FEDERAL INQUIRY INTO DEAL OF GRAND TRUNK

Representatives of Massachusetts and Rhode Island Utilities Boards Press Complaint at Washington and Criminal Prosecution of Railway May Follow.

WASHINGTON, Nov. 19.—(Can. Press.)—Vigorous investigation by the federal government of the reported traffic arrangement between the Grand Trunk Railway of Canada and the New York, New Haven & Hartford Railroad, which New England state officials fear will destroy fair competition in that section, was promised today by Attorney-General Wickersham to representatives of the governors of Massachusetts and Rhode Island.

Members of the Massachusetts Railroad Commission and the Rhode Island Utilities Commission, speaking for the governors of these states, appeared to President Taft today for federal interest under the Sherman anti-trust law to check the alleged deal and prevent any monopolization of the railroad facilities of New England. It was alleged that the Grand Trunk had abandoned its proposed extension in southern New England in consideration of trackage privileges from the New Haven.

President Taft turned the delegation over to Attorney-General Wickersham, who, bombarded by numerous articles from New England, already had instituted an enquiry to ascertain the facts.

Criminal Prosecution? Mr. Wickersham is looking at the situation entirely from the standpoint of the Sherman law, and if a move is made by the government to check the deal under that statute and not the Interstate Commerce Act, it has not yet been decided whether the government would institute a criminal prosecution or a civil suit seeking injunctions against the reported agreement.

The New England officials will consider further with the department of justice officials tomorrow. The delegation consists of Chairman F. J. Wetherill and George W. Bishop of the Massachusetts Railroad Commission and Chairman C. H. Ross, Samuel J. Hudson and Robert F. Ross of the Rhode Island Utilities Commission.

CANADIANS MUST HAVE UNIFORM MARRIAGE LAW DR. HINCKS' ASSERTION

Protestants Are Absolutely United and Government Cannot Refuse Demand Without Loss of Office, He Declares at Big Protest Meeting in London—Strong Resolution Carried.

LONDON, Nov. 19.—(C. A. P.)—Great enthusiasm attended the opening meeting of the campaign of protest against the no tamer decree by the World's Evangelical Alliance this evening. The vast new central hall of Westminster was taxed to the utmost capacity. The chair was occupied by Right Hon. Lord Kinnaird, supported by Dr. Hincks, Toronto; Dr. Montgomery, Presbyterian moderator in Ireland; Rev. Chancelor O'Connor, Christ Church Cathedral, Dublin; Rev. Webb Peeples, Sir Robert Perks, Sir Robert Anderson, Rev. Fuller Gough, and Rev. Dr. Hincks, whose address was awaited with special interest.

Dr. Hincks said that Canada's Protestants were absolutely unanimous against the decree. After the citation of several instances of hardship arising out of the operation of the marriage laws in Quebec, Ontario and Manitoba.

Government Can't Refuse. No government could refuse a united request. No political party in Canada could survive six months which openly endorsed this infamous decree, yet today Romanism on the banks of the St. Lawrence was stronger than on the banks of the Tiber in Italy, he said.

Rev. Dr. Hincks afterwards showed that the main reason of the objection of the German emperor to the papal decree was that he had the same problem for Germany which the Dominion had, namely, the unifying of differing

sects and to a certain extent different races. His appeal to the audience was received with the greatest enthusiasm, the resolution being carried unanimously.

Appeal to Parliament. Sir Robert Perks, who followed Dr. Hincks, proposed the following resolution, which was adopted: "That as his majesty's government has taken no action to protect the civil and religious rights of his majesty's subjects who contract legal marriages, the meeting calls upon the imperial parliament to take steps to give the necessary relief to those who, while lawfully married, are subjected to suffering in consequence of the terms of the decree no tamer."

MOOSE JAW, Sask., Nov. 19.—(Can. Press.)—Wild rumors spread through the city this morning to the effect that 18 people had been killed in a wreck on the C.P.R. at Rush Lake. Officials of the company admitted that such information had been received from Swift Current, but tonight it was learned that, apart from damage to rolling stock, eight Chinamen and two of their guards had been injured on a Chinese extra running east, and all were taken to the hospital at Swift Current.

Like Becker, the gunman heard the verdict pronounced against them without a show of emotion. Remanded to their cells in the Tombs until tomorrow morning when Justice Goff will sit the day for imposing sentence, they turned and fled out of the courtroom with as firm a step as when they had entered. "Whitey" Lewis, who was the witness in the case, stood alone walked with head bowed.

As they entered the door leading over the Bridge of Sighs, "Gyp's" wife, who was the witness in the case, stood alone walked with head bowed.

C.P.R. Embargo on Grain?

WINNIPEG, Nov. 19.—(Can. Press.)—Following the announcement of an embargo on grain, comes the report from all over the country that on Friday last the C. P. R. issued a general order to its agents practically placing an embargo on all grain.

GUNMEN FOUND GUILTY OF MURDER

Jury Required but Twenty Minutes to Reach Verdict Sending Quartet to Electric Chair—Justice Goff Pointed Out Fatal Discrepancies in Testimony of Accused.

NEW YORK, Nov. 19.—(Can. Press.)—"Gyp the Blood," "Lefty Louis," "Dago Frank" and "Whitey" Lewis killed Herman Rosenthal, the gambler, at the instigation of Charles Becker, and like him must pay the penalty of death in the electric chair. The jury which has been hearing the evidence against the four gunmen so decided today when it returned against them a verdict of murder in the first degree after but twenty minutes of deliberation.

Like Becker, the gunman heard the verdict pronounced against them without a show of emotion. Remanded to their cells in the Tombs until tomorrow morning when Justice Goff will sit the day for imposing sentence, they turned and fled out of the courtroom with as firm a step as when they had entered. "Whitey" Lewis, who was the witness in the case, stood alone walked with head bowed.

As they entered the door leading over the Bridge of Sighs, "Gyp's" wife, who was the witness in the case, stood alone walked with head bowed.

TURKEY MAY ACCEPT ALLIES' TERMS AND SURRENDER FOUR LARGE CITIES

Battle Now Raging May Be Ended at Any Moment—Western Army Has Been Completely Defeated, But Good Fighting Men Are Still Available With Food and Ammunition.

LONDON, Nov. 19.—(Can. Press.)—The report that an armistice had been agreed to by the Bulgarians and Turks along the Tebatatja lines for the burial of the dead appears to have been unfounded. Despatches from Nazim Pasha, the Turkish commander-in-chief, show that the artillery duel continued throughout the day.

The Turks claim successes against the Bulgarians, but there is nothing to indicate that the Bulgarians have yet made any serious attempt to penetrate the lines. The battle may be ended at any moment by Turkey accepting the allies' terms for an armistice, which are said to include the surrender of the Tebatatja lines, Adrianople, Durazzo and Scutari.

