had increased; while to her, as well as to Guy, a ball-room was a sight unfamiliar enough to be interesting and pretty, and to have many a touch of pathos and sentiment.

"Shirley," Guy said softly, as he bent over her, "when am I to take you home?"

"When you like, Guy," she answered, smiling.

"Thank you, my dearest," he said, with a grave tenderness which pleased her; and there was a steadfast light in the deep gray eyes which boded well for the happiness of the future which rose before them with its rainbow of hope and joy. "Do you remember, Shirley," he added, "that once before I said that, looking into the future, I could see no shadow of parting with you?"

"I remember, dear Guy."

"But the shadow ought to have been there, dearest."

"I saw it, Guy," she said softly.

"I cannot see any shadow now, my darling. Can you, Shirley?"

"No—for there is none, Guy."

Unmistakable signs of a wedding were plentiful the next morning; and the sun shone gayly on Madge Oliphant's wedding day, streaming

as they dwelt upon Lady Glynn, his face that of one who has borne and endured, and conquered sorrow, and learnt peace and faith through pain.

(To be Continued.)

Grand Alliance; —OR— Love That Knew No Bounds.

CHAPTER I.

But gradually this feeling changed. As a matter of course the old habits of a quarter of a century had early to be discarded. There could be no morning traversing of the High Street now with Jacob Cheene for Mr. Alwyn, when the mistress of his table had hardly put in an appearance for breakfast at the hour he had been wont to start out, and all his afternoons had to be devoted to the strange arts of giving and receiving calls. And the Wednesday evenings, which Mrs. Alwyn had smilingly declared "were never to be disturbed—oh, never!" made but a brief pretense of prolonging their existence. They were attempted, truly, but at the first the lady, less humble than of yore, desired a share in the performance, and essayed an accompaniment on a fine "grand," purchased as soon as she came home, and the time under her guidance got into perplexities, and an "allegro finale" stranded them all in despairing confusion, and the next week Mrs. Alwyn had a headache and kept to her own room. A dinner party postponed the third. Then the clerical second violin undertook some evening services for a friend, the 'cello began to fancy the night air bad for his bronchitis (an ailment newly developed), and the viola saw his once greatest delight melting away with something of relief. The sensitiveness of his lowlier sphere had early discovered and winced under one quality of the bride which the whole town found out later on. The wife of the rich lawyer—his master—patronized her husband's clerk with a condescension that would have poisoned the greatest kindness upon earth. And so the quartet broke up, "to meet by special arrangement as often as we can, you know," said the leader, rather ruefully; but the meetings somehow never managed to arrange themselves that first winter, and by the second they were still more impracticable.

For by then Mrs. Alwyn, having with much cordiality inspected the society of Stillcote-Upton, had come to the conclusion that it was not on the whole worth her maintaining an amiable front to please. So she took no pains to prolong her short-lived popularity; began to have serious doubts as to whether the town suited her health, grew quite certain that the south end of it did not, and between pretty persuasions, which she still exercised over her elderly hus-

Filed for a Year—At Hand in a Minute!

There are records kept in your business which are seldom referred to, but when reference to them is desired, can you locate them instantly?

"Office Specialty" Filing Systems do more than provide a place to file papers. The method of filing the papers under proper indexes makes the finding of any letter, on any subject or from any firm, as easy as the filing. You don't have to tumble all the letters out of the file to find any particular one. There is only one place for each letter, and every letter is in its place. Card Records, Check Records, Correspondence, are all found instantly when wanted if filed by "Office Specialty" Filing Systems.

Here is a very convenient stack of Sectional, Quarter-Cut Oak, Filing Cabinets, 2 vertical drawers for Letters, 6 drawers for 6 x 3 inch Card Records, 3 Shannon drawers for Receipts, Invoices and Bills, 4 drawers for 6 x 4 inch Card Records, 3 Stationery drawers, which together with the top and base make a very useful stack for any business office.

A Course in Human Nature.
By RUTH CAMERON.

Two of the greatest books in the world are the book of Nature and the book of Human Nature. Show me a man who has diligently studied these, and I will show you a man who, though he be poor indeed in schooling, is yet greater in wisdom than that which is far more precious than learning.

Aid why not, when you remember who wrote these books? I met a man the other day who got almost his whole education out of the book of human nature. Let me tell you about him.

His family had once been wealthy, but had lost their money in his childhood, so he had to make his own way and start early too. At the age of 18, with comparatively little schooling behind him and that hard won, he was working in an office at \$68 a month. At this time he saw an opportunity to do some outside work, selling on commission. He went to his employer and asked him to let him have two hours a day off, this time to be deducted from his wages. The employer consented and the boy of 18 seized his opportunity.

He made \$7,000 in three months. That, of course, was fairly remarkable, but his next step was a hundred times more so.

What would most boys of 18 have done with \$7,000? Some would have spent it for pleasure; others would have invested it; others would have gone into business with it. This boy did none of these things.

ing used in the new crepe blouses. Some of the most airy and filmy blouses have metallic lace for foundation.

Divey in tan, old gold and yellow, is much used for tailored suits. There is nothing like serge for the plainer and more practical spring suits.

Tartan-plaid coats and boleros are worn with plain serge or silk shirts.

Even the hair-dressing nowadays suggests a revival of the vogue of the sixties.

TESTIMONIALS.

To Dr. F. Stafford & Son.
Dear Sirs,—
There is no family that have used more Liniment than we have. I have no hesitation whatever in emphatically stating that "Stafford's Liniment" is the best Liniment procurable to-day. I sprained my arm a short while ago and was advised by a neighbor to try a bottle, this I did and after using it about two or three times never felt any more pain. Your Liniment is good for Rheumatism, Lumbago, Neuralgia and all Aches and Pains of every description and I recommend it to every person suffering from either of the above ailments. I am more than pleased that I took my neighbor's advice and the consequence is that I shall always use Stafford's Liniment. You can publish this testimony if you wish.

Yours truly,
D. V. S.

P. S.—The above testimonial can be seen at any time by calling at our Drug Store, Theatre Hill.

We sold over 15,000 bottles last year and this year we are going to sell twice as much; the reason is very simple. Results count every time.

Dr. F. Stafford & Son, St. John's, Nfld., manufacturers of the Three Specialties:
Stafford's Liniment.
Stafford's Prescription "A."
Stafford's Phosphoric Cough Cure.

Six Months Sentence.

For Woman Who Slashed Celebrated Picture.

London, Eng., March 12.—May Richardson, the militant Suffragette, who on Tuesday hacked the celebrated Velasquez picture known as the "Rokeby Venus," in the National Gallery, was today sentenced to six months' imprisonment for her crime. The case against Miss Richardson was disposed of in record time. She was arrested on March 10, taken to Bow Street Police Court and committed for trial by the magistrate on the same day.

The Grand Jury yesterday returned a "true bill" against her, and today she was tried and convicted by a jury at the London Sessions at the Old Bailey.

The public prosecutor, in addressing the jury on behalf of the government, said that one might well doubt whether the prisoner was in her right senses. There was, however, no medical evidence to show that she was a person not responsible for her actions.

Miss Richardson, who had been on a "hunger strike" since her arrest, in replying to the charge, said it had been premeditated and she pleaded guilty.

Fads and Fashions.

Piping is seen on all fashionable garments.

Beige is a color in great favor for spring.

Princess polonaises are really back again.

The new artificial silks are much in evidence.

Yellow and blue is a leading combination.

