New Armistice Will Render Germany Unable to Renew War

Lloyd George Explains Allied Non-Intervention in Russia

LONG HIGH AND SLEEPING CLOSE AT CANADA'S CAPITAL

Office Seekers, Officers and
Deputations Throng Ottawa
to Overflowing.

LIVING UNBEARABLE

Parliament Building Would
Make Homelike Bunkhouse
for Members.

Special to The Toronto World.

Ottawa, Feb. 11.—Ottawa will soon have to hang out the sign, "Standing room only." It is already a problem where the senators, members of parliament and seasonal employees, numbering, all told, 1000 people, are to eat and sleep. The city is crowded now hundreds of people will be here seeking accommodations next week. Usually there is room at the top. In any city, however crowded, you can generally get a place to sleep and plenty to eat if you are willing to pay the price. But just now in Ottawa the most expensive hotels and apartments are densely crowded. The capital city is swarming with high-salaried officials, who are willing and perhaps required to live at the top of the heap. "Boards" and "committees" have multiplied beyond number, and extravagant salaries as a rule are paid. Fifty dollars a week seems to be the minimum wage, and you meet men here who own the country who are domiciled in Ottawa as officials or employees of this, that or the other government commission at salaries from \$50 a month up.

Everybody Spending.
"Spend and spare not" is the rule in Ottawa. Not long ago a woman was appointed to one of these commissions, and on arriving at Ottawa was asked whether she preferred a salary or a house. She replied that she preferred a salary. Possibly her answer was misunderstood, for she was told she would have to live at a certain expensive hotel. She would have preferred a less expensive abode, but complied with the request of her superior officer. At the end of the month her government cheque and her hotel bill nearly balanced, but not quite.

This particular case may be unique and may have been the result of some misunderstanding, but the gentlemen officials on the various boards and commissions are living in princely style, and they are to be found in the clubs, the fine hotels and the most expensive apartments. How many they are and how much they get nobody is able to quite figure out, but they seem to be in the hundreds as the sands of the sea and rival the lilies of the field in their apparel. They dispense with the purple, but they enjoy the fine food, and like the rich man in the Bible, they dine sumptuously every day.

They are in an army of military officers who have to live up to their station. Some are domiciled at the Victoria Chambers, formerly the most lodging place for members of parliament and take their meals at the Bideau Club. Others augment the clientele of the more expensive cafes and apartments.

The Russell House, which gets the bulk of the commercial trade, has ways crowded, and it is not likely to offer a haven for the member of parliament seeking a home for the session. Some hotels went out of business with prohibition, including the Grand Union, and the balance have the government in a dazed condition.

And last night The Toronto Star, which has expounded the cause of the Rowell-Queen's Park twins, says that the man on the street in the St. Catharines election is convinced that the laborite (London) will carry the election.

When the Heavy Tragedians Meet.

París, Feb. 12.—Lord Robert Cecil, the British representative on the league of nations commission, emphatically denied tonight the report spread in Paris that the league of nations commission had approved the creation of an international army and that the United States and Great Britain had conceded a point to France. Lord Robert said that in his opinion the commission would decline, moreover, to approve any such plan. He added that the summer report must have originated from an enemy of the peace conference.

TERMS TO PREVENT GERMANY FROM RENEWING HOSTILITIES

Supreme War Council Will Demand Full Information Regarding War Material Now on Hand.

Paris, Feb. 12.—The supreme war council met at the foreign office at 11 o'clock this morning for the purpose of reaching a final determination of the new terms of the German armistice. There were present, in addition to President Wilson and the foreign ministers of the great powers, Marshal Foch, Field Marshal Haig, Marshal Petain, Gen. Pershing and Gen. Diaz.

EXPRESSION OF VIEWS ON LABOR LEGISLATION

Peace Conference Commission Decides That Employers and Workers Alike Must Be Given the Fullest Opportunity.

Paris, Feb. 12.—The peace conference commission on international labor legislation met today, and at the conclusion of its session the following official communication was given out:

TWO BY-ELECTIONS.

Orators, couriers, despatch riders and publicity agents pass and repass upon all the North Ontario concession lines. This is the by-election that was to have been fought in the dark till The World lifted the curtain. Now all is changed. So anxious is the government to get the ear of the electors, who are slow to attend the meetings of Major Cameron, that an entire page advertisement is inserted in The Weekly Sun, whose editorial writers are daily denounced in the Hearst press as the real leaders of the United Farmers of Ontario. The government is in a dazed condition.

MUST SETTLE FIRST TERMS OF PEACE

Should Precede Organization of League, Says Speaker in British House.

London, Feb. 12.—The view that the terms of peace with Germany should be settled before the organization of a society of nations is dealt with was expressed in the house of commons this afternoon by Horatio W. Bottomley.

CONFERENCE IN PARIS ON AVIATION MATTERS

Paris, Feb. 12.—An international aviation conference will be held in Paris within a few weeks to outline recommendations to the society of nations in order to make possible the resumption of civilian aerial service between the nations.

DEPUTY CHIEF WAS STILL ON PAY ROLL

Whiskey Was Issued in First Two Weeks of October.

PROOF OF INTEGRITY

Thirty Gone From Eleven Hundred Shows Honesty of Police.

One of the important points to be brought out by the police commissioners, when the investigation is resumed today in the city hall of the missing liquor from Pape avenue division, is whether or not ex-Deputy Chief Archibald was still on the strength of the department when his son, Garnet, secured the six bottles of whiskey from Inspector Pogue. Ex-Alderman Garnet Archibald and Inspector Pogue were unable to give the date when the whiskey was handed out. Both, however, were sure that it was within the first two weeks of October, 1918.

OTTAWA INCLINED TO CREDIT REPORT

Borden's Refusal to Deny Rumor Points Strongly to Its Truth.

Ottawa, Feb. 12.—While there is no official confirmation of the report that Sir Robert Borden has been offered the position of British ambassador at Washington, there is strong evidence from here to place credence in it. In the first place the report appeared in The London Daily Express, Lord Beaverbrook's paper, and in the second place, Sir Robert himself, given an opportunity to do so, has not denied the report. Lord Beaverbrook is known to be very close in the councils of the administration, and it is not believed that his paper would make a statement unless it was properly based. Sir Robert has a habit of giving frank denials to anything which is without foundation, in the present instance he evaded the question by stating that he "had no observation to make."

NEW CONSTRUCTION NATIONAL RAILWAYS

Expenditure of Sixty Millions is Approved by Dominion Government.

Winnipeg, Feb. 12.—The Dominion government has consented, subject to parliament's approval, to an expenditure of about sixty million dollars for improvements and new construction to be done during the coming year on the Canadian National Railways, it was learned here today.

