and vital essential in civilization in Australia), the humanitarian principle Australia), the humanitarian principle on which our business organizations are conducted, the peculiar national ethics which make a man's fight with another with her people, studied her achievements and reculiarities. which make a man's fight with another man his own affair, even if they have come to open blows. The old saying that Every man's home should be his castle' is really a fact in Australia.

ments and peculiarities and read the songs of her poets. One sees the great mines where metals of all sorts are wrested out of the grudging earth; one sees the light and silence of the where no leaves fall all the terms. "Our eight hour 'am, our rule providing one-half holiday a week in all the shops and seats for all saleswomen in all shops—these are small hings in themselves, but they are very significant straws to show the direction of the wind of public sentiment and public principle. From first to last it is the human standpoint which makes us a little nation apart, the standpoint "track" as the hywere bloodhours. is the human standpoint which makes us a little nation apart, the standpoint of individual responsibility and individual privilege, and a certain strong elemental ethical basis which, for lack of a more descriptive term, I can enly call the right of man to man!"

came all the way from Paris to discuss before the Society of Psychical Research, says The London Standard. Prof. Richet is the president of the Society but the Society bu of the society, but, as he was reading the paper, the chair was taken by Sir Oliver Lodge. The professor, addiessing his audience in French, described in detail a remarkable phenomenon which came under his personal obse vation. The facts, briefly stated, are these: hibited only the powers of a copyist, for, as Prof. Richet explained, she had made mistakes in spelling which could

knows no Greek, yet on various occao'ons she has written, while in a trance,
Greek sentences with a definite meanGreek sentences with a definite mean-Greek sentences with a definite meaning. Once she sent him by mail three been under some sort of hypnotic continuous of Greek which he was finally able to trace to an exceedingly rare dictionary of French and Greek, of which Mme. X had no knowledge what soever. On another occasion, when he went to call upon her towards evening, when the rays of the setting sun were deepening the shadows in the shadows in the shadows in the shadows lengthen." She wrote in a current hand, but she made mistakes in placing the accents, and occasionally made such slips as could only be made by a person having.

Verral believed that Mrs. X must have been under some sort of hypnotic control, but was influenced thru her eye only and not thru her intelligence. Fut there were other instances, overlooked in the discussion, where Mme. X had written sentences with a meaning applicable to the immediate circumstances; for example, when she wrote her sentence about the shadows. In such a case she must have been under some sort of hypnotic control, but was influenced thru her eye only and not thru her intelligence. Fut there were other instances, overlooked in the discussion, where Mme. X had written sentences with a meaning applicable to the immediate circumstances; for example, when she wrote her sentence about the shadows. In such a case she must have been under some sort of hypnotic control, but was influenced thru her eye only and not thru her eye only made such slips as could only be made by a person having no knowledge of the language. For example, she would or the letter "s" by mistake or the letter "o," with an accent over it — a very natural mistake for a copyist, who is completely the second of the letter "o," with an excent over it — a very natural mistake for a copyist, who is completely the setting "exercited by the restill worth the setting" are questions which can accent over it are questions which can the asking, who is completely ignorant of the language he is writing and is simply and this appears to be one of them. language he is writing, and is simply copying by eye, but one which, as it renders a word quite unpronounceable, could not be made, even thru careless renders a word quite unpronounceable, could not be made, even thru careless ness, by anyone knowing the language. These, then, are the facts: Prof. Richet, in clearing the ground for discussion, took it as axiomatic that Mme. X acted thruout in good faith. He could not bring proofs of this, but he could vouch for her good faith as he could vouch for her good faith as he could vouch for her good faith as he could not bring proofs of this, but he could vouch for her good faith as he could for his own. The lady certainly did not know Greek. "You cannot conceal from all your friends and relatives your knowledge of a language like Greek, and, in any case, we have her word for it that she did not know the language. Moreover, she had never seen the book from which she quoted three passages."

How could such a phenomenon be about her neck, and her sleeves were about her neck he

How could such a phenomenon be accounted for? It could not be an effort of memory, for Mme. X had never to her knowledge seen the book from which she quoted. Equally, it could hardly be unconscious memory of a book she had seen and forgotten, for that would be to explain a strange phenomenon by another phenomenon by another phenomenon because of the strange and inexal cable. Prof. about her neck, and her sleeves were rolled up. Furthermore, she rode astride. Gertrude Dunn, the young woman who caused the furore, lives in Glenwood Springs, Col. When she heard of the plan to photograph the Presidential party she drove out with a newspaper correspondent. When they came up with the President she jumped out of the buggy, and, seeing the hospidden by Jackson Elliott, another coequally strange and inexpl cable. Prof. Richet suggested comparisons with mathematical and musical prodigies, but found them unconvincing. A wondance. They were the rule because large families were the fashion, and it required youth 'and strength to rear them. But young couples accepted the burdens of matrimony in the 'olly' sensible fashion, and if mistakes were such a thought," was the reply. "Ethely will not marry for years yet." And the birthday, and looked three or four years older. Later I discovered that she was older. Later I discovered that she was carrying on a secret courtship. So much for maternal blindness.

There is something wrong with the education of the modern girl. At four the education of the modern girl and sixteen she should be respondent, standing by without a ride she leaped into the saddle and rode up behind the President just as the photographer began to get busy. The first shot got the girl while riding behind President Roosevelt and Sec etaly Loeb. Several other pictures were taken, and in all of them she had a prominent place. She appeared, not as an unin-vited visitor, but as if she was an hon-ored guest. Most of the photographs

Games of Poker.

An Aged Mississippi River Pilot's Yarn—Two Men Who Decided it Was Better to Lose.

HAT weird story about the man who had four kings and an ace in his hand and then laid them down without making a bet because he knew he was beaten seems to be having quite a run making a bet because he knew he was beaten seems to be having quite a run the party, tho he was no boy. He was a good enough player, but, as I said, the luck ran against him heavily. We were playing table stakes, each buying a hundred to start, and he had been driven to the barnyard three times without making a single bad play, so far as I could see. He took it well enough for a time, and the loss of the money did not seem to distress him in the least. After a time, however, when he had had three flushes in success on beaten by hands that were filled in the draw, he seemed to grow suddenly suspicious.

"As a matter of fact he was a Northerner who had never been down the last finrow down that full house last throw down that full house last night?"

"Because I was perfectly certain you had fours,' he said. What did you have?"

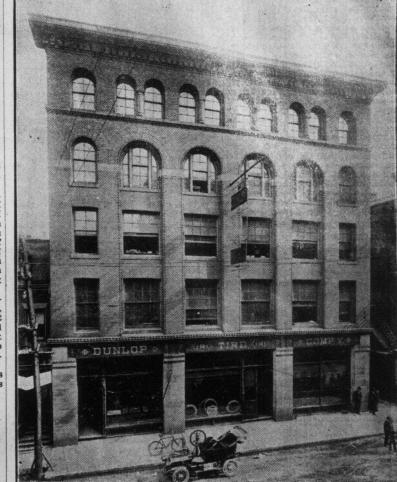

"It told him I hadn't filled my flush. and he laughed and said: 'I guess I was nearer being in trouble than I supposed at the time. Something in your manner made me think that you didn't care what you drew, and of course that meant fours. Then I thought I saw glances between you and the dealer, and I set you down for a professional. I guess I'm not strong enough for the river game."

"As a matter of fact he was a Northerner who had never been down the

bed and the rest of us played on a while longer, but nothing was said about him, tho I reckon the others all felt as uncomfortable as I did.
"The next day I was in the pilot house I saw Murray co upper deck and I noticed that he seemed greatly surprized when he recognized me. He knew enough, tho, not to speak to me while I was on duty, but that evening approached me and asked me to dr "While we were standing at the bar, could see that he wanted to talk about the game of the preceding night, but was evidently at a loss how to begin, so I said bluntly: 'What made you throw down that full house last

We had a dream last night that we wish had come true. We was empiring a game of ball, and one of the teams was made up this way: Schlitz. First Vice-President: A. W. Wright, Toronto, Second Vice-President; J. A. MacIntosh, Secretary-Treasurer. Directors: Wm. A. Marsh, Quebec; Jno. Ritchie, Quebec; R. R. Hall, M. P., Peterboro; Judge McCrimmon, Whithy, Ont.; F. H. Hale, Enderby, B. C.;

W. K. George, Toronto; James T. White, New York. The Company's proper consists of 130,000 acres, 203 square miles o virgin land, covered with M any, Spanish Cedar and other valuable woods. The following are two out many similar reports on the land and timber: ois Coffee & Rubber Co., reports:

Mr. Seth Rifford, Mgr. 'After an exhaustive vis two months to the different properties in the Chimalana tract is the finest body o timber land I saw in the entire ic. The soil is very deep and rich, with a vegetable loam formation, and timber is large and thick through all the property I travelled through roperty to our lands and back over the same read, and took particular pa notice the timber."

(Signed) SETH RIFFORD. Mr. Pedro Ruiz is known as the "Mahogany King" of Mexico. It is

claimed that he has shipped more managany from this country than all the other shippers combined. He reports as follows: With much pleasure I present to you have expression of my opinion about is the most extensive and abund-

your land, the Santa Maria Chimalapa. antly timbered proposition in all Southern valuable woods besides mahogany, cedar, xico. The immense amount of . make this the most valuable property that I know of . Referring to the out and shipping these timbers, will say un uestion of facilities for getting ivocally that I know the per Section for sending timber from this property. Any season logs can b goated to the sea-port."

Yours truly, (Signed) PEDRO RUIZ. One Hundred Dollars represents 13 acres of this land. The timber is valued at \$80.00 per acre. Planted in rubber, in bearing, it is worth \$1,000 per

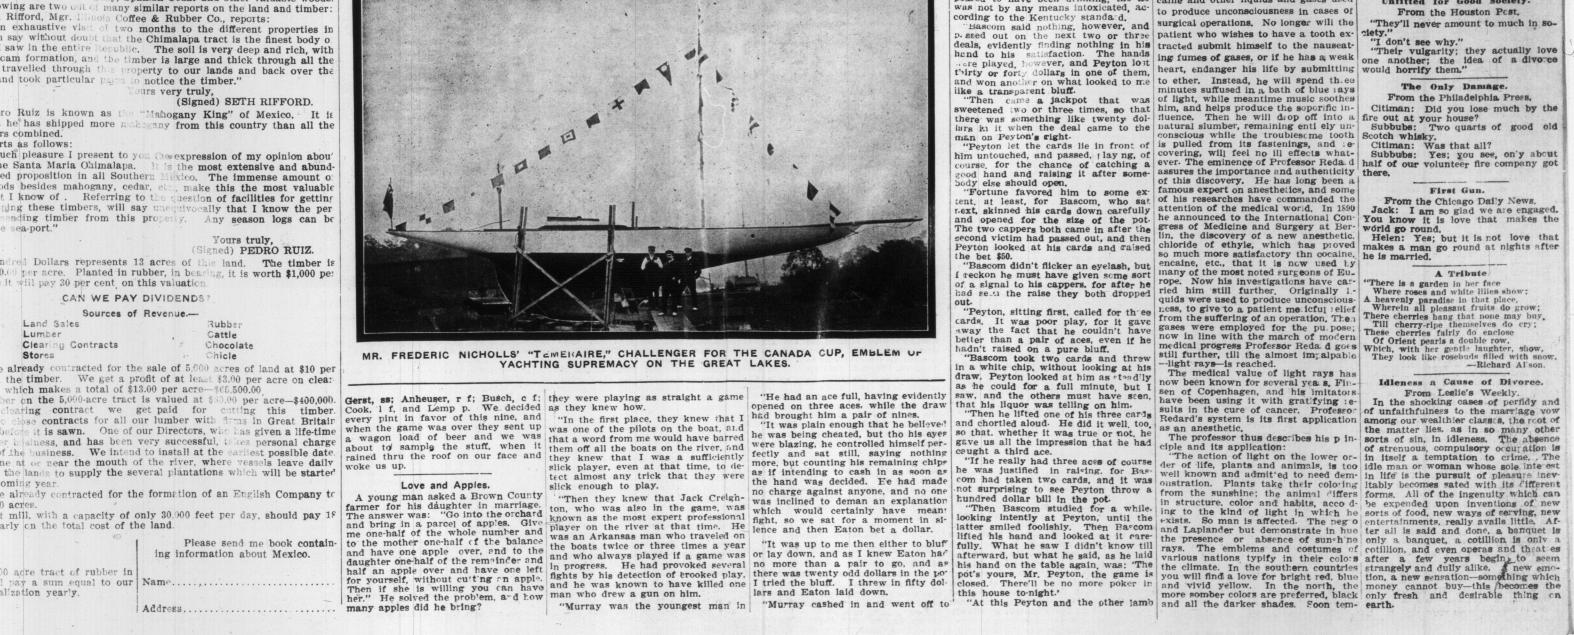

acre because it will pay 30 per cent on this valuation

We have already contracted for the sale of 5,000 acres of land at \$10 pe acre without the timber. We get a profit of at least \$3.00 per acre on clearing contract, which makes a total of \$13.00 per acre—\$65,500.00 Under th and Europe of this end of the business. We intend to install at the earliest possible date, two mills, one at or near the mouth of the river, where vessels leave daily he other on the lands to supply the several plantations which will be started

during the coming year. We have already contracted for the formation of an English Company to Our first mill, with a capacity of only 30,000 feet per day, should pay 18

per cent yearly on the total cost of the land. One 5,000 acre tract of rubber in

bearing, will pay a sum equal to our Name....,.. entire capitalization yearly.

c; Pabst, 1b; Miller, 2b; Schorr, 3b; is, but things made it probable that game any longer."

"My friend and I followed him and stood behind the players, loking on. I saw that Bascom looked very intently at Peyton as he waited for the next hand, and I also saw that Peyton appeared to have been drinking the accept friendly advice any more."

NEW anesthetic discovered by Professor Redard, of Geneva, Switzerland, promises to displace ether, chloroform, complete the accept friendly advice any more."

"To Minota, all!" Everybody drank,
"He always writes verses to Minota,"
whispered The Stranger, "She is a
foolish child and believes him when he

sings of his love for her. When she hears that youngster's voice her eyes become glorious." "Minota is in love, then?" I asked.
"Yes, in love," he replied, adding a deep sigh.
"Ridiculous!" exclaimed "The Count-

ess" Potroffski. "She's a mere child."
"That she is," commented The Vam-"Ought to be in the nursery," sneered like to transact some private business with you, if you can spare the time," said the stranger.

"I say she's 16," ventured the Poor "My secretary is entirely in ray con-"What does a girl know of love at 16;

or boy, for that matter?" retorted The Countess with a curl of the lip. "When "Hear! Hear!"-from one end of the "Listen, all!"-from the other end of interposed The Stranger, looking hard at the Lady of Quality. His check to Her Ladyship in defence of Minota made him my friend.

"If he is an undertaker," said the Poor Artist, in a stage whisper, "I'll swear he's no mute. "He's not at my funeral!" The Countess snapped back. The Vampire wrote this in his note-book, for the British market, where "mutes" are as necessary to a funeral as a corpse. After exchanging glances of defiance

ress? The Poet grew moody and sil-ent; but what was to be expected from a man about to leave Bohemia and settle down? Or, was he composing a sonnet to his bride? The fact was, he and Minota had exchanged glances and wrote \$50,000 beneath it and returned he had detected tears in her eyes. it.
There was delay in serving the dinner: For a while we forgot her. A scream was heard from the upper part of the was neard from the upper part of the house that brought every Bohemian to his feet. The shrickincreased in volume as the woman uttering it approached. She came bounding into the basement from the stairway. She was the stair was a deal."

"My wife insists so strongly on my disposing of them that I have decided to let them go at a price considerably below their value, \$25,000."

The other two looked at a contact the stairway is a strongly on my disposing of them that I have decided to let them go at a price considerably below their value, \$25,000."

"Minota is—dead!" she gasped.

The shock was appalling. In broken English and hardly less intelligible Italian, the trembling woman explained that on going to the roof for fresh table linen she had found poor Minota writhing in the agonies of death.

"By her side lay this bottle," said the woman as she pointed to the label. "Ovalle Actal"

"She left, me her love! I will bury her, poor, friendless little darling!" How very far away from that strang-er's mind was the ambition of Na.

night," said my neighbor.

'She's more like a child than a waitress," I volunteered, merely to say ing to acknowledge that you something

"Merely that there wasn't room enough in this country, with the Louisiana purchase added, for Andrew Jackson and Napoleon Bonaparte."

"The Poet sang, and we helped in this hat.

"Why, 'addio'?" several voices asked.
"Because I am to be married," retary, also tried to forget the matter.

"He wasn't sure whether he had understood Jackson or overrated Bonaparte.

"Bonaparte would probably have been hanged," said I; "that would have equaled St. Helena."

"Ah! Profanation! Why do you say "Addio, Minota!"

The Poet sang, and we helped or list hat.

"Why, 'addio'?" several voices asked.

"Bric Wilmanton, his confidential secretary, also tried to forget the matter, but with less success that we quickly, success that we find the song, 'Addio, Minota!"

The Poet sang, and we helped or list hat.

"Why, 'addio'?" several voices asked.

"Bric Wilmanton, his confidential secretary, also tried to forget the matter, but with less success that we quickly, and the stubborn old fool." This heretical as tubborn old fool." This heretical as tubborn old fool." This heretical train of thought was broken by the train of thought was one of the few in the rear of the room, the I may be taken.

"All Profanation! Why do you say shouted!" "He's such a self-willed old gentle was the profact of the such that the trivation is the train of thought was broken by the train of thought was one

his employer, "I don't recollect the name. Oh, yes, tho. I fancy he must be the son of that wealthy old Harrington of San Francisco who died a couple of months ago. I heard that couple of months ago. I heard that the young man was going to settle in New York. Send him in," he added to the clerk. The latter retired and presently admitted a tall, clean-shaven man of about 40, dressed in a top hat and fashionably cut frock coat. which did not seem to fit him.

"Mr. Brampton, I believe. I should like to transact some private business."

no doubt you know of my father's death some two months ago, and also that I have purchased No. 8 Fifth-avenue. I the table.

"This is not a confessional, madam," nterposed The Stranger, looking hard it the Lady of Quality. His check to Her Ladyship in defence of Minota nade him my friend.

"If he is an undertaker," said the "oor Artist, in a stage whisper, "I'll wear he's no mutte."

"He's not at my funeral!" The countess snapped back. The Vamire worte this in his note-book, for he British market, where "mutes" are s necessary to a funeral as a corpse, for exchanging element of discovery them and it would be ridiculous to keep them locked up in the safe."

He paused for a moment and took from the case a magnificent rope of graduated parls. "Here is a string of 175 pearls that I am willing to dispose of discovery."

The other two bent over them with hour," laughed

After exchanging glances of defiance with Minota's champion, the Countess burst into a laugh as keen as the pittless winds of the frozen north. Wasn't it strange that none of the women, old or young, who came to the Pension di Roma liked the little wait a few on approval, I fancy," said Mr. Brampton, at last, jotting the serve was to be expected from the conservative estimate of \$45,-000 on a writing pad, which he dropped a manusome of the pittless winds of the frozen north. The other two bent over them with

"I have as many pearls now as I care the cook brought in the next course. to handle," the banker went on, "but The little serving maid had disappeared, if you will put a price on these I will For a while we forgot her. A scream see if we can make a deal."

The other two looked at each other. "It is not a matter to be decided off-hand," said Mr. Brampton. "but if you from the stairway. She was the second

"By her side lay this bottle," said the woman as she pointed to the label, "Oxalic Acid." Kitchen maids use it "I suppose you would like to telefor cleaning copper vessels. Several graph to San Francisco to make sure

in this evening," said Eric.

At 10 o'clock next morning Mr. Brampton arrived at the office in an excellent frame of mind. "I have bought the pearls for \$35,000." he said, as he hung up his hat "Those Harringtons are charming people. Of curse. I was the only guest, as they are still in mourning."

"How did you like the lady of the house,"" asked Eric.

"She seemed a very fine woman, but just a trifle common. I thought she into the conversation of the conversation of the look of the pearls for \$35,000." he said, as he hung up his hat "Those Harrington. I realized this from the conversation over the telephone and called up the bank to have them arrested when they got there is no dret to avoid the fuss of detaining him here until the police arrived."

"Well, you have saved me \$35,000."

"Would you describe that as 'a striking instance of business acumen'?"

"Would you describe that as 'a striking instance of business acumen'?"

questioned Eric, timidly.

The Dying Chauffeur.

Wheel me gently to the garage, since the car and I must part—

No more for me the record and the run. Thus they were enabled to pose as Mr. and Mrs. Harrington. I realized this from the conversation over the telephone and called up the bank to have them arrested when they got there is no dret to avoid the fuss of detaining him here until the police arrived."

"Well, you have saved me \$35,000."

Wheel me gently to the garage, since the car and I must part—

age to catch them? In every case the that we can transact our business rabbit was apparently run down in quickly, as my wife is waiting in a cab fair, open running. In one case in paroutside, and I am rauner pressed for time."

"Certainly, the cheque is already bit across a celery swamp, as smooth and level as a dance-hall floor. What"Ring up the bank, Willmanton, if you come and positive them that Willrad ever hindrance there was in the foot of ticular the mink had chased the rab-

rain of thought was broken by the entrance of a clerk with a card. He took it "Wilfred Norton Harrington to see you," he said. "I don't think he's a client of ours."

"Harrington, Harrington," murmured his employer, "I don't recoilect the name. Oh, yes, tho, I fancy he must be the son of that wealthy old Harrington of San Francisco who died a couple of months ago. I heard that the young man was going to settle in New York. Send him in," he added to the clerk. The latter retired and to the clerk. The latter retired and presently admitted a tall, clean-shaven man of about 40, dressed in a top hat and fashionably cut frock coat, which did not seem to fit him.

"Mr. Brampton, I believe. I should like to transact some private business with you, if you can spare the time," said the stranger.

"My secretary is entirely in my confidence," answered Mr. Brampton; "in fact I depend on him a good deal, so you may speak quite freely. Mr. Harrington sat down and placed a red moreoco jewel case on the table. I have no doubt you know of my father's death to the confidence of the confidence of Brampton within the file of Brampton within the file of Brampton within the file of Brampton within the office of Brampton probably never in open running.

The rabbit seems to give up the race; it would look almost as if some unknown law of nature made him the prey of minks, as if he felt that was his destiny and did not try to escape from it. In the cases we observed, the important within the jumps of the rabbit grew shorter and shorter until it became little more than a helples hop. The marks in the snow indicated that the mink did not overtake his not being dragged by the rabbit, but that the mink did not overtake his on the second that he had better represent reason, had given up the race; it would look almost as if some unknown law of nature made him the trip to Europe on business, and got prey of minks, as if he felt that was his destiny and did not try to escape from it. In the cases we observed, the interest of the cases we observed.

"No: but my valet and my wife's maid have everything ready. I am go the rabbit grew shorter and shorter until it became little more than a helples hop. The marks in the snow indicated that the snow indicated that the snow indicated that the mink did not overtake his on the second that he had better represent the snow indicated that the mink did not overtake his the snow indicated that the snow indicated that the snow indicated that the snow indicated that the snow indicated tha versation and persuaded Mr. Harringson the second that he had better represent himself at the office of Brampton & Brampton within half an hour, if he valued his property. Then he rang up another number, and after a short conversation hung up the reciever and returned to the private office.

The others were a little impatient at a reverse a little impatient at a fox seldom catches a rabbit, and probably never in open running.

Then it would seem as if these bloods suckers have some power of which we know nothing. As it is, the only one explanation can be offered why so slow-running an animal as a mink, are recorded in the reason, had given up the reace. And yet a fox seldom catches a rabbit, and probably never in open running.

Then it would seem as if these bloods suckers have some power of which we know nothing. As it is, the only one explanation can be offered why so slow-running an animal as a mink.

The others were a little impatient at his delay. "I think you will be received properly at the bank," Eric said politely. He even went to the extent of fetching the visitor's hat and cane.

Mr. Brampton noticed the alteration in his manner. "I see your opinion of Mr. Harington has altered now," he said, presently.

So slow-running an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a mink, or weasel, can catch as swift an animal as a rabbit.

We know the mink does not tire out the rabbit by following him leisurely, maintaining his slower gait relentless by never giving his victim a chance to eat, and so by the slow, sure process of work and worry wearing out poor Bunny.

Bunny. "I suspend judgment for half an hour," laughed Eric, enigmatically.

Some ten minutes later the door flew dents, that, terrible, demoralizing, or anicky fear of all of the weesel famopen and in rushed Mr. Harrington No.

"How do you know that?" asked the boy. "The king turned goal, were great friends. Uncle Mose. "Praps thirty, mebbe a a "whitewasher." He was old, far older than anybody else in town, and very, wise, of course, as was quite na"."

"Gause we find dem stone things"

"Gause we find dem stone things"

"The king was really a millionaire. Still, he was as eager as ever to gather in the king sause as each to gather in the king was really a millionaire. Still, he was as eager as ever to gather in the money, and he had issued a proclamation that for five dollars on might look at her and make a guess."

"To twenty-five dollars on might look at her and make a guess."

"The whorm a should conceal such unroyal artist the king was really a millionaire. Still, he was a seager as ever to gather in the money, and he had issued a proclamation that for five dollars on might look at her and make a guess."

"The who of our thirty in the chickness of an oak tree visitors in Oquimba of late that scarce of stale bread, two frankfurter saus-by the looked and have a try ct leather that is part of a harmesp!" re-life the king was a seager as ever to gather in the money, and he had issued a proclamation that for five dollars on might look at her

a "whitewasher." He was old, far older than anybody else in town, and very, wery wise, of course, as was quite natural in one of his age. That he was fond of a little boy might be considered odd, but it often happens that an aged man becomes attached to a youngster, and these two certainly were great friends. Uncle Mose lived right by the riverside and he owned a boat in which Davy spent many a happy hour. The banks of the river were high and of a sandy, gravelly soil, in which men of science came very often to dig for those objects of stone—hatchets, arrowheads and the like—which are scattered all over our land, but nowhere so pientifully as on the banks of this river. As far back as Davy could recollect he had seen Uncle Mose assisting these scientific visitors with shovel and pick, but he never realized low much Uncle Mose knew about these things until he was quite a big boy and had begun to find arrowheads and such things for himself.

One day he picked up a long straight:

"How do you know that?" asked the boy.

"Cause we find dem stone things down beneath the gravel and sand. De purfessors say dat long 'bout de Carlour' came, stam, bang, sping! all dat gravel a-whirlin' and at sim, bang, sping! all dat gravel a-whirlin' and attiring in sight—trees, men, and everything in sight—trees, men, and all! Fust time I hear about it t'was good while sence, and dey say it it all happened in what dey call de tit all happened in what dey call de tit all happened in what sand, clay and gravel bring all that san

things for himself.

One day he picked up a long straight club-shaped article, very carefully polished, in a spot where the river bank had fallen recently, and he hastened to Uncle Mose to learn what it was, for he had never seen such an instrument, altho now he was quite familiar with many of the objects discovered in the gravel.

"Day's a pestie fo' sure!" exclaimed "I seckon dem was de times o' witches

Concerning Her Life.

first wound, which was on the right arm close to the shoulder. As a reward for all the services rendered by her during the campaign in China, Smolka received a silver medal, and an inscription, "To the inter preter, Smolka, for courage displayed at Kaiga."

