This system was described by an official of one company in an article in the Evening Post. Arrangements have been made to supply each wagon by shipments by automobile truck so that each might maintain its position throughout the day. Police protection for the wagons was provided by the city.

SAYS RUSSIA NOT SWAYED BY DOCTRINE NOW

Foreign Minister, Under Financial Pressure, Declares Foreign Capitalists May be Appealed to. Russia's policy is now directed only by economic interests, he asserted, and not by doctrines. He concluded by declaring that while Great Britain endeavors to win the confidence of Russia, Germany is trying to take advantage of her.

BLAMES DEATH OF HIS SON ON RUM-RUNNERS

Bridgeburg, Ont., Nov. 9.—That Kenneth Losey a lad whose body was found in the Niagara River, a week ago, came to his death at the hands of rum-runners and that he did not commit suicide, is the declaration of the boy's father, Prof. M. D. Losey, of Meriden, Conn. here today. "The international bridge police told me," he said, "that the section where the body was found is infested with bootleggers, who are known to have brought innocent young men from other parts of the country to assist them in smuggling liquor across the border. I maintain that my son was in New York City, and was brought to the border by force. He may have refused to do their dirty work and his life was the price of his refusal."

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "what are Mrs. Hornbeam's social qualifications?" "Well," said Hiram, "she's the treasurer of Hornbeam Lodge, an' societa' of the Glee or Dime Circle, an' past president of the Sewin' Circle—an' I guess she hes somethin' to do with the Mite Society." "And yourself?" queried the reporter. "Me?" said Hiram. "I been most every-thing we ever hed out to the Settlement from P. P. school, trustee to pound-keeper—yes, sir." "Would you consider that you and Mrs. Hornbeam belonged to the upper, educated classes?" queried the reporter. "Could you make an impression on persons of refinement and cultivation?" "What makes you ask that question?" "The women of refinement and cultivation in Toronto," said the reporter, "are receiving a nice little letter from a lady who says her services have often been requested by the government party. In this letter she says drawing-room meetings are to be held all over the city (wherever there are drawing-rooms) to save the country." "Save it from what?" asked Hiram. "I will read from the letter," said the reporter. "It says: 'It is not our intention to be governed by a group of crude, inexperienced farmers.'"

This decision was reached after a prolonged meeting between the Ulster premier and the members of the cabinet whom he summoned to London.

The report continues that should the Ulsterites be unable to reconcile their views with those of Lloyd George, he will offer his resignation as premier.

The two in Suffolk county, are normally Republican.

Mayor Couzens won in the non-partisan race over Daniel W. Smith, the returns cast today giving him a lead of 20,000 with 200 scattered precincts out of the total of 687 yet to report. Under the traction amendment the street railway company must abandon its service on the Fort and Woodward lines within thirty days after the ordinance becomes effective and within ninety days from the date the company must remove its equipment. BIG ANNUAL EVENT
 For years past the public have looked forward to Hunt's annual fall and winter sale of men's and boys' clothing and furnishings, and this year bigger and better bargains are being offered than ever before. RED CROSS WORK IN ARMISTICE WINDOW
 "Lest We Forget" is the motto which forms the keynote of most effective window in F. A. Dykeman's store on Charlotte street. The window presents in impressive manner the work of the Red Cross Society in war-time and its present work in the Province of New Brunswick under the peace policy programme. As background there is a realistic scene of a Red Cross hospital in war-time. Pictures which tell in an appealing way of the humane work of the society and its divine purpose are placed conspicuously. A position of honor is given the large membership roll of New Brunswick, and in the front of the window is the photograph of the five nurses which the society has stationed in different districts in the province. Small Red Cross flags in large numbers are used to surround and offset the picture. The window attracted much attention yesterday and has been decorated in honor of Armistice Day.

ARBITRATION ON WHARF PROBLEM
 At the meeting of the common council, held yesterday afternoon, a large amount of routine business was transacted. An interim report was made in the matter of negotiations between the city and Hon. W. H. Thorne; the bond issue for the wharf and the amount was increased by \$1,600; the matter of recompense to Mrs. Gaudet for injuries to her daughter was left with the commissioner of public works and Commissioner Thornton made a report in regard to the recent police inquiry. Mayor Schofield presided and all commissioners were present.
 The commissioner of finance and public affairs reported payments for October of \$213,388.84.
 Mr. Bullock read a report of the superintendent of ferries in regard to the accident on Saturday night to the Governor Castleton. The damage amounted to \$250.
 Mr. Bullock also presented an interim report on negotiations with Hon. W. H. Thorne in regard to the ferry approaches. He had received a communication from Mr. Thorne's solicitor, submitting a series of questions for the consideration of the council, with the intention of having them settled by arbitration. The questions, in effect, were as follows:—To what extent had the city trespassed on Mr. Thorne's property? What was fair compensation for same? Both sides to shake by the award and city to have an option for one year from date of award to rent, or purchase the property. If these matters were agreed to, Mr. Thorne would permit the city to make repairs to its piling. Mr. Bullock said that he would bring in a further report in the near future.
 Mr. Bullock said that the bond issue of \$8,700 for work done on the North wharf had been exceeded by \$1,600. The report of the engineer showed that the over-expenditure had been caused as follows:—Excess of fill, \$1,252.40; asphalt pavement, \$194.40; cost of renewing old asphalt fill and the drain, \$171; a total of \$1,622.25. He moved that the estimate for the work be increased \$1,600 to \$10,300, instead of \$8,700.
 There was considerable discussion in regard to this, and the general opinion of the council was that it should be advised of any necessary over-expenditure before it was made. The motion was finally carried.
 Mr. Frink brought up the matter of the city giving some recompense to Mrs. Gaudet, 85 Chapel street, whose daughter was injured by falling in a hole in the sidewalk. According to the city solicitor's opinion, the city had no legal liability in the matter, but having in thought the needs of the family, he thought that a compassionate allowance might be made. The doctor's bills amounted to \$29 and the loss in wages,

BALFOUR HAS HOPE AS HE LANDS IN CANADA

Quebec, Nov. 8.—"I don't believe this disarmament conference at Washington can do everything. I am personally confident it can do much. I am confident that of the steps that are being gradually made to produce a better and improved world—an international world—this step will be of all history the greatest. In that hope I go to Washington." This was the message Arthur J. Balfour, former British prime minister, and present leader of the British delegation to Washington, in the absence of Premier Lloyd George, gave to newspapermen who welcomed him this afternoon when he landed from the liner Empress of France which had conveyed him with his suite from Liverpool.

