REPATRIATE QUEBECKERS

House Spends Most of Afternoon in Discussion on Reclaiming Lost French Canadians.

OTTAWA, Feb. 10.—(Special).—Urging an active propaganda for the repatriation of French Canadians residing in the United States, Dr. Paquette (Conservative, L'Est), started a discussion in the house which occupied nearly the whole of the afternoon. The debate was in French.

M. Lemieux, replying, said the Liberals by their tariff had stopped the exodus to the United States, and started the movement of emigration to the Canadian west. The P. M. G. did not think the priests of the New England states would support a movement to scatter their flocks.

F. D. Monk followed with a criticism of the character of immigration that is pouring into the west. He ridiculed the idea that the tariff had anything to do with the exodus, and claimed that French-Canadians were still leaving the country.

Hon. L. P. Brodeur quoted statistics to show that the French Canadian population of the New England states was diminishing.

Many other Quebec members took part in the discussion. The resolution was finally adopted. Before this, however, some questions were answered. Mr. Armstrong was informed by the postmaster-general that the number of mail and stage routes in Canada on March 31 last was 8091; the total number of miles travelled in the year being 17,102,214.

Mr. Graham said in answer to Mr. Gervais, that the government had not entered into an agreement with regard to the construction of a branch line between Montreal and the G. T. P., nor was it about to make such an agreement.

Mr. Marshall was informed that in four years the sum of \$16,458 had been expended on Port Bruce harbor and the matter of expending money on dock this year was under consideration.

"I am sorry, but my hon. friend will have to wait for the budget speech," said Sir Wilfrid, replying to Mr. Hain, who asked if it was the intention to increase the tariff on hogs coming into Canada from the United States.

Mr. Fisher, replying to Mr. Percy, said the total expenditure from 1904 to 1908 for animals slaughtered was \$1,209,452. There was no compensation for the slaughter of animals on account of bovine tuberculosis.

Major Sharpe (North Ontario) was told by Sir Frederick Borden that no militia officers in Ontario supplied at their own expense armories for storing the property of the government, but 188 officers were paid an allowance for the credit of arms and they were required to provide accommodation out of that allowance. It was the policy of the government to supply armories for the headquarters of infantry regiments, but in carrying out this policy it was necessary to have regard to localities and the militia appropriation.

Col. Sam Hughes gives notice of a resolution declaring "that the best interests of Canada as well as of each component part of the British empire would be served by a full partnership union of Great Britain and Ireland and the dominions of Canada, New Zealand, Australia, South Africa and India, wherein each retaining under its own control all matters specially concerning it, all would rise on an equal and independent footing, in a full partnership union government, dealing only with inter-imperial, international, imperial, fiscal and imperial defence questions."

Geo. Talbot (Beauce) will question the government concerning the address given by Major-General Sir Percy Lake in Toronto on Feb. 4th.

SEARCH FOR EXPLORER

Belief Expedition Will Be Organized to Look for Dr. Cook.

NEW YORK, Feb. 10.—At a meeting here to-day a committee of ten was organized for the purpose of equipping a relief expedition for Dr. Frederick Cook of Brooklyn, who is supposed to be wintering somewhere in the polar regions, after an attempt to reach the pole last summer.

Members of the committee hope to raise the \$200,000 needed to equip the expedition in time to charter the Arctic steamer Erik, now at St. John's, and start in search of Dr. Cook not later than July 15.

NFD. LEGISLATURE CALLED

Governor Macgregor Has Summoned It to Meet Feb. 27.

ST. JOHN, N.F., Feb. 10.—Public notice in the Gazette that the Newfoundland Legislature is renewed by the action of Governor Macgregor in issuing a proclamation summoning it to meet Feb. 27.

There has been no session since the general elections last November, when Sir Robert Bond, premier, and Sir Edward Morris, leader of the opposition, each succeeded in electing thirteen members.

If neither side is able to carry on the government during the coming session, another general election will probably be ordered.

An Army of the Empire

LONDON, Feb. 10.—Speaking at a military dinner in London to-night on the role of the territorial army in the various problems of defense against possible invasion, the Rt. Hon. R. B. Haldane, secretary of state for war, announced that the government is negotiating with its dominions over the seas with a view to the creation of an army of empire, and not of Great Britain merely.

Secretary Haldane referred also with great satisfaction to the fact, as the outcome of the recent agitation, 3000 recruits had joined the territorial army and 100 applications had been received for commissions.

WOMEN ARE ANXIOUS TO WITNESS HANGING

Two of Them Calmly View the Scaffold at Own Request—Radclyffe Sleeps in Jail.

BRAMPTON, Feb. 10.—(Special).—The grave is dug, the coroner's jury picked, and the officiating priests are here. By the time the morning papers are in the hands of most readers, Stefan Swyryda will have paid the penalty for the cold-blooded murder of Olecka Luteick, the Galician boy, 17 years of age. Barring accidents, he will be executed at 7:30 a. m. to-morrow.

He was requested to do so by High Sheriff Robert Brody, who is not in any way uncomfortable a mood, and who wants to be absolutely certain of no hitch in the arrangements. So Radclyffe reluctantly acquiesced.

Rev. Father Morrow, whose parish embraces the district of Orangeville, and the Brampton and Cataract missions, will be the officiating clergyman, with the Polish priest of West Toronto as his assistant.

Father Morrow had an hour's earnest conversation with the condemned man to-night, and found Swyryda still unchanged regarding his protestations of innocence. The priest seemed deeply impressed. His main duty was to witness the confession, and consequently no absolution has been administered, but he has taken the sacrament.

Swyryda's cell is the first grave in the jailyard, and will be left unmarked by either head or foot stone. To-night he moved from his cell on the top floor to one on the ground floor of the jail, the outside walls of which are of Polish extraction he has dealt with in the past few days, and to-night, at his own request, was given some whiskey.

Radclyffe is nervous, the necessity of sleeping in the same prison with the condemned man being an unusual experience. In his many years' experience as public executioner, he says, he has put representatives of twenty-one races out of existence. This is the third of Polish extraction he has dealt with, and Sheriff Brody says it is remarkable the number of requests he has himself received to witness the execution.

To-day, after much urging, he yielded to the importunities of two ladies, and permitted them to view the scaffold. They walked up the gang-plank and gazed down into the 12-foot pit with, as casual an air as might Radclyffe himself. The sheriff was astonished at their coolness and nerve.

At 7 a. m. the coroner's jury will meet in the courthouse to await the execution of the sentence pronounced by Justice Riddell, Nov. 18 last, and at about 8 o'clock the inquest will be held. Justice Riddell is explaining in the assizes why for the third time he refused the application for a stated case to go to the court of appeal, said that after the trial counsel for the prisoner were asked if they had any objection to offer, and said they had not. He says also that there is no room for weak sentimentality, or even pity.

TAKE THE DOCTOR'S PART

Ontario Friends Subscribe His Recent Fine, and Hospital is Benefited.

NIAGARA FALLS, Ont., Feb. 10.—(Special).—Fined \$25 for practicing medicine in this city, Dr. Thomas Snyder of Niagara Falls, N. Y., physician, had had this sum presented to him by Canadian admirers, and has offered to present the money to the local hospital to endow a bed to bear his name.

In addition he will subscribe all moneys derived from his Canadian practice from now until June, and will present it to the hospital.

Being a border town, much feeling has arisen over the affair and talk of retaliation on Canadian workers in the American city was for a time indulged in.

Dr. Snyder, who is a native of Berlin, Canada, took a prominent part in the recent Canadian elections, and is graduate of Queen's University. He is, however, fully qualified to practice in Canada.

FOILS PLAN TO ESCAPE 'TOMBS'

Attorney Jerome Figures in Sensational Affair Which Results in Four Arrests.

NEW YORK, Feb. 10.—What is believed to have been a well planned plot to escape from the Tombs prison was broken up late to-day by District Attorney Jerome and two detectives, who dashed thru Judge Malone's court, while it was in session, and ran to the prison across the street and ordered all the doors locked and no one permitted to pass in or out.

The district-attorney then went to the cell of Harry Mercer, recently extradited from California, under fraud charges. Mercer, it had been learned, intended to escape. A disguise was found in his cell.

Other prisoners stated that Mercer planned to pass out with discharged prisoners to-day.

