**SAYS SINN FEIN IS NOT MAKING PEACE OVERTURES**  
Dublin Paper Forecasts Manifesto by De Valera  
Quoted as Expressing Willingness to Negotiate if Ireland Recognized as Independent—Case of Cork's Lord Mayor.

Dublin, Jan. 6.—Eamon De Valera denies that the Irish Sinn Fein is making peace overtures to England, says the Freeman's Journal, in an exclusive forecast of De Valera's forthcoming manifesto. Speaking in behalf of the movement, De Valera is quoted as saying he would not turn a deaf ear to proposals of the English government, if they are based upon recognition of Ireland as an independent nation.  
When representatives of the British nation are prepared to meet representatives of the Irish nation on an equal footing, peace talks will be possible, says the forecast of the manifesto. De Valera explains, adds the newspaper, that his return from the United States was necessary so that he might assume responsibility for the direction of the Sinn Fein, in view of the arrest of Arthur Griffith, founder of the organization, and of Professor MacNeill.  
In the manifesto, De Valera is quoted as denying that he is under guarantees of protection from the British government, and it is said that the crown forces are searching for him and are anxious to place him under arrest.  
Washington, Jan. 6.—Secretary Wilson of the labor department announced today that he had granted parole to Lord Mayor O'Connell of Cork, detained at New York by immigration authorities, on his own recognizance pending decision as to his admission into the United States.

**VAGARIES OF THE WORK SITUATION**  
Wage Cut in One Place; Increase in Another—Some Factories Open While Others Close—In England.

Battle Creek, Mich., Jan. 6.—A number of local industries, closed for some time, will resume operations next week, it was announced today.  
The Kellogg Toasted Corn Flakes Co. and the A. B. Stove Co. plants plan to re-open on Monday.  
Boston, Jan. 6.—Business and industry generally will benefit by the present commercial let-up, said Charles M. Schwab, chairman of the Bethlehem Steel Corporation, at the annual dinner of the Massachusetts Bankers' Association last night.  
Fitzgerald, Georgia, Jan. 6.—A wage reduction equal to five per cent. of all increases granted since 1917, is announced by the Atlanta, Birmingham and Atlantic Railroad.  
An Increase Here.  
Atlanta, Ga., Jan. 6.—Conductors, motormen, maintenance of way men, shopmen and workers in the case of the Georgia Railway and Power Co. have been granted a two cents an hour increase in wages. The increase affects 1,200 men.  
Niles, Ohio, Jan. 6.—Officials of the Hubbard Pressed Steel Company here announced today that the plant, which employs 1,000 men, would be closed down indefinitely. The shut-down followed a wage reduction of 20 per cent. which was announced Monday.  
London, Jan. 6.—From all parts of the country some accounts of growing unemployment. In London alone nearly 100,000 unemployed persons are registered at the labor exchanges and on the Clyde, on the Tyne side, the Tees and the Wear shipbuilding districts in Lancashire and Yorkshire, in Birmingham, Coventry, Northampton, Luton and indeed in nearly all the great manufacturing towns the same gloomy story is repeated.  
Neither employers nor employees seem prepared to adopt the government's scheme for workmen to work shorter hours. The government proposal to place as far as possible the royal dockyards and state industrial departments on part time work with great opposition.

**QUEBEC CITY AND DIVORCE**  
Not a Single Application for Coming Session of Federal House.

**AN INJUNCTION IS OBTAINED**

The machinists of the local plants went on strike in sympathy with the machinists of the American Can shops at Kansas City, and fifty other cities, who are demanding a closed shop.

**500 MINERS IDLE AT SPRINGHILL**  
Tie-up Caused by Strike of Sheet Tenders—U. M. W. President on the Way to Scene of Trouble.

Springhill, N. S., Jan. 6.—Five hundred miners are idle in Springhill as the result of a walkout of sheet tender yesterday. Efforts to patch up the trouble failed.  
The chief cause of the trouble was the refusal of the sheet tenders to perform their work of keeping the miners inside the main slope supplied with boxes. Their grievance is that they were ordered to tend two inclines in place of one, as they have been doing.  
At a meeting of the Springhill local last night a delegation was selected to see the management to arrange matters. The men were refused an interview, they said.  
President Baxter of the U. M. W. will arrive here today. It is claimed that the Montreal agreement has been broken.  
Today's Meeting.  
Amherst, N. S., Jan. 6.—At a meeting of the local U. M. W. in Springhill this morning, no action was taken regarding the strike. It was held that nothing should be done until the arrival of President Baxter.

**BROADEN SCOPE OF 'PHONE INQUIRY**  
Proceedings at Session in Ottawa Yesterday on Matter of Increased Rates.

Ottawa, Jan. 6.—(By Canadian Press).—Application for a widening of the investigation into the Bell Telephone Company's books to take in the Northern Electric Company and other subsidiaries was made yesterday at the resumed hearing of the Bell company's application for increased rates. G. H. Gentry, Toronto, counsel for the Province of Ontario, made this request, saying that the Bell Telephone Company had handed over probable business to the Northern Electric and that apparently it had been manufacturing its own apparatus and equipment as formerly, these companies, the profit shown in the Bell company's book would have been entirely different.  
Commissioner McLean, who was in the chair, promised a ruling on the board on this before the case had proceeded very far.  
When the hearing of the application was proceeded with, examination of C. F. Sise, general manager of the Bell Telephone Company, and E. Palm, financial controller, occupied all of the day's session. Mr. Sise said that the company had lost more than one and a half millions on its operations for eleven months of 1920. The estimated increased revenue to be derived from the increased rates, he said, was \$1,667,000, and after all operating costs had been paid, the balance available to apply towards increased operating and maintenance expenses and cost of financing would be \$181,388.

**GREEK JUDGE IS ASSASSINATED**

Athens, Jan. 6.—A party of soldiers, whose identity or affiliations are not known, last night assassinated Colonel Stefan Patzanos, who was the chief judge of the court martial in the Venizelos. He had acted as judge in numerous celebrated cases of a semi-political nature, and had incurred much enmity as a consequence. He was both sides at Venizelist and had received many threatening letters.

**ALLEGED LOUDER HAS CONFESSED**  
Halifax Detective Says Prisoner Claims Self Defence

Says He Took Revolver From Barry, Shot Him, Set Fire to Bed Clothes and Decamped With Money and Watch.  
Summerside, P. E. I., Jan. 6.—George Louder of Summerside has confessed to shooting Daniel Barry, a Pictou cripple, and setting fire to the oil-saturated bed in which the body lay, according to Chief Detective Kennedy of the Halifax police department. Louder alleges, the police say, that he shot Barry in self-defence after he had been threatened with a revolver in the course of an argument over the payment of money owed Louder for plastering and carpentry work.  
Louder broke down and went in his cell at the Prince county jail last night as he told the detective and Chief of Police MacAulay of the circumstances of the occurrence at Barry's house on the night of December 30, volunteering, Mr. Kennedy said, a full and complete statement which was accepted by investigation made by the police.

**A MIXED CASE**  
"You Honah, I went for gun, 'cause I knowed it was there, for I got it there before and then people have been selling it," was the answer given by Arthur Stevens, colored, charged with attempting to steal and also with common assault when he appeared in the police court this morning. Mrs. Julia Zed, Brunswick street, said the man went into her house acting suspiciously and when she asked him what he was doing he struck her. Mrs. Zed said she heard his mother scream and went to see what was going on and he went to the accused in the hall. He struggled with him but he got away and the only means of identification was his cap which had been knocked off. Lizzie Marsh and Mrs. Sadie Moses corroborated the evidence of the last witness. Detective Biddiscombe told of going to the house and from information received there went to Erin street where he found the accused.  
The accused admitted going to the house but said he went there to get gun and as he was going down stairs he took a bottle away from him. The accused said he did not pay for the bottle as he had gotten gun there before and thought he could be trusted on this occasion.  
The accused was remanded and the case postponed for witnesses for the prosecution. Two men charged with drunkenness pleaded guilty and were remanded to jail.