There is a possibility, however, that Turkey may decline to surrender Tebatatja. While her western army has been completely defeated, she still possesses, according to the correspondents at the front, a homogeneous army behind the Tebatatja fortifications, largely composed of some of her best fighting material from the Asiatic provinces, which has not yet been in action. Moreover, the demoralization and disorganization which followed the Kirk Killiseh and Lulu Burgas retreats appear to have been remedied and the army is now well supplied with food and ammunition.

A Further Strand. Under these circumstances the Porte may be induced to make a further stand in the hope of securing easier peace conditions. Evidently Bulgaria has brought up all her available forces to attack Tebatatja, including some of the Serbian troops, but the task of crushing the Turkish defence may

MURRAY-KAY COMPANY OFFERS HALF MILLION FOR YONGE ST. BLOCK

Land Between McGill and Ann Streets on East Side, Now Held by Syndicate, May Change Hands at \$3000 a Foot for Another Large Uptown Store.

From one of the members of the syndicate that eighteen months or so ago bought the blockfront on the east side of Yonge between McGill and Ann streets, The World hears that when G. T. Somers, the head of the syndicate, returns next Monday, an offer from the Murray-Kay Company for its purchase may be considered. The offer is said to be \$500,000.

The blockfront, which formerly was held in three pieces by the Sheard family, had 167 feet on Yonge street and a depth of 103, including a lane. The price mentioned therefore is \$3000 a foot, which is about the selling price of properties, relatively, of course, according to location, in the Carlton zone. Ann street is the first below Carlton, and this blockfront is the nearest one to Carlton street purchasable.

There are fifteen stores in the property, besides a score of upstairs tenants, but they all have leases terminable on short notice. The numbers run from 417 to 429. The buildings, which are not expected to figure in the sale price, are three and four storeys.

EATON STABLES ON TERAULAY ST.

Land at Corner of Buchanan Will Be Purchased for \$150,000 and Buildings Are Half Finished.

Stables to accommodate their delivery horses, with space also for their motor trucks, are being built by the T. Eaton Company at the southeast corner of Teraulay and Buchanan sts., on the land formerly occupied by the Thompson Coffin factory.

Purdy, Mansell, Limited, gave an option of purchase at \$150,000 to the Eaton Company, and this option had until next January to run, but it is said that it has been taken up. The vendors, who have a place now at 61 and 63 Albert street, bought the Teraulay property at \$87,000 when the Federal square scheme was first mooted, fearing that they would have to remove at once. The Teraulay street frontage is 160 feet and there is about the same on Buchanan st. A few small frame houses are also included in the transaction.

BURNED IN SAVING HER CHILDREN

Mrs. Annie Shaw May Die as Result of Injuries Following Explosion of a Lamp.

Mrs. Annie Shaw, aged 28, 381 St. Clarendon avenue, was badly burned when a lamp exploded at her home about 10:45 last night; the doctors out much hope for her recovery. In attempting to beat out the flames, Douglas Shaw, her husband, had his hands severely burned and was forced to have them treated at the hospital.

One of the children was playing at the table and pulled on the cloth. The lamp was knocked over, causing it to explode. The table immediately took fire and the children were in grave danger.

Mrs. Shaw rushed to their aid but the flames caught her clothes. The husband heard her screams. He tried to extinguish the fire with his hands, and by using a rug he finally succeeded in putting out the fire. Mrs. Shaw was taken to the Western Hospital in the police ambulance. When examined there she was found to be terribly burned about the face, neck, chest and hands.

H. S. MARA DIED SUDDENLY FROM HEART TROUBLE

Prominent Real Estate Man in Business in Toronto For Forty Years, Complained of Illness Yesterday Morning and Passed Away at 8 o'Clock Last Night.

H. S. Mara, one of the most prominent real estate men in Toronto, died suddenly last evening at his home, 10 Chestnut Park road, following a sudden attack of heart trouble.

Mr. Mara was out riding on Saturday afternoon and was in the best of health all day Sunday. On Monday evening he complained of feeling ill, and yesterday morning walked to the office of Dr. W. P. Caven. He was advised to return home and rest, and did so, going to bed for the day. Later in the day he grew worse, and Dr. Caven and Dr. Anderson were called in consultation. Mr. Mara sank gradually until he died, shortly before eight o'clock. The funeral arrangements have not yet been made.

Mr. Mara was 62 years of age. He was born in St. Mary's and came to Toronto when a young man. For forty years he was engaged in the real estate business, his office being at 10 East Adelaide st. He is survived by a widow and two daughters, Mrs. L. S. McMurray of Toronto and Mrs. Theodore Weismayer of Stuttgart, Germany, who at present is visiting at her home.

Mr. Mara was a well-known horseman and golf expert. He was a member of the Toronto Hunt Club, Lambton and Rosedale Golf Clubs and the Ontario Club.

CODERRE PILES HUGE MAJORITY

Leads Nationalist-Labor Opponent, Who Loses Deposit by More Than 2200.

MONTREAL, Nov. 19.—(Can. Press.)—Hon. Louis Coderre, the recently-appointed secretary of state of the Borden Government, was returned by his constituency today with the decisive majority of 2206 over his opponent, Louis Doyon, the choice of the Nationalist-Labor combine. In fact, the measure was the support given to the opponent of the Borden gavel policy that his cash deposit was sacrificed, he having failed by ninety votes to poll the necessary minimum.

Of the total vote polled in the constituency of Hochelaga, Mr. Coderre received 4222, while Doyon was let down with 2016.

In every ward of the constituency Mr. Coderre received a comfortable majority, that in Westmount being little less than a positive landslide. Coderre getting 1453 to Doyon's 55.

When last Mr. Coderre stood for election in Hochelaga, he was opposed by L. A. Rivet, and at that time was elected with a majority of 1862 over his Liberal opponent.

French-Canadians Vindicated. "The result shows, beyond a doubt, that French-Canadians are ready to stand shoulder to shoulder with Canadians of other extraction in defence of the rights of Canada and the Empire. It shows that they realize that all Canadians must work in concord and harmony in order to develop to the full the wonderful possibilities of this great country. It shows that French-Canadians feel to the full that all their most cherished rights are wrapped up in the maintenance of the British Empire in its present condition; for the day that the British flag falls in battle will be the one on which the rights of Canadians—and French-Canadians—will be most imperilled."

In these words did Hon. Louis Coderre express himself concerning the result of today's polling. He addressed several gatherings early in the evening, when the extent of his overwhelming victory was known, and his touring the various portions of his riding was a veritable triumphal march.

LABOR PARTY NOT FAVORED

Gompers and Conservative Element in A. F. of L. Oppose Radical Move Proposed.