NEW BILL GIVES PATRONS A TREAT AT OPERA HOUSE

Talented Performers Amuse and Entertain Wide Variety in Programme This Week.
 Impelled by the standard of all recent shows, crowds that swamped the seating capacity of the Opera House greeted the new programme last night.
 The crowds were not merely large, they were responsive. Every point was applauded, every humorous remark brought an instant and hearty laugh. There was not one bored individual in any of the audiences.
 And this is not to be marvelled at when the calibre of the acts is considered. Al. H. Wilson heads the bill in comedy songs and stories. His skit is called "Daniel Webster Jr." because the patter is both of words and about words. Al sings, tells stories and yodels, and does all three in a way that won instant and hearty applause.
 Closely rivalling this act, is that of Fred and Marjorie Dale, in a song, dance and musical offering.
 Dick Boyle, whose cleverness with the crayon has made him welcome to many a big newspaper office and also in the military service in France, makes some striking pictures that fairly speak, and what they say is funny beyond words.
 Bert and Hazel Skafelic are clever dancers and exceptional ones, excepted both afoot and on roller skates. In the latter they execute many steps that are not only difficult but hazardous. They are among the best roller skaters who have appeared in St. John.
 Billy and Edith Devereaux contribute another bright spot on the bill, in a comely singing and musical offering.
 For further fun, Jimmy Aubrey speaks his way through another screen screen "The Bissard," and assisting everywhere the Opera House orchestra plays an important part.

MONCTON TO GET MORE POWER

Moncton, Nov. 8.—(Special)—At a meeting of the city council here tonight it was announced that members of the New Brunswick hydro electric commission would be in Moncton in the near future when the council would confer with them relative to details of the commission supplying the city 4,000 horsepower electricity. The council was authorized to sign a contract for 4,000 horsepower. It was pointed out that Moncton had given the hydro electric commission proposals more consideration than St. John.

BASKETBALL LEAGUE PLANS

At a meeting of the executive of the City Basketball League, held in the Y. M. C. A. building last evening with R. Willet in the chair, the secretary, W. B. Golding, was instructed to draw up a schedule for the two intermediate sections. The teams composing the first section are: Y. M. C. A. Intermediates, St. David's, High School and Y. M. C. A. Intermediates. Those in the second section are: St. George's, St. Jude's, Y. M. C. A. Business Boys, Y. M. C. A. Outlaws.
 Discussion took place regarding a fourth team in the senior league but the motion was postponed until a further meeting of the executive is held.
 Owing to the deadlock in the re-organization of last year's City Basketball League it was decided, at a special meeting of the seniors last night, that unless the trouble could be overcome before Friday, November 11, it would be necessary, in order to satisfy the public demand for this popular game, to select three teams from the senior class in the Y. M. C. A., these three teams together with the Y. M. C. A. to comprise the City League. It is believed that three evenly matched teams can be selected from the available players. In fact three interesting team possibilities have already been suggested to replace the seniors, Trojans and Alerts. Unless a solution is forthcoming as mentioned above a special meeting of interested Y. M. C. A. players will be held at the Y. M. C. A. on Friday evening.

EXHIBITION OF 1921 LOST \$11,000

The St. John Exhibition Association lost more than \$11,000 by the operation of the fair this year and the attendance was twenty-five per cent less than in 1920, according to reports made at the annual meeting of the shareholders, held last evening.
 At the shareholders' meeting election of twenty-one directors for the coming season took place and resulted as follows: W. S. Allison, T. H. Bullock, W. F. Burditt, John Collier, E. A. Dykeman, G. D. Ellis, J. H. Frink, W. H. Golding, F. E. Holman, J. B. Jones, Mrs. H. E. Lawrence, G. C. McAvity, G. C. McIntyre, I. H. Northrup, R. O'Brien, R. H. Patchell, E. A. Schofield, E. J. Terry, John Thornton, W. J. Wetmore and W. H. White. These directors will meet in the near future and add ten additional directors to the board. All the city commissioners were made directors owing to the fact that the exhibition is a civic project and the citizens are directly interested.
 The financial report showed that the association owned buildings valued in excess of \$138,000, in addition to plant and equipment worth more than \$11,500. The question of complimentary passes was dealt with in the directors' report and it was said that this subject had been a source of worry to the directors for several years and open to much abuse. A recommendation was made that the free list be abolished entirely. The report said that the year's operation had wiped out the cash reserves and left the association in debt. There was, however, approximately \$6,500 due from Ottawa for prize money whenever another show was held. This amount is based on the prize money paid out this year. It is expected that the association would also receive a grant of \$8,000 from the provincial government in 1922. A motion was passed that it was deemed advisable to hold an exhibition in 1922, providing adequate support was forthcoming from the citizens, the transportation companies and the provincial government.

W. C. T. U. PLANS TO AID THE NEEDY

The W. C. T. U. at its meeting yesterday afternoon endorsed the action of the W. C. T. U. of Nova Scotia in sending an appeal to clergymen to support the conference on disarmament. Mrs. David Hipwell, the president, was in the chair and led the opening devotions. Cards of three new members were received. Mrs. Seymour read a paper telling how prohibition had made it difficult for doctors to secure bodies for examination as now that alcohol could not be obtained so readily men left sufficient money to pay for a decent burial. A pantry sale was decided upon as the best means of raising funds to help the needy and Mrs. J. Hurd, Mrs. Ellsworth Scott and Mrs. I. Hoare were appointed the conveners to take charge. Arrangements were made to welcome Mrs. Whittemore, of New York, when she visits St. John and the members were also asked to give all support and encouragement to Miss Southard, the district worker who has recently come to St. John to take up social service work here.
Y. M. C. A. STAFF CHANGES

Stokes, general secretary, and Nelson McEwen, boys' work secretary, have now been filled. R. A. Penitlen has been appointed acting general secretary and Herbert Morton, last year's assistant boys' work secretary, is now directing the boys, assisted by Homer Smith of New Glasgow. Courtney Wallen, who saw four years service overseas, has been appointed office secretary and Captain William Bowie is still carrying on with the physical department.

ST. JOHN LIQUOR TEST CASE UP

Fredericton, Nov. 7.—In the appeal division, supreme court of New Brunswick, this morning, the court had a hearing in connection with a seizure of liquor made recently in St. John in which the Canadian Distributing Company and Pope D. McKinnon were concerned. The case in which Police Magistrate Limerick of Fredericton dismissed the case following the seizure of liquor in Kingsclear during transportation from a St. John car to a Woodstock car, on the ground that the prohibition act did not apply to liquor being shipped into Maine, also will be appealed at this session. In the Canadian Distributing Company vs. John B. Hawthorne and the attorney-general of New Brunswick, Dr. F. R. Taylor, K. C., for the plaintiff, moved for an injunction restraining the defendant, John B. Hawthorne, from levying, seizing or interfering with intoxicating liquor sold for export to a place outside the province and for an order for the return of the liquor seized. Dr. W. B. Wallace, K. C., for the attorney-general and W. M. Ryan for John Hawthorne, chief liquor inspector, presented affidavits. Argument in the case was completed this afternoon. Court continues.

