TUESDAY EV'G, JUNE 22, 1869.

Town Council.

The Council met on Monday night. All the members present, the Mayor in the chair. The Clerk read a communication from J. Hart, in which he stated that the work of cleaning out the river was finished, and requested that it be inspected Mr Holliday read a petition from Henry Boulton, prayings to be relieved from taxes. Referred to Finance Committee. Mr. McCurry read a petition from Wm Bookless, praying for transfer of license from Mr. O'Neil to him.

Mr. Robt. Mitchell presented a petition from Richard McCruden, praying the Council to grant him a certificate in order that he might procure a license for the Bullfrog Tavern.

Mr. Chadwick presented the report of the Finance Committee, which was as follows:

FINANCE COMMITTEE REPORT.

The Finance Committee beg to report that they have considered the various potitions referred to them, and recommend that \$8.88 be refunded to Messrs. Mills & a Melvin, for taxes paid by them on lots 90 a and 91, Guelph, for 1862, the same having also been paid by the Canada Company. That the amounts required to redeem the lots mentioned in the petitions of W. S. & Knowles, C. Horning, J. McKee, and J. T. Leslie be paid, said lots having been incorrectly sold. That the amount paid by the Mechanics' Institute for use of Town Hall for a course of lectures by Dr. Howitt, for five nights, not so used, be refunded. That the accounts of J. B. Thornton, and C. W. Chewett for blanks be paid. That no action be taken in the case of James Perry, the collector having returned "no effects," against the occupant Knox. That the Clerk do procure a copy of the Statutes for 1868-69, for each member of Council. They further report that the Court of Revision duly held their sittings as advertised, and having made a few alterations, passed and confirmed the assessment roll of 1869.—Adopted.

Mr. Mitchell presented the following report of the Road and Bridge Committee:

ROAD AND BRIDGE REPORT,

Your Committee beg to report that in accordance with the last finance report

Your Committee beat or report that in accordance with the last finance report they have considered the several items of proposed expenditure on streets and highways, and made considerable reduction on them in order to make it possible to meet all the liabilities of the current year by a reasonable amount of taxation, and thereby avoid the necessity of issuing de bentures, and the expense connected there- with, and beg to submit the following as a revised repost based on the 8th and part of the 9th reports of your Committee. They having before them the written reports of two engineers condemning the present abutments of the Eramosa Bridge cannot take the risk and responsibility of placing an expensive superstructure upon them, and therefore recommend that the present bridge be replaced by a Moseley wrought iron arch bridge of one span, i about 110 feet in length, having a road-tway about three feet higher than the present one and resting on abutments similar to those in Mr. Hobson's prize iron bridge—cost of span \$2,800, masonry \$1,500, contingencies \$300—total \$4,600. Your Committee recommend that a new bridge be constructed on Neeve-st., consisting of good second class masonry and a substantial superstructure of wood in two spans of 50 feet each, the roadway of said bridge your Committee recommend that a new bridge be constructed on Neeve-st., consisting of good second class masonry and a substantial superstructure of wood in two spans of 50 feet each, the roadway of said bridge to be about three feet higher than the roadway of the old bridge. Estimated cost \$1,000. In reference to Allan's Bridge your Committee recommend that the central bridge near Mr. Welling to the same class as that in the abutment set the Foundary laid over at last meeting for further consideration be adopted with the following alterations, viz., that the roadway be placed on the same level as the present one, and the masonry in the new abutment at the southerly end be of the same class as that in the abutment next the Foundary.—Estimated

F

with the Statute.—Adopted.

The Council went into committee of the whole on the Road and Bridge Report; Mr. McCurry in the chair. It was adopted with very little discussion, and passed, when the Council resumed, with the understanding that the committee would consider further whether it would be advisable to raise the Eramosa Bridge three feet higher as they had cable recommended. Mr. Goldie and the Mayor also spoke about the advantage of Rayl clitting the work on the streets by contract, and Mr. Mitchell replied that the committee would let what they could in this way.

this way.

Mr. Chadwick complimented the committee on their report. He thought their efforts to bring their expenditure within the estimates was very commendable, and merited the thanks of the Council. The report was not exactly what he or some other members wished, yet it was such that they would raise no objections to it.

some other memoers wissien, Joyan such that they would raise no objections to it.