Immediately after the outbreak of war with Japan, Smolka sent a request to the commander of the forces to ask him to allow her to be enrolled among the volunteers. Without waiting for reply, Smolka went to Harbin, with a view of supporting her request at the hands of General Volkoff; but she did not receive the desired permission. Then this brave woman disguised herself as a man, hung her medal around her neck and sought a favo able oppor-tunity for undergoing all the risks and perils involved in serving with the time railway tickets were given only to such persons as had special author-ity to travel by rail. Still, Smolka was daunted, and she resolved to reach Lao Yang at all costs. So she slipped into a cattle truck, and in that way she reached the headquarters of army, where she met many of her for-mer comrades. Thanks to their aid, she managed to get enrolled in the scouting detachment of the 2nd Cos ack Regiment, of Nerchinsk, under Lieuenant Vichniakoff and once more she was able to bestrice her charger. She accompanied the detachment when it was sent out to reconnoitre the out skirts of the town of Kuan-G-n-Sian. Again, owing to her knowledge both of the Chinese language and of Chinese customs, she was able to find out in good time the approach of a consid-erable body of Japanese and to warn er comrades thereof, with the result that the detachment had to defend it self while rejoining the main body After that expedition a report of the affair was drawn up and handed to Gen. R—, and this led to Smoka being enrolled in the 2nd Regiment of Nerchinsk as a volunteer interpreter Smolka. Thenceforward she took part in many dangerous pieces of scouting, but she was wounded only once slightv in the foot. During all the time that she has

been on active service Smolka has shared the privations and hardships of her comrades in arms. She used to go to sleep without taking off her clothes; vearing the same uniform as her com-rades: she rode her horse like a man; the ate her rations with the rest, stand. ing around the Cossecks' huge ke tle; she sang their soldiers' songs with them; she wrote letters for those who were unable to write them, and all she asked was that they should t eat her as if she were a man. But the young and intrepid Smolka, in spite of all her seriousness, has not been able to In Male Attire She Forgets She is & prevent certain of her comrades, and even some of her superior office s, f om seeing in her a charming woman. Assassins of Emperors

ITH characteristic Gallic gal- life when he was first consul and when inatry the officials of the French government are filling the press with the wonderful self-possession of the young king when the bomb exploded under the group behind his carriage turned to the elderly President Loubet and remarked affably: "You see, Monsieur le President, the penalty of being in bad company." As may be imagined, the old president retorted in kind, and the young king went on: "Had we been killed, the world would have drawn a parallel between our slaughter and one that happened within a stone's throw of the same spot four hundred years ago." President Loubet probably didn't recall at the moment that the Spanish monarch displayed remarkable in the was emperor.

He discussed the various attempts with curious dispassionateness and the was emperor.

He discussed the various attempts with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with curious dispassionateness and seems to have been peculiarly impressed with the was led out to be shot and heard with the madness of an Austrian youth, who, in 1809, made up his mind the lantry the officials of the he was emperor. didn't recall at the moment that the Spanish monarch displayed remarkable knowledge of Parisian topography, for it was within a few yards of the spot chosen by the Spanish anarchist for the killing of Alfonso, that Ravaillac leared to the window of the cab and stabbed the great King Henri IV. 28 he rode from the palace of the Louvre to have a gossip with his delectable crony, the gruff Duke de Sully. Henri's end brought no such demonstrations as the mere attempt upon the life of the Spanish king. For even the Duke as the mere attempt upon the life of the Spanish king. For even the Duke d'Epernon, who was riding by Henri's side, sat for some time, as he alleges, ignorant of the fact that anything had happened. Yet the monk's dagger had gone under the king's left arm, penetrated to the heart, and as Henri uttered a groan the blood covered the cushions of the seat. When the king's extremity was known there was no tu mult such as followed the scene of the bomb the other day. The carriage drove on and the victim was allowed to die without any very active attempts to save him.

Supposed enough, for the Australian had taken advantage of the Napoleonic incursion into Spain to declare war, or rather begin war without a declaration. The boy, Stabs, however, had heard too much of the patriotic outcries of his compatriots to accept this statement and retorted bluntly: "Yes, you did." Monarchs are never contradicted, no matter what they may say, and the aides expected to see the emperor turn in disgust from such an unmannerly cub. But instead he went on, displaying a portrait as he asked: "Whose picture is this?" The boy colored rosily and stammered: "It is the picture of my dearest friend, the adopted daughter of my father!"

The monks were surer king killers Napoleon couldn't comprehend such a supposed and the Napoleonic incursion into Spain to declare war, or rather begin war without a declaration. The boy, Stabs, however, had heard too much of the patriotic outcries of his compatitots to accept this statement and retorted bluntly: "Yes, you did." Monarchs are never contradicted, no matter what they may say, and the aides expected to see the emperor turn in disgust from such an unmannerly cub. Stabs was taken to the military prison, where renewed attempts were made to reach a more human feeling, but he clung to his deman feeling, but he clung to his demander of the well warranted by later experience with the ferred to by one of Representative description.

bell of Brooklyn, wife of Wm. A. Campbell, an assistant su-The monks were surer king killers than the anarchists. A monk killed Henri III., the predecessor of Henri IV.; a monk did the "Dutch Washington," William the Silent, to death in his palace at Delft. In most of the assassination plots of the earlier centuries it was a religious fanatic who took upon himself the deaths of kings. The perintendent of schools in those of the wife, who was Mile. Geneher father. Mrs. Campbell is a direct

descendant of this Lambert.

Mrs. Campbell's claim has been made to the British authorities, and recently she received from Right Hon. she received from Right Hon. Alfred Lyttleton, colonial secretary, a reply to a letter which she had addressed to King Edward, which states that Lord Knollys, the King's private secretary, is unable to advise His Majesty to take other action than to suggest that Mrs. Campbell take her claim to the courts. This will probably involve the claimant in a prolonged litigation, but her step in engaging counsel indicates that she means to counsel indicates that she means to press her claim. Her efforts thus far have resulted only in finding many do cuments which Montreal and Quebec lawyers told her did not exist or had been lost, and in discovering that the city and province of Quebec are controlled by a few men. This was made plain to her by reference to the Greene-Gaynor litigation and the extraordinary power shown by their attorneys, Messrs. Parent, Taschereau and Fitzpatrick, the latter the Dominion minister of justice. Her success would mean her life interest in the property upon which are the provincial parliament buildings the Dufferin terrace and many of the best business and re-sidence sites in the city, for which the British government is collecting ground

Don't buy an Automobile because it has an attractive array of brass fittings. The only satisfactory Automobiles are those on which particular attention has devoted to the machinery.

The RUSSELL car received that particular attention. It was built to meet the requirements of the Canadian motorist—built to stand the hard knocks it will probably get on the average Canadian road.

It is speedy—has good power—12 to 15 horse-power—is comfortable to travel in because of the long wheel base. Most attractive in design. Sells with regular equipment at \$1500.

Call at "Automobil: Corner" and look over the RUSSELL. Write for new catalogue.

BAY AND TEMPERANCE STREETS,

that her husband had purchased ten tickets to the theatre, and the lord of the household returned home to find eight guests in readiness to accompany himself and wife to the opera! Perhaps no country can show such an exhibit of linguistic mosaics as Japan offers among its English-speaking mitves. Not more than two years ago The Gazette, an English paper, in Yokohama. thus announced an attempt at ourglary: "At a night of two weeks ago, a jinfiksha drawer in a street of Yeddo was fired on his loins by a rogue. It is yet uncertain who was the rogue. It is yet uncertain who was the rogue. In the English language coplousness and cumulation have flourished in no uncommon exuberance; and this may be attributed to two causes; the material of the language, which is composite above that of all other languages, and the genius of English, which strenuously rebels against classic restraint. What a magnificent inheritance is the English language! Between Shakespeare with his gigantic thesaurus of fifteen with his gigantic thesaurus of fifteen with his gigantic thesaurus of fifteen which his scanty store of three hundred, what different social and linguistic layers intervene! It is possible for scholars to sit at table and discuss a subject in perfect English and yet to employ language utterly incomprehensible to the uneducated waiter who serves the dinner. Truly a blessed privilege! The incisive thrust of French which polerces like a Damascene blade, the poetic wealth of German, challenge our dimiration, but in breadth and depth and height English is the vchicle of mought and imagination. It is an interview describes the following fact that in the translation of Shakespeare into German the translation of Shakespeare into German the translation stood aghast and bewildered be-

and height English is the vehicle of mought and imagination. It is an interesting fact that in the translation of Shakespeare into German the translation of Shakespeare into German the translator stood aghast and bewildered before the words of Lady Macbeth:

"No, this, my hand, will rather The multitudinous seas incarnadine, Making the green one red."

Here English speaks twice, first in words of Latin origin; again in strong and terse Saxon. German could say it once, and once only!

This transcendent superiority of English was certainly not recognized by Emperor Charles V., who disdained to include it in his sweeping estimate of languages when he declared: "French is the language for love, Italian the language for horses and Spanish the language for the gods!" Whoever has listened lay after day to the majesty of Castaly and the maje and the language for music, german the language for love, Italian the language for music, german the language for music, german the language for music, german the language for love, Italian the language for music, german the language for music, german the language for music, german the language for love, Italian the language for music, german the language for love, Ital

YOU INFUL ASTRONOMER, At 17 Hector Macpherson Has Written Learned Work.

Astronomers, like poets, are born, not made. No man takes to astronomy from mercenary motives, and only zeal and enthusiasm can supply the patience and perseverance necessary to accomplish real and abiding work in the study of the wonders of the starry heavens. If Scotland has produced no Gauleo or merschel, she has James Ferguson, Sir David Brewster and others of whom she need not be ashamed.

Hector macpnerson, ic. a lad or 17

me author of "astronomers of To cay,"
may be neard of in tuture. The son
of one of the best known journalists in
scotland, he has had no systematic education and has never been at a public

School,
Young Hector's home is at Johnsburn,
Baleino, a pretty, tree-sheltered old
Midlothian county house, several miles
from Lounburgh. Here the youthful
astronomer has had ample leisure and
opportunity to cuttivate his favorite
science. He has never been made to
"grind at grammar" in his own or other
language, tho his father has helped
him in different ways, and encouraged
him to find out things for himself. The
lad has acquired in this way a large
amount of general knowledge unknown amount of general knowledge unknown to the ordinary schoolboy, and has acquired the faculty of giving expression to his ideas in clear, terse, vigorous

wnen twelve or thirteen he began to When twelve or thirteen he began to show a strong interest in astronomy, his father, believing it is good for the youthful mind to occupy itself with great subjects, gave the boy encouragement, and procured for him astronomical primers written in simple and popular style. Instead or wearying, the lad's wonder and interest were aroused ne got a general idea of the whole subject, and worked steadily thru many astronomical books, increasing in difficulty. Bit by bit the young astronomer devel-oped, getting a corner of his home litted up as an observatory, with telescope, star maps and other parapnernalia as

by and by, at his father's suggestion, he commenced a series of articles in an Edinburgh weekly newspaper on the great astronomers of the past. Next he thought he would like to write on the work accomplished by hving astronowork accomplished by living astronomers. Having tried in vain to find in any book published in English up to date information as to the work of such men as Schiaparelli, Flammarion and others, the boy wrote to the scientists themselves, sent on copies of some of his articles to show what he was doing, and hereof for accuracy information to and begged for accurate information to show what each man considered his most important contribution to science during his lifework. An interesting and during his lifework. An interesting and friendly correspondence followed with different astronomers, and the lad not only got compliments on the scope and quality of his articles, but valuable, reliable and up-to-date information from eminent astronomers both on the continent and in America, as well as portant the themselves. traits of the savants sent by themselves. The result was a series of articles, which have now been published in book form under the title "Astronomers of

At present the youthful astronomer, in addition to pursuing his studies of the stars, is engaged in mathematical and other studies under a private tutor with a view to entering at Edinburgh

Gold Mine 3900 Feet Deep. The deepest gold mine in the world is said to be at Bendigo, Australia. It is called the New Chum Mine, and main shaft is sunk to a depth of three-quarters of a mile. The most difficult problem of working a mine of such depth is how to keep the tunnels and general workings co for the miners to work. The tempera-ture is usually about 108 degrees, and this is, of course, greatly enervating. To make it possible for the men to work at all a spray of cold water is let down from above and kept con-tinually playing on their bodies. They tinually playing on their bodies. They are naked from the waist up-

play you or fight you, just as you like hand, I'll take the money.' An' he rakes O' course, I ain't nothin' to say to the it in with his left hand an' puts it in muzzle of a gun.' Where I go 'll be none of your business thousand the money.' An' he rakes Where I go 'll be none of your business or course, I ain't nothin' to say to the his pocket. Then he says to Lumley:

"THE ONTARIO COMPANIES ACT."

Second Issue of Ten Thousand Acres Only Will Be Sold at \$20.00 an Acre

After this is sold a further issue will be sold at \$40.00 per acre. Buy Now and Save Money. You can't duplicate this land for less than \$50.00 per acre to-day in Cuba. Buy a business lot at \$50 to \$75 which will rapidly increase in value. Terms oash; or 25 per cent. cash and 25 per cent. each month till paid for.

WINTER RESORT—

Cuba will be a favorite winter resort for the people of North America, because of its favorable location and uniform temperature. At the time when the Northern States are clothed with snow and ice, this island has the climate of June. With its fine sandy beach for bathing, its land-locked harbor for yachting, the rolling lands in the background for beautiful scenery, and Canadian people for neighbors, Ocean Beach should be the most desirable as a winter resort. The scenery on Guadiana Bay is grand and inspiring. Our Estate is covered with tropical foliage. The water is so clear that the gravelly bed from ten to twenty feet below can be seen distinctly, abounding in certain sections with Spanish mackerel, a species larger than the mackerel of our Northern markets, and fully as palatable.

PURPOSE OF THE COMPANY.

Since Cuba obtained its independence, and since its favorable climate and fertile soil have become known, there is a growing demand among the people from "The States and Canada" for real estate holdings in this island. Naturally the desire is to be located among the Canadian people, and to know that titles are clear and valid. As the company's property is especially adapted for the establishing of a colony, and as it contains more acreage than the company could put under cultivation in many years, we have concluded to offer for said fifty thousand acres of land divided into ten-acre lots or upwards. The balance will be put under cultivation for the benefit of the company. This suggested establishment of a colony is especially desirable in order to make a port of entry at Ocean Beach. The part of the tract facing the ocean near Guadiana Bay is set apart for a business and residential site. The land which we are offering for sale is the best portion of the property, as regards location for shipping facilities, being nearest the water front. The quality of the soil also is all that can be desired. There is no tax on improved real estate in Cuba.

In Cuba the conditions for intensive agriculture are The staple crops of the Island will be oranges, grape

fruit, lemons, limes, early vegetables, coffee, tobacco, cotton, bananas, cocoa, cocoanuts, mangoes and such products as olives, grapes, almonds, etc., which can be successfully raised. All of these are very valuable and yield most cuntifully when cultivated intensively. The labor required to plant, care for and harvest them

is much less than farm labor usually is in Canada, and the climate is more temperate and pleasant. The soil is light and easily worked, and the opportunity for keeping bees and poultry and for dairying offered by the closeness of the large Havana markets, where products from these lines sell readily at high prices, greatly multiplies the sources of income for the planter and furnishes somehing for each member of the family to do-work both pleasant and profitable.

Ballou, the historian, writing of Cuba, says: "Nowhere on the face of the globe would intelligent labor meet with a richer reward. Nowhere on the face it may pe saided that the expenses of livng are far less one

Bearing these truthe to mind, let us take up the cons and purposes which make up the present undertakof those engaged in developing this favored spot.

Extract from "Commarcial Cuba in 1903," published by the U.S. Department of Commerce and Labor, August,

* * A "It will unquestionably be easy and natural for to export to the United States and other countries es, especially those of a tropii-tropical habitat, and those which are in deearly in the year in northern communities. great advantage possessed by the Cuban vegetable grower is that almost all kinds of vegetables enjoy in that Island a perennial growth, one crop following its

mediately. In this way the producer reaps the reward of two, and sometimes three, crops annually of all the different kinds of vegetables which he cultivates." Extract from report of A. A. Quint of Quibra Hacha,

Republic of Cuba: "I planted a quarter acre with tomatoes; the yield was sixty crates of very large, fine tomatoes. The price in New York at time of picking was \$3.50 per crate." • • •

LAND IS THE BASIS OF ALL WEALTH.

As a permanent place of residence as well as a health and pleasure resort, Cuba, owing to its climatic and scenic charms, is attracting wide attention. Any person from a northern climate can live in Cuba in Summer with as much comfort as in Canada, while the winter months are, of course, very much more comfortable than in a land of snow, sleet and blizzards.

SOIL AND PRODUCTS OF CUBA In no part of the United States or Canada is found a

so fertile, so productive as in Cuba. There is no garden like this favored spot. It is perfect in soil and climate. Three crops a year can be grown Four hundred years of Spanish misrule prevented

the development of more than a small portion of this beautiful Island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

REMARKABLE GROWTH OF ORANGE TREES

In a letter recently received is the following item: I visited a fruit farm and photographed an orange tree three years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 5000 oranges last crop, and another seven years old, which bore 7000 oranges. Grape-fruit attains perfection in Cuba.

ORANGES It is claimed by the best authorities on citrus fruits that if all the available lands suited for the purpose in this part of the world were put into cultivation it would

be more than twenty years before the market would be supplied to the same extent that it was previous to the freezes in Florida and California. It must be remembered that an orange grove will mature here in one-third less time than in California or

Governor-General Charles H. Allen says: "A ten-acre orange grove once in bearing, gives a comfortable income sufficient to support a family in the best country style." When an orange tree is in full bearing it is valued at \$100."-Florida Fruits and How to Grow them.

PROFITS ON ORANGES AND OTHER

CITRUS FRUITS As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an Official work on Cuba, recently published: owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 5000 oranges yearly, and, like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war brange lands were selling from \$150 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree; so in beginning an orange grove, remember, if four or five years are required to bring it into bearing, it will then continue to yield its golden harvest for generations to come, and when once in fruit you can sit beneath its shade almost in idleness

CATTLE RAISING Grasses in Cuba have a most wonderful growth. Green all the year and very nutritious. Cattle-raising has always been the chief occupation of the natives, who have a natural disinclination to the labor necessary in cultivating the soil for market. Pasture always green and no winter storms or no feed to prepare. Large numbers of cattle and hogs in fine condition and good breed are found in all sections of the Island. Havana and other points in Cuba furnish the market, the price being much higher since the Spanish-American war than in the

COST OF TWENTY-ACRE BANANA PLANTATION. Including Care of Same for Bach Year. 800 banana plants to the acre.

Cost of care of land, at \$10 per acre 200 Total cost\$1000 Estimated Income from a Twenty-Acre Banana Plantation at End of Each Year. Estimating 85 per cent. of plants bearing \$1785

Cost of care and marketing products 800 tation can largely reduce this cost of "care" by doing much of the work himself. TRUCK GROWING IN CUBA

Of all agricultural pursuits, that of growing vegetables, as a commercial venture, has hidden in the possibilities much to attract not only the tiller of the soil but of those who have surplus money accumulated in other than agricultural pursuits.

It is easily within the bounds of probabilities to esti-

mate a crop of vegetables that can be grown during the fit per acre, and if one takes into consideration the small vegetable places worked by the Chinese around/Havana it would be reasonable to say into thousands of dollars per NO DANGER OF OVERDOING

Won't this fruit business be overdone? we are asked. It will, provided that the United States and Europe quit arwing, and our wide-awake transportation companies all get flat wheels and hot boxes. The United States is now buying millions of boxes of lemons yearly from Mediterranean ports. Cuba can grow every one of them. In 1894 Florida exported 250,000 boxes of early eranges to Liver-

pool that sold at 20 to 30 shillings per box. This market alone could be worked up to 1,000,000 boxes of early oranges to go in before Mediterranean oranges are ripe. All we need is the fruit to ship and we will have more markets than fruits. It will be at best ten years before Cuba can begin to cut any great amount of ice in the markets of the fruit world.

And to do this we must plant at once ten to twenty thousand acres yearly. We can pay the duty and land our products in the markets cheaper than Florida or California can, and as to quality, we are without a peer.

FISH, GAME AND ANIMALS

Seven hundred varieties of fish, also crabs, oysters obsters and turtles, are found in the waters surrounding the Isle of Pines. The sea and rivers which empty into it are literally alive with them. Sea-bass, red-snapper and pompano are the choicest eating. Parokeets and beautiful humming birds, brilliant as

winged jewels, quail and wild pigeons are found in the woods, and ducks along the coast. Such game is plentiful, as very few natives own guns, owing to the license of \$10 a year required of those who keep them. There are positively no poisonous snakes or insects or dangerous wild animals on the Island. The largest four-footed animal found is the "hutia," about the size of

a large squirrel. You can sleep in the open air in the

woods or in a tent without the slightest danger from

beast or reptiles. Mosquitoes and even common house

flies are never troublesome in summer. TO MERCHANT, MECHANIC OR CLERK

The condition under which the average mechanic or elerk exists to-day is one of ceaseless totl, from morning till night, year after year. If he has a family, after paying the landlord, grocer and doctor, and buying coal and clothing, there is little left to provide for an emergency or old age. Contrast this condition with that under which one can live in Cuba. The owner of ten acres of land under cultivation will have an income double that which is earned by most mechanics, with the expenditure of one-half the labor. For a small sum he can construct a suitable house.

His vegetable garden and fruits will supply a large por-tion of his food. There will be no rent bills, no coal bills and no winter clothing to buy. Under these conditions he can lead an independent, healthful, out-of-door life, having a sufficient margin between his expenses and insome to enable him to put aside each year a portion for the future. His property, moreover, is constantly in-Do you want a guarantee of independence in old age?

Do you want insurance against poverty? If you do, read every word of our Prospectus. It points the way to a comfortable income for life. It shows you how you can easily provide for the future. Give it your earnest attent Read it carefully.

WAR IN CITY'S STREETS 2000 VICTIMS AT LODZ AFTER ONE AWFUL DAY

131 Persons Killed Outright and 41 Die in Hospital, Which Are Growded to Overflowing With injured-Many Wounded Unattended.

Troops Fire Volley After Volley Into Mob, Who Reply With Firearms and Showers of Vitriol - Unparalleled Brutality.

Lodz, Russian Poland, June 24.-Yesterday, "Black Friday" in Lodz, surpassed all the horrors of "Red Sunday" in St. Petersburg. While it is not yet possible to ascertain the exact number of victims estimates place the killed and wounded as high as 2000. The trouble here was initiated by the Social Democrats and Jewish Bund, who determined to avenge their comrades killed in the rioting on Wednesday. Thursday, the feast of Corpus Christi, passed off quietly, but during the night workmen attacked the patrols. In this fighting two officers and seven Cossacks were killed. One of the latter

sacks were killed. One of the latter was shot by a girl of 13 years.

At dawn Friday commenced a day of terror. The city was given up to bloodshed. Anarchy and flerce street fighting prevailed all day. Barricades were hurriedly constructed in the Jewish quarter at dawn. Men climbed to the roots of houses, cutting telephone and telegraph wires, to use for entanglements in the streets, while others cut down telegraph poles and used them in strengthening the sarricades which already had been constructed and in the building of others. Early in the day, two bombs were thrown from the crowd jnto the barracks, killing or wounding 26 soldiers. This started the shedding of blood, which continued until after nightfall.

Factory Hands Strike.

At 11 oclock, all the factory hands

At 21 oclock, all the factory hands

The casualties up to noon to-day add 18 killed or wounded to yesterday's appalling total. So far as yet ascertainable 130 persons were killed outright during the fighting of Friday, and 41 more died in the hospitals during the night. Of the wounded 320 sustained only slight injuries, which were attended on the spot by the ambulance surgeons. All the hospitals of the city are filled to overflowing, and, owing to surgeons. All the hospitals of the cro-are filled to overflowing, and, owing to the insufficient number of beds, many of the wounded persons are lying on

All the shops, stores and factories are closed, and business is at a complete deadlock. The rioters this morning at-tempted to set fire to the government office, but were scattered by a strong orce of troops.

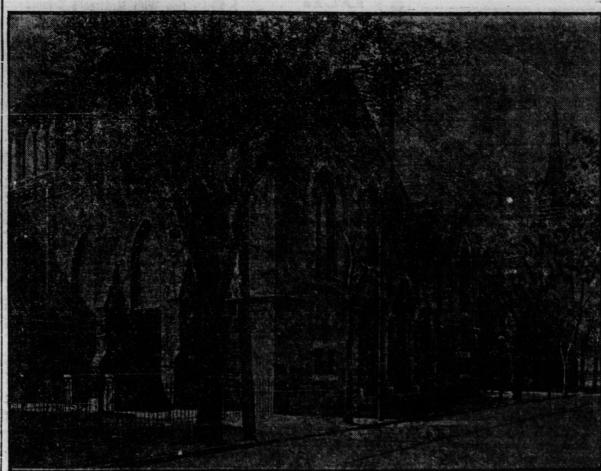

Assassin to Die.

Warswa, June 24.—Stephen Okrjeia, he locksmith, who threw the bomb into he Praga police station March 26, injuring six policemen, has been sen tenced to death. The workmen threat a general strike as a consequence further serious disorder is antici pated. The streets are heavily patrol-led by Cossacks and infantry. A work-man was murdered in the streets dur-ing the night, for refusing to strike.

HAWKEY-BAILES-In Toronto, on Jun-21st, 1905, by the Rev. C. O. Johnson of Wesley Methodist Church, Ethel May Hawkey, only daughter of Mrs. A. Hawkey, of 754 Bathurst-street, to Frederick John Bailes of the firm of John Bailes & Son. Oshawa.

NEW PRESIDENT OF S. S. ASSOCIATION

Hon. John James Maclaren, Toronto, justice of court of appeal, who urday was elected by acclamation presi dent of the international Sunday school The Premier Speaks.

After a short prayer Dr. J. C. Copp, the chairman of the meeting, introduced Premier Whitney, who acted as the chief executive of the province walked across the platform he was greeted with prolonged applause from those present. Mr. Whitney made a short address, in which he said:

HON, JUSTICE MACLARIEN.

BY ACCLAMATION MADE INTL. S. S. PRESIDENT

Torontonian is Honored by Nominating Committee in Choice and by Assembled Delegates in Congratulatory Reception.

Saturday's Conference on the Influence of Home Training on the Child - Some Interesting State-

Until the year 1908 a Torontonian in the person of Justice John James Maclaren will guide the ship of the International Sunday School Association of America along on its way toward the powerful position which it is destined to hold in the religious work of the continent. The nominating committee on Saturday morning spent only a brief time upon the work of selecting a president for the next three years, and without going any further in the selection of the officers they came in and announced their choice of a president. Judge Maclaren had been elected by acclamation. The announcement was greeted with prolonged applause by the

than those of laymen, and that young men must sow their wild oats, vere fraught with great evil. The thought that lodged firmly in the mind and took hold made toward a solution of

the problem.
There were two wrong courses in rethem assume the garb of religion no matter how ill it fitted. Others thought the church was no place for the child.

Examples by Chart. A rather novel way of driving home the importance of early training was taken by the speaker, who, by a chart, demonstration, tried to point out the different stages in life of susceptibility to its spiritual message. The chart, which had been prepared from the statements contained in the obituaries of 2276 men and 2542 women, established these as the most important

conclusions.

1. That the age of 12 is the most prolific of conversions. The chart showed 8 per cent. male and 16 per cent. female faith professions at this age, while amid good home influences the male proportion was 21 per cent. and the female 37 per cent.

2. After the age of 30, conversions were few, not averaging more than

were few, not averaging more than 1 1-2 per cent. among men in the examples given.

3. Women showed susceptibility to spiritual truth at an earlier age than

Two Antagonists.