ROCHESTER, N.Y., Nov. 19.—(Can. Press.)—An all-day discussion of the Sherman anti-trust law, as interpreted in the Debury Hatters case today, prevented consideration by the American Federation of Labor convention of the minority report by the committee on education, favoring the adoption of industrial unionism. Discussion on the Sherman law was ended at 5 o'clock, and the question of taking steps to encourage its amendment was referred back to the committee on the president's report, which will make a recommendation later in the week. By a special order of business, discussion of industrial unionism was set to follow the Sherman law discussion and will be taken up tomorrow morning. All-day speakers arraigned the law as a menace to the rights of workers to associate for purposes of common interest. On this point there was agreement, but difference of opinion arose as to the best means to combat the law. Members of the radical wing of the convention argued for political action thru a party organized in the workers' interests as the only means. President Gompers and other members of the conservative wing held that the remedy lay in the election of labor men of whatever political affiliation to congress and agitation against the law by time-worn union methods. Whatever means is employed, it was the convention's sentiment that the law must, the words of President Gompers, be amended or ended.

MOORE PARK JOINS TORONTO BY ORDER OF RAILWAY BOARD

No Opposition Was Offered When the Application Was Made and Annexation Takes Effect on Dec. 16— This Year's Taxes Go to Township.

On Dec. 16 the Montenegro-like district of Moore Park, lying between the old northern limit of the city and Mount Pleasant Cemetery, will come into the corporation of the City of Toronto by way of the Ontario Railway and Municipal Board route. The order for annexation was issued by the board yesterday afternoon, and by the book the whole matter took exactly thirty minutes. Only a few weeks have passed since North Toronto was annexed by the same method, and the Moore Park followed her very closely, the northern municipality will join Moore Park into the arms of the city by one day. Dec. 15 is the day in which North Toronto sheds her old skin, and the board's decision to the 16th as Moore Park's date was by no means nearly an accident.

The little room in which the board met was crowded to the door when the application was made and the order was issued. Representing the annexationists James S. Fullerton, K.C., and E. D. Hume presented a petition signed by 125 of the 195 ratepayers living in the district. Many of the petitioners, he thought that their signatures might not be enough, and they eagerly appeared in person to press their claims. On the other hand, there was absolutely no opposition to the petition, unless you take notice of the township of York. J. R. L. Starr, K.C., represented the township, and all he asked for was that all the 1912 taxes should go to the township. His request was granted. William Pugsley of the York county council was an interested spectator.

Needless to say City Solicitor Johnson, who handled the case for the city, offered no objection to the petition. He did object, however, to the petition of Mr. Mercer, a Moore Park ratepayer, asking the board to grant him a fixed assessment of \$25,000 for five years on his property of five acres in Moore Park. Mr. Bradford, who represented Mr. Mercer, said that his client had gone to an enormous expense in putting in his own water and electric light systems, and on this account annexation would be of no benefit to him. The board considered that it had not sufficient authority to order annexation and compel the city to comply with Mr. Mercer's request, so the application was refused, and Mr. Mercer will have to defend his interests before the city council. The township assessment on the property is \$20,000.

Altho the order will be for annexation without conditions, Moore Park people feel jubilant over the decision of the board. For years the ratepayers in the Moore Park district have been squabbling with the York Township council for the expenditure in the district of a larger share of the taxes paid by the residents. They have asked for sidewalks, roadways and bridges. They have asked for school houses. And they have asked for representatives in the council. Now they are cut loose and they are happy.

Maniac's Big Infernal Machine Imperiled Hundreds of Lives

Courts Adjourned and Prisoners Removed While Los Angeles Police Were Held at Bay More Than an Hour— Demented Man Finally Clubbed and Sizzling Fuse Stamped Out.

LOS ANGELES, Nov. 19.—(Can. Press.)—Armed with an infernal machine containing enough dynamite to destroy an entire city block, a bottle of nitro-glycerine and a 45 calibre revolver, a masked maniac took possession of the central police station today and held it for more than an hour, while hundreds of occupants of the buildings and those for blocks around the place, in panic, sought safety in distance.

When Detective James Hosick knocked the man unconscious with a leather "billy," after slipping up behind him, the fuse of the infernal machine was automatically ignited, but Detective Samuel L. Brown grabbed the box, with its fuse sharply spluttering and hurried it into the street.

Sticks of high power dynamite scattered over the pavement, while hundreds of spectators stood apparently paralyzed with fright. Thru a freak of chance there was no explosion, and Brown continued kicking the sticks of dynamite, and jumping on the fuse until he had broken the connection and extinguished the fire.

Adjourned Courts.
The man, who gave his name as Albert Henry Davis, asked, on entering, that the highest official of the Southern Pacific Railway be sent for, so that he might blow him into sterner. "This is no joke," said Davis, "and

if you don't believe me, try to take this away from me. My hand is fastened in this box, and if I pull it out—bang—we all die."

A hole had been cut in the box and the occupants of the room saw for the first time that the man's left hand was hidden in the box.

Realizing that the situation was serious, police officials pretended to call up the desired official by phone.

In the meantime Chief Sebastian ordered the street roped off for a block either way, and steps to have the 100 prisoners in the city jail removed. Upstairs in the building two justice courts were in session, and both court rooms were crowded.

A detective passed the word to a bailiff in Judge Chambers' court, where a Japanese was having a preliminary examination on a murder charge before a crowd of his countrymen. The bailiff whispered to the judge.

"Court's adjourned until 2 p.m. Clear the courtroom," ordered the judge promptly, and there was a rush for the stairway. A similar scene was enacted in Justice Frederickson's court.

There were not enough patrol wagons to remove the prisoners from the jail to the Doyle Heights Prison, and two street cars were sent for.

At the receiving hospital Davis said tonight he "guessed" the fuse was too long, which was the reason there was no explosion. He said he was born in Germany, was 34 years old and had lived in this country 15 years. He admitted that Davis was not his right name, and finally declined to talk about his past.

A Toronto For a Million People.

The above map shows the New Toronto after the Moore Park annexation of yesterday and the recent annexation of North Toronto. It shows a city extending seven miles up Yonge street from the water front to Mason avenue on Yonge street, this side of York Mills. It shows a city ten miles across on Bloor-Danforth. The World takes the population of the new city to be at least half a million people, and it now includes North Toronto, East Toronto and West Toronto, all of which were progressive towns. It leaves no other municipality in the Township of York, with the exception of the Village of Weston.

