HARRINGTON IS
PRESSING FOR
EARLY MEETING

Peace Conference May Last
Two or Three Months

Allies Want Neutral City as
Place of Assembly, Object
to Smyrna or Constantinople—Dominions May be
Represented.

(Canadian Press Cable)
Constantinople, Oct. 13.—Gen. Sir Chas. Harington, the British commander in chief here, will press the allied powers for an early convening of the peace conference which he believes will be the most important council of world powers since Versailles.

Constantinople, Oct. 13.—The Greek patriarchate will be moved from Constantinople to Mount Athos unless effective guarantees for the safety of the Christian population are given by the forthcoming Near East peace conference. This announcement is contained in a telegram sent by a mixed council of the Greek hierarchy to the foreign ministers of the allied governments, demanding protection.

Constantinople, Oct. 13.—The possible participation of the British dominions in the peace conference which is expected to bring about a final settlement of the Near East problems is one of the questions now being discussed in connection with the arrangements for the meeting, which it is said will likely be held in a European city. The foreign office is now at work on the detailed plans for the conference and there is much speculation as to the personnel of the delegations and other phases of the arrangements.

Constantinople, Oct. 13.—The possibility of Hon. W. S. Fielding and Hon. Ernest Lapointe, who are in Europe, representing Canada at the Near East peace conference, was being discussed in semi-official circles here last night.

Constantinople, Oct. 13.—Samuel Haseproug, administrator of the British mandate in Palestine, was here today for a conference with the British High Commissioner in Constantinople, Sir Ronald Storrie, on the subject of the proposed armistice with the Greeks, according to a semi-official report.

Constantinople, Oct. 13.—The possibility of Hon. W. S. Fielding and Hon. Ernest Lapointe, who are in Europe, representing Canada at the Near East peace conference, was being discussed in semi-official circles here last night.

Tells of Time When War Seemed Almost Inevitable

Four Factors Which Entered Into Situation, Making the Armistice With the Turks Possible—Ultimatum in His Pocket as He Spoke the Final Word.

Constantinople, Oct. 13.—Allied circles today unite in giving Gen. Harington warmest praise for his skillful handling of the difficult armistice negotiations. He had received from the British cabinet permission to employ the fullest military measures to bring strong pressure to bear, but despite the belligerents to terms, but despite the pressure from some of his own officers and continued importunities from broad, he referred to countenance resort to arms and placed all his faith in an appeal to reason.

Conservatives May
Trust Chamberlain
As Unionist Chief

Support Him Only if He Quits Lloyd George and Coalition

Believed He Will Refuse to Meet Their Wishes—Name Derby or Bonar Law as Possible Successor—Interested Keen in Chamberlain Speech Today.

(By Associated Press.)
London, Oct. 13.—Discussion of the political crisis again fills the principal columns of the newspapers this morning. The outstanding feature of the situation is an increased indication of the hardening of the Conservative opposition to Austen Chamberlain's continuance as premier of the Unionist party unless he cuts loose from Premier Lloyd George and the coalition.

That he will do this is regarded as being convinced that continuation of the coalition is not only desirable but inevitable, as no party is likely to emerge from an election with an independent signing. Moreover, it is said that he would in any case refuse to lead the party against his colleagues in the cabinet, with whom he has no political disagreement and for whom he cherishes close personal friendship. This being so, Conservatives say, he must resign his leadership, for they have done with Lloyd George and all his policies.

The Morning Post, mouthpiece of the more extreme Tories, cites this view in an editorial today. "Mr. Chamberlain," it says, "is putting loyalty to the premier before loyalty to his party, and he cannot continue his leadership. The Conservatives, who are determined to discontinue his leadership, are now in a position to do so. They will do so if he does not resign his leadership, for they have done with Lloyd George and all his policies."

The decision of Mr. Robb affects approximately 1,200 men.

The strike of 1910 resulted from the trainmen's demands for increased wages, proportionate to those paid on other Canadian lines. This led to a board of conciliation being formed, resulting in the usual majority and minority reports. The former recommended a gradual increase in pay until the standard of the C. P. R. was reached, with standardization of working conditions with pay according to mileage. No satisfactory arrangement could be arrived at and the strike began July 18, 1910, and continued until August 2, 1910. The 4,500 men on strike were notified that if they did not at once return to work, they would be considered as dismissed employees and their pensions and seniority rights cancelled.

CHAMBERLAIN
STANDS BY
THE COALITION

Birmingham, Oct. 13.—Austen Chamberlain, the government leader, addressing the Midland Conservative Club here today, declared it would be criminal to break up the present coalition in view of the labor menace.

"I do not pretend to say when an election will occur. It is the undoubted right of the premier to choose," Mr. Chamberlain said.

At another point, Mr. Chamberlain added he had worked with Mr. Lloyd George in perfect harmony. He has told us "I know not when an election will occur."

Mr. Chamberlain's declaration in favor of a continuation of the coalition was immediately seized upon by many speculators. The speaker defended his own action as leader of the Unionists in supporting the government and he defended the government's foreign policy on the ground that it had prevented the war in Asia Minor from spreading into Europe.

Mr. Chamberlain said the premier had acted with perfect loyalty towards his unionist allies. GRAND TRUNK MEN
HAVE SENIORITY
RIGHTS RESTORED

Pensions Also—Decision in Matter of Employes Who Struck in 1910.

(Canadian Press)
Montreal, Oct. 13.—It has been announced that the pension and seniority rights of Grand Trunk Railway employees, comprising conductors, trainmen and yardmen, who took part in the railroad strike of 1910, are to be restored. The news was communicated to the men by John Maloney, chairman of the Brotherhood of Railway Trainmen, and Thomas Todd, chairman of the Order of Railway Conductors.

When the men returned to work after the strike in question, it was, they have long contended, with the understanding that the conditions under which they resumed work included the restoration of their pension and seniority rights. The brotherhood chairman, in making the announcement, told the men that W. D. Robb, the new vice-president and general manager of the Grand Trunk, was of the opinion that there had been a misunderstanding and that he therefore had ordered the restoration of the rights lost during the strike.

THE STANDARD
OIL GROUP WEAK

Break in the New Jersey—Stock in Wall Street—Brisk in Montreal.

New York, Oct. 13.—(10:30)—Strength of Standard Oil and Mexican Oil Group featured today's irregular opening of the stock market. The advance in the oil group was led by Chicago and Northwestern and Missouri Pacific, each of which were up a point, while Mexican Petroleum, up four, and Standard Oil of New Jersey, up two, were also strong. The sharp break in Standard Oil of New Jersey, speculative disappointment over the fact that the 400 per cent stock dividend involved no increase in the present rate of cash payments. It yielded later to 225-1/4.

Standard Oil of California dropped 1-1/2 in the last half hour. Sugar stocks were strong in response to increased prices. American and Manant Radiator broke 2-3/4 and weakness also was noted in Famous Players, International Paper, National Lead, Baldwin and Union Pacific. National Biscuit, U. S. Alcohol and Studebaker were strong.

Montreal, Oct. 13.—An increase in the number of large ocean passenger liners which the St. Lawrence route is to port is indicated by the announcement here by the White Star Dominion line that the S. S. Doris, sister ship of the Regina, will make the early May 1923 sailing to Montreal and will thereafter be placed permanently on this route.

Philadelphia, Oct. 13.—Unqualified success of a serum remedy for diabetes, prepared by physiologists of the University of Pennsylvania, was announced here by Alfred Stengel, professor of medicine at the University of Pennsylvania. A small quantity of serum was sent to the university for physicians to use experimentally. The disease has heretofore baffled doctors.

"I regard the serum as one of the big discoveries of the age in medical science," said Dr. Stengel. "So far as we have been able to discern, its results have been entirely satisfactory. After using it we have found a great improvement in the patients to whom it was administered."

"I think it is an absolute cure for diabetes, but people must not imagine that it is a cure for everything."

Ottawa, Oct. 13.—Two prominent Canadians, Joseph L. Murray of Renfrew and George H. Boivin, K. C., M. P., of Granby, Que., were last night invested with the honor and title of Knight Commander of the Order of St. Gregory the Great, before a representative gathering of Knights of Columbus and others in the Chamber of Commerce.

The investiture was carried out by His Excellency Pietro Di Maria, papal delegate. The titles were conferred by His Holiness the Pope as a mark of recognition of the work accomplished by Mr. Murray and Mr. Boivin in organization and promoting of the Catholic army unit movement.

Following the investiture, the recipients of the high honor were tendered a banquet by the fellow knights, at which Mr. Justice Latchford presided. The speakers were: Mr. Justice Latchford, His Grace Archbishop Emard, His Lordship Bishop Ryan, Mr. Murray, Mr. Boivin, Hon. George G. Graham, Right Hon. Arthur Melgren, Rev. (Major) J. J. O'Gorman, Rev. (Captain) DeJardin, J. E. McClade and Judge J. A. Mulligan.

Moscow, Oct. 13.—The council of commissars has authorized the issue of state bank notes which are to be called "Tschervonty" the ancient name for Russian gold pieces.

The new Tschervonty will be equal to ten gold rubles, the notes to be in denominations of from one to fifty. The amount issued will be guaranteed by gold, silver, short time notes and goods.