There were two things that were antagonistic to Christian nature; spiritual repression on one hand, and spiritual over-stimulation on the other, Repression meant losing sensibility to in-fluence later on. Over-stimulation had direful results, physical, mental and

Glimpses of the Political Field

the by-elections the fight has centred political history of Canada. on the character of the distribution of seats in the new provinces. This has proved a resourceful subject for the opposition, and it has not yet been ex-ploited in its fullest sense. There can claimed that the provincial government position, and it has not yet been exin Alberta and Saskatchewan. The govshow that it asked the opposition to advise as to the most desirable plan of distribution. This plea hardly required the contradiction which was promptly given to it. The government simply cannot afford to have a hostile legislature in either of the provinces, and to ward off this dangerous possibility, it is ignoring every principle of fair play to so arrange the constituencies as to make the Liberal party

The distribution of seats in the west which has called forth such strenuous protests is the most effective reply that has yet been given to the government's contention that its policy is a non-coercive policy. The government has claimed that it was simply giving the west what it had already and what public opinion in the west was hostile by means of this argument that it subdued the wrath of its own followers in all over the English-speaking provinces. But the question that forces itself to the front during all these pleas and excuses and pretexts is that if the west favors federal guarantee of the separate school system, why was the question not submitted to the west before the last general elections? And the question may be asked now, why, if the government's educational policy is so strong in the west, the Dominion government should go to such great pains to gerrymander the constituencies which are to elect the new provincial legislatures? When it becomes necessary to ignore the principle of representation by population, to disregard geographical features and, in fact, to repudiate every well-known principle of legislative representation in order to elect partisan legislatures with Liberal predominance, it is clear that the west is far from pleased with the coercive legislation which is being passed by the Dominion parliament.

The gerrymander in Alberta and Saskatchewan committed under federal auspices has a counterpart in the deliberate elimination of Frederick G. Haultain from the new provincial governments. The government is afraid the west is in favor of the educational status of a political has-been.

Conservatives and not unpopular with Liberals. He has had an uninterrupted series of successes in the west, and Hon, A. G. FRENCH CANADIANS LEARN ENGLISH AS A NECESSITY

Mr. Tarte's Observances in Connec tion With Montreal's Celebration of St. Jean Baptiste.

Montreal, June 24.—(Special.)—The French-Canadian citizens were a'most as early risers as the sun this morning. In every section of the city and suburbs, members of the different soci-ties ing to the different meeting points in order to take part in the religious services in St. James' cathedial. The whole organization was divided into three sections, eastern, western and no the n, each holding a distinct procession and meeting at the church. The sections meeting at the church. The sections vied with each other as to which would appear to best advantage, and the result was a series of imposing demonstrations, which, when meeting on the square in front of the cathedral, formed square in front of the cathedral, formed a most brilliant spectacle. Each section was composed of several parishes and societies, with flags, banners and bands, and each also had its own little St. Jean Baptiste, clad in the traditional lambskin, and accompanied by a spotless white lamb. The streets thru which the different processions passed were gaily decorated with flags and bunting and the sidewalks we every. bunting, and the sidewalks were every where thronged. In front of the where thronged. In front of the cathedral the crowd was so large that the police and marshals had much difficulty in keeping an open space for the entrance of the processionists,

In the Cathedral.

The scene inside the church was brilliant—flowers, plants, flags, banners and innumerable lights adding to the splendor of the large temple. Bishop Racicot, surrounded by numerous clergy, officiated in full pontifical mass, the choir rendering a special program under the direction of Prof. Couture, Archbishop Bruchesi presiding on the throne. The sermon was preached by Rev. Abbe H. Filiatrault, P.S.S. Among the invited guests present in the procession and at the church we:e His Honor Lieut.-Gov. Sir L. A. Jette with Capt. Sheppard, A.D.C.; Hon. Lo mer Gouin, premier of Quebec; Hon, Mr. Turgeon, Mr. Kleezkowski, consul of France; the presidents of sister socie-

Jean Baptiste Society.

Speaking of the day, Hon, Mr. Tarte writes in La Patrie: rogress That Will Come.

"In the 25 years to come we will make more progress than during the last 25 years. We will not give up our language. We will speak it, altho this will not prevent us from learning a better knowledge of British, which is a commercial, political and social necessity for the French-Canadians. Our racewas taken out in all parts of the Confederation, where have we been a cause of embarrassment? Do we not respect the laws and do we not perform our part of the work to be done? part of the work to be done?
"For me, the discussion of the past

few months is a wonderful mystery. I really cannot understand the reasons which have prompted so many people, who are really not deprived of common sense, to stir up the Anglo-Saxon majority against us. We cannot be deported, and we are too numerous to be wiped out; we are a peaceable popula-tion and the day is coming when we will be five or ten millions.

DR. REAUME WAS STOPPED

HEAVY HAND OF MONOPOLY SMITES MONTREAL AT WILL

People Thought Consolidation Would Bring Reduced Rates For Public Services, But They Have Found Our Their Mistake -Aldermen Stand in With the Corporations.

Montreal, June 24.—(Special.)—The history of the growth of monopolies in his oldy is not only interesting but instructive. The Montreal more than in any other Canadian city, the path of the monopolist has been made smooth. The merger of the lighting concerns of the city and district, which took place some years ago, was accomplished only after great financial manipulation. When that trick was turned and the lighting companies were made a single whole, under the name of the Montreal Light, Heat and Power Company, the people of Montreal imagined that cheaper gas and electric light would ensue. Their thoughts went out into the fields, the green thoughts went out into the fields, the green pastures, of "reductions all round." They forgot that by taking away the competition, and giving an exclusive franchise for a term of years, they were shutting the door after the competitive horse had been stelen. Cheap gas and electric light never came. They have not come yet, in either in-Aldermen Hang On.

Aldermen Hang On.

At this juncture it might be in order to state that the chief trouble with the city council of Montreal is the way in which aldermen, once elected, cling to office. There is little new blood introduced. The sweets of power are so delectable that meneral elected to the ordinary term manage to controlled in office for years. Aldermen, and the properties of the council of aldermen, requesting the city law severed power are so delectable that meneral the properties of the council of aldermen, requesting the city law are the prey of the franchise hunter. It is not original civic sin that possesses the average alderman of this city. It is a keen appetite for power that makes the member they french or English—treat with such such laws and the public rights such important matters as the extension of the gas franchise. The average man who the gas franchise, The average man who the gas franchise, The average man who the gas franchise, The public rights with such that the public rights with the council.

Up to within a few years ago the hand of the monopolist was not felt in Montreal. The merger of the light, heat and power interests put a new phase on the question. It means that the financhial crowd, headed by Senator Forget of the Montreal street and the second of the public monopolist was not felt in Montreal. The merger of the light, heat and power interests put a new phase on the question. It means that the financhial crowd, headed by Senator Forget of the Montreal street with the delayer. "Dee calls me a jack-leg carpenter, the financhial crowd, headed by Senator Forget of the Montreal Street Mailway, had secured control of the public monopolist was not felt in Montreal. The merger of the light, heat and power interests put a new phase on the question. It means that the financhial crowd, headed by Senator Forget of the Montreal Street Mailway, had secured control of the public monopolist was not felt in Montreal. The merger of the light of the monopolist was not felt in Montreal Street Mailway, ha Aldermen Hang On.

At this juncture it might be in order to state that the chief trouble with the city som cil of Montreal is the way in which aldermen, once elected, cling to office. There is little new blood introduced. The sweets of power are so delectable that men elected to the ordinary term manage to continue in office for years. Aldermen, the continue in office for years. Aldermen, will now be done individually by an interest of the common or garden mortals, fall into a rut. In their desire to cling to

No Action by City. Montreal Gazette, June 23.—According to ir formation given out yesterday at the city hail, the city will not take legal action against The Toronto World for libel, but it is understood that Ald. L. A. Lapointe, Ald Payette and Ald. Couture will take private civic actions against the paper. It seems the city attorneys have advised individual actions as being less open to objections.

ROUTINE BUSINESS STARTS SOME CHANGES SUGGESTED

International Delegates Listen to Reports of Secretaries and Discuss Permanent Organization.

General Secretary Lawrence read the triennial report of the executive committee. The triennium just closed had been entered upon just at the time of the death of the pioneer international worker, B. F. Jacobs of Chicago.

The tenth triennial at Denver in 1902 had pledged the sum of \$14,469 to the work of the international. On the strength of this more secretaries were appointed to the general staff until there were six secretaries employed in the work. Still the work was unfinished, and there was a need of more men. The cry for help was never so urgent and intelligible as at the present time. States and districts which never had expressed a need were now asking for men and money to carry on the work. If the work in

what we culled folks calls a carpenter:

"I fail to understand you," said the attorney, more sharply than before.
"You'll have to be more exact. What are we to understand by a jack-lest carpenter?"

"Well, sah, mebbe it might be explained better by sayin' dat de difference is jest about de same as between you and a fust-class lawyer, responded Botts, with a broad grin.—Philadelphia Ledger.

"A negro just naturally loves a watermellon," said Representative Johnson of South Carolina, while speaking

"Flashlights on the Bread Question"

Does it not interest you who is the best baker? All alike claim the title. There is only one best bread. The public, who are competent and impartial judges, prefer "TOMLIN'S." The daily increasing output warrants this assertion. You give the bread a trial—that is the only way to find out. Send a post card to

A very pretty wedding was solemnized at College-street Presbyterian Church Wednesday, June 24. when Miss Alice Pepper was married to Mr. Sydney Rands, C. P. R. agent, Drumbo. The bride, who was given away by Mr. M. Watson, was handsomely gowned in cream chiffon voile over taffeta and carried a shower bouquet of bridal roses. The bridesmaid, Miss May Clark, was attired in cream silk c epe de chine and carried pink roses. The groom was attended by his brother, Mr. Frank Rands, Shelburne, Ont. The groom's gift to the bride was a pearl crescent, to the bridesmaid a pearl brooch, to the groomsman a pearl ciescent tie pin. The bride received many beautiful presents. After the ceremony a reception was held at G. S. McCon-key's, where the guests sat down to a dainty dejeuner. The happy couple

left for a trip to Ottawa and other eastern points,

The Queen's Royal at Niagara was The Queen's Royal at Niagara was very brilliant for what was, in all probability, the last military ball to be given by regiments in camp. Soldiers are always the best of hosts, and the casino is an ideal place for summer dances, the breeze from the lake making a delightful atmosphere and the verandahs are such delightful resting places. There are an immense number places. There are an immense number of Toronto people staying at the Queen's Royal and in the cottages. The ball was under the auspices of Gen. Otter and the uniforms of the Canadians mingled with those of the American officers stationed just across the river contributed not a little to the gafety of the scene. Dancing forms an indispensable part of every man's education in the States, so that they are welcome guests where dancing is the order of the day.

The decorations were exceedingly well done and support were exceedingly well done and support were supported. ingly well done, and supper was served at midnight, after which dancing was

Toronto and carries his years lightly.

All the colleges and schools for girls have been enjoying a gay and busy week, closing exercises having been the rule. What a different thing "school" is made nowadays to what it was in our grandmothers' time. Knowiedge was then acquired with pain and difficulty, backboards and blackboards were things of terror. Now, beginning with kindergarten for the little ones, the publis are led on by imperceptible degrees thru the flowery paths of literature, art and music, every step being fraught with interest and pleasure that the days of learning are looked back upon with delight all the rest of their lives. Mrs. Dickson, who reigns with such graceful dignity over St. Margaret's College, invited a great many f. lends of her own and her pupils on Thursday evening to listen to a well-selected piogram of instrumental and yocal music. or her own and her pupils on Thursday evening to listen to a well-selected program of instrumental and vocal music given by past and present graduates. The house was profusely decorated with flowers and foliage, and the garden alight with Chinese lanterns, was a delightful place to stroll in lightful place to stroll in.

Just peeps, as the to choose his way.

Sailing on the Virginian, Kensington and Etruria from New York Saturday were: Miss Brown, Miss Jessop, Miss Jones of Toronto; Dr. Reid and wife of Bowmanville, Mrs. W. Leigh Mallory, W. E. Caldecott. Miss Ada Scott, Miss M. Scott, Mrs. J. H. Boulter, J. D. Freeman, A. F. Kempton, Miss Imer. Miss G. McIntosh, Miss M. McIntosh.

Sebastian H. Burnett, vocal instruc-tor, leaves for the coast on Monday, where he will pass his vacation. He proposes to give recitals in Seattle, Aberdeen and Chehalis. Wash., also one at Portland, Ore.

Mrs. C. Flanagan of Parkdale and her son, Edward, sailed on June 23, by SS. Virginian, for England, where they will spend the next two months.

Miss Isabelle Meads of Duluth. Minn., is the guest of Mrs. L. S. Humes, 86 Concord-avenue.

Miss Clara P. Telfer, after a successful year at the Conservatory of Music, left for her home at Collingwood, where she will spend the summer months. Numerous friends who accompanied her to the station, wished her a most enjoyable vacation and a speedy return joyable vacation and a speedy return to their "milien."

Aemilius Jarvis and his two sons left on Saturday afternoon for the Pacific coast, where Mr. Jarvis goes to inspect the fisheries of the B. C. Packers' As-sociation. of which he is the vice-pre-sident. The canneries extend from the Fraser River north to Alaska, being situated at the mouths of the rivers.

BEHIND A FOUR-IN-HAND.

And here we gain the old coach road
That hugs the river's sweep.
Where stately red-gums rear their heads
And serious myalls weep.
And thru the grasses axle-high.
That storm the beaten track
We rip, with humming spoke and tire.
And fling their columns back

And now the sun, as having slept
Behind the black belar,
Just peeps, as the to choose his way.
And, peeping, throws afar
A glorious stream of rosy light—
A wondrous ray that mints
On all, from earth to highest branch,
A thousand golden tints,

NIAGARA-ON-THE-LAKE

During the past week the soldiers have been in control of social affairs at Niagara-on-the-Lake. Afternoon teas and at homes have made the camp very pleasant for the friends and wives of the officers. The most brilliant social event of the camp, however, took place in the Queen's koyal casino on Wednesday evening. The military ball brought many of the society people of the province and a goodly number from Buñalo and other neighboring places to Niagara. To a stranger, over half of the 300 people in attendance appeared to be in fancy dress. The conventional black was lost among the brilliant uniforms. The effect of the scarlet uniforms, leading the ladies in black evening dress, was very striking. The cavairy with their black uniforms elaborately trimmed with white broadcloth and white braid, were favorites, in spite of their spurs. Here and there among the throng could be seen the smart khaki-colored uniforms of the guides, with their dashes of scarlet trimmings. The new uniforms, tartans and kilts, of the 91st High, anders were guides, with their dashes of scarlet trimmings. The new uniforms, tartans and kilts, of the 91st High anders were admired. The officers from Fort Niagara produced enviable comment, some in the white suits of the Philippine service, others in their full dress frocks trimmed in gold and fastened with a gold belt. The ladies appeared in exceptionally beautiful soft fluffy attire.

Many of those in attendance at the military ball arrived at the Queen's Royal on Tuesday, in time to hear the song recital by Miss Mabel Beatrice Beddo, mezzo contralto, of Toronto, assisted by Miss Grace Merry, reader. Miss Beddoe's superior training appeared in the beautiful simplicity of the selections as well as the perfect conpeared in the beautiful simplicity of the selections, as well as the perfect control of her voice. Miss Merry was exceptionally taking in her Scotch and negro dialect readings. Miss Beddoe has already spent several years in Boston, New York and Chicago. in study and church work, and in September she goes to Germany for two years' study.

In return for the courtesy of the Queen's Royal, in tendering the military ball on Wednesday night, the guests of the hotel were invited to attend the military tattoo at Niagara camp on Wednesday evening. Special arrangements were made for their comfort in the front raphs of presents.

tary ball on Wednesday night, the guests of the hotel were invited to attend the military tattoo at Niagara camp on Wednesday evening. Special arrangements were made for their composition of the front ranks of spectato.s.

An inspection committee from the Canadian Bowling Association visited the Queen's Royal rinks on Thursday, preparatory to the annual championship games, which are to be held here on July 11. The committee consisted of President George R. Hargraft Secretary M. McCulloch, C. Sivaby, A. Wheeler, J. McCabe, J. B. McKay and T. Hastings. They found the grass exceptionally good, and pronounced the ground to be in better condition for this time of the year than ever before. The grounds will be continually worked and played upon, so that they will be inperfect condition for the tournament on July 11. Already entries are coming to the president. and it is expected that between 200 and 300 bowlers from all over the province will attend. It is hoped that championship teams from Montreal and from London will enter the competition.

COL. MUNDY'S BIG SHOWS

Under Elk Auspices-Six Days of

Solid Enjoyment Assured at

Harbor Square.

The coming to Toronto for one big

week of carnival of the Great Mundy

Shows under the auspices of the Elks

and for the benefit of Toronto's Sick

Children Hospital, is sure to be an

event of more than passing moment.

The Great Mundy Shows stand alone

as purveyors of all that is good, clean

and wholesome in entertainment, and

ould not be confused with any so

called carnival organization. The

Mundy aggregation consists of more

attractions, of a diversified nature, ever

attempted. They are thrice larger than

any other carnival company and for

that reason do not attempt to give

any street fairs. When it is stated that they are to occupy the large ex-

hibition grounds at Harbor Park, it will be readily seen that the Mundy Shows are of magnitude. There are many original and novel attractions

found, even with the biggest of cir-

A special feature of the Mundy Jungle Paradise, the largest and most com-plete of any in the world, is an act seen for the first time in this city, that

seen for the first time in this city, that of the riding lion Duke, which rides the beautiful equestrian horse beauty. It is presented by Herr Popescu, who for many years was the chief animal trainer at the Hippodrome in St. Pet-

ersburg. Among the other notable fea-

tures are such acts as Senorita Anita, who introduces a series of dazzling dances in a cage with four handsome lions; Mile. Van Gorder, who puts a group of lions, tigers, pumas and

WANT TO KEEP THE CAMP

Soldiers, Citizens and Visitors Do Not Take Kindly to Deserting Old Niagara.

The Town of Niagara is feeling pretty bad about the proposal to transfer the scene of the divisional amp. The men who have been camping at Niagara for years also like the place, and they do not take kindly to the mooted change. It has practically been settled that the next big camp will be held elsewhere, but the following petition to Sir Wilfrid Laurier and the Deminion cabinet has been very largely signed during the past couple of days by citizens of the town, visitors to the camp and the soldiers who have been under canvas for the past two weeks:

"Having heard with feelings of regret that it is the intention of the Dominion government to sell or dispose of the lands known as the military reserve, which have been so long used for military training and camp purposes by the volunteer forces of the Province of Ontario, we most respect-fully state, that these grounds have be-come endeared to us and many of the citizens of Canada, both historically

citizens of Canada, both historically and within the memory of some, and much more so when the great events which occurred here during the past one hundred years are recalled.

"Here the soil has been reddened and made sacred with the life-blood of these brave men who so nobly fought to repel the invader and preserve the unity of the empire, all for Britain's glory. At Navy Hall the naval commanders of the lake fleet had their headquarters as early as 1787. Here was instituted and begun the first government for Upper Canada under that ernment for Upper Canada under that most trusted and worthy public ser-vant of the crown, John Graves Simcce, as governor. On this very spot the immortal General Brock erected fortifications and rushed forward but a few miles to meet the enemy and a brave soldier's death, and his body

lay here for twelve years. Brave Vincent with a small force defended Fort George, and around this military ground a cordon of British soldiers was formed, who successfully shut in and blockaded a large force of the enemy for months, and the bodies of many of these brave men lie buried here. these and other reasons, we feel that it would be almost a desecration to dispose of or part with these sacred

grounds.
"During the past thirty years this spot has been the camping ground for the volunteer youth and militia of our country, where they have learned and acquired the art of war which has enabled many of our brave soldiers of Canada to fight with valor, even unto death, on the veldt of South Africa with pride and distinction for the honor

of Canada and the great empire, of which we are so proud to form a part. "We would therefore most humbly pray that these plans may be retained and maintained as they are, and that the forts and historic grounds be pre served for coming generations, and that the annual camps of training be con-tinued to be held here."

BURNS OUT BIG GUNS.

Smokeless Powder Raises Steel Bore

A serious trouble that confronts the modern artillerists is the tendency of the smokeless powders that are now exclusively used to burn out the interior lining of the guns, particularly near the powder chamber. The powder itself is the cause of more or less anxiety because of its chemical instability. The erosion or burning out of the interior tube of the gun, which is in immediate contact with the powder gases, is due to the high pressure and intense hear of the gases.

Interior tube of the gane, which high pressure and intense heat of the gases. At the high pressure and intense heat of them gases. At the lingtant and charge is fired a great volume of gas is generated, and, heing confined in the powder chamber by the projectile, its pressure rises to an enormous andount, which, in the case of the service land, in the case of the service charges in the United States guns, 's as high as 17 tons to the square inch.

This is accompanied by a preportionate rise in the temperature of the gases. If it were possible to look into the powder chamber and as they stream from the larger chamber had as they stream from the large

She always darned her hose with silk— The holes were quite extensive— The price of silk was very high. Which made them darned expensive.

Vacation Clothes

Vacation time makes even more strenuous demands on a Boy's Clothes than school days. The boy shouldn't be hampered by clothes that he has to take too good care of in order to keep them looking well.

Here are some sturdy, substantial Suits that will give good service for rough-and-tumble wear during the long vacation and keep their looks as well.

See how low they are priced.

\$3, \$4, \$5 or \$6.50.

Turn Your Boy Over to Us

We'll put him in splendid shape to enjoy his

Suits, Blouses, Shirts, Shirt Waists, Ties, etc., etc. Everything he will need is here, and all moderately priced.

Ottawa, June 24.—On a wire from Dr. Hodgetts, Toronto provincial health like about the depth of man's mind; officer, ten men of the 97th Regiment at camp at Rockliffe, were sent to

Porter's Island to-day. It seems two members of the Soo Company were exposed to smallpox contagion before coming to camp, and

they and all associated with them had to be isolated. The men are perfectly healthy and how no signs of the disease,

A desk from the Metternich art collection at Koenigswart (Bohemia) has been sold for £40,000. The desk is of rosewood and gold, and is one of the choicest masterpieces of French artistic craft of the eighteenth century. It was made a present by Napoleon I. to Prince Metternich. It was originally given to the Duc de Choiseul by Louis Quinze. Princess Pauline Metternich declared to an interviewer that £80,000 were offered for the desk during the lifetime of her husband, the late ambassador in Paris. The desk A desk from the Metternich art collate ambassador in Paris. The desk of honor?

"Principles and Methods of Industrial Peace," by A. C. Pigou, is a work that may with confidence be recommended to all who are anxious to understand the conomic truths that muct guide any attempt to settle disputes between workmen and employers. The writing is clear and concise, the reasoning sound and intelligible, while the subject is discussed with a comprehensiveness surprising in so small a volume. The author approaches the question from the deductive rather than from the inductive point of view; he takes for granted the general principles of polotical economy and endeavors to show how they may

tion discussed. It might seem that arbitrators should seek to "modify he general distribution of wealth, awarding to poor workpeople higher wages than the trend of economic fo ces would naturally bring about." But such conduct would, in the autho.'s opinion, injure the trade, and so, in the long run, the workpeople themselves. The arbitrator should, therefore, in making his award, confine his attention to consideration of the trade and the labor market. He should, indeed, take into account the possibility that higher account the possibility that higher wages might make for greater efficiency, but thinks that there is little scope for successful action along these

lines.

So far as the better organized trades are concerned, where wages are high, the author is probably right in his contention. But he hardly gives suffic ent consideration to the case where wages are so low that they do not afford the laborer the means of here subsistence. are so low that they do not allow the laborer the means of bare subsistence. Where such conditions rule, it would seem right for the arbitrator to take his stand on the principle of the mo.al minimum wage and to decline to make any award that will not reach the standard. If he act otherwise he gives the decretion of his approval to "naia."

deavors to show how they may be applied to the sundry disputes which threaten the continuance of industrial peace. Of actual quarrels the says little, but occasionally uses little that worderful adventures, ne seeks a quarrel with him; but, being humored patches it up and renews the bond of friendship. The author would lead the reader to understand from his final sentences that he has in view a continuation of the adventures of Mr. Daunt, again after the same pattern are six Corean Device in that wonderful the says little, but occasionally uses them as illustrations. But while in the main he is concerned with the economicaspect of the subject he very wisely is not blind to the fact that ethical and social considerations umst be given their due weight.

Bargains between combinations are economically indeterminate; there are many possible settlements; it is for the arbitrator to decide which of these will secure a maximum amount of benefit to those concerned. This is the first question discussed. It might seem that arbitrators should seek to "modify he general distribution of wealth, awarding to poor workpeople higher wages than the trend of economic foces would naturally bring about." But such conduct would, in the autho's opinion, injure the trade, and so, in the long run, the workpeople themselves. The arbitrator should, therefore, in mak.

Canada, and How to Americanize It.

Washington (D. C.) Post.

Washington (D. C.) Post.

Something has been said about "Americanizing" Canada, and it is suggested that the many thousands of our prople who have voluntarily expatriated themselves, located on the domain of our northern neighbor and become subjects of the King of England, will do the business. That may be; but is there not some danger that they will be "Canadianized?" That Canada will some day be a part of the great republic is certain. Mutual interests will draw the two peoples together, but not until long after our country practices a different sort of statesmanpractices a different sort of statesman-ship from that we now employ in our intercourse with the Dominion-instead of inviting Canada, we repel her. We built our wall against her,

Instead of inviting Canada, we repelher. We built our wall against her, and she has built her wall against us. A genuine and reasonable trade reciprocity between the two countries would bring political union within a score or so of years. But there are powerful interests in the United States which do not intend that we shall have trade reciprocity with Canada or any-body else. We have free trade in labor, and thousands of Canadians swarm over the line and get jobs in our country whilst rejecting our citizenship; but a saw log is not allowed to cross the border.

Perhaps there has been more abundant quantities of patriotic eloquence derived from discussions of our "fish-

WHAT CONVENTION DELEGATE IS DOING MORE FOR POSTERITY THAN DR. SMALLWOOD, COLORED?

Sunday Morning

Born in Slavery and With Unique Personal Romance, is Now Educating His Race to the Highest Degree of Citizenship

An assemblage of eight thousand persons from points covering the whole Continent of America might be expected to contain many interesting characters. Many of the delegates at the big convention are men of high achievement, but perhaps the most remarkagle is a member of the colored group, one who can tell a story of his early life that might make a plot for a novel. He is Rev. Dr. John J. Smallfounder and president of Temperance, Industrial and Collegiate Institute at Claremont. Va. Born on a slave farm at North Carolina at the beginning of the war he was deprived of his parents in infancy. When he had by a life of endeavor raised himself to a position where his oratorical and other powers brought him into repute he was thru rents in a remarkable manner. He is almost an optimist regarding the future of the black race. In his own country his work has been such along moral and temperance lines that the large majority of an extensive colored population have been won over to the tem-

We've got a vote in our county," he said, "and we have also the balance of power. The negroes mostly vote 'dry,' and there are enough of them to carry local option. Thru our efforts nearly all the blacks have changed from 'wet' to 'dry,' and the saloonkeeper, who used to fill us up with liquor until our money was all gone and then turn us out, came at last to be turned out himself, and all on ac-count of our votes." This is indicative of the good work being carried on by this worthy colored man and his wife,

having been emancipated in the big war, I had by dint of hard work, many ups and downs and disappointments a chance to get an education, which I did. In 1832 I went, to the school at Wilberham, Mass., and in 1839 went to Europe. Four years later i had the satisfaction to return and purchase the old Claremont farm, where my college now is. You may imagine my feelings when I tell you it was the place of my father and mother's birth, and that here in 1622 the first slave was sold on the block, having been brought up from Jamestown near by where they

"On one of my temperance crusades in Mississippi one evening after the lecture was over I was having a heart to heart talk with an old colored woman who had lived many years in
slavery, and who began to tell me the
story of her life. She had come from
North Carolina, and from the very

these gifts reunited to his long lost pa- sion from the president, and a written statement from parents or guardian.

Smoking, chewing tobacco, drinking whiskey, talking about people hehind their backs, fighting, carrying fire arms, stealing or swearing will not be

count of our votes." This is indicative of the good work being carried on by this worthy colored man and his wife, who is lady president of the college.

Born in Slavery.

Dr. Smallwood is of dark hue, but has a strong, intelligent face and a disposition bright as a happy child. He has swon great repute in Virginia and other states as a temperance orator and educator. He is a good talker and has a great memory for figures.