Get Building Under Way And Avoid Unemployment

The Canadian Lumber Yards and Many Other Bus- inesses May Be Up Against American Com- petition—American Marble Now Beat- ing Out Canadian Slabs.

Following up The World's article of yesterday, that the first thing to do was to get building under way, in order to help business, and to take care of unemployment in the building trades, a reporter had a talk with a number of the Canadian lumbermen now in session in this city, at their position meeting. They had not quite action on their minds.

Further Investigation Needed.

Not only must there be a full and complete investigation as to what happened to the seized liquor in the Pape Avenue Police Station, but The World believes that there must be a searching enquiry as to the disposition of the liquor seized all over the province since the Ontario Temperance act came into force.

BLIND PIG" BOTTLES BEAR GOVERNMENT MARK

The police of Pape avenue, on raiding a "blind pig" in 62 Logan avenue last night, claim that most of the liquor seized by them had been obtained from one of the government vendors. On searching the premises they say all of the bottles of liquor found by them were wrapped in brown paper bearing the name of the Church street vendor.

BRITISH PREMIER DEFENDS A PARLEY WITH BOLSHIEVISTS

Says Their Machinery is Brutal and Ruthless, But is the Only Machinery CANNOT INTERVENE

Unable to Disclose Figures Involved, But No Sane Man Would Advocate It.

London, Feb. 12.—Premier Lloyd George spoke again today on the general peace situation. The occasion was brought about by the Rt. Hon. Rupert Guinness, Unionist, asking whether the premier was prepared to press to the utmost reparation from Germany and also to make Germany pay to the full extent of her resources. He also pressed for more information as to the status of the British colonies at the peace conference.

Has Forfeited Colonies.

The premier, defending the proceedings of the peace conference, said the government had been devoting its time to speeding up agreements. He was sanguine that a complete agreement would be reached concerning the German western boundary, but the eastern boundary was a different matter. Until the commission sent to examine the matter was reported, the allies would be in no position to make demands upon Germany. The conference was unanimous, he said, that Germany had forfeited all rights to her colonies.

ANARCHY WITHOUT PEACE.

Russia represented an area over half of Europe, and nearly half of Asia, and he pointed out, if peace were not made, the whole of this immense territory would be in a state of anarchy, disorder and bloodshed. There would be no peace in the world. The Bolsheviks, the premier declared, were assailing the guilt of the crimes laid to their charge. The allies had given the anti-Bolshevik government financial support and assistance. Much of their equipment, however, supplied by the allies, who were anxious to keep the rich territories of Russia out of German hands.

NO RECOGNITION OF BOLSHIEVISM.

The Bolshevik machinery in Russia was ruthless and brutal, but there was no doubt about its efficiency, and it was the only machinery there. Everybody in the east who had interfered in Russia had come to grief. There was no idea of recognizing the Bolsheviks; it was quite impossible to do so as long as they were pursuing their present methods. It might be argued, he said, that the Bolshevik government was the result of the Russian revolution. He was unable to disclose the figures that intervention would involve, but, after seeing them, no sane man, he declared, would advise the allies, after five years of war, to undertake the enterprise. The Bolshevik military power had grown, while both England and Germany were too occupied to attack it, and it was strong.

Would Be Brutal Policy.

Referring to the alternative of allowing the British in Russia to burn frontier of India, to parley with brigands, and even assassins. The Bolshevik could not last forever, and, in the meantime, he was informed that the threat of intervention was driving the moderate elements into Bolshevik hands. He urged that the allies must do their best in the interest not only of Rus-

POLICE DEMAND FULL HEARING OF CHARGES

No obstacles should be placed in the way of the police union, and a wide-open investigation should be made by the royal commission of the police grievances, was the decision reached by the executive of the union yesterday afternoon.

REPORTED BOMBHELL FOR BIG BAKERIES

It was stated in The World yesterday by a gentleman in touch with the situation, that as a result of the expressed determination of the grocery of the city to refuse to be the scapegoats of the "bread war" which is now raging between the manufacturers, manufacturing bread, biscuits and confectionery, a stock company had been formed by the grocers, themselves. To this end, he stated, they had secured the plant of a well-known baker, to which new machinery will be added, the expenses of the undertaking to be two-thirds "carried" by the grocers, who will control the company. This course was discussed at the last meeting of the grocers' section of the Retail Merchants' Association, and a committee was appointed to report on the matter. However, when interviewed last night, H. D. Dowson, chairman of the grocers' section, stated that nothing definite had yet been arranged, although he as chairman of the committee would interview the baker with whom the grocers propose to do business today.

MUST LIFT LOCKOUT.

Buenos Aires, Feb. 12.—President Irigoyen today informed the owners and agents of steamships that they must lift their lockout against the striking seamen without asking that the seamen promise not to boycott them, as was demanded by the employers yesterday. The president explained that the boycott by the men had no legal significance and that if they interferred with shipping the government would attempt to assist shipowners.

ALL HAD A SHARE.

Organization was the theme of G. A. C. officials at a meeting held last night at Classic Hall, Gerrard street, when a number of resolutions were passed. The feeling of the association was against anything in the nature of opposition to other organizations, was evident when several of the speakers immediately countered the remarks of a member which were directed against a sister organization.

MOOT FREE TRANSPORT FOR THE UNEMPLOYED

Cheap or free transportation for unemployed was taken up at a meeting of the trades and labor section of the Ontario committee on the re-organization of resources, at a meeting held yesterday afternoon. Dr. W. A. Riddell, president, Hugh Stevenson was present, and was added to the committee to equalize the number of employers and employees. The other members present were Sir John S. Willison, P. Mallory, C. F. Bailey, W. H. Bunt, Col. W. P. Gregory, S. R. Parsons, Association, W. R. Rollo, Trades and Labor Council Hamilton; J. N. McCullum, W. E. Turley, provincial secretary, G. W. V. A.; Dr. Abbott, secretary Toronto labor committee. It was decided to act as a provincial advisory committee on employment problems to the provincial committee on resources. Information is to be received with respect to transportation requirements and to be reported to an early meeting of the committee. The reports from the Sudbury district appeared to indicate that there would be fully absorbed by the calls from the Porcupine and Cobalt districts. In the Sudbury district the operations had been reduced about

CIVIC VACANT LANDS LISTED WITH AGENTS

The board of control at its meeting yesterday decided to place all the vacant civic lands in the city in the hands of local real estate agents for disposal. These lands are valued at \$835,000, and have a frontage of 17,540 feet. If the sales of the lands are approved by the city, the agents will receive 3½ per cent. commission. Commissioners Chisholm, Bradshaw and Forman made the proposal.

TOO DRASTIC.