Meanwhile detectives came upon an automobile standing near the prison and took the chauffeur and another man into custody.

District Attorney Jerome conducted an investigation to-night into the affair. As the result, four arrests were made. The prisoners are Joseph A. Shay, a lawyer and one of the counsel for Thornton J. Hains; Walter P. Peck, who was known at the Tombs prison as Walter F. Williamson, where he went occasionally to visit Harry Mercer, and two keepers in the Tombs, Peter J. Howard and John J. Molloy.

The two keepers were charged with a violation of the rules of the prison in not compelling a visitor to register his name in the book kept for that purpose. They were held in \$250 bail each for examination, which they furnished.

Shay is held in \$3000 bail. A. M. Peck is said to have made an attempt to District Attorney Jerome. One of the men went into the Tombs taking a fur overcoat, a pair of eyeglasses and a cap to Mercer, with which the book kept for that purpose was past the guards and escape from the prison. This man is said to have taken in a time table and a roll of money to Mercer, who was to go to Goldfield, Nevada, to-day.

The automobile was hired and the chauffeur and the man with him are said to have no knowledge of the plot.

NEXT CUSTOMS COLLECTOR

Fred G. Inwood is Mentioned as a Likely Appointment.

The vacancy as collector of customs may, or may not, be filled by a Toronto man.

The local patronage committee, while influential, have not got the "making of the man," for the customs port of Toronto embraces more than the City of Toronto. In any event, the minister of customs himself will take it on himself to make an appointment suitable to himself.

Petitions are already in circulation among business men, asking that the minister of customs take into consideration the principle of promotion and advance J. H. Bertram, the present surveyor, to the vacancy. This would result in promotions all along the line.

But the most likely appointee will be an outsider, and it is said that Fred G. Inwood, the provincial Liberal organizer, is favored by many whose opinions will bear weight. Mr. Inwood, it is pointed out, has done yeoman service for the party for the past twenty years, and is now entitled to a reward, especially in view of the successful conclusion of the federal campaign in Ontario.

Other names already mentioned are those of ex-Mr. Dr. Adam Lynd and ex-Mayor Urquhart.

COMPEL IRISH LANGUAGE

National Convention Favors Stipulation in University Matriculation.

DUBLIN, Feb. 10.—The Irish national convention held its second day's session at the Mansion House to-day, and, compared to the storm scenes of yesterday, when the speeches of the minority were shouted down, the proceedings were very orderly.

John Dillon, however, drew a hot fire when he opposed a motion to the effect that the Irish language should be among the compulsory subjects for matriculation at the national university.

He took the ground that compulsion would not induce the people who do not study their native language unless compelled to do so. The Gaelic League, however, carried the convention, and the motion was approved.

Other resolutions included thanks to the people of America for their generosity in supporting the Irish cause.

CANNOT SUE IN B. C. IF WITHOUT LICENSE

Restriction Under Which Business Houses in the East Are Compelled to Trade on Coast.

Is taking suit proceedings doing business? It is, according to a decision handed out by the courts of British Columbia recently. The decision holds that a company incorporated or registered in a province outside of British Columbia and not holding a license in B. C., cannot take action against their creditors in B. C., as, according to the court, taking proceedings is doing business and it is against the law and punishable by a fine for any company whose charter is held outside of the province to do business there without a license of a B. C. charter.

The decision, which was given by the highest court in British Columbia, holds that the restriction will apply only in respect to contracts made by or business done in British Columbia. This will doubtless affect all orders taken by travelers or agents, and in order to register or obtain this license, it is necessary to make formal application to the registrar of companies in the province. The fee, in cases where at least 50 per cent of the subscribed capital is invested outside British Columbia, is \$250; otherwise the fee is much smaller.

N. L. Martin and Company, the assignees, are sending a letter explaining the state of affairs to incorporated companies in Ontario, through their Toronto office, in Manitoba, thru their Winnipeg office and in Quebec thru their Montreal office. They got the opinion of their British Columbia solicitors as to the state of affairs. Companies doing business in British Columbia are rather uncertain as to their legal rights there.

The letter closes: "As the matter now stands, therefore, all Ontario and Quebec incorporated companies will be required to obtain this license if they wish to sell goods by traveler in the province in question, if they wish to have the right of legal redress."

The firm to whom the decision was given have carried their case to the supreme court of Canada.

CANADA ON THE VERGE

It Brains Rejection of Tariff Overtures, S. May Repeat the Offer.

LONDON, Feb. 10.—(C.A.P.).—Mackinder, Unionist candidate in the border boroughs, in urging tariff reform, declared that when in Canada Canadians told him "five years ago you could have made a better bargain than to-day: five years hence you can make none at all."

The Scotsman, commenting, says that reciprocity is growing in force on the other side of the Atlantic, and it is impossible to say how long Canada will maintain its present attitude towards the United States.

DOES IT PAY?

KINGSTON, Feb. 10.—The civic light plant did well during 1908, yielding a revenue of \$4500, compared with \$1400 in 1907. Of this, \$4024 is profit on electricity. Gas showed a deficit of \$508.

All this was done in spite of the fact that rates were reduced.

\$100,000 Is Secret Gift For McGill

Identity of Subscriber Not Made Public—Given Conditionally—Unknown Gives \$25,000.

MONTREAL, Feb. 10.—(Special).—A donor who desires to conceal his identity gave \$100,000 to McGill to-day, on condition that an additional half million dollars be raised. The total of \$600,000 to be put into a general fund for the use of the university. The time is stated for the collection of the half million.

Principal Peterson said to-day that he already had on hand about \$100,000 for the fund, including \$50,000 from Robert Reford, and another gift of \$25,000, also made to-day by an unknown benefactor.

FATAL GALE AT NEWARK

WAGONS ARE OVERTURNED

One Driver Killed and Another Seriously Hurt—Some Buildings Are Unroofed.

NEWARK, N. J., Feb. 10.—One person was killed, another injured, possibly fatally, and serious material damage done late to-day when a wind of hurricane force struck this city.

Roofs were torn off buildings, signs blown down and the telegraph and telephone systems temporarily paralyzed.

David H. Bowditch, 65, driving a wagon, which was blown over and hurled to the pavement and died shortly after.

Samuel Gallize, 16, another driver, was caught under his overturned wagon and seriously injured.

SCHOONER WRECKED.

DELAWARE BREAKWATER, Del., Feb. 10.—Driven before a terrific gale of wind that blew at the rate of sixty miles an hour, the four-masted schooner, Sarah W. Lawrence, from Newport News with cargo of coal for Boston, was to-day blown aground on the Hen-and-Chicken Shoals off Cape Henlopen, Del., and is now pounding to pieces.

The crew of nine men and the captain's wife were rescued in the nick of time by the Cape Henlopen life-boat after a thrilling experience.

The schooner broke in two after the ten persons had been taken off. They were landed at Lewes, Del.

COLORADO STORM BOUND

Thirteen Snowslides Help to Block the Railway Traffic.

DENVER, Col., Feb. 10.—The storm that raged thru Colorado for the past 24 hours was one of the worst experienced in the state.

Never before have the railroads been so blocked by snow and slides. The passes thru the Rocky Mountains are nearly all blocked, and traffic over the Denver & Rio Grande and Colorado Midland is almost suspended.

Thirteen snow slides are reported between Durango and Silverton, and the Georgetown loop line of the Colorado & Southern is closed. Rio Grande east-bound train No. 6, which is 60 hours late, and which narrowly missed a rock slide at the Utah line two days ago, is again blocked at Shoshone, the slide there descending but two minutes before the arrival of the train.

U.S. ATTACK ON SPAIN FEAR THAT ENDED WAR

Publication of Correspondence Reveals That Premier Sagasta Was Also Afraid of a Revolution.

MADRID, Feb. 10.—Following the publication of certain cablegrams exchanged between the Spanish Government at Madrid and General Blanco at Havana, relative to the surrender of Cuba to the United States in 1898, it is learned that, fear of an American attack up on the coast of Spain and a subsequent revolution in this country was the official reason for Premier Sagasta's decision to make peace with the United States. Moreover, this decision was reached before the negotiations for the surrender of Santiago were concluded.

