ANNUAL SESSION IN TORONTO OPENS

Net Increase in Membership is Reported, While Treasurer's Yearly Summary Shows Credit Balance—Executive Report Stresses Seriousness of Emigration of Canadian Graduates to the United States

TORONTO, Ont., June 8.—Disappointment that business conditions were not fulfilling the expectations entertained earlier in the year, was expressed by J. H. Fortier, Quebec, president of the Canadian Manufacturers' Association, in his annual review of conditions in the Dominion delivered before the annual meeting of the association here this afternoon.

Mr. Fortier stated that during the autumn months and December and January improvement in a number of departments of national activity, was evident, but in February and March a reaction set in, many factories went on short time, and the present outlook for industry and business, while retaining some encouraging factors is not nearly so satisfactory as expected.

The report of the treasurer, Thomas Roden, opened the first business session this morning.

SURPLUS REPORTED
Mr. Roden reported a net surplus for the year of \$8,409.98. Total membership fees for the year had been \$200,371.50 and cost of operation \$208,242.48, leaving a deficit of \$7,870.98. Against this, however, had been sent the profit from "Industrial Canada" of \$2,451.40 from the "Canadian Trade Index" of \$4,006.81, and interest from investments of \$6,872.68. Mr. Roden stated that as far as possible, the association had followed the policy of keeping the total operating expenditure under the income from membership fees during the past year, this had been all but followed as an examination of expenditures and receipts from fees would show.

The reports of the executive committee were read by J. R. Shirett, Toronto, general secretary of the association. Paul Joubert, Montreal, presented the report of the membership committee, which was followed by the report of the insurance committee, read by George Bridgen, Toronto.

President's Address

The president's annual review was in part as follows:
Reports from various parts of Canada during the past few months, on the whole, express disappointment that business conditions are not fulfilling the expectations entertained earlier in the year.

Indignant Over Treatment To S. B. Telford

DERBY LINE, Vermont, June 8.—Considerable indignation has been expressed here at the activity of Canadian customs officers in the Derby Line side of the international boundary.

At a meeting of the Derby Line Border Trustees, it was decided to despatch the following telegram to Canadian members of Parliament: "Law-abiding citizens of Derby Line, Vermont, relying on Canadian fair play, respectfully ask that you demand on the floor of Parliament that unwarranted acts and threats of Canadian officers on Vermont soil shall immediately cease and that they be specifically forbidden to further annoy the family of S. B. Telford, at his Vermont home, while in his very critical condition, caused by confinement in Ottawa jail.

"EDWIN H. COSBY, Chairman Board Trustees Derby Line, Vt., June 7, 1926." S. B. Telford, who figured so prominently in the investigation last week, reached home on Saturday in an extremely serious state of health.

CHANGE OF NAME NO BAR TO FINE

Skipper of Nova Scotia Liquor Schooner Pays \$100 in Portmouth Court

HALIFAX, N. S., June 8.—Magistrate J. H. Macdonald, in the blivvy boulevards of "Run Row" under the musical but unregistered name of "Rose Marie" cost the Nova Scotia schooner Dorothy M. Smart, or rather her owners, \$100 and costs in the Dartmouth police court this morning when her skipper, Captain Michael Gilliam, appeared in answer to a charge brought by the federal authorities, of sailing under a false name. The American consular officials were the informants.

At the trial this morning Captain Gilliam pleaded guilty, but stated he had acted in good faith. He was fined \$100 and costs, and his vessel was ordered to be prepared for an attack on the high seas. He studied the shipping laws and found, according to his interpretation, that when a vessel on the high seas is threatened with capture, it is lawful to change the name. Thereupon he re-named his vessel the Rose Marie. He had never entered or left a port under the assumed name. Captain Gilliam paid the fine.

CARDINAL BONZANO TO HAVE RED TRAIN

Will Leave New York For Chicago Eucharistic Congress on June 16

CHICAGO, June 8.—A railroad train of cardinal red will bear the Primate of the Americas, Cardinal Bonzano, from New York to the eucharistic congress in Chicago.

The red train will leave New York June 16 and will have right of way to Chicago, arriving here June 17. The trip will be accompanied in an impressive manner by the triumphal home-coming of Cardinal Mundelein after he received the red hat of the cardinalate at Rome when hundreds of thousands of people welcomed him.

C. N. R. Freight Trains Collide at Elman, Manitoba—Brakeman Missing

WINNIPEG, Man., June 8.—Two men are dead, one is missing, and several others received serious injury when two Canadian National Railway freight trains collided, head-on, near Elman, Manitoba, early this morning. Thomas J. Plunkett, engineer, of Winnipeg, and an unidentified man, believed to be a tramp, were killed, while E. Pinault, of Trinscon, Man., a brakeman, is missing.

Laurentian Is To Be Brought Here

Temporary repairs have been made by the crew to the bottom of the Canadian Government Steamer Laurentian, which, owing to dense fog, grounded on a submerged rock off Little Wood Island, Grand Manan, yesterday morning, and Captain McLean, in command of the vessel, plans on getting the vessel from the soft bottom where she was beached after grounding, to some harbor of Grand Manan. This information was contained in a marconigram received this morning by J. C. Chesley. The repairs will be tested when the Laurentian reaches a harbor and if they are satisfactory the vessel will be brought here for examination. Captain McLean's messages stated that the ship was in no danger of sinking as the pumps were working satisfactorily.

MANY OBSTACLES TO OVERCOME, SAYS MRS. BLACK

Greetings From Many Prominent Canadians Are Read Today

REPORTS HEARD

Secretaries for Newfoundland, Bahamas, Bermuda, P. E. I. and N. S. Speak

FIRE, floods and pestilence were conditions which members of the organization in Yukon Territory had to face during the past year, and they met the situation nobly, according to a detailed report from three primary chapters, submitted by Mrs. George Black at the forenoon session of the 26th annual meeting of the National Chapter of Canada, Imperial Order Daughters of the Empire, at the Admiral Beatty Hotel. Mrs. Black is the wife of the member of Parliament for the Yukon, who was born at Woodstock, this province. She was formerly Miss Martha Louise Purdy Munger, daughter of George M. Munger, of Chicago, and is a clear-headed speaker. She resides at Vancouver and Ottawa, but has been in the Yukon many times.

After the session had been called to order by the national president, Mrs. R. M. Church of Toronto, at 10 a.m. and devotions said, resolutions expressing loyalty to His Majesty the King were adopted. It was also voted to send greetings to the Governor General and to Lady Byng of Vimy, who is honorary president of the National Chapter.

GREETINGS RECEIVED

The national secretary, Mrs. R. M. Nicholson of Toronto, then read a long list of organizations and prominent individuals who had sent greetings to the National Chapter on the occasion of its annual meeting. Among the names read were those of the Governor General, Lady Byng, Premier Mackenzie King, Hon. Arthur Meighen, Sir Robert Borden, Sir George Foster, Sir Charles Hibbert Torrey, Sir Joseph Flavelle, and Sir John A. Macdonald, former of Saint John; Premier Ferguson of Ontario, Sir Robert Falconer and Rev. Canon Cody of Toronto.

The president informed the delegates that the Executive primary chapters had invited them to visit the provincial capital on Monday next, and urged all who do so to make the trip. The President's program provides for a luncheon at the Barker House, garden party at the Countess of Ashburnham's residence and a drive in and about the city. Mrs. Church expressed warm appreciation of the kindness of the President's chapters.

The remainder of the morning session was devoted to the reception of reports from various affiliated organizations.

NEWFOUNDLAND REPORT

Miss Margaret Furlong, home secretary, reporting for Newfoundland, said that the annual meeting of the National Chapter at St. John's on Jan. 19 was well attended. All the officers were re-elected. The Newfoundland members were always keen to take active part in all good work, and had accomplished much. On Jan. 14 a party was given to 300 poor folk. From July 1 to Sept. 8 a holiday camp had been maintained in a suitable

POUNCE DUBT DISTRESS TALE IN BOTTLE NOTE

Signed "Phyllis Comeau" and Declared She Was Rum-Runner's Prisoner

The police have just finished running down a story that was tersely contained in a pencil-scribbled note found in a floating bottle in the tug "Ocean Hawk," a bottle that loomed big at first flash, but which petered out for want of evidence and for its flaws in detective theory.

GIRL NOT KNOWN

A search was made for a Comeau family having a daughter named Phyllis. None was found and unless publicly disclosed one in Saint John or roundabout, the story will be officially dismissed as another bottle hoax.

REORGANIZATION OF CHURCH IN MARITIMES TOLD

Rev. F. G. Mackintosh Speaks at Presbyterian Assembly

HITS UNIONISTS

Declares Efforts Made to Control Young People Through Y. M. C. A.

Canadian Press MONTREAL, June 8.—Rev. F. G. Mackintosh, of New Glasgow, N. S., told of the reorganization of the church in the Maritimes, following union, at the Presbyterian General Assembly last night. The congregations were willing to start in a small way. If there was no church available for worship, a house was used. The situation was accepted as it was, and the best made of it. Industry in the Maritimes might take a lesson from the church in the manner in which the latter was willing to work with what was at hand and to function in a small way until the situation could be improved.

Sunday schools and women's missionary societies were started as a beginning. Today in Truro and Moncton there were congregations of 600.

CAPTURE YOUNG PEOPLE

The Unionists, the speaker declared, thought they had captured the young people. Pine Hill had sent a professor to Dalhousie and the Ladies' College, and Unionists controlled the Y. M. C. A.

"We are not going to allow them to control the Y. M. C. A.," Mr. Mackintosh declared.

The young people, he went on, had intuitively seen injustice and many were throwing in their lot with the Presbyterian church. He paid tribute to the women of the provinces, saying they had carried the church on their backs in the days of crisis.

Churches had been obtained in Halifax and Westville, Mr. Mackintosh said, and in Sydney more than \$22,000 had been raised as a building fund.

YORK ON P. E. I.

In Prince Edward Island an amendment to the Church Union Act had been obtained, by which eight or nine churches remained to the Presbyterians which otherwise would have been swept into union.

In Newfoundland, contained Mr. Mackintosh, not one vote had been cast against Union.

"But the funny thing is this, the Presbyterians and Congregationalists did not vote. Only the Methodists voted."

TURKISH ASSEMBLY RATIFIES TREATY

Dispute With Great Britain Over Mosul is Settled at Last

CONSTANTINOPLE, June 8.—The National Assembly at Ankara, the Turkish capital, has ratified the treaty between Great Britain and Turkey, settling the dispute over Mosul.

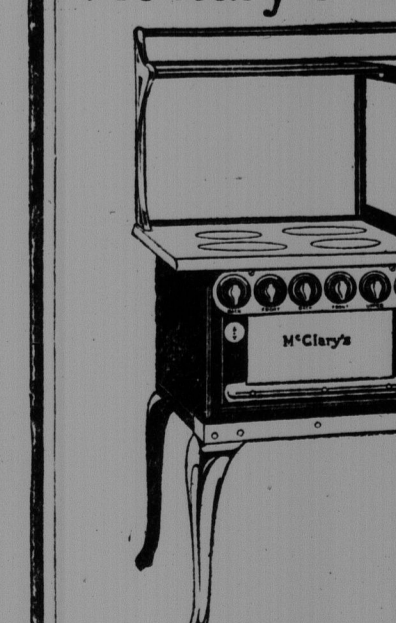

Sir Austen Chamberlain, addressing the League of Nations Council in Geneva yesterday, said that under the new treaty, a small strip of territory was ceded to Turkey. The frontier would be delimited on the spot by a commission under a chairman to be chosen by the president of Switzerland.