Milestones
OH CHILDREN! For me! But it's—lovely enough for a girl of twenty!
"Huh! You're heaps nicer'n any silly girl," scoffed the youngest son with the unshaken loyalty of fourteen years.
Hitherto mother's gifts had been purely practical—middle-aged. But this birthday was different. "I'd love to be young again, just to have a wrist watch," mother had chanced to say one day. She had forgotten, but her children had remembered, and the best and loveliest wrist watch they could buy was now their tribute of love.
"Put it on, mother," and a happy light shone in youthful eyes as they saw the beautiful little Elgin on the wrist of the dearest mother in the world.

PUTTING THE ISSUE SQUARELY. The following telegram from Hon. W. S. Fielding was read at a great Liberal meeting in Toronto last week:

There never has been and probably never will be free trade in this Dominion. No platform of any political party proposes free trade. No political leader of any party proposes free trade.

The Toronto Globe says: "With many conventions yet to choose candidates, there are forty-three ridings in Ontario with three-cornered contests."

Mr. Fielding speaks with the authority of a member of the Laurier administration concerning the Liberal party and its effect in the country.

THE GREAT CONFERENCE. Referring to the disarmament conference, Mr. Balfour, in an interview at Quebec yesterday on his way to Washington, said:

"If I find among my colleagues at the conference the same spirit which animates the government I represent, depend upon it, a success it will be."

The Dominion Alliance wants federal candidates pledged to national prohibition, regardless of party affiliation. This is the next logical step in the great struggle.

The Farmer government of Ontario spent \$25,000,000 this year on roads. The farmers know the value of good roads. They are certainly liberal spenders in a good cause.

MURDER CHARGE IS DISMISSED. Montreal, Nov. 9.—Judge Cusson yesterday afternoon dismissed the charge of murder preferred against Stettinius Tomasek in connection with the brutal slaying of Onofre Baturo and his wife in their lonely home of the aged couple at Lachine.

LARGE JAP DEFICIT. Tokyo, Nov. 9.—Japan faces a deficit of thirty million yen for the present fiscal year, so the cabinet was held today by Baron Takahashi, minister of finance.

Japan, facing a large deficit for the year, should be quite willing to spend less on armament.

FORFEIT.

(By Kathryn Munro.) The bartered years foregather, one by one, Within the sunless orbit of the past.

They hold no memories of seasons noon, Of twilight wistful at the birth of stars, Or night moon-vestured by a fallow moon.

Had we one far day, forgotten, dead, Together watched the sunrise of a morn, Or followed April where her laughter led.

When the arbutus in its mossy mood, With scented whispings of sorcery, Invoked the tardy children of the wood,

Armed with the comradeship of such an April, Against the ambushes of arrows of despair, A shield we mine and scepter bat-ale-tower!

October comes, a sandalled acolyte, With censor for the maple's altar-fires, Lighting tall tapers for the sylvan shrine.

While we stand hesitant, or walk apart, Paying strange tribute to uncaring gods, In ash of leaf I trace Love's erring chariot.

IN LIGHTER VEIN. The cripple thumped his crutch on the ground as he confronted his lawyer.

NEWS NOTES ABOUT PROMINENT BAPTISTS. Rev. Joseph T. Hutton writes that he has accepted a call to the pastorate of the church at North Head, Grand Manan, and expects to settle there about the 15th of the present month.

KARL AND ZITA A ROMANCE. (Montreal Witness.) Karl did not want to invade Hungary. He did not want to invade Hungary.

FEMININE CRIME SHOWS DECREASE

Carlisle Prison for Women Latest of Several Which Have Closed.

London, Oct. 11.—(By Mail).—The closing of female prisons, which has been marked in recent years, still continues. The latest to be closed is Carlisle. Women prisoners from that district will in future be sent to Newcastle.

This policy of the Home Office is due in part to the desire to economize; but it is to be attributed mainly to the great diminution in the number of female prisoners. The decrease has been continuous over a long series of years. During the ten years ended 1914 the daily average number in female prisons fell from 1,198 to 2,375. In 1920 the number fell to 1,771. On October 4 it was 1,207. Not many years ago there were 100 female prisons; today there are only twenty-five, and of these six only had a daily average exceeding fifty in 1920. There is a falling off also in the number of women undergoing penal servitude—from eighty-two in 1920 to seventy-four today.

It happens that the percentage of previous convictions is greater among women than among men, the former averaging between seventy and seventy-five per cent, and the latter between fifty and sixty per cent, annually. According

to Sir B. Ruggles-Brice (chairman of the Prison Commission), in his book on "The English Prison System," were it not for this high rate of recidivism, the number of individual women in the community who are sent to prison annually would be reduced to a comparatively small total. The offences for which women are principally committed are drunkenness and prostitution.

Women sentenced to ordinary imprisonment are—except in London—kept in wings of local prisons entirely detached from the male side, and are under the supervision of a matron assisted by a female staff, the governor of the whole establishment being responsible for general order and discipline. In London Holloway is given up entirely to the custody of female convicted prisoners, and is also the house of detention for the unconvicted. Women sentenced to penal servitude are kept in a section of the local prison in Liverpool.

SOLDIERS' EPITAPHS.

Lady Minto Raises Question of Age on Headstones.

London, Nov. 9.—Lady Minto provoked somewhat extensive correspondence in her protest against the decision of the War Graves Commission against inclusion of the age of the fallen soldiers in the official epitaphs inscribed on the higher portion of each headstone erected by the government.

The official inscription merely records the man's regimental particulars, but a private inscription by relatives may be permitted on each headstone, limited to sixty-six letters, which may include the soldier's age. Lady Minto, among other submissions, urges that future generations should realize how the war produced generals under thirty and privates over fifty. Most of the correspondents support Her Ladyship, including Lord Buckmaster.

The War Graves Commission is understood to be quite open to reconsider its decision if there is any spontaneous measure of public opinion desiring this. Sir George Perley, Canadian High Commissioner, says he has received no representations whatever from the Dominion on the subject.

Rheumatism Grows Worse if Neglected

It is a Uric Acid Trouble. It is a disease known by local aches and pains, inflamed joints and stiff muscles but cannot be permanently relieved by local applications. Its cause is constitutional and it must have constitutional treatment.

"Take Hood's Sarsaparilla, which corrects the acid condition of the blood on which the disease depends and makes you feel young again."

"Three doctors said I could not be cured of rheumatism but at 64 I am still alive, well and strong, thanks to the yearly use of Hood's Sarsaparilla. I am convinced there is nothing better for rheumatism." C. E. Goodrich, Bolivar, Mo.

WOULD RELIEVE UNEMPLOYMENT

Plans for Further Improvement of Millidgeville Ave.—Step Towards Provision for City Growth.

Commissioner Frink, of the public works department, is preparing plans which may result in the employment of several men for the greater part of the winter months. Asked concerning his plans for Millidgeville avenue, he said that he proposed to bring in a resolution at an early meeting of the council, asking for authority to extend the work which has already been done in that thoroughfare. It is his plan to widen the road between the Spar Cove road and Board's Head road to its full legal width, to straighten out several bad turns, and grade the surface and sidewalk areas. The proposed resolution will provide for the payment for the work by bond issue.