Pockets are set on coats at all sorts of angles.

Hats are worn at a sharper angle than ever.

Scarfs entirely of feathers are always charming.

The tartan-sailor suit bids fair to have a great vogue.

Collars on coats and waists are both open and high.

All the smartest new waists are of stiff white material.

The circular-cut flounces on skirts give an interesting vogue.

Around the knees the fashionable skirt is as narrow as ever.

The short skirts are bringing out more fanciful stocking effects.

Shades of color are bright and clear like the colors of flowers.

Black velvet cape-mantles are warmer white taffeta dresses.

Black, blue, green and white are combined in a pretty club check.

Long, full basque coats of silk will be worn over lingerie skirts.

Full-front apron tunics are seen on many of the new model skirts.

Small checked wool suitings are expected to have a record season.

Paris has declared for corsets with a slight curve at the waist.

Chiffon cloaks trimmed with fur are among the new summer models.

Some of the new gowns even have bustle draperies that can be detached.

Norfolk-coat suits are always appropriate for young girls at school.

Chartreuse and peach color are best.

Back Was Lame For Two Years

Stomach Troubles and Weakness of Kidneys Cured by Dr. Chase's Kidney-Liver Pills.

There is an enormous amount of suffering from liver and kidney derangements and stomach troubles that can easily be avoided by using Dr. Chase's Kidney-Liver Pills. If you could only realize the scores of everyday ills that arise from a sluggish condition of the kidneys, liver and bowels you would not be long in giving this medicine a trial.

Mrs. Edward Stewart, New Richmond West, Que., writes: "I want to tell you how thankful I am for using your Dr. Chase's Kidney-Liver Pills for stomach troubles and backaches caused by weak kidneys. I was unable to wash my clothes for over two years on account of my back being lame. I read the Almanac and began using these pills. They have made a complete cure. I can do my own washing and other work now and want to say to my friends that they do not know how much I appreciate Dr. Chase's Kidney-Liver Pills."

Dr. Chase's Kidney-Liver Pills, 50 cents a box. Sent by mail. Dr. Chase & Co., Ltd., Toronto.

SOPER & MOORE

The Lions.
By GEORGE FITCH.

Author of "At Good Old Siwash."

The lion is the King of beasts; but sounds more like the basso in a Wagner opera. He is a tawny colored cat exaggerated a few hundred times in size, disposition and appetite.

The lion is found chiefly in Africa. This is one of the reasons why Thanksgiving is not celebrated in that country. As a neighbor he is worse than a black hand society. He has no regular boarding place, but roams from spot to spot, eating antelope, giraffe, water buffalo, oxen, mice, bugs, horses, mules and citizens. He does all this at night and when he is not eating he is usually roaring. After he has roared for a few hours the residents in that township drive out a sheep or some other light lunch in order that the lion may shut up and go to eating again.

The lion, like other musicians, has a large mane and a nervous, irritable disposition. Scientists tell us that when we meet, unarmed, a lion in the wilderness we should speak harshly to him and throw stones at him until he goes away. But as the scientists neglect to say whether he will go away before or after dinner their advice is not generally followed.

The lion is so strong that he can crush a man with one blow of his paw and carry him off on the gallop. He can bite through a gun barrel with his teeth and his mouth is so large that a man could stick his head in it. This is not generally true, however, with strange lions.

Lions are useless beasts and are such nuisances that the man who kills one in Africa is regarded as a public benefactor like the man who swats a fly in this country. Large numbers of lions are captured each year and exhibited in menageries. There is nothing so pathetic as a terrible, all-conquering lion sitting on his tail in a cage unless it is the one mighty and uncontrollable railroad president asking the Interstate Commerce Commission, hat in hand, to let him raise his rates.

Many Killed by Earthquake.

Tokio, March 15.—A serious earthquake occurred to-day in the Prefecture of Akita, Island of Honshu. A number of persons in the city of Akita were killed and many houses destroyed or damaged. In the village of Kowakubi, which was ruined, there were many casualties. The disturbance badly damaged the railroad and telegraph lines.

Girl's Nerves Fully Restored

Was Never Able to Obtain Lasting Benefit Until Dr. Chase's Nerve Food Was Used.

Too many girls grow up with weak, anemic bodies and exhausted nervous systems. Indoor life and too much application in school are some times the cause.

The blood needs enriching and the nerves need strengthening by such treatment as Dr. Chase's Nerve Food. This food cure is doing wonders for many thousands of girls whose parents had almost despaired of their ever developing into strong, healthy women.

Mrs. J. Estlin, 325 Woodville avenue, Toronto, writes: "My daughter suffered from nervousness since childhood, and any medicines she tried did not do any lasting good. We read in the papers about Dr. Chase's Nerve Food, and my daughter used it with wonderful results. This treatment has built up her system and so strengthened the nerves that she feels like another girl."

Dr. Chase's Nerve Food, 50 cents a box, 6 for \$2.50; all dealers, or Edmondson, Bates & Co., Limited, Toronto.

A CRYSTAL LIGHT.

Doesn't that suggest a clear, bright light? That is why the name CRYSTALITE was chosen.

TEXACO CRYSTALITE is a crystal light, giving forth mellow, penetrating rays. It gives no smoke nor smell, and is good to the last drop.

TEXACO CRYSTALITE will not fluctuate, it gives a steady glow. The next time you buy illuminating oil don't merely ask for "a gallon of kerosene." Ask for TEXACO CRYSTALITE and find out why this illuminating oil is known as "the light of the home."

TEXACO CRYSTALITE costs no more than ordinary kinds and most good stores have it.

Remember the name. It will be worth your while to discriminate.

LOSSUTH died 1894, aged 92. Hungarian patriot and leader, who in the struggle for his country's freedom in 1849 was for a time successful but ultimately had to acknowledge defeat and fly to Turkey and England. He was buried at Pesth, the occasion being made one of national demonstration.

HENRY IV. died 1413, aged 46. The son of John of Gaunt. He succeeded his father in 1399 and his reign was full of plots and insurrections.

SIR ISAAC NEWTON died 1729, aged 85. The great mathematician and philosopher, whose scientific discoveries were of the utmost importance, including the law of gravitation and the method of fluxions, while he also effected considerable improvements in the telescope.

HENRICK IBSSEN born 1828. The Norwegian dramatist, whose works excited a considerable amount of interest because of the singular problems they dealt with.

SIR EDWARD POYNTER born 1836. Has an exceptional talent as a painter of classical subjects.

IN THE FAT

On the Front

AND IN THE GULF.

The Citizens' Committee.

Referring to his writings, Spinoza said: "I have made it my chief care neither to ridicule, nor to deplore, but to understand the actions of mankind." This excellent rule of conduct seems to be the motto which the Citizens' Committee kept before themselves in the main. They are more anxious to understand the civic situation, rather than to criticize those in charge of civic matters. This is an attitude of mind which is most commendable, as it gives assurance of good work in the future. The decision to have weekly meetings of the Executive committee to receive the reports of sub-committees, working in special directions, is no doubt wise. There will be a period of three months in which these committees can work, before the Civic Committee to be appointed to take charge of Council matters, will actually take up their duties. During that period considerable progress can be made in studying civic problems, if the present Council co-operate with them and give them access to the information and experience which the officials and Councilors have garnered. When the time comes for the nomination by the public of the committee, which will be appointed by the Governor in Council, to carry on the municipality during the interregnum, the public will no doubt appreciate the wisdom of availing of the services of some of the present members of the Council and also of others who have been members in the past. Their knowledge and experience are essential for the better undertaking of the situation and for the introduction of reforms which are apparently necessary.