Simple Application That Dissolves Blackheads

No more squeezing and pinching to get rid of those unsightly blemishes, blackheads. There is one simple, safe, and sure way to get them out, and that is to dissolve them. Get about two ounces of peroxide powder from your druggist—sprinkle a little on a hot, wet cloth—rub briskly over the blackheads for a few seconds—wash the parts, and every blackhead will be gone. Pinching and squeezing out blackheads make larger pores, and you cannot get all of the blackheads out this way—while this simple application of peroxide powder and water dissolves every particle of them and leaves the skin and pores in their natural condition.

MOVE TO RESTRICT NARCOTIC SALES

Bill Considered to Make Prescription Necessary for Drug-gist to Sell

OTTAWA, Ont., June 8.—An act to amend the opium and narcotic drug act, passed the committee stage and now stands for third reading in the House of Commons last night. Hon. J. C. Elliott, Minister of Health, explained that the purpose of the bill was to make it necessary for a retail druggist to sell narcotics without a written order from a doctor, dentist or veterinarian. It was to assist in attaching responsibility for violations of the act.

For some time the bill was contested. It was argued by several doctors in the House that hospital superintendents were unable to purchase supplies under the existing laws. The Minister of Labor said that between now and the next session of parliament, it was proposed to undertake a revision of the entire act. The present amendment, however, did not effect hospital superintendents in any way.

FRENCH PLACE RESTRICTIONS ON NECESSITIES

Bake Shops Expected to Close One Day a Week

CAKE IS RATIONED

Committee of Four From Cabinet Accepts Delicate Task in Emergency

PARIS, June 8.—The period of "sackcloth and ashes" predicted some time ago by Joseph Caillaux, former Minister of Finance, is upon France, and the public accepts it with resignation but reluctance. It is connected with the battle to save the franc and it anticipates restrictions in the consumption of bread, meat and other necessities.

A committee of four—Minister of Public Works De Monzie, Minister of Commerce Daniel Vincent, Minister of Agriculture Binet and Minister of the Interior Durand—which will manage the regime of restrictions, started its work today.

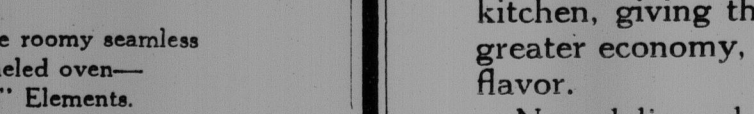

DIFFICULT JOB.

The ministers will tread their way warily, for they realize they are on delicate ground and that hasty measures will defeat their own ends. They know that increased tariff barriers will provoke reprisals abroad to the detriment of France's export trade, that restrictions carried too far will have a bad effect on home industries and frighten away tourists.

Bake shops, it is expected, will close one day each week. Fancy bread and rolls will be prohibited and flour for cakes and pastry severely rationed. Butcher shops will close once and perhaps twice weekly.

There are to be no bread cranks, which it would take time and money to print and distribute. There may, however, be cards for articles imported in large quantities, such as gasoline, coffee, sugar, wool cotton and coal, notably British hard coal.

IN 5 unique ways Holeproof guards against the flaws that lie hidden until you put hosiery on. Striking smartness results. And the sheerest chiffons may be selected with perfect safety.

This fine hosiery has won the favor of two million women. No other kind, they tell us, is so uniformly perfect.

Its styles are accepted as authoritative. Each one, as judged by Paris, is fashionably correct. Holeproof, of all fine hosiery, offers you these 5 safeguards. Note each one carefully:

[1] No imperfections. Style vanishes with imperfections. And here Holeproof safeguards you by nine separate inspections. It is a fact that few other fine hose are so uniformly perfect.

[2] Correct Paris shades. Paris authorities select the newest colors. A unique scientific dyeing process keeps them clear and bright. Our anti-fade treatment protects from fading.

[3] Superlative transparency. Even in the heavier weights there is no cloudiness, no streaks. First, the silk is specially treated, then it undergoes the special scientific Holeproof treatment.

[4] No loose ends. Loose threads mar appearance. So Holeproof carefully trims the inside of each stocking by hand.

[5] Exquisite clearness. In sheer chiffons, clearness comes only with the use of uniformly even thread. The lack of it in cheaper silk causes unightly shadow rings. So, at greater cost, Holeproof selects China silk, judged finest of all oriental grades.

Every Holeproof stocking has this five-fold fashion safety. And in these hose alone can all of these points be found. Go to your Holeproof shop today. New French colors and new styles just arrived. See especially the smart chiffons.

DEXTER COOPER BILL GOES TO COMMITTEE

Second Reading in Senate Moved by Hon. C. W. Robinson

OTTAWA, June 8.—In the Senate last night, Senator C. W. Robinson moved the second reading of the bill to incorporate the Dexter P. Cooper Company, which is applying for a charter for tidal power development on Passamaquoddy Bay. This is an international project between the State of Maine and New Brunswick. It will cost from \$70,000,000 to \$100,000,000 and power developed from 600,000 H. P. to 700,000 H. P. It will give employment to 5,000 men for four years.

The bill was referred to the committee on railways and harbors before which the promoters will appear.

SAINT JOHN, N. B., JUNE 8, 1926.

THE DANGER OF DEMOCRACY.

In writing of the danger to the popular conception of democracy that apparently has been avoided by the breaking of the general strike in England, Sir Philip Gibbs, the war correspondent, allows himself a curious inversion of ideas. He chooses to consider that Pilsudski has assumed the role of dictator in Poland and he views this as a further blow at democratic government in Europe.

In his opinion if the strike had succeeded England would have come under the rule of a labor committee dictatorship. The analogy which Sir Philip Gibbs seeks to point out is bewildering, in all the countries mentioned, with the exception of Russia, dictatorships are held by one man and if in the latter country there is a tyranny, it is a tyranny of the people, or of an oligarchy, a few men dominating and, in Russia's case, claiming to represent the people.

In Italy, in Greece, as well as in Spain and Turkey the elevation of an individual to dictatorship was the result of a revolt of the people of those countries against a misuse of their own alleged power of government. In preference to the squabbling and quarreling of the obstructing and destroying tactics of the various groups that constituted their parliaments, making it impossible for their countries to struggle out of the morasses of post-war debt and deflation, they chose to set up one man of force, vision and action to govern them.

To say that such a course is an abandonment of democratic principles and ideals is to take a very narrow view of the true meaning of democracy. It is true that the popular conception of democracy is an elected body, but so long as a superman is the ideal of the people he represents them to a far greater extent than any elected body has ever done.

When a dictator ceases to represent the people or to embody their ideals he soon ceases to be a dictator. He cannot camouflage and hide behind the skirts of party as an elected member of Parliament can do—and often does. The safety of a dictatorship from the standpoint of the people's interest lies in the fact that few men are willing to risk their heads in the business unless they are convinced that they can do something of real value for their countrymen.

All of which leads us to the conclusion that the analogy which Sir Philip Gibbs sought to establish between the situation which might have developed in England and the situation of the moment in the other countries mentioned, was not based on a proper conception of the fundamental causes in the respective countries. The labor committee dictatorship in Britain which he saw as the outcome of the strike, had it not been broken, would have been a tyranny, because it would not have been the choice of the people or of the majority of them, or even of the majority of the class which it would represent.

With much more truth could it be said that it was within the power of Mr. Baldwin to establish himself as dictator during the crisis—because he had the vast majority of the people behind him—than that any labor committee could have usurped the function of government and retained it.

THE UNWRITTEN LAW.

"The unwritten law" so frequently invoked in French courts and so strenuously discarded by British courts, appears to have obtained partial recognition in Quebec on the first occasion it was instituted into a homicide trial. In many countries, and one not far distant, there is a growing tendency to urge extenuating circumstances where human life is taken, and most particularly in this case when the slayer is proved to labor under the semi-delirium of primitive passion.

THE PRIVILEGED AGITATOR.

Of course Canada must accept the Premier's explanation that no bargain existed between himself and the two Winnipeg labor members, but they do seem to be agreeing excellently nonetheless. In divisions the government has received labor support and now there has been passed in the House an amendment to the Immigration Act which shows how completely the Government agrees with the Labor members.

The effect of the amendment is to make it impossible for a government to deport speedily a British-born agitator. Prior to the passage of this amendment it was possible to do this under a provision enacted at the time of the Winnipeg outbreak of 1919. The situation is excellently explained in the words of the Montreal Gazette:

This section was not made applicable to "any person who is a British subject, either by reason of birth in Canada, or by reason of naturalization in Canada. The British-born agitator, under this section, became liable to summary deportation, as was deliberately intended, having regard to the lessons of the Winnipeg outbreak. It is pretended that there is in this law a discrimination against the British-born, and Parliament is being asked to recognize "the Canadian citizenship" of any agitator who happens to be of British birth, the theory of this proposal being that what is wrong in a agitator is not his birth, but his conduct, and should therefore be more leniently treated, when the offender has emigrated from one of the Red radical centres of Great Britain. The amendment now under discussion has passed the House on two or three previous occasions, and has very properly been rejected by the Senate upon each occasion.

Now the House—the Government and the opposition—has no basis—persist in pestering the Senate once more with this amendment, the effect whereof is to allow the deportation of foreign-born agitators, but not of those born in the British Isles—or does it? No, but we have yellow shrewd-headed agitators, who are hardly less dangerous than the Red Briton of other nations, in fact when a Briton does depart from respect of constituted authority he is apt to go the limit and then some. The contention of those who supported the amendment that the Act discriminated against the British-born will not bear examination. There will be discrimination in favor of the agitator who hails from Britain.

And since the Premier went to considerable pains to impress on all that the introduction of the amendment—so thoroughly in accord with the sentiments and desires of the gentleman from Winnipeg—was not the outcome of a bargain between the Government and Labor, it remains for Canada to assume that it is in line with Government policy, which will come as a shock to many Liberals who would hesitate to carry Imperial preference that far.

Rev. F. G. Mackintosh, speaking at Montreal, declared " . . . Unionists controlled the Y. M. C. A." It would be interesting to all to hear what the Y. M. C. A. has to say on this subject. Most people are under the impression that the Y. M. C. A. is entirely non-sectarian as it is in the Old Country, and if it be that one church "controls" that undoubtedly useful organization, it will tend to debase its value in the eyes of members of other churches. Nor will this be an intolerant view. If young men have joined the Y. M. C. A. or parents have allowed their boys to join the junior branch under the impression that it was an institution undominated by the inevitably narrowing influence of any of the divergent schools of theology, held by one church or another, and if it be now proved that this be not the case, it will disappoint many. It is a matter that should be cleared up one way or the other as much in the interest of the Y. M. C. A. as anything else.

POEMS I LOVE

"Butterflies," by John Davidson. A lover looked. She dropped her eyes That glowed like panics wet with dew; And lo, there came from out the skies Butterflies all blue. Before she guessed her heart was gone; The tale of love was swiftly told; And all about her whirled and shone Butterflies all blue.

At sixteen she knew no care; How could she, sweet and pure as I? And there pursued her everywhere Butterflies all white.