Dr. Forbes Godfrey addressed the select committee of the Ontario legislature yesterday at the parliament buildings upon the importance of making a medical certificate of health requisite to legalize the granting of a marriage license. He argued that it would lessen immorality, feeble-mindedness and the spread of disease. The committee decided that the proposal was too drastic for adoption, but will meet again to consider other proposals by Dr. Godfrey.

CONTROLLERS SEEK GAS LAID NORTH OF OSGOOD

A deputation headed by Ald. Sam Rydell, Ald. Maher and W. J. Fisher, waited on the board of control yesterday, and asked that the Gas Company be requested by the city council to lay gas pipes north of Bloor street and west of Runnymede road, and also asked that city mains be laid in that section by the city. Mr. Fisher said: "We all live inside the city limits, but the Consumers' Gas Company refuses to lay the mains unless we pay sixty cents a foot, and also give a guarantee that we will use the gas." The board decided to request provision from the company.

WOULD DISTRIBUTE FISH.

It is understood that several firms are making strong efforts to be appointed by the Ontario government fish distributors for the ensuing year. Messrs. White & Company have been the distributors for the past ten months. It is reported that the department has received many offers from firms stating they are willing to conduct the work of distribution at a price below that now being paid by the government.

WILLS AND BEQUESTS.

Mrs. Sarah E. Denison, who died Jan. 4, left an estate valued at \$18,857, which will be inherited by her husband and a number of other relatives. There was also in the will, which was filed yesterday, a clause bequeathing \$100 to St. Anne's Episcopalian church, for the building fund. Patrick Casey, a farmer of King township, left an estate valued at \$4,095 which he left to his brother Daniel, a sister, and several other relatives.

WOMEN TO ASSIST AT SOLDIERS' BANQUETS

To arrange for assisting in the series of banquets to be given returned soldiers, in the armories, as planned by Brigadier-General Gunn and the Citizens' Repatriation League, a meeting of the women's emergency committee was held at the city hall yesterday afternoon. Brigadier-General Gunn referred to the part that had been taken by Toronto in looking after the soldiers, and of the formation of the league. He told of approaching the mayor with a view to soliciting through him the goodwill of the people. The mayor gave support which resulted in the great gathering of citizens, and of committees, which, however, were not complete. The duties of these committees will be to get in touch with the soldiers and their dependents, and find the things needed to get them back to civil life, he explained. Meantime, the first thing to be done is to honor the returned heroes by a series of banquets, which will enable them to renew old ties, and otherwise help in repatriation. At the conclusion of his address, General Gunn invited Mrs. Albert Brown, who had been appointed previously as head of the women's committee to take the chair. The general also stated that Mrs. L. A. Gurnett had consented to act as secretary. It

was announced that the first banquet would be held on Thursday, Feb. 20, at 7.30, but the soldier guests would be in position at 7.15. Mrs. Brown showed the plan of the armory, as arranged for the evening. The lower floor will accommodate 300 soldiers, and a party of the city council and others. Dinner will be served from the four corners, where buffets will be arranged. There will be a cabaret and ring also on this floor. In the galleries will be placed the friends of the soldiers, every man being allowed to bring one guest. Volunteer waiters were asked for, and in response Mrs. Brown got offers of assistance from Lady Pellatt on behalf of the girl guides; Miss Dickson spoke for the Daughters of the Empire; Miss Marie Macdonell for the Rosary Hall Guild, Mrs. Hermon promised a party from the Women's Volunteer Corps, Mrs. Wallace represented the Auxiliary of the 75th Battalion. Mrs. W. R. Jackson promised support from her chapter of the I. O. D. E. Sixty-five captains in all will be wanted, and about four hundred to wait on the tables on the ground floor, and to assist in serving refreshments and entertaining the guests on the galleries. The first banquet promises to be an enthusiastic success, and the work will be under the following committee: Miss Church, Mrs. Arthur VanKoughnet, Mrs. J. P. Fitzgerald, Mrs. Frederick Fenton, Mrs. Ralph

PROPOSE AUDIT OVER ALL OUTSIDE BODIES

The matter of having the municipal act amended by the legislature was again taken up at the board of control meeting yesterday. Cont. Cameron moving the following resolution: "That application be made to the provincial legislature at its forthcoming session for an amendment to the municipal act to give the commissioner of finance power to make a final revision of the estimates of the city council and of the board of education. The motion was left over until this morning. Mayor Church suggested that legislation was not needed on this, but proposed that the finance commissioner act as an auditor general of all bodies. He believed that there should be some check on outside bodies. Cont. Robbins was opposed to allowing one elective body the right to control the finances of another such body and Cont. Maguire said, "The council may as well disband and let Mr. Bradshaw run the city." Cont. Cameron thought that it was good for the school board it was a good thing for the city council.

GET BUILDING UNDER WAY IMMEDIATELY

(Continued From Page 1).

other things will be rushed into Canada once the factories in the States run up against a shortage of orders. They will stand the duty.

The United Farmers threaten to start a mill factory, and a big plant for producing all kinds of plumbers' supplies.

The World's advice to the building supply men is to loosen up in prices or the business may go across the line.

Labor men are still of the opinion that much might be done to help unemployment, especially among the various departments of the building trades, but that the high cost of material, the low rentals on houses, the lack of export openings on the European markets and the generally uncertain period of reaction following the war made people slow to invest, and that so long as the government and the municipalities themselves continued to follow their dilatory processes of the past few months the private or speculative builder would be the only source of immediate labor supplies.

W. C. Hazen, business agent for the International Union of Machinists, emphasized the need of nationalization of all great industrial activities, of greater effort on the part of the Canadian government to help the Canadian manufacturers' agents to obtain an export market, and the organization of new industries, such as copper and other metal and ore refineries, so that Canada might refine her own ore and employ home labor.

James Miller, business agent for the Freight Handlers' Union, pointed out that until the whole building trade settled down to a firmer after-the-war basis of industrial activity unemployment would be the wrong factor everywhere and do all trades.

Lack of Finance.

Roy Hughes, treasurer of the G.L.P., believed that the whole situation might be summarized in three words—lack of finance. There was a general doubtless temporary financial stringency throughout the Dominion, but the government itself was not conditioned, the individual citizen alone facing this stringency. But for this fact it would have been quite reasonable to hope that if three houses could be constructed, as was the case on Danforth avenue, 300 could be begun. The municipalities had so far only considered the building loan offer of provincial and Dominion governments. If Toronto had decided to accept and use this loan work might have commenced in good earnest, right now, because the weather was propitious. But even at that, the building contractors were facing a very high market on building material. This market was quite sufficient to prevent large contracts for dwellings. The lack of activity in the building trades was also reacting upon other trades, and was noticeably affecting the employees of the railways, many of whom were being laid off because transportation was slow.