Chanak, Oct. 13.—A general retirement of the Turkish troops from the immediate vicinity of Chanak is in progress.

Will Shoot Woman and Man as Spies
Kiev, Oct. 13.—A Russian woman, Natalie Wysokouova, and a Captain Soulsky, convicted of espionage, have been sentenced to be shot. They were accused of furnishing information to the French military mission in Warsaw during the anti-Soviet campaign conducted by General Baron Wrangel and General Denikin.

Fairly A Little Cooler.

ALL SAVED.
The steamer West Farolan reported yesterday that all the officers, crew and passengers from the burning liner City of Honolulu, which was abandoned yesterday morning, were safe on board the West Farolan. The City of Honolulu was formerly the Friedrich der Grosse.

DEATH OF GIRL.
Frances Isabel Nugent, elder daughter of Mr. and Mrs. Frank Nugent, died last evening at her home, 106 Robeson avenue, after a brief illness. She had not been in good health for some time, but her condition was not considered serious until three days ago. Besides her parents she is survived by one brother and four sisters. Her funeral will take place on Sunday afternoon at 2:30 o'clock. Those bereaved will have the sympathy of many friends.

Sikh Found Guilty of Murder of Youth in North Vancouver.
Vancouver, B. C., Oct. 13.—T. Singh, a Sikh, was found guilty last night of the murder of a sixteen-year-old countryman named Hunka Singh, last spring in North Vancouver. He was sentenced to be hanged on December 29 next. The jury debated two hours, the accused persisting in his plea of not guilty and then listening to the sentence of death with composure. Before leaving the court for the cells he bestowed his fellow Sikhs, who crowded the court room, the "Hail and Farewell" of his race, pronounced from behind upraised palms.

Injunction, or The
British Government
Will Make Protest

Action re Daugherty Order Against Liquor on Ships

Will Intervene if Lines Fail in Combatting Bone Dry Regulations—Cunarder on the Way With Customary Stock—St. Lawrence Benefits.

(Canadian Press Cable)
London, Oct. 13.—Unless an injunction is granted the Cunard line, British government probably will protest formally through the foreign office against the ruling prohibiting liquors on foreign ships in U. S. waters, it was said in official quarters today. Officials here, however, express the opinion that an injunction will be granted in the U. S. courts.

It is understood the government takes the attitude of remaining in the background and leaving the private lines to take the lead, but that it will intervene in the event of the failure of these efforts.

London, Oct. 13.—The United States line steamer George Washington left Southampton yesterday, for New York with no liquor on board.

The Cunard line steamer Scythia, however, left Liverpool for New York carrying her customary stores of alcoholic beverages.

"We know nothing about a test case in the U. S. on the Daugherty decision," said an official at the Cunard line offices at Liverpool.

Washington, Oct. 13.—In an order promulgating tentative regulations for enforcement of the Daugherty bone dry prohibition ruling, the bureau of internal revenue has announced that U. S. ships which voluntarily had surrendered their stocks of liquor in American ports would be permitted to take such stocks aboard again provided they are sailing prior to Oct. 14.

**SAY MINISTERS
MUST NOT SMOKE**

Methodist Conference Decision in Toronto—Probation Term Extended to Six Years.

Toronto, Oct. 13.—No more shall the ministers of the Methodist Church in Canada indulge in the habit of smoking. This was decided tonight by the delegates of the general Methodist Conference when they approved a memorial presented by Rev. W. E. Milson of London, Ont., to reinstate in the book of discipline examination from the words: "And will you continue to abstain therefrom?" so that when a probationer about to enter the ministry is being exhorted to abstain from the use of tobacco it shall be incumbent upon him to answer this question in a positive manner. Some years ago the committee on the course of study dropped the question from the discipline, but since that time there has been an outcry in many sections of the church against the habit of smoking by some ministers of the church, so that when the motion of Rev. Mr. Milson was presented to the conference it met with ready support.

Chancellor Bowles of Victoria College, Toronto, was elected as fraternal delegate to the British Wesleyan Church Conference, Rev. Dr. J. W. Graham, Toronto, as fraternal delegate of the Methodist Episcopal Church North of the United States, and Rev. T. W. Kirby, principal of Mount Royal College, Calgary, to the Methodist Episcopal Church South of the United States.

The period of probation for young men entering the ministry was extended to six years.

Dress goods, tweeds, serge and flannels for less money at Bassett's, 14-16-18 Charlotte street. 1076-10-16

At the monthly meeting of the Children's Aid Society last evening with the first vice-president, Mrs. W. B. Tennant, in the chair. A resolution expressing regret for the illness of the president, A. M. Belding, was passed. The resignation of David Hipwell, a member of the board of management was received with regret.

The monthly report of the agent showed that since the last meeting he has received altogether a total of cash donations of \$97, as well as a barrel of apples, all of which have been properly acknowledged. Besides donations of vegetables have been received at the Home as well as a pair of candy. Three children have been admitted to the Home. Besides these applications for admission were received on behalf of five infants varying in age from three months to a year and a half. It was found possible, however, to make other arrangements for each of these little ones. There are now twenty-two children in the institution at 68 Garden street.

Rev. A. L. Fleming delivered an illustrated lecture last evening in Zion church taking as his subject, "People of the Polar North." The slides portrayed the mode of living of the Eskimos and other interesting features in connection with their lives. The speaker was tendered a hearty vote of thanks.

BACK ACTION FOR REPRESENTATION
A new Brunswick representative on the newly appointed Canadian National Railways board formed the subject matter of a resolution from the St. John Board of Trade which was favorably considered by the provincial government in session here yesterday afternoon. This announcement was made last evening by Premier Foster, who added that the government was ready to throw its whole weight and influence back of the demand.
The matter of the existing car shortage in the province was brought to the attention of the government and action will be taken. It was shown that a considerable shortage prevails at an important time when the lumber movement is very marked and it was felt that this portion of the system should not be starved to the advantage of the other parts, particularly the western sections.
The premier's announcement relative

GROW NATIVE TREES.
(Dominion Forestry News Letter).
Some years ago a Canadian forest engineer who was doing some work in the centre of one of the second tier counties northward from Lake Ontario, met a man who was fencing-in a hundred acre lot. The land was what is commonly known as a pine barren, an area once covered by a pine forest, but since that was clean cut off and burned over, practically a useless waste. "Any farms taken up in the area had been abandoned, and the repeated fires and the running of cattle had up to that time frustrated, although around old trees that had been left clumps of young trees were bravely making a start.

Learning that he was talking to a forest engineer, the man doing the fencing proceeded to explain that he was a Canadian, who had resided a long time in the United States, and that he had now come back to Canada to try his fortune in growing soft-shelled walnuts on this cheap land. The forest engineer said that growing trees was a good investment, if a long-time one, but he asked, "Why plant soft-shelled walnuts?" "Because Mr. Blank" (naming a celebrated botanist) "personally assured me that they were the most profitable kind of trees. One has only

to meet you halfway? Walnuts are a gamble, pine is a certainty." However, the walnut man with his California guarantee was not to be dissuaded. He spent considerable money in planting soft-shelled walnuts, and is now back in the United States at his old job, convinced that forestry is a fraud. In the meantime, the white pine

has continued to come back and in a few years there will be a county forest of fine young pine in the township in which his soft-shelled walnuts were a failure. It is a good plan to experiment with exotic trees, but as a business proposition it is better to start growing the best of our Canadian native species, than which for the production of structural timber there are no finer in the world.

THE STRAIGHT ROAD IN HYDRO

The citizens of St. John, in a month from now, will elect a new Mayor, a hydro Mayor of the real, public-spirited-hydro type.

The new Mayor—the selected candidate of the real, public-spirited-hydro forces—must not only know where he is going, but he must lead his fellow citizens down, in advance, publicly, and with perfect clearness, where he is going.

That plain and open road has been filled with obstructions for more than a year, but the citizens have removed some of these, and they will remove the others, and march through to their objective.

With power available at a maximum of 12 the well-wishers of St. John, the citizens who stand for simple justice, and who are determined to have these things, have every card in their own hands. They cannot be betrayed, unless by spathy or failure to apprehend the basic facts, they betray themselves.

By making it possible, and more profitable, to increase the consumption of British goods by the people who collectively produce and deliver the goods.

The object for which the exhibition is being organized is one which merits the support of every part of the Empire, and undoubtedly the details of the project which will be presented to the Dominion cabinet today will receive careful and sympathetic consideration.

A very simple fact, with which some citizens seem not to be acquainted, or to which they resolutely shut their eyes, is that a certain weight of water, falling a certain distance, will produce in New Brunswick precisely the same amount of energy that it produces in Ontario, or in California, or in a hundred other places where the people have hydro and the wonderful benefits of cheap hydro.

The authorities in New Jersey are still struggling with the Hall-Mills murder mystery, which has developed many curious and unexpected angles.

Probably no man ever took up such a job as his under greater difficulties. The first of his difficulties arose when Lord Claude Hamilton, chairman of the Great Eastern in 1914, said that no day soon stands at bay there will be half flying.