**JOBLESS PLAN A MARCH UPON WASHINGTON**  
New York, Jan. 6.—Plans for a march on Washington as a protest against rates of unemployment, the "American Legion of Jobless," organized at an open air meeting on the East side last night, said the march would start from New York about February 1 and that the procession would be accompanied by rolling kitchens, and a food train.  
After passing resolutions calling upon Congress to pass laws governing insurance against unemployment, the legionaries shambled down Second avenue to the Municipal Lodging House and a free bunk.

**CHICAGO GRAIN MARKET.**  
Chicago, Jan. 6.—Bearsish sentiment received new impetus today on account of the suspension of the British American Continental bank in London. The strength of sterling exchange, however, in the face of the bank failure attracted considerable attention. Traders showed an evident disposition to go slow on the grain market, and the market pending further developments.  
Opening prices, which ranged from 1/2 to 2 cents lower, with March 1.68 1/2, and May 1.62 1/2, were followed by a moderate further setback and then something of a rally.  
Corn sympathized with the weakness of wheat. After opening 1-8 off to a like advance, including May at 74 3/4, the market hardened a little, but then sagged.  
Oats were easier like other grain, sterling unchanged to 1-8 lower, May 48 7/8 and then tending downward.  
Provision reflected the decline of cereals and of hogs.  
Premier Squires, of Newfoundland, is planning heavy purchases of railway and other supplies in the United States.

**As Hiram Sees It**  
"Well," said Mr. Hiram Hornbeam to the Times reporter, "heavens, you got over Christmas and New Year's yet?"  
"I have not," said the reporter. "There have been so many things to eat in the house that the novelty overcame discretion and I have eaten not wisely but too well. I am only about two jumps ahead of the doctor this present minute."  
"I thought you looked kinda fagged out," said Hiram. "An' there's the proof. But you'll be just as hungry next year as you was this—By Hen!"

Halifax, N. S., Jan. 6.—With the tram service completely hampered and many of the city streets impassable for autos, Halifax today is emerging from the heaviest snow storm of any day in January for the past five years. Beginning late last night the snow, accompanied by a thirty mile westerly wind, fell continuously and as soon as still combed down steadily, though in lighter flakes. At nine o'clock this morning the snowfall measured 11.8 inches. The wind created many drifts, some of which are four to five feet deep.

**PROSPECT POINT ROAD MATTER**  
Question of Boundaries and Incorporation Discussed  
Letter to Be Sent to Council by Mr. Gregory—Delegation Heard in Request for \$4,500 for Playground Work.

J. Fraser Gregory appeared at a meeting of the committee of the common council this morning with reference to the establishment of a boundary or of a line which would determine the exact lines of what is known as Prospect Point road, a part of the Murray & Gregory property running from Douglas avenue to the Strait Shore road. Men engaged in putting in sewer pipes at present in that locality and connecting them with the main. His contention was that the property owners should be consulted as to the width of the lots to which the sewers were being laid and the bounds definitely laid out before the work was proceeded with.  
In answer to a question as to whether the road called Prospect Point road was an incorporated street, Mr. Gregory said he was under the impression that it was. He had had correspondence with members of former councils and he thought the matter had been settled.  
Mr. Gregory said he had an eight foot wide road in the city, which he considered a street. It was formerly known as Westmorland road, and he had thought of it as an incorporated street. When he was asked whether the city workers were doing he had called upon the commissioner and the city engineer. The latter had told him that the work was being done under orders from the council.  
City Engineer G. G. Hare produced maps which showed that the Prospect Point road (see called) was not an incorporated street.  
The mayor suggested that Mr. Gregory allow the city to take the road, be divided into lots to such number as is necessary and agree to abide by the number of cuttings as decided by the city and give bonds to guarantee that this disposition be not disturbed. If this were done he thought the city might take the necessary steps to make Prospect Point road an incorporated street.  
Hon. J. B. M. Baxter told Mr. Gregory that he had the right to fix his own boundaries and say what he might use and what it may not. Whether the city accepted this and incorporated the land as a street was for the council to say.  
The mayor said that no more cuttings would be made today and the matter could be looked into. He suggested that Mr. Gregory and the city engineer, G. G. Hare, get together and arrive at an amicable settlement regarding the meters and bounds of the street.  
Mr. Gregory said if the city would define the line and settle on the exact bounds of the street he would deed the land to the city.  
Commissioner Frink suggested that he write to the mayor and common council embodying this in his letter. This Mr. Gregory agreed to do.

British Naval Writer Says It Would Mean Death to British Fleet—United States and Japan in Different Position.

London, Jan. 6.—Archibald Hurd, naval correspondent of the Daily Telegraph, in an article discussing the proposed naval holiday, says:  
"If this country enters into an international compact of a naval holiday, tending over five years, that agreement would be equivalent to the death knell of the British fleet, unless provision were made for maintaining plants essential for gun making, armor manufacture and the construction of torpedo tubes and torpedoes."  
"We might awake at the end of the holiday to discover we still needed a navy, but that we had bartered away the capacity for creating one."  
Mr. Hurd points out that the United States and Japan would not be in that position since they have in hand sufficient work to keep their ordnance making and armor manufacturing plants going for at least five years.  
New York, Jan. 6.—(Canadian Press).—Letters from Lord Shaughnessy and Sir Robert Falconer, president of the University of Toronto, appear in the New York World this morning in connection with the newspaper's campaign advocating international disarmament.

**Lord Shaughnessy.**  
Lord Shaughnessy says: "I decidedly favor an agreement between the great powers regulating any restriction of naval and military expenditures, not only for economic reasons, but as an assurance that the expressed determination of the Allies to prevent future wars was seriously intended."  
"Continued competitive armament construction would make the burden of taxation almost unbearable."  
Mr. Gregory said: "Combined action should result in great economic relief. It should go far to remove suspicions of selfish aggrandizement and it should greatly advance the preservation of peace by agreement and open discussion, because the leading nations of the world would show their unwillingness to appeal to force for the settlement of disputes."

TOBACCO MARKET**

Lexington, Ky., Jan. 6.—Preparations were made today for a mass meeting of tobacco growers here on Friday in protest against low prices which caused closing of most burley markets in the state, and farmers to return their crops to storage.

Reports from minor markets which remained open yesterday in spite of the closing of the larger places, said that prices showed decided improvement over those on the larger markets Tuesday when bids on the Lexington floor ranged from \$1 to \$30 per 100 pounds.

Despatches from Eminence, Ky., said that good grades of tobacco brought from \$45 to \$60 per 100 pounds when the warehouse opened its sale.

Some growers tried to halt the sale, it was said, but those who had unsold tobacco on the floor wanted to continue and the sale was carried through. Reports tallied 10 per cent of the 100,000 pounds offered.

Despatches from Richmond said that tobacco brought an average of \$18.65 per 100 pounds there yesterday as against an average of \$8.65 on Tuesday.

**Enthusiastic Meeting of Council Today—Nearly Complete Attendance.**

As an evidence of the active interest being shown in Board of Trade work, almost every member of the new council was present at a meeting at noon today. The chair was occupied by President Burditt.

Some most valuable suggestions were passed on to the membership committee for consideration. All the speakers displayed a most optimistic spirit. It is expected that the committee will report at the next meeting of the council.

Reports were presented on a conference with Hon. R. W. Wiggins, and also on the subject of the new railway bridge in its relation to navigation and the matter of level crossing.

Both these subjects were being satisfactorily dealt with by the city council. The Community Welfare Committee of the board was authorized to extend co-operation to the efforts being made in connection with vocational education.

The president was named a delegate to attend the indication ceremony of the Pythian Castle.