These facts have been disclosed by the further publication of the correspondence between General Blanco and Premier Sagasta at the instigation of Blanco as a defence against the charge of cowardice made against the Spanish army in Cuba by a Catalan deputy.

A despatch received by the Spanish Government on July 3, 1898, from General Blanco, insisted that the army, altho crippled by the loss of Cervera's fleet, was ready and anxious to continue the war, but both the minister of war and Premier Sagasta replied on July 12 that as the Americans were masters of the sea and were preparing to attack the Balearic Islands and the Spanish Coast, which would be certain to produce an uprising in the interior, peace was imperative.

General Blanco, protesting to the last, finally agreed to obey orders and surrender.

ASSASSINATED IN COURT

Public Prosecutor Shot Dead in Suburb of Calcutta.

CALCUTTA, Feb. 10.—Ashutosh Biswas, a public prosecutor, was shot dead to-day in the court of Alipur, a suburb of Calcutta, by a youthful Benga.

Biswas was the official who prosecuted the recent anarchistic conspiracy case.

This revival of assassination, after a period of comparative quiet, has caused a sensation.

TOWNSHIP HAS BEEN SHIFTED

Unexpected Move at Gowganda—500 Lots Being Surveyed—Four Banks on the Ground.

GOWGANDA, Feb. 4.—(From our man on the trail).—The latest move on the Gowganda chess board has created a sort of a mild sensation in this infant town. The government has caused this furtive of emotion among buyers of lots by joggng a bit to the south on the east side of the lake.

By this I mean that the township has been slightly shifted, not materially, but significantly. After all, the people make the town, not a surveyed lot, and the people are making this town to-day without waiting indefinitely until the government plot is ready for occupancy.

And now the government has come to the people.

Yesterday the outpost stakes were moved and the blue pencil has put an abrupt smudge on Messrs. Hoigins and Hamilton's claims, so that now they have two left, which are those claims upon which there are no buildings.

Government Surveyor Rorick put the order into effect that has shaded deeper the tangle that will eventually have to be unraveled. It will probably be a repetition of the Cobalt township readjustment. Those who have unknowingly squatted upon a street will have to move some time. And those who have in the excitement of things paid three and four hundred dollars for the "right" on certain lots, may find themselves also in the street.

This anxiety among squatters, however, ought soon to be relieved, as the government survey will be ready in ten days. Just at present they are surveying out 500 lots at the north end of the lake.

And on the other hand, if the government cared to spend a little more money they could carry out on more men and get matters straightened away in a hurry. Everybody else is hurrying—except the government.

Buildings springing up. In the meantime, the town is growing—spreading to the north, where many buildings are being put up. Jimmy Knowles' sawmill is running day and night, in order that the demand for lumber can be satisfied expeditiously as possible.

The Royal Bank secured the first two thousand feet at \$40 a thousand, which is to be the regular price. The same bank have their site installed in their building. The site weighs 7000 lbs. and it was brought in at a cost of \$200 for freight, with a four horse sleigh on the road with it for some days.

W. H. Gallagher of Forest, Ontario, will manage the Bank of Commerce at this point, and it is more than likely

PRESERVING MOOSE

Minnesota Authorities Favor a Breeding Ground.

MINNEAPOLIS, Minn., Feb. 10.—(Special).—The Canadian committee appointed by the North American Game Protective Association to work on the proposed international preserve for moose, will come to Minnesota for conference with state officials and legislative committees, Feb. 15.

The committee consists of Arthur Hawkes, superintendent of publicity for the Canadian Northern; W. A. Preston, M. P. of Fort Frances, Ont., and A. H. Davidson of Winnipeg.

The Minnesota authorities are heartily in favor of a plan which will preserve a breeding ground for moose on both sides of the Rainy River, the international boundary. It would include about 15 townships in northern St. Louis County, which is high and rocky land, bearing little timber of value and containing a small acreage of agricultural land. It bears a shrub on which the moose feed and is a favorite haunt.

WINDSOR WANTS INDUSTRIES

Publicity Promoter Will Be Engaged to Tour the States.

WINDSOR, Feb. 10.—(Special).—At the annual meeting of the board of trade it was decided to engage a publicity promoter to visit American cities with a view to inducing factories to locate branches here.

Mayor Wigle urged prompt action along this line and pointed out that the new French treaty should attract no less than a million dollars to Windsor. W. C. Kennedy, manager of the Windsor Gas Co., was elected president, to succeed J. F. Smyth; O. E. Fleming as vice-president, and C. T. Acken as secretary-treasurer.

NO-LICENSE LEADS

Carries in Twelve Towns in St. Lawrence County, N.Y.

OGDENSBURG, N.Y., Feb. 10.—The highest that has been waged in St. Lawrence County over the license question culminated to-day at the town elections in twelve towns, voting for no license, and nine for license. The vote of four towns resulted in a majority in each in favor of license, being granted only to hotels. In six towns there was no balloting.

WASHINGTON, Feb. 10.—The senate committee on foreign relations did not take up the Canadian boundary waters treaty to-day. A special meeting will be held Monday next.

Senator Smith of Michigan has been invited to present his objections to the ratification of the treaty.

INTEREST TO WOMEN

Concerning Vague Rumors

When a few years ago we were launched into what we then called the picturesque phase, probably no one imagined that this "phase" would have no end of sub-phases, and pass from one kind of picturesqueness to another, over and over again, until we have almost ceased to imagine that silks could have ever been stiff and stand alone. Over and over again during this picturesque period we have thought the rebound was coming, but with always a dread that this "phase" would have no end of sub-phases, and pass from one kind of picturesqueness to another, over and over again, until we have almost ceased to imagine that silks could have ever been stiff and stand alone.

Four Tankard Teams Left

Hockey O.H.A. Scores

Still Another New Park

Note and Comment

On the form displayed in the first round of the Ontario Tankard finals yesterday, the curling experts will tell you that the Granites should win. They defeated Sarnia by a long margin on both rinks, every man in the 'git playing steadily thru the eighteen ends. Their opponents in the semi-final this morning are the Hamilton Thistles, who probably were not at their best against Guelph yesterday, and the men from the mountains must improve to meet Rennie and Tom Wilson. The winner meets Orillia or Ingersoll in the afternoon.

And where are our old friends, the Scarborough Maple Leafs? Guess the ice was too slippery and they fell down; straight way to lose!

Anyhow, it is a grand gathering of either of the team, and the galleries are crowded throughout the play by those who have seen their best and others willing to learn.

The contest for the Governor-General's prize starts yesterday afternoon at a harder battle than the one which was fought at Dundas at Prospect Park.

The Canadian curlers seem to have settled down to a campaign of conquering their Scottish opponents, writes a correspondent from Glasgow. It is true that their superiority is not quite so striking as that of the teams which the Scotsman who visited Canada, but it is sufficient to show, first, that Canada has sent a team of good players, and second, that the Canadians have a considerable advantage in playing day after day on one rink, with ice of a practically unchanging character.

While the Californians in recent years were building up a reputation for beating clubs, not too long ago they had the habit of losing by the largest margins.

Granites v. Hamilton Thistles And Orillia v. Ingersoll Left

Ontario Tankard Semi-Finals This Morning and Final Game This Afternoon—Play for Governor-General's Prize.

Owing to the mild weather in the morning the first round of the Ontario Tankard finals was not played till yesterday afternoon, and then two of the games were shifted from Victoria to Queen City Ice. There the Granites dropped three on the first end, but two on each rink the next gave them a lead that Sarnia could not molest, and when it was all over Tom Wilson and Rennie had won the game by an even dozen.

The Guelph Royal City Irishmen gave the Hamilton Thistles doctors a harder battle than they had met in any of their long margin over Bob Dillon that carried the medical men thru. Dr. Edgar started out at a gallop that he failed to maintain, having to let at five rinks. Then Maloney held the lead for the next four, and soon had a lead that would have been valuable had his partner been able to put on a similar spurt at the finish.

At the Granite rink Henry Thomson of Scarborough showed that all ice looked alike to him, and he beat Toogood of Orillia 2 to 10, but, alas! Will Rennie went on the rink under the weather, and his men, too, did not show their proper form. At that, Skip Stewart and his team were always on the spot, and they made 24 on a dozen ends while the Leafs were collecting anils.