"Little Hen Thornton" Wanted To Be Bishop

Old-timers in Logansport, Indiana, says the New York Times, have been gathering around the town grocery store these last few days awning yarns about "little Hen Thornton," who used to live there.

Probably no man ever took up such a job as his under greater difficulties. The first of his difficulties arose when Lord Claude Hamilton, chairman of the Great Eastern in 1914, said that no day soon stands at bay there will be half flying.

MR. MCKENNA'S SPEECH

(New York World.) It is not to say that the world has been written throughout the world these last three years on the subject of reparations and debts, there has been nothing so brilliantly lucid and unimpeachably fair-minded as the address delivered yesterday at the Banquet Convention by the Right Hon. Reginald McKenna.

A More Austere Religion.

The Church, we believe, would make greater headway than it does against the massed and increasing forces of materialism if it boldly renounced the adventitious aids which, in more picturesque medieval or renaissance times, moved an unlettered and oppressed, and preached to an over-harassed, anxious and complex civilization a simple and austere religion.

America's New Army.

(Vancouver World.) Congress has passed, the president has signed, and the public of the United States has accepted a military organization which contemplates the employment of fifty-four divisions on a continent where no military danger is conceivable from north or south, while both eastern and western shores are guarded not by channels or narrow seas, but by oceans.

It is easy enough to say that a man has succeeded, but much more interesting to inquire into the reasons of his success. In Logansport they say that "little Hen" wanted to be a bishop—just why nobody knows.

The American democracy when at its strength under its reorganized system will possess the second largest army in the world, France, of course, possessing the first.

New Paths Opened In Double Murder Case

Pearl Bahmer Has Been Held on Charge of Incurribility

Conflicting Stories—Girl has Sought to Convey the Impression That Schneider Knows More About Slaying of Minister and Woman Than Does Hayes.

New Brunswick, N. J., Oct. 13.—Prison bars have closed on another important figure in the Hall-Mills murder mystery—but the incarceration, instead of helping clear the labyrinthine tangle of clues and counter clues, served only to emphasize the difficulties the authorities are encountering in their efforts to check up the evidence on which 19-year-old Clifford Hayes stands accused of the double-slaying.

The third to go to jail was Pearl Bahmer. She is the 15-year-old girl whom Raymond Schneider says Hayes thought he was slaying, with her father, when, according to Schneider's story, Hayes pumped four bullets into the bodies of Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills, on the night of September 14, beneath an apple tree on the deserted Phillips farm. Schneider is held as a material witness.

Pearl was not officially jailed in connection with the Hall-Mills case. The charge against her—which she calmly admitted—was incurribility. Prosecutor Stricker, of Middlesex county, who has been active in the investigation of the Hall-Mills case, appeared personally against her, however, County Judge Daly, before whom the hearing

was held, departed from the rule of secrecy in juvenile cases and threw his court open because, he declared, the people "have a right to know why she is being put in jail."

At the end of the hearing, after she had testified to intimacy with Schneider and her father, she was officially committed for a week, pending a decision on the incurribility charge. Unofficially, it was said that she was being given a chance to "think over" the conflicting stories she has told. An addition reason for her incarceration was said to be the fact that she was too difficult to find when she was wanted for questioning.

Father Arrested.

Nicholas Bahmer was arrested as a result of the charges preferred by his daughter and was lodged in jail after he had been held in \$10,000 bail following his arraignment.

Pearl, who was with Schneider when the bodies of Mr. Hall and Mrs. Mills were found two days after the murders, on more than one occasion has given newspaper men working on the case reason to believe she knew more than she was telling. Incidentally, she has turned against Schneider, once admittedly her sweetheart, and has sought to convey the impression that he knows more about the murders than Hayes, whom he accused of the crime.

Schneider, it was disclosed, told four different stories about his knowledge of the slayings before he reached the story of Hayes' commission of the crime, on which the authorities acted.

After he had been trapped in previous statements, said a state trooper who was present throughout the long grilling, Schneider would say: "Well, let's go back and start all over again. I'll tell the truth this time."

cut Mrs. Mill's throat after the shooting, although the autopsy showed the head had been almost severed. There are almost as broad discrepancies in his story of his whereabouts on the night of the murders, as in that told by Pearl Bahmer, Schneider said he was with Pearl for several hours that night, before he saw Pearl going out with her father and started trailing the pair with Hayes.

Pearl first said he was with her until about nine o'clock. Then she said he was not with her at all. Detectives say they have presently established that he was not with her, and they are trying to check up his movements between eight and eleven o'clock—the period in which the murders are known to have been committed. Schneider says it was about one o'clock when Hayes shot the minister and the choir singer "by mistake." All other witnesses have agreed that the screams and shots which must have been written into the Hall-Mills romance, were heard at about 10:30 o'clock. Hayes, in the meantime, lay in the county jail at Somerville, awaiting action by the Somerville grand jury, and protesting his innocence of Schneider's charge. He adhered to his story that he and Schneider had come upon the bodies of the slain pair while hunting for Pearl and her father, that Schneider had stolen the minister's watch, and that they had both decided to say nothing about their find.

Attorneys Promise Surprise.

Somerville, N. J., Oct. 10.—Former State Senator Brown T. H. Hayes, gentry, attorneys for Clifford Hayes, being held on a charge of first degree murder for the shooting of the Rev. Edward Wheeler Hall and Mrs. James Mills, held a four-hour conference with their client in the Somerset county jail. The attorneys said that they would prepare a statement based on this conference which would "surprise the world." They said they had questioned Hayes minutely on his movements for a week before the crime and a week afterward, and that throughout the examination he was quiet, composed and confident.

Hayes is Cleared.

New Brunswick, N. J., Oct. 13.—Clifford Hayes, held in the Somerville, N. J. jail for four days on a charge of killing Rev. Edward Wheeler Hall and Mrs. Eleanor Reinhardt Mills, was released yesterday when his accuser, Raymond Schneider, told the district prosecutor that he had made up the story against Hayes as a revenge for stories he thought Hayes had been telling about him.

the concern, so Hausler gave up marrying personally and selected as agents young men who were mildly insane, in view of the fact that the marriage code holds insane persons irresponsible. The half-wits made successful wooers, acting as if they were perfectly sane so long as they held their titles, and for a time business seemed on the high road to colossal success.

But when Hausler's first two wives met at a reception in the circle of society to which they had been elevated, it was discovered that they had a husband in common, title and all. It was their joint determination to be avenged that led to the downfall of the title magnate and the end of his career as the titular head of the title trust.

"TITLE" MAGNATE COMES TO GRIEF

Arrested After Marrying Seventeen Would-be Countesses.

Berlin, Oct. 13.—A corner in the market for titles of nobility came crashing down with the arrest of Ewald von Hausler, who until a year ago was a mere office manager. As a result of the collapse of his title trust mothers who aspire to wed their daughters to the sons of noble families are obliged to deal directly with the holders of the titles instead of getting the advantages of wholesale rates as promised by Hausler's well-organized business.

Since the arrest of the magnate already seventeen erstwhile countesses bearing Hausler's name have presented themselves to the authorities, telling how they were duped. It is believed that many more were similarly victimized, but fear to face public ridicule.

Hausler, who comes from a genuine noble family, bestowed his name upon Hilda Kutner during the latter part of the war, receiving a dowry of several thousand marks. A short time later he married another girl, receiving an even larger price in exchange for his blue blood. Following such signal success, Hausler placed the title trade upon a business basis. His agents brought from far and wide the names of families whose daughters were seeking alliances with the nobility. How many he himself married the authorities do not know.

But the business grew rapidly and he added a department of forged pedigrees, hiring a corps of young men to bear the titles thus produced, wed girls who coveted them and bring the hot back to the firm's treasury. Legal advisers to the trust hinted that there might be penalties for the operation of

LOCAL NEWS

ENGAGEMENT. Mr. and Mrs. Edward W. Morrison of Bathurst, N. B., announce the engagement of their daughter, Mary Gweneth, to John McLean Fraser, son of Mr. and Mrs. Wm. A. Fraser of this city, the marriage to take place at an early date.

TO WED IN BOSTON. Friends of Miss Mary Higgins gave her a pleasant surprise when they called upon her on Thursday evening and presented to her many dainty and useful gifts. Best wishes were extended to her for a happy future. She will leave on Monday evening for Boston, where she will be married at the latter part of the month.

NOT ON BUSINESS. E. S. Dunby, of Ottawa, chief inspector of the excise department, arrived in the city on Wednesday for a visit. He is not here on official business, it was stated by officials of the customs department this morning, but is paying a holiday visit here following a shooting trip which he made near McAdam, accompanied by his two sons.

CARRIES PASSENGERS. The government steamer "Arctura" which was secured by the C. P. R. to replace the Empress on the St. John-Digby route, completed her first trip last evening, arriving in port at 7.20. She brought fifteen passengers across the bay. This morning she again sailed with passengers and general cargo.

MORE DOGS LICENSED. There are either more dogs in the city this year than there were in 1921, or the owners are more particular in having them licensed. Last year there were yet more than two months of the year remaining, more licenses have been issued to date than during the whole of 1921. The total registrations number 1,183 this year as compared with 1,166 last year.