A communication bearing on the voting rights of corporations in civic matters was referred to the civic committee for opinion.

## FAMOUS CATARACT HAS DISAPPEARED

**The Drought in Switzerland Causes Disappointment to Sightseers.**

Berne, Jan. 6.—The largest and most famous cataract in Central Europe, the Falls of the Rhine, near Schaffhausen, has now disappeared. In summer the falls are generally 500 feet wide with a drop of 100 feet and a discharge of water estimated at 88,000 cubic feet per second. But now only a few trickles of water remain and the bed of the falls, except in the very middle, where there is still a pool of water, is so dry that people are walking across it. Not since the exceptionally cold winter of 1880 has it been possible to walk across the bed of the falls and even then, as old Schaffhausen residents agree, there was not so little water as now.

Every summer thousands of tourists visit the Falls of the Rhine which are famous at night. Geologists, who are now enjoying an unexampled opportunity of examining the bed of the Rhine, are known as glacier mills below them, with huge rounded polished boulders lying about. The river in some places is so low that it is possible to cross it on foot.

It is now three months since any rain of importance has fallen in Switzerland, and hitherto the winter has been singularly lacking in snow.

The warth of the last few days throughout Switzerland has been wholly exceptional, and the temperature at all the high sport centres, except St. Moritz, has been above the freezing point. In Swiss towns people go about wearing straw hats, and the high Alps have been blanketed in snow. The electric railways are obliged either to reintroduce steam traction or curtail train service.

The English and Americans visiting Switzerland for winter sports are oppressed with the warm clothing they have brought, and naturally disappointed at being able to do so little. None can remember such a warm New Year in the Alps.

**EMPLOYMENT MATTERS**

The commissioner of public works has received a letter from the Provincial Line Co. conveying the information that they have closed the plant for lack of orders and as a result about fifty men are thrown out of employment. The co-operation of the city was asked for to tide these men over the days of unemployment by finding work for them if possible.

A letter was received from the Turnbull Real Estate Co. saying that that company will convey to the city one and one half acres of land in the Millidgeville road subject to the rights of the estate of Thomas Gillen. A similar letter was received from the De Bury estate regarding land in Millidgeville road.

### A FASCINATING STORY

The journey by airplane to Hudson Bay will soon be commonplace. The United States naval balloon that was carried out of its course and landed near Moose Factory the other day was not the first visitor of that character. A hydroplane visited Moose Factory last summer and brought down the mail. An airplane has just completed a journey from New York to Edmonton. A new field of adventure is opened up, very different from that which lured the sturdy Scot to the northern region of this continent for more than two hundred years. The lover of adventure is fascinated by the story of the men who even fifty years ago came over the Atlantic to enter the service of the Hudson's Bay Company. One of them, Mr. N. M. W. J. McKenzie, who came out in 1876, has written for The Beaver a short account of his forty years of service, and tells how the Orkneys gave of the best of their young men to man the company's posts in the far north of this continent. It is worth while to quote from his narrative, with its background of two hundred and fifty years; for these adventurous traders were going into Hudson Bay before the British had gained control of the destinies of these eastern provinces. Mr. McKenzie writes:

"From my earliest boyhood I have remembered the annual arrival of the Hudson's Bay Company's ships at Stromness, in the Orkney Islands. It was the greatest event of every year. They had made this annual visit since 1670, generally three of them, full-rigged ships. They came directly from London, laden for Hudson Bay. They usually staid for a couple of weeks, in order to pick up all the young men who had been engaged by the company under five-year contracts for service in North America. These young men were assembled prior to the arrival of the ships. They came from the Highlands of Scotland, and the Orkneys, Shetland and Lewis Islands. One ship was bound for Labrador, one for York Factory, and one for Moose Factory. Each ship carried its own quota for its own port of destination. The company always obtained their men from these islands, as the men had proved to be the best for the service. However, they had to pass a rigorous medical examination before they were engaged, and only the physically fit, under severe test, were accepted. They were required to be between the ages of eighteen and twenty-five years, and were classified as clerks, carpenters, boat-builders, blacksmiths, coopers, tin-smiths, sloopers and laborers. All had a chance of promotion in the service. All the ships took on cargo at Stromness, also any parcels or boxes from parents or friends of any of the men who had gone out into the service previously. The captains and officers of the ships held high carnival during their stay, having parties on board and parties ashore, dancing every night; but still, for all their gaiety there were many tears shed by fathers, mothers, sisters, brothers and sweethearts when the hour of parting came, as many knew they were parting forever. There was always a salute fired from our shore battery of 82-pounders, seven shots for each ship on their arrival and departure. The ships responded with an equal number of shots. They sailed out Hoy Sound with the ebb tide and passed within 75 yards of the battery, the whole population assembled and cheering them good luck, as only islanders can cheer."

Mr. McKenzie did not come out in one of these ships, but was one of a party of three carpenters and three blacksmiths cabled for and sent via Glasgow to Quebec. They were ordered to report at Fort Garry and were sent from Sarnia through the States to the Red River, arriving by barge on that river at the gate of Fort Garry twenty-two days after leaving Quebec. How much more rapidly and easily that journey may now be made, and how different the Winnipeg of today from the Fort Garry of 1876. The very next day Mr. McKenzie was ordered to Fort Ellice, in the Saskatchewan district. He says: "Scores of Red River carts, drawn by oxen, were starting out that day, loaded with eight to ten hundred pounds of general merchandise. Some of the 'brigades' were bound for Fort Ellice, others for Fort Pelly, Qu'Appelle, Edmonton and Prince Albert. This was at the time of the opening of the new inland freight route. It was raining, had never seen so much mud. The trail was right down the present Main street of Winnipeg. We could see oxen mired, carts sunk down to the axles, and men down to their hips, trying to get the carts out. The whoops and yells of the drivers and the whole scene of confusion were something new to us. Our 'brigade' started about four o'clock in the afternoon. We got as far as the point where the City Hall now stands and camped for the night. Only horns of some of our oxen could be seen sticking above the mud. Murdoch McDonald, in charge of the 'brigade' was directing his men and swearing at them in Gaelic and other tongues we did not understand. All of them were plastered with mud from head to foot."

Later in the evening Mr. McKenzie found the same Murdoch playing the bagpipes and accepting a few drinks but made him "as happy as Souter

Johnnie or Tam o' Shanter." The journey to Fort Ellice occupied twenty-seven days. Mr. McKenzie served in this district for thirty years, building warehouses, stores and dwellings, and putting traffic bridges over rivers. Later he served as inspector in the Peace River and Athabasca districts, and as manager of Lake Huron and then Lake Superior district until 1914, when he was placed in charge of all eastern districts with headquarters at Winnipeg and Montreal. In 1916 he retired from the service. The sailing ship is no longer the medium of communication with Hudson Bay, the railway has taken the place of many of the old-time trails, and now the airplane has become familiar in some sections once given over to the fur trader and the Indian. There are still untraversed fields of vast extent, but the conditions have changed so much that Mr. McKenzie's narrative has the flavor of old romance.

The New York Evening Post wants the United States against ill-considered tariff measures such as the Fordney bill. It says:

"At the close of the year it is permissible to sound a warning against the chief danger in the present business situation. It is that ill-considered and ill-founded government interference, to appease special interests, may run counter to natural economic tendencies. Business itself must find the level upon which it can operate naturally and easily. Artificial attempts to bolster up prices, whether by extension of government credit or by the erection of tariff walls, simply mean a return to inflation, a loss of foreign markets, and a prolongation of depression."

The question of the height of the new railway bridge is still unsettled. Ample reasons were given, yesterday, for raising it to the height of the highway bridge, and all that stands in the way is reluctance of the railway company to change its plans and the question of the cost. Those who were not well-informed on the subject are enabled by yesterday's discussion to understand more clearly the plea for unrestricted navigation of the falls and for a subway at the end of Douglas avenue.