Build New Dwellings.

John Cotton, secretary of the district council of the Brotherhood of Carpenters, and John Gillanders, its business agent, stated that if it was suddenly decided to erect 300 dwellings right away in Toronto this would

WIFE SUES MAJOR FOR HEAVY ALIMONY

Mrs. Riches Claims Cruelty and Desertion Against Major Riches.

In the non-jury assize court yesterday, Chief Justice Sir William Muir continued the hearing of the action brought by Mrs. Olive Adele Riches against her husband, Major Charles Riches, a patent solicitor, for the return of \$1000 which plaintiff alleges that she lent him, and further, plaintiff claims \$50 a week as alimony. Prior to the marriage, Mrs. Riches had been a stenographer in the defendant's office.

She also alleges that while she was on her honeymoon trip, in England and Germany, his treatment of her had injured her health, while defendant, according to Mrs. Riches, deserted her in 1917, and had not since contributed to her support.

The first witness, Mrs. Charlotte Taylor, a domestic in the Riches home, told of many quarrels between the couple while she was in their employ. Witness stated that these quarrels took place after Mrs. Riches had given birth to a child, whose presence was taken exception to by Tom, a 19-year-old son of the plaintiff by a former marriage.

Mrs. Riches was called to the stand, and also told of the many quarrels between her husband and herself. Some of them arose out of trivial disagreements over the children's parties and such. Major Riches had grown violent on Christmas, 1918, he had thrown her on the bed so violently that she had bruised her body against the side. Many letters were produced during the hearing of the case, and in one the plaintiff, writing to her husband in New York, told she would lead a life of sin, and since his lordship what she had meant, witness replied that she only meant to threaten him.

TO KEEP PLAYGROUNDS OPEN ALL DAY LONG

Joint sub-committees of the board of education and the parks commission met yesterday afternoon to formulate a plan for playgrounds for the children during the time they are out of school. Dr. Noble, inspector of the board, and Commissioner Chambers and Ald. Ryding of the parks commission, were named to draft a resolution in the matter.

Commissioner Chambers said that he did not care who supervised the work so long as provision was made for the children to play. Dr. Noble thought that it would be a good job for a returned man.

Ald. Ryding introduced a resolution that the board of education be asked to open the playgrounds throughout the day, year round, with the exception of Sundays.

SAILORS' SWEATERS.

Urgent appeal received at Navy League Headquarters.

An urgent call has been received at the Navy League headquarters, 34 West King street, from Halifax for six hundred sailors' sleeveless sweaters. Blue ones are preferred, but all are welcome. The Navy League would like to draw attention to the fact that sailors' knitted comforts, such as sweaters, socks, caps, mitts, etc., will continue for a long time. Our mine-sweepers along the Canadian coast are doing splendid work, and the public will perhaps never know how close these floating mines came to our own doors.

PROF. C. G. SELLERY AT THE UNIVERSITY

Tells How Labor Problems Are Tackled by Wisconsin University.

Practical work being done in a broad and democratic way by the University of the State of Wisconsin was spoken of by Professor C. G. Sellery in the physics building of the University. The address was the second of a series relating to university interests and the speaker was welcomed and introduced by President Falconer as an old graduate of Toronto's chief seat of learning. The chairman also spoke of the good work being done by Mr. Sellery on the other side of the line.

Prof. Sellery expressed himself as glad to be among his old associates. He said there were a number of Toronto graduates in the United States and it was easy for them to go well because the training they had received had been extraordinarily thorough. Of the Wisconsin institution with which he is now connected the speaker said that its good work during the past fifteen years was great, due to the late Professor Van Hise. The first province of Van Hise had been to study geology and taking interest in the earth's crust he had come to take an interest in the study of man. The big discovery of Van Hise, the speaker said, was that it is the duty of civilization and of the university to release human capacity and that boys and others who have talent should be helped in their development.

Through his energy and imagination Van Hise had brought the legislature of the state into sympathy with the university, and it is now in receipt of a large sum from the province. Some people like short sessions of parliament, said the lecturer, but Van Hise likes them because it gave him an opportunity to get near the members. As a result of the broad view of his head the university had established a legislative library and had a professor of railroads which did such excellent work that now there is a railroad commission. The institution was also an industrial commission which helps to provide workmen's compensation without the cost of litigation.

EGGS, BUTTER, CHEESE ON THE OPEN LIST

Regulation on the use of eggs, butter, cheese and condensed milk imposed by the Canadian Food Board have been lifted by the government, announced R. A. Ballantyne at yesterday morning's session of the Canadian National Produce Association.

F. M. M'Intat, in his report, said that in 1918 Canada exported over 1,500,000 eggs. He thought there would be a large trade in eggs this year, but was doubtful about the foreign butter market on account of the large amounts of oleomargarine consumed in England.

Dr. McPail of Ottawa asked the delegates to send in their reports showing the amount of all kinds of produce on hand by the fourth business day of each month.

At the afternoon session, F. P. White of the William Davies Company read a paper dealing with egg storage, etc. The actual cost of handling a dozen of eggs was 4.63 cents, and when allowance was made for defective eggs the cost of handling a case was \$2.25.

John Scott of Toronto gave a report on butter grading, and N. U. Ford of the national war savings stamp committee spoke on thrift stamps.

CALEDONIA SOCIETY MEETS.

The regular meeting of the Caledonia society was held last night, president, James Sim, in the chair. Rev. Captain Paulin gave an account of the society's work. Several numbers and Highland dances were presented with Piper Thomas as player. A delegation from the Lewis society presented the case of the dependents of the 200 naval reservists who were drowned off the island of Lewis in the tragedy happening in about five minutes after the first alarm. The appeal to help the women and children of the drowned men was enthusiastically answered and financial aid was promised.

Labor—it is estimated that the work above mentioned, outside and exclusive of work on the T. & N. O. Railway, and the work of the Hydro-Electric commission, directly and indirectly, will furnish employment for 400,000 men for 4 months, for \$1,249; the Hydro-Electric commission has now in its employment on construction work, and on its permanent staff 5500. During the present season, work on the Queenston-Chippawa scheme will be carried on with vigor, and it is anticipated that the amount of all kinds of production on hand by the fourth business day of each month.

At the afternoon session, F. P. White of the William Davies Company read a paper dealing with egg storage, etc. The actual cost of handling a dozen of eggs was 4.63 cents, and when allowance was made for defective eggs the cost of handling a case was \$2.25.

John Scott of Toronto gave a report on butter grading, and N. U. Ford of the national war savings stamp committee spoke on thrift stamps.