Vaudeville and Pictures.

At Rossley's there was another good show given last night. The eight little girls in their dancing specialties were well received. The pictures are extra good and will be changed again to-day; everyone a feature and well worth seeing.

Parade Rink open to-night, ice in splendid condition. Terra Nova Band in attendance.—li

Seals Are Off the Straits on Front and About the Magdalen Islands in Gulf.

The Newfoundland May Do Well With Young Hoods.

BEOTHIC THE BEST FISHED.
At 6 p.m. yesterday, Bowring Bros. received the following messages from their ships:

FROM STEPHANO.
"All pans on board, total count seven thousand to ten thousand; thick fog; prospects good."

FROM FLORIZEL.
"Men have panned to-day six thousand averaging 50 lbs.; thick fog; prospects good."

FROM EAGLE.
"Struck small patch 20 miles S. E. Cape Bauld, killed and panned one thousand; loose ice; strong winds and foggy."

FROM BELLAVENTURE.
"Last Night.—Have about six thousand on board and panned; seals in fine condition; for more seals good." The Newfoundland may do well with young hoods.

FROM ADVENTURE.
"Last Night.—Struck whitecoats to-day, weather thick and foggy."

prospects are favorable; Bonaventure and Florizel in sight."

FROM BONAVENTURE.
"Last Night.—Struck whitecoats to-day; got on board and panned two thousand; chances for more seals good."

FROM NASCOPIE.
"Last Night.—Working whitecoats all day; on board and stowed down seven or eight thousand whitecoats. Loose ice as far as eye can see; foggy; cannot locate how many ships are here; whitecoats averaging fifty lbs.; strong breeze from S.E."

FROM BEOTHIC.
"Last Night.—Killed and panned fifteen thousand; gale from S.E., dull, same position."

FROM NEPTUNE.
"Last Night.—Neptune 45 miles north Grindstone, 2 p.m.; S.E. storm; large sheets of ice; difficult to get through; first sign of whitecoats 18th, 30 miles north Grindstone; estimated number of seals taken from patch 500; following ships are in patch, but can't say what they are doing: Terra Nova, Viking, Erik, Southern Cross."

Here and There.

S.S. PROSPERO.—The Prospero left Burin at 9 a.m. to-day, going West.

Only One "BROMO QUININE."
To get the genuine call for full name, LAXATIVE, BROMO QUININE. Look for signature of E. W. GROVE. Cures a Cold in One Day. 25c.—Jan 30, w.f.t.f

POLICE COURT.—A domestic for the larceny of a hat, a blouse and a pair of rubbers, was sent down for 3 months. A laborer drunk and disorderly, was fined \$2 or 7 days.

WEATHER.—The weather report received at the Reid Company's Dispatching Office to-day is as follows: "Variable winds, strong and dull. Temperature from 29 to 37 above."

RINK CLOSES.—The Prince's Rink will close for the season on to-morrow, Saturday. Patrons are requested to remove all boots and skates before Wednesday, March 25th.—mar 20, 21

THE CITY OF SYDNEY.—No word was received to-day from the wrecked 'City of Sydney', though there is a belief that she broke up last night. The passengers will come to St. John's by rail. The crew will remain at Halifax until the enquiry is finished.

Municipal Bonds Yielding Up to 5 3-4 p.c.

Now that the local municipal market is so bare of offerings, and will remain so until the annual crop of bond bills is passed at the present session of the Legislature, it is quite refreshing to be able to offer some Upper Canadian and Western issues.

These include three from Quebec, Farnham, Three Rivers and Verdun—one from Manitoba, Transcona—and one from British Columbia, Richmond. Maturities vary from 1943 to 1960 and yields from 5 1/2 per cent to 5 3/4 per cent.

While space limitations prevent further mention now we hasten to assure you that we would appreciate the opportunity afforded us to send you the fullest particulars.

N.B.—Lovers of Dorothy Dodd Shoes can now be supplied with 1914 styles. A large shipment just opened.

CRISIS IN ULSTER.

Carson Rushes to Belfast--Vote of Censure Defeated.

Special to The Evening Telegram.

LONDON, To-day.

Grave events are impending in Ulster, according to Unionist newspapers. A rumor is current that the Government is prepared for the military occupation of the Province. There are various indications that a crisis has been reached. The vote of censure on the British Government which was moved in the Commons yesterday by Law, leader of the opposition, was rejected by 245 to 252. Balfour summoned by Law made a hurried return from the Riviera and arrived in London in time to participate in the division. There were reports also of the threatened arrest of Carson and other leaders of Ulster Unionists, but it was officially declared there was no truth in the statement that warrants had been signed for such arrests. Carson, however, made a dramatic exit from the House before the debate was concluded to catch the train for Belfast. Austin Chamberlain declared last night that Sir Edward had been called away in response to sudden developments in Ireland. Other Unionists asserted that Ulster men could not be restrained from an outbreak and that Sir Edward's mission is to endeavour to hold them in check.

The Daily Telegraph lobbyists say, unless all omens are false, blood will be spilt in Ulster before the Commons sees Sir Edward Carson again. The debate took place on a day full of vague rumors, concerning the Government's intervention against the Ulster Volunteer force and naturally might closed leaving the situation still serious. Law never spoke with greater impressiveness, though in a conciliatory tone. He emphasized the danger ahead of Ulster, declaring that if a tolerable solution were possible he would run risks to render it effective. We have not and will not, he said, close the door hastily against any proposal put forward by the Government in the hope of securing peace. Queried by the Premier as to whether Ulster was wishful not to be automatically brought under the Nationalist Parliament at the end of six years, he said, if that is your principle there is no advantage in ambiguity on our part. I say at once that we absolutely reject it. Carson in a defiant mood faulted the Government with being at the command of Redmond and trenching themselves behind their troops. Asquith recognized the moderate tone of Law's speech and argued that a referendum was impracticable.

Cable News.

Special to The Evening Telegram.

VENICE, To-day.

A torpedo boat to-day cut down a small passenger steamer which flies between Venice and Lido, and fifty passengers were drowned. The sharp nose of the torpedo boat went through the stern of the steamer which sank almost immediately. The victims included many women and children.

ATHENS, To-day.

The Minister of Marine announced in the Chamber of Deputies to-day that the Greek Naval programme provided for three Dreadnought battle ships, one of which was now under construction, three armoured cruisers and a number of lighter craft. He declared Greece was prepared at all costs to maintain the supremacy of the sea won in the recent Balkan war.

WASHINGTON, To-day.

The Government will welcome a reopening of negotiations with the Huerta Government or the Constitutionalists, and will be glad to consider any proposal that will tend to draw the various factions together into a plan for the restoration of peace in Mexico. This is the attitude of President Wilson, as it was revealed after reports reached here saying Senator Rojase, Minister of Foreign Affairs, to the Huerta Cabinet, had gone to meet John Lind, Wilson's personal representative, to seek resumption of peace negotiations. Senator Rojase has been mentioned as the man who would succeed Huerta, if he retired, and the object of the visit to Lind, it has been reported, was to acquaint the President's envoy with his personality. The President in talking with callers

Harbour Grace Notes.