New York World:—"Unfortunately, under the rule of Bolshevism, Russia is destitute and starving, physically prostrate and morally bankrupt, and wholly incapable, under the conditions its rulers have created, of exploiting the rich resources nature has placed at its disposal. Certainly, until good faith and honor and straight dealing are recognized in high quarters at Moscow as primary requirements, co-operation, mutually advantageous or otherwise, cannot be looked for from the United States."

There will be a lively contest in West Peterboro for a seat in parliament. The farmers and Union government each have a candidate, and Mr. J. H. Burnham, who resigned as a protest against Union government, will run as a straight Conservative. The farmer should win, although it is announced that Premier Meighen will take a hand in the campaign.

The enrolment for evening vocational classes in this city is fairly large, but would be very much larger if the city had a properly equipped building where all the classes could be accommodated, and which would be entirely devoted to vocational training work. The city needs a vocational high school building.

If Mrs. Ralph Smith should be chosen speaker of the British Columbia legislature the debates will no doubt be marked by greater decorum than sometimes marks political discussion. Mrs. Smith's success in public life is a complete justification for the plea that women should sit in legislative halls.

Hon. Manning Doherty, minister of agriculture in Ontario says that applications from farmers for help are coming in regularly from almost every county in the province. Farmers there are offering from \$25 a month for inexperienced men to \$40 for experienced hands, with board and lodging.

Hon. J. E. Michaud, member without portfolio in the Foster government, is a young man who has had experience in civil government, and has been in the legislature since 1917. His past career indicates continued usefulness and success in public life.

The Toronto Telegram makes this mild allusion to Mr. McBride, defeated candidate for the mayoralty:—"No man can be elected mayor of Toronto whose brains are so near his feet that he gets a headache when his horns are stepped on."

St. John friends will extend congratulations to Mrs. Hamilton on her re-election as a member of the Toronto city council. Another lady, Mrs. Sidney Small was also elected.

Unemployment is increasing both in the Mother Country and the United States. The winter will be one of hardship, but the spring should bring improved conditions.

De Valera still demands an Irish republic. De Valera is one of the real enemies of Ireland.

### PAINTED FACES.

The young girls paint their faces, and look like works of art; they frequent public places, and nearly break my heart. Old girls have ample reason for art work, well designed; they look quite out of season unless they're kalsomined. But young girls should be tinted by Nature's tender care; paint never should be hinted by any hues they wear. I wonder if they figure on fooling any gent, as they apply with vigor the colors neatly blent? The gent may be a joker, pretending he is blind, but he knows yellow ochre, red lead of every kind; and when he sees a maiden go blushing through the grad with costly pigments laden, he isn't fooled so badly. A coat of paint and powder applied with lavish hands will make a girl look looser than modesty demands. And all the learned physicians agree received a purse of money from the women of Grand Harbor congregation, while Pastor Morse was remembered at a Christmas concert and Christmas tree held at Seal Cove on Christmas Eve with a purse of money and some individual gifts.

### CANADA—EAST AND WEST

Domestic Happenings of Other Days.

### THE PORPOISE.

Fishermen who add many millions of dollars annually to the wealth of Canada, have many elements with which to contend during their precarious days. Wind and wave are those that injure most; how many hundreds of thousands of dollars have been lost in hurricanes that swept little boats to ruin and wiped out all the fishing gear set. The sea has claimed, too, its terrible toll of human life annually since man began his attempt to take from it a fraction of its wealth.

But the cod fisherman of the Atlantic coast have frequently another element to deal with; that is the arrival of the deep sea porpoise when the fish are running freely. For instance, in 1919 the cod fishers were doing well with a run of fish in sight when the dreaded porpoises appeared between the boats and the fish. The porpoises, which are about the size of a small boat, are very fast and can jump out of the water and land on the beach. They are very destructive to the fish and the fishers. The porpoises are very common in the waters of the Atlantic coast and are a great nuisance to the fishers. They are very fast and can jump out of the water and land on the beach. They are very destructive to the fish and the fishers. The porpoises are very common in the waters of the Atlantic coast and are a great nuisance to the fishers. ### PATIENCE.

(Rev. George Scott) Patience, but a little space. You shall see the winter's snow And the frosty winds give place To the genial spring time glow.

Just a few more weeks of cold, Then the cold shall flee away, All the tender buds unfold, When the world is fresh and gay.

Just a few more gloomy days, Sloppy with the rain and sleet, Tender hopes and dreams are dead, Till our patience is complete.

Patience, but a little while, Now the northern streamers dance, Over the sunlit's pleasant smile, O'er the meadow's green expanse.

Just a few more weeks and then, Shall your faith be lost in sight, You shall surely taste again, Fruitage of a dear delight.

### IN LIGHTER VEIN.

Nothing New. "How was the movie?" "Rather dull," said the jaded patron. "No thrill, eh?" "No thrill, sir," replied the heroine jumped from a train travelling sixty miles an hour to an airplane, was carried over a precipice in a motor car and was left standing on the deck of a submarine when it submerged, but there wasn't anything you could really call exciting."

Almost Out. Caller—"Is Mrs. Jones at home?" Cook-General—"She is, but she ain't ready in a fit state to see anybody. She's just been givin' me notice."

Careless of Him. Mother—"Poor Jimmy is so unfortunate." Caller—"How's that?" Mother—"During the track meet he broke on the deck of the record books they had in college."

The Modern Way. "An advertisement is the picture of a pretty girl eating, wearing, holding or driving something that somebody wants to sell."

Can Such Things Be? With a wild shriek the train dashed through the country station without pausing. "I say, porter," cried a startled passenger, standing at the station, "isn't that the 415 to Newton? Why didn't it stop here?"

The porter shook his head. "It don't stop here now, sir," he explained. "The lady engine driver has quarrelled with our station mistress."

His Part. Ann—"Just think! Ed is on the football team." Mary—"That's fine. What is he—half-back or quarter-back?" Ann—"He's a drawback. Charlie Bangs says he's the greatest drawback the team ever had."

ELECTROCUTED IN BATH. Woman Turned Switch on Electric Heater.

Toronto, Jan. 6.—Mrs. Ada Batten, 48 years of age, was electrocuted in the bathroom of her home here this evening. Her husband found her lying over a small electric stove, dead, with her feet touching the water in the bathtub. Apparently Mrs. Batten, while standing in the water, had reached up and turned the switch connecting the electric heater, thus causing a short-circuit and being electrocuted.

### NEWS NOTES ABOUT PROMINENT BAPTISTS

(Maritime Baptist.)

Rev. J. E. Gosline, pastor of the Ormoco field, with Mrs. Gosline, spent the Christmas season with relatives at Sussex.

Rev. E. P. Calder has been laid aside from work for several weeks. On December 26 he was again able to fill his appointments.

Pastor R. Osgood Morse and Mrs. Morse were kindly remembered by the people at Christmas time. Mrs. Morse has been laid aside by illness for five or six weeks, but hoped to resume his active duties by this time.

Dr. J. W. Brown, now pastor of the Bethel Baptist church of Fort Fairfield, Me., is publishing a local church paper which he has named The Baptist Guest. While at Middle Sackville he issued The Maritime Baptist.

We are glad to note that the custom of sending Christmas boxes to Home Mission pastors is becoming more general. The Women's Missionary Society of the German street church, St. John, has for several years thus provided for the needs of remote parishes. This year a generous box, accompanied by a gift of \$35 in cash from the Willing Workers, was sent to the parsonage at McKee's Mills, N. B., by the pastor, Lie. A. A. MacLeod, writes in warmest terms of appreciation.

The death of Dr. A. J. Rowland of Philadelphia, removes one whose name was almost a household word among Baptists. For many years he had been connected with the American Baptist Publication Society. He was also deeply interested in all other departments of the work of the denomination.