The commissioner said that the area in the vicinity of Millidgeville avenue was the logical and only outlet for the spread of the city and it was with this idea in mind that he was recommending the improvement of the roadway in that direction. He was of the opinion that the work which he planned for this winter would be one of the best ways of solving the unemployment difficulty, as general results would be obtained from the money spent and employment would be provided for several men. He does not anticipate any opposition to his scheme.

LOTTERIES AND ORPHANS' FAIR

In connection with the protest of the Evangelical Alliance against the use of what are termed gambling devices at the fair for its Protestant Orphans, J. C. B. Appel, secretary of the alliance, has shown the Times a letter from D. Clark, president of the St. John Protestant Orphans' Home, written on October 12, in which he personally denounces the fair for its gambling devices of any kind, and enclosed the following:
"St. John, N. B., Oct. 12, 1921.
"At a meeting of the Board of Directors of the St. John Protestant Orphans' Home held August 4, 1921, Mr. W. M. Campbell reported all arrangements for the proposed garden party were completed and in this connection it was on motion resolved not to have any wheels of fortune so-called, in connection with the affair, nor any other questionable devices, nor any purpose of raising money for the St. John Protestant Orphans' Home."
"W. S. MORRISON, Secretary."

POLICE COURT

George Buckley, charged with aggravated assault on Joseph R. McLaughlin, pleaded not guilty. Mr. McLaughlin testified that the accused had been working on a beach at the West Side. They had been transporting sand in wheelbarrows. The accused had piled his wheelbarrow on McLaughlin's and when he dumped it in lifting his own, Buckley had struck him on the back with a shovel. He showed a mark on his head which he said was caused by the blow. He testified that he had not been able to work since on account of injuries to his back.
The defendant asked for a postponement to secure counsel and the case was set over till this afternoon at 2 o'clock.
Herbert Morgan, charged with breaking and entering the garage of Fred McLeod and taking from there three trunks, pleaded not guilty. He was asked for a summary trial before the magistrate. He was remanded for judgment. E. S. Ritchie appeared for Morgan.

COLLEGE FOOTBALL

Fredericton, N. B., Nov. 9.—Acadia University does not appear to have given up hope of still becoming champions of the western section and thus playing off with Dalhousie University for the Maritime Intercollegiate Rugby championship.
Mount Allison are generally picked as the probable winner of the final game of the western section when they meet Acadia at Sackville tomorrow. Acadia, ordinarily in expectation of being the winner of this game, have sent a proposal to U. N. B. suggesting that if a U. N. B. meet at Moncton on Saturday November 12, to decide the western section.
U. N. B. will probably suggest that the game, if one is necessary, be played at Furo on November 15 and then the winners could remain there and after a day's rest meet Dalhousie on the 17th, the date set for the maritime championship.
No definite word had been received regarding the proposed visit of St. Dunstan's College fifteen of Charlottetown, P. E. I. This week, but it is hardly expected the team will now come here because of the wintry conditions prevailing here.

MONTREAL STOCK EXCHANGE.
Montreal, Nov. 9.—(10:30)—Trading on the local stock market during the first half hour this morning was very uninteresting, only four of the principal issues appearing. JURY FINDS "BIG TIM" IS GUILTY

Plotting of Big Mail Robbery in Chicago—A Spectacular Career.

Chicago, Nov. 9.—"Big Tim" Murphy, union leader, former state representative and alleged gunman, was found guilty by a jury in Judge Landis' court, plotting the \$360,000 mail robbery at Dearborn station last April.

Vincenzo Comanzo, union president and protégé of Murphy, Edward Gellera, alleged driver of the bandits car and Paul Volanti also were convicted. Nearly all the loot was recovered by postal inspectors in a trunk in the garage at the home of Murphy's father-in-law, who, with several other defendants is awaiting trial.

Murphy, a "back of the yards" product with a spectacular career in a union and political circles, was arrested with Comanzo and several others last year, charged with the murder of "Moose" English.

IN MEMORIAM

KERRIGAN—In sad and loving memory of our beloved daughter, Grace Hamm, wife of R. Kerrigan, who went home November 9, 1918.

Sweet Grace! never was name so beautiful. For all through thy bright sunny life, Thou didst shine like a pure ray of sunshine.

As daughter, and sister, and wife, Thy lamp ever ready and burning, Its flame gleaming steady and bright, Till the Bridegroom was heard gently calling "Come, loved one—come into My light."

Miss Thee? Ah, God knows how sorely! But we smile through the mist and the pain. When we think of the blessed home gathering comes never again. Where parting comes never again.

So we wait just "a little while" longer, Till God calls us home to His place. Then maybe He'll send us His angel To lead us—our own darling Grace.

Award in C. N. R. Wages Dispute is Landed Minister

REPRESENTATIVE OF RAILWAY DECLINED TO SIGN IT

Decision Sustains Reductions in Salaries Above \$125 and Recommends Toronto Accounting Scale for Others—Question of "Tips" on Sleeping and Dining Cars.

Ottawa, Nov. 9.—(Canadian Press) The award of the board of arbitrators on the wage dispute between the Canadian National Railways and its employees, members of the C.B.R.E., handed in this morning to the minister of labor, is signed only by the chairman, Byron Stauffer, and Harold Fisher, the member for the employees. The representative of the railway company, Geo. D. Kelley, dissented. The award sustains the reductions in the salaries of employees being paid more than \$125 a month, but in the case of those employees receiving less, it recommends that the schedule worked out by the railway for its lower paid employees in the Toronto accounting department be generally applied.

Instead of a flat 12 1/2 per cent reduction, this schedule provides a monthly reduction of 85 for those receiving \$80 a month, \$75 for those receiving from \$81 to \$95 a month, \$10 for those receiving from \$96 to \$125 a month, \$12.50 for those receiving from \$126 to \$150 a month, and \$15 for those receiving \$151 and over.

CELEBRATION AT ST. GEORGE'S

A Happy Time Last Evening in New Carleton Church Hall.

St. George's centennial was celebrated last night in the new church hall by a social, Rev. W. H. Simpson presiding. After the recital, address, J. L. Robertson gave readings, and Mrs. Stanley Harrison sang with pleasing effect. Miss M. Beattie acted as accompanist. Rev. Walter P. Dunham, rector of the Church of the Good Shepherd, Fairview, presided at the greetings and best wishes of his church. The Church of the Good Shepherd, Rev. Dr. Dowling, Archdeacon of Jerusalem, Rev. J. H. A. Holmes, rector of St. Jude's, brought the greetings of the daughter church and assured the people of St. George's that his people wished them every success. Tasty and well-prepared refreshments were served by Mrs. B. F. Johnston, Mrs. Ernest Waring, Mrs. M. Silbush, Mrs. William Donahue, Mrs. Brittain, Miss Stackhouse, Miss Carleton, Miss Emerson, Miss Duncanson, Mrs. James E. Dymekman. Musical numbers were given through the evening by orchestra of the church of the Good Shepherd and every seat available was filled.