WATER RATES PAID. Out of an assessment of \$182,000, about \$143,400 in water rates was paid during the discount period, which ended yesterday; this makes the assessment about 79 per cent paid. Last year the assessment was \$176,000 and payments in the discount period were \$137,234, or about 78 per cent.

ON POTATO BUSINESS. W. C. Robinson of Sackville, who is in St. John on his way to the southern United States as a representative of the Westmorland county potato shippers in an effort to open up a market there, was a caller at the local Board of Trade office this morning. He signified his intention of going to Woodstock today for information as to export possibilities in that part of the province. He is expected to return tomorrow and to leave for Norfolk, Va., soon.

DEATH OF ALEXANDER RAMSEY. Alexander Ramsey, a well-known resident of the North End, passed away this morning at his home, 464 Main street, following a brief illness. Mr. Ramsey, who was seventy-three years of age, was born in St. John and spent the greater part of his life here. He was a tugboat engineer on the waterfront until about five years ago, when he retired. He was a member of St. Luke's church. Besides his wife, he leaves five sons, William A., Hiram, Matthew and Thomas F., of St. John, and Ernest W. E. of Vancouver, and four daughters, Miss Helen of New York, Miss Julia, home, and Mrs. John Silliphant and Mrs. Harry Major of St. John. Many will be sorry to learn of his death and will sympathize with those bereaved.

PLEASANT EVENING. The social committee of the Women's Society of the Church of the Assumption entertained the members in their rooms in West St. John last evening. They presented a musical sketch entitled "The Old Fashioned Garden." The stage in their hall was artistically and appropriately decorated and the members wore old fashioned costumes. Mrs. C. O. Morris sang "Silver Threads Among the Gold," Miss Agnes Donovan, "When You and I Were Young Maggie," Miss Marion Farren, "Just a Song at Twilight," during which Miss Nellie Johnston, Mrs. Mow, Miss Julia O'Reilly and Miss Louise Driscoll danced the minuet. Mrs. H. McDonald officiated as accompanist. The social committee is composed of Mrs. Morris, convener; Mrs. A. J. Mulcahy, Mrs. James McMurray, Miss Louise Driscoll, Miss Julia O'Reilly, Miss Marion Farren, Miss Agnes Donovan and Nellie Johnston. Following the entertainment the executive entertained the members at a luncheon.

TRAFFIC CASES. W. G. Gunn was charged this morning with speeding in Douglas avenue on Wednesday evening. He said he was out of town on that evening. The case was postponed.

Walter Johnson was charged with making a wrong turn, refusing to stop when ordered and with not having his rear license tag properly displayed. He pleaded not guilty. Sergeant O'Neil said the car driven by the accused had made the wrong turn at the corner of Union and Rodney streets on Tuesday last around the silent policeman. The tail-board of the truck was down and he had been unable to get the number. Soon after the accused passed him again and he had tried to stop him but had been unable to do so. He had got him. Police Officer Gorman corroborated this evidence. Johnson was fined \$30 and the fine allowed to stand.

Henry Cooper was charged with making the wrong turn at the corner of Main and Adelaide streets. He pleaded guilty, saying that the other side of the street was slippery and his horse had slipped there before so he did it to save the horse. Sergeant Ramsey said the pavement was not slippery and the accused had made the wrong turn in order to get ahead of another team. A fine of \$10 was allowed to stand. Hazen Meldrum was fined \$10 and the fine allowed to stand on a charge of driving on the wrong side of Douglas avenue. He said he had done it in order to get into a narrow driveway. Policeman McBrien made the report.

Judge Barry Taken Ill; Murder Case To be Tried Again

His Honor Dismisses Jury in Kent County Case

Condition Not Serious, But His Doctor Advises Adjourning of Court and Rest for Judge—New Jury When Court Resumes on Nov. 21.

(Canadian Press.) Richibucto, N. B., Oct. 13.—In the case of Ernest McEachren charged with the murder of Gordon Mesheau at Mill Creek, on May 1, the jury was dismissed this morning and court adjourned until 11 a. m. Nov. 21.

On Thursday afternoon, after the evidence of one witness, Donald Mesheau, brother of the deceased, had been heard, Judge Barry, before whom the case is being heard, was taken ill. Dr. Arsenault, who was summoned, advised that court be adjourned and that His Honor receive rest. Today it was found necessary to further adjourn the case. His Honor's condition, however, is not considered serious. A new jury will be empaneled when the trial is resumed, fifty jurors having been summoned to appear on Nov. 21. The prisoner has been remanded to jail.

HEAR ABOUT DOG THROWN OUT OF WINDOW

The case against George Galbraith, charged with cruelty to animals, in throwing a dog from the window of the Empress Hotel, King Square, was taken up this morning in the police court. He previously had pleaded not guilty. S. Merritt Wetmore was present in the interests of the Society for the Prevention of Cruelty. J. A. Barry represented the accused. Several witnesses were examined and the case adjourned until this afternoon at 2.30.

Mr. J. Verner McLellan said she had been in her room in the Letour Hotel on that day and had seen the dog lying in the street. She had telephoned to the police station for someone to come. She had then gone down to where the dog was and had seen Policeman Doherty shoot it.

A. G. Raimie said he had seen the shadow of the dog as it passed his window, which was just under the Empress Hotel. He had told someone to telephone the police. When he went into the street he had seen that the dog had been thrown from a second storey window.

John Comeau testified that he had been standing in front of the Park Hotel and had seen the dog strike the pavement. He had seen it strike the pavement. He had seen an open window.

Richard Canty said he had been in the hotel on that afternoon. He had got up and come down stairs to where the accused was. The latter had told him that if he was asked if he knew anything about a dog on the premises he was to say he did not. Doherty said he had been present and had said that they were all going out and the witness would have to go to the police station to investigate.

TELEPHONE MATTER AGAIN CONSIDERED

Cambridge Case Before Public Utilities Commission—Maine and N.B. Light and Power Co. Wants to Issue \$25,000 Debentures.

Further consideration of an application from the Cambridge Farmers' Rural Telephone Co. for permission to make long distance connection with the New Brunswick Telephone Co. was given at a meeting of the New Brunswick Public Utilities Commission this morning. It is expected that the case will be concluded this afternoon.

The commission also heard an application from the Maine and New Brunswick Electric Light and Power Co. for the approval of an issue of securities to the extent of \$25,000.

INVESTIGATING GLEN FALLS FIRE

Midnight Visitors Alleged to Have Been Seen by Owner of One of Two Houses Burned Sunday Morning. Circumstances have been reported in connection with the burning of two houses at Glen Falls on last Sunday which have led to an investigation being carried out by Hugh H. McLellan, provincial fire marshal. The houses were destroyed between three and four o'clock on Sunday morning by a fire which originated in one of them, which was unoccupied.

Mr. McLellan said this morning that the owner of the other destroyed house had told him that he was awakened about midnight by hearing someone on the veranda. Going down stairs he had found a man, aged about forty, and a woman, perhaps half that age. The householder asked the pair what they wanted and they said they were looking for a road house which was in the vicinity. The resident directed them on their way and returned to bed. He told the fire marshal that he was awakened by the fire in the house next door, which apparently had not been entered, the fire being centered round a small porch at the front entrance.

Mr. McLellan said that so far he had been unable to locate any further trace of the man and woman who were alleged to have been in the vicinity.

GIACOMO SAVES GEMS GIVEN BY ROYALTY

Famous Italian Buffoon is Forced to Leave Most of Fortune in Russia.

Roma, Oct. 12.—Giacomo, king of Italian clowns, who is back in his native land after twenty-five years of wandering about the world, has had many strange experiences in that time. For seventeen years he was in the Russian Imperial Circus at Petrograd. He became a favorite of the late Czar's family and witnessed their departure for exile.

He carried a letter from Grand Duchess Maria Petrovna to the Queen of Italy half way around the world, and still possesses some valuable jewels presented to him by the Czar.

When the revolution came Giacomo, who had piled up a small fortune, found that he would have to depart with only a small sum under the passport issued by the Soviet Minister of Art. He witnessed the departure of the Czar's family when they were sent into exile, and managed to get close enough to the Grand Duchess to receive a letter from Queen Elena.

He crossed to Siberia and arrived on the Pacific coast of America where he entered motion pictures, earning enough to get to Washington, where he handed over the letter to the Italian Ambassador, who dispatched it by courier to Queen Elena.

Now the clown is back in his native land mourning the loss of his 100,000 rubles of the old-fashioned value, but he says he is content to drop his career as a capitalist and become a mere clown again.

FINDINGS OF INQUIRY COURT

Master and First Officer of the Wrecked Empress are Reprimanded, But Retain Certificates.

The finding of the court of inquiry into the stranding of the steamer Empress was given yesterday. It did not annul the certificates of Captain Andrew McDonald but reprimanded him severely and cautioned him to be more careful in future. The same action was taken in the case of First Officer Arthur H. Sweeney. He was advised to be more interested in the navigation of the ship and to be a help to his superior officer. The court commended the installation of wireless on the Empress as one which would prove a basis of assurance that all would be well in future in view of the facilities provided at this port by the Western Union Telegraph staff.

DO WOMEN WORK AS HARD AS MEN?

