# CANADA LUMBERMAN

## WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } \$1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX.

TORONTO, CANADA, NOVEMBER 18, 1903

No. 42

### CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'ry  
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL  
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman - Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman - A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen etc. Its special articles on technical and mechanical subjects are especially valuable.

### WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE - SAW MILL AND ONE hundred acres of land; about 80 acres of well mixed timbered bush, including 20 acres of cedar swamp situated on country road, four miles from Angus station. Address J. D. GREENLEES, Alliston, Ont.

FOR SALE

### Large Tract of Timber

THE PROPERTY OF  
The Canadian Land and Immigration Company of Haliburton, ( limited )

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,  
Managing Director,  
157 Bay Street, Toronto.

A H. CUMINGS & SON, Coaticook, Que.

### ONTARIO GOVERNMENT TIMBER SALE.

It is understood that the Ontario Government has decided to change in one respect the conditions governing the sale of timber berths in the districts of Nipissing, Algoma and Rainy River to be held on December 9th. Purchasers of limits will be allowed fifteen years in which to remove the timber, instead of ten years as stated in the original conditions.

### CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber is not moving as actively as one week ago. The high freight rates have restricted shipments, many manufacturers having decided to carry over until next spring stock which earlier in the season they intended to ship. The increased rates have also resulted in some cases in the dropping of negotiations which were under way for the purchase of stock. These circumstances are not such as to give strength to the market. Nevertheless, a number of inquiries have been received for small lots of pine lumber for shipment to Buffalo and Tonawanda and other eastern centres. The Ray City and Saginaw dealers have moved most of the stock bought in Ontario and are in good shape for the winter business. Box lumber and good culls continue to have the call and prices of these grades are exceptionally strong. Hemlock is also moving somewhat freely and the supply of dry stock at the mills

is limited. Manufacturers still insist on full prices for hardwoods. The expected smaller import of logs this winter is already exerting an influence upon values, and dealers and consumers who have delayed in purchasing stock for their winter requirements cannot yet feel assured that they will be given any concessions. While the supply of basswood is greater than during the summer months, it is held in strong hands and can only be obtained by paying the prices asked by manufacturers.

#### QUEBEC AND NEW BRUNSWICK.

Prices of spruce lumber generally are unchanged, although special sizes are a little firmer. There continues to be an active demand for stock for shipment to the Eastern States, while some manufacturers are making considerable shipments to Ontario points. Offerings of clapboards, and particularly of the narrow widths, are larger than one month ago. Extras are quoted at \$43 to \$44; clears, \$40 to \$42; second clears, \$38; and extra No. 1, \$28. Few sales of New Brunswick shingles are being made above \$3.40 for extras on Boston freight rate, while there is a large supply of low grade shingles and prices thereof are inclined towards weakness. There is a scarcity of spruce shingles, which are firmer.

#### UNITED STATES.

Dealers in the United States hesitate to put in large stocks of lumber. Current requirements represent a fair trade, but as a general rule there is little buying for the future. That prices remain steady in the face of industrial depression is one of the most encouraging signs. Buffalo and Tonawanda dealers, in contradistinction to dealers at most other points, report a very satisfactory volume of business. All low grade pine, including norway, is very strong and an advance is predicted before spring. In the Lake Superior district there is a surplus of low grade shop lumber and No. 2 boards, but box grades are about sold out and norway dimension is in light supply. In Chicago it is reported that trade is about what it should be at this season of the year, and it is believed that prices are not likely to yield to any extent during the winter months. Eastern spruce is scarce and strong. The mills are running full time, but are unable to supply the demand for random and certain other grades. There is not a heavy movement of shingles nor lath, and prices of both these commodities are inclined towards weakness. Cedar shingles are quoted at \$2 to \$2.40 in the Saginaw valley.