The play "Erin go Bragh" at the Academy Hall on Tuesday night, was a grand success. The large hall was filled to its utmost capacity, and all were well pleased at the excellent acting of the company. The night was very disagreeable, rain pouring down in torrents, still those who had made up their minds to go braved the elements and were glad they did.

We are pleased to see our old friend, Mr. Stephen Andrews, out again after his recent illness.

Miss Rita Donley, who was operated on a short time ago, by Drs. Parsons and Cron, for tonsillitis, is doing well, and her friends are glad to know the operation was so successful. Our medical men are to be congratulated as well as the parents of the young girl.

The Tea and Sociable at the High School, on St. Patrick's evening, was an enjoyable and successful affair.

The proceeds amounted to \$66.70.

The Methodist Sunday School teachers of Harbour Grace Circuit, held a series of meetings in Coughlan Hall on Tuesday. The meetings were well attended, and will no doubt do much to give the teachers greater determination to push along their good work.

Harbour Grace congratulates the new Minister of Justice, R. A. Squires, Esq., on his appointment. We are always glad to see and hear of our boys taking prominent positions. To hard work and attention to business, is due a good part of Mr. Squires' success. We wish him still further honors.

Mr. Charles Ash and family intend leaving in a few weeks for Boston and will make their home there in future.

A number of our citizens availed of the holiday on the 17th to go countrywards, and renew their acquaintance with the finny tribe. The evening turned out wet and very unpleasant. We have not heard of any big catches.

Mr. R. S. Munn and Master Fred Munn left for St. John's on Tuesday, and will probably return by tonight's train.

Mr. and Mrs. John L. Oke returned from their holiday to St. John's by last night's express, which arrived at 11.30-5 1/2 hours from the city.

Mr. Grace, March 19, 1914.

Arthur Walker, 27 Charlton Street (off Springdale St.), Groceries and Provisions, School Supplies and Stationery, Fruits, Nuts, Candy and Soft Drinks, Stationery, Cakes and Pies, Bread Milk, Daily Papers, Tobacco, Cigars and Cigarettes, Thread, Laces, Perfume, Liniment, Needle Packages, Picture Post Cards, Postage Stamps, etc. Changeable Window Signs for shops, etc. Splendid device to boost trade; easily applied. Autoharps and Zithers tuned and re-strung. Agency for Columbia Zithers and Pathophones; no needles required. Jan. 6, 1914.

FISHERMAN DROWNED.—Assistant Collector of Customs, LeMessurier, had a message to-day from La-Polle, stating that Captain William Hollett, of the Barin schooner Gordon Hollett, reports that one of his dories was lost on the fishing grounds and that one man, John Peole, was drowned. His body was recovered. No further particulars were received.

St. Joseph's Day.

AT LITTLEDALE.

Yesterday the Feast of St. Joseph, the pupils of Littledale Academy staged an exquisite drama, entitled "St. Elizabeth of Hungary." The elocution and the delineations of character were excellent, and equalled any heard or seen in that Academy, so proverbial for its classical rendition of dramatic and musical performances. The many friends present yesterday expressed much admiration and appreciation of the good work done, and also requested that the performance be reproduced in one of the city halls. We congratulate the young ladies on their annual Speech Day, and wish them many years of happiness.

France Has A New Aerial Terror.

Paris, March 13.—Successful experiments have just been carried out here with fire arrows which are intended for use by aeroplanes against dirigibles. The arrows, which are the invention of a Lyons mechanic, are about 15 inches long, and are furnished with small cylinders containing gunpowder and inflammable oil. Two of these were thrown from the Eiffel tower on to some straw, which was ignited. Further experiments are to be made from on board an aeroplane. If they are equally successful the new invention is expected to prove a highly dangerous weapon.

Grand Duchess Is Summoned For Desertion.

Stockholm, Sweden, March 14.—The Grand Duchess Pavlovna of Russia, the wife of Prince William of Sweden, second son of King Gustav V., was summoned to-day through the Swedish legation in St. Petersburg, to appear in the court of assizes at Stockholm. She will there have to answer a charge of having deserted her husband. Divorce proceedings between the royal couple have been in progress for some time. Prince William, who is shooting in Uganda, is not expected to return to Sweden before the end of April. The Grand Duchess has been in St. Petersburg for some time. She is a daughter of Grand Duke Paul Alexandrovitch and a cousin of the Emperor of Russia. She is now in her 24th year. Their marriage took place in 1908. They have one son, Prince Lennart, born in 1909.

Dory Capsized and Two Brothers Drowned.

Liverpool, N.S., March 15.—Clarence and Perry Crouse aged 15 and 13 years, sons of Lawson Crouse of East Berlin, were drowned there yesterday afternoon. They left the shore in a dory, to attempt the raising of a sunken boat and overturning the dory, they quickly sank. Men have been busy since then trying to grapple the bodies but have not succeeded in doing so.

ERYSIPELAS OUTBREAK.—An outbreak of erysipelas was reported at the General Hospital last evening. Two elderly patients who had undergone operations in the institution, showed symptoms of the disease, and were immediately removed to the Fever Hospital.

Light on Kenna's Hill

Editor Evening Telegram.

Dear Sir,—Will you permit me through your columns to ask those interested why the light has not been erected on Kenna's Hill? After seven years petitioning, and through the instrumentality of Councillor Mullaly, the City Council decided to erect it. This was some time ago. The residents want to know what is the cause of the delay? The pole is already there, the wires are connected, and it only remains to put up the lamp—a work of a few hours—and the job is done? Why not do it? Who is neglecting his job? Will Councillor Mullaly please make the parties whose duty it is get a hustle on and give us our light?

Yours,
March 20th, 1914. KING'S PINCH.

Man Shot Himself Dead.

A shooting accident, which has resulted fatally, occurred yesterday in the District of St. George's on the West Coast. This morning Deputy Minister of Justice Hutchings received this message from Magistrate McDonald, of St. George's:—"Just received word from Red Brook that George Brown was found dead yesterday on the beach near his home, empty gun found by him; shot found in breast. Constable Goodland gone to investigate." Various reasons are held out as to the cause of the tragedy but the main conjecture is, and one that was verified by a private wire received in the city last night, that the unfortunate man was seal shooting on the beach, near his home, when the firearm was accidentally discharged. Brown was thirty years old, married with a family.

THE EARISHALL.—Job Bros. Earishall arrived back from the Brazils at 1 p.m. Her engine worked well for about 50 hours, and then gave out and on her arrival south, her engineer, a German, disappeared.

DIED.

Last night after a long illness, Mary, relict of the late John Egan, pilot, aged 74 years, leaving one son; funeral on Saturday, at 2.30 p.m., from the residence of John Sullivan, King's Bridge. May her soul rest in peace. At 5.30 p.m. Wednesday, March 18, Joseph J. Newman, aged 68 years, leaving a widow, three sons and two daughters to mourn their sad loss.—Canadian, American and English papers please copy.

BY CABLE

Special to Evening Telegram.
NAPLES, March 19.
Professor Mercall, Director of the Observatory at Mount Vesuvius, was found burned to death in his bedroom to-day.

LONDON, March 19.
The Globe, to-day, says that warrants have been signed for the arrest of Sir Edward Carson and other leaders of Ulster Unionists. The statement has been officially denied.

SALISBURY, March 19.
Another name has been added to the list of British Army aviation to-day, when Lieut. Treby, of the Imperial Flying Corps, was killed, while making a flight over Salisbury Plain.