MAYOR HYLAN SETS RECORD

(Continued from page 1) Franchise on the two lines had expired and the outer ordinance was submitted after the company declines to sell the lines at a price offered by the city. The lines are to be made a part of the 100 acre municipal car park.

Authorization for the council to experiment with "trackless trolley" transportation and a proposal to revert to the twenty-four ward system with an enlarged city council, apparently failed to sell the necessary sixty per cent.

Other Results. New York, Nov. 9.—One state—the state of Maryland has passed from Republican to Democratic control as a result of yesterday's elections.

In Maryland, the entire lower house of the legislature reverted to the Democrats increased their control in both houses. In Kentucky the Democrats regained control of the state legislature, lost to the Republicans two years ago.

Mrs. Mary Flannery of Catesboro, on this morning's returns had apparently won the honor of being the first woman to be elected to the Kentucky legislature.

New Jersey Republicans claimed to have elected forty one assemblymen out of a total of sixty seats contested, and won the party line up in the senate would stand as it did last year—13 Republicans and 6 Democrats.

The "wet and dry issue" played a prominent role in that state, the Republicans standing for strict enforcement of the state prohibition act, while the Democrats favored its modification or repeal.

Only one governorship hinged on yesterday's balloting, Virginia electing State Senator E. L. Fritch, Democrat by a large majority over H. W. Anderson, Republican.

The voters of Ohio apparently were heavily in favor of the soldier bonus proposal, announcement being made by Secretary of State Smith that, in his opinion, it would be carried by 200,000.

GRAVE CHARGES MADE AGAINST U. S. OFFICERS

Washington, Nov. 9.—The private soldiers and sailors legion today in a letter to Secretary Weeks declared that "unless the records of the war department have been tampered with, a scrutiny of them will furnish all the evidence necessary to prove conclusively that tyranny, brutality and abuse were the rule and not the exception in the attitude of officers toward enlisted men, in the American expeditionary force. The letter was written in connection with Mr. Weeks request that the American Legion assist in securing facts relative to alleged mistreatment of soldiers.

Company funds, accumulated to purchase extra rations for the enlisted men, were "in a large number of cases embezzled by the officers who had them in their possession and were dissipated by these officers in drunken orgies with women and wine," the letter charged.

A wounded man, it declared, was sentenced by a commanding officer to a term at hard labor, without trial for having refused to do "ward labor."

The suggestion was made that Secretary Weeks extend to all former enlisted soldiers regardless of whether or not they are members of any organization, his invitation to come forward with evidence.

In so far as transient labor wages were concerned, the board held that the rate fixed by the railroads, was in accordance with the present wages in the open market.

In the case of all hourly paid men other than transient laborers, such as loaders in stores, freight truckers and porters, locomotive cleaners, asphalt men, fire builders and coal men, the board recommended that the maximum decrease be not greater than ten per cent of the wages paid before the reduction. Decrease of less than ten per cent in the case of these employees should stand, the board holds.

This ruling, the board declares, should apply to all additional classes of a similar character to the foregoing.

Prohibition. Toronto, Nov. 9.—In the dominion election campaign, the paramount question is nation wide prohibition, according to a manifesto just issued by the executive committee of the council of the Dominion Alliance.

NO IMPROVEMENT IN OCTOBER

Report on Unemployment Situation in Nova Scotia.

Halifax, N. S., Nov. 9.—Unemployment conditions throughout Nova Scotia did not improve during October, according to a report issued today by the provincial employment offices. This is attributed to less employment offered by the mining and manufacturing group, together with a seasonal drift into the cities from the farming areas. About 2,600 applicants are listed at the employment offices seeking work.

Considerable employment was afforded in October by the Nova Scotia apple crop, figures for which, according to the unemployment report, show the 1921 crop to amount to 1,600,000 barrels as compared with 1,160,000 barrels in 1920.

TWO YEAR TERM FOR AUTOISTS

To Deter Others, Says Judge—Lesson Must be Taught That Accident is Not Misfortune, but a Crime.

(Toronto Telegram.) This was sentence day in the assizes. In sentencing Harris Goldberg to two years less one day for having run down with his auto and killed Miss Rose Stein, Justice Riddell said:

"Of the three objects of punishment, usually considered, two affect me not at all. I do not think that any punishment I can inflict will make you a better man. I do not fear that you will ever commit the same offence again. And I have no kind of sympathy with the idea that punishment is either an atonement or a rightful vengeance taken by society for the crime. My whole object is to deter others from offending in the same way. Terrible Toll.

"The hideous roll of victims from the automobile is appalling, not a day passes but one or more citizens are slain by reckless motorists. Some unavoidable accidents there are, some accidents there are in which the victim was alone to blame, but the list of accidents which might have been avoided by care on the part of the motorist is shockingly large. "Too many imagine—as apparently you imagined—that so long as they do not exceed the speed mentioned in the statute they are safe and may proceed at their pleasure, leaving to others the duty to look out for themselves. That is not the law, nothing could be more erroneous; the statute prohibits running above a certain mileage, twenty or twenty-five miles per hour, but it does not authorize anyone to run up to that speed. The law is quite clear that such vehicles must not be driven recklessly or negligently or at a speed or in a manner dangerous to the public under all the circumstances, including the traffic which might reasonably be expected.

Not Hard Luck, But Crime. "The sentence which I am to impose upon you will, I hope, serve to impress upon some motorists the law and to induce them to use more care than has been displayed by them in the past; and I have in mind those who own and run their own cars as well as others not so circumstanced. The lesson must be taught that an accident of this kind is not a misfortune, is not hard luck; it is a crime. "I could sentence you to a long term of years, even for life, but I do not think such severity called for. Heavier Sentence Intended. "After hearing representations from your counsel I have decided to reduce the sentence I had intended to impose, which would have involved your incarceration at Kingston for a considerable time. But after hearing your counsel I am going to do what my heart strongly impelled me to do, and you will not have to wear the convict's garb at Kingston. Accident Avoidable. "Knowing all this, you ran your car at a rapid rate to and across the intersection of Nassau street, and ran down the unfortunate young girl who was on her way to her employment. Your story that the girl ran suddenly in front of your automobile and stopped was disproved by the jury. It was plain to them, as it is to me, that the casualty was not an unavoidable accident, nor was it wholly the girl's own fault. It may perhaps be that she was not so careful as she might have been, and that consequently you could not be rendered liable in damages, but that is quite immaterial in a criminal prosecution. Punished For Negligence. "The law requires care from every driver of a motor vehicle, and he is not excused simply because he may prove that some one else was also negligent. The jury have found, and rightly found, that your negligence contributed to the accident, and it is for such negligence that you are to be punished. Your wanton disregard of the care proper to be taken when in charge of such a vehicle has brought upon you the conviction for a crime. The post-office officials have issued orders not to forward mail for or issue money orders in the name of J. E. Blackstone, of Baltimore (Md.), an alleged race track upster.