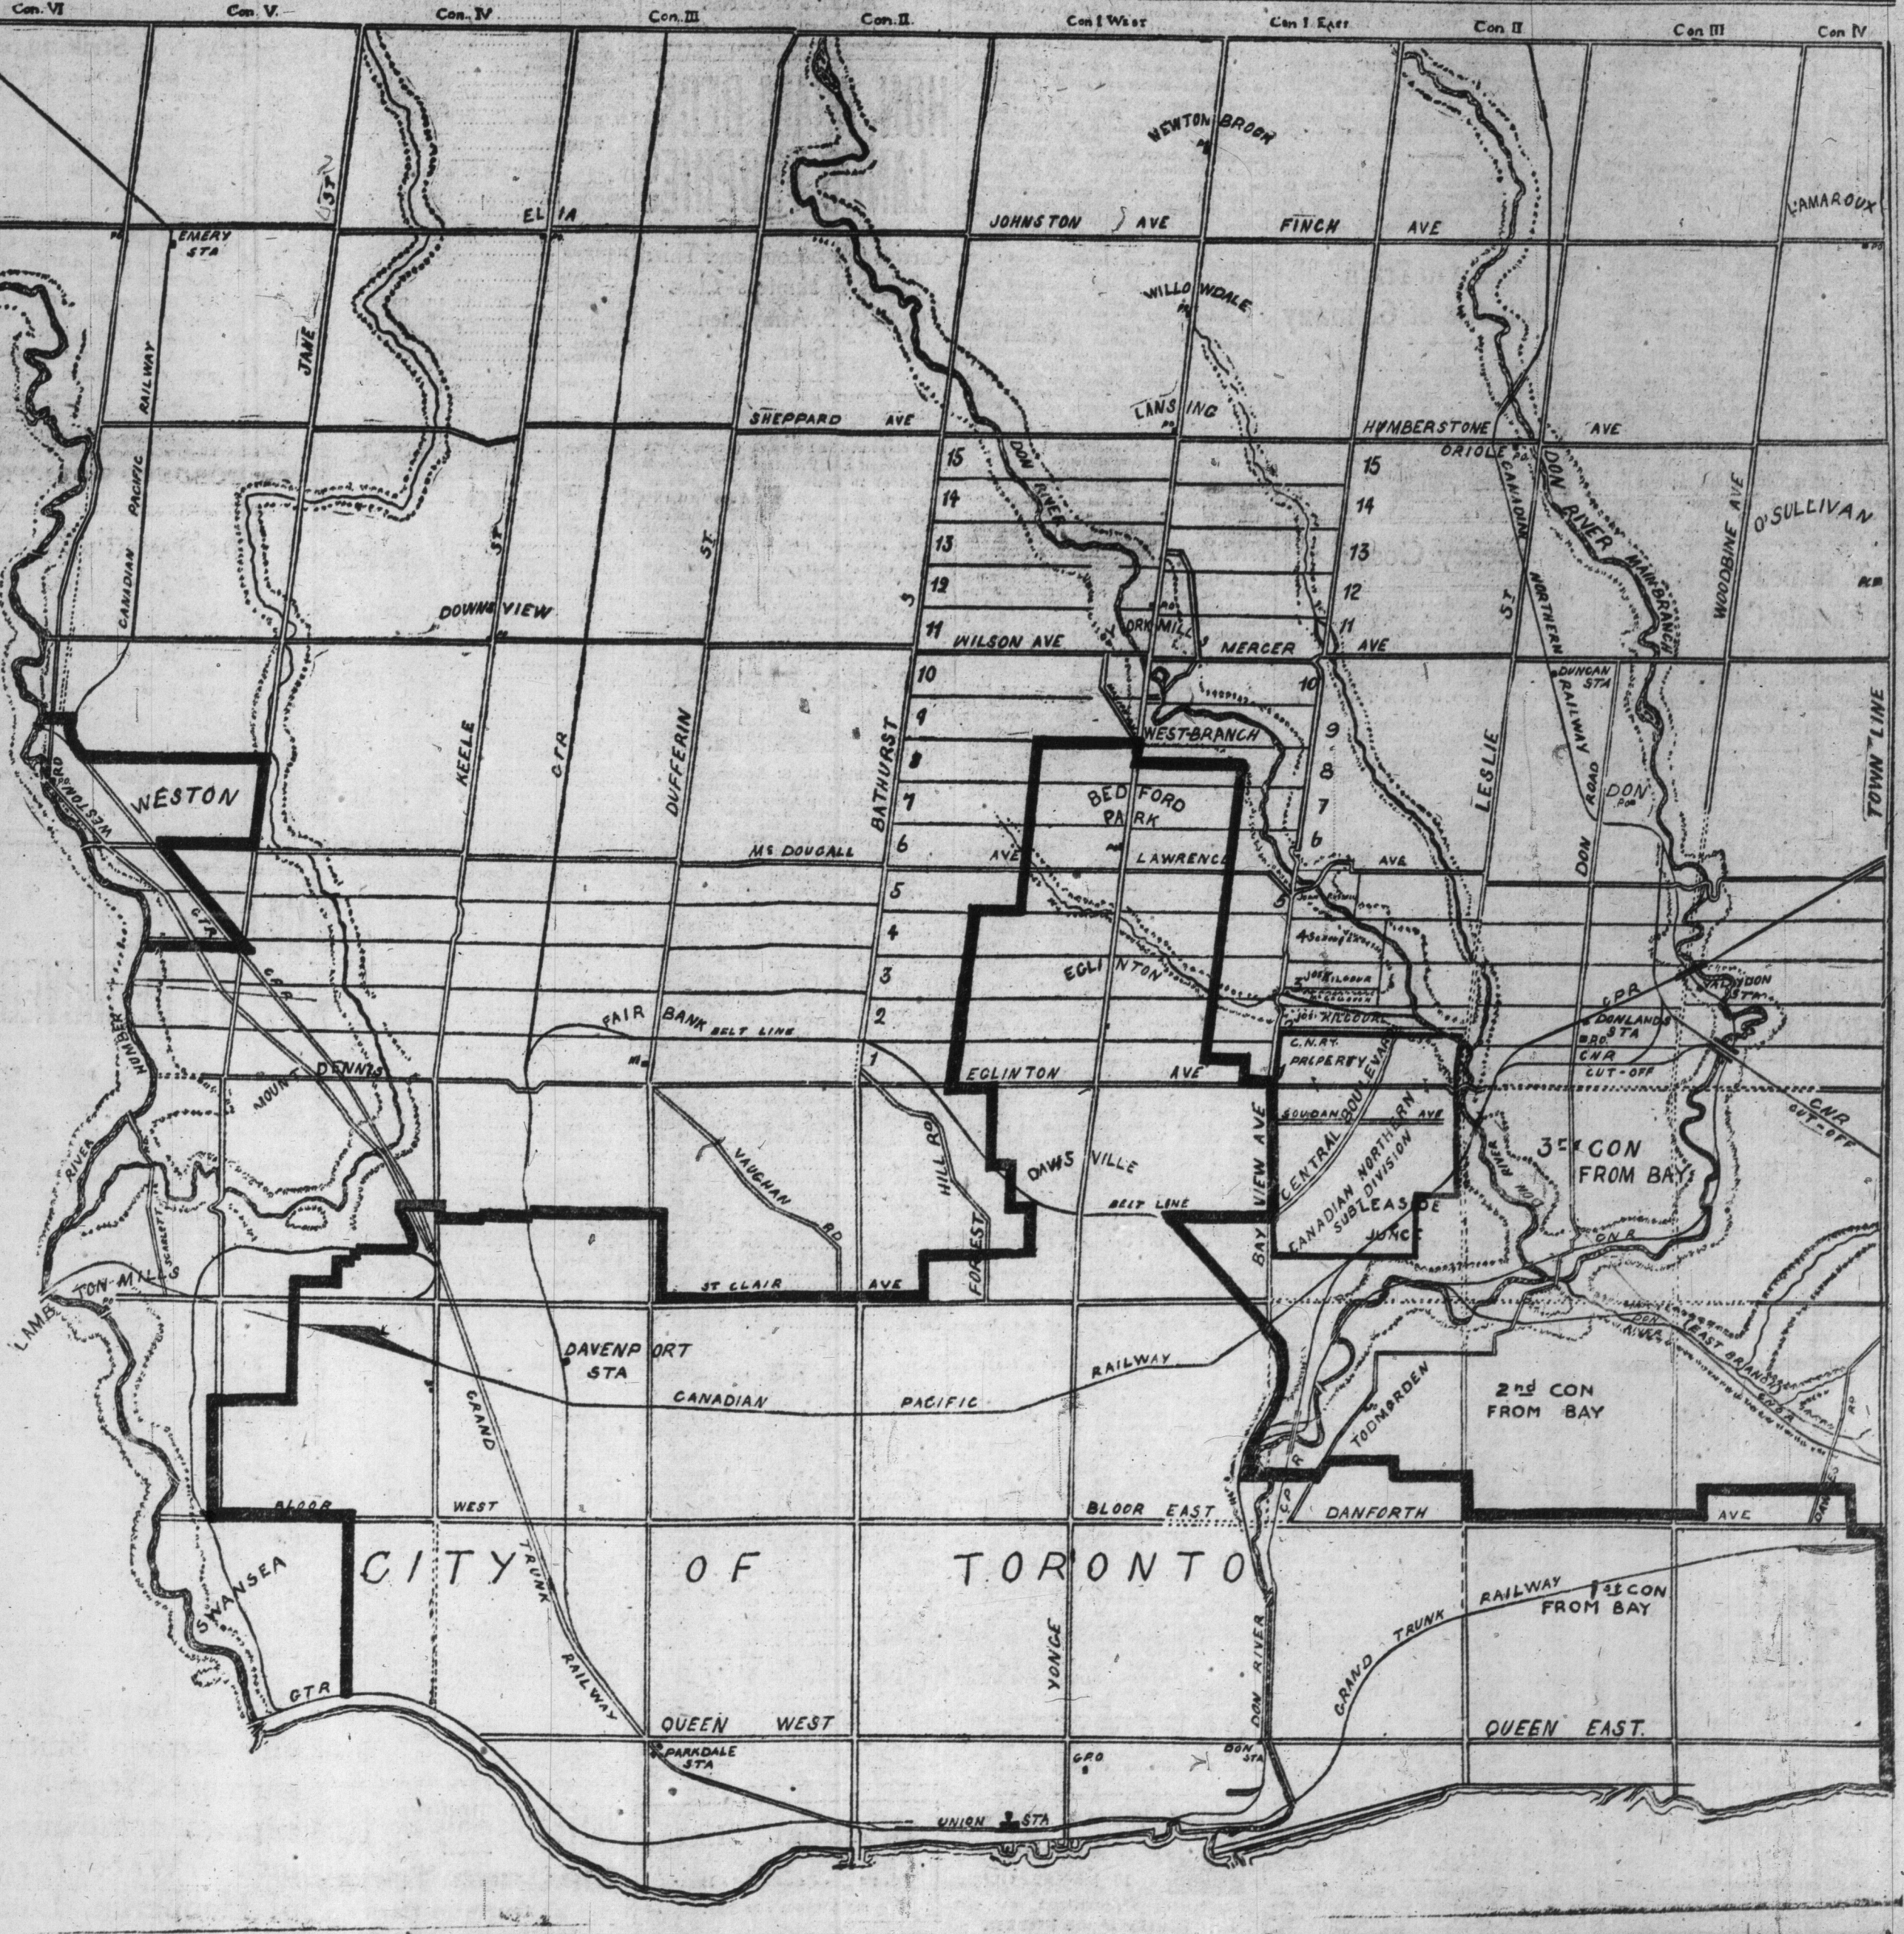

The map also shows the main physical features of the township, and especially the relation its topography will have to any future annexations. The key to Toronto's expansion is the series of Don ravines. Cast your eye over the map and you will see that the next northern and eastern boundary will be the West Don from York Mills on Yonge street southeasterly to Leslie street, down Leslie street to St. Clair avenue, along St. Clair avenue to the Canadian Northern's Ottawa line, in the valley of what is properly called the East Don or Massey Creek, and by that railway to the townline. This boundary will take in the new subdivision of Leaside, which is marked in black lines on the map, and which we believe is ready to come in and assume its full burden of city government.

The next northern boundary to the west ought to begin a quarter of a mile north of Eglinton avenue and run westerly to the Humber along the north boundary of all lots numbered one in the five concessions west of Yonge street. This gives the city both sides of Eglinton avenue.

These are the two boundaries that will square off the city in accordance with its physical configuration and the march of subdivision as well.

We intend later on to give a series of cuts illustrative of proposed extensions now more or less talked of. We will illustrate in this way any suggestions made to us or presented to the council.

Toronto must at once face a water-works extension bylaw of eight million dollars, and if we must face it, we ought to ask the extra territory to be benefited by that expenditure to come in and assume its share. A clear-the-air expansion policy that will include a city of a million people is the next step. "Toronto is to be one of the great cities of the world," said Sir Thomas D'Arcy, when he was here the other day!

Toronto-Airt Game Ordered to Be Replayed by the O.R.F.U.

Executive Upholds Torontos Alerts May Default Game

Saturday's Game Ordered Replayed, But Hamilton Team Have Another Engagement and the Torontos May Win Without Even a Struggle.

After several strenuous hours of debating and hearing of evidence on both sides of the case, the O.R.F.U. executive last night ordered Saturday's game between Alerts and Torontos to be replayed. The date set for the replay is Saturday next, but it looks as if Torontos will walk into the championship by default.

The Alerts representatives at the meeting last night stated that they have a game with Hamilton Tigers arranged for Saturday for Hamilton city honors, and as tickets have been sold for this encounter, they will fulfill their engagement, and will default their game to Torontos.

It was again a case of two different versions being taken of the Canadian Rugby rules, and both sides presented a strong case on their reading of the rule in reference to the protest. It was a lengthy session for the executive before they arrived at their decision.

Referee Ben Simpson appeared before the committee and stated that he made no mistake about blowing his whistle. According to Simpson, the ball was kicked to a Toronto back, and he fumbled, and as he was given no yards, the whistle was blown, but Smith captured the ball after play should have been stopped and went the length of the field practically unopposed, going over for a touch.