BREMEN, March 19.
An unknown schooner was sunk, and her crew drowned, through a collision last night in the North Sea, with the Kaiser Wilhelm der Grosse. The steamer remained in the vicinity for two hours, but could not discover any trace of schooner or crew. She then resumed her voyage to America.

LONDON, March 19.
The vote of censure on the British Government was moved to-day in the Commons by Bonar Law, based on Asquith's refusal on Monday to grant delays in the scheme of local option, by which nine counties in Ulster will be permitted to vote separately on the question of exclusion. Law offered to give a guarantee that if the Government would take a referendum of the United Kingdom on the Home Rule Bill and the local option proposals, the Unionists both in the Lords and Commons, would place no impediment in the way of carrying out the will of the people. Carson backed up Law's offer, saying that if the Premier is prepared to give him a definite offer of the referendum, he would accept its decision.

LONDON, March 19.
During the debate on the Navy Estimates, last night, Lord Beresford said: "Why is the First Lord not in the House? It is most uncivil to the House and myself who sat in the House before he was born; and who was strong for reform on the lower deck, when the First Lord was at the business end of a feeding bottle." Churchill entered the House directly afterward, and as Lord Charles, proceeding, said that he had broken promises and pledges, he yawned, whereupon Lord Charles said he was sorry if he bored the First Lord. He could see right down his throat at that moment. Later, Beresford said: "I have nothing to say about the First Lord's flying in the air, as I do not suppose he will ever get any nearer to heaven."

ZAM-BUK DOES CURE PILES.

Mrs. C. Hanson, wife of the proprietor of the Commercial Hotel, Poplar, B.C., suffered from piles for years. Went to doctor after doctor in vain. Finally went to Spokane and had an operation. Twelve months afterwards she was as bad again. She says, "One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better, and I saw that Zam-Buk was going to cure me. Well, I went on using it, and by the time I had used six boxes I was delighted to find myself entirely cured." If you suffer from this painful ailment, or from eczema, ulcers or any skin disease, don't waste time. Try Zam-Buk, 50c. all druggists and stores.

Commissioner Rees Has Recovered.

London, March 16.—Commissioner Rees, in command of the eastern division of the Salvation Army in Canada, sailed by the Alsatian on Saturday after a fortnight's visit in England. So benefited was he by the voyage over, that his former physician, Dr. Richmond, scarcely believed that his recent illness was as serious as was really the case. His recovery is regarded at headquarters as nothing short of miraculous. He is proceeding direct to Toronto, but will visit Montreal shortly in connection with the Maternity Hospital. Commissioner Rees expressed great satisfaction with the development of the Army's social and general work in Montreal, as well as with the generous response of the public in connection with the Christmas fund which is still being used to relieve distress among the poor.

COUNCIL MEN BUSY.—During last night's rain storm the streets were in a wretched condition. A gang of men from the Council were engaged clearing the gulleys which became choked.

Royal Quality

Never experiment with so important an article as the human food

It is the high quality of Royal Baking Powder that has established its great and world-wide reputation.

Every housewife knows she can rely upon it; that it makes the bread and biscuit more delicious and wholesome—always the finest that can be baked.

It is economy and every way preferable to use the Royal, whose work is always certain, never experimental.

There are many imitation baking powders, made from cheap ingredients. They may cost little per pound, but their use may be at the cost of health.

The Rivers of Babylon.

A NEW GARDEN OF EDEN.

By E. G. Harmer, in the 'Christian World, London.'

A few weeks ago the magnificent barrage which has been constructed by Sir John Jackson at the head of the Hindia branch of the Euphrates, according to a scheme prepared for the Turkish Government by Sir William Willocks, was formally opened. This great engineering work inaugurates a new era in Mesopotamia, and its ultimate effect will be to add an enormous area to the corn lands of the world. But the event is also of great moment for the Bible student, and the opportunity may be utilized for drawing attention to some of its aspects, because they enable us to view the story of Babylon in a new perspective.

The land of Shinar, enclosed between the lower Euphrates and the lower Tigris, has an area of about 12,000,000 acres, one-third of it swamp and two-thirds of it desert. The desert is due to the scanty rainfall, which hardly exceeds eight inches in any year, and the swamp to the untamed forces of the two natural streams, whose output during the flood is twelve times greater than at low water. In the morning of mankind the Persian gulf covered the whole of Shinar, and the stone age peoples who dwelled upon the eastern uplands looked down upon a sweltering chaos of turbulent sea. It is permissible to hold that it was the folk memory of that dim past which was enshrined by the earliest Semites in their legendary poetry, and led them to personify the struggle of man with nature in stories of conflicts between their racial heroes and the dragons of the deep.

Recent research has shown that behind the old Babylonian cosmogony there lay a clear recognition of the practical tasks wherewith man was first confronted in the marshland of Shinar. To one of its dragons the name of Rahab clung with such persistence that it survived in the later Hebrew literature. Thus it was that Job declared: "He hath described a boundary upon the face of the waters: He stilleth the sea with his power, and by his understanding he smiteth through Rahab." The tasks, in fact, were those of the water engineer, and one of the greatest of these early heroes, the Merodach of Jeremiah, is he of whom it was sung:—

Marduk laid reeds on the face of the waters; He piled up earthen banks, and sheltered them behind the reeds.

So, again, in another tablet:— Marduk laid a reed on the face of the waters.

He made dust and poured it out upon the reed. On the edge of the sea Marduk placed a dam.

A reminiscence of this very poem has been traced in the eighth chapter of the Proverbs. It may be of interest to say that, during the present century, when the port engineers of one of the greatest of Indian cities desired to curb the wayward course of its river, they followed this age-long example by dropping reed mats mile after mile, and then building up behind them a rampart of quarried stone.

When we reached the beginnings of written history, Babylonian life is seen to depend upon the waterworks formed by the labor of man. At least two thousand years before Amraphel, King of Shinar, irrigation was highly developed, for there was a regular system of land valuation, associated with a net-work of canals, tanks, and dams. Amraphel himself—if he be Hammurabi—formed two great canals during his amazing reign. So zealous was he in maintaining the water-ways that many of the letters which preserve his memory record his personal instructions from the royal water board. In one "Let men clear the Damanum Canal within the present month"; in another, "Within three days clear out the canal within Erech." One section of his code of laws laid down that the riparian owner was responsible for his own banks, and if thro' his negligence a breach caused injury to his neighbor's crops he should make good the damage, even if this meant his being sold into slavery to raise the money. Even poor women had their small holdings, and such was the fertility of the land under this careful administration that, whereas to-day the Canadian yield of

wheat averages no more than twenty bushels to the acre, Hammurabi could point with pardonable pride to a yield of forty-five bushels.

During the next 2,500 years the agricultural prosperity of the land "between the rivers" was more or less vigorously maintained. In the fifth century B.C. Herodotus shrank from recording what he knew of its fertility, knowing that he would not be believed. The date and the vine orchard fruits and vegetables grew in indescribable profusion. Three hundred years before him, in the time of Jehu, nearly a thousand villages and fortified towns in the Mesopotamian region were captured in a single Assyrian campaign. Let it be noted that few of the great cities of Chaldea were built upon the banks of the natural streams. Ur of the Chaldees, Larsa and Erech, Nippur and Sippara, even great Babylon itself—all were erected upon the banks of artificial canals, whose water supply was the object of systematic regulation.