Both Ingersoll rinks were up against Harrison. The games will be continued to-day morning at Queen City and Ingersoll meeting Orillia at Granite. The winners of the semi-finals meet this afternoon in the final for the Tankard. Yesterday's scores:

Granite—At Queen City—Granite, 2; Sarnia, 10. Hamilton Thistles, 1; Orillia, 10. Ingersoll, 2; Scarborough, 10. Hamilton Thistles, 1; Orillia, 10. Ingersoll, 2; Scarborough, 10.

O.H.A. ARE WINNERS OVER OSGOODE TEAM

Rowing Club Win at Port Perry, and Lindsay at Peterboro—Haileybury Win.

Condition, aided by better team work and more accurate shooting, gave T.A.A.C. a victory over Osgoode in a Senior O.H.A. game at Mutual-street last night. The score was T.A.A.C. 5, Osgoode 2, with the teams a tie at the interval, 1-1.

Osgoode were lamentably weak in shooting, especially the two wings, the forwards having to get in on the nets, the result being T.A.A.C. defence only waited for them to come and then blocked the shot. At that, with an aid of luck, Osgoode should have had a lead of four or five goals in the first half, many glorious chances being wasted, due to the centre players not playing their positions, something they never did thruout the entire match.

The first 4 minutes was very bad hockey, neither team showing any class, Osgoode finally notching the first goal, which A.A.C. tied in the first half. Osgoode tallied the first goal in the second, Ebbs doing the trick in the prelude to the night's play.

The Osgoode forwards were better balanced team and being in better condition, they gradually wore down the students, while the T.A.A.C. defence was very bad hockey, neither team showing any class, Osgoode finally notching the first goal, which A.A.C. tied in the first half.

Lindsay was a great victory for the Osgoode team, and they were able to put on a similar spurt at the finish. At the Granite rink Henry Thomson of Scarborough showed that all ice looked alike to him, and he beat Toogood of Orillia 2 to 10, but, alas! Will Rennie went on the rink under the weather, and his men, too, did not show their proper form.

Both Ingersoll rinks were up against Harrison. The games will be continued to-day morning at Queen City and Ingersoll meeting Orillia at Granite. The winners of the semi-finals meet this afternoon in the final for the Tankard.

Benning Announced a Meeting.
WASHINGTON, Feb. 10.—The trustees
of the Washington Football Club have
meeting yesterday, decided to hold a
spring race meeting at Benning. The
meeting will follow the national foot-
ball and are to be held before the Canadian
circuit opens. The local club will en-
deavor to get dates after the Emilio
meeting.

Polo Tournament.
NEW YORK, Feb. 10.—More than forty
delegates, representing the polo clubs
throughout the country, attended the
meeting of the Polo Association to-night.
H. Herbert was re-elected chairman. Vari-
ous club tournaments and the national
championships were arranged. The lat-
test event was awarded to the Point Ju-
dith Country Club, Narragansett, Aug-
ust, to both the senior and junior cham-
pionships to be played in the one tourna-
ment. The dates of club tournaments in-
clude Aug. 24, Saratoga; Sept. 6-11,
Buffalo.

Quaker Cricketers Win in Jamaica.
KINGSTON, Jamaica, Feb. 10.—The
Philadelphia cricketers, who arrived at Port
Antonio last night, and yesterday met
the local club in a one-day match. The
wicket was tricky as the result of rain.
The Jamaicans went to bat first and made
a total of 40 runs. The Philadelphians in
their turnings scored 86. The next match
will be a two days' one between the
Americans and a combination of players
from the north and south sides of Ja-
maka.

Young Corbett a Winner.
PITTSBURGH, Feb. 10.—Young Corbett
of New York, former lightweight cham-
pion of the world, fought six rounds with
Mull Bowser of Pittsburgh to-night at the
Waldstein Auditorium. No decision was
made, but Corbett had decidedly the bet-
ter of it.

R.C.Y.C. Want More Footers.
The sailing committee of the Royal
Canadian Yacht Club, feeling that the
club's 16-foot skiff class ought to be en-
couraged, have decided to purchase
more boats. They hope that the members of the club
will avail themselves of this opportunity,
and that this year many new 16-footers
will be added to the R.C.Y.C. fleet.

Reliance Athletic Club.
The Reliance Athletic Clubrooms on
Strange-street are a busy scene these
nights with the boxers in training for
the city amateur tournament. The men
are progressing well under the eye of
Billy Barker. The club's annual carnival
has been postponed until Tuesday, Feb.
16, at the Maple Leaf Rink, when the
first tickets will be sold.

British United Football Club will
hold a meeting at the club rooms, 205
Parliament-street, next Monday.
Any player wishing to join the club
are welcome to attend. They will run
a strong season next season to
bring the cup to Parliament-street. The
old warriors already signed for the team
are Tuckwell, Hawkins, and Harding.

EASTERN LEAGUE'S VICTORY

Boston Ball Club President Fears Class
AA Will Have Too Much Lewway.

BOSTON, Feb. 10.—President George
Dovey of the Boston Nationals is of
the opinion that if the Class AA clubs of the
American Association and Eastern League
have their request granted, that all drafted
players upon whom claims have been
waived, the major league of which they
were members shall be turned over
at once to the Class AA clubs, such an
arrangement would be a great injury to
the prejudice of the major leagues. He con-
tends that Class AA gets a chance
at these players, both major leagues
should have waived claim.

The point which Mr. Dovey raises is
that, after all American League clubs
have waived claim to a drafted player of
any club, the National Commission
League clubs should have an option on
his services before he is turned over to
the Class AA clubs, and likewise the
American League should have the same
option on National League players. If
the National Commission proposes a rule
based upon the Class AA proposition at
the meeting of the major leagues in Chi-
cago, Mr. Dovey, President Dovey, would
move an amendment to the protection of
the major leagues.

President Dovey is in favor of limiting
reservation lists to 25 players before the
opening of the season, and after Mar-
ch 15. He would have the National Com-
mission a clearing house for all players.

Sculler Greer in Shape Again.
BOSTON, Feb. 10.—Frank Greer, the
crack oarman, recovered from his
operation and is out of the hospital again.
The doctors tell Greer that he will be
in much better shape to row now than
he was before, and he looks forward to
a good season on the water. Greer met
with a serious accident while rowing in
Washington, and this occasioned
his operation.

Prize Winners at Dog Show.
NEW YORK, Feb. 10.—George J. Gould,
Richard and Samuel Lusk, and
owners were among the more promi-
nent prize-winning dogs at Madison-
square Garden yesterday. Mr. Gould
took the cup for his pointer dog, Furlough
Duster, in the novice class, and the honor
in this class also. Mr. Lusk's pointer
dog, Furlough Capt, took first prize
in the furlough class, and the honor
in this class also. Mr. Lusk's pointer
dog, Furlough Capt, took first prize
for bulldogs over 45 pounds, while
Samuel Lusk's pointer dog, Furlough
Duster, captured 45 pounds.

Holcher Goes to National Bureau.
MONTREAL, Feb. 10.—Wm. Shields, the
notorious horseman, who has spent the
past few days here, contacted the thor-
ough stallion Holcher to the National Bureau
of Breeding. Holcher is by Lamplighter
out of a Princess mare, Prince Lo-
rairie, and is 6 years old. He was a great
long-distance runner in his prime.
Holcher was bred by the late Mr. John
Dixie Stakes, at 1 1/2 miles; the Max-
imum at 2 1/2 miles; the Washington
Cup, at 3 miles; and the Washington
stallions as fast as they possibly
could be obtained. Holcher was bred
by Jack Atkin, twice, and has placed at
La Prairie, Quebec, and Ostrich, winner
of the Ontario Derby and many other
races, has been sent to Avonmore,
Ont. An effort is being made to get
seventy-five stallions by one.

EASTERN LEAGUE'S VICTORY

Boston Ball Club President Fears Class
AA Will Have Too Much Lewway.

BOSTON, Feb. 10.—President George
Dovey of the Boston Nationals is of
the opinion that if the Class AA clubs of the
American Association and Eastern League
have their request granted, that all drafted
players upon whom claims have been
waived, the major league of which they
were members shall be turned over
at once to the Class AA clubs, such an
arrangement would be a great injury to
the prejudice of the major leagues. He con-
tends that Class AA gets a chance
at these players, both major leagues
should have waived claim.