SHIPYARD DEPUTATION LEAVE FOR OTTAWA

A deputation, headed by Mayor Church, Controller Robbins and Controller Cameron, left for Ottawa last evening to join with labor, business and manufacturing interests, in asking that more shipbuilding contracts be awarded city firms by the government.

Speaking on the subject of shipbuilding, Controller Cameron said that he thought the firms ought to be satisfied with a percentage profit, say five per cent. Controller Maguire said that it would be a serious thing if three thousand men were thrown out of work, and a \$12,000 pay roll stopped

An extensive scheme is being worked out in co-operation with the Dominion government for the purpose of assisting and facilitating returned soldiers and others desiring to go upon the land. It is hoped that municipalities, corporations and individuals will join with the government in undertaking their work, so that the present surplus of labor may be absorbed. Prompt and determined action by governments, dominion and provincial and municipal, and by manufacturers and citizens generally will, it is believed, meet the situation.

CLAIM SEVEN DEAD FROM WOOD ALCOHOL

Private Quotes Many Cases of Alleged Poisoning at Quebec.

WIVES WENT STEERAGE

Authorities Deny Liquor Was Sold to the Returning Troops.

Charges were made by several soldiers who returned home yesterday that while they were laying over at Quebec, vendors of liquor had sold them stuff which they variously described as containing wood alcohol, ginger, iodine and fat and being poisonous, causing the death of several.

The Major Turner, of Quebec, however, denied these charges and said that absolutely no liquor had been disposed of on the train to the men and the statement that several had died was untrue.

Yesterday, with one exception, broke all records for the number of men returning to this district. Altogether there were 1441 soldiers brought in. One thousand and fifty eight from the Carmania, and 88 soldiers and their wives from the Union Station.

Four hundred and forty-four for Toronto, 120 for the United States and the rest for points outside of this city but in M. D. No. 2. The three troop trains, which came into North Toronto as usual, arrived at 11:30, 1:30, and 3:30, and the train with the 88 soldiers and their brides came into the Union Station.

It was at first intended to bring them in at North Toronto, but it was found that the arrival of three trains at one station in two hours would cause too much confusion, consequently the change.

Brig-General Gunn met the trains at North Toronto and Col. J. I. McLaren, A.G. M.D. No. 2, welcomed those who arrived at the Union Station. The mayor, Major Gibson, Capt. Richardson, Capt. Jago and others met all the trains.

War Brides. The war brides were taken care of by Miss J. Mann, a Methodist deaconess, and Miss E. Wesson, of the Y.W.C.A. Those who have friends in Toronto were taken to their homes, and those who had no relatives here were served with refreshments and entertained until the trains left, by the two ladies already mentioned and the Salvation Army, in the ladies' waiting room.

Some of the women complained that the passage over had been quite uncomfortable, having been forced to go steerage instead of second class as was at first expected. The food, they said, was very poor.

Quite contrary to these complaints was the praise by the soldiers of the treatment they received on the Carmania.

Pte. George Hewitt, of Brantford, said that he had heard of seven men having died in Quebec of a disease resembling drinking whiskey and 18 more had to be cared for in the hospital. Corporal John Hamilton, of Parry Sound, said that he had heard of a number of men being drunk in Quebec, but that they were western troops and not from the Carmania.

WILL PLACE MILTON CASE BEFORE MINISTER

Toronto District G. W. V. A. intends to use every constitutional means to achieve the release of Pte. Victor Milton of the 21st Battalion, who was recently sentenced to three months' imprisonment because a bottle of whiskey was found upon his person.

He was badly shell-shocked in France, and had only been in Canada a month when sentenced. He has been in a very serious condition of nervousness since his return to Canada.

Sergeant-Major J. V. Conroy, organizing secretary of the Great War Veterans, in the Toronto district, left last night for Ottawa, as a member of the deputation to Ottawa respecting the shipbuilding industries in the Dominion. He will represent the returned soldiers.

Lieut.-Col. A. T. Hunter, president of Parkdale G. W. V. A., is introducing a system of wards and subdivisions within the membership of his branch, and every section will be canvassed by the members to increase the organization.

Nursing Sister Edith White was among the 100 members initiated Tuesday night at Parkdale G. W. V. A.

William Varley on Monday night addressed a large meeting of Cobalt miners, taking for his theme the reconstruction problem.

West Toronto G. W. V. A. is taking up the cudgels on behalf of Richard Sherry, a returned soldier who was a first class machinist when he enlisted, but who by reason of his injuries has become a loss of memory for details.

Of the 1727 returned men who went thru the workshops at Dixville Hospital last year 875 were Canadians. The rest were registered from other countries as follows: English, 542; Scotch, 155; Irish, 72 and Americans, 55.

Toronto's detective department is looking for a girl, brunet, who is alleged to have made a contemptible use of the photograph of Pte. Edward Grue, a one-legged hero of the 22nd Battalion, who lost his leg at Ypres, who presided, stated that a former school chum, Pte. Alex. Palmer, was now on his way back to Canada, while another flight lieutenant, J. D. Stevens, had recently been killed in an airplane accident.

Progressive action in the interests of good roads is a matter in which Toronto and other great war veterans are becoming more and more interested, and resolutions have been drawn for the action of local branches to urge upon the government the need of immediate action along this line.

CHINAMAN HANGS HIMSELF. Hong Chong, a young Chinaman, hanged himself in a basement of a building at 134 West Dundas street yesterday morning. Chong's body was found hanging from the ceiling at the foot of the staircase by Enoch Eaton, caretaker of the building. The police were called to cut down the body, which was suspended by a thin rope. In the opinion of the police Chong had been dead for some time before his body was discovered.

JUDGE WANTS CASE IN PLAIN ENGLISH

There is apparently no end to the technical byways, in which the action of the Ontario Power Company against the Toronto Power Company can wander. The case, which was resumed yesterday, is one in which the former are trying to restrain the latter company from cutting off a power supply and to determine the ownership of some \$150,000, which has been paid into court.

Chief Engineer F. G. Clarke, who had been on the stand for more than a day, was the witness again yesterday, and when Robert McKay, K.C., counsel for the Toronto Power Company had finished his examination, I. F. Hellmuth, K.C., counsel for the Ontario Power Company, took up the case for the plaintiffs.

In answer to Mr. Hellmuth, witness stated that he had read all correspondence which had passed between the two companies during a long period of cross-examination by the two companies, it was finally ordered by Justice Middleton, who is hearing the case, that the counsel for each side cast their requests in a specific form so that the argument may be more pointed and readily appreciated by the court. The case will proceed this morning.

ALLEGED SHOP THIEVES CAUGHT BY POLICE

Three young men, who, according to the police, have been keeping second-hand store keepers in the east end of the city on the jump, were last night arrested on charges of shoplifting. Detectives Thompson and Elliott.