The "River of Chebar," the background of Ezekiel's pathetic poetry, was an irrigation canal. Choked up by centuries of Moslem indifference, it lay unused until our English engineers cleared it out again for a length of fifty miles, and during this wintertime filled it once more with the life-giving stream. It was Ezekiel who measured the fall of one in a thousand which has been proved to be accurate by Sir William Willocks's surveyors. It was he who wrote: "Her rivers ran round about her plantations; and she sent out her channels unto all the trees of the field." He, also, who, in a prophetic vein, declared: "But the miry places hereof, and the marshes thereof, shall not be healed; they shall be given up to salt." Not a hundredth part of the old irrigation system, founded by Marduk in the world's far-off dawn, has remained to this day. Camel thorn and caper grow stragglingly where once there flourished the palm and the vine; colocyth and wormwood have displaced the rich cornfields of the past. But at length a new era has come, and within the lifetime of this generation the land if Shinar will once more become an Eden, wherein is the tree of life.

Do As Others Do, Take

this time-tested—world proved—home remedy which suits and benefits most people. Tried for three generations, the best corrective and preventive of the numerous ailments caused by defective or irregular action of the organs of digestion and elimination has been proved to be

BEECHAM'S PILLS

(The Largest Sale of Any Medicine in the World)

If you have not tried this matchless family medicine, you do not know what it means to have better digestion, sounder sleep, brighter eyes, clearer complexion, which come after Beecham's Pills have cleared the system of impurities. Try them now—and know. Always of the same excellence—in all climates; in every season—Beecham's Pills are

Mr. Whiteway's Lecture

At the M.C.L.L. last night, Mr. Whiteway, of the Methodist College, continued his lecture on the "Teachers' Tour." Earlier in the winter he had described their progress through Scotland and a part of England as far as Oxford. History with "her ample page, rich with the spoils of time" becomes a living thing in Mr. Whiteway's hands. We can imagine that it was no trouble for him to prepare such a lecture, rather it was a trouble to take the audience over the whole ground in so short a time. Seeing Kenilworth Castle meant recollections quick and overflowing of the courteous, smooth, and withal haughty Earl of Leicester, and the piteous fate of poor Amy Robsart. The graves of Clive, Wolfe, Nelson and Wellington in St. Paul's recalled to him that these four had settled probably the greatest question in the last five hundred years—the question as to who should rule in India and the New World; the French or the English. The description of St. Paul's was very interesting, with Sir Christopher Wren's epitaph written in Latin over the door "If you want to see my monument, look around you" and the lecturer's exposition of the various forms of architecture was clear, interesting and instructive and in one instance he showed that when a service in one of the Cathedrals palled the beauty and influence of the building made its appeal to the contemplative and receptive mind. Stratford on Avon, Ann Hathaway's cottage, Shakespeare's house, Trinity Church were visited, and all the teachers sat on the settle in Ann's kitchen where doubtless she and Shakespeare often sat and conversed about the new world of the Gunpowder Plot or some kindred subject. Westminster Abbey, the Tower, and the House of Commons each place drew from Mr. Whiteway thoughts of compelling interest as he suggested by the relation of incident indissolubly connected with these places, the progress of the human mind, the improvement of reason, the advances of science and the vicissitudes of learning and ignorance. The Garden Party given by the Countess of Warwick must have been a delightful occasion and Mr. Whiteway was able to express what Newfoundland owed to Lord Salisbury, the father-in-law, in the settlement of the Fisheries Question. The Battle of Flowers in Jersey was a day to be remembered and a panny plucked from the garden which Victor Hugo had here, was shown by the lecturer, at so a bit of bloom from the "Hole in the Thorn" which blooms every Christmas in Glastonbury. This "Hole in the Thorn" is supposed to spring from the staff which Joseph of Arimathea planted there and which sprouted also in Glastonbury is supposed to be buried the cup from which Christ drank at the Last Supper, and from which comes the "search for the Holy Grail." This Glastonbury is also called "Avalonia" or Isle of Avalon from which we get the name. Mr. Whiteway reveals in history. He brings to his study a mind that is only retains mere incidents but classifies them in their bearing to the age and thought of their time and ours. He realises as someone says "the History is Philosophy teaching by examples." And after all this Tour after the weeks of deep intellectual enjoyment, and where we should suppose that the mind would be taken up with the delight of seeing the sights of England, it is all the more to his credit that Mr. Whiteway, in stating what impressed him most in his observant mind had seen what was certainly not on the schedule of the Trip. What impressed him most was "the hopelessness of the millions of poor people of bettering their condition, as things are now." Altogether the lecture was a treat and more educative than a dozen histories, and the eulogies Mr. Whiteway received from the speakers following, were but his due.

Mr. Harry Cowan proposed a vote of thanks, which was seconded by Mr. Nichols and supported by Mr. P. G. Butler and Mr. V. P. Burke.

S. U. E.

The members of St. John's Lodge, No. 5, S.U.E., and their friends were entertained with a most interesting discourse by Mr. C. E. Hunt, at the British Hall last night. Mr. Hunt took for his subject "Men of Another Country, and another Period," and in an interesting manner dealt with the lives and works of Henry W. Shaw, Chas. R. Brown, Henry Ward Beecher, Robert Ingersoll, De Witt Talmage, Mark Twain and several others. The chair was occupied by Mr. W. H. Goodland, and at the close a hearty vote of thanks, proposed by Hon. R. A. Squires, K.C., and seconded by Dr. L. Pritchard, was unanimously given to Mr. Hunt for his instructive entertainment.

QUIET FOR POLICE. Matters were very quiet in police circles last evening and up to midnight only one arrest was made, the offender being an ordinary inebriate.

Eat Cabbage, Fish Sausage, New Bread

No Indigestion, Gas, Sourness or Upset Stomach if you'll take "Pape's Diapepsin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty cent case. Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach

Died From Burns Received

While Lighting Husband's Pipe at Toronto.

Toronto, Mar. 9.—Mrs. Margaret Bush, the aged woman who was badly burned on March 2 while holding a light to her husband's pipe died yesterday in the Western Hospital, where she had lain since the accident. The case is a most pathetic one. Mrs. Bush was over at the side of her husband, David Bush, who is ninety-six years old and is bed-ridden. It was in one of her faithful duties that she received the fatal burn. Mrs. Bush, who was eighty-two years of age, set fire to her own clothing when attempting to hold a match for her husband, who was taking his after-dinner pipe. Mrs. Bush received extensive burns. The love she bore her aged husband was again and again manifested as she lay in the hospital. Time after time she asked for him, expressing fear that he would be lonely. The husband lying at home made equally anxious inquiries after his wife. The old couple, for years in each other's company, were very much affected by the separation. A large family survives Mrs. Bush. The couple had lived with their grandson, Andrew Duncan.

Also in Glastonbury is supposed to be buried the cup from which Christ drank at the Last Supper, and from which comes the "search for the Holy Grail."

HEALTHY AND UNHEALTHY LIGHTING

Gas, it may be said, vitiates the atmosphere. True. But it also helps to purify it. Its purifying power is greater than its vitiating power. Electricity does not vitiate, nor does it purify. Hear what three eminent men have said:—

Much evidence has lately been adduced to show that gas is more useful than the electric light in promoting efficient ventilation of air. It is for this amongst other reasons that gas is being frequently substituted for the electric light. The latest example is, perhaps, the Society of Medical Officers of Health, which has recently installed gas on its premises, after experience with the electric light.—Dr. Jamieson 3. Hurry.