DINNER STORIES

A CONJURING show fell rather flat recently. The conjurer said: "Now, ladies and gentlemen, I will show you my very latest trick, but to perform it I must ask some boy from the audience to step up here."

Almost at once a boy rose from his place. "No, no," said the conjurer. "The boy marched up to the stage."

"Now, my little man," began the conjurer, in a loud voice, "you and I have never seen each other before, have we?"

"No, papa," replied the boy.

WILLIAM MACDONALD, a youthful Scotchman, was seriously in love, but to arrive at the point of proposing marriage to the girl of his choice was too much for his sensitive soul. Finally, after many hours of deliberation, he hit upon a plan. It was moonlight, starry night, and he led the maiden of his heart to a churchyard, and pointed to a grave.

"Allie, my folks are buried there. Wad ye like to be buried there, too?"

FAR TOO MANY (Guelph Mercury).

Canada established a new divorce record for 1925. There were 551 official Sunderings of the marriage tie. That's hardly a week's record for some of the states of the union, but, at that, far too many to be agreeable to Canadians.

A LABEL UPON CANADA (Brookville Recorder and Times). By most Canadians the insinuations being made at Washington in regard to the quality of milk and cream produced in this country for export to the United States will be regarded as a distinct libel. Whatever the evidence which may be given by advocates of the measure, which is designed to eliminate competition from Canadian producers upon the score that their milk and cream are unfit for human consumption, the opinion very generally held in this country and in those parts of the United States in which they are consumed, is that Canadian dairy products are fully the equal to those originating across the line.

GARDENING

A DANDY spade from the store once came, and dad, of course, was the one to blame. He bought the thing so's to make his yard look mighty nice, by workin' hard. A rake and hoe were the next things bought. Ah, pop was sure in the spirit caught. Hard work, thought he, is the thing that brings the beautiful flowers, and a lot of things.

A man worked hard every afternoon and seeds all over the place were strewn. The richest dirt for miles around was hauled and dumped on his lay-parked ground.

A smile spread over a toiler's face Ah, hope had set him a merry pace. But, slacks, he stuck with the tire-some gait, and now all he had to do was wait.

He watched and prayed for 10 days more and then things started to grow galore. And just when his work was about to pay—the rent came due, and they moved away.

Prof. Obergosh Sakes has discovered that, though the world is round, most of it is on the square.

He never argued with his wife, Which really isn't strange. She never could make up her mind, So had no mind to change.

It doesn't pay the leader to pay, if the fellow he lends to doesn't.

Cranking a new car is merely starting something that's gonna be hard to finish paying for.

CHALLENGE TO I. O. D. E. SEEN BY NATIONAL HEAD

Mrs. Church Speaks of Propaganda Against Imperial Unity

NATIONAL SESSIONS FORMALLY OPENED

Prominent Speakers Address Assembly—High Note of Patriotism Sounded

That a challenge was presented to I. O. D. E. members in insidious disintegrating propaganda abroad in Canada to sever the Imperial ties, was one of the thoughts stressed in an excellent exhortation of Mrs. R. M. Church, of Toronto, National President of the order, in her address before the National Chapter last night in the Admiral Beatty Hotel ballroom, at the formal opening of the convention.

Addresses of welcome were given by Lieut.-Governor Todd, Mayor White, Mrs. G. Heber Vroom, Regent of the Municipal Chapter of Saint John, Mrs. R. M. Marshall, of Regina, Regent of the Alberta Provincial Chapter, replied.

The regrets of Premier Baxter at his inability to attend were voiced by Mrs. Vroom.

A pleasing feature of the evening was the reading of a message of greeting and farewell from Lady Byng of Vimy, honorary president of the National Chapter.

Mrs. Poullette, National President of the Daughters of the British Empire of the United States, was welcomed as an honored guest. She came from Los Angeles to be present.

Eighteen standards were carried in the opening procession and were held aloft by the standard bearers grouped behind the distinguished company on the platform as the National Anthem was sung. The standards remained as a background and appropriate setting for the evening's patriotic program.

Rev. J. S. Donnell offered the opening prayer. Mrs. R. M. Church, national president, was chairman.

LT.-GOV. TODD SPEAKS

Lieutenant-Governor Hon. W. F. Todd in extending a hearty welcome on behalf of the province, said he hoped the visitors would enjoy their stay that they would wish to come again, and that they would gain a realization of some of the problems that the people in these provinces were trying to work out as a part of the Empire ideals.

The Lieutenant-Governor referred to the patriotic ideals of the I. O. D. E. its splendid achievements in the great war, its attainments through education in helping to uplift the people of Canada, its work for soldiers' dependents and all of its work in making Canada a lovely place in which to live, which he undertook with enthusiasm for which the order was to be congratulated and praised.

MAJOR WHITE SPEAKS

His Worship Dr. W. W. White, Mayor of Saint John, spoke of his pleasure in meeting so many representatives of the I. O. D. E. members were examples of the best educated and best type of Canadian womanhood. He referred to the lofty ideals of the order, causing much laughter when he inadvertently referred to the order as "Independent Daughters." He gave

Two Convention Leaders

MRS. M'LEOD. MRS. R. M. CHURCH, of Toronto, president of the National Chapter of the Imperial Order, Daughters of the Empire, who gave a stirring presidential address at the opening of the 26th annual convention of the order last night. Mrs. H. F. McLeod, of Fredericton, president of the New Brunswick Provincial Chapter of the I. O. D. E., and a national vice-president, is taking a leading part in the convention.

In passing some figures showing how vast is the British Empire which embraces one-quarter of the earth's surface, and one-quarter of the world's inhabitants, and then showed how fitting a place of meeting was Saint John, the Loyalist City. He recalled local history mentioning specially the arrival of Champlain, the varying fortunes of this part of the country under 180 years of the French regime, when the romantic story of Lady La Tour was lived through, and the later arrival of the earlier settlers of Portland Point.

After the American war of revolution had come the United Empire Loyalists who had founded a city on loyalty and patriotism.

Mrs. Church at the close of Dr. White's warmly applauded speech congratulated Saint John on its first city and a man of such talents.

MRS. VROOM SPEAKS

Mrs. G. Heber Vroom, regent of Saint John Municipal Chapter, was introduced as one who had been untiring in her efforts to make the meeting a success and was greeted with warm applause as she rose to extend a welcome to the delegates which she declared one of the keenest pleasures.

She deprecated the tendency of women's societies to do a little of everything, to "bust in" and not to concentrate on the things for which they were organized. She hoped the I. O. D. E. aims and objects would now be concentrated upon and pointed out that in these days when women had so many privileges, citizenship in the great Empire brought great duties.

Mrs. R. C. Marshall, regent of the Provincial Chapter of Alberta, in her reply on behalf of the delegates, referred to the historical facts mentioned by the Lieut.-Governor and the Mayor and said that the delegates would take back definite knowledge of things which before had been mere geography and history. She spoke of the national convention as one of many moments affording an opportunity for discussion of the perplexing problems which must arise in a young country like Canada.

Mrs. Marshall believed that the standard of intelligence of the women in Canada and in the Empire had never been higher and pointed out that the duty of being informed on general matters had also never been greater. The I. O. D. E. she believed, was ready to contribute its share in fulfilling the duties responsible citizenship entailed. It could not afford to adopt a self-satisfied attitude but must recognize its responsibility to young Canadians to the new comers to Canada and to the foreign born of its population, seeing that they had the British line of thought taken to them, that their lives were contented as a safeguard to their future and that of Canada.

Mrs. Church's address as president was given last in the program and was frequently applauded. The musical numbers by Mrs. Blake Ferris, vocal soloist, Mrs. T. J. Gunn, violinist, and played Currie, pianist, were very greatly appreciated.

MRS. CHURCH SPEAKS

Mrs. R. M. Church in her address as president, said that her message contained nothing new but she hoped the delegates would carry away thoughts of hope, confidence and inspiration for the future of the well-beloved order. She referred to the beautiful interest she served as a recognition of the source of all strength and said that Divine guidance had been asked for the deliberations of the week. The annual meeting, she felt, should have a vitalizing influence through the contact of members one with another and bring the realization that each member was a part of a greater organization for the building of a happier, healthier, more loyal and contented country. The annual meeting, Mrs. Church believed, also showed the influence of the order from province to province bringing an ever increasing desire for renewed effort.

REFERS TO LOYALIST CITY

She quoted Bliss Carman's familiar poem regarding the ships "That came to port on the Furdy tide Half a century ago." And then referred to the significance of the meeting in the Loyalist city. Having referred in passing to some of the fascinating history of Saint John, she said:

"As Daughters of the Empire we should remember with pride that it was in 1783 that the British Loyalists entered the port and began the foundation of the present city. Incorporated in 1786, Saint John has the oldest corporate existence of any city or town in Canada."

An interesting fact is also worthy of note in connection with the organization of the order. The first chapter formed in the Dominion was in New Brunswick in January, 1900, and the splendid loyal woman who was instrumental in doing this worthy deed is still a loyal and devoted member of the order.

She spoke of the contributions of New Brunswick to national and imperial life, saying:

"We are not unmindful of the great contributions the province of New

to the serious situation that confronts us in the propaganda that, as the years advance, is being slowly and surely directed at the undermining of the British connection in this Dominion, and the disintegration of those stable elements that have placed Canada in its proud position.

"Are these words of an eminent member of the King's Privy Council not significant? A great parliamentarian of wide experience, one who a few years ago addressed this order, in the course of an address to a Canadian Club in a certain town in Ontario, on the subject, 'Canada's place in the Empire.' His reference to the flag of Canada stressed the importance of showing the Union Jack and of everything of which it is symbolic, a flag which is emblematic of everything that is great in civilization, accomplished after a struggle of a thousand years—teach it in the schools, he said, in the press, from the platform.

WAR MEMORIAL

"I cannot refrain from paying tribute to the splendid contributions from so many chapters to the war memorial fund—the members still true to their obligation, true to the trust reposed in them, and to the sacred debt incurred, rich with solemn but sublime memories that should make us purer, stronger and better, and ever proud and grateful for the matchless valour of Canadian hearts and the imperishable glory of British arms.

OBJECTIVE HOPED NEAR

"It is earnestly hoped that the completion of our objective in this great educational scheme will be reached in the near future, and would it not be a blessed feature of our contribution to the Diamond Jubilee of Confederation, July 1, 1927, to inaugurate this legacy of the permanent memorial of the order to the Dominion, in ever proud and loving memory of those who went to their death, calmly, triumphantly, renouncing country and life, without regret. Capt. Dennis, in this beautiful requiem hymn, written before his

death, expresses very beautifully the thought of his comrades: "No need for me to look askance, My day was happy, and perchance, The coming night is full of stars." "The stars of everlasting life and the reward of the Master."

RESULTS OF EMPIRE

"In conclusion, let me quote these sentences: "Let us remember that where Britain's flag flies, freedom ripens under its folds, law and order are established and maintained, and as we glance at the marvellous story of the past few years, does not that story vividly tell of a people that sacrificed and died for justice, that bared its breast to despotism's spears, that was valorous in war and merciful in peace. Does it not tell of a people burdened with death and debt, extending the boundaries of Europe, struggling courageously, leading the way to world disarmament, seeking to build upon the ruins of the world, through faith, through world restoration, seeking wisely, hopefully and prayerfully for peace and good will among men?"