We have read with much interest the drama entitled "Acadia," which was presented by the students at Wolfville on October 8th. The author is Mrs. Mary K. Ingraham, talented librarian of Acadia College.

There is mourning in the West End church, Halifax. Its energetic pastor, Rev. F. Bolster, has been induced to accept a call to the pastorate of the Nassau street church, Winnipeg.

Rev. F. Bolster, who has been in the Nassau street church, Winnipeg, is found the name of Dr. John Clifford, starward Non-conformist and doughty leader of English Baptists. Upon him has been bestowed a knighthood.

### MORNING NEWS OVER THE WIRES

Hon. F. J. Sweeney, Rev. Father Savage, Edward Chisholm, ex-Conductor Watts, Rev. A. D. Cormier, all of Moncton and John L. Leger of Bathurst left Moncton today for Halifax, where they will sail for the West Indies. They expect to be absent for six weeks and will visit Bermuda, Barbadoes, St. Kitt's, Demerara, St. Lucia, and other ports.

Alton Horsman, a C. N. R. employee of Berry's Mills, was run over last evening near his home by a trolley. He suffered an injured ankle and badly lacerated leg.

A delegation representing the New Brunswick Teachers' Association, composed of Dr. B. C. Foster of Fredericton and W. J. S. Myles of St. John, appeared before the provincial government at Fredericton yesterday and made a request that the limit of teachers' pensions be increased from \$400 to \$600, and that the minimum be \$200. Dr. W. S. Carter, chief superintendent of education, accompanied the delegation.

Louis K. King, a native of York county, who at one time conducted outdoor religious services here, which were stopped by the police to prevent religious strife, was called as a witness in a murder case at Monro, Mich. This was a case of Albert B. Sherman, a deputy sheriff on trial for alleged murder.

Burpee Bishop, the youngest son of Mr. and Mrs. W. H. Bishop of Hillsboro, was killed yesterday while coasting down a hill. He crashed into an automobile and died before medical aid reached him. He is survived by his parents, two sisters and two brothers.

John Smith, alias Eric Breining, was arrested in Halifax yesterday charged with larceny and with causing the elopement of a woman. It is said that he and the woman, who was the sister of a daughter of the latter lived in Montreal for a time and later in Amherst; that they left the daughter and the father recovered her. In the meantime Breining and the woman disappeared from Amherst and soon after the woman, Mrs. Crawford, left him and returned to her husband.

The Burnt Church murder case was continued before Judge Barry at New-castle yesterday. The cross-examination of Peter Dedam, brother of the murdered man, by George McDade, counsel for the defense, occupied considerable time. Charles Mitchell, one of the two accused, was further examined by Hon. J. P. Byrne. Dr. Bell gave the finding of the post mortem held on the body of John Dedam. He said the wound was sufficient to cause death. The first witness for the defense was John Genish. After taking some evidence the court adjourned to this morning.

George Cameron, charged with bigamy, has been sent up for trial following his preliminary examination in the Moncton police court. A peculiar feature of the case is that though Cameron was endowed with two wives he did not live with either of them, and had never

### Repairs leaks in Heating Systems Quickly and Permanently

Se-ment-ol is a "chemical repairman" for leaks in boilers and heating systems. Poured into the boiler it mixes instantly with the hot water. The water circulating through the system carries Se-ment-ol to every place in the boiler or line. When Se-ment-ol reaches the leak and strikes the air it congeals, making a firm and permanent repair. It is not even necessary to know where the leak is. Se-ment-ol will find the leak and fix it.

Absolutely harmless. Will not clog or stop the air valves, and has no bad odor.

## ST. JOHN'S GREATEST MERCANTILE EVENT

Oak Hall's 82nd Anniversary Sale Well Started.

Oak Hall's big mid-winter selling event, which is St. John's greatest mercantile event, is now well under way and it only needs a trip through Oak Hall for one to realize the stupendous effort being put forth to make this sale the greatest in the history of this progressive firm.

One realizes immediately that the reductions on the regular high quality lines of wearing apparel handled by this firm are unusually drastic, that every line is down below what spring prices will be, that many are down below even the cost of production, and, furthermore, it is quite evident that Oak Hall have made many new purchases especially for this event and at such low prices that the bargains offered in these lines are really very attractive. Oak Hall also have several lines of merchandise on order that have not as yet arrived, so from day to day new lines will be added that will make this event of unusual interest.

Judging by the crowds that have attended Oak Hall's big event, its success is fully assured, more particularly as people come to realize the wonderful values that are being offered. Oak Hall's advertisement in this paper will give some idea of the prices, but it really requires a visit to Oak Hall to fully appreciate the values at these prices.

## HALIFAX EXPECTS HYDRO BY JUNE

Power Will Cost Approximately One Cent a Kilowatt Hour.

Halifax, N. S., Jan. 6.—Hydro-electric power in sufficient quantity to light Halifax, run her tram cars and serve a good many of the manufacturing plants of the city will be available here next June, if there is no delay in delivery of machinery and equipment, according to H. K. Smith, consulting engineer of the Nova Scotia Power Commission. Brought fifteen miles overhead from the plant now under construction by the commission at St. Margaret's Bay, Halifax county, the power will cost approximately one cent a kilowatt hour, a price which compares very favorably with that paid in Ontario for the energy developed by the great hydro-electric system in that province. The event will mark the partial completion of the first important development of hydro electric power by

The Nova Scotia Commission, ushering in what is expected to be a revolution

ary era in the industrial life of the province.

Up to a short time ago it was thought that the water powers of Nova Scotia, which are separately small, would not be able to supply a sufficient head of water for hydro-electric systems capable of serving the power needs of the province. But engineering ingenuity having by a system of storage and intake dams overcome this difficulty, the Nova Scotia Power Commission is in a position to undertake the establishment of plants in various parts of the province and there are engineers who foresee the time when cheap energy, gathered from her well-distributed waterways, will be carried all over Nova Scotia. Such a province-wide development, even if only partially realized, would mean a tremendous advance for the blue nose peninsula, with her rich natural resources ready to hand for manufacture and her favorable situation with respect to ocean trade routes of the Atlantic.

The St. Margaret's Bay development of hydro-electric power will not be the largest in the province, although ultimately some fifteen thousand horse-power should be available there. A develop-

ment is proposed on the Fast River, Sheet Harbor, of some twenty-five thousand horse power which would be conveyed to New Glasgow, Pictou county.

The West River, Sheet Harbor, is a possible site for development also.

A plant at present in operation on the Mushamash River supplies Lunenburg with light, but the commission is taking it over from its owners and plans an extension of its capacity and usefulness in order to supply both light and power to

Lunenburg, Mahone and other places in that district.

The commission proposes the improvement of the lighting and power condition of Bridgetown, Lunenburg and the Annapolis county immediately by taking over an already existent plant near Bridgetown and finally by the construction of a power plant capable of developing some seven thousand five hundred horse-power on Bear River.

Besides the Nova Scotia Power Commission there are private concerns constructing somewhat less ambitious developments in various parts of the province.

### ST. VINCENT'S ALUMNAE

St. Vincent's Alumnae held its first social gathering of the season in the society's rooms in the new school building last night and had a thoroughly delightful time. A new piano added to the enjoyment of the fine musical programme and after refreshments were served the members enjoyed a happy reunion. Miss Annie Gosnell, the president, was in the chair and there was a very large attendance.

On behalf of the staff of the General Hospital, Dr. W. W. White and Dr. L. M. Curran submitted to the board of hospital commissioners a scheme for the improvement of the hospital, at a cost of \$500,000. The scheme provided for the alteration of the main building so that it should give accommodation to ward patients and maternity cases. After the report of the staff containing the recommendation was read, while spokes of the needle of the committee and maternity cases and Dr. Curran of an enlarged out-patient department. J. King Kelly said that a set of plans calling for an improvement of the hospital accommodation had been submitted to the municipal council five years ago. The report of the finance committee recommended a plan for raising money for the hospital extension by means of a campaign.