It is alleged by the police that the accused would walk into stores and ask to see watches. When the storekeeper would put a number of watches on the counter, they would pick them up and run out of the store.

The prisoners gave their names as William May, Joseph Donahue and Fred Thomas, all living at 72 Berkeley street.

The police say they will lay further charges of theft of fur coats from the front of stores. When they searched Thomas' room they claim to have found a sack fitted like a head mask, with nose, eye and mouth holes cut in it.

BYLAW DOES APPLY

Sir William Meredith yesterday gave judgment in favor of the city of Toronto in its suit against Sam and Gershon Soloway, for an injunction to restrict the use of a stable at 50 Lakeview avenue. The defence claimed that the bylaw was invalid, as it did not apply to stables that were erected before it was passed.

ACCIDENTAL DEATH

A verdict of accidental death was returned by the jury investigating the case of Postman Robert Connelly, who was killed by a street car on Feb. 3. Coroner C. J. Currie conducted the inquest. The accident happened at the corner of Dupont street and Palmerston avenue. Connelly being struck by a trolley car while crossing the road.

Chocolate—a food

IT is now universally admitted that chocolate is a food—a sustaining food.

During the war millions of tons of chocolate were sent to the Front.

Our Canadian soldiers early found that eating chocolate was not only pleasing to the taste, but restored vitality and gave renewed energy.

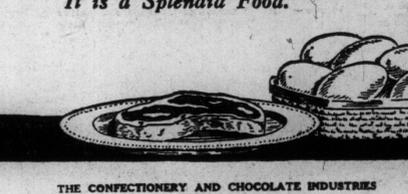

Brigadier-General L. W. Waller of the U.S. Marines, referring to the food value of chocolate, said—

"I never went into a campaign without chocolate. I always have a few cakes in my haversack when I go into action. Men fight like the devil on chocolate. Seasoned soldiers take it on the march with them."

It is a matter of actual scientific demonstration that one pound of chocolate produces the same amount of body-building nutriment as six eggs, a pint of milk and one pound of steak.

As a ready, nourishing and sustaining food, chocolate is unequalled.

Serve Chocolate as a Dessert. It is a Splendid Food.

OVERSEAS OFFICER FORGOT TRAFFIC LAW

Confused for a few moments by the difference of traffic laws in Toronto to what they are in England, Capt. Harold Edwards of the Royal Air Force, was arrested yesterday afternoon on a charge of criminal negligence. Capt. Edwards, returned to Toronto two days ago, after serving four years' overseas, and is living at 361 Carlton street.

Yesterday afternoon at two o'clock he was driving a motor car north on Bay street, on the wrong side of the street. At the corner of Bay and Queen streets he ran down and injured George Storey of 499 West Adelaide street. Storey was injured about the hip and back. He was removed to St. Michael's hospital.

Capt. Edwards was taken to West Dundas street station by Policeman Gracey, and held. Bail of \$1000 was accepted for the release of the accused. The officer explaining the accident to the police, said that he had for the past four years been driving a car in England. The traffic laws are different there, he said, all traffic taking the left hand side of the street. Here the law requires traffic to keep to the right. The officer in turning north on Bay, forgot the law for a moment, and did not think of it until he had run down Storey.

BREAD IS THE SAME, BUT PRICES DIFFERENT

A feature of yesterday's bread war was the sale of the same class of bread at prices ranging from 8 1/2 cents to 9 cents a small loaf. H. C. Barker of the Barker Bread Co. stated that he was determined to keep his prices at the higher level.

W. T. Sterling of the Harry Webb Company stated yesterday that there could be no profit in the sale of bread at less than 11 cents a loaf retail or 10 cents wholesale.

F. E. Robson of the Loblaw Stores believed that a standard rate of 9 cents a small loaf should become effective and be maintained. Geo. Lawrence stated he would fight to the finish against "the combine." His bread was selling at 7 cents the small loaf.

The general impression among makers is that the small men may be put out of business.

SOMERS SCHOOL GIVE PLEASING TABLEAU

There has never appeared at Massey Hall a more graceful and pleasing ensemble than that which appeared there last night, when the girls from the Somers' School of Physical Training rendered their peace concert.

All the classic dancing numbers and solos were given by members of the school, and as Dr. James L. Hughes, who made a short speech during the evening, there, the school was doing a great work in the advancement of the science of a harmonious body.

One of the most beautiful of the many tableaux presented was "Triumph of Peace," a symbolic pantomime, in which France, realizing the tragedy of war, calls on her allies for help. The solo part of France was inspiringly rendered by Vera Watson, a young danseuse, whose work last night showed a finished technique far above the average. Other numbers were "Among the Pines and Hemlocks," a veritable scene from fairyland; "By the Firelight," the spry scene from Carmen, in which the leading parts were sung by S. Winfield Parker, the well-known contralto.

Are We Going to Get Our Share of Foreign Trade?

Hon. Carter H. Glass, United States secretary of treasury, has requested congress to pass a bill which will enable the government to finance American export trade to the extent of at least one billion dollars.

America is after export trade, and she will find Britain a keen competitor. Business is business, and the British exporter will have no scruples about leaving his American rival far behind.

We naturally think of great opportunities for trade in France and Belgium. In both these countries a great deal of building and reconstruction has to be done.

Our foreign trade commission, headed by Lloyd Harris, advises the Canadian government to extend credits to Serbia, Rumania, Greece and Belgium.

But how about the farmer? Some people are running away with the idea that wheat will soon glut the market and leave our farmer with no demand for export.

The New German republic, including German-Austria, will number ninety million people. Before the war they were enormous importers of food.

We are not going to recoup our war losses by selling manufactured goods to France and Belgium.

Before Toronto became bone dry many wealthy men brought in liquor from Quebec to the value of \$10,000, \$20,000 or even \$30,000 and cached it for their own use.

The prohibition leaders of the United States congress say they will be the United States bone dry.

Whiskey will cease to be property and the poor man will be at liberty to seize, take and carry it away from the rich man's cellar without fear of criminal prosecution.

No such unfair law as we have at present helps to make this country safe for democracy.

Twenty-Five Millions. Sir William Hearst's announcement of the reconstruction appropriation comes at an opportune time.

THE PROMOTER'S WIFE

By JANE PHILLIPS. Barbara and Neil Are Married.

CHAPTER VII. It may require more to make one man or woman feel joy or pain than it does another, but the joy or pain they feel is about the same.

How kind and faithful mother was! She pinched and saved in every way, that I might not go to my husband and spend my money. Father, too, I never knew it until long afterward—insisted that his old overcoat was good enough to last through another winter.