CO-OPERATION URGED

"Shall we work for such an Empire? Shall it be that, through a narrow nationalism, through faltering faith, through unworthy suspicion, through a restricted horizon, we shall go on magnifying technicalities, accentuating dif-

ferences to the end that we shall destroy co-operation, place ourselves in futile isolation, and pull down the mightiest fabric in history?" "Is not the nobler course to strive for co-operation? Will it not be more worthy of our traditions, of the history of the race, of the sacrifices of the immortal dead, if, instead of isolation and petty nationalism, we say with General Smuts:

"The Empire is a priceless blessing, and the maintenance of its solidarity is vital, so let us march forward with faith and courage and preparation for sacrifice in the task of its mighty destiny."

We Have Precious Few Real Fathers and Mothers These Days—Too Many Parents are Quitters, Passing Their Work Over to Church and School and Club—But No Substitute Has Yet Been Found for Personal Love and Guidance in Rearing Children.

IT IS apparent to every one that parenthood isn't functioning as it should. The younger generation has scrapped the biblical injunction to "Honor thy father and thy mother," along with hoop skirts and stocks and peg-top trousers and other obsolete fashions. If there was an infant left that obeyed its parents, it would be in a glass case in a museum with the relics of prehistoric man, and we would be paying out good money to behold the quaint freak.

DOROTHY DIX

It is the children now who rule the home, and of whom the parents stand in awe and fear. It is the children who are in authority, not the parents, and everywhere you go you hear fathers and mothers complaining that some youngster of 9 or 10 has gotten completely beyond their control, and that they can't do a thing with Sally or Bobby.

NOW, inasmuch as nature has made no alteration in babies, and still delivers the raw material in plastic shape into the parents' hands, to make of it what they will, it is obvious that the fault lies with the fathers and mothers who have fallen down on their jobs. And so every one is asking: "What's the matter with parents?"

I think that the first thing that is the matter with parents is that there isn't enough parenthood.

WE HAVE plenty of people who begot children and bear them, but we have very few fathers and mothers, and nobody yet has invented any satisfactory, synthetic substitute for real personal love and tenderness in dealing with children.

You can't properly rear children with your left hand and one lobe of your brain while you are devoting your right hand and all of your real intelligence to playing bridge or golf, or having a career, or making money, and that is what only too many parents are doing today. Why half of the modern children have only the fraction of a mother, and, except for purposes of legitimacy, they might as well have no father at all!

MOTHER hustles them off to school in the morning, and when they come home she is out gadding the streets, or at a party, and so they also take to the streets, where, at the most formative time of their lives, they learn the manners and the morals of the street. Father means nothing but a cash register in their young lives. Home is only a place you go to when you can't go anywhere else; the bedtime talks are done by radio, not by a mother who bends above a pillow, and to whom a little heart opens out in the dark, and tells its shy little hopes and dreams and aspirations.

How can the mother who has never made herself necessary to her children, who has never made her arms a refuge for them in times of trouble, or let them weep out their sorrows on her breast; who has let the children next door form their ideals instead of doing it herself, expect to have any hold over them when they are grown?

How can a man whose children are not even acquainted with him, who has never had a real, familiar talk with him in their lives, expect them to look to him for guidance when they get to the place where they need it most? Why, he is the strongest man in all the world to them—the one with whom they have least in common. And they could sooner tell their troubles to the policeman on the beat than to him.

IS IT the children's fault that they feel this way toward their fathers and mothers? Not a bit of it. It is the parents' fault. They had their chance to bind their children to them with hoops of steel when they were little. They had their opportunity to win their children's confidences when they were babies, and they were too busy with their own affairs, too much occupied with their own amusements, too selfish to take the trouble to do so. And they lost out.

There are too many mothers who park their babies out with anybody they can get to mind them while they jazz. Too many fathers playing golf on Saturday afternoons, instead of taking the boys out on a hike or going fishing with them. Too many parents who are quitters, who are trying to pass the buck and make the church and the school, and the Boy Scouts and the Campfire Girls do their work of rearing their children, instead of doing it themselves.

THAT is one of the things that is the matter with parents. They are short on real parenthood.

Another thing that is the matter with parents is that they haven't any backbone.

THEY haven't the nerve to refuse their children anything, even when they know it is going to be their ruin. They see their children headed straight for disaster, and they wall and bat on their breast, but they don't try to stop them.

They make their children soft by overindulgence, and they excuse themselves for doing so by saying that when they were children they had to work and deny themselves. They never seem to realize that the very hardships that they went through strengthened the muscles of their souls, and made them the kind of men and women who have been able to achieve success through sheer grit and courage.

SO THESE people who have not the courage to say "No" to their children—who give high-powered cars to 16 and 17-year-old girls and boys, and fill their pockets with money, and who have brought them up to believe that their will is law—rear up the pampered, selfish, weak, wasteful spenders who fill the divorce courts, and furnish scandal headlines for newspapers, and who wreck their own lives and the lives of all those who are connected with them.

Weakness. That is another of the things that is the matter with parents. We need fathers and mothers who will teach children obedience and self-denial, and a sense of duty; strong parents who will hold wandering little feet in the straight and narrow path, until they get old enough to realize for themselves that the only true happiness in life is to be found in walking along it.

Fairylike Costumes Result From Fashion's Whimsies

A flower-like frock of white tulle for evening wear (centre) has made the bouffant skirt so popular this year, especially with the brides and their attendants. The skirt is scalloped at the bottom, each scallop being trimmed with gathered self-trimming stitched flat. A deep net ruffle edges the skirt and a large flower is posed in the front on the net. Another flower is fastened to the wearer's left shoulder and a large bow of the material gives a particularly youthful finish to the frock. Marion Nixon, who posed for this picture and the one described above, wears silver brocade slippers and chiffon hose with this costume.

Narrow inset bands of the same material as the frock are among the favored trimming treatments of the French just now.

This idea can be used to impart most distinctive touches to the frock and an admirable example is shown above, in a simple sports frock of peach colored flannel. The shaped bands are in peach color, likewise the four pearl buttons at the front.

This same model could be carried out in brown chiffon for afternoon wear, with the inset bands in orange chiffon.

TODAY'S RECIPES

- Tomato Ham Sauce—After ham has fried remove from pan and add one small sliced onion, browned delicately, one can tomato soup, diluted with water, thicken and season. Barley Custard—Take one cup cooked barley, two eggs beaten, two cups milk, sugar and maple or vanilla flavoring. Bake in a slow oven. Cottage Cheese Salad—Mix cottage cheese, sliced radishes, green onions and lettuce together with boiled dressing, with lettuce placed on dish, put other ingredients on leaf and garnish with whole radish. Prune Sponge Cake Dessert—Cut squares of sponge cake, place on individual plates. Remove stones from cooked prunes, add a few nut meats and milk. Put a generous helping on top of sponge cake square and top with whipped cream.

A Thought

He that loveth silver shall not be satisfied with silver; nor he that loveth abundance with increase; this is also vanity.—Ecc. 5:10.

IN CONDEMNING the vanity of women, men complain of the fire they themselves have kindled.—Lingree.

Is this your BIRTHDAY?

JUNE 8—You are shrewd. Do not allow it to lead you into cunning ways. You are stubborn at times, and yield only at bad grace. You are just and ambitious, fond of reading and travel, and have a number of good friends. Be careful not to get to love money; place affection first in life. Your birth stone is a pearl, which means health and long life. Your flower is the honeysuckle. Your lucky colors are light blue and white.

LADIES—I wouldn't marry a man who lied to me. MARY—You're not going to stay single all your life, are you?

IN NEW YORK SEE-SAWING UP and DOWN BROADWAY

Tourists dropping in on Miss Liberty this summer at her station in New York harbor may be impressed by the number of her chaprones. One hundred military police look after the protection of the immobile young lady who yields her never-dying light over New York harbor. It may be just coincidence, but the number of chaprones was swelled to present size immediately after a party of cynical veterans, interested in the return of light wines and beers, had decorated the symbol with pennants of mourner's crepe.

This, of course, will materially increase Miss Liberty's cost of upkeep. The floodlights which come from her beacon at night time cost the government about \$500 a month. There are 232 of them in her torch.

Speaking of New York harbor reminds me that the ghosts of the old whaling days, of Captain Ahab and of Moby Dick, the "white whale" of the Melville story, are stalking the waters. The other day the good ship Sir James Clark Ross came into port after a nine month cruise in the Arctic, her hold stowed with 39,000 barrels of whale oil representing \$31 blue whales.

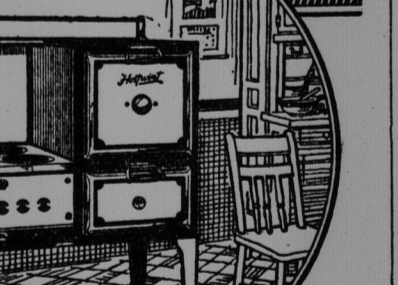

Such a cargo is worth a million dollars—literal money—in these days. And on another day there came in a craft as strange as any seen hereabouts since Robert Fulton sent his sidewheeler down the Hudson. It was the German rotor ship, Baden-Baden.

Wandering down to the waterfront to look upon the strange and clumsy craft I made my way among the crowds, seeking about this new method of transport.

And in the whole scattered serpentine of humans not one word of English did I hear. Ninety per cent of the conversations, I would say, were being held in German; the others in varying foreign tongues.

The only Electric Range having the Calrod (Sheathed Wire) Element—

Hotpoint Range R-27-C

If you take pride in your kitchen and cooking, the Hotpoint Range deserves a place in your home. The Hotpoint Range is neat and clean. Its famous Calrod (Sheathed Wire) Elements are as easily cleaned as a dinner-plate, flush with the cooking surface, presenting no cracks or crevices to collect grease or dirt. The oven element, of the same indestructible type, can be removed and scrubbed.

The Hotpoint Calrod Heating Element, on which the performance of the range depends, holds an even heat that ensures better cooking and greater economy. This element is practically indestructible—protected against the harmful effects of the air and liquids.

Like all other successes, the Calrod Heating Element has been imitated. Do not be deceived. It is found only on the Hotpoint Range.

ADVENTURES of the TWINS

by OLIVE ROBERTS BARTON

THE CHOCOLATE DROP TREE "Well, I still want one," said the Nib Nob of Nobody's Land, looking more furiously than ever with his stove lid. And if I can't have a fire-engine inside of five minutes—off go your heads! It looked pretty bad for the Twins and the poor little Whiffet. Nobody knew what to do exactly. Nobody wanted to lose his head, but nobody knew where in the world to find a fire-engine. But all at once—chug! chug! chug! rattle, rattle, rattle—there stood a perfectly good red and gold fire-engine not three feet from the place where the Nib Nob of Nobody's Land was sitting.

"How very nice of you, my dears," said the Nib Nob in a hoarse-like voice. "I suspected from the first you were fairies. What make is it, and can it do hills on high?"

"What?" he cried, when he saw what was going on. "Eating chocolates off my very best chocolate-drop tree? How very unparliamentary! How exceedingly reprehensible! How horridly—but there! There isn't a word in Nobody Land language bad enough to call what you are doing. Who are you?"

"We're the Twins," said Nick. "And this is the Whiffet. He lost his shadow and we're hunting for it. We're looking for Mister Snoopsy's cave in Hidy Go Land."

At this the Nib Nob of Nobody's Land gave a shriek and fainted three times. His servant with two mosses rushed to fan him, and his cook with two chins rushed to pour water over him, and after a while he came to.