The superintendent, Dr. H. Headden, submitted a report in which was announced that Miss Mary Chiles Scott of Lexington, Ky., had been appointed superintendent of nurses and took up her duties on January 1. Miss Dorothy Huntin has been appointed director and will enter upon her duties on January 8. On motion it was agreed that \$2,500 should be added to estimates for an emergency lighting system.

The meeting was presided over by M. E. Agar and the other commissioners present were J. King Kelly, William Emerson, Frank Flewelling, J. L. O'Brien, Dr. G. R. J. Crawford and Alexander McMillan.

CHARGED WITH DYNAMITING A VIRGINIA MINE

Fayetteville, W. Va., Jan. 6.—Four men have been run down by bloodhounds and arrested by the state police for complicity in the dynamiting on Tuesday night of a mine incline railway of the Willard Branch Coal Co. at Willard. Branch, according to information received here last night.

The Willard's Branch Coal Co., in September, 1919, decided to operate its mines under an open shop policy. Since that time its power houses have been fired upon and a quantity of dynamite was exploded near the mouth of a mine. The explosion Tuesday night was the third attack on the company's property since September, 1919.

### Our Annual Property Sale

The present month affords the  
last opportunity to purchase prop-  
erty for occupancy May 1st. Con-  
sequently we have made it a prac-  
tice during the ten years that we  
have been in business to make pre-  
parations for the January sale, se-  
lecting during the preceding weeks  
properties that we consider ex-  
ceptional in price or particularly  
desirable as to location.

After February 1st it becomes  
difficult, if not impossible to pur-  
chase for occupancy in the May  
month. This should not be con-  
fused with possession as that, of  
course is given immediately the  
transfer is made.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JANUARY 6, 1921

## OPERATION OF MERCHANT MARINE

Cost of Canadian Ships Much  
Below That of Americans  
and British.

(Special to The Times.)

Ottawa, Ont., Jan. 6.—"Taking the American cost of operating its merchant marine, which is by far the highest, as representing 100 per cent, the British is 54 per cent, the Canadian 34 per cent, and the Japanese 17 per cent. It is apparent that the American merchant marine is operated under a great disadvantage as compared with the Japanese, and to a lesser extent with the British and Canadian. The Canadian operating costs are twenty per cent. less than the British, sixty-six per cent. less than the American, but nearly double those of the Japanese."

This excerpt from the report of the Department of Marine and Fisheries just issued for the year 1918-20 indicates the chances in world competition of Canadian vessels as seen by the deputy minister of marine and fisheries, Mr. Johnston. He adds that it is altogether likely when the period of competition sets in, that America will lower her cost of operation as otherwise she will be heavily handicapped.

The monthly cost of wages and board on a merchant ship of similar tonnage and dimensions for the various countries was \$6,711.10 for American vessels, \$3,645.09 on British vessels, \$2,308.50 on Canadian vessels, and \$1,124.50 on Japanese vessels. The master of a Canadian ship would get \$250 a month, while in Japanese ships the pay of the master would be \$100 monthly, and of the seaman \$5.

One most interesting section of the report relates how Germany captured the bulk of the Atlantic emigrant traffic by placing control stations on her borders under management of officials of the Hamburg America and North German Lloyd Companies to apply German government regulations so as to turn back emigrants from the east who did not have, among other qualifications, a proper contract ticket for some steamship line as well as a railway ticket to the port of embarkation and 400 marks in money. If he was sailing by a German ship the last regulation was not enforced, but if by another line an emigrant would be sent back whether he met all regulations or not.

## SYLVIA LOSES CASE

London, Jan. 5.—An appeal by Sylvia Pankhurst, from a sentence to six months imprisonment for attempting to cause sedition in the navy, was dismissed with costs in the Guildhall court today.

During the twelve months ending Oct. 31, 1920, there were 832 deaths in the city, 422 males and 410 females. This is considerably fewer than in 1919, when there were 921 deaths and 1918 when there were 869. The rate per thousand is 18.58, as compared with 18.35 last year.

## Those Nasty Little Pimples That Come On The Face Are Caused By Bad Blood

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles caused wholly by bad blood. Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost, and the possessor of the "pimples face" rendered unhappy for years.

Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends. There is an effective remedy for these facial defects and that is Burdock Blood Bitters, the old reliable medicine that has been on the market for over 40 years.

It drives out all the impurities from the blood, and leaves the complexion clear and healthy. Mrs. James Williams, Waterford, Ont., writes:—"My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them and finally thought there was no relief. A friend dropped in one day and told me I should try Burdock Blood Bitters. I did so and used three bottles, and found the pimples were all disappearing from my face, and now I have a clear complexion again."

B. B. B. is manufactured only by the T. Milburn Co., Limited, Toronto, Ont.

## EPIDEMIC OF COLDS SWEEPING CANADA

Question as to Whether Disease is Contagious Being Discussed.

The wave of colds which is now reported from all parts of Canada, has raised the old question as to whether colds are contagious. Many people firmly believe that they are. At any rate, it is advisable that close contact with persons having colds should be avoided. If you have a cold or there is a case of cold in your family, get a box of Grip-Fix from your druggist. It is a preparation which, after a trial of ten years, stands unequalled for the prompt treatment of colds. It will relieve even a bad cold in a night and a case of grippe in 96 hours. It is sold in capsule form and the ingredients are plainly stated on each box. They are just the drugs usually used to treat colds, Cornish in capsule form, they may be easily taken, and act most promptly. Try Grip-Fix for that cold. It works wonders. On sale at all druggists—5 cents per box.

## ENGINEER SUFFERED FORTY LONG YEARS

Well Known Sydney Citizen  
Could Barely Eat Enough  
to Sustain Life, He Says—  
Tanlac Restores Health.

"I not only was relieved after forty years suffering but also gained twenty pounds in weight and am still gaining since taking Tanlac," said William D. Jackson, Cornish Town Road, Sydney, N.S. Mr. Jackson, a locomotive engineer at the roundhouse of the Dominion Steel Co. for years.

"For many years I didn't enjoy a single meal, some days I didn't eat at all and never ate except as necessary to sustain life. Nine times out of ten what I ate nauseated me in I could not retain it on my stomach. I had awful pains across the small of my back and although my work was light I found great difficulty in sticking to the job."

"Tanlac did the work for me. It took hold of me right from the start, gave me an appetite, toned up my stomach and freed me of indigestion. I feel so fine now, I tell the young fellows at the roundhouse I am as young as any of them and that is exactly the way I feel."

Nearly everybody in Sydney knows me and every day some one tells me I look like a different man from what I was. Tanlac is certainly a wonderful medicine and I like to spread the news about it. I know if it helped me it will help others. It stands out and I will be better than any other medicine I have ever known or heard of."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; C. V. Parsons, Highland; John F. Meagher, Debec; O. D. Hanson, Lepraux; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Adv't.)

## SAYS DILLON AND REDMOND SAVED CARSON

Macleodfield, Eng., Dec. 13.—(Associated Press Correspondence)—The Irish Nationalist leaders John Dillon and John Redmond, saved Sir Edward Carson, Unionist advocate, from prosecution for preaching rebellion in 1914.

They saved Carson, who was then Financial Secretary to the Treasury. Mr. MacKerran in addressing an audience here blamed Sir Edward for beginning the resistance to the crown which led up to the present situation in Ireland. One of his hearers asked why the Ulster leader was not then prosecuted and Mr. MacKerran replied:

"The cabinet was ready to do so, but John Redmond and John Dillon, acting through Mr. Lloyd George, persuaded the cabinet not to take the step. They argued that in three months the Home Rule Bill would become law, and they would then be responsible for the government of Ireland. They asked that they should be allowed to undertake the government of Ireland without being hampered by any feeling created beforehand by the prosecution of Sir Edward. They thought they could overcome what they regarded as the blague (humbug) of the Ulster movement."