Yes. And They Must Keep Well and Strong. Two Interesting Letters. Toronto, Ontario.—"When my husband was called back to England in 1914 I took Lydia E. Pinkham's Vegetable Compound to strengthen me. I could work. I had a trouble that used to make me weak, but I am able to do my work now and am perfectly satisfied with your medicine. I will get it at the chemist and I strongly recommend it to any body I hear of suffering as I did. You may publish this if you wish."

I Did Not Feel Like Working

"It was in a general run-down condition with a weak back and a tired feeling so that I did not feel like working. My mother was taking Lydia E. Pinkham's Vegetable Compound and recommended it to me, so I have taken it and my back is better and I am now able to do my work. I recommend the Vegetable Compound to my neighbors and you may publish my letter."—Miss JOSEPH A. GARRAGE, Box 47, Carbon, Alberta.

Secret Skin Troubles

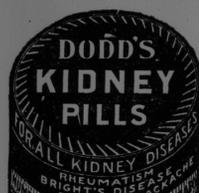

MEAN NIGHTS & DAYS OF ITCHING TORTURE. A well-known physician says that he comes across many terrible cases of secret skin disease. Because there is a natural disinclination to seek advice, the sufferer often neglects the trouble in its early stages or else aggravates it by use of some poisonous mineral ointment.

Zam-Buk is unique in its germicidal and healing properties. It soothes the inflamed tissues and penetrates into the skin right into the weakened and diseased tissues, killing the germs and uprooting disease at its very source.

Los Angeles.—"The secret of beauty is the proper care of the skin," says Miss Nilsson, the popular star. "It only requires a few moments time and one is more than paid for the little effort it takes. In the first place the skin should be kept scrupulously clean. Use a good cleansing cream (Liska) and cream is splashing for this purpose. Follow this by bathing the face with warm water, then rinse with cold water and dry thoroughly with a coarse towel. After this apply derwillo. I instantly beautifies the complexion and its continued use makes the results permanent."

The seat of the movement is the fire chief of New York City. He foresees a city in which streets will be free from vehicular traffic, such streets as there are being devoted exclusively to the use of "pedestrians," who will be passengers on moving sidewalks extending from curb to curb.

MORE CRIME IN WEST, SAYS WOMAN JUDGE

Stratford Magistrate Shares Court Honors With 'Janey Canuck' of Edmonton.

Stratford, Ont., Oct. 13.—Police Magistrate Makins shared honors of his court with Judge Emily Murphy (Janey Canuck), woman police magistrate of Edmonton, Alta., recently. This is the first time in the history of the local court that a woman sat on the Bench, and "regulars" of the court were obviously intrigued with the novelty.

Mrs. Murphy explained something of the system that is used in the courts of the United States system is followed, and the city magistrates have provincial jurisdiction as well.

Mrs. Murphy commended on the comparatively clean sheet eastern cities have, stating that there is far more crime in the west than in the east. There was a noticeable difference even at Port Arthur and Fort William, she said. She expressed herself as pleased with the court room and police station here, saying that they were well kept and apparently adequate in every way. Mrs. Murphy addressed the Women's Club.

Robert S. O'Meara, junior trade commissioner, arrived in the city last evening from Moncton and will spend two days here going into the export situation thoroughly. He will make his headquarters at the local board of trade office. He has just completed a tour through Nova Scotia.

ISABELLA'S SHAWLS STOLEN

Brenton's Window Broken and Antiques of Spanish Queen Taken.

New York, Oct. 13.—Breaking the large plate glass show window of Brenton's at Fifth avenue and Twenty-seventh street, thieves made off with two silk and lace Spanish shawls, said to have belonged at one time to Queen Isabella, valued at \$5,000 each, which were a part of the window display advertising Joseph Hergeshelmer's new book, "The Bright Shawl." Several copies of the book were also taken.

At Brenton's it was said yesterday that no clue had been obtained to the criminal. The books and shawls had come from Alfred A. Knopf, publisher, last Friday. At the publisher's it was learned that the shawls were the property of Berardoff & Goodman of Fifth avenue and were extremely valuable antiques. They were of pure heavy silk and were seven feet square. It is believed that the theft occurred shortly after midnight.

CALLS AMERICA STILL SAVAGE MUSICALLY

Prof. Dykema Tells National Recreation Congress That Jazz Has Its Good Points.

Atlantic City, N. J., Oct. 13.—That America still is in a state of savagery so far as instrumental music is concerned, was the charge made at the National Recreation Congress by Professor Peter W. Dykema of the University of Wisconsin. "We are still 100 years behind even in methods of instrumental music education," said the speaker.

"I have some good things to say for jazz," he continued. "It is not the principle of the thing that is bad; it is more often the performers. Jazz has

Two sisters died in week.

Third is in hospital—Mysterious Infectious Disease Strikes Home of Mr. and Mrs. E. Duffy, North Toronto.

Toronto, Oct. 13.—Two children are dead, and a third is in the Hospital for Sick Children, stricken with the same disease which caused the death of her sisters. The three are the children of Mr. and Mrs. Edward Duffy, and the fatal illness, which is infectious, is thought to have been the result of a germ in food, probably fruit, which they had eaten.

Mildred, aged four and a half years, was the first taken ill, on September 27th. Dr. G. Pringle was called in, and the child was rushed to the Hospital for Sick Children, where she died two days later. Kathleen, aged seven years, was stricken the day after her sister, and was also taken to the hospital. She is slowly recovering from the strange disease.

When Mrs. Duffy returned from taking Kathleen to the hospital, she found that baby Reta Constance, aged sixteen months, had been taken sick, although a few hours before she appeared to be in perfect health. The baby, who was admitted to the hospital that night, died October 3rd. By a coincidence, her death occurred on Kathleen's birthday day.

The mother and father are broken-hearted. In an effort to save the lives of their children, they gave a transfusion of blood to each of them, but it was not successful. There are three other girls in the family, who are in good health; Irene, aged nine; Esther, aged eleven, and Grace, aged thirteen.

MORNING NEWS OVER THE WIRES

The five men who had been missing since the Gloucester fishing schooner Marshal Foch struck on the inner bar on the south side of Sable Island armer in Port Pella, near Canso, after rowing in an open boat for ninety miles, according to advices received from that place.

The government steamer Stanley will leave today to take the men to Halifax. The men in the boat were John O'Neil, Gilbert Bennett, Harry Veno, Patrick James and Frank MacLoney.

Captain T. A. Hill, of the R. M. S. P. Chalour, was presented a gold watch by the ship's company at Halifax yesterday. He is giving up command after nine years service and his place will be taken by Captain J. C. Buret.

The case against Ernest McEachern, charged with the murder of Gordon Michael at Mill Creek, was continued yesterday at the Kent County Circuit Court in Richibucto. Donald Michael, brother of the dead man, was the only witness examined. He told of seeing his brother and of a conversation in which he said the accused struck him. The witness broke down and cried when telling of his brother's condition.

TO SCRAP TWO OLD LINERS

The Touraine and the Lorraine on Their Last Voyages, Officials Announce.

The French Line has decided to scrap two of its old liners, the Touraine and the Lorraine, which have been popular with Atlantic travelers for more than twenty years.

The Touraine, which sailed this week from New York on her last voyage to Havre, is a twin screw vessel of 8,429 gross tons, 330 feet long and fifty-six feet beam. She was built in 1890 at St. Nazaire, France. In 1892 she conveyed President Carnot from Toulon across the Mediterranean to Brest, where she opened the canal from that port to Lunis on the site of ancient Carthage.

The Lorraine is a twin screw ship of 11,272 gross tonnage and 593 feet long and was built at St. Nazaire in 1900. She arrives today from Havre and sails on Saturday.

Both vessels will be taken to Genoa to be broken up, it was said.

BANK BANDITS GOT \$222,000.

President of Cincinnati Institution Gives Figures for Sept. 28 Hold-Up.

Cincinnati, Oct. 13.—A total of \$222,000 in cash and bonds was obtained by the five bandits who held up the Hamilton County Bank of this city on Sept. 28, it was officially announced today by E. H. Matthews, president of the bank. The loot consisted of \$12,154.83 in cash and \$209,845 in Liberty industrial and municipal bonds. Mr. Matthews said. Previous estimates of the loss were \$35,000 to \$80,000.

The robbers drove up to the bank in an automobile, and, herding the bank employees and a few depositors in a rear room, rifled the safe. Police and private detectives who have been working in the case have reported no trace of the bandits since they drove away from the bank in their automobile. A reward of \$25,000 has been offered for their arrest and conviction and recovery of the money and bonds.

Mr. Matthews in making the announcement of the bank's loss said shareholders and depositors will not suffer, as the loss is covered by insurance.

FOUND DEAD IN CHAIR.

Defective Grate Caused Death of Clarence Hahndorf.

Toronto, Oct. 13.—A defective grate in his home at 37 Glenholme avenue, east of the grounds of Willowdale, died yesterday, a printer, who was found dead by his wife upon her return from a visit to her mother.

All the ventilation in the room had been cut off. The bricks in the fireplace were so hot that they could not be touched and candles were melted.

APPOINT CANADIAN TO A HIGH POSITION

To Superintend Property of World's Model City of Mariemont, Ohio.