Mr. McCurry, with leave given, introduced by-laws "for the inquisition and collection of taxes in the Town of Guelph for 1869," "for regulating the constructing of privies and privy vaults, and for altering and cleaning the same," and for regulating the duties of the Clerk and Treasurer of the Town of Guelph. The By-law were read a first and second time.

Moved and seconded that the petition of Wm. Bookless be granted on his complying with the by-law and statutes referring to transfer of licenses. Carried.

On motion Richard McCruden's petition was also granted on his complying with the necessary conditions.

Moved by Mr. Robertson, seconded by Mr. Robertson, seconded by Mr. Wood, that the Mayor, the Reeve, Messrs. Sayers, Bruce and Day be appointed to inspect the work done by J. Hart, and if tound to be done in accordance with the specifications to grant an order on the Treasurer for the amount of the contract. Carried.

The Council adjourned.

The Council adjourned.

The Spiles the anniversary of the 12th of July. This was not an act of hostility to the Government, but the practice of hostility to the Government, but the practice of hostility of the Government, but the prectice of hostility of the Government, but the practice of the Guelph and increasing the military force of Ireland about the time of this anniversary was never more necessary than in the present ever more necessary than in the present ever more necessary than in the Frey are notice that he should move to omit in the Irish Church Bill that portion of the practice of the practic

McLeod, Wood & Co's Melodeon Fac-

This establishment gives evidence of prosperity, if the employment of a large number of hands and the turning out of a very considerable amount of work can be considered as testimony. The factory in the old Advertiser Office is large and commodious, and none but efficient workmen are employed. Fifteen men are distributed in ten departments, and as each attends to his own work, and nothing else, there is a certainty of the whole being well performed. The proprietors inforta us that orders are coming in faster than they can be filled, and that fresh hands may find an engagement. The departments are the case-room, action-room, polishing, varnishing, trimming, turning, packing and warerooms. All the wood used is placed within the influence of the heat of a stove for a considerable time previous to its being worked up,so that there remains no possibility of its shrinkage afterwards. The matching of the veneering material is a job that requires great caution, as the patterns of the rosewood are so frequently widely dissimilar. Were this not carefully attended to, as it always is by one of the proprietors, the external appearance of the instruments would look like very bad painting. From the time the case leaves the case-room until the instrument is ready for boxing up twelve weeks at least must elapse, so slow is the progress of melodeon making. The establishment make their own keys, engraving and everything belonging to the instruments they manufacture with the exception of the reeds. They finish about seven per week, most of which are sent to agents who have ordered them, although a considerable retail trade is done in the town. One melodeon and three organs, intended for the Exhibition at London, are progressing towards completion. One of the organs is very large, and has been purchased by the Brantford Choral Union. The instruments are very superior both as regards tone and finish, and are alike creditable to the skill and experience of the makers. We trust that the ehergy and enterprise of the proprietors will b

TELEGRAPI

Despatches to the Evening Mercury

GREAT BRITAIN

LÖNDON, June 21.— The announcement of the sudden death of Henry J. Raymond, which was received here by the cable on Saturday creates a deep feeling of sorrow. The papers eulogize Mr. Raymand, and say his death creates a gap which can't be filed.

In the House of Commons this evening Sir John Gray, member for Kilkenny, asked the Government if there was any reason to apprehend further troubles in Ireland, and if the military force in that country was to be strengthened.

Mr. Fortescue, Chief Secretary of Ireland, stated that the Government was informed that Mr. Johnston, a prominent leader in Ireland, had called a meeting to celebrate the anniversary of the 12th of July. This was not an act of hostlity to the Government, but the practice of lincreasing the military force of Ireland about the time of this anniversary was an ever more necessary than in the present.

BREST, June 21st. — The steamship Great Eastern has arrived at this port. The splice to the shore end is made, and the new cable is well under way. Despatches received from on board the steamship show that the work is going on without interruption.

Ismail Pasha, the Viceroy of Egypt. has left Paris for London.

FROM SPAIN. MADRID, June 21.—The official reading of the new Constitution, in places in the country, was answered with republican cries. Slight disturbances have occurred at several places, but they were promptly suppressed.