Here is how he tells the remarkable story of the finding of his long-lost parents, sold in slavery: "I was born on Hon. W. W. Smallwood's plantation at Rich Square, N.C., and it is from the 'Smallwood' plantation,' you notice, I get my name. When only six months old my parents were sold and cruelly separated, my father going to Texas and my mother to Mississippi. I was left on the old stave farm under the care of a good old mammy. The slaves having been emancipated in the big was a succe of figures for he dashed off the following without the slightest heslia-following his for the Mason and Dixol line paid taxes of coffee were nonly sli

Ask Lewis and Clark.

Director of the Mint Roberts is tell ing a story on an Iowa friend with whom he recently visited the Lewis and Clark exposition grounds at Port-

On the day the news of Togo's vic "I had become well known as a temperance lecturer, and almost in the same manner my father heard of me while I was on one of my tours and communicated with me. He was on his way to join me when he was stricken and died without having been blessed with the sight of his wife and son."

An Interesting Institution.

The Collection of the Japanese colony had a dinner engagement with a New York family, says The New York Sun. Shortly before the appointed hour came his excuses in this dainty note: "I am very sorry that I shall disappoint you. I hope that you will forgive me and remember the invitation for some other." An Interesting Institution.

The Collegiate Institute, of which time. But to-night it is impossible, for to-night I am drunk."

less of how other roads may feel about it. This, in other words, means a rate war. The Grand Trunk will cut the rate \$2 below the Michigan Central.

The Only Way.

DIVING IN MANY SEAS.

Chat With a Famous English Diver -A Perilous Calling.

How many of our readers know Jim Murphy? asks a writer in The London Tit Bits. Very few it is safe to say. Yet this burly, grizzled son of the Emerald Isle is one of the most famous divers of the day. He laughs to scorn, just as all men do whose contempt for danger grows in proportion to their familiarity with it, the idea that death haunts the footsteps of the diver in his loney walks beneath the sea. He has dived in many seas for close on to thirty years, and yet as he stood before, a Tit Bits interviewer, he scratched

his head in vain for some time for the recolletcion of anything like an adven-ture in which his life had been in dre-peril beneath the waves. His splendid brogue alas, cannot be reproduced here,

but his words are worth recording.

'Speaking of sharks makes me remember that as a rule they are as much afraid of our electric light as we are of them. And on the whole the divers' life is not nearly so full of dan-ger as landsmen imagine. While I was in Russia some time ago helping in the refection of the Libau harbor works I trained over 100 divers, and not one of them has lost his life or been any the worse for the work. I have trained a lot of men in Gibraltar, too. Certainly," he proceeded, in a casual kind of way, "a couple of them on one occa-

Smoking, chewing tobacco, drinking whiskey, talking about people hehind their backs, fighting, carrying fire arms, stealing or swearing will not be tolerated under any circustances. The first offence necessitates an expulsion. Each student must bathe three times each week.

Students will not be allowed to make or to run accounts in any store in the village.

Letter writing between boys and girls will not be tolerated.

Politeness must be cultivated and maintained.

Punctuality must be a part of every duty.

Dr. Smallwood seems to be a prollife scurce of figures for he dashed off the following without the slightest hesitation:

"In 1861." he said, "the paggoest south" in the steam of the pressure is too great for any long ray and adepth of nineteen or twenty, the pressure is too great for any long stay at a depth of nineteen or, twenty fathoms. I have been in twenty-five fathoms, I have been in twenty-five fathoms. I have been in twenty-five fathoms, I

nection with the salvage of £50.000 in specie from the wreck of the Hamilia Mitchell, which was lost on the Len-conna Rock, near Shanghai. The afterconna Rock, near Shanghai. The atterpart containing the treasure had rolled into deep water, and the divers had a long search for the vessel at depths varying from 120 to 160 feet. Ridyard ultimately obtained access to the treasure room, when he found that the worms had eaten the wooden boxes, but had left the dollars, which lay in heaps on the floor. Pilyard made four trins on the floor. Ridyard made four trips and during his explorations remained here in 1822 the first slave was sold on the block, having been brought up from Jamestown near by where they first were brought to America to form the neucleus of the great dark cloud of slavery, which hung over America for 250 years.

Discovers His Mother.

"On one of my temperance crusades"

Ask Lewis and Clark,

practices of the masters, his courage, and during his explorations remained under water for four hours at a stretch, sending up the entire contents of sixty-four boxes of treasure. No selves," concluded the doctor, "I believe the future of the black race is a good one."

Chief Justice Armour makes rome under water for four hours at a stretch, sending up the entire contents of sixty-four boxes of treasure. No littigants in court, and the duty of this great depth, and it is not surprising that the intrepid diver returned to the boat quite exhausted from the trial of a cause in which notice for jury has been given, and directing them."

TRIAL BY JURY.

Editor World: It may not be known to the public but a serious invasion has been made by the late governway, "a couple of them on one occa-sion died after coming out of the wa-ter—pressure of air on the head, I the most cherished institutions of Brit-think it was "The safe depth to work in? Well, ish government has been taken away, he pressure is too great for any long. It is a principle of the English con-

The late Reform government passed an, act, which, if the trial judge chooses in any purely common law action with the exception of actions for slander, libel, seduction, malicious prosecution

libel, seduction, malicious prosecution or false arrest, he can deprive a British subject in this province of this sacred right, and strike out the jury, and proceed to try the case himself, and no appeal is allowed from the discretion so exercised.

Such a piece of legislation, if passed in England or the United States, would have raised a storm of indignation that would have swept any government from power. from power.

The law as it stands now is:
"That the judge presiding at the trial may in his discretion direct that the issues may be tried and damages as-sessed without a jury." As to the working out of this precious piece of legislation a rather curious condition of affairs has arisen.

In the Bank of Toronto v. Keystone Fire Insurance Company, 18 P. R. 413, the divisional court of king's bench decided that the trial judge had re power to strike out the jury notice and transfer trial of the action to the nonjury court because "he was not the judge presiding at the trial of the actions for he declared as soon as they were called that he would not try them, and having declared that he would not try them he could no longer be the judge presiding at the trial of

The duty of a judge presiding at the trial of a cause in which notice for jury has been given, and directing that it be tried without a jury, is to proceed at once with the trial.

The litigants are entitled to have their case tried in its order upon the docket, and they are the only persons whose convenience ought to be convenience ought to be convenience.

docket, and they are the only persons whose convenience ought to be consulted, and neither the convenience of the judge holding the sittings, nor of the jury, nor of counsel should be allowed to stand in the way of their

ime. But to-night it is impossible, for to-night I am drunk."

G.T.R. in Favor of Rate War.

A few days ago a decision was rendered by the railway board of arbitration, which gave to the Michigan Central a differential rate between Chicago and New OYrk. The announcement is made now in local circles that the companies of the grant of the dining room steward—is obligation. The other obligatory.

"American tourists in the novice class make the mistake of tipping too much. The average tourist, the one who travels at the minimum first-cabin rate, is considered by all to have done his full duty if he gives the tips that I have named."

Crand Trunk will cut take too much space to enumer ate them in full.

The jurors are selected from the body of the people, and are intelligent citizens of the same rank as the general run of litigants, are sworn and usually know nothing of the parties, and are expanded from any insidered by all to have done his full duty if he gives the tips that I have named."

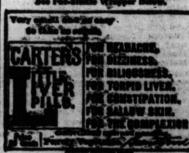

Crand Trunk will cut take too much space to enumer ate them in full.

and flesh of their flesh? And who can depict the hopelessness and dejection that hover about the home where the wife is incapable of becoming a mother? Barrenness proceeds from some derange-ment of the distinctly feminine organs. Many of the common ailments known as "female troubles" cause it. Dr. Pierce's Favorite Prescription overcomes barrenness by stamping out diseases of women and by healing and curing ulceration. It tones up the system, stops drains, and restores strength. During gestation it modifies morning sickness, gives elasticmodifies morning sickness, gives elasticity to the overstrained parts concerned, makes the hour of baby's coming short and almost painless, and gives wonderful recuperative power to the patient. By making the mother strong and cheerful, it makes the little one healthy, vigorous and good natured. Insist upon the med-icine dealer giving you Dr. Pierce's Fa-vorite Prescription when you ask for it. Substitutes are often dangerous.

Mrs. James W. Blacker, of 629 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor: I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Pavorite Prescription' I have much better health, and now I have a fine healthy baby."

For 31 one-cent stamps to cover cost of mailing only, you can get a free copy of that celebrated doctor book, the Common Sense Medical Adviser, 1008 pages, illus-trated. Cloth-bound, 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

spelling reform, and its supporters are using in its behalf all the familiar arguments put forward by the corresponding agitators in English-speaking lands. The classic orthography, however, has found an ardent champion in Edmond Rostand, the dramatist and member of the French Academy. In rent to him, and, mixed with his exalted enthusiasm, was an intense humility. Standing beside the first beginnings of "Vital Energy"—the image of "the human will bridling in brute force"—he dt to The Figaro, he imagines himself, said:

"I am nothing. Oh! you will find out I am nothing. I have no genius—no facility; anyone could do it better if they sacrificed everything to it as I do! One thing alone I possess, and I never remember the time I was without it—an aim towards the highest, the best and a burning desire to reach it."

Mr. Watts refused \$15,000 fcr "Love and Death" and gave it to the City of Manchester. A friend expressed astonishment at his generosity, whereupon he replied: "I don't find any difficulty Manchester. A friend expressed astonishment at his generosity, whereupon
he replied: "I don't find any difficulty
in giving three thousand pounds; I
should in giving five shillings."
He had a horror of debt, disapproved intensely of extravagance and

word."

distressing tale so worked upon the distributions of control tale distributions are considered in the distribution and the distributions are considered in the distribution and the distribution are considered in the distribution and the distribution are distributed in the distribution and distribution are distributed and distribution are distributed in the distribution and distri of the tale.

Some of the smaller Paris theatres flatter themselves they are leading the way in dramatic art by presenting plays too outrageous for the larger establishments. A few days ago at the Theatre du Trianon a program of four pieces was offered—a philosophical dialog in verse, a sidesplitting farce, a tale of horror and a malodorous ethical problem. "L' Etau" introduced a truculent husband who discovers that his wife loves another and forthwith commits suicide by swallowing strychnine after arranging matters so that the guitty pair are certain to be convicted of murdering him. The lover, realizing the situation, retires to shoot himself while the husband slowly agonizes 0, p., breathing maledictions on his Some of the smaller Paris theatres

k Watts, R.A., who conducted his life on the severest principles of economy.

Nothing has been more su prising in the history of British art lew of avoiding litigaties of the prices paid for portraits

faithless spouse. This cheerful play is admirably suited for a hot weather holiday. In "Le Droit de Tuer" a man and woman are lying at death's doo—automobile accident, of course. The family lawyer knows they are not husband and wife. Neither can possibly recover, but while the woman will die in an hour the man may linger for a day. If this happens their ch. dren will be left penniless, if the wife survives she will inherit under his will and the estate will go to the innocent offspring. The lawyer proposes that the man's exit from this vale of tears in the prices paid for portraits be accelerated, and the doctor, who has

great change pass of the west, where the suggested that they should go and live in one of the two houses which Thornycroft, the sculptor, was building next door to the new Little Holland House, which Watts had erected in Melbury-road. The suggestion was accepted and they became the neighbor. These intimate recollections present a very charming portrait of the sensitive idealist, Painting for money was abhorent houses, when the him, and, mixed with the sensitive inthusiasm, who is a sense of the largest and most popula bars in London—The Criterion—in Pic addilly. It had ceased to be frequented by men of good character, who preferred a place where they could eat as well as drink. The management have therefore discontinued it and its place will be taken by the restaurant. This is in line with the arrangements anade to the fine arts.

Paris is much interested just now in spelling reform, and its summusiasm, who is spelling reform and its summusiasm, who is summents. 168,021 gallons and in 1904-'05 it was 40,076,652 gallons. Hotel proprietors orroborate the marked shrinkage in the demand for wines and spirits.

Londoners, however, are not changing in other respects—certainly not in their methods of enjoying bank holidays. It may be due to innate absence of mind, but the fact remains that the way of the holiday maker everywhere is strewn with lost property of every conceivable description. A store of considerable size might have been stock-ed from the gleanings of Hampstead Heath, that favorite resort of the coster. Umbrellas, hats, walking sticks, ties collars, overcoats, silver and copper money and nine children of various ages contributed part of the spoils. A picnic party at Alexandria Park forgot a complete outfit, including kettle, stove, cups, saucers, knives, plates, tea-No joy or pleasure on this earth quite equals that which comes into the home when baby arrives. Who can describe the happiness of man and woman, joined in wedlock, as they look upon the fragile, it will be the company to the fare but the horse. Salt Lake City Races.

Over three thousand people witnessed a phenomenal bicycle race at Salt Lake City on June 2nd between Iver Lawson, the world's champion, and Norman Hopper of Minneapolis, who has recently been reducing records in Australia.

The race was a two-mile open. The world's champion went down to defeat, It was a great surprise, as the lad from Minneapolis had but recently arrived from the Pacific and had little time in which to train. Hopper's time for the mile was 2,053-5, and for the two miles 4,03. A feature noted by the Salt Lake City papers was that Hopper rode a Canadian bicycle, "The Massey."

I wish she would not stay so long away,
If she knew how I wait for her each day
To come again to where she left me with
a smile,
And said she'd only be a little while.
It seems so long, I look for her and wish
She'd hustle up and bring that soup and
fish.—R.

EUREKALOL ITCH-ECZEMA CURED

Not something that will cure everything, but a specific prescribed for over thirty years by Doctof Bargess, one of London's most celebrated skin specialists.

The Eurekalol Eczema Cure is the famous remedy guaranteed to quickly relieve and permanently cure any disease of the skin or scalp. It is purely antiseptic and germicidal. We have thousands of testimonials to prove the true virtue of its positive cure.

Don't waste your time and money on "cure-alls." They absolutely do no good. Write to up at once for our famous Eurekalol Eczema Cure, It will tell the story that is more convincing than pages of argument. Price postpaid, 50 cents and \$1.00.

Don't suffer from torturesome Piles. One application of the famous Eurekalol Pile Cure will give immediate relief. Price postpaid, 50 cents.

1197 BERGEN STREET, BROOKLYN, N. Y.

Some Old-Time Naval Victories.

European history begins with a contest of the west against the east; history has been constantly repeating itself; after thousands of years of conflict the west is still contending against the east, and now and then the east is the aggressor. On both land and reat the conflict has gone steadily forward, sometimes with apparent success on the side of the east, but always with its ultimate defeat and retirement. The advances of Asia towards the west have been accomplished by slow, steady progress and by tightly holding whatever ground was won Chalcas and Tours mark the westward limits of the Aasiatic advance on land; Salamis, Actium. Lepanto and Navarine indicate the halting points of Asia on the seo. At the first named the streendous power of Persia was checked. The second, the nominally a bath and the streendous power of Persia was checked. The second, the nominally a bath and the streendous power of Persia was checked.

Antony kept his rigged, and this fact was concompt to he death, and in vain did Antony try to force the issue. The arrival of the fleet of Octavius made a naval action almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still it might have been avoided had not Cleopatra thrown her influence and persuation almost imperative, but still strpendous power of Persia was check- ashore.

nose of the Greeks.

The naval historians agree that, in stantinople. spite of their enormous preponderance of numbers, the battle was lost to the Persians thru causes easily explained. The trick of Themistocles in sending word to Xerxes that the Greek fleet was trying to escape induced a division of the Persian force. 200 ships being of numbers, the battle was lost to the of numbers where the street was a more or less of this sort of the Fersian Dipercent of the Fersian Diperce

European history begins with a con- ferred a land battle and sought to bring

on the seo. At the first named the streendous power of Persia was checked. The second, the nominally a battle for the control of the Roman empire, was really a fight of the cast against the west, for altho Antony's army was largely composed of Romans, his fleot and its complement of so dies and sailors were drawn from Ezypt and the east. Lepanto was the tuning point in Turkish history, for the Ottoman historians themselves admit that the decline of Moslem power began with that memorable defeat, while Navarino, the not so important as the others, practically marked the end of the Turkish naval power.

What naval battles were fought by Egyptian and Phoenician against Italian and Spaniard, Gaul and Briton ere Xerxes gathered his vast host and stupendous fleet for the conquest of Greece and the west we do not know, but we do know that maritime warfare was waged on the Mediterranean 3000 years before our era, for inscriptions and bas reliefs on the Egyptian monuments show that expeditions of conquest were undertaken, and that galleys were employed of a type identical with those of Persian and Phoenician at Salamis. The story of that momentous conflict has so often been told in prose and verse that to marrate it again is a work of supererogation. The most remarkable feature of the battle is the fact that it was fought at all. When the Greek fleet assembled off the Island of Salamis the Persians were every the salamis and having on board, including the force the stating and having on board, including the force and having on board, including the force and having on board, including the first that it was fought at all. When the Greek fleet assembled off the Island of Salamis the Persians were every the sample of the Creek fleet assembled off the Island of Salamis the Persians were every the sample of the Creek fleet assembled off the Island of Salamis the Persians were every the sample of the Salamis the Persians were every the sample of the Salamis the Persians were every the sample of the Salamis the Persians were eve

leys were employed of a type identical with those of Persian and Phoenician at Salamis. The story of that momentous conflict has so often been told in prose and verse that to narrate it again is a work of supererogation. The most remarkable feature of the battle is the fact that it was fought at all. When the Greek fleet assembled off the Island of Salamis the Fersians were everywhere victorious. The pass of Thermopylae had been forced, Attica had been cocupied. Athens burned. The utmost dissension existed among the Greek naval commanders; they could muser, all told, only about 380 galleys, while the Persians, altho they had lost over 401 vessels in the tempest of a few days before, were still able to put in line more than 700 ships of war, most of them superior in size and equipment to those of the Greeks.

The miscellaneous fleet assembled by Spain, Venice, Genoa, Malta and the Pope comprised in all over 300 vessels, bearing, according to one account, about 30.000 fighting men and 20,000 galley slaves. To oppose these the Turks put in line over 300 ships, generally larger than those of the Christians and having on board, including the galley slaves, about 120,000 men. A few weeks before the battle the City of Famagosta was taken by the Turks after a vigorous defence, the garrison was sent on board the Turkish fleet and consigned to the terrible life of the galleys; the commander of the fortress, after being subjected to shameful in dignities, was flayed alive, his skin was stuffed with straw, paraded around the Turkish camp, then for a time hung at the yardarm of the Turkish admiral and finally sent as a trophy to Constantinople.

The great victory of the armada and The great victory of the armada and the successes of Nelson at the Nile and Trafalgar were the result of single ship dueling. Each ship picked out its antagonist and made its attack. Of course

KILTIES FROM BELLEVILLE COMING TO MASSEY HALL

After Winning Fame Thruout Great Britain and the United States— A Giant Accompanies Them.

The Kilties come to Canada for three holiday concerts at Massey Hail on Friday evening and Saturday afternoon and evening (Dominion Day) of this week. This is the first appearance in Toronto of the famous band which has Belleville for its headquarters, and which all over the contment of America and in Great Britain and Ireland has made the name of Canada famous for the production of excellent band music. The band which is 52 strong, has just completed a tour which commenced in Buffalo on May 28, 1904, and extended over 60,-000 miles, including the World's Fair at St. Louis, and a tour of 18 months' duration in the British Isles. While across the water the band played twice before their majesties, and in a mam moth concert in the Crystal Palace be fore a crowd of 175,000 people.

Their first program given at Mont-real on Monday, was the same which the Kilties played at Windsor Castle. It opened with Wagner's "Rienzi," and as this number progressed there was as this number progressed there was evidence of pleased surprise among the listeners. The band handled it ex-cellently, with a finesse and appreci-ation that merited the long applause. Of the many bands from other countries which played in Montreal last accorded a more spontaneous and enthusiastic welcome than the Kilties en

Thruout the numbers which followed the pleasure of the audience was in-creased. Selections from Gounod's operas were rendered and warmly greet ed, but the old Scotch melodies were the favorites with the audience. "Annie Laurie" was rendered exquisitely by the full band, and the Kilties' choir gave "Ye Banks and Braes." Mr. J. C. Lockhart, the tenor soloist of the band, sang "The March o' the Cameron Men." From the Scottish melodies the band went to some of the old civil war songs, and in rendering "Dixie," with a spirit and dash worthy of Sou

with a spirit and dash worthy of Sou-sa, caused the audience to stand up and applaud for several minutes. With the band is the Clan Johnstone troupe of dancers. They are four in number, and they dance as few Scot-tish dancers can. They give a Scotch reel, an Irish jig and a sailors' horn-pipe and Mr. Tom Johnstone dances a sword dance. There is a little ro-mance connected with the Johnstone troupe. One of the pretty Scotch lastroupe. One of the pretty Scotch las-sies, who had been "Miss Grant" when the band left Canada, is now "Mrs. Johnstone," wife of the leader of the troupe. They were married in Liverpool just before the Kensington sailed. Miss Grant and Mr. Johnstone both hail from Dundee, Scotland, and will

UNDER TWO FLAGS A POPULAR PLAY

Wil' Be Presented by Eugenle Blair and Her Special Com-pany at the Grand Opera House This Week.

Eugenie Blair's engagement at the Grand Opera House this season is of the features of the theatrical year just closed.

The original booking for the engagement was for four weeks, but so liberal has been the patronage and many the requests for another week that the management have been prevailed upon to extend the engagement one week shortening the time already arranged for in Quebec and Montreal,

For the farewell week, commencing For the farewell week, commencing Monday, Eugenie Blair will be seen in the role of Cigarette in the intensely interesting dramatization of Ouida's fascinating story "Under Two Plags." The military atmosphere of the piece, the quick action, interesting plot and pretty Algerian settings have made the drama one of the most popular of stage offerings. offerings.

offerings.

The production here will be given with a full equipment of scenery and stage accessories and the company has been augmented by a number of New York actors who have but recently appeared in the play, assuring local theatregoers of a first-class production in every respect.

The sixteenth annual tournament of the Canadian Lawn Tennis Association will be held at the courts of the Queen's Royal Hotel at Niagara-on-the-Lake, commencing on Tuesday, July 4, 1905, at 2.30 p.m., and continuing on the following days.

1. All-comers' singles—First and second prizes, Winner to held the new challenge bowl, representing Canadian championship, for the year. Entry fee, \$2.

2. Handleap—Open to all-comers. First and second prizes. Entry fee, \$2.

3. Men's dorbles—First and second prizes. Entry fee, \$2 each player,

4. Ladles' singles—All-comers for first and second prizes. Winners to hold Canadian championship cup. Entry fee, \$1.

E. S. Glassco (care Spader & Perkins), King Edward Hotel, is hon, secretary.

Ostend June 24.—The chess experts began playing in the tenth round of the international tournament in this city this merning. When time was called Wolf had beaten Taubenhaus. Janowski had disposed of Leonhardt, while the games between Blackburne and Schlechter and Marco and Marshall were drawn. The other games, left unfinished, will be resumed this afternoon.

Clothier and Larned Won.

New York, June 24.—John F. Mulcahey and William Varley, the champion double-scull oarsmen of America, sailed on the steamer Patricia to-day to compete in the Royal International Regatta at Hamburg.

Woodstock in Exhibition Game, Woodstock, June 24.-The Woodstock Western Ontario League team had an easy time with Sarnia in an exhibition game here to-day. All of Sarnia's five errors were very costly. Score.

A wash vest will brighten up an old suit.

It is astonishing what a difference a fancy wash vest will make in an old suit--but the vest has to be right.

Semi-ready linen vests are right in every detail of style, fit and material. Single and double-breasted, they are all designed on the latest lines.

The linens are in a great variety of very handsome designs, ranging from the very quiet dot to the most elaborate designs.

We would like to show you these vests. Won't you call and see them.

Prices, \$3.50 to \$5.00.

do things. Interviewed, Mr. Lyon said:
"I only suffered defeat in two of my single reactches. In the championships I didn't laind mong the winners; neither did Willie Anderson, of whom so much was expected. I haven't any excuses; the golf was of a higher order than we play, yet I must say that the weather conditions were against an American or Canadian, My, it was cold and windy. One's hands yere so cold that grasping the club with the usual grip was out of the question.

"The courses? Oh, they were fine, but there again I was handleapped in that there are so many more bunkers than over here. The cold and the bunkers were a combination that was enough to destroy any chance that I had, and Willie Anderson suffered in the same way. But, understand me thoroly" - ard the Toronto man emphasize I his re-

TORON108 WON BY 6 TO 5 ST. KITTS BEAT TECUMSERS

League Lacrosse Games Decided on Saturday-All the

At Rosedale—Toronto 6, Brantford 5. At St. Catharines—St. Catharines 11, Te-At Montreal—Nationals 6, Capitals 5,

There was a lot of jiu jitsu in the ame between Torontos and Brantford at Rosedale Saturday. The boys in hime work won the game by a close margin, and had the score in their favor after the first couple of games, but they were playing against a short handed 'eam. Brantford with three games to the bad wanted to win in a hurry and here was roughing it very early in the game. Referee Miller stood for it for a while, but the players couldn't stand latitude and a long list of penalties was commenced when Davidson was sent to the fence for hitting Powers. Then itendry got after Francis pretty hard and he had to decorate the railing. In the third game Taylor slugged Marshall pretty hard on the nose in front of the stand, and Miller sent him off for the rest of the game. The score was a tie when the third game commenced, and Miller had evidently decided to put an end to the rough work for the rest of the game when Taylor hit Marshall. Brantford got the third game in 3 1-2 minutes. The found brought out some good lacrosse with Brantford playing only 10 men. Marshall shot twice and hit the posts, and Neely made a couple of fine sprints. Henry was sent off for five minutes at Rosedale Saturday. The boys in hiue

Brantford playing only 10 men. Marshall shot twice and hit the posts, and Neely made a couple of fine sprints. Henry was sent off for five minutes for hitting Francis on the head, and Carmichael had to go, too, soon after for rough work. Lamb scored on a pass from Marshall after a couple of exciting minutes around the net. After a minutes play the fifth game was scored by Kirkwood. Lamb shot, and the ball hot the post, and on the rebound Kirkwood caught it and The next was scored by Kirkwood in one minute on a clever pass from Marshall. Hanly was off for tripping and Doyle got a ten-minutes' rest for we sting. There was considerable m xing up and Miller was becoming rather severe. Layden tripped up Parke, who dropped his stick and went toward Layden threateningly. Layden squaxed up and mixed it up with Parke pretty stiff until they were separated by the players and both sent to the fence. Several blows were exhanged, and Parke got some of them for being too hasty. Dowling and Hendry did some swell work for Brantford in the ext game, which was a long one, full of rather slow lacrosse. Hendry scored in 19% minutes.

The third quarter commenced with

Toronto playing 11 and Branftord 10. enry was sent off for hugging Hutton. The play had livened up a bit and Brantford was the aggressor, but the e was poor shooting. After seven min-utes Whitehead scored just after HuStton had stopped a fast one with his

St. Cyprians Beat Yorkshires.

St. Cyprian's C. C. on their own grounds Saturday afternoon defeated the oYrkshire Society by 8 wickets and 41 runs. The St. Cyprians made 78 runs for two wickets and the Yorkshires were all out for 37.

Latonia Continues Till July 22. Cincinnati, June 24.—The management of the Latonia Jockey Club announces that the present race meeting will continue until July 22. The meeting was scheduled to close on July 8.

One Way of Getting It.

One Way of Getting It.

"I thought I was next to all the games," said a bartender yesterday, "but those two men going down the street pulled off a new one on me this morning. They have been going a strong pace and were down and out. They had but 15-cents between them and both wanted a drink.

"They walked into this place, after holding a conference on the sidewalk, and one of them called for a special brand of whiskey. He placed the 15-cents on the bar and I served him the drink. He filled the glass up to the brim. I said nothing altho he was buying the whiskey cheaper than we were. Then he swallowed haif of it, smacked his lips for a minute and said: That is not the whiskey I ordered.' I insisted that it was not he his friend who stood behind him and said: "Taste it. See if I am not right.' The friend swallowed the remaining half of the whiskey, smacked his lips and said: 'I think the bartender is right.' The two linked arms and walked away. It came over me in a mirrte that I had been worked, but the game was so cleverly done that I called them back and set them up."