The point which Mr. Dovey raises is
that, after all American League clubs
have waived claim to a drafted player of
any club, the National Commission
League clubs should have an option on
his services before he is turned over to
the Class AA clubs, and likewise the
American League should have the same
option on National League players. If
the National Commission proposes a rule
based upon the Class AA proposition at
the meeting of the major leagues in Chi-
cago, Mr. Dovey, President Dovey, would
move an amendment to the protection of
the major leagues.

President Dovey is in favor of limiting
reservation lists to 25 players before the
opening of the season, and after Mar-
ch 15. He would have the National Com-
mission a clearing house for all players.

Sculler Greer in Shape Again.
BOSTON, Feb. 10.—Frank Greer, the
crack oarman, recovered from his
operation and is out of the hospital again.
The doctors tell Greer that he will be
in much better shape to row now than
he was before, and he looks forward to
a good season on the water. Greer met
with a serious accident while rowing in
Washington, and this occasioned
his operation.

Prize Winners at Dog Show.
NEW YORK, Feb. 10.—George J. Gould,
Richard and Samuel Lusk, and
owners were among the more promi-
nent prize-winning dogs at Madison-
square Garden yesterday. Mr. Gould
took the cup for his pointer dog, Furlough
Duster, in the novice class, and the honor
in this class also. Mr. Lusk's pointer
dog, Furlough Capt, took first prize
in the furlough class, and the honor
in this class also. Mr. Lusk's pointer
dog, Furlough Capt, took first prize
for bulldogs over 45 pounds, while
Samuel Lusk's pointer dog, Furlough
Duster, captured 45 pounds.

Holcher Goes to National Bureau.
MONTREAL, Feb. 10.—Wm. Shields, the
notorious horseman, who has spent the
past few days here, contacted the thor-
ough stallion Holcher to the National Bureau
of Breeding. Holcher is by Lamplighter
out of a Princess mare, Prince Lo-
rairie, and is 6 years old. He was a great
long-distance runner in his prime.
Holcher was bred by the late Mr. John
Dixie Stakes, at 1 1/2 miles; the Max-
imum at 2 1/2 miles; the Washington
Cup, at 3 miles; and the Washington
stallions as fast as they possibly
could be obtained. Holcher was bred
by Jack Atkin, twice, and has placed at
La Prairie, Quebec, and Ostrich, winner
of the Ontario Derby and many other
races, has been sent to Avonmore,
Ont. An effort is being made to get
seventy-five stallions by one.

THE GLOBE DEFENDS THE MELON. Toronto Globe, Feb. 10. The prominent and prodigious bargain made by the Canadian Government with the Canadian Pacific Railway restrained the government from regulating rates until the railway was clearing ten per cent. on its capital. In subsequent issues of stock, much below par, there was no attempt to protect the public.

part of the city for what is now styled the Northwestern High School, an outgrowth of the overcrowding of the Harbord Collegiate Institute. The school is situated in the third part of the King Edward Public School; third, the enlarging of the Harbord Institute to the capacity of a 600 or 800 right school to meet the requirements of that large and rapidly filling up portion of the city between Huron-street and Bloor-street, and as far north as Dover-street.

The question of a technical school site is being grappled with by the board of education, and, no doubt, will be certainly should be. A site for the new school presided over by Principal Cox should immediately be purchased and building operations should be proceeded with this summer, so as to have the school properly housed by September, 1910. The rooms in King Edward Public School, attendance, and cannot be legally used for high school purposes much longer. The policy of the board is to purchase a site, poor one, and this is what is being done by crowding public school pupils out of King Edward School in order to meet the deficiency in high school accommodation.

While the needs of the north are being anticipated in obtaining a high western high school, it should not be forgotten that just as soon as that school is ready for occupation on its present site, south of the West Hill, the Harbord district will be clamoring for accommodation for 100 or 150 more pupils than it can now admit. Some 500 pupils present themselves for admission in September. Two hundred of these were transferred under compulsion to the new school on Bathurst-street, which is in the center of the Harbord district, and relieves Harbord temporarily by taking all pupils of a certain grade to the east of the present school. Harbord was recruited this year entirely from the west, and many pupils who find Harbord their natural centre are debarred from attending it. Remove the school to the east of the north and the congestion immediately returns, and no geographical manipulation can remedy it. Enlargement of the Harbord building is the only remedy.

It ought not to be necessary to argue the question again, as this was all threshed out last year when the public money was paid over to the company. The money was then settled. The money cannot be diverted to any other use, unless the company's future is only a cause of exasperation. Economy and caution are necessary in school affairs, but dilatoriness in providing absolutely necessary accommodation is inexcusable, especially when the money is in the bank.

AN OUTRAGE ON THE PEOPLE. Weekly Sun, Feb. 10: To Mr. Maclean of South York, the people of Canada in general, and of western Canada in particular, are under an obligation for his action in calling the attention of the public to the proposed issue of the Canadian Pacific directors to issue \$50,000,000 of new stock to present shareholders at one cent, divided under the original capital, a one-tenth per cent. basis on C.P. stock is now selling for the open market.

This action, as Mr. Maclean pointed out in parliament, and as had previously been made clear in the Sun, is equivalent to making present shareholders a straight gift of over \$20,000,000. It means a needless addition of the same amount to the capital of the company. It is idle to pretend that the general public have no interest in this matter of stock issue—that the matter is purely a matter of the shareholders. The carriage of passengers and freight. There would be ground for this assertion if transportation charges were based on the physical value of the roads. But rates are not so based; the railway commission has steadily refused to accept such a basis, but has constantly kept in the apparent capitalization of railways in fixing the rates these are allowed to impose. Therefore, when capitalization is increased by one million, the company is expected and on which carrying charges will be adjusted to meet that interest. The Canadian Pacific is now paying seven per cent. on \$1,400,000,000 a year and that, at least, is the annual charge which a needless addition of \$20,000,000 to the capital of the Canadian Pacific puts the company in a position to charge those who make use of the service it gives.

It will be an outrage on the people if the Canadian Pacific is finally allowed to water its capital to the extent proposed. It is lamentable that it was permitted to the attention of parliament. Why did Mr. Borden, leader of the opposition, remain silent when the question was before the House? Why did Mr. Grey of Huron and Dr. Sproule of Grey in backing up the protest made by the members of the House? What purpose the \$7000 a year paid to the leader of the opposition unless it is that he may effectively protest when the government proposes to allow a private corporation to place an unnecessary charge of one and a half million dollars a year on the carrying trade of the country?

Playgrounds in Spokane. A. Aubrey, vice-president of the city park commission and civic beauty exponent, has plans to establish 27 playgrounds, one in every block in Spokane. In connection with these there will be shower baths and other modern conveniences. The commission plans to expend \$100,000 on playgrounds, parks and a civic centre, with assembly hall and branch libraries. The city will have nearly a 200 acres of land before the end of the year and it is planned to develop this to rank with the foremost in the country. Most of the land was donated by the Spokane Chamber of Commerce and of the year and it is planned to develop this to rank with the foremost in the country. J. K. HACKETT TALKS OF HENRY IRVING'S DINNER

Last Time the Famous Actor Entertained—Next Week's Attractions at Local Theatres.

The last dinner that Sir Henry Irving ever gave was given to the Hon. Henry W. Watson of the Louisville Courier and James K. Hackett, now playing at the Royal Alexandra Theatre in this city, at the Garrick Club, London. Mr. Hackett relates a most interesting anecdote concerning it.

There were present a number of other distinguished gentlemen, including several members of the house of lords and prominent Londoners. Among these was Bram Stoker, for many years Irving's business confidential representative and friend, and his eldest son, Henry B. Irving, who since that time has achieved a notable fame in his father's footsteps.

During the dinner Col. Watson commenced to recite "Hamlet" to Irving, and after reciting several passages he turned and said: "Henry, isn't that the way you should have read them?" and Irving, with that peculiar, tantalizing enunciation, replied: "Yes, my dear Henry, but how do you think that boy read it?" pointing to his son, who sat at the other end of the table. "Now how did you read them, Henry?"