The weeks flew by. On the eighteenth of September, Neil came. We were married the following day, in the little church where I had been baptized, and where I had taken my first communion.

Father made all sorts of fun because we called it "breakfast." It was at twelve o'clock. "If I had to wait until this hour for my breakfast I'd get a divorce."

Neil was so kind. He talked to me so sensibly about having them visit us, that I soon was smiling. He said that I was a very happy girl, and that I had never had such a sum, seemed to be a very prodigious sum.

When I said something of this to Neil, he only laughed and replied: "New York isn't Huntington, darling. Money doesn't go very far in the big town."

I laughed at him when he talked that way. I knew mother never had a title of that to live on yet we had always been comfortable. When I said so to Neil he told me: "I don't believe in rent; they burn gas and kerosene lamps. Why, dear, one could live better in Huntington than in New York three times that sum."

While the Northcliffe newspapers generally approve of the Lloyd George program, the premier is openly attacked by Viscount Northcliffe in a new weekly published today.

A Labor Saving Combination

It is the last straw that breaks the camel's back. So runs the old proverb. And it is the little extra efforts which tire you out on wash-day.

Eddy's Indurated Fibreware Washboards and Washboards form a combination which save you much extra labor. Indurated Fibreware tubs are much easier to lift and to move about.

their hands full catering to the day-by-day trade without attempting to expand for the session. Many private houses that might otherwise furnish a lot of civic officials and other people for the "fit," which is raging with unwonted ferocity.

To add to the confusion the government is anticipating a number of deputations during the session. The word has gone out that the government is anxious to spend public money on public works, and nearly every city and town in the Dominion is passing up its plate.

Hard on Mr. Borden. The government has created conditions which will make life far from pleasant to the average member of parliament. He must make up his mind to pay about twice as much for his living as it has ever cost him before.

LIVE STOCK MARKET

With receipts of 119 cars and little over 2000 head of cattle at the Union Stock Yards yesterday, while the market was strong in spots, there was a decidedly weaker feeling, amounting, in fact, to a sharp decline in the medium to low classes all the way from 25c up to 50c in some cases. There was, too, a distinct falling off in the general quality of the cattle offered.

Some high prices were paid at showings in the sales, extraordinary in fact, up to \$17.50 for 2 steers and 2 calves, and \$12.00 for 2 steers and 2 calves, and \$12.00 for 2 steers and 2 calves.

The Corbett, Hall, Coughlin Co. yesterday sold a load of 1000 lbs. of Choice veal calves and choice lambs at firm and hogs are quoted 17 1/2c to 17c and 17 1/2c to 17c off cars, and \$12 to 14 1/2c F.O.B.

SIXTY YEARS OF LIFE LIKELY FOR HOLLINGER ORE BODIES

The most impressive feature in the 8th annual report of the Hollinger Consolidated Gold Mines is the increase in value shown by vein No. 44 between the 425 and the 800 foot levels. This is now the premier vein of the whole system. No. 50, which appears to be a continuation of No. 1, held first place until last year. No. 84 is in the northwestern side of the great congeries of veins which spread over the eastern portion of the Hollinger and the western portion of the Acme. They occur in a rectangular area about 2,000 feet long by 1,000 feet wide with the major axis pointing to the northeast. No. 84 is nearer the porphyry contact than any other vein on the Acme.

In 1918 and 1917 vein 50, further east, showed the highest aggregate production, namely \$5,053,450 in the former and \$5,252,210 in the latter year. Last year it declined to \$4,748,580.

The average of all the crushings in 1918 was \$10.24 as against \$8.67 in 1917. This, however, does not indicate any general advance to that extent in tenors all thru the workings.

Production Satisfactory. The \$5,752,370 which represent the production for 1918 must be regarded as entirely satisfactory in view of the labor conditions which show little, if any, improvement over former years.

In 1917 \$10,300,000 in new ore was brought into sight; 1918 was, however, an off year so far as the development of the mine is concerned, the total value of new ore being about \$6,700,000. In fact, A. F. Brigham, the general manager, says that no effort was made to effect any increase in the face of greatly adverse labor conditions and high prices for supplies.

There are 75 veins on the Hollinger Consolidated. Ten of these contribute \$1,000,000 to the ore reserves, and in fact each one of these latter veins would make more than an ordinary mine. It is these extensive vein systems which will in the end give Porcupine a great pre-eminence.

The plan for larger operations, which was suspended owing to war, will now be proceeded with as rapidly as labor becomes available. The ore removed and now in sight probably in excess of any gold mine in the world during 1918.

The average of all the crushings in 1918 was \$10.24 as against \$8.67 in 1917. This, however, does not indicate any general advance to that extent in tenors all thru the workings.

STRONG RALLY IN MINING MARKET

Solid Support on Reactions is Shown—Fresh Gain by Davidson.

Some irregularity was, as on Tuesday, evident in the mining market yesterday, but at the close the tone was distinctly strong. In most instances, and in almost all cases losses were either wiped out or brought into sight; 1918 was, however, an off year so far as the development of the mine is concerned, the total value of new ore being about \$6,700,000. In fact, A. F. Brigham, the general manager, says that no effort was made to effect any increase in the face of greatly adverse labor conditions and high prices for supplies.

DECREASE IN PRODUCTION OF GOLD

REPORT OF THE

Montreal, Feb. 12.—The report of the gold production for 1918, to be presented at the annual meeting of the International Association of Gold Producers, which is being held in London, suggests that the world's production of gold in 1918 was 440,143,000 ounces, or a 7 per cent decrease over the 470,000,000 ounces produced in 1917. The report also states that the production of gold in 1918 was 440,143,000 ounces, or a 7 per cent decrease over the 470,000,000 ounces produced in 1917.

RALLY IN MINING MARKET

Port on Reactions in Fresh Gain Davidson.

Activity was, as on Tuesday, mining market yesterday. The tone was distinctly bullish, and in almost all cases either wiped out or as being inconsiderable. Pre-taking exerted pressure in the morning, but once demonstrated that there are no reasons to be apprehensive, and also that it is difficult to accumulate any amount of stocks without bid. Brokers are dispirited, but two-sided market, and it is not likely to be a sudden dip and upturn, with enough capital to satisfy the market of quick turns. One of the gold stocks, the 65, a gain of half a point, and its announcement needed to complete the property are now in operation, and removing any water there in the workings during the day. Rapid developments, and as the 500-foot level encountered important results are being management, Baldwin listed stock, advanced 1/2 point higher. The most active of the Porcupine and 1 1/2, as pressure and sold as low as 28 at the close, where it was only a point. West after chequered career for after dropping to 1 1/2, there recovery to 1 1/2. The slight rise of Tuesday's closing, and its ground at 1 1/2, and 2 1/2, was off 1 1/2. Schur down at 42, and Porcupine half a point at 30. The most attention among broke rather badly to back strong, finishing early with Tuesday's close, and to remain a speculative time, and its fluctuations followed with perhaps more those of any other stock. The annual meeting will and the report to be presented to bear out semi-officially what has been created since the past few years. The company, and Ophir, at 8 1/2, was Peterson Lake was off half a point, and its ground at 1 1/2, and 2 1/2, was off 1 1/2. Schur down at 42, and Porcupine half a point at 30. GOOD RALLY MADE BY CANADA BREAD

Canada Steamships Also Sells Higher—Toronto Railway Under Pressure.