"What happened?" asked Nancy. "Sh!" said Two Noses. "You mentioned his dearest enemy. The name of Snoopsy of Hidy Go Land has not been mentioned in Nobody's Land for years 'n years 'n years 'n years. You almost did the business that time!"

Suddenly the Nib Nob of Nobody's Land demanded, "What made me faint?"

"We were just saying your Majesty," said Two Noses, "that it was a warm day."

"That's right," said the Nib Nob. "Very! And if we don't get our chocolates picked soon they will melt and run away. Who did you say these little thieves were?"

"We didn't mean to steal," said Nick. "The chocolate-drop tree was right here and all the chocolate drops were lying on the ground."

"Your faces are familiar," said the Nib Nob. "Where did I see you before? Now I remember—you are the children who refused to get me a fire-engine, aren't you?"

"We're awfully sorry," said Nancy. "But really we didn't know where to get you a fire-engine."

18,000 RAILWAY MEN WILL ASK FOR INCREASE

Request to be Made During Summer, Brotherhood Officer Says

SLEEPING CAR CREWS TO ASK HOURLY BASIS

Conductors Not Included But Expect Future Raise in Wages

MONCTON, June 7—Canadian railway employees numbering 18,000, through the Canadian Brotherhood of Railway Employees, will probably request a general increase in rates of pay some time during the coming summer, said W. C. Smith, of Montreal, general chairman of the Brotherhood, who is here on Brotherhood matters. At the present time data is being secured from all parts of the C. N. R. system covering more than 40 classes of employees, all members of the C. B. of R. E.

The dining and sleeping car employees, who are members of this Brotherhood, have a proposal for a change in the wage schedule before the railway officials at the present time. Included in it is the request that the men be placed on an hourly basis instead of straight monthly salary as at present. They want a month of 208 hours.

48,000 NOW ASK INCREASE The 18,000 C. B. of R. E. members brings the total of the men in railway services asking for an increase in salary to more than 48,000 when the shopmen, who have asked for an increase of 10 cents an hour, are considered.

CONDUCTORS PASSIVE J. E. Sullivan, of Montreal, general chairman of the Order of Railway Conductors, who is also here today, said his organization was not pressing any claims for wage increases at the present time, although some action in that direction had been forecast in the United States. They were seeking to have restored the rates of wages that prevailed before 1922 when a reduction of 12 per cent was made by practically every system in the country. In 1924 five per cent of this cut had been given back to the men and today they wanted the rest of it.

STILL ON 1922 BASIS The wages prevailing on all railways in Canada with one exception were still on the basis established in 1922. Owing

Nun of "Miracle" Weds

Miss Elinor Medill Patterson, who gained stage fame as the nun in a play "The Miracle," has surprised friends by announcing her marriage to Russell Sturgis Codman, jr., of Boston. to conditions here in 1924 it had not been considered advisable by the heads of the unions interested to press their claims at that time.

One great trouble the employees of the Canadian National Railways have at the present time in pressing any claim for increase in wages, Mr. Sullivan said, was that they had to combat public opinion.

PUBLIC OPINION The system had made remarkable progress and was operating with a surplus over actual costs and in the face of this the general public did not wish to see any action taken which might reduce this surplus and tend to make it more difficult for the road to make a good showing. However, the rates were the same, so far as wages were concerned, as they were on the Canadian Pacific Railway.

TRUSTS IN FUTURE In the end, when the Canadian National system, with the growth of the country and the growth of business in general began to make profits over not only operating costs but the fixed charges, it being a publicly owned institution Mr. Sullivan looked for better treatment of the employees, both so far as wages were concerned and working conditions, than would prevail on any other system in this country, or for that matter, in the world.

ALUMNAE MEETS. The Alumnae of the General Public Hospital at its meeting last night in the nurses' home appointed its president, Mrs. A. O. Burnham, and Miss Kate Holt, as its delegates to the annual meeting of the New Brunswick Association of Registered Nurses which convenes in Fredericton next week.

TO DREDGE BERTHS The Saint John deep water berths will begin to receive their annual cleaning during the latter part of this month. Tenders for dredging about the West Side and Long wharf berths have been called for and will close on June 16. The work will begin as soon after as possible and will last about two months.

Special Speakers For Two-Day Session at Capital Are Engaged

MISS C. WHITTEN TO BE ON PROGRAM

Organization Will Join With Red Cross Gathering on Wednesday

A PROGRAM of exceptional interest has been prepared for the annual meeting of the New Brunswick Association of Registered Nurses which will be held in the vestry of the Wilmet United church, Fredericton, on June 15 and 16. There are to be special speakers and on the closing afternoon the nurses will attend the Red Cross convocation meeting to hear the address of Lieut.-Col. J. L. Biggar, M. D., Dominion Red Cross commissioner. The program is as follows:

On Tuesday, June 15, an executive meeting will be held at 11 a. m. The general meeting will convene at 2 p. m. at which an address of welcome will be given, replied to by Miss O. J. MacMasters, of Moncton. The president will give an address and this will be followed by reports of secretary, treasurer, registrar and board of examiners. A resolutions committee will be appointed, followed by the reports of private duty section, public health section and nursing education section.

TO GIVE ADDRESSES At 8.30 Dr. C. F. Wherrett, traveling tuberculosis diagnostician, will give an address and at 4 p. m. there will be an address by Miss Charlotte Whitten. A session will be concluded by a drive.

In the evening there will be a bridge luncheon at the Victoria General Hospital Nurses' Home. The association will reconvene at 9.30 on Wednesday when the reports of the local chapters will be given, followed by the reports of the convener of the constitution committee and the convener of the "Canadian nurse" membership committee.

The business will consist of election of conveners of the various sections and committees and of the council, as well as the selection of the place next meeting.

Luncheon will be at 1 p. m. and at 2 p. m. the new executive will meet. At 4 p. m. there will be a meeting with the Red Cross Society at which there will be an address by Lieut.-Col. J. L. Biggar, M. D., commissioner of the Dominion Red Cross. Afternoon tea will be served.

You'll Thrill in its Power

your wife will love the luxurious quality of this Studebaker Sedan

This Standard Six Sedan, Unit-Built \$1705 —the most powerful Sedan of its size and weight, at a One-Profite price . . .

YOU may not often want all the power that is stored away in this smart Studebaker Standard Six Sedan. But just get your foot on the accelerator when you want a genuine thrill. It shoots through traffic with all the snap and vigor of much higher priced cars. It carries a reserve of smooth gear power that makes hills and level stretches look alike. Studebaker builds all its own bodies, all engines, all clutches, gear sets, springs, differentials, steering gears, brakes, axles, gray-iron castings and drop forgings. Only Studebaker in the fine-car field enjoys such complete manufacturing facilities. These facilities enable Studebaker to manufacture quality cars on a One-Profite basis—eliminating outside profits. The savings thus effected are passed on to Studebaker owners in the form of higher quality and lower prices. Unit-Built construction Studebaker facilities result, too, in cars designed, engineered and built as units. The hundreds of parts in a Studebaker function as a smooth-working unit, resulting in scores of thousands of miles of excess transportation, greater riding comfort and higher resale value. Always kept up-to-date Direct manufacturing control enables Studebaker to keep cars constantly up-to-date. We add improvements regardless of the calendar—we do not save them up for spectacular annual announcements which make cars artificially obsolete.

Horace Garland Grasps Live Wire, Rendered Unconscious; Three Horses Die In Blaze

Two-Story Stable Badly Gutted—Hay, Oats and Harness Also Destroyed in Barn Owned by Alexander Clark—Little Injuries Carried

FIRE badly gutted a large two-story stable owned by Alexander Clark, 26 Murray street, at 5 o'clock yesterday afternoon, when three horses were destroyed and Horace Garland, of 35 Sherill street, narrowly escaped death by being electrocuted.

The building is not insured enough to cover the owner's loss, and the three horses destroyed, and owned by C. F. Brown, George Axle and Robert Roberts, were uninsured. In addition a quantity of hay, oats and harness was burned. The origin of the fire was unknown last night.

GETS GOOD START.

The fire had a good start when first discovered. An alarm was sent in from box 138 and the fire department was soon on the scene and soon had several good streams of water working on the flames. In the meantime some person without instructions from Chief W. S. Vaughan, sent in another alarm from box 144 which was needless. This brought additional apparatus from the city proper. These were sent back to the stations by the chief as they were not needed.

MAN ENTERS BUILDING.

When the smoke had cleared some Horace Garland entered the ground floor of the building, and while working about one of the dead horses he slipped, and to save himself from falling grasped a live wire, with the result he was rendered unconscious and was unable to release his grip on the wire.

NO DAMAGE.

The fire department was called out at 9:30 o'clock last night by an alarm from box 138 for a chimney fire in the house near the corner of Duke and Pitt streets, occupied by Fred Diggs. There was no damage.

HORSE RUNS AWAY.

A horse with wagon attached and owned by Arthur Bustard, became frightened by the fire apparatus on the north side of King street at 8:05 yesterday afternoon and ran away. The wagon collided with an automobile owned by L. Lecheur and broke the fender of the car. The horse was captured before any further damage was done.

STILL ALARM.

Apparatus from No. 4 fire station, City Road, responded to a still alarm yesterday afternoon for a chimney fire in the building used by A. B. Wetmore as a dry goods store and occupied by two other tenants. The building is situated at the corner of Garden and Charles streets. The fire was quickly put out with salt and no damage was done.

CARD PARTIES HELD MONDAY EVENING

Weekly Events Enjoyed on East and West Sides—Many Attend

Weekly card parties in West Saint John and East Saint John last night were largely attended and greatly enjoyed. At Stella Maris church there were patrons for 80 tables and the prize winners at cards were as follows: Ladies, first, Miss Marion J. Bowers; second, Mrs. John Lawless. Gentlemen's, first, Leo Callaghan, and second, Frank Barry. The door prize was half dozen sets of individual suit and pepper shakers and was won by Mrs. W. B. Daley.

At the Assumption parish card party held in St. Patrick's hall, the prizes were won as follows: Ladies, first, Mrs. B. Donovan; second, Miss Genevieve McDermott; and third, Miss Margaret O'Brien. Gentlemen's, first, Rev. H. MacCallister; second, Thomas Kelleher; third, William Cunningham. There were 40 tables of cards played. The door prize of \$5 was won by John Carr. The weekly card parties at St. Patrick's hall will be continued and may go on throughout the summer.

PRAYER TEST FAILS IN WESTERN WOODS

Leader of Sect Petitions Heaven For "Sign" While Sheriff Watches

TAMARACK, Minn., June 8.—Only the murmuring of a gentle summer breeze through the tall pines and poplars of a north-western forest answered the prayers of Vernon Ewing's little handful of disciples when they assembled here to petition God for a "sign" that he had heard their supplications.

A heavy white cloud dimmed the sun for a time during the hour of silent prayer, but there was no outward sign that the unique ceremony had been rewarded by Heaven.

A light rain which had been falling stopped a few minutes before the prayer began and Ewing said this might have been a sign from God that He was ready to listen.

Promptly at 10 a.m., Ewing, who is an eye specialist and a zealous religious worker, called his group of followers into the grove and told them to kneel in prayer, heads touching the ground, and to hold their hands in prayer. Only a half dozen men stepped into the prayer circle, although more than 100 men and women had come to the grove to witness the strange spectacle.