Cincinnati, Oct. 13.—Charles J. Livingston, general manager of the Emery State, estimated to exceed seventy-five million dollars, who has returned from a vacation in Canada, announced here the selection of Frederick Peck of Wolfville, Nova Scotia, who has been appointed general superintendent of the property of the proposed world's model city of Mariemont, near Madisonville, this city, which is to carry out the community ideals of Mrs. Mary M. Emery, a philanthropist of world-repute.

Mr. Peck, who is noted as an expert agriculturalist and a nurseryman had charge of the grounds of Williams College, Mass., a number of years ago. He was also agricultural agent for the State of Massachusetts and was milk inspector for a number of southern states.

THE MINIMUM MARRIAGE AGE

(Toronto Star.)

The Anglican Synod in session at London, Ontario, has been discussing resolution to make the minimum age of marriage twenty-one. It will probably surprise most readers to learn that in Ontario, in 1920, nearly eleven per cent. of all the brides and grooms were not only under twenty-one, but under twenty. Of the brides alone, nineteen per cent. or almost one in five, were in this category, with many more in the twenty-year class, which is included in the twenty-twenty-nine-year group in Ontario statistics. Eighty per cent. of the brides were under thirty and sixty-seven per cent. of the grooms. The average age of brides was just under twenty-five years, and of grooms 28-8-4.

But if early marriages are more frequent than is generally thought, they are nevertheless not to be compared in number with those in the earlier period of Canadian history. Colbert, the French diplomatist, in a despatch to Talon, the French-Canadian administrator, laid down in 1668 the following principle:

"I beg you to commend it to the consideration of the whole people that their well-being, their substance, and all that most nearly concerns them depends on a general resolution, never to be broken, to marry youths at eighteen or nineteen years, and girls at fourteen and fifteen."

How frequent were these "child marriages," is indicated in Skelton's outline of the genealogy of Sir Wilfred Laurier. In 1662 Jacques Milot, age twenty-seven, married Jeanne Hebert, aged only twelve. Their eldest child, Madeleine, at fourteen married Francis Cotelineau, called Champlain (probably from the fact that the family in France has possessed a field of oleananders), the founder of the Laurier family in Canada. The eldest son of this union, Jean Baptiste, at twenty-six married Catherine Lamoreaux, a girl of sixteen.

from these marriages included a man of the brilliance of Sir Wilfred Laurier would not be accepted as an argument in favor of such unions today. Nor should it be. The times in which these people lived, and the conditions under which they existed in pioneer settlements, had much to do with the age at which matrimonial alliances were contracted. Today's marriages are similarly affected by today's circumstances. And the fixation by church courts of a minimum marriage age of twenty-one would be quite ineffective in view of the fact that nearly one-fifth of the brides are now under twenty.

SOCIAL EVENING.

A masquerade social was held by the members of the Dominion Lodge of L. O. G. T., No. 445, on Monday evening in their hall in Murray street, when the members opened their "Tens" boxes. More than 100 members attended and the costumes worn were both original and unique. Games were participated in and during the evening solos were sung by Miss H. S. Mills, Miss C. Squires, Mrs. C. Spaine and little Miss Dorothy Spaine. The ladies' prize for the best costume was won by Miss C. Squires, as an Indian maid, and the gentlemen's prize by T. B. Brown, as a tramp. The judges were: H. Cunningham, worthy lodge deputy, and Richard Stackhouse. Refreshments were served at the close.

ONTARIO BORROWS \$20,000,000

Toronto, Oct. 13.—A syndicate composed of Wood, Gundy & Co., Kuhn, Loeb & Co., Chase Securities Co., Kidder & Peabody of Boston, Halgarten & Co., and the United Financial Co. of Montreal placed the successful tender on the \$20,000,000 no-year flotation of the province of Ontario. The price paid was 97.67, equivalent to a cost basis of 5.19 per cent.

CLERKS HAVE TO PAY CASH FOR MISTAKES THEY MAKE

Condon's Department Store, in Charleston, S. C., Finds That This Is the Best Way in Which to Insure Accuracy and Attention to the Details Connected With Calculations.

"After experimenting for a long time, we have decided that the best way to settle mistakes made in giving overcharge to customer or in charging less than the proper rate per article or per yard for goods sold, or in making out sales slips figured for less than the correct amount, is to require payment in full from the clerk making the error."

This statement was made by James F. Condon, president of James F. Condon & Sons' department store of this city, Condon gave his reasons for this decision and his experiences as follows:

"At one time we did not charge the clerks with such errors. In fact, years ago we tried to do it. But in spite of our leniency and the repeated warnings we gave the offenders, we found that the clerks were just as careless from week to week and just as likely to make the same error right over again after we had told them off with a warning and reprimand.

"It fairly got to a point where I thought some of the clerks were not nearly so careful of our money as they would be of their own. Right then we made the change of policy and began to check up and make them pay for mistakes. Whether the errors are small or large makes no difference. The clerk is held accountable for the value of his error, whether the mistake is only a few cents or involves several dollars.

"Briefly, our method of checking up is this:

"Each morning, the entire batch of sales slips from the previous day, and also reports of what was taken in during the day before as shown by the cash register records and amount of cash in the individual's cash register drawer, are turned over to a girl who has the supervision for errors in charge. This girl carefully goes over all this data the first thing in the morning and re-calculates the amounts charged according to the number of articles, or yards of goods and fractions, etc. sold on each slip.

"She also checks prices for the goods described on each slip as sold—so much ribbon of such and such width, each item designated quality, etc. Each individual clerk's number and the department number is, of course, on every slip. All slips found to have errors are turned over to me, and left with me to take up with the clerk or to handle as I decide. Through this system, errors are easily discovered and traced to the clerk who made them.

"They remember the Sale.

"Every department store manager has been impressed with the fact that each transaction, large or small, is always registered in the mind of the clerk making the sale as associated with some definite, outstanding point. This is an odd fact when one considers the large number of sales made by some clerks in a single day. Nevertheless, the sale can be remembered after weeks, and sometimes after several months, that ours is a mighty good method by which to find the clerk who made an incident that happened during the transaction. The variety of these small happenings are without number. They include changes of mind on the part of the customer while making the purchase; a bill of unusual size handed over to pay for the goods; a check proffered in payment; a reference to customer dropped a coin that was hard to find between the folds of goods on the counter, and so on. The individual notes as associated with each transaction seem to be limitless.

"Now, though this strange fact is well known to all managers, it is a mighty important thing in business and leads to one of our most important cases of a salesgirl making the wrong change—day a few months ago, after the sales checks of the day before had been gone over by the girl who had that matter in mind. My attention was called to the account of one of the counter people who had a difference of just \$1.00 in the amount calculated she should have had in the drawer for the daily balance according to her sales checks and that which was found by the collector. I called the girl in question to my office, explained what we had found wrong and asked her explanation. With almost no effort she recalled that a woman purchaser had been in during the previous afternoon, and, after making the department's bill in payment. This girl remembered and told me the size of each item and when that she had returned in change—and did it so readily that I thought she must either have an unusual memory or be trying to shield herself from blame.

"I knew who the customer was as soon as the girl mentioned her name. A few days before, drawn a bonus for the month of more than \$18, I remember that she could, of course, pay the amount out of that extra sum, though I hated to see her deprived of money which I knew she had good use for.

"Nevertheless, I felt the moral of the store had too firm a root in that particular kind of problem, to let the matter drop and allow the store to be the loser. So I suggested to the girl, since she knew the customer's name and could explain the circumstances and then await results. The girl followed this hint, and we waited for several weeks; in fact, so long that I thought there was really no chance of the woman coming around to help us straighten out the difficulty. Then sure enough the woman did come in and gave the girl \$10, saying that, of course, pay the bill in change, and then when she got the bill, she had found more money in her purse than she could account for.

"That is just one of the incidents that have happened since we adopted the present method. But it is one of the most interesting, for the girls don't often give out so much over-charge. I think I was probably as pleased as the girl when this particular error was so satisfactorily corrected. The lesson has had a pronounced and valuable effect.

"The variety of excuses and reasons found by the clerks for their mistakes is surprising, but no explanation makes us waver from our system if an error appears on the sales slip.

"Handling Under-Payments.

"We find that the only way to handle the cases where the sales person gives too little change, and has an over-amount in her cash drawer when

Use the Want Ad. Way

A Ticklish Point

There is a trifling disadvantage to daily newspaper advertising which those who sell other forms of publicity use for all it is worth, and trust that the prospect will not reason too far to refute it.

That is the absence of color. They point to certain other forms of advertising and say: "Look, you can show your product big and in color so that he who runs may read."

Well, just what your newspaper means to you, other persons' newspapers mean to them.

If every paper in this country published a ten-line display advertising paragraph reflecting upon your integrity, do you think you could offset it by using all the billboards, street cars and circular advertising available!

Get the point!

The world could get along without billboards, street car cards, booklets, circulars and a thousand and one other forms of publicity, but it could not get along without its daily newspapers.

GIDDINESS PART OF LONDON EPIDEMIC

Influenza in Mufti, the Disease is Called by the Medical Officer of Health—Causes of the Symptom.