However, the day of light sentences for manslaughter is over. The time has come when killing by motorists should be punished as killing ought to be. And if light sentences will not act as a deterrent, longer ones will have to be given. The large percentage of motorists are not wanton or reckless, but the few who are give a bad name to them all.

THE CONFERENCE ON DISARMAMENT

To the Editor of The Times: Sir—The disarmament question has aroused much interest, and it is only sane and reasonable to hope that some good may come out of the Washington conference, but in these troublous days, when plotting and rivalry are reigning supreme, it would be folly to think that a few men can meet and shape the course of future events to their liking, and that the power to end wars is within their control. All kinds of pleasant possibilities may be seen in the visions of a peaceful future, but to avoid disappointment, no promise to end wars should be taken seriously. It is well known how long the people of Europe were forced to continue slaughtering one another for the victory that was to end wars. The promise that brought the armistice of 1918 was a promise of a peace founded on justice, and one that would promote harmony among the nations of Europe. This promise had a sweetening effect on much of the bitterness created by war, and millions of Europeans saw it as a golden millennium. It is not necessary for me to try to describe how much those millions were disappointed.

on peace and disarmament which concerns the whole world? Some people talk about the nations disarming like a child who has decided to break up his tin soldiers with a hammer, and in their earnest and well meaning plea for peace seem to forget that the inhabitants of this world are to be dealt with and not angels. But I doubt if there is one among those preaching the doctrine of total disarmament and no more war, who would willingly allow an intruder to take possession of his home and his treasures without a struggle, or one who would keep the dragon quiet by feeding it his sheep and his children, instead of making an effort to play in reality the fable of Saint George. The International Women's League of Peace and Freedom are among those organizations demanding total disarmament. Maurice Thompson wrote: "Where freedom makes her home here is the centre of power." There is no denying that the power of armaments has been badly mismanaged and that the civilized world is now disappointed and fearful, but can freedom live in the centre of weakness? Can the way of travel be made safe by covering danger signals with roses? "Blessed are the peace makers," but peace can only be peace when founded on reasonable and practicable principles. Let us hope that these principles will be found, but the saddest thing about it all is that nowadays there can be little hope of lessening to any great extent the danger of war or the power of destructive armaments. Civilization has more to fear from a few ships that form the combined naval forces of the world, and the most deadly and devastating weapons may now be secretly stored in the little laboratory of any chemist. It might seem an awful exaggeration to say that it would be hard to imagine a place where civilization would be in more danger of annihilation than it is in this old world today, but first one glance at the great financial problems and the cost of a modern battleship is enough to say that there is no exaggeration in saying that the building of armaments should be curtailed. In the days when the greatest warships cost \$8,000,000 each, many were saying that the game of building navies had become very expensive. Now Japan is building battleships which are costing upwards of \$30,000,000 each. Those ships, the largest and most powerful in

The League of Nations exhibited some of its pacifying qualities in settling the Silesian dispute, where self-determination was blotted out by the decision of a few foreigners who were more interested in the natural resources of the country than in the welfare of the people. Silesia is now a battlefield where foreign plotting has created a terrible bitterness amongst a once happy people, and where thousands of foreign soldiers must be kept on duty in order to keep rival factions apart. To me it seems a mistake for anybody to say that the unfortified boundary line between the United States and Canada, and the hundred years of peace between these countries is a great and convincing example for the Washington conference on disarmament. It is a great truth that there have been a hundred years of peace between the United States and Canada, and that the boundary line, which is a division between the American eagle and the British lion, is not fortified. But when everything is taken into consideration, how can these facts afford any foundation for setting a question

DO YOUR BIT

L. P. D. TILLEY, General Chairman. St. John, N. B., Nov. 8, 1921. 11-10.

There, on your pattern envelope you will notice the Deltor's saving of 50c to \$10

NOTICE the amount of yardage your Butterick pattern specifies! Did you ever dream that such a style could be made of so little material? It's less—as much as 1 1/2 yards less—than was ever possible before. Which means that you will save 50c to \$10 on the frock or suit you are planning! Think of the economy of that—the pattern paying for itself and saving money besides!

It's all possible because of a wonderful invention enclosed in the envelope with your new Butterick pattern—an invention individually planned for the pattern it accompanies—the Deltor!

And this Deltor not only saves money because you use less material, but endows you with even greater skill of sewing and opens to every woman new avenues of smartness!

The DELTOR Saves 50c to \$10 on materials alone

Follow through these three steps and see how simply the Deltor guides you to sewing ease, to economy, to Paris' own charm.

The first thing the Deltor does is to give you an individual layout chart, (yes, individual, not just a general chart but one for your exact size and for each suitable width of material). Because of this chart, your pattern calls for 1/4 to 1 1/2 yards less material than any other pattern can—a saving of 50c to \$10 on materials alone.

Then you follow picture-and-word illustrations that guide you every stitch to perfect fit, drape and set. Your needle flies—you save hours of time—you instinctively do the right thing at the right time; and you always do the thing the Parisian modiste would do.

Finally—ideas of finish! Should your sleeves be the type that Martial and Armand favor, should the neckline hint of the Moyen Age, should embroideries follow Madeleine and Madeleine's gay lead, the Deltor explains just how to achieve the correct effect. From the first to the last detail, this most economical, most successful frock is a triumph of Paris!

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, NOVEMBER 9, 1921

ST. JOHN COUNTY R. E. C. CONVENTION

The annual convention of the St. John county Religious Education Council in the Carleton Methodist church yesterday was notable for the excellent addresses delivered. It was well attended and one of the most successful yet held. C. R. Wasson, who presided, was re-elected as the chairman of the council. The reports presented were very encouraging.

The afternoon session was occupied with a round table talk on "Our Children's division objective" led by Miss A. M. Harrison, children's division of the Maritime R. E. C. The members of the convention were the guests of the ladies of the Methodist church at a most enjoyable supper.

The evening session opened with a service of song led by H. W. Bromfield. Rev. J. Rice gave the scripture reading and led in prayer. Rev. A. L. Tedford delivered a stirring address on "How to make the Home Visitation count for the Sunday Schools," laying clearly before the meeting the individual's responsibility in the follow-up work. L. W. Simms spoke of the relation of the county R. E. C. to the Maritime R. E. C. He also made appeal for the contributions and allocations in behalf of the finance committee. Miss Harrison spoke of the need for a more general interest in the children's division work and recommended the holding of elementary conferences.

Miss H. Clark spoke of the value of teacher training to the school and to the individual teacher. LeB. Stubbs referred to the value of teacher training, speaking more particularly of the summer school and giving an account of the summer school at Sackville this year.

A. M. Gregg appealed to his hearers to consider seriously the boy and his various activities and to realize what a gold mine the boy was. Miss M. R. Allison spoke of the girls' work programme and said there was great need of leaders for girls.