Whereupon young Irving arose, tears dropping from his eyes, and left the table. The old gentleman's head dropped slowly on his chest, and a tear or two dropped from his eyes, and he appealed to the table, saying: "Now, gentlemen, did I say anything to hurt that boy?" Everybody said: "No." Mr. Hackett made an excuse, left the room, and finding the son sitting in the library, as the proverbial melancholy Dane, in which character he probably achieved great distinction same day, said: "How old are you?" Irving replied.

Mr. Hackett said "I am six months your senior, I, too, had a distinguished father. When I saw the affectionate glances shot by your father across the table to you, to-night, I envied you from the bottom of my heart, because my father died when I was two years old."

Just then, Sir Henry entered the room and silently looked at his son. He came over and put his hand on the shoulder of his son, who was turned toward him. "With a deep sigh he turned away, and then I heard Irving say, 'Come, Hackett, we will go back.'"

Madame Nazimova's engagement at the Princess Theatre has attracted great interest among those who have heard of the success of this beautiful young star, who came to America from Russia and made such an impression at her first performance at New York, as to allow her to leave until she had remained on Broadway for two seasons.

Madame Nazimova and her New York company, under the direction of the Messrs. Shubert, will make her first appearance in this city this evening.

In the three roles which she will submit to local audiences, she has three entirely different characters. "A Doll's House" will give her a range of emotion from comedy to the most serious moments. "Comtesse Coquette" is a brilliant and witty comedy, magnificently mounted, and in "The Merry Widow" she plays a charming young girl in a play which includes twenty acting people, and three cars of stage settings are carried.

The engagement opens with "A Doll's House, repeated at the Saturday matinee. "Tedda, Gabler" will be the closing bill.

Paderewski is said by all the critics who have heard him in New York or Boston on the occasions of his only recitals here, to be remembered that he was never heard to play so well as last year, and the ovation accorded him at the Masses, was a record for the city.

Next week Tom Miner's Bohemian Burlesquers are due for the entire week.

The largest company of players at present touring the United States and engaged in interpreting a dramatic piece is the one headed by Miss Mabel Chase's "Syrup of Lineated and Turpentine."

Any cold is serious enough when its dreadful possibilities are considered, but when there is soreness or tightness in the chest and a dry hard cough you can look for bronchitis, which is often confused with an ordinary cold.

It is usually known by aching limbs and body pains, chilly feelings, weakness and weakness, pain in the chest and a tight, tearing cough. Fever, dry skin, thirst, coated tongue and constipation are other symptoms.

Dr. Chase's Syrup of Lineated and Turpentine seems almost like a specific for bronchitis because it is so successful in loosening up the cough, aiding in the prevention of the inflammation from reaching the lungs.

Bronchitis is particularly dreaded because of its tendency to develop into pneumonia, and even when this does not result, bronchitis is likely to return again and again whenever a slight cold is taken until it wears out even the most vigorous system.

Dr. Chase's Syrup of Lineated and Turpentine is so prompt in affording relief and so thorough and far-reaching in its action that it is successful in ordinary cough medicines have no influence.

Mr. James F. Thompson, Yonge Mills, Leeds Co., Ont., writes: "Last winter I was afflicted with a severe cold in the chest or bronchitis that kept coughing all night and could get no rest or sleep. Several of the best cough remedies were tried to no avail until I was told about Dr. Chase's Syrup of Lineated and Turpentine and this treatment soon cured me. I bought a bottle, at all dealers, or Edmondson, Bates & Co., Toronto."

THE ORIGINAL OF WHICH WILL BE PRESENTED AT THE PRINCESS THEATRE NEXT WEEK.

Interest aside from the fact that it is an exceedingly interesting novel and romantic play, it represents, in concrete, the ideal romance of the literary school of the middle west.

The Rochester Post-Express said: "The play is worth a hundred anemic society dramas or problem plays." Mr. Glatzer's engagement opens with a special matinee on Monday, and during the week the regular Wednesday and Saturday matinees will be given.

Clarice Mayne, the popular English comedienne and mimic, will head the big bill at Shea's Theatre next week.

The special feature for the week will be Helden's Maschinkins. Others on the bill include Mr. and Mrs. Perkins Plaster, Wynne and Lewis, the Bonnesett Troupe, Anna and Effie Conley and the Kinograph.

All that remains of the original production of "McFadden's Plats," that evergreen musical farce comedy, which will be seen at the Majestic Theatre next week, is the title.

Specialties that would serve as an attraction in any environment are introduced in the course of the action of the piece, while the chorus of 30 pretty and fascinating young women lends an extra charm to an entertainment containing a number of features, stage and electric effects, novelties, surprises, etc., in addition to tuneful and catchy music.

The press agent of the Bowery Burlesquers, who are booked to appear at the Gaiety during the coming week, is adverse to the use of unnecessary adjectives and superlatives, and in announcing his attraction he merely states that it is a revelation in the line of extravaganza offerings as the new production of the Bowery, entitled, "Too Much Isaac," is more apt to be a high priced entertainment than a vehicle for a "popular" playhouse.

The support is an exceptionally good one. A score of beautiful young women represent the chorus, which is one of the attractive features of the entire offering.

The Star has one of the best, if not the best, burlesque attractions that has ever graced the theatrical boards of the city. "The Follies of the Day" is a gingersly conception of mimicry and folly.

To-night the management will introduce for the first time a "Rag-Time Piano Playing contest." A large number of volunteers have agreed to appear.

Next week Tom Miner's Bohemian Burlesquers are due for the entire week.

JOHN T. SMALL SUGGUMS TO PARALYTIC STROKE

Life and Public Career of the Late Collector of Customs for Toronto.

John T. Small, for twenty years collector of customs for the port of Toronto, died yesterday morning as a result of a recent paralytic stroke.

The deceased was widely known and respected, and had hosts of friends who regard his death as a personal bereavement. As chief officer of the custom house he was regarded with the highest esteem by every one of his subordinates.

Mr. Small was a member of the city council from 1877 to 1880. He became a member of the Dominion Parliament in 1882, and was appointed Conservator of the Public Works.

He was married in 1856. His wife, whom he married in 1856, was the daughter of the late James Boutin, barrister. The nearest relatives are Miss Rogers, his niece, who resided with him; his sister, Mrs. Ruppel, London, England, and three nephews—Dr. Graham, Seattle; Osmond and Arthur Goldsmith, St. Paul.

Mr. Small was an intimate friend of Mr. John A. Macdonald. He was celebrated as a philatelist. His collection of stamps is very valuable. He was also a man of the kindest nature, unselfish and generous.

Owing to the serious illness of Mrs. Small, the funeral will be private. The interment will be at the family vault, Norway.

His Majesty's Army and Navy Veterans held their monthly meeting in Occident Hall last evening. Major Collins, the president, was unable to attend, owing to illness, and the meeting was presided over by Comrade A. J. Bennett. Two new members joined.

Alfred Piggins, late a sergeant in the commander-in-chief's Body Guard (South Africa), who also served in the Kimberley Light Horse and the South African Light Horse during the war, for which he has the South African medal and four bars, and Joseph P. S. Krake, late a leading signman in the royal navy, having spent some four years at sea in the China, Australia, Mediterranean and Channel squadrons and has a good record to his credit.

Boy Goes to Mimico. In the afternoon police court yesterday Magistrate Kingsford took Chas. Webb at his word when the latter suggested that his truant boy be sent to Mimico. Webb, who was arraigned on a charge of keeping ten-year-old Charles, Jr., from school, was discharged on the explanation that the child's mother was dead and that he had no control over the boy while away at work.

UNIONS LIABLE FOR COST OF ANTI-PICKET GUARDS

Novel Decision of New York Judge Declares Employers Are Entitled to Damages.

NEW YORK, Feb. 10.—A novel decision affecting labor unions was handed down by Justice Mills in the supreme court in White Plains, N. Y., which holds that labor organizations which picket a factory and thereby put the owner to the expense for guards for his property and employers' must pay for such expense.

The decision was rendered in the suit brought by J. S. Jones, president of a speedometer company against Geo. Maher, local president of the lodge of machinists' union, and several members of the local.

Justice Mills further finds that the judges involved and the men directly concerned by giving and taking pecuniary support aided and abetted the unlawful acts of the pickets and that the company was not only entitled to injunctive relief, which was given, but also to damages.