Maitlands 4-Young Torontos3.

In a well-contested game of lacrosse in the senior series of the Toronto City League Saturday afternoon, the home team won out by the above score. The team won out by the above score. The game was marked by very close checking, altho at times the combination work was brilliant, the Maitlands excelling in stick handling. The game was refereed by William Hancock, who, altho penalizing many players of both teams, gave entire satisfaction. This is Mr. Hancock's first appearance in lacrosse this season, and both teams expressed the opinion that he was quite an acquisition to the staff of referees.

Harmless. Bell-"Did that anonymous note vorry you?"

Nell—"Oh, no, it was from Jack. He always writes them when we have a failing out!"

From Life.

He-"Miss Passay is wonderfully well informed on ancient history."

Rev. Archibald Forder, missionary among the Arabs, Jerusalem, Palestine. The latter had the personal gratification of here witnessing the delight caused the children by his presents of pressed flowers from Palestine.

Mr. Brown told of Brooklyn's big anniversary holiday, which occurred this year, June 8. A monster procession of 125,000 children paraded the streets, and the day was proclaimed a public holiday by the local government.

Mayor Urquhart said it would be a "real good thing" if such a holiday could be declared in Toronto.

Rev. Mr. Forder's remarks were of special interest to the children when he described habits and customs of the holy land and told how the good work was progressing there.

was progressing there. Boys Were Conspicuous. Boys Were Conspicuous.

The Dunn-avenue Presbyterian Church was about three-quarters full on the occasion of the Sunday school rally. The majority of the audience was composed of women and girls. "The boys," as the Rev. Archibald Forder remarked, "were conspicuous by their absence."

Judge-Winchester, the popular superintendent of the Sabbath school, was the chairman. The principal speakers were Rev. Mr. Forder, who has been for nearly a score of years, a missionary to Arabia, Jerusalem and Palestine, and Rev. Dr. Clark, who is better known to the Sunday school schol-

tine, and Rev. Dr. Clark, who is better known to the Sunday school scholars, by his nom de plume of "Timothy Standby." Both these speakers delivered short and interesting addresses. They have the faculty of talking to children so that they can be understood, consequently their stories were much enjoyed. A number of hymns were sung with enthusiasm. Rev. Mr. Geggie closed the rally with a short prayer.

NAPOLEON'S RESTAURANT.

FINGER PRINTS IN DETECTION.

Woman Gives New York Police Some

How the mystery of the Tiffany diamond rol bery might perhaps have been solved by the quick application of modern science was demonstrated by a woman at police the shrewdest officers of the country. She was Mrs. M. E. Holland, wife of P. C. Holland of Chicago, the editor of the official organ of the National Association of Police Chiefs, who has made an exhaustive study of the classification and uses of finger prints for the detection of criminals, says The New York American.

Upon apparently unsoiled paper and smooth surfaces of glass and wood Mrs. Holland, by the application of a prepared powder, brought out finger impressions as plainly as if they had been made with ink where before no impressions were discernable.

where before no impressions were discernable.

"Wherever upon a smooth surface, whether on netal, glass, wood, paper or what not, the fingers are touched, the impression of the fingers remains," said she, "and by the use of this powder can be made plainly visible. In the instance of the Tiffany diamond robbery it is certain that the thief's hand touched somewhere, either on the desk, the safe or the paper in which the diamonds were contained. With all these finger impressions known, the process of elimination could be resorted to and the real culprit, it might be, apprehended.

Can Identify Markings.

Mrs, Holland also demonstrated her abil-

MAPOLaDON'S RESTAURANT.

Leon Williams, vocalist; Mr. and Mrs. Sam King, presenting a novel military set; Mattie Hughes, singing and dancing soubrette; Carter & Bluford, comedy sketch; Majestic Sketch, presenting "Chicken Opera"; Grand Finale, introducing the entire company.

HON. JUSTICE MACLAREN

Continued From Page 1.

moral. It was like the hot-house process of education spoken of by Dickens as causing physical break-up and advised the teachers in his schools upon this theme. The evil arose from impatience for results. The lesson had not been learned to "let alone and trust nature more." To try to make the child simulate the dove was to essay the unnatural and dangerous. It was a great error to treat the child as tho there were no laws of nature.

Mrs. James L. Hughes followed with her familiar and interesting talk on the training of children.

Ministers Must Ald,

Ministers Must Aid,

The home department was discussed from various standpoints in the Jarvisstreet Baptist Church. Mrs. Flora Stibbins, Fitchburg, Mass., conducted the discussion and emphasized the fact that street Baptist Church Mrs. Flora Stibbins, Fitchburg, Mass., conducted the discussion and emphasized the fact that to make the home department a success the co-operation of the ministers must be enlisted. Mrs. Curtis of Painesville, Ohio, said that the advantage of a home department was that it enlivened the interest in the Sunday School. Memi Interest in the Sunday School Memi Interest in the Work. The first essential to success was consecration to the Master's work. E. C. Knapp of Hartford, Conn., told of three ways to increase membership in the home department depended on the home department in Sunday School work, Sunday School School Times, Sunday School With Honors.

The superintendents' and the pasticular of the sunday school publications, The work of the teaching of the lesson, Patient School School Times, Sunday School Times, Sunday School Times, Sunday School Times, Sunday

The superintendents' and the pastors' conferences in Metropolitan Church were discussions of ways and means. The pastors met first, under the guidance of Rev. Dewitt, M. Benham of Maryland, Md., and the leadership of A. F. Schauffler, secretary of New York. The chief idea brought out was the necessity for the active work of the pastor in the Sunday schools if the latter were to be in any

It do not of doors to see what was the day where the plan has been tried with trouble. There she saw an eagle trying to carry off a large turkey, which was said fighting its best to escape. Mrs. Wickhars seized a rake nearby, with which hars seized a rake

Facts About-Fountain

He was a successful tailor for rears, then, with this practical knowledge to start with, originated his weekly valet service. An instant success. This service now embraces hundreds of well-dressed citizens who consign their entire wardrobe to him for constant attention. Just \$5 a quarter.

Fountain, "My Valet," Cleaner, Presser and Repairer of Clothes,

30 Adelaide West. M. 3074.

Letters of regret were read from Rev. Charles M. Sheldon, Rev. Wilbur F. Crafts, Rev. Charles Blanshard, president Wheaton Collge, in which hearty concurrence was expressed in the wor kof the association.

Speed of a Prairie Chicken.

From The Minneapolis Tribune. That a prairie chicken flies with sufficient speed to propel itself thru heavy plate glass was proved by a recent incident at the little Town of Wolsey. Beadle County.

Prof. Shepard of the village school. in the discharge of his duty, rang the school bell, when a couple of prairie chickens that had taken refuge in the schoolhouse tower from a storm were frightened from their refuge. They flew as straight and swift as an arrow for the plate glass front of a business house. The glass was five-eighths of an inch in thickness, but one of the prairie chickens went straight thru it as the it were paper and dropped dead on the floor in-side the building at a distance of about 20 feet from the window. The praisic chicken went thru the plate glass with sufficient force to cut a hole six inches in diameter in the heavy glass,

of erer chums had passed out. The vith and without honors plan was instrumental in making the duller ones work harder to qualify for honors.

Talked on Temperance.

In Cookes' church a temeperance conference was held, presided over by Rev. Dr. oPtts. On the platform were Mrs. Zillalo Foster Stevens, St. Louis, organ-

I note that the board of control has instructed the city engineer to propare a report on overhead signs, in order, according to Mr. Fullerton, that a bylaw may be passed providing for the inspection of existing signs and for taking proceedings summarily in regard to such as are found to be a menace to the safety of the public. Surely we have not gone on 71 years since incor poration-which reminds me that 1909 will see the diamond anniversary of the city-without having a regulation of such things. If such be a fact, it is such things. If such be a fact, it is well that the students three or four spent to improve our city's appear ance will be returned two-fold. Following these suggestions, all business streets and alleys were thoroly cleaned, all poles, fire alarm boxes, etc.. Fullerton further says that if such signs are a menace to the public p.o-ceedings can be taken by indictment to have them removed. So cumbrous a points, buildings were repaired and painted, trees trimmed, lawns mowed, method should not be necessary. Personantery orders should be possible, with emptory orders should be possible, with a heavy fine as a penalty for non-ob-di-city received such a cleaning that its beauty and attractiveness were enhanc-ence. Even at that it is not ovenhead ed a hundred-fold. The citizens—men, signs that so much need attention many of them are—as the littering of the sidewalks and boulevards by trades yards, Last week I called Dr. eard's attentions to these abominations. Perhaps the city engineer will now kindly "make a report" on these practices, too, with a view to remedial measures being taken in 1909! Instructions to "make a report" seem to be Almighty first planted a garden. And about the speediest way in which our indeed it is the purest of human pleasnds a chance of taking notori-"the matter will be taken into conserious consideation," and to be about as much productive of re-

Apropos of the foregoing, I desire to object the improvement and adornment ment of better public manners among merchants and citizens generally. In cities the newspapers have adoptto a department under the heading "The City Beautiful," to which residents are invited to contribute sugges-tions. In others, as in San Francisco, experts have been employed to furnish ideas. In others again, on set days, citizens turn out en bloc, or on bee, and proceed to clean up the streets and lawns, to suppress obstructionists and to cause their arrest. In some cities the women take a leading part in the the women take a leading part in the movement. In Nashville, Tenn., "The movement. In Nashville, Tenn., "The Women's Department" is doing wonders in urging the citizens to clean up, to cultivate flowers and to pay some respect to the beautification of their f. ont premises and to the laws of hygiene. In Memphis it is "The Housekeepers' that is carrying on the good wo k and in Florence, Ala., "The Florence Civic Improvement Association," and ere 1909, the diamond anniversary year, and the year that may see va ious things now contemplated actually perthings now contemplated actually per-formed, per haps Toronto will have awoke the occasion. I only say four years away long talked of require-t, the big trunk sewer, the estreet bridge and the once proments, posed bridge to the island, for instance, to say nothing of the extension of the Armories, the evacuation of the garrison commons and the erection son commons and the erection of a stock-judging arena by the city for the exhibition, that may see the millenni-tim ere their fulfilment. The Florence City Improvement Association, by the way, calls for:

1. Strict enforcement of all stock laws.

2. Shade trees on all our streets around our homes and public build-

ings, and in the city of the dead.

3. Destruction of weeds everywhere in the city limits. 4. Beautiful, home-like schools

Clean public buildings. Clean streets and alleys. 7. Improvement of parks and an increased number, loking to the day when they will be necessary.

8. Everything that contributes to more beautiful Florence, and stronger spirit of co-operation therefor amongst her citizens and officers.

each member is pledged to do.

At Denver, Col., the mayor issued : proclamation setting apart a certain flay as "clean-up day," and the result was almost a transformation. Among the auggestions contained in the the suggestions contained in mayor's proclamation were these:

If your store front, residence or lence is dull or dingy, o der it paint-

If your awning is old, torn or fad-

ed, get a new one.

If your sidewalk, fence or gateneeds repairing, fix it.

Destroy the young weeds that are starting on your property and on your neightbor's property.

If your advertising sign is old or faded, take it down and paint it. Resolve never to throw paper in the streets.

Take all dandelions out of your

lawn-they spoil its beauty. Burn all the rubbish possiblelow no one to throw it on streets,

alleys or vacant lots. mise not to spit on the side-

Organize a block improvement so-

ciety, and allow no weeds to grow on sidewalk, area or vacant property in your block.

Ask your milkmen, grocerymen and expressmen to have their wagons painted.

Irrespective of the size of your louse, make your lawn the finest.

Illuminate the front of your sto e

in the business section. Every effort put forth or dollar

vomen, and even the children, entered into the spirit of the movement with sidewalks and boulevards by trades sidewalks and boulevards by trades and twith empty barrels and boxes and work is not only educational, but particities, refining and beautiful. A little organized effort could accomplish wonders in Toronto and in actual effect and ders in Toronto and ders in Toronto and ders in Toronto an earnest will and enthusiasm, and eve.ybenefit conferred would distance and put to scorn the board of control's 'make a report" method,

What saith Sir Francis Bacon? "God \$2500 a year controllers can proceed. The ures: it is the greatest refreshment to motori- the spirit of man, without which build-Mow ings and palaces are but gross handworks. And a man shall ever see that when ages grow to civility and el-gancy, men come to build stately, sooner than to garden finely, as if gardening were the greater perfection. I do hold it in the royal ordering of gardens, there direct attention to the fact that in several cities of the United States associations have been formed having for their of beauty may be then in season. And because the breath of flowers is far sweeter in the air (where it comes goes like the warbling of music) than in the hand, therefore nothing is more fit for that delight than to know what be the flowers and plants that do best perfume the air. Roses, damask and red, are fast flowers of their smells, so that you may walk by a whole row of them and find nothing of their sweetness, yea, tho it be in a morning's dew. That above all which yields the sweetest smell in the air is the violet. Next to that is the musk-rose, then the strawberry leaves dying. For the or dering of the ground within the great hedge, I leave it to variety of device; advising, nevertheless, that whatsoever form you cast it into, first be not too busy or full of work. Wherein I, for my part, do not like images cut out in juniper or other garden stuff-they be for children. Little low hedges round, like wells, with some pretty pyramids, I like well, and in some places fair columns upon frames of carpenter's work. I would also have the alleys spacious and fair. For fountains, they are a great beauty and refresment: but pools mar all. Lo, I have made a platform of a princely garden, partly by preby prethat, for the occasion is only cept, by drawing, not a model, but some r years away and there are general lines of it."

There is evidently work for the new be perform in New Ontario. A correspondent states that existing legal restrictions are utterly inadequate to effect their purpose. He says: "It is a fact well known to every hunter and bushman that in this country moose and caribou are killed in season and out of caribou are killed in season and out of season, and it would not require very keen detective work to find out what is done with the meat or the heads either. That so-called sportsmen bag more small game than the law permits, and that the partridge and other small game are shot out of season and are even destroyed on the nests. That the weight of trout allowed to a fisherman weight of trout allowed to a fisherman is being continually exceeded and nots are used in the spring when the fish are going up stream to spawn. To meet this state of affairs the government have appointed game wardens without sufficient power behind them to enforce the law. These wardens are not raid a salary, or in some cases only a nominal sum, and hence do not take much interest in the question, since to enforce terest in the question, since to enforce the law they must trust to informants Cards are hung up in the homes and business places of the members as a constant reminder of the work which where to assist the wardens and that the latter be well paid for their trouble,

> It is understood that the Licens Holders' Protective Association have resolved to petition the government to extend the hours of closing. The argu-ment used is that theatregoets are d ivment used is that theatregoes are a vent outlicensed places, to the clubs and to the larger hotels, the general run of license holders thus losing the trade that should be theirs. There is a shadow of logic in the argument, but legislation is for the province and not for the forest tayen, the province and not for the few tavern-keepers doing business in the city in the neighborhood of thea-tres. "After the opera is over," it is about time for the well-advised, lawabiding citizen to tumble into bed. It strikes me that the license holders, if they really have decided to ask for the extension, have decided unwisely. It would be far better for them to aid the authoraties in wiping out the unlicensed

I am told that all is not as plain sail-I am told that all is not as plain saiting with the Canadian manufacture:s
in England as newspaper cableg.ams
would make it appear. Manchester, as
we know, gave them the cold shoulder,
and even Birmingham manufacture:s,
I am informed, refused to allow them
to visit their factories. English manufactures my informatic services. facturers, my informant says, did not need W. K. George to tell them that Canadian manufacturers proposed to re-tain their own market and favored protection. The preference to the contrary notwithstanding, English manufactur-ers fully realize that Canadian manufacturers have no more regard for them than they have for those of the States. If it were not for this, Chambe lainism would have a walkover. As it is now, his policy will never carry. English manufacturers know that they have no thing to expect from it.

The Island Amateur Aquatic Associa tion, which was founded by Harry Piper, now of Chicago, and of the sports of which body I was the first referee, acting for several years, has done it self honor in electing H. Gerald Wade a life member. Mr. Wade, who now regrettably is of Ottawa, is indefatigable in promoting anything he under takes, having a rare faculty for organ zation, combined with excellent executive ability, and it is not difficult to be lieve that

The present growth of Toronto 's phe nomenal. Every day the building activity in the city increases and cont acstrongly put to it to carry the work they have on hand and have to sit up nights figuring on new work offering them. They no longer haunt the architects' offices, as in former years, but are urged by builders and years, but are urged by builders and architects to bid on work which they do not see their way to complete with their present forces. There is an urgent demand for every mechanic in the building trades and for every day laborer. Never in its history has Toronto been more busy than now, and she owes a debt of gratitude to the workingmen engaged that they are allowing ingmen engaged that they are allowing the season to pass without any strikes, which are always disastrous. And that reminds me to express my sorrow that the movement for the erection of small houses to meet a "long felt want," and a greater felt want than ever, has collapsed, sundry real estate agents having effectively blocked the scheme and caused Mr. McLaughlin, the promoter, a loss of some thousand dollars.

appear to be aware, and in making one law good for everybody.

A judge of the high court, on returning home the other afternoon, was made acquainted with a flagrant act or his twelve-year-old son, and summoned the lad betore him.

"Now sir, I am going to ask you no questions," he said, with judicial severity. "Undo your braces, for I am going to give you a whipping, one that has been expended on roads and other necessary general improvements in the neighborhood. At the same time it is of importance to the standing and credit of Toronto that it should embrace within its limits as much of the verity. "Undo your braces, for I am going to give you a whipping, one they have been able to ap ply up to the present. It was only the other day I was talking to a member of the Ontario Hockey Association, and when I spoke of the purity of its players he laughed me to scorn, saying that while in Toronto there may be closely adjoining populated land as possible. While, of course, a city may be large enough to be cumbrous, yet you will remember."

Having often heard his father contities nevertheless a fact that cities were anywhere. From this it would appear that sooner or verse with many of his brother judges, and having once been allowed to hear their size both in area and population. If Toronto would keep in the van boy replied:

"If it please your lordship, may Y ask the direction of increasing her population."

"If it please your lordship, may Y ask the direction of increasing her population."

"If it please your lordship, may Y ask the direction of increasing her population."

"If it please your lordship, may Y ask the direction of increasing her population."

"If it please your lordship, may Y ask the direction of increasing her population."

"If you course, a city may most as lax—if not quite as lax—as the lacrosse clubs were anywhere. From this it would appear that sooner or later the hockey associations will have to fall into line and recognize and the direction of increasing her population."

"If it please your lordship, may Y ask the direction of increasing her population." she will always have to have an eye in the direction of increasing her population, which also means an increase in wealth and landed property. Still there is no reason why a comparatively newly application will be based on the belief that the court has formed an opinion regarding the guilt of the defendant which cannot now be shaken by evidence and is, therefore, I submit, not competent to try my case. Stay was granted, and the promising limb of the law allowed a dollar.

In one June week there have been 125 deaths from heart disease in New York. This is more than double the number of deaths from the same complaint for the corresponding week last year. "At the same time it would be well to learn how many other responsible members of the city administration since April, 1903, have been taking 'presents' in the same easy-going fashion that then characterized the conduct of their official head."

The giving and receiving of expensive presents has long been a prominence authority, it in amage the expensive presents has long been a prominent feature of Philadelphia's rotten municipal government. Under Mayor Weaver's latest predecessor, so many and such cumbrous gifts were sent to the mayor's residence that there was not room in the house for them and another building was s open for for them and another building was

AND STILL THERE DOESN'T SEEM TO BE

rented for their storage. Acceptance of gifts by officials, either in national, state, municipal or corporation service, is "a custom more honored in the observance." It matters little whether a gift comes from the observance of the matters little whether a gift comes from the observance. a superior or a subordinate; its acceptance is likely to do harm. It has a tendency to impair that spirit of independence which is essential to the faithful discharge of duty. One of the extemely regrettable facts of the time is that most lawrences many executive and some regrettable facts of the time is that most lawmakers, many executive and some judicial officials, and even premiers, accept valuable and highly appreciated gifts and favors. Sometime those officials, one and all, will quit this gift-taking, because wholesome public sentiment will brand it as an impropriety too glaring for further toleration,

It was inevitable that the victories won by Japan should lead to a consideration of the Chinese exclusion acts. There appears to be a tendency in the United States nowadays to ignore the possibility of a yellow peril and to consider that not alone the Japanese but the Chinese are not so bad after all. It they do work a little cheaper than the natives of this continent, their trade is at least worth having. That is the view our neighbors now seem disposed to take, and consequently are engaged in considering how best to propit ate Jatake, and consequently are engaged in considering how best to propit ate Japan with a view not only to getting part of the trade of that country, but also of the neighboring one of China. How the workingman will take this change of attitude it is not at present possible to say, but it is certain that from this out it will be a very difficult thing for any country to exclude the Japanese, while in many cases it will take something more than an ordinary expert to distinguish one little yellow man from another.

phecy is that it does not deal, like astronomy, with solid bodies moving in ascertained orbits, at known rates of speed and under the control of simple laws. It is fundamentally as easy to foretell an eclipse as to say where an express train, traveling at unvarying speed, will be at any particular hour of its schedule. In fact, the astronomer has a great advantage in this respect, for the bodies whose motions he deals with meet with no accidents, get no hot boxes and have no delayed conman from another,

atmosphere is compressed by gravitatin the league by a good many points. Applegate's defection has not helped any. He was a little faint-hearted, but nevertheless had the ability and was good to win many games. Of the others Falkenburg is undoubtedly the pick. He is an unlucky pitcher, but a good one. Neither Crystal, Magee nor Currie is reliable. The former is shy on control, while the other two are only good under certain conditions. The team seems to be weak in pinch hitters. Jack White is the only one of the regulars who can be counted upon in a pinch. Softel gets in many long drives, but does not seem to be there with men on bases. O'Brien has fallen off greatly in his hitting, and also in ground covering ability. As a fielder the ex-Philadelphia player does not begin to compare with Carr. It is evident that the Torontos needs strengthening in two or three places. Another catcher with some batting ability and a couple of first-class pitchers are needed and needed badly to make the team a first division one. A long home series is imminent, and it behoves the management to make the desired additions at once.

WHY MISTAKES OCCUR

Can Only Deal in Generalities and Must Allow a Broad Margin for Error.

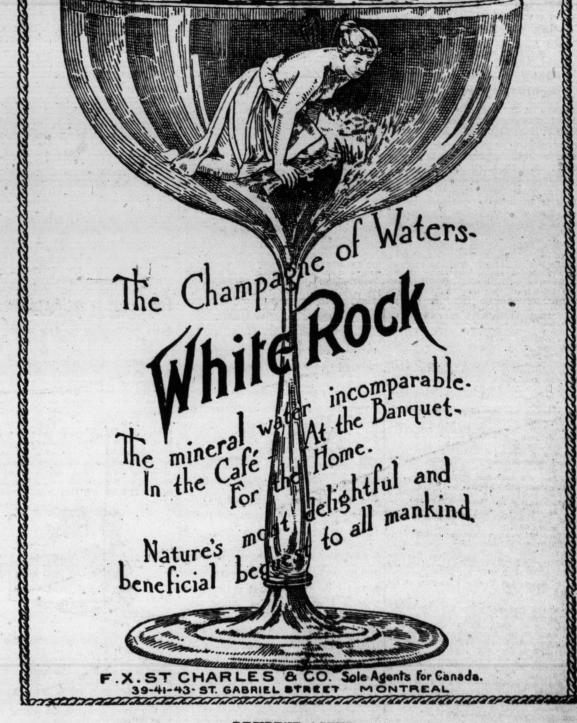

A correspondent wishes to know why weather prophecy cannot be made mathematically exact. He thinks that if

foretell an eclipse as to say where an express train, traveling at unvarying speed, will be at any particular hour of its schedule. In fact, the astronomer has a great advantage in this respect, for the bodies whose motions he deals with meet with no accidents, get no hot boxes and have no delayed connections to make.

The weather promptet, on the other

man from another.

Nothing very encouraging has been shown by the Toronto Baseball Club in their games with the tail end Montreal Club. Toronto won the first two games and then lost the next three; the last two being played in Montreal. The club seems to be a rank in and out aggregation, playing good ball one day and bad the next. Yet individually the team looks strong enough. Just where the weakness lies remains to be seen. The pitching staff is not the strongest in the league by a good many points. Applegate's defection has not helped any. He was a little faint-hearted, but

elipse, and in midwinter we are carried three million miles nearer the sun than we were in 'midsummer, and this change of distance catus an alternate increase and decrease in the total amount of solar heat received per day by the earth.

Add to all this the fact that evidence is accumulating that the sun itself is not perfectly regular in its outgiving of radiant energy, and we have enough without seeking any further causes of variability, to show that weather propher must always remain a very uncertain branch of intellectual exercise. Usually it can only deal with generalities. Even the prediction of the arrival at any particular point of a great storm known to be crossing the country is frequently falsified that usome unforesement. The more genulnely scientific the basis on which a weather prophet rests his calculations the more ready he will be to admit that there is a broad margin of error to be allowed for, and the less certain he will feel, on finding one of his predictions fully verified that he has discovered the great secret of the weather.

The apostle of progression, modern methods and civic improvement, who

methods and civic improvement, who had just passed thru the turnstiles of the pearly portals, accosted a brassbuttoned seraph and enquired for the location of a certain public mansion of the blessed wherein he proposed to obtain accommodation for a million years, or maybe indefinitely if it came up to advertisements. "Your objective point," replied the celestial functionary, "may be reached by boarding a car of the Zion street line and requesting the conductor to put you off at the corner of Genesis and Exodus ave-

"What!" exclaimed the flabbergasted wcomer, "do you mean to inform me newcomer, "do you mean to inform me that this burg is so far behind in modern progression as to cling to such an antiquated, prehistoric and obsolete method of street designation? Perish the thought! What chance has a stranger in your out-of-date, over-grown and defunct municipality to find his way about amidst a confusion of names that to them fail to signify dis-tances, location or direction?"

Well-intended, advanced and philanthropic cherub," responded the angelic official, "the authorities of this ancient settlement have conceived and cherished for many cons the foolish and selfish notion that their interests, preferences and sentiments were some-

Twas Ever Thus.

"'Old World, you're as bad as you can be,"
Said the sheepskin graduate;
"I'll make you better if you'll heed me,"
Said the sheepskin graduate:
"Don't think so much of position and pelf
And give less heed to the cause of self,"
Said the sheepskin graduate.

But the world was deaf and blind and dumb

To the sheepskin graduate.
And he couldn't be heard for the whirl and the hum,
Could the sheepskin graduate—
The whirl and hum of the bristling mart—
And the callous world almost broke the heart
Of the sheepskin graduate.

But he'll still continue to have his dream.
Will the sheepskin graduate,
And he'll eat up paper ream by ream,
Will the sheepskin graduate
In speaking his mind and in having his

Triolets.

Why should you bleed to death, fond heart,
When some day She is sure to smile?
Since in the end she'll ease your smart,
Why should you bleed to death, fond heart?
Neglect her subtly for a start.
Sip any sweets you can meanwhile...
Why should you bleed to death, dear heart
When some day She is sure to smile?

'Tis only fools who sigh and moan
And suffer when a girl refuses.
Are there no lips but Her's alone?...
'Tis only fools who sigh and moan
Seek solace. Art will melt a stone.
Her coldness your supreme excuse is
'Tis only fools whos igh and moan
Aud suffer when a girl refuses!

Do not, I pray you, prose and prate . . .
Love's royal path is paved with kisses,
Be warm and winning up-to-date:
Do not, I pray you, prose and prate!
If you are solemn and sedate
You'll waste your wind with modern

In speaking his mind and in misses,
say,
But the foolish old world will continue its
way

Love's royal path is paved with kisses!

Rust Rumors, But Rest of the Country A'ones With Most Encouraging Conditions.