A grand republican demonstration will be made here to-morrow in honor of the victims of the revolution of '66.

Gen. Pesuela has been taken to Cadiz where he will be tried by court martial.

FROM PRUSSIA. BERLIN, June 21st.—The Zollverein Parliament having rejected the proposed duty on petroleun, Count Von Bismarck declared that the Presidency of the Zollverein could not consent to any repression on the actual duty, unless the Chamber reconsidered its action. The duty on sugar has passed.

FROM NEW YORK. New York, June 21.—Two additional deaths from yellow fever have occurred among the patients on board the steamship Illinois, and six new cases have been admitted to hospital from the Savatoga. Monroe, La., 21st.—Several buildings were consumed by fire last evening. Loss \$50,000.

were consumed by fire last evening. Loss \$50,000.

New York, 22na.—Several members of the Cuban Junta were arrested this evening and lodged in the Ludlow-st. jail, on information lodged against them by the Spanish Minister, that they intended violation of neutrality.

FROM CUBA inish, and are alike creditable to the proprietors will be rewarded with success. The more factories of whatsower kind we have in Guelph the better. There is room for them all—for the whole Province, we may say Dominion, so pen to them as a market for their products.

The Hamilton Deaf and Dumb Asy-

The Globe's Ottawa correspondent says.

—Mr. Rymal having learned from Sandfield Macdonald that he justified the removal of the Deaf and Dumb Asylum from Hamilton on the ground that there was no title to property purchased from Sir Allan McNab moved for a return showing the amount of money paid for the site, and information as to the titlenapers. After six weeks' delay, during moral of the Deaf and Dumb Asylum from Hamilton on the ground that there was no title to property purchased from Sir Allan McNab moved for a return showing the amount of money paid for the site, and information as to the title papers. After six weeks' delay, during which they were repeatedly asked for, they have at lest been brought down, but give very little information. They show that Isaac Buchanan and Hillyard Cameron were authorized to value the property in 1861 by Sir John A. Macdonald in 1862, reported to the Council in favor of the purchase at that price, and the money was paid. No information as to title was brought down. Mr. Rymal called the attention of the Government to the incomplete state of the return. Sir John A. Macdonald said on the floor of the House that there was something mysterious about it, as there was no order in Council to pay the money. He said, also, there was no title. This is perhaps the most that there was something mysterious about it, as there was no order in Council to pay the money. He said, also, there was no title. This is perhaps the most inquitous job that has ever been perpetrated by Sir John A. Macdonald. He was at the time Premier, and, of course, sanctioned this expenditure of money as a loan to Sir Allan McNab, who was his litter enemy. The end of this matter has not yet been reached. It will be taken up next session, and a Committee will be asked for to investigate it. Mr. Rymal is determined to ventilate the matter fully.

Hon. Mr. Rose stated in the House hall be a property and paying expensions and the matter fully.

fully.

Hon. Mr. Rose stated in the House on Friday night that he had pleasure in informing the House that the increase of the revenue, from the customs for the month of May, was \$300,000 in excess of the previous year. The great bulk of the increase had taken place at Montreal, Toronto and Halifax.

The great bulk of the increase nata taken place at Montreal, Toronto and Halifax.

THE LILY OF THE STRATH CHAPTER XXXIII.

CHAPTER XXXIII.

AMMO PIRATES.

In, the boatswain, had not been put is ame place of confinement with the judged that the, being a sailor, I given a berth in the pirate ship, is for the sake of saving his life he wo to necessity and become one of fulf fraternity, of their own fate it dark and gloomy forebodings. Tin the hands of lawless and ruthlin whose eyes human life was by as sacred. Murder in all its forms me cossity be familiar to them. Alres three friends had incurred their hat as it was not to be supposed they we have the same to be supposed they we have made in the vessel as prisone yield and rid the same way for the same they would burden themsel septing them in the vessel as prisone yield and rid the same way for the same they were also supposed to the probability to the same the same that they would be same the same that they were they were they were they we on a murderous errand, but the object visit was more merciful—they I with a supply of food, and having each at large platter before each prithey went away again without speak to.

PINEAPPLES

is they went away again without speaking ord.