The report of the secretary, C. G. Flewelling, told of the change of name from the St. John county Sunday school association to St. John Religious Education Council, which change had been made mid-way in the year. The big undertaking of the year had been the bringing of J. Shreve Durham to St. John to conduct the Home Visitation, which had resulted in bringing new members and adherents to all of the city churches and Sunday schools. A teacher training institute held in the Church of England Institute had had an enrollment of ninety-eight and Anglican teachers had been among the number. The executive had invited the M. E. R. C. to hold its fall convention in the city of St. John and that convention had met with gratifying success. During the year C. R. Wasson and other helpers has visited Mace's Bay, St. Martins and some of the outlying sections with beneficial effect.

The treasurer's statement showed receipts of \$222.88 from the schools and \$1,663.00 from personal subscriptions, making a total of \$1,885.88. A balance of \$20.48 remained on hand and the pledge of \$1,200 to the M. E. R. C. had been fully met and over-subscribed by \$44.88 which would go towards the pledge for 1922.

The election of officers resulted as follows: Chairman, C. R. Wasson; vice-chairman, A. R. Crookshank; secretary,

PLAYGROUNDS CHILDREN PRESENT FINE PAGEANT

The performance by the children of the playgrounds given in the Imperial theatre yesterday afternoon to raise funds for the new club for boys in the East End, attracted a big crowd and delighted everyone who saw it. The children had been admirably trained and were picturesquely costumed. They went through the various items of a programme of dances and songs, a pantomime playette and a dainty fantasy of spring and summer, and in each number they acquitted themselves splendidly, evincing remarkable talent. The children were trained by Miss E. S. Heffer, who was much to be complimented on the success of the entertainment. A clever prologue to the original fantasy was written by Miss Elizabeth Good, who took a prominent part in that pretty number and gave some graceful dances.

The programme and those taking part in it were as follows:—Dancers: Vera Campbell, Yvonne Johnston, Alma and Emma Bean, Marjorie Stewart, Helen and Florence Nugent, Ethel Causton, Nansene Sawaya, Veronica Steel, Helen Belding, Eva and Edith Blizzard, Edith Treacartin, Lillian Donahoe, Irene Power, Sunbonnet babies—Motion song: Phyllis and Irene Stone, Helen Rhinhat, Genevieve Owen, Evelyn Spragg, Dorcas Power, Gladys Green, Irene James. CENTENNIAL OF ST. GEORGE'S CHURCH

St. George's centennial was celebrated last evening by a social in the new church hall, Rev. W. H. Sampson presiding. In the course of his opening remarks, Rev. Mr. Sampson drew attention to the wooden fish on the platform, it being kept after the first tower had been removed. He pointed out that the fish was a Christian emblem and the letters for the Greek word "fish" mean "Jesus Christ, Saviour." After the pastor's address, J. L. Robertson gave several readings and Mrs. Stanley Harrison sang with pleasing effect. Miss M. Beattie acted as accompanist. Rev. Walter P. Dunham, rector of the Church of the Good Shepherd, Fairville, tendered the greetings of his church, which were built by the third rector of St. George's, Rev. Dr. Dowling, afterwards Archbishop of Jerusalem. Rev. Mr. Dunham offered the suggestion that the old fish be suspended in the new hall in such a way that it would always point to the altar.

Rev. J. H. A. Holmes, rector of St. Jude's, brought the greetings of the daughter church of St. Jude's, assuring the people of St. George's that his people wished them every success. Dainty refreshments were served by the young ladies and the young men's Bible class toward the close of the evening.

A proclamation calling for the suspension of all normal business throughout Canada for two minutes, beginning at 11 a. m. on Friday next, for the observance of Armistice Day, was contained in a special issue of the Canada Gazette, Ottawa.

That's Court's Advice to Ambitious Young Musician.

Toronto, Nov. 9.—A boy named Pinder touched a broken electric wire at Niagara Falls, Ont., and lost a finger as a result of the shock he received. He sued the municipality of Niagara Falls for \$20,000 damages, and was awarded \$2,000 for himself and \$271.05 for his father. An appeal was taken on his behalf because of the smallness of the award, the grounds being that he had intended being a musician and the loss of the finger spoiled his future in this respect.

HE MAKES BASEBALL BATS.

Mr. Hillerich of Louisville Got Some Brand-New Ideas at World's Series.

J. A. Hillerich of Louisville, Ky., a manufacturer of baseball bats, returned home after attending the world's series with many new ideas for improving bats. Mr. Hillerich was in daily conference with all the big league umpires and champion players while he was in New York regarding improvements in the standard bats now used, and said that he had many ideas for improving them, to keep him very busy throughout the winter and until spring training practice begins.

"Thirty years ago," said Mr. Hillerich, "after playing a lot of baseball myself and not liking the baseball bats of the day on account of their lack of variety, I tried my hand at making some along my own ideas. My first bats found favor with the old Louisville 'Sluggers,' champions of the day, and, of course, their approval meant that others soon tried them. In succeeding years I was often chided by my friends, relatives and business men, who did not believe the business of baseball bat-making was a dignified life work. But it seemed otherwise to me, and last year we made over a million first-class bats and sold them in all parts of the world. "Every ball player has his own ideas of what his bats should be, although very few can readily tell exactly what they want. Managers used to call me into consultation when the team ran into a batting slump, and almost invariably we could improve the average by catering to the wishes and whims of the individual men. When a batsman likes a certain model, we try to supply it in two weights, although otherwise identical in every way, for even the most powerful athletes vary in strength from day to day, and a difference of three or four ounces in the weight of their bats will adjust this. Also when a batsman finds himself hitting in any one direction, and the opposing fielders outguessing him, his best resource is a change of bats, either lighter or heavier as the case may be, but the bat in every other way identical to his usual one, and giving him a slightly faster or slower swing to change the course of his hitting. "Ruth, of course, takes the heaviest bat a ball player ever used. It is 32

RING. Dempsey Gets \$150,000 Offer. Winnipeg, Nov. 9.—The Winnipeg Sporting Club has offered \$150,000 to Jack Dempsey to meet an opponent in Winnipeg next summer, so it is announced. Manager Kearns said he would withhold his decision for a few weeks. Croseley vs. Roberts. New York, Nov. 8.—Herbert Croseley, English heavy weight, will make his first U. round bout with Al Roberts, of New York. Bout For Gibbons. New Orleans, Nov. 8.—Tommy Gibbons, contender for the heavyweight championship, has been matched in a fifteen-round bout with Don O'Dowd on November 20, so it was announced today.

BASEBALL. Baseball on Sunday. (Boston Globe). Object of the Sunday baseball in Cleburne, Tex., pulled an unusual stunt in their efforts to prevent the playing of a game on a certain Sunday in the past season. There was a game scheduled between Cleburne and Sherman in the Texas-Oklahoma League, and the night before the scheduled game a number of the objectors went to the grounds with teams and plowed up the diamond, so that the game might not be played. But the loyal baseball enthusiasts broke the Sabbath by going to the field the next day and putting it into shape, so that the game might be played.