Winnipeg, June 24.—(Special.)—Alternating rain and heat have awakened fears of rust in Southern and Eastern Manitoba, where, in some districts, heavy precipitation has already drowned out low-lying crops. Continued wet weather in these districts gives some serious cause for alarm, but this is

THE STRICKEN TITAN.

Sydney, N. S. W., Bulletin, one hand holding back a hungry horde whose cry is "Liberty like other Lands!"
While in the other flames a guardian sword,
The stricken Titan stands.

From blade and bomb he reels and reels again;
His wounds are mouths, like Caesar's wounds, they tell
Of Freedom striking for her right, as when Duke Sergius redly fell.

The eyes of free men watching from afar, At each home-stroke their "Bravos" fill the air; For Liberty a universal star Must beacon everywhere.

His foes are of his house; his sword and shield—
What time he slept—his own near servants stole;
Tho lord of many a crimson battlefield, lie may not fight his soul.

Yet love, not enmity, decrees his fate; And as they strike they pause awhile 'Tis Tyranny, not Russia, that they hate: Russia they love full well.

Last of the Powers to kneel at Freedom's shrine!
Kneel, kneel thou shalt the czar and duke should die:
The doom of dark despotic States is thine—Thine hour of Dawn is nigh.

The Titan's wounds gush blood; the Titan

His days are done, his glory passed from Yet death is not for him, and this that Dark death is but new birth.

He shall take Freedom's hand and journey His feet unclogged by his own children's blood: hiood; His star shall shine a golden zenith star— He shall be strong for good.

A twofold fight he fights: nor last nor of champions is that Titan tired and torn; For Itrasia's sun from out a bloody East, Smoke-hidden, glares at morn.

A lonely outpost between race and race— The locusts and the corn—the Titan holds. He meets the might of Asia face to face, He feels her serpent folds.

Reblind him nations tremble at the knees: The East is up, is marching-horse and man; And Europe, gazing thru the centuries, Remembers Gengh's Khan.

If he should fail—as fail he may—what What power on earth, of ships and guns The marching Mongolstay?

Fight on thou Titan! Fight the fight of God! Fight Europe's fight, lest all befall with years; The thou art wounded, sere and undertrol, Fight on thru blood and tears,

Strike off thy chains, and lo, thy foemen, hurled
Back to their dens, shall strive with thee
in valu!
Give way to freedom and protect the world,
Conquer thyself and reign.

Not What He Used to Be.

In a Kansas City department store s a 17-year-old boy who is "smitten n' 'a girl about his age. The girl has on' 'a girl about his age. The girl has another beau, of whom the department store youth is very jealous. While the jealous young man and the girl were walking down Main-street a day or two ago they saw the "other fellow" ap-

proaching. "Oh, there's George," said the girl The young man with her was net led.
"What of it?" he asked. "George
sin't much. He used to be a bellboy

in a cheap hotel."
The girl said she didn't believe him, and the jealous youth said he'd show her. George was looking in a window when they reached him. "Front!" called the department store

"Front!" called the department store youth sharply. George stra'ghtened up with a start. Then he recovered himself and took off his hat politely. "Well," said the girl, when the test had been explained to her, "I don't care if he was a bellboy in a cheap hotel once. He ain't now. He's got hotel once. He ain't now. He's g a good job as a soda water artist!' Kansas City Times.

Natural Deduction.

From The Chicago Daily News.

Gruff Patient—Are you quite sure you understand your business, sir?

Physician—Well, I've been practising medicine for 15 years, and not one of my gattents has ever complained.
Gruff Patient - Huh! Probably not. Dead
men tell no tales.

CASEY AT THE BAT.

It looked extremely rocky for the Mudv.llnine that day;
The score stood four to six, with just an
innings left to play;
So, when Cooney died at first, and Burrows
did the same,
A pallor wreatped the features of the patrons of the game.

A straggling few got up to go, leaving there A straggling few yof up to go, leaving there
the rest.
With that hope which springs eternal within the human breast;
For they thought if only Casey could get
one whack, at that
They'd put up even money, with Casey at
the bat,

But Flynn preceded Casey, and likewise so did Blake. And the former was the pudding, and the latter was a fake: So on that stricken multitude a deathlike silence sat,
silence sat,
For the e seemed but little chance of
Casey's getting to the bat.

But Flynu let drive a single, to the wonder-But Flynn let drive a single, to the wonder-ment of all,
And the nuch despised Blakey tore the cov-er off the ball;
And when the dust had lifted, and they saw what had occurred,
There was Blakey safe on second, and Flynn e-bugging third!

Then from the gladdened multitude went up a joyous yell."

It bounded from the mountain-top and rattled in the dell.

It struck upon the hillside, and rebounded on the flat. For Casey mighty Casey, was advancing to the bat-

There was ease in Casey's manner as he stepped into his place;
There was pride in Casey's bearing and a suche on Casey's face;
And when responding to the cheer, he lightly doffed his hat,
No stranger in the crowd could doubt 'twas Casey at the bat.

Ten thousand eyes were on him as he rub bed bis hands with dirt,

Five thousand tongues applauded when he
wiped them on his shirt;

Then, while the writhing pitcher ground the ball into his hip.

Defiance glanced in Casey's eye, a sneer curied Casey's lip.

And now the leather-covered sphere came hurtling thru the air.

And Casey stood a farching it in haughty grandeur there;

Close by the sturdy batsman the ball un-

heeded sped;
"That ain't my style," said Casey. "Strike one," the umpire said. From the benches, black with people, there If he should fail—as fail he may—what then?

Whose hand shall hold the towering East
At bay?

What rower on earth, of ships and guns

"Kill him! Kill the umpire!" shouted some.

> not Casey raised his hand. With a smile of Christian charity, great Casey's visage shone; He stifled the rising tumult; he bade the game go on; He signaled to the pitcher, and once more the spheroid flew.
> But Casey still ignored it, and the umpire said, "Strike two."

"Fraud!" cried the maddened thousands, "Fraud!" cried the maddened thousands, and the echo answered "Fraud!"
But one scornful look from Casey and the audience was awed;
They saw his face grow stern and cold, they saw his muscles strain.
And they knew that Casey wouldn't let the ball go by again.

The sneer is gone from Casey's lip, his teeth are clenched with hat:
He pounds with cruel vengeauce his bat upon the plate;
And now the pitcher holds the ball, and now he lets it go,
And now the air is shattered by the force of Casey's blow.

Oh, somewhere in this favored land the sushining bright,

The band is playing somewhere and some-where hearts are light.

And somewhere men are laughing, and somewhere men are laughing, and somewhere children shout; there is no joy in Mudville—mighty Casey has struck out.

—Ernest L. Thayer.

LAKE OF THE WOODS DIVIDEND.

David Russell Flotation to Declare 6 Per Cent. on Common Stock.

A special to hTe World yesterday states that the directors of the Lake of the Woods Milling Co. will meet on Monday and decla e a dividend of 6 per cent. on the common stock. Th's company as at present constituted is one of the flotations of David Russell of Montreal. The stock was listed on the Toronto Stock Exchange last week. The authorized capital of the company is \$2,500,000 common stock, preferred \$1,-500,000 and bonds \$1,000,000. The div-d-nd paid on the common stock last year was at the rate of 5 per cent.

Land in Eastern Cuba. The Cuban Realty Co. Limited, Duncan O. Bull, manager, are offering land for sale in East-in Cuba, which 's said to be a new, rich field, a land of beautiful climate and of fair, fertile soil. J. J. Miliken of the company, who interview, which appears on another pages, what the advantages of Eastern Cuba are, its products, etc. His remarks are well worth perusal,

POSSIBILITIES OF THE POSTAL SYSTEM.

Cheap Mail Facilities One of the Chief Factors in Our Prosperity and Progress.

"Common is the commonplace." The most valuable of civil benefits is such a commonplace matter, that we scarcely give it a thought. It would take a winter on a whaler nipped in an ice floe to make us truly appreciable of the worth of the postal service. What a wonderful thing it is! Wonderful in its organization, with its vast machinery for the collection and distribution of letters, its railway mail cars, its route riders, the unfailing order and precision of its methods. Wonderful it is too in its reaults. It knits together families widely

separated. It carries across the sea separated. It carries across the seasome tender lover's message or perhaps a little flower picked from the daisied grave of an English churchyard. Every hour of every day the mail bag is packed with words which waken love and laughter, and words which deepen the furrow in the cheek and dim the failing sight with bitter tears.

But with all this there is going on through the mail service a dissemina-tion of human knowledge, a reaching out of human help which is one of the crowning blessings of our century. The correspondence schools led by Chautaucorrespondence schools led by Chautau-qua, are sending to every village and hamlet the broader knowledge which is so eagerly craved by many who are shut in to the homely duties of a humble life. Without the mail system this plau of education would be impracticable. Every mail, too, carries from the great context, the advice of great physicians

centers, the advice of great physicians, which it would be impossible for the distant public to obtain were it not for the mails. Few people realize how many thousand people depend on the mail service for medical treatment. Not long ago when some postal affairs were being discussed in connection with the erection of the new postoffice building in Buffalo, N. Y., some light was thrown on this subject by the statement that the mail by Dr. R. V. Pierce amounted daily to something over 1 for pieces. daily to something over 1,500 pieces. Of course this is not a common case, because Dr. Pierce's relation as chief consulting physician to Buffalo's famous institution, The Invalids' Hotel and Surgical Institute, makes his advice and that of his staff of nearly a score of skilled and experienced specialists much sought after, especially by women, to the treatment and cure of whose special diseases Dr. Pierce has devoted over thirty years of almost constant labor. But though this example is out of the ordinary, it may serve as an evidence of the amazing benefits reaped by the pub-lic from the mail service. It puts every outlying hamlet in touch with the most advanced medical specialism of the day. It gives at a cost of a two-cent stamp, the skill and experience that it has taken years to acquire. Literally at the cost of a two-cent stamp, since Dr. Pierce invites sick women to consult him by letter without charge. And this would seem to be one of the most remarkable services rendered by the postal system, perhaps the supreme service of all. For while it is a splendid thing to be able to shop in New York while living in Kansas, and a grand thing to be able to command the learning of great professors while working in the Michigan woods, it is a still grander thing that by means of this cheaply supplied service, men like Dr. Pierce, who have the disposition to be helpful, are enabled to place their skill and knowledge at the disposal of those who are being dragged services rendered by the postal system, disposal of those who are being dragged down by disease, without the possibility of help from those about them. When one contemplates the vast and far reaching benefits of the mail service, so briefly touched upon in this article, it makes the familiar gray uniform of the postman the most glorious of all uniforms, for it is worn by the soldiers of the army of peace.
It makes one feel like taking his hat off to the on-rushing mail train, and cheer-ing the work and wisdom of Uncle Sam.

MISTAKEN IDENTITY

By Charles Lewis Shaw.

Colonial Denison wouldn't believe this story if told in the witness box under oath. Colonel Grasett, the chief of police, would dub it in the military manner he hasn't forgotten "a confounded lie." Mr. Fibbs, the head clerk of the King Edward Hot.!, would smile the choicest smile of his assortment and suavely talk around the question of veracity in the abstract with a point reference to the story in question as a case in point. He would then steer the conversation in the direction of the breeding of canary birds, which is his relaxation from guiding the wondering footsteps of a considerable portion of the trayeling of a considerable portion of the trayeling of a considerable portion of the trayeling the wondering footsteps of a considerable portion of the trayeling the wondering footsteps of a considerable portion of the trayeling the wondering footsteps of a considerable portion of the trayeling the wondering footsteps of a considerable portion of the practice.

ting of canary birds, which is his relaxation from guiding the wondering footsteps of a considerable portion of the traveling public of the northern haif of the North An.erican Continent.

As these three gentlemen have jurisdiction over much of the ground over which this story travels, it is just as well to let their probable scepticism be known before submitting it to the public. And this is the story:

Rebert Macpherson Meikle, which is merely a hint of the kind of name Robert derived from a respectable line of Scotch-Canadian farmers and U.E. Loyalist ancestors, was a native of an Eastern Ontario country town. The distinctive note that marked this town's moribund existence was a nedley of bables, women and "what will the Smiths and Robinsons think," resulting in a condition cailed respectability. There was a feeling abroad that the adult nucle population was merely tolerated as necessary to the town's continued existence. The superfluous man occasionally draak hinself to death in protest against the orderiness of his surroundings. Sometimes "Maybe, maybe," said Robert Macpherson as the man foul is the wheels began to revolve, "His name 'nil be mud when he gets east."

in.self to death in protest against the orderilness of his surroundings. Sometimes he sought refuge in the crowded cities of the land or took Horace Greeley's advice

and went where the women cease from troubling and peccadilloes are given a rest. The town anotted out the residue and married them, and if the wedding belis weren't particularly merry they wagged decetously and the husbands learned the art of side-stepping thru the mixes of the two principal hotels to a quiet room in the lear in a manner that would allow the explanation that they were consulting the hotel register to hold good, parted their hair at the back and rivalled each other in the londress of their responses in church every sunday morning. Sunday morning.

The nan who sat into a quiet little game

Suiday morning.

The n an who sat into a quiet little game of that kind and played according to the rules generally played in gool luck, for two or three generations of Scotch-Canadian thrift had provided comfortable dots for the wives that the community had allotted them as he stakes for not attempting to make a full house when the bartender in the back sitting room had already dealt them two pairs. They generally sat pat and never drew for a flush.

About the only thing that disorganized the game in the decorous little town was a fire. The excitement, the disturbance of the even current of its ways by the burning of a barber shop or an outhouse would cause the town to temporarily forget the rules. The male population would then throw off its respectable cloak and fight the fire with maddening energy for an hour or two and the products of the distillery for a week. The male inhabitants, you see, always caught cold and became wet for a week. The male inhabitants, you see, always caught cold and became wet at even the burning of a woodshed, and their wives industriously complained about the n alignant east wind always affected their husbands' lungs and confined them to the house for several days after putting out

a fire.

With memories of a recent week's confinement burning in his mind Robert Mapherson Meikle, after a more than ordinary hot fire, which had turned a lumber yard into ashes, strove to escape the dreary drains, doses and domestic discussion that threatened him by boarding a Torontobound express with fifty dollars that he berrowed from the stationmaster. A small vallse, a quart bottle whose contents were of local manufacture, and a joyous feeling that had taken two nights and a day of strict attention to details to successfully acquire.

It is rew found liberty and an obsequious Pullman porter caused the feeling domestically crushed but long lying dormant in his being that he was "It," to spring into aggressive being and when with nervous fingers he scrawled his signature and his address as Ottawa on the hotel register and was immediately called "Major," and asked in that combination of friendly interest and deference that only the hotel clerk at his best can assume. "Your old room I suppose, Major," he could only reply thru the daze of his scattered thoughts, "Of cettse, of course," and lean in haughty negligence against the counter of the hotel office, while he surveyed with seeming indifference the life of the rotunda and endeavored to untangle the reason of his being called "Major." A casual enquiry at His rew found liberty and an obsequious ing called "Major." A casual enquiry at his elbow by a man who had been inspect-ing the list of arrivals, solved the puzzle. "Major Mande? Why, I thought he'd gone back to the old country with Lord "Sh! Sh! Sh!" whispered the hotel clerk.

"Sh! Sh! Sh!" whispered the hotel clerk.
"He's right here. That's him leaning over
there. Never saw him before, as I've only
been in the office a month, but that's the
name all right and Major Maude always
steps here, I know. My, but hasn't he
got a beaut?"

The pseude major had, but, not to such

got a beaut?"
The pseudo major had, but not to such an extent that he wos unable to recognize after another glimpse at the register the ease with which his erratic signature had been mistaken for the historic name of "Maude," Illis chest expanded and he was dignifiedly condescending when the leady reader of signatures consented to

east."
"Maybe, maybe," said Robert Mac-pherson Meikle with a vicious smile, "but Maude in dear, old dead-easy Toronto, I'll try and get back after the next fire."

THE AUTOMOBILE AND THE

The resentment which has been previously referred to in these columns on the part of those interested in horses towards the automobile has taken in some instances, particularly among farmers, the form of active opposition to the machine. Many of them, not realizing the utility to which it may be put, and the ultimate benefit to themselves which will result from its invention and its more general use, have, in the beginning, ridiculed it and later done all in their power to harass and annoy those who desire to use it. We do not believe the highways of any section should be thrown open to the automobile to the detriment and injury of those who use these high-ways for driving or other means of transportation. We believe further transportation. We believe further that our farmers are entitled to the first consideration in any laws passed gov-erning the use of roads. But we think, too, the man with the automobile deserves to have his rights protected and, that such obstacles should not be placed in his way as to discourage the

use of the machine.

If the farmer on his part is unjust or narrow in his views concerning the automobile he should be shown the error of his way and the advantages derived from the machine should be pointed out to him. This paper de-sires, first and foremost, to be the friend of the farmer, the advocate of every interest that will tend to his advancement and assistance and the opjustice or wrong. But, in all kind-ness, we cannot but feel that the farmer frequently fails to show to othmer frequently fails to show to others the consideration which he demands for himself. We believe that 20 years hence he will be the most earnest and ardent advocate of the automobile and the one most grateful for its invention and introduction. We believe that instead of mowers and reapers and plays drawn by horses as reapers and plows drawn by horses as they are to day there will be automowers and auto-reapers and auto-plows in general use. The invention of these has already been perfected. is only a question of time until in the sections of country where they are feasible they will replace the old methods, enabling greater efficiency, more rapid work and larger accomplish-

Whenever it is possible let us look ahead, not behind; let us hail every labor-saving invention the genius of man may perfect as a help; let is do all in our power to promote its use. Do not let us stand in the way of progress. We are living in to-day, not yesterday, and just ahead of us is a to-morrow of broader fields and more wonderful possibilities than we have ever dreamed. The man who would succeed is he who is most willing and ready

there—at least, not for a while.

I had gone west, in order to return east the more safely, and now, in light marching order, without luggage, was covering the last twenty four hour stage on the Special Limited. Our sleeping

covering the last twenty-four hour stage on the Special Limited. Our sleeping car was crowded with nice people—just my sort, I fondly imagined; and so must have been the train, for when I went in to dinner I secured a seat with difficulty.

Opposite to me at the table sat a round and rosy old gentleman, with the white whiskers of opulence, and by his side his pretty, bright-eyed daughter. I recognized them as occupying sections just ahead of me, and so ventured to exchange a few commonplaces with the father, the girl listening demurely with downcast gaze as she nibbled on a bit of stickbread the while.

rajah's diamonds; and after lavish purchases, spick and span, I dove out that Saturday to the Laplands.

II.

It was bliss to be so well equipped, so fush with money, so f.ee f om the clogs of the past. I beathed a new air, electric, intoxicating. I inhabited a new world, bright, serene, cloudless—save for one lurking perplexity.

Yes, there was a shadow, caused by the insistent, reiterative p oblem of the origin of the name I had assumed on the spur of the moment—the name of Lawrence Holt. It was not manufact turned under pressure; it had lurked in my memory, on the end of my tongue, fully formed, to be uttered involuntarily—to be regretted the instant it had been uttered. Whence had it come?

I could not tell. But the intuition that had been uttered. Whence had it come?

I could not tell. But the intuition that had been uttered was planted.

It was bliss to be so well equipped, so fush with money, of et of on the clogs of the past. I beathed a new air, electric, intoxicating. I inhabited a new world, bright, serene, cloudless—save for one lurking perplexity.

Yes, there was a shadow, caused by the insistent, reiterative p oblem of the manue of Lawrence Holt. It was not manufact the live of the moment—the name of Lawrence Holt. It was not manufact the live of the moment—the name of Lawrence Holt. It was not manufact the live of the moment—the name of Lawrence Holt. It was not manufact the live of the moment—the

I remember my last conscious thoughts that night were of the gil—regretful thoughts that fate and I had been so mutually unkind that it would be hazardous for me, Maccenas Badger, once a reputable if obscure practitioner of the law, to seek her acquaintance, her favor. My first thought was of her when, amid the toar and burst of disaster, I woke to find myself lying on an embankment, scratched and tatered, but sound of limb—the air rent by screams of agony, the rattle and hiss of escaping steam and reddened by the flames from an appalling confusion of stop over with me; and so, flames from an appalling confusion of stop

know them safe; but my second was of her—and, lo, as I wondered if she, too, was unscathed, my hand touched something cold, and there by my side was must be just filled with smoke."

I went to my room. I sat gazing stupelied by the story of the embossed silver belt and the stout ittle bag.

I staggered to my feet, horrified lest what had once been the girl might now, disfigured, mangled, be also lying near; and I never felt a more honest joy than when, as I pressed my way blindly, unheeding thru the ruck, I came upon her, standing apart with her father on a

I made my best possible bow under

ch disheveling conditions.
"I think this belongs to you," I said. "Oh, papa," cried the gil, "was there wer anything so fortunate? Just as I was in despair over mamma's diamonds

I asked simply, the cold with regret of what I had not done.
"Of course, of course," returned the old gentleman, hastily, "but that does not lessen our sense of obligation. The

I stepped to the window, wondering if

I stepped to the window, wondering if of what I had not done.

"Of course, of course," returned the old gentleman, hastily, "but that doesnot lessen our sense of obligation. The fact is, my wife possesses a remarkably fine string of diamonds, an heiricom in her family, quite unique, so the experts say, and Nannie and I took them to town to be reset—"

At this instant a railway official came along with lantern and note book, taking the names of passengers and generally making the best of a bad job.

"Stephen Dallas of the Laplands and secape.

I stepped to the window, wondering if I might leap out and escape.

Then I thought of the diamonds; then I reassured myself with the reflection that I was in the heart of a rural district, where quiet homes, amid large, on the eve of Sunday, when even the sparse methods of communication were interrupted. How cowardly, then, to be driven from a promising prospect by fear of a mischance not likely to happen!

I descended to dinner at three, determined to make every moment count; and once more opporunity seemed to

"At all events, sir, you are not far meeting. "I would get her to show you from home," said the official deferentions the providential diamonds, Mr. Holt. those providential diamonds, Mr. Holt.
But to-morrow morning will do just as well. She is sure to have them on the porch. She loves to handle them, to watch their changing glow. Poor manman, she has so few pleasures—" And the girl's eves filled with tears.

"You thief, you cowardly, unspeakable wretch!" she raged. "Try to steal from the afflicted; caught like some foul beast in a trap—what a sight for God, for man, for me, poor fool, who believed in you."

"Lawrence Holt of Toronto," I ventured in my turn, giving the first name that came into my head,
"There used to be Holts in our neighborhood," reflected Mr. Dallas, "connected with our family by ties of amity and affinity. I have often heard my grandfather speak of the sacrifices they made when—er—they moved away at the end of the revolutionary war."
"We were Tories," I smilingly admitted, "when we left our country for our country's good."
"Then, my dear sir, your feet are undoubtedly on your native heath this yery moment. You must come and stay with us, positively I can't take a review of the stars of the sacrifice. They were a simple, kindly folk, with the girl's eyes filled with tears.

They great fact, which were a simple, kindly folk, with the girl submitted in the library, loading and confidentially of many things that evening on the porch in the shadow of the stars, while the old gentleman dozed in the library, looking up the geneating the first name that came into my head,

"They grio dod, for man, for me, poor fool, who believed in you—"

The grip on my hand loosened—I drew it away involuntarily—I was free. I looked at Mrs. Dallas—the strain had softened, there was a glow on her cheeks, her lids were closed, her lips parted, She sighed gently, then opened her eyes, gazing about bewilderedly. "Why, Nannie; why, Mr. Holt," she gried the strain had softened, there was a glow on the parted. She sighed gently, then opened her eyes, gazing about bewilderedly. "Why, Nannie; why, Mr. Holt," she gried the strain had softened. They was free. I looked at Mrs. Dallas—the strain had softened, there was a glow on her cheeks, her lids were closed, her lids softened, there was a glow on the path softened, there was a glow on the path softened, there was a glow on the path softened, there was a sign to looked at Mrs. Dallas—the strain had softened. She sighed gently, then opened her eyes, gazing about bewilderedly. "Why, Nannie; why, Mr. Holt," she gried. She sighed gently, then opened her eyes, gazing about bewildered

To the devil with Gratz—let him wait my good pleasure.

Besides, if I must hunt for diamends neighboring town, whither I, in common leader his informal constraint. under his infernal constraint, why not with the other passengers, had gone af- know not what, when the girl raised

fast cigar I strolled slowly thru the grounds until I reached a wooded knoll, shielded from observation, yet assuring a view of the house thru the t.ees; and there I reached in the companion of the companion of

a view of the house thru the ties; and there I paused in dire perplexity. What should I do; what, indeed, could I do except save myself by instant flight? I nourished no merciful illusions. A positive identification meant that someone well acquainted with Mr. Holt in life had recognized him in death. As Mr. Dallas had said, the railway necone knew I was he e; at railway people knew I was he.e; at any moment, then, a posse might arrive to apprehend the impostor who had ob-tained valuable effects under false pre-

I felt instinctively to assure myself that the rajah's diamonds we: e sill se-curely pinned in the inside pocket of my

curely pinned in the inside pocket of my vest; I turned to the various points of the horizon to get my bearings; I looked toward the house for the last time. There, on the porch, Mrs. Dalas was sitting in her invalid's chair, with something sparkling—her string of diamonds, undoubtedly, a fortune in themselves—in her hands. No one was near, and at the rail nearby the pony cart was hitchthe rail nearby the pony cart was hitched, the stout little beast nibbling contentedly at the lawn.

The lust of thievery filled me. I hurried back, sprung up the steps; I stopped abruptly. The poor old lady's eyes were closed, her mouth twisted and set, her face ghastly pale—only convulsive twitching of the distended nostrils showed me that she was not dead, only unconsious, overwhelmed by some phase of her strange malady.

Nobody was around. In the upper room, with the pretty chintz curtains, I could hear Nannie singing blithely, as

she prepared for our drive.

The diamonds lay on the old lady's open palm, an undulating, coruscating constellation of marvelous beauty. I stretched out my hand to take them— in an instant I was caught and held by hers, as in a vise, with a grip unnatu al terrible, in its strength.

A spasm had shot thru the poor wo-man, straining her muscles into tense wires, while still she remained in that cataleptic trance, her eyelids now spread wide apart and the sightless orbs rolled back.

erally making the best of a bad job.

"Stephen Dallas of the Laplands and once more opporunity seemed to make every moment count; and once more opporunity seemed to make every moment count; I saw the flutter of chintz curtains above, until I caught a glimpse of a horeported, with the air at once of an important man and a man of importance. "If mamma hadn't retired," said Nanportant man and a man of importance in the incident of our samples of the laplands and once more opporunity seemed to above, until I caught a glimpse of a horeported, with the air at once of an importance in the laplands and once more opporunity seemed to an once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the laplands and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once more opporunity seemed to always the latter of chintz curtains and once offer itself to me.

upon the porch.

Again I had my chance—one spring into the pony cart, and then away, away. I looked at Nannie. Her hands were twitching, she was biting her lip: but she moved not, she spoke not. In her fervid gaze I read a comprehension of the situation, a determina-"I do hope, father, that Mr. Holt will give us the opportunity of knowing him better."

I pleaded the loss of my luggage, the necessity of replenishing my wardrobe; but finally we parted with a half promise on my part that after I had put myself in shape in the next town and they had had a day of rest, I would come and spend Sunday with them.

Why shouldn't I do so? I was filled with intense craving for the joys of his social life I had already tasted; but it's a confounded shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's called this? Here's something about you by the Lord Harry, that must be looked into, rectified at once. Don't be startled; but it's a confounded shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's called this? Here's something about you by the Lord Harry, that must be looked into, rectified at once. Don't be startled; but it's a confounded shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's called shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's called ferece.

"Hello, Holt," he exclaimed, "what's called ferece.

"Hello, Holt," he exclaimed, "what's a confounded shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's called ferece.