#### GREAT BRITAIN.

The feeling in British timber circles is somewhat better than at last writing. The stock of unsold lumber is less than one year ago, which clearly indicates that the

consumption has been larger than was generally supposed, as there has been no great falling off in imports. The quantity of deals, battens and boards in the Surrey Commercial Docks at London is nearly 3,000,000 pieces less than at the corresponding time last year. The effect of this shortage is partially offset by the present inactive demand, but if there should be even an average consumption during the winter months, there should be little difficulty in keeping prices near their present basis. In both London and Liverpool pine and spruce remain firm in price, with a prospect of higher values obtaining for next year's import. There is a better demand for first and second quality pine deals than for thirds and fourths. In spruce deals the most urgent demand is for eleven inch. Holders of Canadian lumber are being urged not to sacrifice their stock, as there promises to be a shortage before next year's shipments shall reach British ports. Very few transactions for next year's supply are as yet reported, but it is stated that a few have taken place at figures quite as high as those which ruled last spring. In square timber the consumption is quite in excess of that of the fall of 1902. Stocks are light and shippers are asking exceptionally high prices for 1904 delivery. A large quantity of Quebec oak was sold at a recent auction sale in London at from 70s. to 110s. per load of 50 cubic feet.

#### STOCKS AND PRICES.

The Dickson Company, of Peterborough, Ont., are again operating this winter on the old Scott limits.

The ship Lancing is expected to reach St. John this week to load deals for Melbourne, Australia.

The steamer Manchester City has taken on a quantity of deals and pulp wood at Quebec for the United Kingdom.

The Bonny River Lumber Company have three portable mills operating on their timber limits near Bonny River, N.B.

The Scott Lumber Co., of Fredericton, N.B., expect to take out about 18,000,000 feet of spruce and hemlock timber this winter.

Fownes & White, of St. Martins, N.B., have set up a portable mill on the property of the O'Neill Lumber Company, which they will operate during the winter months.

The Crown Lands Department at Fredericton, N.B., will offer for sale on Wednesday, 25th inst., 3½ square miles of timber limits on the north fork of Coal Branch, Kent county, for which C. C. Stiles is the applicant.

A. Leitch, a large lumber manufacturer of Cranbrook, B.C., states that he is now employing in the neighborhood of 500 men in his operations in the East Kootenay district. The demand for British Columbia

lumber in the North-West, he says, is steadily growing.

Great interest centres in the slack cooerage situation, and the prediction of jobbers that the demoralization in prices would last the year through promises to be more correct. It is almost impossible to quote prices on slack stock.

Wilson & Dorfman have opened two logging camps at French Creek and Courtney, B.C., and about 70 men are now engaged in getting out timber. It is proposed to establish a portable mill near Departure Bay.

Murchie & Sons and Frank Todd, of St. Stephen, N. B., and George McKean and N. H. Murchie, of St. John, N. B., have entered into a partnership to operate during the coming winter on the Hale & Murchie timber limits on the head waters of the Tobique river. They will cut about 6,000,000 feet of logs.

The Department of Indian Affairs at Ottawa are asking for tenders up to Friday, 20th inst., for 500,000 feet of standing spruce timber over 9 inches in diameter at the stump on the Crane River Indian Reserve, on the north-west side of Lake Manitoba. The timber must be cut subject to Crown dues at the rate of 80 cents per thousand feet b. m. Further information may be obtained from S. R. Marlatt, Inspector of Indian Agencies, Portage la Prairie, Man.

It is estimated that 20,000,000 feet of lumber were cut by the mills at Owen Sound, Ont., during the past season, made up as follows: John Harrison & Sons Co., 6,500,000 feet; Maitland, Rixon & Co., 5,000,000 feet; Keenan Bros., 3,000,000 feet; J. S. Findlay, 1,500,000 feet; William Pedwell, 1,000,000 feet, and the balance by the North American Bent Chair Co. Besides the lumber cut at their mills, Keenan Bros. handled over their dock 2,500,000 feet, and John Harrison & Sons about 750,000 feet.

#### TIMBER LIMIT TRANSACTIONS.

The Rat Portage Lumber Company have purchased 1,000 acres of fir timber on the Schelt Peninsula in British Columbia and have established logging camps there.