Ewing set the example by dropping to his knees and resting his head in prayer. For one hour they prayed silently while the spectators, headed by Sheriff J. N. Hockengen and his deputies, watched the skies intently or talked in hushed tones.

At 11 a.m., Ewing rose to his feet, smiled wearily and made his "sin weary" followers disperse. "God willed differently," he said.

NEW FISH STORY

Parisian Arrested on Hunting Law Charge For Hooking Rabbit From Water

PARIS, June 8.—An actual new fish story is being told to a few sympathetic friends by an ardent Parisian fisherman. He went into the heart of the country to pursue his favorite sport and was repeatedly holding his pole while sitting on the bank of an unfrequented stream, when he felt a tug at his line. He pulled it in and discovered that he had hooked a rabbit, which had been started by his dog, and had taken to the water for refuge and had swum into the hook.

The angler kept on fishing, but a policeman, who had been listening to his story and then arrested him. He was charged with hunting in the prohibited season, but managed to convince the judge that his violation of the law could not have been helped.

For New "Pep" Energy and Vigor Try Erbac—Today!

Money Back If Not Satisfied After Using 16-Day Treatment To Prove Amazing Value.
Double Strength Erbac in convenient tablet form is a special private formula of a well-known chemist endorsed by Doctors—and praised by thousands—who have proved its certain value in cases of "chronic weakness," nerve exhaustion, despondency, lack of ambition, endurance and the courage and ability to accomplish things you would like to do.

Don't confuse Double Strength Erbac with ordinary tonics or "so-called" body builders. Remember it is a special private formula designed for a particular purpose—to build up life-giving, age-defying vitality and abundant nerve force.

Here's a simple test worth trying: You know how you feel and what your condition really is today. Now go to your druggist and get a 16-day Guaranteed Double Strength Erbac treatment, mark the date on the calendar and start using the tablets according to directions. At the end of 10 days take a careful note of your condition, take a look in the mirror, try your strength and endurance—then at the end of 16 days "check up" again, and if you are not satisfied that you have improved at least 100 per cent., take the empty Erbac box back to the druggist and get your money. At all druggists.

Noted Englishman Coming To New Brunswick To Fish

C. T. R. Wilkinson, O. B. E., Originator of "Dazzling" For Ships During War, to Visit Restigouche and Nepisiguit Rivers

THE FAME of the fishing streams in New Brunswick, and our scenic beauty has attracted still another Englishman, and this province is shortly to have a visit from a celebrated artist in the person of C. T. R. Wilkinson, O. B. E., of London, England. Mr. Wilkinson's fame and intentions are noted in a recent issue of the Montreal Star, which states as follows:

A distinguished passenger to land from the C. P. S. Montclair, which arrived in Montreal Saturday evening from Liverpool, was C. T. R. Wilkinson, O. B. E., of London, England. Mr. Wilkinson sprang into prominence during the war as originator of the "Dazzling" scheme, the official name by which his scheme to camouflage ships was designated by the British Admiralty.

At the outbreak of the Great War as a commander in the Royal Naval Volunteer Reserve he was assigned to duty on a mine-sweeper in the Dardanelles and later in the North Sea. The appalling loss of 100,000 ships through German submarine attacks led him to conceive of some means of protecting the ships and his artist mind suggested a cloak of invisibility to be secured by breaking up lines and angles by violently contrasting hues.

Because of the submarine's limited range of vision owing to its lying low in the water, his plan not only rendered the ships invisible to the eyesight of the camouflaged ships at a distance, but also prevented the submarine determining what course the ship was shaping.

IDEA ADOPTED.
The British Admiralty were quick to see the priceless value of the scheme when submitted to them and immediately adopted the idea. When the United States finally came into the struggle, Mr. Wilkinson was assigned to assist the U. S. Navy officials at Washington organize the camouflaging of their ships. Mr. Wilkinson was awarded the Order of the British Empire for his services by the British Government and 2,000 pounds by the Board of Inventions.

COMING TO N. B.
Mr. Wilkinson, who is accompanied by his wife, has come to Canada for some salmon fishing and at the same time to secure the proper atmosphere for a series of sketches typifying salmon fishing in Canada. He intends spending some time along the Restigouche, Matapedia and Nepisiguit Rivers in New Brunswick, and at Jackman, Maine.

AUTO LUXURY TAX REMOVAL OPPOSED

Robb Threatens to Drop His Budget Amendment, But It Meanwhile Stands

OTTAWA, June 7.—Another budget amendment that has caused discussion in the House today, and, eventually, Hon. J. A. Robb, minister of finance, announced that he is going to be up real opposition to the amendment he would withdraw it. For the time being, it was allowed to stand.

The effect of the amendment, which was submitted by Mr. Robb, would be to remove 5 per cent. luxury tax on automobile values at \$1,200 and under. The amendment applies only to cars which are 40 per cent. produced in Canada (or in countries with which Canada has preferential tariffs or most nations conventions) up to April 1 next and 50 per cent. production in Canada or (the countries before mentioned) after that date. The reduction would not therefore apply to cars of American manufacture.

Two of Henry Ford's steamers, Lake Africa and the Lake Porville, arrived at the wharf in front of the American tug Barlow, Captain Hermansen, from Norfolk. The steamers are bound for Detroit to be scrapped. The tug put in here for bunker coal.

Easy To Gain Weight With Yeast and Iron

New Combination of Yeast With Vegetable Iron Quick Way to Build Up Weight

This, run-down and underweight men, women and children can now improve their health, increase their energy and regain normal weight in a surprisingly short time.

A new combination of yeast vitamins with vegetable iron, renews the action of sluggish blood cells, drives out dangerous body poisons, increases energy and endurance and supplies the system with the vitamins that build up weight.

For years yeast has been known as a rich vitamin food, but not until we perfected "Ironized Yeast"—which comes in concentrated tablet form, was it possible to take yeast and iron in the right proportions to build up weight.

"Vegetable Iron" when combined with yeast is quite easy to digest, therefore better for the system. And "yeast" when ironized, becomes just twice as beneficial as fresh or cake yeast.

Ironized Yeast tablets are composed of concentrated food elements, therefore they are pleasant to take and free from drug-like effects. If you are under weight, do not enjoy good health, lacking in energy and force, "Ironized Yeast" tablets will pick you right up, and if they fail, you get your money back.

UNDERTONE WAS STRONG TODAY ON WALL STREET

Bullish Sentiment As Announcement Re Financing is Made

BRISK TRADING DONE ON MONTREAL 'CHANGE

More Than 1,000 Shares of Brazilian, Smelters and Reserve Sold

NEW YORK, June 8.—Stock prices displayed a strong undertone at the opening of today's market. Bullish sentiment apparently was created by the announcement that no treasury financing would be necessary this quarter. Initial gains, as a rule, were small, although Dupont opened a point higher and U. S. Steel common showed an opening gain of three-quarters at 125 1/4, a new high on the current up-swing.

MONTREAL, June 8.—Trading on the local stock exchange during the first half hour this morning was brisk, with values displaying an irregular trend. Over a thousand shares of each—Brazilian, Smelters and Crown Reserve—changed hands. Brazilian opened at 95 1/4, off an eighth, later sold at 95, and in subsequent trading reacted to 94 1/2, the opening price. Smelters opened with an overnight gain of 1 1/2 points, but eased to 2 1/2 in later trading. Crown Reserve was off two points at 19 at the opening.

Other changes included Breweries, off an eighth at 63; Asbestos, off a quarter at 23 1/4, and Beaco 1/4 preferred off a quarter at 1 1/4.

Hiking 1,000 Miles Without Food

One thousand miles without food. With New York a thousand miles away by road, George H. Johnson, a gymnast director of Chicago, left Chicago the other day to walk to New York, it being agreed that he would eat no food on the way. He plans to make an average of 33-1/3 miles per day, which means a month on the road—and nothing to eat. He is shown here leaving the Chicago City Hall in company with James H. Hocking, at the left, seventy year old former walking champion.

NEW YORK, June 8.—Pierce Arrow resumes dividend on preferred. American Gas declared regular quarterly dividend of 25 cents on common and usual semi-annual \$1.50 a share on common and regular quarterly \$1.50 on preferred.

Morning Stock Letter

NEW YORK, June 8.—The market absorbs realising gains and activity develops only on the upside. There is every indication that the trend remains upward. We look for higher prices in the best stocks all through the list. At the same time this is a highly disturbing market. Steel is having most of the independents behind and G.M.O. has run ahead of most of the motor stocks with the possible exception of truck stocks and one or two such as Overland. We believe Steel is going to sell higher this year. In fact we hold to our opinion that Steel will set a new record this year. Elsewhere we believe that G.M.O. stands a very good chance of selling at \$25 a share. While continuing in the extremely speculative class, Int. Com. continues to make new highs for the move and is still a speculation that will continue to attract attention. We would continue to buy Wright Aero. Elsewhere, we believe the same stocks that we have been recommending in rate and oil groups. The oil stocks have been somewhat affected by investigation of Pete industry, but these investigations seemingly are an annual development and are not very important.

Four Drown in P. Q.

Men Caught by Strong Current and Boat Upside Near St. Honore

CHICOUTIMI, Que., June 7.—Four persons perished in a drowning accident a few miles north of the village of St. Honore yesterday. The names of the victims are: Lorenzo Gauthier, Hector Joseph and Thomas Simpson. From what little is known at present, it would appear that the four men were out in a rowboat when they were caught in a strong current and in an attempt to bring the craft back into more placid waters toppled the boat over.

Two Men Arrested in Goldfield's Murder

KALGOORLIE, Australia, June 7.—Another chapter in the mysterious murder of Inspector W. and Sergeant Pitman, which continues to be one of the greatest sensations the goldfields have ever known, was opened today with the arrest of two men on murder charges. They are Evan Clarke, proprietor of a public house, and John Trefene, a bar man.

1,250,000 BRITISH MINERS STILL IDLE—LOCAL COMPANY HAVE ONLY FEW WEEKS SUPPLY OF WELSH COAL

Although over one million miners have been idle since April 30th last, and no coal has been mined since then, a local dealer advises that from the first of June they have sufficient stock on hand to do for a few weeks yet.

The British Miner has a method of existing on very little food when he is idle, as he remembers back in 1919 when they were on strike a little better than seven months. The output of this strike was in favor of the miners, but even with a wage increase it takes a long time to make up for months of idleness.

REACTION SETS IN

During the autumn months and December and January, improvement in a number of departments of national activity was evident, but in February a reaction set in, many factories went on short time, and the present outlook for industry and business, while retaining some encouraging features, is not so bright as was anticipated.

Part of our present industrial production is not profitable. Too many factories are operating without profit, after allowing for operating charges, heavy taxes, and depreciation. Too much business is being done merely to maintain staffs and to keep in the line.

During the past year and half way earnings show an encouraging increase; building permits reached a higher aggregate; bank clearings rose until January and declined afterward; iron and steel production decreased steadily from last summer until April; bank deposits have been growing monthly, but credit loans have been decreasing, indicating that money is piling up in the banks and is being loaned in moderation to business concerns.

Conditions have improved in agriculture, due largely to successive good crops. The demand for such products as farm products have enabled farmers to pay their debts and to buy more manufactured goods.

During the past year, as in several preceding years, there was a continued revival of international trade, following the slow but steady recovery of most countries from the war. As a result, the demand from other countries for Canadian products, including primary, partly manufactured and fully manufactured, has been increasing, and this is reflected in the statistics of our export trade.