WANTS TITLE OF BARON

James Somerville of Toronto Believes He Should Have Scottish Barony.

Believing that he is entitled to a barony in Scotland, James Somerville of 202 John-street has instructed his lawyer to take steps to establish his claim.

There is no property or money gain prospect as the estates were seized upon by Cromwell's army during the great civil war of the seventeenth century, and given to the Lockharts of Lee, whose possession they still retain.

Corothally Castle, the historic home of the Somervilles, was reduced to ruins, and the only brother of the Puritan forces, and remains as a heap of ruins on a stretch of moorland.

Mr. Somerville says that the recent death of an uncle in Tasmania gave him the right to become a claimant. He says his great grandfather, Samuel Somerville, was the only brother of the seventeenth baron, Lord Hugh Somerville, whose children died young.

He and his son, Samuel, went to Australia, where the son became a wealthy sheep rancher. He had no male issue, but six daughters, and when he died the claim to the title passed from the Samuel branch of the family to the James branch, which had remained in Scotland. The original James and his son, also named James, are both dead, and as the eldest son of the eldest son, James Somerville of Toronto, thinks the title belongs to him.

Whitaker's Peerage says the Somerville barony became extinct or dormant in 1870 on the death of the nineteenth baron, and that the surviving representatives are four daughters of the seventeenth baron.

ASTHMA

Mrs. Farndel, of Clementson, N. S., Suffered All Her Life From Asthma, But Was Permanently Cured by Catarrhazone After All Other Means Failed.

Mr. Farndel gives the following statement of her case for the benefit of others who are suffering from asthma, and hopes that many will follow her example and use Catarrhazone, of his own age and his own experience, and cannot recall the time when I was free from the asthma. I had always a choking cough, feverishness, spasms, difficulty in breathing, headache and nausea. My druggist advised Catarrhazone one day, and I bought a large outfit. It gave relief in five minutes, and helped me very much in one day.

I inhaled Catarrhazone ten minutes every hour, and by the time two bottles were used I was completely cured. I am as free now from asthma as if I never had it. My perfect recovery is due entirely to Catarrhazone. I prize my Catarrhazone inhaler next to life itself.

Catarrhazone

Relieves at Once—Prevents and Cures Quickly. For the nose, throat, lungs and bronchitis, Catarrhazone is unrivaled. Try it yourself—both pleasant and safe. Two months' treatment guaranteed to cure. Price \$1; medium size, 50 cents; small size, 25 cents. At all dealers, or N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

ASKING FOR CIVIC FUNDS TO ENTERTAIN VISITORS

Local Council of Women and Street Railwaymen Appear Before Civic Committee.

A deputation from the local branch of the International Council of Women appeared before the civic legislation and reception committee yesterday, to request a grant of \$200 towards the quinquennial convention, to be held here the third and fourth weeks of June this year.

The delegates are interested in philanthropy, literature, art and all sorts of things, says Lady Edgar's comprehensive explanation. The committee will likely vote the \$200.

Business Agent Joseph Gibbons headed a deputation from the Street Railwaymen's Union, who asked that the city loosen up the purse strings for the entertainment of the visiting fare-box brethren, who will come here next.

The ambitious delegation is the Amalgamated Association of Street and Electric Railwaymen of America. No special communication declining to order tariff cards shown in all cabs open for hire, as required by the committee. The commissioners said they were willing to make the experiment with "stand" cabs, but that it would be undesirable for livery cabs in general, as they were used for private and social purposes.

The committee decided to strike out from the rules governing council procedure the stipulation that more than one reading of a bill can only be given at one session for "urgent and extraordinary" reasons.

Ald. J. J. Graham proposed to have it enacted that where the number of delegates at a convention falls below the number promised to attend by grant seekers, that the city's grant be correspondingly reduced.

The city engineer says a trunk sewer of brick would cost at least \$250,000 more than one of concrete.

A large sewer pipe under Mutual-street caved in at noon yesterday with the result that several basements were flooded with sewage.

Manager Fleming says the street railway company will at once start a stub service on Avenue-road and Dupont-streets, connecting with the Belt Line cars at Bloor-street, after 12 o'clock midnight.

A deputation of unemployed wanted to see Mayor Oliver yesterday, but his worship was too busy.

Don't Keep Lord Grey Waiting. The committee in charge of the arrangements for the convention of the Canadian Forestry Association, to be held in the convocation hall of the university to-morrow and Friday, requests that ladies and gentlemen who attend shall be in their places sharp on time.

PERU LOOKING FOR WAR? GUAYAQUIL, Ecuador, Feb. 10.—Considerable excitement has been caused by the news that the Peruvian Gunboat Alma recently arrived at Puno, which lies close to the coast near the border, and landed a military commission with 200 well-equipped soldiers.

It is believed here that the intention of the commission is to study and prepare plans of the frontier.

GAME THAT WAS WORKED ON THE BOGUS TICKETS

Preliminary Evidence Given in Charges of Conspiracy Against Conductors and Outsider.

With a plea of not guilty and the choice of a jury trial, the case of Jacob and Joseph Woods, Harry Rosenbergs, Daniel Corrigan and Frank McCallum were opened in police court yesterday morning. The latter two were conductors on the G. T. R. between here and Montreal, and all were arrested Tuesday night of last week, charged with defrauding the company by the manipulation of bogus tickets for transportation between Toronto and Montreal.

Crown Attorney Corley yesterday altered the charge to conspiracy to defraud. On the charges Rosenbergs, McCallum, Corrigan and Joseph Woods are grouped, while Jacob Woods and Corrigan are paired on the same charge of "conspiring and confederating to carry certain persons and parts of the railway free of charge."

G. R. Geary appeared for Rosenbergs, and T. C. Robbette represented the others.

Detective Wallace told of arresting McCallum on his train at Coteau Junction. Among his tickets when he was searched were found a number of torn Imperial Bank checks punched and blue pencilled. There were also two good tickets punched with the same punch.

"I am going to try and show that these tickets were held out for purposes of deceit with the idea of inducing one to passenger who should hand it back when collection was made," said the crown attorney.

Detective Kennedy, who arrested Corrigan at Little York, said that among his papers was an envelope stamped and addressed to H. Rosenbergs, 35 William-street, Toronto, a number of old tickets were also found.

Corrigan had said: "I wish you would leave those with me as I want them for my friends." A number of torn Imperial Bank checks were taken from him.

Detective Mackie, who arrested Rosenbergs, found a number of Imperial Bank checks in his possession. These were also marked "M. T." and "M. T. T." and were taken from him.

"I propose to show that these were used to get the rate at the Union Station," said Mr. Corley.

Detective Murray said he searched Rosenbergs' house and found a number of Imperial Bank checks. They were numbered from 115 to 120. The number of checks found on Corrigan was 110.

L. Allan of the Thiel Detective service swore that he and another went to Rosenbergs' home Jan. 9, and paid \$3 for passage to Montreal, and was given a local ticket from Toronto to Scarborough Junction.

"Rosenbergs said that they would get us thru the gate," said Allan. He went down to the train on Sunday night, Jan. 10. Rosenbergs was on the train, and he asked us to return the local tickets. He then gave us four tickets made up of Imperial Bank checks. I gave mine to McCallum and had one left for the return trip. The train was arranged for, and on the train I asked McCallum what was the best train to come back on Wednesday morning. He said, 'I leave there at 9:45 in the morning.'"

Rosenbergs had told him to go into a second class coach until the tickets were collected and then to go into the first class.

Fred Levine, a tailor, told a like story but could not tell to whom he had given his ticket. He had been to Montreal three times, and had seen John Woods. Woods said that as Rosenbergs had got them down he would fix it for them going back and gave Allan and Levine checks for \$8. Levine went down and back twice with McCallum and twice with Corrigan, but only made one return with Corrigan, as he missed his train New Year's Day and had to come back C. P. R., when Rosenbergs refunded the money.

"CAN I GET WELL?"

If Your Trouble comes from the Kidneys, or from Kidney Poisons in the Blood, YES! And if you have been ailing a long time don't lose your courage. It takes a little time—takes some constitutions longer than others. But Doan's Kidney Pills will gradually drain the poisons out of your system; the pain in your back will stop; the sediment in the urine will cease; there will be no rheumatic pains; you will feel freer and brighter, and when the last of the poisons have gone you will be well.