He would merely add that no member who had experience of their meeting room under the old conditions could deny the improvement that had taken place since gas had been substituted for the electric light and the new system of heating and ventilation had been installed.—Dr. Reginald Dendfield, before the Society of Medical Officers of Health.

I have in my mind's eye, at the moment, a hall which, in the old days was lighted by gas, and in which a large audience could, with comfort, sit through an hour's lecture, or with pleasure through a three hours' dinner, but which, with the march of civilization, had its illumination changed from gas to electricity, the latter being applied with all the latest refinements to effect the lighting under the best conditions, with the result that any large gathering within its walls leads to a state little short of asphyxiation.—Vivian B. Lewes, Professor of Chemistry at the Royal Naval College, Greenwich.—nov.14

now on exhibition and for sale at Parsons' Art Store and at the Studio, corner of Water and Prescott Streets. These are the finest views of the city ever shown, and should be in every house and office in town.

Advertise in the "Telegram."

Five Pictures at the Crescent.

The programme at the Crescent Picture Palace for to-day and tomorrow is in keeping with the different bills that have been presented during the week. "Love of an Island Maid" is one of the best one-act acts seen for many a day. It describes the wonderful bravery of a fisher girl. "Behind the Gun" is a genuine western drama. "The Beggar and the Clown" on I. M. P. comedy that contains much amusement and surprises. "What Girls Will Do" features Glen White and the four famous beauties, and as a final "Leaves" from the sketch book of the renowned cartoonist Mr. H. Meyer. On to-morrow afternoon a special matinee for ladies and children. On Monday and Tuesday the Heart of a Jewess.

Food For Thought.

This is the cheapest food in the world. Fill your thoughts for a while with insurance, unless you are already covered. No thinking man neglects this protection. Thinking of insurance means thinking of Percie Johnson—and his low rates—and his prompt payment of claims. Why not ask for terms?—adv.tff

Billiard Tournaments.

At the B. I. S. Rooms last night J. Higgins (Plain) won by 88 points over P. Burke (Spot). As a result Plain side are now 76 points ahead of their opponents.

Still In The Floe.

No late report has been received from the U. S. Tug Potomac, which was abandoned off Bay of Islands some time ago. Consular Agent Gould, acting under instructions from the U. S. Navy Department, arranged for a crew from Bay of Islands to board her. They took on board a supply of provisions, and are evidently still drifting about in the floe.

Eighty Days Out

From Marystown to Oporto. As already alluded to in the Telegram, the schooner Grand Falls is making an exceptionally long passage from Marystown to Oporto and considerable anxiety is felt for the crew. The vessel is now eighty days out, though she has not yet reached her destination and it is doubtful if ever she will turn up as the opinion is that she has foundered. The crew of the Grand Falls comprised W. P. McKay, captain; Wm. Vallis, mate; John Reeves, Manuel Poole, Harold Flinder and John Hibgate. The vessel was built at Shelbourne in 1910 and was owned by A. S. Rendell & Co.

Seal Found 'n Salmon Net.

Yesterday morning while overhauling his salmon net Mr. James Malone, of Logy Bay, found to his surprise a bedlamer seal, and strange to say, although entrapped in the meshes, the visitor from the frozen pans was very much alive. After killing and skinning the seal Mr. Malone brought to the city the pelt, which weighed 65 pounds, and sold it to Bowring Bros. The amount fetched for the article did not quarter pay the finder of the seal for his trouble.

Recovering.

It is now thought that the man Grant, who was a week astray in the woods, will not have to be operated on. His condition at the General Hospital shows a marked improvement and he is recovering his reason rapidly.

Minard's Liniment Co., Limited.

Have used MINARD'S LINIMENT for Croup; found nothing equal to it; sure cure. CHAS. E. SHARP. Hawkhaw, N.E., Sept. 1st, 1905.

LOADING FOR BRAZIL.

Our Ships Are in the Fat.

It is nice to know that soon we'll see the dandelion in bloom. The grand to hear our Councilors will for others soon make room. To make our little town, we pray. Clean as a Sunday hat. But better still to know to-day that our ships are in the fat.

The news is flashed across the wires from o'er the frozen foam. It brings great joy to many fires in our dear Island Home. For after all the ocean's spoil "Makes us 'throw up our hat.'" Hurray, my boys, for "skins and oil." Our ships are in the fat.

It is nice to see a hockey match. Where boys kick up a fuss, and 'tis lively in a mix-up. When they're joined by "Harder Gas." But you hockey chaps ain't in it. With the men of gaff and bat. The richest prize they win it. When the ships are in the fat.

A smile is on the maiden. Who watched the ships go by. That morning out near "Chain Rock." With a tear drop in her eye. And your wife no doubt is thinking. Of the latest style of hat. And tells you as she's winking. The ships are in the fat.

God bless our hardy seafarers. And keep them safe and sound. Until their ships are laden. And coming homeward bound. They are our greatest toilers. We all must admit that. Three cheers for the "swiflers." Our ships are in the fat.

JAMES MURPHY. March 19th, 1914.

Baseball.

The first annual meeting of The St. John's Amateur Baseball League was held at the offices of The Imperial Tobacco Co., Ltd., last night. Mr. J. W. Hawvermale presiding. The Secretary and Treasurer's reports for the season were read and adopted. The latter showing a substantial balance to the credit of the League. The election of officers then took place which resulted as follows:—

- Mr. R. C. Reid—President.
- Mr. J. O. Hawvermale, 1st V. P.
- Mr. W. J. Higgins, 2nd V. P.
- Mr. Herbert Power—Treasurer.
- Mr. P. Grace—Secretary.

All the old officers were elected with the exception of Mr. Power who replaced Mr. McManus formerly of the Bank of Montreal but who has since been transferred to Toronto.

Some discussion took place regarding the Constitution and Rules and one or two minor amendments relating thereto effected.

Votes of thanks were then unanimously passed to the Press for its kindly interest in the introduction of the game here which largely contributed to its success; to the Reid Newfoundland Company for the facilities offered in arranging the Inter-Town games; to Mr. Higgins, M. H. A. for courtesies extended in the formation of the League in compiling the rules and Constitution; to the Imperial Tobacco Co., Ltd., for their many favours; and to Chaplin, King of Tailors, and the K. & A. Store for prizes. Mr. Joe Murphy then presented the League with a shield to be awarded to the player with the best batting average during the league series. Mr. Murphy's interest in the development of clean, manly sport is well known, and his generous gift is appreciated not only by the League and its players but by the "fans" as well.

The Wanderers were presented with the League pennant for 1913 together with the G. G. Allan Cup for the championship of the City League and the City team with the Inter-Town pennant and R. G. Reid Cup.

The meeting was very enthusiastic and this great game will receive considerable impetus this season. The fans have quickly caught on and great interest is already being evinced in the line-ups of the various clubs. The schedule will shortly be drawn up, and it is hoped to start the League games early in June. St. George's Field has been secured so that greater facilities will be offered the public the coming season. Two outside clubs, one consisting of former cricketers and the other of one of our Brigade Reserves, have intimated their intention of making application for entrance to the League and these will be considered at the next meeting.

Cape Report.

SPECIAL to the Evening Telegram. CAPE RACE, To-day. Wind W. S. W., blowing strong, weather dull. A barq. was sighted at daylight bound inward. Bar. 29.55; temp. 50.

13 Antos On wrecked Steamer

We understand there were no less than thirteen autos on the City of Sydney which went ashore near Halifax, on Monday night. Eight of these were Fords, the others being three Hudson's and two Franklin's. Four machines were not insured. Messrs. J. J. Duff and Joe Murphy had a car each on her, and word was received in town to-day that up to last night none of the machines had been saved.