Other evidence was given to the effect that several Alerts men tried to get Smith, but failed. Umpire Pud Kenner agreed, but thought that Smith had the ball before the whistle was blown.

If Alerts keep their engagement with Tigers on Saturday, it will mean the championship for Torontos in the final one week from Saturday.

By defeating Chicago Wisconsin virtually won the football championship of the western conference and needs only to defeat Minnesota to clinch the title. However, a defeat at the hands of Illinois would not materially affect Wisconsin's claim, because the Gophers were defeated earlier in the season by South Dakota and have shown little real power in the other games. This year will be the first since Pat O'Rourke's time, that Wisconsin has won the championship in the west. Despite the denials that the Badgers would play a game with Harvard or Yale should the latter win the eastern championship, there seems to be a strong undertone to the effect that both Wisconsin students and alumni that such a game should be played. In the last sixteen years Wisconsin has won seven games from and lost nine to Chicago. One was a tie and in two years there were no scores.

Joe McGinnity Owns Tacoma Club of the Northwestern League

Joe McGinnity is now a full-fledged club owner once more. He returned to Newark from the annual meeting of professional baseball clubs in Milwaukee and brought with him the majority stock of the Tacoma (Washington) Club. McGinnity, associated with his brother-in-law, Frank Redpath, in the venture. The club is in the Northwestern League. McGinnity will be manager and also will take his turn in the box.

Harry Wolverton, former leader of the New York Highlanders, will manage the Tacoma club. He has many years of league experience. Wolverton did not have a chance to secure his old place as manager of the Oakland Club, for the job was handed to Merts, a catcher on that team, several days ago, after the information that he did not become known until yesterday.

The Boston Nationals will not retain Arthur Devlin, the former Giant, next season. Manager Stallings has decided to play Ross at third base, which will leave no room for Devlin. The Boston Club has appointed to look around for a new berth and the veteran is trying to secure the management of some minor league club. It is rumored that he may be able to land with either the Newark or Jersey City team.

Hugh Jennings, the Detroit's manager, says that the Tigers will be greatly strengthened this year. He has many new players to be tried in the spring, and also will have the veterans Cobb, Crawford, Bush, Stange and Dary Jones as a nucleus.

King Cole, the pitcher traded by the Cubs to the Pirates and recently sold to Chicago, Cole says he has received full control and will make a record with the razor and shears.

EATONS DECIDE TO POP O.I.N.

Champions Will Stick to Store League -- House League Organizes -- Hockey Gossip.

At the weekly meeting of the board of directors of the Eaton A.A. the question of the new rules of the O.H.A. affecting their entry was mentioned by the secretary, W. J. Smith. The board decided to withdraw their entry and give their support to the House League, which is composed of about 24 teams. The president congratulated the secretary on the stand he had taken at the O.H.A. meeting, the points he had taken re-appearing at the association under different name being especially commended. The association was instituted solely for the benefit and recreation of the employees, and the board felt that all their efforts should be directed more to the House League in the future.

The annual meeting of the Eaton A.A. House Hockey League was held in the waiting room, third floor store, last night, and was well attended. This league was composed of nineteen teams and the championship was won by the Mad Caps. It was decided by the league this year be divided into two sections--senior and junior. The senior series will be composed of the six strongest departmental teams in the house. The list of players comprises a large number of the best known hockey players in town, many of last year's O.H.A. men being in line. The junior series will be composed of about eighteen teams, and will give a great opportunity to the players to hone their skills. Get Into Training For Hockey

The "Cyclo" Punching Platform Is Swift and Noiseless

THE CYCLO PUNCHING BAG PLATFORM is a favorite for home exercise because it is none of that excessive noise usual with such apparatus. The reason for this is that the wheel disc is equally braced and rigid, and has no direct brace to the wall, the disc is of highly polished hardwood, and the metal parts are of bright aluminum or nickel. The arm extending to the wall is tubular, with thread connections, so wheel disc can be taken down and used for ten other exercises. The Cyclo Platforms are priced at \$5.50 and \$7.50.

Hockey Gossip

Frank Patrick, the coast hockey magnate, and the one and only Sammy Lichtenhein, baseball magnate, owner of the Hawks and the Stars of the N.H.A., are having a merry battle thru the mail. Lichtenhein wrote a nice little letter to Patrick telling him just what he thought of him, and below is given Patrick's reply.

Sam Lichtenhein, President Wanderers' Hockey Club, Montreal, Que.:
Dear Sir--Your amusing and incoherent epistle to hand. It would take Philadelphia lawyer to decipher just what ideas your words are meant to convey, from the way you would have me understand your future. However, it seems to me that you would rather be a fool than a winner. Your dignity by insisting that you are a hockey player, and sending to run the National Hockey Association.

Before attempting to reply to your rambling, allow me to say that, on the face of things, it looks very much that way. The fact that you have signed two players whom your league has declared outlawed, thereby assuming over them a liability before the league has sanctioned this policy, indicates the confidence you had in your ability to control the policy of your league.

Be enamored with your league, you seem to have only a vague idea of the meaning of the word amalgamate. The question of amalgamating with your league has never been under discussion. Your statement that we made a proposition to your league to amalgamate is not only untrue, but is ridiculous in the extreme. Also your statement that I suggested to President Quinn in my letter to him that we should be allowed to pay players \$400 over any club in the N.H.A., is absolutely false, and you had any business brains you would have ready a statement and sending it to the press over your signature.

As a hockey commissioner, I wish to state that your league made repeated overtures to us thru President Quinn to enter into some kind of a working agreement with your league. Feeling that it might be of benefit to the game in general if we were to do so, we intimated our willingness to help form some kind of a commission to govern hockey in Canada. Even now, while President Quinn is endeavoring by wire to arrange this working agreement, we are not seeking cheap publicity, and are not seeking cheap advertising. I do not wish to continue this controversy thru the press. Furthermore, my representative that I have made I am quite prepared to back up.

Evidently you have argued yourself into believing that you have been ill-used, but instead of having a good cry, like a spoiled child would, you immediately rush into print to accuse your feelings. I am giving the above to the press, which no doubt will meet with your approval.

CATTLE PENS TO BE MOVED

Dr. Orr reported to the board of control yesterday morning that it will cost \$14,000 to move the cattle pens at the exhibition grounds from their present site to the north side of the garrison commons. He opined that if the work were done by the works department, day labor it would cost less than that. The board recommended that the work be done as Dr. Orr asked.