With the New York market closed in observance of Lincoln Day, it was not to be expected that stocks on the Toronto Exchange would break away yesterday from the narrow limits within which trading has been conducted of late, but it can be said that the market was considerably better than of the preceding day. Offerings of Canada Bread and Canada Steamships dried up abruptly, only a few shares of each being dealt in and at higher prices. Bread which sold at 15 on Tuesday afternoon with the closing bid as low as 15 was traded in at 19 1/4 yesterday with 19 1/2 bid for more and none offered. Twenty shares of Steamships changed hands at 48, an advance of a point, which the preferred at 78 was unchanged. Steamships common at the present price yields nearly 10 per cent on the investment, but there is considerable doubt as to whether such a dividend will be long maintained. Some liquidation in Toronto Railway attracted attention to the rather dubious dividend outlook at the present time. An opening sale of 42 3/4, a loss of 3/4, was followed by a further decline to 45 1/2 with the closing at the low point. There was no transaction in Rials in the afternoon, the stock being on offer at 46 without bids. Barcelona held at 10 1/4, but Brazilian weakened 3/8 to 50 1/2. Cement rallied 1/4 to 64 1/4, and N. S. Steel was 1/4 higher at 50. The war loans continued strong. The 1913 loan, which contributed practically one-half the total transactions, closed 1/8 up to 102. The 1923 loan, and the two 1917 maturities, which were also fairly active, also closed slightly higher. The transactions: Shares, 797; mines, 2,000; war loans, \$385,676.

DECREASE IN PROFITS OF PROVINCIAL PAPER

The report of the Provincial Paper Mills for 1918, to be submitted at an annual meeting on the 15th, shows a slight decrease in net profits, which are given as \$404,142, as compared with \$483,595 in 1917. After writing off \$15,000 for depreciation, paying \$119,000 as a 7 per cent dividend on the preferred shares, and \$80,000 as a four per cent dividend on the common stock, the net profit available for the two other classes of shares, a surplus of \$113,117 was left to carry forward, making the total surplus at the end of the year \$455,406.

DIVIDEND JUSTIFIED, NORCROSS CONTENDS

Montreal, Feb. 12.—J. W. Norcross, vice-president of the board to succeed Mr. Caruthers as president, commented briefly on the decision to declare a dividend. He stated that the company was in a strong position financially, and that the dividend was a conservative policy. Mr. Norcross, it was announced, retains his title of managing director, coupled with that of president.

BLACK LAKE INTEREST

Notice is being sent out by the Black Lake Asbestos and Chrome Co. of a payment of three per cent for the last half of 1918, on the second mortgage income bonds of the company. Payment will be made March 1. This makes the full 6 per cent for the year. Five per cent was paid in 1917.

IMPROVEMENT NOTED IN MONTREAL MARKET

Montreal Power and Dominion Glass Show Strength—Bonds Are Firm.

Montreal, Feb. 12.—A general improvement in both the stock and the bond list was noticeable in today's half session on the Montreal Stock Exchange, with Montreal Power and Dominion Glass the outstanding features. The former, closing second in activity in the listed stocks, with a turnover of 292 sold at 83 1/2, a net gain of the fraction, and, allowing for the dividend, a new high price for the stock. In the unlisted department, there was a continuation of strength and activity of Dominion Glass, which on sales of 107 shares added 1/4 to the previous close, on a maximum advance to 38 1/2. The close, 38, represented a net gain of one point. The preferred also was strong, but not active, sales of 50 shares resulting in a net gain of 2 points to strong tone. The 1923 and 1917 Victories were features of the bond department. The former was the more active and at 107 1/2 was marked up 3/8; the latter sold up to 102, a net gain of 1/4, touching the high for the month, made on February 3. While not particularly active, the bond list elsewhere showed a firm to strong tone. Total business for the day was 1,683 shares; 125 rights, 1555 unlisted shares, and \$250,500 bonds.

FALLING PRICES

Bradstreet's review of conditions in the United States says: Food prices have continued to ease, but not to the extent witnessed in preceding weeks, and while retail prices are reflecting past weakness at wholesale more fully, something like a check to further declines in prices of meat-producing animals is seen. At the same time, however, there is noted the fact that present prices for hog products are on the basis of 14 1/4-cent hogs rather than 17 1/2-cent basis established by the government for this month. A large quantity—some reports say 200,000,000 pounds—of hog meat and lard have been worked for export at Chicago. Some of the metal markets have at last responded openly to after-war conditions of supply and demand in a sharp cut, 4 1/2 cents, or to an 18 1/2-cent basis, for copper, with lower prices for lead and spelter also noted. While iron and steel, aside from iron bars, are not quotably lower, old metal, particularly scrap, has been again marked down. Print, cloth, gray goods, brown sheetings, hay, raw wool, potatoes, eggs, cheese, beans and other commodities went lower. Past week's index number, based on the prices per pound of thirty-one articles used for food, is \$4.64, compared with \$4.59 the previous week, and \$4.52 for the week ending Feb. 3, 1918. Last week's number decreases 1 per cent from the previous week, but increases 2.6 per cent over the like week last year, while 8 1/2 per cent down from the top of mid-December.

The Sale of Oriental Rugs

The Rugs are genuine specimens of Eastern handicraft, and reflect the wonderful skill and characteristic genius of the Oriental. The weaves and patterns are truly captivating. There are:

- Soruks
 - Irans
 - Kirmanshahs
 - Afghans
 - Mossouls
 - Laristans
- and Chinese Rugs

A silky sheen proclaims the beauty of the Soruk Rug—deep red and orange tints adorn the Afghans, the patterns of Irans and Mossouls are attractively quaint, and the Kirmanshah shows medallion designs and artistic colorings. These come in popular sizes for living-rooms and halls, from 3 x 5 ft. to 5 x 8 ft.

The Laristan Rugs are larger, and are obtainable in old rose, brown and all-over designs, in rich dark colorings. The Chinese Rugs come in deep blue, Chinese gold, peach and bronze, in elegant designs for parlors and living rooms.