Friday.

Of all fried days this is the best, for men who earnestly have toiled; it couldn't have a keener zest if it were poached or stewed or boiled. For now the week draws to its close, and we, who worked to gain the prize, look forward to the sweet repose the Sabbath brings to weary guys. Full soon the wages we have earned will come to us, the plunks, the rocks; and will those wages then be burned, or thrown at owls and chicken-hawks? Shall we go forth and blow the coins, to gather which we sprained our thews, and dislocated back and loins, and tore the half-soles from our shoes? Ah, no! The passing years have brought some wisdom, and we're frugal now; each man will toddle to his cot, and hand the bulion to the frau. On Friday, with reward in sight, the cheerful toiler turns his crank, and thinks of how, with sane delight, he'll place three dollars (\$3) in the bank. The week grows old, 'twill soon be sped, and we have rocks who for them chased; but those who paint the village red have nothing but a dark green taste.

Copyright, 1911, by George Matthews Adams. *Drax Mason*

A Baby's Face.

How nice baby's skin is now; not a red mark or abrasion anywhere to be seen. "Yes, I was noticing. His face used to be so splotchy that I often wondered if it were possible to do anything for him. How did you manage to cure the trouble?" "Simply enough after all. A few applications of that wonderful new ointment Zylex, and the steady use since of Zylex Soap was all that was needed, that made the little chap right."

Zylex (50c.) and Zylex Soap (25c.) can be had from your druggist. mar16.

Club Meeting.

The annual meeting of the B. I. S. Athletic Association will be held at their Club Rooms on Wednesday night at 9 p.m. for the purpose of electing officers, and to make arrangements for entrance to the various leagues for the coming season.

The Wanderers Baseball Club also meet to-morrow night to receive Reports and to elect officers.

The Shamrocks and Red Lions will hold their meetings next week for the same purpose.

McMurdo's Store News.

FRIDAY, March 20, 1914. Nervozone has been found by many who have used it a handy and convenient means of taking a tonic, blood builder and appetite-increaser. For those who do not easily take liquids, and some have quite a difficulty in taking liquid medicines, they come as a way out of a difficult situation. Nervozone tablets taken regularly are said to have an excellent effect in making good red blood, and making the weak strong. Price 50c. a box.

Have you seen that Frozen Brilliantine? It is much to the taste of some people who call it a perfect dressing for the hair, and one that acts in a beneficial manner in increasing its growth. Price 30c. a pkg.

NELSON DULEY ILL.—Mr. T. J. Duley had a message on Wednesday night from Sherbrooke, Quebec, saying that his son Nelson was very ill. Mr. and Mrs. Duley left by last evening's train. We hope that his illness is not serious and that he will soon be at his desk again in the Bank of Montreal branch of that city.

Wireless on Railway Trains.

Experiments with Marconi wireless apparatus installed on trains of the Delaware, Lackawanna, and Western Railroad Company have proved that it is possible for trains so equipped to be in constant communication with stations and each other regardless of the speed at which they are travelling, and have led railway men to predict that the wireless will prove of nearly as much value to land travel as it has been to navigation.

The Lackawanna Railroad has established wireless stations at Binghamton, New York, and Scranton, Pennsylvania provided with the ordinary "aerials" supported between high towers. Of course it was an impossibility to equip an express train with such a system, but it has been found that communication can be maintained up to a distance of fifty miles from a train carrying a very low aerial, consisting of a quadrangle of wire supported by insulators on iron pipes eighteen inches above the roofs of the cars. Four cars have been so fitted out on an express train that passes through Scranton and Binghamton. The cars are connected by special attaching plugs, and the operator's station, in the third car of the group, takes up no more room than the ordinary lavatory. The regular Marconi system is used, except that power is furnished by a special motor-generator set driven from the regular train-lighting dynamo, and the ground connection is made to the rails by a wire to one of the car trucks.

Scranton and Binghamton are about sixty-five miles apart, but when the train is between these two points it is constantly in communication with one or the other, and if out of direct touch with one can reach it by sending a message through the other.

As a precaution against collision he railway wireless may have great possibilities, and it has already been proved to have them in regard to safety and time-saving through the ensuring of constant communication of trains with stations regardless of line breaks caused by blizzards, washouts, signal-obscuring fogs, and other abnormal conditions. Apart from this value in emergencies, the amount of time saved in routine train operation when conductors are able to keep in direct communication with train dispatchers without stopping their trains makes it likely that the wireless will soon be as much used on railway trains as it is on ocean liners.

The emergency value of the wireless, as already stated, has been thoroughly proved on the Lackawanna. The other day the conductor of the train carrying a radio was suddenly taken ill as the train was approaching Scranton. Ordinarily a delay would have been necessary, either a stop in order to send a telegram to Scranton after arriving there. As it was, however, a message was flashed ahead through the air and the relief conductor was picked up at Scranton with no delay. On another occasion two tramps were found stealing a ride on the blind baggage, and the conductor telegraphed ahead to the next scheduled stopping-place for detectives, who arrested the vagrants when the train drew into the station. In fact, the only persons to lose by the general use of wireless on trains are "hoboes" and train robbers, to whom the sending out of railway "S. O. S." might often be embarrassing.—The "Outlook," New York.

The One to Own if You Can Own But One.

That is what a critical user of a "Globe-Wernicke" cabinet says of his equipment. Another says "It leaves nothing to be desired." Another says "So complete yet so concise." Another "Perfection as a filing arrangement." Another "It is really indispensable." Another "A surprising advance in handling records." Another "A welcome improvement in office conditions"—and so on. The extensive sale of "Globe" filing cabinets in St. John's is by no means as remarkable as the abundant evidence that it is on merit alone that these devices have earned such generous appreciation. For certain when you become a user you will be well contented with your adaptable and reliable outfit. Mr. Percie Johnson has your catalogue ready for the asking as well as other necessary details.

A Canada Life Actual Result!
NET CASH RETURN MORE THAN TWICE THE COST.
W. J. Robertson, Welland, 12th June, 1911.
Agent CANADA LIFE ASSURANCE CO., Port Hope, Ontario.
Dear Sir,—
When acknowledging receipt of the Company's cheque for my matured Endowment Policy No. 24937, I desire to avail myself of the opportunity to express my satisfaction with the outcome of my investment.
The policy was payable to me at age 60, with ten premiums of \$48.00 each. The return under it is as follows:
Sum assured ————— \$1,000.00
Dividends added ————— 446.31
Total amount payable ————— \$1,446.31
Deduct total premiums paid ——— 480.00
\$ 966.31
That I should have insurance protection free for all these years and now have over twice the amount of my premiums returned to me in cash is a most satisfactory outcome and I heartily congratulate you on it.
Yours very truly,
GEO. ROSS.
A CANADA LIFE POLICY PAYS.

THE DIFFERENCE.

In consequence of the great success of Molassine Meal, other foods containing molasses have been put on the market. Sellers are frequently asked—

What is the difference between MOLASSINE MEAL and

The answer is, that many other sugar foods are simple imitations of MOLASSINE MEAL and do not contain any antiseptic, digestive, health-giving, worm-destroying properties.

Further, to give some of these molassed foods in quantities to cattle is dangerous, as they contain unneutralised potash salts, which have an injurious effect on the animal organism, frequently causing purgation and death.