INVENTOR OLIVER DEAD

CHICAGO, Feb. 10.—Thomas Oliver, inventor of the Oliver Typewriter, died suddenly yesterday of heart disease while waiting with his wife at a railway station to start for Pine Bluff, Ark. to test a cotton-picking device which he had recently invented, and which he declared would revolutionize the cotton industry.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

Mr. W. Perkins, South Maitland, N. S., writes: "I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. For six months I could not get a good night's rest, had to get up four or five times to urinate, and the urine was very thick and I commenced using Doan's Kidney Pills and in a very short time I was right and fit again. I am very thankful to have found so speedy a cure."

Prices 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. M. Miltburn Co., Limited, Toronto, Ont.

In returning specify "Doan's."

SOME IMPROVEMENT NOTED IN STOCK MARKET CIRCLES

Advance on Wall Street is Very Gradual—Toronto Market is Lacking in Speculation.

World Office, Wednesday Evening, Feb. 10. Notwithstanding a bullish undertone to quotations there was no palpable increase in business at the Toronto Stock Exchange to-day, and it is still evident that the public have not yet grown enthusiastic in a speculative way.

There were few instances of declining prices in the day's operations. There were, however, in some instances, a few shares of the day's operations.

To mention specific stocks it might be said that N. S. Steel and Rio both advanced yesterday, and certainly there is an upward movement. Twin City was slightly reactionary. Speculators in these shares are taking profits.

Canadian General Electric was in some demand and 38 shares sold at 112. Mackay common is still rather freely offered and the feeling here is not bullish on this stock at present.

The Coal and Iron securities have quieted down and are expected to remain in this state until the court's decision is announced.

Transactions were freer in the investment shares, but these were mostly for odd lots, and there were no changes in prices of consequence.

Speculative sentiment is bullish on local securities, but this feeling has not yet permeated any broad area.

Wall Street Posters. Rock Island will pay off in cash its \$6,000,000 notes maturing in April without resort to further financing.

Japanese outlook improving, but Oregon and Nevada refusing to sanction agitation.

Severe storms in west and northwest, with worst blizzard of the winter.

P. O. Gas annual meeting to-day, with one change in directorate probable.

Independent producers say steel orders are at low water mark, but indications of an increase in near future.

Attempts to check copper production meet with no satisfactory results.

Big smelter of American Smelting Co. at Velardena, Mexico, closed on account of strike.

People's Gas reports for fiscal year ended Dec. 31 last, net earnings \$5,519,445, increase \$243,608.

C. C. West to R. R. Bougard: Copper on hand ready for delivery is actually 14,000,000 lbs. These figures will soon be published.

LONDON: The output of gold at the Rand last month is officially placed at 615,113 fine ounces, valued at \$2,612,836.

In December the production was 600,000 fine ounces, and in January last year 569,229 fine ounces.

Joseph says: There will be a further advance in Denver preference, this stock is worth 95 surely. Take on some K. T. Big things are impending and will materialize. There is big money in R. I. preferred and also on the long side of B.R.T. Buy Union Pacific.

Orders for a good many thousands of tons of falls are ready to be announced. It is said that the Philadelphia Rapid Transit wants 5000 tons, the St. Paul 40,000 tons, Rock Island 13,000 tons, Chicago Great West 5000 tons and Long Island Railway 4000 tons.

There are several other orders under way, which will bring the total pending close to 30,000 tons.

Specialty advances may again be expected to-day. There may be a sagging temporarily in the high-priced and generally active stocks on account of a rumor of a professional attempt to hammer the list, but we understand excellent support will be found in such case and believe conservative operators will find buying opportunities in the best issues on little reactions.

Smelters and shippers are holding prices and should be helped by a big shortage. Denver preferred should cross 90 and still higher, but we would not ignore good returns in it. R. I. preferred, C. & O. Texas, Missouri Pacific, O. & W. and Car Foundry are all destined for higher prices.

Standard issues like Reading, Southern Pacific, Union Pacific, Pennsylvania Great Northern and Steel should be bought on all these moderate reactions for turns.—N. Y. Financial Bureau.

One striking feature of the market these days is that the rallies do not take on the old-time vigor that characterized them during the closing months of last year. This is the case of the leading issues would seem to confirm the theory upon which we have been formulating our market advice recently, namely, that insiders have pretty well distributed surplus holdings and are letting the market shift for itself as far as these securities are concerned.

World Office, Wednesday Evening, Feb. 10.

Increased transactions developed at the Toronto Stock Exchange to-day and a moderate improvement was made in most of the issues dealt in. The dealings were an admixture of profit-taking and re-buying, but sufficient stock was available to prevent any issue from running away.

In the industrials N. S. Steel was a firm stock, as was also General Electric. Southern Traction were firm, with buyers still extending a preference to Rio, which made another fractional advance.

Larger dealings developed for the bank stocks, with transfers in six different issues, the prices showing general steadiness. The undertone to the market is good, but speculative buying is small.

STEADY INVESTMENT. MILL FAVOR COBOLTS.

But There Are Several Rich Belts Extending Over a Distance of Ninety Miles.

COBALT, Feb. 10.—(From the Man on the Spot)—The new discoveries on the Wapoose Creek, eight miles southwest of Gowganda, may be as rich as reported, but it was prospectors sent out last summer from Cobalt by Fred Calverley and Russell Cryderman that

the new camp is known as "Buckskin," and some very promising formation is found there, and several claim veins were located. Service to upper work was done on the five or six claims staked.

Russell Cryderman was the discoverer of the camp and as his work has been very reservedly expressed an opinion, but is willing to admit that the formation is ideal for silver veins, and that some very promising leads have been discovered.

Cobalt and its great shipping and dividend paying mines cannot fail to attract steady and permanent attention. The main shaft is down 200 feet, and will be found for some time, but there is an extensive belt, richly mineralized, that will shortly contain mines as wide-known as are the best Cobalt properties.

This rich belt extends both north and south of Cobalt and very little is known of its extent.

After Four Years. Even after four years of development Cobalt mines and their possibilities can be fairly realized. Prospects are slowly but surely being converted into doublets, and wonderful things are happening daily.

The recent revelation at Le Rose of enormous rich values at the 200 foot level, has been followed by an equally important discovery at the City of Cobalt mine.

The main shaft is down 200 feet, and drifting has been done at the 200 foot level for about 50 feet. A winze was sunk for about 25 feet, and the vein in the 400 ft. level, or at a depth of 225 feet from the surface, has a width of nine inches of enormously rich ore.

Massed native silver veins and argentiferous pyrites are being slowly but surely being converted into doublets, and wonderful things are happening daily.

CHICAGO WHEAT TO BE FEATURED IN SPITE OF LOWER CABLES

May Wheat 1-4c Higher at Chicago—Bull Leaders Liberal Buyers, But Speculation is Light.

World Office, Wednesday Evening, Feb. 10. Liverpool wheat futures to-day closed 3d lower than yesterday, and corn closed 1/2d higher.

Chicago May wheat closed 1/4c higher; corn closed unchanged, and oats closed 1/2c higher.

Receipts of farm produce were light, owing to stormy weather, only 200 bushels of grain, 4 loads of hay, and a few lots of dressed hogs were on sale.

Wheat—Wholesale dealers report the market easier as follows: Choice parlor daisy, 2c to 2c; store lots, 2c; creamery pound rolls, 2c to 2c; eggs—New-laid, in case lots, 2c to 2c per dozen.

Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often called, is one of the most agonizing of skin diseases. It manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed.

The intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, are almost unbearable.

The pre-eminent success which Burdock Blood Bitters has met with in permanently curing a disease of such severity is due to its wonderful blood cleansing and purifying properties.

CEMENT MEN WILL GATHER

First Convention and Exhibition During Week of March 1-6.

One of the greatest events in the promotion of the cement industry in Canada will take place in Toronto from March 1 to 6, when the Canadian Cement and Concrete Association will hold its first annual convention.

This association was formed about a year ago, with the object of getting together all the interests in Canada engaged in the industry.

The convention will be held at the Hotel Toronto, and will be opened on Monday, March 1, at 10 o'clock.