D. A. Huntley has sold a one-half interest in his timber property at Parrsboro, N. S., to H. W. McKenna and operations will be carried on jointly by them.

The Amherst Lumbering Company, of Amherst, N. S., has been organized and has acquired the valuable timber property of Amos Lawrence & Sons at Southampton, containing about 3,000 acres adjacent to the Springhill and Parrsboro Railway. The company purpose operating two mills for the winter and expect to cut about 3,000,000 feet of lumber.

#### BUSINESS NOTES.

The Menford Manufacturing Company, of Menford, Ont., have their new factory in partial operation. It is a three-story building 200 x 75 feet. They are turning out a large quantity of furniture, including tables, sideboards, bedroom suites and desks.

The Cedar Valley Lumber Company, operating in the Kootenay lumber district of British Columbia, are said to have placed their assets in the hands of an assignee. The Carbon Creek Lumber Company, of East Kootenay, B.C., is also reported to be in the hands of liquidators.

The Seaman-Kent Manufacturing Company expect to have their new plant at Menford, Ont., fully completed at an early date. Their factory is 180 x 255 feet and is equipped with one of the largest single dry kilns in Canada. The company are at present manufacturing hardwood flooring, store fittings, interior finish, door and window cashes, screer frames, tripods and photo finishing frames.

A meeting of the creditors of James Harrison, lumber merchant, Burlington, Ont., was held last week. Mr. Harrison asked for an extension of from six to nine months. He figured that his liabilities totalled up to \$13,028, and his assets \$16,275, and thought that if given time he could pay 100 cents on the dollar. The assignee estimated the assets at \$1,000 less than did Mr. Harrison. The creditors appointed James Cushman, Cameron Bartlett and C. A. Birge as inspectors, and empowered them to grant the extension asked for if they considered it advisable to do so; if not, they may wind up the estate at once.

#### TO HOLDERS OF BIRCH LIMITS

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small hand saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

Address: Price 35 Cents

The Canada Lumberman TORONTO, ONT.

**COOPERAGE STOCK.**

The cooperage stock situation at the present time, says the Sutherland-Innes Company, of Chatham, Ont., is in a very unsatisfactory condition, both from the view of the manufacturer and the cooper. The demand for stock far exceeds the supply, and manufacturers are at their wit's end to know how they can keep their regular customers going. What stock has been manufactured this summer has been turned out at very great expense. In the first place, raw material is costing more than it ever did before. The labor question has been a very serious one, and wages have advanced from 50 to 75 per cent., and even at the advanced rates very of the mills who had logs to work on or few staves to joint could get their goods turned out. It has possibly been one of the most trying years for the manufacturers, on this account, that they have ever experienced, as they have had to turn down orders from old and valued customers,

irrespective of prices. The situation is almost universal, and is not confined to any one locality.

Mills nearly all over the country are absolutely bare of stock. The supply of logs put in last winter was very small—not 25 per cent. of what is usually put in—and in a great many instances the logs which were cut in the winter, and were not able to be hauled during the short winter, are still lying in the woods, as it has been impossible to do any summer lumbering in most localities. There is no doubt but that some of the coopers will suffer during the winter for lack of stock. Apple barrel buyers have already had a hard time to get their supplies, and, where possible, have obtained boxes to pack their apples in when they could not get barrels. In instances where contracts were made for apple barrels at 35 cents by the coopers, and the coopers could not get their stock, the apple packers have generously come to the help of the coopers and raised their prices up to 40 and 50 cents per barrel, to enable them to bring stock in from a long distance and at very high prices.

It is too early yet to figure on the supply of material for this winter. Timber, of course, is getting scarcer all the time, and it will require an abnormally good winter to enable the mills to stock up as they would like. There will be practically no stock of any kind carried over a year.

Everything in the way of staves or heading will certainly be cleaned out, and few, if any, hoops will be carried over. We look for very high prices of stock for the next six months. In fact, it will be difficult for coopers to get the stock they require.