CONFIDENCE SHAKEN.

Confidence in the industrial future of this country has been shaken. The great fiscal need in Canada is stability. We have been promised stability frequently, but every year sees further tariff reductions. What industries will be attacked next? How can industry proceed with assurance under such conditions? But stability alone is not enough. Stability will not restore the policy of protection which was given in 1915. It will only restore, and retain the policy of protection which was given in 1915.

For fifty years Canada has been building up her industrial system. It is not a matter of days, but of years, that it will be possible to give similar protection to that afforded by other countries. That is the universal method, and the only method that will follow the opposite method and retain her industries.

CONFEDERATION ISSUE

But the strongest vitality and the greatest natural wealth cannot resist indefinitely the results of a fiscal policy which, if pursued, can only end in national disaster. It is not a matter of days, but of years, that it will be possible to give similar protection to that afforded by other countries. That is the universal method, and the only method that will follow the opposite method and retain her industries.

STRANGE ANOMALY

In view of these favorable international conditions, greater agricultural production, and the fact that the value of the national surplus, which will stimulate and expand all forms of production and enterprise, that will protect and stabilize but not discriminate, that will give opportunity to present and future Canadians, and that will bind all parts of this country in true and permanent Confederation.

When a time comes when we will enter a period of intellectual and social advancement and material progress, we will be able to write new chapters in her national history but will also place her definitely among the leading countries of the world.

Member Report

The report of the membership committee included the following paragraphs:

During the past year ending April, 1927 new members joined the association; 275 memberships were cancelled; leaving a net increase for the year of 1,000. The summary by divisions is as follows:

The reasons given for cancellations of membership are classified as follows:

- Out of business 38
- Non-payment of dues 17
- Amalgamation of firms 17
- Additional representatives no longer required 44
- Not able to pay fees owing to trade conditions 96
- In liquidation or not operating 46

Included in the cancellations are many firms, particularly in Ontario, Quebec and the Maritime Provinces, that were forced to resign owing to failure arising out of business conditions.

Executive's Report

The report of the Executive Committee was in part as follows:

REVENUE AND EXPENDITURE.

The treasurer's report has shown that the total revenue of the Association for the year for membership fees was \$209,271.50, and that the cost of operation was \$208,842.46, leaving a deficit of \$7,708.88. Against this is set the profit from "Industrial Canada," \$243,449, and the profit from the "Canadian Trade Index," \$2,066.81; and interest from investments \$6,872.66; leaving a net surplus of \$8,872.66.

"PRODUCED-IN-CANADA" DRIVE

The "Produced-in-Canada" campaign has been continued along the general lines approved at the annual meetings for many years. Briefly, the policy is to increase the popular demand for Canadian products of all kinds.

KILLED IN RIOTS

BERLIN, June 8.—The Deutsche Allgemeine Zeitung has received an unconfirmed report that 18 persons have been killed and 80 wounded at Lemberg, in clashes between Ukrainian students and Polish troops.

ion Canadians emigrated to the United States to find work which was taken away from them in Canada, according to official figures. If the unofficially added to the official figures, the total would be over three-quarters of a million. Little capital is available for industrial enterprises, except for industries such as mining, and pulp and paper.

SMUGGLING.

Following the instruction of the previous annual general meeting, the Association has been co-operating with the Commercial Protective Association and other business organizations to reveal to the people of Canada the ramifications of the smuggling industry, and to secure the necessary measures that will result in the abolition of smuggling on a commercial scale at least, into this country.

EMPLOYMENT FOR GRADUATES.

The emigration to the United States of graduates of the universities and technical schools has become so serious that your committee decided to co-operate directly with representative organizations of engineers, mining companies, and universities to assist in forming an organization which will try to find positions for university and technical school graduates in Canada.

VISIT TO MARITIMES.

The president, with a party of members of the executive council, visited the Maritime Provinces in May, for the purpose of consulting members of the Association on the special problems of these provinces.

Bank Robbers Shut Employees In Vault

DALLAS, Texas, June 8.—Panic-stricken robbers locked eleven officials and patrons of the Jefferson Bank & Trust Company of Oak Cliff, a suburb, in the vault, scooped up between \$15,000 and \$20,000 in currency and fled to an automobile. M. G. Young, president of the bank, was one of those forced into the vault.

R. C. Barnes, cashier, also shut in the vault, caught the tumbler as the combination turned and freed the imprisoned party within a few seconds. He fired five shots at the fugitives.

NOTICES RE AMATEUR RE-ORGANIZATION IN N. B. OUT TODAY

REINSTATEMENT PROBABLY WILL BE DISCUSSED

Gathering Here to be Held in Board of Trade Rooms

NOTICES to the various amateur clubs in New Brunswick affiliated with the M. P. B. to send delegates to a meeting to be held here on Monday, June 21, in the Board of Trade rooms for the purpose of getting a definite expression of opinion on the question of the formation of a New Brunswick Amateur Athletic Association will be mailed out either tonight or tomorrow by W. E. Strirling, president amateur club in New Brunswick, according to word today.

In view of the apparent widespread interest in this movement, Mr. Strirling has deemed it advisable to get a concrete statement of feeling on this matter in the best interests of the sport and for this purpose is calling the meeting here. There is every likelihood that at this meeting a formal resolution setting out the duties of the provincial clubs to operate their own district will be adopted. It is understood a similar plan will be followed in Nova Scotia, where such a movement has strong support.

MANY TO ATTEND Clubs will be allowed as many delegates as they are now authorized to send under the M. P. B. constitution and a free and frank discussion of the matter will take place. Sussex, Moncton, Chatham, Newcastle, Bathurst, Campbellton, Sackville, Fredericton and St. John will likely send delegates or else will notify authorities here of their attitude in the matter.

RE-INSTATEMENT One of the matters which is likely to be brought up in informal discussion at the meeting is the question of reinstatement of several players now on the side of the amateur fold. In a section where the number of athletes is very small compared to the more populous sections of Canada, there is a feeling in some quarters that leniency should be shown the boys who transgressed and who are now new to make amends.

The life sentence passed on athletes who break the law is harsh and unjust and it is felt that as many of them have now learned their lesson, that the amateur circles would in no wise be harmed if the bars were let down and they were taken back. Tales of dogging in this respect in Upper Canada have created a certain amount of unrest and there is a feeling here that while we have been so strict in the past, we should be more lenient in the future, particularly in the west, where they go so wrong to advocate mingling of pros and amateurs. Quite a batch of Maritime boys were re-elected to the annual meeting of the C. A. A. U. but there are a few more and their cases are likely to come up at the June 21 meeting.

PENDER'S CAPTURE TITLE ROLL-OFF

Inter-league Championship Settled by Narrow Margin of 5 Pins

By the narrow margin of five pins, the James Pender team won the inter-league championship in the roll-off last evening with the Knights of Pythias team on Black's Alleys after a hotly-contested match. The series, which was an innovation in local bowling, attracted wide interest and a large crowd was kept on its feet by the game, which was one of the most keenly contested ever seen on a local alley.

The losers got away to a big start through high scores by R. Black, Brentnall and Covey and had a lead of 98 pins at the end of the first string. The Pender boys had a hard uphill fight all the way but cut the score down by 50 pins in the second string. Given's 129 helped greatly. In the final string they wiped out the lead and nosed the Knights out for the championship.

SMOKER FRIDAY On Friday night the members of the Inter-League teams, the City League and the Commercial League will hold a smoker at the Studio. Prizes for the season will be presented. The smoker is open to all the members of the three leagues.

The scores last night were: K. of P.—Total Avg. M. Black... 94 100 102 296 98.2-3 Whitaker... 80 114 81 255 95 R. Black... 119 82 92 293 97.2-3 Brentnall... 110 93 103 306 102 Covey... 107 103 100 310 103-3 820 492 478 1480

Stribling Rules Slight Favorite Over Berlenbach In Coming Bout

Along The Sport Trail

By JOHN J. DUNLOP. WHEN a bright youth in the days of Richard Cour de Lion decided to do his race through life with a helmet—or a drag, whichever you prefer—he entered a jousting tournament and tried to make a hit not only against the armor-clad opponent but also with the fair young lady who was Queen for the day. Athletic skill was supposed to appeal to the timid, shrinking maidens of other years and while statistics on this matter are as rare as land at the North Pole, there can be no doubt that the mighty feats of strength and valor made a profound impression on the gentler sex and paved the way for the young man's approach to father. Times, as the poets say, do change. Track and field events, solely the privilege of the male element in society not so few years back, have sadly taken their place alongside barber shops and other final strongholds of man's domain and the women's events are burning up the typewriters sport editors through the Maritimes are burning up the typewriters telling us about the girls' championship athletic meet to be held in Saint John on Saturday, June 19. We are reliably informed that this is the first girls' track and field meet ever held under the auspices of the Women's Athletic Federation of Canada and that the net result will be the uncovering of some promising material for Canada's Olympic representation in women's events. Girls from New Brunswick and Nova Scotia will compete and endeavor to make the records of those Toronto girls have a few sickly quills. The point is that the girls are no longer satisfied with sitting on the sidelines and cheering the dear boys to victory. The girls like to hear the cheering themselves. Judging from the amount of comment and talk, the cheering should be considerable in volume when they line up in a few weeks on the Allion grounds.

"ANDY" COAKLEY, who will be remembered here by old time ball fans as a twirler and who now is baseball coach at Columbia University, has had marked success with his college boys this year.

TALKING about old timers, there is one of them in town today called here on a sad mission. He is here from New York to attend the funeral of his mother, Mrs. Annie Saunders, 96 years old, and his name is Leonard T. Saunders. To the present generation, Mr. Saunders' name might be well as anything but back in 1875 and thereabouts, he was very well-known as one of the most outstanding promoters that roller-skating has ever produced on this continent. "Lester" Saunders once competed for a Diamond Belt offered by Richard K. Fox for the championship of the world in New York and the seventeen-year-old Saint John lad came second. A chap by the name of Walton finished first. What is now the Queen Square theatre was then devoted to roller-skating and what times they used to have in that building! When a youngster, Saunders had an idea he'd be an actor but the company he was with, went broke at Bangor, Me., one day and while there, Saunders tried his hand at roller-skating. That was how he started and he went on and higher until he was acknowledged to be one of the best in America. He gives great credit to his old trainer, Jack Haley, for his many fine showings. Sport fans of present and past extend to Mr. Saunders their sympathy in his recent bereavement.

ELEVEN senior teams and eight intermediates not to mention a dozen juniors comprise Saint John's amateur baseball lineup for 1926. Over 300 youths engaged in beautiful games. Sounds pretty good for the old town.

A GOOD dog story—one of those "believe it or not" kind—is told around Trainer W. H. Key's stable at St. Stephen. It seems that included in the stable entourage two years ago was a French bulldog that was very much of a pet, but the dog disappeared shortly after "Hoddy" Gildart, caretaker of Jenny H. 2,037, when the Hedge-worm mare was in Key's stable, severed his connection with the stable and went to New York. Nothing was seen of the dog until July 16 and following days, the Cuban and Canadian Lawn Tennis Association decided.

Willard Crocker and Jack Wright, of Montreal, have been selected for the fifth time as two of Canada's representatives. A third Canadian player will be chosen shortly and the team will sail for Havana early in July.

Both Wright and Crocker have played on the Robesay course.