Come, this is better than I looked for, served William. "They don't mean to dried us just yet, at any rate, else would y not have wasted food or us. Our position is desperate enough, certainly, but who we but we may get out of it yet. At all nits, we won't despair till all room lore is gone. And here I set you two an mple of exercising a healthy appetite." he food was savory enough, and as they eaten nothing for many hours, and were s excessively hungry, they ate now most rully, each man emptying the huge platwhich had been set before him. Ime passed on. Day and night succeedesch other in a way which made it diffict for the prisoners to keep count of the e, for in the almost total darkness in on they lay, daylight and starlight were ost equal. Soon, very soon, their close, elieved imprisonment became not only sleasant but loathsome, shut up as they e in a close, stiffing chamber, amid dirt impurity. Health itself could not bear long in such a dreadful situation, and of thems felt sick and ill, and convinced if their confinement lasted much longer must die of the poisoned air they staded.

ERYSIPELAS OR ST. ANTHONY'S FIRE.—It is a spreading inflammation, characterized by a redness of the skin, accompanied by a sensation of heat and itching, and more or less a constitutional derangement with swelling of the subcutaneous cellular tissues. Every part of the body is liable to erysipelas inflammation, but it most frequently appears on the face, legs and feet. Females are more subject to it than males. After a short time small vesicles, similar to those produced by blisters, present themselves.—They are filled with a thin watery fluid, and are a great source of annoyance until destroyed. Dr. J. Briggs Allevantor is a never-failing remedy. For sale by E. Harvey & Co., Guelph.

Dr. W. H. Russell, the celebrated correspondent of the Times, has been entertaining His Royal Highness the Prince of Wales at a dinner given at the Garrick Club. The reporter and the Prince seem to have been brought together more especially during the recent tour of the latter in Egypt. However that may have been, the fact of His Highness becoming the guest of the Times correspondent is significant of the growing consideration accorded to the Newspaper Press: and is a proof of the superior abilities of the men who, in connection with the highest depatacents of the leading journals, make its service their proud profession.

On Monday last Mr. Johu Baldwin, car-

journals,make its service their proud profession.

On Monday last Mr. John Baldwin ,carpenter, of Durham, was engaged tearing down an old wonden building, and at dinner hour seated himself upon one of the sills to partake of refreshment, when a sudden gust of wind blew the structure down on him, breaking one of his hip-bones, several of his ribs, and otherwise seriously injuring him. His recovery is doubtful.

THE CROPS.—The Durham Chronicle says: Notwithstanding the excessive coldrains which have prevailed for some time past, the crops, in all quarters, look well, and promise an abundant harvest. The fruit crop also gives promise of an unusally large return.

Linentravelling dresses are made with double skirts, the two skirts and saque I sing trimmed with a plaited flower.

TRON IN THE BLOOD.

The necessity of a due proportion of iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, thewhole system suffers, the weakest point bying first attacked, and a feeling of languor, lassitude and "all goneness" pervades the system. Stimulants only affort temporary relief, and have the same effect as giving a tired horse the whip in-

MASON & HAMLIN CABINET AND

METROPOLITAN ORGANS!

HAS JUST BEEN RECEIVED.

THEY are acknowledged the best Instruments of their class in the world. More than three hunders are the prominent American Artists, and a great many European Musicians have given writer testimony to their great superiority. They have been awarded SEVENTY-FIVE GOLD OR SILVEE MEDALS at the principal Industrial Fairs in the United States. But their crowning glory was it winning the First Prize Medal at the Paris Exposition of 1867. These organs are provided with all the Latest Improvements, including the

Mason & Hamlin Improved Vox Bumana, or Fan Tremolo which produces a variety of very brilliant orchestral effect, including a remarkable imitation of stringed instruments; also the nearest approach to the peculiarly sympathetic, rich and attractive quality of acultivated human voice yet attained in any instrument. "The facilities and resources of the Mason & Hamlin Company are now so great that they can afford and undertake to furnish not only the best, but also the Lowest Priced Organs made. Every Instrument is fully warranded for eyears, and furnished at prices ranging from \$50 to \$1000 and upwards.

**ILLUSH RATED OATALOGUES with full description and prices of the various styles of Instruments sent free to any applicant. Canvassing Agents Wanted.