LANDMARKS OF THE FAMILY COMPACT

Last Municipal Day, the city council, as requested by the citizens of Toronto, submitted three bylaws to the electors: (1) As to annexation of North Toronto: the citizens thought that the city should be enlarged, and that if North Toronto were taken in more land would be available and a single street car fare would take the place of two, as at present, to reach any place north of the C.P.R. tracks, only three miles up the street. Citizens get ten miles on Queen street for one fare. Why not on Yonge? (2) Also a money bylaw for building a tube from the foot of Bay street to the Yonge street crossing up-town. (3) Also a money bylaw to build the Bloor street viaduct in order to let the public reach by single fare where cheap land is available for house building. But these bylaws were only submitted to citizens such as were property owners. Thousands of taxpayers, who are not property owners and who desired these three things were by the existing law denied any vote on questions of such vital importance to them.

And all the bylaws were beaten! The most vigorous opponent of all the bylaws was the traction and the electric interests represented by ex-Mayor Fleming, who left the office of assessment commissioner to take charge of these interests. Mr. Fleming is a good servant of his employers, and we respect him for his loyalty. But with Mr. Fleming were The Globe and The Telegram newspapers, both professed friends of the people. They not only attacked these three bylaws, but now that the citizens who pay the taxes ask to have the right to vote on such bylaws, they deny this right and say that no taxpayer renter should vote on money bylaws. And they'll keep on fighting the people's wishes for tubes and viaduct.

Our contention is that the man who pays the taxes ought to have a vote on these bylaws, because the most careful man in regard to the imposition of taxes must, as a matter of fact, be the man who pays them. He can never get away from it. The owner of land can, and does, put the taxes on the tenant. But the taxpayer who is the tenant is there all the time. If he moves he goes where he is taxed and the man that follows him is taxed. And we come back to the old question of no taxes without representation: in this case representation means votes on bylaws. For some weeks now The World has presented The Globe and The Telegram newspapers as papers that do not believe in representation for taxation; as journals that do not believe and trust the people; as journals that talk about public rights, and who deny the greatest of public rights—a voice for the taxpayer on the taxes levied upon him.

All kinds of evasions and side issues are presented by the newspapers—land butchery is one—but neither one will trust the man, and say whether it will trust the people on a matter of this kind, and whether it believes in the man who pays the rent and taxes having a voice on the policy that follows the money taken from him in civic administration. They will not even say whether ordinary citizens shall have a voice in the traction policy of this city and the expansion of this city, who these pay can never get away from it. The owner of which goes to reduce the taxes of the property owners. The ordinary taxpayer wants the city spread out so as to get cheaper rents and cheaper land and longer trips at single fare. The Globe and The Mail, associated with Mr. Fleming, are in favor of a congested city, in favor of close bounds and in favor of two fares in order to cover what is practically one city today. In fact you have to pay three fares to go from the east end of the city to North Toronto, a distance of less than seven miles!

The sum and substance of the argument of The Globe and Telegram is that the ordinary taxpayer is a dishonest man, is a tax dodger and a worthless character who puts a mortgage on his neighbor's house, and is otherwise absolutely unworthy of a voice—only fit to pay taxes. And tenths of the subscribers The Globe and Telegram have in this city are made up of this class of people that they treat so contemptuously. And so they helped to defeat the bylaws and want to see them defeated ever hereafter!

Men are Radicals, Democrats, Moderates, Liberals, Conservatives, Tories, and in Canada some seventy years ago in New York times they were of the FAMILY COMPACT. Landmarks of the Family Compact still survive! NOT GLEG ENOUGH? Dr. J. A. Macdonald delivered an address on Saturday last at Queen's University. In it he repudiated "the stories that he favored the annexation of Canada and that he had been a participant in the Fielding-Taft agreement." Unless he has been greatly belied Dr. Macdonald was, if not a participant in the negotiations that resulted in the reciprocity agreement, at least the intermediary to whom was due their initiation. In fact he took some credit to himself as the agent-provocative of the arrangement which had so disastrous an ending for the governments concerned, and Sept. 21, 1911, and Nov. 5, 1912, will not be red letter days in the history of the Laurier-Taft administrations.

If Dr. Macdonald did not favor the annexation of Canada to the United States and really believed that the reciprocity deal would not operate in that direction, his illusion was not shared by President Taft. As the point has been raised ex proprio motu by the editor of The Globe, it is worth while to recall the now historic passage in Mr. Taft's private letter to Col. Roosevelt, the making public of which letter was one of the most amazing indiscretions ever committed by a public man of the president's standing. To Mr. Taft's mind the current of business caused by reciprocity "would make Canada only an adjunct of the United States," would transfer all Canada's "important business to Chicago and New York, with bank credits and everything else." President Taft was shrewd enough to recognize that this argument made in Canada was a good one. Dr. Macdonald's Scots descent ought to have guarded him against being so "slow in the uptake," and he can scarcely complain at being credited with keener discernment.

GETTING THEIR GOAT. The Telegram discovered another silly little point which it mistook for an argument against giving a tenant a vote on the bylaws disposing of the taxes he pays. It was so obviously silly The World took no notice of it, but The Telegram fixed it up again last night in this shape: THE HOCKEN DONLANDS "IDEA." Every house occupied by one citizen and owned by another citizen should have TWO VOTES on money bylaws. Every house occupied by its owner is to have ONE VOTE on money bylaws. Every property owner has seven votes now on bylaws if he owns property in several wards, and The Telegram has not a word in protest. We shall put it in capital, The Telegram style, SEVEN VOTES. Do you get that?

It is not the multiplicity of votes The Telegram objects to. It is the principle of letting the taxpayer have a vote. The house-letting property owners of the city are not people who live in lodging-houses. When a man who owns property lives in his house he has a vote on it. If his tenants are in the same ward he cannot have another vote, but The Telegram would prevent the tenant having the votes the landlord cannot use.

If the landlord has property in other wards than that in which he lives the tenant's vote in these cases might be to neutralize a landlord's extra vote out of proportion. The bare possibility elicits large type screams from The Telegram. Tenants are not to be allowed to speak. They have only to pay taxes. Just read The Telegram's silly paragraphs once more, and perceive to what depths it has been reduced by its policy of rushing out against any and every thing that The World proposes. By and by, when Toronto has a million people The Telegram will be able to stand on the Bloor street viaduct and point with pride to that great structure, while it declares: "We obstructed this viaduct for ten years, and but for The World we would never have let it be built. We opposed the tube railways until the people voted in spite of us. We objected to the people who paid for these things and who wanted them, getting votes, and we said it was a shame and a disgrace that tenants who paid taxes should get votes. We followed The Globe on all these things, but The World beat us out. But we always did oppose everything that the people needed, and The World advocated, and we are proud of the record."

And the irreverent generation to come will say, "What a silly old goat The Telegram was anyway!" Read that Telegram editorial about the two votes again and you will probably agree with what the next generation may say.