Baseball JACK WRIGHT AND CROCKER PICKED

Canadian Davis Cup Team to Meet Cubans at Havana, July 16

TORONTO, Ont., June 8.—Davis Cup games between Cuba and Canada will be played at Havana on July 16 and following days, the Cuban and Canadian Lawn Tennis Association decided.

Willard Crocker and Jack Wright, of Montreal, have been selected for the fifth time as two of Canada's representatives. A third Canadian player will be chosen shortly and the team will sail for Havana early in July.

Both Wright and Crocker have played on the Robesay course.

FOR NORTHERN TITLE

LIVERPOOL, June 8.—One hundred and fifty two professional golf players from Great Britain and the United States are competing today in the British northern professional championship tournament which began this morning at Formby and will continue through tomorrow and Thursday. The event carries prizes aggregating £1,000. The field includes most of Great Britain's leading pros, except some of the older ones. It lacks, however, the presence of Abe Mitchell, George Duncan and Ted Bay.

SUSPENSION ON SACKVILLE BOYS IS TAKEN OFF

Enthusiasts Plan Backing of Cole and Wheaton Next Winter

THE suspension against players on the Sackville amateur hockey club placed there last winter for competing against a pro has been lifted, according to W. E. Strirling, V. vice-president of the M. P. B., this morning. The Sackville Amateur Athletic Club has re-organized to include the hockey team and on the understanding that this association would see that the rules were lifted to that the ban against the players was taken off. Sackville had a cracking good hockey team last winter and prospects for this winter are just as bright.

BOOST COLE Not only in hockey but in speed skating as well is Sackville to the fore these days. Chester Cole, boy's 14-year old champion, and young Wheaton placed the town on the speed skating map by their work last year and even better things are expected of them this year. Sackville enthusiasts plan to get behind these boys this winter and boost them to the limit.

\$100,000,000 FILM MERGER EFFECTED

Over 500 Theatres Will Be Brought Under Large U. S. Corporation

Canadian Press Despatch. CHICAGO, June 7.—Three hundred and forty theatres, representing a \$17,000,000 investment, have passed into the control of the Famous Players-Lasky Corporation under a plan of consolidation which that company has acquired a majority stock interest in the Balaban and Katz Corporation of Chicago.

The merger, announced last night, will represent \$100,000,000 in theatre properties which worked out, and will bring under the Famous Players-Lasky direction more than 800 motion picture theatres all over the country and several hundred in foreign countries.

No change is contemplated in the Balaban and Katz management. The company has assets of about \$11,000,000 but at \$80 a share its common stock would be worth more than \$21,000,000. The plan is to issue \$75,000,000 of new stock of about \$75,000,000 at the end of 1925.

PANAMA PROPERTY BOUGHT FOR ORES

British Corporation Chief Denies Government is Interested

CANADIAN PRESS DESPATCH. LONDON, June 7.—Elliott Alves, chairman of the Panama Corporation Limited, holder of the concessions in Panama which United States Senator Borah is investigating, declared this afternoon that the British government has no interest in any kind whatever in these concessions, nor was it in any way interested in or connected with their acquisition of them.

The question of their planting within the area of the concessions granted has never been contemplated and certainly has never been discussed. "Not the slightest attempt has been made to squeeze out United States interests, nor to injure or interfere with United States influence in the republic."

It's Funny Baseball Year

Enough, in variety, has happened this year to make the jolly baseball season interesting to everybody except the St. Louis and Boston fans. Babe Ruth is behaving himself and the private detectives and hangmen are looking for new meal tickets. Chicago has two of the most interesting ball clubs in the big show. Eddie Collins has a team that ought to be in the running—and is. Ty Cobb is still nine-tenths of the team in addition to being manager. Later in the season his ability as a manager will be discussed at length by the fans as per usual. And to cap the climax, Judge Landis hasn't broken out for several weeks.

Hoff Talks of \$50,000 Suit

LOS ANGELES, Calif., June 8.—The Los Angeles Times will say today that Charles Hoff, of Norway, world's pole vaulting champion, who was barred by the Amateur Athletic Union from further competition in the United States, after he had refused to compete at San Francisco this spring, is planning a suit against the athletic body for \$50,000 for alleged defamation of character.

Here's a Good Chance For Boys to Learn How to Swim

THE annual summer swimming campaign at the Y. M. C. A. opened yesterday afternoon, with a large number of boys in attendance. The tank will be open to the school boys, and in the evenings from 7 to 8 for the working boys. Volunteer leaders and the older boys will be in attendance to give instruction, and the opportunity is a good one for any boy who wants to acquire the ordinary swimming strokes.

SCHEDULE CHANGED.

The schedule of the City League has been shifted a little on account of the death of a brother of Johnny Corrigan, third baseman for the Water Department. The Tuesday and Thursday evening games have been transposed and the Trojans and Saint Johns will meet this evening on the East End grounds. Thursday evening the Water Department and Saint Johns will play. Earl Nelson, the colored star, will be on the mound for the Saints, Manager Campbell has announced. This will be Nelson's first attempt to pitch a full game this season and the fans will watch his performance with interest.

Commissioners Meet and Make Inspection of East Saint John Institution

The monthly meeting of the Board of Commissioners of the Saint John Municipal Home was held at the institution, East Saint John, yesterday afternoon.

Unfortunately the inclement weather prevented a tour of the farm proper, which was contemplated. It was reported by Superintendent E. Wood that notwithstanding the somewhat backward season a good start had been made with the field crops, and there was no reason to doubt but that the returns this year would be as favorable as heretofore.

AUTO CASES OF INTEREST IN POLICE COURT

Fines Struck in Two—Magistrate Speaks on Point in Law

'Pedestrians still have some rights. Speeding is a serious thing,' remarked Magistrate Henderson in the Police Court this morning during the hearing of several traffic violations. Frank Bassen, reported by Policeman Young for driving too fast in his automobile at the intersection of King and Prince William streets, was fined \$10. He denied that he was going at 20 miles an hour, but said it might have been 18. When asked by the accused how he judged the speed of vehicles, the policeman said Detective Saunders on his motorcycle traveled down King street at various rates of speed giving the officer an opportunity to judge the rate.

OTHER CASES.

Robert M. Hallett, reported by the same officer for obstructing traffic in King street by leaving his automobile standing 13 feet from the curb, said the starter was broken and he wanted to leave his car where it would start easy.

The magistrate pointed out that this was a recent offence from speeding and allowed a fine of \$10 to stand.

R. J. Keen, reported by Detective Saunders for fast driving in Charlotte street at midnight, June 6, denied the charge. He said he was not driving. The detective said that Keen was in the car at the time and had told him that he was driving while another man in the car said that he was doing the driving. The officer said he could not swear that Keen was driving the car.

The magistrate said that if he thought that Keen was driving while under the influence of liquor he would have no hesitation in sending him to jail without a fine.

POINT IN LAW.

A point of the law of interest to motorists was brought out when the magistrate said that if the owner was present in the car he could control it by being the owner although not actually driving and it was just the same if the owner had the keys in the wheel or was in the back seat asleep if not present in the car he would not be liable. A fine of \$10 was struck against Keen.

SAINT JOHN MAN IN RED LAKE DISTRICT

S. A. Cheeseman is on Forestry Service Hydroplane Staff

S. A. Cheeseman, son of Mr. and Mrs. Walter Cheeseman, Albert street, is now working on the forestry service hydro plane which made a recent patrol trip from Sioux Lookout and took the first mail into the Red Lake mining district in five weeks. An article dated Red Lake, May 26, tells of the stampee of prospectors in the district and refers to the coming of the hydro plane in the following paragraph: 'As yet mail service in Red Lake has not been resumed for the summer, and though scraps of news have been picked up daily over Douglas Wright's radio in the Dome office, newspapers are eagerly awaited. At noon today the forestry service hydro plane called here on its patrol from Sioux Lookout. Pilot J. C. Ruz, Observer J. O'Gorman, Engineer S. A. Cheeseman, and Deputy Ranger J. McLeod were on board, and they brought Red Lake the first batch of letters it had in five weeks. There are three forestry planes at Sioux Lookout and within a few days they will be moved to Pine Ridge, where headquarters for the district will be located. Their arrival has been greeted with a good deal of satisfaction, as the forest is drying up quickly and there is great need for prevention with such diversity of men in the country.'

COMMUNITY CLUB PLANS FOR SUMMER

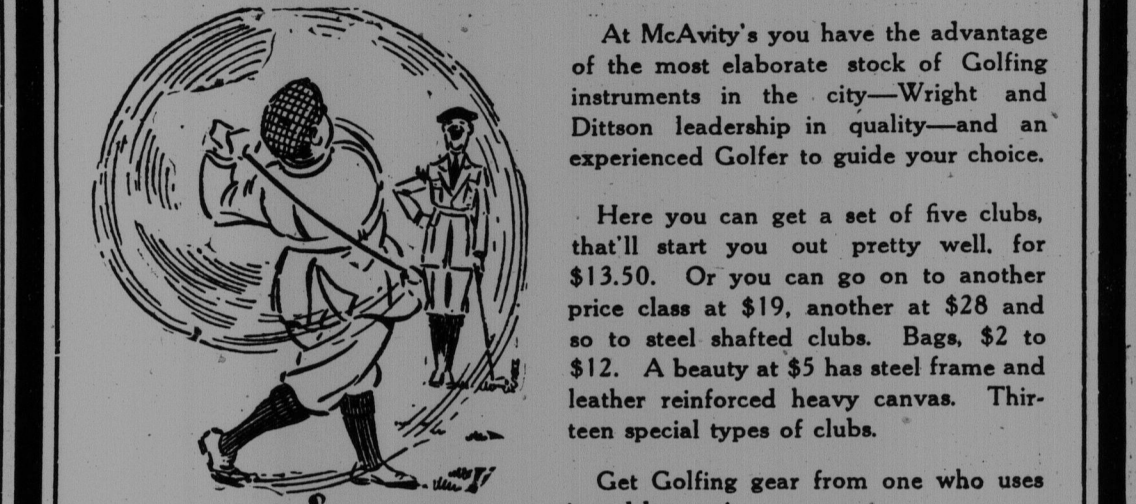

Quispamsis Organization Elects Thomas C. Wilcox President—Committees Named

At the annual meeting of the Quispamsis Community Club, held last evening, reports showed the club to be flourishing. Plans for the summer were discussed. Officers were elected as follows: Thomas C. Wilcox, president; Howard Clark, first vice president; Arthur Saunders, second vice president; George M. Saunders, secretary; Miss Florence Garvell, treasurer; Andrew McIntosh, G. M. Saunders and Oswald Saunders, trustees; G. M. Saunders, Joseph Chamberlain, and Thomas C. Wilcox, Saturday night dancing committee. Mrs. A. McIntosh was reappointed as convener for the weekly card parties. These proved a great success during the winter and may be continued this summer.

Denies Threat To Shoot His Wife

John Jamieson, before Magistrate Henderson in the police court this morning pleaded guilty to being drunk and was fined \$8 or two months in jail. He also was charged with using threatening language to and assaulting his wife on January 30, which charge he denied. His wife testified to being separated from her husband and said he had gone to the place where she was rooming and produced a revolver and threatened 'to put an end to them both.' He also grabbed her by the arm. Jamieson admitted that he had entered her room and was drunk at the time, but said he did not threaten to shoot her. He was remanded to find sureties to keep the peace.