"They may have been right or wrong," concluded the speaker, "but the war broke out before the test came."

## MORE THAN TWO MILLIONS IDLE IN THE STATES

(Canadian Press Despatch.)

Washington, Jan. 5.—A total of 2,235,000 workers are out of employment in the United States, according to a survey of the industrial situation made by Clint C. Houston for the current issue of Labor, official organ of the Plumb Plan League.

Mr. Houston asserts that his inquiry disclosed the greatest industrial slump since the money panic of 1907.

## MONEY TIGHT IN AUSTRALIA

(Canadian Press Despatch.)

Ottawa, Ont., Jan. 5.—Owing to the prevailing stringent financial conditions in Australia, cancellation of orders placed with Canada and other overseas manufacturers have been freely exercised by Australian buyers, according to the latest advice received from D. H. Ross, Canadian trade commissioner at Melbourne. In some quarters, he says, an endeavor has been made to repudiate shipments in transit, thus demonstrating the acute financial stringency.

The cancellations are general and are not confined to any special line of merchandise.

## RELIGIOUS SLAIN BY MILITARY IN RAID IN CORK

Cork, Jan. 5.—The Rev. Brother Finbarr Darcy belonging to the Teyford Abbey Nursing home in London, was shot dead in the course of a military raid on the Imperial Hotel here early this morning. He was attempting to escape through a window.

## SACKVILLE HAD GOOD YEAR.

(Sackville Post.)

The old year in Sackville was a fairly prosperous one for every class in the community. Everybody that wanted to work was busy; there was scarcely any unemployment. Our industries were more than usually busy until practically the close of the year. This is true of the foundries, the harness and boot and shoe factories, the concrete works, the boot-making factory, and in fact of every one of Sackville's industries. Just now things are quiet but in a few weeks it is expected everything will be going much as usual, and that means that nearly everybody will be at work again.

Among the retail merchants there is an excellent feeling. The holiday trade seems to have been up to the average, and, taking the year as a whole, it has been one of the best in the history of the retail business in this town. It is true people have of late been buying a little more carefully than usual, but that was to be expected and in the end it will doubtless be a good thing for all concerned. There has not been a business failure in the town during the year, and it is very rarely one hears the complaint of hard times, all of which goes to show that Sackville is not a bad business town after all.

In the building line the season just closed was fairly good also. There was no great number of new buildings, but several new houses were erected, and town and several others just outside the town limits. A large amount of general repair work has been going on since early spring. Mr. Allison has just completed a large wing at a cost of fifty or sixty thousand dollars. A large wing has also been added to the Central School building, which would seem to prove that our school population is increasing rather rapidly.

## AGAIN NOTIFIED ONLY SON DIED IN ACTION

Malden Parents Kept Upset  
By War Department.

Malden, Jan. 6.—Continued notifications from the war department of the death of their son in action are being received by Mr. and Mrs. James L. McLaughlin of 260 Washington street, and they are so upset with each announcement that they feel it is somewhat of a persecution.

Soon after the armistice, notice was received that their only son, Private Frederick N. McLaughlin, had made the supreme sacrifice in the Meuse-Argonne Nov. 8, 1918. About every few months since then a telegram or official notice has come from the war department, announcing the death of Private McLaughlin on Nov. 9, but not stating the year.

The latest word came this week, saying: "Deeply regret to inform you that Private Frederick N. McLaughlin, infantry, is officially reported killed in action, Nov. 9, 1918. A true copy, G. L. Gillaway, Jr., 1st lieutenant, 16th Infantry."

The McLaughlins have written the war department, acknowledging the receipt of word of their son's death, but the authorities continue to ask for additional information as to how he met his death, but none has been forthcoming.

## COSMOPOLITAN ASSORTMENT OF STOWAWAYS

Hamburg, Dec. 19.—(Associated Press Correspondence)—Stowaways from virtually every country in the world were found aboard the Spanish steamer Mar del Norte before it left here for the United States. The captain had to call the port authorities to help him clear his ship of the unusual number who were seeking an unpaid passage to America.

Among the stowaways were Englishmen, Americans, Australians, Mexicans, Africans, Chinese and Indians, as well as a number of Germans. All declared they wanted to go to the United States to find employment.

## LOCKS WIFE UP TO MAKE HER LOVE HIM

May Says He Took President  
Wilson's Advice After Consulting  
"Higher Pneuma."

Chicago, Jan. 6.—As a result of an imprisonment of 800 days in her home at 4801 McCook avenue, East Chicago, Mrs. John Novak is seriously ill in a hospital at Crown Point. The strange ordeal was imposed by her husband. Her two small children were imprisoned with her. No one was permitted to see them. Novak first built a ten-foot around his two-story frame residence. He then boarded and barricaded all the windows and fitted doors and gates with heavy padlocks.

Neighbors did not guess the facts until Novak was injured and went to a hospital, leaving Mrs. Novak and the children still imprisoned. The police battered their way in and rescued the prisoners who were emaciated and with no subsistence except water.

Novak, questioned as to his action, said he believed he was entirely within his rights as a husband. "If a man can't discipline his wife, who can?" he asked. "We have been married nine years. About two months ago I became convinced her affection was waning. I entered into communication with the 'Higher Pneuma.' A voice from the ocean void advised me to go to Washington and talk with President Wilson. I did."

"John," said the president, there is only one thing to do. Lock her up. Put her in solitary and maybe she will see the light. So then I built the fence and boarded up the windows."

## Your Pay Envelope

HOW about it? Are you able to keep up to your prescribed task? Is the boss watching your time sheet? Has he reason to think you are slipping back?

The efforts put forth to keep up to the new scale of work in conjunction with "high pressure" mode of life these days soon tell on the strongest system, shatters the nerves and weakens the heart.

Thousands are finding life a burden and others an early grave. The strain on the system causes palpitation of the heart, nervous prostration, sleeplessness, faint and dizzy spells.

Milburn's Heart and Nerve Pills have helped hundreds just in such a condition by making rich new blood, strengthening and regulating the heart, renewing the nerve centres and infusing new life and energy into the system.

This remedy builds up and maintains a healthy, vigorous constitution, according to the testimony of hundreds who have used them.

Mr. Alfred Arsenault, Lot No. 6, P.E.I., writes:—"I was very nervous and run-down, and was so bad I could not sleep at night. I used two boxes of Milburn's Heart and Nerve Pills, and I was relieved. That was one year ago, and I have been well ever since."

## WOLFE LETTERS TOO EXPENSIVE

Canadian Archives Department Out of the Bidding for That Reason.

(Special to The Times.)

Ottawa, Ont., Jan. 6.—On account of the high prices asked for letters of General Wolfe written to General Monckton, one of Wolfe's brigadiers when taking Quebec, the Canadian National Archives, Dr. Doughty, dominion archivist, tried to get those letters for Canada after examining them, but the price asked by Mr. Monckton was \$20,000. Some Americans agreed to participate in the buying, the documents later to be divided. They also have withdrawn because of the price. The dominion archives already have the original letter of Wolfe referring to his intentions for the capture of affairs if his army proved successful.

Disguised as Girl.  
Played in Mixed Golf Match at Pinehurst.

Pinehurst, N. C., Jan. 6.—A sensational and laughable discomfiture attended the playing of a mixed Scotch sixsome match on which three well known golfers were respectively paired with women partners at Pinehurst. James C. Ward, of Kansas City, Mo., state champion, was paired with Miss Martha Thorne of Fort Wayne, C. G. Frost, of Auburn-dale had Miss Clara Metcalfe, of Providence as a partner. A. Lucien Walker, Jr., winner of last week's mid-winter tournament, played with Miss Eleanor Fox, a tall and dashing brunette, whom nobody had seen here before, and who started the excitement by driving about 200 yards from the first hole.  
When the unknown Miss Fox lifted an iron shot for another 200 yards on the second fairway, the effort shook up her team of shaver, her luxurious tresses fell with it and Miss Fox stood revealed as William E. Donohue, winner of the mid-winter qualifying medal.  
Walker and his fair partner were promptly disqualified for conspiracy, misrepresentation, failure to properly register at the Country Club, and on several counts, and the match broke up in disorder.