"Hello, Holt," he exclaimed, "what's a confounded shame that such a blunder could be made," and he read as follows:

"Hello, Holt," he exclaimed, "what's on later mystally her benesion of the situation, a determination that no action on her part should so alarm her mother as to cause a recurrence of that dreadful obsession. Was there not also an appeal to me, an entreaty? Again brute force fail
into, rectified at once. Don't be startled; but it's a confounded shame that such a blunder could be made," of praise.

"Postscriptum, 1 a.m. The one remaining body in the morrage, that of a uniform that such a blun

I turned to Nannie, about to say

ter the accident, and where the inquest had been held.

"I lost my card case on the train," I said slowly. "Possibly this unknown man may have picked it up."

"Of course, that is just how it happened—any sort of intelligent inqui y would have ascertained the truth. And they knew you were over here, too. I cape."

I lost my card case on the train," I said slowly. "They are coming," she whispered, hurrying back and grasping my arm. "Sheriffs, constables, full fifty of them, spread out in line, beating thru the park in the rear. There is only one it in Latin?"

Was mervelous, approving no's and smiles were exchanged among the deacons.

Thus encouraged, he followed up his advantage by saying:

"Perhaps you would also like to hear park in the rear. There is only one there have a constable to the side of the porch.

"They are coming," she whispered, the followed up his advantage by saying:

"Sheriffs, constables, full fifty of them, spread out in line, beating thru the park in the rear. There is only one there were exchanged among the smiles were exchanged among the spread out in line, beating thru the park in the rear. There is only one the fifty of them, spread out in line, beating thru the park in the rear. There is only one there were exchanged among the smiles were exchanged among the smile

they knew you were over here, too. I swear I have no patience with such stupidity. But don't let this interfe e with the plans I have laid out for you, Holt. I'll go over there this morning and call down the railway officials and st. and. I'm out the reporters—"

"But, papa," interposed Nannie, her hands filled with the flowers she had been arranging, "is it any wonder Mr. Holt should be so pale and troubled' Think, this faise intelligence has been sent broadcast by this time to his family, his friends. He must telegraph them at once—"

"Ah, no," I said sadly, "I have no amily—I am alone in the world. That's why I came here, searching for the ld home of my race. Let those who isseminated the lie contradict it—it akes no difference to me," and as I trued away I saw that pity which is in to love suffuse the girl's eyes and porify her face.

You see, Nannie, I was right," cried to Dallas triumphantly.

Take no difference to me," and as I heard old Dallas' wrathful expletives as he vowed I is as he vowed I also only one chance of escaping only one chance of escape."

Therehaps you would also like to hear in hepe for you, only one chance of escape."

Welsh; this was even more successful than before The preacher cast his possed the hitching strap; with one sharp clip she sent out the steps; she unloseed the hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out hitching strap; with one sharp clip she sent out he steps; she unloseed the hitching strap; with one sharp clip she sent out het from roadway, at a lose of the form roadway, at a lose of the hitching strap; with one sharp clip she sent out little was even more successful whether the the the th

laid against me.

I heard old Dallas' wrathful expletives as he vowed I should be lynched.

I watched the sweep of the posse as it beat thru the plantation in vain pure

suit.

Then I waited the livelong day and far into the night in that pretty room, shamed by the pervasive influences of a pure and lovely being.

At length Nannie came, beckoning me to follow her. We tiptoed thru the shadowy halls and down the dusky stairs. At an open side window she paused. stairs. At an open side window she paused.
"Is it so bad that you can never re-

"It is so bad that you can never return?" she asked,
"It is so bad," I replied,
"I thought that perhaps you did it
for me—you seemed so brave, so gallant—"
"You I am a diamond this!"

lant—"
"No, I am a diamond thief."
"Then God forgive you."
"And God bless you."
I kissed her hand that for the first trembled in mine, and then again I started to work my way, thru devicus paths, back to the city where the avid Gratz was awaiting me.

Making a Strong Bluff.

This is an American story as told by

ter the accident, and where the inquest her head with sudden intentness and had been held. was mervelous, approving no s and hurried to the side of the porch.

The Kinn.

Last night I had to go to bed All by myself, my mother said.

'Cause I'd been naughty all day thru She wouldn't kiss me good night, teo.

I didn't want to let her know How much I cared 'bout that, and so I dropped my clothes right on the floor A thing I never did before—

And put each stocking in a shoe—She just hates that—and didn't do My hair, or wash my face, or brush My teeth, and left things in a sqush All 'round the room; and then I took Her pleture and my fairybook She gave me on my last birthday In June, and hid 'em both away.

I put my father's picture right
Up in the middle of the light
To show 'em just the way I feel,
'Cause he said, ''Kiss the child, Luclie
Don't let her go to bed like this
Without your usual good-night kiss."
But she just shook her head and turned
Her back, and then my eyes they burned
Like fire. It's been a horrid day,
And then, of course, I didn't say
My prayers at all, but went to bed
And wished and wished that I was deads

Well, I don't know just how it was,
For I'd been half sleeping, 'cause
I was so 'pletely tired out—
When I heard something move about
So quiet, and the next I knew
The door moved back and she came thre
And put her-arms about me se,
And said, a-whispering very low,
'My poor, dear child.' and was so sad.
And kissed me twice—My! I was glad.
Louise Morgan Sill, in Harper's Magazine

This is an American story as told by
London Tit-Bits:
A congregation in Connecticut had
lost their pastor, and were desirous of
filling his place. But their last minister had been self-taught, and the aristocracy—to wit, the deacons, etc.—stipulated that the new minister should have a classical education.

In order to be sure of their man, the deacons agreed to let applicants preach a sermon on trial. The living was good, consequently trial sermons were the order of the day. But as the deacons said, they knew an educated man from a duffer, so the living remained vacant. At last a Welshman heard of the vacancy, but he was less learned than the one who had left; still, the determined to try.

The day was arranged, the appointed minute arrived, and the candidate mounted into the pulpit. He got well on in his sermon, when he suddenly recollected that he was expected to show his learning.

With a solemn look he repeated a verse in his native tongue. The effect

GEMS OF LITERATURE

RURAL RIDES

RURAL RIDES then at the state of the state ham. My heart fluttered with inpatience, mixed with a sort of fear, to
see all the scenes of my childhood, for
I had learned before the death of my
father and mother. There is a hill not
far from the town, called Crooksbury
Hill, which rises up out of a flat in the
form of a cone, and is planted with
Scotch firtrees. Here I used to take
the eggs and young ones of crows and
magples. This hill was a famous object in the neighborhood. It served as
the superlative degree of height. "As Hill, which rises up out of a flat in the form of a cone, and is planted with Scotch fir-trees. Here I used to take the eggs and young ones of crows and magpies. This hill was a famous object in the neighborhood. It served as the superlative degree of height. "As high as Crooksbury Hill," meant, with us, the utmost degree of height. Theefore the first object that my eyes sought was this hill. I could not believe my eyes! Literally speaking, I for a moment thought the famous hill removed, and a little heap put in its removed, and a little heap put in its stead; for I had seen in New Bruns-wick a single rock, or hill of solid rock, 10 times as big, and four or five times 10 times as big, and four or five times as high! The postboy, going down hill, and not a bad road, whisked me in a few minutes to the Bush Inn, from the garden of which I could see the prodigious sand-hill, where I had begun my gardening works. What a nothing? But now came rushing into my mind all at once my pretty little garden, my little blue smockfrock, my little blue smockfrock, my little blue smockfrock, my pretty pigeons was attracted recently by a Cossack with rosy cheeks and whose beardless face and garden, my little blue smockfrock, my little nailed shoes, my pretty pigeons that I used to feed out of my hands, the last kind words and teats of my gentle, and tender-hearted, and affectioned received. I hastened back into gentle, and tender-hearted, and affectionate mother! I hastened back into the room. If I had looked a moment longer I should have dropped. When I came to reflect, what a change! What scenes I had gone thru! How altered my state! I had dined the day before at a secretary of state's in company with Mr. Pitt, and had been waited upon by men in gaudy liveries! I had had nobody to assist me in the world. No teachers of any sort. Nobody to shelter me from the consequence of bad, and no one to counsel

feeling of apprehenson. The leaves an all off, the hop-poles are in stack, the fields have little verdure; but, while the spot is beautiful beyond description even now, I must leave to imagina ion to suppose what it is when the trees, and hangers, and hedges are in leaf, the corn waving, the meadows bright and the hops upon the poles.

A RUSSIAN AMAZON.

quence of bad, and no one to counsel one to good behavior. I felt proud. The landlady sent her son to get me some cream, and he was just such a chap as I was at his age, and dressed just in the same sort of way, his main garment being a blue smock-frock, faded from wear, and mended with pieces of new stuff, and, of course, not faded. The sight of this smockfrock brought to my recollection many things yery defrom wear, and mended with pieces of new stuff, and, of course, not faded. The sight of this smockfrock brought to my recollection many things very dear to me. This boy will, I daressy, perform his part at Billinghurst, or at some place not far from it. If accident had not taken me from a similar scene, how many villains and fools, who have been well teased and tormented, would have slept in peace at night, and have fearlessly swaggered about by day! When I look at this little chap, at his smockfrock, his nailed ghoes, and his clean, plain, and coarse shirt, I ask myself. Will anything, I wonder, ever send this chap across the ocean to tackle the base, corrupt, perjured republican judges of Pennsylvania? Will this little lively, but, at the same time, simple boy, ever become the terror of villains and hypocrites across the Atlantic?

At Bower I got instructions to go to Hawkley, but accompanied with most earnest advice not to go that way, foothat is was impossible to get along. The roads were represented as so bad, the floods so much out, the hills and bogs so dangerous, that, really, I be-

MAKING MAPLE SYRUP.

Supply Gradually Growing Smaller-How to Treat Crop.

The demand for a genuine No. 1 article of maple syrup is growing greater each year, and it will continue to grow in the future because the supply will grow smaller each year, caused by the decline of maple forests. The man who never had an effective voice. Convo has a nice thrifty maple grove has cation, had it been allowed, would have something that will be the source of as many; and of the episcopate, in the much revenue for the time and money eyes of Anglicans a special channel of were each about true belief, all the members but one had no children. or, if Sodor and Man is to be counted, "And now about the right methods are adopted or, if Sodor and Man is to be counted," much revenue for the time and money and carried into execution, says The two Obio Farmer. The time is for ever

maple sugar is a luxury instead of a necessity, skill must be used in making and putting it up, because just the moment we make a filthy, dark colored article and put it up, it was the colored article and put it up. moment we make a fifthy, dark colored article and put it up in an unattractive manner, it ceases to be a luxury, and we are compelled to take the "down" price for it. Neatness, cleanliness and quickness of despatch are rules that must be observed, and to carry them into execution we must have a good sugar house, a good supply of day weed a modern evaporator. have a good sugar house, a good supply of dry wood, a modern evaporator, vessels 'either of metal or wood; if wood, kept well painted inside and out; if metal, painted on the outside, and at all times the vessels, and in fact everything connected with the work, must be kept scrupulously clean by the frequent use of hot water.

People used to think that maple syrup to be pure must be dark in color and have a strong taste, but I am glad to say that this is far from true. I use every means possible to make it as

every means possible to make it as light in color and mild in taste as it can be made, and it is within our power to control these things. When sugar making comes we have our work arranged so that we can devote our en-tire time to it, and whenever the sap begins to run we are ready to care for it; every hour we leave it exposed to the weather and elements we are adding to its color, and strongness to its fla-yor. We make it a rule to begin hauling and evaporating whenever the ves-sels contain from a quart to a half-gal-lon. We also aid in making it light in color by evaporating it as quickly as possible, and this part of the work I look after myself, setting the automatic feed so that it will keep the water in the evaporator just as shallow as is

possible to keep it without burning.

By this method we are enabled to evaporate much more than if the water was kept deep in the pans, because the steam bubbles form at the bottom of the water, and if it is too deep they burst before coming to the surface and the work is to do over again, while, on come to the surface before bursting,

the steam escapes and the evaporating goes on very rapidly. We use a sac-charometer to test our syrup, and take it directly from the evaporator, weigh it directly from the evaporator, weighing eleven pounds to the gallon, and filter it thru felt or flannel to remove the silicia; put it up in attractive packages and sell direct to the consumer. The only trouble is, we have not been able in the past to make evaporate to supply all our orders. enough to supply all our orders.

THE REMEDY FOR RELIGIOUS DOUBT.

Editor N. Y. Sun: You say that you receive communications speaking bitterly of these letters. Their writer of feeling, now from the side of orthodoxy, which denounces him as an atheist, now from the side of ultra materialism, which taxes him with cowardly adherence to theistic superstition. He is but one of many who in these days of perplexity and doubt are trying to find some secure foundation for belief in the moral government of the universe, in the authority of conscience and in the more hopeful view of the change which is to take place at death. For the aged perhaps the last question has more pressing interest than for the young. You have told us that there is an

increase of formal membership in the orthodox, a decrease in the more rationalistic churches. Granting this to be the case, does it denote a decrease of rationalism and an increase of orthodox belief? Would a seceder from an orthodox church be likely at once register himself elsewhere? Is formal membership proof of unsh conviction? Judging from my obser vation in England, I should say that it was not. Does not this increased esort to esthetic attractions betray a feeling of mistrust? Do we not hear from one church after another, now from the Presbyterian, now from the Anglican, an appeal of conscientious and enlightened clergymen for a removal or relaxation of tests? Has not unrest been disclosed by a series of trials for heresy? Have not leading clergymen of the Church of England petitioned for liberty to deal freely and of Santanovidence, in the inspiration petitioned for liberty to deal freely and critically with the New Testament? Has not Presbyterianism produced the writings of Robertson Smith? Is not

the "Encyclopaedia Biblica," in which the resurrection of Christ is treated as a vision, edited by a canon of the Anglican Church and professor of theology at Oxford? We surely have come to a crisis in the history of religion and all that rests upon it.

There might be less disposition to cling to traditional formularies of belief and greater willingness to set the clergy, our natural guides, free from their present shackles if we had pte-sent to our minds the extent to which denominational creeds had been fixed, chivalry that used to animate the words not by spiritual authority of any k nd. and deeds of old John Henry. but by secular power, and largely fcr political ends. In the case of the An-glican Church it may, I think, be clearly shown that from the commence ment of the religious revolution under Henry VIII. to its close under Elizatwo-resigned. In the Scotch Reforma- alry, tion also influence distinctly political; "He came to Charlestown one day

Ohio Farmer. The time is for ever past when slipshod methods will go in making maple syrup. The man that will succeed in this line of farming must adopt up-to-date methods, and above all else be strictly honest always and under all circumstances furnishing exactly what he represents his zoods to be.

The successful sugar maker will in the future have his own private customers and sell direct to them, and as maple sugar is a luxury instead of a making maple as the strictly honest always and under all circumstances furnishing exactly what he represents his zoods to be.

The successful sugar maker will in the future have his own private customers and sell direct to them, and as maple sugar is a luxury instead of a maple sugar is a luxury instead of a making maple sugar is a luxury instead of a making maple sugar is a luxury instead of a making maple sugar is a luxury instead of a making maple sugar is a luxury instead of a making maple sugar is a luxury instead of a making mayour columns to the 300,000,000 nominal Catholics as testifying by their unshaken belief to the stability of his church. In the papal city itself, ville Ignatius Loyola still rests in his shrine of lapis lazuli and gold, not far off rises the statue of Giordano Bruno, the successful sugar maker will in the future have his own private customers and sell direct to them, and as maple sugar is a luxury instead of a maker will in the future have his own private customers and sell direct to them, and as maple sugar is a luxury instead of a maker will in the future have his own private customers and sell direct to them, and as maple sugar is a luxury instead of a maker will in the future have his own private customers and sell direct to them, and as maker will in the future have his own private customers and sell direct to them, and as maker will in the future have his own private customers and sell direct to them, and as maker will in the future have his own private customers and sell direct to them. now be if political power had not in Italy, France, Spain, Austria, Bavaria, the Spanish Netherlands, forcibly crushed freedom of inquiry? The principle on which after the Thirty Years' War, the States of Germany were practically settled, was that the politipractically settled, was that the political sovereignty should determine the state religion. With political liberty has come freedom of thought, and with freedom of thought questionings about traditional belief and about the mysteries of our being to which only reasonable satisfaction can put an end, it hat he preferred jail to eloping with left those who shrips with borson the mother-in-law.

FOREIGN AUTOMOBILING

TIONAL GENERAL

WESTERN ONTARIO JAUNT IN A BIG RED AUTOMOBILE

the stage in Canada that it has in dor got nearly to the top, the man had many parts of the United States. This fact may account for a few experiences it by. He called to us that he had left that seem strange to one going thru a the buggy and to look out for it. populous district of Ontario, the experiences—to be particular—being those gained in a trip from Windsor to London. The writer was one of a party of three who, with a certain amount of luggage, necessary and unnecessary, filled the two-seated "Matador," as the touring car was called.

An Accident.

the buggy and to look out for it.

It seems to be the fault of so many drivers—they get afraid themselves. The suggestion of fear passes to the horses, causing all the mischief. This man was not the only one who unhitched his horse. The next morning we met a man with a team drawing a hayrack loaded with household goods, and the flustered owner took out his horses and turned them up a lane Invariably the man who appeared nertouring car was called.

An Accident.

paratively straight, but gasoline engines are particular about roads, and the automobilist who knows what he is doing will start out of Windsor for London by going southeast. The road along the north shore of Lake London by going southeast. The road along the north shore of Lake Erie, known as the Ridge-road was followed, and as one passes the oil wells and orchards of Essex into Elgin's and Middlesex's model farm lands, he sees of what Ontario really consists. The man who says the night before that he will arise at 6 o'clock in Windsor and eat his breakfast at 8 in Leamington may find himself mistaken. When we suggested the possibility of such an event, we suggested it "d.v." In the end it proved the auto wasn't "v," for about four miles out of Windsor it showed that it was unwilling to go chapeaceably. There was a knocking. We stopped at the cross-road, where the people were up by this time, and a tavern-keeper let us have a pall of water, for the engine was hot. Some screws had been lost, and the owner improvised something with a stick of wood and a hammer borrowed from a negress. Our party breakfasted at Windsor after all, not leaving the city until nearly noon, and Leamington being reached in time for a late dinner. Some of the road to that place was good, but much was bad, what a farmer called "gravel" had been placed on the middle of the road, but stones seemed to be rarities in this stretch of sand, which was evidently put there by some township seer who thought it

Red Car and Red Bull.

Before Blenheim was reached an incident occurred from which the hither-to unchristened automobile came cut with a name. Coming to a small shake the dust from off their feet and shake the dus Red Car and Red Bull. selfore Bienheim was reached an incident occurred from which the siltherwe should say that most every town
that a name. Coming to a small
bridge, we noticed a couple of farmers
in charge of a buggy, behind which
was a bir red and white bull, held only
by a rope. Seeing the machine coming, they crossed the bridge and ating, they crossed the bridge and ating the bridge and ating they crossed the bridge and ating they crossed the bridge and idea of calling the car "The Mata-

Salvation Army and a Pig.

The Matador brought us puffing into Blenheim shortly after 6 o'clock. It was dark, and before we knew it we ran into an engineer's boards across a closed street. Before leaving the place we stopped in front of the town, leaved to the stopped in t laundry to get a supply of gasoline. The usual crowd gathered about and it The usual crowd gathered about and it was well shown here that it takes a Salvation Army soldier to recognize opportunities. On the opposite corner the Salvation band was holding forth before a crowd half as big as that around the machine. Then before they could disperse an Army lassic stepped across the road and passed the plate and went away satisfied. he plate—and went away satisfied.
The road from Blenheim to Ridge-The road from Bienneim to Road town is a good one, and the distance is only ten miles. The ride on this evening was particularly promising, as even in its full glory. We the moon was in its full glory. We passed more rigs about this time than during the whole afternoon, but fortunately the horses seemed less afraid than in the daytime. Not far out of Blenheim we met one of those drivers who seem to get more afraid than their horses. In this instance we were going up a slightly-graded but long hill. We had scarcely started up when we disturbed a black pig in the middle of the road. People who think a pig nev-

er runs should chase one in an auto- GEO. GOODERHAM ALWAYS mobile. This pig, like many another we met, could run well, but it was afraid to get off the road. Its course was a perfect scallop, and as it ran in the zig-zag way in the moonlight it

the zig-zag way in the moonlight it was almost weird.

When half way up the hill we noticed a horse and rig stopped. Three women and a man jumped out and the women started to cross the road. They got no farther than the middle of the road when one of them screamed. She had seen the scalloping pig. but could not distinguish what it was. The man evidently did and reassured them, for they got across and up by the fence and the pig made at once for the ladies. They were human, at least, and his pursuer wasn't. By the time the Matador got nearly to the top, the man had

An Accident.

A railroad map of Ontario gives a different impression of the direction of London from Windsor. True, there is a road from the latter city that is compassed by safely.

A TOUR 'WAY DOWN EAST

seemed to be rarrites in this stretch sand, which was evidently put there by some township seer who thought it would "wear down."

The reader may judge for himself what sort of impression these gentle-men made on the New Englanders.

From auto and mob. Hence an mobilist ought to be mobbed. What is the difference between an automobile and a bunch of violets?

The smell. What is an auto race?
A race of men who drive automobiles.
What do they look like? Like the Wild Man of Borneo dis-guised as an Eskimo, What are they called?

Why? Because they show furs in all sorts of weather and climate.
What is the difference between an automobile and Beau Brummel?
Beau Brummel was a lady-killer, but

an automobile will kill anybody.
What follows the automobile? The autopsy.

The rich young man was making his ply.

HANDLES STEERING WHEEL

Prominent Autoist Finds Original, Kaiser Bill Should Go Motoring-Undecipherable Joy in a Large Car.

One man that's got a large grip of George Gooderham. As a motorist, Mr. one real man on a horse in this world?

"Pleasure! Well I should say so. I've tried the tiller on a yacht often enough. I'm a yachtsman still and as fond of the water as ever; just as crazy in a spanking nor'wester as I was ten years ago and just as happy breaking over the foam lines. But there's a new insde joy in running a much use trying to explain it either—theres' a new inside joy in running a good car that never did and never can belong to either a pair of lines or a tiller."

Hand on the Wheel.

an historical second fiddle to Napoleon. Buy a motor, William—buy a motor!

Swift Clouds These Days.

"Billy Hyslop: Well, we've got some cars that hit a good old clip all right, but say, for pure joyful speed these June clouds have got 'em all beat. Did you ever see clouds move so much like greased ones? While you're filling your tank the sky's as blue as a robin's egg. By the time you get your oil in and your goggles hunted up—down she comes out of an inky sky like the Falls of Niagara.

"Well, we're all looking for a fair-up

Hand on the Wheel. Mr. Gooderham's sincerity required no proof. One has only to watch him manoeuvring with his big car round the garage to feel certain that he has the fever right in his blood cells. There's a big offhandedness about this particular motorist that always makes him cert to talk to about the automorphism of the summer. particular motorist that always makes him easy to talk to about the automobile. When he was member of the board of education he was the only one of that influential body that owned an auto. If he had become mayor of Toronto he would have been the first automobilist mayor the city ever had. tomobilist mayor the city ever had.

Some day we quite expect a motorist will climb into the chief magistracy of this town. The influential progressives are gravitating into the game at a good rate these days. A few years more and it will almost be necessary to put an automobilist into almost every large position requiring grip and gumption with a dynamo of good health got from imbibing scenery and ozone.

with a dynamo of good health got from imbibing scenery and ozone.

Mr. Gooderham by his campaign last January set the pace for all aspiring motorists in civic life. He is young yet. A few more years of motoring and he may get into that more serious "game" where to have one's hand on the steering wheel means more than driving a car.

There is now a gospel automobile in Toronto. It belongs to Mr. J. A. driving a car.

CITY ARCHITECT IS JUST

STRAY TOOTS FROM OUR

Clouds Bent Automobiles-Rainy Sprint From Hamilton.

Kaiser Bill looks imposing on a horse,

Gooderham is right among the seniors. Some men are interested in motoring all right, but they don't care to drive themselves. "George," as his fellow on the seering wheel. This is where he sees the practical joy out of the thing. He's now selling his horses.

The Clumsy Horse.

"I really have no use for a horse any more," he said, speaking in his off-hand, unpremeditated style about mortoring. "There isn' anything that I used to do with a horse that I can't do a heap better with a motor, except you may a fence. Then a horse is an awk-ward being cempared to a motor was petterned by any sort of a place that gisn't half as wide again as the sign he's attached to without tearing just where you want her by a hair's breath half an inch at a time.

"Pleasure! Well I should say so. I've tried the tiller on a yacht often enough. I'm a yachtsman still and as fond of the water as ever; just a seen of the parts. "Billy Hyslop: Well, we've got some a water as ever; is that it a good deligin all right.

"Bis name is Teddy. And if you only the themselves. Teddy on a horse, you'd look like little Ikey on a horse, you'd look like little Ikey on a horse, you'd look like little Ikey on ha horse, you'd look like little Ikey on habit with whole motor of habit, William, prithee come down from the hobit, William, prithee dome down from the hobit, William, prithee come down from the hobit, William, prithee come down from the hobi Gooderham is right among the seniors. His name is Teddy. And if you only

of Niagara.
"Well, we're all looking for a fair-up

"Well, we're all looking for a fair-up soon. Take you out for a whirl just as soon as the first dust arrives."

Wm. Blackstock ran ove: from Hamilton a week ago yesterday. Anybody that wanted to find out what kind of a time he had might have taken a squint at his car on Monday. It was just a trifted dusty—the kind that won't come off with a broom. From a casual glance you might have thought he had been doing stunts after Chas. J. Glidden. But he wouldn't come in out of the rain, for he had to get out of Hamilton at any cost. If that had been a horse now, he'd put in an hour each night with a currycomb for a week. Seeing that its' a motor, he leaves it at the garage for somebody else to slick up.

SALVATION ARMY ADOPT

MOTOR FOR STREET WORK

Mr. Goddard's Freight Truck Used as Gospel Band Wagon—Sample of Modern Enterprise.

There is now a gospel automobile

have been hilarious—scarcely.

No Circus Parade This Year.

But no matter how successful and imposing this trip may have been, there was a grave oversight in confining it to Toronto Junction and West Queen-street. It would have been far more spectacular to have had the four autos take a preliminary tour up Yonge-st., along College and down Spadina. The spectacle of the four controllers and the mayor in automobiles would have suggested to the common voter's mind that it is really getting to be worth while to go on the board.

Come to figure it out, and the difference between the old salary of \$1000 a year for a controller and the new one of \$2500 is just enough to buy a nice little to horse power car. If these gentlemen will buy motors the ratepayers who put up the cost of the same will be visibly compensated for the extra expense by the spectacle of their civic cabinet ministers being right up in the procession of modern progress. After that trip to the Junction it is only reasonable to expect the controllers and the mayor to join the ranks of the motorists. Come along, gentlemen!

Professional Victims.

in Toronto. It belongs to Mr. J. A. Goddard, who is a member of the Salvation Army. Originally a freight

doesn't know much about. Out on a trip his engine starts to pound. He can feel it as plain as the measles and he knows very well there's something out of kilter. Well, he gets down to tackle the job. Expects it's something mighty mysterious; wonders where the meaning with the army may be necessary, but it is quite too slow. Horses the army has never employed. They than any dirty plugs. Never you mind, boys, this fantry. Now, what will Gen. Booth It would it is not confirmed. The gospel wagon is now on the side-track when the gas so less 'has invaded even the church. From The Kind Words Chronicle.
Laugh and the world laughs with you,
Is a sentiment somewhat trite,
But when you are broke
You can't see the joke,
For the laugh's on you all right.

Smile and the world smiles with you, That is if you pay for the grin-For it's certainly true When the smile's on you The world is as thirsty as sin,

TheEnglishman .

He really doesn't see the point, He dresses very badly; He takes his soda with his boone And his pleasures very sadly.