Writing of the epidemic of summer influenza which has prevailed for some months in London, and in a great number of cases has gone unrecognized because the symptoms are not like those which the populace has been taught to look out for as typical of influenza, the medical correspondent of The London Times said that "giddy attacks" have been unusually prevalent during the last few weeks.

Yet, as a rule, these attacks are not of a serious nature and can, by the exercise of a little care, be avoided. We are at present, he says, passing through one of the summer recurrences of influenza, one of those visitations which the Medical Officer of Health for London has happily named "influenza mufti."

It is this slight illness which it is at the bottom of the giddy attack, the physician asserts. For it represents an increase in the irritability of the nervous system and in the responses of the body to various stimuli. The stimuli which are chiefly concerned in the production of giddiness are those arising in the intestines, for the reason that the normal response of such stimuli is an increase of blood in the vessels of the abdominal area, he points out.

As soon as we put food in our mouths the whole digestive area "flushes" with blood. This is brought about through that delicate and complicated telephone service—the nervous system. The object, obviously, is to secure that as digestion proceeds it will be fully nourished, the writer explains.

"Naturally, when blood is withdrawn to the digestive portions of the body it must be taken from some other area. The areas from which, in fact, it is taken are the brain and muscles.

"Now in normal circumstances of health this process of blood-withdrawal is not attended by any marked feeling. It is so well regulated and adjusted that, so to speak, the brain never becomes aware of its loss. The position however, when the nervous system is under the influence of a poison is very different. All responses are exaggerated and the gradual withdrawal of blood from the brain to the intestines is accomplished swiftly and suddenly.

"Immediately there is a sense of giddiness, of swimming, even of falling. It is evident then, that two factors play a part in this symptom. First, there is the poison, raising the excitability of the nervous system. Second, there is the stimulus provoking the response and so tending to draw blood to the digestive tract.

"The poison, as in the case of influenza, cannot well be avoided. Yet it is always possible to alter the second factor to some extent. Thus a man who is suffering from giddy attacks cannot eat too carefully.

"When these attacks appear, therefore, it is always well to 'give the stomach a rest.' This means eating less and living the food as light as possible. By such means the stimulus producing nervous action on the blood vessels are reduced in number and intensity and the occasions of giddiness made fewer. It should be clearly understood that aperients are not a cure of the real cause of the giddiness—the poison, e. g., influenza. It is merely a method of preventing that poison from showing its presence.

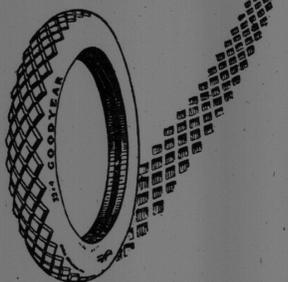

"The importance of recognizing these recurrences of rheumatism cannot be exaggerated. If they are not recognized all manner of fears and anxieties will haunt the mind of the victim. But once he begins to know his 'attacks' he will lose these fears and adopt instead an attitude of resignation. Symptoms will be less alarming because the passing of them can be for told within a few weeks.

"There is an idea that diets of various kinds are valuable only because of the food constituents they do or do not contain. Yet there is another side to dietetic wisdom. It concerns the choice of food which will be easily disposed of and will, as little as may be, interfere with the digestive organs, and so draw blood toward them. This side deserves much more attention than it usually receives.

"Giddy attacks are dealt with on these common-sense lines, as a rule, very quickly."

EX-KAISER CLIPS TREES AND LETS PUBLIC WATCH Doorn, Holland, Oct. 13—Since the dismissal of the Prussian Count Von Gonthard, former Emperor William's Court Marshal, from the royal household here William has begun to lead a much freer existence and he no longer appears to fear the gaze of the public. Count Von Gonthard was a strong advocate of the strictest seclusion, but now that he is no longer in office the former Emperor does not hesitate to work in his garden in full view of passers-by.

ZOO GETS SEA GULL'S BREEDING ISLANDS

The Four Brother in Lake Champlain Presented to City by Edward Hatch.

New York, Oct. 13 — The "Four Brother Islands in Lake Champlain, breeding place of the sea gull and other migratory birds, have been given to the New York Zoological Society by Edward Hatch, their owner.

Every year for the last quarter century Mr. Hatch has advertised for a man who was willing to abandon human companionship to guard the refuge of the birds and prevent vandals from molesting the nests and young gulls. Last year a Harvard graduate was selected for the work from a list of 1,500 applicants.

The Merchants' Association of New York, which announced the gift says it is understood that the Zoological Society will continue the protection of the birds and build a camp for the study of bird and fish life. The government is also said to be considering the establishment of a station on the island for the observation of sea gull flight in relation to the problems of aviation.

GAME BIRDS INCREASE UNDER THE MIGRATORY BIRDS CONVENTION ACT

Ottawa, Oct. 13—With few exceptions migratory game fowl have increased to a marked degree in Canada during the last season according to reports received by Commissioner J. B. Harkin, of the Canadian National Parks, from migratory bird officers and wardens all over the Dominion. In the east owing to the heavy rainfall and late breeding season certain species did not hatch with as great success as in previous years, but the western province report increases in practically all species.

A remarkable feature of the census being taken of the increase of bird life under the Migratory Birds Convention Act is the widespread increase in Black ducks. All over the Dominion there is shown marked increases while in certain sections Eider duck have returned to breeding grounds heretofore abandoned.

Nova Scotia also reports an increase in its waterfowl although the heaviest rains in certain sections caused the loss of many eggs and young. However, other parts large broods were successfully reared, one duck being noted with as many as twenty-four ducklings. A similar increase is reported from Prince Edward Island.

In Quebec the Eider ducks did not do as well, in many localities no broods being raised owing to the unseasonable weather. However, all other species of waterfowl hatched successfully. In Ontario as well as in the other eastern provinces shorebirds are scarce. Black ducks, mallards, Green-winged teal, mergansers, loons and wood ducks have been seen in large numbers.

All through the west migratory birds show an increase, with the waterfowl leading the way. In Manitoba mallards and Black duck are abundant, while in Saskatchewan geese have been seen in large numbers. Alberta's wild fowl is also doing well, while British Columbia is expected to report a good season.

RESTRICT AGE OF GIRLS ATTENDING DANCE HALLS

Sault Ste Marie, Ont., Oct. 13—Although falling in the mission to secure the appointment of another woman police officer, the Citizenship Committee of the Local Council of Women has succeeded in inducing the Police Commission to enforce the eighteen years of age restriction on girls attending public dance halls in the city unless accompanied by guardians. The proprietor of each dance hall will be advised to see that this municipal law be enforced and it was decreed that a first offense would result in the cancellation of the license of the hall.

DOUGLAS AND MARY.

(Regina Leader.)

The crowd that gathered at Union Station the other night to catch a glimpse of the redoubtable "Doug" and the adorable Mary as they passed through the city was undoubtedly a "curiosity" crowd; but that fact does not detract from the compliment which its appearance at the station paid to two of the most popular persons in filmdom. Whether the majority of the crowd, which had seen Mr. and Mrs. Fairbanks many times on the screen, was disappointed when it saw them in the flesh, we have no means of telling. Quite likely some in the crowd were disappointed, while others were immensely pleased. The interesting thing is that so many people have permitted the film to become so vital a part of their lives that they have come to look upon their film friends as persons deserving of more than ordinary notice. We can recall no public personage whose arrival in this city recently has attracted more citizens to the railway station than did Mr. and Mrs. Fairbanks.

pair of trunks from the mysteries and scandals of Hollywood, which have been so widely aired in recent months. Very likely some expected to discover the imprint of late nights and wild doings on the countenances of their idol; and they were disappointed. As Mr. Fairbanks said to a reporter: "I wish I could tell you how much I have enjoyed my stay in Regina. I can't afford to come to work in caloused hands and worn-out boots. They must live clean lives, keep their youth and vitality and—of the real film idols keep strict training rules." That may be a slightly colored statement of the case; but the fact undoubtedly is that the great majority of the leading entertainers of the silent drama in this country are quite as circumspectly as the majority of other people. They live in glass houses from the moment they rise to popular notice and their smallest eccentricity is observed and broadcast as to the coast. The line-light in which they live and work permits of no concealment. When on film it is with a crash heard around a film-smashed world. After all, what a jaded people wants above all else is to be amused. And

it is inclined to overlook the little piccadilloes of those who amuse it, as long as those piccadilloes are neither gross nor unattractive. A few scandals have come out of Hollywood that were sickening in their details; but how few have they been when the wide range of opportunity for such things is remembered! Compare the records of the famous California film colony with those of some of the divorce courts on this continent and it is probable that the lives led by the leading film favorites will stand up against those led by any similar class in the community.

CRITICIZES AERO STAMPS.
Fancy Labels in Geneva Collections—Gold Medal Awards.

Among the many really worthy postage stamp collections shown at the recent Geneva international stamp exhibition, for which several gold medals were awarded, were several limited to aerial mail postage. The large number of airplane stamps issued from all parts of the world within the last two or three years has given these stamps a distinct place of their own in philately. It is easy enough to get unused stamps of many countries of the issues designed for aerial service, but when the discriminating collector thinks of the limited number used for such purposes and also of the doubtful aerial service provided by some of the new European countries which have been lavish in such issues, his interest is liable to be materially weakened.