Babe Ruths Case. Chicago, Nov. 9.—Judge Landis, commissioner of baseball, intends to dispose of the cases of Babe Ruth and the other two members of the pennant-winning Yankees who violated baseball laws by participating in exhibitions, so soon as he hears what the offending players have to say for themselves. Leslie O'Connor, secretary of the baseball commission said that a questionnaire had been sent to Ruth, Meusel and Bill Piercy, which would give them a chance of explaining their violation of the major league constitution, but that no reply has been received from any of them.

ST. FRANCIS X. LOSES BRILLIANT GAME, 6 TO 0. Antigonish, N. S., Nov. 8.—Dalhousie defeated St. Francis X. in the intercollegiate football game here today by six to nothing. Dalhousie's victory over St. Francis Xavier gives the Tigers the title in the eastern section of the intercollegiate league and the right to play off with the winners of the western section for the intercollegiate championship of the maritime provinces. Unless Acadia succeeds in defeating Mount Allison in Sackville on Thursday U. N. B. will have the title of the western section and will play Dalhousie in Truro, probably about November 17.

NEW KIND OF SPORT SHOE. The Sole of It Is Made of Unvulcanized Crepe Rubber. Sport shoes with soles cut from unvulcanized plantation crepe rubber have been introduced in England. A showing of the new type of sole at the rubber exhibition last summer popularized the idea, and boot and shoe manufacturers are now preparing to make sport shoes with the new soles readily available for the trade. Trade Commissioner Hugh D. Butler reports that Englishmen playing tennis on Far Eastern rubber plantations discovered that they got much better wear from crepe rubber than they did from that which had been put through the vulcanizing process.

Shoes soled with the raw crepe rubber are said to present a most attractive appearance, as the rubber is of a bright golden color with corrugated surfaces. Only blanket crepe, which is close knit and gritty, is deemed suitable for the raw rubber sole. The rubber is exceptionally resilient since they contain many times as much rubber as the ordinary vulcanized heel rubber sole. Shoes equipped with the new type of sole have not proved thus far to be as cheap as shoes with the standard vulcanized sole, but it is the opinion of the promoters of the project that, as soon as the new soles are made in quantity, they can be sold at a price not much higher than a good grade of standard shoes.

There is a very large market in England for durable sport shoes. The most popular type is known as "Pittsford," which is a cheap canvas shoe used for any purpose for which shoes with rubber soles are needed. Their average life is two or three weeks, and the trade would therefore welcome a sole which offers more substantial service. ROD AND GUN. The November issue of Rod and Gun in Canada will delight the sportsmen of the Dominion with its resplendent cover painting showing a picture of a King duck in natural colors. The many interesting stories and articles in this issue include an excellent ducking story entitled "Twenty-six grains of ballistite and one and one-eighth ounces of number six." A thrilling account of one of Captain Joseph Bernard's exploratory trips in the Arctic regions also appears in the November issue. For the trooper and the November issue of Rod and Gun Canada's monthly. Rod and Gun Canada is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

French Woman Declares He Spoiled Picture Sale. New York, Nov. 9.—Damages of \$500,000 are asked in a suit brought against Sir Joseph Duveen, international art dealer and critic, who is alleged to have prevented the sale of the painting "Belle Ferroniere," owned by Mrs. Andre Hahn, of Paris, to the Kansas City Art Institute, by expressing the opinion that the painting was a copy and not the original work of Leonardo da Vinci. The painting, according to Mrs. Hahn's complaint, had been expertized by George Soriais, the official expert of the French Government, and pronounced by him genuine. This, it is said, he had established by many methods, including identification of the finger-prints in the paint as those of the great master. The painting was brought to this country last week and negotiations for its sale were about to be concluded when a New York review by Sir Joseph in which he was quoted as saying: "The picture sent to Kansas City is a copy of hundreds of other which have been made of this and other Leonardo subjects and offered in the market as genuine. Leonardo never painted a replica of his work. His original 'Belle Ferroniere' is in the Louvre, Georges Soriais' certificate is worthless." It really relates to the Kansas City picture. He is not an expert on the work of Leonardo.

"La Belle Ferroniere," which is a portrait of Lucrezia Crivelli, mistress of Francis I, in which the eyes have much of the same haunting, unapproachable expression of da Vinci's "Mona Lisa," at one time hung in the Louvre. From these, so old reports have it, the painting was stolen, and for a century or more passed through many hands and more adventures. It came to the United States last year as the result of the municipal patriotism of wealthy men of Kansas City, who backed the Kansas City Art Institute and offered to pay \$300,000 for it.

Toronto, Nov. 9.—That a wife may be the head of the house was the ruling made by the Court of Revision here in an appeal by Mrs. Edmund Phillips against an income assessment of \$1,500. If she is the head of the house, she may be accepted as a fact that a wife may be the head of the house.

\$500,000 IN GEMS ON A GIRL. Brilliant Spectacle on French Night at "America's Making" Show. (New York Times). A girl wearing \$500,000 worth of precious stones in the brilliant feature of French night at the exposition of "America's Making" in the Seventy-first Regiment Armory, on Wednesday.

Several detectives will guard the girl, and the jewels will be taken to the armory and locked to the safe again in a closed automobile. The Hope ruby, a companion stone to the famous Hope diamond will be among them.

WORLD'S GREATEST WIRELESS OPENED. Long Island Plant Flashes a Greeting from Harding to 28 Countries. (New York Times). A new wireless sending station, which engineers of the Radio Corporation of America who built it say is the most powerful in the world, was opened yesterday at Rocky Point, L. I., near Fort Jefferson. From the building house in Washington a message of greeting from President Harding was flashed to twenty-eight countries—to all Europe, and even as far as Japan and Australia.

The plant is an amazing thing of huge dimensions and hanging wires of iron wilderness on the north shore of Long Island. That part of it which was in operation yesterday is only a twelfth what will eventually cover ten square miles and spread out in a great wheel-shaped arrangement of towers. When it is finally completed it will be so powerful that with all its energy directed behind a message it can be forced through to its destination no matter what the atmospheric obstacles. WORLD'S GREATEST WIRELESS OPENED. Long Island Plant Flashes a Greeting from Harding to 28 Countries. (New York Times). A new wireless sending station, which engineers of the Radio Corporation of America who built it say is the most powerful in the world, was opened yesterday at Rocky Point, L. I., near Fort Jefferson. From the building house in Washington a message of greeting from President Harding was flashed to twenty-eight countries—to all Europe, and even as far as Japan and Australia.

The plant is an amazing thing of huge dimensions and hanging wires of iron wilderness on the north shore of Long Island. That part of it which was in operation yesterday is only a twelfth what will eventually cover ten square miles and spread out in a great wheel-shaped arrangement of towers. When it is finally completed it will be so powerful that with all its energy directed behind a message it can be forced through to its destination no matter what the atmospheric obstacles.