WHY WAIT FOR UNCLE SAM? Precisely similar conditions exist in Canada to those which compelled in the United States the establishment of a cheap parcel post system. The agitation in that country in that direction is of comparatively recent date, but the utterly unfair methods of the express companies exposed during the investigation instituted by the Inter-State Commerce Commission rapidly drew it to a head. Now the companies will have not only a drastic reduction in their rates, but a government parcel post service on the zone system, which will encourage direct dealings between producers and consumers and thus tend to reduce

the cost of living that is so much the subject of complaint. The Dominion Government, the people of Canada are now informed, will follow with keen interest the operations of the parcel post in the United States with a view to the expansion and extension of the system in Canada. The postmaster-general, who made that announcement on Monday, evidently expects it to be taken as an indication of the progressive character of his policy. But why? It may well be asked, should Canada wait on Uncle Sam in this connection? Justification for the establishment of a parcel post service in the United States was sought and found in the experience of Britain, Germany and other European countries. What United States investigators learned is quite well known in Canada. Opposition to a parcel post in the Dominion comes from the same source

prove a difficult one. The prospect of European discussions arising out of the settlement of the numerous territorial claims to be arranged after the war becomes daily more menacing. Austria has not presented an ultimatum to Serbia setting a time limit for a reply to certain enquiries which she has formulated, but, short of that, the relations between the two countries are very strained, and Serbia's evident intention to take Durazzo will be still another defiance of Austria.

Prepare for Rise.

Vice-Admiral Monte-Cucoli, in the Austrian delegation today, warned the members to be prepared for the rise of powerful Balkan navies in the Aegean Sea. This is one of the signs of the rearrangement of Southeastern Europe as a result of the war which is likely to keep the European chancelleries in a state of tension for a long time to come. Both Austria and Russia are taking measures so that they will be prepared for any eventuality. It is reported tonight from St. Petersburg that Russia is purchasing several hundred guns abroad.

TAMBLYN—William Ware Tamblin, M.A., secretary of Bowmanville, at Toronto, Nov. 18, in his speech before the play on Tuesday, Nov. 25, at the Ontario Opera House, at Toronto, will be presented in the new parish hall, Gladstone avenue, for five consecutive nights, beginning Tuesday, Nov. 25. As originally intended, the play was to have been presented only three times, but owing to the great demand for seats, which were sold out within 12 hours from the time they were placed on sale, it was decided to present the play on two additional nights.

The play deals in a jocular manner with the attempt of the electric monopolists to wrest the hydro-electric from the citizens of Toronto by such means as the kidnapping of Sir James Whitney and Mayor Hocken.

The reserved seat plan for the two extra nights open on Monday, Nov. 25, at 8 a.m., at Sampson's Drug Store.

SCARBORO PIRATES

Original Opera to Be Presented at St. Anne's Church Next Week.

"The Scarboro Pirates," an original opera by E. W. Miller, organist and choirmaster of St. Anne's Church, will be presented in the new parish hall, Gladstone avenue, for five consecutive nights, beginning Tuesday, Nov. 25. As originally intended, the play was to have been presented only three times, but owing to the great demand for seats, which were sold out within 12 hours from the time they were placed on sale, it was decided to present the play on two additional nights.

WELCOME HOME.

Miss Percy Haswell and her manager, Mr. Lee Grove, returned to Toronto last evening after a short visit to London. They will be in town for several days.

Ontario Methodist Men's Association, a New Organization Formed Yesterday, Asks Also That Two More Men Be Appointed to Ontario Board of Moving Picture Censors—Abolition of the Bar Is Favored as Well as Clean Athletics.

A new organization, the Ontario Men's Association, was formed yesterday at a conference of delegates from local churches. This organization is the result of a movement inaugurated by the Toronto M.Y.M.A. to federate the Methodist groups of Ontario in the various problems in education, social and moral reform and clean athletics.

The new association was formed without some very warm discussion. A number of delegates contended that there were already a number of organizations for young men in their churches, and that a new organization would only cause weakness in the others.

It was believed that the Ontario Board of Censors, but some are of the opinion that two more definite Christian men, of known integrity, are needed on the board, bringing with them the various problems in education, social and moral reform and clean athletics.

INSANE WOMAN BOY ATE PILLS KILLED HERSELF AND SOON DIED

Mrs. Mary Coul Set Fire to Her Clothing at Queen Street Asylum and Died.

After making several attempts to end her life since she first became ill a year ago, Mrs. Mary Coul, who formerly lived at the rear of 395 Sackville street, finally carried out her intention in the Hospital for the Insane on Queen street, early Monday morning.

When left alone for a few moments, the depressed woman placed the ends of her clothes in an open grate and was quickly enveloped in flames. Her cries brought the attendants but although the fire was quickly put out, she died at 7.30 Monday night.

Mrs. Coul has been mentally unbalanced ever since she entered Grace Hospital some months ago. Since becoming an inmate of the Queen street institution she had seemed to be improving, but on Monday an old delusion seized her with the result she took her life. No inquest is likely to be held.

Two doctors worked in vain over little Archie Duncan, aged 12, at his home, 57 Melville avenue, late Monday night and left on late Tuesday morning. Medical skill, however, could not counteract the effect of the poison which the boy had eaten some time previously, while coming home from school, and he died about 1.30 a.m.

Now the boy's detectives are looking for another boy about the size of Archie, and wearing a red top hat. Archie returned from school feeling sick. His parents became alarmed and called in Drs. Lodge and Williams, but although they worked on the boy for five hours, they were unable to save him.

WE THERE HAS INCREASED L. O. L.

Mayor Hocken Says Recent Prominence of Question Has Swelled Membership at Surprising Rate.

The recent prominence of the nemer decree has swelled the membership of the Orange Order at an unprecedented rate, according to Mayor Hocken, who waxed bitter in his criticism of Romanism in a gathering of 300 men and women at the annual banquet of Parkdale L.O.L. No. 37, held in Oddfellows' Hall, corner Queen and Northcote streets, last night. Everywhere the marriage law has been brought into dispute by the Church of Rome, said his worship, the local lodges have experienced an unusual increase in membership.

"You can scarcely go into any of the smallest villages in Ontario or the west," he said, "where there has not been some nemer trouble. The case in the small town of Rivers, in Manitoba, is typical of this. For some time it was difficult to get seven men together for a quorum. The priest went into a home and told a young woman she was not married, and when the community heard the circumstances that lodge grew from 25 members to 185 within three months. In the little village of Belle Ewart, near Barrie, I personally found a similar case existing, and that same is true of a great many places. If you only knew what Bro. W. D. McChesney and I do, as members of the legislative committee, you might have some idea of the situation in the province at the present time."

Mayor Hocken said he understood Borden's statement that in fifteen years Ontario would be as French and as Catholic as Quebec. "He will find he has 300,000 loyal Orangemen to figure with before that takes place," said he.

W. Bro. W. Edward Floody presided. The speakers included Hon. Thos. Crawford, Ald. Sence, A. Gray, Wm. Crawford county master, Ald. Austin, Controller McCarthy, W. D. McChesney, M.L.A., Duncan R. Cowan, Chas. R. Brown and Lieut.-Col. W. F. Brown.