Major B. Smith, officer commanding No. 1 company of the 7th machine gun brigade, has secured Regimental-Sergeant-Major A. Wood, V. C., D. C. M., as his quartermaster-sergeant.

## A GOLD WATCH FOR FAITHFUL SERVICE

Harry Scott Honored by Play-  
grounds Executive—Fine  
Programme at Boys' Club.

The feature of the annual treat of the St. John Boys' Club by the executive of the Playgrounds Association last evening was the presentation to Harry Scott by the members of the executive of a gold watch, suitably inscribed and with his monogram on the back of the case. The director, Miss Heffer, and many of the boys at their own request joined in the tribute.  
The presentation was made by A. M. Belding, who engaged Mr. Scott's services as caretaker of the Boys' Club eight years ago, and had worked with him ever since. Mr. Belding recalled the fact that he first became well acquainted with Mr. Scott about a dozen years ago when the old Every Day Club was making a children's playground beyond the Marsh bridge, and Mr. Scott aided in the work. During the time he had been caretaker of the Boys' Club in winter and with the boys on the playgrounds in the summer evenings, he had seen many grow to young manhood, and during the war many of these went overseas, enlisting as soon as they could get past the medical inspection. Mr. Scott had done splendid work and the executive and the boys joined in giving him a tribute of their regard.  
Mr. Scott, who had thought he was

about to be awarded a prize for his part in a pie-eating contest with some of the boys, was wholly surprised, but warmly expressed his thanks. He testified to the good in the boys of the club, saying that of the many hundreds who had been active members in the last eight years he knew of only four who turned out badly.

The annual treat last evening was a notable event. There was a great Christmas tree, and it and the hall had been decorated by boys under the direction of Miss Heffer and Mrs. A. M. Belding, the latter being chairman of the refreshment committee. About one hundred and thirty boys were present last evening, and in song and whistling choruses as well as in other ways provided most of the entertainment.

W. K. Haley, president of the Playgrounds Association, was chairman, and Mrs. W. C. Good played the piano. Judge Ritchie gave the boys a short address, complimenting them on the fine order maintained and the growing success of the club, which he had watched since its infancy. Captain A. J. Mulcahy extended New Year greetings to the boys and told them a very interesting story about whale-fishing.  
At the beginning of the programme the boys sang Oh Canada, followed by a song of greeting by the club's carol singers. Miss Heffer conducted an Indian club drill in which Arthur Fishwick acted as drum major and William Guitard second. The brothers Comeau sang a duet, with chorus by the boys. Master Pearl gave a reading, and Peter Murray, wrestling instructor, sang My Adeline, with chorus by some of the boys. There were two exciting wrestling matches, by William Le Blanc and Gordon Gibbon,

and Edward Parren and Instructor Murray. First and second prizes in a crackering contest were won by Ronald McCann and Louis Sheekter. Joseph Wall won the chop stick contest, and Lemuel Blais the pie-eating competition. Some of these contests afforded no end of fun. A strong committee of ladies served coffee, sandwiches and doughnuts, and after the National Anthem had been sung the boys filed out, and as each passed the Christmas tree he secured a bag containing candy, nuts and a big apple.

In addition to those already named the members of the Playgrounds executive present were Mrs. T. N. Vincent, Mrs. J. E. Secord, A. W. Covey, C. H. Stevens, R. E. Armstrong and David Ramsey. Others present included Mrs. J. S. Plagford, Mrs. H. W. Belding, Mrs. E. V. Morrow, Mrs. Parren, Mrs. Pearl, Miss Vincent, Miss Berwick and Miss McIntyre.

## QUESTIONS THE STORY TOLD BY SOLDIER HERE

Victoria G. W. V. A. President Wires About Sergeant-Major A. E. Wood.

A reply received in the city this morning reveals interest in the story told by the mayor and common council by Sergeant-Major A. E. Wood. A telegram from the Victoria branch of the G. W. V. A. B. C., to the branch of that organization in this city states that a Sergeant-Major A. E. Wood is alleged to have been wearing decorations to which he was not entitled and that he is a deserter from the 280th Battalion, C. E. F. No action by any of the officials has been taken but officials are investigating.

Sergeant-Major Wood was employed with the Imperial Theatre overhauling seats but it was said today that he worked only about a half a day and this morning did not show up. His story was canvassed by some military men on account of his military career, being spread over so many years when he is comparatively a young man. He was not asked to show his discharge papers for his story that he was a winner of the V. C. was regarded as making an investigation at that time unnecessary. The only matter taken into consideration was that he was desolate and every effort was made to secure employment. The telegram received today reads as follows: Secy. G. W. V. A. St. John, N. B.

Re press despatch this date re destitution of Sergt-Major A. E. Wood, in your city, man of this description and name sentenced on December 8, 1918, to two years for desertion 280th Battalion, C. E. F., Willows Camp, Victoria, also convicted same date for wearing wounded strips and decorations to which he is not entitled. Please investigate and advise if same man.

**CONTEMPT OF COURT ALLEGED**  
Motion for Attachment Granted Today in Greek Schooner Case.

A case of unusual interest has arisen out of the action pending in connection with the suit of Elias and Olga Loupias against the Greek schooner "Calmeris" in that a formal motion for attachment against Ben Nempton, manager of the Robinson Clothes, Limited, was granted this morning by Chief Justice Hazen for contempt of court. The motion was made by D. Mullin, K. C., counsel for the plaintiffs. He presented an affidavit to show that a subpoena had been issued calling upon Isaac Corber, an employ in the Robinson Clothes, Limited, to attend court as a witness in the admiralty suit. Corber had attended, but was wanted again. Telephone conversation had ensued and Nempton, it was alleged, had told that Corber would not be his job if he went to court and for the court to do what it liked about the matter.

## THE SUSSEX IS ASHORE AGAIN

Vessel Which Grounded on Navy Island Bar Believed to Be Same Ship Now Ashore in Panama Canal.

Panama, Jan. 6.—Port authorities at Cristobal announce the British steamer Sussex, which went ashore near the Atlantic entrance to the Panama Canal on Monday night, is not in a dangerous position, and will probably be moved on Saturday, following the completion of repairs to her forward hold. The Sussex was bound from St. John's, Nfld., to New Zealand without passengers.

It is thought by J. T. Knight & Co. that this is the same steamer which grounded on Navy Island Bar on Dec. 23, and for which they are local agents. In conversation with a Times reporter this morning J. T. Knight said that he had no word of the recent grounding, but as the Sussex was bound for New Zealand and was scheduled to go through the Panama Canal about this date, he presumed that the ship now in trouble was the Panama Canal about this date, he on the commencement of her voyage.

## Introducing Our Pre-Stock Taking Sale of Furniture!

Unnecessary to say that a sale at Everett's means much to those desiring to buy Furniture, and for two reasons:

First: is that Everett's prices in the ordinary way are much nearer original cost than might be generally the case—hence a discount from the first price is attractive.

Secondly: that Everett has refrained from a planned system of sale featuring—hence this event will be novel so far as it concerns Everett's customers.

Stock taking finds many odd pieces that are minus the remaining pieces of a set and it is these that are mainly affected by the sale.

Practically all departments are included—bedroom, kitchen, dining room, living room—etc.; so those who want to add an odd piece here and there are fortunate because of this sale; so also are those about to start a new home.

A trip through the store is advisable—and no obligation entailed in the trip.
