# Sunlight Soap.

FROM SIR CHARLES A. CAMERON, M.D.,

Ex-President of the Royal College of Surgeons,  
Vice-President of the Institute of Chemistry  
of Great Britain, etc., etc.

I have carefully analysed specimens of the Sunlight Soap, submitted to me for that purpose by Messrs. Lever Bros., Ltd., and the following are the results at which I have arrived :

The points in the composition of this Soap that are the most valuable, are its freedom from free alkali, the large percentage of fatty acids which it contains, and the purity of the materials employed in its preparation. I employ the soap myself, and from my actual experience of it can strongly recommend it.

(Signed), CHAS. A. CAMERON.

## INTRODUCTION.

---

This little Guide is respectfully dedicated to the public. The information contained in the same is taken from the Official Records of the City and can therefore be taken to be accurate and reliable. The leading features of the Guide is the condensing of the information contained and showing the STREET RAILWAY SERVICE.

Entered according to the Act of the Parliament of Canada, in the year one thousand eight hundred and ninety-nine by C. J. PILKEY, in the office of the Minister of Agriculture for the Dominion of Canada.

## EXPLANATIONS.

In this Guide the names of streets are set down in alphabetical order giving the course in which they run. All streets which intersect the same are numbered in the order in which they occur. Those running north and south have the odd numbers on the east side of the street. Those running east and west have the odd numbers on the south side.

The abbreviation on the right hand of column indicate the Street Railway Service.

The number on the left hand of column indicates the number of street at intersecting street.

To find any location turn to street, find nearest number at intersecting street and the abbreviation will show the nearest line of railway.

## ALL SORTS OF INFORMATION.

### RULES THAT SHOULD BE OBSERVED BY PATRONS OF STREET CARS.

Conductors can only be required to give a passenger a transfer to a car reaching the passengers destination by the most direct route. If the car has passed the transfer junction conductors must not be expected to give transfers.

No transfer will be received from persons taking the car at other than transfer junctions.

A passenger receiving a transfer ticket must leave the car at transfer point or surrender ticket and forfeit transfer.

A transfer ticket is good only on the first car passing the junction point after the time punched.

Ask for your transfer ticket when you pay your fare.

See that your transfer is correctly punched for the time and line.

Before noon the time should be punched in the light column, after noon in the dark column.

Take car for which your transfer is punched at the first junction point with the line.

Transfers should not be offered on any car other than on one running on the line punched.

The public is warned against trying to get on or off a car while in motion. It is a dangerous practice and the liability is all on the part of the passenger.

In stepping off the car, do so, facing the direction the car is going.

Cars stop at the near crossing of intersecting streets. Passengers wishing to take the car must be on the proper crossing and signal to the motorman.

Passengers wishing to leave the car should notify the conductor when the car has arrived within a block of their destination.

The rules of the company require the conductor to have the platform clear of passengers when there is room inside the car.

Passengers are not permitted to ride on the car steps under any circumstances. A crowded platform prevents the entrance

and exit of rapid transit.

and exit of passengers, and is an impediment in the way of rapid transit.

Conductors only should give the signal for stopping and starting the car, and passengers should not interfere with their duties by ringing the bell.

No smoking allowed on closed cars, and only on three rear seats of open cars.

### SUGGESTIONS FOR STREET CAR PATRONS.

Do not imagine that the first car that comes along is the only car on the line, there are others.

Gentlemen who cross their legs forget for the time being that they are using ladies dresses and gentlemen's trousers to brush the dirt from their foot wear.

Passengers who sit sideways occupy the space of two persons.

Passengers who deposit packages on the seats occupy space that deprives others of seats.

Children should sit, not stand, on the car seats, or get on the seat with their knees. No passenger enjoys sitting on a soiled seat, or having their clothing soiled by children's shoes.

Ladies who wish to attract the attention of the conductor are not expected to punch him in the ribs with their umbrellas.

Gentlemen who have had a bad night of it from drinking strong coffee, etc., should not, when they take the car in the morning, blame the conductor for loss of sleep.

Conductors are instructed to politely answer questions, but to avoid unnecessary conversation.

If passengers on entering the car will take a seat or position as near the forward end of the car as possible they will avoid being crowded and pushed about, and will have purer air.

Gentlemen should not take into the car cigar stumps, lighted or unlighted, they emit a disagreeable odor offensive to their fellow passengers.

Men would not spit on the floor if they thought that one of the women members of their own household would be the one that wiped it up with her skirts.