Air Forse Show and Parade Association are to be congratulated upon the splendid success their prize-list has achieved and on the excellent prospects of a grand success on the morning of Saturday next (Dominion Day) that confronts them. They have secured upwards of 400 entries, which means that about 600 horses will be on parade. The sight will be a beautiful one, if Jupiter Pluvius is but kind, and, after the way his Jupitership has worked overtime lately, he ought to be, and thousands of poor people will have an opportunity on their national holiday to see gratuitously what the fashion

C.V. Verifio. I now in p.ogrec. Si from oid "Virganny" and on retail classes that are thought of cur was thought of cur horses he said: "You have some beautiful or said." You have some beautiful or said. "You have some beautiful or said of the pour that a so some animals to image who should forthwith be put out of business. Of these I have seen a large number. At my home they would not be allowed to work, to drudge and toll as you allowed them." The e is also evidency work for the humane that about 600 horses will be on parade. The sight will be a beautiful one, if Jupiter Pluvius is but kind, and, after the way his Jupitership has worked overtime lately, he ought to be, and thousands of poor people will have an opportunity on their national holiday to see gratuitously what the fashion

There is reason to helieve that a life of winning stalling in the fashion of the poor crippled anima. It has a proportunity on their national holiday to see gratuitously what the fashion of far more cruelty.

There is reason to helieve that a life of winning stalling in the said of the proportunity and not be allowed to have not seen they on two months by the teamstee's it ke, general consumption has been contracted for two months by the teamstee's it ke, general consumption has been contracted for two months by the teamstee's it ke, general consumption has been contracted for two months by the teamstee's it ke, general consumption has been cont to see gratuitously what the fashion cessfully celebrating in a public way under the auspices of the National Steeplechase and Hunt Association, and to run only races thru the field. The speeches and the evident ambition of ganization, has sent word to the prothe promoters for their own particular golden and a dampening and killing effect. At the open-air parade in fact, is in sympathy with the scheme. The meet will be an amateur and show there are no speeches. All scheme. The meet will be an amateur affair, and the races, as far as possible, is action and the promoters perform will be run over a natural country, their duties with no heed to personal with banks, rail fences and hedges "to you and from you," as the ob aspirations, whether of honor or of stacles. dollars. From first to last they are unselfish seeking no other object than the fulfilment of that of the associaand treatment of commercial horses, public more interest in their welfare, Russia. to afford visitors to the city an opportunity to see what we can do in the way of horseflesh and to give stay-at-homes a chance to celebrate their five of them as a 2-year-old. Winkfield won the Warsaw Derby last year. country's natal day in a worthy and enjoyable manner and at no cost what- | Many strange things come under my ever to themselves, or their wives, or pen from time to time—as a sample. I ever to themselves, or their saw or their saw two sparrows on Friday fighting their daughters, or their sons, or their sweethearts. There will be bands, banners, prancing steeds and flowers will be bands, banners, prancing steeds and flowers galore. Four trumpeters will lead the procession, followed, it is expected, by the huntsman and the hounds of the Toronto Hunt. Then will come the long line of horses and vehicles, which will stretch for a couple of miles at least. Each driver in the commercial classes will receive a dollar and in every class gold, silver and bronze So great is the number of entries that two classes have had to be divided, sets of medals and ribbons being given to each, while in a third instead of four awards, seven awards will be made, namely, one gold Colts by imported Mazagan sold at the sales at Sheepshead Bay last week medals, two silver medals, two bronze medals and two reserve ribbons. Not only is this state of things gratifying to the directorate, but it proves how thoroly well their efforts are appreciated. It proves, too, the patriotism and clvic pride of our citizens. The muster will take place in the gueen's Park at 8.30. At 9.30 the gueen's Park at 8.30. At 9.30 the judging will commence, a judge have line been appointed to every class, and at 10.30 the procession will be on the move. The parade will probably take move. The parade will probably take note and the sales at Sheepshead Bay last week the substitution of the Dufferin Park on July 5 and 6. It to Dufferin Park on July 5 a move. The parade will probably take another hour. At 11.30 the presentation of prizes and money will take place, and at 12 o'clock the band of the 48th Highlanders, who will be stationed in front of the Parliament Buildings in full uniform, will play "God Hence the supremacy of Kentucky in all, this is the real thing.

WHY IT IS SAFE

The CANADA PERMANENT MORTGAGE CORPORATION is one of the largest and strongest in Canada or the United States.

It has a Capital, fully paid up, and Rest, amounting to EIGHT MILLION DOLLARS. Its assets exceed TWENTY-FOUR MILLION DOLLARS.

It is under the management of an experienced and conservative Board of Directors and Staff of Officers, and in every transaction safety is placed above every other consideration. It is purely an Investment Company, not a speculative institution.

On Deposit Accounts Interest is Allowed at THREE AND ONE-HALF PER CENT. per annum, compounded half-yearly

-TORONTO STREET-

MANIPULATION EFFACES

International Disturbances Have no Terrors for Wall St. - The Position of Local Stocks.

World Office, Saturday Evening, June 24, The tone of the Wall-street market has been strong thruout the week; the market factors conducive to such buoyancy being undisclosed, if such are present, and obvious reasons against advances for the time being ignored. Stocks, good, bad and indifferent, have shared in the patronage of the supporting interests, and few chances have been afforded the shorts to operate the market for profits. That a bull movement should eventuate at a season when large stock operators in the ordinary course of events would prefer to holiday and forget, if possible, the turmoil of the market, is, perhaps, the best indication of the exigencies of the present situation. In 1902, when troubles were looming up, a midsummer bull campaign preceded a record liquidating movement. The two situations are scarcely analagous, but there is sufficient

It has puzzled even the paid emissaries of the market to produce gossip sufficiently new and gullible to attract attention. The enormous steel trade has been worked bare: crops have rebelled against the misuse of their philanthropy, and resort has had to be made to increased dividends. Were it possible to disassociate the directors altogether from the market, some confidence might be placed in dividend enlargements That such are occurring at a time when has been tried without avail, is a matter that will bear the strictest investigation. When men of supposed reputation in Wall-street financial circles are found guilty of the crimes disclosed by the Equitable investigation, surely it cannot be expected

similarity to draw conclusions.

sibly have afforded to discount from a normal level of values this year would have been successful, crops. The discounting is being proceeded with, but without the necessary premises. Either the commodity markets or the stock markets are assuming a false position. Grain and cotton prices have made a large appreciation during the last few weeks, apparently justified by the season's results thus far. The stock market appropriates the enhanced quotations as so much benefit to its coffers, neglectful of the experience last year of the heavy joss in wheat exports by reason of the high price- and short supplies. The government estimate of the winter wheat crop is already undergoing a scaling down that means millions of dollars loss; both markets caunot be actuated by common-sense motives, and it must become necessary to charge one with practising fraud.

The foreign exchanges, where less ma-

charge one with practising fraud.

The foreign exchanges, where less manipulation is practised, have been compelled to take cognizance of the new strain in international relations; not so New York, It is scarcely to believed that the German Emperor would carry his ambitions sufficiently far to cause a rupture in diplomatic circles. There is, however, no accounting for the actions of individuals and nations on occasions, and the appearance of such a possibility is enough to dampen bull ardor, if not to cause a reverse feeling. The weekly New York bank statement is better this week, but the creeping strength in sterling exchange is again apparent. Throwing aside entirely all reasoning, and adopting a method for guesisng the motives of insiders, is the only means of ascertaining the possible movements of the markets at the present time. On these grounds, and as distinctly opposed to any other important market factors, the trend of prices for the immediate future seems to promise a further rally in prices.

exchange is again apparent. Throwing aside entirely all reasoning, and adopting a method for guessing the motives of insiders in the only means of ascertaining a method for guessing the motives of insiders in the north means of ascertaining at the north means of ascertaining at the north means of ascertaining at the present time. On these markets against distinctly opposed to any other important market factors, the trend of prices for the immediate future seems to promise a further rally in prices.

Prices of Canadian securities have shown steadness since a week ago, and in instances immediate solutions are satisfactory in the part of traders, and the dealings in the other than the price three was no sign of insturbing in consequence are small. The net changes since last staturday are not large, and the dealings in the consequence are small. New York, June 24. The statement of the averages of the clearing house banks of this city for the week shows: Loans decreased \$2,048,200; deposits increased \$6,508,100; circulation increased \$701,700; legal tenders increased \$1,000,000; specie increased \$8,512,200; reserve increased \$1,627,025; surplus increased \$7,895,175; ex-U.S. deposits increased \$7,896,425.

the rate of 4 per cent. has a most important bearing upon the market, because it calls attention to the probability of similar increases by other corporations in the near future.

London, so far, has taken no very great interest in our market's improvement, owing to uncertainty as to whether Russia really resides peace, and uncasiness in regard to the negotiations between France and Germany concerning Morocco.

The Iron Age reports a somewhat better condition of affairs in the iron and steel trade. It goes on to say: "New business has been rather light in nearly all branches, but sentiment is rather improved. In pigniron there come reports that inquiries are a little more numerous."

It is said in usually well-informed quarters that the earnings of the U. S. Steel Corporation for the second quarter are likely to be a surprise to the stock market.

The distinct improvement that has taken place in the market position of the Steel shares is a matter of general consequence, owing to the fact that a large body of outside sentiment is reached thru those securities.

As to monetary conditions, the tesser,

To the Land of Eastern Cuba Go Wise Canadian Dollars

Canadian Investors Discover a New, Rich Field. Eastern Cuba, the Land of Beautiful Climate and a Fair, Fertile Soil; the Land of Forests. Farms and Factories.

AMILIAR with Cuba, the great island of bountiful soil, marvelous climate, splendid forests and exuberant growth, Mr. J. J. Milliken, of the Cuban Realty Co., gave to a World reporter his impressions of that wonderful land in the zone of long days Air. Milliken was one of the pioneers of progressive civilization in Cuba. He has been over almost every acre of the most enchanting and productive island in the middle Atlantic. He carries under his hat a mental picture of its forests and its fruits; its fat soil and its delicious long days; its waterways and its rescribilities are industrial and agricultural control of the con

ed by the railways of the Anglo-Saxon world. THE PRECIOUS FORESTS OF CUBA

possibilities as an industrial and agricultural country now being thread-

HAT are the forests of Cuba like?" asked the reporter.

"Well, I can give you a practical illustration of what they really are," he replied, as he produced from a cabinet a collection of polished woods.

"Now," he said, with the confidence of one who knows that

a Cuban reality is not a mere pipe-dream over a Havana cigar, "these woods came from Cuba Judge for yourself.

It was not necessary to preach. Woods with such marvelous graining,

such diamond-like polish, such superb lustres and magnificent tone-tints, told

"Well, what are these woods supposed to be good for, Mr. Milliken?" "Floors—the finest; furniture veneers—simply unrivalled; interior finishings for houses—the most ultra-fastidious crank on natural hardwood effects couldn't want anything better. These are not mere curiosities. They are commercial woods, and a factor in industrialism. They mean dollars."

WHEELS OF INDUSTRY-THE MILL.

UT are there mills down there?"..

"The Cuban Realty Company have just built one," he replied. "With unshakeable confidence in Cuban realties, they have installed one of the most modern plants for the manufacture of hardwood flooring and decorative interiors for houses. Offers have already been received by Canadian capital to establish a plant for the manufacture of veneers. The offer has been accepted. Within ten days a modern veneer plant will be shipped to Cuba to manufacture the finest of

veneers for European and American markets."
"Is there a big demand for this product?" "The demand is simply enormous. Veneers never had such a vogue in the manufacturing world as they have to-day. The supply in Cuba is practically unlimited. The eastern part of the island, where the Cuban Realty Company has its lands, is a vast treasure-house of just such woods as you see before

LAND OF FAT FRUITS AND VEGETABLES.

to the soil, is it productive? That is, suppose an investor should buy lands and clear off the timber, would he have a perpetual asset in the land?"

"Well, you may judge that from our own country. Where are the most fertile lands in Ontario? Are they not where huge forests once stood? Didn't the Canadian pioneer cut down the woods to get

fields of grain? Well, it's just so in Cuba. The difference is that, with a climate so prodigal in growth, vegetation is more luxurious and the soil is still

"Pineapples, bananas, oranges and many other fruits, which as you know simply can't be raised in a northern zone. Such fruits reach their maximum in a sea-girt country. They simply get fat on the moisture of sea-air. Growth down there is almost without effort. It's natural to the country—quick, spontaneous growth that turns time into money. No waiting for a lazy soil to do its work. Fruits and vegetables simply rush into tremendous life. In Cuba What does the land produce, Mr. Milliken?" they come to a size, texture and flavor impossible to find in an inland country. As to the markets," he continued, "well, look at the vast annual consumption in Canada, alone, increasing year by year, even faster than population."

'What else is produced naturally in Cuba?"

'Sugar," replied Mr. Milliken. "I need scarcely mention that. You know to what extent all northern countries import sugar. Cuba is the land of fruit and of sugar; the land which puts a high percentage of sugar into its own fruit and raises a huge surplus of saccharine to sweeten the sour, acid fruits of the North. This is another instance of the country's marvelous prodigality. Of its' tobacco I need not speak. You've heard of Havana cigars.

IT'S THE LAND FOR THE FARMERS

ANADIAN farmers, would they feel at home in Cuba?"

This question Mr. Milliken found almost easier than any of the others. He pointed out that Mr. Duncan O. Bull, general manager of the Cuban Realty Co., has made practical farming a huge, scientific success. Mr. Duncan O. Bull's eminence as a Canadian agriculturist is well known. His Brampton foreman is now establishing a farm at Bartle Cuba lishing a farm at Bartle, Cuba.

"Mr. Bull has no fault to find with Canada as a farming country," said Mr. Milliken. "He has made farming go here if anybody has. But he simply saw a chance to farm easier and to better advantage on the eastern side of Cuba. That's another instance of a progressive Canadian's faith in that country.

TRANSPORTATION IS EASY.

S Bartle and the country round it anywhere near a railway,

though? Transportation is an important matter."

"Fifty miles from Bartle," said Mr. Milliken, "is the head-quarters of the Cuban Railway, and the capital of the Province. But," he added, "you must remember that railways are not the whole question of transportation in Cuba. Water haulage, the cheapest in the world, is more important. In water haulage and in sea-coast, the Cuban Realty Company have an enormous advantage. Why? Because the Cuban Realty Company has located its immense holdings of land in the eastern part of the island."

"How is that an advantage?"

"How is that an advantage?"

"In being some hundreds of miles nearer to both European and American markets than any other part of the island"

"But railways are in full operation in Cuba, are they not?"

"Certainly," was the reply. "Why, that's the way the Cuban Realty Company has of showing its lands. Every day regularly Pullman trains, with observation cars, run right through the Cuban Realty lands. A jaunt through these lands is a real pleasure, as well as a positive guarantee based on personal inspection that the lands of the Cuban Realty Company are every inch as represented."

AND CIVILIZATION IS RIGHT THERE.

NLY one other point remained to be settled before the reporter stopped bombarding Mr. Milliken on this question of Cuban realty and investment. It was the matter of settlers' con-

veniences,
"The best possible," he replied. "A large store is now being built at Bartle. This is a general store, and will contain practically everything a settler needs at moderate prices. No, there's no danger of a settler becoming a barbarian. He can carry his civilization right along with him, and find lots more of it waiting for him when he gets there."
"So you see," he concluded, "that for a field of investment in agriculture, in timber, in manufacturing and in the industrial arts of civilization, Cuba—and especially the eastern part of it—is a proposition that ought to attract Canadian capital and enterprise as naturally as a magnet attracts steel."
The whole force of Mr. Milliken's evidence went to show that Cuba to the Canadian investor's mind is not a foreign proposition, but a prospect that

Canadian investor's mind is not a foreign proposition, but a prospect that comes as close home to the Canadian judgment and business sagacity as buying

COHEN, NOT BORN IN CANADA IS UNIONISTS' GANDIDATE

Latest Evidence of Imperial Senti ment as Flaunted in By-Election -Lesson to C.M.A.

(Canadian Associated Press Cable) the incident to our friends, the Canadian manufacturers. The odd thing, too, is that the same Tory bill says: "They need you Baker at the London County Council"; that is to say, being born in Canada" disqualifies him for the imperial parliament, but not for the administration of London.

Entertaining The Delegates.

The visiting Canadian manufacturers' favorite expression to show their appreciation of the attention paid them is "being killed with kindness." At the luncheon at the West India court in the Crystal Palace, Sir Neville Lubbock, presiding, held out strong hopes that the West Indies in the near future would be in a position to enter into closer 'reciprocal arrangements with Canada.

A large number of the Canadian Manufacturers' Association attended the fete at the Botanical Gardens last night, given by the Imperial Industries Club. To-day a number of the party are being entertained at Battle Abbey by T. H. Brassey. The visiting Canadian manufactur-rs' favorite expression to show their

being entertained at Battle by T. H. Brassey. Haven't Grasped It Yet.

The Outlook says: The Montreal Star, in an article which is a fair sample of Canadian comments on the recent dis-Canadian comments on the recent discussion in parliament, says that next year's colonial conference should be given a free tongue, the not a free mand. Let the delegates, all participating in governments, throw all the light they can on the subject of preferential trade; let them, if possible draft out a rough-hewn scheme, then let the voters of the motheriand and colonies be invited to consider something definite. The Outlook says it will be seen that Canadians have not yet grasped the fact that the Cobdenites are not anxious for more light on this or any other subject of imperial importance.

Books About Colonies.

The Saturday Review, commenting

The Saturday Review, commenting on Alfred Lyttelton's recent speech at the Corona Club, on "Books on Colonial Themes," says it is remarkable that the best books about the colonies that the best books about the colonies are not written by colonials, and Canadians at any rate feel that the Canadian writers and speakers accepted in England as authentic are the least qualified in many respects to express Canadian character. It is a pity Dr. Drummond is so little known in England. Yet nobody has so touched to life that interesting group of colonists, the French-Canadian habitants.

No More Emigration.

The Chorlton Board of Guardians, after hearing the report of a special committee recently appointed to consider the practicability of emigrating the unemployed to Canada decided to take no further steps. W. E. Skivington said the working class are strongly opposed to emigration and cheap labor.

The Toronto Field Battery got away from paradise grove at about 10 o'clock, and the 39th left about the same time. Two, companies of the 44th and the whole of the 77th Regiment left for the Falls at 11 o'clock, followed by Ham-ilton Field Battery, with four cars of horses. The balance of the 44th got away at noon, and the 7th Bearer Co. of Hamilton before 10 o'clock.

The 35th Regiment went to Toronto by early boat to entrain for the torth. The 12th also took the boat, and the 34th went by water to Whitby. The Toronto Bearer and Medical Corps left

by boat.

The composite city regiment left for the Falls at 4 o'clock this afternoon. The diphtheria patients have been left under special guard in camp.

It is likely that General Otter, owing to the injury to his foot, will stay in camp with some of his staff until Monday.

CZAR WAS THE "ASSASSIN."

Almost Plunged Infant Son Into Boiling Water Thru Error.

What purports to be the truth about the alleged outrage on the czarevitch shows the incident in quite a different light from that recently reported, says The London Post.

The imperial infant was, indeed, in danger, but, it would seem, at the hands of the czar himself. Here is an extraordinary story, sent by a Russian correspondent to Lloyd's Weekly News-

"A few days ago I said to a well-Stockholm, June 24.—The uncomprotation of the riksdag is active. Yonal incident had occurred at ty prosecuting a campaign in favor of skoe Selo, and it was alleged that a presenting to Norway demands representing Sweden's irreducible minimum vitch into a basin of boiling water, when and obtaining a guarantee from Nor-way before conferring upon the gov-ernment power to negotiate terms for the formal separation of Norway and

This faction considers that the government ought to be authorized to contract an emergency loan of \$25,000,000 and mobilize troops to support Sweden's demands.

The government, however, has still the strong united backing of the moderate party, which is prepared to entrust the king and the ministry with the powers demanded for untrammeled trust the king and the ministry with the powers demanded for untrammeled negotiations in regard to the necessary guarantees to be given before agreeing to a dissolution of the union. found him in his son's nursery, bathing

the child with his own hands. "As in every story, continued the revolutionist, however inaccurate, there is some truth. The alleged story of the attempt to assassinate the czarevitch was based on another story, which also now forms the topic of conversation in

open tap C, and was going to plunge his own son with his own hands into the boiling water, when the czarina suddenly appeared on the scene and snatched the child from the hold of his wou electho involuntarily—assassin. Since that day the office of bathing the imperial child was transformed to the carrina."

C. P. R. Earnings. For traffic week ending June 21: earnings \$1,022,000; same week last year, \$983,000; increase \$39,000.

ferred to the czarina.

attributable to heat, somewhat marred the camp. The diphtheria outbreak was the most serious. With two or three exceptions the camp was free from serious accidents.

One regiment, the 23rd, and a portion of the G.G.B.G. got away last night. The camp was astir very early this morning, and right after breakfast packing up was begun. As early the second sertion of Body will not be known until the matter is

GERMAN VIEW OF POLITENESS MOST CONFUSING TO FRANCE

Why Rouvier's Suggestions for Some Arrangement Prior to Conference Are Not Favorably Regarded.

As the study of Premier Rouvier's answe rogresses, the fact becomes evident tha he has left many points open for discus he has left many points open for discussion, and from which further negotiations can continue. The greatest difference now seems to be in agreeing on whether Germany and France shall seek to reach a separate agreement before the meeting of the conference, thus eliminating many matters from international action. Germany apparently holds the view that it would be an act of discourtesy to the powers which have already agreed to attend the conference if she arranged any matters beforehand with France.

Keeping Cool. Official circles here continue to follow the affairs with keen interest, but without anything like excitement, much less beliicose inclinations.

They watch closely the movements of public opinion in France, and, while it is public opinion in France, and, while it is recognized that the French people at large have grown much less Chauvinistic toward Germany in the past few years, corresponding with the waning influence of the nationalist-elerical-military combination in French politics, some anxiety still prevails in Berlin lest the leaders of the opposition to the French Government again succeed in inflaming the passions of the people and arouse a storm which the Republican leaders would be unable to withstand.

Buclow Gains a Point.

A fact which attracts attention is that many of Emperor William's telegrams have been latterly countersigned by Chancellor Von Buelow. This apparently occurs in all cases where his majesty's telegrams have a political or public interest. According to the newspapers, Von Buelow since his elevation to princely rank, has impressed the emperor with the difficult position he (Von Buelow) was placed in before the relebstag by the imperial telegrams for which he as chancellor, must be responsible, but which he has never seen till published in the newspapers, It is reported that the emperor agreed to consult the chancellor regarding telegrams of political character before sending them, and to ask him to countersign them, Buclow Gains a Point.

How Owls Catch Chickens. From Forest and Stream.

When I was a chunk of a boy I shot horned owl, the spread of whose rings was four and one-half feet, and surprise of the boy who had carried it for several miles the weight was only four pounds. They were rather numerous at that time in that section of the country and were troublesome about carrying off chickens, which mostly roosted in apple trees

bout the farm buildings.

The belief that they could carry away rcost, but alighting on the limb crowded the chicken off and as it flew toward the ground caught it on the

S. Frank Wilson will erect a six storey building, to cost \$50,000, at 60-62 West Front-street. Miss Pearson of Berlin is a guest of Mrs.

Much Activity on Getting Away Day Passenger Train Going Thru Depot In Fact, Spirit is One of Optimism "Western Canada" Has Capitaliza-Over Russian Prospects in Manchuria.

> St. Petersburg, June 24.-Information from the front is still seanty. While the vitch's latest report is dated June 20, but to have strongly fortified in this region three lines of defence probably as usual strengthened in the centre by entrenchments in order to liberate forces to work on the flanks. Smilster rumors continue to enceint that Theoretic is surrounded, but apparently they have no other base than The London Daily Telegraph's despatch from Tokio. An optimistic feeling prevails at the offices of the general staff.
>
> The negotiations for a meeting of peace plenipotentiaries are proceeding slowly. There were no developments to-day. Foreign Minister Lamsdorff is still ill. It is improbable that an armistice will be arranged until the plenipotentiaries are named and the time of the meeting is fixed. The foreign office says it is now awalting Japan's propositions on these points.

Peace at Tokio. Tokio, June 24.—Delegates of the two great political parties, the constitutionalists and the progressives, will meet here next Wednesday to discuss peace and will then memorialize the government on the

subject.
The Japanese commander at Port Arthur reports that the Russian armored cruiser Rayan has been successfully floated.

Suffer From Heat. General Oku's Headquarters in the Field, June 22.—(10 a.m.)—(Delayed in transmission.)—Nothing important has recently occurred except daily skirmishes between the outlests of both armies. Hot weather has arrived and General Oku's entire army has been newly clothed in khaki.

BAND CONCERTS TO-DAY.

Many Special Attractions for the Holiday Week at Hanlan's,

This (Sunday) afternoon and evening the Toronto Light Horse Band will give concerts at Hanlan's Point a special program of music having been prepared.

Next week, in the free vaudeville theatre Berliu June 24.—The foreign office officials are busy studying the French note on Morocco, the unusual length of which will necessarily delay answering it. Emperor William's absence at Kiel, the foreign office says, will cause no delay in the negotiations, inasmuch as he is daily informed on all points, and his decisions are promptly given.

As the study of Premier Rouvier's answer number of new features will be pre-

Has Been Dodging Around the Territories, But Ran Into Detective's Arms.

Winnipeg, June 24.—(Special.)—Magistrate McMicken this morning committed R. E. A. Leach, late Liberal a sitting hen turkey with a nest some organizer for Manitoba, and now hold- distance from the house, ing office under the interior department, for trial on new complaints of the house to return to do the shoot-charging him with having erased names ing. but did it herself. After shoot-ing at the marauding fowl Mrs. Heisel from the voters' lists of Proventher, MacDonald and Selkirk, prior to the Dominion election. Leach was subsequently released on bail.

Many difficulties have interfered in bringing again before court the famous author of the thin-red-line device by which many Conservative voters were disfranchised. Since the grand Jury, so unaccountably or perhaps so accountably, refused to find a true hill against Leach, the provincial authorities have instituted proceedings on fresh counts against that sentleman, but proceedings were stopped by his

It has been known that he has been dodging about the territories, doubtless preparing for coming elections in new provinces, but officials of court could not lay their hands on him until the other day, when, it is said, he ran into the arms of a detective in the Winnipeg station.
The case against F

The case against Returning Orneer Ayotte H. Jickling were postponed.

Yonge Street ArcadeRestaurant and Lunch Counter now open. Regular Dinner in Dining Room 35 cents, other meals a la carte.

Built Nest on a Drawbar.

Peru correspondence Indianapolis News Wabash car inspectors of this city The belief that they could carry full grown hens was a common one. It was also commonly believed that an owl never picked a chicken off the eggs on a drawbar of a passenger coach of a fast train Saturday.

The nest was made at Buffalo and was carried all the way from that city to Peru without being damaged. The nest and eggs are on exhibition at the office of the trainmaster.

Dr. Sheard may grant the city carters an crease in wages. 4c an hour.

EXAMINE RATS FOR BUBONIC.

Fatal Case at Panama-Authorities

Are Lax. Panama, June 24.-A fatal case of bubonic plague is reported to have occurred at Laboca yesterday. The constant arrival of steamers from infected South American ports, which are received at Laboca without any extra precaution being taken, must be a source of con-

tagion The dead man had been working on board the British steamer Chili, which the authorities of Guayaquil would not allow to enter that port. The companions of the deceased laborer have been

isolated. Rats taken from the steamer Chili are now being examined at Ancon.

Big Owl Killed by Woman.

From The Philadelphia Record. Mrs. Albert Heisel of Wells Tannery, Fulton County, is a feminine narks-man with a right to boast. Recently she discovered a large bird devouring

Grasping a rifle which hung from the wall, she didn't wait for the man walked to the turkey's nest and picked up a dead owl which measured 50 inches from tip to tip.

They're Waking Up.

The White Star Steamboat Company have sent a request to Manager Orr for Toronto Exhibition posters for display purposes in their offices. It is the first time a request has come from the old country.