Fred J. Melville, the London philatelic expert, who attended the Geneva meeting, sounds a note of warning in 'The Telegraph' of London regarding the value to be attached to many of the present aerial stamp collections. It is easy to see from this statement that some collectors have gone to the extreme of placing commemorative postal cards with airplane scenes, post office franks and letters sent or alleged to have been sent by airplane in their collections whether they contained stamps or not. He suggests that as a result of the heterogeneous material of some of the Geneva exhibits, the sponsors of the forthcoming London international stamp exhibition next year, exercise reasonable care. In speaking of two of the largest aerial mail collections shown at Geneva, Mr. Melville says:

"These two exhibitors between them occupied more space than a score of the other entries and their entries did not justify the absorption of so much of the committee's limited space. The few real aerial postage stamps were lost in a mass of material which was neither strictly postal nor philatelic. I looked in vain for the rarer aero postage stamps, the 'Hawker,' the 'inverted twenty-four cents U. S. A.,' and yet each exhibitor must have spent a small fortune in procuring scores of field postcards sent into or out from Pzemysl by airplane during the siege."

Supposed to be rare, one of the collection exhibited 136 of them in show cases and the other had nearly as many. There was far too much Pzemysl and too many other cards and covers quite innocent of postage stamps and there was no indication of any comprehending study of the stamps. Many of the supposed stamps shown in blocks and even entire sheets were merely fancy labels, issued without authority, just 'requisites,' as the French call them. These two collec-

tions, which, judging from the enormous demand their owners made on the exhibition space, were intended for high awards, received silver medals.

American collectors may be interested in the names of the prominent winners of high awards as shown who are some of the leading European collectors, particularly in Switzerland, for natives of that country carried off most of the gold medals. The only noteworthy United States collection mentioned was that of Ad. Biedermann-Storl, who received a gold medal for his specialized collection of Papal State stamps. Jules Schieb of Berne won a gold medal for a remarkable collection of Alsace and Lorraine stamps. M. A. Jenny of Zihlschlacht, a Swiss village, got a similar award for a specialized collection of stamps of the British Empire during the reigns of King Edward and King George.

Gold medals for general collections went to Henri Hoffer, Henri Contesse and Emile Frederich. The last named showed a collection of 27,212 stamps. M. Hoffer had about 25,000, but it was marred by some counterfeits. The Contesse collection numbered 9,100, but contained many rarer stamps than its competitors. M. A. Muller of Bienna showed a fine collection of 35,000 stamps of European countries. Maurice Colin of Paris won a gold medal

for his Turkish stamps and a similar award went to P. Mavrogordatos of The Hague, who showed an unusual collection of Russian-Levant stamps from 1868 to 1908, called by Mr. Melville one of the most meritorious displays in the entire exhibition.

V. de Rachenanow won the highest award for his valuable and complete collection of Swiss cantonal stamps, containing all of the prizes rarities. Alfred Bank, another leading Swiss collector, received a gold medal for his complete collection of imperforate stamps of Switzerland. A collection of 28,000 war stamps and post-war stamps shown by A. Thommen carried off the gold medal in that class.

PUBLIC THE GOAT.

New York World.—By signing the Fordney-McCumber Tariff Bill without reading it, President Harding established still another link of likeness and sympathy with the man in the street, who has not read it either. But, beyond that, resemblance does not travel. The president did not need to read the bill. It was the perfect work of the best minds, working through the collective wisdom of congress. The mind of the man in the street works in a different way. He knows nothing about Schedule 11 in detail or the dyestuffs embargo or the sugar tax, but he knows

enough for his unhappiness, which is that he is going to be the goat. Perhaps if the president had read the bill he also might discover that it will hurt the American public \$3,000,000,000 to \$4,000,000,000 a year, with no corresponding advantage to the public treasury!

GUM THAT IS GOLDEN

New Zealand Has Only Gum Mines in World.

To most of us gum suggests either the substance used for sticking papers together or a kind of sweetmeat. Yet there are some kinds of gum which are very valuable indeed, says Tit-Bits.

In New Zealand there is a whole district in which fossilized gum from trees that died centuries ago is found a few feet below the surface. We dig into the earth for all kinds of queer things, but these are probably the only gum mines in the world.

The substance is valuable, for it makes the best kinds of transparent varnish, and many fortunes have been made by men who have worked it.

The most valuable kind of gum is amber, which is found on the shores of the Baltic. It is the fossilized resin of the gum secreted by giant pines which once grew densely around the shores of this sea.

Primitive man polished it and shaped it into ornaments, and 4,000 years ago merchants came regularly to the Baltic coast to barter their wares for amber, which was taken to Greece, Egypt and even to the Far East.

ALLOWS MAKING OF CIDER VINEGAR

Head of Ontario License Board Advises Dropping of Prosecution.

Simcoe, Oct. 12.—Norfolk county farmers may make cider vinegar for their own use at their own homes. This was the final outcome of an episode which began on September 2 at Delhi, when W. G. Barnard, a most highly respected citizen of the village, brought home, as is customary, a tergalon keg of cider made from his own apples for the purpose of making the family supply of vinegar, and ended in the magistrate's court here.

Inspector Edmunds gave evidence presenting an analysis showing that the contents of the keg was 10 1/2 proof spirits. He sent a statement of the facts of the case to the powers at Queen's Park, and as a result today's proceedings were cut short. W. E. Kelly told the court that he had no evidence to show when the cider passed the two-and-a-half percentage stage. He further stated that, in reply to Inspector Edmunds, Mr. Hulec's letter said, among other things, that it is always the intention of the act that its provisions shall not be used to harass people who have shown no intention to evade its conditions, or in any way disobey the law.

DRUNKEN POLICEMEN MURDER CIVILIANS

"Rum-Hounds" in New York Force Commit Frequent Crimes.

New York, Oct. 13.—Hearing the case of Patrolman John Dolan, accused of having been intoxicated on post, John A. Leach, first deputy police commissioner, said that on an average of one civilian a week is killed by drunken policemen. "We have got to get rid of the rum-hounds in the police force," he said, "and we are well under way now. There is a murder a week from drunken policemen, two since last Saturday."

Dr. Healey, surgeon, said Dolan had reported to him twice in June, twice during three trips in September, for illness, and there was indication he had taken alcohol.

Dolan's defence counsel, who has indignation, "That's the same old story," said Leach.

TO REDUCE PAPER WASTE.

Manufacturers Discuss Improved Methods of Production.

Detroit, Oct. 13.—Waste elimination in the paper industry was the theme of the annual convention of the Technical Association of the Pulp and Paper Industry, here.

All sessions of the convention were devoted to a study of waste prevention, sub-divisions reporting on various phases of the subject. One section is dealing with utilization of bark for fuel, another with the saving of wood fibre that now is going into the streams with the mill liquors, and another in saving of coal by more efficient control of steam in the process through machines.

DROP OF NEW POISON ENOUGH TO KILL ALL THE PEOPLE ON EARTH

Cambridge, Mass., Oct. 13.—A poison so powerful that all the people on earth could be killed by one millionth of half an ordinary tinful!

Drs. Jaques Bronfenbrenner and M. J. Schlesinger of Harvard University have found that the strength of the botulinus toxin, which occurs in spoiled vegetable food is so great that the average man would die from a dose of 0.0000000000000001 cubic centimetres of it. One cubic centimetre would be enough to depopulate the whole earth, with 99,999 parts left over.

Botulinus poisoning was first known as "sausage poisoning" and was detected after fatalities resulting from eating sausage, meats, and fish. Recently this poison has been more common after the eating of decayed vegetable foods. It is caused by the germ Bacillus botulinus, and unlike the toxin of diphtheria or lockjaw, it is deadly poisonous when introduced into the body by way of the mouth.

Contamination of foodstuffs producing this poison is not common, and if the poisoned food is boiled it ceases to be harmful, while, even when the poison is actually consumed, nature and an antitoxin may protect the individual.

SCHOOL TRUSTEES TO CALL TENDERS FOR NEW WORK

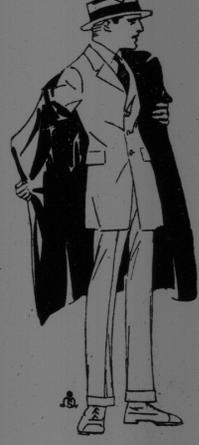

Tenders for a retaining wall for the grounds of the Lorne school will be called for. The visitors to the school were given authority to this effect at a meeting of the buildings committee of the school board here yesterday afternoon in the trustees' building with M. Coll, the chairman of the committee, presiding. Others present were trustees Thomas Nagle, H. Colby Smith, George E. Day, E. R. W. Ingraham and A. A. McIntyre and the secretary, A. Gordon Leavitt. The architect's plans have been drawn for the proposed retaining wall at Lorne school and will be used when the tenders are called for. The grounds also require considerable filling and it was decided that this work should be undertaken to a certain extent.

The visitors to the schools were given authority to purchase new furniture for the new school to be opened in the former Wiggan's Institute and for the new school in Holy Trinity parish being built in Burpee avenue.

The committee made several recommendations regarding work on the various school buildings, and these passed.
